### NEWS OF SICK AND INJURED

Mrs. Joe Swirczynski is spending two weeks in Fort Worth with her son Ed and family after having a medical checkup.

Back at home recovering from minor surgery is Mrs. Eddie Krahl. She was dismissed from Community Hospital in Sherman Thursday.

Miss Jeannie Aytes of Myra is on the road to recovery from a short bout with pneumonia. She became ill last Friday, went to the hospital Sunday, responded quickly to treatment and came home Tuesday afternoon. She is getting along nicely, expects to return to school next week.

Mrs. W. R. Linn is back home much improved after a week of treatment for asthma at Gainesville Sanitarium.

Mrs. Johnny Arendt of Lindsay is back home since last Saturday, convalescing after more than two weeks in the hospital. Another member of the family showing improvement is little Hank, who is about back to normal after four months of rheumatic fever. Mrs. Arendt's mother Mrs. Henry Schad of Gainesville, is with the family, helping through the emergency.

Mrs. Rosa Driever is off duty at the Enterprise this week because of dental surgery. After removal of several teeth in a Denton Hospital Tuesday, she returned late in the day and is recuperating at home the rest of this week.

Clarence Wilson is emerging from the shut-in stage after several weeks with a severe case of shingles and slow recovery. He gets outside for light chores and an occasional airing but still is careful to avoid a strain.

Aubrey Tuggle is back home since Tuesday afternoon apparently recovering from an unknown ailment which caused severe and painful swelling in his neck, shoulders and arms. In Dallas last week Wednesday doctors failed to identify his trouble. Two days later in Gainesville Sanitarium doctors started using a combination of medicines and succeeded in reducing the swelling but says Tuggle, still do not know which of the medicines produced the results. Out of pain now, he hopes to regain enough strength to return to work next Monday.

Mr. and Mrs. Frank Yosten returned Wednesday from a two day visit at Tours with her mother, Mrs. Julius Filer, 83, who had a heart attack during the weekend. When they left she seemed to be back to normal.

## FFA Chapter Has 4 Teams in Area Judging Contest

Four teams of Muenster FFA boys have hopeful visions of competition in state contest as they enter area contests next Saturday at East Texas State College in Commerce.

Glenn Hellman, instructor, said Tuesday that membership on the teams still had not been decided. The fellows are still competing with each other for places on the teams.

The four contests are in judging poultry, livestock, dairy cattle and land, and about 60 teams of the area are expected to enter each contest. The top ten teams in the first three contests will qualify for the state contest. The top five in land judging will go to the state.

## Local CDA Court Joins in National Charity Program

The Madonna Plan of Relief for Peace, which is currently sponsored by the national headquarters of Catholic Daughters of America was adopted as a local project by members of the Muenster CD of A court at its meeting last Friday night.

Through it the local group will participate in a nation wide effort to "stress the sacredness of motherhood in areas where motherhood is degraded and where its sacredness is assailed by all manner of anti-Christian doctrine."

First on the list as beneficiary of the order's help is the Catholic Maternity Institute of Santa Fe, N. M., a project of the Medical Missionary Sisters. Also mentioned as desperately in need of aid are mother and child welfare centers of Korea and Japan.

Each member is asked to donate at least one dollar to the cause and local court funds are to be sent to the national organization so the combined nation wide effort can be more closely identified with the order.

## Carolyn's Essay Gets Top Prize in Diocesan Contest

Carolyn Swirczynski of Sacred Heart High School, daughter of Mr. and Mrs. Ray Swirczynski, is a first place diocesan winner in the essay contest on vocations sponsored by the Diocese of Dallas-Fort Worth.

In a letter received Tuesday from the diocesan director of vocations, Msgr. Joseph Erbrick she was advised that her essay was selected as tops in the high school girls division.

Her prize, to be presented by Bishop Gorman in a special ceremony at Sacred Heart Cathedral next Sunday afternoon at 3 o'clock, is a large bible with her name embossed on it. She has also received a gold cross and chain for winning first place in the Sherman Deanery.

Carolyn was one of several Sacred Heart students entering an essay in the diocesan contest under the title "Why Religious Vocation is the Highest Vocation." There were four classes of competition: boys and girls in elementary and high school. The essays went first to the Sherman deanery where hers was selected as first for high school girls.

Four other students were deanery winners but failed to get diocesan prizes. Robert Walterscheid was first among elementary boys and received a silver medal and chain.

Taking second place were Charles Bayer in high school boys, and Melvin Sicking and Jeannine Hofbauer in the two grade school classes. All of them received Sunday missals as awards. In addition the five winners received Serra certificates and medals.

