Organization of Teens Continues

Local teen-agers at their meeting Wednesday night selected a name for their club, elected a new president, set age limits for membership, and appointed an executive committee to raise funds and decide on a location to be used as the club's recreation center.

The group's name is M-Teens, the M being for Muenster.

Milton Fette is the newly elected president succeeding Carol Fette, who submitted her resignation after two weeks as head of the club.

The executive committee includes Carol Fette, Bobby Dale Walterscheid, David Yosten, Jo Ann Fisher and Dickie Pagel. Besides financing and selecting a building they will decide on entertainment equipment, which will possibly include a juke box, soft drinks box, ping pong table and additional items that the budget can allow.

Age limits for membership begin with high school freshmen and end at 19.

Next meeting of the club is set for Wednesday, 8 p.m., in the public school auditorium.

C., for assignment at Walter Reed Army Medical Center, following a leave here with her sister and family, the Ed Cler, after ending a tour of duty in Germany. She saw all of her family on this visit. With her sister, Mrs. Cler, she visited in Dumas with the Bill Hoehns, had a picnic at Amon Carter Lake with the Jack Hoehn family and went to Dallas to visit the Albert Hoehns and family.

College Regents Take Over Title, OK Improvements

Regents of Gainesville College in their regular meeting continued with procedure of separating Gainesville College from the Gainesville School District and also approved the improvements before the next school year.

They met with Gainesville school board members to complete the agreement that transfers the college plant to jurisdiction of the county college district and also transfers bonded indebtedness from the Gainesville district to the county district.

Heading the list of authorized improvements is a 40 ton air conditioner to complete the school's cooling system. It will be installed in about two weeks. Other items okayed are black top paving on the parking area, additional chairs for the auditorium and additional blinds for classrooms.

New State Law on Livestock Control Effective July 1

The Texas Department of Public Safety reminded Texas cattle owners today that a new law went into effect July 1 aimed at controlling livestock on designated US and state highways.

The new law makes it illegal for a person knowingly to permit his domestic livestock to roam at large and unattended on state and federal highways. It applies regardless of whether or not the highway right-of-way is fenced. Maximum fine for such violation is \$200, and each day the violation occurs may be considered a separate offense.

Farm to market roads are excepted from the law. The new law also gives law enforcement officers the authority to have such livestock picked up, when unable to locate the owner, and turned over to the sheriff or constable in the county.

The law does not prohibit the driving or herding of livestock across or along highways. It gives peace officers the authority to enforce provisions of the act without a warrant.

Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, said state patrolmen will enforce provisions of the law in an effort to reduce the traffic hazard caused by animals on designated state and US highways. He said that during the year 1959 a total of 1406 rural traffic accidents occurred in Texas involving animals of all types. In these accidents 216 persons were injured and 4 persons were killed.

Swim Class Shows Enthusiasm with Members 13 to 60

There's a good deal of enthusiasm among members of Muenster's swim class for girls and women. Organized last week with 11 signed up, some 15 or 20 planned to join the class this week. Swim sessions are held each Thursday at 9:30 a.m.

Pool manager George Petrus said baby sitters have volunteered to entertain the young fry while their mamas enjoy the pool.

Girls from 13 years of age up and women of all ages are welcomed. Initial enrollment includes members from 13 to 60.

Basic Purpose of Traffic Law Is to Protect Citizens

"Traffic laws are, basically, for the protection of all citizens and the efficient movement of traffic. Cheating on traffic laws, then, will not only disrupt traffic, but will eventually lead to a tragic, needless death or crippling injury."

This warning was issued today by J. O. Musick, General Manager of the Texas Safety Association, in connection with TSA's Summer Slow Down and Live campaign.

"Some people think they can violate traffic laws freely . . . just so long as you don't get caught," he said. "Nowhere is this more evident or more fatal than in traffic."

"Persons who hire attorneys to ascertain their legal rights and obligations in business and property matters think of risking their lives by driving without a good knowledge and a respect for traffic laws."

"Even if you have no regard for your personal safety, consider these consequences: "When you drive faster than the speed limit, make wrong turns, go through stop signs or red lights or pass improperly, you run these risks: A traffic fine; damage to your vehicle that may amount to hundreds of dollars; medical expenses; time and income lost from your job; damage suits; possible loss of your driver's license; lawyer's fees, and, you create anxiety for your family."

"Add to these the many indirect costs such as higher insurance rates and increased taxes, plus the suffering and anguish even a minor traffic accident could cause, and you have a real case for safer driving," Musick said.

