

# MUENSTER ENTERPRISE

VOLUME XVII

MUENSTER, COOKE COUNTY, TEXAS,

FEBRUARY 6, 1953

NO. 11

## Muenster Baptists To Dedicate Church Sunday Afternoon

Formal dedication services for Muenster's First Baptist Church will be held next Sunday afternoon at 3 o'clock with the pastor, Rev. Andy Stowe, officiating. Rev. R. C. Campbell Jr. of the First Baptist Church, Gainesville, will deliver the dedicatory address.

The afternoon's services will also include musical numbers, the singing of hymns, a reading from Scripture, a history of the Muenster church, and benediction.

The morning service at 11 o'clock will have Rev. J. D. Brannon of Fort Worth, district missionary, as guest preacher.

Construction on the new church, now debt free, began in June 1951. By September of the same year it was well enough along for the congregation to hold services in the building. Work and prayer continued until the church was completed. The final finishing touches were added during the past fall when the baptistry was hand painted in oils by Mrs. Annie Needham of Waco.

The church was organized in August 1941 with seven members. Since that time the congregation has grown to 80 members. Originally organized as the Bible Baptist Church, it became affiliated with the Southern Baptist Convention on July 29, 1948, and became the First Baptist Church.

First services, back in 1941, were held in the homes of Bill Bratcher and Jim Cook, later services were held in the public school. Rev. J. C. Neaves was the first pastor. In November 1942 the congregation began planning for a building of its own. The first move in that direction was the purchase of land in the south-

(Continued on Page 8)

## Variety Show Will Boost Polio Fund

Muenster's March of Dimes fund has reached \$199 but there's more to add to that figure. The small containers in local business houses have not yet been picked up and the VFW Auxiliary will sponsor a program next Tuesday night to help swell the local purse.

Red Gordon's Variety Show will be presented at 8 p.m. in the school auditorium. There will be no admission charge but the sponsor group will accept voluntary contributions.

Last year's March of Dimes campaign here resulted in a total of more than \$400.

## News of Sick And Injured

Amber Estes is a patient at veterans hospital in McKinney for observation and treatment. He is still suffering from injuries received in an oil field accident last June. His wife is staying in McKinney to be near the hospital.

Dale Wilde, accompanied by his mother, Mrs. Richard Wilde and his grandmother, Mrs. Joe Lutkenhaus, was in Dallas Friday for a regular check up. He continues improving steadily from polio but must still rest 22 hours out of 24.

Mrs. Walter Haverkamp of Gainesville had her tonsils removed last Thursday at Gainesville Sanitarium and spent the remainder of the week at the home of her parents, Mr. and Mrs. R. D. Morris north of town.

Theresa Becker, seven-month-old daughter of the Werner Beckers received medical care at Gainesville Sanitarium during the week.

Mrs. H. L. Herron returned from Gainesville Sanitarium Saturday after receiving medical care for three days.

Mrs. Joe Tempel received word Wednesday that her father, John Tucker, who was seriously hurt in an accident the middle of January and has been in a Houston hospital since that time was permitted to return to his home. He sustained one broken leg and one badly bruised leg in the accident.

Albert Andress of Myra entered Gainesville Sanitarium Friday for medical treatment.

## Nylon Dress Ignited By Truck Backfire

A spray of burning gasoline from a truck backfire caused a nylon dress to flash into flame and send Mrs. Bernard Wolf to the local clinic with extensive burns on her face, body and arms.

The accident happened at the Wolf home Wednesday afternoon. She was priming the carburetor with gasoline as Mr. Wolf was trying to start a balky truck and the motor backfired spewing burning gas on her dress.

Mrs. Wolf is a patient at the clinic receiving treatment for burns described as covering a considerable portion of her body but not deep. Her condition is not regarded as serious.

## MHS Cagers Slip In Loop Standing

Both of the Muenster High basketball teams lost their chances at top honors in the district race in games during the past week.

Girls are still in the running for second place honors, or possibly a tie for second place, after topping the Saint Jo sextet on the local court Tuesday night. Their record now stands at 2 losses to Prairie Valley and 1 to Forestburg out of the 7 games played. The odds are in their favor at Callisburg Friday night.

The boys appear destined to wind up with an even .500 average, provided they come through with the expected victory over Callisburg. So far they have lost two each to the Saint Jo Panthers and Prairie Valley.

Leadership in the double round robin gives a team a 50-50 chance at the district title. The district tourney to be held here Thursday and Friday of next week also counts toward the title. If the season leader takes the tournament it is the champ, otherwise it plays the tournament winner for the title.

Playing Prairie Valley here last Friday night the local girls went to pieces in the last quarter to lose by a score of 28-18, after gaining on their visitors during the third period. By half time Prairie Valley was ahead 16-9. By the third quarter the lead had

(Continued on Page 7)

## Muenster Firemen Nip Fire on Bridge

The Muenster Volunteer Firemen, with a fine record of saving buildings in and near the city, have another achievement to their credit. They have saved a bridge about 3 miles east of Marysville on the Gainesville road.

Marty Klement and Pat Hennigan, driving the city's tank truck arrived seconds before a burning tree fell on the bridge and just missed getting caught under the tree as it crashed down. As they started to cross the bridge to get nearer the tree a lone bystander warned them not to risk it. They heeded his warning and before they were out of the truck the tree came down.

Situated near the side of the road at the end of the bridge, the tree came down with most of its impact on the floor. The steel railing of the bridge, hit only by branches was not damaged. The only damage was burned spots on the wood floor which caught fire before the men could finish their job.

News of the fire reached Commissioner J. B. Klement about 3 Sunday afternoon. A resident of the area phoned him warning that the tree was likely to fall on the bridge when it burned enough. Mr. Klement phoned Marty asking him to take the truck out to the fire.

The cause of the fire is not known, but it is suspected that some careless hunter started it smoking a squirrel out of the hollow trunk.