## VFW Auxiliary Will Play in Forestburg Cancer Benefit Game

Volley ball players of the Muenster VFW Auxiliary team will be giving an assist to Forestburg's cancer drive next Monday night, April 20, by taking on the ladies Independents of that community for an exhibition game in the Forestburg gym.

All proceeds of the game along with income from pie and coffee, will go into the cancer fund.

It will be a busy evening for the VFW Auxiliary team. They play here at 8:30 in the MHS invitation tourney, then drive to Forestburg for the 8 o'clock game.

## Muenster Entries Dominate County Junior Stock Show

Muenster entries took the lion's share of honors Tuesday at the Cooke County Junior Fat Stock and Dairy Show in Gainesville. Besides dominating the sheep and hog exhibits they made good showing in the beef and dairy cow divisions. Their total winnings amounted to two grand champ and two reserve champ ribbons, ten blue ribbons, five red ribbons and three white ribbons.

The animals were shown by boys of the Muenster FFA chapter, coached by Glenn Hellman. The show was open to all FFA and 4-H members of the county and about ten of the clubs had entries.

Judging procedure at the show was different this year, the animals being judged on excellence rather than competitively. Hence it was possible for several animals to get blue ribbons in the same class. From this list of blue ribbon winners competitive judging was employed to select the grand champ and reserve champ.

Muenster boys had a perfect score in the fat lamb show. They got six blue ribbons on six entries, plus a grand champ ribbon for Mark Hellman and a reserve champ ribbon for Truman Wolf. Other boys with entries were Ronnie Russell two, Choice Stevens and Doug Hellman one each.

In the hog show the boys had five entries and three of them took five ribbons. Ferd Haverkamp took a blue ribbon and

## Saturday Rummage Sale Sponsored by MHS Senior Class

A fund raising project for the Muenster HI seniors and a bargain opportunity for the community is the rummage sale dated for Saturday at B & B Sales.

Members of the class are on the alert this week to acquire a supply of items, mostly clothing and household articles that have lost their usefulness to present owners but are still worth something to others.

Friends are urged to take a look at their collection of things that have been put away but too good to be thrown away. For instance outgrown clothing, a picture that no longer goes with the living room, the appliance that was replaced by a new one, or anything else that's just taking up space. Phone the school and a student will pick it up.

## 1959 Flower Show Will Consist of 3 Home Displays

The annual flower show sponsored by the Muenster Civic League and Garden Club will be a pilgrimage affair this year and will be held on Sunday, May 3, from 2 to 6 p.m.

Details for it were worked out in a committee meeting Tuesday night in the home of Mrs. L. B. Bruns. The original date of April 26 was postponed a week to avoid conflicts with family observances of first communion day.

The show, named Panorama of Muenster, will be made up of displays in three separate homes. The H. H. Homsley house will feature living room, bedroom, and dining room arrangements. Dick Cain's home will show kitchen and den arrangements and a horticulture exhibit on the patio. Last on the trip is Ben Luke's home for yard arrangements and refreshments.

Arrangements at the three places will be provided by the members, each having been assigned to bring one.

The show will be open to Garden Club members and their guests.

It will be a double elimination event, in which a team can stay in the running until it loses the second time. Also, there is only one bracket, the champ bracket, no consolation. And there will be trophies for the three top teams in the single bracket of each division, a total of six trophies.

The tournament, sponsored by Muenster High School, will be held in the MHS gym Monday, Tuesday, Thursday and Friday nights of next week. Proceeds from the admissions as well as concessions will go to the school's athletic fund. Admission prices are 50 cents per evening for adults and 25 cents for players or students.

## Pause For Reflection

... with James C. Ingebreten President, Spiritual Mobilization

### OPERATION SNOWBALL

Now that the Iron Curtain is ringing down upon Iraq, the Red strangle hold tightening on Tibet, and even the apologists for Castro recognizing the signs of a Communist coup in Cuba, we really have cause for pause for reflection!

Recall and consider: Only 110 years ago a seemingly impossible minority of two, Marx and Engels, started the Red snowball rolling. It took seventy years to reach a size sufficient to bowl over its first country, Russia.

But the snowball was just beginning. In these forty years its rampaging sweep has caught up a billion people, a third of the globe! In Iraq, Tibet, and Cuba we see it still rolling—and rolling closer!

Listen to men like J. Edgar Hoover, observe the pink tinge on too much of our own thinking, examine the many signs of softness in high places, political, economic, and ecclesiastical, and we can feel the chill sweep of the Red roller on our own cheeks.

