

MUENSTER ENTERPRISE

VOLUME XI

MUENSTER, COOKE COUNTY, TEXAS, FRIDAY, JULY 11, 1947

NUMBER 33

Those who entertained visions of lower prices had a rude awakening Monday when John L. Lewis closed the contract giving soft coal miners the unprecedented raise of \$3.50 per day — an actual cash raise of \$1.20 per day and other benefits amounting to almost twice that figure.

With that raise in effect there are only two factors which could possibly prevent a sharp increase in coal prices. Either operators will have to absorb the higher cost or workers will have to increase their productivity by about 25 per cent. A very remote possibility in either case, so we'd better expect a raise of 75 cents to a dollar per ton.

However, that is only the beginning. We learned long ago that the clamor for higher wages is contagious. Next we'll be hearing from steel workers, automobile workers and every other kind of factory workers, from carpenters, plumbers, railroad men and all the rest. They can't bear the thought of miners have a better deal than they have, so we can expect increases in everything else to keep pace with the rising price of coal. After a while prices will climb so high that miners will demand another raise to keep up with the higher living cost. Then they'll ask for more and probably start another loop on this crazy inflation spiral.

Just imagine, miners are now receiving \$13.05 per day in cash plus over \$2.50 per day in retirement benefits, etc. Over \$15 per day, over \$75 for a 35 hour week. Many a business man with thousands of dollars invested and working twice as many hours a week doesn't earn as much. The average school teacher's annual salary runs about half as high. White collar workers are little better off than the teachers. Even government employees, except in the higher brackets, receive less money. It is even doubtful whether the average doctor or lawyer realizes the same net earning the miner does.

It isn't that we begrudge the miner a decent living, but we can't refrain from observing that our economy is radically out of gear when it penalizes thrift and ambition. Teachers, doctors, lawyers, accountants, engineers, chemists, clerks, individual business men, and all the rest known as the white collar class had to spend time and money acquiring their skill and knowledge to hold down their jobs. In addition to that many had to spend years of hard work and sacrifice acquiring what working capital they now have. But a miner can be an illiterate without a dime's worth of capital and realize a higher net income per day.

What going to become of free enterprise in this country if that crazy trend continues? If thrift and ambition are penalized the incentive to learn and save and invest are gone, and the inevitable result is a drift toward state ownership of all productive property. When that happens we can expect the same standard of living now found in socialistic and communistic countries. And, ironically, that's when day laborers, like miners, will be in a really sad fix — far worse off than they were a couple of generations ago when industrialists held sway. In a country like Russia workers are plain slaves while upper bracket party leaders live like kings.

Another sad result of this development is the virtual confiscation of years' of savings. What it does to some today is little less severe than what it threatens to do eventually to the entire country. We have old people reduced patcally to destitution because the money they laid aside by years of sacrifice has fallen to a mere fraction of its former value.

There was a time when an aged couple could retire in comfort on 10 or 15 thousand dollars. The money could be invested and earn 600 to 900 dollars a year, which, at old prices, provided generously for their simple wants. Today the return is less and the requirement is greater. The same standard of living would require at least four times the investment. How many, under our former level of prices and wages had the opportunity to accumulate that much?

Let's hope that we'll somehow find our way to return to a sensible economic level and restore comfort and security to the millions of Americans who depend solely on their earnings of yester-year.

We had a way to come out of the confusion and we still have a way but it calls for a complete reversal of our present trends. Increased production at the same wage would have forced lower prices after which wages could have taken a small cut. There could have been a downward spiral of prices instead of an upward spiral. In spite of all

(Continued on page 12)

Extensions, Grading And Oiling Included In City Street Work

The most extensive improvement project in several years is under way on Muenster's streets at this time. It consists of opening new streets, grading and oiling. All grader work is being done by Commissioner Earl Robison's maintenance crew.

There are three new streets. One is a two block extension of Fifth Street starting one block west of Main. Another is a two block extension on Second from Pecan to Sycamore — Pecan is three blocks east of Main. The third is a two block extension from Fourth to the cemetery.

Oil is being applied as far as it will go on the gravel streets carrying the heaviest traffic. The oil is basic sediment collected from storage tanks at the refinery. A special truck and operator from Bowie has been engaged to spread the oil and Precinct 4 maintainers are doing the surface work which consists of mixing the oil into the gravel and blading the smooth surface.

Streets being favored are Oak from the Parochial school to the highway, four blocks on East Third starting at Main, and the most heavily sections of First, Second, Pecan and Elm. If the supply of oil is not exhausted by then other streets will get the same treatment.

Notes On Soil Conservation

Several cooperators of the Upper Elm-Red Soil Conservation District are getting a cash crop by harvesting their vetch seed. Alphonse Luke, Al Hess, Joe Starke, J.A. Klement, George Bayer, Harry Fisher, and Paul Fisher harvested vetch the past week. Average yields are about 200 pounds per acre, allowing a gross cash income of \$32.00 per acre at 16 cents per pound. John Hartman, local cooperator, plants vetch for its value as pasture and a soil builder and figures any income from seed as profit.

Considerable difficulty was encountered in combining pure stands of vetch. Cooperators planting vetch this fall are in the market for Abruzzi Rye and Superphosphate Abruzzi Rye, mixed with vetch, gives additional winter grazing and holds the vetch off of the ground, allowing direct combining without loss of seed. Superphosphate, applied under vetch and rye, increases the amount of grazing and seed yields.

J.A. Klement, local conservation group leader, states, "My oats was best where overseeded to Hubam clover and phosphated."

Henry Pick is mowing his pasture for the second time. Other co-operators who mowed this week are, J.A. Klement, Joe Fisher and A.E. Thompson.

R.M. Zipper, cooperator in the Muenster Conservation Group, has fifteen acres of Sudan up to a stand for late summer temporary pasture.

Joe and John Kleiss, cooperators in the West Muenster Conservation Group, combined approximately 2500 pounds of Madril sweet clover seed from several acres, last Friday. At thirty cents per pound, combine run seed, the gross income is \$750.00 for seven acres.

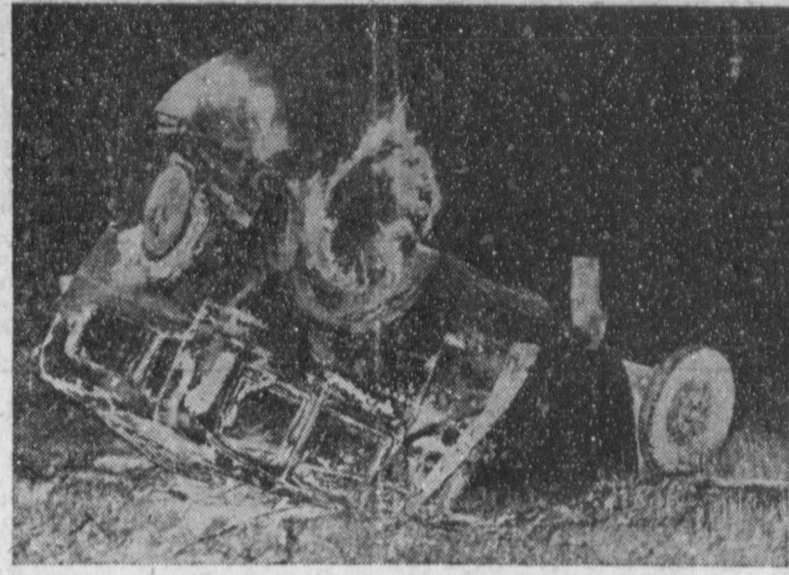

GI Insurance Deadline Is August 1; Terminal Leave Deadline is September 1

Unless further action is taken by congress, veterans of world war II have only to August 1 to reinstate their GI insurance, Ed Merzbacher, veterans' service officer for Cooke county, said Monday.

