

MUENSTER ENTERPRISE

VOLUME XI

MUENSTER, COOKE COUNTY, TEXAS, FRIDAY, JUNE 20, 1947

NUMBER 30

At Fort Worth last Thursday night Hon. Lachlan Macleay delivered the kind of speech that ought to be repeated again and again until every farmer of the country and most other people become thoroughly conscious and alarmed. The occasion was a dinner celebrating the initiation of War Department construction in the Trinity Watershed Program.

The purpose of the Trinity program is two-fold — flood control and navigation. By means of strategically placed dams the Trinity Improvement Association intends to catch flood waters near their source and prevent disastrous floods farther downstream. Then, by releasing those waters later the association intends to maintain a steady stream suitable for shipping.

As far as we are concerned, we can dismiss the navigation feature with a mere mention that it offers wonderful possibilities for the industrial development of Texas. That one purpose would justify the project.

Infinitely more important is the feature of flood control to stop the very frequent disasters costing millions of dollars annually besides an appalling loss of lives.

The speaker did not present figures on Trinity losses but other figures will give an idea on the seriousness of the problem. Mississippi Valley flood costs are estimated at 50 million dollars a year. That's on property loss alone — crops, stock, buildings, roads, etc. In addition, it is estimated the valley loses 750 million tons of soil a year. The value of that soil to future generations is incalculable, of course, but a cold estimate on the basis of fertilizer values places that loss at \$150 million annually. Erosion elsewhere in the nation raises the total soil loss to 3 billion tons annually.

By comparing figures on flood and erosion losses one can easily see why Macleay is tremendously concerned also with soil conservation. Unless means are taken to check water at its source this appalling process of robbing uplands and silting lakes and lowlands will continue until the country is no longer able to support itself.

Because of short-sightedness in previous years, he said, we are now forced to tackle our problem from the wrong end. If rapid flow from fields were prevented by conservation practices, soil would not be moving down stream, rush waters would not be getting out of lakes, and navigation would not have to be supported by controlled release from lakes.

This isn't just theory, either. There was a time when boats moved up and down the Trinity—and water was clear, not loaded with soil.

That's because up-land vegetation checked the first rush of rain water. Clear water trickled through a carpet of leaves and grass or soaked into the ground to feed springs for weeks afterward. A day's rain took several days to run off instead of gushing in a torrent as fast as it fell. The same volume of water moved but it was slow, clear and constant.

Nation wide soil conservation practice can bring a return of that very desirable condition.

Take your choice. You can be alarmed or pleased by news of the new war weapon announced in New Zealand a few days ago.

You can be pleased that the weapon is ours, another big stick to have handy in case of attack by a bully country. Or, to put it the other way, you can be pleased that the weapon does not belong to some other nations. We shudder to think of possible consequences if Russia, for instance, held the technical advantage afforded by such a weapon. Her attitude would be unbearable and a full scale war not far away.

At the same time you can be alarmed because this development marks another step in a gigantic armament contest. Forced by necessity, we are now engaged in full scale development of more and more deadly weapons. We're working feverishly on atomic energy, rocket bombs, faster planes and more powerful guns. Meanwhile Russia is going her limit. Despite the well known iron curtain we get frequent indications that she is armed to the teeth.

The situation is tragic. Before we have begun to recover from the most devastating war in history we start preparing for another and even more destructive war.

As Americans we can be proud

(Continued on page 10)

VFW May Transfer Building Material To Hospital Group

Prospects for Muenster's hospital were bright Tuesday night when directors of the hospital association met with officers of the local VFW post to consider using the veterans' building materials to erect the building.

A tentative agreement reached at the meeting is that the hospital group will buy the material salvaged from a Camp Howze chapel and intended as a veterans' memorial building for \$1875, the amount spent on the original purchase, dismantling and moving.

At this time the agreement is subject to approval by both parties. Hospital directors will first take an inventory to determine whether the material will be suitable and sufficient for their purpose and the veterans' committee will seek a general membership approval on the proposed selling price.

If the deal goes through the hospital association intends to start building as soon as the summer harvest and plowing rush is over and possibly begin operating the hospital before the end of the year.

The style and size of the building will be determined to a great extent by the chapel from which the materials were taken. It was a 40 x 80 frame structure with asbestos siding and a steam heating system. All materials including plumbing and electrical and heating equipment are included in the deal. The principal difference will be in height, the chapel's high ceilings being considered impractical for a hospital.

While it is proposed to erect the building as a permanent structure the directors intend to make it adaptable to either temporary or permanent use. If the association's growth justifies a larger, more elaborate building this one will be converted to nurses' quarters or some other use. If more conservative expansion develops an annex of this building will be constructed later.

News Of Sick And Injured

Miss Agnes Felderhoff is a patient at Gainesville Sanitarium for a series of penicillin treatments. She is the daughter of Mr. and Mrs. John Felderhoff.

Gerald Lee Owen fractured his right arm above the wrist Saturday while cranking a tractor. He is the son of Mr. and Mrs. Clarence Owen.

John Bayer is carrying his left arm in a sling since last Friday when he chipped his shoulder, bone and bruised his right hip while loading cattle. A cow kicked him, causing him to fall against a concrete wall.

Since Monday John Eberhart is back as his usual duties as mail dispatcher after being confined to his home for a week on account of illness.

Little Norma Jean Klement had her tonsils removed at the local clinic Tuesday and is convalescing nicely at the home of her parents, Mr. and Mrs. Norbert Klement.

Mrs. Fred Hoedebeck is up and around again after spending several days in bed as the result of a fall at the family home last Friday. She injured leg ligaments and sprained an ankle when she fell.

Little Della Rose Fette was moved from M & S hospital to the home of her parents, Mr. and Mrs. Joe Fette, Thursday and is recovering normally from surgery performed last Thursday.

Mrs. Wm. Walterscheid is recovering from her operation and was able to go to Sherman for a check-up Monday.

Al Yosten is recovering from a back injury that confined him to bed for the past week.

Little Edwin Gallaheer, 5, who makes her home with her grandparents, Mr. and Mrs. G.C. Gallaheer, is a patient at Harris Hospital in Fort Worth where she underwent an operation on her right hand.

Mr. and Mrs. John Hoffman spent the weekend in Wichita Falls to be with their son, T.J., who underwent a dental operation at the clinic there on Saturday. T.J. has been confined to the hospital at intervals since last January when an infection resulted from filling a jaw tooth.

The operation Saturday was the fifth he has undergone and the doctors expressed confidence that it will correct the trouble.

FOR A SAFER TEXAS—Effective Sept. 5, some 3 million drivers and almost 2 million vehicles will travel under the Uniform Traffic Code of 32 states. Sponsored by the Texas Safety Association and endorsed by Governor Jester, the measure is signed in presence of its authors: Sen. Fred Harris, left, and Rep. Joe Kilgore, right. Center is George Clarke, Association director.

Lindsay Celebration Marks Rev. Joseph Fuhrmann's Jubilee

Most of Lindsay and scores of visitors from neighboring communities joined by relatives and friends from more distant places, packed Saint Peter's church Sunday when the Very Rev. Joseph Fuhrmann, O.S.B., Ph.D., celebrated his silver sacerdotal jubilee.

