

RUSHING PLANS FOR HEART OF TEXAS DISPLAY

Various towns of the Heart of Texas district are preparing their exhibits for the West Texas Chamber of Commerce convention, said Hilton Burks, secretary of the Brownwood Chamber of Commerce, and president of the Heart of Texas Secretaries' Association Tuesday.

Among those that he named from which word has been received regarding their active preparations for the exposition were Brady, Comanche, Coleman, Cisco, Lampasas, Mason, Llano and others. Preparations are now going forward with a rush.

All the colleges in the district will be represented with special displays, Mr. Burks stated. The exhibits at the Heart of Texas headquarters at the Fakes Furniture Company's in Fort Worth will represent the district as a whole, but at the same time the different towns and counties will feature in their own names those resources and assets for which they are especially noted.

A large number of the Brownwood people will leave for the convention on the Frisco next Sunday morning at 9:00 o'clock, the secretary stated, and it is desired that all who can will take that train, in order that they may reach the convention city together. Extra coaches will be put on if necessary, it is stated.

Much for the Money Those attending the convention, it is announced, will be given more for their registration fee than ever before offered by a host city. With each badge, the registrant will receive a book containing eight tickets to various entertainments provided by the citizens of Ft. Worth. The registration fee this year is the same as in former years, \$2.50, while if the visitor should pay admission to the various events where

admission is charged, the outlay would be approximately \$8.

Gerard to Speak
Among prominent men who are to speak at the convention are: Governor Dan Moody of Texas; Henry Swift Ives of Chicago, on the subject of the Sovereignty of Insurance; James W. Gerard of New York on the subject of National problems, and Hon. W. R. Boyd of the American Petroleum Institute, New York City, on some subject dealing with the petroleum industry. Numerous other brief addresses will also feature the convention.

The convention proper will open Monday, June 18th, although Sunday will be full of features. Addresses by West Texas laymen in evangelical churches of the city Sunday morning, a massed chorus in the afternoon, are some of the features.

The business sessions proper will begin Tuesday morning, a massed concert featuring Monday afternoon Fort Worth will stage a big parade, while the annual West Texas Chamber of Commerce parade will take place Tuesday afternoon.

Arkansas Coming
Arkansas and Tennessee are said to be planning to send a number of delegates to the convention. Arkansas it is understood, is planning a regional Chamber of Commerce and expects to get much information at this convention, since the West Texas organization is the oldest and largest regional Chamber of Commerce in the world.

Pai Chung-Hsi is Formally Installed in Palace at Peking

PEKING, June 14.—(AP)—General Pai Chung-Hsi, leader of a campaign of anti-Red terrorism in Shanghai and Hankow, where he executed nearly 2,000 persons, was installed in the aYng Yu Ting palace in Peking today.

Two thousand Hunan troops formed his bodyguard when he marched into Peking. The general announced that he was bringing 120,000 more of his soldiers to the Peking and Tientsin areas.

GRANT FRISCO APPLICATION

The application of the Frisco to discontinue trains Nos. 3 and 4, the daylight passenger trains between Fort Worth and Brownwood, substituting mixed trains for them, was granted by the Railroad Commission at Austin Tuesday evening.

The Commission's order was entered after O. H. McCarty, vice president of the Fort Worth and Rio Grande; G. L. Oliver, traffic manager and S. L. O'Dell, counsel for the road, had gone before the body and presented statements as to receipts from the two trains and the cost of their operation. They all declared that the trains could not operate at a profit. This, they said, was due to the motor buses and privately owned automobiles.

Oliver testified that interline passenger earnings for 1927 showed up with \$22,831, while the 1927 record was but \$10,335. In the local traffic column the 1923 earnings were \$110,000, while the 1927 figure was \$45,000. In February of this year the net income of operating the two trains was \$78. Oliver said, compared to \$1,150 for October of last year, and showing the invasion of bus lines.

Yet the railroad paid a valorem tax of \$40,000 for 1927 along the line, while the buses paid \$218, the witness declared. Oliver said that he had conferred with citizens in every town on the railroad and that after presenting the situation to them they had agreed to make no protest, although they disliked to see lessening of train service.

INSTITUTE OFFICIAL TO DISCUSS OIL AND GAS AT CONVENTION

FORT WORTH, Tex., June 14.—(AP)—W. R. Boyd, assistant secretary and general counsel for the American Petroleum Institute of New York, will be the principal speaker for the oil and gas division of the West Texas Chamber of Commerce during the annual convention to be held here June 18, 19 and 20.

Mr. Boyd will speak at 11:30 o'clock June 19, before the main assembly. In the evening at 6:30 o'clock he will be honor guest at an informal dinner to be tendered by Amos G. Carter, publisher of the Fort Worth Star-Telegram.