After August 1, unless the date is changed, physical examinations will be required to reinstate policies. Two premiums, one for the lapse in time and one to make the payments current, must be paid.

September 1 is the last day to file for unused leave. Mr. Merzbacher also observed. His office in the courthouse is available to veterans for assistance in making out their applications.

Mr. and Mrs. Pete Koelzer are the parents of 10 pound, 10 ounce boy, born at the local clinic on July 4. The baby was baptised Sunday afternoon by Father Herman, assisted by Mr. and Mrs. Pete Prescher of Gainesville as sponsors. He has been named Melvin Eugene and is the grandson of Mr. and Mrs. Gus Sicking, Muenster, and Mrs. John Koelzer, Hereford. He joined a family of three brothers and four sisters.

A driver who was not breaking any law, and two passengers with him, burned to death in this inferno when a reckless overtaking motorist tried to pass their car where the way was too narrow. His engine rammed into the gasoline tank, setting it afire, and the car was knocked off the road, end over end into a field, where it quickly turned into a molten furnace. The lawbreaker himself was not injured — such is the irony of highway accidents. National Conservation Bureau safety specialists report that improper passing ranked fifth as a cause of motor vehicle deaths last year; most often it was combined with excessive speed which accounted for at least 8,000 fatalities.

BALL TEAM WINS TWO FOR LEAD IN SERIES WITH BEZNER CHICKS

In their only two softball games of the week Muenster softball boys evened the series with the Bezner Chicks last Wednesday night and gained a one game lead Monday. Both were close contests helping to make the series the most popular one local fans have enjoyed to date. Another significant factor is the acquaintance of spectators and visiting players. Most of the Chick players are well known here.

Wednesday night's game, like the series opener, was a close game with neither side being able to get a comfortable margin. It was anybody's game until the last out when Muenster happened to be ahead 10 to 7 in spite of trailing 9 to 8 in the number of safe hits.

The next was a see-saw affair ending 10 to 9 for Muenster. Tied in the sixth the local boys added one tally in their half of the final frame and succeeded in holding the Chicks scoreless in their turn at bat. Most of the credit for the win goes to Cecil Cain who supplemented his steady pitching with two homers the first of which brought in two runs ahead of him.

Sunday the boys had another regular baseball game with Cap's Corner team. The visitors started strong with 5 runs the first two innings but from there Muenster's defense held until the eighth. In the last of the ninth Muenster scored 2 to tie the count. Cap's Corner scored its winning runs in the first of the tenth. Final score was 8 to 6.

County Superintendent Announces Deadline For School Transfer is Aug. 1

July is transfer month. H. H. Moss, county school superintendent, pointed out Monday.

It is the last month in which parents can transfer children from a school in one district to that of another, August 1 being the deadline.

"It isn't necessary," Mr. Moss stated, "to obtain a transfer from one school to another in the same district," adding that often some parents in the city were under the impression that transfer blanks had to be obtained in transferring their children from one ward school in the city to another.

He likewise revealed that the county schools, with possibly two or three exceptions would adopt the state salary schedule for teachers as recommended by the state legislature, salaries to range from \$2,007 to \$2,880, with principals receiving a substantial increase over last year's salaries.

Postal Department Says No More Tobacco to Germany

Mailing of tobacco in any form to Germany, for either military personnel or civilians, is prohibited by a recent postoffice department ruling. Postal employees have been directed to refuse to accept any parcels addressed to Germany if the parcels contain cigarettes or other tobaccos, and to question mailers of all packages for Germany about the packages' contents.

Military government authorities have tried for some time to stamp out a lucrative black market in tobacco in Germany but have been hampered by the free passage of such products through the mail.

Mrs. John Furbach dove to Wichita Falls last Thursday to meet her husband at the airport. Mr. Furbach had spent the week in Amalillo on business.

THREE RECEIVE MINOR INJURIES AS CAR HITS BUILDING HERE JULY 4

Muenster contributed to the nation wide list of holiday car crashes last weekend but not to the casualty list, when three persons escaped with superficial injuries as their car ran headlong into a building. C.L. Williams, Jr., received severe gashes above and below his right eye, requiring 18 stitches, and Mildred and Adeline Dieter of Lindsay received bruises.

The accident happened at about 7 o'clock Friday evening as the trio came into Muenster from the east. The driver, one of the girls, intended to turn north on Hickory but thought the street was between the Becker Station and the Kaiser-Frazier building instead of beyond the Kaiser-Frazier building. After realizing her mistake she failed to get the car under control.

The front door, door frame, masonry and several blocks of structural glass of the building were smashed and the car's entire front end was demolished.

8 Agriculture Students Begin Fertilizer-Legume Soil Building Projects

With the arrival of a cart load of 20 per cent superphosphate 8 members of the Muenster GI vocational agriculture class started this week on soil building projects. Instructor Hugh Barnhart stated Tuesday. Combined they are using a total of 13½ tons of the fertilizer on their legume crops.

Three members have started a detailed dairy herd record. They keep daily weights of each cow's production and run butterfat tests monthly under the supervision of their instructor. The record will reveal each animal's earning power and serve as a basis for culling out the non-profitable cows.

News Of Sick And Injured

Jacob Pagel, Sr., is a patient at M & S hospital in Gainesville since Monday for observation and treatment.

Mrs. W.T. Richter is improving this week after a recurrence of illness that afflicted her during the weekend and was especially severe Sunday.

Miss Agnes Felderhoff has been moved from Gainesville Sanitarium to the home of her parents, Mr. and Mrs. John Felderhoff, and is recovering slowly from rheumatic fever. She says many thanks for the cards and flowers while she was in the hospital.

W.T. Richter, who sustained a sprained left shoulder and wrist in a fall last week, has discarded his arm sling and is able to do his usual work.

Henry Felderhoff is recovering normally at Gainesville Sanitarium from an operation for acute appendicitis performed Sunday afternoon at 1 o'clock. He is the son of Mr. and Mrs. John Felderhoff.

Frank Kaiser was back in Sherman during the week for treatments for his left eye which has been causing pain and discomfort. He underwent an operation on the eye lid several months ago.

J.J. Hunter's right eye was closed Tuesday and Wednesday as the result of five bee stings sustained Monday night while working with his hive.

Mrs. Joe Luke is improving from an illness that sent her to the hospital for three days for penicillin treatments. She has been confined to her home during the week but expects to be out and around as usual this weekend.

Herbert McDaniel who is at Glen Rose for his health is improving satisfactorily, according to his wife who visited him Sunday. She was accompanied by his mother. They also visited with Mrs. Wm. Bergman whose health is improving during a visit at the resort. Returning to Muenster Mrs. McDaniel and her husband's mother were accompanied by the former's niece, Miss Bernadine Knoff, who had spent a week at Glen Rose.

Mr. and Mrs. M.H. King had as their guest Saturday his sister, Miss Lucille King of Graham, who went on to Myra to spend Sunday with her parents, Mr. and Mrs. Howard King. Miss King is home demonstration agent for Young County.

Sister Leonarda returned to Muenster Sunday after a visit at the motherhouse in Jonesboro, Ark. She was accompanied by Sister Thomasina, who will spend two weeks with her parents, Mr. and Mrs. John Walterscheid, and Sister Justine, who is visiting the local Sisters.

Threshers Near End Of Harvest As Dry Weather Continues

This community's 1947 grain crop is practically under control. As the end of the week approaches only a very small percentage of grain remains unthreshed and approximately one fourth of the rigs are back in the shed.

According to reports reaching local grain dealers about half the machines will finish before the weekend and all are expected to finish next week. Grain receipts have dropped to about 10 per cent of the peak volume.

As the season advances, continued reports on yields indicate a normal crop for the year. Wheat averages are 12 to 15 bushels per acre and oats averages between 30 and 40.

