

MUENSTER ENTERPRISE

VOLUME XIII

MUENSTER, COOKE COUNTY, TEXAS, OCTOBER 14, 1949

NUMBER 47

Ever since the Hornets opened their season with a nice clean-cut victory yours truly has been singing their praises. And as they continued the good work through three more games that praise became more and more profuse. There just wasn't any doubt that the boys were going places. They had spirit, skill, teamwork, tenacity and whatever other qualifications that are needed for success.

Then came the blow. That bunch of hard hitting Cowtown Micks stamped, and trampled our favorites something awful. Dreams of a perfect season were shattered. It was disappointing, almost numbing to have hopes so abruptly upset, and by a lop-sided score of 26 to 0.

But though we're disappointed in the final count we have no reason whatever to be disappointed in the boys. Far from being humiliated, we're even more proud than we used to be. Because they looked every bit as good losing that game as they did winning the others. Even better. They kept up their spirit and played the game with all they had long after they realized they were outclassed. Keeping morale high while winning is easy. But doing it up to the last play, after defeat is decisive and certain, reveals a trait that merits special praise.

That performance last week was a credit to the boys, the school and the community. As far as we are concerned the Hornets enhanced their prestige as much by that loss as they did by other victories. And we're quite sure that their other boosters feel the same way about it.

Are you the kind of person who enjoys sending birthday greetings, or wishing many happy returns over the telephone? Or do you wish that more people knew your birthday so you'd possibly get more remembrances?

If you fit in either category cheer up. The Ladies Civic League and Garden Club is planning to do you a favor. It's a birthday calendar listing the birthday of every person who will contribute one thin dime to its worthy cause.

The idea is new in this community, so just to help you understand it better, which, we hope, will help the garden club ladies get along with it better, here's a sketchy explanation of what is going on.

The ladies are raising a fund to beautify the Muenster Memorial park. Perhaps you're accustomed to thinking of that place as just the baseball field, but think back to the last Memorial Day and you'll recall that it was officially dedicated to the young men who gave their lives in the last war. As such it rates some attention, and the ladies have resolved to do what they can.

Their program calls for lots of vines, shrubs, flowers or something to completely encircle the park. Also necessary improvements on the field. Don't ask me just what will be done. I don't know, but I can assure anyone that after the garden club finishes working it over the park will be a lot more pleasing to the eye.

A cause as worthy as that deserves a big drive for donations, but the ladies decided they'd rather get their funds in another way... and give every contributor something nice in the bargain.

The first step is to solicit sufficient advertising to cover the cost of publishing the calendar. The next is to solicit names of persons who will contribute a dime to be listed on the calendar. Those dimes will go into the memorial park benefit fund.

To Con's way of thinking the ladies are bending over backward in their efforts not to impose on anyone. They're taking on a tremendous job with no compensation for themselves and comparatively little for their fund. Think of it, they'll have to list a thousand names to net \$100 toward the improvement program.

These things are mentioned (Continued on Page 10)

Laneri Micks Run Wild for 26 to 0 Win Over Hornets

That winning streak was broken... and how... when the Hornets were outclassed and tumbled 26 to 0 by the Micks of Laneri Hi, Fort Worth.

It was a one-sided contest all the way and a field day for the Cowtown huskies who capitalized in a big way on their weight advantage of some 15 pounds per man. Sparked by the powerhouse drives of big Joe Howell, all the visiting backs got through for frequent and substantial gains by both ground and aerial play. Total gains added to 390 yards.

On the other hand Muenster's lads had plenty of trouble. Emmett Walterscheid and Gilbert Yosten marked up a few neat gains and Mollenkopf snared two passes for fair yardage but on the average the tonnage up front was too much for the boys. Their total net gains for the game came to 130.

The Micks were only slightly delayed in opening their power offensive. Receiving the opening kick they fell short of the required yardage on their first series of downs and booted to the Hornets. They got the ball on a Hornet punt 4 plays later on their 23. From there they scored in 9 plays... a total yardage of 107, including the 30 assessed against them on two penalties for illegal use of the hands on offense. Howell went over for the score and a kick for extra point was good.

(Continued on Page 10)

Ground is Broken For Diabetic Camp Near Gainesville

With Dr. J. Shirley Sweeney wielding the shovel, the first dirt for the Sweeney Diabetic Foundation summer camp was officially turned at 2 o'clock Monday afternoon. The site is a 403 acre tract nine miles northeast of Gainesville.

Meanwhile a bulldozer droned in the background, preparing the camp site for buildings which are expected to be ready for use.

The Foundation, the only one of its kind in the South has a four fold purpose: 1. To establish a diabetic children's camp where they may enjoy normal camp life. 2. To establish a research laboratory for study and possible cure of diabetes. 3. To have a metabolic pavilion for study of individual cases. 4. To direct an educational program for medical men and laymen.

"Before the discovery of insulin in 1921, a diabetic had but a few months to live on a starvation schedule," Dr. Sweeney said. "Now we know diabetes can be kept alive with insulin." He emphasized the foundation would not limit its studies to diabetes, but other metabolic diseases and disorders will be studied. He also predicted that the foundation will become an institution the entire South will be proud of.

About 150 persons including officers and directors of the foundation, visiting doctors and newspapermen, and interested citizens of the county were present for the ground breaking ceremony.

Sacred Heart 4-H Boys Reorganize And Elect Officers

The Sacred Heart school 4-H Club held its organizational meeting last Wednesday and elected officers for the year.

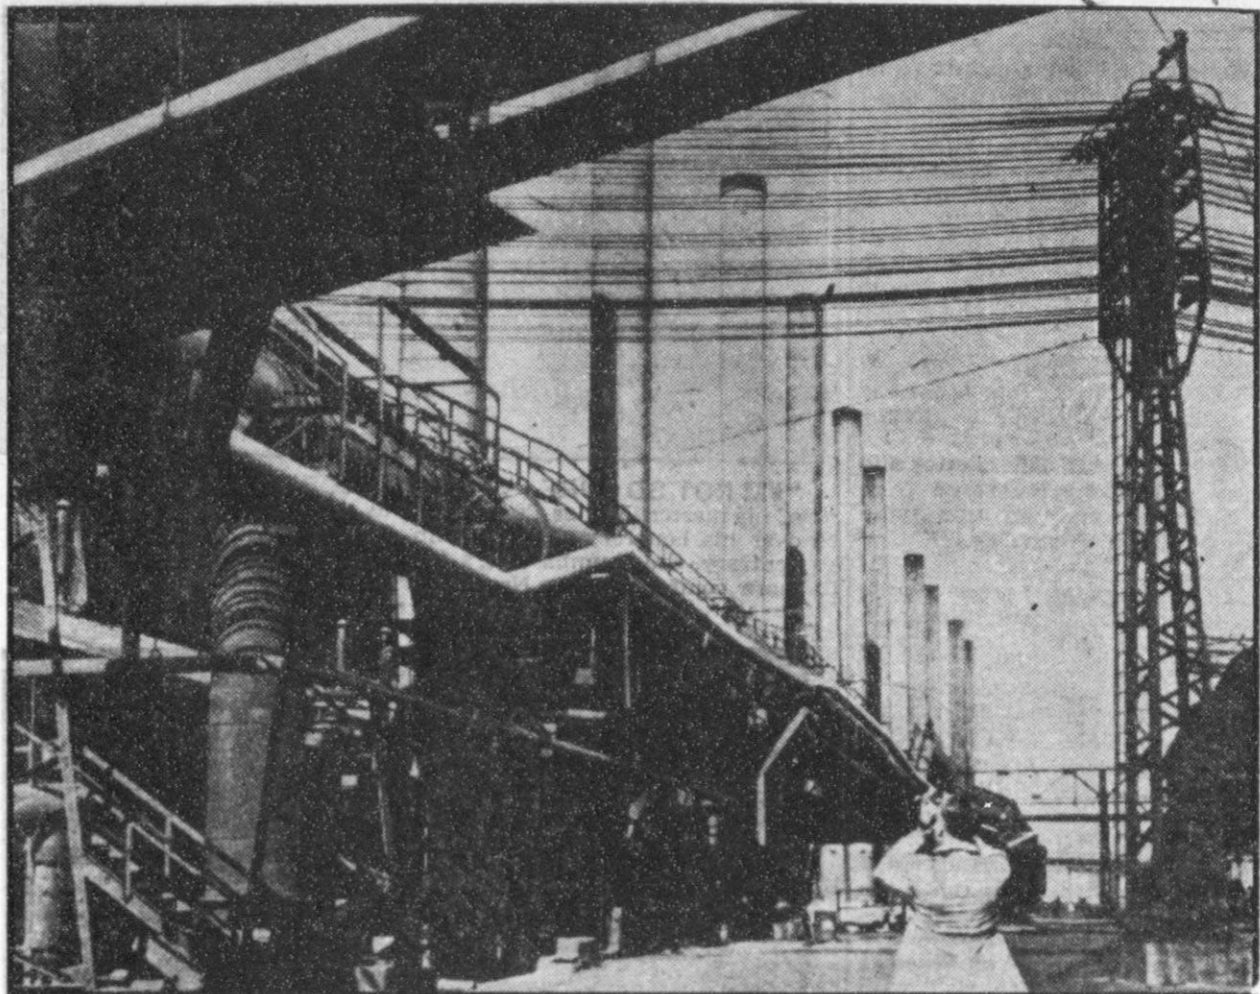

Donald Bayer is president; Joe Felderhoff, vice president; Edward Pick, secretary, and Ernest Bayer reporter.