Consider again: Communism, in one century, has gained sway over more people than Christianity in twenty centuries! With socialism, its "younger brother in short pants," Communism is mopping up the world!

Can we stop it? Nobody else

can, and we can only if we get our own snowball rolling, pushed by dedicated men who believe in freedom, have the integrity to stand up for it, the intelligence to recognize the enemy in its disguised forms, and the normal faith by which alone freedom can survive.

## The Easy Way?

When our government spends another billion dollars and finances it the hard, unpopular way—by taxation—it costs the average U.S. family about \$20.

But when the Government raises the billion the "easy" popular way—by borrowing from the banks—the resulting modest dose of inflation can cost the same family up to \$40 a year in higher living costs, for years to come.

Why is the "easy" way so much more costly than the hard way? Until the average consumer-voter takes the trouble to learn how our fancy modern inflation actually works, there is little chance of stopping it.

When a billion is raised by taxation, it is paid "as-we-go," once and for all. The billion-dollar tax burden averages about \$70 for each of our approximately 50 million households. (This assumes, as most economists do today, that the consumer pays directly or indirectly practically all taxes no matter on whom they are originally levied.)

But when the Government borrows money from the banking system, it is an entirely different story. The treasury signs promissory notes or bonds for the desired amount. Our commercial banks accept a Government bond or note as if it were a cash deposit. The Government then writes checks on such deposits, to pay, for example, a military plane manufacturer. The manufacturer deposits the Government checks in his company's bank account. In turn, he writes checks to pay his workers, and his bills for aluminum, electronic plane equipment, etc.

Unlike money collected in taxes, the borrowing process has created a billion dollars that did not exist before, and put it into circulation. This flow of new checkbook money inflates our total money supply just as surely as if the Government had printed a billion in paper "greenbacks" and spent that instead.

The Siamese Twins — Aid and Control

The borrowed billion is a comparatively modest dose of inflation, but it can milk the family pocketbook considerably in a year's time.

Our total money in circulation amounted to roughly 140 billion dollars by the end of 1958. This included checking deposits paper money and coins.

Most people can readily see that if the Government were to print 140 billion more dollars, in crisp new greenbacks, and pour them in with the 140 billions of money we already have in circulation, prices would skyrocket. Things would soon cost twice as much as before, because with twice as many dollars but only the same amount of goods available, each dollar would buy only half as much.

Creeping, bit-by-bit inflation

works the same way but it is harder to see. A billion dollars of new checkbook money amounts to an inflation of slightly under three-quarters of one per cent in our total money supply.

Other influences remaining equal, this modest inflation would tend to push average prices up by about three-quarters of one per cent—perhaps a little more or a little less. For a typical U.S. family with a spending budget of about \$5,000 a year, it would mean added living costs of around \$35 to \$40 a year.

Government borrowing is only one of many influences which inflate our money supply and our cost of living. But including the financing of World War II, Government borrowing has been

## Is God Necessary In Education?

by Walter C. Langsam, President of the University of Cincinnati

As a historian as well as an administrator, I firmly believe that a person who wishes to be regarded as well-educated or well-rounded must have an appreciation of religious values, not only in college life but in life as a whole. What we proudly call Western Civilization is unquestionably Judaeo-Christian Civilization; it cannot be properly understood or appreciated or even really enjoyed without some knowledge of its spiritual influences and motivations.

CONSIDER, by way of emphasis, just these few illustrative examples—each a consequence of the force of religion in our Western development: the high position of women in our society; our special type of family relationship; the inspiration for our greatest works of art—cathedrals, music, paintings, and sculpture; humane working conditions and the end of slavery; compassionate care of the sick; and Western democracy, based on the concept of the equality of all men as brothers under one Divine Father.

EDUCATION without reference to religion, therefore, at best, is one-sided or lop-sided. But beyond this, religion provides and sustains the spiritual values in our life. These values are stable even in times of stress and instability; they do not change and they are eternal. Material values, on the other hand, are transitory; they

follow the fashion and they are easily lost.

Thus, a man of faith, who loses his money, can face his loss and remain stable; a man of little faith may well go to pieces when he loses the money which has been his god. And where material values are held in highest esteem, human values are rapidly discredited—as witness the cheapness of human dignity and life under Fascism, Nazism, and Communism. Furthermore, if we leave spiritual matters out of education, we have left only economics and a power drive to give meaning to learning. In place of the love of and confidence in God, we put economic security and bureaucracy or, if you will, the fear of man. I can think of no surer way than this to the destruction of humanity.

