MUENSTER, COOKE COUNTY, TEXAS, OCTOBER 20, 1950

NUMBER 48

Louis Nieball, 29, Succumbs Sunday To Heart Ailment

Louis W. Nieball, 29, of Dallas, formerly of Muenster, and the son of Mr. and Mrs. Paul Nieball of this city, died early Sunday morning in veterans hospital after a 45 day illness following a heart attack.

Funeral services were held Tuesday afternoon at 2 o'clock in the chapel of the Leazer-Keel Funeral Home in Gainesville and burial was in Fairview cemetery. Rev. Martin P. Knicker, pastor of St. Paul's Evangelical and Reformed Church of Dallas directed the services.

Pallbearers were three cousins, Herman Mandel of Waco, Rudolph Schaffer of Marlin and Fred Neumann of Dallas, and Richard Witt of Amarillo and Lloyd Erwin and Ed Estridge of Dallas.

Louis was born in Muenster on August 25, 1921, attended the public school here and in Marlin and was confirmed in St. Paul's Evangelical church there in 1936. In 1940 he married Miss Pansy Lee Way of Gainesville. He was working in the insurance division of the Veterans Administration in Dallas prior to his illness. During world War II he served in the army air corps with the ground crew personnel.

His heart condition was an old ailment which did not give him serious trouble until August 19 when he was stricken with acute heart failure the evening before his brother's wedding while he was preparing to attend the rehearsal party. He spent a week in an oxygen tent in the Odessa hospital and then transferred to veterans hospital in Dallas. His condition improved some and he was able to be up in a wheel chair until last Thursday. From then on he sank steadily and members of his family remained at his bedside.

He is survived by his wife and one daughter, Patsy Lou, of Dallas, his parents, and two brothers, Billy Joe of Muenster, and Paul R. Nieball of Odessa.

Hornets Win 31-6 In District Game With Bryson High

It was another big night for the Hornets, and Damian Hellman in particular, as they chalked up a 31-6 victory over the game but outclassed Bryson Cowboys here Friday.

That brings the local team's record to date to 4 out of 5 but still leaves them only second best in conference competition. The Valley View Warriors, district champs last year, gave the Hornets their only defeat so far.

Accounting for four out of five of his team's touchdowns besides plenty of mid-field gains and a strong defensive game, Hellman was easily the outstanding performer on the field. Less spectacular but equally brilliant in view of his handicap was Gilbert Yosten. Nursing a stiff knee, he picked up several substantial gains and played a fine defensive game besides directing his team like an expert.

Up front the entire forward wall shared in the glory with steady stout playing that cleared the way for Hornet gains and held the Cowboys to a few scattered and ineffective gains. During all the game they allowed the visitors 10 first downs but never more than two in a row.

Bryson came out strong with a 17 yard kickoff followed by gains of 7 & 5 for a 1st down on the 46 but the Hornets braced there and forced a kick. Then, starting from their 35 the Hornets appeared to be headed for pay dirt as Walterscheid on the third play scampered 37 yards to the visitors 23. Yosten and Hellman added 10 to the 13 but a 5 yard penalty followed by 10 yard loss on a fumble behind the line were too much handi-

(Continued on Page 10)

WHEEL CHAIR CRACK SHOT—Ed Carlson, one of 11 paraplegic vets invited to a pheasant hunt on a Chicago businessman's private farm and game preserve in Richmond, Ill., bagged four pheasants in less time than it takes to point out that Carlson is no relation to the famed "Kit" Carson of the Old West. Host to the wheel chair vets was Val Christman, who supplied the war heroes with guns and dogs, then turned them loose on his farm.

Building and Improvement Notes

Grade A dairy barns appear to constitute most of the building activity in the community at this time. Three jobs now under way are those of John Knabe, Andy O'Connor and Meinrad Hesse.

Leroy Sicking started on a garage which, as soon as completed will be used as a temporary home while his present house is removed and replaced by a new one.

Foundation work is finished and framework is just getting well started on the new R. N. Fette home.

The Joe Horns will be moving into their new home within the next few days. The final touch-up, finish work on the floors is now under way.

Asbestos siding is being installed this week on Kenwood Oil Company's lease house occupied by the T. M. Hammer family.

Construction is nearly complete on the Gary Hess job which includes a new garage and breezeway and extensive remodeling on the house.

J. D. Walker is giving his home a general refinishing consisting of new paint, wallpaper and venetian blinds.

Following general kitchen remodeling J. B. Wilde has just installed enameled metal awnings over his front porch and doorway.

The home occupied by Mrs. Tony Noggler and family on the J. H. Otto farm has just been given an exterior re-finish job of stucco.

Harry Otto started this week on a combined tank-house and storage room of tile.

A combined garage and laundry room is nearing completion at the Victor Hartmans.

Community Ships 870 Pound Relief Package to Europe

This community contributed 870 pounds of new and used clothing, soap and toys in the recent drive for European refugees.

Mrs. Joe Hoenig, president of the St. Anne's Society, the sponsor group, stated Tuesday that all items had been packed and shipped to New York where they are sorted and shipped by the National Catholic Welfare Council. Items collected in this drive are to reach refugees for Christmas.

At the same Mrs. Hoenig expressed thanks to all who helped the society conduct this successful campaign.

Guests of the Needhams Tuesday were the Cecil Chadwells of Bakersville, Calif., who are visiting relatives in Cooke county for the first time in 13 years and are house guests of the Dave Chadwells of Gainesville, who joined them on the visit here along with their guests, Mrs. Gertrude Gibson of Leonard, and Mrs. Emma Wallace of Slaton.

Knights Announce Plan for Initiation Here November 5

All but minor details are complete for the K of C initiation to be held here on Sunday, November 5, when the local council will be host to members and candidates of the local district and the Fort Worth and Wichita Falls District.

Grand Knight Herbert Meurer revealed this week that the Supreme Council has confirmed the date and will send a representative, probably State Deputy M. J. Babin Jr. of Port Arthur, to confer the degrees.

The program begins at 7:30 when knights and candidates meet with the credential committee at the K of C hall and assemble to march in a body to the 8 o'clock mass at Sacred Heart Church. Boy Scouts and the Muenster Band will participate in the procession.

Exemplification of the first and second degrees will be held between 10 a.m. and noon, and the third degree will begin at 2 o'clock.

At noon members, candidates and their ladies will attend a banquet in the school lunch room. At the end of the initiation ladies will again join the members for a party with snacks and drinks in the K of C hall.

Injuries and Flu To Hurt Hornets in Pilot Point Game

Unless conditions improve wonderfully before Friday night the Hornets face a gloomy prospect in their game with the Pilot Point Bearcats.

Discussing the coming clash Hood said Tuesday that the odds are strongly against the Hornets taking the field in full strength. Yosten continues to nurse his injured knee and Emmett Walterscheid has not recovered from his shoulder injury. In addition Aytes, Hamric and Wylie are below par as a result of the flu.

Handicaps caused by the injuries and illness are especially serious, Hood said, because the Hornet team at its best would have plenty of trouble with the Bearcats. The top-heavy score of 56 to 0 inflicted on Gunter reveals that the Pointers have power to spare. Besides, there is the psychological factor that the Pointers will be on their home field determined to avenge the defeat handed them here last year.

