

## Homsley Resigns As Superintendent Of Public School

With evident satisfaction the Social Security big wheels tell us that the \$400 million difference between taxes collected and the benefits to be paid out this year will be used to put the social security system on a sounder actuarial basis.

It might be added also that the scheduled increase in rates for 1960 will put the system on an even sounder basis . . . so sound, in fact, that our socialistic minded do-gooders may become haunted by all the surplus funds and start looking anew for ways to expand the system's benefits.

It's the old vicious circle again. More tax, more benefit, more tax, more benefit, and on and on, until we wonder if and when this thing will ever level off. The outlook is far from encouraging to the young worker who faces a long grind of heavy payments with the thought that he will have to wait some 45 years to get a return on his money, or otherwise die so that his widow or children can collect on it. But on second thought he realizes that neither he nor his family nor any beneficiary of his choice has any assurance of getting back a part of his so called saving. He isn't buying insurance. He isn't saving. He is only paying into a socialistic fund for the benefit of others, with a hope that some day he will become one of the beneficiaries of others who have to pay in.

Isn't it about time that something was done to convert this socialistic headache into something that is more truly American? What we need is to turn it over to real insurance people instead of government bureaucrats and have them set up a system that combines savings features along with the security. There is no doubt that the security feature alone has great merit. But why should we settle for that alone when so many insurance policies prove that payments can build up to the credit of the person paying in? Millions of Americans every year lose the benefits of their years of social security payments. They die before collecting anything themselves and without leaving survivors who can qualify. Or perhaps after collecting only a small part of their benefits. In such cases it would seem that the balance due to the person's credit should become available to his heirs, like any other form of estate. Under such an arrangement the average person would be less resentful about paying social security, even in spite of its compulsory nature.

While admitting that it is desirable to provide a means by which aged and dependent persons can be cared for, we must still acknowledge that social security is not the traditional American solution. It could have been in the form of real insurance instead of socialism. U. S. News and World Report this week features an article telling of two conditions which, in its opinion, are giving the Kremlin's top gangster plenty of reason for fear: a dangerous contrast on one side and a dangerous partnership on the other. To the west Khrushchev sees the amazing progress that has been made since the war. All of the countries, especially West Germany, are far ahead of the Soviets in productive records. In case of a showdown their superior productive capacity could easily become the deciding factor. A related comparison is that of attitudes of people in the Soviet and Western areas. Red subjects have so little to fight for, the free peoples so much. And in spite of iron curtain secrecy, Khrushchev knows that his subjects are aware of the difference. The escape of some three million of them in ten years indicates clearly that they know the score. Everything considered the odds are stacked against the reds. Despite all his rough talk Khrushchev isn't likely to crowd his luck.

On the other side are the Red Chinese outnumbering the Soviets about five to one and practically forced by the pressure of population to expand into the thinly populated Asiatic Russia. As of now the Chinese and Soviets are allies but Khrushchev understands the value of a communist agreement. He can expect trouble from them as soon as they develop the industrial and military power to support a campaign.

All of which is comforting to (Continued on Page 8)

Superintendent Howard H. Homsley announced this week that he is giving up his position as head of Muenster's public school to become sales representative for a firm dealing in school library books.

His formal resignation, to become effective on July 1, was submitted to the school board at its regular meeting Monday night. Homsley has served five years as superintendent of the local school, the present year being on a three year contract given to him by the school board last year.

The change does not involve going to a new job, but rather making a full time career out of one that started as a vacation job, Homsley explained. Last summer he started selling for the Garrett Book Co. of Colgate, Okla., and by the end of vacation he had an offer to become a permanent member of the organization. He has decided to accept that offer, with all of Texas and New Mexico as his sales territory.

He intends to continue living in Muenster and to serve from here as much of the territory as he can. He will name assistants to serve other areas of the two states.

During his five years at the local school Homsley has been outstanding both as an educational and civic leader. He headed the Muenster Lions Club for two years and took leading parts in the club's and community's activities for the past five years. In 1957 he was voted to receive the Lion's Club award as the community's outstanding citizen of the year.

One of his outstanding projects, which brought widespread and favorable recognition to the school and to Muenster, was the preparation of a handsome brochure entitled "A Look at Your Public School." By word, picture and graph it told the story of the school's aims, operations and sources of revenue along with principal factors in the community's record of progress.

