

This week is National Farm Safety Week, the week in which, according to a proclamation by President Truman, all persons interested in farm life and welfare are requested to join in a continuing drive against practices which endanger farm people in their homes, in the fields and on the highway. To that end the president urges each member of every family to study the hazards associated with rural life with a view to performing all tasks in the safest manner possible.

To a great number of people the special designation for this week has little significance. Farm accidents are like highway accidents. They don't really impress us until they happen to someone near and dear. And that's just where the trouble lies. The man who coasts along in his easy going way never paying heed to the grim statistics on unknown people may be guilty of the very neglect or carelessness which makes statistics.

National Farm Safety Week is a proper time to give that subject some serious consideration. It's a time to think of tragedies that can happen and do something to prevent them.

For instance there's the problem of fire hazards. Is trash burned near the house? Is dry grass or weeds permitted to surround the house? Are oily rags or any other possible cause of spontaneous combustion permitted to accumulate? Are flues kept in good repair? Are electric wires safe?

And there's the danger of personal injury from a number of causes. Are stairways kept clear of items that might cause a fall? How about broken rungs in ladders or rotted planks in lofts? How about a careless scattering of dangerous tools like pitchforks, hoes and axes? How about junk in a yard? How about overhead articles ... are they in danger of falling?

Are vicious animals securely fenced? Are tractors and pickups safe to drive? Are other machines kept in safe condition? Above all, does the person himself have a careful or careless way of handling his machines or livestock?

These are only a few of the hundreds of questions a farmer can ask himself this week. Perhaps we could have listed a few more, but what's the use! The man who's really serious about this safety business doesn't need more than a few hints anyway. From there on he can supply plenty of additional questions about his own farm and his own habits. Furthermore he doesn't need any special encouragement to do something about every fault he discovers.

Before leaving the subject let's get one thing clearly in mind. Safety experts claim that very few accidents, on farms and elsewhere, are really accidents in the sense that they are unavoidable. Almost invariably, neglect and carelessness are to blame. Moral: If you're neglectful or careless you're more likely to be a victim.

Sometimes it's hard to visualize the amount of money being spent by our government. 40 to 45 billion doesn't impress us an awful lot because it happens to be just a figure, while comparisons which amount to the same thing present a picture which seems almost unbelievable.

A few nights ago a radio commentator ... sorry, can't recall his name ... presented a whole group of such comparisons to show how much of a beating the old public purse is taking nowadays.

Lincoln, he said, was the heaviest spending president up to his time and for a long time afterward, but his total appropriations to run the government and finance the civil war for a year does not equal the appropriation for a certain department in this year's government.

Or take George Washington. At his average spending rate he could have run the government four thousand years on Truman's 1949 budget.

Another surprise. Not so many (Continued on Page 8)

LAWRENCE B. BRUNS, manual training instructor at Muenster High School for the coming scholastic year, was born and reared in Gainesville. Completing his junior college work in 1941 he entered the army, then returned to college in 1947 at North Texas State Teachers' College and graduated in 1949.

DOYLE J. HOOD, a native of Westminster, Collin County, will be the athletic coach and physical education instructor at Muenster High School for the 1949-50 term. After serving in the armed forces during the war he returned to college, graduating from East Texas State Teachers' College in 1946. He was head coach at Petersburg High School last year. Besides coaching Hood will teach mathematics.

MRS. DOYLE J. HOOD will teach in the elementary grades of the Muenster public school this year. She is a native of Leonard, Fannin county, and a graduate of East Texas State Teachers' College. Last year she taught at the Petersburg public school and during the two previous years she taught at Daingerfield.

RALPH MAGLAUGHLIN will have a three fold job this year as vocational agriculture instructor at Muenster High School, director of local FFA activities and technical adviser for local farmers. He has a full year job, his work in the latter two activities going on after the close of the school term. Maglaughlin will receive his MA degree under the Smith-Hughes provision at Sam Houston State Teachers' College on August 27. He spent 1 year at Austin College, beginning in 1941, 4 years in the armed forces and 3 years at Sam Houston STC, receiving his BA degree last January.

## Injuries Received In Crash are Fatal To Paul Himmels

Paul H. Himmels, 54-year-old Windthorst resident and a native of Muenster, died in a Wichita Falls hospital on Wednesday, July 20, as the result of injuries sustained in an automobile accident the preceding night.

Funeral services were held in Windthorst Friday at 9 a.m. in St. Mary's church with Rev. Patrick O'Niell officiating at the requiem high mass and at burial in the Windthorst cemetery.

