VOLUME XVII

MUENSTER, COOKE, COUNTY, TEXAS,

JUNE 19, 1953

NO. 30

When a farmer makes 30 bushels of wheat per acre and sells it at \$1.80 a bushel he really isn't doing badly. That's the kind of harvest which, under normal circumstances enables him to make a comfortable addition to his bank account. But if he has to sell for \$1.80 and another fellow gets to sell at \$2.08 he has every right to feel that he has still been gypped out of a good portion of his rightful income.

Well, that's been the situation all over North Texas lately. The government support price, which should have been available to every farmer if to a single one, was \$2.08, but the open market was down to \$1.80. The catch, however, is that government storage facilities were all filled and dealers had to quit accepting the grain on the government loan basis. Some early harvesters were lucky enough to get the \$2.08 guarantee on their wheat. Others had to take what they could get or risk storing the stuff themselves in the hope of finding storage space for the government loan or a better market later.

In short, the unlucky farmers were discriminated against because of the failure of some people in official circles to handle their jobs properly. This column will not presume to say how the affair should have been handled. But it does think nevertheless that some supposedly high powered, and maybe high handed, bureaucrats have done a first class job of pushing a group of helpless farmers around. Every one who had anything to do with this bungling ought to be unceremoniously kicked out.

In this connection there are a few things we ordinary people would like to know. Why didn't those fellows anticipate the volume of wheat to expect and arrange for storage in advance? There's no excuse for not knowing, considering the advance knowledge the agriculture department usually has on the crop situation. Under these circumstances there's no good reason why they should have failed to provide more storage space in this locality and even arrange transportation to haul the grain elsewhere if that were necessary. And there certainly is no reason why much of the storage space should still be occupied by old wheat. Why wasn't that moved before the harvest started?

There are plenty of reasons to oppose the government's subsidy program on principle. The red tape official interference, administrative cost and the subsidy payments run into big money, which has to be raised by big taxes. In the end, how much does the average farmer gain over his part of the total tax burden?

But that has nothing to do with this affair. The point here is that the government claims to offer a subsidy but fails to make it available to all. That isn't right, and the simple fact is that the government owes a compensating amount to every farmer who was deprived of his right to store wheat under the loan arrangement.

In lots of cases that amounts to a sizeable figure. A 28 cent loss on a 30 bushel yield amounts to \$8.40 an acre. That's \$840 on a 100 acre crop, \$420 on 50 acres... a big percentage of the farmer's margin of profit.

Let's hope the farmers will not accept this fizzle as a closed deal. Every one who got caught ought to save his grain tickets and hound the government for an adjustment. Every one is entitled to the difference between the price he got and the support price.

## Swimming Party at Gainesville Friday

All young folks of the community are invited to join in a swimming party sponsored by the public school at the Gainesville pool Friday night, June 26. The school board has okayed the use of school busses to and from the party. Superintendent Cowan along with several other adults to be named later will accompany the party.

All youngsters intending to participate are asked to be at the school at 8 Friday night. That's when the busses will leave.

## Harvest Nears End Storage Scarcity Causes Headaches

Combine work is practically finished and threshing is off to a good start in the best harvest season in the community's history. Only about 10 per cent of the local crop is being handled by threshers this year.

While crops are outstanding, however, farmers are concerned with the toughest disposal problem they have ever had. All want to store their wheat on the government loan program which insures a price of \$2.08, but they are not finding available storage space. Some are storing temporarily on their farms hoping to find government storage space later and take advantage of the high loan figure. Others are stuck with the alternative of selling on the open market at \$1.80 a bushel.

Most of the wheat handled here has gone into government storage. Arthur Felderhoff sent over 40,000 bushels to Denton and Sherman and could have sent considerably more if more trucks had been available to move it. Lately he has had six trucks sweating out the line at Sherman. Frequently that line consisted of Pulte, August Dietz, Mrs. H. L. Zoda and Mrs. Joe Bauer.

## FHA Goes to Lake For Summer Camp

FHA girls of Muenster will be at Lake Texoma next Monday Tuesday and Wednesday for their annual summer camp, using facilities built there during recent years by FFA chapters of North Texas.

Their program consists principally of crafts instructions and sports events. Miss Patsy Scott and several of the girls' mothers will accompany them.

## Lions Wear Ladies' Togs for Ball Game

To raise money for the band uniforms fund Muenster and Gainesville Lions have arranged to make fools of themselves at a benefit ball game here in the near future. The feature of this stunt is that the players will appear in women's clothes.

Ralph Maglaughlin and Cotton Jackson arranged the game while visiting at the Gainesville Lions meeting Monday night. The date will be announced later, after harvesting is finished.

## WITH THE MEN IN SERVICE

### Delay Enroute

Teddy H. Cannon of the Navy is visiting his parents, the O. W. Cannons, on delay enroute from the west coast to the east coast where he will leave for duty in France.

### Begin Overseas Tour

Pvts. Tommy Knabe and Gilbert Yosten left Camp Stoneman Saturday beginning their overseas tour.

### Takes Physical The 24th

Lawrence Dankesreiter will be included in the county group of draftees taking their army physical examinations on Wednesday, June 24.

### Has Induction Orders

Charles Pagel has received his induction orders and will report for army training on June 25.

### End 21 Day Leave

M.Sgt. and Mrs. Leon Hellman and daughter, Shirley Ann, left this week Thursday after completing a 21-day leave with relatives. He is stationed at Kirtland AFB, Albuquerque, N. M. They spent the first week of their vacation here with his aunt, Miss Anna Hellman, and his brother and family, the Charley Hellmans, then went to Wichita, Kansas, to visit her mother and sister for a week. Charlene Hellman accompanied them to Kansas. They spent the last week of his leave here, and plan to visit friends in Lubbock enroute home. It was the family's first visit here since they returned from Japan about a year ago.

## PO Box Rent Not to Take Double Jump

Post office box rental rates at Muenster will not take a double jump after all. Postmaster Arthur Endres this week announced the arrival of a second bulletin from the post office department advising that when increases are due because of both the new rate and a higher receipts bracket, only the new rate will be applied.

Hence, in spite of the fact that 1952 receipts topped \$10,000, box rents here will still be determined by the price schedule for the \$5,000 to \$10,000 receipts bracket.

The new rates, as revised by Postmaster Endres since last week's report, are as follows:

Former 45c boxes, now 65c  
Former 60c boxes, now 90c  
Former 75c boxes, now \$1.10

Under the double increase, as previously quoted, the new rates would have been 90c, \$1.10 and \$1.50.