In local school circles he has served a year as president and a year as secretary of the Cooke County Chapter of the Texas State Teachers Association. He has also served two years as chairman of the 12-B football conference and is this year's director general for the interscholastic league spring meet in this district.

## Ben Sicking and H. M. Schmitz Families Observe Golden Wedding Anniversaries

Mr. and Mrs. Ben Sicking's golden wedding anniversary was observed with a family reunion in their home. Children and grandchildren brought covered dishes for the evening meal. There was no formal celebration because Mr. Sicking is bedfast since he broke his hip two years ago.

Mr. and Mrs. Sicking were married in Muenster Jan. 7, 1909, and have lived 50 years on the same farm southwest of town. She is the former Miss Mary Felderhoff, and almost a native of Muenster, being only four years old when her parents left Iowa to settle in the new colony established here less than two years. She's 71. Mr. Sicking was born in Germany 81 years ago and came to Muenster from Tennessee. His family moved here in 1890, about a year before the Felderhoff family. Ben was 12 at the time.

The Sicking's are parents of nine sons — eight living — and have two daughters. One of the boys, Ernest, is an Air Force sergeant stationed at Alexandria, La. He missed the anniversary observance as did Frank who lives at Fallon, Nevada. The only other out of town child is Alois Sicking of Gainesville and he and his family were here with these from Muenster: Ed, Bernard, Leo, Joe and Paul Sicking, Mrs. Ray Klement and Mrs. Alois Rohmer. There are 44 grandchildren.

Family members began the day by attending an anniversary mass in Sacred Heart Church at six o'clock. Attendants at the wedding 50 years ago were Miss Annie Henschel, now Mrs. Ben Derichsweiler of Denison and the groom's brother Gus Sicking who still lives here. A sister, Mrs. Annie Trachta also lives (Continued on Page 2)

## Two New Members Join Muenster KCs

James Walterscheid and John Swirczynski joined the Muenster K of C council in first degree initiation ceremonies held Tuesday night in Fort Worth. They will return to Fort Worth for second and third degree ceremonies on Sunday, February 8.

The two young men are numbers 20 and 21 on the list of new members received since installation of the present group of officers. The quota set by the council for the current year had been 20.

Accompanying the new members to Fort Worth for the initiation were Grand Knight Pat Hennigan, Albert Herr and Paul Walterscheid.

Eight members of Muenster Boy Scout troop — the patrol leaders and assistants and the troop scribe — spent Saturday overnight and Sunday at the Cooke County Scout Camporee at Gainesville. They slept out and cooked out. Scoutmaster Nick Miller took them to the camp site and John Mosman drove down to bring them back. Sunday, nine boys and their Scoutmaster made a hike to Voth's south of town.

## Bank Ups Interest Rate on Savings

The interest rate on savings accounts in the Muenster State Bank has been increased from 2½ to 3 per cent, effective January 1, 1959.

Decision to boost the interest figure was made Tuesday afternoon by the bank's directors in their first meeting of the new year.

Because of the increase savings depositors here will receive about \$4000 in additional interest payments during the coming year. Last year's payments, at the rate of 2½ per cent, amounted to \$16,147.76. The 20 per cent increase and the usual growth in savings are due to bring this year's interest payments to near \$20,000.

## New Loop Member Treated on First Visit to Muenster

The beginning of Chico High School's athletic relationship with Muenster was marked by a short, friendly welcoming event. After the visiting boys and girls had clobbered Muenster Tuesday night they were told of a special get acquainted party awaiting them in the homemaking department of MHS. They spent some 30 minutes with Muenster teams enjoying corny dogs, chocolate milk and ice cream.

In the games Chico's girls ran up an easy 57-17 win after which the visiting boys took a more interesting but still decisive contest of 55-36.

In the girls game Chico jumped to an early lead and kept spreading the margin all the way. Fisher led the local scorers with 6 and Carlisle hit 12 for the visitors. Next Chico boys took a 15-7 first quarter lead and pulled a little farther ahead in each of the remaining periods. Leading Hornet point makers were Harris and Joe Hellman with 15 and 11.

