## 22 Will Receive Diplomas Sunday At Parochial High

Twenty two graduates of Sacred Heart High School will receive their diplomas next Sunday night in church following the 7 o'clock mass.

In keeping with school tradition the commencement services will consist of mass and sermon and presentation of diplomas and special awards. Father Alcuin Kubis, pastor, will be the central figure in the service. He will celebrate the mass, give the sermon and make the presentations.

One feature of the service will be conspicuous by its absence. There will be no eighth grade graduation, because of the introduction of a junior high school department at Sacred Heart next year. This year's eighth graders are due to finish junior high next year and they will be included in services then.

The school does not intend to have services for children passing from intermediate to junior high, that is, those finishing the sixth grade.

High school seniors due to receive their diplomas Sunday are Janice Vogel, Carol Henschel, Peggy Reiter, Joan Kaiser, Betty Landsfeld, Ruth Wimmer, Joyce Haverkamp, Roselee Moster, Carol Hess, Ruth Bayer, Jane Henschel, Joyce Reiter, Dianne Endres, Mary Pels, Mildred Starke, Kathy Voth, Patsy Klement, Jane Truelsenbach, Sandra Walter, Jimmy Otto, Pat Klement and Dennis Hess.

Class Night Program

Other graduating activity of the class was included in class night ceremonies held in the parish hall Sunday night at 8 o'clock.

Father Bruno Fuhrmann, superintendent, extended the class his congratulations and good wishes, and Father Alcuin Kubis presented awards.

Heading the student part of program were Janice Vogel in the valedictory and Carol

Father Martin Fischer entered St. Joseph's Hospital in Fort Worth last Friday for medical care and observation. He returned home Tuesday afternoon.

Rufus Henschel is back at home continuing recovery from major surgery performed at Methodist Hospital in Dallas May 1.

Tests in Houston the past week showed Mrs. Hank Walterscheid "doing fine". All reports were negative. She was at M. D. Anderson Clinic for the checkup and will return next month for another examination. Her husband went with her and they visited her brother and family, the Earl Swnglers.

## Father J. Thomas Heads Program at MHS Graduation

Father Joseph M. Thomas, pastor of Immaculate Conception Church, Denton, will be the commencement speaker Friday night when seventeen high school graduates and four elementary graduates receive their diplomas from the Muenster Public School.

Student speakers on the program will be Charlotte Wolf, valedictorian, and Rita Fisher, salutatorian. Father Alcuin Kubis of Sacred Heart Church will give the invocation and the benediction. Bettye Jane Dodds will be at the piano for an 8 o'clock professional and again at the end of the program for a recession. She will also sing a solo "A Perfect Day", accompanied by Sandra Cain, and will accompany Anthony Michalsky in a baritone horn solo.

Diplomas will be awarded by Board Chairman Charley Hellman assisted by Superintendent L. B. Bruns. Awards will be given by Principal Glenn Hellman.

Baccalaureate Service

Speaking at baccalaureate services last Sunday night Father Alcuin Kubis advised the graduates to do their best and not to be discouraged if they are not conspicuously successful. "If you brighten the corner where you are, you are a success, whether or not you are recognized as such." Most important, he said, success should be measured in relation to man's eternal destiny. Our first goal in life is to love and serve God. To live up to that purpose is to spend a useful

## Selby Survives 12,500 Volt Jolt

Kenneth Selby credits mouth-to-mouth resuscitation and the speed and efficiency of his co-workers in administering it, with saving his life. He's alive after being charged with 12,500 volts of electricity. Only minor burns on his left hand fingers and toes of both feet are evidence of the accident.

The mishap occurred Monday morning while the 32-year-old lineman for Texas Power & Light Company was helping install a light pole in Leonard Park, Gainesville.

The pole came in contact with the high-voltage line and knocked him unconscious. His co-workers had revived him by the time the ambulance arrived.

