Recommended reading for everybody in the nation, especially those in a position to do something about it, is this week's editorial by David Lawrence in US News and World Report. Entitled "Undoing a Fraud", it suggests that our present Congress re-submit the controversial Fourteenth Amendment to State legislatures and let them decide whether it shall actually be accepted as the law of the land.

"When this is done," he says, "a blemish and disgrace in American constitutional history will be removed. We will then be able to present to the world the image of a Government that does not condone fraud but even after nearly one hundred years is willing to atone for its sin."

The Fourteenth Amendment as the basis for the famous Supreme Court integration order in 1954, is the cornerstone upon which much of our current racial trouble is built. But, says Lawrence, it is not a valid law of the land because it was not properly ratified.

The editorial presents an explanation by an eminent lawyer, Everett C. McKeage of San Francisco, who, as a former Superior Court judge, is well qualified to offer an opinion.

He bases his decision on evidence contained in "15 United States Statutes at Large", which is accepted as a reference by all federal and state courts.

He calls attention to the questionable validity of ratifications made by "carpetbag" governments of the Southern states, which were not properly elected and hence were not qualified to officially represent those states. He also mentions the element of coercion that applied in some of the ratifications, when states were required to ratify as a condition to readmission in the Union. That requirement was unlawful and void, he declares, because the Supreme Court had ruled that Southern states were never out of the union. Hence ratifications made on that condition were unlawful.

But even if such questionable ratification procedure is accepted as lawful, he says, the amendment still is not valid, because it was not adopted by a sufficient number of states. At that time there were 37 states in the Union, including the 11 Southern states. Three-fourths of that number is 27.75, hence 28 ratifications were required.

On July 20, 1868, Secretary of State Seward reported to the Congress that 23 states had previously ratified and six Southern states, by their newly established governments, had also ratified, making a total of 29. However, his report also included a most important statement explaining that Ohio and New Jersey had withdrawn their previous approval, and pointing out that if the withdrawals were valid the amendment was not adopted. On the basis of that report the Congress, by joint resolution, declared that the Fourteenth Amendment had become a part of the Constitution.

To defend that act of Congress it has been contended that Ohio and New Jersey withdrew approval after the other states had ratified, hence the requirements for adoption were met before they reversed their decision. But the report by Secretary Seward listed dates indicating that such was not the case. His record showed that three states, Florida, Louisiana and Alabama gave their coerced ratifications long after Ohio and New Jersey had withdrawn theirs. Hence it is a matter of record that the Fourteenth Amendment was fraudulently adopted.

That is the status of the Fourteenth Amendment, the authority behind a decision which is causing so much trouble. The requirement for its adoption was not met at the time, and it has not been met up to this day. It does not belong in our Constitution. It can be stricken from the Constitution at any time by a simple majority vote of both houses of Congress reversing the invalid resolution passed in 1868.

By right it should be, because, actually, it is a phony. And then, as David Lawrence

The schedule is drawn up and the park is ready for a baseball tournament to be played here this weekend under sponsorship of the Muenster Jaycees.

Action begins Thursday night at 8 as Marietta takes on Henrietta. The other two preliminary games are set for Friday, Muenster playing Gainesville Owls at 5:30 and Bowie playing Anna at 8:30.

Those three games will divide teams into champ and consolation brackets, each of which will have two games. Semifinals of both brackets will be played at 5:30 and 8:30 Saturday, and the finals of both brackets will be played at 1 and 4 o'clock Sunday. Afterward three prizes will be presented, to the champ, the runner-up and the consolation winner.

Special preparations have been made to have the park ready for both players and spectators. The infield has been mowed and lighting was improved by addition of 21,000 watts. That was done by replacing twenty 750 watt bulbs by 1500 watt size and also adding four of the big bulbs. Lights are at their best ever.

For the fans, Jaycees will have their concession stand located.

## Muenster Gals to Meet Gainesville Gals in Softball

Little League Mothers and Jaycee Wives, who have met each other in three softball games, will combine their talents next Monday night to accept a challenge from Gainesville.

Membership, positions, etc., on the team still remain to be decided but the ladies expect to be organized in time. Their opponents will be the Minor League Mothers and they'll play at Leonard Park.

Last week's game between L. L. Mothers and J. C. Wives was a 14-12 thriller for the mothers. That makes three out of three for them.

## NEWS OF THE SICK

Charles Hess, 4, son of Mr. and Mrs. Joe Hess, is back at home, coming sooner than expected after being in traction at Gainesville Hospital for a broken leg. Earlier last week it was believed that he would be hospitalized six to eight weeks. But last Thursday doctors said Charles could be kept in traction at home and told Mr. Hess how to make the traction apparatus for home use. So the little boy was transferred from hospital traction to home traction. Both of the legs are pulled up high in traction pipes built into a frame. Moving him in the framework posed a major problem. It wouldn't fit in an ambulance or station wagon. Sam Sims, Gainesville, also hospitalized at the time for a knee injury, ordered a covered truck from his pony farm and young Charles and his frame-work rode home safely. He will be kept in traction indefinitely. Meanwhile he has X-rays every two weeks.

Johnny Rohmer expects to be dismissed from St. Joseph's Hospital this weekend to continue recovery at home from a foot injury. He entered the hospital last week after an accident with a power mower. He was making an adjustment on the mower when the mishap occurred cutting and bruising the toes on his left foot, and breaking several bones. He lost the toe nail of the big toe and the first joint of another toe. Johnny and his wife and daughter live in Fort Worth since their recent move from Muenster.

Pete Mosman of 1401 Hancock St., Gainesville, underwent surgery at Baylor Hospital in Dallas last Thursday and is reported making normal recovery.

Billy Joe and Paul Pratt are having a week's vacation at Wilson, Okla., with their grandparents, Mr. and Mrs. Covy Sims. Their mother, Mrs. Bill Pratt, took them and enjoyed a visit with her parents before returning home.

## Scouts and Dads To Have Camp-out At Lake Texoma

Another overnight camp-out for Boy Scouts and their dads followed by a field mass and picnic dinner is on the calendar this weekend.

Their schedule is practically the same as it was three weeks ago. Scouts and dads will go to the Walnut Creek resort on Lake Texoma Saturday afternoon and occupy themselves with outdoor living until 11 o'clock Sunday morning. Their program includes swimming, boating, fishing, preparing supper and breakfast, and sleeping out.

