NUMBER 30

Farmers Will Vote June 25 on Wheat Marketing Quotas

Well, here we go on another loop of the inflation spiral. Our senators in Washington have passed a bill raising the national minimum wage from 75 cents to \$1.00 an hour, and Ford agreed to give the United Auto Workers a contract patterned very much after Walter Reuther's demand for a guaranteed annual wage.

According to Reuther's estimate the "package" which was agreed upon amounts to a raise of about 20 cents an hour.

The ink was hardly dry on the new contract before other labor outfits served notice they would demand similar contracts. They want them in all the big lines of industry... automotive, farm equipment, steel, electrical manufacture, and plenty of others. And since the pattern is set we have little reason to doubt that their demands will also add some 20 cents per man hour to the cost of goods produced.

In other words prices will be going up again. There can be no other result. The companies that pay the extra costs will have to get their money out of the public in order to stay in business.

That brings us back to an old, old question. What is gained in the end by a general hike in wages?

Let's consider the very fellows who get the extra money. The first ones get a head start, that's true, and are able to cash in on some of their raise before the general price increase catches up with them. But even their advantage doesn't last long, then they're back to contending with the same old ratio of income and expense.

And that's only half the story. While the value of money in the pay envelope depreciates the value of money in the sock does the same thing. The money a person has saved, such as insurance, bonds, or cash in the bank, is worth proportionately less than before.

We've seen more than enough of this in the past fifteen years, but apparently still not enough to learn our lesson. Many a man who bought bonds in the early forties felt the effect of inflation. The \$100 he received after ten years would not buy as much as the \$75 he invested originally. He lost even in spite of the interest his investment earned.

A man who had insurance was another loser. A policy of \$2,000 or \$10,000 was considered an adequate protection for his survivor when he started paying in the thirties. When paid off 10 or 15 years later it represented a mere fraction of the intended provision. Money in bank accounts depreciated the same way.

The effects are obvious in every village and city of the country. People who practiced the old fashioned virtue of thrift in any way took a financial beating. Most pathetic cases of all were the older folks who had toiled for years to provide their own security in old age. Inflation shrunk their savings until they were practically destitute.

With millions of such case histories staring us in the face, we fail to understand the perpetual demands of labor leaders for more money. To our way of thinking, every general raise in wages, every so-called victory for the working man, is a cruel injustice in disguise. The worker gains nothing when higher price absorbs his higher wage, but he loses when higher price shrinks the value of his savings.

Like the concession to UAW, the increased minimum wage is another step in the wrong direction. Besides depriving some people of work, because employers cannot afford to keep them at the higher wage, this change will boost all wages. More capable workers will have to be raised accordingly when ordinary help gets its raise. Failing to do so would be unfair. Again the general wage boost has to be tacked to selling price and the worker's dollar is worth proportionately less.

Big shots of labor will not go along with this line of thought, of course. They point with pride to the marvelous improvement in our standard of living during the time they have been pushing wages up and up. Their claim is plausible too, until one re-

(Continued on Page 12)

Parish Uses New Shrines for Corpus Christi Observance

For the first time in about a half century the Sacred Heart Parish visited different shrines in its annual Corpus Christi procession last Sunday.

Ever since the early part of the century the congregation had marched to the two small chapels at the northeast and southeast ends of the parochial school playground. In recent years both have deteriorated badly, besides one was directly in front of the new high school building. So both were removed during the past year.

The shrines last Sunday were temporary altars built at the front entrances of the elementary and high school buildings. The procession with the Blessed Eucharist stopped at each station for prayer and benediction and returned to the church for a third devotion.

WITH THE MEN IN SERVICE

Complete Leaves

Airmen Delbert Walterscheid and Wilmer Walterscheid completed leaves at home and left Friday for their new assignments at Keesler AFB, Biloxi, Miss. They visited their parents, the H. A. Waltersheids and the Alfons Walterscheid after finishing basic training at Lackland AFB, San Antonio.

Gets Promotion

Vincent J. Bozzone was advanced from second to first lieutenant recently at March Field, Calif., where he is stationed. His wife is the former Miss Laura Streng of Muenster and they are at home in Sacramento.

Back In The States

Marine PFC Jerry Hoenig telephoned home Sunday evening from Camp Pendleton, Calif., to tell his parents, the Joe Hoenigs, that he had arrived that afternoon from Korea where he was on duty eight months. He said the trip home took three weeks and was an enjoyable voyage. He also mentioned that Cpl. Billy Stoffels, son of Mrs. H. P. Stoffels of Lindsay, came back at the same time.

Serving In Korea

Pvt. Vincent Walterscheid, son of Mr. and Mrs. Frank Walterscheid of Hereford, formerly of Muenster, is on duty in Korea since he received his overseas assignment. Friends from here can write him at the following address: Pvt. Vincent C. Walterscheid, US 54151296; Btry. B, 68th AAA Gun Bn.; APO 76, San Francisco, Calif.