## Prize Cow Killed By Careless Hunter

Tony Nehib, southwest of Gainesville, lost an expensive holstein dairy cow last Thursday through the negligence of a hunter.

Nehib found the animal bleeding profusely from a bullet wound. An artery had been severed. All attempts to save the valuable cow were to no avail.

Nehib said the cow was one of the finest in his herd and produced as much as eight gallons of milk a day.

## City Council Acts To Stop Vandalism

In an effort to stop vandalism in town, members of the city council at their regular session Monday, offered a standing reward of \$10 for the arrest and conviction of anyone breaking windows or lights within the city. The decision follows a number of complaints as well as the city's own sad experience with street lights and windows.

Council men stated that whether the breakage is accidental or malicious they want no more of it and they intend to deal sternly with an offender.

The culprits, they believe, are rock throwing and BB shooting youngsters.

## Nick Miller Builds New Funeral Home

Work started this week on another new business building for Muenster, a 50 x 60 structure housing Nick Miller's funeral home along with his cleaning and shoe repair business. It will be located west of the Miller home, across the block facing the ball park.

Slightly more than half the building will be occupied by the funeral home, the rest by the cleaning and pressing and shoe repair business. It will have two front entrances and the only connection between the two sides is a small private door for the Millers' use.

Principal construction features are a flat roof and walls of buff brick to window level and buff asbestos siding the rest of the way up.

## County Issues 3873 Poll Tax Receipts

Cooke County has a sorry poll tax record this year. Totals revealed by the county tax office Monday show only 3873 poll tax receipts and 1210 exemption certificates.

Last year, the general election year, had 6418 poll taxes and 1657 exemptions. The year before had 3936 poll taxes and 1243 exemptions. Since exemptions can be issued for the rest of the year, as people reach the age of 21, that figure may possibly be topped by this year's exemptions.

Totals for the two Muenster voting precincts are not available at this time.

## WITH THE MEN IN SERVICE

### Receives Army Discharge

Sgt. Sheldon Doughty, a veteran of the Korean conflict, has received his discharge from the army. Since returning to the states he was on duty at Fort Sill, Okla. His wife and two-week old daughter have been staying in Valley View with her parents. His Parents, the Joe Doughtys, live north of Muenster. Sheldon's twin brother, Weldon, is still in the army, stationed at Camp Carson, Colo., and is due a discharge soon. He is also a Korean veteran.

### Has First Leave

Pvt. Tommy Knabe arrived in Muenster Monday on his first leave since entering the army. He has completed six weeks of basic training at Camp Roberts, Calif., and will go back for additional training. While here he is visiting his parents, the John Knabes and family.

### Gets Assignment In Korea

Major and Mrs. Charles Taylor and children are in Muenster for a visit with her family members, the Fishers, while Major Taylor is on a 30-day overseas leave. He has received an assignment in Korea. Mrs. Taylor and the children will make their home here while he is away. They are trying to secure living quarters and hope to move their household furnishings here from Midwest City, Okla., at an early date. Taylor had been on duty at Tinker AFB in Oklahoma.

Mrs. Lena Wiesman of Wichita Falls spent the weekend visiting her sister, Mrs. John Knabe, and her brothers, Ted and Tony Gremminger.

## Condensed Milk to Be Next Product at FMA Cheese Plant

Prospects for the FMA plant, and for Grade B milk producers of this area, took a sudden turn for the better Tuesday night when directors of the association decided to expand their milk processing facilities for producing condensed milk as well as cheese.

Plant Manager Rudy Hellman said Wednesday that additional equipment will be installed as quickly as possible and after that the plant will be able to process all the milk it can get, up to its capacity of 120,000 pounds daily.

Principally the additional equipment consists of stainless steel vats and refrigerating equipment capable of turning out 30 tons of ice a day. The huge cooling capacity is needed to cool the product down from evaporation temperature to storage temperature. Estimated cost of the expansion is \$20,000.

The principal condensing unit is on hand and will be ready to go after a few changes in the pipe arrangement leading to and from. It is the large stainless steel unit now used as a whey condenser.

Cheese making capacity at the plant will not be affected by the expansion plan. As before, it can still process 120,000 pounds of milk into cheese in one day. However, on the next day it can process the same volume into condensed milk.

Chances are that cheese making will hit an all time low at the plant, at least for a while, after the expansion. Hellman reports that Kraft processing factory at Garland is ready to accept all the condensed milk the FMA can produce. The same does not apply to cheese. Because of existing surpluses Kraft notified FMA some months ago that it will accept cheese only from local milk production. The plant had to quit buying surplus grade A milk, which accounted for about 30 per cent of its volume.

Now the situation is changed. FMA can again process and sell

## Boys, Parents Will Observe Scout Week

In observance of Boy Scout Week, Feb. 7 to 13, marking the 43rd birthday of the Boy Scouts of America, the Muenster troop will have a religious and a social program next Sunday. Parents of the boys will participate in the observance.

The program will begin with attendance at the 8 o'clock high mass in Sacred Heart church and corporate Communion.

Breakfast will follow in the lunch room. Plans have been made to include out of town speakers at the breakfast.

## 1953 Auto License Tags are Available

Motor vehicle license plates for 1953 are available now at the county court house and can be put on cars at any time during this month and the next month. State law requires that they be in use on April 1.

Plates have the same color combination as that used last year but the arrangement is reversed. This year's are black letters on an orange background. Truck and Farm licenses, with the same colors, are distinguished from passenger car plates by the words "Truck" and "Farm".

Passenger car number assigned to the county are DL 5100 to 9999 and DM, 10 to 3449.

## SCHEDULE OF COMING EVENTS

FRIDAY, Feb. 6, MHS vs Callisburg, there.

SUNDAY, Feb. 8, Boy Scouts and parents attend 8 a.m. Mass, followed by Communion breakfast in lunch room.

SUNDAY, Feb. 8, Covered dish supper for members of St. Ann's and St. Joseph's Societies, the lunch room, 8 p.m.