Commenting on the role of law enforcement agencies, he said the Highway Patrolman or policeman on the corner, can only be as effective as the public will permit him to be.

"Once the public is convinced that they have a personal responsibility for traffic safety," Musick said, "we can make further inroads into the shocking traffic accidents record which last year killed 2,453 persons on Texas streets and highways, and injured 139,846. This is a terrible price to pay for apathy when public support is free."

Muenster Pee Wees Clobber Hood 16-2

Muenster Pee Wees had a big night Friday and clobbered Hood's boys by the lop sided count of 16-2.

They made their runs on 14 hits and 10 walks assisted by Hood's 8 errors. Meanwhile they played a good defensive game. While Billy Reiter allowed 2 hits and 1 walk and fanned 21 batters the team made three scattered errors.

Reiter also led the hitting with a triple and a double and a single, and his brother, Allan, did almost as well with a triple and two singles. Wilson got a triple and a single, Russell got two singles, and Walterscheid, Flusche, Gobble and Brewer got one single each.

Davis was Hood's top performer. He accounted for both hits and both runs.

The two teams will play again Thursday night at 7:30 on the Muenster diamond.

Burglary at Pool Nets One Nickel

Burglars worked cheap at the swimming pool Sunday night. Their total haul for breaking into the candy machine was 5 cents.

Manager George Petrus said the machine's coin box was emptied and candy was put in, and three candy bars were sold from it just before closing. That made 15 cents. A dime was found in front of the broken machine the next morning, so the burglars' haul apparently was one nickel. No other loss or damage was discovered.

Baptist Church at Myra Ends 10-Day Vacation School

First Baptist Church at Myra has finished a successful Vacation Bible School for which 78 children enrolled for classes each evening during a ten day period.

Mothers often attended with their children and served refreshments every night. One evening there was a picnic in Leonard Park at Gainesville and the final night brought commencement exercises.

Rev. H. C. Stump, pastor, served as school principal, Mrs. R. C. Payne was secretary and Mrs. Lee Livingston was pianist. Teachers were Mmes. Stump, U. E. Cato, C. W. Randall, John Blanton, Lee Livingston, Truman Reid, Clarence Matthews, Servia Muller and Fred McTaggart and Miss Kaye Ayles.

Notes on Building and Improvement

For the past several weeks building activity at Muenster has been slow as Lindsay claims the limelight with its boom following legalization of the sale of alcoholic drinks.

To date new liquor stores have been built for Bill Dankesreiter and Grady Jones and work is well started on one for Robert Gruber. Also a drive-in was built for Metzler Brothers and another is going up for Ewald Fuhrmann. At the same time Rudy Dieter is building a new home featuring three bedrooms, attached garage and central heating.

In Muenster Maurice Pagel's carpenters are working on cabinets and interior finish. Dave Trachtas moved into their new home last week but outside painting is still under way. Andy Hofbauer installed a new roof on his house. Stockmen's Feed Store has just finished a 40x80 sheet metal warehouse located south of the tracks beside their grain bins and to be used for storing sack feeds.

Outside of town Charley Hellman has a kitchen re-do following his recent fire. Donald Bayer has modernized the kitchen and repainted the rest of the interior of the house he just moved to southeast of town. And J. C. Huddleston at Myra has overhauled his house inside and outside.

Blessed Events

It's a second son for Mr. and Mrs. Ernest Wolf of Gainesville, a brother for Kent and a grandchild for Mr. and Mrs. Johnny Zimmerer of Lindsay and Mr. and Mrs. Henry Wolf of Muenster. He was born July 1 at the Sanitarium weighing eight pounds four ounces. At baptism this week Tuesday the little boy was named Dale Edward. Father Mogan officiated in St. Mary's Church and Mrs. Johnny Zimmerer and Henry Wolf were sponsors. Others at the christening were Mrs. Wolf and Mr. Zimmerer, along with the baby's daddy and his brother Kent.

From Hallettsville comes announcement of the birth of a son to Mr. and Mrs. Barry Blevins on July 3. The new baby is a brother for Belinda and Tommy and a grandson for Mr. and Mrs. Joe Walter of Gainesville. Mr. and Mrs. John Walter are the great-grandparents.

Arriving Wednesday for a visit with the Hartman relationship were cousins, the Rev. Earl Metz, his parents, Mr. and Mrs. Charles Metz, and Mr. and Mrs. Otto Metz, all of Cincinnati, who are on a vacation tour visiting relatives. A reunion of the Hartman clan, scheduled for Thursday night in the Parish Hall, will honor the Ohioans. This is their first visit in Muenster and the first meeting with many of the cousins. They will leave Friday.