In Finance Office

PFC Willard Hartman is now working in the finance office at Camp Hanford, Wash., where he was assigned recently following special training. He writes his folks, the Victor Hartmans, that he spends occasional weekends in Spokane with a buddy and has got in quite a bit of sightseeing. A recent tour included a visit to Grand Coulee Dam.

In The Field

PFC Mike Driever is spending this month with his company on a field problem in the Grafenwohr area in Germany. He is stationed at Augsburg as a driver for a colonel with Headquarters, 5th Division Artillery. He mentioned, in a letter this week, that the weather is warm and dry now and that the countryside is beautiful. And he included regards to all his friends.

Leaves For Duty

Captain Jane Hoehn left Tuesday to report for nursing duty at Fitzsimons Army Hospital, Denver, Colo., after a two-week leave spent here with her sister Mrs. Ed Cler and family and relatives and friends in Fort Worth and Nocona. Enroute to Denver she stopped at Dumas to visit her brother Bill Hoehn and family. She made the trip by car.

Has Army Discharge

Billy Ray Fuson, recently discharged from the Army after serving in Germany, visited his grandmother Mrs. J. S. Russell at Myra recently and is now at home in Seminole. His mother is the former Dude Russell of Muenster.

Community Nears End of '55 Harvest

1955 grain harvesting in the Muenster community is well past the half way stage. Deliveries to the two local grain elevators have been tapering off since the beginning of the week as one farmer after another finished his crop.

However, the wheat business is not due for a sudden stop. Some farmers with more acreage and a few who have just started on smaller acreage will be on the job at least until the end of the week... and longer, if more rain comes.

Up to now the weather has caused some delay but very little worry to the farmers. Two rains were followed by good drying weather that permitted machines to get back on the ground in a few days.

Reports at both elevators indicate an average community yield of 12 bushels per acre. Most estimates fit in the 10 to 15 bracket. However others run as low as 4 and as high as 26. The average test is 58.

All of the crop delivered up to now has been sold directly, the price standing at \$2.12 per bushel most of the time. Last year the market fizzled after a few days and most of the wheat went into the government storage plan.

Booklet on Rural Youth Will Feature Photos Taken Here

John Surratt of the Community Research Foundation of Dallas is well supplied with pictures of Muenster after his visit here last Friday.

He has a big variety of black and white pictures to be used in a booklet entitled "The Future of Rural Youth", and as many colored pictures to be projected on a screen in connection with his lectures on the same subject.

The Community Research Foundation, an organization headed by Karl Hohlitzelle, prominent business and civic leader of Dallas, strives to help Dallas by helping develop the rural communities of its trade area.

Surratt said the booklet he is preparing will emphasize the urgency of developing local improvements and local opportunities to keep local talent and energy at home. Muenster will be featured in it as the community which has a better record in that regard than any other of the Dallas trade area. About six towns were considered in the selection of a town to feature.

Pictures were taken at the NTPA milk plant, the Enterprise, the cemetery and the memorial ball park. Groups featured were students and the Garden Club.

Thursday Shower Measures .92 Inch

A .92 inch shower early Thursday seems to have been just fine for everybody except the few farmers still cutting grain and the fellows working on the swimming pool and sewer.

Both of those jobs will need a general clean-up before the projects can go on. Forms where concrete was to be poured Thursday... in the filter pit... have lots of water and silt. The same is true of the main pool, however it can be emptied through the drainage pipe without much trouble.

A stretch of newly dug sewer ditch is another mess. It happened to cross a small drainage ditch which filled the sewer ditch brim full. Banks also caved in at various places. To dispose of water Steve Moster pulled the plug in the sewer line and let the ditch drain through the pipe already laid. After water is gone he will have to clean out mud to establish the old level before he can install more pipe.

The rain also delays what harvesting is left but more than compensates with benefits to other crops and pastures. It is fine for hay and grazing and practically assures a good corn crop.

The rain brings the June moisture measure to 3.52 inches.

Swimming Course Urged for Training Local Instructors

A course in swimming instruction at the Muenster municipal pool next summer can be assured this summer if a number of local adults will take the Red Cross life saving and instructing course to be given at the Gainesville pool in July.

A report on the course, and the opportunity of using it as a starter for Muenster's swimming program, was explained by Arthur Endres after attending the directors' meeting of the county Red Cross chapter Tuesday afternoon.

He said the Red Cross course will be offered the second and third weeks of July, and it can be used by Muenster as a means of assuring swimming instructions for the kiddies here next year. Mrs. Paul Yarborough, chairman of the organization's swimming program, explained that Red Cross will provide a supervisor for instructions here if Muenster will have the qualified instructors.

She also recommended that Muenster should send 12 to 15 adult strong swimmers (18 years or over) to the life saving and instructors course. Out of that many graduates the community can expect to have a sufficient number of instructors on hand next year. She mentioned that men and women are both welcome, however men, with their jobs to take care of, are less likely to be available to teach the kids. For that reason women are especially encouraged to take the course.

