

Last Sunday yours truly had the good fortune to see two projects, either of which might very well be set up as ideals for this community. Both were hospitals, at Crosbys town and Hale Center, fine modern structures large enough to provide adequate accommodations for more than twenty patients, and objects of real pride to the people of the area.

The sight of such institutions and the thought of the service they are rendering stands out as a challenge to us at Muenster. Here are two cases — and dozens more could be named — of community residents working together to create an asset of inestimable value. Those people have accomplished something really worth while by applying the very spirit for which Muenster claims to be famous. Cooperation brought results for them, just as it has done and can do again for us.

The principal result of their effort is the creation of medical and hospital facilities. The health standard has been raised, and that factor alone amply justifies every bit of work and sacrifice in behalf of the institutions. But in the bargain each community has set up a system of cooperative medical care which brings additional benefits to every participating member. The cost of illness is substantially reduced because people who are well help to pay for those who are sick.

Every advantage of the institution and the system can and must become a reality here. The benefits offered are so great that we cannot afford to pass them up.

Muenster's opportunity to acquire those benefits is again coming to life. Directors of our association have decided to revive our project in spite of the unfavorable conditions that have already caused more than a year of delay. Rather than wait for anticipated improvements, they are in favor of forging ahead and taking difficulties in their stride. The first step of that revived program is the general membership meeting next Tuesday to hear a report on what has been done to date and what is planned for the future — as well as to elect directors who will carry on. Incidentally, the election itself should be sufficient inducement to bring out every member. The selection at this meeting is especially important because the men chosen will make the principal decisions on building plans and association policies.

That old saying about the pot calling the kettle black is being put to quite a strain in current relations with Russia, Gronyko, Vishinsky, and Company, it seems, don't bother even to find someone equally guilty to point the accusing finger and call ugly names. In order to apply to them the remark should be amended to "the pot calling the glassware black." This country has been officially smeared with adjectives like imperialistic, greedy, warmongering and dozens of others that are far from complimentary. A person could go on showing that each of the ugly names fits Russia better than United States, but for the sake of brevity we'll confine comparisons to only a few.

As regards imperialistic, this country, since the big shooting has stopped has granted independence to the Philippines while Russia has gobbled up almost all of Baltic and Balkan countries and is trying even now to bring China and Korea under its domination.

The warmonger charge becomes equally absurd when we note that the Reds are maintaining their full war-time strength while this country has demobilized to peace-time strength. Also from the fact that our efforts to maintain peace in Greece are consistently opposed by Russia.

More ridiculous than any other is that word greedy. The records show that we have given Russia more than 11.5 billions in lend-lease, direct loans and UNRRA relief. The records also show that our total help to all foreign countries is more than 58 billion dollars. And that's quite a sizeable lump, as we soon realize when we figure how much it represents in our own money. In terms of building 58 billion represents a new \$8,000 home for every man, woman and child in Texas. It represents more than the total purchases in all this country's retail stores in 1941.

Russia, itself, remember, got one fifth of that enormous sum. And what did we get in return? By reverse lend-lease we got back from Russia a little more than 2 million dollars worth of commodities.

(Continued on page 10)

Hornets Swamped By Laneri; Get Set for Tilt With St. Mary's

Still smarting from a thorough trouncing by the Laneri Hi Micks last Friday night the Muenster Hornets are looking forward with determination and confidence to their tilt with Saint Mary's Hi on Thursday night, Oct. 23. The game is scheduled for 8 o'clock in Leeper Stadium, Gainesville.

Advance comparison indicates that this game is the most evenly matched of the Hornets' season to date. Both teams have one-sided victories over the lightweight St. Xavier lads of Denison. Both have been badly beaten by the Marietta Indians.

In last Friday night's game the heavier, more skilled Laneri Hi team had an easy time piling up 32 points while holding the Hornets scoreless. Except for two short periods, at the opening and closing of the game, the match was fully as one sided as the score. With alertness, aggressiveness and skill all in their favor the Cowtown visitors moved forward at will every time they were on the offense and stopped every Hornet offense dead in its tracks. Until the last five minutes about all play was in the Hornets' half of the field.

The Micks started with a bang shortly after the opening kickoff by recovering a Hornet fumble on the 30. A pass netted 20 yards and a try for field goal on the 4 down failed. Trying to kick out of danger Gremminger was smeared behind the line after a bad pass from center went high over his head. A sprained ankle sustained on that play kept Gremminger on the bench until the closing minutes.

Receiving the ball after the 2 point marker Laneri advanced as far as the 3 when the quarter ended. The first play of the next period netted the touchdown.

Both teams braced as the ball went back into play and the game sea-sawed near mid-field until a heave from the 48 followed by a 35 yard sprint scored the second touchdown.

The third touchdown, in the third quarter resulted from another sensational play. A beautiful kick from the Hornet 20 to the Mick 40 was run back the full 60 yards in a beautiful broken field sprint that left a half dozen would be tacklers in its wake.

Next Muenster received, made a short gain, then lost the ball on the 19 when tacklers broke up a kick. Short line gains from there ended with a touchdown the second play of the last period.

An intercepted pass set up the last marker. Taking over on the 22 Laneri completed a pass across the line on the third play.

As the ball went into play again against Laneri reserves the Hornets made their only scoring threat of the game. Short gains after the kick were followed by a 25 yard pass to Reiter. There Laneri held and received a kick on the 2 and kicked back to the 32. A pass from Gremminger to Vogel advanced to the 15 and short gains ended at the 10 as the ball went to Laneri on downs. A 40 yard run from there returned the ball to mid-field as the game ended.

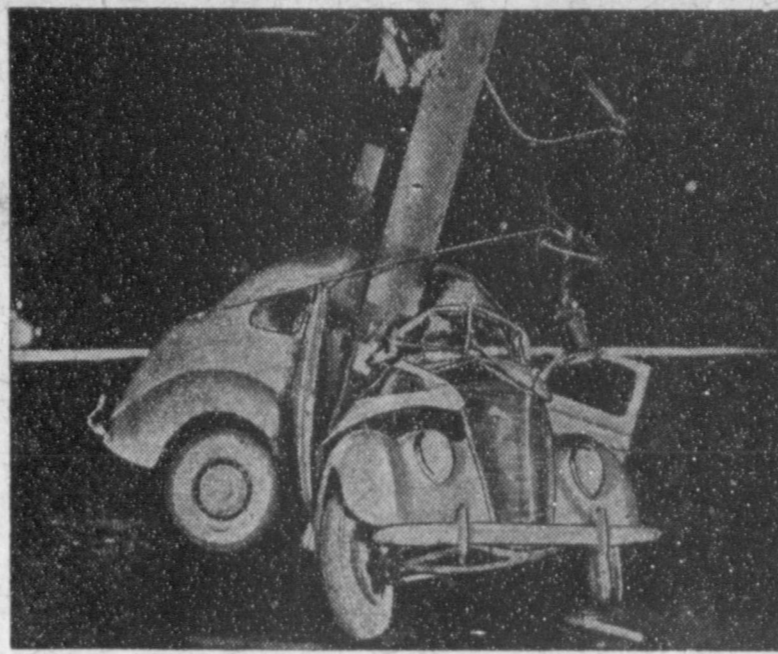

First downs were 10 for Laneri and 3 for Muenster. Passes, 4 out of 11 for Laneri and 2 out of 12 for Muenster.

