Memorial Message: Cherish the Ideals Soldiers Died For

If we can judge from the trend of certain events in our country's high diplomatic circles lately we're rapidly approaching the time when Americans should hang their heads in shame. Principle is giving way to expediency, and in the bargain communism is being conceded a clear cut triumph in another phase of its advance toward world domination.

In the words of Senator Knowland of California, it seems as though our country is steering toward a peace that is less than honorable.

The most recent of alarming developments was that session Tuesday in which congressional leaders agreed with President Eisenhower not to oppose financial support to the UN in the event that Red China is admitted to membership. In return the president agreed to lead the fight opposing Red China's admission. As if he has a chance to succeed in that fight when the UN is already loaded with red satellites and sympathizers... when even Britain and France, our so-called allies have recognized the Red Chinese government and are on record as favoring its admission into the UN. We can't even fall back on the veto as a last resort because of a provision that recognizing a new regime in an existing member nation is not subject to one member's veto as in admitting a new member nation. So it seems we're about to be gypped because of the far-sightedness of the Soviet mob and our own traitors who anticipated this situation when drawing up the UN charter. Isn't it maddening to recall how often Russia has exercised the veto to harm us and now we can't use it when we need it?

Nothing is more obvious than the fact that the whole deck of UN cards is stacked against the United States. We contribute the big end of the organization's financial support. We furnish practically all equipment and most of the non-Korean men to fight the Korean war but operate under UN imposed handicaps which prevent us from winning the war. At the same time we are double crossed by those so-called allies who, for the sake of a little profit, or to appease the reds, help them with unrestricted shipping.

And, if late reports are reliable, they've added insult to injury by drawing up, for us, a peace plan which makes a mockery of every drop of American blood shed in the war. They have conceded, for us, to the communist demand that all prisoners be returned. They tell us to repudiate our sacred promise guaranteeing the liberty of every captive who does not wish to return and submit them to certain death or slavery.

The peace terms are not agreed upon yet, so we still have hopes that justice and honor will assert itself and America will show its old time integrity. But signs are bad now and there is plenty of reason to be alarmed. And one thing is sure. If our country agrees to this outrage it will be the darkest day in our history.

We can be excused for sending Russians back to their country at the end of World War II. It was customary procedure up to that time, the Russians were our allies and we knew less of their methods, and we had no idea what we were doing to the poor fellows. But things are different now. We know the fate of men who will be sent back against their will. Their blood will be on our hands... a crime that is all the worse because of our broken promise to them. And let's bear in mind that this follows very recent stories of wholesale murder and atrocity inflicted on American prisoners of war. What did they suffer and die for? To have the memory of their sacrifice defiled by such mockery?

Before this shame is brought down on our nation let's hope our leaders will experience a spark of the old American spirit and stand up for principle. It's time they told the entire UN, and especially our appeasing so-called allies, that come hell or atomic war, we're going to do all in our power to make right prevail. We will not accept peace at any price.

Father Louis Deuster in his memorial service address last Sunday quoted the plea of Abraham Lincoln "that these honored dead shall not have died in vain and that government of the people, by the people, for the people shall not perish from the earth."

He asked the group of about 300 persons to cherish the ideals which the deceased service men had given their lives to defend. Pointing out that freedom and lasting peace depends on justice he called on the group to follow God's commandments as their tribute to the memory of the war dead. He also said that the mission for which they died remains unfinished. World conditions have grown worse instead of better since the end of World War II, and many more may be called to continue the fight for their cause.

The service was held following rosary and benediction at 3 o'clock Sunday. After service in church the crowd marched to the cemetery pausing first at the crucifixion group to pray for all deceased members of the parish then went to the service men's area for the special memorial service. Before the address and prayers by Father Louis school children placed wreaths on the graves. Afterward the VFW conducted a military ceremony consisting of a 3 volley rifle salute and taps. Gold star mothers wore corsages presented by the VFW Auxiliary.

Council Considers Water Fluorination

Fluorination of Muenster city water as a means of reducing dental decay was considered by the city council at its meeting Monday night. Following the discussion Water Superintendent Steve Mosler was instructed to secure cost figures on installation of a fluorination unit and the average monthly cost of adding fluorine to the unit.

City Health Officer Dr. T. S. Myrick urged the use of the element and also cited statistics from a survey conducted by the state health department showing that over a 5 year period tooth decay in 5 year olds had been reduced 57 per cent. A smaller improvement was noted in the older age groups.

Fluorine imparts its benefit while teeth are growing, he said, so the persons helped most are children growing their baby teeth and also their permanent teeth. To start fluorinating the city water is to start a new generation of children with better teeth. Besides better health that will mean a saving of thousands of dollars a year in dental bills, many times more than the cost of fluorinating.