MONDAY, Feb. 9, Civic League and Garden Club meeting, home of Miss Olivia Stock, 8 p.m.

TUESDAY, Feb. 10, Red Gordon's Variety Show, polio fund benefit, no admission, the school auditorium, 8 p.m.

## Boy Scouts Celebrate 43rd Birthday

Boy Scout Week, Feb. 7 to 13, marking the 43rd anniversary of the Boy Scouts of America, will be observed throughout the nation by more than 3,250,000 boys and adult leaders. Since 1910, more than 20,200,000 boys and men have been members. "Forward on Liberty's Team" is the birthday theme and the emphasis is on "The Scout Family" of programs meeting the interests of boys in three age groups: Cub Scouting for boys 8, 9 and 10; Boy Scouting for those 11, 12 and 13 and Exploring for boys 14 and up. The high point of Scouting in 1953 will be the third National Jamboree. More than 50,000 Boy Scouts will camp at a 3,000-acre tent city on the Irvine Ranch in the Newport Harbor area of southern California next July 17 to 23.

Reports on congressional committee appointments in Washington indicate that Representative Frank Icard of this district will have the opportunity to contribute substantially to anticipated slashes in government spending during the next few years. He's on the Military Operations Subcommittee, which has the job of making our military, other than combat, more economical and more efficient.

There isn't another committee in congress with greater possibilities to do things for the taxpayer. Considering both the service personnel and civilian employees the military accounts for the majority of people on the public payroll and the greater part of the annual budget. Just a moderate improvement in percentage can amount to a tremendous saving in money. Furthermore, it is easily possible in ever so many ways to make reductions that are considerably more than moderate.

As a starter the committee can get rid of some complicated and antiquated methods of keeping records and do away with several hundred thousand paper fumbling jobs. It could eliminate some absurd purchasing habits which have resulted in millions of dollars worth of surplus supplies.

It could eliminate some of the country club atmosphere in camps as well as many enormous expenditures which presumably are intended to brace morale but actually seem more like pampering. Barracks and service facilities might be made adequate instead of swanky for savings of millions. More millions could be saved by leaving dependents, cars and furniture at home when men serve overseas.

As a nation we have grown oversentimental about our service men, apparently losing sight of the fact that it is each man's sacred duty to put in his time when called. While there he has a right to good food, housing, clothing and medical care. There is a difference, however, between providing necessities and lavishing luxuries. After all, why should men have special compensation for doing their duty? And why should men who have served their time, under much rougher conditions, pay extra taxes to support today's elite standards? Or consider the service men themselves. They will help to pay the bill when they get back to civilian life. In the long run the extravagance isn't a favor even to them.

Another thing that could stand revising, in the service and all other government jobs, is the unreasonable length of leave time. Why should people on government payroll get twice as much vacation as other folks? In case you haven't thought of it, this change would enable the government to do the same job with about 4 per cent fewer persons on the payroll. Think of that in terms of equipment and facilities as well as pay checks and you see possibilities of many more millions of savings.

Along with all that there's an urgent need for a more economical attitude throughout the services, from top brass down to the rookie. Instead of allowing the big shots to spend for the sake of getting rid of money, so they can demand larger appropriations next year, somebody ought to start grading them on their achievements in saving money. When economy becomes one of the measures of merit things will improve all the way down.

Just what will be done remains to be seen, but it's a safe bet that we will see the beginning of worth while cost cutting before long. When the administration demands economy and possibilities for improvement are so enormous we can't miss.

Along that line the first good news is the executive directive Tuesday that no new personnel are to be added and no relieved personnel replaced in federal agencies. At the same time OPS employees were notified that their jobs will end on March 1. And federal building projects are held up awaiting closer inspection, some to be cut out, some cut down. Seems very much like the long awaited arrival of more economical government.

For that matter there are more signs that Ike and company are

(Continued on Page 8)

Miss Clara Richter of Dallas was here for a weekend visit with her father, W. T. Richter and other relatives.

Mr. and Mrs. Paul Luke moved Saturday from the Rohmer cottage to occupy the former Herman Stoffels home. The house was moved from its former location to the east of the lot and underwent a complete remodeling program since it was vacated by the Stoffels family.

The Carl Herts of Pilot Point visited his mother, Mrs. Fred Herr Sr., and other relatives here Sunday.

Mrs. Eleanora Fuhrmann of Dallas spent the weekend visiting her parents, the Joe Hoenigs, here and also visited the Mike Fuhrmanns at Lindsay.

—Boyd and Breeding Photo  
MRS. JOHNNY ROHMER

Mr. and Mrs. Johnny Rohmer who were married on Jan. 27, returned Wednesday afternoon from their wedding trip. They visited his sister, Mrs. Joe Spaeth and family at Greggton, stopped to see friends and went sight-seeing in New Orleans, toured Mississippi and Tennessee and visited relatives and friends in Arkansas. In Little Rock they saw his sisters, Sisters Fidelis and Romana. Mrs. Rohmer is the former Miss Florence Fette, daughter of the Joe Fettes. Mr. Rohmer's parents are Mr. and Mrs. John Rohmer.

Mr. and Mrs. Ed McKinney and sons, Ed and Don, visited friends here briefly Sunday afternoon. They were enroute to their home in Augusta, Kansas, after attending the Fat Stock Show in Fort Worth. McKinney is a former manager of the REA Co-op. The family left Muenster in the summer of 1950.

Mrs. Henry Schneiderjan and children, Johnny and Donna Kay, of Dallas are spending this week with her mother, Mrs. Carra Pagel. Mr. Schneiderjan will be here Sunday to spend the day and take his family back home.

Mr. and Mrs. Tip Self of Dallas spent Sunday here with relatives and were dinner guests of her sister, Mrs. Joe Hoenig and family.

The J. W. Fletchers spent the weekend in Mineral Wells with their son, Jack and family. Mrs. Fletcher's mother, Mrs. F. M. Shiflet, joined them as far as St. Jo where she remained for a visit with her granddaughters, Mmes. Louis Reeves, Aubrey Brown and Grady Graham and their families.

