

MUENSTER ENTERPRISE

VOLUME XIII

MUENSTER, COOKE COUNTY, TEXAS, SEPTEMBER 23, 1949

NUMBER 44

If some of the FFA boys around here appear to be chesty lately, don't be too impatient with them. Just bear in mind that they have a right to be proud of themselves. They did quite well in a regional contest last Saturday.

And while giving the boys credit for their nice showing let's also bear in mind that they can't win honors in a subject without having a pretty thorough knowledge of it. In other words the boys' achievement is pretty convincing proof that Muenster High's newly instituted course in vocational agriculture is a fine community asset.

Even more gratifying is the fact that some parents have noticed more tangible evidence of the merits of the course. A few days ago Con heard of one lad who has been eager to put his newly acquired ideas to work at home. He's suggesting ways to improve things. Better still, he's not just spouting off but asking his dad for permission to go ahead and do the things himself. A year or so ago he was waiting to be told ... and usually hoping his dad would not think of things for him to do.

All of which seems to indicate that some of our farm boys are on the right track. The technical knowledge and enthusiasm they're acquiring now along with the industry they normally acquire at home will go far toward assuring their future success on the farm. The community has reason to rejoice over the new agricultural course and the interest it has created among the kids.

For a long time yours truly has been sold on the merits of Muenster, and while willing to admit a slightly prejudiced opinion as far as the community is concerned, he still maintains that few if any towns of this size can equal it. Last Friday night presented another opportunity to appreciate what we have. Being one of a hundred or more who accompanied the football team on a trip, Con is ready to claim that Muenster is exceptional for community spirit and team support.

About one third of the people at the Boyd game were from here. Then there's the comparison of playing fields. Assuming Boyd's facilities are average for a small town, we have good reason to be pleased with ourselves. We have them bested in practically every way. Better lights, better turf, better seating.

Incidentally, the fans who made that trip got their money's worth. They saw a team of scrapping Hornets meet and beat a good team. They were convinced, if not before, that those red and white clad boys deserve lots of appreciation and support.

Before getting off that subject let's make a mental note that the support will be especially welcome Thursday night at Anna. According to advance dope on that game the Hornets will meet their toughest foes yet, and the psychological lift they get from seeing and hearing a crowd of local boosters may prove the inspiring spark they need when the going gets rough. Arrange to be there. You'll see a good game and the boys will feel better when they see you.

All over the world Texas is famous for its tall tales, especially the kind of tales that prove little more than the tall imagination of some Texans. But from a recent issue of the "Utility News" comes a true story that matches some of the very best yarns for incredibility. It concerns the red-headed woodpecker of East Texas.

Somewhere in the piney woods a power maintenance man noticed that woodpeckers had started a hole in a pole. He covered the hole with heavy half-inch wire mesh, the stuff that's often referred to as hail screen. Some time later he returned and found the screen with a six inch hole in it. The red-heads had taken it in their stride, and the Utility News had a picture to prove it.

Congressman Ed Gossett was in Muenster Tuesday afternoon for short visits with old friends,

Hornets Outshine Boyd Hi Gridders For 12-0 Victory

In a hard fought tussle with the Boyd Yellowjackets last Friday night Muenster's Hornets racked up their second consecutive victory of the 1949 season. The count was 12 to 0.

It was a game in which the offensive thrusts of the Hornet backs were well matched by the defensive stability of their forward wall. All the Muenster ball toters had neat gains to their credit whereas equally capable backs on the Boyd team were consistently smeared at or behind the scrimmage line. Likewise on offense the Hornet linemen aided substantially in the team's gains. Their work up front provided the openings the carriers were looking for.

The game got off to a one-sided start when the Yellowjackets fumbled on their third play and the Hornets took over on the 32. Yosten dashed to the 21 on the next play and the scoring march appeared to be under way. But short gains there were absorbed by a penalty and the Hornets lost on downs on the 20. Boyd got back as far as the 25 and also lost on downs when the would be punter, after a bad pass from center, failed to get off his kick.

A five yard penalty plus one play netted a first down on the 14 from where Yosten found a big hole and an open field for a touchdown play.

The second quarter, which started two plays after the kickoff was evenly played. Boyd got a first down and kicked when its offense bogged in midfield. Muenster started from its 28, got a first down on the 44 and also kicked from mid field. Boyd kicked after being set back from its 29 to 25 and Muenster started another short drive from the Boyd 44. A short gain plus Damian Hellman's plunge reached the 31, and a fumble behind the line gave Boyd the ball on its 39. Three plays were good for a first down on the 50 and 2 more short gains completed the half.

The second half opened with tough breaks for both sides. Returning the kickoff to the 40 the Yellowjackets promptly drew a 5 yard penalty for holding and nullified a beautiful 14 yard run made by fleet footed Billy Hall on the next play. On the kick that followed the Hornets got back to their 43 and fumbled on the next play. After holding for the series of downs the Hornets took the ball on their 37 and promptly marched, in 3 series of downs to the Boyd 19. The next series fell a foot short and Boyd took over on the 9 but failed to advance. Returning the kick to the 20 Muenster reached a first down on the 7 in 2 plays.

Boyd's desperate goal line stand at that point almost prevented the second score. The first play was good for 3, the next two stopped dead and Damian Hellman got across by inches on the final try.

The Jackets followed the kickoff with a short drive from their 10 to 25 but kicked when the next series of downs bogged. The Hornets followed their return to the 38 with a first down to the 27 and kicked after losing 5 on 2 downs. In a final futile comeback the Jackets moved from their 14 to 26 in 2 plays just before the final whistle.

With an advantage of 9 to 4 in first downs the Hornets were definitely ahead in gains, but other statistics of the game were about even. Each team lost the ball twice on downs while Muenster lost twice on fumbles and Boyd once. Muenster lost 20 yards on 4 penalties and Boyd 30 yards on 4 penalties. Muenster tried 2 passes for no completions, Boyd tried 3 for 1.

Hornet captains for the game were Damian Hellman and Bernard Luke.

The James Eckert family moved during the weekend to occupy Tony Felderhoff's farm house east of town. They had been at home in the H.M. Schmitz-house in the city.

Farmers Set For Tilling and Sowing After Rainy Spell

After three days of bright warm weather and with fair prospects of more of the same to continue for a while farmers of this community are on the verge of settling down to intensive tillage work. Fields are expected to be ready for implements late this week or early next week.

Developments so far are favorable for preparing an ideal seed bed for grain. Abundant rain has not only stored ample moisture in the ground but has also sprouted grass and weed seeds. A trip over the land with tillage tools now can eliminate the unwanted vegetation and provide clean land for the grain, which is due to be sown within the next few weeks.

The community's most recent rain was that of early Monday when .52 inch fell before 8 o'clock. Added to rains of the previous two weeks it brings the month's total moisture measure to 6.73.

Burglars Tap Till At Main Cafe for \$165 in Currency

No arrest has been made to date in connection with a burglary last Thursday night in which the Main Cafe lost \$165 in currency from its cash register. Ollie S. Owens, co-owner of the cafe, stated Wednesday that the case has been investigated by Texas Ranger Louis Rigler of Gainesville but the clues followed did not lead to an arrest.