The game is the Hornets' first away from home this season. It will be played on the Pilot Point field beginning at 8 o'clock.

News of Sick And Injured

Robert Fetsch, 5, son of Mr. and Mrs. Paul Fetsch, is recovering from an operation performed Tuesday at Gainesville Sanitarium.

Mrs. V. (Curley) Sigman is quite ill this week suffering from a kidney infection.

Kenneth Otto, 12, broke his left leg above the knee last Friday in a fall during play and is a patient at Gainesville Sanitarium. He is the son of Mr. and Mrs. W. W. Otto and a sixth grade pupil at Sacred Heart school.

Bill Fuhrman sustained a broken left wrist, a shoulder injury and numerous bruises Monday afternoon when he fell from a ladder after sawing a limb from a tree. The limb struck the ladder and knocked it to the ground. Bill is employed by Muenster Telephone Co. and will be off regular duty for at least six weeks. He hopes, however, to be back at work doing what he can with one hand in about a week.

Henry Luke is in the McKinney Veterans' Hospital since Monday receiving treatment for a back injury sustained in a fall last Saturday. At first the injury was not considered serious and Luke continued working the rest of the day. After increasing pain Sunday and Monday he went to the hospital.

Joseph Kupper, 76, Lindsay Resident Since 1904, Dies

Joe Kupper, 76, a resident of Lindsay for 46 years, died at his home Monday night at 10:30 after a several months' illness.

Funeral services were held Thursday morning at 9 o'clock in Saint Peter's church with Rev. Conrad Herda officiating at the requiem high mass. Burial was in the Lindsay cemetery under direction of the George J. Carroll and Son Funeral Home.

Born in Germany, Mr. Kupper came to the United States with his parents when he was eight years old, settling with them in Groesbeck where he was reared and began farming.

In 1904 he moved to Lindsay, where two years later he married Miss Rose Hofer. He resided there since. He continued farming and served as an auctioneer. He was well known throughout Cooke county for his auctioneering at county sales. He retired from active work two years ago. Mrs. Kupper died in September 1939.

Survivors are two daughters, Mrs. Adolph Fuhrmann of Lindsay and Mrs. W. R. Bump of Irving; four sons, John and Raymond of Lindsay, Andrew of Kaufman, and Robert of Muenster. Another son, Michael, lost his life in battle during world war II and was reburied at Lindsay. Other survivors are 16 grandchildren; two sisters, Mmes. Bill Barry and Annie Graves of Mexia; and two brothers, Albert of Dawson and Jake of Blooming Grove.

County 4-H Boys Win 6 Ribbons at Fair's Calf Show

Six Cooke county 4-H club boys, including Jerry Friske of Muenster, were among winners in the milking shorthorn exhibit at the State Fair livestock show. They received \$32 in cash and six ribbons for their entries.

In the six-month-old class Jerry Friske's animal placed fourth and won \$10. In the same class Bob McDaniels of Woodbine and Henry Fleitman of Lindsay secured fifth and sixth place awards for their entries.

Julius Hess of Lindsay took third place and \$12 with his animal in the yearling-and-over class. In the same contest Ralph Bullard of Gainesville received fourth on his yearling.

County Agent B. T. Haws and Assistant H. W. Schittler accompanied the boys to Dallas Monday. They spent the night and showed their animals Tuesday morning. Most parents of the boys were on hand for the show.

County Agent Haws said he was pleased over the boys' showing in the highly competitive contests.

Mr. and Mrs. L. A. Bernauer visited in Dallas on October 12 when Mrs. Bernauer had a bank holiday. They drove to Dallas with Mrs. Cora Mitchell and children, Bobby and Douglas, of Gainesville.

Mrs. Al Fleitman and Mary Wiesman of Fort Worth returned Saturday from San Antonio after spending the week with their sister, Sister Ann Theodore, and niece, Sister Miriam Dorothy, at Our Lady of the Lake convent.

Schedule of Coming Events

FRIDAY, Oct. 20, Muenster Hornets vs Pilot Point Bearcats, there.

SUNDAY, Oct. 22, Day of Recollection for women of the parish, 1 to 4 p.m.

TUESDAY, Oct. 24, Dance sponsored by Sacred Heart Seniors, the KC hall.

THURSDAY, Oct. 26, Catholic Daughters social, parish lunch room, 8 p.m.

WITH THE MEN IN SERVICE

Leonard Hartman left Tuesday to begin service with the army. He is stationed at Camp Hood with the Quartermaster division. His wife plans to join him when he completes arrangements for living quarters.

Leo Becker leaves this Friday for the army. He will do duty at Red River Arsenal in the ordnance department at Texarkana.

Donald Endres, member of the army air corps reserves, will leave this Friday for duty. He will report for orders in San Antonio Saturday.

Mr. and Mrs. C. J. Rucker and daughter, Darla Jean, of Fort Worth visited here Sunday afternoon with her uncle and aunt, Alphonse and Miss Theresa Luke.

Hours 8:30 to 6
Nocona, Texas

Mrs. Earl Robison and son, Jimmy, visited Monday with her mother, Mrs. L. P. Davidson, in Gainesville.

Miss Rose Marie Becker has accepted employment in Gainesville. Until recently she was employed in Abilene.

Mr. and Mrs. D. W. Hood of

Westminster, Texas were here to spend the weekend with their son, Doyle Hood and family.

Neal Fisher, who attends St. Edward's University in Austin, was home for a weekend visit with his parents, the J. W. Fishers.

Members of the Holy Name Society enjoyed a stag party in the parish lunch room Tuesday night. Games, eats and drinks were program headliners. About 25 boys attended.

J. D. Walker of Valley Creek community had as his guests during the weekend his son-in-law and daughter, Mr. and Mrs. A. W. Corley and three children of Fort Worth

Mrs. Al Swirczynski of Dallas was among out of town persons attending Louis Nieball's funeral Tuesday and remained for a visit with her mother, Mrs. J. S. Horn.

Mrs. Meinrad Hesse was greeted with a surprise party Monday afternoon in observance of her birthday. Members of her family gathered at her home, presented her with a shower of gifts and served refreshments they brought with them.

A new and fancy gadget just installed at the J. B. Wilde garage is a Stewart Warner electronic wheel balancer designed to test the balance of car wheels while they are on the car. It checks the wheel for both vertical and horizontal balance.

Mr and Mrs Clarence Wilson returned Tuesday afternoon from a five day trip to Floydada and Albuquerque. They were accompanied by his sister, Mrs. Lloyd Sparkman of Gainesville and visited two other sisters, Mrs. E. J. Womack in Floydada, who returned home with them and is visiting in Gainesville this week and Mrs. J. G. Johnston in Albuquerque. They also visited the Henry Hennigans, spending an enjoyable social evening in their home

N-Texas District Of Catholic League Meets at Lindsay

Officers and delegates from cities in the North Texas District of the Catholic State League, joined by other visitors, met Monday afternoon in Lindsay for the regular fall district meeting.

Joseph A. Kraus of San Antonio, Mrs. Frank Scheffe of Windhorst and District President Frank Heitzman of Pilot Point were the principal speakers.