**Blessed Events**

Mr. and Mrs. Werner Cler announce the arrival of a son, Charles Louis, at 9:40 a.m. Sunday at the Muenster Clinic. He weighed eight pounds, two ounces. The Cler's have four other children, two boys and two girls. The grandparents are Messrs. and Mmes. Nick Yosten and Charles Cler. Baptism services for the new boy were held Sunday afternoon with Father Cletus officiating. The Werner Yostens were sponsors for their nephew.

Tommy Ray and Darlene's baby brother, eight pounds, five ounces, arrived at M&S Hospital Wednesday, Jan. 28. The parents are Mr. and Mrs. Ray Hess. The new baby's name is Ronald John. His christening service took place Friday afternoon in Sacred Heart church. Father Louis officiated and Mr. and Mrs. John Hess were sponsors. Mr. and Mrs. H. S. Fuhrmann of Lindsay are the maternal grandparents.

Mr. and Mrs. J. D. Caplinger of Sherman are the parents of their third son, Jerome Anthony, born

**Charming Child of the Week**

**Condensing Milk - - -**

all the milk it can handle. When the flush season arrives, about two months from now, it should be running at full capacity.

The expansion makes welcome news to small milk producers of the area as well as FMA members. It assures a continuation of the grade B market which appeared to be slipping. As explained by Hellman, small producers were caught in a squeeze. They could not afford the improvements for grade A production. At the same time they were in danger of losing their grade B market if the FMA situation continued to get worse.

All of the condensed milk produced here will be used in making Kraft caramels. Last year the Garland plant used 18 million pounds of condensed milk from northern sources. Hereafter it will use the FMA product, as far as it goes, and get the rest of its requirement from previous sources.

The new undertaking also puts the FMA plant in the cream business in a big way. Whole milk is first separated and only the skim milk is condensed. The cream will be shipped to the West Coast. And that calls for another expansion in the plant. The cream separating capacity will have to be doubled.

Henpeck, in a sorely battered state, was being cross-examined by a bullying counsel.

"Do you mean to tell me you have always treated your wife with respect?" asked the counsel.

"Always," replied Hepeck firmly.

"And you've never once spoken a hasty word to her?"

Henpeck hesitated for a moment and the lawyer was quick to seize the opportunity. He roared, "I want the truth!"

"Well," faltered Henpeck at last, "I remember I did say to her once, 'Put down that poker!'"

Dear Bob:

Four years ago my husband went to get some steak sauce and never returned. What should I do?

Answer: Try using tomato catsup.

**NEW FOOTBALL RULE FAVORS LITTLE TEAMS**

The Football Rules Committee of the National Collegiate Athletic Association, after a three-day hassle at St. Petersburg, Fla., outlawed by unanimous vote the "two platoon system" in organized school-boy mayhem.

While the new regulation is too involved to go into here, the net result is that a college football team can now be just one team instead of two. Coaches at a number of the big schools were screaming in pained surprise when the news broke, but some of them were more philosophical, reflecting the attitude of Coach Bud Wilkinson of Oklahoma. "It will be a disadvantage to us," he said, "but a definite advantage to smaller schools. . . . The two-platoon system has a tendency to make big teams better and little teams weaker."

But regardless of the attitude of coach or spectator or player for that matter, something was wrong with "good clean American sport" to cause more than fifty colleges to abandon football in recent years. It had simply gotten too rich for their blood. With football—you had to be in business . . . or else.

Boy (about to be spanked): Dad did grandpa spank you when you were little?

Father: Yes, son.

And did grandpa's father spank him?

Yes, son.

And did great-grandpa's father spank him?

Yes, son.

Well, don't you think it's about time to stop this inherited brutality?

**WEAR WIRE WHEELS**—American car owners can imitate foreign sports cars equipped with wire wheels if Detroit manufacturers have their way. Seen above, being fitted on standard U. S. car wheels by Virginia Martin of Detroit, Mich., the snap-on hubs simulate the much more expensive European originals, and will cost U. S. drivers much less.

**GIFT PARTY COMPLIMENTS MRS. HUCHTON TUESDAY**

Mrs. John Huchton was honor guest at a party and gift shower Tuesday night given in the home of Mrs. Joe Tempel with Mmes. Ray Tempel and Henry Huchton as co-hostesses.

Decorations in the party rooms carried out a pastel color scheme. Gifts were presented to the honoree in a stroller.

The trio of hostesses served refreshments of strawberry short-cake and coffee.

Guests were Mmes. Richard Trachta, Maurice Pagel, C. L. Williams, A. J. Huchton, Richard Grewing, Clarence Hellman, Al Eberhart, Francis Wiese, Troy Cooper, F. A. Kathman Jr., Steve Mosler, Oscar Miller and Aubrey Tuggle and Miss Ann Huchton all of Muenster, and Mrs. Al Siebert of Gainesville.

**ATTEND CONCERT**

Mmes. Tony Gremminger, Jud Boyles, and J. M. Weinzapfel, Mr. and Mrs. Steve Mosler, Sisters Dolores and Carmelita and Misses Rosalee Fuhrman, Hazel Lernef, Patsy Gremminger, Olivia Stock, Mary Weinzapfel and Dolores Boyles attended the second in the series of community concerts in Gainesville presenting Marina Svetlova and her touring company of ballet dancers.

The Pat Hennigans, Francis Wieses, F. A. Kathmans Jr., Ann Huchton, Otto Walterscheid, Leo Becker and Herbie Herr were in Waco last weekend attending a VFW Mid-Winter Round-up.

**25th Anniversary Celebrated Sunday By Al Fleitmans**

Sunday, Feb. 1, was an enjoyable day for Mr. and Mrs. Al Fleitman who were joined by their family and friends in observance of their silver wedding anniversary.