The Friday night before Muenster girls took advantage of a weakened Sanger team to squeeze out their only win of the season to date . . . and by the thrilling count of 24-23. Three of the Sanger team members were absent because of sickness and another fouled out before the game was over, leaving the guest team with only two of its regulars. Mary Dennis scored 10 for Muenster.

Sanger boys, rated with top contenders of the 37-B loop, had a cinch rolling over the Muenster Hornets 58-33. The game was iced away in the first half with a comfortable margin of 44-18. During the next half Sanger added 14 and Muenster 15. Top scorers for Muenster were Otto with 15 and Joe Hellman with 8.

## Sacred Heart Wins Double Header with Windthorst Teams

Both of Sacred Heart's basketball teams were in top form Friday night as they turned in convincing wins over the visiting boys and girls of Windthorst. The Tigerettes opened the double header with a 49-35 win and the Tigers followed up with an easy triumph of 42-17.

A fast and smoothly operating team of Windthorst girls gave Sacred Heart a good tussle but two factors made the difference. Zimmerer was hitting at her usual clip, for a total of 37 points, and Sacred Heart guards caused lots of trouble for visiting forwards. Patsy Schroeder made 18 in spite of them. In the first period the local girls pulled ahead 10-5. During the next two they just held their margin by scores of 24-19 and 37-31 then surged ahead again for the final tally of 49-35.

The Tigers were well occupied during the first quarter and squeezed out with the slim lead of 9-8. After that they improved as they went along, ending the next three periods with scores of 15-10, 22-12 and 42-17. Wimmer had a big night for a total of 24. Streng added 7 and Haverkamp 6. Lindeman led the Trojans with 6.

Friday night the Tigers will divide into A and B teams to take on Lindsay's two boys' teams. Sacred Heart girls will have an open night.

On Sunday the Tigers will have the first game on their Southwest Academic League schedule. The opponent is St. John's of Ennis, a team that is hoped to have a long advantage over Sacred Heart. A preliminary to that tussle, but not a conference game, is the meeting of girls from the two schools.

He entered the sanitarium about two weeks earlier when his condition worsened after he appeared to be progressing normally toward full recovery.

Funeral services with requiem high mass were held in Sacred Heart Church Thursday morning at 10 o'clock with Rev. Christopher Paladino officiating. Burial in Sacred Heart Cemetery was directed by Nick Miller Funeral Home.

Graveside military rites were conducted by Muenster VFW Post. Bearers were Leo J. Haverkamp, Arthur Hess, William DeBorde, Joe Tempel, Meinrad and Frank Stoffels.

On Feb. 15, 1950, he was married to Miss Marcella Haverkamp. He was employed by Hofbauer's Food and Locker Service until last May. Since then he has been in and out of hospitals.

When he was moved from Gainesville to Dallas Monday for examination and observation he was not considered sick enough to be placed on the critical list. His wife accompanied him intending to remain overnight but hospital attendants advised her to return home.

About 8 o'clock Tuesday morning the family received word from the hospital that he had suddenly taken a turn for the worse. Mrs. Tempel and her sister, Mrs. Lorene Shotwell, left immediately. Leo J. Haverkamp taking them, but Paul died before they reached the hospital. Also too late to see his son alive was John Tempel. He went to Dallas with Andy Hofbauer.

These specific common sense features are the big reasons why Ford is the best seller:

1. Six passengers, not just four, ride in comfort. Yes, even the man in the middle. Because Ford's full-depth seats are extra thick all the way across—there's no hard spot in the center as in some cars.
2. The doors are wider for easier entry. Compared with Ford's major competitor, they open wider . . . and have two-stage front door checks.
3. Ford's styling is sensible. It's clean and simple like the Thunderbird. No useless wings that are easy to dent.
4. Ford's frame is safer. In its field, only Ford has a wide-base frame that seats all passengers within the protection of its husky side rails.
5. Ford's spacious luggage compartment is easier to load and unload. High rear trunk wall on Ford's nearest competitor makes loading difficult.
6. Ford's got the most sound and weather insulation—everywhere. No other low-priced car compares.
7. Ford is economical. You save up to a dollar a tankful with Ford's standard Six or Thunderbird V-8 engines—for they thrive on regular gas. You need change oil only after each 4000 miles. The muffler is aluminized to last twice as long as ever. And Ford's new Diamond Lustre Finish never—ever—needs waxing.