Martin Bayer and Ben Seyler were chosen as club sponsors.

County Agent B.T. Haws presided at the meeting and discussed projects for the year. The club will meet once a month.

Members received free passes to the Dallas Fair for Rural Youth Day, next Saturday, and will attend in a group.

Forty-two members were present for the meeting.

STEEL MILLS SILENCED BY STRIKE—For the second time since the end of the war, the towering stacks of the nation's steel mills billow forth no massive clouds of smoke. Here, a cameraman at Gary, Indiana, gets a shot of the deserted plants closed by the nationwide steel strike.

Mrs. Weinzapfel Is Elected President Of District NCCW

Mrs. J.M. Weinzapfel heads the Sherman deanery council of the National Council of Catholic Women as president as the result of the annual officer election Tuesday. Ladies of the parish unit of Denison were hostesses for the session held in St. Xavier's Academy.

Other deanery officers elected are Mrs. Robert Rombach of Denton, 1st vice president; Mrs. Lillian Sacra of Denison, 2nd vice president; Mrs. John Mosman, 3rd vice president; Mrs. Hugh Johnston of Denton, recording secretary; Mrs. James Cooney of Sherman, corresponding secretary; Mrs. A.G. Hutton of Gainesville, treasurer.

Rev. James Tucek, moderator, opened the meeting with prayer and gave suggestions for constitution and by-laws. Mrs. E.L. O'Connell president of St. Patrick's council extended welcome to guests and parish councils gave their quarterly report.

Mrs. Tony Gremminger, president of the Muenster council read the Sacred Heart parish report which included social welfare work for shut-ins, candles sent to hospitals, quilting of nine quilts five of which were sent to missions, the shipment of two boxes of clothing to war sufferers, 50 pounds of hospital bandages ready for shipment and sponsoring of a refugee toy drive. Activity in the Young Ladies Sodality included the "living-rosary" and the monthly hour of prayer on the first Thursday of every month.

Sacramental benediction closed the meeting and members of the Denison council served refreshments to a large attendance.

Present from Muenster were Rev. John Walbe and Mmes. Tony Gremminger, John Mosman, C.A., J.W. and Joe Fisher, Joe Swirczynski, Frank Herr, J.W. Hess and Miss Olivia Stock.

Hornet Juniors to Play Callisburg and Era Lightweights

Not one but three extra football games are on the Muenster Hi schedule for this season. In addition to the Callisburg game here Thursday night there will be an exchange of games between the juniors of Muenster and Era.

According to word from Coach Hood Tuesday, the Hornets will not have out their full strength for the Callisburg contest. By agreement with the visiting coach, who has a light team with few reserves, he will turn most or all of the game over to lads who have not seen action in the regular games.

The same agreement applies to the Era games. Both coaches will play only the boys who normally have been on the bench. The games are on Oct. 27 there and Nov. 2 here.

Refugee Kids Fare Well in Toy Drive

Muenster citizens contributed about 425 toys and the same number of garments in the recent "Refugee Toy Drive" for children in Bavarian refugee camps. Mrs. Joe Hoenig, president of the St. Anne's Society, the sponsor group, made the announcement Tuesday after she and a group of assistants packed the items for shipment overseas. The total weight was 225 pounds.

Most of the toys and garments came in last week Tuesday at a shower and 42 party for members of the society and others who wished to contribute left their gift at the home of Mrs. J.W. Fisher during the week. Each toy was wrapped in a garment.

The shipment will reach its destination for distribution as Christmas gifts.

Tech Seniors Elect Hal Luke President

Harold Luke, senior engineering student of Texas Technological College of Lubbock, was recently elected president of the 1949 senior class.

A graduate of Sacred Heart High, he served in the Navy during the past war and entered Tech as a freshman after being discharged. His parents are Mr. and Mrs. Ben Luke.

Herbert McDaniel underwent surgery Friday in an Oklahoma City hospital and is making a satisfactory recovery. His wife is attending his bedside.

Council Urges All Citizens to Learn Fire Alarm System

To clear up the general confusion relative to the city's fire alarm signals, members of the city council in their regular meeting Monday night gave a detailed explanation and asked that all local residents become familiar with it.

First of all, they explained, the city is divided into four zones with Second and Oak streets, the two streets intersecting at the water tower, as the dividing lines. The area south and west of those streets is Zone 1. The area north and west is Zone 2. The area north and east is Zone 3. The area south and east is Zone 4. For those who can remember more easily by considering the water tower as the central point the zones and directions are as follows: 1, southwest; 2, northwest; 3, northeast; 4, southeast.

The alarm for a fire is one long blast followed by one, two, three or four short blasts, depending on the area that has the fire. A long blast by itself is the signal for fire practice and should not be regarded as an alarm. But a long blast followed by short ones indicates something is burning.

Mr. and Mrs. Ferd Yosten and two children of Fort Worth came to Muenster Friday to see the Hornet-Laneri football game and remained to spend until Sunday night with their parents, the F.J. Yostens and I.A. Schoechs.

St. Xavier Warriors Trim Hornets 19-6 In Fumble Fiasco

After starting like a whirlwind, the Hornets went to pieces at Denison Wednesday night and lost a 19 to 6 decision to the St. Xavier Warriors.

Two factors explain the sad reverse that laid the Muenster boys low. The sharpshooting arm of Big Bill Finn found plenty of receivers for consistently long gains. And the Hornets fizzled away their opportunities on fumbles.

Early in the second quarter the Hornets ended a beautiful 50 yard march with a fumble on the Warrior 5. On two occasions in the second half they fumbled promptly after receiving kicks. In every case the result was disastrous. Once they got hold of the pigskin the Warriors seldom failed to go to the goal. Other Hornet fumbles, recovered by themselves resulted in several serious losses.

In other respects the Muenster boys conceded nothing to their foes. Despite a big disadvantage in weight they crowded the Denison boys close for net rushing gains and first downs.

The Hornets got the first break of the game and capitalized on it. On the second play after the kickoff Emmett Walterscheid intercepted a pass on the 47 and his teammates promptly marched from there to pay dirt. Yosten and Walterscheid led the offensive as the Hornets reached the goal line in 11 plays.

Another break came shortly after the next kickoff when Luke recovered a Warrior fumble. (Continued on Page 10)

Remote Control on Fire Alarm to Save Precious Moments

A system by means of which precious minutes can be saved in case of fire was okayed by the city council last week. The fire alarm will be sounded by remote control from the telephone central office.

Heretofore it was necessary for someone to go to the rear end of the cheese factory and operate the whistle by hand. The manual control will be retained, however, for use if and when the electrical control fails.

A technical difficulty is delaying installation of the control for a short time. Herman Swirczynski, plant engineer at the FMA explained that the electric coil which operates the steam valve will not handle it under high pressure, and a stronger coil will have to be installed before the unit can be used.

Harriette Otto is Stricken by Polio

Harriette Otto, 10, daughter of Mr. and Mrs. Harry Otto, became Muenster's first polio victim last Friday. She was admitted to Gainesville sanitarium after showing signs of leg paralysis and is still a patient. Reports this week are that the attack is mild and that removal to a hospital for special treatment is not necessary. If her condition continues to improve she will be permitted to return home in about a week.