Endres said the new bulletin did not mention when post offices will be expected to raise rental rates to comply with the change in receipts bracket.

## Trustees Approve Football Stadium

A football stadium and lights for Muenster High School was authorized Tuesday night in a meeting of the trustees. Plans for the new construction had been completed some time ago but work was delayed pending the possibility of changes in the local school system.

The stadium will be located east of the school building on the west side of the football field. The side of the hill there is to be shaped to a steeper contour and the stadium built on it. Material is concrete and seating capacity is about 1,000.

Lights are due to go up first so that stadium work can be done at night.

## Coach Stewart and Mrs. Searcy Hired

Coach Troy Stewart will remain on the Muenster Public School faculty after all. After reconsidering another offer he recently applied for his old job and was returned to it by the school board in its meeting Tuesday night.

Another appointment in the same meeting was Mrs. Ann Searcy, wife of band instructor Bill Searcy, as homemaking teacher. She succeeds Miss Patsy Scott who will teach homemaking in the Pleasant Grove school near Dallas.

The only openings on the faculty now are in the English department and the library and speech departments to fill vacancies left by George Letson, now operating the Relax Theatre, and Bill Phillips, who will teach science and math at Saint Jo next year.

## Local CDA Court Installs Officers

Mrs. Paul Fisher as grand regent heads a slate of officers installed at the regular meeting of the Catholic Daughters of America in the K of C hall Friday night.

Mrs. Davis Lambright of Fort Worth, district deputy, presided at the installation.

Officers besides Mrs. Fisher include Mrs. John Mosman, vice regent; Mrs. Ben Seyler, prophetess; Mrs. Steve Moser, financial secretary; Mrs. Joe Horn, historian; Miss Olivia Stock, treasurer; Mrs. John Fisher, monitor; Mrs. Charley Hellman, sentinel; Mrs. Frank Yosten, lecturer; Mrs. J. M. Weinzapfel, organist; Mrs. Al Eberhart and Mrs. C. A. Fisher, trustees.

Following installation, members and guests went to the home of Mrs. Ben Seyler for refreshments. Mrs. Seyler was assisted by her daughter, Mrs. Lambert Bezner, in serving an ice course. Guests were Mrs. Dan Douglas, Mrs. Veda Weatherby and Miss Frieda Koenig, all of Court Louise in Fort Worth, who accompanied Mrs. Lambright to Muenster.

Mr. and Mrs. Urban Endres were in Dallas Wednesday night to attend the Ford Motor Company's 50th Anniversary Banquet in the Adolphus Hotel.

ALLEN A. HOFFMAN, airman first class, son of Mr. and Mrs. John J. Hoffman, enlisted in the army air force in February 1951. He received basic training at Lackland AFB in San Antonio, and was assigned to M.P. duty at Patrick AFB, Cocoa, Florida. While there he transferred from M.P. to the Aviation Supply Department. In June 1952 he was assigned to duty at Pepperall AFB, St. John's, Newfoundland, where he is still stationed. His complete address is: A1C Allen A. Hoffman, AF 18400237; Hq. N A F G D (Hq. Sq. Sec.); APO 862, c-o PM; New York, N. Y.

## Positions Open for Highway Officers

Captain Jack Sutherland, who commands the Fort Worth district of the Texas Highway Patrol, told the Enterprise today that he is conducting a search for young men in this area who would like to become Texas Highway Patrolmen.

According to Captain Sutherland, about 50 vacancies now exist in the Patrol Division of the Texas Department of Public Safety, and examinations will be given during July to fill them. In the meantime, applicants have until midnight of June 30th to file for the positions.

Captain Sutherland said that you are eligible for one of the positions if you can meet the following conditions: You must be male, between the age of 21 and 35 years, inclusive; not less than 5 feet 8 inches in height; and weighing not less than 2 or more than 3 1/2 pounds per inch of height.

You must have a high school education or its equivalent and must be a citizen of the United States and a resident of Texas for at least a year immediately prior to application. Finally, you must satisfactorily pass an exhaustive character and mental examination.

Salary of Patrolmen is \$305 per month with \$10 per month extra for each five years of service up to 15 years. An annual two-weeks paid vacation is afforded, and uniforms and equipment are provided to all members of the Patrol.

Captain Sutherland says that you can see him at 324 Rand Fort Worth, Texas for an application blank, or you may write directly to W. J. Elliott, Chief, Texas Highway Patrol, Austin and request one.

Successful applicants will begin a two months training school in Austin in September before receiving their assignments to posts throughout the State.

## Local Boys Win 7-5 In Softball Opener

In their first softball game of the season the Muenster boys Tuesday night nosed out the Bezner Chicks of Gainesville in the season opener for each club. For the Chicks it was the first time in uniform. Muenster had one practice session last week.

Alvin Hartman and Cecil Cain handled the pitching job for the local boys and Rufus Bezner went all the way for the visitors.

The Chicks will be back in Muenster for another game Friday night. At the present time Muenster and the Chicks have no other opponents. Theirs are the only two softball teams in this part of the state.

## New Peak Hit in Water Consumption

Residents of Muenster hit an all time high in water consumption Tuesday, using a total of 214,000 gallons.

For a while they were using the water faster than the city's booster could pump it into the water tower, a situation which, if continued, might have left the city inadequately supplied in case of fire. Water Superintendent Steve Moser met the emergency by driving around town and asking a couple of dozen people to cut off their garden and lawn hoses.

For the present there will be no rationing request, however if consumption continues to run ahead of the pumping capacity residents will be asked to water lawns and gardens on alternate days, one half of the alphabet on even dates, the other half on odd dates.

## Heart Attack Fatal To Leonard N. Ray

A heart attack while visiting in Muenster last Saturday was fatal to Leonard Neal Ray, 65, of Bulcher. At the time of the attack he was with Earl (Plumber) Brown in his room at the Wolf Hotel. He suffered the stroke about 11 a.m. and died about 12:30.

Funeral services were held at 4 p.m. Monday in the Bulcher church with Rev. John Raymond officiating. Burial in Coker cemetery was under direction of Daugherty Funeral Home of Saint Jo.

Ray is survived by four sons and three daughters.

## St. Joseph's Elects Convention Delegates

Meeting Sunday night members of the parish St. Joseph's Society named delegates to represent the organization at the Catholic State League convention and the Central Bureau convention to be held jointly in San Antonio July 17 through 23.

Delegates selected are J. W. Hess and John Rohmer. Their alternates are R. R. Endres and Meinrad Hesse.