According to his information, Myrick said, equipment ranges from \$400 for small simple units to \$4,000 for large elaborate units and the daily cost of material for the city's need, at the rate of 2 parts per million parts of water, would amount to considerably less than a dollar per person per year.

FFA Boys Compete In State Contest for New Ford Tractor

With a new Golden Jubilee Ford tractor as a grand prize, FFA boys of Cooke and Montague counties will compete here Friday in the second step of a statewide contest to determine the state FFA champion tractor operator.

The contest will be held Friday, June 5, at the Muenster Public School, beginning at 10:30 a.m. Entries are one Future Farmer from each Vocational agriculture class in the area. Ford tractor dealers all over the state are sponsoring the contests in their respective areas.

The contestant for each FFA chapter has already been determined by a written examination on tractor operation and maintenance. Friday's contest here will determine a winner from each Cooke and Montague counties. They will compete later in one of ten districts and the ten district winners will compete for the state champ title at a contest on the Rocking Horse Ranch near Dallas, an educational farm maintained by the Stewart Company, state distributor of Ford tractors and Dearborn equipment. That contest is scheduled for July 21, the day before the FFA state convention at Fort Worth, and the winning boy will receive the tractor at the convention.

Walter Rawley, Ford tractor dealer, and Ralph Maglaughlin, Muenster Vo-Ag teacher, invite the public to attend the contest.

Grain Crop Fine; First Wheat Sold By Al Trubenbach

Al Trubenbach Wednesday morning brought in the first load of what appears to be a bumper wheat crop in this community. The grain tested 63 and Al, just starting on the field, estimates it will yield over 20 bushels per acre.

Arthur Felderhoff bought the load and also bought the first load of oats, which was brought in last Friday by Dick Harris of Bulcher. Harris said he was expecting his oats to make over 60 bushels per acre.

To date this is one of the best harvests ever in the history of the community. Grain is abundant and dry warm weather, though rough on pastures and growing crops, is ideal for harvesting. Up to Wednesday most oats of the area has been wind-rowed and much of it has been combined.

Only a few early fields of wheat are matured but most are changing color now and, if present weather continues, will be ready for cutting next week.

One thing about the present harvest apparent especially to old timers is the change in methods. Nowadays most crops are wind-rowed first and picked up with a combine a few days later. Two factors are responsible. One is the insistence of grain storage people for dryer grain. The other is increased use of legumes which are green when cut and have to dry before combining to avoid excess moisture in the grain. Where there is little or no green vegetation, however, cutting and combining are done in one operation. There is also an increasing number of people baling oats. When harvested in that way the crop is cut early while the straw still has more value as feed.

Along with these methods there's still the old time method of cutting with a binder and shocking for later threshing. Quite a number of local fields are being harvested in that manner this year.

Though things are going fine most farmers agree that they would welcome a few days interruption by a good rain. Grain can stand a short delay whereas other crops and pastures are beginning to suffer.

The American Way

BRAIN WASHING
By Allegra Taylor

Americans who have resisted the "brain wash" watch with indignation the new low to which our nation's prestige has sunk before the eyes of the world in the percentage exchange of Prisoners-of-War. It is unbelievable that the Communists have had six thousand prisoners returned to them and the Americans only 149, while thousands of other American boys remain unheard of since having been taken prisoner. Adding to the shame of the picture was the charge that some of the Americans had "red tinges" due to Communist brain washing.

Pfc. Tully Cox, 20 years old, minus two feet, and with a lot of bitter memories stored up as a prisoner of the Communists, gives the lie to the brain-washing charge. "Sure they made us go to classes, but they're stupid and it didn't do them any good," was the way he dismissed it. Not so easily does he dismiss the memory of what he experienced and saw during his two years as a war prisoner. Tully Cox and thousands of other young men, many of them now being tortured behind the Iron Curtain, were

given the brain wash treatment, all right. But the stuff they were fed was from a bottle clearly marked "Poison." It's hardly likely they would swallow the stuff.

Can as much be said for our apologists at home who explain the discrepancies in the PW exchange with "Yes, but it's on a percentage basis, you see!" Since when has an American life been placed on a percentage basis? Since the people at home began swallowing the propaganda without seeing the label marked "Poison" and have themselves become victims of the brain wash. That's since when. The poison has been dissolved in simple syrup and like simpletons too many of us have accepted the very stuff that our men in prisoner-of-war camps rejected! It's going to be a bitter disappointment to these boys when they find us out.