The burglar, or burglars, broke into the rear of the building and apparently took nothing but currency. Coins and checks were left in the cash drawer, and the stock of merchandise seemed to be intact.

SCHEDULE OF HORNET GAMES IS COMPLETE

The 1949 Hornet football schedule is now complete, according to an announcement last week by Coach Doyle Hood. Of the ten game total two have been played and resulted in victories of 18-0 and 12-0 for the Hornets.

Remaining games are as follows: Sept. 22, Anna at Anna; Sept. 29, Electra "B", here; Oct. 7, Laner, here; Oct. 12, St. Xavier's, Denison; Oct. 21, St. Joseph's, here; Oct. 28, Pilot Point, here; Nov. 3, Open; Nov. 10, St. Mary's, Gainesville; Nov. 18, Gunter at Gunter.

Mr. and Mrs. Werner Yosten and children of Seymour spent the weekend here and at Lindsay with relatives.

Phone Company Reveals Plans to Improve Service

It won't be long until the people of this community will have a rural telephone system to be proud of. That's a promise made last week by Herman Younger, manager of the Muenster Telephone Company when describing the series of improvements now under way in the system.

Taking over the crippled system left by last winter's devastating ice storms Younger is working steadily on repairs and improvements that will not only restore service but make it better than ever before.

At this time line work is under way daily and a veteran service man of the Bell system of Fort Worth is here every weekend to assist in the more technical phases of installation, change or adjustment. The former maze of wires around town is being replaced by cables, some phones are being switched to other lines and the switchboard is being set up for greater convenience and more connections.

After physical improvements are complete the company will further improve its service by changing to the number system of placing phone calls. The method will save time at the switchboard and enable the operator to put calls through more quickly. A directory will be published as soon as line changes are complete and new numbers can be assigned.

Another change is that concerning the ownership of instruments. Heretofore the patron either owned his phone or rented it for 50 cents per month. In the future the company will furnish and service phones without charge. In time as privately owned phones now in use become unserviceable, they will be replaced by the company owned phones.

Monthly rates under the new system will become effective the next quarter, beginning October 1. They are as follows: party phone, on 4-party line or over, \$2.25; on 2-party line, \$2.50; private residence phone, \$3.00; business phone \$4.50; residence extension, 50c; business extension on the premises 75c. off the premises \$1.00. All phones are subject also to the usual charge for federal tax. Charge for phone installation will be the same as the charge for one month's service.

The only change in the new schedule of rates is that concerning party line phones. The increase is 25 cents, but if the person formerly rented an instrument at 50 cents the change is a 25 cent decrease. All other rates, are unchanged and persons who formerly rented phones will actually save 50 cents per month.

Clyde Wells is New Conservationist of Elm-Red District

Clyde H. Wells is the new district conservationist for the Upper Elm-Red Soil Conservation district, succeeding Frank Moore who resigned some time ago to engage in the feed business in Gainesville.

Mr. Wells comes to Cooke county from Granbury, where since 1943 he was conservationist at Granbury and Stephenville. He graduated from Tarleton State college in 1936, and from Texas A&M in 1938, with a double major in dairy husbandry and animal husbandry. He was a member of the senior dairy cattle judging team which won the national intercollegiate contest in 1937 at Columbus, Ohio.

After finishing at A&M, Wells was associated with the Black Hereford ranch at Granbury for three and one half years. After this he was in the agronomy department at Tarleton State college.

He has a wife and young daughter. They make their home in Gainesville.

Polio Strikes Son Of Leonard Endres

Dickie Endres, 11 year old son of Mr. and Mrs. Leonard Endres of Huron, S. D., and grandson of Mrs. M.J. Endres of this city, is confined to a Huron hospital suffering from polio. His entry in the hospital brought that city's polio patients to 29.

According to word Mrs. Endres received from her son this week, Dickie is responding favorably to treatment and the doctors believe he will be able to leave the hospital in about three weeks.

QUALIFY AS GRID OFFICIALS

Effective Tuesday night Emmet Fette, Ted Gremminger and Mike Luke became qualified officials for Class B football games. The qualification accompanies their acceptance as associate members in the Sherman chapter of the Southwest Football Officials Association.

Curly Bolen attended a Chevrolet partsmen's meeting in Dallas Tuesday at the Stoneleigh Hotel.

Local FFA Team Is District Champ In Judging Contest

The Muenster FFA boys took team and individual high point honors at a junior grass judging contest sponsored by the supervisors of the Upper Elm-Red Soil Conservation District in Gainesville last Saturday.

The team scored 1305 points out of a possible 1500 and Wilfred Klement scored 286 out of a possible 300. Other members with Klement on the five man team were Douglas Robison, Glenn Hellman, Emmett Walterscheid and Billy Whitt. Of those Robison, Hellman and Walterscheid were in 4th, 6th and eighth places in scoring honors.

Twenty-one FFA and 4-H teams consisting of 105 boys from the area covered by the Upper Elm-Red District participated in the contest. Sherman with a total score of 1296 was second high for team honors and Charles Kammerdiener of Gainesville with a score of 276 was second high for individual honors.

The contest consisted of identifying 50 grasses by name and classifying them according to plant species, food value, etc.

Muenster's team represented the newly organized FFA chapter of Muenster High School under the direction of Ralph Maglaughlin, vocational agriculture instructor. It had spent two weeks of intense study on the subject besides attending special lectures and a field trip conducted by Ed Helton, chief of the Muenster Soil Conservation work unit. They received their final coaching from Simon E. Wolff, regional agronomist of the Soil Conservation Service, who lectured all of the 21 teams at Gainesville High School Saturday morning.

Supervisors responsible for the contest are President J. W. Hess of Muenster, John B. Rice of Collinsville, V. W. Redman of Saint Jo, Willard Kempkin of Valley View and Ed Blackman of Bowie. They furnished awards for the three high scoring teams and individuals and dinner for the entire group.

Other features on the program were a movie on wildlife and discussions by W. T. Bonner, J. M. Dickey and J. M. Weinzapfel. The contestants were divided into groups, some attending the movie while others filled in their cards. Later the entire group heard the discussions while judges graded the score cards.

V. W. Redman of Saint Jo was chairman of the contest. He was assisted by Delbert Taylor, zone conservationist of Fort Worth and Clyde Wells, district conservationist of Gainesville.

SICKING AND BAYER ARE NEW MEMBERS ON SCHOOL BOARD

Bernard Sicking and J. L. Bayer were appointed Monday night as the two new members to succeed Jerome Pagel and M. Walterscheid on the Muenster school board. Pagel and Walterscheid had previously resigned in order to become eligible to bid on materials and contracts in connection with the new school building project.