Members of the West Texas Chamber of Commerce Oil and Gas Bureau and about sixty oil executives of the state are expected to attend this dinner.

It is likely a meeting of the bureau members will be held during the convention at which time several important matters are to be considered.

Hamilton to Report
Chairman W. B. Hamilton of the Oil and Gas Bureau also will submit an annual report for the bureau during the convention. This report will show what efforts have been put forth to conserve oil and gas, to stabilize production and to place the industry in general on a more substantial basis as they relate to production, conservation and marketing.

Due to the fact that Fort Worth is headquarters for so many of the oil companies of Texas, it is expected the gathering to hear Mr. Boyd will be one of the largest of oil men held in this section during recent years.

Mr. Boyd has not announced his subject. He is expected, however, to speak relating the oil and gas industry form a national viewpoint.

FIRST REHEARSAL OF MUNICIPAL BAND TO BE HELD TONIGHT

A band rehearsal for all Brownwood boys and girls, men and women, who care to affiliate with the new Municipal Band that is to be organized in the near future under the auspices of the Brownwood Chamber of Commerce, local National Guard units and other civic organizations, will be held Thursday night at 8:45 in the Soldiers and Sailors Memorial Hall, according to Rex Gaither, local band director, who will have charge of the rehearsal and others to be held pending the arrival of the new band director. Mr. Gaither urges that all local musicians, whether members of a band or not, attend tonight's rehearsal.

Merle Baker, of Florida, a famous band director, is the man recently employed to direct the new municipal band in Brownwood. He will arrive within a few weeks, at which time he will take complete charge of the band. It is expected that several rehearsals will be held before his arrival, in order to get the band partly organized, so that Mr. Baker may avoid going through all the details pertaining to the organization of the band.

Local men in charge of the band have an extensive program mapped out for the new band director. It is planned to have Mr. Baker meet with all local bands, those of Daniel Baker College, Howard Payne College, and Brownwood High School, at least one night each week, at which time he will help these organizations work out problems confronting them. Bands will meet together one or two nights each week.

Mrs. Harvey Morris, of Brownwood, was able to return Thursday following a reunion in a local sanitarium.

PICTURESQUE FIGURE IN SUFFRAGE BATTLE IS DEAD IN LONDON

LONDON, June 14.—(AP)—One of the most picturesque figures in the woman suffrage movement, Mrs. Emmeline Pankhurst died today in a London nursing home at the age of 68. Death came after a comparatively short illness.

Mrs. Pankhurst was the first militant suffragist in efforts to obtain the vote for women, millions of whom are now enjoying the privilege of casting their ballots at the parliamentary election.

Holloway jail was frequently used by the authorities to attempt to check activities of the militant women. Mrs. Pankhurst was often in and out of that institution and her last offense brought a sentence of penal servitude. She started a hunger strike, however, and was released before the sentence was completed.

The Great Insurrection led by Emilio Aguinaldo was the Philippine insurrection against the United States authority (1898-1901).

DEMOCRATIC COMMITTEE MEET MONDAY

Thomas H. Taylor, chairman of the executive committee of the Democratic party in Brown county, announces a regular meeting of the county committee in the county court room Monday afternoon at 2 o'clock. At this meeting the county ticket will be completed for the primary election in July and assessments for all candidates made.

According to Chairman Taylor, all candidates in the county, who have announced for office have filed with him for a place on the ballot. J. C. Plummer, of May, who formerly had filed for a place on the ticket as a candidate for commissioner of the May precinct, has withdrawn from the race, Taylor states, his withdrawal being attributed to ill health. C. D. Morrison, incumbent, and J. W. Miller, of May, are the only candidates for commissioner from the May precinct.

Chairman Taylor states that he has received the district and state tickets from the district and state chairmen and these tickets will be presented at Monday's meeting.

Negro Voters Barred

No action will be necessary Monday, relative to the rights of negro voters in the primary, as the state committee has already adopted a resolution which allows only white voters to participate in the Democratic primaries.

In regard to the Democratic pledge, which reads as follows, "I am a Democrat and pledge my support to the nominees of this primary," Chairman Taylor states that the pledge is self-explanatory, in that one's support is pledged only to the nominees of the primary participated in, and that inasmuch as presidential nominee, or electors from the state to the electoral college, are not on the primary ballot, no pledge is made to support the presidential nominee of the party.

It has been stated that some voters have indicated that they will not take part in the primaries should Al Smith be named as the nominee of the Democratic party for president. But, according to Mr. Taylor, a voter may take part in the primaries without pledging support to any presidential nominee.

ATTEMPT ON LIFE OF JAPANESE PRINCE IS MADE BY KOREAN

LONDON, June 14.—(AP)—An Exchange Telegraph dispatch from Tokyo says an attempt was made to assassinate Prince Kuni, father of the present Emperor during his visit to Formosa on May 14. This was learned when the press ban on news of the attempt was lifted today.

