

Sorry folks, but Con this week does not feel equal to the usual effort spent on this column.

The only appropriate thought here now is that a kind and devoted mother has gone to the eternal happiness she so richly deserves.

So, for this time the column is being cut short... and with the hope that all its future comments will be the kind that would merit her approval.

Next Monday Set For Blessing of Sisters' Convent

Plans were completed this week for the blessing of the Benedictine Sisters' new convent and chapel and Father Alcuin Kubis announced the date for the ceremony next Monday, March 5, and time 2 p.m.

His Excellency Bishop Thomas K. Gorman of the Dallas-Fort Worth diocese will conduct the ceremonies. Clergy and nuns from a wide area are expected.

After the blessing there will be an open house to inspect the new building and everyone is invited to attend both events. Ladies of the Home-School Society will be hostesses serving refreshments.

Monday's open house will be the only such opportunity to see the convent and chapel, Father Alcuin said. After that the Sisters will get settled to their usual daily routines.

The building has been finished for some time and could have been occupied several weeks ago. The new furnishings were in. But marble for the chapel altar failed to arrive on schedule and delayed the blessing ceremony.

Groundbreaking for the building was held July 4, 1961, and work on the \$149,000 two-story, 20 bed-room structure began soon after. Furnishings for all rooms except one have been donated by individuals and families.

Sacred Heart High School seniors have selected a full costume, period play for their class presentation this year. The drama "Love Is Eternal" based on the novel of the same name is the graduates' selection with Sister Carmelita directing rehearsals.

The play is the story of Abraham and Mary Todd Lincoln and will be done in costumes of that era. Mothers of the seniors are as busy with sewing as the actors are with learning lines and practicing. The cast calls for 24 roles and includes every senior in the class, ten girls and 14 boys.

Date for presentation has not been decided. It will be some time in March.

Mrs. Henry Fette, 74, Dies Tuesday of Heart Attack Funeral Friday at 9:30

Sudden and unexpected death Tuesday night from a heart attack took Mrs. Henry Fette, 74, who had lived in Muenster 67 years and had seen the early-day community from its fifth year through

its growth and progress to the present time.

Her death came as a shock to her family and all who knew her. She had not been ill during the day and had been in attendance at services for members of the Third Order of St. Francis in the afternoon.

About 9 p.m. she noticed difficulty in breathing and called for help. Medical attention plus the city's resuscitator were of no avail and she passed away quietly about 10 o'clock.

N., Emmet and Herbert Fette of Muenster, Jerry Fette of Waco and Edgar Fette of Kodiak, Alaska; 24 grandchildren, 11 great-grandchildren and one brother, Joe Endres of Muenster. Abundant Talent Reports for Tigers Baseball Team

With a flock of talent back on his Tiger baseball team Coach Adam Wolf has visions of a successful but short season. He has practically all of the boys who turned in a good record last year, however his prospects for games are rather slim.

His difficulty is that several area schools are giving their first attention to track and will be crowded to finish conference schedules after their late start in baseball.

Eleven games are in sight now, one with Nocona and two each with Lindsay, Era, Goldburg, Forestburg, and St. John's. And chances are fair for a few more.

First action for the boys was a game with the Muenster Auctioneers Sunday. In their 7-2 win they looked good in pitching and hitting but need improvement in fielding. Johnny Wolf fanned 13 in the 7th inning game.

The team's other pitching assignment will go to Jerome Fuhrman, who did well last year. Others on the team are Dale, David, Claude and Clarence Bayer, Dennis, David and Frankie Hess, Pat Knabe, Francis Fuhrman, Frank Schilling and Jimmy Otto.

The election will be held in connection with other school elections of the county on that day, when the separate districts vote on their local trustees and also on a member to the county board of trustees.

At the same meeting the college board reelected J. Norris Scott as Dean-Registrar and John R. Shepherd as dean of the Evening School.