NEWS OF SICK AND INJURED

R. P. Cain is recovering from a few rough days with pneumonia. Says he inhaled too much of the stuff while using a paint spray gun.

Gayle Sicking, 17-month-old daughter of Mr. and Mrs. Wilfred Sicking is back at home recovering from surgery performed at Gainesville Sanitarium on June 9.

Miss Willie Sowder is ill at her home, improved this week after being seriously sick during the weekend. Friends and neighbors take turns staying with her day and night.

14 Muenster Boys Off to Summer Camp

Father Christopher Paladino and 14 local boys left Sunday to spend this week at Camp Subiaco, Ark. They made the trip in the Tiger bus, and were joined at Gainesville by a group of boys from Fort Worth who went with them from there.

Going from here were Charles Bayer, Richard Herr, Jerry Endres, Tim Fette, Lloyd Klement, Donald Hennigan, Clifford and Jerry Pels, Werner Becker Jr., Jimmy Gehrig, Richard Zimmerman, Gene Hoenig, Jimmy Schumacher and Herbie Cunningham.

Ray Luke was also on the bus. He returned to Subiaco for summer school.

N. Texas Dairymen Receive \$5.16 Base Pay for May Milk

Producers supplying milk for the North Texas fluid milk market (Dallas and Tarrant Counties) are to be paid a minimum of \$5.16 per hundredweight for base milk sold in May 1955, according to an announcement by Byford W. Bain, Market Administrator. Excess milk sold during the same period is to be paid for at not less than \$3.10 per hundredweight. For each point (0.1%) that the average butterfat content varies from 4.0%, a butterfat differential of 6 cents applies. Payments for May milk are to be completed by not later than June 15.

This price was computed from reports submitted by milk handlers regulated by the North Texas milk marketing order. The May base price this year is 67 cents above a year ago, but 17 cents below April 1955; and the May 1955 excess price is 31 cents above a year ago, but 6 cents below April 1955.

Series of Meetings In July Will Shape Progress Plan Here

The community clinic, in which people of Muenster will have the opportunity to determine what improvements they want and what projects they are willing to work for, will be conducted here during the second and third weeks of July.

That decision was made Wednesday night by committee chairmen of the Lions Club, the sponsoring organization, in a special meeting with Stan Shively of the Texas Power and Light public relations department.

The start was postponed to July 7 because Mr. Shively, who will conduct the meetings, has other engagements until that date.

He explained that the object of each meeting is to familiarize the group with the principal purpose, which is to make improvements that will make their community a better place in which to live and make a living, then to compile a record of suggestions by which those improvements can be realized.

Cards will be passed out at the meetings and people will have ample time, while suggestions are made and discussed, to jot down their preferences. Finally each person will be asked to indicate the kind of project he or

(Continued on Page 12)

Cement is Problem In Completion of Pool This Summer

Muenster will get to use its swimming pool for at least a part of the summer if the present rate of progress continues. On the other hand the job might be held up for weeks awaiting the arrival of cement. In that case the season could be over before the pool is ready.

That was the opinion expressed Wednesday by Jerome Pagel, construction supervisor. He hopes a car load of cement for the pool's wall will be here by the time forms are ready, about the end of next week. He adds, however, that the scarcity of the material lately offers no assurance that it will be here when needed.

On Wednesday men were completing forms for the filter pit walls. Concrete there was due to be poured on Thursday. The city has enough cement to complete that work.

Next to be done is the pool wall, which must be finished before remaining work can be started. The other jobs principally are sidewalk and fence around the pool and installation of pool fixtures. A bath house and kiddies' wading pool may be finished after the pool is open.

Meanwhile Steve Moster and his sewer construction crew are about keeping pace with the pool builders. For the past few weeks they have been installing the lower end of the 6500 feet of new sewer line west and south of town. Before the end of the week they expect to reach the spot at which the sewer line from the pool will connect. Then they will install both sewer and water line for the pool before going on with their present installation.

Revival Week Set At Baptist Church

A week of revival services will begin Sunday at the First Baptist church. The opening sermon will be preached at 11 a.m. and all other services will be held at 7:30 p.m. throughout the week.

Rev. S. D. Pettijohn, pastor, will be the revival preacher. E.S. Lawson will be song leader and Mrs. Charlie Clayton Jr. will be pianist.

SCHEDULE OF COMING EVENTS

TUESDAY, June 21, Lions Meeting.

FRIDAY, June 17, Softball, Bombers vs Overton of Sherman.

WEDNESDAY, June 22, Softball, Bombers vs Woodbine.

THURSDAY, June 23, Softball, Bombers vs Sinclair.