Born June 26, 1885, in Muenster, the deceased was a son of Mr. and Mrs. Frank Himmels. He left this community when he was 11 years old moving with his parents to Archer county and had resided there since. He conducted farming and ranching operations at several locations in the Windthorst area and also served as a rural mail carrier. He was a member of the Windthorst Knights of Columbus council and had recently been named district deputy of that district.

Himmels received his fatal injuries when his automobile overturned on a highway curve a short distance north of Windthorst.

He is survived by his wife, 10 children, his parents, three sisters and 11 grandchildren. Muenster friends attending the funeral were Mr. and Mrs. Tony Gremminger, J. M. Weinzapfel, Mrs. Callie Baumhardt, Mr. and Mrs. Louis Steinberger, Mrs. George Mollenkopf and children.

## State Stops Test To Renew Lapsed Driver Licenses

State police have made it easier to renew your lapsed auto driver's license.

Public Safety Director Homer Garrison has announced a new temporary plan under which renewals will not require new examinations. A shortage of personnel in the license division was given as the reason.

Garrison outlined these steps in the new procedure:

If you have a license that was issued since Jan. 1, 1944 you may get a renewal by mail from the Department of Public Safety, without examination.

If you have a license that was issued before Jan. 1, 1944, you may renew by presenting the old license to a drivers license examiner in your locality and executing an original application. License in this case will also be issued without examination.

Formerly applicants who wished to renew licenses that had expired were required to stand re-examination. Now, under the temporary set-up they may reinstate their permit to drive without taking the test, regardless of how long it has expired, provided it is not now suspended or revoked.

## Notes On Soil Conservation

With the grain harvest almost completed, cooperators of the Upper Elm-Red Soil Conservation district are beginning to work on the terracing phase of their soil conservation farm plans.

Tony Walterscheid and sons have just completed construction of 2.4 miles of terraces using a whirlwind terracer. The terraces outlet into a waterway that was sodded last year. Emmett and Gene alternated running the tractor and constructed about one-half mile per day. The terraces are 30 feet wide at the base and average 1.2 feet in height above the original ground line. These terraces should handle the rains and farm equipment can cross them.

Martin Trubenbach and Tony Trubenbach Jr. are starting terrace construction on their farms near Hood. They operate separate farm units but the terrace systems and waterways are planned to cross farm boundaries so that the water may be handled more efficiently. The Muenster work unit staked off nearly 9 miles of terrace lines on the two farms.

Gary Hess has been working on his waterway two years and has a good Bermuda grass sod now. Gary is ready to start terrace construction and part of his terrace lines have been staked off.

Roy Davis of Gainesville is building three miles of terraces on his farm at Leo.

Don Cooke has just harvested a mixture of huban clover and wheat. He cleaned out all of the wheat he could with the combine and figures his clover yielded 200 pounds of clean seed per acre.

Walter Klement has harvested 1000 pounds of madrid clover seed.

Others who have harvested sweet clover seed are Paul Fisher, Felix Becker and John Rohmer. J. P. Embry of Saint Jo has combined part of his vetch. His yield was 6000 pounds of seed on 18 acres. This makes the crop profitable in more than one way. W. E. Scott of Saint Jo is also harvesting vetch seed.

## Scouts Beat Girls 18-16 in First of Three Game Series

The boy scout softball team beat the girls' team in a hit and run game on the local diamond last Thursday night. The final score was 18-16.

David Endres and William Walterscheid pitched for the scouts and Virginia and Dorothy Walterscheid for the girls.

The game was the first in a series of three matches. No definite date for the remaining games has been announced.

Mrs. David Trachta underwent major surgery this Thursday morning at Gainesville Sanitarium.

## Probable Route of Highway 76 Passes Through Muenster

Prospects are excellent that Muenster will be on or near the proposed new highway between Fort Worth and Oklahoma City. That news was brought home Sunday by a delegation of local men from a special road meeting held in Ardmore, Okla.

The principal part of the meeting was the formation of the Highway 76 Association for the purpose of promoting a paved road from Oklahoma City south through Healdton and Wilson to a point near Leon. As yet only Oklahoma men are in the association, however Texas men, especially those from Muenster, Saint Jo and Fort Worth are interested in the project and desirous of promoting the south portion of it.

The attractive feature, as far as Muenster citizens are concerned, is that the proposed Oklahoma road is headed directly for Bulcher and if it crosses the river at that point will provide an outlet for a large and fertile farm area just north of the river. Adapted to dairying and stockraising, it is regarded as an ideal trade territory for Muenster.