THE PROPER kind of education obviously must teach one how to earn a living, but at the same time it must give to youth certain stable qualities that will remain with him even in times of stress and confusion. And these stable qualities or values are spiritual ones, not material ones. They are, basically, faith in God, character, tolerance, a sense of humor, and intellectual curiosity.

The type of education best fitted to produce this result is education that encourages one to establish a proper relation with one's God. It is education that places emphasis on learning how to live as well as on how to make a living. It is education that recognizes the prime importance and inborn dignity of man and his soul.

† Public Feature Service, Washington 25, D. C.

the biggest single force in the inflation which has doubled prices since 1939.

Whether it boosts living costs visibly or whether it prevents a price drop which would otherwise occur from other influences, a billion borrowed by the Government is likely to cost the average family far more in the long run than the same amount

paid promptly in additional taxes, unpleasant as these are.

When the American public clearly understands how inflation works in our modern checkbook money system, the people will insist on Government economy and pay-as-we-go tax financing, for the sake of their own pocketbooks.

### SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Bermuda grass planting operations in the Muenster area are still going strong after a welcome assist from recent rainfall. The badly needed moisture enabled landowners to go ahead with their grass roots planting operations.

Robert and Arthur Bayer have 25 acres of Bermuda grass on the farm they bought from Dick Cain. The grass was planted on land that has become unsuitable for cultivation on account of oil field rod lines and rock. Once established the Bermuda will furnish good grazing and will keep the soil and water on the ground.

Alphonse Luke and Werner Becker have just finished planting grass on waterway areas on their farms. These grass strips will serve both as safe places to outlet terrace water and as excellent pasture. Luke planted the improved Coastal Bermuda on his waterways.

Bruno Zimmerer has finished planting 25 acres to Bermuda grass on the Hubert Felderhoff farm near Era. Some of the grass borders natural drains through the fields and will serve as terrace outlet areas so that the sloping fields may be protected with a terrace system.

With warmer weather, comes the planting of improved hybrid Bermuda grasses. Gus Lutkenhaus has eight acres of Midland Bermuda on his farm south of Muenster. This grass was planted on a portion of the field that is too steep and too shallow for cultivation. This is an addition to the pasture plantings made last year. Once established the grass will make an excellent pasture to be used in rotation with the existing pastures.

Fred Hennings is enlarging his acreage of Coastal Bermuda on his farm at Bulcher. He's digging his own roots from his nursery plot planted on the farm two years ago. He is also selling roots to some of his neighbors to get Coastal started on their farms. Fred is planting another 25 acres of old field areas on the farm to this improved grass.

Paul Fetsch has completed a new stock water pond on his farm northeast of Muenster. The pond is equipped with a two inch galvanized pipe and will have a concrete watering trough below the pond for the cattle. The pond itself will be fenced so that livestock will be kept out of it. By watering cattle below the dam, the water will be cooler and cleaner. By keeping milk cows out of the pond they will be cleaner and less likely to become infected with disease.

These grass plantings and ponds are all steps being taken by landowners cooperating with the Upper Elm-Red Soil Conservation District in its program to conserve the soil and water through the application of sound conservation practices on the land.

A car screeched to a halt at an intersection, barely missing a white-haired old lady. But instead of giving the driver a tongue-lashing, she recovered herself quickly, smiled sweetly and pointed to a pair of baby shoes dangling from his rear-view mirror.

"Young man," she asked, "why don't you put your shoes back on?"

SECTION 6  
The construction and installation of the improvements, whether curb and gutter or whether paving herein ordered in each street or portion of street designated, shall be separate and independent of construction and installations of such improvements in each other unit or street and distinct from assessments to be levied

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Bermuda grass planting operations in the Muenster area are still going strong after a welcome assist from recent rainfall. The badly needed moisture enabled landowners to go ahead with their grass roots planting operations.

Robert and Arthur Bayer have 25 acres of Bermuda grass on the farm they bought from Dick Cain. The grass was planted on land that has become unsuitable for cultivation on account of oil field rod lines and rock. Once established the Bermuda will furnish good grazing and will keep the soil and water on the ground.

Alphonse Luke and Werner Becker have just finished planting grass on waterway areas on their farms. These grass strips will serve both as safe places to outlet terrace water and as excellent pasture. Luke planted the improved Coastal Bermuda on his waterways.

Bruno Zimmerer has finished planting 25 acres of Bermuda grass on the Hubert Felderhoff farm near Era. Some of the grass borders natural drains through the fields and will serve as terrace outlet areas so that the sloping fields may be protected with a terrace system.

