## Former Resident Dies in Oklahoma

Predictions of a few months ago appear to be shaping up as expected. While the big steel fuss was under way there were many who said that the administration's policy was laying the groundwork for another loop in the inflation spiral.

Well, we haven't had long to wait. During the past few days there have been rumblings of gathering storms on various fronts. Railroaders agreed to stay hitched for a while but let it be known they don't like the idea. John L. Lewis served notice that he's expecting more for his coal miners. Packing house workers are also threatening. True to prediction, workers in practically all other lines are maneuvering to catch up with those in the steel mills.

What's even worse, this predicament is approaching the point where nothing can be done about it. In justice wages have to be raised all around to help working people keep pace with the cost of living.

First of all look at raise allowed in steel prices. It's spreading out and before long consumers will be paying proportionately more for every item that contains steel. Foods too have gone up. Consumer reports of the past week indicate a small increase on a long list of staple items in the average grocery bag.

As a result of all this it isn't surprising that political planners are getting panicky for more price controls. They're nagging at the president to call congress back into session and demand more regulations to check the rising tide.

The way this is working out a person might even suspect that the OPS played a major part in putting on the steel fiasco. After being shown that they were about the most worthless of all non-essentials on the government gravy train, they have their long awaited chance to complain that prices are not steady and the country needs their bureaucratic guidance.

No matter how you look at it, it's a pitiful mess . . . a mess so gigantic and far reaching in its effect that a person wonders how one little man from Missouri could possibly have caused it all.

No wonder reports are circulating that Democratic Nominee Adlai Stevenson is trying to soft pedal the support of Truman and his fair deal crowd. Obviously he's smart enough to recognize a political liability when he sees it. He can't see any percentage in being palsy walsy with an outfit that has been conspicuous for such deplorable economic monstrosities along with waste, graft, and countless other violations of conscience and common sense.

But if such is Stevenson's purpose he slipped up sadly on one detail. Wilson Wyatt, his personal campaign manager is remembered by too many of us as the crackpot who put the government in the prefabricated housing business a few years ago and after a good deal of smelly hocus pocus left us taxpayers with a bill of several hundred million bucks. After that fizzle Wyatt dropped into obscurity, but so far as we know there has been nothing to indicate that he isn't still one of the queerest of the queer dealers.

With that choice Adlai's political stock sinks somewhat more than a little. We're less inclined to listen to a man who listens to a guy like Wyatt.

As significant as this sad choice is the stand taken a few days ago by a Burlington, Ill. paper of which Stevenson is 25 per cent owner. Says the paper: "Adlai Stevenson has one great handicap. He is the candidate of a party which has been in control of our national government for 20 years, a party which, under Harry Truman, has set all-time records for spending, scandal, inefficiency and has dragged respect for government to its lowest point in our history . . . Can Adlai Stevenson and the Democratic Party bring about these changes or can they only come about by a change of party this fall?"

There's food for thought in that. For campaign purposes (Continued on Page 8)

Mrs. Henry Luttmmer, a former Muenster resident, the aunt of Mrs. George Lutkenhaus and sister-in-law of Herman Luttmmer of this city, died suddenly on August 1 at her home in Oklahoma City as the result of a heart attack. She was 74 years old.

Funeral services were held the following Tuesday in Sacred Heart church in Oklahoma City and burial was in Norman, Okla. Mr. and Mrs. Luttmmer were married here on Aug. 23, 1904, and farmed here before moving to Oklahoma.

She is survived by her husband, two brothers and a sister. Her husband, in ill health, has been confined to bed for several weeks.

## Heart Attack Fatal To Dan Bradley, 63

Dan Bradley, 63, of Ft. Worth, brother of Mrs. Bill Stelzer and Mrs. Henry Stelzer of this city, died of a heart attack August 6 at 4 a.m. in Canton, Okla., where he and his wife had gone on business. He was a livestock dealer for more than 35 years.

Funeral services were held Monday, August 11, at 9 a.m. in All Saints Catholic church in Fort Worth and burial was in Mount Olivet cemetery.