In spite of a few alarming days two weeks ago, the weather for the entire season has been almost ideal. Persistent rains for several days were followed by excellent drying weather which rescued the grain before serious damage could set in. No cases of sprouting were reported, thresher wheat lost none of its test and combined wheat lost only about two points.

With the exception of those who still have grain in the field, most of the community is ready for another rain. It would brighten corn and feed crops besides improving plowing conditions.

RATS ARE ANNOYING, DESTRUCTIVE, SPREAD AT LEAST 6 DISEASES

Austin — Because of the economic losses they cause to industry and commerce and the annoyance they create in homes, rats have been considered a serious menace to mankind since long before their role as vectors of disease was understood. Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. Geo. W. Cox, State Health Officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm, and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

"It is necessary to public health," Dr. Cox said, "that a continuous rat control program be maintained in every urban and rural area through out Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats, like other living things require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places requires the rat-proofing of buildings and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in ratproof buildings or in ratproof containers, the proper storage and disposal of garbage, and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradication of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

JACK BIFFLE BREAKS LEG AS LASOED BRONC TUMBLES HIS MOUNT

Jack Biffle has three fractures, in the shin, ankle and foot of his right leg, as a result of an accident at the Marietta rodeo last Friday. The injury occurred when Biffle failed to get his leg clear of a falling horse.

As pick-up man he had been helping riders off the broncs after their time was up, then driving the riderless broncs out of the arena. One horse was reluctant to leave and Biffle threw a loop over its head to lead it away. The rope jerked taut pulling Biffle's mount off balance and causing the fall that caught Biffle's leg.

Though wearing a cast he has been up and about since Tuesday.

Mr. and Mrs. Bob Hinton and two sons of Redondo Beach, Calif, spent the holiday weekend here as house guests of Mr. and Mrs. Al Walterscheid and visited other relatives in the city. They were enroute to their home after a visit in Coffeyville, Kansas. Mrs. Hinton is the former Miss Regina Franken.

Local NEWS Briefs

The Gus Hellmans have a new Dodge coupe purchased from F.E. Schmitz Monday.

Anthony Luke and Father Herman Laux spent Monday in Dallas on business.

J. B. Wilde made delivery of a new '47 Chevrolet truck to Ben Jones of Forestburg this week.

Mr. and Mrs. Jerome Pagel and children spent the 4th at Forest Park in Fort Worth on an outing.

Miss Clara Richter of Dallas spent the weekend with her parents, Mr. and Mrs. W.T. Richter.

Mr. and Mrs. John Wieler and daughters visited in Sherman Sunday.

Mrs. Opal Jones of Athens spent the 4th and weekend with Mr. and Mrs. Jim Cook.

Mr. and Mrs. Val Fuhrman and Emil Romer and Miss Rosalie Beyer of Lindsay spent Sunday at Lake Texoma on an outing.

Mr. and Mrs. Henry Selby and daughter of Denton were here for a visit with her parents, Mr. and Mrs. Henry Branham, Friday.

Catholic Daughters of America are reminded of a regular meeting this Friday in the K of C hall at 8 o'clock.

P.W. Hellman of Tulsa stopped here Wednesday night for a visit with the G.H. Hellman and J.M. Weinzapfel families.

Joe Snow has joined the personnel at Ben Seyler's garage and is employed in the mechanical department.

Mr. and Mrs. Ervin Hamric had as guests Tuesday Mr. and Mrs. Eddie Paramore and two daughters of Salem, Ill.

Pvt. Weldon Wylie of San Antonio spent the 4th and weekend with his parents, Mr. and Mrs. W. B. Wylie.

The George Gehrig farm home is receiving a complete remodeling and refinishing program inside and outside.

Miss Donna Hogan of Fort Worth is spending the week with her

uncle and aunt, Mr. and Mrs. Dick Cain.

Misses Ida, Margaret and Dorothy Rohmer of Fort Worth spent the 4th with their parents, Mr. and Mrs. John Rohmer and family.

Mr. and Mrs. Frank Hennigan moved into their new home Monday. They had been occupying an apartment at the Anthony Klement home.

Eunah Walton Ward of Dallas was here Sunday for a visit with Rosa Driever and other friends and spent the night with her mother at Myra. She is a former Muensterite.

Mr. and Mrs. Al Horn of Harlingen spent the 4th and through Monday here with his parents, Mr. and Mrs. J.S. Horn, and at Lindsay with her parents, Mr. and Mrs. John Schmitz.

The Jack Hoehns of Howzeville announce the birth of a daughter Sunday night. The baby is the granddaughter of A.T. Hoehn of this city.

Miss Rosalee Muller and her cousin, Miss Rose Mary Schmitt, both employed with Kroger at Denison, spent the 4th and weekend with the former's parents, Mr. and Mrs. Matt Muller and family.

Miss Della Seyler and Frank Seyler of Peoria, Ill., are here this week for a visit with relatives. They are cousins of the late Frank Seyler, of Mrs. Joe Otto and C.J. Bernauer.

Rev. Thomas Weinzapfel who has been assisting with pastoral duties at Sacred Heart church in Texarkana is being transferred this weekend to Saint Edward's church in Dallas, he advised his father, J. M. Weinzapfel, Wednesday.

Mr. and Mrs. Clarence Albers announce the birth of a 7½ pound son, Robert Wayne, a brother for Jerry. The young man arrived at the local clinic on July 2 and was baptised Sunday by Father Herman, assisted by Miss Catherine Herr and John Albers as sponsors. Mrs. Albers is the former Miss Ernie Herr.

Dr. and Mrs. J.H. Payne, former Muensterites, who spent the past three weeks visiting relatives and friends in Cooke county leave Friday for San Antonio for a brief visit before going to Long Beach, Calif., where they will spend several months. Mrs. Payne's mother lives in that city. While here they sold their two farms to Albert Knabe.

Horse power represents the power required to lift a weight of 33,000 pounds 1 foot in one minute or 550 pounds 1 foot in 1 second.

The barber had cut him, nicked him and gashed him.
"Give me a glass of water, please," gasped the victim.
"You aren't going to faint, I hope?" asked the barber in alarm.
"No," replied the victim, "I just want to see if my mouth still holds water."

**SISTER ANSELMA HONORED
ON SILVER ANNIVERSARY**

A reunion, attended by more than 150 members of the Haverkamp families, honored Sister Anselma Sunday evening in observance of her silver jubilee as a nun. The event took place in the parish hall and each family brought covered dishes for a sumptuous six o'clock dinner which was served buffet style.

Sister Anselma, the former Miss Emma Haverkamp, entered the novitiate at Holy Angels Convent, Jonesboro, Ark., on July 1, 1921, and made her final vows on July 2, 1922. She has been stationed at the motherhouse, at the seminary in Little Rock and at the hospital in Hot Springs, and came to Muenster as housekeeper for the local Benedictine Sisters last year.

A daughter of the late Mr. and Mrs. John Haverkamp, Sister Anselma has 3 sisters and seven brothers, all of whom were present

TEMPERATURES**

Pittsburgh, Pa.—

How does heat affect your automobile engine? This huge test engine thermometer developed by Gulf research at Mellon Institute is helping find the answers. The apparatus gives quick temperature data for as many as several hundred points on a battery of laboratory test engines used in fundamental studies of fuel and oil behavior. An engineer here shows a laboratory assistant the multiple temperature record taken in tests run on a single engine.

with their families for the celebration. Those from out of town are Frank from Lindsay and Joe Haverkamp of Gainesville. Also present was the jubilarian's niece, Sister Thomasina, of Jonesboro.