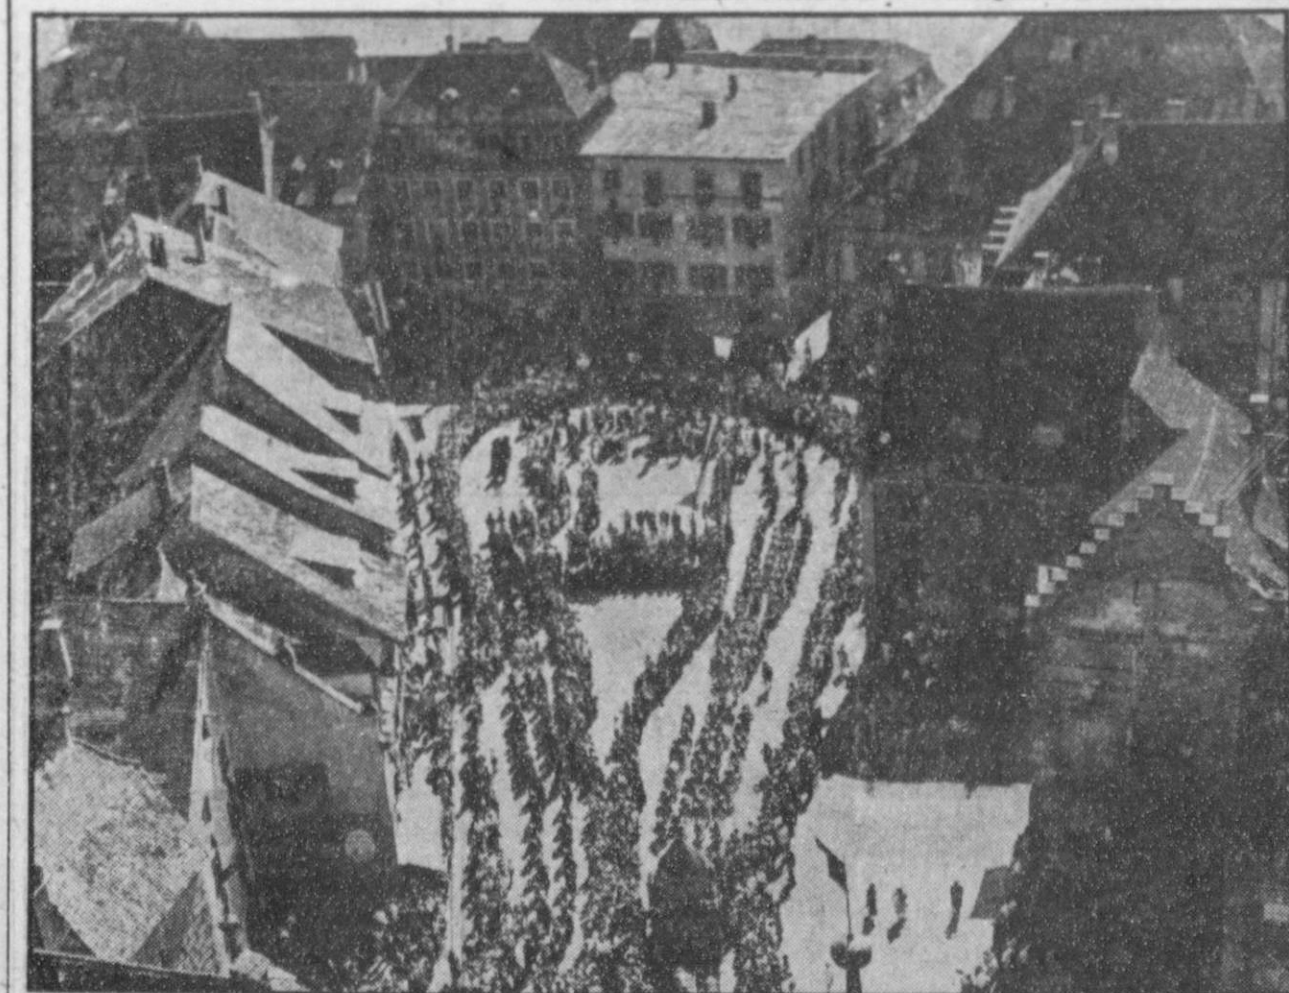

The new members were appointed by the remaining members of the board in a special session Monday night.

Joe Parker Elected to Gainesville City Council

Joseph P. Parker, former Muenster resident, was the winner Tuesday in a special election to fill a vacancy on the Gainesville City Council. As a write-in candidate who had announced for the office less than a week before, Parker won by a count of 109 to 50. He is an employee of the Stanolind Pipe Line Company in the Muenster field.

RAISING THE ROOF

They're raising the roof at the McDaniel Garage this week. In order to provide sufficient clearance for large oil field equipment the management is adding another 3 feet of height to the walls and elevating the roof accordingly.

COMMEMORATIVE DANCE—More than 1200 visitors from Austria, Switzerland and Southern Germany gathered in Uberlingen, Germany, on Lake Constance for the traditional Schwertle Dance—or dance with the little swords. The dance, held every 10 years, commemorates the city's heroic defense against Swedish troops back in 1634. Dancers, above, performed amid a big crowd on Muenster Place.

"THE OCEAN LINER OF THE FUTURE"—That's what retired speedboat king, Gar Wood, right, at the wheel, calls his uniquely-designed "Venturi," left, moored at Miami Beach, Fla. Wood says the twin-hulled, 188-foot craft has proven extremely stable and fast in tests, and claims that a 16,000-ton ocean liner of the same design would be able to carry 4000 passengers and knife through the waves at a speed of 38 knots. When the ship is traveling at high speed, air rushing through the tunnel formed by the two hulls helps buoy up the ship and adds to its stability.

Electric Cooperative Resumes Publication Of Monthly Newspaper

Effective this week the Cooke County Electric Cooperative resumes publication of its monthly newspaper "The Current". The present plan is to have the first issue in the mail on Saturday of this week or Monday of next week.

Like the previous publication, which was discontinued because of paper shortage during the war, it will consist of 4 or more 5-column pages. The only difference is that it will be printed on smooth finish book paper instead of regular newsprint. It will be distributed without charge to the 2675 consumers on the electric co-op system and will consist principally of news items of interest to people of the area. Other articles will feature information pertaining to the use of electricity, safety on the farm, etc.

LOCAL NEWS BRIEFS

Mrs. Ray Wilde was a Dallas visitor Tuesday.

Mmes. Victor Hartman and John Kathman, Misses Anselma Kathman and Dorothy Mae Walterscheid were Wichita Falls visitors Friday.

Little Frankie Hacker, son of Mr. and Mrs. Tony Hacker, observed his second birthday on Sept. 13 with a party. His mother entertained and served refreshments to 11 guests.

Mr. and Mrs. Robert H. Mayer of Pilot Point spent Sunday with her parents, the Tony Gremmings. The Mayers recently returned from a wedding trip to Colorado and other points of interest.

Father Anthony officiated at double baptismal services last Wednesday for the infant twins of Mr. and Mrs. Werner Cler. Mr. and Mrs. Ed Cler were sponsors for Glenn Edward and Mr. and Mrs. Alvin Cler of Valley View were sponsors for Brenda Mary.

