30- SECOND EDITORIAL

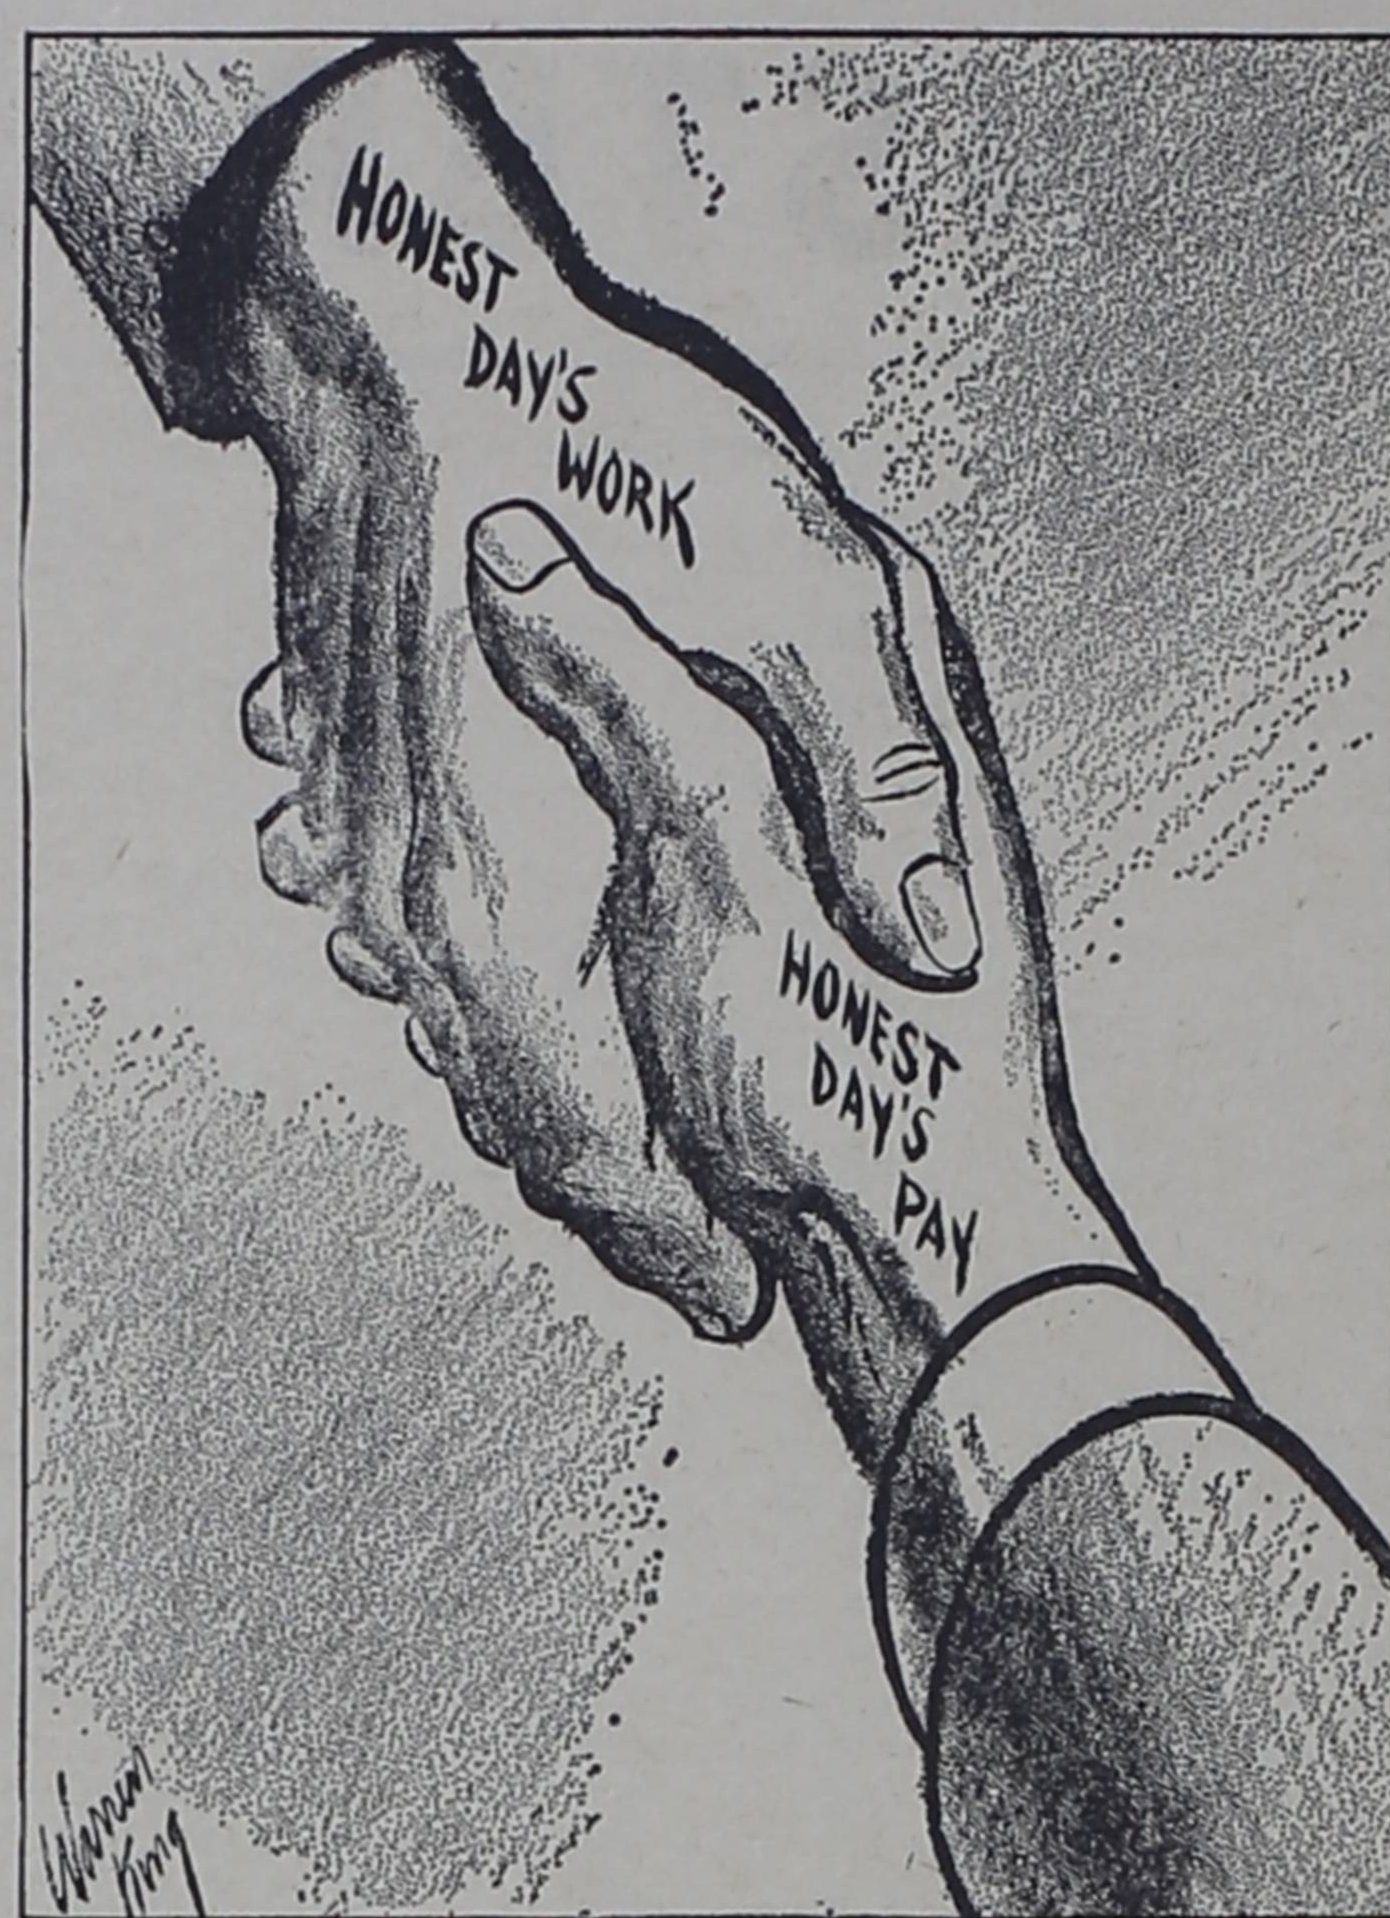

The Labor Day weekend begins — for many — at 5 o'clock Friday afternoon, August 31. May we count on seeing you again — when the weekend driving is over?