## News of Sick And Injured

Mrs. W. M. Trubebach broke her left arm at the wrist in a fall Wednesday.

Billy Frank Richter entered Texas Children's Hospital in Dallas Wednesday afternoon and underwent surgery Thursday morning. He will be a patient at least a week and would enjoy hearing from his friends.

C. F. Gobble entered Veterans Hospital in McKinney Friday for observation and treatment. He is in Ward 105 and will be a patient several weeks, according to present reports.

Mary Weinzapfel had her tonsils removed Friday morning at the local clinic.

Billy Ray Richey, two year old son of the Robert Richeys of Marysville, has been dismissed from a Sherman hospital following surgery and is recovering normally.

Mrs. A. W. Vann received medical care at Gainesville Sanitarium this week.

Word was received here Monday afternoon that Steve Otto of Wichita Falls sustained a broken hip in a fall at his home earlier in the day. He is a brother of Tony, Joe and W. W. Otto and a brother-in-law of Mrs. J. M. Weinzapfel.

Mrs. C. L. Winchester, route 3, has been dismissed from Gainesville Sanitarium following surgery.

James Randall Wilson, route 2, is a medical patient at M&S Hospital.

Miss Lena Streng was dismissed from M&S Hospital Tuesday after medical care.

Miss Jeanette Meurer was up and around as usual Sunday after spending a week at home nursing a throat ailment.

## Swimming Pool Less Extras Could Be Supported Here

How about a swimming pool for Muenster? Dr. T. S. Myrick brought up the subject Tuesday night at the local Lions meeting, claiming that the chances of operating it on a self supporting basis are very good but admitting also that the biggest problem is the initial cost.

Myrick said there is no need to have separate showers, dressing rooms and suit rental service. The pool's patrons can change clothes at home, furnishing their own swim suits as most people do anyway. That would eliminate the need of extra help. The only essential he said is a shower and foot bath to meet sanitary standards and one attendant to see that regulations are followed and collect charges. Equipment to filter and chlorinate the water would eliminate the need of frequent expensive changes of water.

The suggested location is the half block area on which the No. 1 city well is situated. Because of the natural slope there excavation for the pool would be comparatively inexpensive. Total cost of the pool is estimated at near \$5,000.

Another suggestion was to develop the surrounding area as a park site and use drainage from the pool to water grass, shrubs and flowers. All could be figured in as a city project which has an excellent chance of paying its own way while providing a badly needed recreational facility.

## St. Mary's Parish Honors Fr. Redder On Silver Jubilee

Members of St. Mary's parish, Gainesville, held open house Sunday evening beginning at 7:30 honoring their pastor, Rev. Herman Redder, in observance of his silver sacerdotal jubilee. The party was held in the parish hall.

About 200 people attended the celebration, among them Father Thomas Weinzapfel and Father Thomas Tschope of Dallas, and former parishioners from Scotland, Rhineland, Nocona, Pilot Point, Henrietta and Wichita Falls.

In the receiving line along with the honor guest were visiting clergy and presidents of the parish societies including Msgr. McCollough, Father Simon Stock and Father Francis Gromelli, all of Sherman; Father William Lane of Gainesville, and William parish Mr. Pulte presented Father Redder with a purse in recognition. **Farm Accidents Kill 15,000 Persons in '52**

By John C. White  
 Agriculture Commissioner

Farming is a dangerous job. The risks are physical as well as financial. In the last year of record, about 15,000 U. S. farm residents were killed in agricultural accidents. Another 1,300,000 were injured.

Each farm is a separate sphere of management and operation which involves a wide variety of activities and working conditions. The heavy toll of accidents caused by these different farm tasks wipes out some 17 million man days of labor every year.

Texas farmers may face one of the major accident creating situations this year—labor shortages. When hired help is scarce, the farmer takes on more of the work load. He toils longer hours and becomes tired long before the job is done. As a result, he is tempted to take risky short cuts or postpone needed repairs on machinery and buildings. This sets the stage for crippling accidents.

Farm machinery is the big killer. Careless handling of equipment causes many mishaps but even a careful operator may be hurt if he is running broken or worn machines. A good maintenance program for machinery could do much to keep down farm tragedies.

Another common cause of injuries is farm animals. Some accidents with animals are unavoidable. Still, many result from impatience on the farmers part or an underestimation of the animal's dangerous traits. An ill-tempered bull not properly confined can easily kill or maim the farmer, worker, or member of the family.

Fires are a greater hazard on the farm than in the city. They cause 3,500 of the 15,000 farm deaths each year—not counting the millions lost in valuable food, domestic animals, clothing, buildings and equipment. These fires occur at the rate of 300 per day and most can be traced to defective heating units, flammable

roofing materials, overloaded electrical wires and lack of protection from lightning.

But the farmer and city dweller share equal risks right in the home. Four thousand farm residents die each year from accidents inside the house. Thus,

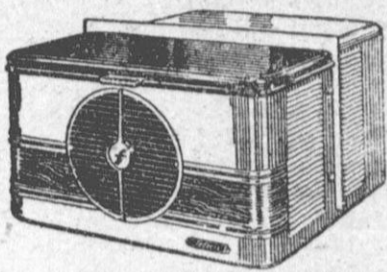

home safety is a prime starting point in eliminating accidents which rob families of their livelihood.

Some people are always surprised at how well the neighbors' kids turn out.—Linda Lombard.

**What is the most valuable thing General Electric ever built?**

Is it the jet engine? In 1942, General Electric gave America's air arm its first jet muscles. Would you say that is our most valuable product?

Or would you elect the fluorescent lamp? We placed the first ones on sale in 1938. With the growth of fluorescent lighting Americans are using 3½ times more light than even 10 years ago.

Maybe you would say our star performer is the steam turbine. All you do is flip a switch, and a turbine somewhere instantly responds to provide the power to pump for you, or push or lift.

How about x-ray? Your doctor holds a negative up to the light and peers at bones he says are really yours. Who can say how many lives the x-ray tube has saved?

Important as these products are, more valuable to us—and to you—is something these products have helped to build. Something born quietly in 1878, when electricity was still a curious toy. And something that has grown steadily through the years.

The most valuable thing we ever built is your good will. For your year-after-year confidence in the things we make has given us the means to serve you better. Better engineering, research, manufacturing—all have come from your belief in us. It returns to you in a constantly improving and expanding way of life.

### HOW GOES NIAGARA?

The five big private electric companies that supply nearly all of the homes, businesses and industries in New York State are doing what the economic planners in this country said couldn't be done. They are proposing to build a giant \$390,000,000 power producing project on the Niagara River using water from three miles above the mighty falls, financing it with their own money! The economic planners, whose goal has been the socialization of the entire U. S. electric power industry, have contended the federal government must build the big power projects because private companies do not have the necessary financial resources.