PTA Serves 6,758 School Lunches During September

The P-TA lunch program served 6,758 meals during the month of September, it was announced at the regular business session of the Sacred Heart Parent-Teachers Association last Thursday night, when Mrs. Rudy Hellman, president, gave a report on lunch room activities. The report also revealed that more than \$150 worth of new equipment was added to the kitchen and dining room during the same month.

Other business at the meeting was a report on the pie supper held on Oct. 8, which netted a total of \$278.72. The fund is being used to buy and replace athletic equipment at the school. Announcement was made by the social committee that plans are in progress for a Halloween party for high school students and that parents are invited to attend also.

This meeting was marked by the largest attendance ever assembled for a P-TA meeting since its organization here. After the business session refreshments of ice cream and cookies were served.

Speeding through the night, the driver of this car was momentarily blinded by approaching headlights. Because he was going too fast to control his car instantly, he swerved off the highway and crashed into a telegraph pole with such force that the car was almost broken in two. He was dead when help arrived. National Conservatio. Bureau advises night-drivers to keep their eyes focused on the side of the road, never to look directly into headlights and—most important of all—to drive at moderate speed.

Old Landmark Furnishes Material For New Home

This week marks the disappearance of one of the city's oldest buildings. The frame house adjoining Steve's Cafe, until this week the home of Mr. and Mrs. Arnold Swirczynski, is being torn down and the material will be used soon on a new home adjoining Steve Fette's residence.

Frank Trubenbach, in charge of the work, says the building's present location will be left vacant for future use as a business site.

Mr. and Mrs. Swirczynski and family are living with his parents until the new home is complete.

Notes On Soil Conservation

Norbert and Edgar Klement, conservation group leaders, four miles northeast of Muenster, completed construction on a mile and a half of terraces. These terraces were constructed by the "Island Method", using a four disc plow.

Felix Becker and Alphonse Hoening, local cooperators, recently obtained delivery of a new seed cleaner that cleans alfalfa, clover, and vetch. Cover crop seed should be cleaned before replanting as weed and grass seed are usually present at time of combining.

A farm and ranch plan is being made with R.W. Trew, four miles south of Muenster. Mr. Trew is properly stocking his ranch and much of the pasture is in good condition. A pasture properly stocked has sufficient grass left on the land to form a mulch. A mulch is a source of plant food, increases water storage, reduces run-off, reduces soil temperature, reduces erosion, and protects young grass seedlings. At Jackboro, Texas, soil temperatures were taken on E.C. Richards ranch, on excellent pasture, having a cover of mulch (partially decayed grass). The soil temperature on the excellent pasture was 89 degrees, and on a heavily grazed buffalo grass pasture, the soil temperature was 120 degrees.

The greatest difference in soil temperature was 41 degrees, which was the difference in temperature between excellent pasture and burned buffalo grass pasture. The air temperature was 108 degrees.

PAROCHIAL TEACHERS ATTEND MEETINGS AT SAN ANTONIO, DALLAS

Sisters Theresina, Patricia, Eymard and Gertrude left Wednesday night for San Antonio where they will attend the first regional Inter-American congress of the Confraternity of Christine Doctrine on Thursday, Friday and Saturday.

Headquarters for the three day convention will be the Municipal Auditorium and it is estimated that more than three thousand priests, Brothers, Sisters and members of the laity will register for the program. Other thousands including students of colleges, high schools, and parochial schools are expected to attend.

A large assemblage of members of the Hierarchy will be present including the highest ranking member of the Mexican Hierarchy, His Eminence Cardinal Motta of Sao Paulo, Brazil, S.A.

More than fifty outstanding speakers will be heard during the congress, and addresses will be given in both English and Spanish.

After attending this program the four local sisters will go to Dallas where on Monday they will be joined by the eight grade school teachers of Sacred Heart school for a teachers' institute which will be concluded Monday night. Sisters Anastasia and Theresina will remain over Tuesday to attend a supervisor's meeting.

High school classes at the school were recessed Wednesday afternoon and will not be resumed until next Wednesday. Grade school pupils will receive a two-day holiday, Monday and Tuesday.

FIRE SNUFFED EARLY AT LUKE FEED STORE

A fire in Henry Luke's feed store Wednesday afternoon was snuffed before it had a chance to develop into anything serious. With the aid of near-by volunteers Henry himself got the open flame under control before the fire department arrived. By the time nozzles were ready for action the only job left was to remove a piece of siding and go after the cause of smoke that was still oozing from under the rafters.

PAVEMENT (?) ON MAIN GETS ANOTHER REPAIR

Maybe this time the city's Main street repair job will be its last. Several months ago when the council authorized filling holes with rock and asphalt mix, Mayor Weinzapfel stated that patch-up might be the last until the city gets its new thoroughfare in connection with the farm to market road leading north out of town.

Lots of rough spots have developed since then and more rough spots are expected to develop during the coming months. The big question is will the paving crew arrive before pits and gullies become impassable again.

BADLY NEEDED SEED GROWN BY FARMERS OF UPPER ELM-RED

Farmers cooperating with the Upper Elm-Red Soil Conservation District have done an outstanding job this year in producing badly needed legume and grass seed for doing soil conservation work in the district," states J.W. Hess, board chairman. "Both legumes and grasses play an important part in reducing soil and water losses." The District official added.

Farmers cooperating with the Upper Elm-Red Soil Conservation District harvested the following kinds and amounts of seed: Hairy Vetch, 637,950 lbs; Huban Clover, 233,470 lbs; Biennial White Sweet Clover, 67,165 lbs; Madrid Clover, 19,900 lbs; Bur Clover, 800 lbs; Singletary Peas, 1600 lbs; Balboa Rye 136,800 lbs; Abruzzi Rye, 132,000 lbs.; Weeping Lovegrass, 388 lbs; Black Medic, 200 lbs; Rescue grass, 500 lbs; and Yellow Bluestem, 10 lbs.

District cooperators produced at least 75% of the above kinds of seeds harvested in the district. All of the above seeds except rye and vetch will be planted in the district this year.

Legumes, vetch, and sweet clovers are used for improving soil fertility, reducing erosion, grazing and seed production. "Lost fertility and humus matter must be replaced with soil improving crops, if our lands ever produce again like they once did", according to Mr. Hess.