Local News BRIEFS

Mr. and Mrs. Bob Hinton were here Wednesday to spend the day and overnight with Mr. and Mrs. Al Walterscheid and stopped for brief visits with other relatives. Mrs. Hinton is the former Miss Regina Franken of Muenster. They were enroute to their home in Pasadena, Texas, after a two week vacation trip that took them through several states sightseeing and visiting in Denver with her brother, Bill Franken and family, and in Wichita, Kansas, at the Air Force Base where their older son, Carl, is stationed. His wife lives there with him. The Hinton's other son, Jimmy, is spending two weeks at Air National Guard camp at Biloxi, Miss.

Mr. and Mrs. Joe Luke returned Monday from a weekend visit with their son and family, the Norman Lukes, in Shreveport, La. On Sunday they attended the christening of their new grandson Norman John Jr.

Miss Hazel Lerner spent Tuesday in Wichita Falls where she had a regular dental appointment.

When Mr. and Mrs. M. B. Theimer were recent visitors here with her sister and family, the Ray Wildes, they bought a new half ton Chevrolet pickup. Theimer will use it in his plumbing business.

Miss Gertrude Cler returned to Dallas Sunday after spending a week with her mother, Mrs. Charles Cler.

Mr. and Mrs. J. R. Winstead had as their guest for the weekend their son Doyle Winstead of Amarillo who went from here to Dallas to attend a two-week school for insurance agents.

Joe Knauf and Mrs. A. T. Dickerson have been dismissed from Gainesville Sanitarium after medical care.

Mr. and Mrs. Lawrence Knabe and five children were here to visit relatives last week. They moved to Gainesville from Hereford where they lived about a year.

Mrs. Ben Seyler, joined by her daughter Mrs. Lambert Bezner and son Jacob, left Wednesday for a visit in Midland with their daughter and sister, Mrs. Darrell Adams and family.

Guests in the Dick Cain home last Wednesday and Thursday were Mrs. Cain's sister Mrs. Lloyd Hefner of Amarillo, another sister Mrs. Pete Smith and three children of Lubbock, and her niece Mrs. Donald Volkman and two children of Fort Worth. Joining them on Thursday was another sister Mrs. T. C. Rhone and children of Bowie.

The J. H. Ottos are owners of a new 1955 Dodge V8 4 door sedan.

Mr. and Mrs. L. A. Bernauer, Mrs. John Meurer, Mrs. A. H. Rebirth and Miss Marian Starke drove to Fort Worth Sunday to spend the day with Mr. and Mrs. Charlie Stelzer.

Jack Fletcher of Mineral Wells stopped for a short visit with his parents, the J. W. Fletchers, Wednesday, as he passed through here on business.

Sixteen Wichita Falls boosters representing 14 of that city's business firms stopped in Muenster Wednesday afternoon to distribute the 1955-'56 Buyer's Guide. The group of wholesalers travels all over North Texas and Southern Oklahoma on good will tours.

AT FIRST MASS IN IOWA
Mrs. Joe Starke is back at home after a week's vacation that included sightseeing and attendance at the first mass of her cousin, Rev. Robert Theile, on June 9, at Ashton, Iowa. She made the trip with her brother and his wife, Mr. and Mrs. Lawrence Schettler and her father H. B. Schettler of Oklahoma City. The group visited in St. Paul, Kansas, with H. B. Schettler Jr. and his family, enjoyed an inspection tour of Boys Town, and visited Devil's Gulch at Garrison, S. D. among other interesting spots.

TO HUMBLE CONVENTION
William J. Miller, local Humble Station operator, and Mrs. Miller, will attend a special service station managers' convention in Dallas June 20 and 21. The convention is the first of its kind ever held by Humble and will be attended by approximately 500 other Humble service station managers in North East Texas.

Mr. Miller, along with other managers, will hear messages from leaders in the petroleum, automotive, and supply industries and will see exhibits and demonstrations explaining the latest trends and developments in these industries.

You can write a check on anything if you use the correct form.

HISTORIC NEWS FOR LABOR'S RELATIONS—Intense interest of all labor is mirrored by the faces of these Ford production workers at Ford's River Rouge, Mich., plant as they read of the precedent-setting three-year Ford-United Auto Workers (CIO) contract, which brings a guaranteed annual wage for hourly paid employes in the auto industry a big step closer to realization. The new contract guarantees supplemental wage payments of over 60 per cent of normal take-home pay, for as long as 26 weeks, in case of lay-offs. Payments will be figured to make up the difference between unemployment benefits and the 60 per cent-plus figure and will come from a 55-million-dollar fund, yet to be set up. Plan goes into effect June 1, 1956, when fund will have reached a volume from which payments may be drawn if necessary.

"Cold" in Cans Is Dry and Re-usable

As a progress note in this ain't-science-wonderful age, we should like to report that you can now buy ice (as well as beer, wine, soft drinks) in CANS!

Of course, if you don't care for picnics, dislike fishing, never go boating or hiking and wouldn't think of taking a lunch with you on an auto trip, they might just as well have kept on delivering your ice in the ice-wagon.