It is true that no single private company can match the federal government's ability to spend multi-million-dollar amounts collected from the taxpayers. But groups of private companies operating in a single state or region can finance any feasible project. And that is what they are proposing to do at Niagara. Some of the "Public Power" supporters in Congress nevertheless want the government, and not private enterprise, to build and own and operate the proposed new Niagara power plant. The issue, therefore, is a clearcut choice between govern-

ment and private ownership.

### Taxes and Taxes

Government ownership would mean the spending of \$390,000,000, and probably a great deal more, of the taxpayers' money. Government construction costs and operating costs are notoriously high. Usually a project estimated by government people to cost \$100,000,000 actually costs about twice that amount before the U. S. Treasury gets through paying he bills. With the government doing it, the Niagara project likely would cost \$500,000,000—half a billion. And once in operation, it wouldn't be a taxpayer like the private company.

If the private companies are permitted to build it, the hundreds of millions paid by taxpayers will be available for other heavy expenses of government. And when fully completed the Niagara project, if owned by the private enterprise, would pay an estimated \$23,000,000 in new tax money each year!

### Private Enterprise

Other private companies recently have combined to finance developments which the "Public Power" proponents said couldn't be done by private enterprise. Five private companies in the Paducah, Ky., area pooled resources to build a giant 500,000 kw steam plant to serve a new atomic arsenal now under construction; and approximately 20 companies in the Ohio Valley joined forces to build a power project to serve another huge atomic plant. In both instances, the Public Power advocates had said the job was "too big for private enterprise."

Niagara is a spectacular challenge to American industrial ingenuity. In 1895 a private company, the Niagara Mohawk Power Corp., pioneered water power development when it installed the Adams station just above the falls. Later other stations were built. These utilized all the water for power permitted under our agreement with Canada. In 1950, a new agreement permitted use of additional water above the falls. Thus the power production can now be raised from 440,000 to 1,500,000 kilowatts.

## To The Child Every Day Is Father's Day

Every father has the duty to educate his children on two levels—for work in this world and for life in the next.

The child's nature needs this twofold education for the simple reason that every child has both a body and a soul, and neither can be ignored.

A system of education aimed only at one part of the child never develops a fully rounded personality because a vital part of the child is ignored. The warped personality produced by this one-sided education greatly lessens the child's chances for happiness in this world, and it may mean eternal unhappiness in the next.

It is clear that a father who does not give his children the very best education possible within the family budget is doing his children a great wrong. By not preparing them to earn a decent living the father is handicapping his children for their whole mortal lives.

A worthy father, however, does not stop with education for this life alone. He also takes the child's immortal soul into consideration. In fact, in the eyes of a conscientious father the soul's education is by far the more important since the child's soul will continue to live on eternally after the body has long since decayed.

But precisely because the soul's education is the more important education, it is the more difficult for the father to

give. This education comes only partly from books. It is best learned from the father's own daily, personal example.

The father, for instance, who wants to teach his children purity and honesty and justice must himself first be pure and honest and just. It is the way the father lives that counts, and to guarantee that the life he sets before his children is good, he must himself be good. When he wants his children to have pure water he does not bring them to a muddied well.

If a father fails on this second and more important level of education, no matter how he has succeeded in training his children for work in this world, he has failed his little ones, perhaps eternally. He has been a failure as a father because he has failed to help his children find the eternal happiness which their souls, and the souls of all men, seek.—(By Rev. Alvin Illig.)

### Savings and Safety

The private companies operating at Niagara over the years have developed, through pilot-plant experimentation, a method of tunneling the water from the river above the falls to generating equipment several miles downstream. The operation will not affect the incomparable scenic beauty of the world famed cataract. But to our millions of long-suffering taxpayers the best thing about the private companies' plan for the Niagara project is that it will save at least \$390,000,000 in tax money! It will do something else, too.

On my desk is a campaign handbook of the Socialist Party. Point No. 1 of the platform reads: "Nationalization of our natural resources beginning with the coal mines and water sites." Also on my desk is the publication of

the "Public Ownership League." It dedicates the league to achieving a "public superpower system for the continent, especially the United States and Canada." The Socialist Party frankly says that government control of power is an essential first step into a Socialist government. The "Public Ownership League" knows this but doesn't say it. Private companies with imagination and courage can thwart the Socialist Party and its companion, the "Public Ownership League." In working at it, they need the support of an informed citizenry.

Asleep On The Deep

From where I sit ... by Joe Marsh

### Heard About the Electric Weather Predictor?

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting

the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" cider is the only thirst-quencher after a day's work. Far as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.

If you're a truck user, this fact is mighty important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. ### Insects Take Heavy Toll on Texas Stock And Poultry Profit

The battle between man and the insect kingdom goes on continuously. Whenever sanitation and control programs become ineffective, the bugs take advantage of the situation and rapidly increase in numbers with a corresponding increase in damages done. The annual toll taken by external parasites from the producers in Texas of livestock and poultry amounts to millions of dollars. Right now the extra dollars are needed to help keep production on the black side of the ledger.

The entomologists of the Texas A & M College System have released a publication, C-324, "A Guide for Controlling External Parasites of Livestock and Poultry in Texas", and it is available at the office of all county agricultural agents.

The entomologists point out that external parasites are present the year round and that lower production of meat, milk and eggs result when the bugs are not controlled. In addition, diseases are spread and infested livestock and poultry go down in condition because of the loss in energy and from annoyance. Organic insecticides, they say, will control the major external parasites and there is little excuse for allowing them to exist.

Included in the guide are formulas, mixing instructions and methods of application for a great number of insecticides along with an even longer list of the parasites that do the most damage. The information is given in a condensed form and is based on experiments conducted by the Texas Agricultural Experiment Station, the Bureau of Entomology and Plant Quarantine and Animal Industry of the United States Department of Agriculture.

Pull over, mister, said the traffic cop. I've been follerin' you for 10 miles and you haven't any tail light.

The motorist stopped, got out for a look, and turned pale with dismay.

Well, it's bad, but not that bad; said the officer.

It's not the tail light that bothers me, the motorist quavered, but what's become of my trailer and my family that was in it?

### YOSTEN FAMILIES HAVE PICNIC FOR VISITORS

Members of the Yosten families gathered at the city park Thursday evening for a reunion honoring Mr. and Mrs. Nick Mayer and children of Chicago as a farewell tribute. The Mayers left Saturday after a three-week vacation visit with relatives and friends.