Both Muenster and Saint Jo are interested in trade possibilities. Likewise both are interested in a direct route to Oklahoma City and Fort Worth however both are off the direct line between the two terminals and the state highway department will make the final decision on the routing of the road.

Nocona citizens who sought to have the road pass through their city received little favorable consideration. Besides being far west of the direct line that route would place the river crossing too near the Ringgold bridge.

State Senator Joe Thompson of Ardmore is the principal driving force behind the Oklahoma movement. He called the meeting Sunday and also informed the group that he has arranged for a hearing with the Oklahoma highway commission to secure an appropriation for some of the proposed road. Earl Robison and J. M. Weinzapfel will be among Texas delegates attending that hearing.

Representing Muenster at Ardmore Sunday were Earl Robison, J. M. Weinzapfel, J. A. Fisher, Herbert Meurer, J. J. Hoffman, J. B. Wilde, J. W. Fisher, Ben Seyler, Ed McKinney and Rudy Heilman.

## K-C'S NOTICE

Every member of the Muenster K of C Council is urgently requested to attend the regular meeting of the order next Wednesday night. Announcing the meeting this week Grand Knight L. H. Baumhardt stated that several important matters, which merit the serious consideration of every member, are to be decided.

## School Authorities Launch Intensive Enrollment Drive

Determined that it is going to survive in its present sink or swim struggle, Muenster High School this week started an intensive drive to acquire at least the minimum enrollment it will need to qualify as a first class affiliated high school. Other requirements, specifically those applying to teacher qualifications, salary scale and maximum attendance per classroom have already been met by the district school board.

Every member on the board or faculty of the institution is impressed by the seriousness of the situation. Conscious of objectives proposed by the Gilmer-Aikin commission, to provide a first class school for every child in the state, the local authorities are making an all out effort to have their school included on the approved list rather than have the district reduced to a subordinate status and its children transferred to another school. And since they do not know how soon the day of reckoning will arrive they are striving to meet all requirements the first year.

The task will be a big one, especially since the plan to absorb the parochial school's enrollment and affiliation failed to materialize. In addition to meeting requirements of facilities and personnel, which has been accomplished, the high school must maintain an average daily attendance of 60 and establish a high rating in classroom procedure and achievement.

Accordingly, attendance is the big objective at this time. It is the one essential ingredient upon which the entire program now depends.

Seeking to reach the minimum, and if possible acquire a comfortable margin of safety, members of the board and faculty and a few local boosters are making personal contacts with all known prospects of the district, especially those who have quit school or previously transferred to another school.

The campaign is getting results, principally because of the standardized courses in vocational agriculture and manual training being introduced this year, but whether it will get sufficient results still remains to be seen.

## News Of Sick And Injured

John Hartman, who became ill last week Tuesday, entered Gainesville Sanitarium Friday for observation and treatment. He is responding favorably to treatment this week.

Mrs. August Friske entered Gainesville Sanitarium Tuesday afternoon for treatment of a leg ailment.

George Lutkenhaus suffered a compound fracture to his right arm but fortunately escaped other injury late Tuesday of last week when he fell from his tractor while plowing. He was in the path of the plow but managed to roll clear with the exception of his arm.

Alvin Taylor, who is employed with Steve Fette Trucking company, broke his left arm last Wednesday and had it placed in a cast at the local clinic.

Burt Hamric received treatment at the local clinic Saturday afternoon for a badly lacerated middle finger on his right hand. The accident occurred in a motor bike tumble. Burt's brother, Dan, also riding on the bike, was not injured.

Mrs. Joe Luttmier is reported recovering normally from major surgery performed Friday at Gainesville Sanitarium.

Mrs. Henry Sicking returned home Friday and is convalescing nicely from major surgery performed at M&S hospital in Gainesville on July 12. She says many thanks for the flowers and cards while she was in the hospital.

## Repairs Cut City Daily Water Loss By 26,000 Gallons

The city of Muenster is saving 26,000 gallons of water a day since repairing five major leaks in the main line last week. According to Water Superintendent, Steve Mosler that estimate is fairly accurate if the amount of water actually used is the same as it was two weeks ago.

His figure is based on the pumping time needed to maintain an adequate level. The booster pump, which lifts 13,000 gallons per hour from the reservoir to the water tower has been running two hours less per day than it did before.

Although the big leaks are under control, Mosler said, the job is still far from complete. Smaller leaks which could not be detected before because of the big leaks are still draining away a vast volume of city water. The loss has been reduced from 40 per cent to something over 20, which approaches the average in other cities but still isn't good enough to please Mosler.