But if you do want ice that will cool things, and keep them cold for 24 hours or more, without getting them wet, this new canned ice is for you! It comes in six ounce cans, like frozen orange juice. And when you feel a picnic or a fishing trip coming

on, you put these cans in the freezing compartment of your refrigerator. Whatever is in the cans freezes faster than water—and colder. The four scotch plaid cans that you buy in a matching carrying case equal the cooling effect of 36 ice cubes—and without any soaking, slopping or general messiness. When you get back home, you pop 'em in the refrigerator again so you'll be all set for the next trip.

Two of the cans in a lunch box (packed at 70 degrees) will hold the contents at 40 degrees or lower . . . and you can keep the other two in the refrigerator for tomorrow.

Come to think of it, this dry-cold is the only canned commodity that you can use without a can-opener (and better not!). It

is also the only thing that comes in a can that can be used over and over, summer after summer . . . which may be why they call it "Skotch Ice."

Imagine! Buying ice, re-usable ice, at that, the way you'd buy a can of tomatoes. What would Grandpa say?

Kill Screw-worms With EQ-335 Smear

COLLEGE STATION—Branding, dehorning, castrating and other seasonal livestock jobs may open the way to screw-worm infestations unless effective controls are used.

Stockmen are advised to be on the alert for these costly insects and to treat all fresh wounds on livestock, infested or not. One application of EQ-335

smear should do the job, says C. F. Garner, extension entomologist. Large wounds may require a second treatment. EQ-335 contains lindane which gives a lasting killing effect.

Apply the smear directly to the wound, then put a small ring around the opening.

Screw-worms increase rapidly once present. If headed off from the start, a lot of trouble and needless loss can be avoided, Garner says.

Mr. and Mrs. Herbert Heinrich and son Jerry of Slaton visited the latter part of last week with her niece and family, the Wilfred Sickings, and were in Lindsay for a visit with her sis-

ter, Mrs. H. P. Stoffels and other relatives. They were enroute to Arkansas to spend their vacation at a resort. Mrs. Heinrich is remembered here as the former Miss Marie Angerer.

54 Enroll in Bible School Opening Day

Fifty-four children enrolled in the Vacation Bible School at the Baptist church on opening day and more have been joining the classes since then. Classes are being held every morning this week from 9 to 11 o'clock through Friday when there will be a picnic and swim party at Leonard Park.

The social event, originally set for registration day, Friday, was postponed on account of the cool weather.

Commencement exercises for students will be held at the church Sunday night at the 8 o'clock service. Three groups will participate: beginner, primary and junior with students ranging from pre-school age into the teens.

Crusaders Organize And Elect Officers

Members of the local crusade crew, meeting recently, formed a permanent organization, the Confraternity of Christian Doctrine for Sacred Heart parish, and elected officers.

Rev. Louis Deuster conducted the meeting in the parish hall and outlined aims and objectives of the organization.

Objectives listed include instructions for school children and adult groups, retreats, distribution of Catholic magazines, pamphlets and newspapers, instruction classes for non-Catholics and the organization of discussion clubs.

Members who can are asked to spend one hour a week in confraternity work. Meetings will be held once a month and the executive board will hold a spec-

ial meeting once a year to arrange a 12 month program of activity.

Officers are Mrs. Gary Hess, president; Teddy Gremminger, vice president; Mrs. J. W. Fisher, treasurer; Miss Elizabeth Herr, secretary. The pastor is the director and committees are headed by Anthony Luke, goodwill; Mrs. Arnold Rohmer, discussion clubs; Miss Mary Becker, library work; Mrs. J. M. Weinzapfel, home solicitation. Committee chairmen are to select helpers.

Third Order Sets Membership Record

That the local Third Order of Saint Francis has set a record in securing new members is the opinion of Rev. Elias Koppert, provincial, of Chicago.

In a letter to J. W. Hess, prefect, Father Elias said the Muenster fraternity is outstanding among organizations in his wide territory. He made reference to the large number of new members secured at Gainesville and organized for St. Mary's parish.

Members heard the good word at their regular meeting Sunday afternoon when they met in the parish hall following a prayer service in church.

Since the organization of the Gainesville fraternity local officers have been successful in establishing an active organization for the order at Lindsay.

Principal project for local members now getting attention is work on First Saturday adoration schedules at Sacred Heart church. They are making an effort to equalize attendance so that some hours now low on attendance will balance with other hours when a large number of people are in church. They also plan a special hour for children and one for young people, and will make their plans known when they have worked out their schedules.

Attend Ordination Rites of Nephew

Mr. and Mrs. Edd McGannon and children Mary, Kathleen and Eddie, left Sunday morning for Kansas to attend the ordination of their nephew, Rev. John Barry McGannon in St. Mary's, Kansas, on Thursday and will attend his first solemn mass next Sunday in St. Peter's church, Kansas City. The new priest is the son of Mr. and Mrs. Patrick McGannon. He is a Jesuit.