Bradley had lived in Fort Worth most of his life and was widely known. He had visited here frequently with his sisters.

Survivors are his wife, the former Katie Riley, of 1304 Boulevard, Fort Worth, two sons, James and Johnny Bradley, both of Fort Worth, his two sisters of Muenster, three granddaughters and two grandsons.

Mr. and Mrs. Bill Stelzer and Mrs. Henry Stelzer went to Fort Worth immediately after receiving word of their brother's death and remained until after the funeral.

## Town-Country Play Band Benefit Game

Hicks and City Slickers of the community will renew their old time rivalry next Friday night, August 22, in a benefit ball game sponsored by the Lions Club for its band instrument fund. Dick Cain will manage the town boys and Walter Becker will manage the country boys.

If possible Dick Cain will make the program a double header by matching a post season game for his school boy team, the Auctioneers.

**SADDLE SORES?**—"Cowgirl" Sherlynn Bower, 3, appears to have dismounted from a wild bronco, but she's just massaging a sore spot resulting from a police serum injection. The shot was administered during tests conducted by the National Foundation for Infantile Paralysis in Sioux City, Iowa.

**HE'S ALL EARS**—In the jungle of his cornfield, Basil Soupos, South Gifford, Mo., holds a yardstick to demonstrate the prolific yield he has received via liberal fertilizing. Seven ears can be counted in this 36-inch segment of Soupos' 100 acres of corn. The civil engineer-turned-farmer figures he has about 30,000 stalks per acre while some of his neighbors get no more than 7,000. Because of the lack of rain Soupos probably won't reach his coveted goal of 200 bushels per acre, but if the dry spell continues he'll flood his field with water pumped from the Chariton River. Looking ahead, Soupos says he won't be satisfied until he raises 300 bushels per acre.

## Parking Improved By Diagonal Lines

The diagonal parking lines just painted on Main Street are proving to be the biggest improvement, in comparison to the east, ever put in by the city. It is paying off in better appearance and more efficient use of the available space.

Steve Moster said that most people have been cooperative in parking at the proper angle between the lines. The system eliminates the former gaps and tight squeezes that resulted when drivers headed in anywhere at any angle.

At this time the only space (Continued on Page 8)

## WITH THE MEN IN SERVICE

Sgt. Paul Luke arrived Tuesday night for a visit with his parents the Henry Lukes, after being on duty in Korea for almost a year. He reached the states last Saturday and went from Seattle, Wash., to Fort Sill, Okla., enroute home on a 30-day leave.

James Knabe who enlisted in the Navy last week has advised his parents, the Joe Knabes, that he is taking boot training at San Diego, Calif.

Henry Pels, airman second class, left Thursday for Camp Stoneman, Calif., on the first lap of his overseas trip. He had been on duty at Robins AFB, Georgia, before coming to Muenster on a 30-day leave.

S.Sgt. Harold Trachta spent the weekend with his mother, Mrs. Anna Trachta. He is now stationed at Gray AFB at Killeen having been transferred to that base recently after being on duty at Carswell AFB in Fort Worth.

Cpl. and Mrs. Sheldon Dougherty are visiting his parents, the Joe Doughertys and other relatives during his two weeks' leave from duty at Fort Sill.

Capt. and Mrs. Harold Falck of Leesville, La., arrived Monday for a visit with her parents, the Jake Pagels, until Friday when they will leave for Illinois to visit members of his family. From there they will go to New Jersey and he will sail for Germany from there. Mrs. Falck will return to Muenster.

Norris Largent, who has been in charge at the Katy depot since H. L. Herron is off duty on account of injuries received in a fall from a windmill on July 21, has received his orders to report for induction in the armed services. He will leave here Friday to spend the weekend with his parents in Muskogee and will leave from there Monday. Up to Wednesday Largent had not been advised who will replace him at the depot.

## Steve Denham Has Incurable Disease

Steve Denham, whose home was in Forestburg for many years, and who was a pharmacist at the Dixie Drug for several years, is critically ill in a hospital in Pueblo, Colo.