## LOOKING AHEAD

by Dr. George S. Benson  
 DIRECTOR — NATIONAL EDUCATION PROGRAM  
 Searcy, Arkansas

### THE ENEMY WITHIN

Hardly ever does the idea for a piece of Congressional legislation originate in the mind of a Congressman. It usually is suggested by individuals or groups who stand to benefit with passage of the legislation. But frequently the interested parties get a "water boy" or "bird dog" to make the suggestion and follow through on it. And these "water boy" lobbyists sometimes are in the form of respectable-sounding but misleading organizations. The pressure constantly applied in Washington for legislative action helpful to the international Communist conspiracy often appears to be coming directly from some of the nation's leading non-Communist citizens, moved to action by an organization.

The efforts of the Communists to wreck our immigration safeguards is a case in point. Recently the House Un-American Activities Investigating Committee held hearings on Communist political subversion, probing particularly into their organized efforts to weaken our immigration laws. "Within this one field of immigration," reports Richard Arens, director of the Committee staff, "we found 200 organizations recently cre-

ated by the Communist Party in 15 key states, all of them set up for the purpose of engendering grass roots sentiment to destroy the immigration laws."

### Terrific Accomplishment

Arens draws attention to the program of just one of these 200 organizations: "These are their accomplishments during one year as reported by their secretary: In this one year, this organization published and distributed more than 5,000,000 pamphlets, printed 142 memorandums and 98 leaflets; sponsored and initiated 62 radio programs — 19 on a network basis with nationally prominent speakers — provided speakers to 412 meetings of organizations and groups; provided special material which served as the basis for 14 articles in nationally circulated magazines; serviced newspaper columnists, editors and radio commentators; sponsored eight national and 27 regional conferences; and testified at 23 hearings before Congressional committees. This was one organization of the 200 created by the Communist Party for the one purpose of destroying our immigration laws.

"The Communists' greatest success is this tactic of persuading so-called liberals and the public at large that their program is not a Communist program but simply a program for liberalization, for democracy and for humanity."

### Flooding the Country

This floodtide distribution of propaganda by one Red-front outfit, prompted Mr. Arens to check the New York port-of-entry office in charge of processing literature shipments from the Iron Curtain countries: "I asked (the officer in charge) to hold for three days all the Communist propaganda coming into New York City. I thought he was joking when he said: 'There would not be enough warehouses on Manhattan Island to hold it!' I went down there and I raised my hand over my head and walked through three warehouses.

"These warehouses were stacked with mail sacks piled up higher than my hand over my head. This was just one day's processing of Communist propaganda coming into the United States, all of it in violation of law . . . Under the Foreign Agents Registration Act, a person who is an agent in the U. S. for the purpose of disseminating Communist propaganda originating abroad, must do two things. First, the Communist propaganda itself must be labeled and identified as political propaganda. Secondly, the agent must register with the Department of Justice under the Act.

A Fool and His Life are Soon Parted

### With State Department Approval

"We had noticed in the course of the last several years that this propaganda has begun to flood the country. We noticed it was being disseminated by consulates and embassies in the U. S., informational services and the like. We got in touch with the State Department people and said, 'How about this? These people are not registering, yet they're disseminating this material all over the United States.' They said, 'We'll look at the law.' The law on diplomats exempts them as long as they are engaged in activities which are recognized by the Department of State as being within the scope of functions of such officers.

"So the Department of State issued a ruling, which still is outstanding — a ruling that educational activities of this nature are within the scope of functions of such officers and they are not obligated to register or

to label their material." So the floodtide of literature, skillfully prepared to subtly shape the thinking of people toward specific step-by-step Communist goals in America, flows into our colleges, libraries, schools, homes, industries and organizations. This is a flow of poison, and it should be so branded with the Red label or abruptly halted!

Marine Cpl. Richard Hess, serving with the Fourth Regiment of the First Marine Brigade at the Kaneohe Bay Marine Corps Air Station at Oahu, Hawaii, participated last month in a major field exercise on the northern tip of the Island of Oahu. Terrain in the maneuver area ranges from rugged mountains to lush valleys covered with dense sub-tropical growth. The regiment's mobile capabilities were put to the test since the lava soil is soft, often muddy, and the hills steep with footing uncertain. Main purpose of the exercise was to allow Marines to use all their tactical weapons including artillery, light crew-served weapons and helicopters. Richard is the son of Mr. and Mrs. Ed Hess.