The Muensterites will also visit the old home place in Humboldt, Kansas, where one of Mr. McGannon's sisters, Mrs. Ella McGinity still lives. Their vacation will take up about 10 days.

Miss Odilia Rohmer who had been employed at Gainesville is living in Muenster again. She is with her sister, Mrs. Mike Kleiss, who is in ill health.

District Deputy is Here to Preside at CDA Installation

Mrs. Davis Lambright of Fort Worth, district deputy for the Catholic Daughters of America, was here Friday night to preside at the formal installation of new officers of the local court. Her mother, Mrs. Dan Douglas, and Mrs. E. L. Minch accompanied her and Mrs. Minch assisted in the installation ritual.

Taking office for a new year are Mrs. Herman Fette, grand regent; Mrs. John Mosman, vice regent; Mrs. Ben Seyler, prop-

ress; Mrs. Steve Moster, financial secretary; Mrs. Charley Hellman, treasurer; Mrs. Ed Cler, historian; Mrs. John Fisher, monitor; Mrs. Ted Gremminger, sentinel; Mrs. Paul Fisher, lecturer; Mrs. J. M. Weinzapfel, organist; Mmes. Joe Hoening and Frank Kathman Sr., three year trustees. Hold over trustees are Mmes. Joe Horn and Charles Fisher, one year, and Mmes. Joe Swirszynski and Herbert Meurer, two years.

The routine business session preceded the installation in the K of C hall and a social in the home of Mrs. John Fisher followed the meeting.

THE COMMUNIST LITERATURE

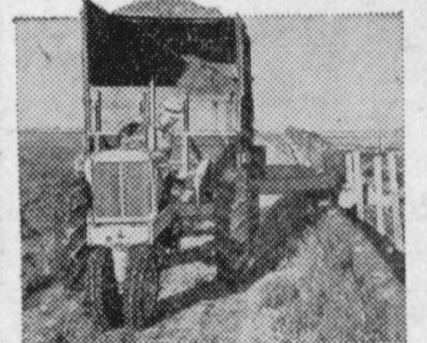

In the massive outpouring of Communist literature from Russia and its satellites, and from printing presses in the free world, the Communists are distributing two kinds of literature. One type is propaganda. They call the other kind "agitation literature."

Dr. Fred Schwarz, the Australian surgeon-psychiatrist who left his profession to crusade against Communism throughout the free world, has made an exhaustive study of Red literature. "The Communists," he said, "define 'propaganda' literature as that which conveys many ideas to a few people. Theoretical textbooks are of this nature. These are directed primarily to the student mind, those whom the Communists want for the Communist Party as conspirators, organizers and leaders. Propaganda for them. And for the people as a whole—agitation."

For Agitation

"The Communists define 'agitation' as that which conveys one idea to many people. They take an idea, like the unfortunate death of the Japanese fisherman infected by H-bomb fallout after the Pacific test. They use it as a barb to repeatedly drive in, to create inflammation, fear, bitterness and hatred." He picked up a book. "Here," he said, "we have Communism with its Sunday-morning-to-church face on. Here is the peace textbook put out in Los Angeles."

pasture capacity UP 50%

ALLIS-CHALMERS Forage Harvester

Your pasture can support 50 percent more cows when you chop the forage and bring it to the animals. That's the report we get from satisfied owners of Allis-Chalmers Forage Harvesters who have tried this system. A few minutes' work each day supplies enough for the entire herd. More nutrition can be used for milk and meat. Come in now for the full story on "Bringing Pasture to the Cows."

ALLIS-CHALMERS SALES AND SERVICE
 JOHNE WILSON
 Gainesville

"It's beautiful. They have pictures of all the ministers you'd want to see, of little children—and when you read it superficially, you get a picture of glowing peace around the world. But when you read more carefully you find the vicious slanders and lies." He turned to a page in which a Negro Communist hails "the glories" of the Soviet Union and brands America as a place "where our homes are burned, our daughters raped, our sons murdered."

Inciting Hatred

Dr. Schwarz picked up another book. "Here," he said, "we have Communism with its good face not so obvious. This booklet is circulated throughout the world in multiplied millions of copies in many languages. This is the American edition. It is entitled, Report on War Crimes in Korea. I bought it in the Communist bookstore in Los Angeles, 1806 West 7th Street—openly sold, no camouflage whatsoever. It is a combination of the filthiest and most treasonable lies ever put together in one volume." He read the following from the booklet:

