

MUENSTER ENTERPRISE

VOLUME XIV

MUENSTER, COOKE COUNTY, TEXAS, JULY 7, 1950

NUMBER 33

Phone System Goes Cited; Requires Calls by Number

Henceforth people making telephone calls over the local phone system will be expected to give the number and not the name of the person or place wanted.

The change of method, considered for several months past, will become effective as soon as the telephone company distributes new directories which are nearing completion now and will be delivered to the company during the coming week end.

For the first time in the history of this community the phone book will serve its intended purpose. Patrons of the company are reminded of that fact so they will not, as in the past, discard the book as soon as it arrives and expect to continue with the old method of placing calls. Herman Younger, president of the telephone company, suggests that every patron give the book a permanent place near the phone.

The change was made as a means of improving local telephone service. Younger said that it will save time now lost by operators in looking up numbers and give them a better chance to keep up with calls as they come in. Phone users will find on an average that they will get their connections more quickly.

The change will also solve another problem at the telephone office. In case of the absence of regular operators for illness or any other reason the job can be handled efficiently by any person familiar with a switchboard. Under the old method relief operators could not give good service because they lost too much time looking up numbers.

If all telephone users will cooperate in the change-over, Younger said, they will be amply compensated in better service. If, however, they will not take time to look up a number they will frequently find that they are wasting their own time. Operators will be expected to give prior attention to calls placed in the proper manner and give their information service after they have made other connections.

Building and Improvement Notes

The last stage of the Muenster Clinic's remodeling program got under way this week when workmen started to convert the former reception room, office and examination room into patients' rooms. Work done on the lower floor some months ago converted storage rooms of the Dixie Drug store into a reception room, office and waiting room for Dr. T. S. Myrick. After all work is finished the second floor will consist of a nursery and either 7 or 8 patients' rooms, the actual number still to be determined.

Another new building job in town is a combined double garage and work shop started this week for J. W. Fletcher.

At E. P. Buckley's two rooms are getting a general overhaul along with new paint and wallpaper.

Mr. and Mrs. Ray Wilde, Mr. and Mrs. Doyle Hood and daughter, and Otto Walterscheid, Andy Yosten and F. A. Kathman are in Houston this week attending the annual convention of the Veterans of Foreign Wars and the Auxiliary. Mrs. Wilde and Kathman, Hood and Walterscheid are delegates from the local organizations. The Wildes' young son, Danny, accompanied them as far as Austin where he is spending the week with his grandparents, Mr. and Mrs. John Schmitz.

Joe Voth of Justin spent the Fourth here with his sisters, Mmes. J. S. Horn and John Wilde. Mrs. Wilde is visiting here from Harlingen. Mr. Voth and Mrs. Wilde also visited their sister-in-law, Mrs. Barney Voth. Mrs. Horn, who is recovering from a broken hip is up and around some on crutches now.

TO RIDE CONGRESS WITH?—A pair of fancy hand-tooled boots were awarded to President Truman at the White House by officers of the national Press Club. Presenting the Texan high-steppers to the famed Missourian are Press Club President Radford Mobley, at left; Gibb Sandafer, at center; and Scripps Howard reporter Fred Perkins.

AL HESS NAMED COOKE COUNTY FARMER OF THE MONTH FOR JUNE

Alois Hess of Muenster is the Gainesville Register's Farmer of the Month for June and the recipient of a \$25 award in recognition of the accomplishments which prompted his selection. He is the sixth named since the program was inaugurated at the beginning of this year.

Mr. Hess manages a 183-acre farm, which he bought in 1941, one and a half miles northwest of Muenster. The Register's report suggests that Al might become a farm machinery manufacturer fulltime, because he is almost that—part time, in the event there should ever be a surplus of good farmers. Among his products are: a field cultivator chisel plow, a grain windrower mount for the front of his tractor, a weed mower, a tubular steel, 2-wheel rubber-tired hand cart which makes it easy to move milk cans from the house to the road—about 100 yards.

Hess raised his first crop on his farm in 1942. That fall he started terracing his land and four years ago he completed the job. He recently rounded out five years as a phosphate fertilizer demonstrator in co-operation with a program of the Texas A&M college extension service.

The plan required that he use phosphate as a fertilizer under legumes and on pasture land. Check plots, untreated, were left so the effect of the phosphate on treated land could be measured.

Hess' records show that on the whole the use of phosphate brought good results. In some years treated land produced 95 bales of alfalfa hay per acre

while the untreated check plot in the same field produced only 25 bales.

Crops on the Hess farm this year are 25 acres of white blossom and Madrid clover (to be harvested for seed), 38 acres of wheat, 11 acres of alfalfa, 18 acres of oats and 10 acres of corn. Seventy-five acres of wheat he planted on a rented tract north of his farm were wiped out by a hail storm in the first part of May.

There are 22 dairy cows and heifers on the place but only six have been milked during the past months. On alfalfa pasture are 17 shoats and two sows, and enough chickens to supply eggs for the family.

Al is the son of Mr. and Mrs. J. W. Hess. He attended school here and in 1940 married Miss Antonia Hundt of Lindsay, daughter of Mr. and Mrs. Joe Hundt. They have four children, Carol Ann 7, Veronica Mary 6, Dennis Joseph 5, and Jane Frances 2.

Members of the committee who select the farmer of the month are John D. Cunningham, county supervisor for the Farmers Home administration; County Agent B. T. Haws, chairman; Jack McFerran of the Soil Conservation service, and N.B. Newberry county administrator for the Production and Marketing administration.

May's farmer of the month was Adolph Fuhrmann of Lindsay, and an earlier farmer of the month was Tony Nehib of Gainesville.

Gainesville Tries To Get Howzeville From Government

The ownership of the Howzeville housing project may soon pass from the federal government to the city of Gainesville. This possibility was indicated at the meeting of the Gainesville city council last Friday night. The council appointed City Attorney L. V. Henry to make formal application for the transfer under recently revised provisions of applicable federal law.

The city reportedly may purchase the project—83 acres with all improvements—for what the federal government paid for the land alone just before the project was built in 1943 after the activation of Camp Howze and the population increase in the county seat created a housing shortage in the area.

There are now 37 buildings in Howzeville—177 apartments. Of these only 25 are reported rented. The project has its own water system including two wells with pump equipment, large storage tanks, and a sewer system. At one time there were 312 housing units in the project. Several of the buildings have been sold and moved from the site.

News of Sick And Injured

Miss Anna Grace Fette is recovering after being quite ill Thursday and Friday following a snake bite on her left foot. The snake, presumably a copperhead, bit her Thursday morning while she was working in the garden. Severe swelling and illness was almost gone by Monday and she was getting around on crutches when she came to the clinic for a checkup and treatment. Two other members of the family were also ill about the same time. Anna Grace's brother, Eddie, spent three days in bed after being overcome by the heat, and their mother made a misstep and dislocated her knee which confined her to bed several days and is still keeping her indoors.

Mrs. John Kathman is a patient at Gainesville sanitarium where last Friday she underwent a major operation.

Mrs. John Eberhart has been confined to bed for more than a week on account of illness.

Charlotte Tsubenbach, 7, daughter of the Joe Trubenbachs, had her tonsils removed at the local clinic Monday afternoon.

Smyrel Owens entered veterans hospital in McKinney last Friday for treatment and possible surgery to correct an old back ailment.

Leon Fleitman, young son of the John Fleitmans, had his tonsils removed at the local clinic Friday.

Tony Rohmer has quit his crutches and has the cast off his left foot. The broken toe is knitting normally and since Monday is in splints. He sustained the injury about two weeks ago working in the oil fields.

Clarence Owen is still unable to return to his oil field work but his injured finger is healing normally. He sustained a right thumb injury on June 8 while working on an oil rig in Frederick, Okla., and had to have the finger amputated at the first joint.

Eugene Luke, 15, is convalescing at the home of his parents, the Ben Lukes, from an emergency operation for appendicitis at 7 p.m. Friday. He was permitted to leave Gainesville sanitarium Tuesday evening.

Clem Reiter has his left arm in a cast since Monday afternoon when he fell from a ladder. He broke the arm at the wrist.

Johnny Pagel, young son of the Jerome Pagels, had his tonsils removed at the local clinic Tuesday morning.

Mumps continues in the community with both adults and children afflicted. Most children cases are mild but several adults have been quite ill during the week including Mrs. Ed Cler, Mr. and Mrs. Albert Wilde and Marion Ray Hott. The three children of the Albert Wildes also have the mumps and Jimmy Owen and Herbie Cunningham who were ill last week are recovering this week.