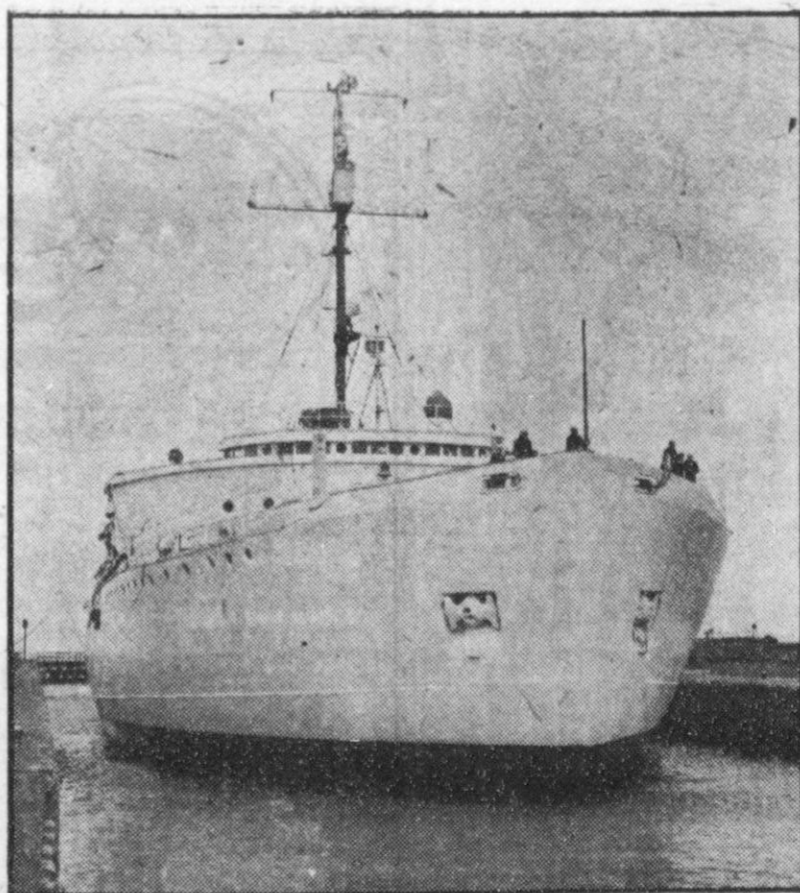

On the same day another Cooke county child, Olga Mae Reiter, 6, daughter of Mr. and Mrs. Rudolph Reiter of Valley View, was stricken with polio. She was transferred to Dallas' Parkland hospital Friday night for treatment.

Schedule of Coming Events

MONDAY, OCT. 17, stag party for Holy Name Society members, the church basement, 8 p.m.

FRIDAY, Oct. 21, Mission Sewing Circle, Mrs. Ben Hellman's home, 2 p.m.

WEDNESDAY, OCT. 19, K of C social, K of C hall, 8 p.m.

PORTENT OF WINTER—As she passed through the Chicago River locks into Lake Michigan recently, the U. S. Coast Guard icebreaker Mackinaw brought thoughts of the chilly months ahead. The hard-working vessel, 78 feet abeam, was the closest fit ever to pass through the 80-foot locks.

Miss Anna Hoenig left recently to be employed in Breckenridge, Texas.

Local NEWS
Briefs

George Gehrig was a Dallas visitor Wednesday.

Visiting the Needhams last Wednesday were Mr. and Mrs. Pete Clark of Eunice, N.M.

Thomas Sicking is remodeling his farm home, adding a room and doing interior redecorating.

Mr. and Mrs. Ray Otto and son, Douglas, spent Sunday in Windthorst visiting relatives.

Mr. and Mrs. Bob Swirczynski and children of Ardmore spent the weekend here with their parents.

Mr. and Mrs. R.N. Fette and Rosa and Michael Driever were in Dallas Saturday to attend the State Fair on Press Day.

J.H. Andress of Borger visited his sister, Mrs. Frank Needham and other relatives here during the weekend.

Mmes J.C. Trachta, Ray Swirczynski, Steve Fette and M.H. King spent Wednesday at the Dallas Fair and attended the Ice Cycles.

Miss Emily Fette of Dallas, accompanied by a girl friend, spent the weekend with her parents, the Joe Fettes and family.

Mrs. Ann Needham of Waco is here for an indefinite visit with her son, Frank Needham and family.

Mrs. T.P. Frost underwent major surgery at Gainesville sanitarium Monday and is making a satisfactory recovery.

Miss Philomina Felderhoff of Albuquerque, N.M. spent the week-

"I'M NOT SO SURE I WANT THE JOB"—Poquita, in the hands of his master, Xavier Cugat, looks as though he doesn't give a hoot over his honorary chairmanship of National Dog Week. On the contrary, the rhumba king's familiar pet looks as though he'd be more comfortable on New York's good-old terra firma and the firma the terra the better.

LOOK OUT, FERDINAND—Although soccer has replaced the traditional bull-fight as Spain's national sport, crowds still flock to cheer and jeer the fighters at Madrid's arena. This picador, his feet and calves well protected by steel and leather, inflicts painful wounds on the bull to weaken and madden him. Then the matador takes over.

end here with her parents, the John Felderhoffs and family.

Rudy Hellman is the owner of a new Dodge Wayfarer sedan delivered this week by F. E. Schmitz.

Messrs. and Mmes J.J. Haverkamp and Leo Haverkamp spent the weekend in Corsicana visiting their daughter and sister, Mrs. Troy Cooper and husband.

Mr. and Mrs. Ray Evans entertained Sunday night with a fried chicken dinner in their home honoring Lynton Mitchell, on his birthday. In addition to the Mitchell family guests included Mr. and Mrs. John Steele.

Miss Ruth Fisher and Miss Dorothy Gross, students at OLV College in Fort Worth, came to Muenster Friday for the Lanier-Hornet football game and remained to spend through Sunday with the former's parents, the John Fishers.

Women of the parish are reminded of a regular meeting of the Mission Sewing Circle next Friday, Oct. 21. Mrs. Joe Swirczynski, chairman, asks that anyone who has old sheets or other linen suit-

able for hospital bandages to bring or send them to the meeting. Quilt scraps are also solicited.

Sacred Heart P-TA Plans Hallowe'en Benefit Carnival

Meeting in a special session Tuesday afternoon, room mothers of Sacred Heart grade school and their assistants made plans for a benefit Hallowe'en carnival.

It will be held on Sunday, Nov. 30, beginning immediately after October rosary devotions. The place is the Hornet football field and everybody is invited to attend.

The committee in charge advised that during the afternoon and evening hours there will be a variety of games and entertainment for children and adults and plenty of refreshments for all.

Case of the Drip

Landlord—"What are you complaining about now?"

Tenant—"Well, the faucet won't run, and I was wondering if you would have that hole in the roof moved over the tub."

Weatherproof Your Soil This Winter With Cover Crops

COLLEGE STATION. — Will the fall and winter raindrops strike unprotected soil on your farm and make flowing mud out of blowing dust? If so, says Roy L. Donahue, extension agronomist of Texas A. & M. College, your soil needs weatherproofing.

Soils, he adds, can be "proofed" against erosion losses by providing them with a green blanket of protection. That blanket can be made of any closely woven cover of growing green such as vetch, winter peas or one of the other adapted clovers. Or if you don't want to plant a legume, any growing crop such as oats, rye, barley or wheat will provide the weatherproofing against soil damage from fall and winter rains, says Donahue.

Few people doubt the value of weatherproofing the soil in the long run, says Donahue but what some doubt is this. Will it pay next year?

The answer to this question comes from records kept by extension service demonstrators located in all sections of the state. Corn following fertilized legumes made 36 bushels per acre against 18 bushels per acre where it did not follow fertilized legumes. This same method of farming, says Donahue, showed a per acre increase of 71 percent for cotton, 63 percent for grain sorghum, 56 percent for wheat, 65 percent for oats and 129 percent for sweet potatoes.

Donahue suggests that you see your local county agent about this weatherproofing job, for he can

help you select the right legume and proper fertilizer for weaving that blanket of green for your farm.

The American Way "WHO CARES ABOUT PROFITS?"

By Dr. Alfred P. Haake

The obvious answer to the question, "Who cares about profits?" is "the people who get them." And immediately the cynics get ready to laugh. At this point the so-called "liberals," "modern humanitarians" and "social-equalizers" would stop. They would do away with profits. For example, a widely-known preacher, who married a rich wife and enjoys luxurious living from her profits, states publicly that we ought to do away with the profits motive. And all the brood of Karl Marx, including the allied "front" organizations, are likely to denounce profits.

If profits were of importance to the rank-and-file of people, instead of merely to the rich, there might be more careful thought given to profits. We might even take action to protect them. So, let's ask ourselves the question, "Who ought to care about profits?"

There are 428 larger corporations which report names of stockholders. There are hundreds of thousands of other corporations which do not report the ownership of their companies, but it is likely that these smaller corporations which do not report, have even more "little people" among their stockholders, than do the big ones. So the figures of the 428 which report ownership can be taken as a conservative sample of truth.

The dividends of these 428 corporations are divided among about 13 million stockholders. Two dollars out of every three dollars of the dividends go to stockholders who have less than \$100 a week income. What is even more significant, these stockholders are able to retain about 83% of their dividends, after paying their income taxes.

Now, let's look at the "rich" people who are also stockholders. They get less than one-third of all the dividends paid out, and the Federal Government promptly takes nearly all of these dividends after they are paid. Whereas the people with incomes of less than \$100 a week receive two-thirds of all the dividends and are able to keep 83% of what they get, after paying their income taxes,—these awful "rich" people get less than one-third of the dividends to begin with, upon which they are taxed about 80%. This means that after income taxes the "rich" have left for themselves an amount equal only to 4% of all corporation dividends.

So it looks as though a great mass of people who have invested savings in corporations get about two-thirds of all the dividends and keep nearly all of what they get, to use for themselves. These people should care about profits.