INFILTRATION BY MAIL

by Dr. George S. Benson
Nebraska Congressman Glenn Cunningham is planning to push with vigor House Resolution No. 9004, which he introduced in the last Congress near the close of the session. This is a bill that would stop the present Administration policy of permitting Communist propaganda mailings to be delivered in this country without additional postage from ports of entry. To allow this material to come into our country at all is beyond understanding, but to distribute it free seems a bit like asking the postman to join the Red conspiracy.

allow this flood of propaganda to go through the mails free. Since every piece of mail handled costs money it can be said with some justification that the Communists are responsible for a portion of the deficit the Post Office Department experiences each year. Rather tragic irony, don't you think, that Chairman Khrushchev should contribute in such various ways to the deficits of the U.S. budget?

Policy Changed

This all stems from the cancellation, last March 17, of the inspection program carried on since 1948, through which at least 90 per cent of this material was intercepted at ports of entry and dumped into the trash where it belongs. Again, Congressman Cunningham is unable to understand why this program was cancelled. Officially, the reason given was that it interfered with efforts to improve East-West relations.

"Surely no one could believe that our relations with the Russians are improved when we encourage their propaganda activities. If our intentions were to join them by facilitating infiltration, then the present policy would be consistent. But if we want to recognize the Communist conspiracy for what it is—a plan to subjugate the world and enslave it—then we should not assist them in reaching their goals. That is essentially why Congressman Cunningham wants to bar such material from the mails. The tons of cleverly prepared printed matter flooding our ports undoubtedly find some persons who are not prepared to understand and therefore to reject the falsehoods in it.

Target: The Youth

Much of it is pointed toward young people, and a large portion of it is being sent to schools and colleges. More than 300,000 packages of material (many containing several copies for distribution) were counted in a single year on their way to educational institutions through the port of New Orleans. A large quantity of it also is angled toward groups only recently coming to America and to various minority groups, in an effort to undermine their confidence in this country. Even under the old inspection and notification program that partly controlled the dis-

tribution of this material, the inflow was terrific. The U. S. Customs Bureau counted more than 14 million packages during 1960, an increase of 137 per cent from 1959. Although the effect of the March 17 order has been kept secret, Congressman Cunningham believes that it has brought at least a tenfold increase in the distribution of these materials.

A Danger Within

This means that literally millions of pieces of attractive propaganda are being distributed by our own government and paid for with your tax money. One is tempted to ask whether the danger is from within or without. It appears we have knowingly allowed our adversary to outfox us. If it were not for the fact that we are dealing with conspirators, as well as experienced treaty-breakers, these reciprocal international mail-handling agreements might have advantages. But the Communists are again making fools out of us with our assistance.

If the Administration so misreads the intent of the Communists without as to insist on being a party to their propaganda within, then it is time a great hue and cry went up, all the way to Capitol Hill. As Congressman Walter Judd has said of Mr. Khrushchev: "He has been winning all around the world with lying words. And we not only let him send them in, we help pay the transportation of material which is most effective in weakening and dividing and confusing and undermining with the purpose of eventually subjugating our own people."

GOING TOO FAR

An AP dispatch with a Washington dateline says: "The U. S. Court of Appeals has ruled that Secretary of Agriculture Orville L. Freeman went too far in ordering an 'imitation ham' label put on smoked hams to which water has been added." In its decision, the court described the order as capricious and arbitrary—a statement which is about as unequivocal as anyone could ask for.

Back of this legal action lies a significant little story.

A great many people prefer the modern-type, moist hams to the old-fashioned dry hams. The packers, naturally enough, want to give the consumer what she wants. Former Secretary of Agriculture Benson seemed to agree with this attitude. He authorized the addition of moisture content up to 10 per cent of the green weight of federally-inspected hams.

Certain consumer groups charged that this defrauded the buyer, by selling water instead of ham—a charge which was easily refuted, in that the prices charged for different types of hams reflected the value offered. Those who wanted moist hams were happy, and those who wanted the traditional dry hams could get them. Then came Secretary Freeman's "imitation ham" order—and the action in the federal courts.