His plan is to have the Dallas Water Department leak detector return for another day of testing. By finding and repairing some of the smaller leaks he expects to make another substantial reduction in the loss.

## Nocona Cops Nab Battery Thieves On Flusche's Tip

Charges of theft under \$50 were filed Friday in Cooke county court against two Wichita Falls men, L. W. Wright and Edgar O'Mary, for the theft of 12 storage batteries from J. P. Flusche's junk yard.

The men entered the yard early Thursday morning and took the batteries that were valued at \$2 each. They had started driving west when Flusche, who had heard the men at his place of business, gave chase. He got close enough to obtain the license number of the car the men were driving and notified the Saint Jo police, who in turn notified the Nocona police. Nocona officers arrested the two men on the outskirts of that city.

Texas Ranger Lewis Rigler was contacted and brought the men to the Cooke county jail. Charges were filed late Friday.

Mr. and Mrs. John Hoffman and daughter, Miss Gladys, spent Monday through Wednesday in Wichita Falls visiting their son and brother, T. J. Hoffman and wife.

# LOCAL NEWS BRIEFS

Giles and David Lehnertz of Houston spent the weekend here with their parents.

Mr. and Mrs. C. J. Fette are on a vacation trip to Detroit and other points of interest.

Artie Arendt is the owner of a new green tudor Chevrolet delivered Tuesday.

**FOLLOW THE LEADER FLEET**—The aircraft carrier H.M.S. Theseus spearheads this nautical game of "follow the leader," with the French carrier Arromanches second and the British submarine tender Maidstone third. Ships from the British, Dutch, Belgian and French navies are taking part in the "Exercise Verity" in the Bay of Biscay under the command of Britain's Admiral McGrigor. Convoy defense keynotes the combined fleet operations.

Toy and Bob Woodruff of Colfax, Wash., visited here during the week with their relatives, the Needhams and Joeline Richter.

M. Sgt. and Mrs. Mike Tarantola and son arrived in Dallas last Thursday from Japan. They were met by her sister, Mrs. T. S. Myrick and children and all went to Weatherford to visit the ladies' mother and other relatives. Mrs. Myrick and children returned home Friday night and the Tarantolas joined them here this week for a visit. While here they bought a new blue tudor Chevrolet.

## Grape Festival at Montague Attracts About 1200 People

A representative group of Muenster citizens was among the crowd of about 1,200 persons present Monday evening in the grape arbor at the state operated fruit investigations laboratory two miles west of Montague for the crowning of Miss June Gill of the Prairie Valley community, as queen of the third annual Grape Festival.

Miss Gill received her crown from the king, Wayne Wagon-sellar, Montague county's representative in the state legislature. Judges chose her as queen shortly before the coronation ceremonies. Eleven girls, including Miss Marilyn Gremminger of this city, competed for the honor. Muenster's entry was sponsored by the Civic League and Garden Club. Bill Fuhrman was her escort.

The queen's coronation highlighted the evening's entertainment in the arbor with Tony Fenoglio of Nocona as master of ceremonies. A concert by the combined Nocona and Bowie high school bands opened the program which featured a short talk by U. A. Randolph who is in charge of the laboratories.

State Senator Bob Proffer of Justin and Representative Wagon-sellar made brief remarks, and Mr. Fenoglio revealed that through the efforts of the state senator and representative, a new building is being obtained for the experiment station and a 15 per cent increase in appropriations for its operations has been secured.

One hundred and three bunches of grapes, labeled as to variety, were on display but the farm grows over 400 varieties of grapes and 90 varieties of peaches in addition to varieties of plum, apples, pear and berries.

One of the most attractive exhibits was a huge bunch of grapes 4 feet long and 6 feet in circumference hanging on the stage. It was made up of hundreds of bunches of grapes.

Tuesday's program featured inspection tours through the vineyards and orchards and talks by A&M Extension Service personnel. A driving rain early in the afternoon brought the two-day festival to a sudden end. It was a welcome climax, however, as an extended drought was reaching a serious stage throughout the area.

## Watermelon Stand Opens This Week

A watermelon garden, which is expected to open this week end, is Muenster's newest recreation and refreshment spot. It will be located on the vacant lot adjoining the Texaco Station, at the intersection of Highway 82 and Main Street.

On Wednesday of this week Jake Horn and Cotton Schmitz announced that their principal items of equipment were ready and can be ready for business on or before Saturday.