Families are expected to join Scouts and dads at the 11 o'clock field mass with Father Alcuin as celebrant. The families will come with food to be spread for a picnic dinner.

Visitors are welcome at the field mass.

## Frank Aldridge Sr. Assigned to Tax Renditions Job

Frank Aldridge Sr., former mayor of Gainesville, is the new representative of the county tax office assigned to the job of seeing taxpayers for the purpose of making their annual renditions.

His job is a new one created by the commissioners court on July 9. He replaces four employees who formerly did the work on part time schedule. The purpose of the change is to assure more uniformity in renditions, also to place responsibility for renditions on one person.

Aldridge's appointment was announced this week by County Tax Assessor-Collector Rafe Piper. His work begins September 1.

## County Oil-Gas Production Valued At 28.5 Million Dollars a Year

With oil and gas production worth about \$28.5 million a year, Cooke County citizens have a financial stake in the worldwide demand for energy and the complex economic and political problems involving the petroleum industry, according to statistics compiled this week by Texas Mid-Continent Oil & Gas Association.

"We have pulled together some figures from the most authoritative sources so residents of Cooke County can see how local pocketbooks are affected by some of the issues which involve our industry," said J. Clyde Tomlinson, Association president. "Issues of current concern include the proposals to cut percentage depletion rates, extension of federal controls over prices at which Texas producers sell their gas, and development of laws and production methods that will help Texas compete with other states and nations for markets."

The latest year for which U.S. Bureau of Mines figures are available (1961) shows Cooke County producing more than 9.5 million barrels of crude oil, valued at about \$28.3 million; and 1.7 billion cubic feet of natural gas, with a value of \$210,000. Cooke ranks 35th among Texas counties in value of oil and gas production. In 1961 there were 3,308 producing wells in the county, according to the Texas Railroad Commission. The Walnut Bend Field is classified by the Oil & Gas Journal as one of the nation's "giant" fields, with an estimated ultimate recovery in excess of 100 million barrels since discovery.

Although its first field was discovered 37 years ago, Cooke County is the scene for the industry's continued search for oil and gas. Some 287 wells were drilled there last year, with 45 being wildcat exploratory wells, according to the Oil & Gas Journal. The Association estimated that more than \$6 million was spent on drilling in the county this past year and that some \$2.6 million of this went for dry holes. Close to \$146,000 was spent last year on geophysical crews using seismic devices to probe the underground formations of Cooke County for possible drilling locations.

Leasing adds many thousands of dollars to the county's economy. Tabulations by the International Oil Scouts Association show major companies in 1961 were paying rentals on about 36,000 undeveloped acres.

Royalty payments to Cooke County farmers, ranchers and other landowners are running at more than \$3.5 million annually, the Association calculated. Cooke County producers and royalty owners also make a sizeable contribution to the support of state government, with production tax payments

He stayed to look after the store and home while the rest of the family was away. The group in reunion was Hq. Co., 317 Field Artillery, 81st Division.

Due Home Next Week

## Readiness Tests For SH Beginners Set Monday, 19th

All beginners at Sacred Heart School are asked to be present for the placement test on Monday, August 19, from 8:30 to 11:00 a.m. Any child in the parish who will be six by September 1, 1963 is eligible to take this placement test. The parents are asked to have the children at the Elementary School building promptly at 8:30 so the test can be started on time.

The Metropolitan Readiness Test is given in order to group the children according to their needs. Parents should not be overly concerned about the results of this test as the children are regrouped throughout the school year if the periodic testing or classroom performance shows a change. This initial placement test is given primarily to enable each child to have an equal chance to learn the basic skills in order to be successful in his school career.

## Contest Monday Will Determine County FB Queen

Monday, Aug. 12, is the big night for contestants in the Farm Bureau Queen contest. The climax to the final review will be crowning of Miss Farm Bureau of Cooke County for 1963. Ceremonies will begin at 8 p.m. in Cooke County Junior College gymnasium.

Rehearsal for contestants will be Friday night, Aug. 9, in the college gym.

Seven girls have entered the competition, five in the senior division and two in the junior division.

Senior contestants are Misses Gayle Paclik, Gainesville; Sue Dillard, Sivelles Bend; Kay English, Rosston; Rita Fisher and Sandra Cain, Muenster. In the junior division are Misses Linda Fisher and Debbie Cain of Muenster.

## Delegates Report To County FB on State Institute

Delegates who represented Cooke County at the Texas Farm Bureau Institute in Dallas last week reported to the County FB unit at its regular monthly meeting Monday night.

County Agent Neil Tibbetts praised the institute as the best he has ever attended, saying that its scope, its planning and its presentation were excellent. He reported that FB is not intended to do things for its members so much as to furnish the medium through which they can help themselves and each other and suggested more emphasis on individuals and small groups as a means to greater local achievement by the organization.

Burney Almon reported on the nature of FB as an association of farm and ranch people united for mutual interest and enlightenment. It is dedicated to the principles on which our country was founded, and to the free enterprise system which is inseparable from property rights and personal freedom. It is the nation's largest farm organization, with a membership of 1,600,000.

Miss Rita Fisher reported further on FB as a voluntary organization, non-partisan and non-sectarian, with a purpose of social, economic and educational advancement. She also presented the institute's recommendations for increasing interest in the FB young people's program.

In a membership report J. T. Cole said the number now is 446, which is 79 short of the goal.

Other business concerned preparations for the county FB queen contest to be held on August 12.

## Giants are Champs Of Little League

The Giants are the champs of the senior division of Muenster's Little League baseball. They took the title last Friday night in an 11-1 decision over the Braves.

For the losers the game was a heartbreaker. After a bad start they failed to settle down. Meanwhile the Giants got along fine.

Before that game the Dodgers nosed out the Yanks, 9-7 in the contest to avoid the cellar position.

Final standings are Giants 6-4, Braves 5-5, Dodgers 5-5, Yanks 4-6.

## 70 MPH Limit Begins Aug. 23 on Most State Roads

More than two-thirds of the Texas highway system will come under the new 70-miles-per-hour daytime maximum speed for passenger cars which becomes effective August 23, the Texas Highway Commission revealed today.

Under the speed control law passed by the Legislature this spring, all highways not zoned down by the Commission will automatically go to the new 70-mph speed August 23. This means that some 41,500 miles of the state-maintained Highway system will be allowed to come under the higher maximum speed.