The Court of Appeals has simply affirmed the right of the consumer to be able to buy what she wants—and the right of producers to provide it. If these aren't basic economic rights, essential to the operation of a free economy, what are?

'Tain't Fair

DON'T CULTIVATE WEEDS

Writing in The Trumpeter, Paul J. Cupp, president, American Stores Company says:

"The story is told of the great Roman Emperor Hadrian finding an aged man planting olive trees, and since they grow so very slowly, saying to him: 'Old man, these trees will not bear fruit for many years. Do you expect to be alive to eat of the fruit of your labor?'"

"The old man replied: 'If God wills, I shall eat—and if not, my son will eat. My father and his father before him planted trees that I might have fruit. It is my duty, then, to provide for those who shall come after me.'"

"Here is illustrated a basic principle of human progress. Our forefathers did not plant many olive trees, but they did better by planting ideas and cultivating knowledge, practicing thrift and industry, so that

we have become a part of the most prosperous society the world has ever seen. We should know clearly how this all came about, and realize that the old-fashioned virtues have lost none of their validity and value."

"Too many people in the United States are failing to cultivate the ideas planted by our forefathers, that gave us freedom, individual opportunity and responsibilities.

If we won't start cultivating the olive trees of ideas we inherited, we will find ourselves buried in a tangle of socialistic weeds, the seeds of which are now being planted.

Our word 'chairman' harks back to the good old days, when only kings, bishops or nobles were permitted to sit in a chair—common people stood, sat on the floor, or used benches. Hence, the leader was an important man, and got to use a chair.

FOR and AGAINST

for CHRIST-against COMMUNISM

BY BILLY JAMES HARGIS, L.L.D. FOUNDER CHRISTIAN CRUSADE

American Youth, A Top Communist Target

The youth of America have long been a major target of the communist conspirators. Recently the communists have increased their operations to subvert American youth. At a meeting of the National Committee of the Communist Party during June 1958, communist leaders were ordered to "begin the development of a conscious cadre policy towards young people in and around the Party," and to give priority to "listening to them and talking with them."

In the June 1959 issue of their official monthly magazine, Political Affairs, communist conspirators were informed that success for Communism was not possible unless they could "win a solid base among the youth."

At the June 1958 meeting of the National Committee of the Communist Party, communists were told that the youth groups they should subvert "range all the way from study groups and young explorer social clubs through chorus groups and bowling clubs." They were told that young Marxists already play an important part in many of these organizations.

One of the major phases of the communist propaganda assault on the minds of American youth is the promise of an all-powerful government which will take care of all their needs. One of the specific enticements in this area is unemployment compensation for youth before they ever hold a job. Another is a vast government work project which would furnish youth jobs

