Weekend Surprises Greet Joe Fettes

The weekend held two surprises for Mr. and Mrs. Joe Fette and made Friday and Saturday nights memorable occasions in which members of their family shared.

Daughter's Visit

Their daughter, Miss Florence Fette, contributed the first surprise by coming home for a weekend visit. It was her first time to leave the hospital since she contracted polio early in July. Her sister and brother-in-law, the Leonard Hartmans drove to Dallas for her and took her back to St. Paul's Hospital again Sunday evening.

25th Anniversary

The second surprise came Saturday night when family members and friends gathered at the Fette home for a celebration in observance of their 25th wedding anniversary.

The guests brought gifts for the couple and covered dishes for a sumptuous dinner which was served buffet style.

Present were Messrs. and Mmes. Joe Otto, Henry Fette, R. N. Fette, John Klement, John Steele, Joe Voth, Leonard Hartman, Miss Florence Fette, Johnny Rohmer, Harry Otto, John Albers, Misses Patsy and Della Fette, and the honorees.

Mr. and Mrs. Fette were married here 25 years ago and lived in Sidney, Neb., immediately after their marriage for about three years. Since then they have made their home in Muenster residing south of the city. They have four daughters, Mrs. Emily Hartman, and Florence, Patsy and Della.

Hornets Lose ---

kick again on the next series. Whitesboro then hit its stride. Winchester sparked the 80 yard drive that netted four first downs and a TD in 9 plays. A kick was good for the extra point.

The Hornets came back with a steady but less spectacular attack that advanced 30 yards before Hamric's heave to Noggler for 32 yards set up a first down on the 12. There the Bearcat defense braced and took the ball on downs on the 10.

Winchester sprinted back to the 30 and Richey intercepted on the next play and dashed back to the 20. A pass, Hamric to Aytes put the Hornets on the 2. Noggler went over but the play was called back and penalized 5 yards for offside. Richey gained 2 and Noggler scored the T. D. A pass Hamric to Noggler added the extra point less than a minute before the end of the period. The third period opened with a first down by the Bearcats and a quick kick after two smeared plays on the next series. The kick caught the Hornets unprepared and settled down on the 8.

On the following play Noggler gained 8 but sustained an injury that kept him on the sideline for the rest of the quarter. However two passes to Aytes along with short drives by Hamric and Richey advanced to the Whitesboro 35, where the attack bogged down.

Taking the ball on downs at that point the Bearcats uncorked the drive that continued for the rest of the game. They reached the Hornet 3 as the quarter ended and made the distance in three plays.

The next TD came in a hurry. Muenster kicked after failing to gain. Three plays later Sapp broke loose for a 48 yard gain to the Hornet 4. Three more plays and Crockett shook off five tacklers in his dash across the line.

The final score started with Dennis' 25 yard kick return to midfield after the Hornets failed to gain. Seven plays by the romping Bearcat backs completed the distance.

Recipes on Muskrat

The Saturday Evening Post has been running a series of brief articles, written by Sidney Shalett, showing how your tax money is wasted. A recent one dealt with "Uncle Sam's Book-of-the-Minute Club."

The government, it seems is in the book business on a colossal scale. Some 70,000 different books, pamphlets and periodicals are available from the Government Printing Office. Some are given away, and some are sold—usually at a below-cost figure.

One Senator has stated that Agriculture Department publications alone would make a stack 52 feet high. Among the all-important subjects covered in this mass of literature are "The Cuban Frog Leg Industry," "The Venezuelan Salt Fish Industry," and the book to end all books, "Recipes for Cooking Muskrat Meat."

This is an example of how the taxpayers' money is spent on projects which are of interest to an infinitesimal number of people. Government book-publishing, of course, is like everything else in government. Those involved want better jobs and more authority. They want to seem important and, if possible, irreplaceable. So they get out more and more books whether there is any demand or reason for them or not.