The Commission today passed a Minute Order which zoned some 18,640 miles of the highway system at a maximum of 60 miles per hour daytime and 55 miles per hour at night for passenger cars, effective August 23. These highways will be restricted to the lower speed limit because engineering studies indicate they are inadequate to accommodate a 70-miles-per-hour maximum.

The Commission's action followed a series of engineering traffic studies conducted throughout the state by the Highway Department's 25 highway districts.

A large percentage of Texas' vast Farm to Market Road System will come under the 70-mph maximum, although some of these roads (and some of the older primary routes) will be restricted to the lower 60-mph maximum where conditions warrant.

## Local Industrial Foundation Will Meet Next Monday

Members of the Muenster Industrial Foundation have received official notices reminding them of the annual general meeting of their organization next Monday night at 8 o'clock in the public school library.

This is the organization which was formed for the purpose of assisting Sam Raden in moving his dress factory to Muenster.

At the meeting members will hear a report on the factory's progress, elect five directors, and consider new business if it should be introduced. All members are urgently reminded to be there or send back cards designating proxies to do their voting.

## Muenster Jaycees Dump Indians 4-1

Muenster Jaycees were the winners last Wednesday night in a 4-1 baseball classic with the Marietta Indians. Both teams were playing it tight defensively and Muenster can credit its win to the fact that its breaks were sufficiently grouped to pay off on the scoreboard.

A line drive homer by Willie Walterscheid in the third gave Muenster its first score. The other three came in the fifth.

Another feature was the pitching duel by Walterscheid and the Indian hurler. The visitor allowed 4 hits and Willie 3, but it should have been 4 each. One Marietta fellow walloped a long one that looked like a homer for sure. George Mollenkopf robbed him by retreating behind the lights and bagging it in the dark.

Hitters for Muenster were Walterscheid and James Harris, 1 each, and Adam Wolf, 2.

**SHOWDOWN**  
 It is well to understand now, at the very beginning of the debate where the President's civil rights bill would take us.

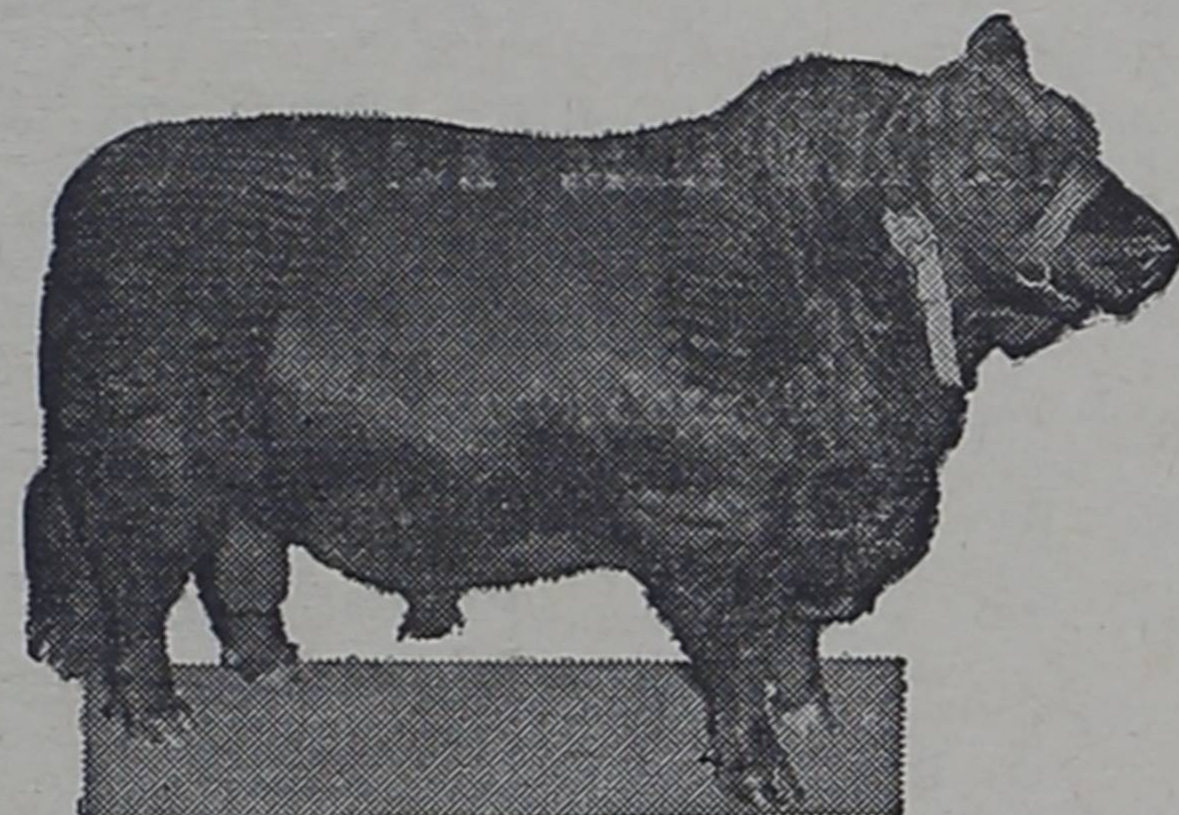

One provision of his bill would make it a criminal offense for any owner of a theater, restaurant, hotel, arena or entertainment facility to deny admission to a Negro. Another provision of his bill would make it a federal criminal offense for any employer substantially engaged in interstate commerce to discriminate by race in his employment practices.

These proposals seem to us flagrant violations of the Constitution. They cannot be justified under the 14th Amendment, as the Supreme Court itself ruled almost a century ago. Neither can they be justified under any reasonable construction of the commerce clause. The bill is motivated in large part by politics. It is the immediate product of a sense of panic in the White House.

If the proposals become law, the fantastic problems of enforcement would have to be faced. Either the law would be enforced sporadically or it would be enforced universally. If the former, we would suffer the iniquitous hit-or-miss prosecutions of prohibition days; the result would be nationwide hypocrisy and nationwide contempt for law. If the latter, a hundred thousand federal agents examining into the most intimate sales and employment practices of a million business enterprises, scarcely would suffice to do the job; and the result would be a degree of regimentation and harassment that would amount to despotic rule.

This is the showdown. On the outcome of this fight rests the survival of a free country. —Richmond, Va., News-Leader

### 13 WEEKS WITH PAY

We have often wondered where this craven appetite of labor unions will ultimately bring this country. The most outstanding of recent labor contracts was that of the unions and the steel industry. Labor contends that giving employees of the steel industry 13 weeks of vacation every five years will necessitate employing more people, thus giving more employment.