According to word from his wife, the doctors have given Steve only a few more weeks to live. Mrs. Denham wrote friends that from 24 x-rays, every kind of test that could be made and an exploratory operation, the doctors found that he has an incurable disease. He has been told of his condition and is very well reconciled, Mrs. Denham added.

He enjoys cards and letters and anxiously waits for the mail each day, she said. His address is 424 West 11th Street, Pueblo, Colorado.

## News of Sick And Injured

Charlie Fisher underwent major surgery at Gainesville Sanitarium Tuesday morning.

Mrs. Ben Hellman entered Gainesville Sanitarium Monday for medical treatment.

Mrs. Frank Bindel had the misfortune of breaking her left arm at the wrist Tuesday when she fell after making a misstep on the porch at her home. She received treatment at the local clinic.

Charles Felderhoff was up and around Sunday for the first time in a week. Illness had confined him to bed at the home of his parents, the Tony Felderhoffs.

Fred Hennigan entered Gainesville Sanitarium Saturday for medical treatment. He will be hospitalized about 10 days.

Harold Walterscheid received treatment at the local clinic Monday for a painful gash between the thumb and index finger of his left hand.

Mrs. John Tempel was up and around Wednesday following a week's illness.

Friends here learned Wednesday that Joe Wilp of Oklahoma City, formerly of Muenster, broke his left leg above the knee on July 28. He incurred the injury while moving equipment in the bakery where he worked as maintenance manager.

H. L. Herron spent Saturday and Sunday at the Katy hospital in Denison for a check-up and x-rays. The fracture in his right leg is not knitting as fast as expected and doctors said the cast would have to remain on for 4 more weeks. That will delay his return to duty at the depot. According to present indications he will not resume work for two months.

**WALRUS WEATHER?**—For a moment it looked as though a very warm walrus would concentrate his fury on the rising thermometer and take a bite out of it. Whether the heat had sapped his energy or the water was too inviting will never be known. At any rate, the bewhiskered gentleman slid into the wet comfort of his pool at Central Park zoo in New York.

## Coe Gets Coaching Job at Turkey High

With the resignation of Mr. and Mrs. C. R. Coe on Monday of this week, the Muenster public school faculty is still incomplete. Coe has accepted a job as head coach at Turkey High School, in West Texas. He and his wife intend to move there next week.

Since Coe's resignation the school has engaged two more teachers. Mrs. Alice Brooks of Bells, a teacher at Melissa last year, will be librarian and teach commercial subjects. Miss Betty Cole, a native of Muenster graduating from NTSTC this summer, will succeed Mrs. C. R. Coe as first and second grade elementary teacher.

The vacancy now remaining is that left by Coe, but Superintendent Cowen has made no effort up to Tuesday to get a replacement for him. He intends first to check over qualifications of all teachers to determine what qualifications, if any, still need to be fitted into the system. If some subject now lacks an instructor the board will have to make its selection accordingly. Otherwise it will select to distribute the teaching load most evenly among the teachers.

## Searcy Expects 40 Members in Band

Prospects look fine for the Muenster Community Band. Director Bill Searcy reported Wednesday that the present membership is 29 and has a good chance of reaching 40 by the opening of school.

Searcy expects several new members as a result of special arrangements for football players. Until now they have been automatically eliminated because the practice session conflicted with their daily football practice, but Searcy has found time for morning band practice to accommodate those who cannot be present in the afternoon. After football season the boys will be ready to participate in regular band activity.

The present practice schedule is Monday, Wednesday, Thursday and Friday nights for the entire band and afternoons of the same days for sections.

Searcy says he has a well balanced band and also is very pleased with the members' progress to date. He expects to be playing a few simple tunes for the first football game.

Though composed mostly of school children Searcy points out that it is a community band and invites adult players to join it. They will be welcome at any practice session.

## MHS Gridders Will See Oil Bowl Game

Members and prospective members of the Muenster High School football squad have an opportunity to attend the Oil Bowl game at Wichita Falls on Friday, August 22. This is the annual game between Texas and Oklahoma high school stars of the preceding season.

