Ben Luke Receives Man of Year Award At Lions Banquet

Ben Luke, rural mail carrier here for more than a half century, received this community's coveted Citizen of the Year award Tuesday night at the special banquet and program sponsored by the Muenster Lions Club in the public school lunch room.

In behalf of the club J. B. Klement made the presentation of a plaque inscribed "1957 Citizen of the Year. Presented to Bernard Luke in recognition of 51 years of valued service as rural mail carrier, by Muenster Lions Club."

The award came as the climax in a series of surprises for the honoree. First he was impressed when escorted to a place of honor at the front table. Moments later he was pleased to notice on the program that an award from the U. S. Postal Service would be presented to him. Surprises stacked up later when he discovered that W. D. Barney of the Fort Worth district office of the postal service had come here especially to make the presentation and when the customary citation was accompanied by a personal letter of appreciation and commendation from Postmaster General Summerfield.

Then came a report from Arthur Endres that another award is on the way but failed to arrive in time for the program. It is a Safety Award from the National Safety Council in recognition of his perfect safety record since the council was organized more than a quarter of a century ago.

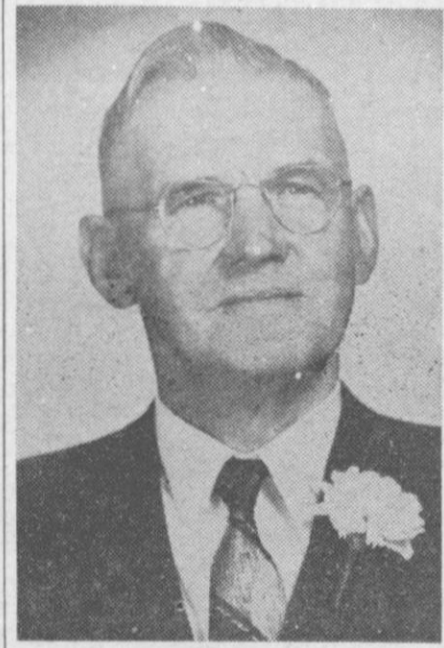

After all that . . . the Citizen of the Year award, and finally a (Continued on Page 8)

J. B. Klements Observe Golden Wedding At Church Ceremony and Reception

—Boyd and Breeding Photo

Fifty years of memories of a happy married life were recalled here Saturday when Mr. and Mrs. John B. Klement celebrated their golden wedding anniversary.

The Klements, so youthful and active, friends hardly believe they were married in 1908, are a young 73 and 75 years old.

Their wedding day a half century ago on Feb. 19 was one of the coldest in community history with thermometers standing at zero. The couple drove to church from the country in an open survey and were married in a church without heating facilities. That night everybody danced themselves warm at the wedding dance in a hall which was also without a stove.

Maggie Knabe and John Klement were married in a double wedding service. Father Bernard Zell officiated in the old Sacred Heart church. The other couple exchanging vows was her sister Minnie Knabe and Henry Vandevan. Both Mr. and Mrs. Vandevan died within a few years of each other not long after their marriage.

Attendants at the Klement wedding were her sister Miss Lizzie Knabe, now Mrs. Bill Becker, and his brother Joe Klement who lives in Spokane, Wash., and was not able to attend the anniversary. Mr. Beck-

er served as the attendant at the golden wedding.

Renewal of Vows
Father Christopher officiated at the anniversary mass in Sacred Heart church at 5 p.m. and presided for the renewal of the marriage vows. The church choir sang, Anthony Luke was at the organ, and Mrs. Rody Klement, a daughter-in-law, presented "Ave Maria" as a solo.
Candlelight and a profusion of acacia enhanced the sanctuary and the altar. The same golden flowers and hurricane lamps decorated the parish hall, where after the church service, more than 200 relatives and friends gathered for a reception and buffet supper honoring the goldenweds.

Mr. and Mrs. Klement have eight sons and one daughter, all of Muenster except one son, and all were present for the celebration. They have 33 grandchildren and two great-grandchildren (Continued on Page 8)

Burglars Get \$35 At Recreation Hall

A burglar or burglars who broke into John Eberhart's recreation hall Sunday night apparently netted about \$35 on the theft. That amount was Eberhart's estimate of cash taken from the cash register and marble machines.