Bumper Corn Crop Almost Assured By Timely Soaker

What the weather lately is doing to this area's usual nubbins' crop is the favorite subject of conversation here since Tuesday. Prospects now, according to most reports, are that this year's corn crop is headed for the best yield in many years, perhaps the best in the history of the community.

Tuesday's dandy soaker is generally regarded as the clincher. Measuring 1.3 inches, it came just as the benefits of a 2.6 rain on June 21 were beginning to wear thin and is believed to be sufficient to carry the crop to maturity.

The 1.3 was the official reading on Steve Moster's U. S. Weather gauge and a light drizzle Wednesday added .06 more. Reports are, however that areas a few miles south got considerably more moisture. Near Hood farmers with home gauges reported up to 3 inches for Tuesday and up to 1 for Wednesday.

With moisture apparently in plentiful supply corn farmers now are concerned only with the temperature of the next several weeks. They feel their crop is made unless a blistering heat sets in to impair the quality of the corn. The quantity has already been described a plentiful, three or four large ears per stalk instead of the customary one or two nubbins, and a good stand of stalks. Just like those bumper crops they brag about in the corn growing states. Farmers are generally agreed that an acre of it is worth four or five acres of this year's small grain crop.

Pastures and hay crops likewise are showing the benefits of the rain. Grazing is good, hay is headed for another heavy cutting soon.

The rain's only ill effect was that on unthreshed grain of the community, and that is negligible unless continued wet weather causes molding or sprouting. Besides, only a small percentage of grain remains in the field.

Four Respond to School's Request For Bermuda Sod

Response to last week's request for bermuda sod was gratifying and the job of starting a lawn at the new public school is well under way.

By Wednesday almost all of the area south of the building was sodded. Arthur Hellman furnished the grass, hauled it in and helped plant it. Others who have offered sod are Albert Henschel, Earl Fisher and Bill Derichsweiler.

According to Superintendent Weldon Cowan the grass already offered will be more than sufficient to handle the job.

Areas still to be worked over are the west, north and east sides of the building and the open place between the grade and high school wings.

All possible attention is being given to develop grass into a good lawn before the formal opening on Labor Day.

McKinney Resigns As Co-op Manager

Edward G. McKinney, manager of the Cooke County Electric Cooperative Association since December 1, 1948, has severed his relations with the organization. He submitted his resignation last Friday in a letter to the board of directors. The effective date was July 1, 1950. The McKinney family will move to Enid, Okla., in the near future.

There was no indication Wednesday who will be named as the new manager of the electric co-op.

Mrs. Alphonse Reiter entered M&S hospital in Gainesville Saturday for medical treatment.

Monday morning an article in the Dallas News told of the surprisingly large and inspiring attendance at one of the Dallas churches the day before. Considering the Fourth of July week end, when the average American is expected to be out on his customary holiday, the crowd was regarded as truly remarkable.

The answer was—obvious, of course. Last Sunday was not just another Sabbath but rather the first Sunday in the current international tension which may be the beginning of World War 3.

In effect the article was an admission that lots of people are afraid and are turning back to God again. Not that they have been enemies of God in the recent months and years, but that they have been normal Americans going their own selfish ways without giving Him a thought as long as they could see no cause for worry. They are acting like so many spoiled and thoughtless kids who come crying to their parents with troubles but never bother to share their joys with them.

We must give people credit for a faith which impels them in the hour of need to beseech the Almighty with a confidence that He will use His boundless power in their behalf. By the same token we must accuse people of gross neglect for their failure to beseech God in better days. Instead of asking Him now to deliver us from the horrors of war why haven't we been asking Him all along to guide us along the path of peace? It is a bit presumptuous to expect God now to spare us the consequences of our folly when we did not ask Him to help us avoid the folly.

The average person may be inclined to excuse himself on the grounds that he is small fry and has no responsibility in the making of wars, but he does not stop to realize that many of the things he does or fails to do warrant the kind of chastisement that war brings upon him. Certain standards of human behavior have been laid down in the ten commandments. Those standards have been violated in ever so many ways. The more a person thinks of them in relation to modern complexities the more he must understand that the present civilization has asked for all the chastisement that a war can bring.

Of course there is the old contention that many do not deserve to be chastised, but it may be countered by the axiomatic principle that a Just God has a way of squaring accounts in eternity. The Divine Plan provides its compensation for the innocent who must suffer with the guilty.

It is a fact that prayer has limitless power, so the comely worshippers are showing good judgment in deciding to plead their case before God. But it is also true that an outraged God will not intervene to spare a wicked world for the sake of a just few. And that leads to a very important question. Do the just number a mere few or are there enough to sway God's mercy and avert the scourge of another global conflict?

No mortal knows the answer to that so the only reasonable course for us individually is to get on God's side and do it fast. That means not only pray but to conduct our entire lives in a way that will be pleasing to Him. This last item is important too, because we can hardly expect God to grant favors unless we re-establish a genuine friendship with Him.

If enough people will do that we can rest assured He will spare us the consequence of our folly...and wickedness. We have His word that He loves mankind, that He wishes to guide and protect us.

Human cussedness has plunged the world into an awful mess. In the light of present circumstances it is hard to imagine how a global conflict can be avoided. But let's not overlook the fact that God is almighty. He can find a way to straighten things out. He will find a way if human appeals become strong enough.

LOCAL NEWS BRIEFS

Miss Martha Rohmer of Fort Worth is spending this week of her vacation with her parents, the Leo Rohmers.

Mr. and Mrs. Hugh Jackson and children of Fort Worth spent Saturday and Sunday with her parents, the J. M. Weinzapfels.

Tony and Miss Dorothy Rohmer left Wednesday for a visit with their sister, Mrs. Joe Spaeth and family in Greggton.

Mrs. Miriam North and baby son of Levelland are here for a visit with the Smyrel Owens family.

Miss Rose Marie Becker of Abilene was home for a holiday vacation to visit her parents, the Felix Beckers. She arrived here Saturday and returned to Abilene Wednesday.

Miss Juanita Weinzapfel who was home from Denton for the weekend and holiday had as guests on the 4th four girls friends from St. Anne's Club in Fort Worth.

Sgt. and Mrs. Walter Huchton and son of Sherman were among out of town visitors at the parish picnic Sunday. They were here to spend the day with his mother, Mrs. Catherine Huchtons and family.

Mr. and Mrs. Bob Bell and daughter, Lynn, spent the week-

end in Grand Saline visiting their son and brother, Kenny, who is with his grandparents while he is convalescing from a broken leg.

Guests of Mrs. Smyrel Owens for the Fourth were Mr. and Mrs. Aubry Odom, Betty Davison and Jeanette Davison of Lawton, Okla., Margaret North and Roy Porter of Dallas and Mr. and Mrs. J. E. Owens and son of Valley Creek.

Mrs. J. B. Wilde took Mrs. John Beard to Dallas last Thursday for examination and treatment of her leg. The leg seems to be healing normally but Mrs. Beard still is required to go to Baylor hospital in Dallas every two weeks for treatment.

Mr. and Mrs. Vincent Stelzer and daughters, Mary Jo, and Barbara, of Eugene, Oregon, visited here this week with his father, A. C. Stelzer and other relatives. From here they went to Fort Worth to visit his brother, Charles Stelzer, and will stop for visits with other relatives enroute back home.

Mr. and Mrs. Larry Tegenkamp and Mr. and Mrs. Wilbert Swinger of Teutopolis, Ill., visited here last week with their uncle and aunt, the Joe Swingers and family. On Thursday night Mrs. Steve Fette entertained with a chicken picnic supper at Gainesville park to compliment the visitors.

Mr. and Mrs. Joe Wilp and children, Walter, Bobby and Miss Clara, of Oklahoma City visited here during the weekend and until Wednesday with her brother, Herman Luttmner, and her niece, Mrs. George Lutkenhaus and other relatives and friends. They are former Muen-

HARDWARE HEADWEAR — The modern kitchen provided abundant inspiration for designers at a recent "hardware hat" show in Miami, Fla. Two of the more imaginative products were the kettle creation, left, modeled by Carol Eckert, and the strainer topper, right, worn by Mary Ann Lewis. Cooking utensil motif makes them particularly useful on picnics.