It was announced that the February holy hour will be held in Muenster.

**Denison Girl, 9, Kin Of Local Residents Accidentally Shot**

Relatives here have learned that nine-year-old Twyla Kay Schnitker, daughter of Mr. and Mrs. Walter Schnitker of Denison, is recovering after being accidentally shot in her left foot. She's the granddaughter of Mrs. Joe Schnitker of Denison who wrote telling about the mishap. Friday the little girl stayed home from school with a slight illness and was playing with a .410 shotgun. She told her parents she thought the gun was not loaded and accidentally discharged it with the shot going through the top of the left foot. At first it was thought that she would lose the foot, but doctors now believe it can be saved if no infection sets in within the next ten days. However, the foot will probably never have all its normal usage. An ambulance took Twyla Kay to Madonna Hospital after the accident.

**Only 15 Per Cent Of Vehicles Have Safety Inspection**

The Motor Vehicle Inspection Service of the Texas Department of Public Safety issued a reminder today that registered motor vehicles in Texas must be inspected prior to April 15. The announcement by Captain Marvin Blount stated that only 15 per cent of the vehicles in region one has been inspected. Region one consists of 30 northeast counties.

"Many vehicles are operating on the highways with defective equipment, including a large number with only one headlamp," said Blount. "These defects make a vehicle hazardous, in addition to being in violation of the law." He further pointed out that vehicles should be inspected early in an effort to avoid a last minute rush.

A check revealed that there are some 1,080,000 registered vehicles in this region. Following the April 15 deadline Blount advised that drivers will be subject to a fine of one to two hundred dollars if they operate a motor vehicle without a valid inspection sticker attached.

Routine business and committee reports and comments by Father Bonaventure Machler were on the agenda at the January meeting of the local court Catholic Daughters of America Friday night.

In other discussion, members agreed to keep a holy hour on First Fridays and First Saturdays and selected the hour from 9 to 10 a.m. Mrs. John Mosman, grand regent, conducted the meeting. Father Bonaventure was a special guest.

Mrs. Ted Gremminger, parish NCCW president, announced that the Sherman deanery's quarterly meeting for NCCW will be held in Muenster on Feb. 12. Business will feature the election of officers.

Another announcement was that a shipment of old nylon hose has been sent to Fort Worth to a disabled veterans' organization and that the court will continue the collection and shipment of old nylons. It was pointed out that for many handicapped service men the money they make from their hand-made articles is their only source of income.

Mrs. C. J. Kaiser accepts the nylons at the bank and Mrs. Steve Moster readies them for shipment. Central Freight delivers the package free of charge.

Members voted a ten dollar donation from the treasury to apply to a fund used to train laymen and religious to teach handicapped children. This training program originates at the Catholic University in Washington, D.C. The court also offered a mass for the welfare of Father Christopher's mother.

**Sale of Property  
Results in Moves  
For Seven Families**

Sale of property in Muenster has resulted in the change of homes for three couples and four more are due to move about the first of February.

Already settled are Mr. and Mrs. Johnny Streng and children who bought the Andy O'Connor house on West Second Street and moved there from the Henry Streng farm. Occupying the Streng farm house is the Joe Streng family who moved back to Muenster recently after living in California.

Mr. and Mrs. Bernard Haverkamp who had been renting the O'Connor house have moved to occupy one of Joe Trachta's houses on North Elm.

In another deal, the Henry Weinzapfels bought the former Urban Endres home on North Sycamore. They have been oc-

cupying it since last summer.

Changes expected about Feb. 1 are the Robert Bayers' from town to the farm they bought some time ago from Dick Cain. The Cains' new home west of town is nearing completion and they look forward to getting settled by the first of the month. The Bayer property on Maple Street has been bought by Clyde Howard and he and Mrs. Howard will move to it from an oil lease.

The Henry Huchtons will move back to town after living in the house adjoining the Rock Station. They bought David Trachta's house on Fourth Street and plan to add a room when they make general repairs. Huchton will continue as manager of the Rock Station.