Entrance to the place was gained by taking off a strip of molding and completely removing one of the side windows. The window was not broken.

Two New Business Ventures Launched

Two new business ventures were launched in Muenster this week . . . a bookkeeping and tax service and a barber shop.

The bookkeeping and tax service was set up with Mrs. Margaret Cunningham as owner and manager and Mrs. Sue Long as secretary. It is located upstairs in the Wolf Building, in the suite occupied by the Soil Conservation work unit several years ago. Mrs. Cunningham lives in Gainesville and Mrs. Long in Saint Jo. Both intend to drive here daily until the business is established.

The barber shop, operated by Joe Coursey, is in the recreation hall building, in the 300 block of North Main. Coursey is a former resident and a brother of John Coursey, who lives about five miles south of town. He had been working in Wichita Falls and Arlington for the past several years.

Meeting to Feature Use of Fertilizers

Farmers, and any others interested in fertilizers, are invited to a special program next Wednesday night, Feb. 26, at 7:30, in the Muenster High School auditorium.

The program, sponsored jointly by Tony's Seed Store and Glenn Hellman, will feature two films from the library of International Fertilizer Co. and a talk on the use of fertilizers by an agronomist representing the same company.

Added attractions for the meeting are door prizes and refreshments.

City Council Sets Date for Election

This year's city election, at which two aldermen will be named, will be held on Tuesday, April 1, according to the official order issued last Monday by the city council.

Positions to be filled are those now occupied by M. D. Kaderli and Dave Trachta. Trachta was appointed to complete the unexpired term of Jimmy Lehnertz, who, with Kaderli, was elected two years ago.

In its official statement the council also pointed out that the deadline for filing a candidacy is March 1, thirty days before the election date. Names filed after that cannot be printed on the election ballot.

Others on the city council, all with another year to serve, are Mayor Urban Endres and Aldermen Herbert Meurer, Rudy Hellman and J. A. Fisher.

Parochial Pupils Set for Snow White Operetta Sunday

Snow White and the Seven Dwarfs will come to life on the stage here Sunday night when a cast of more than 80 seventh and eighth graders of Sacred Heart school enact the popular fairy tale on the stage at Muenster High auditorium. Curtain time is 8 o'clock.

The 90-minute operetta, scheduled for presentation last Sunday was postponed one week because an epidemic of measles struck the young actors and actresses.

Final rehearsals this week show the youngsters in fine form, poised for the routine of acting, singing and dancing combined in the dramatization of the three-act extravaganza.

Sister Carmelita is in charge of direction assisted by Sister Jane Frances, Carol Heinscheid, seventh grader, plays the musical score.

Students and their teachers made all the stage properties from scrap materials and mothers of the children assisted in designing and sewing the costumes.

Altar Boys Enjoy Pre-Lenten Party

Sacred Heart home ec room was the scene of a Mardi Gras party Monday night for parish acolytes who have served at least 100 times at the altar. Twenty-five boys wearing hilarious costumes were present.

Each guest received a number as he arrived. If his number matched the one inside a balloon over the door, that boy would become king of the Mardi Gras.

The room was decorated with streamers in Mardi Gras colors of red, white, violet, yellow, green and blue, and multi-colored balloons.

The evening began at 7 with a scavenger hunt. Pat Knabe and Donald Hess were the winners and each received an altar boy pocket knife. Runners-up Robert Pels and Robert Hess were presented altar boy tie clasps as awards.

After returning from the hunt, the group enjoyed king size banana splits.

Then the balloon above the doorway was popped and number 13 was revealed. This matched the number held by David Hess and made him king of the Mardi Gras. He was escorted to a place of honor where he was crowned in a mock ceremony and presented a cloak and staff. A mock gift followed and after the gags were finished the king received a set of altar boy cuff links and a tie clasp.

In games of bunco, Pat Knabe was high scorer and received a gift-boxed altar boy pen and pencil set. Pie and drinks were next on the program, then more games.

SH Cagers Divide 2 Games in Dallas

Sacred Heart teams broke even again during the past weekend in their twin bill appearance at Dallas. The girls clobbered Hockaday and the boys were clobbered by St. Marks.