"LEFT IT HERE SOMEWHERE . . ."—Two bicycle owners appear puzzled as they seek their vehicles among hundreds of others parked in a lot at a racing meet in London. The tangle of wheels took place when cycling fans flocked to the Southern Counties Cycling Union International Racing Festival.

ter residents and enjoyed seeing many old friends at the parish picnic Sunday. They went from here to Houston and will visit other cities while they are vacationing before they return to their home.

The Fourth of July provided the occasion for a family reunion at the Leo Rohmer home. Children and grandchildren of Mr. and Mrs. Rohmer from this community joined Mr. and Mrs. Gerald Wooten and children of Wichita Falls, Mr. and Mrs. Boyce Gordon of Collinsville and Miss Martha Rohmer of Fort Worth for a get-together including dinner at noon. Only members of the family unable to attend were Mr. and Mrs. Raymond Pettit of Celina.

F. G. Caskey Seeks Election as County Assessor-Collector

F. G. (Tedd) Caskey, well known Gainesville citizen for the past 14 years, has announced his candidacy for county tax assessor-collector, in the Democratic primaries this summer.

Mr. Caskey has resigned his position with the State Department of Public Welfare in order to devote his time to the campaign.

A native of Hopkins county, Kentucky, Mr. Caskey has been a resident of Texas for the past 39 years. For the past 15 years, he has been with the State Department of Public Welfare and since 1936 has worked out of the Gainesville office.

Mr. Caskey is married, has no children, and owns his home at 1315 East Pecan street. He is a Democrat and has always supported the ticket.

In making his formal announcement as a candidate for the office, Mr. Caskey says if elected he will devote his personal efforts to the successful and efficient conduct of the affairs of his office.

Mr. Caskey says he considers it a privilege to have served the elderly people of Cooke county in his work with the Department of Public Welfare and counts all of them his good personal friends.

He expects to make an active campaign over the county and hopes to see all of the voters possible during the next 3 weeks.

He solicits the vote and support of every citizen of the county and assures them they will not be disappointed if they elect him their assessor-collector.

JOHN ATCHISON
reelection

For Safe Keeping

A House Appropriations Committee study disclosed that in one year the Federal Bureau of Internal Revenue printed 500 million tax forms and 115 million instruction sheets to supply 47 million taxpayers. Hundreds of millions of such forms, long out-dated and no longer useful, were found stored in a leased building.

Vacationists "Stepping Out" This Year

The average American on vacation this year will travel a greater distance and spend more money for gasoline, oil and food than ever before, according to a magazine survey. Mr. Tourist is expected to spend an average of \$279 and travel 1630 miles. That is \$66 and 381 miles above the figures for 1949.

Muddy Creek

Two hillbillies, living in a mountain town, went wading in a nearby creek. "Jeepers," exclaimed the first, "ain't yore feet dirty!" "And what right have you to talk?" said the second. "Yore feet are worse than mine." "Yeah, but you fergit," was the reply, "I wuz born two years afore you."

Local NEWS

Briefs

Mrs. John Wilde of Harlingen is here for a visit with her sister, Mrs. J. S. Horn, and other relatives.

Miss Joan Roberg of Fort Worth spent the weekend and through the Fourth here with homefolks.

Since the first of the month Miss Bernice Reiter is employed at Curtis Restaurant in Gainesville.

Miss Emily Fette was here Sunday to visit her parents, the Joe Fettes.

Mrs. L. A. Bernauer began her annual two weeks' vacation from duties at the bank Monday.

Dick Cain and Joe Voth, Hugh Endres and Ervin Walterscheid attended a rodeo in Marietta, Okla., Friday night.

Mr. and Mrs. Joe Voth and Mr. and Mrs. Dick Cain left Tuesday for a ten-day vacation in Colorado.

Darrel Adams, who attends summer school at Texas Tech in Lubbock, was home for the weekend and Fourth.

Mr. and Mrs. Joe Hofbauer and daughter, Sylvia Ann, returned to Dallas Thursday after spending four days with his brothers, Andy and Clem.

Mr. and Mrs. Earl Swingler and baby of Edna spent the Fourth here with his parents, the Joe Swinglers. They recently moved from Robstown to Edna.

Little Loretta Schmitt, daughter of Mr. and Mrs. Al Schmitt, spent the weekend in Gainesville with her grandparents, the Ben Ottos.

Mr. and Mrs. Otto Mundkowski of Wichita Falls were here Sunday to visit relatives of the Hoening families and attended the parish picnic.

Rufus Henscheid and A. J. Felderhoff returned Saturday from a vacation tour that took them to Houston, Galveston,

AIR GIANT DELIVERED — Accelerated service testing of the mammoth Douglas C-124-A "Globemaster II" transport plane, above, began at Dayton, O., following delivery of the first production model to the USAF Air Material Command. Largest production transport to enter military service, the giant craft is designed to carry up to 50,000 pounds of payload, including troops, general cargo and mechanized equipment.

"LOOK MA! NO HANDS!"—Playing "heads up" baseball against the Philadelphia A's, Cleveland rookie Luke Easter slid into home plate. He was called safe when the throw from Cleveland Stadium's outfield bounced out of Philly catcher Fernain Guerra's glove and sped past Easter's face. In his moment of triumph, however, Luke looked more like a promising juggler than a highly-touted hitter.

Austin and Fort Worth for visits.

Joe Weinzapfel Jr. who had been in Fort Worth several weeks is here to spend the remainder of the summer with his parents. He will return to St. John's Seminary in San Antonio in September.

Miss Juanita Weinzapfel, a student at Denton for the summer, spent the weekend and through the Fourth here with her parents and family. Rev. Thomas Weinzapfel of Valley View joined the family group Tuesday to spend the day.

New cars and trucks of the week are a Chevrolet 4 door Fleetline for Arnold Hess, a Chevrolet truck for C. H. McGrady, a Dodge Wayfarer 2 door sedan for Marie and Nora Trubenbach, a Ford truck for Danglmayr Brothers and a Chevrolet pickup for Charles Schneider.

Miss Marilyn Gremminger who attends business college in Wichita Falls had a week's vacation from classes this week. She came home Friday evening to visit her parents, the Ted Gremmingers, and will return to Wichita Falls to resume classes Monday morning.

Mr. and Mrs. Jim Cook re-

turned home Friday from a three weeks' vacation spent in Arizona, California and Old Mexico. In Bowie, Ariz., they visited her brother and in Redondo Beach they visited nieces in nephews; in San Bernardino they were guests of Mr. Cook's brother and in San Diego they visited his sister.

AUXILIARY WELCOMES NEW MEMBERS; PLANS ACTIVITY

The Muenster VFW Auxiliary ladies welcomed three new members at their meeting Monday night. The new members are Mmes. John Dobias and Earle Otto and Ann Huchton. At the same time Mrs. Otto was appointed color bearer number one replacing Mrs. Curley Bolen who moved to Whitesboro.

Prayer For Peace
Mrs. Francis Wiese presided during the business session. She made the suggestion, and members agreed, that on the First Saturday of every month they will spend an hour or a half hour in prayer for peace.

Party For Husbands
Committee reports revealed that the ladies have arranged a party for their husbands and boys friends to be held the latter part of this month at the home of Mrs. David Trachta. It will be a lawn party beginning with with a picnic supper. Mem-

bers voted to send a love gift to Mary Pat Bird of Abilene, retiring department president. After business, Mrs. Richard Swirczynski, hostess, served ice cream, cake and cold drinks to 18. Ann Huchton won the jackpot award.

Members of the Wieler families have heard from their sister, Catherine, that she and her family are leaving Japan to return to the states. Major and Mrs. Alfred Hellams and two children have been in that country for more than a year while he was assigned to army duties there. Their home is in Dallas.

In 1909, the peak year for travel by horse power, there were some 26 million horses and mules at work, traveling 13 billion miles annually. Thus Bobbin averaged 500 miles per year compared to today's motor vehicle which clocks approximately 9,800 miles each year. In 1909, there were 3,850 persons killed in accidents involving horses and horsedrawn vehicles—30 for every 100 million horsedrawn miles. The current fatality rate for gasoline-powered vehicles is seven deaths for each 100 million miles traveled. And some people call the gasoline age dangerous.

The American Way

AMERICA FIRST
 By George Peck

One of the joys of a newspaper columnist's life are the letters that reach him from editors and newspaper readers. If nothing else, it assures him that his verbal outpourings are being read, and that is a source of great inner satisfaction.