Father Joseph officiated at the solemn high mass, assisted by his nephews, Rev. Leo Koessler and Rev. David Flusche of Subiaco, as deacon and sub-deacon. Rev. Vincent Orth, Corpus Christi, was arch priest and Rev. Alcuin Kubis, Corpus Christi, was master of ceremonies. Also assisting in the sanctuary were Rev. Francis Zimmerer, Subiaco, Rev. Mr. Fred Mosman, San Antonio, and Brother Henry Fuhrmann, Subiaco.

Little Miss Cecilia Fuhrmann, daughter of Mr. and Mrs. Willie Fuhrmann, niece of the jubilarian, was spiritual bride for the occasion. She carried the chalice on a white satin pillow. Her attendants were LaVerne Fuhrmann, daughter of Mr. and Mrs. Henry Fuhrmann, and Henrietta Fuhrmann, daughter of Mr. and Mrs. Matt Fuhrmann, also nieces of the jubilarian. They carried baskets of wheat sheaves and grapes, symbolic of the sacrifice of the mass.

Rev. Alfred Hoening of Corpus Christi delivered the sermon, speaking eloquently on the priesthood.

Sacramental benediction followed the mass.

The ceremonies began at 10 o'clock with a procession from the rectory to the church. Participating in the procession were visiting clergy, relatives of the jubilarian, 25 small girls in white, each representing one year of the priesthood, and a band composed of brothers and nephews of Father Joseph that furnished music for the occasion. The vestments worn by Father Joseph were a gift from his immediate family.

After the services the procession led back to the rectory and then the jubilarian, his relatives and visiting clergy were guests at dinner in the school auditorium. The sumptuous meal was prepared and served by members of

(Continued on Page 3)

Scouts Take Swimming Tests While On Outing At Katy Lake Sunday

Members of Boy Scouts Troop No. 164, under the leadership of Scoutmaster Nick Miller, enjoyed an outing at Katy Lake Sunday afternoon, spending the greater part of their time in taking swimming tests. Michael Driever, Larry Hofbauer, John Myrick and Henry Weinzapfel passed their swimming test for first class rating.

Scoutmaster Miller announced this week that the Boy Scout Life Saving course originally scheduled to be held on June 20 and 21 has been postponed to July and that instead of two boys attending, he has been advised that Muenster can send four representatives.

MUENSTER VOCATIONAL CLASS STUDIES MILK AND CREAM TESTING

The Muenster Veterans Vocational Class met at the cheese plant last Monday evening, for a demonstration and a discussion by Hugh F. Barnhart on the subject "How to test milk and cream for butterfat." Some of the members of the class brought samples of milk from their own dairy herd, and tested the milk for butterfat.

The information secured at the Monday night meeting will be used in later meetings to show how to set up a complete set of records on the dairy herd.

The next class meeting will be held at the public school building Friday night at 8:30. Veterans who are farming, and are interested in enrolling in the class should contact Barnhart at one of the class meetings or the County office in Gainesville.

Community Flower Show Will Be Held Sunday at 3 o'clock

Muenster's annual community flower show sponsored by the Civic League and Garden Club will be held next Sunday in the parish hall basement beginning at 3 o'clock. Members of the sponsor group invite entries in the various divisions and extend welcome to everyone to attend.

All flowers in season will be displayed and other entries include fruit and vegetable arrangements, men's exhibit, junior display, corsages, end table and book end arrangements, coffee table arrangements, potted plants, scout exhibit, shadow boxes and commercial displays.

When possible entries should be left at the hall on Saturday afternoon. The deadline for accepting exhibits has been set at 9:30 a.m. Sunday. All flowers with the exception of specimen roses and gladiola, must be brought in suitable containers, arranged for display.

Out of town judges have been secured and ribbons will be attached to first, second and third winners. Musical selections will be presented during the afternoon and evening hours.

Veterans Will Decide On Use of Building Material At Tuesday Night Meeting

Members of the Muenster VFW post are urged to attend a special meeting Monday night for the purpose of considering the sale of building materials to the hospital association.

Ray Wilde, adjutant, disclosed that a pro or con decision will be made at that meeting and that members who fail to appear will miss the only opportunity to express themselves on the subject.

Mr. and Mrs. Joe Walterscheid are moving this week to occupy their new home. Their daughter, Miss Katie Mae who is employed in Gainesville, is taking a week's vacation to help.

Third of Grain Under Roof; Threshers Start Combines Near End

Favored by perfect weather Muenster's harvest is romping along at a fast, steady pace. According to an estimate based on reports from farmers and elevators about a third of the community grain is already out of the field and only a very small percentage remains uncut.

Binders have finished their jobs, most combines will finish by the weekend — provided good weather continues—and threshers are getting started. Scattered reports Wednesday indicated that about six threshing rigs were in action and the others are expected to be working by the beginning of next week. While the community still threshes most of its oats it is harvesting about half of its wheat by combine.

Reports on yields are becoming more definite this week. Average crops are from 12 to 15 bushels per acre. The quality of the grain continues to be good. Clean wheat consistently tests 60, however most of that delivered to the local elevators has cheat and oats to pull the test down a few points. A few loads go as low as 55 and the average is 58.

Softball Boys Bite Dust At Hood, Beat Two Nocona Teams; Girls Win One Game

A thorough smearing sustained by the Muenster softball team at Hood Friday night spoiled an otherwise perfect record for the past week. The one-sided count of 15-2 is explained partly by the breaks but especially by Hood's alert playing and Muenster's loose hitting.

In two other games the men bested two Nocona teams. Thursday night it was a close, well played match with the Ford team and ended 8 to 7 favoring Muenster. The tally of hits, 9 to 6, likewise favored Muenster. Monday night the Nocona Leather Goods team made a feeble stand and lost 19 to 7. Again Muenster hitting was better, 13 to 8.

The girls' only game was with their old dependable playmates from Saint Jo. It started as a merry mix-up of fumbling and slugging but settled down to normal playing in the third with Muenster leading 12 to 10. The final count was 17 to 13 favoring Muenster.

Scouts And Dads Outing At Lake Texoma June 29

Scoutmaster Nick Miller announced this week that Sunday, June 29, has been selected as the date for an all-day outing at Lake Texoma for Boy Scouts and their fathers.

Headquarters will be the boy scout cooking and other activity, feature a variety of out door fun, scout camp and the day will miss the only opportunity to express themselves on the subject.

Plans will be completed at the boys' next meeting on Monday June 23.

Death Saturday Ends Extended Illness of Harry F. Couch, 51

Harry F. Couch, 51, of Gainesville, well known North Texas oil producer, succumbed to a long illness at 8 o'clock Saturday night in a Gainesville hospital.

Funeral services were held at the family residence on highway 82, just west of Gainesville at 3 o'clock Monday afternoon and burial was in Fairview cemetery. Rev. Rawlins Cherryhomes, pastor of Dixon Street Christian church, and Rev. John S. Rice, pastor of Whaley Memorial Methodist church, officiated.

Palbearers were Cecil Sims, Muenster; Arthur and Ray Kingery, St. Jo; Cecil Murphy, Garland Vandever and Dock Monroe, Gainesville; J.M. Mullins and Joe S. Godwin, Fort Worth.

