## Mrs. I. A. Zimmerer Of Lindsay Dies After Short Illness

A statement by Senator Lyndon Johnson indicates that people directly dependent on steel are not the only ones hurt by the current steel strike. Every taxpayer is affected by it . . . through the national Treasury's loss of about \$45 million a week in revenue. That's the decline in revenue from the steel industry only. At the same time Uncle Sam receives less from many other businesses and industries that have slowed down or quit because of the steel strike. A bad situation when a nation is already spending beyond its income. It's money that has to be made up one way or another, either by more taxes or by further devaluation of our money.

Let's hope that the big wheels are right in their guess that something can be accomplished through the coming exchange of visits by Khrushchev and Eisenhower. Now that we are committed to it we may as well be optimistic, although it is hard to understand how we can derive any good from dealing with a treacherous butcher who is dedicated to our destruction.

The only benefit, it seems, must come from showing him that we are ready and able to call his bluff or to defeat him in case of a showdown. There is no such thing as convincing him that our system of freedom and free enterprise is superior to communism. In fact he is not interested in the welfare of his people. He will be here only to pick up ideas for use in his campaign of world conquest and to spread some more of his co-existence propaganda. But if, in spite of his hostile and cocky attitude, he wises up to the fact that he might be the big loser in case of war, his visit may be of real value after all.

One of the peculiarities of our times is the super abundance of insects despite a greater effort to control them than any previous generation has known. People often say that the pests seem to be much worse than some twenty or thirty years ago when all of our present high powered insecticides were practically unknown.

It's a serious situation that causes us to wonder whether perhaps our new fangled method is partly responsible for our predicament. Could it be that in our effort to exterminate our little enemies we are also wiping out too many of our little friends?

This column has no scientific theory or data on which to base such an opinion, but it has just come upon an interesting article about mankind's fabulous and vastly underrated friend, the spider. A recent issue of Aramco World, published by Arabian American Oil Co., tells some amazing things about these little creatures. For instance: "If, suddenly, there were no spiders, we'd starve to death within weeks. Overwhelming hordes of insects would destroy crops and pastures. Spiders eat an astronomical number of insects each year. Scientists have estimated that the weight of insects eaten is far more than the combined weight of the 3 billion human beings on this globe."

"It's hard to believe this because we just don't realize how many spiders there are. Incredibly, an acre of rough grassland may swarm with from 1 1/4 to 2 1/4 million spiders, depending on the time of the year. A British spider expert made the count by taking representative samples of earth in England."

From statements like these it is easy to imagine what may be happening in our intensive spraying and dusting programs. While killing a comparative few of the pests we may be leaving our spider friends too weak and too depopulated to carry out the job nature has assigned them. It could be just another version of the mess that can be caused by interfering with nature's balance.

A few more facts about your tiny little friends are well worth passing on. Out of 50,000 species in the world less than a dozen can harm us, and no spider deliberately attacked us. So, it's foolish to kill spiders, except the well known black widow, of course.

And spiders are never vegetarians. They never damage garden crops but live strictly on insects. Furthermore they are miniature Samsons, able to lift far more than their own weight. A man with an equal ratio of size and strength would be able to lift several tons.

The same could be said of spider silk. It looks fragile to us, (Continued on Page 8)

Death has claimed Mrs. I. A. Zimmerer, 77, a Lindsay resident the past 55 years. She died Tuesday morning at 11:45 at a Gainesville hospital several hours after being admitted. She had been seriously ill less than a day.

Funeral services will be held Friday morning in St. Peter's Church at Lindsay at 9:30 and burial will follow in the parish cemetery. George J. Carroll & Son Funeral Home is in charge of arrangements.

Rev. Francis Zimmerer, son of the deceased, will be celebrant of the solemn requiem mass assisted by his cousins, Rev. Alcuin Kubis, Lindsay pastor, and Rev. Sylvester Schad of Corpus Christi.