They will sell by the slice or the whole melon, ice cold or regular temperature, and provide tables for persons who wish to eat the melons there.

## Bird's Eye View Of Lake Texoma

LAKE TEXOMA. — People who want a real look at Lake Texoma can get it now.

Lake Texoma, the fourth largest man-made lake in the world, stretches approximately 50 miles east and west and 40 miles north and south.

Now a private individual has built a steel observation tower from which a person can see a large part of the Lake. The tower, which rises 150 feet above the water level, is located on the tip of Preston Bend Peninsula about 12 miles north of Pottsboro, Texas. It offers the finest single view of the Lake, some 15 miles in every direction.

Mr. and Mrs. Darrell Adams and son of Lubbock are here to make their home. Until the Clinton Mitchell house is vacated they are with her parents, the Ben Seylers.

Sherry McGowan is spending this week in Gainesville with her grandmother, Mrs. S. A. McGowan.

Joe Weinzapfel, Father Hannon and two seminarians, all of Fort Worth, spent Sunday with the J. M. Weinzapfels.

Mr. and Mrs. Charles Denny and daughter of San Antonio arrived this Thursday for a vacation visit with her parents, the Ben Lukes and family.

Mrs. Herman Fette and children, joined by her sister, Mrs. J. Q. Stewart and baby of Gainesville, spent last Wednesday through Saturday in Carter, Okla., with her grandparents.

**JOHANN SEYLER TO MARRY LAMBERT BEZNER AUG. 4**

Mr. and Mrs. Ben Seyler have announced the engagement and approaching marriage of their daughter, Miss Johann Seyler, to Lambert Bezner, son of Mr. and Mrs. Jake Bezner of Lindsay.

The couple has set Thursday, August 4, as the date for the wedding. Rev. Thomas Weinzapfel, a close friend of both families, will perform the ceremony in St. John's church at Valley View where he is pastor.

Attending the couple will be her sister, Mrs. Darrell Adams of Lubbock, and his brother, Wilfred Bezner of Lindsay.

Mr. Bezner is a native of Lindsay, attended school there and graduated from Subiaco academy in Ark. He served

with the Seabees during the war with duty in the Pacific area and is now an employe of the First State Bank in Gainesville where the couple plans to establish residence.

Miss Seyler graduated from Sacred Heart High School and from Texas Tech at Lubbock with the class of 1949. She is employed as bookkeeper for her father in the Ben Seyler Motor company.

The announcement of this wedding brings to four the number of marriages to be solemnized during the first four days of August.

**SHOWER PARTY THURSDAY HONORS MISS ELFREDA LUKE**

Complimenting Miss Elfreda Luke, bride-elect of R. N. Fette, Mmes. W. H. Endres, Joe Gorman and Joe Luke entertained with a miscellaneous shower and party last Thursday night in the Endres home.

Daisies, marigolds and delphinium decorated the party rooms, carrying out the bride's chosen colors and the gift table held a white parasol adorned with yellow and blue streamers in keeping with the color scheme. Favors for each guest were miniature corsages of yellow Paruvian lilies, yellow chrysanthemums and blue ribbons to which were attached white paper hearts bearing the betrothed couples names and the date of their wedding, August 1. Hostesses presented the honoree with a corsage of white carnations. Mrs. Gorman presided at the guest register.

After the honoree opened and displayed her shower gifts guests were furnished with paper and pencils to write advice to the bride-to-be on "How to train a husband." A progressive 42 series followed. Mrs. Joe Sicking won the high score award. Mrs. Arthur Endres the consolation favor and Mrs. Frank Hennigan the galloping prize. They presented them to the honor guest.

The hostesses served delicious refreshments of chicken salad sandwiches, potato chips, relishes, punch, ice cream and decorated cup cakes to 27 guests.

**Mrs. John Eberhart Has Quilting Party Wednesday**

Mrs. John Eberhart entertained with a quilting party in her home last Wednesday afternoon when 12 friends helped her complete a lovely star quilt.

In the late afternoon Mrs. Eberhart served refreshments of sandwiches, apple pie and iced tea to Mmes. George Mollenkopf, Louis Steinberger, M. J. and R. R. Endres, John Fette, John Felderhoff, C. J. Wimmer, Clem Reiter, Ben Seyler and Joe Wilde, Misses Lena Kleiss and Lena Streng.

Mr. and Mrs. Pete Hawthorne of Fort Worth spent Sunday with her parents, the Frank Kathmans and family.