Coach Troy Stewart announced this week that he will furnish transportation for all who wish to go. Each boy will be expected to buy his own admission ticket.

Those who wish to attend can make arrangements by seeing Coach Stewart on or before next Sunday. He wants several days of advance notice so he will have plenty of time to arrange for transportation. Stewart also specified that each boy must have his parent's permission.

Arnold Schilling of Jacksboro visited here Sunday evening with his father, John Schilling, and other relatives.

## SCHEDULE OF COMING EVENTS

Money to Burn!

They say there's a Maharajah or something in Asia who is paid as much in gold as he weighs. No doubt he has money to burn. But for us ordinary people money is pretty hard to come by.

That's why bank savings are so important, because when money is put in a bank it draws interest. The Maharajah needn't worry about interest, but we ordinary folks can't overlook this either.

Don't let your money go up in smoke. Put it in a savings account.

## COMMUNIST UNIONS SHOULD GO

During a discussion recently in a Mid-western city on communist infiltration in various phases of our national life, a man rose during the question period, identified himself as a high school principal and asked why some of our big defense industries don't "kick out" the Communist-dominated labor unions. He mentioned several big companies which have continued to deal with alleged Communist-dominated unions although competing non-Communist unions existed.

The answer is that so long as a majority of employees of a plant or of a particular trade in that plant select a Communist-dominated union as their bargaining agent and the National Labor Relations Board certifies that union to the company, the union cannot be legally kicked out by the company. General Electric Company, manufacturers of jet engines and atomic weapons, has been obliged to deal in some instances with the United Electrical, Radio and Machine Works of America, and its alleged Communist leaders, because this union is the choice of controlling groups of GE workers and has been certified by the NLRB.

### Congressional Action

A committee of Congress is studying legislative means of thwarting the Communist labor unions. It recognizes that they cannot be kicked out of plants so long as a Federal government bureau such as the National Labor Relations Board gives them legal standing. The committee has asked for help from non-Communist labor leaders and several leading industrialists who have been involved with unions labeled as Communist dominated.

L. R. Boulware, Vice President in Charge of Employee Relations for General Electric, has made detailed recommendations for legislation and has called upon Congress to immediately make it legally possible for GE and other industries to kick out the Communists. Mr. Boulware cites an attempt by his company in 1948 to quit doing business with the UEW. "We were... sued for \$1,000,000 by the UEW," he reports.

### Recommendations

General Electric's specific recommendations to cope with the severe danger of Communists in our major industrial plants are: (1) Congress should assign to an independent Government agency the duty and responsibility

for investigating and determining which, if any, labor organizations are dominated by Communists. No labor union has ever been included in Government subversive lists. This would be an initial requirement in getting at the Communist-dominated unions.

(2) Congress should establish criteria for determining Communist-domination, or lack of it, in a labor union. Upon finding any labor organization to be Communist dominated, the proposed Commission should designate it as such, and should have power to also designate as a Communist labor leader any individual responsible for policies which caused it to be designated as Communist-dominated.

### Outlaw the Traitors

(3) Before being subjected to any disabilities or penalties, the members of the organization should be given opportunity to purge those leaders which had been designated by the Commission as Communists. If they did not, Congress should withdraw the special advantages and privileges granted to labor organizations, such as protection of the National Labor Relations Act, the Norris-LaGuardia Act, portions of the Clayton Act pertinent to unions, and court privileges when seeking to represent employee groups in interstate commerce. If these measures failed in destroying the Communist-dominated union as a labor organization, more drastic steps should be available to the Commission.

Mr. Boulware's recommendations should receive careful consideration. J. Edgar Hoover, chief of the FBI, has said recently that the Communists have shifted their Fifth Column forces heavily into our most vital defense industries. It seems to me that when we accept the reality of the Communist conspiracy, and then accept the fundamental fact that every Communist is working for the overthrow of our government by force, we are foolish not to go directly to the

His Frankenstein Monster

heart of the matter. Communist organizations ought to be outlawed! The FBI says it has a list of more than 30,000 who are working to destroy us. Why don't we outlaw their organized activity? It's ridiculous to legalize their organized treason.