Rosary services were held at the Carroll Chapel at 8:30 and 9 p.m. Wednesday and at 2 and 8:30 Thursday. The afternoon rosary was recited by members of the Lindsay St. Anne's Society of which Mrs. Zimmerer was a long-time member.

The former Miss Helen Kubis was a native of Germany. She was born May 13, 1882 at Pozen, and came directly to Lindsay from her homeland in 1904. Four years later she was married to Mr. Zimmerer. They farmed north of town until retiring in the fall of 1948. Since then they lived in Lindsay. An open house celebration marked their golden wedding anniversary in January 1958.

Mrs. Zimmerer was an enthusiastic worker for parish and community projects until about three years ago when an infection resulted in the loss of her leg and confined her to a wheelchair.

Survivors are her husband; five sons, Rev. Francis Zimmerer of Detroit, Michigan, Paul Zimmerer of New York City, and Henry, Bruno and Vincent Zimmerer of Lindsay; one daughter, Sister Dorothy Therese of Dallas, a member of Our Lady of the Lake Convent in San Antonio; 12 grandchildren, two great-grandchildren and one sister, Sister Jofanda in Germany.

Father Francis has just been transferred to Detroit from Subiaco, Ark., and was notified of his mother's death shortly after arrival in Detroit.

Two members of the Muenster Boy Scout troop, Tommy Mosman and Tommy Hartman, will participate in the biggest relay team in sports history next Tuesday when they take their turns in carrying a friendship fire torch from Laredo to Chicago, where the Pan-American Games will be held from August 27 to September 7.

The two Scouts will be assigned a mile each on the 11 miles from Denison to Colbert, Okla. They will be accompanied 40 and from the area by Scout Committeeman John Mosman.

Using the official Boy Scout pace . . . run 50 steps, walk 50 steps . . . nearly 3000 Scouts will take part in the 1,464 mile relay, carrying out one of the richest and most colorful of all Olympic traditions, that of delivering the torch from the scene of the most recent games to the main stadium of the new games.

## VFW Auxiliary Wins Award for Reaching Membership Quota

Welcome news and a source of pride for Muenster's VFW Auxiliary was the report at Monday night's meeting that the organization has been twice recognized for outstanding achievements during the past year. The honors came at the state convention in Austin.

One award is a gold loving cup for reaching the membership quota, 15 per cent over the previous year, and the first such prize the Auxiliary has won. The other award is a certificate of merit for a one hundred per cent honor roll rating during the year through accomplishment of objectives required in connection with community public service and charitable contributions. It is the ninth successive year the organization qualified for the certificate.

Mrs. Davis Drake of Gainesville, district president, accepted the awards for the Muenster Auxiliary. No local members at (Continued on Page 8)

Sunday morning's program began with breakfast for commanders and quartermasters at the Steak House at 9 a.m. and the ladies were guests at a morning coffee at the post home. At noon there was a joint meeting and dinner at the post home, then closed meetings at 1:30 for the veterans and auxiliary ladies.

## Pavement Project Cleared by Council, Awaits Contractor

Muenster's 1959 paving project is now in the hands of the contractor.

Members of the city council at their meeting Monday night disposed of their last preparatory detail when they held a hearing at which property owners were invited to show cause why the work should not proceed as planned.

After the hearing the council submitted its formal acceptance of a bid which had been made by H. M. Scott and Sons, road building contractor of Denison. The city will pay him 55 cents a square yard for shaping and packing the gravel base, applying a primer coat and two courses of asphalt and pea gravel, and rolling the finished job with a steel roller.

The city's charge to property owners will be 72 cents a square yard, the additional 17 cents being compensation to the city for placing the gravel base on the street and other preparatory work.

At the time he submitted his bid the contractor said he would be able to get on the job promptly after the August 3 hearing, so city officials are expecting him in the next few days.

## No Electric Power For 3 Hours Sunday

Electric power will be off in Muenster, Lindsay and Myra Sunday morning, Aug. 9, from about 5 a.m. to 8 a.m. Fred Lynn, TP&L Co. manager, stated this is necessary due to Texas Power and Light Company's moving its transmission and distribution lines out of the new right-of-way on Federal Highway 35 (old 77) and Highway 82.