Add to them the 70 million people who have savings accounts, 78 million people who hold insurance policies, with funds invested in turn in savings of one kind and another. And we have well over a hundred million people, even allowing for duplications, who get part of their income out of profits

Caught In The Act

which pay return on savings and investments. All of these people ought to care about profits.

But, among the hundred million people, the majority are wage earners, the very people who are told that profits are bad and ought to be stopped. A great many of them are directly interested in the dividends that come to them out of profits. But all of them are interested for another reason.

The tools and machinery which make labor productive and make possible the enormously higher standard of living for all people in the United States, have come to us originally out of profits. Destroy profits and we destroy incentive to saving, to investing, we reduce the number and quality of tools and machinery with which labor produces enough for its high standard of living. We would destroy the very source from which churches and schools and all that we call civilization have sprung.

So, in the last analysis, the group that ought to care most about profits, and insist on decent protection of profits, and the encouragement of savings, are the workers themselves. Their jobs depend on profits.

Memphis, Texas, was so named because when settlers were trying to decide upon a name for the town, a letter addressed to Memphis, Tenn., was sent there.

N. Fette, who having been duly sworn according to law, deposes and says that he is the publisher of the Muenster Enterprise and that the following is, to the best of his knowledge and belief a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the act of August 24, 1912, as amended by the acts of March 3, 1933, and July 2, 1946 printed on the reverse of this form to wit:

1. That the name and address of the publisher, editor, managing editor, and business manager is: R. N. Fette, Muenster, Texas.

2. That the owner is: R. N. Fette, Muenster, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are: None.

4. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the twelve months preceding the date shown above is 1115.

Sworn to and subscribed before me this 10 day of Oct. 1949.

From where I sit... by Joe Marsh

But Curly "Knows What The Score Is!"

Was over at Doc Sherman's drug store listening to the World Series on the radio Curly Lawson wanders in and says: "How about a chocolate malted, Doc?"

"Sorry, Curly," says Doc, "can't make you a malted for a while yet." "What's the idea?" Curly asks. "Well," says Doc, "most of the folks want to hear the game and the mixer makes too much noise." Curly thinks a moment and says, "Okay with me, Doc—I'll take a chocolate soda!"

This shows how tolerant folks can be Doc showed his respect for

how the majority felt; Curly was big enough not to insist on his malted even though he doesn't happen to be fond of baseball.

From where I sit, willingness to respect the other people's feelings is important in a Democracy. If we're tolerant of a person's like for baseball or a glass of temperate beer, we've come a long way on the right road... the road to a better America, that is!

VOL. 1

NUMBER 4

Edited by Murlin Evans and Johnny Fisher

On Octobr 4, the FHA girls in blue jeans, pigtails, and one-half of their make-up on went to Era for a grand time -- the FHA informal initiation.

When they first arrived at Era they played a get-acquainted game. After that they were blind folded and had to grab for their shoes which were all in a pile. Then initiates had to roll an egg across the gym floor with their

noses, and if they broke it they were supposed to eat it. They were then blind folded and taken out to the football field. When the initiates got back they had a chance to initiate the Era girls, but instead the Era girls used the ideas of the Muenster girls for their own use.

Cokes and cookies were served by the Era Chapter of the FHA. The Muenster girls finally got their shoes back and started for home.

Mildred Hall, Reporter

The first meeting of the 4-H Club for the year was held at the public school on October 6. The following officers were elected: President, Douglas Robison; Vice-President, John Aytes; Secretary, Ted Cannon; and Reporter, Billy Whitt. Mr. Weldon Cowan is the sponsor.

The 4-H boys will go to Dallas for the Dallas State Fair on Saturday, October 15.

Billy Whitt, Reporter

On October 5, twenty-two members from the local FFA Chapter and twenty members from the St. Jo FFA Chapter received the informal initiation from the St. Jo FFA boys who were members of the FFA for more than one year.

One amusement that was expensive to most boys was the "Shoe-Race Contest." Shoes were taken up and tied together and put in two separate piles. The result of this contest was that nearly everyone's shoe-laces were either broken or cut. The first boy to get his shoes on at the front of the gym was to receive fifty cents. This prize was won by Justin Dennis of St. Jo.

Muenster boys initiated were: Teddy Cannon, David Reiter, James Hammer, Tommy Walterscheid, Milburn Cravens, Donald Muller, Gerald Walterscheid, Billy Ray Bezner, Eddie Fette, Jerry Hoenig, W.L. Wylie, Wilfred Klement, Richard Knabe, Ted Owens, Clyde Muller, Maxie Swirczynski, Lawrence Dankesreiter, T.J. Owens, Glenn Hellman, Douglas Robison, Billy Whitt, and Emmet Walterscheid.

Mr. Buel E. Range, vocational agriculture teacher at the St. Jo High School, directed the initiation. Sandwiches and cokes were served by the St. Jo members. Mr. Ralph Maglaughlin, vocational agriculture teacher at the Muenster High School, and Mr. Frederick Huff, English teacher and sponsor of the "School Scribblings," accompanied the boys.

Wilfred Klement, Reporter

The contract for the Muenster High School annual was awarded to the Intercollegiate Press on Thursday, October 6. The staff has been selected as follows: Editor, Douglas Robison; Assistant Editor, Johnny Fisher; Business Manager, Lue Edythe Cherry; Society Editor, Judy Long; Art Editor, Henry Weinzapfel; and Typist, Florence Henschel. At this time plans are being formulated for the advertisement selling campaign.

A table doily which may be seen in the display window of the Variety Store will be given away by the Future Homemakers of Amer-

TURTLE HUNT PROGRESSES—At Churubusco, Ind., farmer Gale Harris, right, is still draining the lake on his farm said to be the stamping ground of a turtle "big as a barn door." Harris shows Walter Johnson, left, a 65-pound turtle uncovered in the draining process.

ica at the school carnival on October 31.

Magic and pie will be the attractions at the first party sponsored by the Mothers Athletic Club. It will take place this Friday night at 8 o'clock in the school lunch room. Dr. Reuther of Gainesville will provide the magic and the pie auction will follow his act. Admission is 50 cents per person or one pie per couple. Everybody is invited.

COMING SCHOOL EVENTS

Thurs., Oct. 13—Hornets Seml-"B" Team vs. Callisburg, here 7:15 p.m.

Fri., Oct. 14—FHA meeting, 10 a.m.

Pie Supper sponsored by the Athletic Mothers' Club. Admission will be either a pie or fifty cents per person.

Sat., Oct. 15—Local Chapters of the FFA, FHA, and 4-H Club go to Dallas for the Dallas State Fair, 6 a.m.

Mon., Oct. 17—FFA meeting, 7:30 p.m.

Tues., Oct. 18—Adult Workshop for all ladies interested in homemaking and all men interested in agriculture, 8 p.m. KC Hall and Agriculture Room.

Wed., Oct. 19—Delegates from the local Chapter of the FFA go to Dallas for the state-wide Grass-Judging Contest.

Thurs., Oct. 20—Pep Club practice, 7:30 p.m.

Fri., Oct. 21—Hornets vs. St. Joseph, here.

Miss Louise Schmitz of Craig, Colo., arrived Tuesday for a visit with her parents, Mr. and Mrs. H. M. Schmitz. Enroute to Muenster she spent a week at Hays, Kansas, with her sister, Mrs. Joe Thomason. She will return to Colorado shortly after the marriage of her brother Gene next Tuesday.

Mrs. Clarence Hellman Elected President of Get-Together Club

The election of officers for the coming year featured the business session of the Get-Together Club on the first Wednesday of the month. Members met in the home of Mrs. Arthur Endres.

Mrs. Clarence Hellman is the new president and Mrs. J.B. Wilde is the new vice president. Mrs. Joe Horn continues as secretary-treasurer.

Members decided to have the next meeting on Thursday, Nov. 3, so as not to conflict with services held on All Souls' Day. Miss Anna Hellman will entertain in her home.

After the business session the usual progressive 42 series entertained the group. Prize winners were Mrs. Joe Horn, high score; Mrs. W.H. Endres, low score; Mrs. Joe Kathman, galloping award. Two members, Mmes. John Klement and John Wieler received birthday gifts from their Sunshine Pals.

The hostess served a delicious baked chicken and dressing dinner plate to 14 members and two guests, Mmes. Joe Otto and Albert Danglmayer. Miss Jeanette Walter assisted the hostess in serving.

The first Plymouth Suburban to arrive in Muenster was delivered this week to the Cooke County Electric Co-op. The car is a sort of station wagon without wood panels, having two seats and a large open space behind them for luggage or equipment. It will be used by the co-op's engineering crew.

Local NCCW Will Sponsor Bake Sale

The parish unit of the National Council of Catholic Women will sponsor a bake sale on Saturday, Oct. 22. Plans for the event featured the business session of the women at their meeting Sunday afternoon. Mrs. Tony Gremminger, president, presided.

Headquarters for the baked goods will be the Muenster Beauty Shop.