He was kept at the hospital over night for observation and upon being dismissed Tuesday morning went to work in the company's office. He expects to be back at his regular job soon.

## Parish Hall and Grandstand Get Volunteer Fix-up

Commendable community spirit is manifest in two fix-up projects currently under way here. Volunteers of the Sacred Heart Alumni and of the Junior Chamber of Commerce are spending their spare time re-painting the parish hall and completing the grandstand at the baseball park.

The parish hall job is a big one, even though its galvanized shingle siding doesn't need painting. Lots of big windows and their frames will require lots of putty and paint. After that comes two big interiors, basement and upstairs.

The grandstand job, after just a few evenings, is well past half finished and should be ready for the first pee-wee game next Wednesday. Work consists of 4 rows of concrete seats at the north side, a concrete slab between grandstand and backstop, building a concession room and painting. The city furnishes materials, Jaycees do the work.

## Two Leagues of Pee Wee Baseball Start Next Week

Everything's go for two leagues of pee wee baseball in Muenster this summer, each loop to have one double header a week. The younger kids play Wednesday nights the older kids on Friday nights.

The organizational work was done at the meeting of Jaycees Tuesday night. Willie Walterscheid, supervisor, and his helpers grouped 63 boys aged 9-11 into four teams and 44 boys aged 12-14 into four more teams. They also assigned managers to the teams and drew up a schedule.

The Jaycees also made plans for a benefit fish fry to be held in the city park on June 21. Proceeds of it will be used to finance the little league.

Visitors there were Dwight Holcomb and Kenneth Partidge of Nocona reporting on the state JC convention. Before they got away they were challenged twice by the Muenster members — for a baseball game between Muenster and Nocona JCs and for a pair of games between all stars of Muenster and Nocona Little Leagues.

The Jaycees reported that the grandstand and concession stand will be ready for the opening game Wednesday night. Soft drinks, popcorn, sno-cones and candy will be available at the concession stand.

The Jaycees also said that they will welcome additional help in running the concession stand and games. Volunteers are asked to report to any member.

League regulations adopted this year will be very similar to those of last year. All boys must have parents' permission. Every boy will be allowed at least 3 innings a game. Boys guilty of rowdy behavior are subject to expulsion from the team. Five runs or three outs, whichever comes first, will complete an inning. A pitcher is allowed only 3 innings a game. Coaching at bases must be done by players, not managers. Starting time of games is 7 and 8:30.

## Andy Hofbauer, 55, Dies Suddenly Wednesday After Lingering Illness

Death early Wednesday claimed Andy Hofbauer, 55, ending his 13-month illness and casting a pall of sorrow over the community. He was a prominent city merchant and an outstanding citizen. He died at 1:30 a.m. at his home. In spite of his illness, his death was unexpected.

Funeral services were held Thursday morning in Sacred Heart Church with Father Alcuin Kubis officiating at the requiem mass and graveside rites in Sacred Heart Cemetery. Miller Funeral home was in charge of arrangements.

Bearers were Rodney Walter, Regie Bayer, John Paul Endres, Ed Sicking, Denis Hofbauer and Arnold Henschel. Two rosary services were held at the Miller Chapel Wednesday at 4 and at 8 p.m.

Business houses in the city were closed during the funeral in respect to his memory.

Andrew Hofbauer was born in Tours on Feb. 4, 1908, but spent most of his lifetime in

Muenster arriving with his parents when he was a small boy. He was married to Miss Rose Walter in 1934.

As a young man he went to work in the Farmer's Store, advanced from clerk to manager, and bought the business when the North Texas Producers Association bought out the Farmers Marketing Association. Six years ago he built his new supermarket on the Highway and occupied it in April 1956. Soon afterwards he added the Washateria adjoining the store.

He first became aware of illness in April 1962, underwent major surgery and apparently recovered. He returned to his store work. In March this year he went to the hospital for more surgery. Since then until his death he managed his business from his home.