Mr. and Mrs. Earl Robison and sons spent Friday with her cousins, the Jesse Wilsons, in Woodbine.

Mrs. J. J. Haverkamp and daughter, Miss Bertha, returned Monday from San Antonio where they spent the weekend at Our Lady of the Lake convent and attended special religious ceremonies. The former's aunt, Sister Josephine, observed her golden jubilee as a nun. They also visited with Mrs. Haverkamp's sister, Sister Ann Theodore, her three other aunts, Sisters Cordula, Constantia and Emerita, and her niece, Sister Miriam Dorothy, all members of the order. They also enjoyed visits with Sisters Bernice Trachta, Claude Roberg and Christine Flusche, and Novice Elfreda Koesler. Other relatives at the rites included Mrs. L. W. Flusche of Decatur, Mrs. Lawrence Zimmerer of Lindsay and the Urban Flusches of Pilot Point. All of the Sisters send best regards to their friends here.

J. W. Fisher, district deputy for the Sixth District of the Knights of Columbus, will spend this week end in Austin attending a meeting of state officers of the order. His wife will accompany him on the trip. Thursday of last week he and Joe Luke attended a meeting of the Pilot Point council and installed its officers.

**Citation by Publication**

THE STATE OF TEXAS  
To: Harry Askew Defendant,  
Greeting:

You are hereby commanded to appear before the Honorable 16th District Court of Cooke County at the Court House thereof, in Gainesville, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 5th day of September A. D. 1949 then and there to answer Plaintiff's Petition filed in said Court on the 21 day of July A. D. 1949, in this cause, numbered 15515 on the docket of said court and styled, Betty Marie Askew Plaintiff, vs. Harry Askew Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges that defendant's actions and conduct generally are of such a nature as to render their further living together as husband and wife, insupportable, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Gainesville, Texas this 21st day of July A. D. 1949.

(SEAL) Attest:  
Woodrow U. Clegg, Clerk  
District Court, Cooke Co., Texas  
(36-7-8-9)

Mr. and Mrs. Wm. Koerner of Pilot Point spent the weekend with her parents, the Frank Bindels, and when they returned to their home Sunday night were accompanied by her young brother, Gerald, for a week's visit.

## Washington Newsletter

By Congressman Ed Gossett

Washington, D. C., July 23.—The House this week defeated a so-called trial run of the Brannan plan for agriculture. In brief, the so-called Brannan plan is a plan to place a floor under the price of all agricultural commodities without controlling production or prices to the consumer. Secretary Brannan, an honest and sincere individual, has insisted that his plan would assure cheap prices to the consumers, while guaranteeing high prices to the producers, i.e., the farmers. A majority of the members of the House have regarded this plan as impractical and unworkable. Most members have feared it meant an extension of the expensive potato program to all perishable commodities. Again, to have guaranteed to the producer of hogs a price of approximately \$20.00 per hundred with no other controls on hogs, would probably have resulted in increasing the number of hogs in the country three-fold within one year. To my mind, a sound agricultural economy is essential to a sound national economy. Some farm program is unquestionably necessary, since the farmer as a rugged individualist cannot survive in a highly organized, highly competitive economy. As one who grew up on a farm, and whose parents still live on one, I am always keenly sensitive to farm problems and welfare. However, I am not sold on the Brannan plan, and voted against it. We have substituted for the Bran-

nan plan a simple extension of the present program, pending further study.

On Monday, of this week, the Yankee politicians will again bring before the House, and will probably pass, a so-called anti-poll tax bill. This bill is a part of the so-called civil rights program. It is a gratuitous insult, a slap in the face, to the seven Southern States that still retain the poll tax. For years, Yankee politicians have pointed the finger of scorn at the South and have accused us of being a backward and benighted area in which minorities are persecuted. They have held themselves up as great liberators. The bill which they seek to pass, if enacted into law, would not only be a serious blow to States' rights, but would also be a serious blow to the Constitution itself. One of the clearest provisions of our Constitution is that the question of voting is a matter of State jurisdiction, and for State determination. The founding fathers explained this clearly when they sought ratification of the Constitution. The Courts of the land have uniformly so construed the Constitution.

The Texas Legislature, just adjourned, submitted an amendment to the voters to repeal our poll tax law, and for the substitution of a registration system. This is clearly a question for Texans to decide and not one with which Congress should meddle. As a matter of policy, and as a matter of principle, a number of us Southern Congressmen will fight this legislation as best we can. However, principle and policy will doubtless be defeated by political chicanery and by political de-

But He's The Doctor You Ordered, Lefty!

magogy insofar as this matter goes.