And this delight is not diminished if the letter received happens to be critical. In a Republic, such as the U. S. A. was intended to be, citizens can hold diversified opinions and are at liberty freely to express them. That's what makes for progress—turning a great many minds onto a problem. Conversely, that's why bureaucracy, invariably stifles progress—too few minds are put to work on a problem.

In my particular case, I welcome letters from the fellows who disagree with me—it gives me an opportunity to discuss the issue with them and perhaps convert them partially or completely to my way of thinking. Of course, I do receive some letters that distinctly add nothing to my day's pleasure—I refer to letters that rather than discuss the issue, are abusive and call me a lot of dirty names. To such correspondents I make a valiant attempt to turn the other cheek, by getting back in my reply to a discussion of the issue, rather than to return abuse for abuse. Sometimes it works; sometimes it doesn't; but often enough to make it well worth while.

Then every once in a while comes a letter from an editor or reader that warms the cockles of my heart. One such letter recently reached me from Otto W. Meyer, who pilots the Weekly Independent, at White-water, Kansas. It carried such a sound expression of Americanism (according to my viewpoint) that I wrote asking his permission to quote parts of his letter. Otto is a man of deep conviction; his reply was: "You may use any part of my letter."

And so, having obtained the necessary permission, here's what this Kansas editor had to say:

"A few days ago a preacher in this town (his church is a member of the Federal Council of Churches of Christ in America)

called me unjust because I had made caustic comments in an editorial about Henry Wallace, Alger Hiss, Owen Lattimore and the homosexuals in the State Department. He said, 'You don't understand them; they are Christian gentlemen of the highest type.'

"This preacher is a Yale man and I told him that Harvard, Groton and Yale must teach a weird brand of Christianity that would prompt a man to betray Christian America to anti-God, anti-Christ Russia.

"He then accused me of being against men who had the benefit of a higher education. I reminded him that Paul was a well-educated man but that his writings are couched in such simple language that an eighth-grade student can understand them. I advised him to read Paul carefully before he took his Bible to the Kremlin for the purpose of converting Joe Stalin.

"Our community is about 75% Mennonite. These Mennonites can give anyone first-hand information about Russia. They cooperate with our Methodist and Baptist churches, but they steer clear of the Federal Council and all such socialistic and communistic teachings. I'm not afraid of Russia, I am afraid of the striped-pants bureaucrats; the false prophets who are now running this country. They are the ones who can destroy us from within more effectually than outsiders can.

"My parents were immigrants, came here from Germany after 1848. My Dad and his brother were 17 years old. They did not draw pensions nor did they seek or get any relief or welfare money. They provided their own social security.

"As for me, I served overseas in World War I. My three sons (who are college trained, you see, I believe in higher education) served overseas in World War II. Getting back to me, I am against subsidizing labor, the farmer or any other group, and I'm bitterly opposed to the gangster tactics of Big Government."

My hat is doffed to Otto W. Meyer, as I know will be the case with every American who loves his native land or land of adoption, and is for America, First, Last, and Always.

There'd be fewer pedestrian patients, if there were more patient pedestrians.

Treed

What's The Score, Pop?

Dear Pop:

The kids my age are growing up. We want to ask some questions about our country. Your generation has had control for a long time. Soon we'll be taking over. What kind of nation are you going to pass along? Has your generation strengthened our American heritage of individual freedom? Have you kept the American strain of self-reliance healthy and strong? What does the financial ledger show? Have you been paying your way? Are the books in balance? These questions have begun to bother us. They seem pretty important. What's the score, Pop?

Yours,
 Bill

Dear Bill:

You and your generation haven't a thing to worry about. We've done a great job for you. That glorious individual freedom our parents handed down to us—we've improved it, added a new freedom—the Freedom to Look to Washington. And that magnificent private enterprise system our dads and grand-parents built—we've had it modernized in a Pennsylvania Avenue machine shop, fixed up good. Under Government supervision it has got the country bursting at the seams with greenback money worth at least 50c on the dollar!

Yep, we've fixed everything so you kids will get what's coming to you—and good! We've done it all with a great discovery. Son, we've discovered Government—in a big way! When we get through with it—or vice versa—it's going to be

all yours (or vice versa).

The way we've got things fixed now you can grow cotton, wheat, corn, potatoes, hens or cows—anything!—and our wonderful government will pay you a handsome profit—and all you have to do is keep your mouth shut and be an obedient farmer when the Government experts tell you what to do. You can become a merchant or a manufacturer and the tariffs, Government contracts, subsidized loans and handouts to the Tom, Dick and Harrys who buy your goods will make your bed as good as the farmer's. To qualify, you just grin and operate your business as directed by the Government and John L. You can become a wage earner and get a minimum, or contract wage enforced by the Government an old age pension and other benefits practically free, and a raise periodically. You can get all this by merely conducting yourself according to union, company, and Government regulations!

If you are a veteran, a doctor, lawyer, teacher or professor, co-op, state or local government, you benefit, directly or indirectly, from nice Government aids, grants, subsidies, general handouts or preferential treatment—and are not a bit more regimented, restricted, regulated and controlled than the farmer. By the time you kids are 21 your subsidy ought to be a cinch. Already 25,000,000 fortunates get regular checks direct from Government agencies, and we're improving that every day.

You and your generation have a great adventure awaiting you, Bill—discovering new things new things you can do for the Government. It will be exciting, for instance, devising a way to pay off the national debt with which all these wonderful services we are getting have been bought. As of today, the debt is only \$5,000 apiece for all you boys and girls 18 and under. It was \$1.1 billion when we took over in 1915. We've done well. It's \$256 billion now and we're

increasing it by \$5 billion a year.

Yep, you youngsters are going to be sitting in the driver's seat in a great age, Son. As for ourselves, we're going to be sitting (period), thanks to your generosity yet unspoken. But excuse me now—I see the postman coming. He's bringing my check.

I injured myself hastening to catch the bus nine weeks ago, was ill with exhaustion when I reached home. I've been recovering nicely. The postman is bringing my Tuckered-Out-Hastening-To-Catch-The-Bus Compensation. I'll be okay again and back to work in 17 weeks, when the TOAHTCTB Compensation checks run out.

It's been a tough battle. But there's nothing too good for the youngsters of America.

Yours,
 Pop

THE LOWDOWN FROM HICKORY GROVE

Well folks, I see where Uncle Harry had to leave some of his Boys at home, when he took-off on his recent 15 car trip to tell us from Grand Coulee of his prowess at kilowatts. As it turns out, a second section for the overflow would have been a wise move.

How can you say such, says Harry. Well, I says, the Boys left behind crossed up the wires. The Farm Planners burst into print before the tail lights on Uncle Harry's luxury special were hardly out of sight, with their lament of "too much land." They want to take 30 million excess acres from last years planting. Thirty million acres, if you are not too up to snuff on acres, is a parcel of ground that would hide Connecticut, Delaware, Maryland, Mass., New Hampshire, Rhode Island and Vermont—and a little left over.

And with the Planners in their feverish befuddlement over too much wheat and corn from too many acres, what happens. Well, out there "where rolls the Oregon" our President tells how the Govt. kilowatts to pour from the Grand Coulee dam will turn motors hooked up to giant pumps for irrigating, will reclaim thousands and thousands more acres for more abundant crops.

If you are not yet befuddled, you are befuddle-proof.

Yours with the low down,
 Jo Serra

"Fellows who drive with one hand are usually headed for the church aisle. Some will walk down it; other will be carried."

Official Hoarding

The extent to which surplus inventories of stock are built up by some Federal Agencies was recently pointed out to the House Appropriations Committee by Jess Larson, General Services Administrator. He said one agency had a supply of trading cloth which would last them 9 years, enough fluorescent light tubes to last 93 years, sufficient ruled filler paper to last 168 years and a stock of loose leaf binders which would last them 247 years.

PIERCE BROOKS for LT. GOVERNOR

A Business Man for a Business Job

You can expect more from an Electric Range..

because it has more to offer you

An electric range... with its many convenient features... will give you a new outlook on meal-making! You'll discover how easy it is to get (and depend on) delicious cookbook results! You'll spend less time in the kitchen... have more leisure time. Yes, like so many other smart, modern women today, you'll say... electric cooking is the kind of cooking you want. Here are ten good reasons why:

- CONTROLLED HEAT:** Accurate temperature control... cuts on and off automatically.
- CLEAN:**... doesn't smoke your pots and pans.
- COOL:**... cooking heat goes directly into the vessel.
- SAFE:**... safe as your electric lights.
- ECONOMICAL:**... actually saves you money... a very small amount of food shrinkage because it's draftless cooking.
- HEALTHFUL:**... retains the nutritious minerals and vitamins in the food.
- FAST:**... a turn of the switch and the high-speed cooking units are ready for use.
- TIME AND LABOR SAVING:**... cooks a complete meal at one time... allows you to perform other household duties without interruptions.
- DEPENDABLE:**... an ample supply of low-cost electricity always ready at the flip of a switch.
- MODERN:**... incorporates the newest conveniences of cooking.