Andy was well known for his friendly, cheerful disposition, even during the past year while his sickness was known to cause him constant discomfort and frequent intense pain.

He was a past alderman on the city council serving three elective terms, 1939-1945. He was a member of the church choir and the Knights of Columbus.

Surviving are his wife; one son, Larry Hofbauer of Dallas, two daughters Mrs. Don Glover of Dallas and Miss Jeannine Hofbauer of the home; two grandchildren; three brothers, Clem of Muenster, John of Hereford and Joe Hofbauer of Dallas, and one sister, Sister Frances, who is a teacher in Sacred Heart School this year.

## Defeat of Wheat Program Will Not Hurt Small Grower

The president of the Texas Farm Bureau said this week that small wheat growers eligible to vote May 21 will not be subject to wheat quotas and penalties if the wheat certificate plan is voted down in the referendum.

C. H. DeVaney said that small wheat growers in many parts of the state are being misled into believing that if the plan fails to carry they will become subject to quotas and penalties, anyway.

"Nothing could be further from the truth," the farm leader asserted. "Those growers with less than 15 acres will be free to plant as much as they please, the same as larger growers if the wheat control plan is defeated. Any wheat farmer, if he chooses, could stay within his allotment and be eligible for price support at 50 per cent of parity."

The Texas Farm Bureau president explained that when small growers elected in writing to become co-operators should the plan pass, they were only complying with regulations to make themselves eligible to vote.

"Obviously, if the wheat control plan is voted down and no new legislation enacted, they could not be made to comply with non-existent provisions," he said.

Theresa Fisher to Get NTSU Degree

Theresa Fisher of Muenster is among 658 seniors who have applied for bachelor's degrees to be awarded at North Texas State University May 31.

Commencement exercises will be held at 8 p.m. at Fouts Field.

Miss Fisher, the daughter of Mr. and Mrs. Joe W. Fisher, is a candidate for the bachelor of science degree in physical education.

New TP&L Plant Will Be Shown at Open House May 31

Dedication ceremonies and an open house for the public will be held Friday, May 31 at Texas Power & Light Company's new Valley Stream Electric Station in North Texas.

The plant is located north of Waco, between Sherman and Bonham, and will provide more electric power for North Texas and the entire area served by TP&L.

The new generating unit is located on the shores of new Lake Valley which was formed by constructing a dam across Brushy Creek a few miles south of the Red River.

Following the 11:30 a.m. dedication, the public will be served a free barbecue luncheon. The open house will begin at 10 a.m. and end at 5 p.m. and guided tours will be conducted through the plant during these hours.

The richer the land the lower the cost of production.

1700 Are Eligible To Vote in County Wheat Program

About 1700 persons will be eligible to vote and a big percentage of them are expected next Tuesday, May 21, in the wheat referendum which will be held in several locations of the county.

Joe McCarroll of the Cooke County ASCS office disclosed that, according to his records 887 wheat growers and their wives are entitled to a vote. Included in that number are 427 who signed up on or before May 13 to produce less than 15 acres in cooperation with the 1964 program.

Hours for balloting in all the polling places will be 7 a.m. to 7 p.m.

At Muenster the referendum will be held in the Community Lumber Company with Bill and Felix Becker as the election judges.

Other locations for the west part of the county were announced as follows by the ASCS office. In Myra at Parker Fears Garage, in Lindsay at Hoelker's Store, in Bulcher at the Community Center, in Rosson at George Berry's Grocery, and in Hood at Moore's Store.

## Formal Opening Sunday Will Show New Telephone Building and Equipment

The headquarters of Muenster's new telephone system, in use for more than three weeks, will be presented to the people of Muenster at a formal opening Sunday afternoon 2 to 5.

A general invitation for that event has been extended to everybody, especially patrons of Muenster, Myra, and Forestburg, by Alvin Fuhrman, manager and co-owner. He encourages all to see the handsome new building, its offices, and the automatic equipment which provides the community with new and modern telephone service.