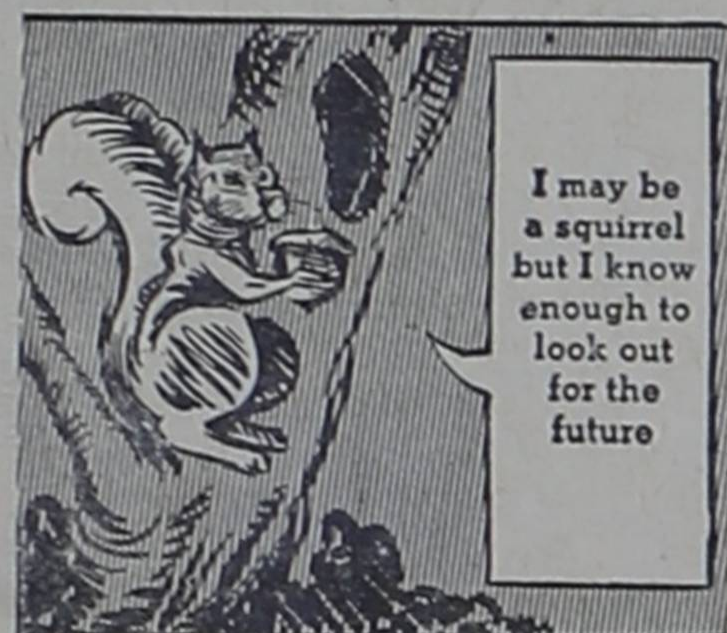

at trade union level wages. The communists strive to create utter irresponsibility in the minds of American youth. This destructive program demands freedom for communist and pro-communist teachers to poison the minds of our youth under a cloak called "academic freedom."

An article in the August 1960 issue of Political Affairs expressed optimism because "... Speakers from the Communist Party are being invited to campuses more frequently and are getting a better response." News in the communist Worker late in 1961 indicated further increases in invitations to communist conspirators to speak on American college campuses. During December Sam Kushner spent a day on the Drake University campus in Des Moines, Iowa. He wrote in the Worker that it was "quite an experience," and "was most heartening." Kushner claimed that he spoke to and with about 1,000 people during the day. One of his subjects was "the right-wing danger."

Also during December Gus Hall claimed a successful experience before a turnout crowd of "more than 2,500 Cornell University students." Communist official Benjamin Davis claimed success before "an overflow audience" of students in City College, New York, and Herbert Aptheker, editor of Political Affairs, spoke at Rutgers.

The story of

WILLIAM ALLEN WHITE and The Church Bell

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of The Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the thoughtful publisher, "we can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures, "That church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church."

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher.

"Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store."

The Muenster Enterprise

Hats off to the American farmer — for in no phase of the cold war does America have greater superiority over Communism than in agriculture.

Of the 4 1/2 million companies in the U.S., only 38,000 are big enough to employ over 100 people. Of these 38,000 big companies, only 500 have over 2500 workers.

See Old Friends And New Hospital In Memphis, Tenn.

Covering a lot of territory on a 4-day trip last week were Mr. and Mrs. Ernest Medders, Mr. and Mrs. Jerome Pagel and Father Alcuin Kubis who accompanied Mrs. Medders' sister and husband, the C. S. Martins, back to Tennessee after the Martins' visit here.

The seven had a round of visiting Mrs. Medders and Mrs. Martin's relatives after tending to business that took the Medders back to their former hometown. They were gone Sunday through Wednesday.

Tuesday morning they all attended mass celebrated by Father Alcuin in the chapel of the new St. Jude Hospital — the Danny Thomas hospital — and visited there and at St. Joseph's Hospital with nuns, nurses and other staff members with whom Mrs. Medders formerly worked, making tours of both hospitals.

A special joy for Mrs. Medders was again seeing Mother Philotera and Sister Stephena of Mishawaka, Ind., who came while they were there to bring Sister Bernadina to her new job as superior of St. Joseph's and St. Jude's, and a visit with Sister Mary Henrica long time friend of the Medders and Martins. Afterwards the Muensterites parted from the Martins who returned to their home in Etowah, Tenn.

On the trip back, the local group stopped at Subiaco to visit Mrs. Medders' sons Gene and Johnny Riggs while Father Alcuin visited overnight in Paris with Father Cletus Post.

PTA Sets Date of All Awards Banquet

Muenster Public School's annual All Awards Banquet, one of the events most looked forward to on the scholastic calendar has been set for Thursday, March 29.

That date was selected by members of the PTA at their meeting Monday night. Plans for the program furnished the principal business at the session. A committee to complete arrangements will be named.

Mrs. Albert Fleitman presided. The program was a film on communism. After adjournment Miss Doris Vavra and girls of the FHA chapter served refreshments.

Miss Lois Owen And Charles Wray Say Nuptial Vows

— Boyd and Breeding Photo

Mr. and Mrs. Charles Wray, married here Saturday, are honeymooning at an undisclosed destination after which they will be at home in Dallas where both are employed.