With warmer weather, comes the planting of improved hybrid Bermuda grasses. Gus Lutkenhaus has eight acres of Midland Bermuda on his farm south of Muenster. This grass was planted on a portion of the field that is too steep and too shallow for cultivation. This is an addition to the pasture plantings made last year. Once established the grass will make an excellent pasture to be used in rotation with the existing pastures.

Fred Hennings is enlarging his acreage of Coastal Bermuda on his farm at Bulcher. He's digging his own roots from his nursery plot planted on the farm two years ago. He is also selling roots to some of his neighbors to get Coastal started on their farms. Fred is planting another 25 acres of old field areas on the farm to this improved grass.

Paul Fetsch has completed a new stock water pond on his farm northeast of Muenster. The pond is equipped with a two inch galvanized pipe and will have a concrete watering trough below the pond for the cattle. The pond itself will be fenced so that livestock will be kept out of it. By watering cattle below the dam, the water will be cooler and cleaner. By keeping milk cows out of the pond they will be cleaner and less likely to become infected with disease.

These grass plantings and ponds are all steps being taken by landowners cooperating with the Upper Elm-Red Soil Conservation District in its program to conserve the soil and water through the application of sound conservation practices on the land.

A car screeched to a halt at an intersection, barely missing a white-haired old lady. But instead of giving the driver a tongue-lashing, she recovered herself quickly, smiled sweetly and pointed to a pair of baby shoes dangling from his rear-view mirror.

"Young man," she asked, "why don't you put your shoes back on?"

AN ORDINANCE DECLARING THE NECESSITY FOR AND ORDERING THE PAVING AND CURB AND GUTTER IMPROVEMENTS OF CERTAIN STREETS IN THE CITY OF MUESTER, BEING FOR HICKORY STREET, APPROVING PLANS AND SPECIFICATIONS FOR SUCH WORK, AUTHORIZING THE CITY MAINTENANCE EMPLOYEE, AND/OR CITY WATERWORKS SUPERINTENDENT TO SECURE BIDS, PREPARE NECESSARY EXCAVATIONS, DETERMINE CURB LINES AND DETERMINE COSTS AND THE PRO RATA PORTIONS THEREOF WHICH SHALL BE BORNE BY THE CITY AND THAT WHICH SHALL BE BORNE BY THE ABUTTING PROPERTY OWNERS ALONG SAID STREETS AND FOR FIXING OF A LIEN TO SECURE PAYMENT OF SUCH ASSESSMENTS STATING THE TIME AND MANNER PROPOSED FOR PAYMENT OF SUCH ASSESSMENTS AND THE PAYMENTS FOR ALL SUCH COSTS, DIRECTING NOTICES OF THE ENACTMENT OF THIS ORDINANCE TO BE FILED IN THE COUNTY RECORDS, AND DECLARING AN EMERGENCY.

SECTION I That a necessity exists for the permanent improvement of those certain streets hereinafter listed, by excavating, grading and paving the same, by installation of proper drainage facilities thereon, and by the construction of curbs and gutters where adequate curbs and gutters are not now in place, and such improvements are hereby ordered, including the paving of said named street as herein designated.

Being Hickory Street in said city of Muenster, beginning at Division Street and continuing North on said Hickory Street to Sixth Street.

SECTION II Said Street is to be paved with Asphalt covering on a proper sub-base in conformity with general street paving construction and types satisfactory for general use.

Street is to be paved from curb to curb, and where no curb is now in existence, such curbs and gutters to be constructed to provide the necessary drainage facilities and to provide strength to paving.

SECTION III Authorization is given to secure bids for the paving and the work commenced as soon as weather conditions are favorable, with further authorization and direction that a complete cost be ascertained and reported whereby the City shall pay a portion thereof and the abutting property owners the other portion. Property owners are to stand the cost of all curbs and gutters along and abutting their property and the city to pay for curb and or gutters over all alleys.

SECTION 4— The City Council of the City of Muenster deems it advisable and hereby determines to proceed under and in the exercise of the powers, terms and provisions of Art. 1105b of the Revised Civil Statutes of Texas, as heretofore adopted for the purpose of street improvements.