The outstanding feature of the open house will be a display demonstrating how one number is automatically connected with another by the dial system.

Another feature will be registration for attendance prizes. Ten winners at the drawing will each receive free use of a colored extension telephone for one year.

Refreshments of cookies, coffee and punch will be served.

The exchange and office building is a handsome modern structure of white brick with generous use of glass and solar screen. At the south side is a paved drive-way leading past a drive-up pay window for the convenience of customers who wish to pay bills without leaving their cars. A night depository is also located there.

The new telephone building is a part of the modernization program that was accomplished here through a loan of \$497,000 from the Rural Electrification Administration. Extensive work at Muenster, Myra and Forestburg includes erection of three exchanges, installation of automatic switchboards and building or rebuilding many miles of metallic circuit line, all meeting the rigid standards of REA.

Present employees of the Muenster Telephone Corporation are Mr. and Mrs. Alvin Fuhrman, Misses Elizabeth Herr and Helen Hess, and Gene Walterscheid, Charles Cook and Jimmy Fuhrmann.

## Charlie Herr Is Pharmacy Grad

Charlie Herr, son of Mr. and Mrs. Frank Herr, Muenster, will graduate from Southwestern Oklahoma State College at Weatherford, May 24. He will receive a bachelor of science in pharmacy degree.

The happiest people in agriculture nowadays are the livestock producers. They don't have to go to federal bureaucrats for permission to raise a certain number of animals, but they enjoy an adequate income — without benefit of subsidy. They are free people living according to the old American tradition of doing as they please, and with the satisfaction of depending on their own good judgment rather than on the manipulations of economic schemers in Washington.

As next Tuesday's referendum approaches, millions of wheat farmers are longing to become more like the stockmen. And they are especially resentful that the strings attached to the new wheat subsidy package would tie them down more than ever before. That's why this year's wheat referendum issue is creating tremendous interest and is likely to bring out a record vote.

Big shots of the Department of Agriculture are going all out to show that they are genuinely concerned with the farmer's welfare. With that there can be little argument. The bad feature however is that their solicitude includes an assumption that farmers are not capable of taking care of themselves. Egg heads of the administration are obsessed with the conviction that they have all the answers and that farm people for their own good must be herded in compliance with a bureaucratic master plan.

At the same time there are sound economic reasons behind their method. Subsidies encourage greater production of the commodities subsidized. The net result is surplus, of which the nation has been painfully aware for many years. It's obvious that we cannot have subsidy without control. And the longer subsidy is continued the more rigid controls must become. It fact, this is the reason for the new, more rigid control proposals — including heavy fines and even jail sentences for non compliance. Farmers understand that, and many of them understand, therefore, that it is high time for a change.

The change, of course, can be achieved in only one way. Reducing subsidy will reduce the need of control. Eliminating subsidy will eliminate the need of control.

This doesn't agree with the opinion of some USDA theorists, who say that reduced price, resulting from reduced subsidy, would cause even more surplus. They say that "the lower the price the more a farmer will plant, trying to get enough money to scratch a living from the earth."

We wonder how many farmers agree with that view. For instance, if the wheat price slumps, will they plant even more wheat? Or will they change to a more profitable crop? Does anyone actually believe that a farmer will reduce his acreage in more profitable crops so he can have more wheat to compensate for the lower price? Any farmer will assure you that he doesn't operate that way.

The only answer to the farming problem is the ancient law of supply and demand. When that is permitted to function farmers will grow the crops which, in their judgment, will net the most on the open market, because there will be no artificial market supported by subsidy. Surplus will cease to be a problem when people are no longer paid for creating it.

Of course it is obvious that farm subsidy and farm control cannot be dropped overnight. The surplus already existing would throw the entire country into economic chaos. However the desired results could be achieved by a program of reducing both subsidy and control over a period of years.