Members of the clergy, each giving short talks, were Rev. Fathers Anthony and Cletus of Muenster, Father Conrad of Lindsay, who extended welcome, Rt. Rev. Abbot Edward of Windhorst, Father Herman Redder of Scotland and Father Helm of Pilot Point. Mrs. Joseph A. Kraus of San Antonio and Joe Bengfort and Mrs. Anton Laux, presidents of the adult societies of Lindsay, also spoke briefly.

Father Cletus was appointed youth director for the district replacing Father John Walbe who held that office until his transfer last fall.

The meeting ended with sacramental benediction and a social hour with refreshments followed.

Representing Muenster at the

Student Interest -

en by civic leaders of Dallas.

As explained by Surratt the awards from Dallas are available, some running as high as \$500 or \$1,000, and will be given in amount to match the local offer in event the local contest winner is also winner in the entire contest area, which covers most of north central Texas. Local money will not be awarded outside the community.

By that arrangement local contestants are eligible for local awards, and if they are judged winners in the over all contest they will receive additional awards of equal amount from the participating Dallas firms. To date six local firms have agreed to offer local awards.

Subjects on which the children may write are, Community Pride, The All-Round Citizen, Recreation and Entertainment, Local Industry, Rural Roads, What the Community Can Do for Farmers, Marketing, Conservation, Dairy Cattle, Beef Cattle.

When he presented the idea here Surratt pointed out that the Kessler Plan Association for many years has been working with community leaders to inspire civic pride and enthusiasm in community development but has come to realize lately that their purpose can best be accomplished through youngsters who will be the citizens of tomorrow. Accordingly the association has introduced a program intended to promote civic pride and encourage a study of community problems and potentialities by the very persons whose future will be most improved by the improvements and developments.

Behind the whole program is the association's motive to develop Dallas by developing the area on which Dallas depends. Leaders in that city view with alarm the present decline of rural populations. Their theory is that a revival of progress in rural communities is essential to the continued progress of Dallas.

Teachers also are invited to join in the community enthusiasm. The Dallas association offers cash awards to the teacher who develop the most effective method of inspiring boys and girls to greater community activity.

At the present the Surratts are writing a book on progress and decline of various communities in North Texas along with an analysis of factors which contributed to the progress or decline in each case. While here last week they took pictures of the city park and of the grass judging students with specimens of the grasses they study. The pictures are intended for the book.

meeting in addition to the pastors were Mmes. Joe Hoenig, J. W. Fisher, Ben Hellman and Frank Bindel and R. R. Endres and Frank Bindel.

Yes, ma'am, a modern electric range saves you time, trouble and money . . . gives you a completely new outlook on cooking!

A new electric range saves you time, because it's fast—high-speed cooking units are instantly ready for use. An electric range saves you trouble, because it's modern . . . incorporates the newest cooking conveniences.

Accurate temperature control cuts on and off automatically, so that much of the cooking is done on stored heat. There's no smoke or soot to blacken pots and pans, grey walls and curtains when you cook electrically, so kitchen clean-up time is cut in half.

A modern electric range saves you money, because there's less food shrinkage. What's more . . . dependable electricity costs only one cent per person per average meal!

No wonder more and more women are modernizing their kitchens with new electric ranges!

The Lee Voths At Home in Muenster After Wedding Trip

Mr. and Mrs. Lee Voth have returned from a wedding trip to the west coast and are making their home in the west part of the city in the house adjoining the Joe Luke residence.

Mrs. Voth is the former Miss Brooksie Windle of Sanger, daughter of Mr. and Mrs. R. D. Windle of that city, and Mr. Voth is the son of Mrs. Barney Voth of Muenster.

Their wedding took place on September 28 in Denton at 10 a.m. with Rev. Walter Bojniewicz, pastor of Immaculate Conception church officiating at the double ring ceremony.

The bride wore a tailored beige gabardine suit with dark brown velvet accessories and a corsage of talisman rosebuds. For something old she wore a gold ring that belonged to her late grandmother Windle, and for something borrowed she wore a unique hand tooled bracelet that was sent from Germany to Mrs. John Nicholson.

Miss Alma Louise Kubis of Lindsay and Miss Jeanette Zimmerer of Gainesville, nieces of the groom, were the bride's attendants. They wore brown and green costumes with matching accessories and rosebud corsages.

Robert Windle of Sanger, brother of the bride, and T. Voth, brother of the groom, were best man and groomsman.

Members of both families attended a reception following the ceremony. The bride's parents entertained in their home where a three tiered wedding cake and punch were served from a table laid with a hand made lace cloth and centered with an arrangement of white dahlias and fern.

Mr. Voth is in business here as a member of the Voth Brothers Drilling Company.

BALLOONS OVER BERLIN—Youthful visitors to the Berlin Industrial Exhibition get set to release their gas-filled balloons, which will carry greetings from them to people all over Europe as a part of a "Marshall Plan Balloon Contest." A postcard attached to the balloons instructs the finder to mail the card back to the German capital. The balloons found to have traveled the farthest will win valuable prizes for both finder and sender.

Deanery Officers Plan Next Meeting

Officers of the Sherman deanery National Council of Catholic Women met here Tuesday afternoon to arrange the program for the group's quarterly meeting for which the Muenster unit will be host on November 14.

The meeting was held in the home of Mrs. J. M. Weinzapfel, deanery president, who presided for the session in the presence of Rev. Anthony Schroeder and officers from Gainesville, Lindsay, Denton and Muenster.

The program for the meeting here will be announced after receiving confirmation from guest speakers. It will begin at 2 p.m. in the high school auditorium.

Present for the meeting were Mmes. Lawrence Roberg, Joe Hoinig, J. W. Fisher and Tony Gremminger of this city; Mmes. Joe Schad and A. G. Hutton of Gainesville; Mrs. John Mosman of Saint Jo; Mmes. E. T. Noyse and Robert Romback of Denton and Mrs. Theo Rauschuber of Lindsay.

Appoint Local Officers
After the meeting of deanery officers, the local group appointed officers for the Muenster unit to serve during the coming year.

New officers are Mrs. Herman Fette, president; Mrs. Leo Henschel, treasurer; Miss Mary Ann Felderhoff, secretary.

Duane Fleshman of Oklahoma City visited here Saturday with friends. He was enroute to Dallas to see the Texas-Oklahoma football game.

TWO SHARE HONORS AT FIRST BIRTHDAY PARTY

Sharon Gremminger and Ann Sicking who were one year old Tuesday, Oct. 16, shared honors at a birthday party in the evening when the former's mother, Mrs. Edna Gremminger entertained in the Victor Hartman home. Ann is the daughter of Mr. and Mrs. Joe Sicking.

Both little honorees received a shower of birthday gifts and the hostess served refreshments of cake and ice cream to the honor guests, Mr. and Mrs. Joe Sicking and Dolores, Mrs. Billy Joe Miller and Robert, Mr. and Mrs. Victor Hartman, Patsy, Della, Georgia Ann and Gene Hartman.

Behind The China Curtain

With world attention centered on the Orient, and especially on China and its behavior under Communist masters, it is well for us to know what's going on behind the scenes in this area so important to the future of Asia and, indeed, the whole world. I've just had as my guest a Chinese business man who has spent his lifetime in China, who has had personal contact with the Chinese Communists and has observed at first hand the turn of events since they occupied the country. He is a university graduate, a highly intelligent, unusually well-informed person; in fact, he was with American Intelligence in China during World War II.