Mr. Couch was born in Italy, Texas, March 21, 1896, a son of the late J.M. Couch and Mrs. Emma Couch. His mother resides at Valley View.

On May 11, 1915, he married Miss Vesta Taylor at Waxahachie.

He was educated at Ennis, then moved to Dallas where he was employed by Texas Electric Railway Co. In 1937 the family moved to Gainesville and he engaged in the oil business for himself as well as being superintendent for the Cooke county properties of Trumpler Oil company of Fort Worth for the past 10 years.

Survivors are his wife, three daughters and two sons, three grandchildren, his mother, four brothers and three sisters.

COUNTY YOUNGSTERS INVITED TO RACE IN CRACKERBOX DERBY

Youngsters with racing blood in their veins have big possibilities and the time of their lives awaiting them in late July and early August at the Cooke County crackerbox derby. The contest is open to all boys of the county between the ages of 10 and 15. Gainesville's recently formed Optimist Club is sponsoring it.

The event is a regular soap box derby, conducted according to the national soap box derby rules, but has the different name because it is not affiliated with the national contest.

Boys who wish to enter must make applications in person before 5 p.m. Saturday, June 21. Application headquarters is the Ross Allbritton Nash company of Gainesville.

Regulations for entering, according to Charles Herrmann one of the committee members, require that each contestant have a sponsor who will be responsible for providing wheels and axles and who is permitted to coach and advise but not assist in constructing the racer. The sponsor may be a father or friend.

The Optimist Club has arranged to provide tested wheels and axles and insists on their use as a safety precaution. From there the lad builds the racer himself, and he must have an itemized list to show that his cost did not exceed \$6. In the race each contestant must be driving the car built by himself.

Black's hill on the old Denton road has been selected for the race. It will be specially repaired soon and on racing days will be roped off for the event.

Entrants are expected to complete their cars before July 14 and display them in their sponsor's windows between that date and the 18th. Test runs will be held on the 20th, preliminaries on July 23, semifinals on August 3 and finals on August 10.

HARVEST CAUSES DROP IN RODEO ATTENDANCE; NEXT SHOW POSTPONED

Feeling the effect of the harvest rush the Muenster Rodeo announced this week that it will suspend its show for two or three weeks, until farmers are caught up with their work. Dick Cain, one of the owners, stated that last Saturday's show had the poorest attendance to date.

The re-opening date depends on harvesting progress. If all goes well the show may be resumed early in July. If bad weather delays work the opening may wait another week or two.

Winners in the last show are as follows: Bronc riding, Billy Joe Hancock, Bill Henley, Punk Gay. Steer riding, Bill Henley, Roy Roberts, Bill Scott. Ribbon roping, Hub Crawford, 11.1; Roy Branham, 13.2; Dr. T.S. Myrick, 16.6. Tie-down roping, Myron Ely, 13.6; George Tyler, 13.9; Tony Trubench Jr. 14.2.

Local NEWS Briefs

The Herbert Cunningham home is being enlarged and remodeled this week.

Miss Marian Gremminger will spend this weekend in Wichita Falls with relatives.

J.J. Hunter spent three days of this week in Wichita Falls attending a special Chevrolet mechanic's school.

Miss Margaret Rohmer of Fort Worth was home for a weekend visit with her parents, Mr. and Mrs. John Rohmer and family.

Father Alfred Hoening returns to Corpus Christi this weekend after a week's visit with members of his family here.

Dr. and Mrs. F.E. Seale and son of Takoka are spending this week with relatives. She is the former Miss Clara Hoening.

Frank Trubenbach of Amerillo visited here Tuesday and Wednesday with his parents, Mr. and Mrs. P.J. Trubenbach and other relatives.

Miss Viola Tischler and Homer Savage of Dallas and Ed Stock and son, Sammie, of Corpus Christi spent the weekend with Mr. and Mrs. Joe Tischler and Mr. and Mrs. Al Yosten.

Dr. T.S. Myrick was in Fort Worth Friday night for a director's meeting of the All-Palomino Horse Show to be held at Will Rogers Memorial Coliseum Sept. 18-22.

Mr. and Mrs. Gus Hellman and children, Wayman and Janet Kay, of Corpus Christi are spending this week here with his mother, Mrs. Ben Hellman and other relatives.

Mr. and Mrs. Ray Swirczynski left Sunday for a two weeks' vacation that will include a tour of Kansas, Illinois and Arkansas. His sister, Mrs. Alex Knaf and children who had been visiting here accompanied them as far as Emporia, Kansas.

THE PLATE, PLEASE!

Pretty Lauta Averett of Ashburn, Ga., holds a mahogany serving plate which has been beautified with the addition of a bright bit of cotton fabric. The manufacturer inlays the plate with fabric and then seals it with a permanent finish.

Mr. and Mrs. Joe Swirczynski entertained with a dinner in their home Sunday honoring the three Swirczynski sisters, the Ven. Sisters Ruperta, Ladislaus and Angelina, who are visiting here from Grand Island, Neb. Relatives were guests including John Swirczynski of Oklahoma City who spent Sunday here.

Mr. and Mrs. Jeff Linn of Bonham spent the weekend with his parents, Mr. and Mrs. Joe Linn, and his grandmother, Mrs. J.D. Linn. They were joined at the Linn home Sunday evening by Mr. and Mrs. Thomas Linn, Mrs. Christine Hemphill and son of Gainesville and Mr. and Mrs. Russ Linn and son, Jack, for a social evening.

Mrs. Ida Schoech of Vinita, Okla. has sent in her renewal subscription to The Enterprise stating that she enjoys the home town news so much she wouldn't want to miss a single copy. She has just returned from a two months' visit with relatives in Texas and Shreveport, La., and added to tell all her Muenster friends hello.

Dr. and Mrs. J.H. Payne, former Muensterites, arrived Wednesday to visit relatives and friends in Cooke County. It is Mrs. Payne's first return since they moved to Jourdanton twelve years ago. Doctor has been back for

TIME FOR ANOTHER CHANGE!

By MACKENZIE

several short visits. They are at home in Pleasanton.

Pilgrimage Features Garden Club Session Friday Afternoon

Members of the Civic League and Garden Club enjoyed their annual pilgrimage following the business session Friday afternoon. The yards visited were those at the Nick Miller, Stock, Steve Mosier and Joe Luke homes where many varieties of seasonal flowers and shrubbery were inspected.

During the program hour Mrs. Steve Mosier gave a delightful, informal talk on "Landscaping My New Home". Mrs. Urban Endres displayed the flower arrangement of the month, Joan of Arc gladiolas, and another arrangement was a pink gladiola display by Mrs. T.S. Myrick. Mrs. Joe Luke showed a specimen of an unusual gladiola, the Black Opal, a deep purple-red.

This was the last meeting of the organization for the summer. The club will re-convene in September. Twelve members attended.

The majority of birds have four toes on each foot, three in front and one behind, however members of the woodpecker and parrot families are yoke toed; meaning two toes point forward and two backward.

SITTING PRETTY

Even though sitting on a seat of film only 2/1000 of an inch thick, the model above has no qualms about being perfectly safe. Made of the newly invented Saran Film 517, the bag is remarkably tough. The film won't be used for seats, however, but for food packaging. It is transparent, odorless, tasteless and extremely pliable, giving long protection to food-stuffs.