On the other hand, and a point they do not mention, is that if I am a steel user, it will fall upon me to pay a high enough price for this steel to give five-year employees a vacation. Figuring that it will take a comfortable foreign tour to consume 13 weeks, we somehow dissent in the idea of giving some steel mill worker a European tour that we ourselves cannot afford.

This leads us to the belief, if we can afford to stay in business long enough to support unreasonable union demands, we could very well see the day when the American public will rise in protest. Today the industrialist will have to bid at home during vacation periods while their employees take the trips.

### RIGHTS AND RESPONSIBILITIES

We have heard much lately in daily newspapers, magazines, on radio and television about discrimination and job opportunities. From extremists on all sides we hear things like... We will fight... We will demonstrate... We will march... We will organize... We will sit in... We will lie down... We want!!!

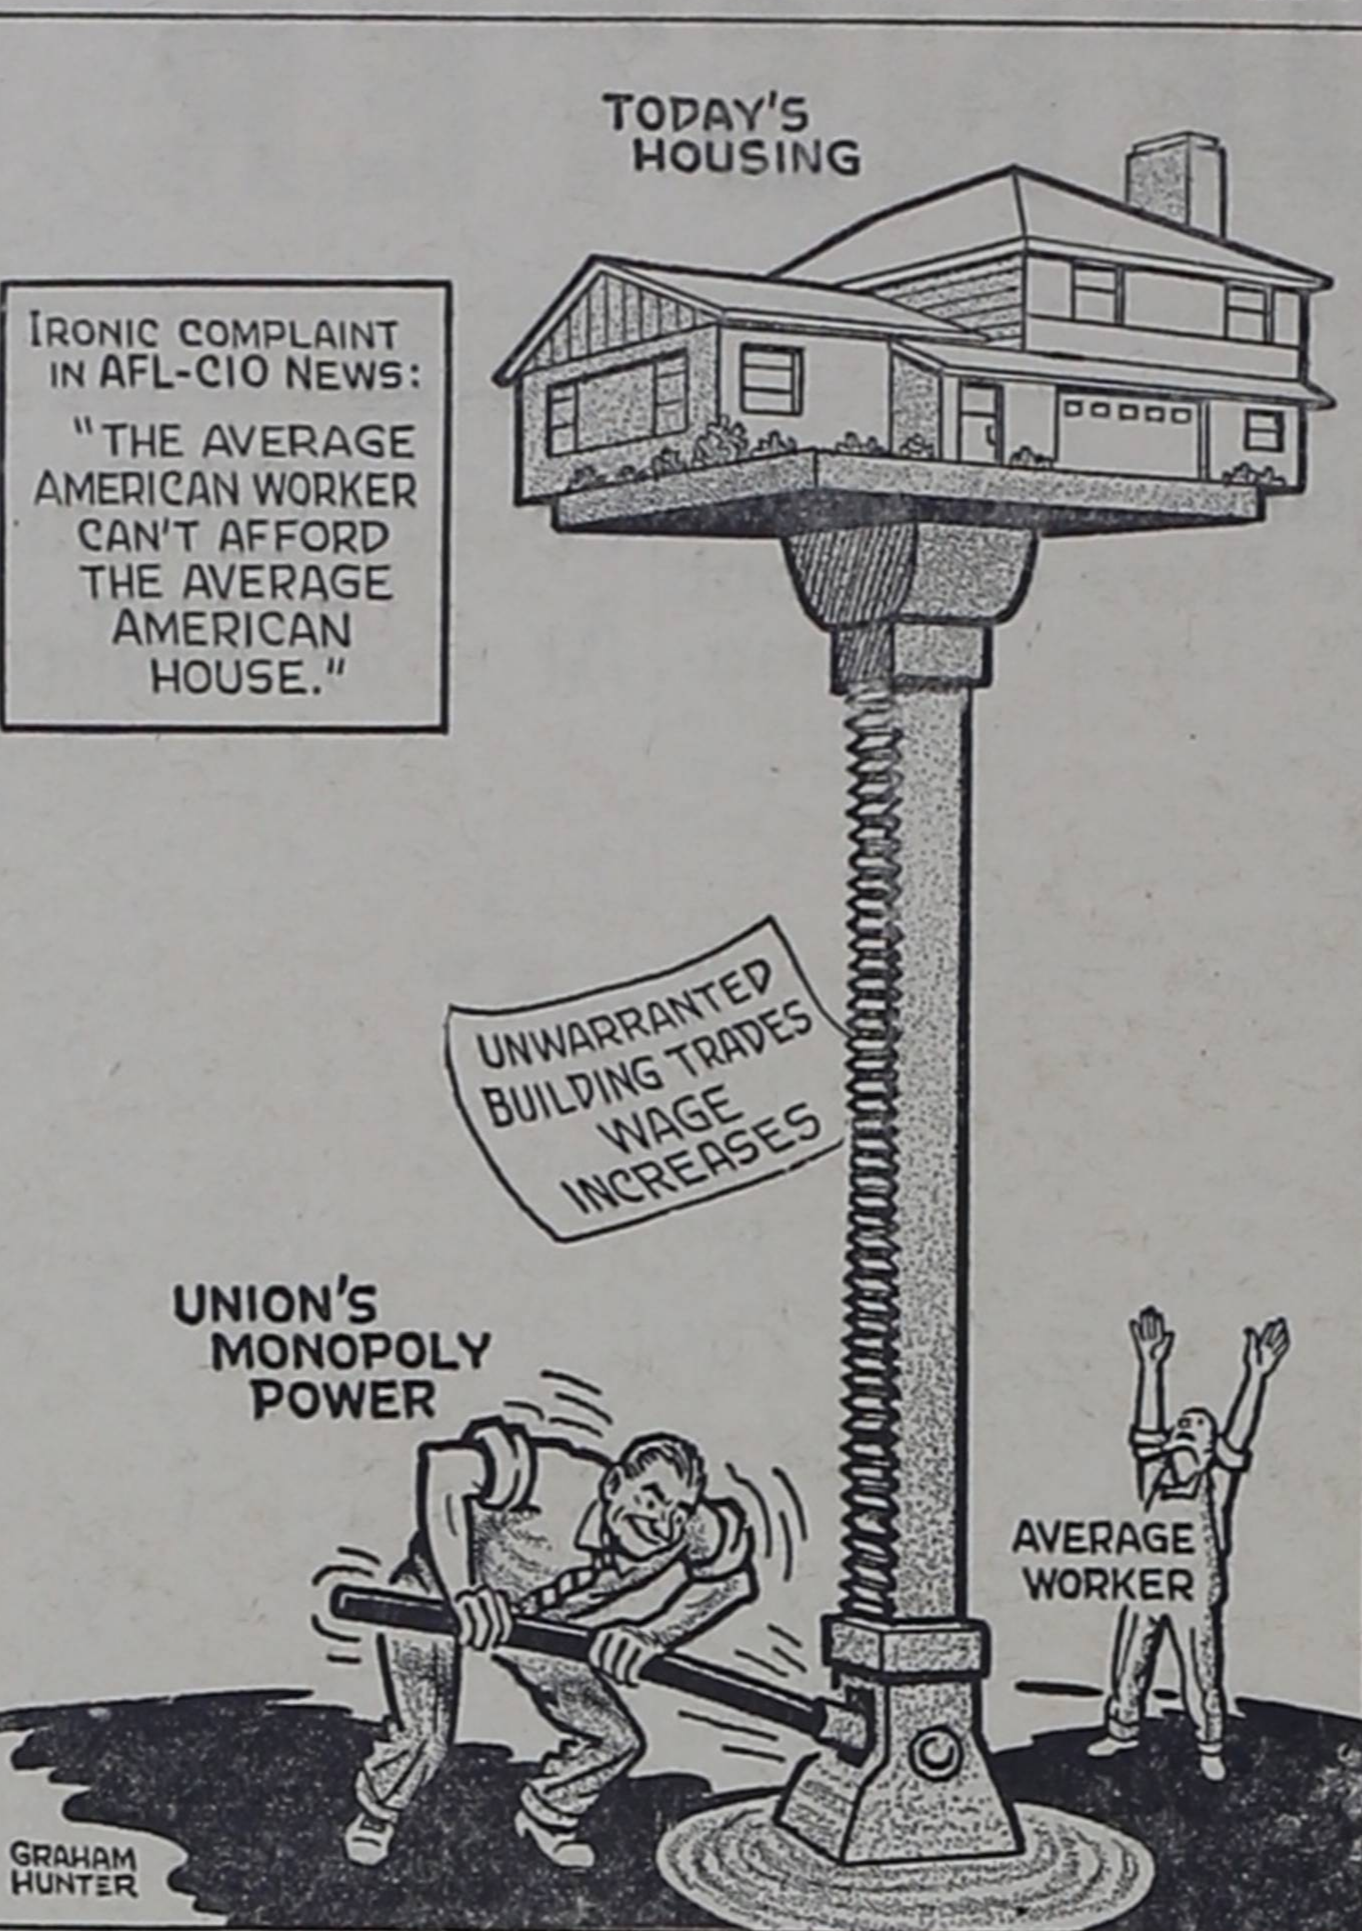

What I have not heard are the words "WORK," "SACRIFICE," "RESPONSIBILITY." I do not hear... "I will work to better my position"... "I will sacrifice my nights going to trade school, college or becoming an apprentice to better my job"... "I do not hear... "I will undertake the responsibilities to better my position and insure my rights." To be sure, every right and benefit is accompanied by one or more responsibilities.

Surely the leaders of these movements, being educated men, Lawyers, Doctors, Ministers, etc. must have worked and sacrificed to attain their positions. They have apparently also accepted the responsibility of their position.

I wonder why this is not included in their demands? —Woodhaven, N. Y., Leader