Nor do we have to worry that the administration in Washington, if turned down on the coming referendum proposals, would get vindictive and permit the economy to go to pieces. Those people are politicians who want to hold on to their soft jobs. They don't want to take the consequence of failure. They'll do things the farmer's way if not permitted to do it their own way.

As most of us are aware, the strongest opposition to the 1964 wheat program comes from the national Farm Bureau

## DUTY, OBLIGATION, DESTINY

Now, once again, in generations past, the nation's school graduating classes will perform their traditional roles, from the grades to the great universities.

The Valedictorians will say their eager, nervous words: The guest speakers will offer their counsel. Pomp and Circumstance will surround the ceremonies.

The young people will walk off into a world they did not make, but which, perhaps, they can help remake in a brighter image. It is a world of intense competition, profound danger, and vast opportunity.

This is true of the arts, the

sciences, the social services, all the civilizing elements of which we now have some knowledge. But then, poised against this, are powers of darkness and destruction deeper and more subtle than the world has ever known before?

May this year's graduates of the schools and colleges, wherever in the world they may be, go hence with a sense of duty, obligation, and destiny.

## A DAY OF DECISION

On May 21 the U. S. Department of Agriculture will conduct a referendum for the nation's wheat farmers. This referendum confronts wheat producers with the responsibility for a momentous decision on the future direction of American agriculture.

The multiple-price certificate plan being submitted to producers includes the tightest, most binding government controls ever seriously considered for any farm commodity. It provides much stricter acreage allotments than growers have experienced over recent years and a new type of marketing quota and other restrictions. It gives the Sec-

retary of Agriculture vast powers to regulate all handlers, processors and distributors of wheat from the farm to the ultimate consumer.

The proposed compulsory wheat program was designed to operate in conjunction with a compulsory feed grain program. This is creating pressure for new feed grain legislation. If producers go the supply-management road with wheat, then with feed grain, they will have taken a long step toward adoption of compulsory controls for livestock, dairy and poultry products.

Writing for the Des Moines, Iowa, Register, able Washington correspondent Richard Wilson says in part: "Thirty years ago this month the New Deal was beginning the most audacious adventure in economic control ever undertaken. Now it is \$48 billion and six notaries of agriculture later... not even a close approach has been made to an economically sound and permanently workable solution."

After the passage of all this time and the spending of a vast treasure to increase farmers' incomes the great farm technocracy is facing a key decision: whether to take the final plunge into the strictest form of control and regimentation of private enterprise ever seriously proposed in this country."

It now remains to be seen whether U. S. farmers have been so indoctrinated with the glories of bureaucratic control of their activities that they will vote away their independence and freedom of action on May 21. It will be a sorry day for Our Country if they do.

**Eunice Knauf and Tim Wimmer Are Married at Mass**

— Boyd and Breeding Photo

Miss Eunice Knauf, daughter of Mr. and Mrs. Joe Knauf, and Tim Wimmer, son of Mr. and Mrs. Lawrence Wimmer, all of Muenster, were married in Sacred Heart Church Saturday, May 11.

Father Alcuin Kubis, pastor, celebrated the nuptial mass and performed the double ring ceremony at 4:30 p.m. The altar before which the couple pledged vows was adorned with yellow gladioli and greenery and tall tapers.

The bride, given in marriage by her father, wore a floor length gown of white silk organza over bridal satin. Appliques of lace dotted with pearls and iridescents formed a scalloped neckline and the short sleeves of the fitted bodice and enhanced the bouffant skirt which swept into a chapel train.

A tiara of pearls and crystals held her finger-tip veil of imported bridal illusion. She carried a white orchid and feathered carnations showered with streamers tied in love knots atop a bride's prayer book, a gift from the groom.

Attendants Miss Eileen Knauf was maid of honor for her sister, wearing yellow embroidered silk or-

ganza over taffeta, a matching headpiece and dyed to match slippers. The groom's sisters, Misses Ruth Wimmer in Nile green and Carol Wimmer in yellow, were bridesmaids. The three dresses were identically designed and the trio carried baskets of carnations tinted to match their dresses.