Pasture grasses and legumes are used for retiring land not suitable for cultivation to pasture, and for providing protection for terrace outlets. "Thousands of miles of terraces are needed in the district, but lack of grass on which to outlet the water makes it unwise to construct them. The foundation of a successful terrace is its outlet, and a grass sod is the only practical means of providing this foundation."

News Of Sick And Injured

rs. Herman Fleitman submitted Mrs. Herman Fleitman submitted to major surgery Monday at Gainesville sanitarium and is making normal progress toward recovery.

Little Jimmy and Sharon Schumacher had their tonsils removed Saturday at Gainesville sanitarium and have recovered.

Mrs. Herman Danglmayr continues as a patient at Saint Paul's hospital in Dallas where she is receiving treatment in an effort to build up her general health preparatory to a thyroid operation. She has been at the hospital since September 18.

Celine Felderhoff has recovered from a tonsillectomy performed at Gainesville Sanitarium last Wednesday.

Joe Voth was back at his usual work Monday after spending the latter part of last week in bed on account of illness.

Mrs. Herman Luttmner and her daughter-in-law, Mrs. Ferd Luttmner, returned Monday from a two weeks' visit in Glen Rose and report feeling much improved in health.

J.S. Horn has been confined to bed for the past two weeks due to illness. His daughter, Mrs. Al Swirczynski of Dallas, cheered him with a visit Friday afternoon.

C.L. Williams Moves To McKinney Vets' Hospital

C. L. Williams, Jr., son of Mr. and Mrs. C. L. Williams, has been moved from the Gainesville sanitarium to the Veterans hospital in McKinney, where he is reporting improving.

His condition was critical for almost a week following a brain fracture and a broken left arm, resulting from an automobile wreck on highway 82, near Lindsay, on Saturday, Oct. 11.

Hospital Records of West Texas Indicate Local Plan's Success

Seeking data and methods for the development of this community's hospital project, J.M. Weinzapfel, Herbert Meurer and R.N. Fette, directors of the Muenster hospital association, were in Hale Center last Sunday for a meeting of West Texas cooperative hospitals. They were accompanied by Mrs. Weinzapfel and son Henry, and Mrs. T.P. Frost.

Inquiry disclosed that several successful institutions in that area were built according to the same plans that have been adopted here. Some of the building fund is raised by selling membership in a medical care association, some by donations and some by loans to be repaid out of the earnings of the institution. Another possibility, for institutions that can qualify for priorities, is the federal grant recently approved for construction and equipment of hospitals in the state. Twenty four million dollars has been allotted to Texas for use during the next five years.

Inspired by the fine results achieved in West Texas the directors will go into next Tuesday's general membership meeting with plans which they expect to be enthusiastically approved. The first step is an intensive drive for additional memberships and donations, the success of which will control the scope of future plans.

Since the building is the first and most urgent objective most attention is now being centered on it. As regards cooperative medical plans two principal courses are open. One is the engagement of doctors on a salary and bonus basis with patients receiving full medical coverage, the other is the engagement of doctors on a regular fee basis with patients receiving partial coverage. Each method has its special merits but the latter is favored by the American Medical Association.

Other purposes of the general meeting are to elect directors and to report on the association's progress during the past year. The meeting will open at 8 o'clock in the parish hall.

RED RIVER VALLEY BOY SCOUT COUNCIL MERGES WITH DALLAS

The Red River Valley Boy Scout council, embracing Cooke county, Texas, Bryan county, Oklahoma, and Denison, was merged with headquarters in Dallas at a meeting of the executive board of the Circle 10 council Friday night. The council unanimously approved the consolidation.

The Circle 10 council has headquarters at 100 Thomas Building in Dallas, and has been serving Collin, Dallas, Ellis, Henderson, Hill, Hunt, Johnson, Kaufman, Navarro, Raines, Rockwall, and Van Zandt counties.

L.L. Hotchkiss has been area executive for 11 years and has three assistant executives and 10 field executives. D.A. Hulcy, president of the Lone Star Gas Co., is president of the council executive board.

The Denison office of the Red River Valley council is being closed out and records sent to the Dallas office of the Circle 10 council.

CRITICAL GRADS HAVE CHANCE TO PROVE HOW GOOD THEIR ADVICE IS

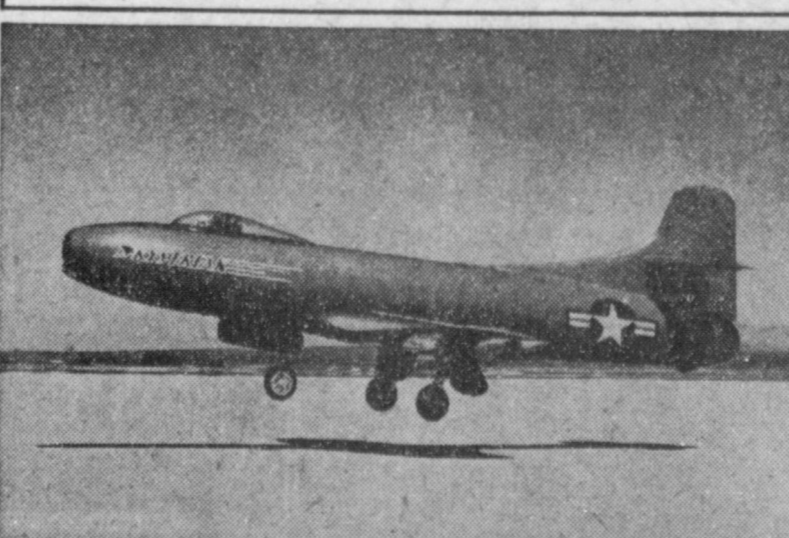

A game Friday night, Oct. 31, will decide whether some of the Hornets' principal critics in past games should have been keeping their comments to themselves. Ex-Hornets who have been telling the boys how will have an opportunity to show them how.

Their first practice session to loosen up and coordinate for the melee was held Tuesday night under the lights of the Hornet field. Another workout, or perhaps two, will be held next week at a time to be arranged by the players.

Meanwhile the Hornets are also priming for their clash with the grads. Though the game is rated only as a practice tilt the boys, for personal reasons, consider it as important as any on their schedule.

Improvements about town during the past week include a curb at Ray Wilde's and the adjoining lot owned by John Klement, another curb at Ben Seyler's residence, a paint job for the Muenster Mill and new siding for the Louis Steinberger home.

SKYSTREAKS TO RECORD

The Navy captured the world's speed record in August, 1947, and, five days later, broke it with the jet-propelled "Skystreak," shown above. Piloted by Comdr. Turner E. Caldwell, Jr., USN, the plane flew 640.7 miles per hour in the first test at Muroc Field, Calif. Within a week Maj. Marion Carl, USMC, set a new mark of 650.6 miles per hour in the same plane.