Progress Club to Help Get Rural Fire Protection

An offer to help community farmers get rural fire protection was the principal achievement of Tuesday night's meeting of the Community Progress Association. The organization's agriculture committee, headed by Glenn Hellman, proposes to arrange a meeting of several farmers with the Muenster city council and the Cooke County commissioners court in order to work out a suitable method for making the protection available.

Reports of members at the meeting indicated that many farmers are interested in having the local problem solved but none have tried to do anything about it. So the local civic group volunteered its help as a community service. It plans to show that the protection is needed and to persuade both the city and the county that it should be provided with the least possible delay.

The progress association will not urge any special method of solution. Its mission is to bring interested persons together and let them work out the fairest and most practical system.

Another early project of the association is to determine how many local people are interested in keeping the Katy depot, and to bring them together for a united effort at the Railroad Commission's hearing, which has been set for Thursday, July 21 in the city hall.

A note in the club's suggestion box received special interest. It recommended a different loading arrangement at the NTPA plant in order to avoid blocking about a half of Main Street. It was proposed to devise a method for loading while trucks are parked parallel with the curb.

In connection with that suggestion the group discussed a city planning committee to work with the city and individuals or firms on civic improvements. Volunteers are invited for the work.

New 50 Star Flag Flies First July 4 At Fort McHenry

On July 4 for the first time the Nation's first 50-star flag was raised. It flew over the crumbling ramparts of Ft. McHenry, Md.

Ft. McHenry is the place where the flag with only 15 stars was raised on Sept. 13, 1814, when British ships began the heavy bombardment of the fort with rocket and shell. The capital at Washington had fallen and the Red-coats were after Baltimore.

By dawn's early light Francis Scott Key saw the flag still waving and so with borrowed paper and a borrowed tune he wrote the immortal Star Spangled Banner. That's why Ft. McHenry was chosen for the first official flying of the new flag on this July 4.

The 50th state, Hawaii, will get a special flag a bit later. It's the one that was flying over Independence Hall July 4, and will go to Hawaii to become part of the newest state's historical lore.

Only last year, after admission of Alaska, a 49-star flag was flown over Ft. McHenry. It's proper to use whatever numbered star flag is in possession now until it gets tattered. Then it should be burned so it won't be desecrated by improper use.

There have been 27 alterations to the Nation's flag since June 1777 when the original flag was adopted by the Continental Congress in Philadelphia.

ONE WAY OUT

There is a solution to our most intolerable individual and national problem—Federal taxation. It is to abolish the personal income tax — with- out which the country flour- ished for its first 137 years, from July 4, 1776 to February 25, 1913.

It not only can be outlawed by the same process — Con- stitutional amendment — by which it was instituted, but the process is actually under way!

The "Proposed 23rd Amend- ment" (House Joint Resolution 23) now pending in Congress was introduced by Rep. James B. Utt, California Republican, and has, at this writing, been

approved by the states of Wyoming, Texas and Nevada. The Michigan Senate voted 22-10 in favor of the Resolution, but the Legislature ad- journed before House action could be taken. In Louisiana, House approval was almost unanimous and a Senate vote is being awaited. And in 35 states, some 6,000 organiza- tions, under the leadership of the National Committee for Economic Freedom, 6413 Franklin Ave., Los Angeles 28, California, are pressing hard for action.

But where will the money come from to run the Govern- ment? Read H. J. Res. 23:

"Sec. 1 — The Government of the United States shall not engage in any business, pro- fessional, commercial, finan- cial, or industrial enterprise ex- cept as specified in the Con- stitution."

"Sec. 2 — The Constitution laws of the United States shall not be subject to the terms

of any foreign or domestic agreement which would abro- gate this amendment.