SECTION 5— The cost of said improvements shall be paid as follows: The city shall pay all of the cost of underground drainage installations wherever same may be deemed necessary, the cost of grading and establishing the curb lines. The cost of curbs and-or gutters over alley intersections shall be paid by the city. The abutting property owners shall pay the cost of the curb and gutter according to the number of feet abutting their property. The City shall pay one-third of the cost of the paving and the abutting property owners shall pay one-third of such cost. All assessments shall be made against the respective abutting property owners in accordance with Article 1105b as heretofore adopted and no assessment shall be made for costs in excess of the benefits to such property owners in enhanced value thereof by means of such improvements. The amounts of such assessments shall constitute a first prior lien upon all such properties and a personal liability of the true and real owners thereof, whether correctly named or not, and shall be payable as follows:

When the improvements herein ordered for any street unit herein designated have been completed and accepted by the City of Muenster the amount of the assessment against each property abutting thereon and the real and true owners thereof shall be and become payable. The full amount of such assessment may be paid upon receipt of assessment notice, or it may be paid in equal installments, beginning 30 days after assessment notice is given with interest thereon at the rate of six percent per annum, with the option to make full payment at any time, and no installment shall be made for a longer time than thirty six months, except by special written agreement made by the City Council, upon special arrangements and term set forth by the City Council for such arrangements.

SECTION 4— The construction and installation of the improvements, whether curb and gutter or whether paving herein ordered in each street or portion of street designated, shall be separate and independent of construction and installations of such improvements in each other unit or street and distinct from assessments to be levied

in every other street unit or improvement, and in making and levying assessments against property for the improvements in one unit or portion of street, shall be considered, no matter of circumstances in connection with any other unit or portion of street, and shall be considered, all as fully and to the same extent as if separate contracts were executed and separate proceedings had with reference to each such unit or portion of street.

SECTION 7— The City Secretary is hereby directed to cause to be prepared a notice of enactment of this Ordinance and to file said notice with the County Clerk of Cooke County, Texas, among the Deed and Trust Mortgage or Lien Records of Cooke County, Texas.

SECTION 8— The fact that streets and portions thereof to be improved as provided for are retarding the traffic conditions of the city and are in dangerous or unusable conditions and should be improved without delay creates an emergency and imperative public necessity for the immediate preservation of the public peace, health, safety and general welfare and therefore, the rule requiring and providing that Ordinances be read at various times or scheduled readings is hereby suspended; and this Ordinance shall be passed and take effect as an emergency measure and be in full force from and after its passage as provided by law, and it is so ordained.

**WHITE ELEPHANT**

"An old time King of Siam had a nasty way of getting even with any noble he happened to dislike. He would give the man a white elephant.

"Since the white elephant was sacred to the Siamese, anyone who happened to own such a beast was required to keep it in style. In fact, the cost of maintaining a white elephant was so great that any noble who received one was automatically condemned to financial ruin.

"What brings this to mind is the national highway program, now in its second year. Has this program become a white elephant to America's car and truck owners?"

"If things keep on the way they've been going in the program's first two years, a project that was presented as a boon to the nation's car and truck owners will turn into the biggest and costliest white elephant ever wished on a group of suffering taxpayers."—Pientywood, Montana, Herald.

"How did you happen to hit the pedestrian?" the policeman asked.

"I didn't hit him," was the reply. "I came to the stop sign. I stopped. I motioned for him to go across the street, and he fainted."

From Melbourne, Australia, comes this story of a policeman pushing his way through a crowd gathered around a telephone booth and hauling out a young chap who glowered from inside. Another chap lay stretched out on the pavement.

"Wot's this?" demanded the officer, pointing to the fallen man. "Did you 'it this bloke?"

"I did," answered the culprit, nursing the knuckles of his right hand.

"Well, now, kindly explain yerself."

"Well, I was just in this booth talking to my girl when he opened the door and pushed me out."

"I see," nodded the policeman. "And you lost your temper, eh?"

"Not straight away," explained the young man. "But then he pushed my girl out, too!"

The beautiful young lady went to the psychiatrist for her first visit. The doctor looked at her for a few seconds, then said: "Come over here, please." The editor of a poultry journal received the following inquiry from a woman reader: "How long should a hen remain on the eggs?"

The editor replied: "Three weeks for chickens and four weeks for ducks."

A little later, the editor received a second letter. "Thank you for your kind advice," it read. "The hen remained on the eggs three weeks, and there were no chickens hatched. As I didn't care for ducks, I took her off the nest and sold the eggs."

**Joe B. Hundt Prexy Of Subiaco Alumni**

Lindsay placed three officers on the executive committee of the North Texas District Subiaco Alumni Association in the annual election there Wednesday night.

Joe B. Hundt heads the group as the new president, Ed Schad is the new vice president and Bruno Zimmerer is the new secretary. Lambert Bezner of Gainesville continues as treasurer.

Retiring officers are Ed Pels, president, John Mosman, vice president, and Ed Schneider, secretary. All are from Muenster.