This Thursday evening in the K of C hall with Mrs. Joe Luke as hostess. The time is eight o'clock.

Mr. and Mrs. Joe Tischler and Mr. and Mrs. Al Yosten and children spent Sunday in Pilot Point visiting E. Tischler and Joe Pelzel and their families.

Rudy Hellman, joined by F.E. Schmitz and Mr. Hilburn of Gainesville and Jake Bezner of Lindsay, left Sunday for a week of pheasant hunting in Sioux Falls, South Dakota.

Mr. and Mrs. Alfred Hoedebeck and children of Denison spent Sunday here visiting his parents Mr. and Mrs. Fred Hoedebeck, and attended the community bazaar.

Mrs. Joe Luke advised this week that she will move her greenhouse to adjoin her new home within the next few days. Meanwhile she is continuing the sale of bulbs and plants at the usual place.

Bert Fisch and son, Wilbert, of Fort Worth were among visitors at the Hornet-Laner football game here Friday and remained to spend the night with Bert's mother, Mrs. J.P. Fisch and his sister, Mrs. M.J. Endres.

Little Mary Ruth and Rose Marie Fleitman are spending a few weeks with their grandparents, Mr. and Mrs. Jos Fleitman, while their mother, Mrs. Herman Fleitman, is a patient at Gainesville sanitarium.

Mrs. J.E. Lane and sons were in Denton Sunday to attend a family reunion at the home of Mrs. Lane's daughter, Mrs. Bud Razor, to honor Mr. and Mrs. Ervin Neuman of Los Angeles, Calif., who visited relatives in Texas during the week. Mrs. Neuman is Mrs. Lane's daughter.

Mr. and Mrs. M.L. McGowan are the parents of a seven pound daughter born at M and S hospital in Gainesville Monday afternoon. She has been named Katha Elaine and is a sister to Sharon. Mrs. McGowan is the former Miss Neely Mae Lawson and the maternal grandparents are Mr. and Mrs. E.S. Lawson. The paternal grandparents live in Gainesville.

Mrs. Ernest Pickett, the former Miss Katie Schoech, was here Sunday for a visit with Mr. and Mrs. I.A. Schoech and Mr. and Mrs. John Furbach. It was her first return to Muenster in 30 years. She was accompanied to this city by Mr. and Mrs. Frank Schoech of Dallas, with whom she and her husband are visiting enroute to South Texas to make their home for the winter. They have been residing in Alaska and California and are now nearing the end of a several months' automobile tour that took them through northwestern states. When the Schoechs and Mrs. Pickett returned to Dallas Sunday evening they were accompanied by Mrs. I.A. Schoech who went as far as Fort Worth where she stopped to visit her daughter, Mrs. Ferd Yosten and family for several days. She will spend the latter of this week in Dallas with another daughter, Mrs. Charles Harris.

Freshmen Lead in P-TA Contest; Sixth and Eighth Grades Tie for Honors

The freshmen of Sacred Heart High school won the loving cup for the month as the result of last Thursday night's attendance contest at the P-TA meeting, and in the grade department the sixth and eighth grades tied for it.

Approximately 300 parents attended the meeting. In Sept. the cup was won by the seniors and the sixth graders.

Asked why he wanted to remain in jail after he had completed his sentence, a Maine man answered succinctly, "I've been reading the papers."

CONSERVATION SERVICE PRESENTS SOIL SHOW HERE NEXT THURSDAY

Every farmer of the community, whether or not he is currently participating in a soil conservation project, is invited and urged to be at the Relax Theatre Thursday afternoon, Oct. 30, for a lecture and movie on soil conservation. The program, conducted by technicians of the Soil Conservation Service, is free.

Robert Mitchell, director of the local work unit, disclosed this week that the speaker for the program will be Freddie M. Shaw, former district conservator for this area. The films are "Raindrops and Erosion" and "This is our Land."

The show will begin at 2 p.m.

K of C Council Sponsors Benefit Dance For Hornets

The Muenster K of C council this week joined several other community groups as patrons of the Hornet football squad. John Klement, chairman of the K of C dance committee, disclosed that the organization will sponsor a benefit dance next Tuesday night, October 28, the proceeds to be applied to the team's equipment fund. Bob Burdette's orchestra of Denton will furnish the rhythm.

WATT NUMBER

... IS THE ANSWER TO BETTER LIGHT IN YOUR HOME

THERE'S A SIZE FOR EVERY NEED

Your safety sign... that eyes have the full protection of proper light... is the watt number imprinted on every lamp bulb! Eyestrain can develop even from ordinary household tasks, if lighting is not adequate. Fill every light fixture and lamp with correct sight-saving sizes. Good light for easy seeing requires 150-watt lamp bulbs for study and reading lamps and 300-watt bulbs for floor lamps.

TP&L low-cost electricity gives your family, the full benefit of plentiful light... for only a few cents a day! The added cost of electricity for using a 150-watt bulb instead of a 60-watt bulb is less than a penny for THREE HOURS... and the purchase cost of the 150-watt bulb is only 10 cents more. You owe it to your eyes to get proper lighting, now!

well known salesman for Waples-Platter Co., was in the city for a visit with local merchants Tuesday for the first time since last May when he was afflicted with illness and was forced to resign from his work.

Mr. and Mrs. Joe Newara of North East, Pa., who are spending a month's vacation here with her parents, Mr. and Mrs. John Wimmer and family, will leave early next week to return to their home. Mrs. Newara is the former Miss Lucille Wimmer.

Alvin Hartman, Johnny Rohmer, Tommy Gremminger and Misses Rosalee Fuhrmann, Catherine and Edna Hartman spent Sunday in Fort Worth visiting with Misses Ida, Margaret and Dorothy Rohmer, and with Miss Coralee Fuhrmann and Sisters Francesca Walterscheid and Cecile Endres at OLV College.

Robert Gruber and Don Gibbs returned Sunday from Corpus Christi where they attended an REA-bookkeepers short course the latter part of last week. While in that city they enjoyed a visit with Father Thomas Buegler, former Muenster pastor, and Father Alcuin Kubis, a former Lindsay boy, now on the faculty at Corpus Christi College-Academy.

may begin with this series. Also any class may be attended without taking the whole course. The fee for the full course is \$3.00, and a single day's lecture is \$1.50. Anyone wishing further particulars is asked to get in touch with Miss Olivia Stock, local Garden Club president.

A young woman just home from college was very enthusiastic about the wonderful benefits of physical culture. She said to her father: "Just watch this exercise. To develop the arms, I grasp the rod by one end and move it slowly from right to left." "Well, well!" exclaimed her father. "What won't science discover next! If that rod had straw at the other end, you'd be sweeping."