There isn't a department of government which isn't honey-combed with waste and duplication of effort. There isn't a department where money couldn't be saved without affecting any essential activity. And the total saving, according to Senator Byrd and other authorities, could be as much as \$10,000,000,000 a year. When will a start be made?

Airman First Class Teddy Gremminger spent the weekend here with members of his family. The American Way For a New Deal

By George Peck

Of all the inept slogans that have ever been foisted on the American people, the one "cooked up" by the Franklin D. Roosevelt administration "takes the cake."

"The New Deal"—the more you contemplate that slogan of three little words, the more you wonder why millions of intelligent Americans got excited about it—some excited for it, others excited against it. Personally, I don't think it was worth all the noise and furor it created.

Words synonymous with "new" are: fresh, modern, novel, recent, young, youthful.

To "deal" means to trade or make a transaction.

With this simple understanding of "New Deal" and limiting our thoughts to good, old and respectable, American politics, we find that beginning with the administration of George Washington through Herbert Hoover's, the American republic had thirty-one new deals. Of course, none of those previous thirty-one new deals was proclaimed from the housetops as was that of Franklin D. Roosevelt's.

As a matter of fact, none of these former new deals had the hordes of government workers to keep talking about the slogan and to keep the people conscious of the three little words so as to take their minds off the tremendous Federal debt that was being built up.

Then along came Mr. Truman

with a change of name. For the give-away plan of government which he has administered, he came up with another slogan of three words—"The Fair Deal."

Words synonymous with "fair" are: just, equitable, impartial, unbiased, dispassionate, uncolored, objective.

Without doubt, the Truman administration has been the most unjust, the most inequitable, the most partial, the most biased the most passionate, the most colored and the least objective of all of the thirty-three administrations to date.

And now for a \$64 question: "Am I for a New Deal or a Fair Deal?"

Emphatically, "yes!" Definitely I'm for a New and Fair Deal.

One that will give this nation a new and fair Federal administration beginning January 20, 1953.

The Roosevelt New Deal, the thirty-second administration in American history, or the Truman Fair Deal, the thirty-third, are both a bit shop-worn, moth-eaten and musty. There is certainly nothing "fresh, modern, novel, recent, young or youthful" about the New Deal, and there is nothing "fair" about the Fair Deal. It is time to "deal" both of them out for something fresher and better. It's time for a change.

The political fences built up by these Old Deals must be hurdled by the American people at the polls next November 4th. The Old Dealers have been building those fences for twenty years—they are mighty high and it's going to take a bit of doing to hurdle them. But it can be done by an aroused electorate.

America must have, deserves to have a genuine New Deal—a Practical Deal as opposed to the one that now enshrouds and stifles us, that is shot through with waste, inefficiency and corruption.

America must have, deserves to have an Unfettered Deal that will not owe its election to pseudo-Liberals, Left - Wingers, Socialists, Fellow-Travelers and big city gangster bosses.

America must have, deserves

Obvious Correction

to have a Genuine Fair Deal for all of the American people, irrespective of race, color, creed, party affiliation or station in life.

America must have, deserves to have a Genuine Square Deal that will not stir up the poor against the rich, employee against the employer, black against the white, Christian against Jew and the general populace against the business man.

That's the new kind of deal I

am for. I hope and pray that the majority of my fellow citizens feel the same way about it, that they are sick nigh unto death of what has transpired at Washington the past twenty years and that they will register their convictions at the polls next November 4th.

What's the good of seeing ourselves as others see us? — we wouldn't believe our eyes!—London Recorder.

Christ The Carpenter: Model Workman

by Most Reverend Richard J. Cushing, D. D. Archbishop of Boston

CAPITAL AND LABOR are now at war about their future relations. And a bewildered nation patiently waits and suffers.

They will never find the remedy until they put aside human pride and bend low enough to enter the workshop of the Carpenter of Nazareth.

Christ the Carpenter was neither an employer nor an employee, yet He was the Master and Model of both.

THE WORKING CLASSES may strive for their rights with all the strength that they command, but they must base their demands on the principles of justice.