Any war today involving the United States against world Communism would find the masses of the Chinese people "ready and anxious to revolt" against their Communist masters, he says. "But if the Communists are given 10 years in China," he says, "they will have indoctrinated our young people so thoroughly and enslaved the others so completely that any spirit of revolt remaining alive will have been rendered impotent." This is a significant opinion in view of the theory, long projected by some of our foreign policy leaders, that China "is too big for the Communists to swallow."

Opportunity Closed

"Nine-tenths of all people of China are against Communism now," he says. "They would revolt if they had a chance. They have discovered by personal experience that Communism permits only a bare existence, at best, if they order their lives in the Communist mold there is absolutely no hope or promise of rising above the existence level. Though there have been sever obstacles through the centuries, my people have always been conscious of the opportunity, however difficult, for anyone to rise above the station of peasantry. The opportunity now is closed."

The communists turn a benign face to the Chinese people, he says. "But their unspoken threats loom terrible behind their politeness. To oppose or even to question their "suggestions"

means imprisonment or death, or both. All Chinese people have become aware of this fact—by observation in their communities."

No Land Reforms

The Chinese People, he says, "have found, too, that the promised Communist land reforms will not materialize. It is true that the crushingly high rentals which many landlords had imposed for generations have ceased going to the landlords, but it is not true that Chinese peasants have been "given" land. The Communist "State" in every case has retained ownership. The peasant on his parcel of land merely has changed landlords.

"He is permitted to keep from his rice harvest only a small portion above his diet requirements and with this he must meet all of the living expenses. The remainder is taken away by the Communist government. With his allotment he must earmark a quantity to exchange for the everyday family and home necessities and conserve the rest as the chief item of the family diet. The allotment represents his whole income.

Communist "Democracy"

"The seizing of land and other wealth goes down to the lowest level of ownership. The landlord owning five acres is approached, for instance, and told he needs only one acre. Ownership of four acres is taken from him. And the Communist officials says, 'Oh, by the way, the rental you've charged during the past has been rather high. We think you should have charged only half as much. You will please return 50 percent of the rentals you've collected during the past three years.' To whom? To the Communist government—not the tenant! If the owner hasn't the money and can't, in desperation, raise it, he goes to prison. He is not even permitted to make installment payments with the income from the one-acre left to him."

My guest is not a "follower" of Gen. Chiang Kai-shek, the Nationalist leader. However, he says the "graft and corruption" attributed to the Chiang regime has been "inflated out of all proportions" by Communist propagandists, their allies and unwitting dupes. He doubts it would even be "out of scale" with the political graft and corruption in some American cities. He says also that before Communists occupied Central and South China, land reform laws had been passed by the Chiang government which would ultimately have ended the worst features of Chinese landlordism.

Farewell to Farmers' Freedom

THE LOWDOWN FROM HICKORY GROVE

To be blunt—maybe become unpopular with the new mode in education, academic freedom or whatever it is — I am, for my sermon today, going to preach on the text, "Socialism." I am not for same, but I am for getting it out in the open so people can see it, when the blankets are off, it is a horse

of a different color from what we bought.

In the schoolhouse you can put in your time on social uplift, psychology, welfare and come out knowing nothing, and being a menace and nuisance. Instead of emphasis on such, I would add to the curriculum, Socialism. Dissect the subject like a pre-med student delves into the inners of man. See just what it is that Socialism has

Oil Progress Week

We hear a great deal these days about the American way of life, and it is all to the good. It would be difficult indeed to think of another subject so infinitely varied or so richly rewarding. Yet it is not enough simply to go on talking about it. If the American Way is to have any valid meaning, we must live it. And before we can live it, we must understand it.

It is in this conviction that we welcome the arrival of Oil Progress Week, October 15-21. The men and women of oil have set aside this time to report to their fellow townsmen and the consumers of their products on their contributions to our well-being and their plans for the future.

Starting less than a century ago with only a hole in the ground, the oil men of this country have helped change the face of our civilization. They have given us the power for mobility and flight. Not only have they provided the lubricants for our vast industrial machine but today they are providing more than half of the total energy

used in this country. They have helped make possible untold hundreds of good things—from lipsticks to wonder drugs. Moreover they have established comfortable reserves of oil which add greatly to our national security. They have, in short, done much to transform the existence of yesterday to the good life of today.

However, Oil Progress Week is designed not only to remind us of what the oil industry has produced, but what has produced the oil industry. Gasoline and plastics and wax for bread wrappers are simply the evidence of a deeper, driving force—the force that has made possible our whole industrial structure. This is the American way—the determination, the initiative, the opportunity to create more and better things for all of our people everywhere. We call it Freedom.

In setting aside this week to tell their fellow-citizens about their industry, the 1,800,000 men and women of oil are performing a valuable service. In showing how progress in industry and the whole American dream have been realized, their efforts merit our attention and good will.

The Vital Issue

"What is wrong with a competitive system under which we in America have made more progress in fifty years than the rest of the world combined? What—short of sheer economic insanity—would prompt us to trade our streamlined, free-wheeling competitive system for some outmoded, old-world jalopy even if the idea comes from high places and is all dressed up in a new coat of paint?"

—Benjamin F. Fairless

that is fooling so many countries. Europe has chronic socialism—we, here, are still up and around. We have enough of it though, in our bloodstream, to cause concern. Welfare has become "big business".

The Govt. cannot barge in any place, except it elbows out, some citizen. Govt. pays no taxes—the elbowed-out guy did. The rest of us, we make up the difference. You and me—yet—we are the suckers.

Yours with the low down,
 Jo Serra

IS 5 MINUTES OF YOUR TIME WORTH \$1000?

5 MINUTES BEHIND THE WHEEL SOLD ME ON DODGE...AND SAVED ME \$1000!

—says Earl B. Mix
 New Rochelle, New York

Owners coast to coast testify:

YOU COULD PAY \$1,000 MORE AND NOT GET ALL THE EXTRA ROOMINESS, FAMOUS RUGGED DEPENDABILITY OF DODGE

PEOPLE every day are finding out for themselves... you can make 5 minutes of your time worth \$1,000—by spending it at your Dodge dealer's. He'll demonstrate how you could pay \$1,000 more and not get all the extra roominess, the driving ease, the rugged dependability of this smartly styled Dodge! You'll see that Dodge gives you real stretch-out roominess you can't find in cars costing hundreds of dollars more. And a few minutes behind the wheel will open your eyes to ease of handling you never thought possible in a car so big and roomy. And after you buy your Dodge—you'll find that famous Dodge dependability and ruggedness will continue to save you money for years to come. Your dollars do go further with Dodge. Five minutes... that's all we ask!

NEW BIGGER VALUE DODGE

Just a few dollars more than the lowest-priced cars!

Practice Correct Method of Lifting To Avoid Injuries

COLLEGE STATION — Each year thousands of people are victims of sprains, strains, hernias, and other injuries simply because they do not know how to properly handle heavy objects. . . says E. C. Martin, state leader of agricultural programs for the Texas A&M Extension Service and chairman of the State Farm Safety Committee.