Mr. and Mrs. Melton Ramsey had as guests for the weekend his brother, Roy Ramsey and wife of Dallas. Sunday the two couples were joined by the men's father, V.M. Ramsey, to spend the day in Nocona with relatives.

Guests of Mr. and Mrs. Herman Pierce for Sunday dinner were Messrs. and Mmes. Lester Spears and three daughters, Wm. Cannon and son, Ray West and two daughters and Mrs. Myrtle Cole and daughter, all of Gainesville.

Weekend guests at the Ray Evans home were Mrs. Paul Vandervort and daughter of Harlingen. Sunday the Evans family and their guests drove to Madill, Okla., where they left the Vandervorts to visit relatives. The Evans family visited Ray's mother while there.

Herbie Herr and Emil Rohmer, joined by Werner Koelzer of Hereford, have returned from an 11 day vacation trip to Colorado and New Mexico. In Colorado Springs they met Mr. and Mrs. Werner Henschel who were on their wedding trip.

40 New Pens Double Sale Barn Yard Space

A building program now under way at the Muenster Live-stock Auction will more than double the yard capacity of the business. The forty new pens being built east of the main building will be used for incoming stock and the older pens will be used for out-going stock.

The entire group will be covered by a large roof and watering facilities will be provided by a tank between each two pens.

Hornets to Meet Team of Huskies Thursday at Anna

There's no guessing as to what's in store when the Hornets meet their third opponents of the season this Thursday night at Anna. The competition will be plenty strong, the toughest test of the boys' season to date.

They have that dope on no less an authority than Coach Hood himself, who gave the opposition the once over last Thursday night in a practice game with the McKinney reserves. Anna, he said, consists of 9 good players and two exceptionally good players. The quarterback and a halfback are fast and powerful, speedy with the ball, good at passing, kicking and blocking besides. And they get plenty of help from a heavy forward wall.

Nevertheless Hood is far from willing to concede anything. After the showing his charges made in their first two games he is confident that they too can offer a bit of power. The line, composed mostly of rookies, has improved wonderfully since the beginning of the season and the veteran backs are making comparable though less conspicuous improvement. In his opinion the Hornets are ready for tough competition and, if they'll outshine the big boys in alertness and aggressiveness they can also outshine them on the scoreboard.

The game will be played at Anna Thursday night beginning at 8. Co-captains for the Hornets will be Emmett and Gerald Walterscheid.

Mrs. Ferd Yosten and children of Fort Worth came to Muenster last week Wednesday for a visit with relatives of the Schoech and Yosten families. Ferd was here for a weekend visit and his family accompanied him back home.

If your electric range oven needs a real cleaning, here's a tip: Take out the elements and racks, swab down the oven lining with a cloth or paper towel saturated with household ammonia, close the oven swab still in the oven, let stand overnight and clean as usual the next day.

Dorothy Cravens and W. L. Waggoner Wed In Saturday Service

Miss Dorothy Marie Cravens and Lloyd W. Waggoner were married in a ceremony performed Saturday evening in the home of Rev. C.M. Thomas in Gainesville. The bride is the daughter of Mr. and Mrs. W.L. Cravens, route 2, Muenster, and the groom is the son of Mr. and Mrs. J.O. Waggoner of Gainesville, until recently of Muenster. The couple was unattended during the single ring ceremony. For her wedding the bride wore a lilac pastel dress with white accessories and a white carnation corsage. Immediately after the ceremony the couple left on a wedding trip. They will make their home in Gainesville where he is employed with the oil mill.

Miss Mary Janelle Kline, daughter of Mr. and Mrs. D.C. Kline of Gainesville, formerly of Muenster, Monday entered NTSC in Denton for the fall term.

MRS J.C. TRACHTA HOSTESS FOR DIZZY DOZEN CLUB

Mrs. J.C. Trachta entertained members of the Dizzy Dozen Birthday Club in her home Tuesday night. Three members, Mmes. Maurice Pagel, Jerome Pagel and David Trachta, who have birthdays this month, were the honor guests.

The presentation of birthday gifts from the club to the honorees preceded a fried chicken dinner and informal diversion. The dining table held a large decorated cake inscribed with the honorees' names and places were laid for Mmes. Ray Swirczynski, David Trachta, Ray Evans, M.H. King, Steve Fette, Wimpy Kathman, Leonard Yosten, Joaline Richter, the honorees and the hostess.

Birthday gifts for the three honor guests were quilted silk robes for Mmes. Trachta and Jerome Pagel and a large mirror for Mrs. Maurice Pagel.

Wins In Nocona Show

Gary Hess took fourth place honors on his quarter horse stallion in the halter class at the Nocona Horse Show Sunday. His was the only entry from Muenster.

League-Garden Club Opens Fall Session With Book Review

The Civic League and Garden Club opened its fall session Saturday night with a meeting in the home of Mrs. J.M. Weinzapfel and a program that featured a book review by Miss Juanita Weinzapfel.

Miss Weinzapfel reviewed Katherine Butler Hathaway's autobiography entitled "The Little Locksmith" which tells in an entertaining manner the adjustments little Katherine must make to a normal world because of an illness that left her deformed. Miss Weinzapfel, who has given various book reports, says this is her favorite. Members presented her with a pot-ted ivy in appreciation.

Committee chairmen gave reports and Mrs. Joe Luke spoke briefly on a movie shown by Jack Lamb in Gainesville recently. The noted fisherman's films presented many beautiful scenes of flowers in British Columbia and other parts of Canada.

Mrs. Weinzapfel served refreshments of pie and coffee to members and two guests, Mrs. Leo Neyer and Miss Ruby Kelly.

Get Plenty Sleep To Avoid Becoming An Old Sourpuss

AUSTIN, TEXAS.— Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and habitual loss of sleep will tend to retard the body's recovery from fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged period will undermine the health of rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allow overtaxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A good night's rest means a sufficient number of hours spent in sleep to enable each person to feel well, do efficient work, and to keep in a cheerful humor the next day.

"Some outdoor exercise each day, a comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us to sleep soundly at night. Do not mull over your problems and ideas after you have gone to bed. Make your plans early in the evening for a good night's rest by slowing down from the physical and mental work of your daily life. When you arise each morning, rested and with a feeling of general well being, you will be amply repaid for your thought in planning a good night's sleep."

Local NEWS Briefs

Mr. and Mrs. John Wieler and Mrs. J. C. Trachta attended the Denton Fair opening Wednesday.

Shirley Jones, 12, had her tonsils removed Friday at Gainesville Sanitarium.

Mrs. Al Schad and Mrs. Milton Gossett of Gainesville spent Wednesday in Dallas attending a sales meeting of Beauty Counselors, Inc.

The Emmet Fettes and Henry Stelzer were Sunday dinner guests of Mr. and Mrs. Bonnie Jackson in Whitesboro. Mrs. Jackson is the former Bertha Faecke.

Mr. and Mrs. W.M. Trubebach and daughters moved to town Friday to occupy the former home of Mrs. Henry Walterscheid who recently moved into her new home. Andy Trubebach has taken over the management of his father's farm.