The Tigerettes added a few more percentage points to their fine season record by a neat 55-36 win over Hockaday. They took an early lead and rolled on steadily to the final count. Zimmerer with 22 and Bayer with 21 led the attack.

The encounter with the rangy and classy St. Mark's Lions was more of the same for the Tigers, except that this was more lop sided than usual. St. Marks romped away with an easy 80-35 score. Hartman led the Tiger effort with 14 points.

The coming week will see the end of this season's basketball at Sacred Heart. Thursday night, the 20th, the girls teams go to Dallas for tussles with the regulars and reserves of LGC Academy. Next Tuesday night boys and girls will close the season with Era here.

A Labor Department analysis says that industry's labor costs increased 61 per cent in the past 10 years as against only a 26 per cent increase in labor's average productivity. National Review points out that the difference "could be bridged only by price inflation."

The unit's recruiting drive will be centered on young men between 17 and 26 who face active duty obligations and men returning from active duty who must fulfill reserve requirements.

Young men who have no previous service duty may enlist in the Guard and put off taking six months active duty training until after high school graduation.

The six months active duty program is now required of National Guard Recruits.

Capt. Albert said the local unit has vacancies for tank crew members, drivers, cooks, boozooka men, and scout & rifle men. Capt. Albert will be happy to answer questions and interview those interested in the Guard's program and these vacancies.

Her elbow-length veil was caught to a tiara of seed pearls and sequins and her flowers, a purple-throated white orchid and stephanotis were carried atop a white prayer book, a gift from the groom.

Gladys borrowed a linen and lace handkerchief from her grandmother Mrs. Bob Yosten, and carried a crystal rosary, a gift from her great-aunts, Sister Ruperta and Sister Angelina of Grand Island, Neb.

Mrs. Cecil Neu of Valley View, sister of the groom, was the bride's matron of honor wearing a blue ballerina lace and net bouffant over satin with a matching picture hat. Her flowers were white carnations.

Don Wiesman of Farmington, N.M., brother of the bride, was best man. Leroy Wiesman of Gainesville and Alphonse Schmitz of Valley View ushered.

Dennis Koesler is Birthday Honoree

Dennis Koesler was the honoree Sunday and the occasion was a celebration in observance of his 12th birthday.

At noon a turkey dinner was served in the home of his grandmother Mrs. Alfons Koesler. Other family members were present including Mr. and Mrs. J. D. Caplinger and three sons of Sherman.

For a party in the afternoon 22 classmates and cousins joined Dennis at the home of his grandmother. Games and picture taking and kites for favors, along with birthday cake, ice cream and soda pop for refreshments, made it a gay event for the youngsters. Mrs. Norbert Koesler was hostess for her son's party. Guests brought a shower of gifts for the honoree.

Dennis enjoyed the party immensely from his new wheelchair. It is a gift from the Tarrant County Muscular Distrophy Chapter. In it he goes to classes at Sacred Heart school three days a week.

The young man looked at the high prices on the night club menu and said to his date, "What will you have, my plump doll?"

You Can't Do That!

That is what nearly everybody says on hearing about our wonderful and exclusive President's Protective Investment Plan. They don't see how it is possible to pay the full face amount of the contract plus return of all premium deposits in event of death during the depositing period.

If you are interested in the most modern and attractive contract on the market today, we will be very happy to give you a full explanation. No obligation.

Straight Talk

By Tom Anderson
 In Farm and Ranch Magazine
 "We do not believe in God, but that man is God." Ruthless, reckless Walter Reuther has been playing God ever since he made this statement in 1933, while lecturing under the auspices of the Young People's Socialist League. He'd been asked this question: "Do you believe in religion and God or in science as a religion?"

In 1934 Reuther and his brother wrote a now-famous letter to friends in America from their workers paradise in Gorky, Russia. They had been touring Russia and were working in an automobile plant when they wrote that they were "actually helping to build a society that will forever end the exploitation of man by man . . . What we are building," their letter said, "will

be for the benefit and enjoyment of the working class, not only of Russia but the entire world . . . The compensation we receive for our temporary absence from the struggle in the United States . . . Wal and I were always strong for the Soviet Union. You know we were always ready to defend it against the lies of the reactionaries.