The dispatch stated that a Korean rushed at Prince Kuni's automobile and hurled a dagger. The prince was not injured.

Osamoshin Yamakami, governor general of Formosa, came to Tokyo and resigned, assuming responsibility for the incident.

French Planes on Maneuvers Are Forced Down
LE BOURGET, France, June 14.—(AP)—Seventeen military airplanes of a squadron of 21 were forced down, five being wrecked and one observer killed, during a night flight from Nancy which ran into a violent storm in the Paris region.

Twelve of the planes have not yet reported, but it is hoped that they made safe landings in the country districts.

Santa Anna Unit Legion Auxiliary Is Reorganized
Mrs. W. D. Armstrong and Mrs. Corville Turner went to Santa Anna Wednesday afternoon to reorganize the Santa Anna unit of the American Legion Auxiliary. The body was reorganized, they state, with fifteen of the old members and five new members on the roster, and they promised to have thirty members in the unit by the night of June 24th. Mrs. Armstrong told the members of the new organization that they would be notified of the date of the next joint meeting of the Legion post and unit in Brownwood and extended a special invitation to attend.

PUBLIC UTILITIES SENT PROPAGANDA TO TWO LEGISLATURES
WASHINGTON, June 14.—(AP)—Members of the Mississippi and the Louisiana Legislatures were circulated with public utility publications at the expense of the Louisiana-Mississippi committee on public utility information. Hugh M. Blain of New Orleans testified today at the Federal Trade Commission's utility investigation.

Blain said that his organization had been sending the public service magazine, published in Chicago, to the Legislatures since about 1924. He said that 337 copies were sent to the Solons and members of the public service commissions of the states each month and it costs his organization \$3.70 a month. Upon questioning he said that he wrote a letter to the members of the Legislature advising them that he was having the magazine sent to them but he said he could not remember what he wrote.

MORTUARY

J. S. SMOTHERS
Joe S. Smothers, age 32, a farmer of the Winchell community, died at his home two and a half miles northwest of Winchell, early Sunday morning. He was the son of Mr. and Mrs. Jim R. Smothers and was a native of Brown county.

Funeral services were held Sunday afternoon at 4 o'clock at the Cox Cemetery, burial being made there immediately following the services.

Deceased is survived by his wife, parents, Mr. and Mrs. Jim R. Smothers, a sister, Mrs. Willie Allen, of Rising Star and a brother, Smothers, of Big Springs.

WILLIAM ETHEL HODGE
William Ethel Hodge, age 61, of Cleburne Street, North Brownwood, died at his home Sunday night following an extended illness. Mr. Hodge was once a Texas Ranger and served as a deputy sheriff under Sheriff Davis, of Brown county. He was a U. S. Guard at Muscle Shoals during the World War. His service with the Texas ranger force was from 1917 to 1919. Mr. Hodge has been a resident of Brownwood for the past 30 years.

William Ethel Hodge was born June 30, 1866 in Elgin, Texas and had resided in Texas throughout his life. He is survived by his wife, five children, Frank Hodge, of Corona, New Mexico, Clint Hodge, of Brownwood, Bryan Hodge, of Slaton, Texas, Mrs. Carroll Wilson, of Brownwood, Mrs. J. K. Biggs, of Galveston; four brothers, J. R. Hodge and G. N. Hodge, of Best, Texas, N. B. Hodge, of Veron, Donald K. Hodge, of Los Angeles, California, and two sisters, Mrs. E. J. Lackey of Sherwood, Texas and Mrs. E. T. Dameron, of Eldorado, Oklahoma. Seven grandchildren also survive Mr. Hodge.

Funeral services were held Tuesday, June 12, at the Greenleaf cemetery, immediately following the services at McInnis Chapel.

Rebels Invade Town and Loot Federal Offices
MEXICO CITY, June 14.—(AP)—Dispatches from Tuxtla, Guerrero today said that a group of insurgents entered the town, which is un-garrisoned, broke open the jail and looted government offices and a few stores. They also forced a loan upon the inhabitants of the town.

The insurgents, who were under Erasmo Mejia, fled when government troops approached.

THE COST OF GOVERNMENT

MOST OF US complain about high taxation, but we are largely responsible for the high taxes we pay.

Mr. Coolidge, in his budget message, said among other things: "Students of business trends, experts in economic conditions, view with alarm the continued advance in the cost of government."

"This steady increase in governmental cost on the part of the States and municipalities is a menace to prosperity. It cannot be ignored. It cannot longer continue without disaster. It will not correct itself. I can conceive no more dependable guaranty of genuine prosperity than a nation-wide effort in behalf of less and wiser spending by State and local governments."

Federal taxation is not direct, except in the income tax which was authorized by more than three-fourths of the State Legislatures. Much of the state taxation is direct, and most of the county and municipal taxation is direct, and authorized by popular vote.