At noon a turkey dinner was served to members of the family and in the evening a reception and buffet supper were held for 50 guests, including brothers and sisters of the honor couple. Mr. and Mrs. Fleitman opened and displayed many lovely gifts.

The Fleitman home was decorated with white snapdragons and silver foliage and the dinner table was laid with a white hand crocheted cloth. The centerpiece was a two-tiered cake decorated in white and silver and placed on an antique stand which was also used at the couple's wedding 25 years ago.

Mrs. Fleitman wore a rose beige tissue faille dress with a white carnation corsage backed with silver foliage and tied with silver ribbon. Mr. Fleitman's white boutonniere was also accented with a touch of silver in keeping with the anniversary.

She is the former Miss Millie Wiesman. Since their marriage they live west of town where they engage in farming and dairying. Mr. Wiesman is a member of the board of directors of the FMA and a member of the Sacred Heart church committee.

They have five children, Eddie Fleitman, Mrs. Henry Felderhoff, Miss Eileen Fleitman, Herbie Fleitman and Miss Lorine Fleitman.

Among out of town guests present for the celebration were Miss Eileen Fleitman, Mr. and Mrs. Tip Self, and Leon Krebs of Dallas, the Henry Koelzers of Fort Worth, Mrs. Lena Wiesman of Wichita Falls, the Bill Fleitmans and the Anton Lauxes of Lind-

say and the Joe Bauers of Gainesville.

Attendants at the couple's wedding in 1928 were her sister, Mrs. Henry Koelzer and his brother, John Fleitman.

**AUXILIARY TO PRESENT FLAG TO PUBLIC SCHOOL**

As their honor roll project for the month of February, the local VFW Auxiliary is presenting a flag to the Muenster Public School. With both schools in line to receive flags, names were shuffled and one was drawn to determine which school will be favored this year. The Sacred Heart Parochial School will receive a flag next year. Last year's flag went to the local Boy Scout troop.

Mrs. Maurice Pagel, president, presided for the regular monthly business session Monday night in the VFW club. Committee reports revealed that plans are progressing nicely for the Valentine dance which will be given on Feb. 11. Two prizes will be awarded; one to the most recently married couple, the other to the couple married the longest. The dance will be a semi-formal affair.

Local members were invited to attend the district meeting of the VFW and Auxiliary on Feb. 14 and 15 in Gainesville. The invitation came from the host organizations.

Mrs. Ray Swirczynski reported on the March of Dimes campaign. Members heard three more letters of thanks from local servicemen for Christmas remembrances. Read were letters from Curley Pels and Jerry Pels in Korea and Hal Falck in Germany.

It was announced that next month's meeting will feature the election of officers.

During the social hour Mmes. Leo J. Haverkamp and Charlie Wimmer served sandwiches and cold drinks. Mrs. Richard Swirczynski won the attendance prize.

### GENERAL MOTORS' BETTER HIGHWAYS CONTEST

In my last article, I wrote of General Motors Corporation's "Better Highways Awards Contest," and quoted the remarks of Mr. C. E. Wilson, then president of G. M., and now Secretary of Defense, in launching the contest. I promised to give the details for entering the contest and a list of the prizes in this article. So, here goes:

A total of \$194,000 in prize money is to be awarded by General Motors.

Here are the national awards: First prize, \$25,000; second prize, \$10,000; third prize, \$5,000, and three honorable mention prizes of \$3,000 each.

In addition there are regional and state prizes. For the purposes of this contest, the U. S. has been divided into nine regions, with a \$2,500 prize for each region. Supplementing these, are prizes in each state and the District of Columbia: \$1,500, first prize and two honorable mention prizes of \$500 each.

The essay subject is: "How to Plan and Pay for the Safe and Adequate Roads We Need."

The contest officially commenced on November 11, 1952, and will close at midnight on March 1, 1953.

Entry blanks may be obtained at any General Motors car or

truck dealership, or by writing to General Motors Better Highways Awards, General Motors Building, Detroit 2, Michigan.

With each entry blank, prospective contestants will receive a Better Highways Awards Fact Book. This not only contains contest rules, but also outlines basic statistics and facts about the nation's over-all highway problem.

Essays will not be judged on literary merit, but rather on their originality, sincerity and practical adaptability.

While brevity is suggested, no limitation is placed on the length of the essay. Each contestant may submit any supporting data believed necessary to document his or her presentation—graphs, charts, drawings, photographs, estimates or other illustrations.

The essays will be judged by a contest board composed of five noted men in their respective fields who have accepted positions on this board.

Any American man, woman or child, including G. M. employees, is eligible to enter the contest.

Awards will be announced as soon as possible after the end of the contest.

General Motors as the biggest producers of cars and trucks, contributes more than any other one corporation to the congestion of our highways. It does well and is to be congratulated on having taken this forward step toward finding a solution to the traffic problem.

In calling on every citizen of the nation to make suggestions and by offering generous prizes

Sneak Thiev

for the best, it is inevitable that new and acceptable ideas are bound to come out of the competition. With thousands of persons putting their minds to this specific problem, a solution should be found.

Also, new conceptions of old ideas—new "twists" or new "angles" on previous thinking—should result from this mass mental effort. Certainly, all the entries combined will present a sizable total of public opinion on the highway problem.

With prizes the size of those being offered, it's really worthwhile to spend some time thinking about "How to Plan and Pay for the Safe and Adequate Highways We Need." To participate in this contest one does not need to be a highway expert, nor does it involve "boning up" on highly technical matters.

All of us use the highways. We all help to pay for them. At one time or another all of us have complained about congestion on city streets, or dangerous conditions on cross-country roads. And we've "griped" about it.

Here, then, is an opportunity to do more than "gripe"—to do

something tangible about it—submit ideas and have a chance of getting handsomely paid for putting those ideas on paper. Wouldn't you like to get \$25,000, or even \$500 for offering a plan that would help America to get out of its traffic muddle?