Tractors are involved in more farm accidents than any other farm implements, the Texas Safety Association reports. Other machines do have higher accident rates, but it is because they are used less. Driving too fast is a factor in most tractor upsets.

### WILL THE REAL PRICE-HIKER STAND UP?

**THEY SHOULD LOOK TO THEIR OWN HOUSE**  
 The bitter complaint of the AFL-CIO News that the average American worker cannot afford the average house ranks as the "pot-calling-the-kettle-black" statement of the year.

That's because it is the monopolistic power of the building trades unions affiliated with the AFL-CIO itself that has driven the cost of housing skyward through repeated unwarranted wage hikes.

In the past 10 years alone wage rates in the construction industry advanced more than 50 per cent. And the unions cannot pass the buck to the cost of materials because it rose but 13 per cent in the same period.

A quick look at the wages and fringe benefits paid construction workers in the New York City area removes any lingering doubt as to who has put houses out of the reach of the average worker. Plumbers get \$6.30 an hour; sheetmetal workers, \$5.86; carpenters, \$5.60; glaziers, \$5.28 and common laborers, \$4.64 an hour.

You would think that the unions would be satisfied with those lush, out-of-this-world rates but they are not. They are in the process of hammering out increases of from 92 to 97 cents an hour in their negotiations for new contracts.

Thus it is that the AFL-CIO can find the answer to the high cost of housing right in its own house.

### Facts About Social Security

When you retire, will you need your social security payment promptly? Most people do. If you want to speed up your first check, we can help you. Inquire before you retire.