Yes, it is very fine to learn that we have 175 slaves apiece. But there is another related question which Dr. Scott did not try to answer. It is: How many masters have we got?

COMMENDS HIS OPPONENTS

AFTER FILING his name as a candidate for the office of State Land Commissioner, J. Hershel Boggs of San Angelo has withdrawn from the race with the statement that a capable land commissioner can be chosen from others who had offered themselves as candidates.

Mr. Boggs came into public notice two years ago when he began advocating the sale of university-owned lands in West Texas counties. Vast areas of school lands are found in a dozen or more counties of West Texas, and some of these lands have become very valuable because of oil developments.

Although he has withdrawn from the race for land commissioner, Mr. Boggs states that he will continue to work in behalf of legislation designed to break up the great tracts of West Texas school lands. He insists that he is not fighting the university, but is trying to induce the state to require the university to give West Texas a square deal.

RUNNING TRUE TO FORM

NOTHING very startling has happened in Kansas City, where the hosts of Republicanism are gathered for the quadrennial selection of standard bearers and the formation of a party platform. The nominee was announced on the opening day, when votes were tabulated and Herbert Hoover, with the aid of Pennsylvania, was found to be far in the lead of all his opponents.

Hoover's nomination was assured when it was announced that Pennsylvania's big block of votes would be cast for the Californian on the first ballot. This action, while of great importance, was not unexpected since Mr. Mellon, admittedly in control of the Pennsylvania situation, announced several days ago that in his opinion Mr. Hoover was the logical candidate.

The platform has been causing considerable trouble. Unwilling to grant Borah's demand for a straight forward prohibition amendment, and unwilling to offend the big group of dries whose votes are needed to win next November, the platform makers have been searching for a prohibition plank that would be dry but not excessively so.

As it was foreordained and predestined to be, the Texas contest for delegates was finally settled in favor of the Creager group. Mr. Creager first defeated the

Wurzbach contesting faction in the national executive committee, then in the credentials committee, and finally on the floor of the convention. In the latter fight the vote was indicative of the Hoover strength in the convention—about two-thirds majority—since the only interest the convention had in the matter was of increasing the Hoover ballots.

THE SLAVES WE OWN

DID YOU KNOW that every man in the country possesses 175 slaves? Walter Dill Scott, president of Northwestern University, has it all figured out. Mechanical power in the United States today, rated on a per capita basis, provides manpower at the rate of 175 slaves apiece.

President Scott's figures are interesting. They portray graphically the transformation that the spread of mechanical power has brought. The fact that each of us does 175 times as much work as our pre-Civil War ancestors accounts for much of our prosperity.

It is a notable thing to have 175 slaves working for you if you are your own master. But if you are not, what then? Are you any better off than the slaveless man of 1849?

This does not refer to the conditions under which you earn your bread. Naturally, in this day, few men can enjoy a job that knows no superior. It does refer to the conditions under which you order your daily life. Are you, in the real sense, independent? Do you shape your life—your daily conduct, your ideas, your mental processes—according to your own wishes, or do you do it according to the dictates of invisible but powerful masters?

A man can own 175 slaves, or triple that number, and yet be a slave himself; a slave, for instance, to fear, to conformity, to tradition, to ignorance, to superstition. Some men are even slaves to the mechanical slaves that serve them. They are so engrossed in the activities of their mechanical servants that they take them for the be-all and end-all of existence.

We have prided ourselves quite long enough on our power and our prosperity. It is about time that we began to look a little more deeply into modern life, to see if we really are progressing as fast as we think. If we are not free ourselves—free to think, act and speak as our own consciences suggest—our myriads of slaves are worse than useless.

THE YANKEE SLUGGERS

New York World: With the present Yankee team we see a complete change in baseball, so far as its basic strategy is concerned, from what it was thirty-five years ago. When the game first emerged from the stage of unco-ordinated individual performance and teams learned to play as units, the immediate trend was toward organized trickery. True enough, as it was employed by the old Baltimore Orioles this was called "inside baseball." But it was trickery just the same, for it consisted chiefly of wearing down pitchers by fouling innumerable balls into the stands, drawing a pass by letting the ball dust the front of a shirt, and other things of the same sort.

The first hint of what the modern teams would be like came with the old Philadelphia Athletics. That team could field, but it could also hit, or at least a few of its members could hit, and it won games at a great clip. It also made money. The fans seemed to like it better than the old clever teams. And then came a man who revolutionized baseball. That was Ty Cobb. In case you have forgotten, he was the Babe Ruth of his day. Old men journeyed 100 miles on the steam to see him play, and came back home home marveling at what he did. The magazines and newspapers were full of his speed, his craftiness, his audacity. And many a manager must have pondered over him long and hard. For his slashing aggressiveness not only won games, but drew customers by the thousand to the gate. With him the day of the great pitchers began to wane. People became less interested in the Walter Johnsons, the Rube Waddells, the Chief Benders and the Christy Mathewsons, and began to watch the Cobbs, Lajoies and Wagners, who were providing the action. And out of that fact, no doubt, was born the present Yankee team.