A wage is just only when it supports the wage earner and his family in reasonable, human comfort. In our country the ability of most management to pay just wages cannot be questioned.

The right to a just wage does not come from the charity and generosity of the one who employs labor. It is a dictate of the natural law, clarified and confirmed by the Master of all employers, Christ the Carpenter.

THE LABORER also has a natural right to unite with his fellow employees so that they may bargain, not as in-

dividuals, but as a unit; and no man has any right to discourage, hinder, or prevent such collective bargaining.

The workman has not only a right, but a duty to demand that the conditions, hours, and other circumstances under which he is obliged to work be such that he can live on the job and at home, as a reasonable human being.

IT IS DIFFICULT for any man to save his soul on an empty stomach, or unless the conditions of his existence are such that he may live with adequate comfort and respectability.

But if the workman has his inalienable rights, he also has duties.

THE FIRST DUTY of the workman who is a follower and fellow worker of the Carpenter of Nazareth is to show to the world that he is sincere in his faith and a loyal follower of that Leader by an uncompromising and courageous life within the laws of God.

In the home, at the shop, in his recreation, he lets the world know that he is guided by the Ten Commandments.

IN A WORD, he looks upon Christ the Carpenter not merely as his Lord and his Leader, but also as his Model and Co-worker.

Humble Co. Resumes Football Broadcasts

Humble Oil & Refining Co. will inaugurate its 19th season of broadcasting Southwest Conference football games on September 20.

This fall, as in seasons past, Humble football crews will travel to every stadium in and out of the state where Conference games are played, to bring listeners complete broadcast coverage of about 45 games over statewide networks.

Three networks, comprising 72 stations, will be used to carry the games to practically every point in Texas within range of a radio station. And schedules are so arranged that listeners have a choice of afternoon and night games - as many as six on some week-ends.

Humble play-by-play announcers will include these well-known personalities, whose voices are familiar to every football-lover in the Southwest: Kern Tips, Ves Box, Charlie Jordan and John Ferguson. They

will be assisted by color announcers Alec Chesser, Dave Russell, Eddie Barker and Bob Walker.

To furnish the complete radio coverage typical of Humble broadcasts, these announcers will be kept moving on close-connection schedules for the next two and a half months, traveling as far as Los Angeles and Lansing, Michigan, on some week-ends.

While cattle prices were unsteady some of our customers tried their luck at other markets . . . and they're coming back.

They've learned from experience that they gain in two ways when they sell here. Our prices are better. Their commission and hauling expenses and shrinkage losses are lower.

Building And Improvement Notes

Work started this week on a new home for the Adolph Waltersheids on the former Cone farm west of their present home. It is a 2-bedroom house with garage attached, asbestos siding with Austin stone trim.

Remodeling now under way at the Benedictine Sisters' home consists of closing in a porch for an additional room.

Nick Miller is spending his spare time nowadays working on a patio and barbecue pit in his back yard. Says he expects to finish it by next summer . . . at the rate he's going.

saw virgin soil soak the water up like a sponge. When there was an excess of moisture they saw it easing slow and clear through grass and a mulch of dead grass and leaves. It reached the creek slowly and had plenty of time to flow away. In fact the flow of surplus water was scattered out over weeks. That's because the porous ground allowed the water to trickle down to sand strata and break out in springs. Just ask the old timers. They'll tell you streams were running almost all the time, not just for a few days after a rain. They'll also tell you streams were clear. Not loaded with mud as they are now.

That was flood control according to God's plan. It's a method that can be put to use again, and it's the only method that will work. We sincerely hope that Congress will see the light soon and decide to make its appropriations for the kind of flood control that actually controls.

Only after that has been accomplished will the big dam become practical. With flood water controlled at its source the reservoir can be used more safely for generating power. With erosion reduced or eliminated the reservoir will last much longer.

These things are clear as crystal to ordinary folks like you and me. Why can't the politicians see them?