# KEEP COSTS DOWN, PERFORMANCE UP, WITH A DODGE!

"My Dodge trucks save a lot of money on gas!"

says H. A. ROBINSON, Contract Hauler, Mobile, Ala.

"On a 200-mile run I save 1 1/2 to 2 gallons of gas. I get this saving seven days a week, and on my two trucks that means I save over \$300.00 a year on gas alone. That's good, because each of my trucks makes an average of 50 stops per day hauling mail.

"My first Dodge truck cost me only

\$54.00 of repair expense in two years. I ran my second Dodge over 103,000 miles in two years and spent only \$15.50 on it for repairs.

"If I'd known what I know now about Dodge trucks, I'd have switched to them long ago and saved myself a lot of money."

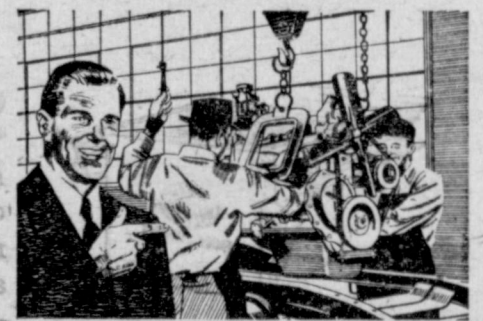

▶ Haul at lower cost with a Dodge truck that's "Job-Rated" to fit your job—1/2- through 4-ton.

▶ Boost gasoline mileage with features like high-compression ratio and special gas-saving carburetor.

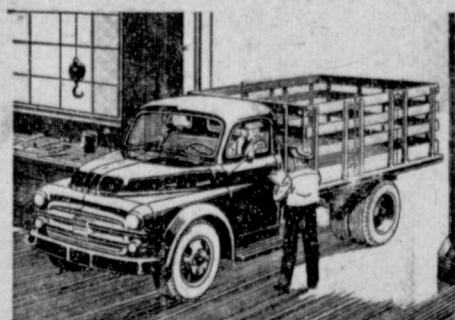

▶ Reduce upkeep with such wear-saving features as floating oil intake and positive-pressure lubrication.

▶ Enjoy smooth performance with gýrol Fluid Drive, wear-protecting advantage available on all 1/2-, 3/4-, 1-ton and Route-Van models.

▶ Come in today for a demonstration—and a good deal!

Save on gas and oil. All 8 Dodge truck engines give exceptional economy with plenty of power. You get such advantages as lightweight aluminum pistons, improved fuel system with economy control, precision-balanced crankshaft, and other money-saving features.

Save on maintenance. Rugged engines and chassis have made Dodge trucks famous for dependability. Upkeep costs stay low because of many special Dodge features like 4-ring pistons, chrome-plated top ring, and wear-resisting exhaust valve seat inserts.

Save with long life. Because Dodge trucks last so long, depreciation is less and trade-in value stays up. Long life and dependability are the result of such features as alloy steel springs, shot-peened axle shafts, extra-sturdy frames, and Oriflow shock absorbers in low-tonnage models.

## Local News BRIEFS

Mrs. Tony Gremminger went to Archer City Tuesday morning to spend through Thursday with her father, H. J. Weinzapfel at the hospital.

Guests in the home of Mr. and Mrs. Lester Harris Sunday were her sister and husband, the G. E. Solones of Fort Worth, the S. Watsons and the Donald Rays of Whitesboro.

Mrs. Earl Robison and son, Douglas, and Mrs. James Cole and son, Ralph, were in College Station this week. The boys made arrangements to enter A&M College. Douglas enrolled as a junior and Ralph enrolled as a freshman.

Mr. and Mrs. Richard Swirczynski and Herman Swirczynski returned Saturday from a trip to Arkansas where they visited their sister, Sister Helen at Pocahontas, and their niece and daughter, Sister Monica, at Jonesboro. Mrs. Joe Swirczynski who accompanied them on the trip remained for a longer visit with her daughter, Sister Helen.