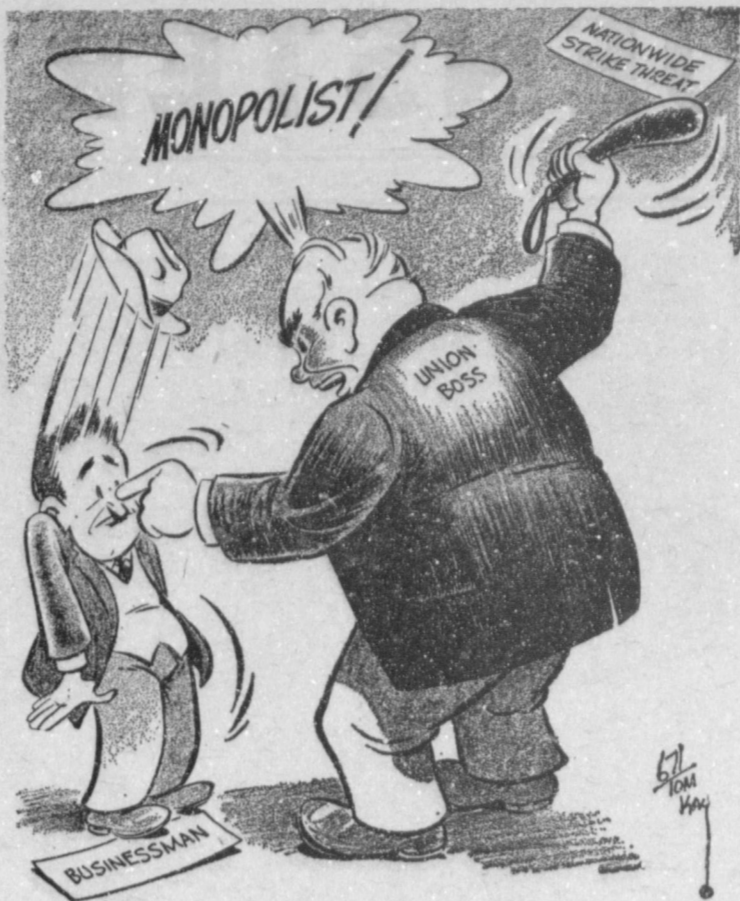

"Sec. 3 — The activities of the United States Government which violate the intent and purposes of this amendment shall, within a period of (3) years from the date of ratifi- cation of this amendment, be liquidated and the properties and facilities effected shall be sold.

"Sec. 4 — Three (3) years after the ratification of this amendment, the 16th article of amendments to the Consti- tution of the United States shall stand repealed and there- after Congress shall not levy taxes on personal incomes, estates and/or gifts."

In the simplest terms, pas- sage of the amendment would require the sale of more than 700 Federal corporations with an estimated book value of \$250 billion, and which, ac- quire half the total Federal holding to Willis Stone, na- tional chairman of NCEF, re- venue for their support and "have taken over 40 percent of the land area and 20 per- cent of the industrial capacity of the nation". Passage would also terminate the foreign aid give-away. In summary, ac- cording to figures presented by Mr. Stone to the Texas Leg- islature, savings, at 1959 costs, would exceed individual in- come, estate and gift taxes col- lected in 1959 by \$6 billion. But that is not all.

There is more in this 23rd amendment than tax relief — there's national salvation.

How's That Again?

YOU

The head of a taxpayer re- search organization warns that all the government spending plans and programs now being hatched in Washington will have to be financed from just one source — and that's the already tightly squeezed tax- payer.

The wonder is that such a warning is needed. But it is— for, apparently, great numbers of people will labor under the delusion that government money comes magically out of the blue, not out of their pock- ets.

Well, in the short span of three decades government's tax take has jumped from a proportion of about one dollar out of ten to about one dollar out of three of the national income. If the big spenders have their way, the proportion will soon become one in two, or still more. And you, along

with the other 180 million or so people in this country, will do the paying. No one else can.

GOOD EXAMPLE

Tonasket, Wn., Tribune: "If everyone engaged in agricul- ture, including politicians, took the realistic view of the 'farm problem' that the cattlemen do, the problem of the farmers would not seem so insoluble.

"Of all segments of our in- creasingly complex economy the cattlemen have displayed the greatest grasp of the funda- mental facts involved in the immutable law of supply and demand. They want no part of governmental controls or regu- lation."

"Just as compulsion in any form is repugnant to all who love freedom, so do the men who ride the range abhor the dictation of bureaucrats."

STANDARD OF LIFE

By Rev. Gerard Rooney, C. F., Editor of THE SIGN

There is a big difference between a standard of living and a standard of life. With the exception of editors of Pravda and Izvestia, every- one admits that Americans enjoy the highest standard of living in the world. When it comes to a standard of life, our position is less favor- able.

TV QUIZ scandals served to touch off considerable discussion about our standards of right and wrong, our true goals in life. The apparent ease with which so many Ameri- cans accepted de- ceit, perjury, and betrayal of public confidence caused many speakers and writers across the nation to wonder what had happened to our moral fiber.