## Clothing Factory Expected to Open Within Sixty Days

A clothing factory operated here by Raden Manufacturing Company of Dallas will probably be in production within 60 days.

That was the estimate of the firm's president, Sam H. Raden, in his meeting Monday with Jerome Pagel, president of the Muenster Industrial Foundation.

Following official organization of the foundation last Thursday and Friday nights, Pagel contacted Raden to advise him that up to \$25,000 is available to help establish the venture and to stipulate the conditions under which the loan will be made. Raden said he was satisfied with the conditions and expected to be in Muenster this weekend to inspect proposed sites and start arrangements to get established.

Meanwhile the Muenster Industrial Foundation continues with its organizational work. Last Thursday night the membership met and elected the following as their directors: Al and Vincent Felderhoff, Earl Fisher, Andy Hofbauer, Richard Grewing, Steve Moser, Jerome Pagel, Charles Taylor and Ray Wilde. The group also agreed on "Muenster Industrial Foundation" as the official name of the organization. Charles Taylor was elected temporary chairman to conduct the meeting.

The following night directors met and elected their officers as follows: Jerome Pagel, president; Steve Moser, vice-president; Ray Wilde, secretary; Earl Fisher treasurer. They also agreed on terms to be specified when assisting an industry and stressed the urgency of keeping up the drive for additional members.

Just prior to the organizational meeting there were 76 members. A few joined at the meeting and other additions since bring the total membership to 93 and fund to an even \$19,000 as of early Wednesday.

## Local Scout Troop Wins Contests at Lake Texoma Camp

Fifteen members of Muenster's Boy Scout troop and their Scoutmaster Nick Miller report a week at Scout Camp time well spent. They were among 215 boys from 11 troops in the Circle Ten Council on the outing at Lake Texoma. And they won honors in two contests with stiff competition.

Every day was packed with training and fun. Each morning and afternoon brought specific training sessions and each day included two general swim parties.

Monday's instructions featured swimming and rowing; Tuesday, rifle range and water safety; Wednesday, Scout craft and archery; Thursday, canoeing and nature study, Friday was a free day, the boys selecting their own favorite entertainment; and Saturday morning was contest time.

The local boys took honors in two contests. They were first in knot tying with Tommy Hartman and Charles Sicking, and second in archery with Donald Rohmer and Roy Hartman.

The Hartman brothers, Tommy and Roy, are candidates for the Order of the Arrow and participated in a preliminary initiation conducted at camp. It was an impressive night ritual.

One night of the week was visitors' night and Messrs. and Mmes. John Mosman, Arnold Rohmer and Pat Hennigan drove over to see their sons and inspect the campsite.

Boys spending the week at camp were Dale and David Bayer, Tommy and Jerry Mosman, Roy and Tommy Hartman, Pat Hennigan, Donald Rohmer, Charles Sicking, Randy Wimmer, Tommy Lee Swirczynski, Daniel Yosten, Danny Wilde, Jerry Taylor and Ray Wimmer.

## WITH THE MEN IN SERVICE

## Muenster Asks for Local Option Vote On Wet-Dry Issue

A local option election to determine whether the sale of alcoholic drinks shall be legal in Muenster can be expected in the near future.

Now being circulated is a petition requesting the Cooke County Commissioners Court to order an election for that purpose. As of Wednesday the petition had about 150 signatures and the plan is to get it completed in time for presentation to the commissioners at their next regular session on Monday, August 10.

The law requires 25 percent of the number voting for governor in the 1956 general election as the number of signatures needed to complete the petition. Since the city did not vote separately then the requirement is based on the total votes of the north and south Muenster Towns. That was 685, so the goal for this petition is 171 signatures . . . plus several extras in case some of the signatures are not in order.

Each name must be checked against the current poll tax list. If it is not found there exactly as shown on the petition it must be crossed off.