Supper guests in the J. M. Weinzapfel home Monday evening were Father Thomas Weinzapfel of Valley View, Father Walter of Denton, Father Charcut of Pilot Point, Father Morse of Garland and Father Silk of Decatur.

Mrs. Herman Felderhoff of New York arrived in Muenster Saturday for a visit with relatives, and joined them on a trip to Jonesboro, Ark., to attend ceremonies at Holy Angels convent on the 15th. This was Mrs. Felderhoff's first visit with her late husband's cousins in this city. Her husband lived here years ago when he first came to America from Germany. He later enlisted in the army and was in the service for 31 years.

The John Fishers and children, Jeanette, Francis and Rose Mary, are on vacation in California. They are visiting their son and brother, Marine Cpl. Clyde Fisher at Santa Ana, John's sister, Miss Ida Fisher at Compton, and places of interest to tourists.

Miss Betty Lue Buckley is back in Muenster after spending six weeks as a counselor at Camp Pin Oak in the Ozarks, near Kaiser, Mo., where Jefferson City Girl Scouts held their summer encampment. She will be here with her parents, the E. P. Buckleys, until the opening of school at St. Louis University where she will return as a senior.

Mr. and Mrs. Buck Owens and son, Billy, and the Jess Richeys spent Wednesday and Thursday of last week in Lawton, Okla., visiting Mr. and Mrs. Smyrel Owens and sons, and attended a rodeo.

Messrs. and Mmes. J. A. Travis and Jess Richey joined by the Rolland Welches of Gainesville spent Saturday night at McAllister, Okla., attending an all-nite Indian singing.

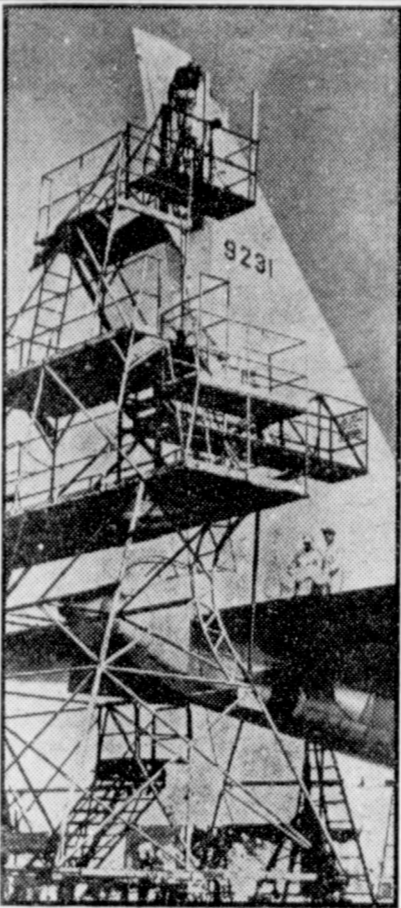

Mr. and Mrs. Herb McDaniel and his mother, Mrs. E. M. McDaniel, drove to Sanitorium Sunday for a visit with the latter's son, Bert McDaniel and family. Herb and Ann returned home Sunday night and his mother stayed for an extended visit.

Rev. Paul Hoedebeck of Subiaco, Ark., arrived Saturday to spend a week in the parish in the interest of securing students for Subiaco Academy. He is the guest of his parents, the Fred Hoedebecks.

Mr. and Mrs. Leo Henscheid and children Jerry and Carol, and Miss Bernice Henscheid of Dallas, left Sunday morning on an automobile trip to spend a week's vacation in New Mexico and Old Mexico.

Mrs. Bill Metzler of Fort Worth spent the latter part of last week here with her parents, the Frank Trubenbachs. Her husband joined her for a visit Friday and she accompanied him back to Carswell AFB where he is on duty.

Sister Mary Beatrice and her companion, Sister Virgilla, arrived Saturday from Atchison, Kansas, to spend this week with her mother, Mrs. William Bergman. They had attended summer school in Atchison and will go from here to Oklahoma City where they are teachers in the John Carroll parochial school. While here the Sisters are also visiting the Joe Kathmans, Herb McDaniels, J. B. Wildes and Joe Bergmans. They will also visit the Hubert Wildes at Gainesville before leaving for Oklahoma City.