Milk Regarded as One of Our Finest All-Round Foods

COLLEGE STATION, — The spot light during the past month has been thrown on one of our finest all-round foods, milk and milk products. The month of June carried a special designation as "Dairy Month", but according to Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A&M College, every family should plan to use milk generously in the daily menus.

HEAD IN THE CLOUDS—"Twiga," in the background, giraffe father of week-old "Sambo," seems mighty proud of the attention his offspring is receiving at the Whipsnade Zoo in Bedfordshire, England. The newcomer's mother, "Girle," however, is a bit more down to earth, advising her youngster to rubberneck right back at the curious spectators.

She points out that children should have at least one quart of milk per day and that adults can profitably consume from one pint to a quart daily. Milk and milk products furnish fats, carbohydrates and proteins in easily digestible forms along with calcium and other minerals, vitamin A and riboflavin. All are needed for properly balancing the daily diet.

Milk may be purchased in many forms; fresh, dried, evaporated or sweetened condensed and one quart of the following may be used instead of a quart of whole milk. One pint of evaporated milk plus one pint of water; one and one-eighth cups of dried whole milk plus a quart of water; one quart of liquid skim milk plus three tablespoons of butter or one cup of dried skim milk plus one quart of water and 1½ ounces of butter will, according to Miss Harris, be equal in food value to one quart of whole milk.

She says milk is a versatile food. It can be used as a liquid in meat loaves or in creamed dishes such as chicken, eggs and many of the vegetables. It can and is used in many of the

cream soups. Desserts provide the homemaker with many opportunities to use milk. There are custards, cream pies, sherberts, ice creams, puddings and gelatin mixtures to name a few, and cool milk drinks are a favorite for hot weather. Children, especially, like milk chocolate and milk shakes of all flavors.

She says milk and milk products are among the best and cheapest sources of fats, carbohydrates, proteins, minerals and some of the vitamins. It is a well balanced food that can be used in many different ways, and dishes that utilize milk are usually easy to prepare and serve—two mighty important considerations for the homemaker during the hot summer months.

Favorite Car Color is Black

Black still is the most popular color used on today's motor cars. Green is the number two color in point of popularity.

A survey of automobile manufacturers reveals that on a coast-to-coast basis, black still reigns over the various shades of green, gray, blue and other colors that meet the eye on the streets and highways of the nation.

It is true that in the far west, notably California, the brighter hues easily outnumber plain, everyday black. However, in other areas such as New England and the Middle West, black is far out in front.

Popularity of the two-tone car is increasing constantly. One company reports that 26 per cent of its total output is two-toned.

On an over-all basis, the survey disclosed that two shades of green appear to be the most popular two-tone combination, closely followed by two shades of gray or blue.

Color experts in the industry do not guess what colors should appeal to the automobile buyer. They find out by conducting field surveys at regular intervals.

One styling expert points out that fashions affect colors, as well as designs, and popular tastes are swayed season by season.

DIDN'T GET AWAY — Billy Brown, of Morehead City, N. C., strains just a bit to hold up this 17-pound mackerel caught in the Gulf Stream off Cape Lookout, N. C. It was the first to be landed by rod and reel during the 1950 season.

and competitive enterprise and hereby pledge ourselves as individuals and as an association diligently and actively to work toward this objective and toward the defeat of the fallacious philosophies that are beguiling our country into socialism."

Every American who values freedom, human dignity and the security of his country should join the cattlemen in this high resolve.

—Industrial News Review

At Last

Hezzie was plowing the back 40 acres when a neighbor came running to tell him, "Your wife's having a fit!" Hezzie dashed for home, only to find the missus fully recovered and calmly cooking dinner.

The same sort of thing happened again, with Hezzie out of breath, finding his wife mopping the kitchen.

A few days later came the word, "Come-a-runnin'! Durnedest fit she's had yet!" Hezzie came a-runnin' and found his wife out cold on the kitchen floor. He felt of her pulse—no trace. He held a mirror before her mouth—no moisture. He threw cold water in her face, and she didn't stir. Hezzie straightened up and wiped his forehead, "Wa-al," he said in relief. "This is more like it."

ON BEHALF OF HUMAN DIGNITY

In a rousing resolution passed at their last annual meeting, the members of the American National Live Stock Association, which is made up largely of cattle producers of the western range states, pointed to the menace of socialism, and strongly condemned it.

Here, in part, is what the resolution said: "Our country, without conscious choice on the part of its people is rapidly and unmistakably drifting toward the consummation of a false concept—the socialized state.

"Tokens of this danger are everywhere and undeniable: The growing power and expansion of wateful government; the colossal public debt; the heavy burden of taxation; the malevolent attempt to substitute an artificial economy for the natural economy which alone can function in freedom; the gradual assumption by the state of financial responsibility for every hazard incident to life—hazards which should be personally met and borne by every human being who has the instinctive will to survive and the inherent impulse to be free. . . .

"We . . . reaffirm our solemn conviction that the future health, strength and prosperity of our country depend on the re-establishment and maintenance of free

**Russia Is Using
 Texas Cotton To
 Make Gunpowder**

WASHINGTON, — Texas cotton sold to friendly Western European nations is going into Poland to make gunpowder for Russia, an eye witness inside Poland has informed a Congressman.

Penicillin and streptomycin shipped in by the United Nations International Children's Emergency Fund, financed largely by the United States, never reaches the Polish children.

This and other startling information from behind the Iron Curtain have been furnished a Middle Western Congressman by an eye witness in the Russian satellite state.

The Texas cotton, in thousand-bale lots, is sold legitimately to Dutch and Norwegian importers who promptly resell to Poland, the Congressman was told.

The man inside Poland wrote that cotton is the basis of nitrocellulose smokeless powder,

TALLEST BUILDING IN THE SOUTHWEST

One of the largest and finest office buildings ever erected in this country, shown above, will soon dominate the already impressive skyline of Dallas, the Southwest's great cosmopolitan city. The new Republic Bank Building, announced recently by Fred F. Florence, President of the Republic National Bank, will embody the most modern and advanced architecture, including every convenience possible for both customers of the Bank and tenants of the building. The tallest building in the Southwest, it will soar 440 feet in height. It will be the largest and most modern structure erected in the United States to include a garage and motor banking, together with banking quarters and office building. The main shaft of the building will rise 36 stories above the ground with an additional four stories below the street level. Its tower, extending some 160 feet further into the sky, will give the structure an overall height of 600 feet.

**Food Poisoning or
 Infection Should Be
 Things of the Past**

AUSTIN, Food poisoning and the spread of food-borne diseases can be "things of the past," State Health Officer Geo. W. Cox asserted here today.

"People need only remember three things to bring about the end of the food poisoning disease classification," Dr. Cox declared. "Buy food from safe sources, prepare it in a sanitary fashion, and serve and store it correctly."

He said state laws covered the sale of contaminated food to the housewife, but "only the homemaker can see that food is properly stored and cleanly prepared for serving to the family."

There is a difference between food infection and food intoxication, he pointed out.

Food infection comes from eating or drinking a product contaminated by a germ. Dysentery, typhoid fever, para-typhoid fever and tuberculosis are examples. Animal parasites can also gain entry to the body in this way. That, the doctor said, is how people get trichinosis and tapeworm.

The growth and multiplication of certain toxin forming bacteria in unrefrigerated foods bring on food intoxication, according to the explanation. That is the source of staphylococcus infection and the deadly botulism. Some kinds of mushrooms and certain shellfish are also poisonous.

Some poisonous substances may be accidentally introduced into food, Dr. Cox said. "For instance, rodent and insect poisons, spray residues on fruit and vegetables, and poisons from metal containers."

To point up the deadliness of some food poisons, he related the story of the housewife who suspected some home-canned green beans she had just opened were tainted.

"She barely tasted one of them, but it killed her in a matter of hours."

Such instances are rare but do occur."

"Why not?"
 "Well, you see, I have two pairs of trousers."

the standard charge for all cannon.