FLOWER JUDGING SCHOOL TO BE HELD NOV. 12-13

An amateur flower judging school will be held in Gainesville on November 12 and 13, sponsored by the Evening Garden Club of that city, and anyone from Muenster who is interested is invited to attend the classes, it was announced this week.

The Wednesday program calls for registration at 9 a.m. followed by a class on flower show practice. The afternoon lesson will be on horticulture. Thursday will feature classes on flower arrangement in the morning and afternoon, the first lesson on design and emphasis on scale and proportion, and the afternoon class on color.

This is the third in a series of similar courses given, but it was pointed out that even though one has had no previous course, one

From where I sit... by Joe Marsh

"Take Pen in Hand"

This column has been running for so long that its readers, in towns like ours all over the country, are beginning to "take pen in hand" and write us what they think.

Some of them take me over the coals for what I say—like the column I ran on planting alfalfa. Others write, "I liked your column yesterday, but..." All of them have different points of view.

From where I sit, that's the way it should be. Everybody's entitled to an opinion—and it's those very differences, and friendly criticism,

that make for tolerance and better understanding—whether it's ideas on planting alfalfa or choosing between beer and cider.

The more folks air their differences right out in public, with a neighborly respect for the other person's liberties and point of view, the closer we are to the American principle of individual freedom—whether it's in a choice of crops or beverages.

Joe Marsh

Only in Chevrolet trucks will you find all these ADVANCE-DESIGN FEATURES!

- UNIWELED ALL-STEEL CAB CONSTRUCTION.
- BIGGER SEATS, fully adjustable to the driver's height!
- NEW WINDSHIELD and WINDOWS increase glass area 22%.
- FLEXI-MOUNTED CAB is cushioned against road shocks, torsion, vibration!
- INCREASED LOAD SPACE in panels and pick-ups.

- Streamlined in body, cab, fenders and with ADVANCE DESIGN!
- World's most economical engine for its size is Chevrolet's famous VALVE-IN-HEAD TRUCK ENGINE!
- CAB THAT "BREATHES"! Fresh air (heated in cold weather) is drawn in, and used air is forced out!
- New FRAMES carry greater loads for a longer time! LONGER WHEELBASES give better load distribution!
- New cab has 12 inches MORE FOOT ROOM—8 inches MORE SEATING SPACE!
- Chevrolet truck BRAKES are occlusively designed for greater brake-lining contact.

Here they are—the modern trucks—the first with ADVANCE DESIGN! Truck users agree they're miles beyond all others for outright value! Be sure to see the cab that "breathes"—that "inhales" fresh air and "exhales" used air.* And try counting all the remarkable new features and innovations in these newest-of-all trucks. See them at our showroom!

*Fresh-air heating and ventilating system optional at extra cost.

The American Way
 By George Peck

INTELLIGENT RELIEF

In a recent article I quoted that great Democratic President, Grover Cleveland, as saying that government functions "do not include the support of the people." From a reader of the column comes the suggestion that were Cleveland alive today, he would

have added, "of the United States or of any other nation."

This correspondent continues: "My thinking is that, if the function of our Government is not to support our people, it is certainly not the function of our Government to support people of other nations. This does not mean that we as individuals should not support others in distress, whether they are of our own nation or some other nation."

"Private individuals or a group of private individuals, have no difficulty in giving relief and administering its distribution in a foreign country. They can distribute the relief as they see fit and to such individuals as appear to

to them to need it. On the other hand if our Government undertakes the distribution of relief in a foreign country, the donor is always regarded as imposing upon the liberty, the freedom, the sovereignty, or the dignity of the donee nation."

It seems to me that the foregoing makes good sense. In indiscriminately sending money to other nations, we are spreading over the world the cockeyed philosophy that Government owes the individual a living, whether or not that individual makes an effort to help himself.

For example, undoubtedly, we have done a great harm to the English people by loaning them the money with which her socialistic government has been able to carry out a program of nationalization. Today the English worker has lost his freedom; he works where and when the government tells him. And the day is not far off when the English people will blame Uncle Sam for contributing heavily to their condition of servitude. There will be no thanks for our misguided generosity.

If we are to send more money to foreign countries, or extend further credits, let's dispense our charity so that it will not do irreparable damage to the recipients of our bounty. True, there are millions of people starving in Europe and who will suffer from the cold this coming winter. But many of these millions are resting on their haunches, doing absolutely nothing to help themselves, confidently expecting Uncle Sam to feed, clothe and keep them warm.

The greatest kindness we can do unfortunate people is to provide them with seed corn and the machinery of production, while teaching them the lesson that we are only able to give them these things because for 160 years we practiced the philosophy "that God helps them that help themselves."

If we can only somehow persuade these people to try to dig their own corn, to try to farm their own farms — to do for themselves even though the going is tough, then we will have rendered them a real service, have given communism a knock-out blow, and have laid the ground work for permanent world peace. But just giving them money under the guise of loans, will not accomplish those much-to-be-desired objectives.

Intelligent methods must be used in extending relief whether it be to our own people or to

peoples of foreign countries, else we permanently destroy the very people we endeavor to help. Our sad experience of the W.P.A. should have taught that lesson.

TEXAS RANKS 6TH IN NATION'S POPULATION

Texas is still in sixth place among the states in population.

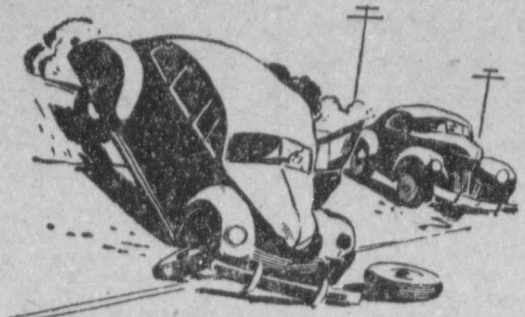

This state has 7,118,000 people, not counting the citizens in the service of the government overseas. That is a gain of 703,176 since April 1, 1940, and a gain of 158,519 since July 1, 1946.

The Census Bureau estimates there are in the United States 143,382,000 persons, a gain of 8.9 per cent since 1940 — and not counting the men and women in the armed forces overseas.

The Texas gain of 11 per cent in population since 1940 compares with California's gain of 43 per cent in the same period, that remarkable increase having moved the Pacific Coast commonwealth into third place among all the states, putting it ahead of both Illinois and Ohio. New York and Pennsylvania still hold first and second places in the Census Bureau's list.

Texas gains a little faster than does the nation; but California's growth in population far outstrips us.

dent nurse in Dallas, spent Friday night and Saturday with her parents, Mr. and Mrs. John Hartman.

Miss Dolly Lehnertz of Fort Worth spent the weekend with her parents, Mr. and Mrs. Joe Lehnertz. She was accompanied by a classmate, Miss Bernice Perry of Denton.