If the petition is found to be in order the commissioners are required to order an election within 20 to 30 days. After the election a period of 30 days is required in case anyone wishes to contest the outcome.

The decision to get going on (Continued on Page 8)

## 90 Year Mother of Mrs. Steele Passes

## Mrs. Herb McDaniel Named President of Parish NCCW Unit

New president of the parish NCCW unit is Mrs. Herbert McDaniel. She was elected to replace Mrs. Ted Gremminger, resigned, at the August meeting of the St. Anne's Society Sunday. At the meeting Mrs. Gremminger gave her final report on activity of the NCCW during the time she headed the organization.

In other business members set August 23 as the date for the annual shower for the Benedictine Sisters and gave a report on canning for the Sisters during the past weeks. Twenty bushels of peaches, several bushels of blackeye peas and of cucumbers have been canned or put in the deepfreeze and the next canning project will be tomatoes.

Mission report by Mrs. Joe Swirczynski gave a resume of the work during June and July. Four hundred pounds of clothing was shipped to needy missions, orphanages and hospitals. She asked members to be thinking about the annual Thanksgiving clothing drive and to bring what they have to her home any time. She also asked for religious leaflets, booklets and small magazines, holy cards and religious Christmas cards.

Thanksgiving picnic was mentioned and members were reminded to get their gifts ready for the Country Store.

Father Christopher met with the group and addressed a few words to the assemblage. He showed the diploma of affiliation, listing the organization's membership in the Confraternity of Christian Doctrine. The society has been affiliated for 65 years.

## THEY HAVE JUST BEGUN TO FIGHT US

No matter how concerned we may be about what the Communists are doing to us—at home and abroad—we are forced to admit that keeping up with their activities, above ground and beneath, is a career in itself.

Under the modern pressures of making a living, finding a little time for family life and performing even the most essential duties of citizenship leaves little time for worrying about a conspiracy, however ruthless and tireless, that is directed against us from the Kremlin, thousands of miles away.

As a result, it is all too human to shrug off the monstrous plot that is enveloping us and to accept the deadly tranquilizer the Reds have prepared for us—that Communism in this country is dying out, that we need not fear

those who are left, even that our Congressional investigating committees are of doubtful value.

In seeking the simplest, most convincing means of alerting his fellow citizens to the vitally important fact that no attitude could be farther from the truth—or better calculated to destroy us—Lyle H. Munson, publisher and patriot who has spent his adult life fighting Communism, has just compiled a pocket-sized indexed "distillation" of quotations from official Government documents entitled, "For the Skeptic". (Post-paid \$3, The Bookmailer, Box 101 Murray Hill Sta., New York 16, N. Y.)

While it should convince the most stubborn unbeliever, it is not just for the skeptics. It is for everybody. Into its less than 200 pages, Editor Munson has compressed the highlights of 22,000 pages of official testimony, which, he notes, reflect millions of man-hours of toil by members and staffs of the various investigating Committees—for whose work Mr. Munson prays encouragement, extension and enlargement.

This editor notes in his introduction that "the FBI is precluded, by law, from publishing such reports, the Executive Branch has generally refrained from doing so, and the judiciary has shunned doing so". He might have added that too many of our biggest publishers have the cynical attitude that the day of

## DON'T DIE - GIVE YOURSELF

By Rev. J. J. Gallagher, Assistant at Baltimore Cathedral

Even many sincere, prayerful people have many difficulties with discouragement and depression, with a sense of loneliness and feelings of inferiority. What keeps them from a happy, serene maturity? Simply the fact that they are starving their personalities.

WE DO too many things half-heartedly. We withhold our enthusiasm from life lest we fall or be hurt or disappointed, or because we have not gained the applause we needlessly hanker for. We fail to make real contact with life and with other people. This retreat into a safe but barren shell necessarily starves our emotions and creates a vacuum. Then irrational needs rush in.