Mr. and Mrs. Herbert McDaniel visited in Glen Rose Sunday and on Tuesday went to Oklahoma City where he had a physical checkup. While there they visited the Barney Bergman family and Sister M. Beatrice, niece of Mrs. McDaniel.

Messrs. and Mmes. Frank Damasky and Pete Kasyan of McKeepsport, Pa., visited here last week as guests of the Joe Swirczynski family. Damasky is well known here from his frequent visits to Muenster while he was a soldier at Camp Howze during the war.

Miss Olivia Stock returned home Tuesday from a vacation visit in Kerrville where she was the guest of her uncle and aunt, Dr. and Mrs. E.W. Laake. Enroute home she stopped in Dallas to visit friends and attended a Chevrolet business management meeting in the Stoneleigh Hotel.

Doobin Didn't Go Far, And Wasn't Very Safe

This year, more Americans are traveling more miles over our roads and streets than ever before in history.

Some 43½ million motor vehicles will be used by year-end, and they'll have traveled about 425 billion miles during the year. This is about 33 times as much mileage as Americans ever got out of the horse and buggy. For in 1909, the peak year in horse travel, we had some 26 million horses and mules on our roads and streets, traveling about 13 billion miles annually.

It means Doobin averaged about 500 miles of travel yearly—where the average motor vehicle today goes nearly 9,800 miles annually.

And, contrary to what you might think, the automobile has a much better safety record than Doobin ever had.

For example, the National Safety Council reports 3,850 persons were killed in accidents involving horses and horse-drawn vehicles in 1909.

This means 30 fatalities for each 100 million horse-travel miles. In contrast, the nation's current motor vehicle fatality rate is seven deaths for each 100 million vehicle miles of travel.

The American Way

By George Peck

The following quotation is not taken from a newspaper, the editor of which is disgruntled with what is currently transpiring at Washington. It is part of editorial which appeared in the Hartford (Conn.) Courant of August 16, 1809—140 years ago:

"A wise government is the people's guard, and it takes effectual care that there should be none to molest or annoy, none to interrupt them in their lawful callings and pursuits. Thus guarded there is full scope and also suf-

cient encouragement for industry and enterprise. Each individual employs himself as he finds it most for his own advantage, and each, in advancing his own interest by honest industry, adds to the common stock.

"A nation resembles a swarm of bees. The bees must be well hived, protected from external and internal annoyance and injury, and left free as air to make their combs, construct their cells, and labor in hive or field according to their own liking. Thus protected and thus free, they seldom fail to treasure up honey.

"But who makes the honey? Not the guarder of the hive but the bees themselves. So civil government (by government is meant the administration of a government), however so wise and vigilant, is not the direct and efficient cause of a nation's wealth, which is, in fact, produced by the Great Swarm, the PEOPLE.

"On the other hand, should the keeper of the bees undertake to tangle in their concerns; interrupt their labors or divert their wanted courses of enterprise into new channels—should he foolishly do this, he would find little or no honey in the hive at the end of the year. And so again, whenever government is so imprudent as to obstruct or divert the enterprise and industry of the people by hampering them with unnecessary regulations, a decay of public prosperity follows as a natural consequence.

"Some men, however, seem to think that commercial industry and enterprise should come under the particular direction of government. But why? On the one hand, there are but few among the rulers and legislators of nations who possess extensive information in mercantile matters; whilst on the other, there are no people that know better how to manage their own concerns than experienced merchants. They best know how, when and where to put their property afloat; they can best calculate the risks and all the chances of loss and gain. It belongs to government to protect commerce, to guard it by a few general regulations and there leave it. The skill of the merchant will do the rest.

"All history testifies that trade flourishes most where it is most free, and that it soon leaves the

GROWTH OF POLIO CARE TEAM

1938

1949

Medical care for polio patients is costing the National Foundation for Infantile Paralysis more money than ever before—because better treatment is available today than formerly, as the accompanying chart reveals. Until 1938 when the National Foundation was formed, a physician and a nurse usually comprised the best available care. Today, modern polio treatment may include 13 specialized services, provided by an entire TEAM of professional workers. This expanded care has cost National Foundation Chapters millions in March of Dimes funds. More money is needed immediately to continue these services. Support the POLIO EPIDEMIC EMERGENCY DRIVE to help care for today's polio patients. Send your contribution now to POLIO, care of your local Post Office.

nation that shackles it."

The things that have taken place in Washington these past few years prove the wisdom of what this most discerning editor of the Hartford Courant wrote 140 years ago. During the past 16 years the Administrations have chosen to direct, even to obstruct business rather than to confining their activities solely to protecting it.

Surely the present pitiful plight of a once mighty and liberty-loving English people should warn us that we must permit no further encroachment by Washington into the affairs that properly belong to private ownership and control. For, verily, England's messy experiment with Socialism has brought her to the brink of bankruptcy and the English people to an unhappy condition of servitude.

The Hartford Courant editor of 1809, were he alive today and writing his editorial, undoubtedly would add two phrases to its closing sentence so that it would read: "(Let America beware because) all history (including that of England today) testifies that trade

An Ancient Prayer

Give me good digestion, Lord, and also something to digest; Give me a healthy body, Lord, and sense to keep it at its best. Give me a healthy mind, good Lord, to keep the good and pure in sight, Which seeing sin, is not appalled, but finds a way to set it right. Give me a mind that is not bound, that does not whimper, whine, or sigh. Don't let me worry overmuch about the fussy thing called I. Give me a sense of humor, Lord; give me the grace to see a joke, To get some happiness from life and pass it on to other folk.

"Know how big national debt is? No? Well, it's over \$250 billion, and remember this: Only a little more than one billion minutes have passed since the birth of Christ."

--Dale Carnegie

flourishes most where it is most free, and it soon leaves the nation that shackles it."

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... it is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act..."

Obviously the railroads cannot be run

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Engineers, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

Of course, it's electric

COOL
CLEAN
FAST
THRIFTY
too!

Cooking electrically means a lot of things. It means less work and worry in the kitchen... more leisure time or more time for other household duties... and in the hot summer months, it means cooler, cooler cooking. Yes, cooler because the modern electric ranges are insulated to keep the heat inside... not outside. Then, too, the high-speed cooking units cook directly into the vessel, not around or up the sides, and very little heat escapes. The accurate temperature control cuts on and off to maintain uniform heat... cooks a great portion of the time with the current off. You get cook book results every time... your food tastes better and is better for you. And, the electric range is cleaner by far... doesn't smoke your pots and pans, walls or curtains.

Plan today to enjoy the many benefits of dependable, low-cost electric service... go electric, all the way!

Enjoy better living—go electric all the way See the modern electric ranges at Electrical Dealers

TEXAS POWER & LIGHT COMPANY

BUY SHOES LATE IN THE DAY FOR BETTER FIT

SPOKANE, Wash. — Dr. H. H. Routh, Spokane chiropodist, is not being superstitious when he says it's a good idea to buy new shoes in the afternoon.

"A woman who buys a pair of shoes at 11 a. m.," will find them pinching by 4 p. m.," Dr. Routh says. "That's because the human foot swells during the course of a day's use."