Herewith we offer a line or two on highway safety. We don't expect these few words to go down in history, but they do add up to the same thing: Time may be precious but life is priceless. We submit these suggestions:
Don't learn traffic laws by accident.
Always think for two — the other driver and you.
Train your mind to mind the train.
One accident can cost you your driver's license. Can you afford a chauffeur?

THANT AND CLOWNS
The Secretary General of the United Nations, Burma's U Thant, recently fired a few choice words toward Africa, from Helsinki, Finland. Displeased with the antics of Katanga, where the people are not so thrilled over the prospects of a takeover by the U. N., U Thant called Katanga's leaders a "bunch of clowns."
This included the present ruler of Katanga, Moise Tshombe. It was hardly diplomatic lingo for a Secretary General of the United Nations.
And it unfortunately shows the effect of pressure from the left, and from the Communist world, on the United Nations and the U. N. secretary General. Even if it is true that Katanga (which is pro-Western and

Conservative) is still a colony, in some ways, such a statement from the U. N. Secretary General is highly out of order.
We can imagine the howl if the Secretary General made such a remark about Chinese leaders in Red China or about any Communist dictator. But it is much easier to slander rightwingers in today's world than it is to put the light of truth on leftwing dictators.
But regardless of this, the fact that the U. N. Secretary General uses such language about the leaders of one of the new African nations is discouraging.
Why not a remark about dictatorship in Hungary, Bulgaria, Poland, East Germany? These nations, apparently, have too much powerful backing behind their dictatorships. And yet what is going on in these countries is far worse than what is happening in Katanga.

NOW NOT TO COMPETE

One of the problems facing this country is how to compete in world markets with nations whose wage and other costs are, for the most part, far lower than ours. The expanding European Common Market is one example of the tough competition we are up against.
Yet, in mid-August, the executive council of the AFL-CIO announced a drive to make the 35-hour week general throughout organized industry, with no reduction in take-home pay, and with double-time pay for all additional hours worked.

The reason given for this is unemployment. The labor leaders say that employers would take on more workers in order to avoid heavy overtime penalties.
But what they fail to discuss is the increase in costs that would certainly result, and that would find their way into the swelling prices of U. S. goods in world markets as well as the home market. Thus, our competitive ability would be further weakened. Then there would be reduced demand for our products — and more, not less unemployment. This would be a classic and tragic example of cutting off one's nose to spite one's face.

SOCIAL SECURITY
So we find some people singing the praises of Social Security in exaggerated phrases. Recently the St. Paul Pioneer Press said editorially that "business and the national economy benefit substantially from the steady spending of social security payments, which are expected to exceed 14 billion dollars in the current year."
If Social Security is paying its way and all that is collected is paid out to beneficiaries plus the bureaucrats who handle the funds in Washington, then what difference to the economy would it make? What is collected would go spent just as readily by those who pay as it is spent by those who receive. Thus we question the statement.

PAYING FOR OUR GLUTTONY
Recent polls reveal that three out of four Americans polled do not want to see a tax cut if it means not balancing the budget.
This is a good omen.
The only way Americans will get responsible legislation is to act like responsible citizens. If the politicians find that we are fed up with so-called something-for-nothing schemes we're on our way to better things.
The road may be a little harder to travel, but it will be far better than getting into the trough now and letting our children and grandchildren worry about trying to pay for our gluttony.

... AND NOW DUTCH NEW GUINEA

Declaring before the convention of the Veterans of Foreign Wars that "the global struggle for freedom and against Communist imperialism is our main business in the State Department", Secretary Dean Rusk categorically denied the charge that the Administration is following a "no win" policy.
"Of course we intend to win," Mr. Rusk told the veterans in Minneapolis.