He commented that there is plenty of cotton to make red banners and bunting in vast quantities but there are no sheets for the hospitals.

The Red-controlled Polish government then blames imperialistic United States for their dilemma, said the writer.

The Poles don't even know the United States is sending drugs, the eye witness said. He stated that penicillin and streptomycin can not be purchased in a Polish drug store.

"Child welfare wins the sentimental American heart," he continued. "We immediately draw up a picture of a cherubic face pale and wan from lack of nourishment and dig down deep to provide for the child. A beautiful concept!"

"Factually and for God sakes let's drop this pollyanna complex and look at the facts."

"On May Day I personally saw close to 100,000 Polish children on which the United States has spent presumably close to \$12,000,000, screaming insults at unflattering caricatures of Mr. Truman and chanting about Stalin and peace, all the time with little fists clenched in the Communist salute."

"Congress makes a mistake in endowing the people of Europe with the same order of intelligence they themselves have," the inside Poland witness said. He declared that initials like UNRRA (the defunct United Nations Relief and Relief Administration) are a code of strange English words to the "great horde of dumb and stu-

**Demand for Cars
 Is High Because ...**

Where is this year's record-breaking demand for automobiles coming from?

One automotive executive offers the following six point answer:

1. There still exists a substantial volume of unsatisfied demand resulting from the shortages of the war.
2. Large replacements are being made by owners of earlier post-war cars.
3. Out of an estimated 3 1/2 million cars now in operation, about 11 million are 10 years old or older.
4. The population of the U.S. has increased about 20 per cent from the mid-thirties.
5. Figures on the level of national income indicate that the number of people able to buy new cars has increased about 35 per cent from pre-war.
6. The movement of urban population into suburban areas is expanding the need for automotive transportation.

The Hoover Commission has reported that \$140 million a year could be saved by modernizing the organization methods and equipment of the U. S. Post Office Department.

pid people who benefit."
 "Noting we can do will alter the propaganda which damns us," he wrote. "We are damned if we do and damned if we don't. So let's don't and save a little money."

LOCAL NEWS BRIEFS

Mr. and Mrs. Byron Sears of Hays were dinner guests of the J. W. Fletchers Sunday.

Miss Marian Starke returned to her duties at the bank Monday after a two-week vacation.

John Watt who has been working in Vernon is here for an indefinite stay with his parents, Mr. and Mrs. J. W. Watt.

Sgt. and Mrs. Jack Janicki and two daughters of San Antonio arrived during the weekend to spend a week with her parents, the Jake Pagels.

Lt. Jane Hoehn has arrived in Japan and is busy with her duties as an army nurse, according to a letter received by her father, A. T. Hoehn, Thursday.

Mr. and Mrs. William Seyler and Mr. and Mrs. Henry Sandmann of Valley View were among out of town guests at the parish picnic Sunday.

Guests of the J. W. Fletchers last Thursday night were P. F. Lee and son, Robert, of Lubbock. Mr. Fletcher and Mr. Lee were Navy buddies during World War I.

Mr. and Mrs. Curtis Holland were here for a weekend visit with her mother, Mrs. Bob Yosteh. Mrs. Holland remained to spend a week here. She has just recovered from the mumps.

Miss Verena Henschel joined the office personnel of the Cooke County Electric Cooperative on July 1 to replace Mrs. Bernard Swirczynski who resigned to take over bookkeeping duties for Steve Fette Trucking company.

Dr. and Mrs. E. J. Stroud of Jonesboro, Ark., were here last Thursday for short visits with the John Tempel and Mrs. John Walterscheid families. The Strouds had been in Bowie looking after their oil interests and stopped here enroute back to Jonesboro.

Guests in the Dick Cain home last week were Mrs. Cain's mother, Mrs. J. S. Hogan and daughter, Miss Bobbie Hogan, and son, Cpl. J. D. Hogan who is on leave from army duties on Guam. Mr. and Mrs. S. K. Hogan and two children all of Amarillo and Mrs. O. Z. Smith and two children of Lubbock. The visitors returned to their homes Friday.

Rev. Thomas Weinzapfel returned Friday from his trip to Europe. Meeting his plane in Dallas Friday evening were his parents, his sisters, Mary and Juanita, and a group of Father's Valley View parishioners, Messrs. and Mmes. Frank Neu and son, Bill Bierschenk and Frank Rauschuber. Also in the party was Father Noble who had substituted at Valley View for Father Weinzapfel during his absence, and remained in Dallas. The entire group enjoyed a supper party in down-town Dallas before they returned to their homes.

YOUTH GROUPS GIVE PARTY FOR FATHER JOHN

Members of the Holy Name Society and Blessed Virgin Sodality complimented Rev. John Walbe with a surprise farewell party last Thursday night in the church basement.

Card and domino games preceded the serving of refreshments and the presentation of farewell gifts to the honor guest.

Father John addressed the assemblage briefly. He was the spiritual director of the youth groups here while he was assistant pastor at Sacred Heart church. He left Friday morning to return to Little Rock, Ark., where he is now assistant pastor, after visiting here three days.

More than 80 boys and girls attended the farewell gathering. Rev. Andrew Wewer, present spiritual director of the societies, was also present.

VFW AUXILIARY ENJOYS MEMBERSHIP DRIVE PARTY

Members of the Ladies VFW Auxiliary had a membership drive party last Wednesday night at the home of Mrs. M.H. King. It was a lawn party with each member bringing a guest and food for a picnic supper.

Bingo and canasta furnished diversion after the meal. Thirty-three ladies were present.

TAX-TIRED TANK TENANT — Tired of hidden and excise taxes, war veteran Paul Abbott took up residence beneath the surface of Lake Shafer. A photographer went under water to get this picture of Abbott, who says he'll remain in his 10-foot steel-and-glass tank until Congress does something about his pet peeves.

Transportation Miracle
Scientific distribution methods developed by the oil industry make it possible to move a gallon of oil (which weighs about seven pounds) from Texas to Boston cheaper than a postal card can be mailed the same distance.

Up And Up And Up
Federal expenditures have risen from \$3.4 billion in 1930 to \$9.3 billion in 1940 and \$42 billion in 1950.

When you're average you're as near the bottom as you are to the top.

It Happened 10 Years Ago

July 5, 1940

Damage caused by storm Monday is extensive amounting to several thousands of dollars worth of loss; gale passes quickly followed by rain; most grain shocks are scattered, small buildings and windmills are blown down; but no personal injury results and electric service is not disturbed. Parking in center of street is no longer permitted, city council says. Fred Hoedebeck of Tishomingo, Okla., is hurt when struck down by an automobile. Dora Weinzapfel left Monday to enter nurses training in Fort Worth. Mrs. John Schilling has returned from a trip to Arizona.

5 YEARS AGO

July 6, 1945

S.Sgt. Jack Needham returns home from German prison camp. Bishop Danglemayr of Dallas is here attending his father's bedside. Father Thomas is called to the bedside of his mother in Fort Smith, Ark. The Henry Henschels announce the arrival of Jane Marie. Mary Ann Felderhoff celebrated her birthday with a party Sunday. Cpl. Albert Hoelker is back in the states after army duty in the South Pacific. James Bezner is permitted to leave the hospital but is still in a cast as the result of a hip injury received June 10 in a car accident.

Numismatist means current coin.

Asphalt Base Saves Water
California engineers have laid an asphalt blanket on the bottom and sides of a new reservoir built for the Los Angeles area. In conventional reservoirs, sizable amounts of water are lost through seepage, but the newstyle blanket is expected to prevent this. Oil men and construction engineers worked jointly on the project, using 1300 tons of asphalt.

Blessed Events

Mr. and Mrs. Darrell Adams announce the birth of a 7 pound 3 ounce daughter, Aggie Lou, at the local clinic on July 4. Also welcoming the new baby are her little brother, Paul, her grandparents, Mr. and Mrs. Ben Seyler, and great-grandparents, Mr. and Mrs. John Fette.

Mr. and Mrs. Ray Hess announce the birth of Thomas Ray, their first child, on Saturday, July 1, at M&S hospital. The 7½ pound boy is the grandson of Mr. and Mrs. Frank Hess of Muenster and Mr. and Mrs. H.S. Fuhrman of Lindsay.

Mr. and Mrs. Adolph Knabe of Hereford are the parents of a son, their second boy, who arrived on June 22 and has been named Darrell Albert.

Give Your Car a Safety Check-up

Driving your car on a vacation trip?

Don't neglect to have it checked for safety and roadability.