On the good side, it must be ad- mitted that America, since 1776, has advanced far in the field of hu- manitarianism. Especially since the thirties, our social legislation shows concern for social justice and re- gard for "the little fellow." Our superb systems of hospitals, insur- ance plans, pension plans, and social security tend to exempt the vast majority of our citizens from the usual shocks of economic hardship.

BUT WHAT of our standard of life? From all sides, in recent ex- aminations of the national con- science, we hear warnings of ease: easy standards of religion, easy ways

of divorce, easy credit systems, easy standards of discipline in the home, easy opportunities for all kinds of selfish, sensual indulgence. It's about as fine a system as anyone could ask for rotting a nation.

How can we check the decay?

AMERICA desperately needs great leadership. In the American peo- ple there are great, untapped re- serves of spiritual energy. By God's grace and with adequate leadership, these reserves can be released. But we need leadership; not the super- ficial politician telling us we never had it so good, but the statesman telling us we never have faced so grave a crisis for survival, under threat of strong enemies without and moral decay within.

We need inspired leadership in education. Americans now know that, of itself, knowledge does not make a good citizen. We need spiritual leadership, inspiring us to reach for the heights. Nambly- pampy standards of religion are an insult to God and to man.

WE RIGHTLY boast of The American Ways: equality before the law, political freedom, econom- ic opportunity, and a spirit of gen- erosity toward the underdog. But for this we need a common vision of life. Culturally, America is cha- otic, and the frequent glorification of the trivial, the sensual, and the bizarre reflects our inward poverty. We need a rebirth to a higher standard of life.

DO YOU HAPPEN TO KNOW THIS MAN?

"The Rotary Graph, a publi- cation of the Weslaco Rotary Club, has passed along this little story, source unknown. It is almost as funny as it is tragic:

"A young man lived with his parents in a public housing development. He attended public school, rode the free schoolbus and participated in the free lunch program. He entered the Army, then upon discharge retained his national service insurance. He then enrolled in the State univer- sity, working part time in the State Capital to supplement his GI education check.

"Upon graduation, he mar- ried a public health nurse and bought a farm with an FHA loan and then obtained an RFC loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of the veterans' land program and obtained emergency feed from the Government.

"Later he put part of his land in the soil bank and the payments soon paid out his farm and ranch. His father and mother lived very com- fortable on the ranch on their social security and old-age as- sistance check. REA lines sup- plied electricity. The Govern- ment helped clear his land.

"The county agent showed him how to terrace it; then the Government built him a fish- pond and stocked it with many fish. The Government guaran- teed him a sale for his farm products at higher prices.

"Books from the public li- brary were delivered to his door. He banked money with a Government agency insured. His children grew up, entered public schools, ate free lunches, rode free school buses, played in public parks, swam in public pools, and joined the FFA. The man owned an automobile so he favored the Federal high- way program.

"He signed a petition seek- ing Federal assistance in de- veloping an industrial project to help the economy of his area. He was a leader in ob- taining the new post office and Federal building and went to Washington with a group to ask the Government to build a great dam costing millions so that the area could get 'cheap electricity.'

"He petitioned the Govern- ment to give the local air base to the county. He was also a leader in the movement to get his specific type of farming special tax write-off and ex- emptions. Of course, he be- longs to several farmers' or- ganizations, but denied that they were pressure groups.

"Then, one day, he wrote his Congressman: 'I wish to pro- test these excessive govern- mental expenditures and at- tendant high taxes. I believe in rugged individualism. I think people should stand on their own two feet without ex- pecting handouts.

"I am opposed to all social- istic trends and I demand a return to the principles of our Constitution and the policies of States rights."

ROLLING OUT THE CARPET—Sixty feet below the surface of the ground in downtown Houston, workers stretch out a Butyl rubber carpet on which the 44-story Humble Oil & Refining Company building will stand when completed in 1962. The Butyl membrane will act as a water barrier for the foundation of the building. This is a unique application of the durable, flexible synthetic which is produced at Humble's Baytown Refinery and is widely used in everything from hot water bottles to conveyor belts, tubing, tires, wading pools, protective clothing for missile launching crews, and car accessories.

Loretta Mages and Doug Reiter Marry At Nuptial Mass

—Gilbert Studio Photo

Honeymooning in California are Mr. and Mrs. Doug Reiter who were married here Saturday afternoon in Sacred Heart Church with Father Bruno Fuhrmann officiating at the 4 o'clock nuptial high mass and double ring ceremony.