"Once a fellow has seen what is possible where workers gain power, he no longer fights for just an ideal, he fights for something which is real, something tangible . . .

"Carry on the fight for a Soviet America."

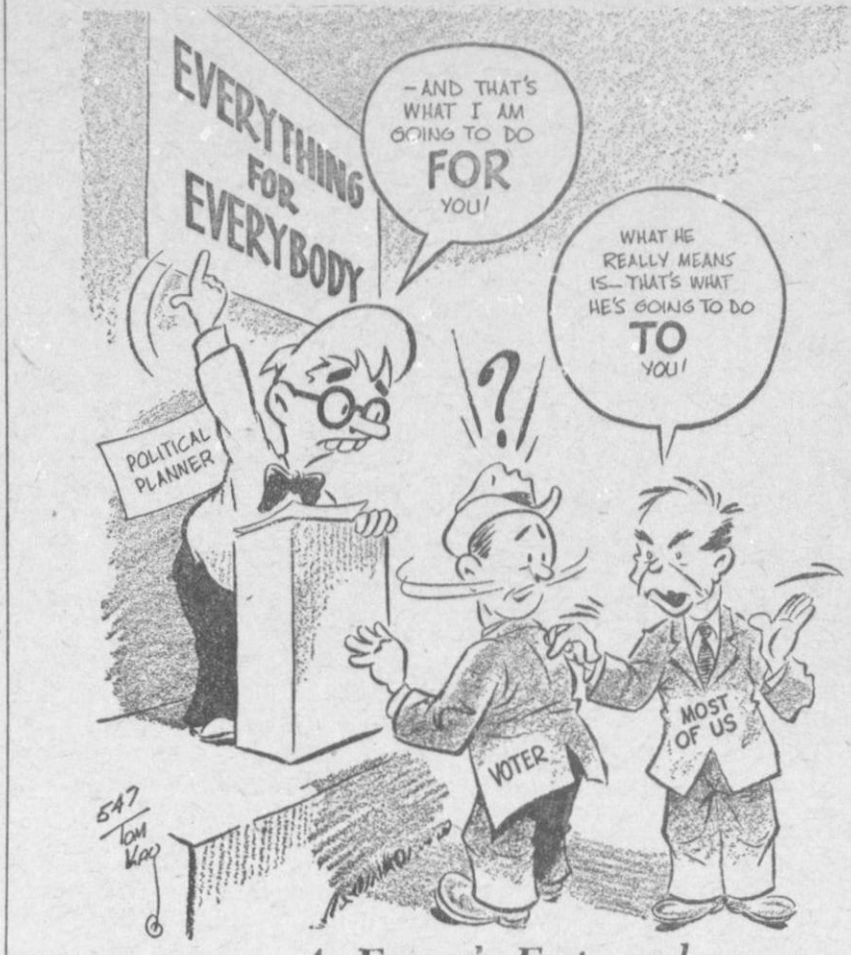

Signed, Vic & Wal

Blueprint for Creeping Sovietization

Reuther is a third generation Socialist and crusader who wants to remake the world into a planned, collectivist labor Utopia. His record for keeping agreements is about like Russia's. Hoffa, the new President of the 1.4 million Teamsters, unlike Reuther, is a brass-knuckle hoodlum whose dreams are more down-to-earth: money and power are his Gods, not making America over.

Reuther, backed by a \$50 million strike fund, is demanding a share of the profits of all profit-making companies. Under his plan (which he recommends through out industry) stockholders would get 50 percent and workers 25 percent, with the remaining 25 percent going as rebate to company customers at the end of the year.

Reuther demands 25 percent before taxes . . . before reserves for retooling, plant expansion, and before debt retirement. Reuther demands 25 percent of

A Fraud Exposed

the profits — but the union would never pay any of the losses. It's not accurate to say we have a "profit system" in America. We have a profit and loss system. Reuther's blueprint for creeping Sovietization would eventually break the automobile industry, would force the government to take it over and run it, "producing for use and not for profit," in the "public interest." This would lead to what the Marxists call "Industrial Democracy," with government replacing private enterprise. If Reuther had announced that Labor recognizes management's right to manage and has no intention of questioning management's decisions about plowing back profits into research, plants, machinery . . . but was simply putting in a bid for a share of the profits and a share of the losses after management had made all those decisions and after taxes . . . that would be a horse (and a Reuther) of a different color.