Ed Pels conducted the business session during which members discussed their yearly alumni benefit and decided to have another meeting to make plans before that event scheduled to take place some time in fall. They also discussed the annual alumni meeting at Subiaco on April 18-19 and several members made plans to attend.

Meeting with the men and helping them in the plans were the Rev. Fathers Alcuin Kubis of Lindsay, Herman Laux, visiting here from Clarksville, Ark., and Christopher, Bonaventure and Martin of Muenster.

Rev. Herman Laux is here for a visit with relatives while he's on sick leave from pastoral duties at Clarksville, Ark.

**St. Anne's Society Of Lindsay Elects League Delegates**

Election of delegates to the district and state conventions of the Catholic State League and plans for serving breakfast to children receiving their first Holy Communion on Mother's Day were the high spots of a St. Anne's Society meeting held at Lindsay last Monday night.

The meeting opened with prayer by Father Alcuin, salutes to the flag and the cross and group singing of Our Lady of Good Counsel. Fifty Eight members attended.

Delegates to the district State League meeting, to be held in Muenster on Sunday, April 19, are Mmes Paul Arendt Sr. Paul Arendt Jr., Andy Arendt, Leonard Bengfort, Joe Bengfort and Al Bengfort.

Delegates to the state convention at Shiner in June are the society's officers: Mmes Norbert Zimmerer president; Lawrence Zimmerer, vice-president and Tony Hermes, secretary-treasurer. Their alternates are Mmes. Adolph Fuhrmann, Leonard Bengfort and Nick Block.

Also elected was Mrs. Gregory Hundt, as local president of the NCCW.

Along with serving breakfast to the First Communicants the society will have charge of taking group pictures.

The group also voted to provide a new red entependum for the church, to be used for the first time on Pentecost.

The door prize was won by Mrs. Teresa Schriever.

After refreshments of cake, ice cream and coffee served by Mmes. Bill Sandman, Frank Sandman, John Schmidkofer and Julius Sandman the meeting ended with closing prayer by Father Alcuin.

**Farm Bureau to Have Tacky Party Monday**

A fun night in the form of a Tacky Party is in store for all members of the Cooke County Farm Bureau next Monday night, April 20, beginning at 7:30 in the community center building of Gainesville.

Plans for it originated in a meeting of directors and committee men on April 6, and arrangements were left to a committee including Messrs. and Mmes. Joe Hundt, Joe Krahl, Bruno Zimmerer, Walter Nortman, Ben Davis and L. G. Gentle.

The word, "democracy," is Greek in origin, means literally "rule of the people."

**Nocona Teams Win Top Trophies In Local Tournament**

Nocona teams monopolized top honors at the Sacred Heart Alumni invitation volley ball tournament held in the Sacred Heart gym last week.

In presentation ceremonies the final contests Saturday night, Father Christopher Paladino represented the host organization in presenting the two champ trophies to the Nocona Independents men's team and the F & M Bank ladies team, also to Allison's men's team for second in the champ bracket. All of them are from Nocona.

Other trophies were won by Sivells Bend ladies for runner-up in the champ division and by Illinois Bend men and Forestburg ladies as consolation winners.

Along with his presentations Father Christopher expressed the Alumni's appreciation for the attendance, cooperation and sportsmanship which combined to make the tournament a big success.

Muenster teams, which had previously taken trophies in other invitation tournaments, did not fare so well on their home court. The Auctioneers were the only men's team to moye into the champ bracket and they lost to runner-up Allison in the next game. Muenster Teachers, after losing to Allison in the preliminary beat J & L in the consolation semifinal and lost to Illinois Bend in the final. Sacred Heart Alumni men were eliminated by losses to O'Neal and Illinois Bend. J & L Supply lost to North Saint Jo and beat Bethel Baptist before losing to the Muenster Teachers.

In the ladies division Alumni A entered the champ bracket by beating Walsh and Watts then lost to North Saint Jo. Alumni B defeated Spanish Fort and lost to O'Neal. MHS Alumni nipped Illinois Bend and bowed to runner-up Sivells Bend. Tuesday Neters lost to Sivells Bend, heat Illinois Bend and were nudged out of the consolation final by Lindsay. VFW Auxillary lost successively to North Saint Jo and Forestburg.

**Saint Jo, Montague Win Top Honors in Scholastic Meet**

Saint Jo and Montague were the winners in high school and elementary divisions respectively in the Interscholastic League 1959 district meet held last Friday at Muenster Public School.

Second and third place honors in high school were taken by Valley View and Muenster. Runner-up and third in grade school apparently are won by Saint Jo and Valley View.