Can it be anything but Communist brain washing that has kept us from demanding an investigation into the treatment of American prisoners-of-war? Just how encouraging is it for the men leaving for Korea to know that they are going to be forgotten by the "brain-washed" folks at home?

Happily, we can tell the fighting men that there are some of the folks at home who saw the label and rejected the propaganda. We have proof of this at our Liberty Belles national headquarters . . . proof in files of indignant letters joining us in demanding to know (as we did in our March Bulletin) why the fate of our GI prisoners-of-war was not being investigated. We pointed out that in October of 1951 Col. James Hanley charged that 5500 prisoners of war had been murdered by the enemy in Korea. We called attention to the fact that last December A.F. of L.'s ITU committee disclosed that 524 Americans in North Korea and China had been beheaded, shot, hanged, or buried alive on trumped-up charges. Reports of the returned Prisoners-of-War have borne out the charges. Yet we are content to get back only a few boys while we return thousands of Communists.

But what about the rest of the American boys who have disappeared behind the Iron Curtain? What has happened to them? Where are they? And above all WHY ARE WE MORE CONCERNED ABOUT RETURNING CHINESE PRISONERS WHO DON'T WANT TO BE RETURNED THAN WE ARE ABOUT OUR AMERICAN BOYS WHO DO WANT TO RETURN? What is this war being fought for? Why are we sacrificing more American lives every day? Is it to protect some Chinese whom we have taken prisoner?

Let us consider the record honestly and then decide just who has been victimized by Communist brain-washing. We're working on this at Liberty Belle headquarters and any who wish it may have a copy of our leaflet on "how to detect the brain-wash tactics." It's free. Just drop a postcard to 131 East 64th Street, New York.

Christianity--Triumphant In Defeat

THE CHURCH is entering a new Golden Age. This may seem a strange statement to make in the midst of the most wide-spread persecution in history. But it will seem strange only to those who have not perceived the paradoxical truth that Christianity's greatest victories have their roots in apparent defeat.

The total self-denial of Our Lord began in the Crib at Bethlehem. It ended on the Cross at Calvary. There, Christ was not only dead, Christ's reputation and influence appeared to have been destroyed. The apostles and disciples were in hiding. It was all up, apparently, with Christianity.

It was exactly then that the Church was being prepared by God to emerge into the world apparently weak and pitiful, but actually irresistible. The infant institution which would outlast the Roman Empire and all other works of man was about to be born.

IN THE CHURCH, which is Christ's mystical body, the life of Christ is lived over and over. The Church is Christ still on earth, operating in the world through human agencies, as He operated through the agency of His human nature.

Therefore it is exactly at those times when the Church seems to be crushed that her greatest triumphs are being

prepared. This is one of those times. In an area of half the globe, the Church has been crucified. In other areas, she is often ignored. The atheists and the secularists are doing their best to seal the tomb. But Christ in His Church will not stay dead and buried.

THE CHURCH, like Christ, rises again. There are always angels to push back the stone.

The era of ignoring God is about at its end. It is not

Christianity that is done for. It is secularism and atheism.

The Christ martyred by these "isms" will not be held by iron curtains or bamboo curtains any more than He was held by the great stone sealed across the entrance to His tomb. He will not be held at all, not by anybody nor by anything.

WHEREVER the Church is crucified, the day of resurrection is at hand.—(by Joseph A. Breig.)

She was sick in bed, and her husband, who was fixing her a cup of tea, called out that he couldn't find the tea. "I don't know what could be easier to find," she answered. "It's right in front on the pantry shelf in a cocoa tin marked matches."

From where I sit ... by Joe Marsh

A Little Headwork Saves a Lot of Footwork

"I don't ever aim to give up fishing," Pappy Hayes said one day—"but the older I get the less I like hiking over to Pike's Creek. Guess I'll have to bring the fish nearer to me."

So Pappy got his nephew to bulldoze down about three acres of bottom land. Then he dammed up the little stream there.

He wrote the U. S. Fish and Wildlife Service, in Washington, and got some "blue gills" and bass to stock it—free. Pappy's idea wound up giving him (and us) just about the best fishing

pond in the county . . . right in his own back yard.

From where I sit, Pappy may be older than some of us but his mind is active—and open. He's ready to listen to anybody with an idea. That's why he and I can talk on any subject—sometimes about his preference for buttermilk and mine for beer. And though we disagree, we respect each other's opinion. That's neighborliness without a "catch" to it.