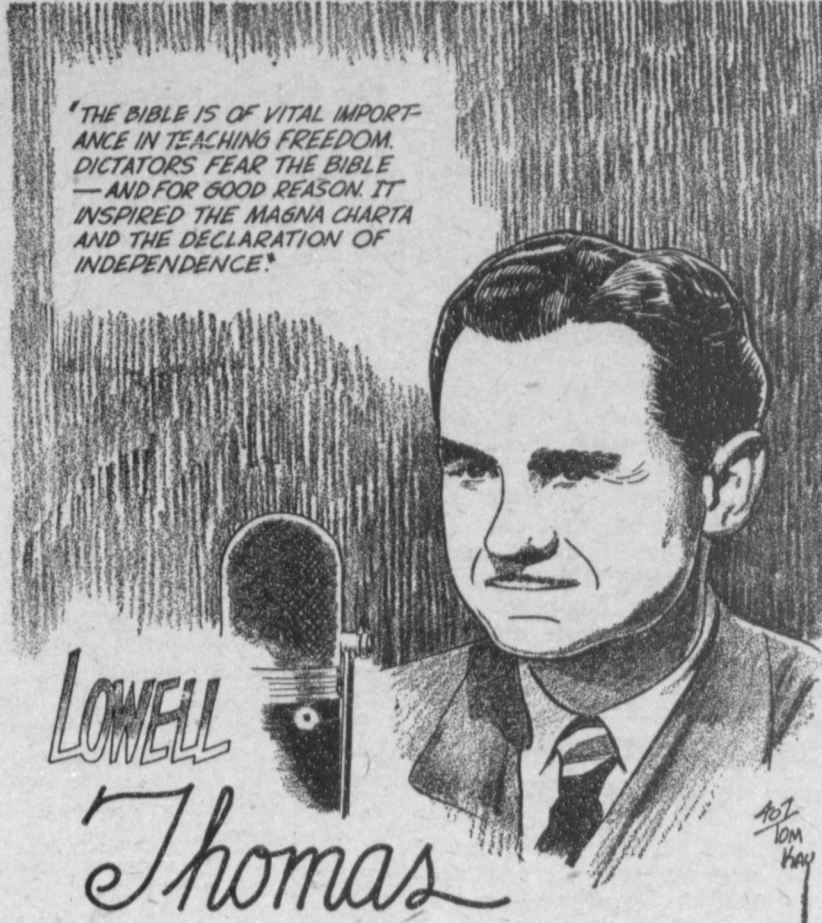

"According to the evidence of Pyong Won Goon, chairman of the People's Committee, 35,383 civilians were murdered in the district of Sinchen . . . On October 18, 1950, behind the building of the People's Committee, a mass murder of about 900 men and women, including 300 children, was committed. Some of the women were pregnant . . . All the people were pushed into an open deep grave. The American Commander Harrison ordered them to take off their clothes, then ordered fuel-oil to be thrown over the victims who were set on fire. Those who tried to get out of the grave were shot."

Shocking Lies!

He turned to another passage and read: "On the very day the American troops entered the locality Wvol San Ri of the Cho Ri region, Sinchen Myen—they committed a particularly horrible murder against the Woo Mal Chee family. The Americans pierced a wire through the hands, ears and nose of the witness' husband. On his forehead they fastened, with a nail, a diploma, and tortured him until he died. Eleven children of the family of Woo Mal Chee were shot on the spot."

"Woo Mal Chee's daughter-in-law," says this Communist agitation booklet, "tried to defend him. The Americans attached her by her hair to a tree, (committed horrible atrocities which are described in obscene detail) then poured oil over her and burned her alive." Dr. Schwarz showed these books to leaders in Congress. "They wrung their hands," he said. "Some asked, 'How can we get this stuff off the streets of America? Every time we do something, somebody screams out, Academic Freedom! Freedom of the Press!' Dr. Schwarz said that millions of people throughout the world believe these atrocious falsehoods being massively distributed with little or no protest from us."

"We are indeed an apathetic people. We cannot survive if we continue to be so inactive against this sinister force—Communism."

"THE BIBLE IS OF VITAL IMPORTANCE IN TEACHING FREEDOM. DICTATORS FEAR THE BIBLE — AND FOR GOOD REASON. IT INSPIRED THE MAGNA CHARTA AND THE DECLARATION OF INDEPENDENCE."

LOWELL Thomas

The Bible — Teacher Of Freedom

A Father Speaks On Father's Day

BY JOSEPH A. BREIG
 Editor, Cleveland Universe

SOME TIME OR OTHER your young son or daughter will say to you, "Dad, I don't see how God can be if He didn't have a beginning." When a child asks questions like that, don't brush him off. He expects his father to answer important questions. We fathers have not done our duty when we have provided food and clothing for our youngsters. We owe them more than that. We owe them answers. We

owe them conversations about what they are—and whence they came and where they are going. We stand in the place of God and must make God real for them.

NO HUSBAND and wife, no father and mother, can ever sufficiently realize their own importance. My wife and I have five children. Five human beings, five immortal souls, have been handed over to Breig and his wife. We are to cooperate in the rearing of these five so that they grow up to be children of God and not children of the devil. These children came to the

Breigs helpless and malleable. They came to us as blank slates, with characters unformed. What lies in the future for these children, God alone knows. But this much is sure, a great deal of it depends on us—their parents.