Reuther's heads-we-win, tails-you-lose plan, if put into effect, would lead to remaking American business into giant cooperatives. The government would lose hundreds of millions in corporation taxes. And after rebating a total of 50 percent of "profits" before taxes to laborers and customers, there would be little or nothing left for the stockholders, after income taxes had been paid. And that suits the Socialists just fine, as they "carry on the fight for a Soviet America!"

Guaranteed Annual Profits — No Losses!

Auto employees and consumers have a wonderful opportunity to share in automotive profits (and losses). They can buy stock. That's the American way.

The Sputnik temporarily ended Reuther's demand for a 4-day week (with 5 days pay.) Most unions, lacking leaders with Reuther's imagination and socialistic training, are merely demanding more pay for less work. Fewer days for higher wages. More overtime and fringe benefits. That's the union cure for the present "recession."

Imagine! We're in a war for the world, a space race with history's most ruthless oppres-

sors. The Russian laborer works under forced, sweat shop, speed-up conditions for a small fraction of the pay his American counterpart gets.

If the labor union conspiracy is not defeated the result will be bankruptcy for many small businesses, great unemployment, stepped-up welfare checks, more inflation, ever-higher prices . . . and to defeat, disaster, and oblivion for America.

The Battleground is at the Polls

Unions are no longer mainly "collective bargaining" (or even collective bludgeoning) organizations. Unions today are mainly political organizations. As George Meany, President of AFL-CIO says, "The scene of battle is no longer the company plant and the picket line. It has moved into the legislative halls of Congress and the state legislatures."

It's estimated that union dues exceed \$450,000,000 a year. Unions could buy a lot of company stock for their members with that. But they don't want the members to own company stock. They might become more loyal to the company than to the union. Walter Reuther controls more millions of dollars for political campaigns than do the Democratic and Republican parties combined.

Reuther would not only run the whole automobile industry, but the government too. Reuther would not only bargain for the Auto Workers, but for all employees, stockholders, and customers.

He will never be satisfied with collective bargaining until it produces a collective economy—a planned economy in which union leaders enjoy joint management with the owners of business to share the profits but not the losses, the decisions but not the responsibility, the security but not the insecurity, with a Labor government refereeing.

The average union leader's goal is: "more." But Reuther is not average. His goal is Socialism.

Everyone Is a Capitalist

Which came first, the chicken or the egg? A tricky question — but there isn't any doubt, that work came before capital. Capital is anything that is used to produce things. A fisherman's boat is capital. But it took work to build the boat. If the fisherman bought the boat instead of making it himself, he still had to work for the money to buy it.

Since none of us can go on working forever, we are — or should be — turning some part of our work into capital. This capital may be in the form of savings, insurance or pension payments, that we'll have to live on when we stop working.

Maybe we don't think of ourselves as capitalists during our years of active work. But later on we'll have to be capitalists, profiting from past work and savings, or depend on 'social security.'

The enemy of all personal capital investment plans is inflation. Even if our wages keep a step ahead of the game, inflation will eat away our savings, insurance or pension funds. At the present rate of inflation — three per cent a year — in only ten years the dollar will lose one-fourth of its value. The effect would be about the same as having worked several years for nothing.

Annual Membership Drive Launched by County Farm Bureau

Cooke County Farm Bureau's annual membership drive got under way the past week and will continue through Feb. 22, according to Vincent Zimmerer, county membership chairman. Goal for the drive is to increase membership to 425. The past year's membership totaled 332.

The drive in Cooke county is tied in with the state-wide campaign and Governor Price Daniel proclaimed Feb. 17-22 as "Texas Farm Bureau Organization Week."

President Joe B. Hundt had an excellent program planned as a kick-off for the drive. The meeting was attended by Farm Bureau members from throughout the county and all but two communities were represented.