If we don't have wholesome pleasures we will begin to seek unwholesome ones. These damaging pleasures are not always of an alcoholic, sexual, or gluttonous nature. They may be the dangerous kind of delight found in self-pity, in isolating ourselves from those we want to punish.

THE POINT is that we starve our personalities by protecting ourselves too cautiously. We should never forget that life will nourish us if we give ourselves bravely to

it. If we would only put our hearts into whatever occupies us — our jobs, our prayers, our friends, our hobbies — then we would enrich ourselves with those saner pleasures God wants us to enjoy.

Many people think they will begin to live once they solve their problems. Actually, we solve our problems by living. But we must give in order to live; we must lose ourselves if we would find ourselves. Give your heart, give your care, give yourself. Such is the antidote to stagnation and decay.

The two main bodies of water in the Holy Land illustrate this law of life and death. Both seas are fed by the same source, the River Jordan; yet they differ like night and day. The Sea of Galilee is brimming with life and beauty. The Dead Sea is just that: dead. No life can survive its salty waters. How explain the difference?

FOR EACH drop of water the Sea of Galilee gets from the north, it gives up a drop at the south. It lives because it gives. The Dead Sea, however, has no important outlet. It takes but does not give, and so it dies.

These two seas are like an immense footnote on those puzzling words of Jesus Christ: "He who saves his life will lose it; but he who loses his life for My sake will save it."

† Paulist Features Service, Washington 17, D. C.

Paul Revere is over—and that details of a local sex-crime will sell more papers. But he does call to mind the fundamental reason why every American should read these pages:

"How little any of us would know about our Communist enemy," says Mr. Munson, "if this Committee work had not been done!"

### THE MAN AT THE LATHE

There has probably been more discussion of the inflation problem than of anything else except the international situation. Much of the discussion has been informed and wise. But almost all of it suffers from a big weakness. It is carried on in statistical terms—billions, tens of billions, and hundreds of billions of dollars—that only a tiny, specially educated minority of the people can even begin to comprehend. In other words, it just doesn't come down to life and living as we understand it.

President Eisenhower realizes this. Some time ago he spoke, extemporaneously to a group of magazine editors. His subject was saving the dollar. And in the course of his remarks he said: "... Today, think of the man at the lathe, the drill press, who is earning money which he is putting away in his pension with his company or into an insurance policy. If we today cannot assure him that forty years from now he is going to be able to have a good living left, then I say, sooner or later, he will quit buying insurance policies, he will not have any confidence in the government bond; and he will not think very much of his pension."

Later on, the President added that, if we have more and more inflation, "it won't be the rich that will be suffering. Instead it will be all those millions who with their hands and brains,

typewriters, shovels, and all the rest, are producing the wealth of the United States. . . ."

Inflation destroys material values, as everyone knows. But infinitely more important is the destruction of human values.

### WHY CUT YOUR OWN PENSION?

Every time you and other workers demand and get a wage increase without earning it by higher production, you are the real sufferer. The higher wages raise costs which must increase prices. So your pension when it comes will buy less—exactly the same effect as though the pension check were smaller.

The same unearned part of the wage, cuts the value of your account, your life insurance, your bonds. It raises the bill at the grocery store but gets you no more groceries.

The word for it is Inflation. The result of it is chaos—for millions, poverty.

**WHY DO WITHOUT A LITTLE LUXURY LIKE THIS... LET ALONE**

**THESE BIG CHEVY VIRTUES!**

**bigger brakes**  
Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NASCAR\*-conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

**award-winning engines**  
The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines . . . for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

**full coil ride**  
You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: ". . . the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

**fresh styling**  
POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling . . ." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

**greater roominess**  
Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

**bigger savings**  
Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

**higher trade-in**  
N.A.D.A.\* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.

**AUGUST 4, 1939**  
Conrad W. Walterscheid, former resident, dies after long illness; funeral services are held at Tishomingo, Okla., and burial is here in parish cemetery. Twenty-five model planes will be in an air show here Sunday. Directors approve and members will vote on new FMA Store at estimated cost of \$4,000. City street lights along Main are burning again after long black-out. Clara Pels and Paul Walterscheid are married. Ralph Richards hosts barbecue for city council and drilling crew and their wives to mark completion of new city water well.