HE LEARNED ABOUT WOMEN FROM THEM

College Station — A certain ex-GI student at Texas A & M won't forget 14 women at Aggie-land. He was married, had a bad habit of coming home intoxicated and treating his wife roughly.

The 14 women, wives of other veterans who lived near by, waited for him, waylaid him and gave him a terrific beating. "It cured him, officials said.

"I caught my boy friend flirting."

"I caught mine that way, too."

What's the Hurry?
Eben Hitchin, the proprietor of a general store in a remote section of Maine, had been appointed postmaster in his district. Following the appointment months went by and no mail had been sent out of the new post office. The local inhabitants complained about the situation until post office officials telegraphed for an explanation. Eben's terse reply came in due time; it read: "The bag ain't full."

One touch of scandal makes the whole world chin.

Boulder Dam was completed in 1936. It is 726 feet tall, and contains 3,251,137 cubic yards of concrete. Its reservoir, Lake Mead, 115 miles long, impounds 32,359,000 acre feet of water. It is the largest artificial lake in the world.

toward its second great week at the State Fair Casino at Dallas. Launching the Starlight Operetta season with signal success, the fine musical has drawn accolades from the crowds that have taken their seats in the remodeled Casino to see the great Kern-Hammerstein production. First week praise on the show seems evenly divided between the great acting and singing of the star cast; the fine musical score of Jerome Kern, interpreted by Casino musical director, Guiseppe Bamboshek; the singing and dancing choruses of the stellar production and the magnificent new setting of the Casino stage.

Interest in seeing the excellent show is running high in Dallas and the surrounding areas. The

stellar musical will conclude its two week run on the night of June 29th. On the following night, June 30th, the second in the great season's parade of hits, "Blossom Time", moves onto the Casino stage. This operetta of life in old Vienna will open a seven day run on that date.

FUHRMANN JUBILEE

Saint Anne's Society. The dining hall was adorned with streamers of silver and white and greenery, and bouquets of gladioli and sweet peas were placed at vantage points. The honoree's table held a large three tiered cake topped with a silver 25.

In the afternoon a general community picnic and bazaar was held on the school grounds.

Father Joseph, first native son of the Lindsay community to be ordained a priest, is president of Corpus Christi College-Academy. He is a son of the late Mr. and Mrs. Henry Fuhrmann and his brothers and sisters are Mike, Joe, Matt, Willie and Henry Fuhrmann of Lindsay, Tony Fuhrmann, Muenster, Mrs. Anna Loerwald and Mrs. Fred Mosman, Lindsay, Mrs. A.C. Flusche, Denison, Mrs. Alfons Koesler, Muenster, and Mrs. Max Koesler, Vinita, all of whom were present for the celebration.

Clergy in addition to those assisting at the mass included Rev. Sylvester Schad, Corpus Christi; Msgr. Edward McCullough, Sherman; Rev. Herman Laux, Muenster; Rev. Peter Molloy, Gainesville and Rev. Conrad Herda, Lindsay pastor.

Visiting Relatives

Among out of town relatives in addition to brothers and sisters present for the celebration were Mr. and Mrs. Henry Flusche and children, Mrs. Charles Curren, Mr. and Mrs. Ernest Mosman and family, all of Dallas; Mrs. Bill Laux and daughters, San Antonio; Mr. and Mrs. John Mosman and family, Saint Jo; Mr. and Mrs. Bill Bierschen and family, Valley View; Mr. and Mrs. Conrad Flusche, Decatur; Mr. and Mrs. Ray Lewis and children, Gainesville; Mr. and Mrs. Nick Heiderscheit and children, Mike, Mary and Carlotta of Morgan, Michigan, Miss Miriam Flusche and Mr. and Mrs. Alfred Hoedbeck of Denison, Sister Henry Ann and Sister Joachim of Abilene.

TEXAS TALLEST TALES ARE TAME COMPARED WITH FACTS ON B-36

Fort Worth — Texans are noted for tall tales. The tallest Texas tall this season is on the B-36 — and it's all true, all 46 feet, 7 inches of it.

Other facts about the Army Air Forces' latest and biggest bomber, now in mass production here, make some of the frontier yarns look like solemn truths. For instance:

The pilot's cockpit is so far from the tail turret that the crew commutes by railroad. A tiny car on tracks shuttles through the pressurized tube that connects the two crew stations.

The B-36 carries enough gasoline to take an automobile around the world 16 times and then tour the 48 states. The six wing tanks hold 21,000 gallons — 2 and one-

half railroad tank cars — of high test gasoline.

The Army Air Forces and the Consolidated Vultee Aircraft Corporation, maker of the giant craft, Saturday lifted much of the secrecy which has enwrapped it since its existence was announced nearly a year ago.

The B-36 (Hollywood will have to name it) is the world's biggest mass-produced bomber.

Its body has a volume of 17,724 cubic feet, equal to 10 living rooms.

Its bomb bay (room) alone has the space of four freight cars.

Its six 19-foot Curtiss electric-hollow steel propellers are the largest ever installed on an airship. They resist ice and reverse themselves to act as brakes.

The B-36 has lifted 278,000 pounds — 139 tons — the heaviest load ever lifted by a plane.

A transport twin of the B-36, the XC-99, nearing completion at Convair's San Diego, Cal., plant, will haul 400 troops.

A sprinter could get a good workout on the B-36's wing — 230 feet from tip to tip.

Then there is the plant the B-36 is built in. Convair says it is the world's largest integrated aircraft plant.

It is 4,000 feet — nearly four-fifths of a mile — long. A station wagon carries visitors to the starting end of the assembly line.

In area it is the equal of eight city blocks. It has no windows and is lighted by 32 miles of fluorescent tubes.

More fuel is required to air-condition it in summer than to heat it in winter.

It's enough to tax a Texas story teller.

Canny Laddie

A Scotsman entered a bank and asked if he could borrow a dollar for a year. The bank official thought the request unusual but agreed provided that he furnish some security. The Scotsman said all he had was a \$1,000 saving

bond. So the transaction was made. At the end of the year our friend the Scotsman returned and paid back the dollar, also seven cents interest on the loan, receiving his savings bond in exchange. After the business was completed the bank official, pent up with curiosity, asked why the man insisted on such a strange transaction.

"Sir," said the Scotsman, "I have visited all the banks in your city and each one asked five dollars a year rent for a safety deposit box in which to keep my savings bond — this way I had it taken care of for a mere seven cents."

Washington News Letter

By Congressman Ed Gossett

Washington, D.C. June 14 — This has been an unusually busy week with me. Subcommittee No.