Millard Shivers of Waco, state director, was the main speaker. He explained the democratic process of Farm Bureau and how it works in county, state and national levels for the good of farmers. He stated that unless they are represented they will lose many of the justly-deserved benefits they have. The rural road program, and rural electric program are in danger, he said. Some are also trying to pass state sales tax and a tax on butane.

Shivers said that unless the farmers organize and are represented, and unless they write their representatives and congressmen, these just privileges will be taken away. All policies are voted on at the community, county, district and state levels before reaching the national level. Farmers like Labor, must make their voice heard to receive justice, Mr. Shivers stated.

Another speaker at the meeting launching the membership drive was Melvin Dansby of Bowie, field representative. He thanked charter members of the Bureau for efforts they have put into the organization and introduced J. T. Goodson of Gober, district director who explained the many services of Farm Bureau. O. K. Hoyle of Seymour, state field representative, spoke on price and acreage control.

Last Look

In all history, eight Americans have visited the mystical "roof-of-the-world," Tibet. The seventh American was Lowell Thomas, and the eighth was his son, Lowell Thomas, Jr. Today — despite the heroic last-minute efforts of the Thomases to prevent it — the iron curtain has descended around this fabulous Shangri-La. For the foreseeable future it will be sealed off as a potential Red fortress from which the Kremlin's killers may descend at will on cowering India — to fan out over the rest of a bewildered Asia.

But fellow Americans may still see this occult land through the eyes of the last American visitors when the Thomases' movie story of forbidden Tibet is televised in full color by General Motors on the CBS-TV network on Tuesday, February 25th from eight to nine p.m., EST.

In the warm embrace of your favorite arm-chair you can make your way along the perilous caravan trail from the base of the world's highest peak, Mt. Everest, over the awesome Himalayas to the Tibetan capital. With these honored guests, you may visit the out-of-this-world monastery of the Dalai Lama, attended by 10,000 monks; witness his colorful Summer Festival; penetrate even into the Potala, the sacred "Palace of the Gods" with its more than a thousand rooms! For you, this ancient people will reveal their strange rites and customs, perform their exotic dances.

How tragic these pictures may be in the light (or darkness) of subsequent events, no one knows. Whether or not they mark the swan-song of one of the most ancient and cultured of all civilizations can never be known while that iron curtain stands. But the Tibetan episode in "High Adventure with Lowell Thomas" constitutes the only — as well as the last — documentary film on an ageless, gentle and philosophical way of life. And perhaps, if you fear to do some soul-searching, you had better not see it.

Forty-five years ago on February 25, the federal government was given the power to levy an income tax on individuals. It was felt at the time that rates could never reach 10 percent. . . . In 1913, a single man with a \$5,000 a year income paid \$20 tax; today, he pays \$944. Rates the first year were 1 to 6 percent; they range today from 20 to 91 percent."

Senseless Talk
"How do you spell 'sense?'" asked the steno.
"Which one?" asked her boss.
"Dollars and cents or horse sense?"
"The one like in I haven't seen him sense."

What Children Are Saying
A small boy's definition of Father's Day: "It's just like Mother's Day, only you don't spend so much on the present."

A Nebraskan, an Ohioan, and a Texan died, and all were scheduled for cremation on the same day.

The Nebraskan man was cremated first, and when his ashes were removed, they were put into a quart jar. The Ohio man was next, and his ashes required a pint container.

The Texas man was last. After 15 hours, the furnace door was opened. Out walked the Texan, mopping his face with his handkerchief.

"Boy," he said, "if we get two more days of this hot weather, it'll ruin the cotton for sure!"

Candid Comment

A woman stood at her front door shuffling through the morning mail.

"Bills, bills, bills," she muttered, and then yelled after the departing postman, "I thought the Government was going to do something about junk mail."

Life Saving Signs On the Highway

OCTAGON — red with white lettering means come to a full stop and be sure the way is clear before proceeding. The older stop signs — octagonal, but yellow with black lettering — have the same meaning.

TRIANGLE — yellow with black lettering, the newest of standard signs. It reads, "Yield Right of Way" and requires the driver to slow down or stop, if necessary, to give right of way to cross traffic at intersections.