Everyone brought covered dishes for a picnic supper. Group pictures were taken. These included pictures of the three sets of twins in the Yosten families: Jerome and Gerald Mayer, 23-month old sons of the Nick Mayers; Brenda and Glenn Cler, three-year old youngsters of the Werner Cler; Dennis and David Hess, seven-year old sons of Mr. and Mrs. Arnie Hess.

About 80 persons attended the affair.

### VISITATION NIGHT

Members of the First Baptist church held their weekly visitation night Friday. A group of 17 gathered at the home of Rev. Andy Stowe and after visiting friends and members of the church returned to the Stowe home for refreshments served by Mrs. Stowe.

### BIRTHDAY OBSERVANCE

Julia Ann Wolf observed her birthday with a chicken dinner at the home of her parents, the Bernard Wolfs. She was 17 years old. Presenting gifts to the honoree and enjoying the affair were Misses Lorene Fleitman, Edna Swirczynski, Norma Jean Klement, Joyce Wiesman, Ruby Lee Wimmer and Earline Walterscheid.

Instead of a regular meeting Monday night Boy Scouts of the local troop were treated to a theatre party at the Relax.

Misses Bernice Henscheid and Marianne Luke of Dallas spent the weekend here with family members.

## Local News BRIEFS

Miss LaQuita Cain was complimented with a dinner party Thursday evening at the Curtwood in Gainesville. The occasion was her seventeenth birthday. Her parents, the Dick Cains, were hosts and her sister, Rita, Miss Bernice Walterscheid, and Mr. and Mrs. Ray Evans were special guests.

The H. S. Millsaps and son, Jimmy, of Gary, Indiana, arrived in Saint Jo Saturday for a visit with her parents, the C. N. Worleys. On Sunday Mrs. Millsaps's sister, Mrs. Lester Harris and son James, and another sister and her husband, the G. E. Sloans of Fort Worth, joined the family group at Saint Jo. The Millsaps and Mrs. Worley came to Muenster Monday to spend the day in the Harris home.

The Dale Brushes and son, Rickey, of Towanda, Kansas, arrived Tuesday for a visit with the Ted Heilmans and the Tom McCullys.

R. W. Harris and the Harold Duncans of Irving were here Saturday for a visit with their son and brother, Lester Harris and family.

The Tony Trubenbachs Jr. and Miss Dolores Lehnertz were in McAlester, Okla., Friday evening and Saturday for a visit with the latter's fiancé, Bill Shively, who returned to Muenster with them for a visit through Sunday in the Joe Lehnertz home.

William Howard Taft was the first President of the 48 states.

Prof. Ed Harberson, science teacher at Cuero and an authority on wild flowers, was a guest in the Lee Toothaker home the latter part of last week. He identified wild flowers in Mrs. Toothaker's collection. Her hobby is wild flowers and she gathered and processed 50 plants which were on display at the Garden Club's flower show in May.

### "Only the New Holland could handle my corn and sorghum!"

Says Dr. Chas. F. Webb, Quinlac Farms  
R. 1, Oakfield, Tennessee

The New Holland Forage Harvester chops and loads up to 20 tons of silage per hour.

"Until last year, I harvested my silage mostly by hand using an old-fashioned binder. Then I decided to try a forage harvester. Three makes were demonstrated to me, including the New Holland.

"The corn and sorghum in my silage crop was unusually large—stalks ran as high as fifteen feet and up to two inches in diameter at the butt. Of the three forage harvesters, the New Holland was the only one that would make a round without stopping continuously to unclog the machine.

"I bought the New Holland and harvested approximately 45 acres, which averaged about 40 tons per acre, without any difficulty.

"I am particularly pleased with the reversible feature on the header and the large throat clearance at the fan enabling the machine to avoid clogging up and other delays. I am also pleased with the turning feature of the discharge spout as I use both trailers and trucks to haul silage."

**Ask your New Holland dealer**  
The New Holland is a compact machine designed for smooth operation... yet many owners report high capacity, too. Ask us for a demonstration on your own farm.

#### Model 621 Windrow Attachment

With this attachment you can harvest up to 18 tons of grass silage an hour. Extra-long spring fingers give positive pick-up. Overhead reel assures steady feeding.

#### Model 680 Forage Blower

Tilt-table blower has low, 22" operating position—swings up to let wagon pass. It can move up to 30 tons of grass and 40 tons of corn silage per hour. Wheels are retractable.

#### Model 610 Power Take-Off Harvester

This model has the same outstanding features as the self-powered harvester. It operates with full efficiency from any 3-pow tractor equipped with power take-off.

The Charles Milburns and family of Nocona visited her sister and family, the Johnny Wests at Bulcher Sunday. Patricia West accompanied them home for a several days' visit.

Visiting in the Bailey Dennis home at Bulcher Sunday were the Bennie Milburns and son, Chris, and Mrs. Wayne Dennis and children of Nocona, and Mrs. Thelma Boyles and daughter of Gainesville.

Lois Marie and Charlie Sue, daughters of the Charles Blakelys of Liberal, Kansas, visited their grandmother, Mrs. J. E. Blakely and other relatives at Bulcher while they were on a two-week vacation.

Sister Robertine of Bellville, Ill., was a guest Wednesday in the home of her niece, Mrs. Frank Felderhoff and family. She was in Cooke county to visit relatives of the Schad families.

The Calip Cannons had as their guest during the weekend her sister, Mrs. Ulis Burns of Wichita Falls.

Kewanee employes at Bulcher who are on two-week vacations are L. L. Pickett and Charles Crabtree. Bill Harrell resumed work Monday after his vacation.

Tech. Sgt. and Mrs. R. L. Shields and two daughters, Shirley Ann and Shiron Kaye, of Vallejo, Calif., spent the weekend with her uncle and aunt, Mr. and Mrs. R. J. Samples at Bulcher. Other family members joining them for a visit included Mrs. C. D. Johnson and daughter, Marlene of Archer City, and granddaughter, Cordelia Johnson of Odessa; the Charlie Parsons of Gainesville, Myrna Ruth and Troy Wayne Maxwell of Illinois Bend. Mrs. Johnson and Mrs. Parson are Mr. Samples' sisters.

Mrs. Callie Baumhardt has as guests her daughters, Miss Margie of Waco, and Mrs. E. A. McCreary, her husband and children, Butch, Caroline and Monte, of Sheffield, Texas. Margie has a two week vacation from her nursing school at Providence Hospital and the McCreary family has a month's vacation.