Gainesville Radiator Shop

J.F. "Brownie" Brown
 527 N. Commerce, Gainesville

1. of the Judiciary Committee of the House, held hearings this week on H.J. R. 9, of which I am the author, proposing to abolish the electoral college system of selecting Presidents and substituting a direct vote in terms of electoral votes. In other words, a number of us are advocating that the electoral college and electors be completely eliminated, and in voting for President one vote directly for the candidate. However, we would retain the electoral vote of the state, the state control over elections, and provide that the electoral vote be divided in exact ratio as the popular vote. In other words, if the Republican candidate gets one-third of the popular vote in Texas, he will get one-third of our 23 electoral votes. If the Democrat candidate gets one-third of the popular vote in Pennsylvania he will get one-third of Pennsylvania's 35 electoral votes. I submitted a long statement to the committee seeking to prove six propositions as follows:

1. First, existing provisions as to the choosing of electors, the manner in which their votes are cast and counted, and the deciding of elections in the Congress is an open invitation to fraud

and chicanery and unless changed will some day result in disaster. 2. Second, the electoral college confines and largely restricts national campaigns to a half dozen pivotal states. 3. Third, the electoral college greatly restricts the field of Presidential possibilities. 4. Fourth, the electoral college permits and invites irresponsible control and domination by small organized minority groups, within the large pivotal states. It aggravates and accentuates the building up and solidification within these states of religious, economic, and racial blocs. 5. Fifth, the electoral college deprives great masses of our best citizens of the educational benefits of national campaigns and lessens their concern in national affairs.

6. Sixth, the electoral college places unconscionable burdens and temptations upon a President elected by it.

The Subcommittee on Immigration of the House Judiciary Committee has been busy this week holding hearings on the Stratton Bill which seeks to admit to this country 400,000 refugees now in Displaced Persons camps in Europe. It is proposed to admit these folks over and above the some 500,000 who come here annually under existing laws. I am bitterly opposed to this bill and will make a speech against it on the floor of the House this week.

During these hearings I made a remark about the millions in New York City who do not even speak the English language, referring to that metropolis as in fact a foreign community. New York newspapers have been panning me since. The editor of the radical newspaper PM sent a wire inviting me to see New York at their expense and adding, "the record shows that in the city of New York only 4.5% of our people can be classified as illiterate as compared with 6.8% who are illiterate in your own State. In New York State as a whole the illiteracy rate is 3.7% as compared with 13.5% in your birthplace, Louisiana. In all sincerity we hope you will accept our invitation so that you can talk to the people here and learn something first-hand about our city and state. We believe it will broaden your outlook and enable you better to represent the entire country to the end that all of our people will have an opportunity to overcome the handicaps of illiteracy and ignorance. Sincerely, John P. Lewis, Editor Newspaper PM."

To this wire I made the following reply: "Relative your wire, illiteracy and language have little to do with character. Sorry I have no time or social service work in New York. Appreciate your invitation."

This paper published both wires with the comment, "Gossett Refuses to Learn". They have put me on their mailing list for this socialistic daily, alleging that I will be greatly enlightened by receiving their publication.

On the House floor this week the bitterest debate has been engendered by the so-called Mundt Bill which proposes to set up a so-called "Voice of America" bureau in the State Department, to distribute American literature and carry on American radio programs abroad. The bill also provides for an interchange of students, scientists, and so on between nations. The object of the bill is to teach other nations about us, and in turn to learn about them. The objectives are good but many doubt that such objectives will be carried out through such an agency. While many of us earnestly want the "voice of America" to be heard and respected around the world, we are somewhat afraid that this particular "voice" will be more the "voice of Hollywood" and of some pinkish intellectuals than the real voice of the American people.

Four animals change their fur or plumage to white in the winter time. They are the ermine, the ptarmigan, the Arctic Fox, and the polar hare.

Texas Editors Eat Turkey Steaks

AMARILLO, TEXAS, June 19. — Texas Editors in annual convention in this Panhandle City lunched here today on turkey steaks, a new taste treat, which is in the process of development in order to make turkey a year round instead of a seasonal delicacy. The editors, members of the Texas Press Association and the Texas Newspaper Publishers Association were guests at a luncheon at the Amarillo hotel.

Arrangements for the turkey steak luncheon were made by Ralph E. Janes, president of the National Turkey Federation, and C. S. Pryor, manager of the Amarillo Hotel. Shown above is Mrs. Oswald Wolf of the Alvin East Produce Co., of Austin, who processed the steaks.

Turkey steaks are boneless and there is no waste. The steak was developed by Texas A. & M. College, the Luling Foundation, and officers of the National and Texas turkey federations.

Mount Whitney, 14,495 feet above sea level, and a point in Death Valley, 276 feet below sea level, are respectively the highest and the lowest point in the United States proper and are within one hundred miles of each other in Inyo County, California.

For every Wanted feature* in Automatic Refrigeration—the Gas Refrigerator has them...

Plus SILENCE

(An Exclusive Feature of the Gas Refrigerator)

SILENT GAS Refrigerators offer the interior conveniences that modern homemakers demand. AND they offer one all-important exclusive feature — permanent silence. Because it has no moving parts in its freezing system to wear or need repair, it *Stays Silent — Lasts Longer*. Compare the Silent Gas Refrigerator with any other — point for point. You'll find that its longer-lasting, noise-free performance makes the gas refrigerator the wise refrigerator buy!

*WHAT MODERN HOMEMAKERS WANT

- * Big Frozen Food Compartment
- * Ample Ice Cube Capacity
- * Extra Roomy Flexible Interior
- * Rust Proof Plastic Coated Shelves
- * Trigger Release Ice Cube Trays
- * Jiffy Ice Cube Release
- * Fresh Vegetable Crispers
- * Convenient Egg Storage Tray
- * Beauty—Inside and Outside

You can operate a Silent Gas Refrigerator from 8 to 10 hours for only one cent's worth of Lone Star Gas.

LONE STAR GAS COMPANY

Local NEWS Briefs

Anthony Luke made a business trip to Fort Worth Monday.

In a deal closed this week Bill Sicking bought the Joe Walterscheid farm east of Muenster.

Mr. and Mrs. R.B. Shelton of Denton spent Sunday with her mother, Mrs. Wm. Wieler and other relatives.

Mr. and Mrs. Wm. Terrell and daughter, Toni, of Fort Worth spent the weekend with her parents, Mr. and Mrs. J.W. Fletcher.

Mr. & Mrs. G.C. Gallaher have as guests this week their son-in-law and daughter, Mr. and Mrs. S.C. Padgett of Longview.

A new home is being built for the L. Burchfield family in Saint Jo and they will move to that city when it is completed.

Mrs. O.V. Scott and two sons of Dallas spent last week here with their husband and father

and he joined them on a weekend trip to Olney to visit relatives.

Mr. and Mrs. John Wieler and daughters visited his sister, Mrs. Ben Roewe, in Sherman Sunday & were accompanied home by his niece, Miss Agnella Roewe who visited relatives here this week.

Mr. and Mrs. Albert Steinberger and daughter, Maxine, Mrs. Edna Hunsberger, and their parents, Mr. and Mrs. Tom Carter of Marietta, Okla., spent Sunday at Lake Texoma on an outing.

The home of Mr. and Mrs. Ed Pels was the scene of a family reunion Sunday honoring his father, Henry Pels, on Father's Day. All of the honoree's children and grandchildren from this city attended.

An old fashioned charivari surprised Mr. and Mrs. Maurice Pangel at their home last Tuesday evening. The affair was planned by relatives and friends who brought refreshments which were served after a social hour.

Mr. and Mrs. G.C. Gallaher have a letter from their son, Ed J. Gallaher, this week from Peru where he stopped over for a visit enroute to Chile. He will be in Chile for three years under government contract in connection with work in the copper mines.