RECTANGLE — white with black or other color lettering, states the law: parking restrictions, speed limits, turning and passing regulations, etc.

DIAMOND — yellow with black lettering, warns of dangerous or unusual conditions ahead, such as curves, side roads, etc.

ROUND — yellow with black X and RR, indicates a highway-railroad crossing 300 to 500 feet ahead.

CROSSBUCK — another railroad crossing warning sign, with black lettering. Erected within 15 feet of a highway-rail crossing. Many people neglect to respect the inherent dangers of a railroad crossing. Thus, approximately 2,500 people were killed in such accidents during 1957.

A tourist spotted an Indian sending up smoke signals in the desert. He had a fire extinguisher strapped to his side.

"What's the idea of the fire extinguisher?" asked the tourist.

The rugged redskin replied, "If me misspellum word, me erasum."

Father Nicholas is On Academy Staff

Father Nicholas Fuhrmann, who returned from St. Louis University at the semester, has become faculty sponsor of the Periscope, official publication of Subiaco Academy. He has also taken over the school's journalism class and is serving as academy prefect.

At St. Louis University Father Nicholas had been studying toward a degree in English. He will continue his studies during the summer. Journalism is not a new field to him, for he has in the past been a contributor to The Abbey Message, another Subiaco publication, and has studied writing as part of his advanced work in English. He is the son of Mr. and Mrs. Willie Fuhrmann of Lindsay.

Lucille Bengfort has returned home after a two-week visit with her grandparents, the John Herrs at Muenster.

telegram of congratulations from his daughter, Mrs. Charles Denney of San Antonio.

The event, attended by more than 150 Lions and their wives and visitors, opened with a short welcome by Mayor Urban Endres and an invocation by Father Christopher Paladino followed by the dinner, which was prepared and served by the Muenster FHA Chapter under direction of Mrs. H. H. Homsley. Lion President Steve Mosler was Master of Ceremonies.

Tom Lowry of Denton, Deputy District Governor of the Lions, gave the address. He said that real success is not measured in terms of money acquired, but rather in service to one's community and mankind in general, and added that the aim of Lionism is to render service, especially to people who need help. Lowry was introduced by Zone Chairman Gene Davenport of Gainesville.

Preceding the awards part of the program the Sacred Heart Church choir, directed by Leo Henscheid and accompanied by Anthony Luke, appeared in three choir selections.

Postmaster Arthur Endres, before introducing Mr. Barney for the Post Office Department's presentation, reviewed Mr. Luke's career as a rural carrier here, especially the hardships caused by bad roads and rough weather, and some of the especially amusing and interesting incidents through the years. Barney added his personal commendation for services above and beyond the call of duty as he made the official presentation.

Mrs. Luke was also remembered with an award. Because her retired husband is now relieved of responsibility and may get notions to wander, Prof. Homsley presented her with a ball and chain to use if and when it's needed. It was a neat and amusing toy . . . a plastic band with tiny lock and a plastic ball joined by a light wire chain.

Other awards were unmentionable presented by Doc Myrick to the club's officers, President Steve Mosler, Secretary Arthur Endres and Tail Twister M. D. Kaderli.

Sanger Hi Teams Wallop Muenster

Sanger's boys cinched their district basketball title Wednesday night and at the same time the Muenster High fellows cinched their place in the cellar. The game, played in the local gym ended with a decisive 48-29 count.

Somewhat closer, but still another loss for Muenster, was the 38-28 girls' game. Wieler and Dennis led the Muenster team's effort with 10 each.

The MHS teams will end their luckless season Thursday night with games at Valley View. Neither has a chance to get out of the bottom spot in conference standing.

Meanwhile the girls' loop championship is being determined at Saint Jo where the Pantherettes take on Alvord in the big event of the season.

A "fed-up" school teacher resigned with this comment:

In public schools today the teacher is afraid of the Principal, the Principals are afraid of the Superintendent; the Superintendents are afraid of the School Board; the Boards are afraid of the parents; the parents are afraid of the children; and the children are afraid of nobody.