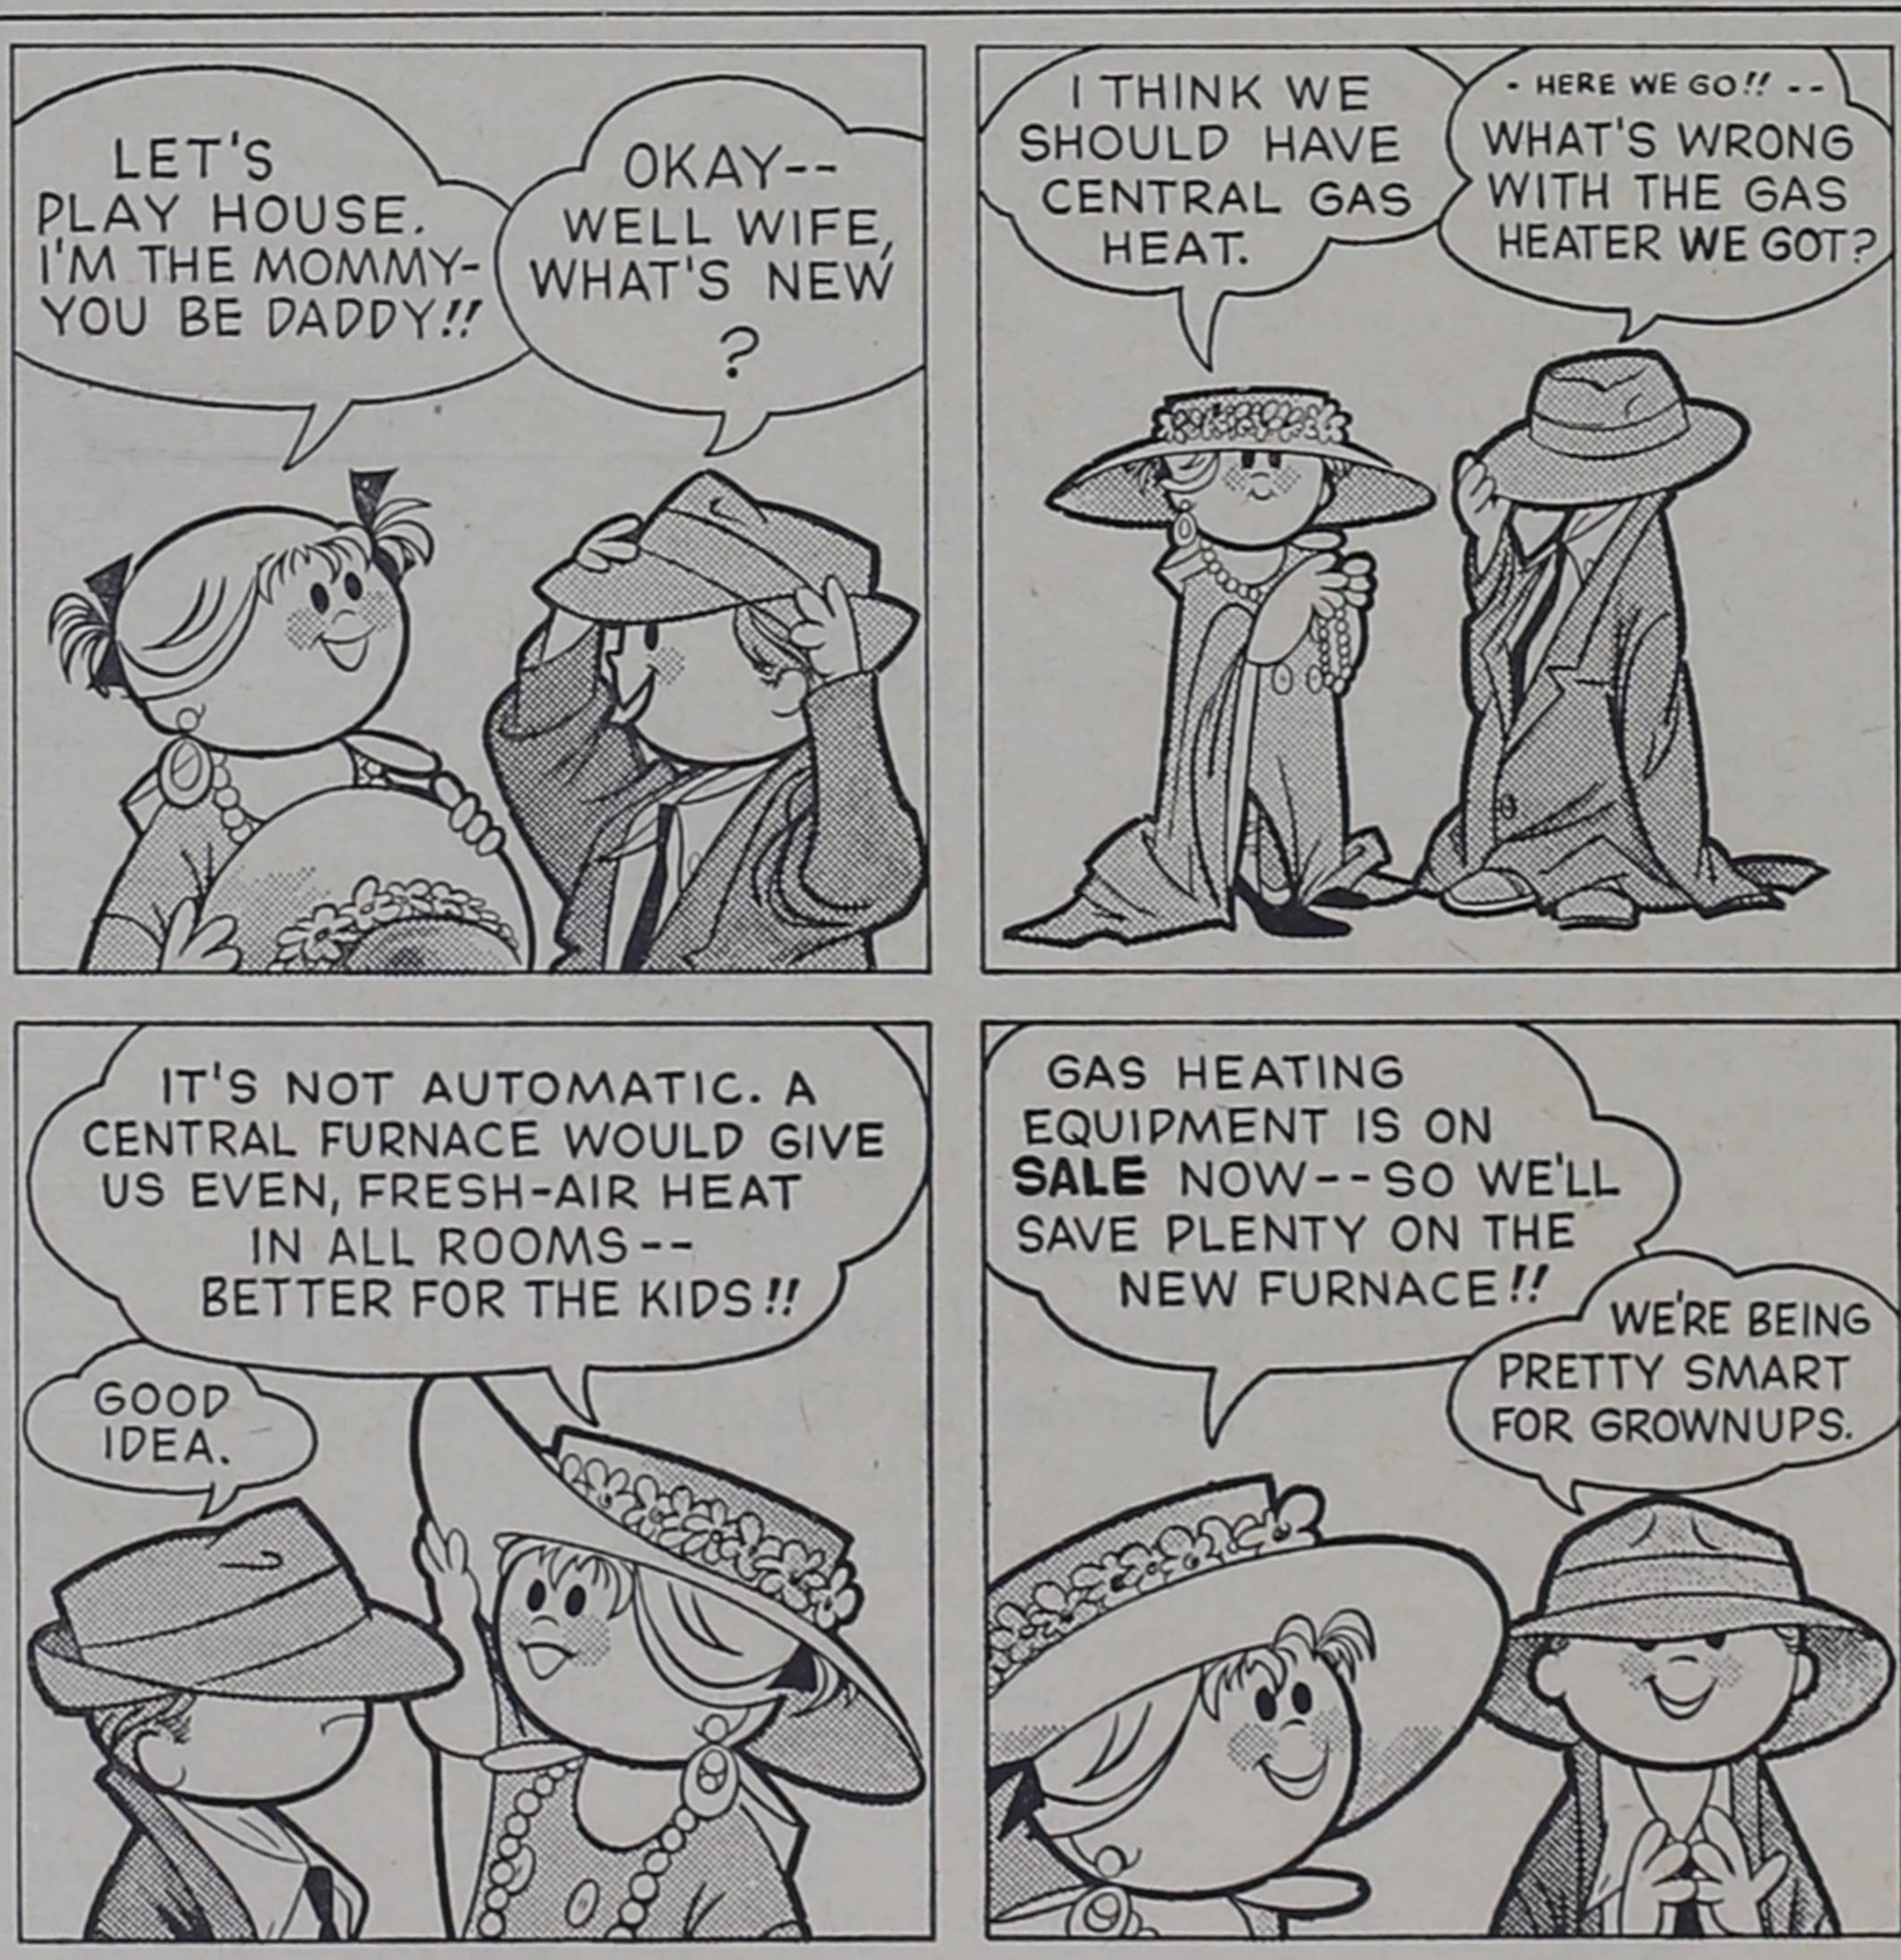

Your application for retirement payments can be filed as much as three months before you actually stop work.

If you write or visit our office located at 315 West Mulberry, we will tell you what proofs you will need to bring with you. We will also tell you about benefits for your family.

In general, people who apply for social security payments should bring with them their social security account number cards, proof of age, and evidence of their earnings for the previous year. This evidence is the withholding statement (Form W-2) for employees, or a copy of their Federal Income Tax Return if self-employed.

Of course, no person should delay applying for benefits just because he does not have all of these papers available. The people at the social security office can often suggest other acceptable proofs and assist in securing them.

Summer heat poses a real problem when it comes to keeping garments fresh and attractive. Perspiration stains do sometimes occur, even when you have taken the usual protective measures. Quick action can do much to insure stain removal, reminds Bernice Thurman, home demonstration agent. For this reason, check garments as you remove them, analyze and treat any stains promptly — or, if professional care is needed — take them to a dry cleaner.

Perspiration stains normally are acid and usually will wash out of washable fabric but sometimes the color of the fabric is changed. If so, dampen the stain with water and hold it over the fumes from an open bottle of ammonia. This may restore the color. Old stains may be alkaline. If so, sponge with vinegar. Perspiration odors may be removed by sponging the stain with warm water to which a few drops of vinegar have been added. Then sprinkle with powdered pepsin, work well into stain, and let stand 1 to 2 hours, keeping the spot moist. Finally, brush powder off and rinse well.

For a stubborn stain, sponge with hydrogen peroxide or a mixture of 1 teaspoon sodium perborate to 1 pint peroxide. Rinse with water. "Removing Stains from Clothing," a bulletin written by extension clothing specialists, gives practical suggestions for analyzing and treating stains. You can get a copy free, from the county extension agent's office on the ground floor of the courthouse, telephone HO5-4931.

**Medders' Colonial Manor Is Blessed**

At the Ernest Medders' Colonial Manor Tuesday, the Rt. Rev. Abbot Michael Lensing of Subiaco, Ark., officiated at the house blessing ceremony. After blessing the home he blessed also the swimming pool and the herd of Black Angus cattle.