Well, here is the ultimate result of the trend started by Cobb and the old Athletics. Here is a team made up completely of hitters. Save for the pitchers and a catcher or two, there is not a nan on it who is not dangerous at the plate. There is no such thing as a little end on its batting list. Opposing pitchers have no soft innings. It is a dreadful grind all the way through. And it can field with the best of them, although that is usually forgotten when its abilities are appraised. Could this aggregation, then, have defeated the great teams of the past? One imagines it could have disposed of them in short order. Tricky? It knows all the tricks. Science? It knows all that was described as science. Pitching? No pitching could stand up against this crew of maulers. It has everything that the old teams had, plus this terrific attack that fills baseball full of the excitement that ought to be in it. This team in all likelihood is the greatest team that ever trotted on a diamond. We are watching baseball history.

BEGIN SALE OF TRAIN TICKETS TO CONVENTION

A committee was selling tickets Wednesday for the Sunday morning Frisco train to the W. T. C. C. Convention in Fort Worth, and it is said to be meeting with good success.

Any one not seen by the committee, but who desires to make the trip to the Convention on that train, is requested to telephone the Chamber of Commerce. Any one wanting to get a ticket, or to engage a room for the Convention, or both, should notify the Chamber of Commerce, Secretary Burks states, and their wants will be looked after at once.

It is especially desired that a good delegation go over on Sunday morning as the Old Gray Mare Band, under the direction of Wright Armstrong, is to meet the train and lead a parade to the hotels and then to the Heart of Texas headquarters, where concerts will be played. The exhibit committee now plans to have the Heart of Texas exhibits ready for the curtains to be raised on them at the Fakes Company building when the delegation arrives at headquarters at 5 o'clock Sunday afternoon.

Callahan Townsen

Cross Plains notified the committee Wednesday morning that that town will have an exhibit, and also that a sponsor had been selected. Telegrams were received by the Chamber of Commerce during the morning from Baird and Clyde, making three towns entering from Callahan county.

The best straw hats to be worn by the Heart of Texas delegates have been received in Brownwood and the bands are being made for them. Citizens of the different Heart of Texas towns will have the name of their own town on their hats.

Mrs. W. D. Armstrong and W. A. Wilson, of San Saba, members of the exhibit committee, will leave for Fort Worth Thursday afternoon. Hans Schroeder, the other member of the committee, are now in Denton attending the firemen's convention. He will stop in Fort Worth on his return to assist in arranging the exhibits.

Can Register Here

Registration badges have been sent for and will be at the Chamber of Commerce Thursday. Secretary Burks states, Brownwood citizens can save trouble by making the registration and receiving their badge here instead of waiting until they get to Fort Worth. The registration fee is \$2.50. The badge entitles the holder to admission to a large number of entertainments as named in the Bulletin yesterday, and also to a vote in the convention.

WILLIAMSBURG, Va.—At a cost \$4,000,000 or more John R. Rockefeller, Jr. is to restore this historic town, founded in 1632 and rich in memories of the cavaliers and the genesis of the nation's independence. More than 100 colonial structures are to be restored and the whole town will be made a museum of the beginning of the United States.

COUNTY EXECUTIVE COMMITTEE MEETS HERE ON JUNE 18TH

A call for a meeting of the Brown County Democratic Executive Committee on June 18th has been issued by Thos. H. Taylor, county chairman. Among the matters to come before the committee will be the filling of vacancies on the committee, drawing for places on the ballot, determining whether there is to be a county run-off primary and similar items of routine business.

In connection with the call for this meeting, Chairman Taylor has issued the following statement: "Applications for places on the ballot from precinct and county candidates will be received until midnight, Saturday, June 16. Applications have been received from all county candidates regularly announced in the newspapers."

"A certificate has been received from Judge James P. Stinson of Albuene, Texas certifying the names of Calloway, Shanks, Lee, Perkins and Grisham from Congressmen. Judge M. B. Blair is without opposition for Associate Judge of the Third Court of Civil Appeals at Austin and Hon. W. U. Early is without opposition for District Attorney of the 25th Judicial District. J. O. Woodward and E. J. Miller have filed applications for judge of this district. C. H. Jenkins and F. P. Grantham have filed application for Representative from the 125th district. State Senator Walter Woodward is a hand-over and does not have to run this year for re-election. The State Executive committee will meet at noon, June 11th to certify to the County Chairman the various applications for United States Senator and State offices."

