Serving You
Is Costing Us
More and More

The cost of everything that goes into telephone service has zoomed way up. The cost of lead is up. The cost of copper is up. The cost of labor is up. The cost of taxes is up.

Yet telephone rates in general have not kept pace with these higher costs. They've lagged far behind.

If we continue to give the good telephone service that is so vital to community welfare, we must continue service improvements and expansion. That means we have to have telephone rates that "pay their way."

And rates that "pay their way" pay our way as employees, too. They mean continued growth and more and better jobs for us.

The American Way

HONEST POLITICIANS

Many times, over the years, I've been asked if I believe that politicians can be fair and honest. Some time ago that question was answered in this column, but recently there has been a flood of such inquiries, undoubtedly inspired by the revelations of corruption at Washington

which came to light during the past few months. Perhaps it would be well to repeat my answer here.

My answer always has been and still is that most certainly politicians can be fair and honest, that is, if you and I permit them to be so. A more pertinent question would be: "Can the voting public be fair and honest with the politicians?"

The fact that we have had, now have, and unfortunately, may have in the future some dishonest politicians is due in great part to our careless attitude toward good government

ANOTHER MINK COAT SCANDAL

Chamblain

and to our selfish, unreasonable demands made upon those whom we elect to public office.

Most men elected to political office are inherently honest — they aspire to serve their fellow citizens well — they embark on their public careers fired with a zeal to do a thorough, unselfish job of cleaning up corruption and of administering honestly, capably and economically the public affairs entrusted to their control and guidance. The exceptions to this rule are few.

But, the new political electorate barely has time to hang his hat on the peg provided by the taxpayers' money before the onslaught begins. Individuals, committees, pressure groups, corporations, mendicants, cranks, chiselers, social reformers and legions of others besiege him for this favor and that handout — nearly all of them making selfish, unreasonable demands upon him to crack open the public treasury and give them some of the loot.

'Tis a hardy soul, indeed, who can withstand this bombardment of patronage panhandlers and merciless mendicants and few there are of our politicians who are successful in entirely resisting the barrage. So, we, the people, are largely responsible for corrupting our politicians.

Another thing that contributes to political delinquency is continuing any one man too long in

office. Elected officers should be changed frequently in order to keep them responsive to public interests. During his first years of office, an official makes his real contribution to the country, the state or municipality. When he attempts to perpetuate himself in office by building up slush funds, and by increasing the number on the public payroll, while at the same time declaiming his indispensability and pronouncing that a state of emergency exists with which he can cope, then it is high time to dispense with his services and retire him to private life.

This applies to an alderman, a mayor, a state legislator, a member of Congress, or even to a president of the United States.

Yes, politicians can be fair and honest if we, the electors, demand it of them and refrain from using them as tools by means of which to plunder the taxpayers' money. As to the politicians who just naturally are "bad ones" they can be taken care of very nicely by an aroused electorate — they just can't stay in office against the wishes of the people.

Come next November 4, if we are smart, we can see to it that a number of our present public office holders start looking for new employment — for jobs the salaries of which will not come out of the public treasury.

Novocain: That which enables the dentist to get you out of his office before you know what's happened.

It's Up To You To Preserve Your Freedom

By Rev. James Keller
FREEDOM IS GIVEN by God. But it is a fragile gift which mankind must preserve and fortify. Though God-given, still it depends on every one of us too.

Freedom is not for the lazy. It demands character, will and education. It requires decisions, self-respect and self-reliance. A man must guard and preserve his freedom as he loves his home and his children, with a devotion that doesn't count sacrifices and constant effort.

Strangely enough, the Communists know this too. They realize that the most effective way to make anyone lose faith in freedom is to deprive him of faith in Almighty God.

From long experience all the totalitarians know that once the Divine Cause of freedom is eliminated, the effects automatically disappear. Destroy the roots and the branches eventually wither.

THIS EXPLAINS WHY there is no let-up in the Communists' continual war against everything connected with religion. When the Communists set to the task of enslaving a country, religion is always the first target of ridicule, undermining and eventual extermination.

Indeed, if there were no reason why we should be for God, the mere fact that the Communists are so much against Him is a strong argument that there must be some intimate connection between God and the basic freedoms that all of us cherish. Obviously, they recognize, even more clearly than do the people who enjoy those liberties, that the body languishes and dies once the heart is seriously affected.