Weldon Holland, director general of the meet, explained this week that all but tennis results are reported and tabulated. When those points are added it is probable that Valley View will overcome the three point lead now held by Caps Corner for third place.

Due mostly to the efficient help of judges from Gainesville College and North Texas State College, the events were held with clockwork precision, and literary events were completed by noon. Finals in the calendar of athletic events were shortened by a few forfeits and the program wrapped up shortly after 2 o'clock.

About 250 visiting students and faculty members were here to join the local students and teachers for the meet. There were

eight high schools and nine elementary schools represented.

Schools and their scores were revealed as follows by Mr. Holland. In the high school division: Saint Jo 242, Valley View 114, Muenster 75, Callisburg 47, Era 40, Chico 35, Sanger 32 and Alvord 20. In the elementary division: Montague 62½, Saint Jo 54½, Caps Corner 37, Valley View 34, Muenster 27½, Era 27, Chico 25, Callisburg 15, Rad Ware 14½.

All judging of literary events was done by students of NTSC and Gainesville College, the former group judging the speech events and the latter all other events. The NTSC group consisted of four students and Dr. Wm. R. DeMongert, Director of Forensics. The Gainesville group consisted of 24 students accompanied by faculty members Dean J. H. Parker, Miss Layuna Hicks and A. W. Wells.

**FFA Team Qualifies For State Contest**

The milk judging team of Muenster's FFA chapter competing in a contest for areas 4, 5, 6, and 8 at Fort Worth last Saturday barely slipped into the group which qualified for a state contest to be held at A & M College on May 2. It was judged the tenth and last team eligible for the big event.

Entered in the competition were about 375 boys representing 98 schools of the four North Texas areas. Members of the Muenster team were Truman Wolf, Billy Don Wolf and Harold Flusche. They were coached by Chapter Adviser Glenn Hellman.

Another Cooke County team, representing the Gainesville FFA chapter, was second in the contest and one of its members, Charles Gibson, was individual high scorer of the contest.

**FBLA Adds Books To School Library**

Members of the Muenster chapter of Future Business Leaders of America are currently working on a project to add books to the public school library.

While they are looking for volumes they ask people of the community to have a look at their home supply of books and determine which, if any, are no longer in use and can be spared for the cause. Donors need not deliver the books. Just phone the school and students will come and pick them up.

**TV Celebrities**

As of last Saturday three Muenster FFA boys are TV celebrities, at least as far as local viewers are concerned. They are Kenny Fette, Robert Voth and Jerry Endres, members of the FFA milk judging team which took fourth place in a statewide contest last December.

Appearing on the WBAP-TV noon program as guests of Farm Editor Calvin Pig, they gave a good demonstration of the technique they used in the state contest.

"I educated one of my boys to be a doctor and the other to be a lawyer," said Farmer Cornstossle.

"You should be very proud of them," announced his visitors. "That seems to be an excellent arrangement."

"I don't know about that," replied the sged agriculturist. "It looks as how it was going to break up the family. I got run into by a locomotive, and one of 'em wants to cure me, and 'other one wants me to go lame so's he can sue for damages."

**Junior Stock Show - - - grand champ. Donny Trubenbach got a blue ribbon and reserve champ and Jim Sicking a red ribbon.**

In the fat calf show Doug Hellman and Jolene Carlton got blue ribbons. Kenny Fette and Mark Hellman got red ribbons and Harold Flusche a white ribbon. The two blue ribbon winners were nudged out champ and reserve honors by entries from Era and Gainesville.

Of the dairy animals Roger Fleitman's two Brown Swiss heifers got red ribbons, Charles Wimmer's two Holsteins got white ribbons and Jim Sicking's Jersey got a white ribbon. Blue ribbons in this show were hard to get. Of about 20 entries only three received them.

**3 Local Members Named on District FFA Organization**

Muenster is well represented this year in the district organization of Future Farmers of America. At a district meeting and banquet of eleven North Texas chapters Tuesday night in Denton, members of the local unit were selected for three of the top district positions.

Doug Hellman is the district nominee for area officer, the office he will receive to be decided at an area meeting on May 9. Jolene Carlton was named the district sweetheart and will also attend the May 9th meeting to compete for the title of area sweetheart. Chapter adviser Glenn Hellman is the other local member on the district organization. He was elected district adviser.

Students attending the meeting from here were Jolene Carlton, Doug Hellman, Roger Fleitman, Donny Trubenbach, Ferd Haverkamp. Adults with them were Superintendent L. B. Bruns, Glenn Hellman, Ray Wilde and Jerome Pagel.