Doctor Charles Reiter of New York City spent from last Thursday to Monday here with relatives of the Bernauer and Reiter families. He was the house guest of the L.A. Bernauers and they joined him Sunday on a trip to Decatur where they spent the day with the L.W. Flusche family. From here Dr. Reiter went to Kerrville to spend a week with his father before returning to his studies. He received his M.D. degree and is now doing post graduate work, specializing in skin diseases and plastic surgery.

ABOUT MY ELECTRIC RANGE!

*of course,
it's electric!*

Can't wait to get into the kitchen in the mornings! Take the accurate temperature control, for instance... I prepare a whole meal, set the temperature control to the heat required, and all I do is take it out of the oven at the designated time. It's as easy as that, for the temperature control does the watching for me—cuts on and off to keep uniform cooking heat... and I get perfect results every time!

The deep-well cooker, a wonderful feature in the new electric ranges, is perfect for stews, baked beans and other one-dish meals, as well as complete balanced meals. Saves plenty of time... and money, too!

Then there's the big oven! I can cook a whole turkey, or ham, and all the trimmings, even desserts, at one time. Yes, I love cooking... cooking the electric way. It's cool, economical, fast and time-saving! Take my advice—stop by your Electrical Appliance Dealer and see the modern electric ranges!

TEXAS POWER & LIGHT COMPANY

Birthday Calendar To Raise Funds for Park Improvement

To raise funds for financing an improvement program in the city ball park, members of the Ladies Civic League and Garden Club in regular session last Thursday night, made plans for publishing a community birthday calendar.

The calendar, which has been popular with other women's clubs, consists of a regularly arranged calendar with each date listing whatever persons are registered as having birth anniversaries on that date.

The financing plan is to solicit sufficient advertising support to defray the cost of publication. Names listed on the calendar, at 10 cents each, will determine the net proceeds for the park improvement fund. In the event that response on ad sales will exceed publication cost, the excess will also go into the fund.

Club members regard the project not only as a means of raising funds but also as an accommodation to those who wish to know other people's birthdates.

Contemplated improvements include levelling the field, eliminating weeds and planting vines or shrubs around all the fence. Another expense is replacing the three memorial live-oak trees which have died.

Duane Fleshman who went to Kingman, Kansas, last week, is now employed in Cushing, Okla. He visited friends here Sunday.

GILBERT ENDRES SET TO MOVE LOTS OF DIRT WITH NEW DRAG LINE

The Gilbert Endres earth moving business is considerably larger and more versatile this week since the arrival of its big 40-ton motor crane and drag line. It will replace Gilbert's bulldozer on a variety of jobs such as digging tanks or ditches and excavating.

The machine is mounted on rubber and has a 40 foot boom from which the drag line and bucket operate. Besides besting the dozer on a number of jobs it handles others that cannot be done with a dozer... such as loading trucks or digging holes too small for the dozer to maneuver in. It's also useful for lifting heavy objects.

Garden Club Names Chairmen; Changes Date of Meetings

Chairmen to head the committees of the Civic League and Garden Club were announced at the organization's meeting last Thursday night and the regular meeting date for the club was changed to the evening of the first Thursday of each month.

Chairmen, who had been chosen by the executive committee in a previous meeting in the home of President Mrs. Nick Miller, are Mrs. Ervin Hamric, program and year book; Mrs. Lou Wolf, flower show; Mrs. T.S. Myrick, park; Miss Olivia Stock, soil conservation; Mrs. Tony Gremminger, sanitation; Mrs. David Trachta, finance; Mrs. J.C. Trachta, highway; Mrs. M.J. Endres, cemetery.

Mrs. Miller presided during the business session and Mrs. Myrick outlined plans for beautifying Veterans Memorial Park. Mrs. David Trachta explained the birthday calendar, adding that she and her committee will start work on it immediately. Mrs. Steve Mosler gave an account of her visit to the Rose Festival at Tyler.

During the program hour, Mrs. Joe Luke was the featured speaker. Her topic was "Landscaping a Home". She also gave helpful hints on flower arranging which were illustrated at a Flower Clinic held recently by the Evening Garden Club of Gainesville.

Mrs. Myrick displayed an unusual arrangement of wild flowers and grasses.

Twenty members were present for the meeting which was held in the home of Mrs. Steve Mosler. New members welcomed are Mmes. Leo Neyer, Ralph Maglaughlin and L. A. Bernauer and Miss Ruby Kelly.

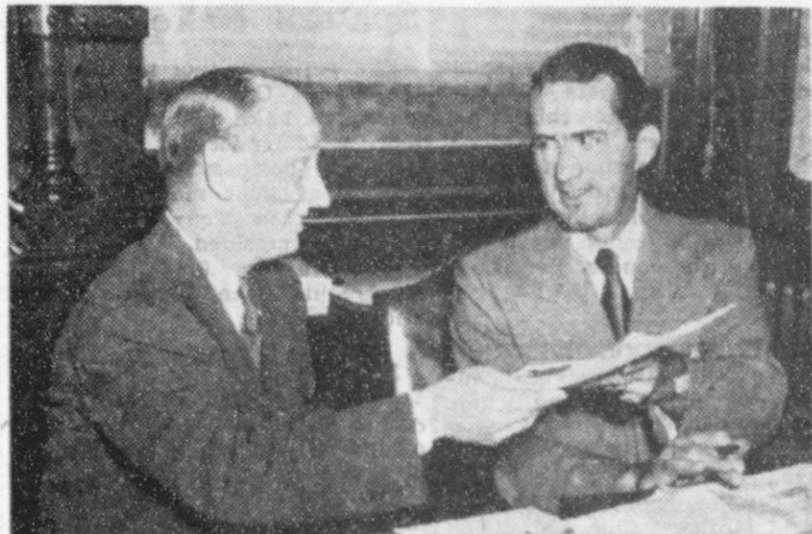

After adjournment Mrs. Mosler served refreshments of nut bars and coffee.

Governor Proclaims OIL PROGRESS WEEK

Oil Progress Week, October 16 through October 22, became an official Texas occasion when Governor Allan Shivers delivered a signed proclamation of the event to E. C. Scurlock, independent Houston oil man, Texas chairman of the Oil Industry Information Committee.

Veterans To Help In Beautification Of Memorial Park

Members of the Muenster VFW Post, meeting Tuesday night in regular monthly session, made plans to assist in the beautification of Veterans Memorial Park and agreed to continue sponsoring the local Boy Scout softball team.

Arnold Swirczynski was appointed to consult with Mrs. T.S. Myrick, park chairman of the Civic League and Garden Club, to find out how the post can best assist in the park beautification, and Steve Mosler was appointed to take charge of the softball team.

The committee on the hospital bed reported that the bed has been in almost constant use since the post received it a year ago. Members gave a rising vote of thanks to businessmen of the city for their co-operation and help in sponsoring the recent donkey ball game.

Post Commander Walter Becker stated that the post was notified of the meeting of the Jehovah's Witnesses in Gainesville recently and that the post responded to

the call by being represented in Gainesville.

Mention was made of two members being patients at McKinney veterans hospital, Bill Kathman and August Walterscheid.

Joe Tempel and Charlie Morris were welcomed as new members.

Magic 'n' Pie Party At 8 Friday Night

A sleight of hand performance by Dr. J. R. Reuther of Gainesville and a pie supper are the big features of a benefit party to be sponsored Friday night, Oct. 14 by the Mothers' Athletic Club. Proceeds from the event will go into the football fund. It will be in the school lunch room, beginning at 8.

Dr. Reuther will have the first part of the program with his tricks and the pie supper will follow. Dick Cain will auction the pies.

Mr. and Mrs. Vincent Zimmerer of Lindsay were Sunday dinner guests in the home of Mr. and Mrs. Albert Herr.

Holy Name Society Plans Stag Party

Meeting Monday night in a regular business session, members of the Holy Name Society made plans for a stag party. It will be held in the church basement next Monday night beginning at 8 o'clock.

Other features of the meeting consisted of an address by Rev. John Walbe, spiritual director, routine business and reports by committee chairman. Twenty members attended.

PINK AND BLUE SHOWER HONORS YOUNG MATRON

Mrs. George Gehrig and Miss Eva Muller entertained in the former's home Sunday afternoon with a pink and blue shower honoring Mrs. C.D. Richards.

The 12 guests presented the honoree with gifts and enjoyed a progressive 42 series. Mrs. Catherine Gehrig won the high score award and Mrs. Tony Noggler received the consolation favor.

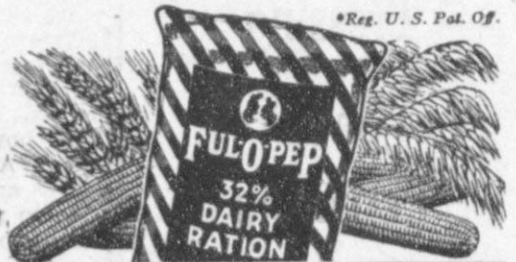

The hostesses served chicken salad sandwiches, coffee and cake.