Cousins of the couple, little Miss Janet Pels and David Wimmer were flower girl and ring bearer. Janet's outfit in Nile green was a miniature duplicate of the other attendants' costumes.

Ray Wimmer was his brother's best man, Bobby Pels and James Walterscheid, bride's cousins, were groomsmen, and Carl Walterscheid and Jerry Walterscheid were ushers.

**TOTAL PERFORMANCE:**

FORD GALAXIE 500/XL SPORTS HARDTOP

**IF YOU KNEW WHAT TINY LUND KNOWS ABOUT FORD DURABILITY...YOU'D BE OUT ENJOYING A '63 FORD**

Ask Tiny Lund about Ford durability: He'll tell you how it helped him win America's toughest stock-car competition, the Daytona 500. Lund placed first in a Ford, with four other Fords right behind him for an unprecedented sweep of the first five places. Only the Fords were tough enough to stand the pace.

Greater durability is the reason Ford is able to offer a total-car warranty. Only a true total-performance car could offer as complete a warranty as this—with no strings attached:

"Ford Motor Company warrants to its dealers, and its dealers, in turn, warrant to owners as follows: That for 24 months or for 24,000 miles\*, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will be made by the tire companies. Owners will remain responsible for normal maintenance services, routine replacement of parts, such as filters, spark plugs, ignition points, wiper blades, brake or clutch linings, and normal deterioration of soft trim and appearance items."

You can't put a long-term warranty like ours on a short-term car. The '63 Fords have a better warranty because they're built better than any Fords in history. You see evidence of this extra toughness in Ford's outstanding competitive wins this year.

'63 Fords won the grueling Daytona, Riverside, and Atlanta 500's, and the demanding Pure Oil Performance Trials. Only cars with total performance could roll up so many big wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Remember: If it's built by Ford, it's built for performance... total performance.

The use of averages can be confusing. As a prominent economist put it recently: "If a man stands with his right foot on a hot stove and his left foot in a freezer, some statisticians would assert that, on the average, he's comfortable."

## Dial's More Modern, But, Area Will Miss Varied Services of Operators

The wand of modern living touched Muenster on May 4 and brightened the lives of all the citizens with a new dial telephone system, but it also has left an atmosphere of nostalgia.

### Livestock Survey Cards Due Soon in Rural Mail Boxes

Postmaster Arthur Endres reminds rural patrons of the Muenster Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Mr. Endres explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are: Henry J. Pels, Route 1; and John W. Fletcher, Route 2.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Mr. Endres concludes.

The community is going to miss the cheerful competence of the operators who said "Number Please", for the past several years, and before that "Central".

For more than 50 years the telephone girls had been at the beck and call of the community on a 24-hour basis, serving in a capacity far more extensive than that of a city telephone operator.

Time was, when no one bothered to place a call by number. They just gave the name of the person wanted. Central made the connection. Later with the numbers system, when a number was forgotten, or one was too busy to look it up, the operator supplied it.

And sometimes, a person had a problem and didn't know who to call. So he told the operator and she connected the right party. The operators usually knew where a person was, day or night. People left word with them, where they were going and how long they'd be gone. And they answered thousands of inquiries as to "Where's the fire?" when the whistle sounded, "Who died?" when the church bells tolled, and "What's the correct time?"

Now telephone subscribers must make their own calls by dialing a number. And there'll be times when they'll be a little "homesick" for those helpful and efficient girls who said "Number Please". But time and progress march on.

Guests of Mr. Joe Bezner Sr. Sunday were her children, the Leo Cutaias and Carol and the Frank Benenates and family of Dallas.

Father Herman Laux, native of St. Peter's Parish, will celebrate his silver jubilee of ordination at Lindsay on Sunday, May 26, with a high mass at 5 p.m.