Mr. and Mrs. R. M. Zipper and Mr. and Mrs. Joe Tischler were in Wichita Falls Monday to attend funeral services for John Bickwelder, who was their friend and neighbor during the days they all lived in Pilot Point.

Mrs. Jim Cook left Tuesday afternoon after receiving a message that her aunt, Mrs. Jenny Hudson of Fox, Okla., had died suddenly as the result of a heart attack. Funeral services were held at Fox Wednesday.

Mr. and Mrs. J.W. Fletcher spent Sunday in Pilot Point with her brother, E.M. Shiflet and family and were accompanied home by her mother, Mrs. F.M. Shiflet who will spend the winter here with her son-in-law and daughter.

Mr. and Mrs. R.L. McNelley drove to Fort Worth Saturday and were joined there by Mr. and Mrs. J.H. Flood and children of Waco to see the A & M - TCU football game. The Floods accompanied the McNelleys back to Muenster and were their guests through Sunday.

Mr. and Mrs. Eugene Klement announce the birth of their first child, a 9-pound son, at the Muenster Clinic on Saturday, October 18. He has been named Charles David. At his baptism Sunday afternoon, Father Herman officiated, assisted by Mr. and Mrs. Frank Klement, paternal grandparents, as sponsors.

Mr. and Mrs. Alois Trubebach are the parents of a daughter, Rita Margaret, born at the Muenster Clinic on Saturday, October 18. The little lady weighed 8 1/2 pounds. She was baptized Monday afternoon by Father John, assisted by Mr. and Mrs. John Fisher as sponsors. Mrs. Trubebach is the former Miss Louise Schmitt, and the grandparents are Messrs. and Mmes. Ed Schmitt and Tony Trubebach, Sr.

Mr. and Mrs. Joe Luke's home was sold to John Hoffman during the weekend and the Hoffman family moved immediately to occupy it. Mr. and Mrs. Luke have moved into the new brick house, adjoining their previous residence on the northwest, that their son, Norman Luke, had built. The Baumhardt house, vacated by the Hoffmans, is now occupied by the John Otto family who previously resided on a farm southeast of the city.

EAST SIDE OF COURT HOUSE - PH. 224 - GAINESVILLE, TEX.

You hear and read a lot these days about this troubled world. Some believe that the end is near. Some labor-management strife continues in the news, some prices, judged by pre-war levels, are high, and it must be true that we have a fifth column actively at work to change our form of government. The foreign situation is exasperating. From one point of view, things generally are in a state of confusion, and to some, disaster looms ahead.

But here in Texas and Oklahoma, where Lone Star furnishes gas service to homes and industry, most folks are living well, having babies, going to church, improving their homes, educating their children, and turning in a good day's work for a good day's pay. These people have faith in themselves, in their country, and in their communities. They are willing to work. They know that in America a man can still be what he wants to be.

Self Reliance and Hard Work made our country.
Self Reliance and Hard Work will keep us free!

Busiest seasons for Lone Star folks—more than 4,000 men and women—are summer and early fall when we're working to get the system ready to meet winter's peak demand.

If it's very painful for you to criticize your friends, you're safe in doing it. But if you take the slightest pleasure in it, that's the time to hold your tongue.

MONDAY RITE UNITES ANNA MARIE SCHILLING AND ANTON FLEITMAN

Nuptial rites performed Monday morning at 6:30 in Sacred Heart church here united Miss Anna Marie Schilling, daughter of Mr. and Mrs. John Schilling, and Anton Fleitman, son of Mr. and Mrs. Joseph Fleitman.

Rev. Herman Laux, pastor, read the double ring ceremony and officiated at the nuptial high mass in the presence of relatives and friends of the young couple. Anthony Luke, organist, played the traditional wedding procession and recessional and remained at the console to assist the church choir in rendering the Gregorian chant mass.

The bride wore a becoming two-piece suit of soldier blue wool with a white silk blouse and accessories in black. Her flowers were a corsage of white mums and she carried a prayer book.

Miss Elizabeth Fleitman, sister of the groom, was maid of honor wearing a brown wool suit with brown accessories and a corsage of yellow mums. Earl Koelzer was best man.

Mesdames Schilling and Fleitman, mothers of the couple, wore navy blue costumes with black accessories.

After the ceremony, members of the bridal party, the officiating

minister and parents of the couple, were guests at breakfast in the Fleitman home. The bride's table carried out the all-white theme and was centered with a tiered cake.

The breakfast preceded Mr. and Mrs. Fleitman's departure on a wedding trip by car. They did not reveal their destination. When they return they will make their home on the Fleitman farm six miles northwest of the city.

Both Mr. and Mrs. Fleitman are natives of Muenster and were educated at Sacred Heart school. He served with the army air corps ground personnel during the last war and spent almost three of his four years on duty in the Pacific theatre.

Out of town relatives at the ceremony included Mr. and Mrs. Andrew Roewe, Miss Christine Roewe and Mrs. Wm. Pels, all of Pilot Point, Mrs. C. C. Morgan, and son, Andrew, of Gainesville, and Mrs. John Block of Lindsay.

by air into the 48 states.

Christie has a message for today's youth who say opportunities in America are dead. There are unlimited opportunities, he says, for those who are willing to dig in and work hard to "build a better mousetrap."

"Youth is just crazy, or lazy, if it says it can't be done. The best of everything is yet to be produced."

Christie, at the age of 35, gave up his traveling salesman job to become a farmer. He had three-quarters of an acre of land.

Today in Kingston, N.H., and surrounding Massachusetts towns, his seven chicken farms cover more than 1500 acres. He had, not so many years ago, to spread out the manure in his field himself because he couldn't afford to hire a horse for a day.

Professors, agricultural extension men, visitors from all parts of the globe — including a four-man commission from Russia — have come to study Christie's hatching methods.

For the first nine years he scrimped and scraped alone, determined to build a better breed of fowl — one with high livability even in "old-fashioned winters," that grew into a plump broiler in 10 weeks, that was early marketed and early in production, and many other blue ribbon qualities, before he sold any chickens at all.

With these qualities, he devel-

\$100,000 Cake

"Something out of fairyland," says 3-year-old Rue Howell, of Dallas, at sight of the jeweled birthday cake, valued at \$100,000, prepared for Arthur Everts, pioneer Dallas business man, on his Golden Anniversary celebration. Rue is 3½ feet tall, while the cake measures over four feet. Iced with gold and blue sugar frosting, festooned with pearls and garlanded with diamonds, sapphires and other precious gems, the rare confection is the sort little girls dream of but seldom see except in fairy tales.

My Neighbors
By BILL PAULSON

"Suppose all us farmers joined a Union and quit raisin' food; we could collective bargain a pretty good contract in just about 3 days!"