**TALL TAIL**—It's no tall tale when mechanics working on this highly secret eight-jet bomber in Seattle say the huge ship is "way up there" even when it's on the ground. Special scaffolding is needed to permit adjustments on the 48-foot-high vertical tail.

Hellmens and son, Jimmy, of Milwaukee are visiting here. Anna Dell Herr celebrates her 11th birthday with a party. A large barn is under construction at the Arthur Hellman farm. Mr. and Mrs. Albert Stoffels announce the birth of a daughter. Isabel Walterscheid and Geneva Roberson are employed in Thackerville, Okla., since Monday. Herbert Bezner and Lambert Bezner who enlisted in the Navy Seabees have been called for duty; they left Sunday for Norfolk, Va. Pvt. Joe Sicking is on duty in Hawaii.

been employed by the REA and his wife will be a teacher in the public school. Mr. and Mrs. Joe Luke left Thursday for Chicago where she will attend the national convention of the Catholic State league as a Texas delegate. Betty Hartman and Albert Dangler marry here Tuesday. Joe and Florence Moster are visiting relatives in Temple. The William Seylers moved this week from Justin to Valley View.

## Soil Conservation Notes

If you don't believe that hairy vetch lives up to its reputation as a soil improving winter cover crop, then let Lonnie Young of Dye Mound tell you of his experience with this winter legume.

Young, who is cooperating with the Upper Elm-Red Soil Conservation district to improve and protect his soil, offers this evidence to support vetch's claim to its soil improving qualities.

Last year Young had volunteer vetch on five acres of his six acre corn patch. He plowed under a good growth of vetch in the spring of 1951 on these five acres and planted corn on the six acre patch. The yields of corn tell the story.

Where no vetch had grown the yield was 20 bushels per acre. On the land where vetch had been plowed under the average yield was 56 bushels, or an increase of 36 bushels per acre over the no-vetch land.

Figured on a cash basis at \$1.75 per bushel the vetch land income was \$63 per acre more than the land that had not received the benefits of nitrogen and organic matter added by the vetch crop. "Just goes to show it pays to farm the conservation way" says Young.

Along another conservation front terracing is going forward. Alfons Luke is working on 1500 feet of terraces on his farm near Muenster. The terraces will empty onto a native grass waterway sodded two years ago.

Johnny Bayer is building two miles of terraces on the Winstead farm he operates five miles northeast of Muenster. Some of these terraces empty onto pasture on the Bayer farm giving a good example of how cooperation of neighboring land-owners works to halt soil erosion. In this instance it also shows how land-owner and tenant can work to-

gether to halt soil waste for their mutual benefit.

A. E. (Pop) Thompson has just completed the construction of a pond on his farm east of Muenster. The pond fits into a diversion terrace system and will keep water off of cultivated land in addition to furnishing livestock water.

## BULCHER H. D. CLUB HAS REGULAR MEET THURSDAY

Mrs. Gid Prather was hostess for the regular meeting of the Bulcher Home Demonstration Club on Thursday afternoon, August 7, in the community center building. Twelve members attended.

Mrs. A. Hyman, president, presided during the business session. Members answered roll call by giving uses for a basket in the home and Mrs. Johnnie West reported on the last council meeting she attended in Gainesville.

Members also made tentative plans for the erection of a booth at the county fair.

Mrs. Earnest Robison was in charge of recreation. In a contest Mrs. West received the prize.

Members exchanged sunshine gifts and the hostess served refreshments.

## WILDLIFE WISDOM

Fishermen frequently move in on a lake or river, with shrinking shore line, to make a killing. When they fail, they cannot understand why having the fish in a smaller area is not conducive to better luck. The answer is that the big fish which usually feed on the smaller fish, are not hungry because they are better able to corral their prey—thus the eligible fish, and not the fishermen, benefit from the reduced area.

## Coming Back for A Good Reason!

Lately while the livestock market was slipping, several of our customers were displeased with our prices and decided to try their luck elsewhere. After one trial most have returned to us.