This columnist urges all of his readers to get into this contest and to take action immediately. The contest ends March 1st. Drop in on your nearest General Motors dealer today to get your entry blank and full instructions or write to General Motors Better Highways Awards, General Motors Building, Detroit 2, Michigan.

Something has to be done about congestion, death and destruction on our public highways. Perhaps you have the solution or a part thereof. Have you the right as a patriotic American to withhold it?

The test of good manners is to be able to put up pleasantly with bad ones.

## Army Program Stresses Need For Morality

ARMY HEADQUARTERS in the Pentagon Building recently issued three startling pamphlets. They established in the United States Army formal instruction in morality.

Character Guidance Discussion Topics, as the new Armed Forces' morality program is entitled, begins with this striking foreword:

"These programs have one common purpose. That purpose is to instill into all the men and women of our Armed Forces, leaders and led alike, a sense of individual moral responsibility. To achieve this purpose the character development programs stress the moral principles that sustain the philosophy of American freedom, particularly as it is set forth in the opening paragraph of the Declaration of Independence. That philosophy regards man as a creature of God. As such, each individual in the Armed Forces is accountable and responsible to his Creator for the way he performs his civic and military duty. Sound morality must underlie all military instruction."

THIS NEW character-guidance program is built around the unchanging principles of the natural law. The course discusses the human conscience, the existence of God, and the 3500-year old Ten Commandments.

With apologies to no one, the author deals with the value of religion in daily life, the need for wholesome thinking, the importance of the Sixth and Ninth Commandments in man's sex life. The case for humility, prayer, and inalienable rights is presented most convincingly.

The pamphlets clearly set before each new recruit the age-old Christian concept of obedience so unpopular with modern man, that man's use of freedom must be limited by respect for law and moral principles. As the pamphlets emphasize, "Without obedience to God, there is scarcely any basis for obedience to other authority."

THE ARMY is spending thousands of dollars on this new project because it has noticed over the years that a man of religious conviction makes the best soldier.

From many bitter experiences our military leaders know that a man trained in the secrets of the Nation's defense is a dangerous man if he lacks moral integrity, if he is wanting in sound Christian character, or if his patriotism and loyalty do not spring from basically religious principles.

IT SEEMS CLEAR that our Armed Forces find no conflict between religion and the American way of life. In fact the Army hopes to win America's wars by teaching soldiers religious principles. Perhaps we will win the "Battle for Peace" when we begin to bring back into civilian life those religious principles that once gave America her claim to greatness throughout the world. (—by Alvin Illig.)

Washing 20,000 Dishes a year is a SNAP with my new

## Electric Dishwasher

The average housewife washes more than 20,000 dishes a year. That's a big job for you... but it's a snap for the electric dishwasher. With an electric dishwasher, you just click a switch... and all those dishes will be washed, rinsed and dried—far more carefully and thoroughly than you can do them by hand. And, to a dishwasher, the number doesn't matter—it just keeps washing away, so having lots of company becomes a real pleasure. Yes, ma'am, get an electric dishwasher—and you'll never have that sinking feeling again when dishwashing time comes around.

See the new dishwashers at your electrical dealer's.

**PRESIDENTS OF THE PAST** — Elder statesmen of America, Harry Truman and Herbert Hoover, are seen above in this unusual photograph taken Inauguration Day. Hoover waited 20 years to share his distinguished honor with another ex-President. Both these men have lived through historic periods in our history. Each was the last of his party to serve in the White House after many years of party dominance.

**If Deceased Lacks Will State May Be Heir to His Estate**

Made your will? If not, the State of Texas may wind up as owner of your estate upon your death. Under our statutes, the estates of persons having no heirs who die intestate revert, or "escheat", to the State.

Such provisions have been carried over from the English common law. There, under such circumstances, the estate escheated to the British crown. The theory of the process is that the sovereign (or State), having been the original owner of all lands before they were parceled out to individuals, is entitled to a return of such lands when the possibilities of legal inheritance have been exhausted.

This idea has been expanded to include personal property as well as real estate. It also applies in the case of a person absent for a term of seven years and not known to exist who leaves no heirs and no will.

Presumably, there is hardly a person who does not have some individual or charity that he would prefer to have his estate, rather than have it go to the State by default, so to speak. Yet, surprisingly, estates worth many thousands of dollars do escheat to the various states from time to time.

Now, before you shrug the matter off with the idea that these statutory provisions could not possibly apply to you, better think a minute. Suppose you and your spouse have no heirs besides each other and your children. Many people do fall into this category.

In the event of a catastrophe

resulting in death for you and your entire immediate family, no legal heirs would remain. Therefore if you had no will, your property would go to the State. In preparing a will, it is possible to provide for such an eventuality.

In this hypothetical case, you would probably want to designate some friend as executor, to take care of all necessary arrangements and then distribute the estate according to your wishes.

On the other hand, if you have plenty of possible heirs, a will could be used to designate which of them shall participate in the division of the estate. And, even if you wish your property to be distributed entirely in accordance with our statutes of descent and distribution, a will can perform useful functions. Among other uses, a will could provide for an orderly and economical partition of your property, preventing any waste of the assets by heirs impatient for a settlement.

What happens to property which escheats to the State? Following certain required legal formalities and court proceedings, all escheated lands are set apart to the Permanent Free School Fund of the State, and may be leased and sold by the Land Commissioner under certain regulations. Escheated personal property is sold by the local sheriff under a court writ and the money received therefrom paid into the State Treasury.

**KEWANEE CO. EMPLOYEES PLAN SAFETY PROGRAM**

Kewanee Oil company employees of the Bulcher area inaugurated a safety program last Wednesday night when they met in the community center building. Two company officials were present to help organize the program.

This is a new program adopted by the company for the safety of employees.

A committee was appointed to report dangers through the month of January and different committees will be named each month for the coming year. Regular bi-monthly meetings will be held.

Those attending the first meeting were J. M. Shields, C. V. Crabtree, Dexter Dennis, R. H. Sharp, R. J. Samples, E. L. Robison, Calip Cannon, L. L. Pickett, Bill Harrel and Jimmy Atteberry.