SODALITY GIRLS ENJOY INTERESTING MEET TUESDAY

Members of the Young Ladies Sodality enjoyed an interesting meeting Tuesday night with reports on the recent district convention of the Catholic State League held at Windthorst, by Rosalee Fuhrmann and Emma Lou Gehrig, and a general discussion on present world conditions led by Father John, spiritual director.

Miss Virginia Walterscheid, prefect, presided, and the social committee announced plans for a party to be held in the near future.

Father John led the opening prayer and the meeting was concluded with night prayers.

oped his near-million-dollar business in the midst of the world's worst depression.

"Andy" Christie says the real reason for success in any business is "the desire to excel, an ambition to do something better than was ever done before."

SIX MONTHS' LITTER WEIGHS 3673 POUNDS

College Station, — Three thousand six hundred and seventy-three pounds of pork will make a lot of chops, and that poundage gets a lot bigger when you find out it was produced in 180 days from one litter of pigs.

That's what happened in Young County this year, and the pork producer is 15-year-old Walter Gene Shepard, 4-H Club boy of Graham, who for two straight years has been champion in Texas in ton litter pork production, has placed fourth in competition with breeders all over the nation, was high-ranking 4-H boy in the nation last year.

In ton litter competition, breeders compete to see who can turn out the most pork from one litter of pigs.

This year, Walter Gene, according to his coach, Warren H. Limer, assistant Young County agent, raised a litter of 14 pigs, farrowed March 20. At 56 days of age the litter weighed in at 739 pounds. At 180 days, they tipped the scales at 3,673 pounds. Limer says the entire litter averaged a gain of 1.7 pounds per head, daily, from weaning age until they were six months old.

**PUSH BUTTON FARMING
IS GETTING NEAR SAY
IMPLEMENT MAKERS**

The day of "push-button farming" doesn't seem too far off to American manufacturers! On the drafting boards of many a plant today, and in some instances actually in the testing stage if not in full production, are new implements which are one-man operated, yet accomplished the normal day's work of half a dozen farm hands.

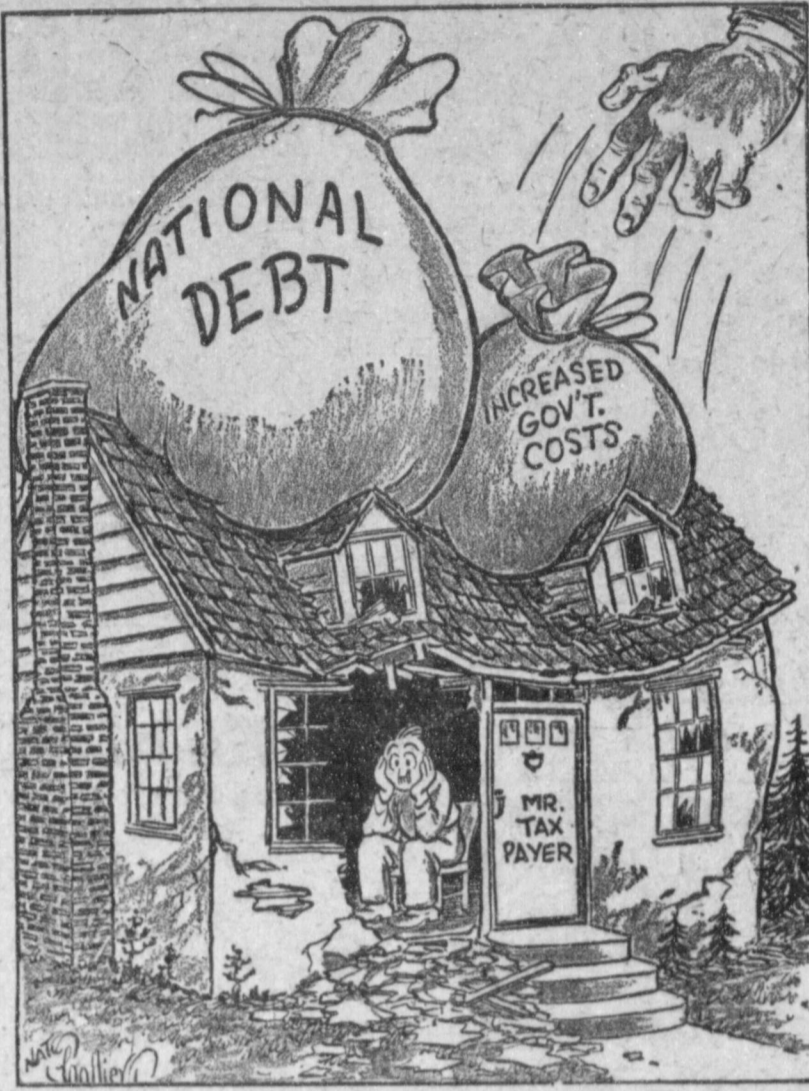

Implement makers are now moving to simplify the operation of their heaviest new equipment. Hydraulic touch-controls are appearing on the manufacturer's tractors and mammoth self-propelled combines, enabling the farmer to till and harvest more acres with remarkably less exertion than ever before.

Another manufacturer is stressing tools for the smaller farm — a "cub" tractor designed for farms of 40 acres and under, appealing to the garden farmer, and as an auxiliary tractor on larger acreage. Orders have poured in, requiring two or three years of production to fill.

An important line, too, is the mechanical cotton picker, and specialized instruments for use in rough, hilly terrain, in water-soaked heavy rainfall areas, and in extra-tough hard surface farm lands.

Coming up also is a mechanical beet harvester that whisks off leaves, yanks the beet from the ground and deposits it on a truck or conveyor belt; a self-propelled combine which scoops up and bales windrowed hay in one operation; a one-man hay baler which accomplishes the work of three farm hands.

Scheduled to reach the farm

market this fall is a one-row corn picker, developed for 40 to 80-acre farms. The picker is designed to standardize costs from six to 12 acres of corn daily.

Still another leading farm implement maker emphasizes hydraulic touch controlled equipment in his post-war line. The company's heavy duty, 3-4 plow tractor is now in production, and is designed to utilize a variety of labor-saving hydraulic-controlled implements.

Record-breaking farm purchasing power and scarce farm labor is the immediate inspiration for this production, and over-all is the fact that American industry ploughs back an ever-increasing part of its earnings into research and development, which when applied to the farm makes life easier, more pleasant and productive.

Applied to our national economy, this policy means more jobs for workers, more products and constantly lowering costs for all consumers.

**U.S. JUDGE SAYS YES,
OKIE LAWS SAY NO**

Oklahoma City, Okla. — A United States District Court Judge here has ruled that Oklahomans can bring all the tax-paid whiskey they desire into Oklahoma without being subject to prosecution by the United States Government. Oklahoma, however, is "dry" and the state and local governments are committed to keep whiskey out of the state.