"Your vacation will be care-free only if the car which takes you there and brings you back is free of mechanical faults and is in top shape in every respect," said E. L. Harrig, manager, service and mechanical department, Chevrolet Motor Division.

"The pre-vacation checkup should be more than the customary oil change, lubrication, tire, battery and radiator check," said Harrig. "Brake adjustment, wheel alignment, rear axle and transmission lubrication and spark-plug cleaning are among the items that should be checked on your vacation-bound car. Air cleaners should be cleaned, tires cross-changed, wheel-bearings packed and windshield wipers checked for proper functioning.

"For safety, the lights should be tested, windows and windshields examined. For comfort, don't neglect shock absorbers, wheel bearings and tire pressure. And, for peace of mind, there is nothing like a motor tune-up to assure you that all's right with the road".

Care Determines Quality of Eggs

COLLEGE STATION — In many areas in Texas this summer, egg producers will have an opportunity to take advantage of the better prices offered for quality eggs. According to F. Z. Beanblossom, extension poultry marketing specialist of Texas A&M College, the egg grading programs in these areas are showing just how important environment, especially heat and humidity, are to the production and marketing of quality eggs.

The temperature of the freshly laid egg, he says is above 100 degrees Fahrenheit and if quality is to be maintained, rapid and thorough cooling of the fresh eggs is a must. Beanblossom points out that eggs will cool from 100 degrees F. to 50 degrees F. in three hours when they are spread out on a wire tray. It will take five hours for them to cool, if held in a wire egg basket, twelve hours when held in solid pails and eighteen to twenty hours when held in an egg case.

Here is what excess heat does to egg quality. He says eggs 100 days old may be better than some eggs that are only three days old because eggs held at 99.6 degrees F. drop to "B" grade in three days or less. Eggs held at 77 degrees F. will usually hold up for at least eight days; when held at 45 degrees F. they were still tops at 65 days and when they were held at 37 degrees F., they retained their top quality for 100 days. This, he says, clearly indicates that age does not affect the quality of eggs as directly nor as rapidly as does the environment the egg receives.

The importance of humidity in the egg holding room is reflected in the fact that only 31 percent of the top grade eggs will be maintained when the humidity in the room drops below 75 percent and the temperature rises above 65 degrees F. The failure of egg producers and handlers to pre-cool egg cases, packing eggs before the animal heat is removed and marketing eggs less than twice weekly greatly affects the percentage of high quality eggs marketed, says

CANINE CADDY—Elbert Catanzaro of Chicago looks over some of the thousands of golf balls his dog, Whiz, has retrieved from golf courses, as Whiz proudly contemplates his haul. Catanzaro taught the pooch to search the rough for lost balls. Thus far, the "golffound retriever" has recovered more than 5000.

Beanblossom.

Here is another item that is mighty important in handling eggs. Beanblossom says that research studies show that when

eggs are given a ride to town on the big end instead of the little end, five and one-half cents per dozen is lost due to loss in grade. Here is the way

it works out; only 73 eggs out of 200 improperly packed eggs graded "A" or better when the eggs rode to town on the big end, while 164 graded "A" or better out of 200 when packed and transported with the large end up.

Beanblossom concludes that egg producers can do something about the quality contained in the eggs they market, and he adds, an egg grading program will make it possible for quality producers to cash in on the better prices offered for the top quality eggs.

Tests Prove Up Gasoline's Mileage

Present-day gasoline contains more miles per gallon than the average motorist is getting out of it, recent tests made by one oil company show. Driving carefully-checked factory model cars over a 751-mile run with every imaginable road condition, 31 amateur drivers averaged 22.07 miles per gallon at an average speed of 41½ miles per hour. The best performing stock car achieved 26½ miles per gallon.

"The world is moving so fast these days that the man who says it can't be done is generally interrupted by someone doing it." —Anon.

We MUST Have Economy in Government

Elect FRED RED HARRIS of Dallas County Lieut.-Governor

Harris served
6 years as representative
4 years as senator,
1 term as County Commissioner,
4 years in United States Navy

Harris opposes
importation of foreign oil, any creation of additional boards or increase in state expenses.

Harris favors
passage of legislation to enable city, county and state tax collectors to collect more than \$80,000,000 delinquent taxes now overdue, with out the heavy cost of the present procedure.

FRED RED HARRIS FOR LIEUT. GOVERNOR

New, All-Time Record! Users Now Buying 1530 CHEVROLET TRUCKS A DAY!

We and all other Chevrolet Dealers have delivered 40,001 Chevrolet trucks — an average of 1530 a day — in a single month! That's an all-time, all-industry record that no other truck even approaches. That's the best possible "buy-sign" for you. It tells you that Chevrolet trucks are first in user preference because they're first in value. It tells you that Chevrolet trucks are the proved leaders on all kinds of roads for all kinds of loads. It tells you that Chevrolet trucks will haul your goods more miles at less cost per mile. Come in and get all the money-saving facts!

*Based on official dealer-reported sales during the last full month for which figures are available.

ADVANCE-DESIGN TRUCKS

Performance Leaders

Chevrolet's newest and most powerful trucks feature an improved 92-h.p. Thriftmaster Valve-in-Head engine and a brand-new 105-h.p. Loadmaster Valve-in-Head engine. Smooth, quick acceleration is provided by Chevrolet's new Power-Jet carburetor. Synchro-Mesh transmission enables driver to shift with greater ease and safety.

Payload Leaders

Chevrolet trucks deliver the goods at low cost per mile—and deliver them fast! Features like Chevrolet's Diaphragm Spring clutch for smooth engagement and Double-Articulated brakes for complete driver control enable you to meet the most demanding road schedules.

Popularity Leaders

Chevrolet Advance-Design trucks are America's biggest sellers! That's because users recognize the value of such Chevrolet features as Hypoid rear axles that are 5 times more durable than spiral bevel type and Unit-Design cab and bodies that are built for added strength and durability.

Price Leaders

Chevrolet's rock-bottom initial cost, economy of operation and upkeep and high trade-in value add up to the lowest price for you. Compare values! Compare what you get for the price you pay. You'll find everything favors Chevrolet trucks.

BROTHERHOOD LEADER—T. E. Braniff of Dallas, president of Braniff International Airways, has been named to the steering committee of the World Organization for Brotherhood, a group recently formed in Paris, France, to fight intolerance on an international scale. The world organization will be patterned along the lines of the 22-year-old National Conference of Christians and Jews in the United States, of which Braniff is a national co-chairman.

THE "HELI-PHANTS" ARE COMING—A "heli-phant" is a helicopter that looks like an elephant. When it is not playfully butting ringmaster J. D. Haybow, a flight sergeant, the "heli-phant" spends its time wondering what an "ele-copter" looks like. Habitat of the rotor-powered pachyderm is Beaulieu, England, where a whole herd of "heli-phants" are rehearsing for the Royal Air Force helicopter circus to be held at Farnborough.

WALKING IS A FEAT WITH 4 OF THEM—Charlie, the chicken, has to think twice about going for a walk because he has twice as many feet as his fine-feathered friends. Were it not for the fact that his rear feet point backwards, Charlie could easily move "on the double." As it is, the chick, who is owned by Mrs. Oliver Carpenter of Schenectady, N. Y., never knows whether he's coming or going.

Mileage Marathon
An oil company research expert recently squeezed about 150 miles per gallon out of regular-grade gasoline. He re-arranged the gear ratio of his car, buffed the tires smooth for better road action, disconnected the fan, reworked the engine and then, in a "Mileage marathon," coasted when ever possible. He drove about 16 miles per hour.

The word "petroleum" is derived from the Latin words "petra" meaning "a rock" and "oleum" meaning "oil."

Prosperity: that which goes to the heads of some people and to the waists of others.
Optimist: a fellow who laughs to forget. Pessimist: a fellow who forgets to laugh.
Snoring: a pleasure that's all yours.
Nightclub: a place where they have what it takes to take what you have.

More Gasoline From Less Crude
Oil refining processes have been advanced by petroleum engineers to the point where today's 20-gallon tankful of automobile gasoline can be obtained from one 42-gallon barrel of crude oil. That same tankful 30 years ago would have required two barrels of crude, while in 1910 refineries had to process four and one-half barrels of oil to squeeze out 20 gallons of gasoline. On top of that, today's gasoline is an infinitely better fuel.