The bride is the former Miss Loretta Mages, daughter of Joe Mages of Muenster, and the groom's parents are Mr. and Mrs. Tony Reiter of Gainesville.

Sacred Heart choir and Anthony Luke, organist, furnished the music with Mrs. Norbert Walterscheid as soloist for a post nuptial selection while the bride placed lavender gladioli on the Virgin's altar.

Mr. Mages gave his daughter in marriage. She was exquisite in a gown of white nylon tulle and organza over taffeta with a chapel length train complementing the wide skirt. The fitted bodice of shirred tulle had short shirred sleeves and the skirt of organza was topped with a layer of tulle draped from the center front and caught with hand made tulle roses. A crown of pearls held her tiered veil and she

carried lavender-blue roses and lilies of the Nile.

Bride's attendants were her sisters, Mrs. Johnny Schmitz of Gainesville, matron of honor, and Mrs. Nick Dieter, bridesmaid. Identically gowned, their dresses of white organza featured lavender-blue cummerbunds and dainty appliques scattered over the skirt front. They wore short white gloves and lavender-blue slippers and headpieces of white veiling with deep purple and lavender flowers. Their bracelets were gifts from the bride and they carried nosegays of lavender-blue roses and lilies of the Nile.

Johnny Schmitz, best man, and James Miller of Dallas were the groom's attendants. Alvin Fleitman and Frank Krebs Jr. ushered Candle lighters and mass servers were cousins of the couple; Cyril and Tommy Yosten, James Fleitman and Wayne Reiter.

The Parish Hall was the scene of the wedding reception and buffet supper catered by Mrs. Joe Lehnertz. Some 400 relatives and friends of the couple attended. Lu Ann Reiter, Muenster, and Joanie Herr, Fort Worth, registered the guests.

In the hall Mrs. Dan Luke made flower arrangements featuring gladioli, with glads and fruit on the food table. The bride's table held the tiered wedding cake.

After a dance in the VFW Hall, the newlyweds left on their wedding trip. For traveling she wore an apricot linen dress with apricot and white accessories.

When they return they will reside at Farmers Branch where a new home has recently been completed. Mr. Reiter is a graduate of Gainesville High and attended Midwestern University in Wichita Falls. He has served a tour of duty in the Marine Corps and is employed by Texas Instruments at Richardson. Mrs. Reiter was graduated from Sacred Heart High and from Marinello Beauty College in Dallas and has been employed in Gainesville.

Ninth Reunion of Kirk Clan Draws 74 Family Members

July third saw the ninth edition of the annual Kirk reunion in Leonard Park at Gainesville.

This year there were 74 relatives who gathered to talk over old times, meet new babies in the family, and catch up on the latest happenings of those present and of those unable to attend.

Old acquaintances were renewed when members of another group, the Griffins who were holding their reunion in the park too, visited back and forth with the Kirks.

Years ago the Kirks and Griffins were neighbors and a few members of each family still live close together in the community of Freemound, near the west edge of Cooke County.

Gordon Martin of Little Rock, Ark., gave the blessing before the meal and a group of younger Kirks enjoyed an afternoon of swimming while their elders visited.

Attending this year were Mr. and Mrs. Gordon Martin of Little Rock, Mr. and Mrs. Robert Ray and two children, and Mrs. Janie Reeves of Mt. Pleasant, Ark., Mr. and Mrs. W. P. Burton and children Linda, Glenda, Larry, Brenda and Gay Nell of Electra, Mr. and Mrs. Pete Carr and Donna and Kirk of Cyril, Okla.

Mr. and Mrs. Marvin Donnell and two sons of Ralls, Mr. and Mrs. Herbert Donnell, Terresa and Lesley of Leveland, Mr. and Mrs. Charlie R. Brown and June, Mr. and Mrs. Billy Waits and Jeffrey, Monroe Brown and June Mae Owens, all of Fort Worth; Mr. and Mrs. J. B. Garrett, Patsy, Barbara and Sandra, Roger Holley and Mrs. Kelley Bailey, all of Paducah.

Mr. and Mrs. Jimmy Kirk of Muenster, Mr. and Mrs. Homer Ford and Charlotte, Rita and Debra, Mr. and Mrs. David Kirk and Becky, and Mr. and Mrs. M. J. Kirk, all of Forestburg; Mr. and Mrs. Woodrow Kirk and Gary, and Mr. and Mrs. R. D. Cross and Danny of Era; Mr. and Mrs. Guy Estes and Steven and Kyle, Mr. and Mrs. Jack Richardson and Jackie, W. M. Kirk and two daughters, Mrs. Daisy Bryant, and Mr. and Mrs. J. C. Kirk and Toni and Tracy of Gainesville.