**GET-TOGETHER CLUB MEETS
WITH MRS. PAGEL HOSTESS**

The Get-Together Club was entertained in the home of Mrs. Jake Pagel when the regular monthly social took place on July 2. Four tables were arranged for progressive 42 series and at the end of the games prizes were awarded to Mrs. Al Walter for high and Mrs. Frank Kaiser for low score. Mrs. John Klement won the galloping prize. Birthday gifts from their Sunshine Pals were presented to Mmes. John Hoffman, R.R. Endres and Ben Luke.

A delicious cold plate supper was served by the hostess to members and one guest, Mrs. J.P. Janickl.

**REA DIRECTORS ARE GUESTS
AT BARBECUE THURSDAY**

Officers and directors of the Cooke County Electric Cooperative were guests for their annual barbecue party on Thursday, July 3, at the country home of Mr. and Mrs. Cecil Murphy at Gainesville. Informal diversion was enjoyed following the meal. Personnel included Messrs. and Mmes. Cecil Murphy, Jack Crowmover, J.C. O'Brien, Barney Voth, Joe Bengfort, Al Wiesman and R.L. McNelley.

**MRS. CECIL CAIN HONORED
WITH PARTY THURSDAY**

Mrs. Cecil Cain was compli-

mented with a pink and blue shower Thursday afternoon. Mrs. Ford Noland entertaining in her home. The party rooms were decorated with summer flowers and appropriate games and contests were directed by the hostess.

Following the presentation of gifts to the honoree, Mrs. Noland served a delicious refreshment plate.

The invitation list included Mmes. Joe Parker, Lynton Mitchell, J.E. Lane, Earl Cole, G.C. Gallaher, R. L. McNelley, Jack Biffle, L. Burchfiel, Richard Cain, Ray Evans, Herman Pierce, J.B. Cason, Looney McGowan, J.A. Travis mother, of the honoree, and Angela Laake.

Hesse Brothers have a new Dodge pick-up delivered by F.E. Schmitz.

Mr. and Mrs. Jake Pagel and Mr. and Mrs. J.P. Janickl were Dallas visitors Tuesday.

Grand Champion "Rollo" brings world's highest price paid by C. R. Rew, Manufacturer of Gem Dandy Electric Churns (upper right) at Birmingham Annual Fat Stock Show. The steer was donated to the Cancer Drive by Rew. Pictured above center is 4-H Club member J. Lee Alley, who exhibited the steer, receiving a kiss from his mother, as Gene Autry, who auctioned the steer, looks on.

Grand Champion of the Birmingham, Alabama Annual Fat Stock Show set a world record price for polled Hereford steers, according to announcement made by H. I. Herbert, editor and publisher of International Polled Hereford Magazine.

Grand Champion "Rollo" brought \$5.05 on the auction block. Previous world record was more than \$4.00. The world's highest price was paid by C. R. Rew, President,

Alabama Manufacturing Company, manufacturers of Gem Dandy Electric Butter Churns for farm use. The steer was donated to the Cancer Drive by Rew, who is known as the "Churn King."

"Rollo" was exhibited by 4-H Club members J. Lee and Lawrence Alley of Midway, Bullock County, Ala. The total price, \$5,373.20, will be used by the boys for a college education.

Washington News Letter

By Congressman Ed Gossett

Washington, D.C., July 3 — In a few hours I am flying to Texas with Lt. Gen. Hoyt Sanford Vandenberg, Deputy Commander, AAF, to attend the 14th Annual National Soaring Meet at Wichita Falls on the Fourth, then to Denton for the official dedication of that City's airfield on the sixth. It will be a hurried trip as official business here requires that I be back in Washington on Monday.

Yesterday afternoon I made a talk on the floor of the House summarizing my opposition to the Stratton Bill — the so-called Refugee Bill or Displaced Persons Bill. I have been fighting this in the Committee all along but in view of the volume of propaganda being dispensed over the country by those lobbying for the bill, I felt it necessary to make more generally known the sound reasons for opposing it. That side of the question has not been so widely publicized. Those of us who oppose this bill are not unfriendly to immigration. But this proposed legislation would breach our already strained immigration barriers, and weaken the bloodstream of our country when it needs strengthening as never before. It is to try to awaken this country to the danger that lurks in such legislation as the Stratton Bill that I have taken up this fight to a finish.

The House this week voted 196 to 133 in favor of permitting the Territory of Hawaii to become the 49th state in the Union. All of the Texas delegation voted against the bill.

At its request, Hawaii became a Territory of the United States in 1898. It now has a population of 502,122. Of this number only 11,000 are racially Hawaiians. There are 61,000 part-Hawaiians, 9,000 Puerto Ricans, 30,000 Chinese, 7,000 Koreans, 46,000 Filipinos, 172,000 Caucasians, and 163,000 Japanese.

In the last election only 71,000 voted. And yet if admitted to statehood those 71,000 would elect two United States Senators and one Member of the House.

The admission of Hawaii would provide a strong precedent for the admission of Alaska and Puerto Rico.

The Territory of Hawaii is made up of eight tiny volcanic islands 2,000 miles off the coast. Some 60-odd percent of the population of the island is of oriental origin. Most of the land is owned by a handful of people. It can hardly be expected that the rank-and-file of the people there share our thinking and ideals and have the same spirit of Americanism that typifies the average American. Their interests are different and their background is quite different from ours.

The eradication program of the dreaded foot-and-mouth disease in Mexico is progressing and is proving very expensive. That was expected and cannot be avoided. The Department of Agriculture has asked for \$65 million additional money to continue the slaughter program. Chairman Taber of the Appropriation Committee declined this request pending an inspection and investigation by a Congressional committee. That is now being done. You may recall it was mentioned in a Newsletter several months ago that in 1914 it was necessary to kill 172,222 head of livestock in 22 states when this highly infectious, rapidly spreading disease broke out. It would be disastrous to relax the program at this time, regardless of cost.

Among our visitors this week were Mr. B.W. Saling, of Henrietta, Mr. and Mrs. Walter M. Paschall and Maxie Byrne Dibble of Denton, and Miss Lucille Harmel of Megargel and her friend Miss Ann Combs of Whitesboro, Texas. It is always a pleasure to have folks from home come in to see us.

Grady Chupp and A. V. Grant, both of Nocona, soled at the Muenster Airport on June 30 and July 8, respectively. They had been taking instructions from Emmet Fette.

Mr. and Mrs. J.A. Travis and their son-in-law and daughter, Mr. and Mrs. Cecil Cain, spent Sunday in Ringgold visiting Mr. Travis' grandmother, 83 years old, and other relatives.

Mr. and Mrs. Roland Hart of Charleston, West Virginia, stopped here Sunday for a visit with Mr. and Mrs. J.M. Weinzapfel. The Harts were enroute to Scotland for a vacation visit with her parents.

Mr. and Mrs. Paul Fetsch and two children and his parents, Mr. and Mrs. Ferdinand Fetsch all of Monday, spent the weekend here with Mr. and Mrs. Jos. Flusche and other relatives, returning to their home Monday.

Mr. and Mrs. Jack Fletcher of Wichita Falls came in on the 4th for a visit with his parents, Mr. and Mrs. J.W. Fletcher, and the ladies spent the afternoon at Marysville with Mr. and Mrs. Johnny West.

Dr. and Mrs. T.S. Myrick and son,

Rye Makes All-Winter Pasture

This Balbo rye pasture brought a 50 per cent gain in milk production from the herd of Carl Higgins, whose 160-acre farm is 15 miles south of Nevada, in Vernon county, Mo.

Balbo rye provided continuous lush, green forage throughout the past winter on the farm of Carl Higgins, Vernon county, Missouri, dairyman. The pasture was used on all but six days, beginning in November. A gain of 50 per cent in milk volume was recorded by Higgins' nine Jerseys, over the same period of the previous year—November through April 15.