A number of us are still working hard in an effort to find some solution to the problem caused by large imports of foreign oil. Thousands of oil rigs are now being stacked, independent refineries are going out of business, and hundreds of workers are losing their jobs because of the curtailment of oil production in this country. In the State of Texas, State revenues have already fallen around \$30,000,000 because of reduced production. This will probably mean a special session of the State Legislature and the imposition of "new State taxes. Furthermore, the problem may get worse instead of better. Gigantic new oil fields have been discovered in Canada. We are told that within 18 months Canadian oil will start flowing into the United States. In the Middle East where there is no such thing as proration or conservation, the major oil companies have large fields from which they can produce oil at only a fraction of the

cost of producing oil in the U.S.A. Again, in Venezuela, the country from which most of our foreign oil now comes, oil is a glut on the market. Instead of there being a shortage of oil, there is now, and perhaps will continue to be, a great surplus. Again, if we permit the domestic industry to be seriously crippled from foreign competition, we would certainly suffer in the event of war. Both our peacetime economy and our wartime economy is seriously involved in this problem.

I have just read a long letter from a friend who states that he keeps a box of "pet peeves". He then enumerates all the things that he has in his pet peeve box. I am advising him to throw the box away and forget it. Keeping such a box seems to me to be exceedingly bad psychology. If one is to be a collector, he should collect something more pleasant than "peeves."

Marilyn Gremminger is on a week's vacation from duties at the Charm Shop.

## THE LOWDOWN FROM HICKORY GROVE

"Little fellers" doing "big things" is what we been having too much of — that is how I diagnose our symptoms. We are in bad shape says Mr. Brannan. Mr. Brannan is our Dept. of Agriculture Big Smoke. He says that "the biggest economic crash in history" is around the corner — but he can fix it, he says.

For years now, Govt. doctors have been prescribing. But now, after all this time — and the same doctoring — the undertaker is hovering around the corner. That is what the man says — Mr. Brannan that is. But open up, he says — this new elixir is just the ticket. And gullible as we are — congress, too — and a sucker for shennigans, we will likely say okay. We will dig up the do re mi to keep prices up for the farmer and at the same time, he says, we can buy cheaper at the corner grocery. Mr. Brannan and Mr. Bailey — both of 'em — if they were living now, would need take a back seat to this new and great "Govt. wizard" — and round and round she goes.

And now — with a tip to our U.S.A. senators. The senate is investigating gasoline prices. Jump on a boat, I say, for socialistic France or Italy where

gas sells at 2 times as much as here, or take a squint at the crepe hanging on the Texas gas pumps where new taxes there are jacking up prices.

Yours with the low down,  
 JO SERRA

From where I sit ... by Joe Marsh

## For The Ladies: A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats — but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

# Now... Chrysler Offers

**1—Safer Driving!** Through the years, the greatest advances in safety come to you first from Chrysler. Now there's a new advance in steering... Chrysler's "center control" steering! Your days of fighting a wheel are over. There's greater road stability, easier handling, less road shock. Even the leather covered foam rubber Safety-Cushion dash, and the new "Bulls-Eye" headlight lenses are designed to give you extra protection.

Prestomatic Fluid Drive\* Transmission... drive without shifting

**2—Safer Design!** Now the engineers who pioneered the first all-steel car bodies have developed a still safer body and frame design—23% more rigid. You have full control of your automatic gear shifting car. With Prestomatic Fluid Drive Transmission, the Safety Clutch enables you to take over in emergencies, select the gear you need.

**3—Safer Vision!** When Chrysler engineers introduced the first 4-wheel hydraulic brakes 25 years ago—they brought to the automobile industry a new idea. It is the idea of car design that begins with safety, then builds beauty, comfort, performance! You can't possibly appreciate the difference until you drive this car. Find out how much more confident you feel in this Chrysler with its mighty High Compression Spitfire engine.

### 75,000 Club Boys And Girls Expected At '49 State Fair

Post-war rural youth activity in the state will reach its high point this year when the largest single gathering of farm boys and girls in the nation's history will be honored by the State Fair of Texas on Rural Youth Day, Oct. 15, James W. Aston, chairman of the Fair's rural youth day committee, has announced.

"At least 75,000 4-H Club boys and girls, Future Farmers and Future Homemakers from farms and ranches in every corner of the state, will make the trip to the Fair," Aston said. "Last year's attendance of 60,000 was considered phenomenal, but all indications point to a 25 per cent increase for this year."