The chiropodist added that buying shoes late in the day when your feet are slightly larger at least gives you a fighting chance to get the right fit.

Orchard keeping is a lot like housekeeping. Both require work but a clean orderly house or orchard is a source of pride to the family.

It Happened 10 Years Ago

September 22, 1939

Benefit ball game clears \$85 for cemetery fund; heavies defeat lights in ladies' game; fat men lose to the leans. — 339 pupils report for classes on opening day of both schools. — Civic League votes for affiliation with State Garden Clubs. — Andy Hofbauer has his tonsils removed. — The Harry Ottos announce the arrival of Harriette. — Al Bayer receives minor injuries in car accident.

Jesse Epps is casualty in action in France. — Clothes drive for war relief is being conducted here. Mildred Chapman is new county HD agent. — Infant daughter of Mr. and Mrs. Leonard Endres is buried here Thursday. — The Alfons Koeslers attended religious ceremonies in Subicao; their son, Frater Leo, made his solemn profession. — Geneva Gremminger left Monday to attend a beauty culture school in Dallas. — Leona Haverkamp, a telephone operator in Fort Worth, spent the weekend here with homefolks. — The C.A. Fishers observe their 9th wedding anniversary. — Pfc. Albert Rohmer writes that he is now in Belgium since leaving France.

Bats Were First to Use Echo Device

NEW YORK. — The annual Smithsonian Institution report includes an article by Dr. Brian Vesey-Fitzgerald, British naturalist, which says bats preceded man in the perfection of echo-sounding devices.

The bats, Vesey-Fitzgerald writes, first employed echoes to locate their prey and for flying in the dark.

The bats constantly emit squeaks with a vibration range between 25,000 and 75,000 a second, mostly above the limit of human hearing, he said.

They are extremely sensitive to echoes—so much so that they are able to judge the location of objects in their paths within a fraction of an inch on the darkest night or when they have been blinded.

If you were another person, would you like to be a friend of yours?

Meinrad Hesse And Paul Fisher Enter State Egg Contest

Eleven persons in Cooke county, including Paul Fisher and Meinrad Hesse of Muenster, have entered the statewide egg laying contest sponsored by the Texas Poultry Council. The contest opens Oct. 1. Others in the contest are Mrs. Tony Nehib, route 6; Mrs. Hugh Morgan, Ted Neu, Mrs. F.S. Platt and Mrs. Bessie Smith, route 1, all of Gainesville. S.P. Durham of Rosston; H. Moody of Era; Mrs. and Mrs. Henry Simmel, Pilot Point. J.L. Purcell, route 6, Gainesville, won first place in the last contest which ended August 1, and Mrs. Nehib won seventh place.

The new contest will extend for ten months. One of the major objectives of the contest is to raise egg production by good poultry breeding, feeding and management.

Last Thursday was the entry deadline, County Agent B.T. Haws said and no more entries will be accepted. Competition is limited to poultry producers who own and manage 100 or more hens of not more than two breeds or varieties. Each contestant must submit records each month. The county agent sends reports to the Extension service at Texas A&M where monthly state summaries are made.

Prizes range from \$100 for first place to \$10 for each of the eighth to fifteenth places.

When baskets or other objects have handles, carry them with the weight resting against the hip and bend in the opposite direction to balance. The weight is then transferred to the large bones and muscles of the legs, instead of your back.

An intelligent girl is one who knows less than the man to whom she happens to be talking at the moment.

Hot Dogs're Hot—But They're Weak

American housewives probably will approve of action taken by the Essex County Council, in England, in administering a sharp rebuke to a sausage-maker found making "dogs" that were only half meat.

But they may question the action when they learn that the rebuke was due to the fact that 50% meat is considered too rich for English sausages. The county council, basing its order on regulations of Socialist Ministry of Food, sternly ordered the sausage-maker to use more bread crumbs.

To: James H. Ayres, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Cooke County at the Court House thereof, in Gainesville, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 24th day of October A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court, on the 6th day of September A. D. 1949, in this cause numbered 15557 on the docket of said court and styled Geneva Ayres Plaintiff, vs. James H. Ayres, Defendant.

A brief statement of the nature of this suit is as follows, to wit:

A suit for divorce from the bonds of matrimony, for the reason of harsh and cruel treatment, on the part of defendant toward plaintiff, for change of the name of the plaintiff from Geneva Ayres to Geneva Martin, for cost of suit and for general and special relief, as is

more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Gainesville, Cooke County, Texas this the 6th day of September A. D. 1949.

School Scribblings

By Students of the Muenster Public School

The FFA chapter of the Vocational Agriculture boys was organized Monday, September 19. Officers elected were President - Glenn Hellman, Vice Pres. - Emmett Walterscheid, Secretary - Douglas Robison, Treasurer - Donald Muller, Reporter - Wilford Klement, Parliamentarian - Billy Whitt, Historian - Ted Owens, and Sentinel - Clyde Mueller.

A constitution committee is drawing up the constitution and another committee is drawing up the program of work.

A Student Council is being organized in the Muenster High School under the guidance of Weldon Cowan, High School Principal. The purpose of the council is to practice democratic procedures in order to promote good citizenship. The Student Council is made

up of officers elected from the class officers and two representatives from each class.

Officers of the council are Lue Edythe Cherry - president, Mitchell Wolf - vice president, and Glenn Hellman - secretary.

Class representatives are Bernard Luke and Harold Knabe from the senior class; Donald Muller and Lillian Vogel from the junior class; from the sophomore class, Margie Baumhardt and James Hammer; and from the freshman class Doris Reiter and Bert Hamric.

Although Muenster High School is not a member of the Texas Interscholastic League this year, rules of the League pertaining to scholarship are being met. No student is eligible to participate in school activities, social or athletic, who is not passing at least three of his courses. A student who is not capable of doing the required academic work should be discouraged from participating in extra-curricular activities until he can.

On September 7 the classes in Muenster High School met for the purpose of organizing. The following officers were elected in the senior class: President - Douglas Robison, Vice Pres. - Bernard Luke, Secretary-Treasurer - Lue Edythe Cherry, Reporter - Theodore Owens, and Entertainment Chairman Neil Fisher.

Junior class officers are: Pres. Mildred Hall, Vice Pres. - Lillian Vogel, Sec. - Treas. - Gilbert Walterscheid, Reporter - Johnny Fisher.

Officers of the Sophomore Class are President - Jeanette Walters, Vice Pres. - James Hammer, Sec. Roger Wolf, Treas. - Murlin Evans, and Reporter - Judy Long.

President of the Freshman Class is Jane Hellman; Pat Stelzer is vice president; secretary is Bonnie Nell Hammer; treasurer, Tootsie Jones; and reporter is John Aytes. All classes have representatives

on the student council.

The Junior class has dues of 25 cents monthly and this class is selling candy preparatory to the annual entertainment for the senior class.

Miss Ruby Kelly is Sophomore class sponsor; Mr. L.B. Bruns sponsors the Juniors; Mr. Frederick W. Huff, the Freshmen; and Mrs. Frances Mitchell is Senior Class Sponsor.