Houston Convention. "Brown county citizens who plan to attend the National Democratic convention at Houston on June 26th should communicate with the county chairman. The distribution of tickets on the basis of contributions is a matter confined entirely to the local citizens of Houston. However, considerable difficulty will be met by the great Houston committees in caring for the enormous crowds. This will be the greatest meeting of any type ever held in the United States. It will be necessary therefore that the Houston committees shall know definitely those who desire to attend."

FIREMEN TO CONVENTION

Brownwood Firemen, 30 strong, left Brownwood Sunday and Monday for Denton to attend the annual convention of the Texas Firemen's Association which opened in that city Tuesday morning, to continue through Thursday. Heading the Brownwood delegation is the racing team, winners of the 1927 state title at the race meet held in San Antonio in connection with the 1927 state convention. Johnny Dean served as captain of the 1927 team and is again serving in the same capacity.

W. P. Denny and wife, Ivan Hayes and Olaf Gill left Sunday and were to have had all arrangements made for the main Brownwood delegation which left here early Monday morning. All Brownwood rep-

resentatives made the Denton trip overland. Brownwood firemen let it be known before leaving that Brownwood's vote for the 1929 state convention would be cast for Coleman, as that city is making a determined fight for the next convention.

The Brownwood racing team left here confident of another victory in the racing meet and unless an upset occurs the 1928 title should come to this city. All but one of the 1927 team is again in harness and with a good man taking the place left vacant, the team should make as good a record as one year ago.

TWO CAR WRECKS NEAR AUSTIN AVENUE SUBWAY FRIDAY NO ONE HURT

Two car wrecks within 30 minutes time, or less, occurred on opposite sides of the Austin Avenue subway Friday afternoon between 6:30 and 7:00. Four cars in the two wrecks were badly damaged but all drivers and occupants escaped without injury.

The first of the two smashups was at the Austin Avenue and Brady Avenue entrance to the subway. H. L. Phelps, driving a Buick touring car, was going south on Austin and Leonard Keith, in a Studebaker,

was coming into the subway from Austin Avenue and according to Guy Reese, local speed cop, Keith cut across the exit of the subway onto Brady Avenue, making a left hand turn off Austin. A few minutes later a Chevrolet coupe and a Buick touring car collided at the corner

of Austin Avenue and Carnegie Street. J. D. Haren, driving the Buick, was going toward the subway on Austin and made a left turn to Carnegie Street by the Sullivan Machine Shop and in so doing was hit by the Chevrolet car driven by F. A. Thames.

Commissioners' Court
Completes Work as
Equalization Board

The Brown County Commissioners' Court completed its work for the present term Tuesday afternoon,

following two busy days' work in making numerous adjustments on property renditions in the City of Brownwood and Brown county. According to the report of the court, very satisfactory adjustments were made in most cases brought to the court's attention while sitting as a

board of equalization. In addition to other routine business that came before the court, it was necessary to appoint a public weigher for Precinct No. 2. Blanket, to fill the post left vacant by the resignation of V. E. Eoff. R. L. Eaton was appointed public weigher for this precinct.

HON. R. M. GRISHAM

JUDGE GRISHAM IN
RACE FOR CONGRESS
IN THIS DISTRICT

Judge R. N. Grisham of Eastland, one of the most widely known members of the bar of West Texas, is in the race for Congress.

His candidacy is meeting with assurances of support throughout the district. He recently opened his campaign in Abilene, the largest city in the district, and the Hon. R. W. Haynie occupied a seat on the platform. Judge James Stinson made the speech of introduction and among those who shook Judge Grisham's hand at the close of his speech were W. J. Cunningham, who made a brilliant race for Congress four years ago, ex-Mayor Dallas Scarbrough, ex-Mayor E. N. Kirby, J. M. Wagstaff and Harry Tom King.

He has been engaged in the practice of law for 26 years, was county judge of Kent county, was district attorney of Sweetwater, was a school teacher before being admitted to the bar, and is a lifelong resident of West Texas.

His platform, without seeking to paramount any one issue or to appeal to any one class of citizens but rather to all, is a clear, compact statement on public questions. Judge Grisham advocates more treaties of commerce to aid markets for America's natural products; proper consideration to the disabled soldier; restricted immigration; in time of peace, the reduction of the army and navy to a minimum, and consideration of the flood water control problem as a national question.

"Congress alone has power under the Constitution to declare war," he states, "and when others precipitate on our country a condition of war, it should be made statutory grounds for removal from office or for immediate impeachment, even though it applies to the president of the United States."

"The United States has no right under any constitution or law to interfere or to intermeddle with the domestic affairs of the Latin-American republics and the government should not, uninvited, take part in such matters. Strict neutrality in Asiatic and European wars should be observed."

"The Sherman anti-trust law should be amended and the offense against it confined to combination: to reduce the prices of wheat, cotton, oil and other commercial commodities and such an offense should be penalized without immunity."