The bride was Miss Lois Owen, daughter of Mr. and Mrs. Ray Owen, before the 4 p.m. service in Sacred Heart Church. The groom is the son of Mrs. Leona Wray of Dallas.

Father Martin Fischer performed the double ring ceremony and celebrated the nuptial high mass. Mrs. Leo Lawson was vocal soloist before the service and again afterwards as the bride placed white gladioli on the Blessed Virgin's altar. Anthony Luke was at the organ and the men's choir sang the mass.

Mr. Owen presented his daughter for marriage. She wore a white chiffon gown over taffeta and crinolines, the skirt sweeping into an aisle-wide chapel train. The fitted basque bodice with long sleeves was ornamented with lace and rhinestones at the neckline and lace appliques embroidered with rhinestones formed a panel at the skirt's center front.

Her veil fell in tiers from a crown to finger-tip length and she carried a purple throated white orchid and feathered carnations atop her prayerbook.

Sisters Attendants

Three of the bride's sisters were her attendants. Miss Joyce Owen of Muenster and Miss Margie Owen of Dallas were bridesmaids and Mrs. Jerry Henscheid of Dallas was matron or honor. They wore identical dresses of citrus green taffeta with bell skirts in street length, short sleeves and fitted bodices accented at the back with self material bows. Their veiled pillbox hats were of the same material and their flowers were pink roses in colonial arrangement.

Groom's attendants were Jerry Henscheid, best man, and Keith Libby and Herb Slater, all of Dallas. A cousin of the bride, Gene Owen and her brother-in-law, Jim Hermes, ushered.

Reception and buffet catered by Mrs. Joe Lehnertz were in the Parish Hall and the wedding dance was in the VFW Hall. Misses Joanie Kaiser and Joyce Haverkamp registered guests.

The bride's mother wore a turquoise blue suit with blond accessories and the groom's mother wore a beige suit with black accessories. Both had white carnation corsages. So

did the bride's grandmother, Mrs. Joe Pautler. Mrs. Wray is a graduate of Sacred Heart High School and is employed in the office of the Dorsey Company. Mr. Wray is a graduate of the National School of Aeronautics in Kansas City and works in the office of an airline company in Dallas. They will be at home in that city at 3326 Hudnall.

Out Of Town Guests

Among out of town guests at the wedding were Mr. and Mrs. George Schenk of Odessa, Mr. and Mrs. Virgil Henscheid of Denison, Mrs. Tommy Herr of Fort Worth and Mr. and Mrs. Keith Bjorkman, Mr. and

Mrs. Bill Jones, Jerry Duncan, Kelly Paskell, Carolyn Cunningham, Pat Byers, Helen Bessire, Jack W. Prather, Eugene Anderson, Barbara and Jimmy Eden, all of Dallas.

Breakfast Courtesy

As a pre-nuptial courtesy on the morning of her wedding day, the bride was honored at a breakfast with Mrs. Tommy Herr of Fort Worth as hostess here in the home of her parents, Mr. and Mrs. Frank Schilling. Guests were former schoolmates: Mrs. Virgil Henscheid, Sara Fleitman, Jo Ann Hess, Ruth Endres of Fort Worth, Margie Owen and Mrs. Jerry Henscheid of Dallas.

Family Reunion Is Birthday Surprise For Jake Pagel

Surprises came thick and fast for Mr. and Mrs. Jake Pagel Friday night. It was Mr. Pagel's birthday but it surprised Mrs.

Pagel too. Nobody had told her all the family was coming over.

Arriving together in a group at the honoree's home were the Jack Janickis and daughters Cheryl, Donna, Janell, Starla and Renee, and the Hal Falcks, all of San Antonio and Miss Kathy Pagel of Fort Worth, the Maurice Pagels and Dwayne, Glenda, T. J., Sharlene and Marlene, and the Jerome Pagels and Dickie and Johnny. It was a complete reunion of the three generations, the first in many years.