The Muenster High School Pep Club was organized on September 7. Miss Ruby Kelly is sponsor of the organization.

Margie Kathman was elected head cheer leader and she is aided by leaders from each of the classes in high school. Lue Edythe Cherry is the yell leader from the Senior Class; Alvina Derichsweller is from the Junior Class; Margie Baumhardt represents the Sophomores; and Janie Hellman, the Freshman. Membership is open to girls from the seventh through the twelfth grades.

Pep club uniforms have been ordered but they have not been received yet. The school colors are red and white and until the new uniforms are received the girls are wearing anything they have in the school colors.

Maneuvers for half-time activities are being worked out this week and the group will be ready to perform this week.

Muenster High School surely appreciates the following of the football fans to the Boyd game. A team will play in proportion to the support which it receives from the fans and the people who back it. Although the weather was inclement and people had to stand in the mud, the loyal supporters of the Hornets were on hand to extend that needed and welcome support.

Homemaking classes are enjoying a new department made possible to them this year for the first time. Each is looking forward to building better homes for herself and her family. This week the homemaking girls have been cleaning, straightening, and arranging the department into working units.

Previous to this week, the girls have been studying fashion changes and good grooming. These are both important for better looks.

Muenster Future Homemakers of America Chapter is being organized in the High School. All girls are eligible who are taking homemaking or have had at least one year of homemaking.

A temporary chairman, Lue Edythe Cherry and secretary, Mildred Hall were elected to serve until the nominating committee sets up officers for this year to be voted upon at the next meeting. This nominating committee is composed of Anna Grace Fette, Rita Joyce Cain, and Janie Reeves. A constitution committee made up of Margie Kathman, Judy Long, and Pauline Myrick was appointed.

The 4-H Range Management team from Cooke County composed of Douglas Robison and Billy Whitt has been awarded a train tour of Texas. This was given to these boys because they won first place in the State contest. Douglas and Billy will make the trip in November on a special train carrying the winners of other contests and their sponsors.

Mr. and Mrs. Joe Linn are on a vacation trip to California and other west coast states.

Blessed Events

Mr. and Mrs. Eugene Klement announce the birth of an 8 pound boy, their second son, Monday morning at Gainesville Sanitarium. His name is Andrew Bernard and he's the grandson of Mr. and Mrs. Frank Klement, Muenster, and Mrs. Ida Raleigh of Minnesota.

Mr. and Mrs. Loyal Burchfiel of Saint Jo, formerly of Muenster, announce the birth of an eight pound daughter Saturday at Gainesville Sanitarium.

CARD OF THANKS

The family of Gussie Reiter extends sincerest thanks and appreciation for all the kindness during his illness and at his death and for the flowers and spiritual tributes.

Miss Marilyn Gremminger who attends business college in Wichita Falls spent the weekend with her parents, the Ted Gremmingers.

Upper Elm-Red Soil Conservation District News

DISTRICT SUPERVISORS

J. W. Hess, Muenster V. W. Redman, Saint Jo
 John Rice, Collinsville Ed Blackmon, Bowie
 Willard Kemplin, Valley View

Alfred Sicking has harvested between 600 and 700 pounds of alfalfa seed on his farm north of Myra. He plans to use part of the seed to plant an additional acreage of alfalfa. A bermuda grass sodding machine was used by Alfred, Lawrence, Ray and Emmett Sicking to sod five waterways this spring. A good stand of grass was obtained on 4 of these waterways. The other one came up but suffered from competition of other vegetation and from grasshoppers. In order to insure a good growth of grass next year the Sicking brothers plan to seed

these waterways to hairy vetch in the fall. The vetch is for soil improvement.

Ben Fleitman is preparing to seed austrian winter peas on land that he will put in row crop next year.

In the Hardy and Clear Creek conservation groups, G.D. Wylie has 20 acres of volunteer vetch that is coming up to a stand and J.P. Embry has 60 acres of volunteer vetch coming up. J.C. Donnell is planting about 40 acres of vetch for soil improvement and grazing. W.D. Dunn has planted 10 acres of vetch for soil improvement and winter cover. He will plant an additional acreage of peanut land to vetch.

Ike Townsley seeded 25 acres to bermuda grass and has a fair stand. He is overseeding this area to hairy vetch. The vetch will provide winter cover, erosion protection and some grazing. It will also promote growth on the bermuda grass.

Recent visits to plots that were seeded to native tall grasses last spring show that stands of grass have been obtained. Personnel of the work unit looked in vain all summer for grass seedlings. Since the recent rains the grass is showing up. Some of the grass might have sprouted this fall but some of it was there all summer. Personnel of the work unit looked at the fields seeded by Bird Moss at Leo, George Berry at Rosston and Alphonse Luke, Don and Reeve Cooke and Paul Fetsch in Muenster.

Fisher President Of New Artificial Breeders' Group

County dairymen organized the Cooke County Artificial Breeders' Association Tuesday night and elected Paul Fisher as president of the new organization. Other officers are C. A. McFarlin of Valley View, vice president, and Tony Nehib of Gainesville, secretary-treasurer.

Three directors named are Joe Walker, Bill Myer and Alfred Bayer. Three more directors will be named later, probably at the next meeting. It will be held in Muenster on Oct. 4 in the high school vocational agriculture room, County Agent B. T. Haws said. Tuesday's meeting was held in the Chamber of Commerce building in Gainesville.

The organization's purpose is to improve the breed of dairy cattle generally in the county by breeding to proved sires.

A recruiting committee was appointed at the Tuesday meeting to urge non-member dairymen to join the association and enter cows in the program.

Directors will draft a constitution and bylaws and present them to members for approval at the Oct. 4 meeting.

Fluorescent lamps are particularly adaptable to use in valances, cornices, built-in bookcases, cabinets and other places where ordinary incandescent lamps would not fit as easily.

MEMORIAL FROM A MOTHER—A million stitches, each one by hand, have been used by Mrs. Nathan Jaques of Norwalk, Calif., in assembling this quilt made up of 75,385 individual squares of material. Informed that her son had been killed in the sinking of the aircraft carrier Lexington, Mrs. Jaques doubled her efforts to finish the project, hoping that its completion would give her the means to sail to the spot where the Lexington sank. She wants to cast a floral wreath on the water in memory of her son.

WANT TO KEEP COOL? YOUR CHOICE OF FOOD MAY BEAT THE HEAT

You can too do something about the weather besides talk about it—in spite of Mark Twain.

Health authorities say it's not how much you eat but what you eat in order to beat the heat. It's a matter of calories.

Calories are something you've got to have enough of, but too many make you overweight, unhealthy—and hot. Mind you, that definition didn't come from a medical dictionary.

But carbohydrates (a fancy word for starches and sugar) and fats generate heat as well as energy. And carbohydrates have a lot of calories.

So just watch your calories, being careful to have enough energy but not too much heat.

This can be done best, health authorities point out, by eating lots of leafy vegetables and salads. Steaks and other lean meat are okay also.