After Dinner Program

Their granddaughter Joan, Mrs. Dick Schleicher of Greenville, emceed the after dinner program during which she gave a clever history of her grandparents and the family. She introduced the honoree's children and grandchildren and did the talking for a short comical skit, an original playlet relating to the lives of her grandparents, which other grandchildren enacted in pantomime. She also read a sweet, sentimental poem. Mrs. Rody Klement sang two numbers while Mrs. Norbert Walter-scheid played the piano accompaniment and then everybody joined together for the final singing of "When You And I Were Young Maggie."

Mr. Klement, a native of Bavaria, Germany, was born June 21, 1884. He was nine years old when his family came to America settling in Austin. Their ship had docked at Galveston. His father, Andrew Klement, died in Austin the same year and in 1906 Mrs. Klement and the children moved to Muenster.

Mrs. Klement, third in a family of four boys and four girls, was born in St. Libory, Neb., Oct. 25, 1882. Her parents, Mr. and Mrs. Albert Knabe, moved to Muenster when Maggie was 13.

After their marriage, there was no wedding trip, and the young couple set up housekeeping on a farm west of town where they lived for three years. They moved once more, northeast of town, before buying their own farm, the place now occupied by Ray Klement, and lived there 30 years. Fifteen years ago they moved into town.

Active in Community

Mr. Klement has always been busy and interested in a wide range of activities. He is presently serving his third term as county commissioner of precinct 4 but will retire at the end of this year. He was active in the old Farmers Marketing Association for most of its 30 years of existence, was a long time director, and president of the organization for 10 years. He served as president of the school board, held office in the Knights of Columbus council for 12 years and is also a member of St. Joseph's Society.

All her life Mrs. Klement has loved homemaking, whether working in her home, or yard, or sewing for her family. On the farm she raised chickens as a hobby and says she still misses them since she moved to town. She still keeps a few chickens. These are mostly pets. She's an active member of St. Anne's Society.

The Klement children are Norbert, John, Edgar, Ray, Walter, Martin, Rody and Mrs. Albert Reiter of Muenster and Albert Klement of Gainesville.

For the anniversary party, granddaughters Janice and Marcy Klement, registered the guests. Mrs. Joe Lehnertz catered the meal.

Among guests were Mrs. Klement's sister and brothers, Mrs. Katie Meurer of Windthorst, Gus, John and Albert Knabe from here and Frank Knabe of Hereford. Mrs. John Eberhart was not present. And Mr. Klement's brother Frank Klement and his sister Mrs. J. W. Hess. In addition to Joe of Spokane, Louis Klement of Norman, Okla., and Mrs. Clem Schumacher of Sunray were unable to attend.

A grandson of the goldenweds, Brother Albert Klement from a

seminary in Little Rock, was here and two other couples who have observed golden wedding anniversaries were in attendance. They are Mr. and Mrs. Joe Otto, married 52 years, and Mr. and Mrs. Clarence Wilson, married 54 years. Others who attended the wedding in 1908 were also present as were a number of out of town guests.

Mrs. Klement's anniversary dress was a becoming navy blue crepe with pale pink trim. Her accessories were in navy and black. Mrs. Becker wore an identical dress with blue trim. Both had gold carnation corsages. The men had gold carnation boutonniere. The entire Klement family was easily identified. Each had a similar corsage or lapel carnation.

The honorees' table, decorated by Mrs. Nick Miller, was festive with gold painted flowers, leaves, grapes and wedding bells along the length of the board and held the three-tier anniversary cake which was cut and served to the guests.

Confetti - - -

agreed to go there.

"But this didn't last long, and the white students dropped out. Finally the school had to be closed and the students moved to other high schools which were integrated."

That explains the whole sorry mess we are having on the racial issue. The NAACP, aided by trouble making communists and spineless politicians who fear the influence of the NAACP at the ballot box, are concerned primarily with integration, not with education.

A similar attitude prevailed at Little Rock, where the standards of the Negro school are reported as equal to those of Central High. The primary object however was to mix races not to bring additional opportunities to any children.

Perhaps we would have less trouble if integration were de-

manded only as a means of providing more opportunity for children. The majority of Americans will go for an arrangement that is reasonable and fair. But they have a right to balk at a communist inspired scheme which promotes mixture of the races as a prime objective.