Success of the 11-acre rye pasture for fall, winter and early spring grazing was shown to 125 farmers at a field day on the 160-acre Higgins farm 15 miles south of Nevada, Mo., April 22. These farmers had seen the field stay bright green all winter.

Last summer Higgins limed the field and fertilized at 500 pounds per acre of 4-12-6.

The rye demonstration was under the direction of John Burkholder, county agricultural extension agent. The cheese plant of the Kraft Foods Company at Nevada cooperated by providing seed, lime and fertilizer.

"I planted the rye in the dust last August," Higgins told the visitors. "We finally got some rains in

late fall and I was able to turn the cows on the pasture on November 28. They have been on there every day since with the exception of a 6-day period in January when we had a severe cold snap."

Plant records showed Higgins' milk production was 12,380 pounds for the period starting last December 22 through April 12 compared to 8,027 for the same period a year before with the same cows. This amounted to about \$200 more on milk checks compared to the same period a year earlier.

"In addition to this," Higgins said, "I believe I made another \$200 because I fed only half as much grain as a year ago and used only 32 bales of hay during the winter, a real saving when hay is selling at \$25 a ton."

The cost of the fertilizer and seed was \$272, an amount Higgins has more than recovered. In addition effect of the lime and fertilizer will be noted for several years to come.

The rye plot has been seeded to sweet clover, as a further demonstration of this type of rotation in a complete, 8 1/2-year pasture system.

Jimmy, Mr. and Mrs. Jack Biffle and sons and Mr. and Mrs. M.H. King were among visitors at the Marietta, Okla., rodeo on the Fourth of July.

J.B. Wilde and daughter, Miss Laurie, took a plane trip during the weekend. Miss Wilde was the guest of Miss Mary Seyler at Lubbock and Mr. Wilde went on to Hereford to visit his brother, Frank Wilde, and then flew to Plainview and Muleshoe for visits.

Hans and Gretchen Rasch returned to their home in Houston Sunday after a visit with their cousins of the Weinzapfel and Tony Gremminger families. They drove as far as Fort Worth with Mr. and Mrs. Hugh Jackson and boarded the train there for the remainder of the trip.

Mr. and Mrs. Matthew Weinzapfel and three small children of Evansville, Ind., spent on Saturday to Tuesday here with his cousins, J. M. Weinzapfel and Mrs. Tony Gremminger. They went from here to Windthorst to visit his uncle, Henry Weinzapfel and other relatives.

Mrs. J.S. Hogan and daughter, Miss Bobbye, and granddaughter, Johnny Sue Hogan, all of Amarillo,

and Mr. and Mrs. T.C. Rhone and sons of Burley, visited here last week with their daughters and sisters, Mmes. Dick Cain and O.Z. Smith. On Wednesday, the visitors, joined by the local group, drove to Decatur to spend the day with Mr. and Mrs. Frank Hogan and family.

Larry Anthony is the name the new son of Mr. and Mrs. Alphonse Reiter received at his baptism Sunday afternoon. He was born at Gainesville Sanitarium on June 29 and is the grandson of Mr. and Mrs. Albert Knabe and Mrs. August Reiter. Serving as godparents at his baptism were Mr. and Mrs. Tony Reiter of Gainesville. Father John officiated.

From where I sit... by Joe Marsh

Fish Bites Woman!

Willie Wells was coming home from Seward's Creek the other evening with a string of trout, when a stern looking lady (visitor at the Boxwood Inn) stops him, and tells him a man his size could be better occupied than catching fish.

Willie tells her off real good-naturedly by saying: "Perhaps you're right, but if these fish had kept their mouths shut, they wouldn't be here." (At that, says Willie, laughing out loud, she looked just as if a fish had bit her!)

Blabbing mouths never cause

anything but trouble. Nobody who knew the facts would ever criticize Willie's right to go fishing on his one day off—any more than they'd deny his right to come home to a mellow glass of beer.

From where I sit, the slower we are to criticize—and the quicker we are to recognize another's tastes, the better we'll get along together—whether those tastes apply to beer or fishing.

Joe Marsh

Local NEWS Briefs

Johnny Furbach and Monte Hellman were Wichita Falls visitors Monday.

Bill Eberhart has gone to west Texas to haul grain during the harvest season.

Miss Juanita Zipper of Dallas was here to spend the 4th and weekend with Mr. and Mrs. Clarence Wilson.

Mr. and Mrs. Joe Gehring of Dallas spent the Fourth with her mother, Mrs. Joe Hirschy.

Herbie Yosten, Jackie Reiter and Tommy Otto spent Sunday at Turner Falls, Okla.

Mr. and Mrs. M.H. King has as guests Sunday her cousins, Mr. and Mrs. Raymond Cimmings of Wichita Falls.

Miss Gladys Wilde who attends summer school at Denton spent the holiday weekend with her parents, Mr. and Mrs. Joe Wilde.

Henry Fleitman left Monday afternoon to spend a few weeks in Colorado with relatives. He will visit the Weske family in Denver and Arkron.

Curtis Martin is the owner of a new 1947 gray Hudson tudor sedan purchased in Gainesville last Thursday.

Bert Fisch and son, Jerry, of Fort Worth, visited here Sunday with Bert's mother, Mrs. J.P. Fisch, and his sister, Mrs. M.J. Endres.

Miss Emily Fette, a student nurse in Dallas arrived Saturday for a three week's vacation visit with her parents, Mr. and Mrs. Joe Fette and family.

Mr. and Mrs. Hugh Jackson of Fort Worth spent the Fourth and weekend here with her parents, Mr. and Mrs. J.M. Weinzapfel and family.

Earl Swingler of Raymondville arrived on the Fourth of July to begin a three-week vacation visit with his parents, Mr. and Mrs. Joe Swingler.

Mrs. John Hellman and little daughter, Sandra, of El Paso arrived last Wednesday for a visit with her brother, Ervin Hamric and family.

Den Mother Mrs. J.W. Fisher took her cub scout pack on an outing at Elm Creek Sunday afternoon. Swimming and a picnic lunch highlighted the affair.

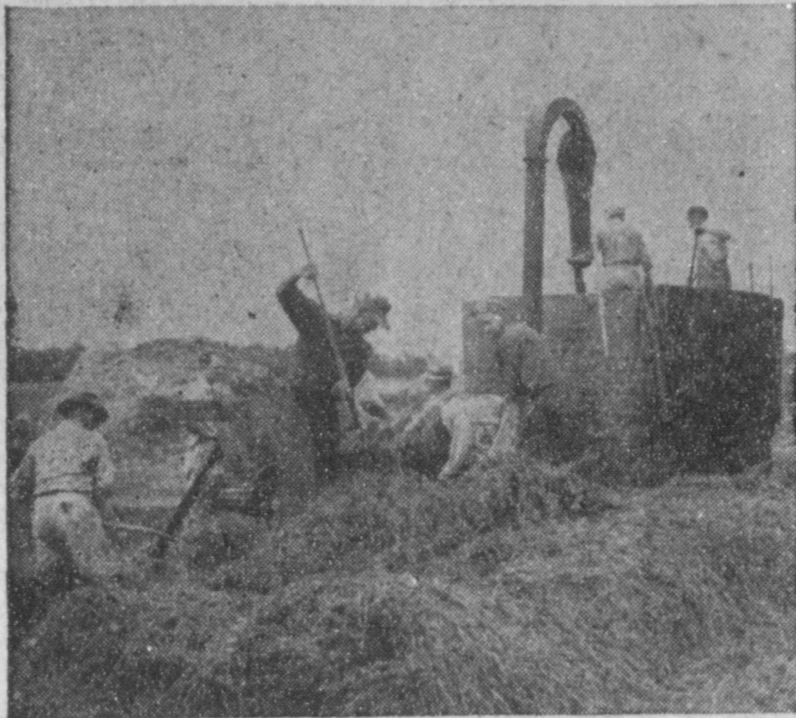

Miss Loretta Hartman, a student nurse in Dallas, spent Sunday night and Monday with her parents, Mr. and Mrs. John Hartman and family.