Of the persons we talked to, all have had the same experience. They got even less at other markets.

They learned the hard way that this is a better place to sell. Our prices are equal to or better than the current market. Their selling expenses are lower.

"DUCKY" DECOY—Happily checking their score sheet of Communist snipers are Marine T/Sgt. John E. Boitnoot, left, of Chicago, and Pfc. Henry A. Friday, Nikoosa, Wis. Acting as a decoy, Friday stood on a hill and let the Reds shoot at him. From concealment Boitnoot picked off the then exposed snipers. The week before their company commander called a halt to the novel experiment the boys got nine Communists.

## Parking Improved

marked off is the west side of Main between First and Second and a few spaces across the street. The job will be finished when the council gets more paint, and will include both sides of the street from the highway to Second and both sides of the street in front of Sacred Heart Church.

No parking areas, especially in front of fire plugs, will be from one diagonal to the other, marked with a line extending Drivers are urged not to cross these horizontal lines.

Stevenson may be able to brush off some of the more obvious political liabilities. But if elected, can he clean out enough of the present undesirables to give us a good government? Remember, he would have to get rid of the very persons who nominated him and are working for his election.

## GJC Outlines Aims, Advantages, Costs

"Parents have an interest and deserve to know the plans, aims, and advantages to be secured by their children through enrollment at the Gainesville Junior College," said W. E. Chalmers, dean, concerning the opening of the twenty-ninth annual session of the institution September 8, 1952.

"The College aims to serve at least the following classes of citizens of Gainesville and her surrounding territory: young adults, parents and older adults, business and industry, ranchers and farmers, labor and professional people.

"Her functions are: to bring all the advantages of an institution of higher learning to the community; to provide the first two years of regular study for those who wish professional training; to enable the people of the community to receive semi-professional training or vocational training in short term, long term, or night classes; to offer guidance and counselling services to those who wish to continue formal education beyond the high school level, and through the members of her staff, to work for the improvement of education in all schools in the area served."

Operating as it does at home base, two years of formal education may be secured through Gainesville Junior College at a minimum of cost as follows:

Tuition per semester	
Twelve hours or more	\$45.00
Nine hours	\$36.00
Six hours	\$28.00
Three hours	\$15.00
Laboratory fees for semester	
Science	\$3.00
Foods	\$3.00
Sewing	\$2.50
Typing	\$2.50

Since the college operates its own book exchange, textbooks are made available at a minimum sum.

Thus the student desiring to carry a full college load with perhaps as many as three laboratory courses could attend school for one nine-months session at a base cost of \$98.50 plus the necessary cost of textbooks. In addition, a number of the college activities are included in the basic tuition fee.

## GROUP IN JONESBORO TO ATTEND RELIGIOUS RITES

Mr. and Mrs. Ed Jesko and daughter, Gwendolyn, and Annette Berend, all of Hereford, arrived Monday to visit here with Mrs. Jesko's brother, R. M. Zipper, and other relatives until Thursday when Mr. Zipper and Mrs. Joe Zipper of Dallas, joined them on a trip to Jonesboro, Ark., to attend religious rites at Holy Angels Convent, The Zippers' daughter, Sister Zita, will make her perpetual vows. She is the former Margie Zipper.

Also making perpetual vows is Sister Georgia, the former LaRue Felderhoff. Among her relatives attending the ceremonies will be the Arthur Felderhoffs, Mr. and Mrs. Norbert Walterscheid and Mrs. Herman Felderhoff of New York. Mrs. John Walterscheid accompanied her son, Norbert and wife, for a visit with her daughter, Sister Thomasina.

Among Sisters observing silver jubilees on the 15th are Sister Celine Trubenbach and Sister Loretta Naus. The former's mother, Mrs. W. M. Turbenbach, and her sisters, Mrs. Frank Hacker and Miss Eleanor Trubenbach left Thursday to attend the day's program Friday.

Another local girl participating in the ceremonies will be Betty Jo Owen who will receive her white veil.