He says that records kept by the National Safety Council show five common causes for lifting injuries. They are lifting and lowering objects with the back muscles instead of the leg muscles; insecure grip or footing and unsafe placing of hands or feet; using quick, jerking, twisting or awkward movements of the body; obstructed vision, unstable loads, or inadequate control and insufficient help or failure to use mechanical aids.

Martin points out that the common practice of bending at the waist when lifting something places a severe strain on the sensitive back and abdominal muscles. By bending your knees and keeping your back straight when lifting something heavy, you can place the strain on your leg muscles which are

KITCHEN PERILS

Statistics from various sources covering home accidents differ as to which is the most dangerous room in the home, but all of them are in agreement that the kitchen stands at or near the top of the list.

Since the kitchen is the place where sharp knives and other instruments capable of inflicting wounds are kept and used, it could be assumed that cuts of one kind or another would constitute a high proportion of kitchen accidents. It could also be assumed that another high proportion would consist of burns and scalds from handling hot liquids and containers.

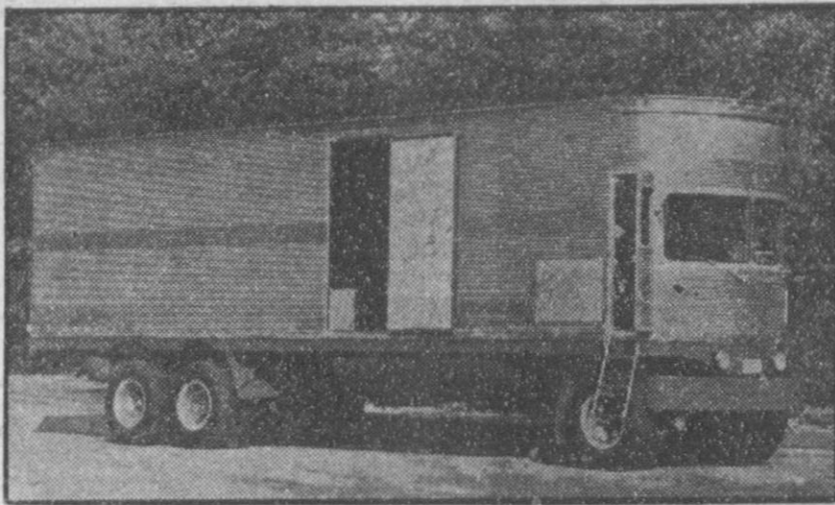

Your own kitchen will be a safer place if you keep knives in a separate drawer or compartment, and if you are careful to cut away from, never towards, the hand that is holding the object you are cutting. Use a pot holder when handling pans in which food is cooking, and never leave handles protruding over the edge of the stove.

Another sound precaution is to keep on a kitchen shelf a small bottle of antiseptic, a tube of burn ointment and a few adhesive bandages—those ready-to-use dressings with the gauze pad already affixed to the adhesive tape. This will make it easy to attend promptly to minor cuts and burns, which if neglected are only too likely to become infected.

Water is a conductor of electricity. To avoid the risk of a jarring shock, never handle electrical appliances with wet hands. Always wipe up immediately anything you spill on the floor. Slipping on spilled grease may result in a fall that may have more serious consequences than can be taken care of with a touch of antiseptic and a ready-made adhesive bandage.

Before doing any lifting around the farm, Martin suggests that you examine the job carefully. See if you can't reduce the amount of necessary lifting, and find some way to use mechanical equipment if possible. If very heavy lifting must be done by hand, get someone to help you do the job.

In a line, cluster or semi-circle grouping of flags, flags other than the United Nations Flag should be displayed in the English alphabetical order of the countries represented, reading clockwise, starting at the left. The United Nations Flag should either be displayed in the center of the line, cluster or semi-circle, or, in cases where two United Nations Flags are available, at either end of the line, cluster or semi-circle.

TRUCKLESS TRAILER—A self-propelled trailer, powered by engines mounted under the floor, was put on the market this month by the Twin Coach Co., of Kent, O. Designed by L. J. Fageol, the sleek super-freighter runs on either gasoline or propane and may herald a new era in truck transportation.

Catholic Daughters Have Regular Business Session

Catholic Daughters of America held their regular business meeting last Wednesday instead of the customary second Friday. They met in the school lunch room after October rosary devotions.

Mrs. Lawrence Roberg, grand regent, presided, and committee chairmen gave their reports. Mrs. J.M. Weinzapfel told members of the proceedings of the diocesan NCCW convention which she and Mrs. Tony Gremminger attended in Fort Worth recently. She announced that the next deanery meeting will be held in Muenster next month, on Nov. 14.

Members were urged to attend services next Sunday when a Day of Recollection is held for women of the parish.

Mmes. Charley Hellman and Ted Gremminger were named as hostesses for this month's social and Mrs. Tony Felderhoff's name was drawn for the jack-

pot prize. After adjournment Mrs. Henry Pick served delicious home made cake to 25 members.

The state of Iowa derives its name from the Iowa Indians who lived there.

Out front with the finest

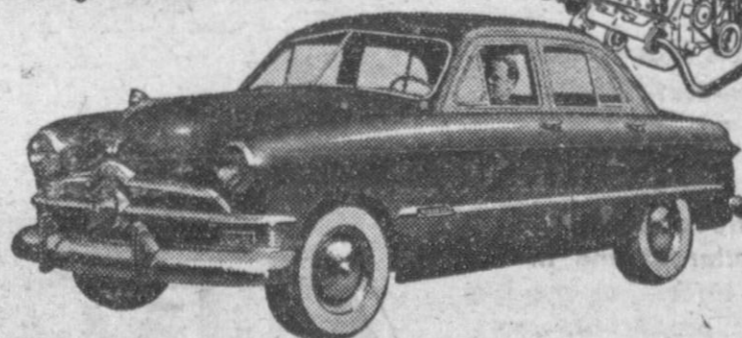

yet priced with the lowest

These days you can't tell from the price tag how much quality a car holds. Ford, for example, is still priced with the lowest . . . yet in other respects it's in the fine car class. Take its styling, for example for two years in a row Ford has been the recognized fashion leader.

Like America's finest cars Ford offers you a V-8 engine. No other low-priced car does. Nor does any other car at any price offer you a choice of V-8 or Six engines. And remember, Ford's V-8 costs hundreds less than most sixes—Ford's Six costs even less.

Ole Sarge Says - - -

A new type military field communication wire is proving effective in combat, the Department of the Army has announced. Developed by the Army Signal Corps, the wire withstood all the rugged conditions of combat in Korea. It can be laid at speeds up to 120 miles per hour from airplanes, with good results.

Reorganization of the 4th infantry (training) Division as the eleventh tactical division has been announced by the Department of the Army. It will be reorganized at Fort Benning, Georgia, the 6th Division replacing it as a training division at Fort Ord, California.

Doctors' draft starts at once—President Truman ordered the draft registration of all doctors and dentists as the nation's top mobilization officers met behind closed doors. Oct. 16 is the registration date for some 4,450 doctors and dentists who were trained at government expense during World War II. The age limit for the present is 50.

Overseas Yuletide—Christmas packages for servicemen now in Japan, Korea, and other Pacific bases, must be mailed by November 1 to insure delivery. Packages for troops at other American overseas bases must be mailed by November 15th.