Still, if all trace of Communism were suddenly to vanish in thin air, the much greater weakness would remain; namely, that more and more Americans are

losing sight of the fact that their liberty is rooted in a divine origin.

THEY ARE actually abandoning the spiritual force that accounts above all else for the greatness of America. The dire warning of Abraham Lincoln over a hundred years ago seems to be more timely now than ever before: "If this nation is ever destroyed, it will be from within, not from without."

Despite the seriousness of the situation, there is a note of hope. The average American is not

REV. JAMES KELLER

anti-God or anti-religious. He simply has been conditioned by education and literature, as well as by government, to a godless of secularist attitude. This situation can be changed for the better once enough stalwarts are found to lead America back to its source of strength.

IT IS NOT necessary to resort to any radical changes or innovations. What is required is to restore to public consciousness the cornerstone of American life, which, as our Founding Fathers repeatedly said, is God Almighty.

From where I sit ... by Joe Marsh

They Do "Give A Hoot" For Easy

Easy Roberts finally got rid of the noisy pigeons that used to whoop it up under his eaves.

He must have tried a dozen ways to scare them off. But no matter what he did, they would be right back cooing by his window the next morning.

Then Easy thought of an old stuffed owl he had in his attic. He propped it on the roof so all the pigeons could see it. They left ... and three hoot owls have taken their place. Easy swears the hooting is even worse than the cooing of the pigeons.

From where I sit, quite often a "bright idea" will turn out to be "not so bright" after all. That's why we should never be too cocksure of our ideas and opinions — but always try to keep an open mind. I believe a refreshing glass of beer is the best thirst-quencher — you may believe differently. But who's to say one's right and the other is wrong? Let's just practice tolerance. It'll save a lot of hootin' and hollerin'.

But... Would CHRIST Call You A Christian?

There is an amazing difference of opinion today as to what constitutes a real Christian.

One man regards himself as a good Christian because he applies the Golden Rule to everyday living. Another professes to be a follower of Christ even though he believes only part of the Savior's teaching. And some who call themselves Christian even go so far as to reject his divinity.

Too many people, unfortunately, are setting up their own standards of Christian character and Christian living... forgetting that Christ Himself set these standards for us.

The result is that many sincere people are confused... and are deceiving themselves with a minimum, or "so-so" kind of Christian living.

The Catholic Church teaches that the mere belief in Christ is not enough. For if it were, why did Christ take the trouble to show us by precept and example how we should live? Nor can we regard His teachings as just a social doctrine... subject to our individual amendments... when He made it so plain that our very salvation depends on living as He prescribes, not as we choose.

If you want to find out how good a Christian you really are,

read—and read again and again—Christ's Sermon on the Mount. And if you read only the introduction... including the Beatitudes... you should realize how far short of Christ's standards are the standards which men set for themselves.

Perhaps you may feel that the ideals voiced by the Savior nearly 2,000 years ago cannot be applied in our modern times. And possibly you will not understand the practical meaning of Christ's references to "the meek," or "the poor in spirit," or "they who hunger and thirst for justice." In that case, we are happy to help you — without cost or obligation.