### 15 YEARS AGO

**August 4, 1944**  
Lindsay is host Sunday for one-day convention of Catholic State League district meeting. J. I. Welch, 75, former Muenster resident, dies at Gainesville. Civic League and Garen Club and 4-H Club members have joint demonstration and picnic. George Angerer, former long-time resident here, dies in Slaton. Lt. Albert Hoehn is on leave after seeing action in battle on the Marshall Islands and Siapan. Albert Henscheid has assumed the job of permanent electrician at the cheese plant. The Schmitz brothers in the service, Leonard and Freddie, write about seeing each other in England.

### 10 YEARS AGO

**August 5, 1949**  
Muenster was fogged with 100 gallons of DDT solution this week to eradicate flies, mosquitoes and other insect pests which might carry polio, and other hot weather infection. The recent consolidation of Muenster and Valley Creek school districts becomes official as the newly formed district holds a special election on its tax and bond issue but voters take little interest polling only 46 for and six votes against. Community Lumber Company schedules formal opening for next Saturday. Cupid hits mark four times this week; exchanging wedding vows are Elfreda Luke and R. N. **SOIL CONSERVATION DISTRICT NEWS**

The Upper Elm-Red soil con-servation district is one of more than 2,800 such districts throug-out the country being honored by issuance of a commemorative soil conservation stamp by the post office department.

The stamp will be issued Aug-ust 26 at Rapid City, S. D., at the annual meeting of the Soil Con-servation Society of America, and will go on sale at local post of-fices soon thereafter. The stamp, in 3 colors, depicts a modern con-servation farm, and is of 4-cent denomination.

The Upper Elm-Red soil con-servation district was organized by local farmers in 1942. The district now has 4,474 cooperators, of whom 2,987 have basic con-servation plans.

The district is governed by a board consisting of Rush Free-man of Southmayd, Tony Walter-scheid of Muenster, Willard Kemplin of Valley View, John Crownover of Nocona and E. C. Chandler of Bowie.

Here are some of the accom-plishments made by the district and its cooperators this past year: Contour farming, 3,070 acres; Crop residue utilization, 11,416 acres; Rotation Hay and pasture, 6,864 acres; Brush control, 5,343 acres; Waterways, 109 with a total of 310 acres; Terracing, 102 miles; Pond construction, 198 and Di-ersion construction 8 miles.

were held in Mexico City in 1955. Mexican Scouts delivered the torch to the border at Laredo on August 4.

Meeting at a specified assem-bl-ing point the runners will be met by an Air Force vehicle which will disperse them in one-mile intervals along the relay route. After running a specified distance the runner will drop to the side of the road, out of the way of traffic, and a second vehicle will pick him up and carry him to the next assembling point, from where he will return home.

Travelling with the runner will be two official Pan-American Games cars, one in front of the runner, the other following at a safe distance with a sign on the back reading "Slow! Boy Scout ahead carrying torch to Pan-American Games." The Highway Patrol will also assist in assur-ing the Scouts' safety along the relay.

Sapp of Scottsdale, Arizona, who could not be pre-sent this year.

### Local Option - - -

The local option election came just a few days after the Texas Supreme Court handed down its final ruling that a wet city or precinct can exist within a dry county. A group of local men met last Saturday to prepare an application for the petition. The application was submitted to the County Clerk Monday and the petition went into circulation promptly.

In keeping with previously expressed preferences the application was for sale of beer for consumption on the premises plus package store sales of beer, wine and liquor . . . the full scope of alcoholic sales permitted by the state of Texas. It further calls for a city election and specifies that the sales shall be legal only within the city limits of Muenster. The purpose of the latter provision is to avoid establishments in rural areas which are not subject to jurisdiction and control of the city government.