Hunter (to old guide): "Have you ever been lost in the woods?"

Old guide: "Nope, but I was bewildered once for four days."

Prejudice is a wonderful time saver! It enables us to form an opinion without bothering to get the facts.

**Family Gathering Held at Burleson**

Mrs. Dick Cain and children Debbie, Chris, Judy and Sandra and another daughter, Mrs. Wendell Richey and baby son Craig drove to Burleson Sunday to spend the day with her parents, Mr. and Mrs. J. S. Rhones and children of Bellevue, the Pete Smiths and family of Lubbock, the C. C. Hogans and their daughter and family, the Donald Volkman of Fort Worth. The visitors were pleased to

find Mr. Hogan up and around but unable to join in the luscious covered dish dinner brought for the gathering. He has been suffering from a stomach ailment the past several weeks and has to be on a bland diet.

### Lindsay News

Bernard Gieb is back at his regular job in Gainesville after two months following an accident in which he sustained a fractured skull.

Mr. and Mrs. Joe B. Hundt's seven youngsters Michael, Ellen, Margie, Richard, Robert, Joey and Steven are on the mend now after a siege of chicken pox. Two had severe cases and six were sick at the same time. Michael, a fourth grade student at Lindsay school, had never before missed a day in classes until the chicken pox shattered his perfect attendance record.

Sunday visitors with Mrs. Joe Bezner were her son and daughter-in-law, the Bob Bezners and children Debbie and Stevie of Dallas.

The Ernest Arendts of Lawton, Okla., visited Monday with his mother, Mrs. Paul Arendt at Gainesville Sanitarium and with homefolks at Lindsay.

Home for the weekend was Mary Margaret Hermes of Fort Worth. She visited her parents,

Mr. and Mrs. Ben Hermes. Since she's a graduate nurse Mary Margaret is head nurse on night duty in the emergency room at St. Joseph's Hospital.

### Blessed Events

Mr. and Mrs. Paul Neu of Lindsay are parents of a son born at Gainesville Sanitarium, Jan. 10, 10:08 a.m. He weighed four pounds eight and a half ounces and has been dismissed from the hospital with his mother. He has two brothers and a sister and is the grandson of Mr. and Mrs. Matt Neu of Lindsay and Mr. and Mrs. Ed Heitzman of Gainesville. A great-grandmother, Mrs. Lena Schmitt, lives at Lindsay.

From Andrews comes announcement of the birth of a son to Mr. and Mrs. Eddie Fette. He arrived Friday morning, Jan. 9, weighing six pounds ten and one half ounces. He's the grandson of Mrs. Kate Reynolds of Muenster and a brother for Cecilia and Rene, who are visiting their maternal grandparents, Mr. and Mrs. Fred Gonzales at Wink. The new arrival is a great-grandson for Mr. and Mrs. John Fette.

Mr. and Mrs. Rudy Dieter of Gainesville are parents of an eight pound seven ounce boy, their first child, born at the Sanitarium Thursday, Jan. 8, 8:12 a.m. The baby's mother is the former Anna Belle Metzler and he's the grandson of Mr. and Mrs. Phillip Metzler and Mr. and Mrs. Val Dieter of Lindsay.

### Paul Tempel - - -

time had not determined the cause of his sudden death. They knew he was suffering from complications resulting from heart, liver and kidney ailments, and told Mrs. Tempel they were going to do a post mortem.

Survivors are his wife and three daughters, Lucille, Pauline and Florentine; his parents, Mr. and Mrs. John Tempel of Muenster; one brother, Norbert Tempel of Berkeley, Calif., and three sisters, Mrs. John Moster of Gainesville, Mrs. Russell Herb of Dallas and Sister Florentine of Jonesboro, Ark.

Sister Florentine arrived early Wednesday to attend her brother's funeral. Norbert Tempel could not be here for the last rites.

### Confetti - - -

us Americans, but also a mighty good reason not to be taken in by Soviet attempts to make friends and influence people over here. Rather than relax our cold war efforts, as the reds would like, we ought to intensify them and help hasten the day when communist power will break down in Eastern Europe. Once that is accomplished we can expect the red scourge to start fading out in other areas also.