Picnic at Texoma Is Birthday Party

A picnic at Lake Texoma was a birthday party Tuesday night for Ernest McElreath with swimming and supper for a group of family members who helped him celebrate.

NOTES FROM CITY LIBRARY

"I'll Die Laughing" by J. T. McGloin, S. J., tells the story of the 15 years of training necessary to become a Jesuit. It relates about two years of novitiate, two years of juniorate, three years of philosophy, three years of teaching, four years of theology and one year of tertian-ship.

Father McGloin tells of his own experiences during these years of study prayer, work, and recreation. Throughout the story there are humorous incidents which make the reader want to continue to the end. No less a part of the laughs are more than two dozen cartoons — illustrations perfectly suited to the spirit of the book.

The author explains various phases of work the Jesuits are trained to do and mentions many of his order for their outstanding contributions, among them Father Daniel A. Lord.

One of the greatest ministries of the Jesuits is teaching. Some of their universities and colleges are Marquette in Milwaukee, St. Louis University, Loyola in New Orleans, Fordham in New York and Gonzaga in Spokane.

After completion of the book there will be no doubt but that the reader will admire the Jesuits — if he does not already — for their thorough training and knowledge and complete education.

SOIL CONSERVATION DISTRICT NEWS

Here's a thought to ponder: Is your farm going to end eventually in some lake bottom or in the gulf?

Soil conservation technicians warn that if washes and rills appear on sloping fields or if deposits of silt formed at the foot of the slope this year, then chances are that farm will aid in silting up the lakes and creeks below it.

Terraces will help stop this needless waste of precious top soil. No one can continue to lose soil and water from the fields and expect to stay in business. Terraces make farming operations more difficult but it's worth remembering that the loss of top soil makes farming impossible.

Frank Needham started the terracing season by building 4000 feet on his farm north of Muenster. These broad-base, channel-type terraces outlet onto a Bermuda grass waterway that was established for that purpose.

Dangelmayr Brothers have completed 4500 feet on one farm and have made plans to build another 12,000 feet on this place. All these terraces will outlet onto established grassland.

Tony Walterscheid has built a mile of channel type terraces on the Wilson place he operates north of Muenster. Excess water goes on established pastures.

Emmett Samek, a new cooperator with the Soil Conservation District, completed two miles of terraces on his place near Hood. Terraces here also outlet onto pasture that was established for this purpose. The terracing is just the beginning of a long range soil and water conservation plan that Mr. Samek intends to carry out.

Liberal cost-share benefits are offered by the Agricultural Conservation Program and the Soil Conservation Service furnishes technical assistance in the lay-out and check of terrace systems. These services are furnished to encourage the terracing of all sloping cropland in this area.

Now is the time of decision . . . the decision to protect and improve soil for future generations.

For the first time, in December, 1959, licensed drivers in Texas exceeded the 4,500,000 mark. On that date, Texas had licensed 4,536,717 persons to drive motor vehicles, nearly half of all the citizens of the State.

IT HAPPENED 20 YEARS AGO

July 5, 1940

Damage caused by storm Monday is extensive but there are no personal injuries; gale passes quickly followed by rain; most grain shocks are scattered and small buildings and windmills are blown down; electric service is not disturbed. "GERMAN SLICE GARLIC BREAD" WINS \$100 YEAST BAKING PRIZE

Mrs. Fred A. Havel, Sr., Gonzales, Texas

"Gladiola makes them just right," says Gonzales' Mrs. Fred A. Havel, Sr.

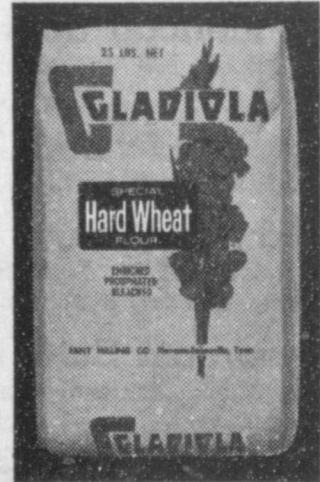

A tantalizing recipe for German Slice Garlic Bread won the top prize of \$100 in GLADIOLA's yeast bread Baking-Recipe-of-the-Month Contest for July. It was won by Mrs. Fred A. Havel, Sr., Route 2, Box 148, Gonzales, Texas.