Upper Elm-Red Soil Conservation District News

DISTRICT SUPERVISORS
J. W. Hess, Muenster V. W. Redman, Saint Jo
John Rice, Collinsville Ed Blackmon, Bowie
Willard Kemplin, Valley View

Legume seed harvest is in full swing in the Muenster area with cooperators of the Upper Elm-Red Soil Conservation District windrowing and combining their clover and vetch.

At this season each year Madrid, Hubam and Biennial white sweet clover and Hairy vetch come into their own as a cash seed crop. These legumes are grown chiefly for their soil improving qualities, but they have other uses. They serve as a cover crop to protect the soil from the damaging effects of falling rain and excessive runoff, they may be grazed to supplement pasture grazing, they all make good hay crops, they have blossoms that are inviting to bees for a honey crop and the seed may be harvested.

Roy Townsley of Myra has harvested 4200 pounds of vetch seed from his 20 acres field. He plans to increase his vetch acreage next year. Wright Embry and J. H. Embry of Saint Jo are busy combining their vetch.

Prospects look bright for good seed prices again this year for Madrid sweet clover and growers in the Muenster area are carefully watching their clover fields so that the clover will be put into a windrow in time to get maximum yields.

H. N. Fuhrman has completed seed harvest from his Madrid clover and plans to use the seed to increase the clover acreage on his farm. George Bayer has windrowed the 20 acres of Madrid in his north field. Howard Mays of Saint Jo used a windrow machine to lay his Madrid clover stand down and Price Hudspeth of Forestburg used a binder to windrow his 40 acres of Madrid. They expect to combine the clover seed this week.

Waterway management is still an important part of the farm chores. If plantings of bermuda and buffalo grass are to become established and do well they must be protected from weeds and the taller growing grasses and the best way to accomplish this is by mowing and grazing.

Hubert Felderhoff has given a helping hand to the bermuda grass on the waterway he sodded this spring by mowing the weeds and Johnson grass.

Charlie Cler has removed the grass from the waterway that he seeded to King Ranch Bluestem. He has a good stand of the bluestem grass.

Alphonse Luke and Frank Hacker have good stands of native grass in their waterways that were seeded last year. The grass mixture include Big and Little Bluestem, Indian grass and Switchgrass. The native grasses made very little growth last year, but are making rapid growth this season. Proper management insured the establishment of these waterways.

Lindsay News

Janie and Alcuin Paul Kubis are recovering from mumps.

Mrs. Ray Hess and infant son, Thomas Ray, are here at the home of her parents, Mr. and Mrs. H. S. Fuhrmann, to stay about a week before they return to their home in Muenster.

Sgt. and Mrs. Walter Huchton and son of Sherman spent the weekend here and in Muenster with relatives. Mrs. Huchton and son remained through Wednesday to visit her parents, the John Bengforts.

Miss Rita Block has returned home after spending a week in San Antonio visiting her aunt, Mrs. Albert Spaeth and family. While in San Antonio she also attended the religious ceremonies at Our Lady of the Lake Convent and visited with former teachers.

Rev. Herman Laux visited here Friday with his parents and other relatives. He was en route to Altus, Ark., after a two week's vacation trip to Colorado and other points. Joining him on the trip home was Rev. John Walbe who was returning to Little Rock after a visit in Muenster.

Mrs. Robert J. Beyer and twin babies, Mary Jane and Gary Wayne, left Gainesville sanitarium last Thursday and are at their home here. The double baptism service will be held Sunday in St. Peter's church. Mr. and Mrs. Joe Vogel will be godparents for their granddaughter, and Mrs. Adam Bever, joined by Robert Loerwald, will be godmother for her grandson.

Mrs. Joe Bezner and her guests, her daughter, Mrs. Ed Corcoran and two daughters, visiting here from Los Angeles, joined by Al Bezner of Dallas, spent the weekend in Franklin, Texas, with the Joe Bezner Jr. family. Other members of the family gathering at Franklin for the weekend were Mr. and Mrs. J. L. Kelly of Baytown, Mrs. Jess Galvan and daughter, Peggy, of San Antonio, and Hubert Bezner of Jourdanon.

Neither Hair Nor There

Niece: "Auntie, why is it Uncle hasn't any hair?"
Auntie: "Why, it's because he is a wise man and thinks so much. You see, it hasn't time to grow."
Niece: "Then, Auntie, why is it that you have so much hair?"
Auntie: "Now, dear, run along and play and don't tire Auntie with questions."

Valley View Trims Ruffnecks Twice In Double Header

Two factors, the hurling of Valley View's ace, Wilford Favors, and the Ruffneck's own errors, accounted for the double loss which tumbled the local softballers back into fourth place last week. Valley View beat the Ruffnecks 4-0 and 3-2 in a double header there, Friday night.

Meanwhile the Bezner Chicks beat the Merchants and Nocona beat Saint Jo in the only other games of the week. Contests usually played on Tuesday were not scheduled because of too many conflicting plans for July 4.

Results of those games on loop standings were to place Valley View in the lead, the Chicks just barely behind in second, and Nocona in third but out of reach of the league title.

The first game Friday night was a decidedly one sided affair with the Valley View boys scoring 2 in the first frame on 1 hit 2 errors and a base on balls. The next inning they scored 2 more on 3 hits. Muenster on the other hand placed only 3 men on base in the entire game, on 1 hit and 2 walks.

The nightcap was more of the same thing. Valley View opened with 2 runs on a walk, a hit, and two errors and got another in the third on two errors. Mages' 2 runs for the Ruffnecks resulted from an error followed by a hit in the third and a hit followed by an out-field fly in the fifth. Pitchers for Muenster were Hartman and Mages. Favors hurled both games for Valley View.

League Standings:

Valley View	13-3	.812
Chicks	12-3	.800
Nocona	9-6	.600
Muenster	9-8	.529
Merchants	5-12	.294
Saint Jo	1-17	.055

Games scheduled next for the Ruffnecks are Saint Jo there July 6 and the Merchants here July 11.

Dry Ice Helps Oil Drillers

Dry ice was put to work recently to solve a critical problem at an off-shore well in the Gulf of Mexico. Oil and gas pressure threatened to blow out the drill pipe and endanger personnel and adjoining wells. Quick-thinking drillers pumped mud into the drill pipe and surrounded it with pulverized dry ice. The resulting plug of frozen mud held the pressure in check until controlling valves could be put in place.

You can be sure that if you laugh at your troubles you'll never run out of something to laugh at.

HOTEL CHAPEL—Tiny Meditation Chapel, tucked away on the third floor of downtown Manhattan's Biltmore Hotel, is believed to be the only such place of worship in a hotel. Established in 1924, the chapel was blessed for use by the Catholic, Protestant and Jewish faiths. Its doors are never closed. Although sometimes the scene of small weddings, the non-sectarian chapel is not used for regular services. No collections are taken and no records are kept in the unique place of worship.

CLAIRE TREVOR and FRED MacMURRAY hitch-hike a ride in this scene from "BORDERLINE" a Universal-International release.

Muenster Holds To T & O League Lead; Beats Terral 13-7

With a 13-7 victory over Terral Okla., here Sunday afternoon Muenster's baseball nine continued its grip on a perfect record and tie for top spot on the T & O league. The other team sharing league leadership is the winner of last Sunday's Nocona-Bowie contest. Prior to Sunday's games the three teams were in a 3 way tie.

A slugfest in the fifth, accounted for Muenster's win over Terral. When the visitors ended the top of that inning they had a comfortable 6-3 lead, but the local men added more than enough with a 7 run rally. In later innings they added 3 for good measure while holding Terral to 1.

Buck Knabe again was the mainstay on the mound. He relieved Mike Luke in the fourth with the count 4 to 1 against his team and allowed 3 hits and 3 runs for the rest of the game.

Vincent Becker for the home team and Jackson for the visitors hit the only homers of the afternoon.

Muenster's next game will be at Terral next Sunday.

Where Taxes Go

Bureaucrat—"If we are unable to figure out a way to spend that two hundred and twenty million dollars, we'll be out of jobs."

Secretary—"How about building a bridge across the Mississippi?"

Bureaucrat—"That won't cost two hundred and twenty million dollars?"

Secretary—"Lengthwise?"

He Out-Foxed Her!

A young lady was interested in buying a fur jacket. "This is beautiful," she said, gazing at a handsome coat of red fox, "but I'm afraid." "Afraid of what?" asked the salesman. "I'm afraid it might be ruined in the rain." "My dear madam," exclaimed the salesman, did you ever see a fox carrying an umbrella?"