A political platform is for one party to stand on and the other party to jump on.

AWOL ONLY 30 YEARS

San Antonio — A khaki-clad, middle-aged vagrant arrested near the Southern Pacific depot here, told police he was a soldier and was on his way back to camp.

Upon checking, police found he was a veteran of World War I and urged the man to hurry, for he was already 30 years overdue.

"Necessities" Unfit to Drink

Then there was the traveler who asked a native of a remote region in the Ozarks if he didn't have trouble getting the necessities of life in that inaccessible spot.

"Yes, we do," said the mountaineer, "and half the time what we do get, it ain't fit to drink."

Incompatibility — The local weatherman was so often wrong in his predictions that he became the laughingstock of the community. He, therefore, applied for transfer to another station.

"Why," wrote headquarters, "do you wish to be transferred?" "Because," the forecaster replied, "the climate doesn't agree with me."

Anniversary Sale**

One year ago we opened our doors with a new idea in furniture retailing . . . our "low-overhead" operating policy. We believed that by keeping operating expenses at a bare minimum we could sell good furniture at unusually low prices and still show a satisfactory profit. Some skeptics said we wouldn't last a year, but we have certainly proven them wrong.

During the past year thousands of people have passed through our doors . . . we have increased our floor space by 50% and more than doubled our inventory. This was made possible by our friends and customers who stayed with us through the past period of shortages. To these kind people, we dedicate this, our first ANNIVERSARY SALE.

We have been planning this special event for many months and from an extensive line of quality furniture we have selected the items listed below as standouts FOR QUALITY AT LOW PRICES. Each item is priced LOWER THAN YOU HAVE BEEN ACCUSTOMED TO SEEING (even in our store). Every piece of furniture offered is honestly and expertly made . . . and worth a lot more money than we're asking.

We can deliver immediately from stock and, frankly, we know that our replacement costs will be so high that after our present stock is gone there will be no more such low prices for a long, long time.

**HERE ARE JUST A FEW OF THE
HUNDREDS OF VALUES WE ARE OFFERING:**

- | | |
|---|---|
| 2 pc. Velour living room
suites 109.95 | 3 pc. Sectional Sofas 99.95 |

BASIC UNION CONTROL IS FIRST RED GOAL

Workers in training for leadership among American communists are taught that the first step must be to get Reds in control of basic unions, according to testimony of a former member of the party's 54-man national committee.

The witness said the Reds particularly wanted control of labor unions in transportation, mining, and steel, adding: "We were taught that it is essential for the Communist party to entrench itself in the basic and key industries of the nation to foment a series of general strikes, paralyzing the economy of the nation."

A contented man is he who enjoys the scenery along a detour.

Lindsay News

Miss Ida Mae Neu is in Muenster for a visit with her uncle and aunt, Mr. and Mrs. J.P. Flusche and family.

Robert Gruber returned Sunday after being in Corpus Christi since the preceding Wednesday to

attend an REA bookkeeping short course. While there he visited with Father Alcuin Kubis formerly of Lindsay, and with Father Thomas, former Muenster pastor.

Father Francis Zimmerer spent the weekend with his parents here and attended the Muenster parish and Subiaco benefit bazaar in Muenster Sunday. His returned to Subiaco Abbey Monday morning with Father Louis and Mr. Huber, who were also among visitors at the bazaar.

The hot lunch program, sponsored by the Lindsay school authorities, which got under way last week, is functioning very satisfactorily under the management of Mrs. Joe Bezner, assisted by Mrs. Mike Dieter and Mrs. H.E. Davenport. Lunches are being served daily to about 130 children.

7th Grade — Angela Hermes, Virginia Fleitman, Antoinette Neu.
6th Grade — Betty Ann Dieter.
5th Grade — Stella Bengfort, Peggy Hermes, Mary Margaret Hermes, Verna Kuhn, Harold Neu, Rachael Voth.

3rd Grade — Alcuin Paul Kubis.
2nd Grade — Jane Frances Kubis, Cecelia Neu.

1st Grade — Alma Louise Haverkamp, Mark Hermes, Leroy Neu.

ACCIDENTS INCREASE CLAIM ON LIVES OF NATION'S CHILDREN

"Fire is the leading accidental killer of children," writes the Star of Saugerties, New York. It then points out that while the battle against disease as a cause of child fatalities is being won, the battle against accidents is being lost.

Some 6,000 children under the age of five die in home accidents each year. More than a third die from burns and scalds — a larger toll than is exacted by the dread disease of polio. On top of that, for every child who is fatally burned, many more are crippled or disfigured for life.

No child is burned through his own fault. The blame comes straight home to parents who, through carelessness or ignorance or downright inertia, permit the child to be exposed to hazards. The Star cites some suggestions, made by the National Board of Fire Underwriters, which should be memorized by every parent:

1. Never leave children unattended in the home, and be sure the sitter is responsible.
2. Keep matches, hot liquids, lamps, etc., out of the reach of children.
3. Don't permit children to play with bonfires or fireworks. Such amusements as popcorn roasts should be held under close adult supervision.
4. Avoid dressing children in highly inflammable clothing, such as net dresses.
5. In case of fire, get children out of the house, then call the fire

Confetti---

modities. Reduced to small figures, the kind you and I can visualize more clearly, that means we have given the Reds \$5,310 for very dollar they have given us. Who's calling whom what ugly names?

"LOON" EXPERIMENT

The above photo shows the Navy experimenting with the "Loon," a radiocontrolled, jet-powered guided missile copied from the original German designs. Known as the KUV-1, this weapon is roaring into the air with the aid of four Monosauto rockets and soon wings its way over the Pacific seeking its target. (Official U. S. Navy Photograph)

Department.

If all parents will follow these easy rules, the horrible toll fire now takes in the coin of children's lives and health will be sharply reduced.

BIRTHDAY SURPRISE FOR MRS. RAY WILDE THURSDAY

Mrs. Ray Wilde was honored with a surprise party in her home Thursday evening in observance of her 21st birthday. The affair was planned by Mrs. J.B. Wilde.

Following the presentation of gifts to the honoree, the guests enjoyed progressive 42 series in which Mrs. John Schmitz won the high score award and Leroy Schmitz the consolation favor. Mrs. Martin Theimer received the galloping prize.

Refreshments were served to Mr. and Mrs. Ray Wilde, Mr. and Mrs. J.B. Wilde, Mrs. John Eberhart, Miss "Skeeter" Bodvosky and Mr. and Mrs. Martin Theimer of Gainesville, and Mr. and Mrs. John Schmitz, Freddie and Leroy Schmitz, and Mrs. Lena Schmitt, all of Lindsay.

Texas' greatest distance from east to west is 773 miles.