Lindsay senior 4-H Club girls enjoyed a movie for their program at the regular May meeting. The film was entitled "Man on a Job." Jimmy Flusche, president, presided, Margie Neu and Patsy Zimmerer led songs and Dolores Voth reported 26 members present.

Father Damian Wewers, former Lindsay pastor, was back for a visit Wednesday and drove over for a pop call with the Muenster pastors.

**Lindsay Has May Queen Coronation**

Annual May Queen crowning at Lindsay was an inspiring 7 p.m. ceremony with procession into church where the group of participants gathered around the Blessed Virgin's altar.

Nellie Ann Hess, in a white formal, crowned the Madonna. Her maids of honor were Margie Hess, Patsy Zimmerer, Karon Loerwald and Kathy Streng.

Dian Fuhrmann was crown bearer. Her attendants were Cindy Eberhart and Gail Corcoran.

Father John conducted May devotions and gave Benediction.

A former Muenster resident, John Bowman of Portalis N. M., who hadn't been back in 35 years, visited friends last Thursday. He was a guest of Mr. and Mrs. John Schmitz and also visited at the Bill Lutkenhaus farm, to see his old homeplace. Mr. and Mrs. Bowman were spending their vacation in Forestburg with her folks and he came over to see friends he hadn't seen since his family moved.

The day's program includes a morning session featuring workshops from 10:30 to 11:30 for all sections of the League: men, women, youth and insurance. Members of St. Anne's Society will serve dinner in the school cafeteria at noon.

Benediction beginning at 1:30 will be followed by the general meeting for which Father Martin Fischer of Muenster will be principal speaker. Andy Roewe of Winthorst, president, will preside.

District and state officers and presidents of affiliated societies will report on their accomplishments since the last meeting, and Cecil Isbell, district Rural Life chairman, will present 12 Rural Life awards earned by six outstanding high school and six grade school students.

A social evening after adjournment will include a dance in the Parish Hall.

Officers of the League at the meeting will include Father Alcuin Kubis, state spiritual adviser men's section; Father Cletus Post of Winthorst, Northern District spiritual adviser; Mrs. Norbert Zimmerer of Lindsay, state vice president, women's section; Robert Wolf of Winthorst, state vice president, men's section, and Miss Florence Horn, Northern District secretary.

The host parish extends a general invitation for attendance at the day's program.

**Next Sunday Set For Commencement At Lindsay School**

Lindsay High School will hold commencement exercises Sunday, May 19, at 3 p.m. in the Parish Auditorium. Dr. D. A. Cowan, President of the University of Dallas, will be guest speaker.

Graduates are: Elizabeth Aitchison, Robert Fleitman, James R. Flusche, Milferd Hellinger, Patsy Hermes, Nellie Hess, Ewald Hoelker, Roy Morisak, Leon Neu, and Larry Sandmann.

These students have the assurance that Lindsay High School meets the standard required by the State Education Agency. The school was accorded accredited status by a visiting team from Austin last March.

**Installation of Officers Features Garden Club Meet**

Muenster Civic League and Garden Club's May meeting Monday night featured installation of new officers during the business session and an illustrated talk on wild flowers by Mrs. Earl Fisher as the program.

eau. And it insists that the big issue is whether farms will be managed by farmers or bureaucrats. The issue of price-is a smoke screen raised by USDA in an effort to induce farmers to sell out their freedom. Furthermore Farm Bureau is not hesitant about its eventual goal, which is a free market for free farmers, elimination of surplus, and limitation of the USDA to its original functions of giving technical help to farmers.

That makes a very desirable objective for all farmers, and one toward which wheat farmers can start in their vote next week.

Think it over. Wouldn't it be a nice return to American tradition, eliminating the tax burden required to finance surplus and subsidy and administration — along with snooepervision- Wouldn't it be better if USDA confined its activity strictly to helping farmers improve their methods?