John Herr Sr. is in Denison to spend a few weeks with his daughter, Mrs. Joe Schnitker and family. Mr. and Mrs. Matt Muller took him by car to that city last week.

Mr. and Mrs. C.J. Fette had as guests for the 4th and weekend their son-in-law and daughter, Lt. and Mrs. Tim Stormer and baby daughter of San Antonio.

Mrs. Rafe McElreath left Sunday for a two weeks' visit with her parents in Perryton. She was joined by her sister, Mrs. Earl McLaughlin of Dallas, who spent the weekend here.

Demonstrate Making Grass Silage

Wire fence and paper make a temporary silo to hold nearly 20 tons of grass silage, in demonstrations conducted by members of Future Farmer chapters in Wisconsin. Alfalfa, brome and red clover mixtures were used. Silage is intended for use in late summer, to show how milk production can be maintained despite lack of pasture forage.

Mr. and Mrs. Terrell Johnson of Dallas were here for the 4th and weekend to visit her mother, Mrs. Frank Seyler, and also visited her sister, Mrs. John Mosman and family at Saint Jo.

Miss Dolly Lehnertz, a student nurse in Fort Worth, returned to her duties Monday morning after being here since the 4th for a visit with her parents, Mr. and Mrs. Joe Lehnertz and family.

Mr. and Mrs. Pete Kappas and son, Pete Jr., of Palm Springs, Calif. are here for a summer vacation visit with her parents, Mr. and Mrs. Barney Voth and family. Mrs. Kappas is the former Miss Mary Voth.

Mr. and Mrs. Ray Evans had as guests Monday her brother, J. W. Dickerson and wife and two children who moved from Benton, Ill. to Magnolia, Ark. to make their home.

Mrs. Iomgene Ozment of El Paso was the guest of Mr. and Mrs. Ervin Hamric Wednesday of last week. She was enroute to Weatherford to spend the weekend with relatives.

Messrs. and Mmes. Stan Yosten and Paul Yosten and daughter of Fort Worth spent the holiday and weekend with their parents, Mr. and Mrs. T. Miller and Mrs. Bob Yosten.

It Happened 10 Years Ago

July 9, 1937

Rural electrification project revives with meeting set for July 14. — Ferd Yosten crashes into Ben Rowe car on Main street Sunday with damages to both autos but no serious injury to occupants. — Lawrence Dankesreiter demolishes his car in Sunday night crash but he and his companion, Bobby Herr, escaped injury. — Eight ceiling fans are installed at the K of C hall. — Best harvest in many years draws to a close. — Fire destroys public school at Lindsay. — Henry Trehta retires from business career after 27 years.

5 YEARS AGO

July 10, 1942

Frank Lutkenhaus, 56 succumbs to long illness Sunday evening; funeral services are held Wednesday. — Delicate brain operation saves life of Sgt. Bud Hoehn after war injury sustained during allied raids over Lae, New Guinea. — Rev. Father Frowin observes 26th anniversary as pastor of Muenster. — Nation's first bale of cotton is grown by John Wilde and Ed Walterscheid of LaSara, formerly of Muenster. — Hilda Sicking and Pvt. Leo Prescher marry here Tuesday morning.

CONSIDER THESE FIVE POINTS WHEN MAKING YOUR DAIRY CHECK-UP

Five check points that are important to Texas dairy farmers right now are listed by the Extension dairy husbandmen of Texas A. and M. College.

The dairy husbandmen believe a check-up on the following items will help boost production:

1. Water supply — cows need more water this time of year. They will drink more if the water is clean, cool and conveniently located.
2. Sour milk — always a problem in the late spring and summer months. Souring can be stopped by producing clean milk and cooling it to 55 degrees Fahrenheit within two hours after milking.
3. Horn flies — pests that occupy a cow's time when she should be producing milk. Horn flies can be controlled by spraying back, sides, legs and bellies with one pound of 50 percent wettable DDT powder in 25 gallons of water.
4. Good, green grass — a cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairymen can make feed last longer by mowing weeds and alternating grazing.
5. Kind treatment — a necessity in the management of dairy

BEAUTY FROM THE BAG

It's easy to brighten up your home for summer by using cotton bags for drapes and covers, as this attractive corner in the home of Mrs. Ray Bollinger of near Memphis, Tenn., proves. Using 175 bags to provide fabric which otherwise would have cost almost \$225, Mrs. Bollinger decorated her home from front to back.

cows, now and throughout the year. Rough treatment and high production are seldom found together on a dairy farm.

The speed of moving vehicles may now be accurately determined by a new device used in cars parked off main roads and highways.

His Contribution

While visiting in Dublin, satirist Jonathan Swift was asked for a subscription by a charitable organization that was planning to build an orphanage. He promised five pounds.

The following day it was announced in the newspaper that he had promised 50 pounds. Furious, Swift voiced his protest to the members of the committee. They offered to print a correction in the next edition of the paper, but the author refused to be subjected to such embarrassment.

"I'll give you the 50 pounds," he said, "on the condition that you permit me to choose the inscription over the main entrance."

This was agreed upon. The inscription chosen by Swift was descriptive and appropriate. It read, "I was a stranger and ye took me in."

No Laughing Matter
Salesman: "These shirts simply laugh at the laundry."
Customer: "I know, I've had some come back with their sides split."

WHERE THOUSANDS DIE!

91 killed—3,150 injured! If that were the report of an explosion, wreck or other disaster, it would be front page news. People would be horrified! But worse—it's just *one day's* automobile casualty list in the United States. It happens every day, week in, week out. *Four deaths, 131 injured—every hour.* At year's end 33,500 lives snuffed out, over a million injured or maimed for life. That's what happened last year. This year's record threatens to be even higher.

Speed—reckless, wanton speed—drunken driving—defiance of safety rules and regulations—and careless, jaywalking pedestrians, top the list of causes for this grim toll.

What can you do about it? Will the speeding wheels of your car add one death to this mass murder of the highways? Not if you, the driver—and you, the pedestrian—take your individual responsibilities seriously. Drive carefully at all times, under all conditions, and be alert when walking.

Don't be one of the thousands to kill, or be killed. Drive safely—and live!

She's a slick chick... knows what's going on and where... her precision perfect NASTRIX Watch gets her there on time, all the time. Nancy's NASTRIX, shown below, is only one of our collection of individually styled NASTRIX Watches—there's a NASTRIX for every member of your family.

The American Way

By George Peck

FORCED VOTING

Representative of the kind of thinking that has taken hold of union labor, is a resolution passed last month at the Eastern Labor Press Conference. The resolution

DR. W.C. DICKINSON
Dentist
110 West Broadway
Phone 1537 Gainesville

DR. A. A. DAVENPORT
CHIROPRACTOR
X-RAY FLUOROSCOPE
Suite 205
Pythian Bldg. Gainesville

urges the Federal Government to require compulsory voting.

The approximately 100 labor editors who approved this resolution said that 20 million labor votes "stayed home" in the last two national elections, contributing to the election of Senators and Representatives now backing anti-labor legislation.

This seems to be an exaggerated estimate, but granted it is correct or somewhere near thereto, then it showed a great lack of interest on the part of those 20 million. One is led to wonder by what manner of reasoning these labor editors figure that a majority of these non-voters would have cast their votes for pro-labor candidates, had they been herded to the polls like so many sheep, ballots thrust into their hands, and forced to vote. Your guess or mine on that is as good as that of the labor leaders.