October 13, 1939

Boom activity is noted in vast building program; most progressive period in community's history with industrial commercial and domestic interests profiting by widespread trend toward improvement. — Mrs. Mary Bernauer, 82, dies after an extended illness. — Fourteen local girls enter race for Miss Muenster, Queen of the Golden Jubilee. — Lena Kleiss sustains arm fracture and bruises when hit by car on Main street. — Effective this month the service rate of the Muenster Telephone company is increased from 75 cents a month to \$1 for residence phones and is \$1.50 for business phones. — Extended drought is broken by more than one inch of rain. — Florence Arend and Eddie Rauschuber marry at Lindsay. — Mrs. Jake Pagel is elected president of the Get-Together club. — Mr. and Mrs. Arthur Endres of Sulphur Springs visited here on Columbus Day.

5 YEARS AGO

October 13, 1944

Pvt. Alphonse Felderhoff is wounded during the Holland invasion. — Over 2,000 articles of clothing are donated to European relief drive. — Bernard Hesse, 4, loses his right middle finger in a lawn mower accident. — Pvt. Vincent Felderhoff who fought with the 36th division arrives in the states. — Sgt. Rolland Patrick and Nina Fae Hammer marry. — Dorothy Winstead and Pfc. Lester Epps marry. — Hugh Endres has appendicitis operation. — Mrs. Ben Haverkamp is recovering after a thyroidectomy. — The Andy O'Connors observe their 25th wedding anniversary. — Reunion observes birthday of Mrs. F.M. Shiflet, 79. — The Herman Danglmayrs announce the arrival of Paul Edward. — Rita Hoenig observes her 11th birthday with a party.

Lockjaw Germs Are Found Everywhere; Watch Every Wound

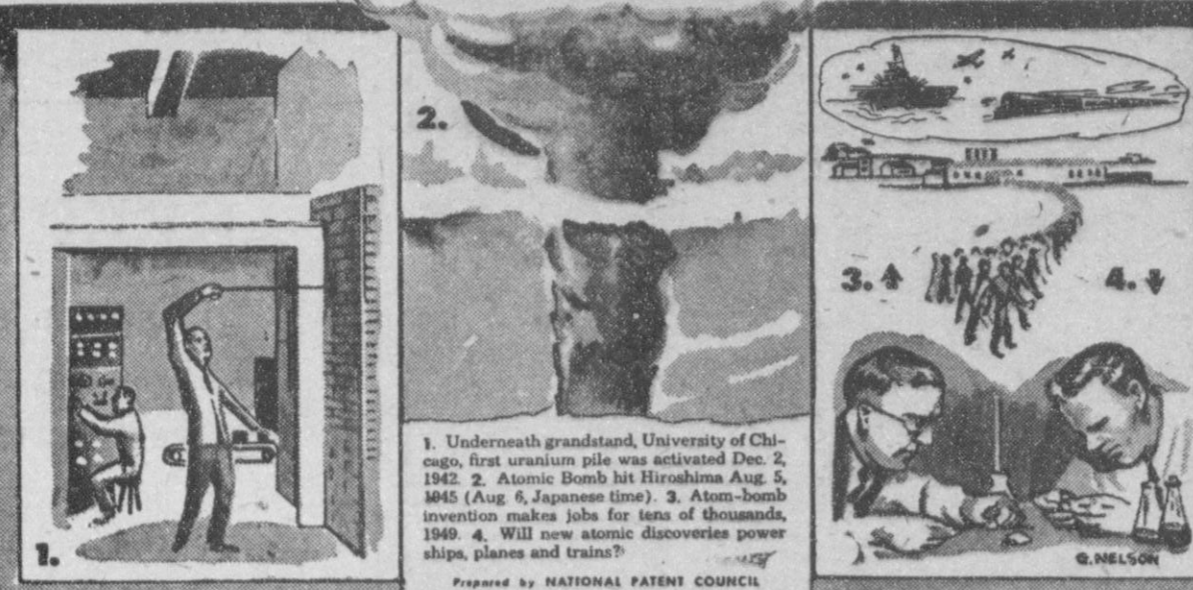

AUSTIN, TEXAS.— Lockjaw, or tetanus, is a very serious disease caused by a tiny germ that looks like a stick with a ball on one end—something like a microscopic lollipop, says Dr. Geo. W. Cox, State Health Officer. This ball is called a spore and it is the seed of the germ. Lockjaw germs are found in the soil, especially in manured soil of the barnyard or garden; in blank cartridges; etc.—in fact, just about everywhere. These germs grow best in wounds where there is considerable tissue destruction and in which chips of glass, wood splinters, or grains of dirt have been embedded.

Every accident seen by the physician must be considered from the lockjaw angle; and whenever there is any question, tetanus antitoxin should be given, for it is the antitoxin that has helped to keep the incidence of lockjaw at its low level. Your physician will advise you as to its use. Its disadvantages are that it gives only temporary protection; it does not get rid of the lockjaw germs in the wound; and it does sometimes cause hives and other disagreeable symptoms for a few days, particularly if the subject has had previous injections. Should lockjaw develop, it requires much antitoxin and entails great expense; and even then, not all cases can be saved.

It is not possible to free the environment of lockjaw germs, but now there is a method of active immunization. The subject becomes his own manufacturing establishment for antitoxin to combat lockjaw poison.

One nice feature about the treatment is that it can be combined with diphtheria and whooping cough prophylaxis. The concurrent immunization is, preferably, carried out in infancy. Should a child already have had his diphtheria toxoid and whooping cough vaccine injections, he can take

THE STATE OF TEXAS
To: Mae Summitt Snyder, if living, and if dead her heirs other than her two children, Dorothy J. Hodges and Nellie Loraine Bush, and her husband, Jack Snyder, if any, who are unknown to plaintiff, and their heirs and legal representatives, and the said Jack Snyder, if living, and the unknown owners of a 1-18 interest in leasehold estate in minerals in and under the hereinafter described land, Greeting:

You and each of you are here, by commanded to appear before

the District Court of Cooke County, Texas, to be held at the courthouse of said County in the City of Gainesville, Texas, at or before 10 o'clock a.m. on the first Monday after the expiration of 42 days from the date of issuance hereof the same being Monday, the 7th day of November, 1949, then and there to answer petition filed in said court on the 20th day of September, 1949, in a suit numbered on the docket of said court No. 15570, and styled F.E. Case vs. Mae Summitt Snyder et al, wherein F.E. Case is plaintiff and Mae Summitt Snyder, if living, and if dead her heirs other than her two children, Dorothy J. Hodges and Nellie Loraine Bush, and her husband, Jack Snyder, if

any, who are unknown to plaintiff, and their heirs and legal representatives, and Jack Snyder, if living, are defendants, the nature of said suit being one in trespass to try title brought by said plaintiff against said defendants to establish his title to a mineral leasehold estate in the North 80 acres of Lot No. 16 of Fannin County School Land Survey, Abstract No. 1248, in Cooke County, Texas, and in the alternative for partition of the mineral leasehold estate in said land, wherein it is alleged that if the said Mae Summitt Snyder is living she owns a 1-18 interest in said leasehold estate and the plaintiff owns a 17-18 interest therein.

within 90 days after the date of its issuance, it shall be returned unserved.

Issued and given under my hand and the seal of said Court at Gainesville, Texas, this the 20th day of September, A.D., 1949.

Both Candidates for State School Board Favor Gilmer-Aikin Provisions

Under provisions of the Gilmer-Aikin law the state Board of Education will consist of a representative of each of this state's 21 congressional districts, each district to choose its own representative in the election of November 8.

Candidates for this area, the Thirteenth Congressional District, are W. J. Stone of Nocona and R. B. Anderson of Vernon. Their views and qualifications, as published in a recent article of The Dallas Morning News, are presented here as a service to local voters.

The two candidates for the State Board of Education from the Thirteenth Congressional District agree the new Commissioner of Education must be a man in favor of the Gilmer-Aikin school reform acts.

Candidates are 47-year-old W.

J. Stone, a school man for twenty-five years who is now a Nocona truck and farm equipment dealer, and 39-year-old R. B. Anderson, Vernon lawyer and business executive.

Whom the new elective board chooses as the administrator of the state's public schools under the new reorganization laws will be the first big task before it. The board members will be elected in each of the congressional districts Nov. 8.

Dr. L. A. Woods, who opposed the law abolishing his elective job as State Superintendent of Public Instruction, has said he would like to be the new commissioner.

Statements of the two candidates in this district indicate Dr. Woods can not look to either for support.

Anderson said it would not be sound for a board member to begin his job "with a preconceived commitment" as to who should be the commissioner.

But he added: "I do believe that the individual selected for this position must be one who has faith in the educational system developed by the Legislature and whose views are consistent with the fundamental principles the Legislature lays down for the administration of the school system."