**UNBROKEN BUCKING TRUCK**—Bucking like a bronc, front wheels turning in the air, this auto-filled trailer-truck is tilting dangerously after skidding on icy roads near Detroit. Tow-trucks uprighted the jack-knifed vehicle and the uninjured driver rode off with every car intact.

**IT HAPPENED 15 YEARS AGO**

February 4, 1938

Dynamite blast causes facial injuries and loss of eye to Robert McKinney, workman on road crew; accident occurred as rock drill struck former dynamite charge. More winter coming according to Mr. Groundhog. Mrs. H. L. Miser, 79 year old Myra pioneer, dies. Cheese plant buys new large boiler. Speech by Father Juvenile features K of C meeting. Jack Kern, the Iron man, appears in a performance of strength and stamina on Main Street. Burger five win two out of three games at Ringgold meet. The Arthur Hellmans announce the arrival of Collette. Parochial pupils present Rip Van Winkle drama. Greater interest is noted at John Bayer's second community sale.

**10 YEARS AGO**

February 5, 1943

Five-can limit set for canned goods rationing start when some 200 food items will be rationed. Lt. Ray Bezner downs Jap Zero over Guadalcanal. Sunday was last day for buying gasoline on credit. Perfect weather for groundhogs should lead to early spring. Sam Biffle was in town Saturday displaying a large live gray timber wolf he caught on the Trew lease. Pvt. Otto Walterscheid is stationed at Tyler taking a radio course. Pvt. Paul Tempel arrived Tuesday from Robins Field, Ga., to visit his parents. Sgt. Alois Rohmer of Camp Polk, La., spent a three-day pass here.

**5 YEARS AGO**

February 6, 1948

County TB center announces general chest x-ray plan. Notable progress marks 1947 program in Upper Elm-Red soil district. Community March of Dimes fund climbs to \$150. E. P. Buckley's aged mother dies in Pawhuska, Okla. Boy Scouts will conduct

waste paper drive. Newly developed city areas will get street lights. Dixie Drug purchase by Dr. Myrick will be followed by clinic-store changes. C. J. Kaiser spends full time at his Kaiser-Frazier agency in Gainesville. Wayne, 18-months-old son of the Werner Clers, is recovering from body burns sustained when hot water was spilled on him. Cecilia Haverkamp and Troy Cooper marry. Lambert, Rufus and Walter Bezner have returned from a skiing party in New Mexico. Lindsay sodality elects Rosalie Beyer president. New arrivals: a boy for the Leo Schmids; girls for the Werner Clers and the Ed Endreses.

**LACRISTA LUTKENHAUS HAS BIRTHDAY PARTY**

Little Miss LaCrista Lutkenhaus observed her birthday Sunday with a party at the home of her parents, Mr. and Mrs. Hugo Lutkenhaus. She was eight years old.

Thirteen girl friends were guests, and after presenting gifts to the honoree, enjoyed games until Mrs. Lutkenhaus served refreshments of birthday cake, fruit jello and hot chocolate.

The home was decorated to stress the Valentine theme and the refreshment table was centered with the large heart-shaped cake topped with eight candles.

Special guests for the afternoon were the honoree's grandfather, W. T. Richter, and her aunt, Miss Clara Richter of Dallas.

Little girls at the party were Joanie Kaiser, Judy and Janet Lutkenhaus, Linda Lutkenhaus, Shirley Walterscheid, Gerry Trubenbach, Carol Hess, Bernadette Yosten, Lillian Owen, Betty Ann Danglmayr, Patsy Klement, Carol Tenschel, Sandra Kay Walter.

As a married couple reminisced, the husband remarked, "By the way, wonder whatever became of the old-fashioned girls who fainted when a man kissed them?" His wife gave him a withering look. "What I'd like to know," she retorted, "is what happened to the old-fashioned men who made them faint."

**ATTEND STOCK SHOW**

Seventeen members of the FFA and FHA chapters and 4-H Club members of MHS attended the Fat Stock Show Saturday. They were accompanied by Ralph Maglaughlin, Miss Patsy Scott, Mrs. T. S. Myrick and Weldon Holland. Inspection of livestock and exhibits, and attendance at the rodeo were high spots on the days' program.

Mr. and Mrs. Henry Stelzer were Wichita Falls visitors Tuesday.

**MHS Cagers - - -**

been cut 19-15. In the last period Prairie Valley again took charge of the situation.

The boys game was more of the same, except a short period of less than two minutes at the start of the second quarter during which MHS surged from 9-16 behind to 18-16 ahead. That was the only time Muenster led and the PV quint did not let it last long. They increased the margin steadily from then on, 35-22 at the half, 59-32 at the third quarter, 76-43 at the end.

Tuesday night, here, MHS girls and Saint Jo played it fairly close in the first half, Muenster leading 24-17 at intermission. A strong start in the third period put the game on ice and reserves held their own from then on. The final tally, 46-33.

The boys' game appeared to be anybody's until the final four minutes when the visitors put on a splurge for a 65-51 victory. In the first half the lead changed a half dozen times for a score of 13-13 at the quarter and a Saint Jo lead of 26-24 at the half. The Panthers increased the lead to 44-37 in the third period and the Hornets cut the lead to 48-44 during the next few minutes, before Saint Jo got loose on its final scoring splurge.

The Bob Yarbroughs of Wichita Falls were weekend guests of her sister and family, the Frank Needhams, and also visited her brother, Albert Andress who was a patient at Gainesville Sanitarium.

Messrs. and Mmes Claude Cannon, L. L. Pickett, C. V. Crabtree and R. J. Samples, and Milton Crabtree went on a coon hunt Thursday night. No coons were seen but the group enjoyed the outing.

**'Mack' Jackson, 76, Of Forestburg Dies**

Funeral services for Joseph (Mack) Jackson, 76, were conducted at the Forestburg church with Rev. James M. McKeown, pastor officiating. Rev. Bert Condry, Methodist pastor at Montalba, assisted.