Miss Marie Sturm who is employed in Rushville, Neb., is here on vacation visiting her parents, Mr. and Mrs. Joe Sturm and family until July 1 when she will go to Oklahoma to visit relatives before returning to her work on July 15

Mr. and Mrs. David Trachta and children spent Sunday in Gainesville at the home of her father, George Hundley, where a family dinner party honored Mr. Hundley in observance of Father's Day. Their little son, Jimmy, accompanied Mr. and Mrs. James Hundley to Denton and is spending the week as their guest.

Little LaQuita and Rita Ann Cain are spending this week in Fort Worth with their uncle and aunt, Mr. and Mrs. C.C. Hogan. The girls' parents, Mr. and Mrs. Dick Cain, will drive to Fort Worth Sunday to spend the day and they will accompany them home.

Mrs. Edna Hunsberger who has been visiting her sister, Mrs. Albert Steinberger, left Sunday to enter nurses training at Wilson N. Jones hospital in Sherman.

Mrs. G.C. Gallaher has returned from Galveston where she spent from Thursday to Tuesday visiting her two brothers and their families.

J.H. Flood who was here on business for several weeks in connection with REA spent the weekend in Waco with his family and was accompanied back to Muen-

FAST-MOVING MECHANICAL HOE

Because he always thought there was an easier way to chop cotton than by hand with a hoe, Riley Dabbs, Monroe County, Miss., farmer and sawmill operator, began work four years ago on this mechanical cotton chopper. Getting its first test on Cotton Belt farms this season, the chopper reputedly can thin 30 acres of young cotton at a cost of \$7 for the day's operations.

ster by his little son, Tommy. They were guests of Mr. and Mrs. R. L. McNelley until Tuesday when they returned to Waco accompanied by Mr. McNelley who attended a business session there Wednesday. Mrs. McNelley and Mrs. Mike Taramola spent Wednesday in Waco and Mr. McNelley accompanied them home.

Capt. Charles O. Taylor has written his wife that he was recently named adjutant of his command in addition to being the personnel officer of the quartermaster detachment. He is stationed in Manila with the army.

Mrs. Ludwig Zimmerer and daughter, Elizabeth, arrived last Thursday for a visit with her sister, Mrs. John Schilling and other relatives here, and at Lindsay, Gainesville and Montague. They

will return to their home in Houston this weekend.

Mr. and Mrs. H.C. Billingsley of Ardmore, Okla., spent the weekend here with her mother, Mrs. Wm. Wieler and other relatives and were accompanied home by their children, Mary Gail and Leroy, who had been the guests of their cousins here during the week.

SURPRISE PARTY GREET'S WILLIAM HENSCHIED SUNDAY

Relatives and friends gathered at the home of William Henschied Sunday night to help him celebrate his 58th birthday. It was a surprise affair.

Following the presentation of gifts, informal diversion was enjoyed and delicious refreshments, brought by the guests, were served.

From where I sit... by Joe Marsh

Can't Break His Good Habits!

Bert Childers was saying, it's funny how so many of our wartime habits stick with us.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war-worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Same way with Bert's wife. She not only has no trouble saving used fats, and waste paper. She's learned from wartime necessity to

save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

Joe Marsh

MÜNSTER, TEXAS

PHONE 44

It Happened 10 Years Ago

June 18, 1937

Threshers and combines are running full blast; wheat yields run high, 35 bushels per acre in some areas; 20 bushels is average yield. — Mrs. Ben Seyler is recovering slowly in Denton hospital. Mr. Seyler is able to return home. — John Herr Sr. sustains injured hip when his foot is caught in a cow chain, causing him to fall. — Joe Trachta and John Luke in auto accident escape injury as car is demolished. — Muenster citizens flock to opening of Pan American Exposition in Dallas. — Boy Scouts take swimming tests during outing at Elm creek. — Mrs. Tony Otto is confined to

bed with illness; her daughter, Miss Alleen is home from Dallas for an indefinite visit. — Muenster Enterprise is winner of 1937 Beard Award for advertising set up in its division.

5 YEARS AGO

June 19, 1942

Scrap rubber campaign is begun this week. — June 12 is reported as hottest day in several years for June, thermometers reach 103. — Mrs. John Sieger, 79, former Muensterite, dies in California. — Garden Club has annual pilgrimage Friday afternoon. — Frank Lutkenhaus is quite ill at his home here. — Father Richard, Thomas Weinzapfel, Juanita Weinzapfel and Rose Hennigan left Sunday for Saint Louis, Mo., to attend summer school of Catholic Action. — Miss Clara Hundt wins in contest to select Miss Lindsay, queen of the golden jubilee. — Men 18-20 years of age to register on June 30.

Seven Eights of Drowning Victims are Men and Boys

Almost seven-eighths of the annual drownings are men or boys. The reason, it is easily explained, is that more men and boys go swimming than do members of the fairer sex. Too, more men fish or work on or near water.

Safety experts, like most men, agree that beautiful blondes sunning themselves on the beach are wondrous things to behold, indeed. But they take the long view and suggest that if the girls don't know how to swim they learn to do so, because approximately 1,500 persons who never intended going in the water meet death by drowning every year. These include persons caught in capsizing boats, sinking ships, buses and automobiles which plunge into rivers and similar accidents.

REV. KEELING NEW PASTOR OF MARYSVILLE CHURCH

Rev. Keeling took over his new duties as pastor of Marysville Methodist church Sunday. He was transferred from the Greenville district to replace Rev. Grady Wyatt who took the pastorage at Mt. Vernon Methodist church. Rev. Keeling and his wife and two sons are making their home at Marysville.

Citation by Publication THE STATE OF TEXAS

To Joseph Sieger and Ivy Price
And each and all other proper persons, including all record lien holders, all unknown owners, and heirs, administrators, and legal representatives of all such unknown owners, owning and claiming any interest in the property hereinafter described:
You are hereby notified and commanded to appear at the next regular term of the Sixteenth District Court of Cooke County, Texas, to be held at the Court House thereof in the city of Gainesville on the First Monday in September, A.D. 1947, the same being the 1st day of September, A.D. 1947, then and there to answer a petition in a delinquent tax suit filed by the City of Gainesville suing in its behalf, and also in behalf of State of Texas and Cooke County, Texas, and all political subdivisions of said county whose taxes are assessed and collected by the Assessor and Collector of Taxes of said County, in said court on the

17th day of April A.D. 1947, in a suit numbered 503 on the docket of said court, wherein the said City of Gainesville is plaintiff and State of Texas & Cooke County are interveners, and Frankie Sieger, Joseph Sieger, W. W. Price and Ivy Price defendants. Said suit is a suit to collect taxes, interest, penalties and costs on the following described real estate* located, at the time said taxes were assessed, within the boundaries of said county and each political subdivision in whose behalf this suit is brought and described as follows, to-wit:
Being all that certain tract or parcel of land in the city of Gainesville Cooke County, Texas, out of the A. Boutwell Survey, and being part of the Leedy Tract which said lot is described as follows:

BEGINNING at the Southeast corner of the lot conveyed by T.H. Feathers and wife to Daniel Kelly, which corner is on the West line of Weaver Street, 51 feet South of the Lot formerly owned by H. P. Ware.