The blessing of new homes and property is an ancient ritual still treasured by modern-day Catholics. At the Medders' it awaited the convenience of Abbot Michael, long-time friend of the family. He had to come to Texas on business this week and included Muenster as one of his stops.

About 50 guests, including the local pastors, were present and had supper afterwards. Among those at the event were the hosts' relatives from out-of-state on a visit: Mr. and Mrs. Joe Smiddy Jr. and daughter Elizabeth of Wise, Va., and Mr. and Mrs. Carl Webb of Memphis, Tenn. They were introduced to the assemblage.

**Jimmy Fuhrmann On Job at Irving**

Jimmy Fuhrmann, former employee of Muenster Telephone Corp., started on a new job Aug. 1 at Irving. He's with a telephone company there, too.

His farewell party came early, while out of town relatives were here. Mr. and Mrs. Val Fuhrmann, entertaining, had 26 family members for guests at a barbecue supper on the patio at their home.

Among those attending were Sister Henry Ann of Denison, Father Alois Fuhrmann of Clarksville, Ark., Sister Michael Marie of San Antonio and Mrs. George Hartman and son Paul of Elmburst, Ill.

Tommy and Margie Fuhrmann left last Thursday, accompanying Mrs. Hartman and Paul home. They're vacationing with the Hartmans and with the Jack Gormans at Rockford who are taking their sight-seeing in Chicago.

**Surprise Party Is Birthday Honor For Mrs. Griffin**

Mrs. A. F. Griffin was the surprise honoree at a party Tuesday night observing her birthday. Relatives, friends and neighbors got together and went to her home taking birthday gifts and refreshments of ice cream and birthday cake.

Present with the honoree and her husband were Mmes. Mack Smith, Olena Rosson, Lucy Wineblood, Essie Agee, John Thompson, C. W. Martin, Earl Hart and Misses Ruth Smith, Velma Griffin and Edith Hart, Messrs. and Mmes. Loyd Orrell, M. J. Kirk and Roy Atteberry and Mrs. Jimmie Britton and children, newcomers to the area, occupying the Atteberry house. They were introduced to the group. Coming from out of town were Mrs. Wylie Edwards and children Sharon, Lisa and Charles of Sunset.

Legally, the husband is head of the household and the pedestrian has the right-of-way. Both are safe as long as they don't try to exercise their rights.

**DAIRY HERD**

This is the herd owned by Mrs. C. M. Walterscheid 22 good producers, all TB and Bangs tested.

A motorist was once driving in the country when suddenly his car stopped. He got out of the car and was checking the spark plugs when an old horse trotted up the road. "Better check the gas line," the horse said, and trotted on. The motorist was so frightened that he ran to the nearest farm house and told the farmer what had happened. "Was it an old horse with a flopping ear?" asked the farmer. "Yes, yes," cried the frightened man. "Well, don't pay any attention to him," replied the farmer, "he doesn't know a darn thing about cars!"

### Family History Learned Through Friends on Tour

Members of the Gleissner kinship got a first hand history of relatives and the old homelace in Germany this week from two priest friends on a European tour. The travelers, Fathers Sylvester Fox and Tim Valenta, who have visited in Muenster from Bryan, sent a detailed letter to Mrs. Bill Sicking and she passed it on to her brother, Andy O'Connor. It will go to another sister, Mrs. Matt Stelzer in Post, from here. It tells about their grandparents' hometown and homelace.

The Padres visited the Gleissner home in Berkamstadt, and the church there which is several hundred years old. There were seven Gleissner children including the late Msgr. Gleissner of Bryan with whom the two tourists had served as assistants. They learned among other things that Grandpa Gleissner was a "painter artist" and his wife a "woman's hat maker." ### SOIL CONSERVATION DISTRICT NEWS

### OUR SOIL ★ OUR STRENGTH

August and September are the months for land owners cooperating with the Upper Elm-Red Soil Conservation District to plan waterways and others grass plantings that will be done next spring, say local soil technicians.

Experience has proven that there is no substitute for an early, well prepared seed bed for grass. Decision on location of waterways and grass planting should be made now, the land rough plowed, and left bare of other crops when fall sowing time arrives.

Ponds staked by SCS personnel have been built recently on the Jim Christian place and at Glenn Bewley's near Rosston.

Junior Hudspeth has completed construction of 19,000 feet of channel type terraces on the place he operates near Era. These terraces empty onto Bermuda grass waterways that were planted for outlets in 1962. They were marked off in the fall, a good seedbed was prepared through the winter months and sodding took place in February. One and a half growing seasons later they have a dense turf to prevent erosion from terrace water.

Over 2500 watershed dams have been built under all watershed programs administered by the Soil Conservation Service. The earth fill contained by these structures is 198 million cubic yards, equivalent to two-thirds of the volume of earth excavated for the Panama Canal.

### Personal Interest In Politics Urged At FB Institute

The importance of individual participation in politics received special emphasis in the 15th annual Texas Farm Bureau Institute held in Dallas July 30 to August 2.

The training school was organized around the general theme "Power in the People" and consisted of eight courses: Farm Bureau History and Philosophy, Young People's Program, Information Programs, Economic Services and Commodity Activities, Policies and Action, Selling Farm Bureau, Recognizing and Understanding Agricultural Problems, and Programming for Action. State FB staff personnel and three guest instructors conducted the classes.

Keynote of the institute was W. C. Wedemeyer, TFB director of research and education. Teaching the class on Understanding Agricultural Problems, he said, "If you kill American government you are out of the freedom business. Our constitution is based on belief in God and our government can go only as far as its constitution permits. Its function is to protect, not to provide." He also pointed out that freedom implies the right of running one's own business, to make a profit or go broke. We can't have freedom and security at the same time. "Supply and demand is God's law, and it will work. Market price is the valve that regulates the economy. If we don't allow the laws of nature to regulate us, government will do it". Wedemeyer concluded his talk by saying that the country's greatest need is to apply the teachings of the Bible in the home.

Two general sessions dealt with political action on local and state levels. Other events of the institute included vespers service, a safety program, informal sessions with TFB department heads, a recreation party and a banquet.

Five persons represented Cooke County at the institute. They are County Agent Neil Tibbetts, Turner Almon and Mr. and Mrs. Burney Almon of Gainesville, and Rita Fisher of Muenster. Total attendance was about 300 person from 70 counties.

How would you feel if everybody in town knew how much you put in the church collection last Sunday.