The youngsters are traditionally given free admission to the Fair, and a free lunch which is provided by Dallas business leaders.

"Purpose of Rural Youth Day is primarily to help youngsters become better citizens," Aston said. "The sights they see and the information they obtain on this day broaden their vision, and their knowledge of trends in agriculture, livestock, poultry, and modern life in general. They find out what is going on, gain valuable 'know-how', learn how to profit from the experience of others and, as a result, they become better business men, homemakers, farmers, ranchers, and citizens."

### Carelessness and Ignorance Evident In TB Death Rate

AUSTIN.—There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by the continued ravages of tuberculosis which is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave health problem, and today it holds fifth place among the killing diseases in this State. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized early and proper treatment applied.

"These facts are disclosed by Dr. Geo. W. Cox, State Health Officer, who says, 'treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives.'"

The State Health Officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course. Tuberculosis runs in families, not because of an special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults, including chest X-rays; frequent check-ups by physicians where active cases and their contacts are known; isolation or hospitalization of active tuberculosis cases, and a more intelligent application of hygienic living principles.

The Al Walterscheids and daughter, Mary returned Monday from a week end visit in Hereford with the Frank Walterscheids, Joe Loerwald and other relatives.

Mr. and Mrs. David Trachta were Dallas visitors Monday.

### Lindsay News

The Albert Kubis family is spending this week at Bay City on a vacation and fishing trip.

George Moster was a patient at Gainesville Sanitarium Thursday for removal of a piece of steel from his right eye. He is an automobile mechanic.

Mr. and Mrs. Will Sandmann are visiting relatives in Weatherford.

Misses Margie and Marcella Sandmann have returned home after a visit in Norman, Okla., with relatives.

Mrs. Lawrence Zimmerer returned Monday from San Antonio where she attended the golden jubilee celebration of the religious profession of her aunt Sister Josephine, on July 23, and also visited relatives. She was accompanied on the trip by Mrs. Lawrence Flusche of DeCatur.

#### LINDSAY MOTHERS SOCIETY OBSERVES PATRON'S FEAST

The Christian Mothers Society of Lindsay observed the feast day of its patron, Saint Anne, Tuesday with a religious service and a breakfast.

Group attendance at Mass and reception of the Eucharist preceded the blessing of the society's new banner, and the reception of four new members: Mmes. Irwin Fuhrmann, Alvin Loerwald, George Schmidkofer and Joseph Fuhrmann. Pastor Father Conrad officiated at the rites.

Members of the Young Ladies prepared and served breakfast to the group in the school lunch room. After the meal the women held their quarterly meeting.

#### SHOWER PARTY GIVEN FOR MISS IDA MAE NEU SUNDAY

Miss Ida Mae Neu of Lindsay, bride elect of Wilfred Bindel of Muenster, was honor guest at a party and shower given Sunday afternoon in the Frank Bindel home with Misses Gertrude and Adeline Bindel and Mrs. Wm. Koerner of Pilot Point as hostesses.

Games and contests entertained the guests with prizes going to Misses Mary Ann Felderhoff and Anna Fleitman and Mrs. Joe Felderhoff. Miss Rita Hoenig drew the door prize. These gifts were presented to the honoree.

The hostesses served a refreshment course to 30 guests from Muenster and Lindsay.

talk on the subject "The Artificial Breeding of Dairy Cows".

All dairymen who are interested in the speaker's topic whether or not they belong to the county association, are invited to attend the meeting John Voth, president of the Cooke county association, announced this week.

The meeting will be held in the city hall park, beginning at 8:15.

#### Confetti--

years ago FDR was accused of being the champion spendthrift of all time. But compared with HST he's a penny-pinching piker. Because up to 1941 FDR with 8 years of New Deal hand-outs, and all his predecessors with a half dozen wars, including World War I, did not spend as much money as Truman has spent during the past four years... peacetime years.

So if you're wondering about causes for the present high cost of living, just take a look at some of those astronomical Washington figures. That's where your money goes.

Just like having  
a store in  
your kitchen!

Imagine... a sparkling, new electric range with automatic controls that cook your meals to perfection... economically... with little or no effort on your part... AND... a handsome, streamlined food freezer filled with delicious fruits, vegetables, meats... out-of-season ones, too... all within a few steps. It's not a dream... it's a kitchen reality. You'll be surprised how wonderful it is to cook and store your foods the modern way... the electric way, of course!

See your Electric Appliance Dealer for information about the new Electric Ranges and Electric Food Freezers.

Of Course, It's Electric!