The Jack Hoehns and children, Sheila and Janie of Nocona, spent the weekend as guests in the home of his sister, Mrs. Ed Cler and family. The little girls remained for a longer visit.

**BULCHER PROGRESS CLUB HAS MEETING AND SOCIAL**

The Bulcher Progress Club held its regular meeting in the community park with a large attendance. During the business session at which Bailey Dennis, chairman, presided, members made plans to clean and beautify the park site which will be the summer meeting place of the club. They set Wednesday, June 17, as the cleanup date and the ladies served sandwiches and cold drinks to those taking part in the work.

After adjournment the group enjoyed an old fashioned ice cream supper followed by table games.

**SINGING AT SHILOH**

Everyone is invited to attend the singing convention at Shiloh Baptist church next Sunday, June 21, beginning at 1 p.m. Singers are especially urged to attend.

Mrs. C. D. McClaffin and daughter, Nancy, of Fort Worth were here for a weekend visit with her parents, the Charles Clers.

The Bill Derichsweillers and family were in Archer City Friday and Saturday for a visit with their daughter and family, the Bill Crows. Mr. Derichsweiler returned to work Monday after having a week's vacation.

Fifty Years Forward on the American Road

You don't have to pay costly-car prices for costly-car comforts. Ford brings you everything [and we mean everything] you've ever wanted in a car, at a price that's well within your reach! And according to recent surveys, a Ford returns more of its original cost when sold than any other car at any price!

Here are a few of the "Worth More" advantages you'll find in the '53 Ford:

- 1. A V-8 engine—powerful and smooth!**  
Ford's famous high-compression V-8 is a leader in quiet, flexible, economical performance. Ford, remember, has built more V-8's than all other makers combined—over 15 million!
- 2. America's most economical Six engine!**  
If it's a Six you want, Ford offers you the high-compression, low-friction Milceage Maker... the engine which, with optional Overdrive, won over all other cars in this year's Mobilgas Economy Run!
- 3. America's finest and most versatile automatic drive!**  
Fordomatic Drive is the "automatic" which gives you both the get-up-and-go of automatic gears and the smoothness of a fluid torque converter.
- 4. Automatic gas savings!**  
Ford's Automatic Power Pilot (on Six and V-8) meters just the right amount of gas, times ignition precisely, burns fuel evenly and completely.
- 5. America's newest and finest power steering!**  
Ford's Master-Guide power steering gives you new ease, stability and safety in guiding your car on smooth roads or rough. Steering is up to 75% easier.
- 6. Largest choice of models in the low-price field!**  
Ford alone gives you a choice of 18 different models... a SIX or V-8... Fordomatic, Conventional or Overdrive... the widest variety of body, color and upholstery combinations.
- 7. A body that's the style-setter!**  
Only Ford in its field gives you the advantages of a hull-tight Crestmark Body... the trend-maker in design and beauty. Ford's body is the longest and Ford's trunk, the largest.
- 8. New driving conveniences!**  
Ford's first in its field with "Worth More" features like... easier-acting, suspended pedals that eliminate floor holes... foam rubber cushions on front and rear seats in all models... and convenient Center-Fill Fueling.
- 9. An automatically controlled ride!**  
The wide front tread (widest in the low-price field) takes tilt out of turns... gives you a more level ride. With new "balanced suspension," new spring and shock absorber action and new rubber compression bumpers, road shock in the front end alone is reduced up to 80%.
- 10. It's worth more when you sell it!**  
An impartial survey of used car prices proved that Fords return a greater proportion of their original cost than any other cars in America.

But don't take our word for it. Stop in and Test Drive this Ford for yourself. We predict you'll be sold before you're in second! It was true last year and it's even truer this year: you can pay more, but you can't buy better than Ford.

**WORTH MORE WHEN YOU BUY IT... WORTH MORE WHEN YOU SELL IT...**

## Local News BRIEFS

Messrs. and Mmes. Dick Cain and Ray Evans have returned from a ten day vacation trip to Mexico City. They saw a real bull fight, visited beautiful old cathedrals, saw the new university in construction, enjoyed a tour through the president's palace, inspected the pyramids built hundreds of years ago by the Indians to their sun gods, and went to horse races.

Mrs. Annie Needham has returned to her home in Waco after a visit with her son, Frank Needham and family.

Johnny Hacker has gone to Wichita Falls to work for Anderson Drilling Co.

Ralph Maglaughlin, Emmitt Yoder, Lee Toothaker and Roy Endres Jr. were at the Texas Research Foundation at Renner, north of Dallas, for grass and fertilizer demonstrations Thursday.

Local friends of John Furbach of Amarillo, formerly of Muenster, this week received greeting cards from him posted in Paris, France. Messages on the cards disclosed that he was going from France to Switzerland and on to Germany in July.

Greeting cards from Sister Theresina arrived this week from Washington, D. C., where she and Sister Amora are attending a 10-day workshop at the Catholic University. The course extends from June 12 to 23. Best wishes were included for all of the Sisters' friends.

Mrs. Cecile Fry of Dallas was here Saturday to visit her parents, the Andy O'Connors.

Mrs. Katherine Kastner and daughter, Betty Lou, of Denver, Colo., are visiting her mother, Mrs. William Bergman and other relatives.

Mrs. J. B. Schmitz and Mrs. Bill Lutkenhaus and daughters, Judy and Janet, were in Sherman Tuesday. Mrs. Schmitz, who has been taking treatments from a throat specialist, was released from the doctor's care but will have to continue home treatment for some time.

**TOP DOG** — "Master Sgt. Angel Face" steps outside his quarters at Ft. Hood, Tex., to take a look around. The "sergeant" was acquired by trainee members of "Dog" Company as a mascot and will become a member of the company.

The Walter Huchtons and children left Saturday to return to their home in Laredo after a week's visit with his mother, Mrs. O. J. Huchton and family here and her parents, the John Bengforts and other relatives in Lindsay.

Mr. and Mrs. George Swirczynski of Fort Worth were weekend guests in the home of his parents.

Mrs. Al Horn of Dallas spent Wednesday and Thursday here with her sister, Mrs. Ray Wilde and family. Al came to Muenster Thursday evening for a visit with his mother, Mrs. J. S. Horn, and Gertie accompanied him back home.

Mrs. Grace Wortham of Wichita Falls spent Thursday here as the guest of Mrs. E. P. Buckley.

## Aquarium Favored By Sight-seers at State Fair Park

The Aquarium at State Fair Park is a favorite sight-seeing spot for visitors to Dallas, with a yearly attendance of over half a million.