But the damnable part of that resolution is that it calls on Federal Government to exercise force, Petted and pampered by government which has permitted forcing workers into unions through the instrumentality of the closed shop, and forcing employers through the check-off to act as union collection agents to deduct union dues from the workers' pay envelopes, these labor editors

Given Honor Citation for His Outstanding Contributions to 4-H

J. L. Kraft

J. L. Kraft, vice-chairman, National Committee on Boys and Girls Club Work, was honored at National 4-H Club Camp held in Washington, D. C., in June for his outstanding contributions to 4-H Club work. He was given a citation and a specially designed medallion before 4-H Club members and leaders from 48 States, Alaska, Hawaii and Puerto Rico, attending the seventeenth annual camp. Presentation was made in the Jefferson Memorial auditorium in the U. S. Department of Agriculture.

Mr. Kraft's personal interest in rural youth has led to the annual sponsorship of two nation-wide 4-H Dairy programs by the foods company of which he is chairman. The annual luncheon, at which Mr. Kraft is host during the National 4-H Club Congress, is one of the highlights of the week's activities.

now propose to force citizens to the polls. Force has become an obsession with them.

These labor editors would do well to read the Constitution and the Amendments thereto. The 15th Amendment took the color out of the right to vote and the 19th took sex out of the right to vote. But those Amendments do not read that all citizens of any race, color, previous conditions of servitude or sex must vote — they simply give them the "right."

Amendment No. 1 reads: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof . . ." Now, most of us think it fit and proper to belong to a church, so why not petition the government to pass a law forcing all Americans to join a church? We have the constitutional right to join any church of our choosing, so why not force all American citizens to make a choice of church, and join up? Ridiculous, isn't it. But no more ridiculous than suggesting that citizens be forced to exercise their right to vote.

And then I wonder just how these labor editors think the government could enforce such a law as long as

IT'S UNSPUN

Bonnie Bandy of Memphis shows the latest development in unspun cotton fabrics—a printed napkin which is so inexpensive that it can be thrown away after a single use. Unspun fabrics are made by adhering cotton fibers together with plastic resins.

we have the secret ballot. I hope they have no idea of taking that away from us. A government Gestapo could with armed force drive the reluctant voter to the poll, but unless the policeman follows him into the polling booth to watch him cast his vote, who is to know whether he marks his ballot or not. You can lead a voter to the poll but you can't make him vote.

And now lest anyone should misunderstand me, let me hasten to add that I believe every citizen should exercise his right to vote. Over the years in this column I have repeatedly exhorted citizens to use that high privilege, bought for them at such great cost by our Founding Fathers. But I venture say these same Founding Fathers are now squirming in their graves at the knowledge that there are some American citizens who would use force to make other citizens exercise their voting franchise.

In Sympathy

The voters of a North Carolina county were considering an increase in the schoolteachers' salaries, which would entail a rise in taxes. I asked a farmer who was much interested in the schools what the general sentiment seemed to be.

"Well," he said slowly, "as best I can see it, almost everybody is in sympathy with it, but hardly anybody is in favor of it."

Milk Ranks As Major Food In Diet Of American Home

More than 50 million quarts of fresh milk and cream a day are distributed to consumers through doorstep deliveries and stores. Milk and its products comprise more than 25 per cent of the foods estimated to be consumed annually by the average American.

Milk is one of the largest single sources of cash farm income and was 14 per cent of all farm income in 1945 — larger than hogs, over twice wheat or eggs, and three times cotton or tobacco. Cash farm income from milk was exceeded for the first time by cattle and calves. One out of every 15 U.S. families is dependent on milk for a livelihood.

Milk production on the farms continue above prewar averages and demand for milk and dairy products is strong. As an economical food containing vital components of the diet, the ever-widening use of milk seems destined to bring about an increased scale of milk production on farms.

Americans enjoy the best milk in the world and economical distribution, sanitation, pasteurization and other safeguards have made our system of milk supply and distribution a world standard.

Too Much Harmony

A southern storekeeper, who was also justice of the peace, was sitting in front of his store when a colored man drove up.

"Say, squah," the latter announced, "dat woman you married me to las' week has ten chillun, an' every one of them plays some kin' ob a musical instrument."

"Why, thats a regular band, Mose," replied the justice. "Do you want me to send off and get you a horn, too?"

"No, suh," was the dismal response. "Ah wants to get disband-ed."

Among motorcyclists there is only one accident in every 315,459 miles of driving. Contrary to popular belief they are among the safest of motorists.

Weeds Get the Works

CLEVELAND, O.—This pretty "miss" likes pretty, weed-free lawns, but chooses the easy way by spraying hers with Weed-No-More — 2,4-D and sure death to most weeds — with a new automatic sprayer which fits the screw top of any ordinary gallon glass jug. Like most girls, she prefers swimming or golf to digging out pesky old weeds so does her chores the modern way in a few minutes.

A Word of Difference

The wealthy young matron felt so tired and listless all the time that she wasn't interested in anything. Her doctor — who knew the pampered life she led — advised her to find some kind of work to do. "But doctor," she protested indignantly, "how can you ask me to work when I'm so tired?"

"I know you're tired," he answered. "But if you'd only do something you could become tired from, there wouldn't be nearly so many things you'd be tired of."

OPERETTA AUDIENCE APPLAUDS "FIREFLY"

The State Fair Casino welcomed back two great favorites Monday night. Patrons attending the big outdoor theatre applauded the latest, and best edition of Rudolf Friml's spectacular Firefly and cheered the Casino return of Allan Jones.

The Friml operetta is blessed with an excellent score. Such tunes as "Donkey Serenade", "Giannina Mia", "Love Is Like A Firefly", "Call Me Uncle" and "A Woman's Smile", just a few of the hit numbers from the show, all were received with hearty rounds of applause. The story of Firefly lends itself easily to entertainment with action taking place in New York City and on the Island of Bermuda.

Firefly plays nightly, for one week only, the week of July 7th. In the offing, as the fourth big production of the great season, is the musical No No Nanette, probably one of the best liked shows in the history of the American theatre. Nanette will open a seven night stand at the State Fair Casino on July 14th.

There's A Reason Why Ham and Eggs Go Together

If you want a scientific reason why ham and eggs make such a satisfying food combination, here it is. Scientists of the Bureau of Animal Husbandry have found that proteins of these supplement each other so well that the two supply more nourishment when eaten together than when eaten separately. Previous experiments had shown that the protein in pork enhanced the nutritive value of bread eaten with it. Now it seems that the protein of eggs enhances the nutritive value of the protein in pork.

ALL SHE DOES IS CLOSE A DOOR

Washington — Congress gets many complaints that thousands of Federal employees are wasting their time in idleness and eating up the taxpayers' money.

A typical complaint came from a Richmond, Va., businessman in a visit to the office of the Congressional economy committee headed by Sen. Harry Byrd.

"I learned that the daughter of a friend of mine was working in a Federal office, and was told what she was doing," the business man said. "It couldn't be true, I thought, so I went to see — and it was. It seems there was a door there which had no automatic closing device. This girl sits in a chair by the door, and when someone leaves it open, she closes it!"

You may have heard about the jealous wife in Brooklyn who wrote to her husband, a patient, accusing him of having too much to do with Violet Ray.

Sure Cure

Many irate citizens are complaining to the Better Business Bureau about having merchandise mailed to them that they have not ordered and do not want — and then being billed for it. Not long ago a Chicago physician received such a package with the following letter: "We are taking the liberty of sending you three exceptionally fine ties. Because these ties have the approval of thousands of discriminating dressers, we know you will like them. Please send \$2."

The indignant doctor replied: "I am taking the liberty of sending you \$2 worth of extra fine pills. These pills have helped thousands and I am sure you will appreciate my thoughtfulness in sending them. Please accept them in payment of the ties which you sent me recently."