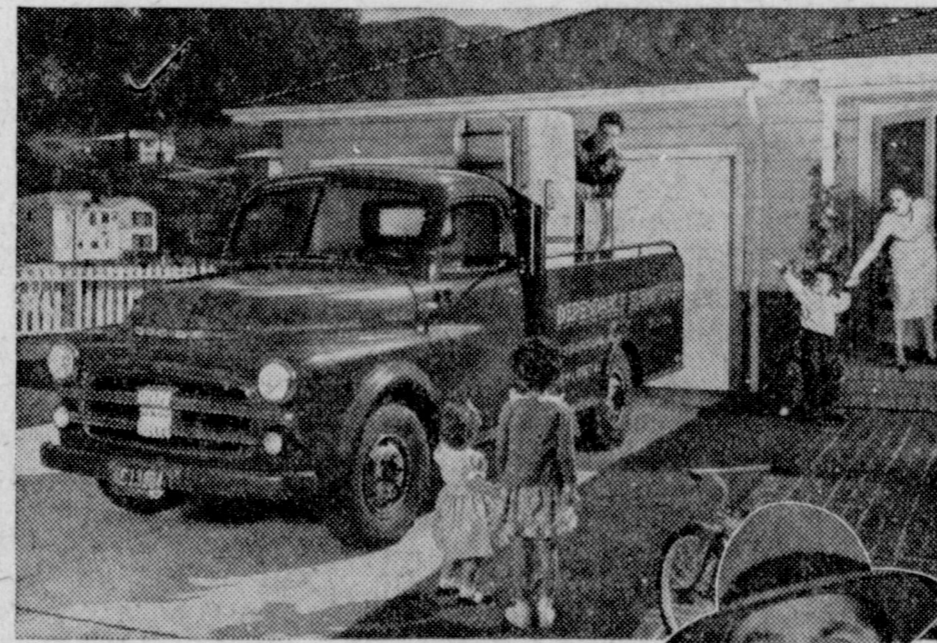

Free

We shall be glad to send you free on your request, an interesting pamphlet explaining the meaning of the words Christ used in the beginning of the Sermon on the Mount... and how you can apply them to achieve a fuller, richer Christian life. Write today for your free copy. Ask for Pamphlet No. KC-29.

**Come Discover Power
Steering Today . . . and
These Great
Chrysler Features, too!**

180 V-8 Horsepower, even on non-premium fuel. The Security of Power Brakes . . . Driver-Controlled Automatic Fluid Transmission . . . The Rough-Road Stability of Oriflow Ride . . . The protection of Fully Waterproof Ignition.

You'll never know what she means till you try Chrysler's Full-Time Power Steering yourself! Even other cars with so-called power steering don't offer as much new safety and ease as she gets!

On every turn, hydraulic power does 4/5 of her work, her hand does only 1/5! On every turn, she turns her wheel 1/3 less distance than other cars! At every instant, turning or not, her hands have 5 times her former power to hold and control her car's front wheels!

She eases into parking places you wouldn't even try. She slips through traffic with the precision of a watch. She breezes over bad roads with never a feel of wheel fight, car under control as never before!

She can start in the morning and drive into the night with never a hint of shoulder strain . . . with the same wonderful "wheel feel" and safety in every mile!

Come try this amazing new steering yourself. We promise you never felt anything like it!

Mrs. Tarantola, Sons Arrive in Germany

Mrs. Mike Tarantola (Charlsie Bradshaw) writes from Wetzlar, Germany to her sister, Mrs. T. S. Myrick, telling of her trip to join her husband, Warrant Officer Mike Tarantola, and about getting settled in their new home.

Mrs. Tarantola and two small sons, Mickey and John, left New York by Stratoliner on Feb. 14 after spending a week there with Mike's relatives. They left Idlewild Field at 5:30 a.m., were in Sydney, Nova Scotia, an hour and a half later, and nine and a half hours later ate dinner in London. Two hours after that they landed at Frankfurt, Germany, where Mike met them to escort them to Wetzlar. Mike had a week off so they got settled in their three-story home and went sight-seeing as much as possible.

It snowed for three days, but the house is steam heated and very comfortable. There are only a few American families in Wetzlar, the rest are either German or French.

The German markets are open and they shop for food there, but milk comes from Denmark.

In closing, Charlsie asked that best regards be extended to all their friends here. Their address: Warrant Officer Mike Tarantola, Hq. & Hq. Co., 12th Infantry Regiment, APO 39, c-o Postmaster, New York, N. Y.

Only the **ALL-CROP** Harvester has air blast separation.
Between cylinder and strawrack, shelled grain and

Kernels are thrown free from the lighter straw and

This extra separating action saves more grain, beans

Mr. and Mrs. Bill Neu and son, Elroy and daughter, Margie Jo, and Mr. and Mrs. Fred Beirschnek were in Weatherford Monday to visit Mrs. Joe Berschenko who is recovering from a major operation.

Lindsay News

The Joe J. Neu family visited in Dallas Thursday with their son and brother, Father Hubert Neu, assistant pastor at St. Bernard's church.

Mrs. Frank Sandmann and two children and Mrs. Adam Beyer, joined by Mrs. Ferd Luttmner and daughter, Mary Kay, drove to Electra one day last week to visit the Adam Kempf family.

The Henry Hess infant received medical care at Gainesville Sanitarium last Wednesday.