On the choice of an administrator, Stone said:

"I do not feel it wise to place the responsibility upon anyone that has been bitterly opposed to the program and has spent an untold amount of time in leading the fight to defeat it."

Stone said he heartily approved of all major points in the change. With a fair chance to operate through a favorable board, Stone said, "I see no reason why such a program will not prove the greatest step to public education in its history."

Anderson commented that the G-A acts "offer at least the first step to the development of a sound educational system in Texas."

Both of the candidates are looked upon with favor by school people in this 15-county North Texas district.

Anderson was graduated from Weatherford College when he was seventeen years old and received his LL.B. degree from the University of Texas when he was 22.

In the next four years he had been elected to the Legislature appointed assistant Attorney General, taught law at the university, and been State Tax Commissioner, State Racing Commissioner, and chairman and executive director of the Texas Unemployment Commission.

Anderson left his state tasks in 1937 to become general attorney for the huge W. T. Waggoner estate in 1937. Four years later he became general manager.

His business activities inclu-

PITTSBURGH, PA.—CIO President Philip Murray (right) confers with David J. McDonald (left), secretary and treasurer, United Steel Workers of America, and Allen P. Haywood, CIO Director of Organization, at the 36-man executive committee and 170-member wage policy committee meeting here. They represent labor side of the current wage-hour discussion with steel company representatives.

The finger from an old glove or a thimble placed over the end of a curtain rod helps the curtain slip on to the rod easily without catching or tearing. Soils can be protected against winter erosion losses by providing them with a green blanket. The blanket can be made of adapted winter legumes or small grains.

de vice-presidency of a refining company, director of a broadcasting company and deputy chairman of the board of directors of the Federal Reserve Bank in Dallas.

He is now president of the Texas Mid-Continent Oil & Gas Association, a director of Texas Wesleyan College at Ft. Worth, McMurray College at Abilene, Vernon Industrial Association, and American Petroleum Institute, and former president of the Vernon Board of Education.

He is a Democrat, Methodist and Mason. He has two sons.

Stone spent a quarter of a century in the Texas school system. He received his B. S. degree from Sam Houston State College and his M. S. from the University of Texas. He taught two years, was athletic coach and principal for three years, and then for twenty years a superintendent.

For several years he served on the executive and legislative committees of the Texas State Teachers Association, which was a prime force in obtaining enactment of the G-A laws in the recent Legislature.

He resigned in 1945 as superintendent of the Nocona schools because, he said, "it did not offer enough remuneration for a livelihood and enough savings to provide college training for my two children, who are now attending the University of Texas."

He entered the truck and farm equipment business then. Stone is a Democrat, Baptist and Mason.

Upper Elm-Red Soil Conservation District News

DISTRICT SUPERVISORS

J. W. Hess, Muenster V. W. Redman, Saint Jo
John Rice, Collinsville Ed Blackmon, Bowie
Willard Kemplin, Valley View

Soil conservation district co-operators are preparing now for increased yields on next years crops. They are planting vetch and peas for winter cover and green manure crops to be followed with next year's corn, sorghum, cotton and sudangrass. The fall-planted winter legumes that are coming up now can be expected to make considerable growth before real cold weather gets here. The old timer thought the soil should be turned up to the ravages of winter rains and freezes to prepare it for spring planting. This idea has given away to the newer idea that a soil protected by a vegetable cover of legumes all winter will be in better shape for spring planting. The vegetable cover prevents the puddling of the soil surface, reduces erosion and aids in storing more water in the ground. The legume green manure crop will improve the soil structure, aid in making plant nutrients available that would otherwise be in the soil in unavailable form, and supply additional nitrogen if the legume bacteria do their work.

Meinard Hesse has planted part of one of his fields to Dixie wonder peas and the rest of it is going to hairy vetch.

Al Walter has planted Dixie wonder peas on land that is going into corn next spring. If the peas make good growth, Al should be able to grow good corn next year.

Joe Swirczynski has phosphated and planted hairy vetch on a 17 acre field that has a partial stand of Madrid clover on it. He has a good chance to make lots of spring grazing and a good green manure crop or seed crop.

Joe Starke has been rounding up Dixie wonder peas and phosphate. He should have them planted by now.

R.M. Zipper has planted one of his fields to Dixie wonder peas. He fertilized it with phosphate. He'll probably sow the field to spring oats for grazing if the peas make their growth in time.

Al Weisman is trying out Leavenworth vetch to determine its possibilities on the Prairie Soils of Muenster. This vetch was once an important component of grasslands and has possibilities as a green manure crop, and a grazing crop. Al is overseeding 5 acres of meadow to the vetch and will seed 4 or 5 acres of cropland.

Paul Fisher is planting about 30 acres of vetch. Part of it is going on his waterway.

In addition to these new seedlings of winter legumes most of the fields that produced a seed crop of vetch this spring now have a good volunteer stand.

The world's largest vegetable farm is located near Edinburg, Texas.

LOOKING THINGS OVER—President Carlos Prio Socarras of Cuba gets into a jeep driven by his recently appointed chief of staff, Gen. Ruperto Cabrera, to inspect the grounds of the Cuban Military Academy at Managua.

Knabe and Fisher Herds Lead County In Milk Production

John Knabe's herd took top honors and Paul Fisher's was in second place in the Cooke County DHIA for the month of September, a summary for the month shows.

Thirteen herds in the association were tested, including five belonging to Muenster members. Cows tested totaled 212 of which 31 produced 40 pounds of butterfat or over. Of the 31 cows, 16 belong to Muenster members.

Knabe's herd of 29 Jerseys came up first place for producing an average of 672 pounds of milk testing 4.7, with a butterfat average of 31.2. Fisher's herd of 16 cows averaged 626 pounds of milk testing 4.8, with 29.8 butterfat average.

Muenster members participating in the program, number of cows producing over 40 pounds of butterfat and the amount, are:

John Knabe, 7 cows, butterfat average 40 to 51; Paul Fisher, 4 cows, 40 to 50; Thomas Sicking, three cows, 46 to 53; J.W. Fleitman, one cow, 41, C.A. Fisher, one cow, 40.

Bees Worth More As Pollinators Than As Honey Producers

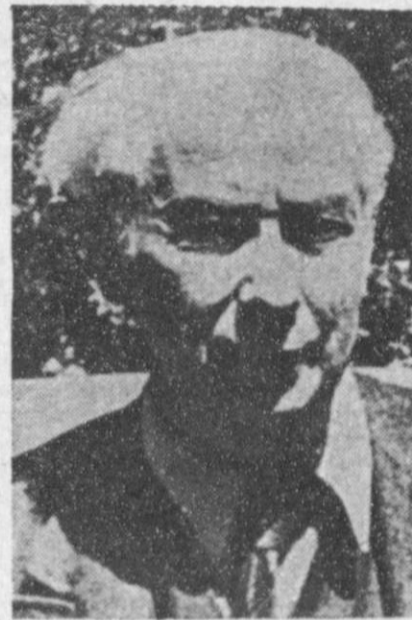

COLLEGE STATION, — The total value of honey and other products produced by bees in Texas is small compared with other agricultural products. Nevertheless, bees are worth 15 to 20 times more for their pollination service than for the honey and wax they produce.

Honey bees are the only insects controlled by man that can be provided in numbers at the right time and put in the place where needed for plant pollination according to A.H. Alex, in charge of research in bee culture at Texas Agricultural Experiment Station. Legumes such as clovers, alfalfa and vetch play an important part in the progress of soil improvement and soil building programs. Seed production in these crops requires insect pollination. Without these insects, such plants or crops will not seed or fruit no matter how well cultivated, fertilized and protected they may be from insects and diseases.

When beekeeping is mentioned, the general reference is to honey production, Alex points out. But wherever plants or crops require insects for pollination purposes, honey bees are vital and often the very basis of agricultural prosperity. Texas has between 25 and 30 such crops.

Research in beekeeping in the Texas Agricultural Experiment Station is being carried on the year round to further prove the necessity of providing bees near certain crops in order to get maximum production.

In Caldwell county, a field near three apiaries that provided more than one colony of bees per acre of hubam clover, yielded 567 lbs.

BONN, GERMANY—The first President for Western Germany's new Federal Republic is Professor Theodor Heuss, shown above. The professor had the backing of three right-wing parties, and is expected to form a coalition government.

of seed as compared to a similar field with fewer bees located more than three-quarters of a mile away that produced only 412 pounds of seed per acre. This is a 37 percent increase in seed yield where bees were plentiful.

In Erath county, a field of vetch within a half mile of approximately one hive of bees per acre, yielded 524 pounds of seed per acre compared to a similar field one mile from a third less colonies, that produced only 242 lbs. per acre.

These results show 25 percent increase in seed yield where bees were most abundant.

A serious problem of beekeeping in Texas is the poisoning of bees by insecticides, principally calcium arsenate dust applied in cotton fields. The newer insecticides have proved less toxic to bees, says Alex. But in recent years, bees have been poisoned by commercial fertilizer in the Lower Rio Grande Valley. The fact that bees are attracted by fertilizer during the season when pollen or bee bread is scarce indicates a deficiency in the diet, particularly during the early spring.