State Fair Exhibit Will Feature Water

"Water For Texas" will be the timely theme of the Agriculture Show at the 1953 State Fair of Texas, Oct. 10 thru 25, E. C. English, the fair's agriculture chairman, has announced. The show will take the form of a gigantic, three-dimensional "Agriculturama" that will show how Texas farmers are meeting their important water resources problems, he revealed. A huge central exhibit will feature old Mother Nature herself, turning the crank on a "weather machine" that will cause simulated rain, thunder and lightning at intervals. The hydrological cycles—what happens to water after it falls as rain and how it is returned to the air again—will be portrayed. The rainfall belt in Texas will be illustrated to show the relation of water to farming and ranching on a statewide basis.

RECORD-BREAKING GAS MILEAGE

for the driving **YOU** do!

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide* models—and the advanced 108-h.p. "Thrifty-King" engine in gearshift models—deliver more power on less gasoline. Acceleration and hill-climbing ability are greater, fuel consumption is lower!

This is the kind of economy that counts the most—important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and see for yourself!

*Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic transmission available on "Two-Ten" and Bel Air models only.

VFW Auxiliary Plans Two Benefit Socials

Members of the VFW Auxiliary, at their regular meeting Monday night, initiated plans for two benefit social affairs this month. The first is an ice cream supper with the date set for June 17. Mrs. Ray Swirczynski is chairman. The other is to be a harvest dance with Mrs. Lawrence Roberg as chairman.

Plans for both events are being worked out by the committees in charge and further information will be released when arrangements are complete.

Mrs. F. A. Kathman Jr., president, conducted the business session and Mrs. Maurice Pagel gave a report on the district meeting at Greenville.

Members discussed doing something to cheer veterans in the V.A. Hospital in Bonham and hope to have a program for this project in the near future.

Mrs. Lawrence Roberg received an official Auxiliary cap for securing four new members. Others previously receiving caps are Mmes. Carl Schilling, Arthur Felderhoff, Ray Swirczynski and Maurice Pagel.

Mrs. Francis Wiese, Americanism chairman, and Mrs. Walter Rawley, rehabilitation chairman, gave short talks on articles taken from the Bulletin, national Auxiliary magazine.

During the social hour Mmes. Gene Hoedebeck and A. T. Dickerson served refreshments of sandwiches and cold drinks, and Mrs. Francis Wiese won the attendance prize.

GIFT PARTY COMPLIMENTS MRS. LEONARD HARTMAN

A gift party complimented Mrs. Leonard Hartman Tuesday night at the home of Mrs. Johnny Rohmer with Mrs. Herman Hartman and Mrs. Arthur Endres sharing hostess duties.

The honoree received a corsage of white glads tied with pink and white ribbon from Mrs. Nick Miller and a shower of pastel gifts from the 20 guests.

After a series of table games the hostesses served refreshments of ice cream, cake and coffee. Mrs. Dolores Swirczynski won the door prize which she presented to the honor guest.

The party rooms were adorned with pink and white glads and snapdragons.

The J. W. Fletchers had as guests Tuesday his three sisters, Mrs. Sue Lynch of San Antonio, Mrs. Joe Cochran and Mrs. C. B. Davidson and her husband of Fort Worth.

While Bernard Schmitz was home from Denver City, Texas, this week he bought a new 1953 cream and green Chevrolet Bel Air.

Mrs. E. Newby has been dismissed from the Nocona hospital after a week of medical treatment. Visiting her Sunday were her son, J. W. Newby and family of Henrietta, and her daughter Mrs. Carl Rowe and family of Denton.

Confetti---

We will not be parties to a modern Munich, and if other countries don't have the guts to stand up for what's right we're ready to take Senator Taft's advice and go it alone.

As a matter of fact this seems to be the only means by which we can avoid going it alone. Tell the free nations to stand up and be counted now or concede a victory which will practically concede world domination to the Soviet mob. They'll fall in line because every one of them knows that its only hope of survival as a free and independent nation is to be on America's side.

Would such a decision touch off the dreaded World War III? Perhaps... if Russia is confident of victory. But it's just as likely that our show of strength, and principle, would prevent the war. The Kremlin gangsters might show more respect if they were finally told that the pussy footing is over.

On the other hand, appeasement now will surely bring on the war. Communism will continue expanding until the final show-down is inevitable and our chances of victory are a lot slimmer than now.

Miss Mary Weinzapfel is in Houston since Sunday to help care for her mother, Mrs. J. M. Weinzapfel, who has been dismissed from the hospital and is staying with her sister-in-law, Mrs. Margaret Rasch, until her broken hip permits her to be moved to her home here.

Mr. and Mrs. Don C. Cooke were in Fort Worth Sunday to attend graduation exercises for TCU seniors in Amon Carter Stadium. Their son, Harold Cooke, was one of the 304 students receiving degrees. He was awarded his B.A. degree in Geology.