Washington—Wives and other dependents of men now serving in Korea are entitled to veteran's preference in the rental or sale of new housing. Tighe E. Woods, Housing Expeditor, has ruled.

Recalled medics to receive bonus—Finance officers have been directed to pay the special medical bonus of \$100 per month to Air Reserve doctors and dentists involuntarily recalled to extended active duty. Previously, only Reserve physicians and dentists who volunteered were eligible, but Public Law, approved by Congress early this month, constitutes authority for the change.

Men who know tobacco—A Fifth Marine Combat Patrol, led by Sgt. Vincent W. Minkles of Scranton, Pa., was feeling its way through a village near Seoul, Korea, when a native told them there were "many Reds" beyond the next hill. S.Sgt. Manuel Perez of San Bernadino, California, came up with a very bright idea. Through the native informer, he sent the Reds a pack of American cigarettes, inviting them to come over and talk "peace terms". To the amazement of all concerned, it worked. Five Reds marched from a heavily emplaced machine gun position, leaving a deadly assortment of weapons behind. They were sent to a prisoner of war compound of the Americans. Perez estimated the Reds could have held off an entire company.

BULCHER CITIZENS PLAN IMPROVEMENT CONTEST

Members of the Bulcher community, meeting this week, organized their plans for the Texas Rural Neighborhood Progress contest.

The state-wide contest ends in March 1951 when cash awards will go to entrants who have shown the greatest improvements of farm and home life.

Officers of the Bulcher contest are E. Newby, president; Mrs. Johnnie West, vice president; Dexter Dowd, secretary; Justin Dennis, 4-H club boy; Clea Sue Cannon, 4-H club girl.

Use mechanical equipment whenever possible for doing the heavy lifting jobs on the farm.

It Happened 10 Years Ago

October 18, 1940

231 Muenster men register here for selective service. Walter Becker and Ed Rohmer enter feed store business; open business in old Stoffels building. Sodality girls organize six discussion clubs. Miss Willie Sowder spent Wednesday in Nocona with relatives. Miss Leona Haverkamp of Gainesville spent the weekend here. Mmes. J. B. Wilde, J. M. Weinzapfel, J. W. Fisher, Frank Seyler, John Eberhart and Ben Luke attended a diocesan retreat in Dallas. New arrivals this week: Lorette Mages and Betty Jean Sicking. Alphonse Luke and Carl Schilling attended the Dallas Fair Sunday. 349 bales of this season's cotton have been ginned at the Muenster Gin.

5 YEARS AGO

October 19, 1945

Mrs. Louisa Wies, 72, dies Monday evening after long illness. Pvt. James Endres loses his life in Luzon accident on Oct. 1; memorial services are held here Monday. Work began this week by the Civic League and Garden Club to beautify the city square and to plant trees as living memorials to local war heroes. Fire destroys barn on Frank Popp farm. Mrs. L. Burchfield reviews Bromfield's "Pleasant Valley" at Garden Club meeting. Dr. Myrick's Palomino is grand champ at Nocona horse show. Henry Yosten left Friday to begin Navy training. Pfc. Willfred Walterscheid leaves Iwo Jima for Okinawa. Pvt. Harry Sicking is doing army duty on Leyte. Jake Pagel attended a convention of Catholic Knights of America in Hallettsville during the week.

Be More Careful With Modern Ham. It Spoils Easier

AUSTIN, — Old style, palate tickling, succulent smoked hams like you used to prepare for special Sunday dinners are giving way to the tenderized and ready-to-eat varieties.

Increased danger of spoilage comes with the change, State Health Officer Geo. W. Cox says.

Used to be you could salt down a ham, then home-smoke it slow and easy. When done, you could hang it on the back porch—easily accessible for a quick slice.

Those days are fast waning, for city bound folks. Ask your butcher for a smoked ham nowadays, and you get two choices: "tenderized", or ready-to-eat." They look the same, and have some of the old sweetness. But there the similarity ends, Dr. Cox says.

Since less preservative salt is used in the smoking process, today's ham products have to be placed under immediate refrigeration, the same as any other meat.

"Tenderized" hams are smoked at a temperature of approximately 129 degrees. Dr. Cox says that means they have to be cooked before eating in order to kill any trichina larvae that may be present.

"Trichina larvae, which cause trichinosis, are killed at a temperature of 137 degrees F." the health officer cautioned. "That's internal temperature."

He warned that "ready-to-eat" ham products are smoked at ap-

GOOD HEALTH

©1950 HEALTH INFORMATION FOUNDATION

Answer to Question No. 1:

1. The appendicitis death rate has been dropping at an astonishing rate. Metropolitan Life Insurance figures show that whereas 10.2 persons per 100,000 died of appendicitis in 1939, the rate was 2.2 in 1949. New drugs to control infection and improved surgical techniques are largely responsible but early recognition and early operation are important.

Answer to Question No. 2:

2. Athletes' hearts beat slower than the average person's under

comparable conditions because the heart of an athlete has been developed by exercise to do more work per beat.

Answer to Question No. 3:

3. The National Tuberculosis Association estimates that there are 250,000 undiscovered cases of tuberculosis in this country. Every person in every community should have a chest X-ray picture. This is nearly 100 per cent reliable. In almost every community this can be done without charge. The tuberculosis death rate has been reduced 80 per cent in 40 years.

proximately 160 degrees, and cured with less salt than regular smoked hams. They'll spoil easily unless kept under refrigeration until eaten.

Here are the health-officer's recommendations regarding these meat products:

1. They cannot be stored in temperatures above 50 degrees. Neither can prepared dishes or sandwiches made from the pro-

ducts.

2. Strict sanitation should be observed in handling them.

3. They should be handled in refrigerated equipment from packing plant to consumer.

4. Cook-before-eating must not be confused with ready-to-eat meat products. Always ask the retailer about the meat to make sure of the cooking procedure.

TP & L Purchase Ends Light Plant Worries at Cooper

Sale of the City Light Plant to the Texas Power & Light Company was approved by the voters of Cooper in a special election Friday, October 6, by a vote of 424 to 295. For the past 15 years the City has been served by both TP&L Company and the city light plant.

Sale of the electric properties to Texas Power & Light Company was recommended by the Cooper City Commission. In an article published in the Cooper Review prior to the election the City Commission said: "If the plant is not sold the City will be compelled to purchase a new engine and a large cooling system which will cost at least \$50,000. In addition to buying the new engine and cooling system it is going to be necessary to spend a large sum of money rewiring part of the town with heavy wire where the voltage is low."

The purchase of this new equipment was declared absolutely necessary in view of the fact the plant carried all the load it could handle during the last summer and the demand for electricity was constantly increasing. Without the new engine not only would it have been impossible to take care of any additional customers, but present customers could not have been properly served.

Pointing out that if forced to spend an additional \$50,000 to \$60,000 for engine, cooling system, rewiring and other repairs, this, plus outstanding bonds, would result in a total indebtedness of between \$139,000 and \$148,000. The City Commission

was of the opinion that the plant could not operate and pay that amount of indebtedness in 25 years, because before that time they would be compelled to have new machinery and repairs again.