In Washington, on the same day, the Secretary chatted with Soviet Ambassador Dobrynin for 23 minutes on "means of easing tensions" in West Berlin without, Republican critics noted, even suggesting that the Reds pull down The Wall.
The rumor persists in Washington that Rusk is about to go. Perhaps that is why he is becoming so bold in talking to American war veterans — if not to the enemy.

DEFENSE DEPARTMENT WASTE

Any taxpayer should feel cold shivers up and down his spine when he reads that the Air Force bought half a million uniform coats for more than \$9 million, when what it needed was about 10,000 coats worth about \$400,000.

According to Sen. John J. Williams (R.Del.) the explanation was that the service got a cheaper price per coat this way. Well, a family might get a price break by ordering a carload of frozen peas, too, but no sensible housewife would think of this as economy.

And, Sen. Williams reports, this is only part of a \$467 million surplus of clothing the services have on hand. And that's enough to buy every taxpayer a shirt.

We were talking to an officer of the law the other day and he said any time a new law is put in effect the majority gladly complies, but there are always a few from Missouri who have to be shown.

Guess it's going to be that way with our old bills. Those we have to turn over to an attorney for collection need blame no one but themselves, because everyone has had ample time to make arrangements to pay.

The people who pay regularly are glad we have adopted the cash system because they know they are paying only their feed bill and not part of someone else's who does not pay.

One of our pickups hit a customer's pickup the other day and the driver jumped out hollering "Why are you trying to run me down? I pay my bill every month, in fact, I just paid it." Our driver said, "Thank goodness for that! I'd be in real trouble if I hit someone who owes us an old feed bill."

Trip Takes Trio Over 5000 Miles On Vacation Tour

"All so much fun . . . hard to pick out the highlights," that's what Miss Theresa Sicking and her mother Mrs. Margaret Sicking of Gainesville and Miss Claudia Endres of Muenster say about their three-week vacation with stops in some 15 states and several places in Canada. The car speedometer registered 5,376 miles.

The itinerary of the trio included "mining for diamonds" in Arkansas, sight-seeing in Tennessee, Lincoln's Birthplace, Old Kentucky Home, St. Joseph's Cathedral, and Mammoth Cave in Kentucky; a stop with friends, the Etzler family, in Salem, Ind.

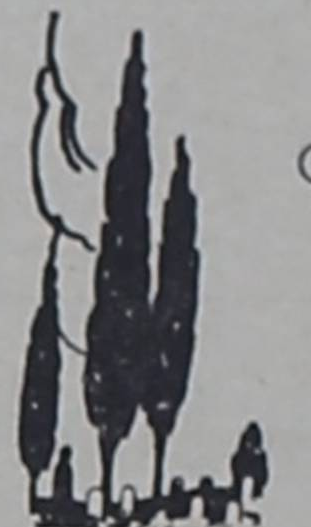

They took lots of pictures of scenic beauty and historic sights through West Virginia, the Allegheny Mountains, Virginia, Washington, D.C., and crossed the Potomac. Then driving through the Shennendoah and Appalachian Mountains — thrilling at Three Mile Hill — and resting at Monroeville, Ohio, visiting relatives of Mrs. Sicking, Mrs. Alfa Bores and family — she's the former Lena Fritz of Nebraska.

After that they followed the route from Lake Erie to Buffalo, N. Y., thrilled at the majesty of Niagara Falls and Horse Shoe Falls, and went to Toronto, Canada.

In Midland, Canada, they stopped over to see the Martyrs

Shrine with its outdoor Way of the Cross and Calvary atop a hill. At North Bay they visited the beautiful lakes. And at Santa Maria they took the ferry back to the U. S. into Michigan. After that they followed the Lake Superior Highway. In Wisconsin they saw the grain harvest beginning. It was almost cold with thermometers at 40 degrees. In Minnesota oats crops were still green.

In West Bend, Iowa, they spent considerable time at the Grotto of Redemption. Mrs. Sicking made the tour in her wheelchair. In Lincoln, Neb., they visited one of Mrs. Sicking's old school friends, Mrs. Annie Tagney. In St. Joseph, Mo., they visited cousins, Mrs. Mary Sherman and family, then headed for home with the last sight-seeing at Frontier City, Okla.