After pledging support to the Constitution and all its amendments, Judge Grisham expressed gratitude to the thousands of voters who supported his eight years ago when he ran for Congress, and his statement concludes:

"A public officer is a public serv-

ant. The position I seek is one of great responsibility and requires much hard work. If I am elected it will be my purpose to serve every part of the district faithfully as I would serve a client with a just cause. I will give attention to laws promoting public health, public education, reclamation, agriculture, transportation, farm relief, federal reserve bank system reform to better accommodate the needs of the farmer and stockraiser, proper pensioning, and to the common welfare of everyone who asks legitimate aid."

The 17th Congressional district is composed of Brown, Burnet, Callahan, Coleman, Comanche, Concho, Eastland, Jones, Lampasas, Llano, Mills, McCulloch, Nolan, Palo Pinto, Runnels, San Saba, Shackelford, Stephens and Taylor counties.

FALSE ALARM
DURING STORM

Brownwood's Volunteer Fire Department, faithful and ever ready to answer any and all calls for assistance, braved Tuesday night's storm in response to a call to the 400 block on East Lee Street, but upon arrival found that someone had turned in a false fire alarm. Fire trucks from the No. 2 Station in South Brownwood made a hurried and dangerous run through a blinding rain and wind storm, only to be sent back over the same route, rainsoaked and chilled, as well as a bit angry but satisfied that all that could be expected of them had been done.

Members of the fire department called the telephone office in an effort to determine from what number the alarm had been sent, but found that the operators in charge had failed to note the number from which the alarm was sent, this neglect being due to the fact that business was rushing during the storm.

Local police officers have made a thorough investigation in an effort to apprehend the party guilty of sending in the false alarm but their efforts have been in vain.

Clear Creek, Brooksmith, Dulin, Zephyr, McDaniel, Indian Creek and Jones Chapel. The communities will compete for a prize given annually by Austin Mill & Grain Company. The following Saturday, June 23, the annual butter judging contest will be held at the same place. The contest will be held at 10:00 o'clock Saturday morning, and although plans are not completed, it is hoped that an all day program may be arranged. Further announcements will be made soon, it is stated.

BIRTH REGISTRARS
FOR COUNTY NAMED
BY STATE OFFICIAL

Pointing out that only 32 births and 7 deaths were officially reported in Brown county, the first three months of this year, the State Health Department announces an organization that has been set up in the county for the handling of vital statistics. E. T. Perkinson is made registrar for Brownwood, precincts 1 and 5; J. B. Leach, Brownwood city; Mrs. Stella George, May, precincts 2 and 8; T. J. Gade, Blanket, precincts 3 and 4; and Dr. J. D. Holder, Holder, precincts 6 and 7, according to announcement received here.

The State Health Department cites the provision of the law that "Every birth is required to be reported to the local registrar of the district in which it occurs, by the attending physician or midwife, or if there were neither, then by the father or mother, within five days after birth." The law also "prohibits the burial of a dead body before a death certificate properly and completely filled out has been filed with the local registrar and a burial or removal permit has been secured," the statement continues.

Dr. J. C. Anderson, state health officer, emphasizes the "immense legal value of these records," and says it is important that the citizens of Texas be given this protection by having a complete, legal record properly filed in accordance with the amended vital statistics law."

A Bond If You Live—A Policy If You Die

The Choice of Life Insurance

The Choice Life Savings Plan

As a life savings plan let's start a young man at age 21 out with a ten thousand dollar policy, or rather we will start him out to accumulate a \$10,000 cash estate. He pays in no part of the principle, pays no interest. All we will ask him to do is to deposit annually a part of what the taxes would be on that much money, insuring him all the while that if he lives to mature the plan all of the tax money will be returned to him with interest added. If he dies the first year or any other time we will pay his estate the whole ten thousand dollars he started out to accumulate. If he is killed accidentally his estate will receive \$20,000, or twice as much as he started out to save. If he becomes permanently disabled we will make the annual deposits for him, pay him one hundred dollars every month as long as he lives, no matter how long that is, and then when he dies we will pay his estate the \$10,000 he started out to accumulate. If he lives to carry out the plan and nothing happens to him he will be paid in cash \$17,241.70; a profit on his investment of 62 per cent with Life Insurance absolutely free from the time he was 21 years old. If he chooses not to be bothered with this large sum of money we will pay him \$149.15 each month as long as he lives, guaranteeing that he or his estate will be paid a total amount of \$17,898.00, or more. This savings plan is certain. You complete what you start out to do whether you live or die. It is as safe as can be.

\$100.00 Per Month If You Are Disabled

These Alamo Life Bags contain ONE HUNDRED DOLLARS each, and if you become physically disabled permanently, a bag will be delivered to you on the first of each and every month as long as you live to receive them, no matter how many months that may be and then after your death the bag containing \$10,000.00 will be delivered to whomsoever you have named to receive it. You deposit no more premiums after you are disabled.