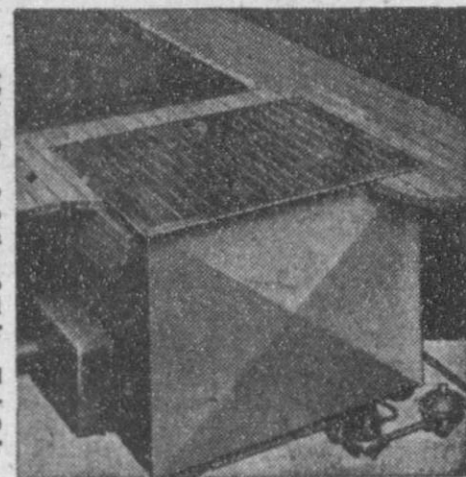

The largest spring in the world is Silver Springs, located six miles east of Ocala, Florida. The great basin is 80-feet deep, 300 feet in diameter, and clear to the very bottom.

Boy Scouts Plan Activity Program

The outlining of a new program of activity for the senior scouts and discussion of plans to attend the Dallas Fair were the chief topics of interest at the Monday night meeting of the local Boy Scout troop.

All boys will go to the fair next Sunday. Accompanying them will be Scoutmaster Nick Miller, Senior Advisor Steve Moster and members of the

scout committee and their wives. They will leave early in the morning and spend the day on the fair grounds.

The new program for the senior group includes enrollment in a first aid course to be taught by Sister M. Eymard, and a handicraft contest. The contest will be in progress 60 days, the boys may choose their project and will be eligible for prizes of five, three and two dollars in cash when the items are displayed and judged.

Another forthcoming activity of interest to the boys is the building of a log cabin in the woods, on the Danglmayr ranch, which they hope to start soon.

Father Anthony was as special guests at the meeting.

WAR CAN BE DUCKY—During the invasion of Seoul, Korea, Pfc. Lundy Fletcher of Columbus, O., had the good fortune to conquer two ducks. Using Yankee ingenuity and a length of string, Fletcher strapped the indignant fowl to his pack. As soon as he can liberate an oven for his liberated ducks, Lundy and his buddies will feast.

Visiting Speakers Urge P-TA to Join National Society

Members of the Public School P-TA heard addresses by two guest speakers at their meeting Tuesday night when Mrs. Rankin Hardy and Mrs. J. R. Reuther of Gainesville spoke to the group on the advantages of belonging to the state and national Congress of Parents and Teachers.

The speakers pointed out that the congress is the largest such organization for child welfare in the United States with a membership of six million. They explained that the congress has no dictatorial authority over local units, its sole purpose being to assist with meetings and programs in helping secure speakers, films, etc. Dues are 20 cents to the state and five cents to the national organization per member from regular membership dues.

Mrs. T. S. Myrick, president, presided at the meeting and presented corsages to the speakers. Mrs. J. M. Weinzapfel, program chairman, introduced the visitors.

As an entertainment feature Miss Juanita Weinzapfel led pupils of the first, second and third grades in vocal selections.

During the business session members made plans for their Hallowe'en Carnival on Oct. 31, and elected Mrs. Myrick as a delegate to the state convention in Mineral Wells on Nov. 8 and 9.

Membership in the association now totals 89.

City Officials Attend Waterworks Meet At Nocona

Mayor John Hoffman, Waterworks Superintendent Steve Moster and Aldermen Rudy Hellman and Ben Seyler attended the monthly meeting of the North Texas Waterworks and Sewerage association in Nocona last Wednesday night. Mr. Bryan of McKinney, president of the association, lead a round table discussion on water problems.

For the November meeting Muenster will be host to the district. The meeting will be held on Wednesday night, Nov. 8.

CARD OF THANKS

We wish to express our thanks and appreciation for the kindness and courtesies extended during our bereavement. We especially thank the VFW Auxiliary members for their consideration and we are grateful for the flowers and expressions of sympathy.

The Family of Louis Nieball

Blessed Events

Mr. and Mrs. Francis Wiese are the parents of a daughter, Diane Dolores, born October 13 at the local clinic. Also welcoming the baby are her brother, Hal, her grandparents, Mrs. Clara Mosman and Mr. and Mrs. F. A. Wiese of Gainesville, and the great grandparents, Mrs. Anna Wiese and Mr. and Mrs. Fred Mosman of Lindsay. At the baptismal service Monday afternoon Father Cletus officiated assisted by Mrs. F. A. Wiese and Richard Mosman as sponsors.

Mr. and Mrs. O. G. Rennels of Myra are the parents of a son, their second boy, born Thursday, Oct. 12, at the Muenster clinic. The baby weighed 11½ pounds and is named Paul Ross.

Upper Elm-Red Soil Conservation District News

DISTRICT SUPERVISORS
J. W. Hess, Muenster V. W. Redman, Saint Jo
John Rice, Collinsville Ed Blackmon, Bowie
Willard Kemplin, Valley View

It's harvest time again in the Muenster area of the Upper Elm-Red Soil Conservation District. Harvest time for the seed of the most important crop in Texas—grass.

The native tall grasses, Big and Little Bluestem, Indian-grass, Switchgrass, and Sideoats Grama, have made excellent

growth this year and have produced a bumper seed crop. The seed is ripening rapidly and is already beginning to shatter in the high winds.

This has been a very poor year for hay curing and for this reason many native grass meadows in this area were not cut for hay this year. These meadows are now a sea of grass with millions of seed heads waving in the slightest breeze. In most cases the seed heads have a good fill and present an excellent opportunity for harvesting with any grain combine. Some rangeland that has been deferred from grazing this summer and has a good stand of grass also affords an opportunity for the landowner to harvest grass seed so that it might be planted on other pasture areas.

Grass is not harmed by seed harvest. In combining operations much seed will escape to the ground and form new plants to maintain the stand. The grass is also returned to the land to form a protective cover for the plants and the soil, and because the grass was left to mature seed it will be more vigorous in next year's growth.

Hubert Felderhoff and his sons were the first to start grass seed harvest operations in the Muenster area. They are using a 12 foot self-propelled combine to harvest grass seed from their meadow northwest of Muenster and are getting a good yield of the bluestem and Indiangrass seed. The Felderhoffs plan to use the seed to establish grass on some of their rangeland in the old army camp area.

J. W. Hess has begun the harvest of his King Ranch Bluestem seed crop. The grass was planted in the pasture two years ago and has since made a nearly solid coverage. The bluestem has furnished grazing each year and was grazed this spring and early summer. Seed yield is running high but the exact amount will not be known until harvest is complete.

While some cooperators are busy with grass seed harvest, others are planting legumes for winter cover and soil improvement. The district-owned combination grain and fertilizer drill has been kept busy planting soil building legumes that will also put a green blanket of protection over the soil. Bruno Fleitman used the drill to overseed 40 acres of grain to Biennial White Sweet Clover. This two-year clover will produce a seed crop the first year when planted in the early fall. Oscar Walter seeded ten acres to alfalfa and R. M. Zipper used the drill to put alfalfa and fertilizer on seven acres.

Roy Townsley of Myra has

overseeded his waterway and bermuda grass pasture to vetch. The vetch will greatly enrich the soil and enable the grass to make a more vigorous growth next spring and summer.