The Janickis brought a handsome cake all the way from San Antonio. Warrant Officer Janicki baked and decorated it. The group brought other refreshments and birthday gifts.

Sunday they were all together again for an all-family reunion with a turkey dinner at the home of Mr. and Mrs. Jerome Pagel. The San Antonians returned home Monday. W. O. Janicki was on a three-day pass from Fort Sam Houston.

In Our Time

CONSERVATION OF THE NATION'S NATURAL RESOURCES, A PRECIOUS COMMODITY, HAS BECOME INCREASINGLY IMPORTANT TO AMERICA... AND TO AMERICAN INDUSTRY.

THROUGH CAREFUL RESEARCH AND PLANNING, INDUSTRY HAS BEEN ABLE TO OPERATE IN VIRGIN AREAS WHILE PROTECTING... AND IN SOME CASES IMPROVING... THE HABITAT OF WILDLIFE, GAME AND FISH.

IN LOUISIANA, FOR EXAMPLE, AN OIL PIPELINE ROUTE WAS CHANGED SO AS NOT TO DISTURB A COLONY OF RARE WHOOPING CRANES. AND OFF THE COAST OF CALIFORNIA AN AREA THAT WAS A VIRTUAL MARINE DESERT BECAME A FISHERMEN'S PARADISE AFTER RIGGS SUNK IN THE OCEAN FLOOR GATHERED BARNACLES AND VEGETATION THAT ATTRACTED FISH.

MANY CONSERVATIONISTS ARE FINDING THAT WILDLIFE AND INDUSTRY CAN BE COMPATIBLE WHEN MEN MOVE WITH UNDERSTANDING RESTRAINT AND RESPONSIBILITY AMONG THE BEAUTIES OF NATURE.

Comment from the Capital —

WILL GOVERNMENT EMPLOYEES GO ON STRIKE?

by Vant Neff

Suppose you called the police or fire department in an emergency only to hear: "Sorry, we're on strike. Call us back after it's settled."

Sounds pretty far fetched doesn't it? Civil servants won't go out on strike. Or, will they?

Here in Washington a lot of people are wondering and worrying about the chances of a strike by civil service employees. Recently a union of federal employees, the American Federation of Government Employees, AFL-CIO, organized the first lodge ever in the Executive Office of the President. Lodge #2079 represents employees in the Office of Emergency Planning, formerly the Office of Civil and Defense Mobilization.

We have all been affected by strikes to some degree. They cut off food; stop commuters and tie up hospitals as well as shut down steel plants. New York City recently went eleven days without any milk due to a Teamster's Union strike.

What would happen if civil servants in an office as vital today as Emergency Planning decided to quit over a wage or hour dispute? What would happen if the government itself were on strike just when all branches are needed the most?

Lodge #2079 was launched with the full blessings of the Administration. Just before he became President, candidate Kennedy said: "I have always believed that the right of Federal Employees to deal collectively with the Federal departments and agencies in which they are employed should be protected."

Right after his inauguration, the President sent a telegram to the AFGE-AFL-CIO: "The American Federation of Government Employees has played a notable part in broadening and deepening the standards of career and merit service in our Government. I look forward to working with your members as I take on my new responsibilities."

The holder of the first union card of Lodge #2079 is John E. Cosgrove. The President recently appointed Mr. Cosgrove

Assistant Director for Federal-State Relations in the Office of Emergency Planning. Mr. Cosgrove, a dedicated union man, was Assistant Director of Education, AFL-CIO, before his Federal appointment.

You may be interested to know that AFGE has 75,000 members in 800 lodges across the country. Originally, AFGE members belonged to the National Federation of Federal Employees but broke away in 1932 to form the present group after a series of disputes. Now

AFGE is one of the "big three" in the AFL-CIO Government Employees Council.