\$10,000 Death From Any Kind of Illness

This big Alamo Life Bag contains TEN THOUSAND DOLLARS and no matter what illness you may die from it will immediately be delivered to whomsoever you name to receive it. Heart failure is not an uncommon cause of death, nor is pneumonia; and even in this section people have been known to die from appendicitis, acute indigestion, blood poison and a great number of common diseases known to everybody.

\$20,000 Death From Accident

This big Alamo Life Bag contains TWENTY THOUSAND DOLLARS, and as sure as you die from accident it will be delivered to whomsoever you name to receive it. Automobile accidents are responsible for many deaths this day and time, and once in a while somebody gets accidentally shot, walks out of a second-story window in their sleep to break their necks on the pavement below or the lightning strikes them or something.

Cathey Is Held For Inquiry by Local Officers Bryan Cathey, who gives Odessa as his home address, is being held in the Brown county jail for investigation, following his arrest Thursday night by Joe Boyd, of the Brownwood police force. Cathey was hiding in underbrush near the city limits at the time of his arrest. Sheriff Fred White is of the opinion that Cathey is wanted at other places or that he is an escaped convict. Finger prints of Cathey were made Saturday morning and these were immediately sent to Dallas, in an effort to learn whether he is wanted elsewhere.

AUSTIN AVENUE PAVING OFFER

J. J. Timmins, local realtor representing the Parks estate appeared before the City Council Tuesday night and made an offer to that body, relative to the paving of Austin Avenue from Ed B. Henley's residence in the 1900 block to Willis Creek. Mr. Timmins stated that all property owners on Austin Avenue were willing to pay for the paving of that street, provided the concrete culvert or bridge on Austin near Coggin Park be torn out, the grade of the street returned to its former level and a large concrete dip installed to care for storm water that flows through Coggin Park. According to Mr. Timmins about 2,000 front feet on Austin Avenue is owned by the Parks estate and unless the proposed dip can be installed and the road level lowered, he, as representative of the Parks Estate, could not agree to paying for any part of the pavement of Austin Avenue. Although no definite action was taken, all members of the City Council spoke very favorable of Mr. Timmins' proposition. Alderman Boyett and Shugart, with City Engineer Mark Ragsdale, were appointed to look the situation over on Austin Avenue and report back as to the feasibility of the proposed changes. Mr. Ragsdale stated that

he would make a report on the amount of drainage carried across Austin at the point of the proposed concrete dip. Civic Committee W. J. Redmond and Mrs. W. D. Armstrong, representing the civic committee of the Brownwood Chamber of Commerce, appeared before Council Tuesday night and asked that a committee from the Council be appointed to work with the Civic Committee of the C. of C., as well as with City Fire Marshall Bert Hise, in working out a more satisfactory and more economical system for hauling trash from the residential districts of the city. Redmond and Mrs. Armstrong told of numerous complaints of the present unorganized system of trash hauling. Mrs. Armstrong stated that it was the wish of the civic committee to divide the city into districts and assign one or more trash wagons to each of these districts, giving each wagon a definite schedule to follow each day of the week. Mrs. Armstrong would regulate trash hauling to the extent that a trash wagon would make a certain street on certain days. Rise to Develop Plan Mayor McCulley refused to appoint a committee to work with the civic committee, at the same time appointing Sanitary Inspector Bert Hise to consult with the civic committee, in an effort to work out more satisfactory plans. Mr. McCulley stated that at present the city has only four trash wagons and that one of these is used in the business district. In addition to this the Mayor told of the numerous duties of the trash wagons, emphasizing the

fact that it was impossible to give the service desired under present conditions. Mr. McCulley stated that the trash fees for the city had been raised from 25 cents per quarter to 50 cents, this to be effective with the next payment of quarterly water bills. By raising trash hauling fees the money available for this fund will be raised from \$750 to \$1,500 per quarter, according to the estimates of City Secretary Joe Leach. Few Fire Hazards L. D. Olives, state fire insurance inspector, who has been in Brownwood since Saturday inspecting Brownwood business houses, in an effort to eliminate all fire hazards, reported to Council Tuesday night that he had found very few fire hazards in the business district and that these were being remedied. He commended the work being done by the trash wagon that hauls trash from the business district and commended the work of City Fire Marshall Bert Hise. Clarence Remington, representing business men on Brown Street, asked Council Tuesday night to regulate traffic on Brown Street, suggesting that the street be made a one way thoroughfare or that parking be restricted to one side of the street. The street committee was instructed to investigate conditions on this street. A. K. Brannon, representing several property owners on Avenue E and Tenth Street, asked for a street light at the intersection of these two streets. The street committee was asked to investigate and report back to Council at the next meeting.