It's grain planting time too, and time to mark off waterways that are to be put in grass next spring, so they will not be seeded to grain with the rest of the field. Waterways need to be plowed and a seedbed prepared so that grass can be planted early in the spring.

W. W. Otto has staked off two more waterways on his farm south of Muenster and his neighbor, John Haverkamp, has also marked an area to be sodded next spring. These Waterways will be plowed and a seedbed prepared so the soil will be in good condition for planting grass. Next spring bermuda roots will be planted in three-foot rows and after the grass has made a good cover, the waterways will be used to carry terrace water safely from the field.

Texans Will Have 2 Thanksgivings

Texans have so much to be thankful for that there will be two Thanksgiving Days this year by official proclamation of Governor Shivers.

The governor set Thursday, Nov. 23, and Thursday, Nov. 30, as Thanksgiving Days in Texas.

He said limitation of the Thanksgiving holiday to either the fourth or fifth Thursday, to the exclusion of the other, would "result in considerable inconvenience and confusion for many citizens of Texas."

The fourth Thursday generally is observed as the national holiday, but Texas traditionally has celebrated the last Thursday. Shivers noted that numerous annual Thanksgiving events such as the Texas A&M University of Texas football game have long been scheduled for the latter date.

"The state and the people of Texas have a great deal to be thankful for and should not necessarily be limited to one day a year on which to count their blessings," the governor declared.

One of nature's strangest freaks is the Ice Cave, a rock cavern near Decorah, Iowa, which reverses the laws of nature by being warm in winter and below freezing in spring and summer.

birthday party for her grandson, Charles Tate Jr. in Gainesville Saturday afternoon. He was 8 years old. Also at the party from here were Leonard Zimmerer and Tommy and Jimmy Zimmerer.

Members of the Gainesville-Lindsay Knights of Columbus council were guests at a Communion breakfast here Sunday morning. Wives of Lindsay members prepared and served the meal in the school lunch room. About 100 members were present.

Mr. and Mrs. John F. Herr were in Dallas Sunday to serve as baptismal sponsors for their grandson, Wayne Joseph Shephard, son of Mr. and Mrs. Earl Shephard. The Herrs made the trip with Mr. and Mrs. Leonard Bengfort of Lindsay and after a visit with the Shephards took in the Dallas Fair.

Mrs. Ben Luke left by train from Dallas Tuesday to visit her daughter, Mrs. Charles Denny and family in San Antonio. Mr. Luke took her to Dallas.

Kupper Gives Farm Agencies Credit for Bumper Cotton Crop

With most of the county cotton crop far below the usual average on account of unfavorable weather conditions, John Kupper of Lindsay is making better than six bales of cotton from his 10 acre plot. He credits his successful yield to technical advice given by his county farm agencies.

He planted the Empire variety, recommended by the Denton Experiment station. The length of the staple was more than an inch. His cotton followed a legume and was sprayed early for insect control. Both recommendations were advanced by county farm advisers.

County Agent B. T. Haws reports that many Cooke County farmers are plowing their cotton stalks under to prevent winter hibernation for boll weevils.

Münster Boy Scouts, their Scoutmaster, and their guests spent Sunday on a buddy hike. A truck took the 13 scouts and 12 pals as far as Red River and from there the boys hiked, scouted around and found a fresh water spring, ate a picnic lunch and played games.

and a half-time score of 19 to 6.

The third quarter was stiffly contested and neither team showed any real progress until the Hornets' next drive shortly before the end of the period.

Bryson received and fumbled on the first scrimmage play. A 15 yard penalty was too much handicap and Münster lost the ball on downs. Bryson kicked after failing to gain. Münster fumbled the ball away on the first scrimmage play and recovered Bryson's fumble the next play. Three short gains and the Hornets kicked. Three more and Bryson kicked, and the Hornets finally got back into stride starting from their 47. Yosten added 5, Hellman lost 2, Yosten got loose for 24 and Walterscheid followed with 16 to reach the 10. Hellman made the remaining yardage.

Touchdown Number 5 came in the opening minutes of the final period. Bryson had followed the kickoff with gains of 3 and 5 followed by Dunlap's 24 yard dash to the Hornet 38 but the drive ended there and the Hornets took over on their 30. Yosten added 9 and Hellman broke loose for a 61 yard sprint to the line.

The game Cowboys kept scrapping and chalked up 4 more first downs, but, as during the rest of the contest, the gains were scattered and failed to reach pay dirt. Meanwhile Coach Hood gave his light-weights a chance and also shifted Glenn Hellman to the backfield long enough to discover that he has another ball carrier to help out in a pinch. Glenn was stopped at the line on his first try but tore through for 17 and 6 on his next two.

In the closing minutes both teams threatened to score again as both turned to long passes but none of the heaves was completed. Two of Yosten's tosses were beauties but Aytes and Hellman failed to hang on and left the team with a record of two interceptions and no completions out of 7 tries.

The Game at a Glance.

	M	B
First downs	10	10
Yards rushing	337	156
Yards passing	0	52
Passes tried	7	14
Passes completed	0	5
Yards penalized	40	0
Lost on downs	2	2
Lost on interception	2	1
Lost on fumbles	2	5

Hornets Win - - -

cap and the ball went over on downs on the 10.

The Cowboys quick-kicked out of danger and took over again on the next play recovering a fumble on the Hornet 32. A pass for 6 and a run for 5 set up a scoring threat on the 21 but it fizzled as the Hornets broke through for an 8 yard swear then recovered a fumble on their 38.

That started the touchdown drive. Hellman made 13. Walterscheid made 9 and Yosten 3 to reach the Cowboy 37. The Cowboys held for 2 plays then Yosten reeled off 5 to the 32 as the first quarter ended. Two more plays, Yosten's 20 and Hellman's 11 crossed the line and Hellman carried again for the extra point.

Bryson came back with a neat kick-off return to the 31 followed by Anderson's 21 yard dash to Münster's 48, but a fumble there changed the tide and the Hornets were off again. There were 5 plays for 52 yards: Hellman 17, Walterscheid 4, Yosten 21, Hellman 4 and Walterscheid 6 for the score.

Following the next kickoff both teams held and after an exchange of kicks the Cowboys started from their own 45. Dunlap almost made it alone but was stopped by Hellman after a 30 yard gain to the 25. A pass Dunlap to Beck reached the 5 and Anderson went over on the second try from there.

Next came the big thrill play of the game. Hellman took the kickoff on his 10, slipped past three Cowboy tacklers, picked up beautiful interference to escape the defensive concentration in midfield, and outran the last Cowboy defender to the goal line. It was a fine combination of broken field running and team play for a gain of 90 yards.

A half dozen more plays featured by two pass interceptions ended the action packed quarter which produced 4 touchdowns

Confetti - - -

But getting back to that Truman and MacArthur pow-wow, yours truly for one is very pleased that the president has shown the good judgment to repudiate state department pinks and take his advice from a man of greater experience and wisdom, and less taint of exposure to red ideologies. If he'll keep up the good work and continue improving the source of his counsel he may possibly correct quite a few of his past boners.

Just in case he doesn't, however, the column takes this occasion to cheer the possibility of having General Ike as a candidate in the next presidential race. He's a man solidly founded in traditional American principles and popular enough to give the well organized Democratic party machine a powerful contest. He's a good bet and a good choice.