Mrs. Havel, who is a life-long resident of Gonzales, donated half of her prize money to the Building Fund of the First Lutheran Church there.

The winning recipe is an excellent specialty bread, very flavorful, and with unusually good texture. Mrs. Havel suggests serving it as a picnic bread with barbecue, Italian foods or Beef Stroganoff.

Mrs. Havel says, "Cooking is my hobby, but yeast breads are really a specialty with me. In the days back when they had the big Fair in Gonzales, I won prizes on all of my yeast breads . . . rye, whole wheat, raisin . . . and I've never used anything but GLADIOLA Hard Wheat Flour since I first tried it twenty years ago.

"My friends ask me how do I make 'this and that' because their baking doesn't turn out as well as mine, and I tell them that it's GLADIOLA that makes the difference. When the GLADIOLA people told me I had won the prize, it was just like the name of the flour . . . GLAD . . . I was really so thrilled."

GERMAN SLICE GARLIC BREAD—(2 loaves)

Gladiola's Baking Recipe of the Month

MRS. HAVEL'S GERMAN SLICE GARLIC BREAD

1/2 cup lukewarm water	1 tablespoon salt	8 cups (about) sifted GLADIOLA Special Hard Wheat Flour
1 cake compressed yeast	1 tablespoon shortening	1/4 cup melted shortening, Garlic salt
2 tablespoons sugar	2 cups boiling water	

Dissolve yeast in lukewarm water. Measure sugar, salt, and shortening into mixing bowl; add boiling water, stir and let cool to lukewarm. Add yeast to cooled mixture. Add about 4 cups of the flour; beat until smooth, then gradually add remaining flour to make a stiff dough. Work dough until smooth; place in greased bowl, cover and let rise until double in bulk. Punch down and let rise again until double. Divide dough into 3 portions. Roll each about 3/4 inch thick; cut with a 3-inch biscuit cutter or glass. Brush rounds with melted shortening and sprinkle with garlic salt. Stack rounds and place on edge in well-greased 9 x 5 x 4-inch loaf pans (or place on edge, alternating slices so they overlap in center). Cover and let rise in a warm place until double in bulk. Bake in a moderate oven (375 degrees) about 35 minutes until golden brown. Brush tops with melted butter; remove from pans. Serve hot or cold; may be reheated if desired.

Traveling Couple Pen From Alabama

Hot Springs was too hot to enjoy visiting, according to Mr. and Mrs. Frank Schmidkofer, Californians who went from a vacation in Lindsay to

Alabama, stopping enroute for sight-seeing in Arkansas.

In Sheffield, Ala., the travelers were guests of his cousins, John and Louis Gottman who live near the water and their time was filled with fishing and boating, swimming and picnicking. It was their first

return there in 23 years.

Other relatives took them sight-seeing and they visited Frank's only aunt, Mrs. Annie Eckle and son Joe who said they are planning a visit in Lindsay before summer is over.

High spot, literally, of a visit in Huntsville was climbing the mountain to see Dr. W. H. Burritt's Museum. They also visited the General Wheeler Museum and saw the Wheeler and Wilson Dam. In between time they were busy with dinner engagements, noon and evening.

On the Fourth of July, three churches of Sheffield, joined in sponsoring a benefit picnic. People came from miles around to eat dinner and stayed for carnival attractions and a dance at night.

From Alabama the Schmidkofers will return to their home in Hanford, Calif., concluding a three-month vacation. They were at Lindsay two months and relatives from elsewhere visited them there including his uncle Frank and aunt Nellie Schmidkofer of Shawnee, Okla., who they hadn't seen in over 20 years.

Mr. and Mrs. Bruno Zimmerer have named their baby son Samuel. He was baptized Sunday morning in St. Peter's Church — Father Damien's first baptism in Lindsay. It was his first Sunday as pastor of St. Peter's Parish. Little Sammy Zimmerer's godparents are his uncle and aunt, Mr. and Mrs. Hubert Bezner of Monohans.

Darlene Hess of Muenster has enjoyed a week's vacation with her grandparents, the H. S. Fuhrmanns, and also with her cousins, the Diamond Fuhrmann and Harold Nortman children.

Fuhrmanns, and pick up their son Glenn who had a vacation of his own with his grandparents. Belinda and Tommy will be vacationing here indefinitely with the Sicking's.

Muenster firemen answered two fire calls during the weekend, Friday evening it was a grass fire behind Eddie Krahl's home, Saturday morning it was a trash fire almost out of control in the city park.