Harold Neu Wins \$200 Scholarship

Harold Neu, 15-year-old Lindsay 4-H Club boy, is winner of a \$200 college scholarship, announced Flody Lynch, state 4-H club leader.

This award is one of five \$200 scholarships given by Anderson, Clayton and Company of Houston to area winners in the 1951 4-H cotton improvement program sponsored by the Texas Agricultural Extension Service.

A freshman at Lindsay High School, Harold is the son of Mr. and Mrs. John Neu, and has participated in 4-H club work four years. Next to cotton, swine has been his major 4-H demonstration.

Upon becoming a 4-H club member in 1948, Harold discussed possible demonstrations with his parents and decided on five acres of cotton. With a yield of 371 pounds of lint per acre from his first crop, he won first place in the county cotton contest.

He continued his cotton demonstrations in 1949, 1950 and 1951 because the crop fits well into the farming program on the Neu farm. He made a profit each year except 1950 when excessive rain fell.

After the 1950 failure he decided to try to improve his cotton program in 1951. He planted the Qualla variety, recommended for his community, and treated the seed before planting. The cotton followed alfalfa. When the cotton reached the 4-leaf stage he started his early season insect control program. He sprayed the cotton three times.

It was another bad year for cotton, due to drought during the growing season. But Harold obtained 250 pounds of lint per acre while his father harvested only 150 pounds of lint per acre.

County Agent B. T. Haws supervised Harold's 4-H demonstrations.

Mrs. Whitt Elected To Head Progress Club for New Year

Mrs. W. B. Whitt heads the Marysville Progress Club as chairman for 1952 as the result of the annual election of officers during a community meeting last Thursday night, Feb. 28, in the community center building.

Other officers of the club are Herman Richey vice chairman; Mrs. Jack Biffle, secretary-treasurer; Mrs. Herman Richey, publicity chairman; Douglas Robinson and Nellie Winchester, boy and girl chairmen; Mrs. Jess Richey, chairman of the social committee.

Chief aims of the club for the coming year are continuing the improvement of the community center building, upkeep and beautification of the cemetery, and a program of entertainment for young people of the community.

Meeting dates for the club will be the second and fourth Wednesdays of each month.

Mr. and Mrs. Tony Walterscheid and son, Gene, returned Friday from a trip to South Texas. In Harlingen they visited his mother, Mrs. John Wilde, and attended the wedding of their niece, Ella Mae Wiesman, to Johnny Bailey. The bride is the daughter of Mr. and Mrs. Frank Wiesman, formerly of Münster and Pilot Point. Enroute the Walterscheids stopped in Bandera for a visit with her brother, Charles Knauf and family. They returned home by Corpus Christi where they stopped for a visit.

Clarence Owen and son, Gerald, and Alfons Pautler were here Wednesday enroute to Sandusky after working at Jacksboro. Other workers for Sam Harrison, including A. J. and Arnold Schilling, are also making the move. The A. J. Schillings will live in Whitesboro, and Arnold plans to live in Gainesville.

Mr. and Mrs. Ray Evans had as guests Saturday and Sunday, her brother and family, the J. W. Dickersons of Magnolia, Ark., and her niece, Mrs. Bob Thatcher of Buloxie, Ark. The latter went from here to Quannah to visit her mother and other relatives.

The C. L. Dickersons have as their guest, her mother whose home is in Denison.

Rev. Jordan Shell, provincial of the Third Order of St. Francis, will be in Münster to conduct a triduum for members next Thursday, Friday and Saturday. A schedule of services and conference will be worked out after Father Shell gets here.

School Week-

drawing students were working at their regular projects. In other classrooms teachers explained displays of textbooks, work books, teaching aids and various facilities. A display in the gymnasium included uniforms and equipment for the school's entire athletic program.

After the open house P-TA members met for a short session which consisted principally of approving an expenditure of \$100 for library books and naming a nominating committee for the election of officers in May. Those on the committee are Mesdames Johnny West, John Fisher and Charles Fisher.

Never ask for a favor unless you are ready to give one.

Confetti---

sort of indirect endorsement from Eisenhower. The fact, Foster says, that Ike does not return and campaign against Taft, indicates that he regards Taft as a suitable man for the candidacy . . . that he isn't worried about any ill effects from Taft's policies either in United States or Europe. Foster feels that Eisenhower is enough of a patriot to come back and have his say if he believed that Taft is the wrong man for president.