SKILLFUL BLENDING

Real Scotch whisky is made only in Scotland and is usually aged from five to ten years before it is blended. But the secret of its smoothness and uniformity lies in the skill of the blender who may use as many as thirty different straight whiskies out of the some one hundred available, to produce a particular brand.

There are 409 rooms in the Texas capitol building.

St. Mary's and St. Joseph's Clash Thursday Night

A preview of what to expect in two future games awaits Hornet fans at Gainesville Thursday night when the St. Mary's team of Gainesville clashes with the St. Joseph's team of Sherman.

The Hornets will meet St. Joseph's here next Friday, Oct. 21 and St. Mary's in Gainesville on Nov. 10.

Thursday's game between the two future Hornet opponents will be held in Leeper Stadium at 8 o'clock.

MISCELLANEOUS SHOWER HONORS DOROTHY VOGEL

Miss Dorothy Vogel, bride-elect of Robert Beyer of Lindsay, was honor guest at a party and miscellaneous shower given Sunday afternoon in the home of Mrs. Alphonse Hoenig with Mrs. Hoenig and Miss Rose Marie Becker as co-hostesses.

Clever games and contests entertained the guests and after the honoree opened her shower gifts the hostesses served refreshments. There were 20 guests.

Miss Vogel will be married to Mr. Beyer next Wednesday, Oct. 19, in Sacred Heart church here at 8 a.m.

Mr. and Mrs. Clem Buescher and daughter, Dolores, and Mr. and Mrs. Gene Pagel, all of Teutopolis Ill., left Wednesday to return to their homes after spending a week visiting relatives here and in Gainesville. While here they were guests of Messrs. and Mmes. Francis Wiese and Herman Luttmer and John and Ferd Albers. In Gainesville they visited Mrs. Clara Mosman, the Albert Mossers and the Joe Nichols.

Laneri ---

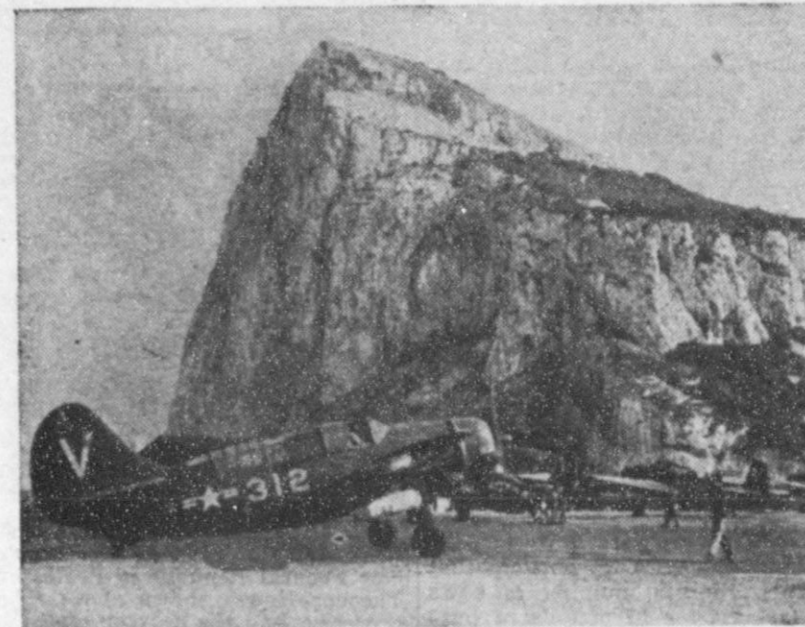

The game at a glance

	M	L

Losses Rushing	24	30
Net Gain Rushing	105	287
Passes Attempted	7	12
Passes Completed	2	6
Gains Passing	34	103
Penalties Assessed	5	9
Yards Penalized	25	125
Lost on Fumbles	3	0

The Micks drew frequent penalties for illegal use of hands on the offense. At one time in the final quarter one touchdown play was called back and the Micks drew 3 penalties of 15 each in one series of downs.

UP FROM THE RUINS—Ancient Carthage, one-time city of conquerors, rises again with the aid of Marshall Plan equipment. Destroyed long ago by Romans and Arabs, Carthage is being rebuilt by the Tunisian government as a tourist attraction.

The promontory of the historic fortress of Gibraltar serves as a backdrop for planes of the U. S. Navy's Valley Forge during the carrier's visit to the famous British bastion of the Mediterranean. The planes were land-based at the Royal Air Force strip during the ship's stay in Gibraltar. (Official U.S. Navy Photograph)

Following the Micks' score the Hornets made a gallant effort to come back but lacked the power to reach pay-dirt. Hellman carried the kickoff from the 20 to the 35. Yosten added 24 to the Micks 41 and Walter-scheid picked up 12. But from then on the gains were short and the Micks took over on downs on their 25.

Then the scoring march was on again. Two runs netted 10 and a pass added 37 to reach the Hornet 28. Steady driving in short gains from that point produced the second touchdown.

The Hornets tried again and again but the defense was too strong for them. After the kickoff they made a first down on their 36 and kicked when the second series of downs failed to gain. Holding the Micks they got the ball again on their 27 and fumbled two plays later on their 31. From there Howell got lose on a touchdown sprint for the visitors' third marker.

Still struggling the Hornets returned the kickoff to their 25 and advanced to mid field before losing on downs. Laneri took over and started again but the half ended with them on the 28.

The second half was stronger defensively, and Laneri's only score came on a recovered fumble behind the line. During the third quarter Laneri's

drive was interrupted three times by Muenster's stand. After the kick the Micks advanced from the 10 to the 26 and booted. They got the ball again on a fumble on their 33, picked up a first down and punted when the next series failed. Muenster failed to advance and Laneri got the ball again but was held for downs short of the goal.

Taking the ball on their 11 the Hornets lost 4 in 2 plays and fumbled behind the line on the next. A Laneri man covered for the fourth touchdown and the kick for extra point was good.

The final quarter found the Hornets still struggling in vain. A kick on the 25 was partially blocked and deflected upward, was carried back to the 10 by the strong south wind. Laneri passed over the line from there but the play was called back because of infraction of the rules. Three 15 yard penalties in that series of downs along with a heavy loss on a smeared play pushed them back to their 40 where they lost on downs.

Still trying the Hornets moved forward again for a 40 yard gain but lost on downs on the 20. Then Laneri started again and got as far as the Hornet 21 when the game ended.

St. Xavier ---

The game at a glance

	M	St. X
First Downs	11	12
Gains Rushing	136	153
Losses Rushing	18	20
Net Gain Rushing	118	133
Passes Attempted	6	11
Passes Completed	1	6
Gains Passing	30	134
Penalties	0	3
Yards Penalized	0	35
Lost on Fumbles	3	2

ble on the 45. Yosten's ball totaling plus a 30 yard pass to Herr sparked the drive to the 5 where, with 4 downs to go, the Hornets apparently had another goal in sight. But a fumble the next play changed the game entirely. The Warriors uncorked on offense that clicked from then on.

With Finn and Milligan as the big guns, Xavier advanced up field and were still going strong when the end of the half caught them at the 20.

The second half saw the Hornets make another good start. Returning the kickoff to their 25 they advanced to the Warrior 30 and lost on downs. Then the Denison boys broke loose and scored in 12 plays.

Returning the next kickoff to their 25 the Hornets fumbled on the second play and the Warriors got going on the 27. A ground play lost 6 yards but a pass reached the 7 and 2 line plays from there paid off.

The same old jinx plagued the Hornets after the next kickoff. On the first play they fumbled on their 32. But this time they smeared the Warrior defense and got the ball on their 20 after a kick to the end zone. A first down looked as though the Hornets were coming back, but the offense bogged down and the Warriors took over on downs on the 32. Just two pass plays were needed to add another touchdown.

PICKLE INCREASE IS JUST A GRAFT

WASHINGTON. — The Agriculture Department has received a report that two Bulgarian scientists have succeeded in doubling the yield of cucumbers by grafting them on squash vines. The cucumbers were said to grow much faster on the squash vines than on their own vines. The rapid growth and increased yield were attributed to the ability of squash roots to thrust deeper into the soil and obtain more moisture.

A LOT OF CRUST

In the few seconds it takes you to read this sentence, more than 4,500 loaves of bread will have been turned out by bakeries all over the country, according to the American Bakers Association. U.S. bread production is estimated at better than fourteen and a half billion loaves a year—sufficient to provide each man, woman and child with about 100 loaves annually.

Confetti ---

here with the hope that some others, like yours truly, will get the idea that the ladies are really entitled to more than they ask on this deal. And, for the benefit of any who get the idea, the column suggests further that there are ways to boost the cause along. Just insist it's worth more than a time to list your name on the calendar. Or tell the ladies to keep the change. Any donation will be gratefully accepted, we betcha.