AFGE has won at least one fringe benefit that will make employees in private industry drool. Whenever a legal holiday falls on Saturday, federal employees get the preceding Friday off. Among their current objectives is a 35 hour work week.

While we all recognize the right of workers in industry to organize, it is wise to have a powerful union, which AFGE surely is, firmly entrenched in the Executive Branch of our Government?

When the time comes for action on matters affecting wages, hours, or fringe benefits, where can we expect employee loyalties to lie? Will it be government first, union second, or vice versa? Can we afford to present our government workers with this choice when our very existence may depend on their decision?

It would certainly be an outrageous state of affairs, if, in the event of a nuclear attack, most of the personnel of the office charged with the entire nation's welfare, the Office of Emergency Planning, were on the picket line instead of on the job.

That's why people are wondering and worrying about the encouragement the Kennedy Administration is giving to unions that want to infiltrate the governmental offices. There must be a better way of insuring fair treatment of civil servants without jeopardizing the national interest.

405-HP THUNDERBIRD V-8—Thirty years of Ford experience culminate in this startling V-8. Available in every Galaxie, it puts 405 horses under the throttle, a dazzling level of acceleration that cannot be imagined but must be felt. A super-performance option, it comes only with the four-speed gear box. But, unlike some "special" engines that require delicate tuning and modification, it puts out its potential right off the showroom floor. Even more impressive, Ford skill has made it a docile tiger; it idles smoothly, it is durable, its super capacity does not come at the expense of harshness and noise. Among expert drivers, it is praised as a true high-performance V-8 in America ... the pace-setter for 9 other V-8's tailored to every driving need.

NEW FAIRLANE CHALLENGER "260" V-8—When the 221-cubic-inch Fairlane V-8 appeared last fall, automotive writers hailed it as a great basic advance, a compact jewel of design. Now, the "260" V-8 proves their prediction. With 164 hp, 19 more than the standard version, Fairlane gains a new brilliance of performance—but it still runs on "regular," still outsaves any standard-size Six. It has the durability of time-tested cast iron, slimmer and lightened by Ford's precision-casting technique. Created by the one maker who has built 30,000,000 V-8's since 1932, it brings the sparkle and smoothness of V-8 power well within the thrifty budget's reach, puts truly sophisticated engineering at the service of truly economical motoring.

Gas Company Will Spend \$35 Million On Construction

Lone Star Gas Company and wholly-owned subsidiaries — Lone Star Producing Company and Lone Star Gathering Company — have announced an all-time high initial construction budget of \$35,431,000 for 1962.

The 1962 budget figure exceeds the companies' 1961 construction expenditures by approximately \$5,500,000 according to L. T. Potter, Lone Star president. The three companies are headquartered in Dallas.

Mr. Potter stated that \$13,685,000 will be invested to maintain and strengthen natural gas distribution facilities in and around the 467 communities, towns and cities Lone Star serves in Texas and Oklahoma.

The expenditure covers customer service lines, meters and regulators, extensions, fortifications and replacements of distribution mains; warehouse and office building construction and remodeling and numerous other customer service facilities.

Presently Lone Star is serving 890,286 residential, commercial and industrial customers and the company expects to add about 22,600 new customers in 1962. The current customer count reflects 878,538 natural gas and 11,748 liquefied petroleum gas customers.

The Lone Star Producing Company has budgeted \$9,320,000 for drilling and deepening of oil and gas wells, new leases, seismicographic service and other exploration costs, Mr. Potter said. Such activity is scheduled to take place in East Texas, Oklahoma, West Texas, West Central Texas, South Texas and Mississippi.

The Gas Company's Transmission division will apply \$9,441,000 toward extensions and

Lone Star Gathering Company proposes to construct 24.4 miles of 14-inch transmission pipelines and 65.39 miles of gathering pipelines of various sizes in DeWitt and Victoria Counties in South Texas. The initial system will gather gas from producers in DeWitt County and deliver it to the United