Foods to avoid are pork, potatoes, pies, sweets and greasy food. Tea is all right, provided you use little or no sugar. Soft drinks, which usually have a high sugar content, are best left in the bottle.

If you must eat bread, don't use butter. Watch out for too much dressing in salads.

This sort of thing can be overdone, though, health authorities warn. If you're weak and underweight, then go ahead and stay hot by eating these foods rich in calories.

Nurserymen find it possible now to control the blooming time of their flowers by the application of electric heat.

There are two methods of heating a plant bed electrically—through soil-heating cable placed under the bed itself or by use of ordinary 25-watt inside-frosted lamp bulbs suspended over the plant bed.

Lindsay News

Mrs. John Block is back at home feeling improved after medical treatment at M&S hospital.

Henrietta Fuhrmann, 13, had her tonsils removed last Thursday at M&S hospital and is recovering normally.

Mr. and Mrs. Werner Yosten and children of Seymour visited here during the weekend with her parents, the John Bengforts and family.

Mr. and Mrs. Joe Spaeth and son spent last week on a vacation trip to Galveston and Lake Charles, La.

Mr. and Mrs. Henry Stoffels Jr. are the parents of a son born Friday at Gainesville Sanitarium. The seven pound boy is the grandson of Messrs. and Mmes. H.P. Stoffels and Joe Fuhrmann.

Mr. and Mrs. Charles Green and children, Mrs. Fred Schmidkofer and Herman Neu, all of Los Angeles, Calif., are here for a visit with relatives of the John P. Neu Sr. family. They will also visit the Conrad Flashes in Decatur and Sister Mary Olive in Texarkana before they return home. They are on a two-week vacation.

Mobil Tires FOR TIRE SAFETY AND TIRE SERVICE

The partnership between Mobil Tires and the fellows who sell 'em is no happy accident. In servicing your car we get to know a lot about tires... nurse 'em along for every extra mile. Frequent inspection and correct inflation can prolong tire life as much as 20 per cent. And we're mighty proud of the Mobil Tires we sell. Guaranteed by the makers of Mobilgas and Mobiloil, they're designed for added safety... laboratory and road tested... built to give you long, safe, economical mileage.

LEFT OVER FROM THE BLITZ—Workmen in Berlin use an acetylene torch to carve up a two-and-a-half-ton blockbuster for scrap. Originally destined for England via the Luftwaffe, the bombs are among hundreds of tons of scrap iron and steel being shipped daily to England by a more peaceful water route.

WORRYING THE OPPOSITION—Big Bob Campbell of Caldwell, N. J., a senior at Miami University, certainly looks like he can pull down forward passes and run them right into touchdown territory. That's the job the Miami Hurricanes expect him to do as well this fall as he has been doing on the practice field.

Mrs. Lena Arend had as her guest for the weekend her sister-in-law, Mrs. Barbara Purcell of Durant Okla., and two drove to Wichita Falls Sunday to spend the day with their daughter and niece, Mrs. Eddie Rauschuber and family.

Mrs. Lena Arend and family were happy to receive first hand word from their son and brother, Richard Arend, last week when Kenneth Edwards of Gainesville paid them a visit. He had just returned from Saudi Arabia, where Richard is employed with the same company. He reported that Richard is well and keeping busy and that he sent regards to all his friends. He has now completed one year of a two-year assignment in Saudi.

Mr. and Mrs. Oscar Zwinggi of Tulsa, Okla., were here Thursday and Friday to attend the funeral of his uncle and aunt, Mr. and Mrs. John P. Mosser, and to visit his father, Leo Zwinggi, and other relatives.

Norbert Mages, pitching for his Chanute Field company team, recently pitched a no hit, no run game against his opponents in a softball tournament. With the softball season over, he's gone out for football, according to a letter to his father, Joe Mages.

The S.P. Ottos and Rev. Anthony Daily, all of Wichita Falls, stopped here Sunday to visit the Weinzapfel family enroute to Valley View to attend St. John's benefit picnic.

Dorothy Dieter and Alfred Bierschenk Marry September 15

Miss Dorothy Dieter, daughter of Mr. and Mrs. Val Dieter of Lindsay, became the bride of Alfred Bierschenk of Fort Worth, son of Mr. and Mrs. Joe Bierschenk of Weatherford, in nuptial services at St. Peter's church in Lindsay at 8:30 a.m. Thursday, Sept. 15.

Rev. Conrad Herda, pastor, officiated at the nuptial mass and at the double ring ceremony.

Acolytes were Rudy Dieter, Walter Hermes, Arnold Bezner, Gilbert and Alcin Paul Kubis.

The bride wore a wedding dress of white satin with a lace yoke. Her veil of illusion edged with lace fell from a tiara of orange blossoms, and she carried a colonial bouquet of white roses.

Miss Anna Mae Deiter, sister of the bride, was maid of honor wearing a lime green satin dress and a chartreuse headdress of satin and maline giving a halo effect. She carried a colonial bouquet of red roses.

Victor Bierschenk attended his brother as best man and Weldon Bezner and Raymond Sandmann of Lindsay were ushers.

For her daughter's wedding Mrs. Dieter wore a dress in wine tones and black accessories. The groom's mother wore a blue printed floral dress and black accessories. Both wore corsages of yellow roses.

White glads and yellow mums decorated the altar and the sanctuary. The church choir sang the mass and Mrs. William Schmitz, aunt of the bride, was organist.

After the services the bride's parents were host for an informal reception in their home and at 1 p.m. about 60 relatives and friends were guests for dinner.

After their wedding trip the couple will be at home in Ft. Worth where he is employed. For traveling the bride wore a navy blue suit with red accessories.

The bride is a graduate of Lindsay high school and attended business college in Fort Worth. The groom attended school in Lindsay and in Weatherford and served in the army for 18 months.

Out of town guests at the wedding included Mr. and Mrs. Joe Bierschenk and children Lawrence and Louise of Weatherford; Mrs. G.W. Gremminger of Fort Worth; Mr. and Mrs. J.W. Wright of Weatherford; Mr. and Mrs. Bill Bierschenk of Valley View; Mr. and Mrs. Francis Dieter of Longview; V.J. Dieter of Borger; Rev. A. Schmitt of St. Mary's church in Fort Worth.

PHILADELPHIA—Four-Year-Old Richard Roddy gets a free ride. On the alert as the Galapagos tortoises were moved from their indoor quarters to the outdoor pen, Richard inveigled a turtle-back trip. Mixed emotion displayed on his face, however, shows as much fear as enjoyment.

FUHRMANN COUSINS MAKE PROFESSION SEPTEMBER 15

Bernard Fuhrmann, son of Mr. and Mrs. J.J. Fuhrmann, and Linus Fuhrmann, son of Mr. and Mrs. Willie Fuhrmann, made simple vows as fraters at Subiaco Monastery on Sept. 15, and are now Frater Bruno and Frater Nickolos.

Parents of the young men attended the religious ceremonies, and Aloys Fuhrmann and Gerald Wachman of Wichita Falls, were also present.

The Lindsay group visited with Brother Henry and Brother Novice Paul and other relatives and friends before returning home.