The Aquarium is open daily and admission is free. There are more than 4,000 fish and amphibians of some 225 different species living in tanks through which approximately 100,000 gallons of water is in circulation at all times.

A gallon of water is used up every second, but with no strain on Dallas' water resources, for the Aquarium has its own well. The used-up water from the Aquarium is discharged to the beautiful three-acre lagoon across the street.

The Aquarium has a fine collection of cold water fish which live in tanks whose water must be chilled to make it a liveable temperature for them. This also helps to make things comfortable for Aquarium visitors in the summertime, since the large volume of water in circulation in the tanks also cools the air inside the building.

The specimens on display in the 18 large tanks range from tropical fish of almost microscopic size to monsters that require tanks holding 3,000 gallons of water. There are tropical fish from every major tropical river system in the world, including the Ganges in India, the Amazon in South America and the Nile in Egypt.

Unusual creatures on exhibit include man-eating piranhas, neon tetras, a champion jumping frog, a gigantic alligator, snapping turtle, harbor seals and electric eels generating 250 volts of electricity.

The Aquarium was constructed as part of the Texas Centennial Exposition in 1936.

President Ulysses S. Grant was the only president ever to be arrested during his term of office. He was arrested for exceeding the speed limit while driving a team of spirited horses through the streets of Washington.

George Washington's first employer was Lord Fairfax, whose lands he surveyed.

It was by the Hay-Bunau-Varilla Treaty of November 18, 1903 that the United States gained the sovereignty of the canal strip at Panama.

# Only DODGE gives you SO MUCH FOR YOUR MONEY!

### SO MUCH ECONOMY

Dodge sweeps the field over all other "eights" in famous Mobilgas Economy Run! You've got a winner when you get a Dodge.

### SO MUCH DRIVING EASE

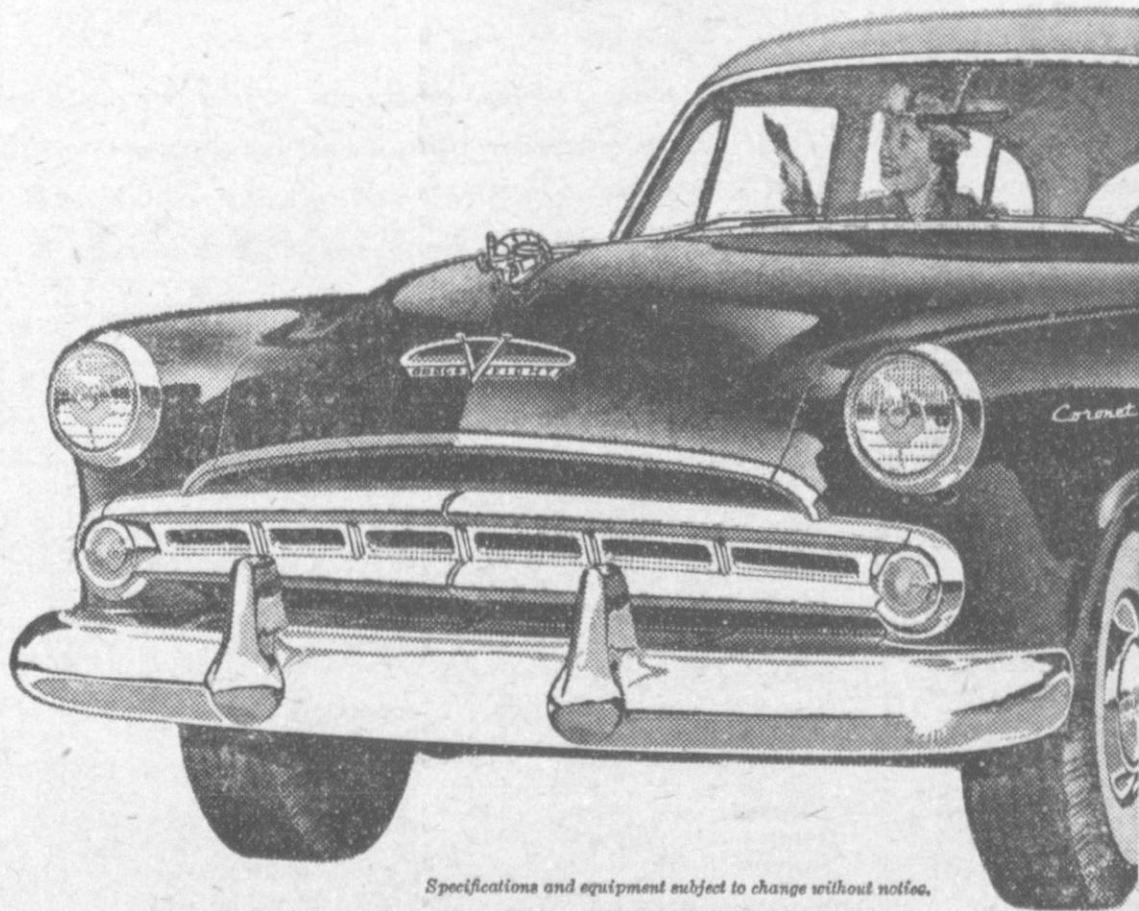

Compare Dodge with all others for highway action, maneuverability in traffic, parking ease. See how it "snugs down" on curves.

### SO MUCH COMFORT

Compare the extra support of chair-high "Comfort Contour" seats... the extra smoothness of Dodge "Oriflow" ride.

### SO MUCH DEPENDABILITY

Compare rugged, solid construction... longer-lasting baked enamel finish... extra value engineering. Honest quality makes dependability a "buy-word" for Dodge.

Specifications and equipment subject to change without notice.

**HOW TIMES HAVE CHANGED!**

A set of rules posted in an Illinois store back in 1880: Store must be open from 6 a.m. to 9 p.m. the year 'round. Store must be swept; counters, shelves and showcases dusted; lamps trimmed, filled and chimneys cleaned; doors and windows opened; a pail of water and a bucket of coal brought in before breakfast. The employe who is in

the habit of smoking Spanish cigars, being shaved at the barber's, going to dances and other amusement, will assuredly give his employer reason to be suspicious of his integrity and honesty. Each employe must pay not less than \$5 a year to the church and must attend Sunday School regularly. Men employes are given one evening a week for courting. After 14 hours in the store the leisure hours should be spent for the most part in reading.

**Fisher Herd Leads May DHIA Record**

Paul Fisher's cows topped production among DHIA herds in May becoming the champions for the second consecutive month, according to a report for the month released Tuesday.