THENCE North with the west line of said Weaver Street, 51 feet South of the lot formerly owned by the said H.P. Ware;
THENCE West with its South line 200 feet to East line of Throckmorton Street;
THENCE South with the said East line, 51 feet; corner;
THENCE East 200 feet to the place of beginning.

said taxes in said petition, are alleged to be delinquent, justly due, owing, and unpaid for the respective years and in the respective amounts as follows, to-wit:

Years	To Whom	Delinquent	Assessed	Amount
1924	W. C. Price			\$61.71

Matter of Opinion
The kindly old lady stopped before the blind man on the corner, fumbled in her purse and then gave him a two-dollar bill.
"Lady," said the blind man, "two dollar bills is bad luck. Ain't yuh got two ones?"
"Mercy, how did you know it was a two-dollar bill if you're blind?"

"I ain't blind lady. It's my partner that's blind. Dis is his day off an' he's at de movies . . . Me, I'm a deaf mute."
What won't they think of next dept. — A magical material makes water "wetter," keeps paint from drying out, thickens coffee so it can be eaten like ice cream.

in a cause that would make for the welfare of the human race. But to those of us who loathe all forms of totalitarianism, and communism in particular, it is something about which to be thoroughly alarmed.

Undoubtedly to date the most communist scheme is the one sprung by James M. Cain. Last July the Screen Writers Guild, under the command of "Generalissimo" Cain announced plans to form an American Authors Authority as a central agency through which all writers would lease use of their material to publishers, radios and motion pictures. The New York Times on July 31, 1946, exposed this conspiracy for what it is, "a communist plot to control all writing in this country."

The project which Cain pro-

poses to set up would give his organization dictatorial power; put the writers under the deadening hand of racketeering which would make Petrillo look like a "piker" in the autocratic power he exercises over his musicians, the radio and the public.

The American Authors Authority, as proposed by Cain, would be dominated by Communists, which eventually would give the Reds control of all mass communications of the nation. Under his plan, writers would be required to give power of attorney to the Authority to do as it likes with their writings.

The bait dangled before the writers by Cain is that they would receive far greater benefits for surrendering their rights. He points out that there are certain inequities as regards to copyrights and royalties. Granted that writers do have a just grievance, what shall it profit them if they garner a few extra dollars for a limited time, at the cost of sticking their heads in a noose?

Having surrendered his rights, a writer would be at the mercy of the American Authors Authority. He would have to conform with the ideologies of its communist bureaucrats, or else. Anything he submitted which did not conform would be buried in the filing cabinet for "keeps" — instead of the promised extra dollars, he would find himself with absolutely no compensation whatsoever for his creative ideas.

Nor would he be able to take his writings direct to a publisher. The AAA, once in control, would see to that by boycotting any publisher who attempted to do business with any writer who did not "hew to the Party Line".

Thus, would the Communists control all ideas in America. No longer would there be any voice of opposition to them. One doesn't have to be the seventh son of a seventh son to divine that that would mean "curtains" for "The American Way".

That is why last September those American writers who are neither "pink," nor "red" — just true-blue Americans — joined hands in forming the American Writers Association, under the leadership of Rupert Hughes. This organization so far has succeeded in stopping Mr. Cain and his American Authors Authority. But the Commies die hard and they keep on trying. To be forewarned is to be forearmed. Only eternal vigilance of the press and American writers will save them from future sneak attacks by this 20th Century Cain.

Sudan Grass Pasture Is Best Insurance For Summer Milk Production

It isn't too late for dairymen to take out some insurance against reduced milk production in hot, dry weather this summer in the form of Sudan grass for supplemental pasture.

Even though there is plenty of moisture now, chances are that permanent pastures will need a good breathing spell along in July and August or later. It is at this point that Sudan, put in now, will not only fill the bill for grazing, but due to its quick growth and high feed value will keep the milk cans full during this critical time in milk production.

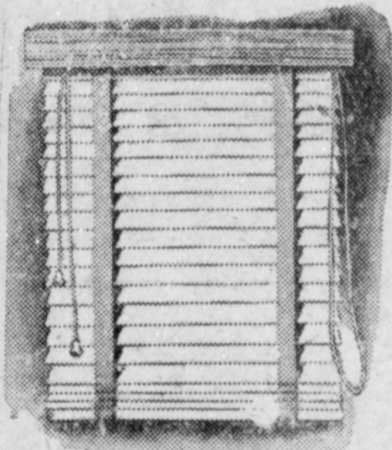

No limit has been found on the geographical areas in which Sudan makes good growth. From Minnesota to Texas, Sudan, both the regular and sweet varieties, have proved to be profit makers. Cows like both varieties, and its quick recovery after heavy grazing is a quality that is not found in other pastures during summer months.

Milk producers in areas where dry spells are common in the summer regard Sudan as an old friend. But in areas where summers usually provide adequate moisture, farmers are turning to Sudan as summer pasture that will come through even if rains hold off.

"And now, among the fading embers, these in the main are my regrets: when I am right, no one remembers; when I am wrong, no one forgets."

WAR NURSE

She was born in War's grim garden,
A rose of the battlefield,
Baptized under hell and fire
While the world around her reeled.

She stayed at the front against orders
And when GI gripes began
One Joe cried "If she can take it,
I am sure we soldiers can!"

Mercy's angel in a helmet,
She knew many a prison hell;
She lived and died like a soldier...
To the wounded she was "Swell!"

With the war she's been forgotten
Like the strains of "Over There,"
But each soldier boy remembers
Some brave War Nurse in his prayer.

—NICK KENNY

This recipe for delicious preserves taken from the famous Ball Blue Book of home canning calls for two pounds of capped berries, four tablespoons of lemon juice and five cups of sugar. Mix berries with sugar and let stand three

or four hours. Place over low heat until simmering point is reached. Add lemon juice. Boil rapidly for 10 to 12 minutes, or until berries are clear and sirup thick. Cover and let stand overnight. Pack cold into hot jars. Process 15 minutes at simmering.

Banshee, Navy's New Jet Fighter, Flies 600 M.P.H.

New Orleans. — The Navy Department has announced successful flight tests of its newest and most powerful fighter, the 600 mile per hour Banshee.

Officially designated as the XF2D-1, the Banshee, bears a marked resemblance to the Phantom, the Navy's first carrier based all-jet fighter. Production deliveries of the Phantom are now being made in St. Louis.

The Banshee is powered with two 24-inch diameter axial flow turbojet engines installed in the wing roots. These engines, the culmination of a long range turbojet development program, make the Banshee the most powerful single seat fighter flown in the United States to date.

The Banshee was built to conform to the exacting requirements of carrier operations, and to meet the ever increasing demand for higher speeds and increased rates of climb. Even though carrier based, it is in the 600 mile per hour class and climbs at a rate of over 9,000 feet per minute.

ARMY URGES RETURN OF VETERANS HOLDING SPECIALIST RATINGS

The Gainesville Army Recruiting Office reports receiving word from Hq. 8th, Air Force, Ft. Worth, of a shortage of specialized men at the Fort Worth Air Base, as well as at the bases, at Tucson, Ariz., and Roswell and Alamogordo, N.M.

There is a shortage of 125 MOS job ratings at the Ft. Worth Base and some 250 open at the other bases, including: 345, truck driver, light; 931, truck driver, heavy; 835, supply clerk; 405 clerk typist; 056 postal clerk; 747, airplane and engine mechanic; 754, radio mechanic, AAF; and 237, teletype operators.