Three London scientists, F.C. Hyman, G.A. Cambell and H.F. West, have developed a remarkable insecticide soap containing DDT. They have tested this soap on all kinds of dogs and find that it not only kills the vermin immediately, but prevents the dog from becoming reinfested even after being exposed to other lice-ridden dogs.

In 1844 the first telegram was sent over the wires from one city to another. The telegraph line was constructed by Samuel F.B. Morse with funds provided by Congress and amounting to \$30,000. The line went from Baltimore, Md. to Washington, D.C. and in 1866 the United States and England began sending messages to each other.

No fish live in Great Salt Lake, Utah, because the average salinity is almost six times greater than that of the oceans.

10 Year Old Child Wins University Scholarship

Chicago — Adrain Condon, like many other girls, will enter the University of Chicago in the fall. But she'll have an edge on her classmates. She's only 10 years old.

The precocious child, daughter of Mr. and Mrs. David Condon of Chicago, won a two-year scholarship to the university Saturday.

Adrain hasn't decided on a career yet, although she favors music and short-story writing. But right now her biggest interest is base ball. "I like to hit the ball," she says.

REUNION SUPPER BRINGS HORN FAMILY TOGETHER

The home of Mr. and Mrs. J.S. Horn was the scene of a reunion supper Sunday when all of their children were together for the first time in more than a year.

Personnel included Mr. and Mrs. Al Horn of Harlingen, Mrs. Al Swirczynski of Dallas and Messrs. and Mrs. Joe Horn, Al Schad and Jake Horn Jr. and their families, and the hosts.

HAS BIRTHDAY OBSERVANCE

Bert Hamric observed his 12th birthday Sunday with a swimming party at Sherman. His parents, Mr. and Mrs. Ervin Hamric, his brother, Dan, his aunt Mrs. John Hellman and daughter Sandra, Sonny and Bobby Bernauer and Merlin Jo Evans helped him celebrate.

Lt. Comdr. Willie Necker, noted dog trainer, says that one of the best ways to out-buff a vicious dog at night is to stand still and turn your flashlight directly in his eyes. This will temporarily blind him and you will nearly always avoid attack.

Wife — "How many fish was it you caught on Saturday, Harry?"

Husband — "Six, darling — all beauties."

Wife — "I thought so. That fish shop has made a mistake again. They've charged us for eight."

Virtues are learned at mother's knee; vices at some other joint.

MOOS OF THE MOMENT

BY UNCLE BOB

of the Kraft Dairy Farm Service

Grain and Hay Build Milk Volume

Sometime in the next few weeks, probably the condition of native pastures will be such that your cows are going to have to put a bridle on their appetites, since they'll have a tough time getting a bit in their mouths—bit of food, that is.

If that happens, you surely can't hold your milk production high unless you give the cows a good ration of supplementary feed, grain or hay or both. As I said a few weeks ago, cows on pasture need from 100 to 150 pounds of grass daily to maintain milk production and keep them in good health. Pastures have to be good to provide that much.

In the late summer, grass grows more slowly than it does in the spring and the feed value is lower. The good dairyman looks to a balanced ration, to make sure that his cows stay fat and his pocketbook fatter.

Boarder cows will not be worth the cost of extra feed. Guess you can say that boarder cows are not worth their keep anyway, which is another subject. But good cows—cows producing a pound or more of butterfat every day—will pay you back in more milk. The extension services have proved that feeding good cows supplement while the animals are on grass, brings back more dollars in milk than the feed costs.

The Minnesota Extension Service has a table of recommended feeding which is usable anywhere. It tells you how many pounds of grain or how many pounds of high quality hay to feed your cows, based on the breed and the daily production of each cow.

It's something well worth studying and I suggest you write the Extension Service, University Farm, St. Paul, Minn., and ask for a copy of Bulletin No. 218. Send a nickel if you live in some other state.

COWS NEED HELP SWATTING FLIES!

You can get up and chase a bothersome fly around the room but a cow has a bit more trouble using

its fly swatter which, as you have no doubt noticed, is pretty well fixed on the rear.

And fighting flies must be mighty discouraging work for cows. They stamp their feet, swing their heads

and switch their tails endlessly through fly time and probably never kill a dog-gone fly.

But it isn't pity alone that should make us humans concerned about flies on cows. Fighting them, cows use up energy from food that might better go to make milk.

Tennessee Extension made some tests which showed that when cows didn't have to fight flies, milk production went up from 5% to 15%.

Best treatment for insect control is to get rid of breeding places, of course. Removing manure piles, straw piles and other places where flies breed, will help cut down the pesky population. Also, using DDT in wettable powder form, spraying inside the barn and on the animals, will make a big difference.

Follow directions on the package of powder and repeat sprays every two or three weeks during fly time. Talk to your dairy plant, fieldman or county agent on the subject. They have the latest information.

HIGH PROTEIN IN LEGUME SILAGE

Extension service people tell us that legume silage is a mighty good way to store up high protein feed for your cows.

You can lose a considerable part of the protein in hay if weather conditions are not too favorable at cutting and storing time. I suggest you give a lot of consideration to making silage out of at least one hay cutting this year. It's good insurance for winter.

Grass or legume silage can be put in your regular silo or you can build a temporary silo—slat or welded wire fence, trench, box, native lumber or whatever you want. Among preservatives available this year are molasses, corn and cob meal and dried cheese whey.

Reports coming in here show that more and more dairymen throughout the country are turning to emergency silos and grass and legume silage. It is cutting milk production costs, helping raise production per cow by providing more protein feed simply, cheaply.

TUESDAY CEREMONY UNITES JOE TEMPEL AND JOYCE TUCKER

Miss Joyce Tucker, daughter of Mr. and Mrs. John Tucker, and Joe Tempel, son of Mrs. Luke Tempel, were married in a quiet ceremony performed at 8 p.m. Tuesday in Sacred Heart rectory, the Rev. Herman Laux officiating at the single ring ceremony in the presence of immediate members of the family and a few close friends.

The bride wore a white dress-maker suit with a white feather hat and other accessories in white and a shoulder corsage of pink gladioli. She was attended by the groom's cousin, Miss Anastasia Tempel, who wore a gray dress-maker suit with black and white accessories and a pink gladioli corsage.

Ray Tempel, brother of the groom was best man.

After the ceremony those attending gathered at the home of the groom's mother for refreshments.

Mr. and Mrs. Tempel are making their home in the Anthony Klement apartment. He is employed with the Muenster Telephone company. Mrs. Tempel is a graduate of the Muenster high school with the May class. Mr. Tempel is a Navy veteran and saw overseas service in the Pacific aboard the Hornet.

Discussion on Cheese

A reader reasonably asked: "Why is it that Swiss cheese has all the holes when limburger needs the ventilation so badly?"

A Hollywood producer received a story entitled the "Optimist." He called his staff together and said, "Gentlemen, this title must be changed to something simpler. We're intelligent and know what an optimist is, but show many of those morons are gonna know it's an eye doctor?"

"Minding your P's and Q's derives from the old English ale-house custom of keeping books for each drinker, in which P stood for pints and Q for quarts.

Confetti---

the claims of wild economists to the contrary, it would have been better for the whole nation. Measured in terms of money it might have seemed like going backward, but people would have been able to buy more commodities in spite of lower incomes. After all that's what counts. Buying a sack-full of groceries with a hand-full of money is better than buying a hand-full of groceries with a sack-full of money. It's better for us who are still earning and it's certainly better for those who have only the hand-full of money and no earning power.

Some day before it is too late, we hope our economic leaders will wake up and realize we're going in the wrong direction. We're headed up stream, rowing like mad and not getting anywhere while the oldsters without paddles are drifting helplessly backward. Let's change our course. Let's row with the stream and get somewhere and let the oldsters at least drift slowly in our direction.