Burial was in Hardy cemetery under the direction of Dunbar-Daugherty of Saint Jo.

Mr. Jackson was the father of Mrs. W. B. Wylie of Muenster and had lived at Forestburg for 54 years, engaging in farming until his retirement in 1947.

He was a native Texan, born in Grayson county near Van Alstyne, March 15, 1877. In November 1901 he married Lillie Johnson who preceded him in death in January 1917. They were the parents of six children, all of whom survive.

They are, in addition to Mrs. Wylie, Mrs. W. C. Hogan of Gainesville, Bailey and Jerry

Jackson of Texarkana, Joe F. Jackson of Pampa, and Luther Jackson of Bakersfield, Calif.

In 1930 he married Bessie Sloan who survives. Other survivors are five brothers, four sisters, fifteen grandchildren, eight great-grandchildren and numerous nieces and nephews.

His wife and children remained at his bedside constantly after he entered a Nocona hospital for major surgery on Jan. 14 until his passing on Jan. 26.

**HOW MANY EGGS ARE YOU GETTING PER POUND OF FEED?**

MR. ALF A. GREEN SAYS:

"change to the NEW 17.5% **TEXO LAYING ALL MASH**"... and get **MORE!**

Recently completed tests at Texas A & M College show positively that 17.5% is the most productive protein level for your hens. More is a waste! Less than that is not enough! And —no grain supplementary feed is needed with TEXO Laying All Mash. It is self-feeding, too.

STOCKMEN'S FEED STORE

**More Silage with less Power and Labor**

An Allis-Chalmers Forage Harvester and your own farm tractor with power take-off handles your big-tonnage forage crops — green or dry.

Equipped with the row-crop attachment, the Allis-Chalmers Forage Harvester will harvest all silage crops grown in rows . . . from tall corn to sorghums. One man — the tractor operator — handles the machine. Labor costs are reduced to a minimum.

This year harvest your own forage crops with the one-man operated Allis-Chalmers Forage Harvester and your own tractor. Auxiliary motor is available for light tractor power or abnormal field conditions.

**Lindsay Boy Gets  
Sears Dairy Animal**

Cyril Hermes, Lindsay 4-H club boy has been awarded the Sears Foundation dairy heifer for Cooke county for 1953.

Announcement of his selection was made Friday by Virgil Dahlberg, assistant county agent. The foundation awards only five heifers to the 17-county District IV of which Cooke county is a member.

The youth selected a Milking

Shorthorn heifer, which was purchased from A. T. Cooper, an employe of C. L. Haggard, well-known Milking Shorthorn breeder from Plano.

The heifer's dam produced 400 pounds of butterfat its first lactation, and the sire was grand champion of the State Fair on two different occasions.

Cyril will return one-quarter of the value of the milk produced by the heifer during its first lactation to the Sears Foundation. This money will be used to help keep the program in operation and will also assist in providing prize money for the foundation.

A 4-H club member for the past five years, Cyril is now vice-president of the Lindsay club. Since entering the 4-H program, he has fed out a calf and pig for the local 4-H club FFA stock show. During 1951, he raised turkeys and corn as club projects and in 1952 he raised turkeys, broilers and corn.

He won blue ribbons on his turkeys and red ribbons on the broilers at both the Cooke County Broiler and Turkey Show and the State Fair.

This year, he plans to continue with his turkey and broiler programs and add field crops and the Sears dairy heifer.

He is the son of Mr. and Mrs. Tony Hermes.

Miss Ethel Schmitt left Thursday to return to Walla Walla, Wash., where she is employed.

**Confetti - - -**

starting a new era in American greatness. Domestic reforms will break the shackles of economic slavery at home. A courageous foreign policy will restore American prestige and respect elsewhere.

Two most significant incidents are the proposal to repudiate secret agreements of the past and the order ending our blockade of the Formosa coast. Complaints are already coming from Europe, for fear such action will provoke Stalin into starting another world war. As if Stalin needed provocation! Haven't the Europeans learned yet that Stalin extends his conquest any time he thinks he can get by with it? The only reason we don't have a global war now is that Stalin is not ready. Appeasement will not stop his expansion. It just saves his soldiers.

Most important is the principle involved. In that Formosa affair we're faced with the fact that China rightly belongs to the Nationalists and we are to blame for their losing it. Our national conscience demands that we help to correct our former error even though our French and British allies are willing to compromise principle for the sake of avoiding trouble in their Asiatic colonies.

There's only one right course to take in this matter, and that is to do what is right. If that means a showdown between the Communist and anti-Communist world, let it come. Decent people everywhere would rather have war with honor than peace with dishonor.

**Dedication - - -**

east part of town; the following year members bought the former Bernauer building across the overpass, moved it to the site and modeled it for a temporary church. The building was dedicated on Dec. 7, 1943.

An increasing membership was outgrowing the small structure, and in January 1951, the congregation decided to build a new church. Rev. E. O. Hartwell came as pastor to supervise the building program. The former church was sold and moved and the new church was built on the same location.

The church is a T-shaped brick veneered structure consisting of two units measuring 30 x 50 feet each. The base of the T faces east and serves as the entrance. The auditorium has a seating capacity of 225, there are 12 Sunday School rooms, a baptistry and two lounges.

All except skilled labor on the church was done by local members assisted by volunteer workers from other Baptist congregations of the area. Outside help along with some financial help

was provided by the county Baptist association.

Rev. Stowe came here in October as resident pastor. He is a native of Iowa Park where his parents, the W. A. Stowes, reside.

**AT CALIFORNIA MEETING**

M. D. Kaderli, manager of the local REA Co-op, was in San Francisco, Calif., at the National Convention of Rural Electric Cooperatives Jan. 26 through 29. He reported that it was an important meeting due to changes in Washington but that no important changes will be made in the administrative policies of REA.