Any former army or air force men holding a specialized rating who might be interested in duty at any of these fields is requested to contact the army recruiting sergeant at the Court House, Gainesville.

Matter of Opinion

Hal — "Do you think the senator put enough fire into his speech?"

Cal — "My opinion is he didn't put enough of his speech into the fire."

An elderly spinster listened to a sermon on St. Augustine, who in his young days was the most dissolute youth in Rome. Nevertheless, he repented and became a noble leader of the church.

"Ah, yes," said the pastor in the closing, "the greater the sinner, the greater the saint."
"Humph!" muttered the old lady. "I wish I'd known that 40 years ago!"

STATE HAS THREE TIMES ITS NORMAL NUMBER OF WHOOPINGCOUGH CASES

Austin. — A statement released today by Dr. Geo. W. Cox, State Health Officer, indicated that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that

such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent or germ of whooping cough, is transmitted by droplets expelled in coughing, sneezing or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not come in contact with other children until three weeks after the appearance of typical signs of the disease.

All members of the ruminant or cud chewing family such as camels, goats, deers, graffes and cattle invariably rise hind parts first, other four footed animals get up front legs first.

Mr. and Mrs. Nick Heiderscheit and son, Mike, and daughters, Mary and Carlotta, of Morgan, Mich., returned to their home Thursday after a week's with relatives of the Fuhrmann families.

A report from OLV College this week to the Paul Arendts advises that their daughter, Miss Luella Arendt, was one of the

BUZZ BOMB

POINT MUGU, CALIF.—OFFICIAL U. S. NAVY SOUND-PHOTO—Here is shown the navy's KUW (Buzz Bomb) as it roars into the air with the assistance of four Monsanto rockets. The rockets and sled will fall free at the expiration of the thunderous thrust, which lasts for less than two seconds. In this guided missile test center 40 miles north of Los Angeles, the navy is trying to catch up with the atomic age. It is a desperate, concentrated effort, with the defense of the country at stake.

highest ranking students during the past term with grades of A and B in all subjects.

H.J. BEZNER OPENS POULTRY DRESSING AND BROILER RAISING PLANT

A modern poultry, broiler, and dressing plant has just been opened by H.J. Bezner at 504 Summit Avenue in Gainesville.

When operating at full capacity the plant will handle 2,000 one-day old chicks every three weeks. These chicks are fed a rich diet of mash and kept in germ-free, chemically clean chicken batteries. The chickens are butchered when eight weeks old and wrapped in water-proof cellophane bags.

According to Mr. Bezner, battery fed chicken meat is much more tender and juicy than the meat from range grown chickens. He points out that chickens which are cooped up in batteries do not develop muscle, and that their diets can be closely regulated.

The new firm features free delivery for wholesale or retail orders, and will unjoint chickens if desired. Fryers are dressed every day, and customers will be able to buy fresh chickens in the winter as well as the summer.

He Asked For It

A very demure young lady, who was traveling in a railway train, was asked by a man sitting next to her whether she believed every word in the Bible.

"Yes," she replied, "I do."
"Surely," exclaimed the man, "You don't believe that Jonah was swallowed by the whale."
"I do," she answered, "and when I get to Heaven I'll ask him about it."

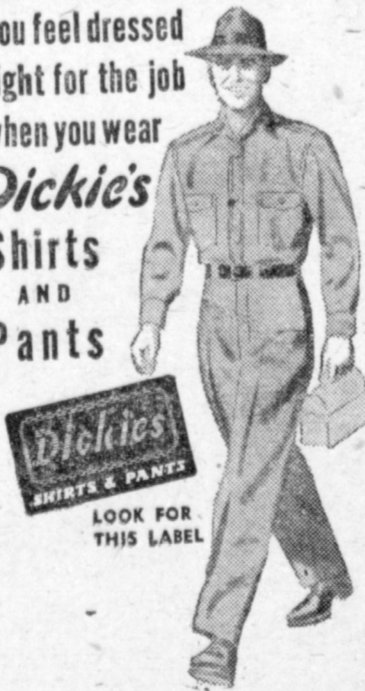

"But suppose he's not in Heaven?" inquired the stranger with a sneer.

"Then you ask him," was the young lady's reply.

Confetti---

of our attitude. Our leaders tried to stop this madness. They proposed world-wide disarmament, even to the extent of giving up our most potent weapon, and offered to submit to international inspections as evidence of our good faith in keeping the bargain. But Russia queered the deal. She proposed that we take her word for the extent of disarmament and

You feel dressed right for the job when you wear Dickie's Shirts AND Pants

LOOK FOR THIS LABEL

Page! and Schniederjan

refused to permit check-ups. In the face of her attitude no other nation could possibly give up its guns.

Not only that, Russia continues her aggression and expansion today. By action and attitude she serves notice that she intends to follow the same course Germany did. She'll gobble what she can by deceit and treachery, and fight for the rest.

So Americans have no choice. For the sake of security they are forced to participate in the arms race. In an economic sense they're like doughboys on the move, carrying full military pack and expecting enemy fire while on a forced march. Our reconstruction job, extending over the whole world as it does, is tough enough without the military pack as an extra burden.

The Wallace incident in Washington on Monday was a perfect example of democracy in action. It indicates how far this country will go to guarantee a citizen's right to free speech.

There were reasons aplenty for denying Wallace the use of the auditorium. His world policy is pro-Russian, his views harmonize with the official communist party line, and his sponsor for the speech was a communist-front organization. Every circum-

stance connected with the speech indicated that its purpose was to foster a pro-Russian view to the embarrassment and possible harm of this country. Both caution and logic offered ample reason for locking the door but our officials chose to stick with their principles of free speech. Wallace was permitted to have his say.

For a view of the opposite extreme we refer to another incident last Monday. In Budapest, Hungary, hundreds of members of the recently defeated democratic party were gathered for a meeting. About 150 communists with clubs, black-jacks, and brass knuckles broke up that meeting by starting a gang fight. As the battle developed the communists were getting the worst of it so the red police moved in and crashed people's faces with rifle butts.

There's the difference between the two political systems. The democrats in Washington were as anxious to prevent a meeting as the communists were in Budapest. But the democrats learned over backward to avoid violating the red's rights while communists resorted to rough stuff in violating their opponents rights.

Giving in to Wallace and company seems like putting an unnecessary strain on democratic principle, in fact it even makes the country look a bit ridiculous.

but in the long run it will probably prove to be the wiser course. We're still fighting communism the democratic way — with logic and without violence or oppression. What Wallace says can be refuted as usual, leaving him no better off than he was. Had he been denied the right to talk he would have gained considerable sympathy support.

In fairness to Henry Wallace we should bear in mind that he emphatically denies being a member of the communist party and to our knowledge no record has been produced to show that he is a member. Perhaps, as he claims, he is a loyal American.

But if we're mistaken the fault is with Henry himself — his associations and the complexion of his political beliefs.

Whether he likes it or not, Henry lays himself open to the same observation made with reference to another man who denied communist affiliation. "When I see a bird that looks like a duck and acts like a duck, one that associates and eats and flies with ducks, I naturally assume it is a duck".