A summary for May shows 26 herds in the association tested. There were 685 cows in milk with 193 of that number producing 40 pounds of butterfat or over. Average pounds of butterfat per cow was 29.6 and average pounds of milk per cow was 750.

During May, Fisher's 20 cows averaged 980 pounds of milk and 42 pounds of butterfat. Twelve were in the 40 or over bracket with one reaching 71.

Other high herds, in the order named, were those of Henry Frasher, Richard Frasher, Peter Prescher and Raymond Porter.

Muenster DHIA members had 54 cows including Fisher's in the 40 or over group, as follows:

Alfred Bayer, five 40 to 60; C. A. Fisher, four, 40 to 53; Joe Fisher, three, 41 to 50; J. W. Fleitman, eight, 40 to 58; John Knabe, eight, 41 to 75; Ben Sicking, one, 40; Martin Bayer, six, 40 to 48; Paul Fetsch, seven, 41 to 53.

John Knabe had the second high individual producer with 75 pounds of B.F., nosed out only by a 76 pound producer owned by Richard Frasher. The third high producer with 74 pounds belongs to H. F. Schneiderjan.

Among others in the high B.F. group were herds belonging to Tony Nehib who had nine cows averaging from 40 to 60; Peter Prescher, twelve, 40 to 65; H. F. Schneiderjan, twelve, 40 to 74; Hoedebeck and Myers, eight, 41 to 61; Albert Klement, three, 40 to 44; Tony Reiter, two, 40 and 42.

In April members milked 734 cows in 28 herds with 259 in the 40 or over bracket. Average pounds of milk per cows was 780, and average pounds of B.F. was 30.7.

The individual champ producer

belonged to J. W. Fleitman and accounted for 89 pounds of B.F. Second and third place winners belonged to Peter Prescher, 81, and Hoedebeck and Myers, 80.

In March, Peter Prescher's herd out-produced other association cows both as a group and as individuals with one reaching 117 pounds of B.F. and another producing 100 pounds. John Knabe had the third high individual producer with 81 pounds.

**MILLIONS SPENT ON MILITARY PLAY**

The Armed Forces diverted \$22,000,000 of defense funds to set up recreation centers in Hawaii, spokesmen for the General Accounting Office reported at a recent meeting of a House Appropriations sub-committee.

The centers included 80 tennis courts, 23 athletic fields, six golf courses, seven beach areas, eight gymnasiums, 16 officers clubs, and 24 theaters, the witnesses said. Congressmen who believed Hawaii had plenty of public play facilities questioned the need of such expenditures, especially when done without authorization from Congress.

**NEU - DIETER WEDDING SCHEDULED FOR JUNE 25**

Mrs. Martha Neu of Gainesville has announced the approaching marriage of her daughter, Juanita, to Jerome Dieter, son of Mr. and Mrs. Val Dieter of Lindsay.

The wedding will be solemnized in St. Mary's church on June 25 at 8:30 a.m. Rev. Herman Redder will officiate.

Miss Dorothy Neu will be her sister's maid of honor and Miss Imogene Neu, a cousin, will be bridesmaid.

Mr. Dieter's attendants will be his brother, Rudy Dieter, and Weldon Bezner.

The bride-to-be is a graduate of St. Paul's School of Nursing in Dallas and is employed at Gainesville Sanitarium. The prospective groom is a graduate of Lindsay High and recently received his discharge after service in the Navy.

As a pre-nuptial courtesy Miss Neu was honored with a miscellaneous gift party Friday evening in St. Mary's hall. Misses Dorothy Neu, Lydia Krahl and Charlotte Hoedebeck, hostesses, directed table games and served refreshments of cake, punch, mints and salted nuts to 18 guests. The honoree's chosen colors of ivory, pink and aqua were stresses in decorations. An arrangement of pink asters centered the refreshment table which was covered with an ivory linen cloth.

**BIERSCHENK FAMILIES HAVE REUNION SUNDAY**

Members of the Bierschenk families gathered Sunday in Weatherford at the home of Mr. and Mrs. J. W. Wright, son-in-law and daughter of the Joe Bierschens, for an all-day reunion.

Present were the Joe Bierschens and son of Grand View, the Roman Bierschens and family of Tempel, the G. J. more than a hundred trucks. Hence, in spite of the comparatively short haul truckers needed about a full day for every load.

Jack Biffle, buying for Kimbell sent only about 1,000 bushels in for storage before he was cut off. After that Felderhoff got practically all the grain for a while... until the traffic problem slowed him down. Then farmers started crowding Kimbell to get rid of their loads.

To date Felderhoff has handled a total of almost 50,000 bushels and Biffle has handled about 16,000 bushels. But that doesn't represent the local wheat crop. More thousands are stored in home bins awaiting an improvement in the government storage situation.

Reports indicate that the phenomenal yields were few and far between and the average for the community settles down to about 30 bushels per acre. But that's still a bumper crop where the average is usually under 15.

tion of his 25 years of service as a priest.

Refreshments of punch and individual small cakes iced in white with silver dragees, and mints were served from a table covered with white linen with a centerpiece of daisies and bells of Ireland in a silver container flanked with white candles in crystal holders. Across the table in silver lettering were the words "Congratulations on Your Sacred Jubilee".

Mmes. Jack Howard, H. P. Schad, T. L. Anderson, J. B. Pace and Joe Walter alternated in serving.

Mrs. Fred Dulock presided at the guest book.

The religious part of the observance was held on the preceding Wednesday when Father Redder officiated at high mass and sacramental benediction in St. Mary's church.

He is a native of Rhineland, Texas, and attended school there, then studied at Subiaco, Ark., and at St. Mary's Seminary in LaPorte. He was ordained by Bishop Joseph P. Lynch in Dallas.

His first parish work was in Pilot Point. From there he went to Henrietta and then to Scotland where he spent 20 years before being assigned to Gainesville in January of this year.

## More Silage with less Power and Labor

An Allis-Chalmers Forage Harvester and your own farm tractor with power take-off handles your big-tonnage forage crops — green or dry.

Equipped with the row-crop attachment, the Allis-Chalmers Forage Harvester will harvest all silage crops grown in rows... from tall corn to sorghums. One man — the tractor operator — handles the machine. Labor costs are reduced to a minimum.

This year harvest your own forage crops with the one-man operated Allis-Chalmers Forage Harvester and your own tractor. Auxiliary motor is available for light tractor power or abnormal field conditions.

**In case it doesn't rain...**

Don't lose the value you already have in your corn. If you see it can't mature, harvest it as a silage crop with an Allis Chalmers forage harvester.