NOW THIS DOES NOT mean that a father and mother need be frightened over their responsibilities. Nor should they go and turn their house into a jail or prison. Actually, all they must do is to rear a holy and happy family, and if possible a healthy home.

It might seem a mistake to use the words "holy and happy" together. Puritanism has so infected us that we tend to equate holiness with long-facedness and with posturing piety. But holiness means doing what God wants us to do—everyone knows there is no happiness without that. As a father, this is my job, to try to create a holy and happy home.

GOD SHOULD be a constantly recognized member of every household. Prayer should be as natural in family life as play.

The youngster who sees his father and mother praying from the time he is able to see anything will accept prayer naturally when he is old enough. The boy or girl to whom God is as much a part of the picture as his parents will seldom give serious trouble.

God is the center and solution of everything, the home included. To rear a good and happy family is almost ridiculously easy, provided that God be seen as the ultimate Father.

From where I sit... by Joe Marsh

Handle With Care

Tractors are like horses—or mules—in more ways than one. They can be pretty tricky if you don't handle them right.

Too many tractor accidents happen because of carelessness. The day grows hot and drowsy, the job grows monotonous—and bingo! Someone forgets to throttle down when making a turn, or something, and there's a bad spill.

Credit Slim Hartman's missus for the fact that there's never been tractor trouble on their place. Midway through every morning and afternoon she brings him snacks. "He'll stay on

the alert," she says, "if I get him off the tractor for ten minutes."

From where I sit, carelessness can cause plenty of harm in our off-the-job personal lives, too. For instance, suppose a neighbor prefers a glass of beer with supper. You might not share this particular preference with him—but if you're careless about protecting his right to choose, your own freedom of choice is in danger of being "plowed under."

Joe Marsh

Soil Conservation Notes

K. R. Bluestem

A good stand of King Ranch Bluestem has been obtained from seed hay on a waterway on the Cler farm north of Muenster. Alvin and Ray Cler baled the grass from the upper part of their waterway last summer when the seed was ripe. The hay was scattered this spring and resulted in a good stand of grass. The Cler brothers are cooperating with the Upper Elm-Red Soil Conservation District in applying soil conserving and soil improving practices on the land.

K. R. Bluestem plantings made on the Danglmayr ranch, on the Eddie Fleitman farm, the Jake Seibold farm and on the Alex Lutkenhaus farm all have fair to good stands of grass.

All cooperators who have new grass plantings of KR or Bermuda grass are urged by SCS technicians to mow and if possible to remove weeds and Johnson grass from areas planted to these grasses.

Coastal Bermuda Grass

Spring plantings of Coastal Bermuda have only fair stands, but are making excellent growth. Runners over four feet long are reported already on the grass on Paul Sicking's waterway and on the Roy Kingery farm. The former recently mowed his waterway

to control weeds and Johnson grass.

Brush Cleared

Alphonse Walterscheid has cleared 20 acres of Elm Creek bottomland. The land will be prepared for seeding alfalfa this fall. Other bottomland areas along Elm Creek can safely be cleared for cropland as the district's flood prevention program progresses. H. L. Dennis of Saint Jo has recently cleared eight acres of post oak timber. The land will be seeded to KR Bluestem or native grass mixtures.

Local News BRIEFS

Mr. and Mrs. George Letson had as their guest Wednesday to Sunday, her mother, Mrs. S. D. Varner of Weatherford. Before coming to Muenster Mrs. Varner had been visiting in Memphis, Tenn., with another daughter, Mrs. L. E. Simonds and family. Mike Letson accompanied his grandmother on the trip to Memphis. When Mrs. Varner left Sunday, Mrs. Letson and three children accompanied her home for a several days' visit.

Mr. and Mrs. Lee Toothaker

left Wednesday morning for Westmoreland, Kansas, to attend funeral services for his brother, J. T. Toothaker, 73, who died Tuesday night.

Visiting Mrs. Mathilda Wimmer and members of her family this week are Mr. and Mrs. Joe Newara and sons Darrell and Timmy of North East, Penna. Mrs. Newara is the former Miss Lucille Wimmer. They will leave here to spend the weekend in Dallas and Fort Worth with her sisters before they start their trip back home.

Daniel Starke has returned to Muenster after working on a oil rig at Quanah for two months.

When the Future Farmers of America of MHS begin their classes next fall they'll have a brand new Chevrolet pickup for chapter activity. Glenn Hellman, who'll be their instructor, went to Detroit for the pickup. It's a half-ton Pacemaker with flite-ride deluxe cab, lots of chrome and a panoramic rear window. The color is sand beige.

While he was at home on leave, A3c Delbert Walterscheid was honored with a chicken supper in the home of his uncle and aunt, Mr. and Mrs. Hugo Lutkenhaus. Guests included Delbert's

parents, the H. A. Waltersheids, his grandfather W. T. Richter, and his aunt Miss Kathleen Richter of Dallas. Before leaving Delbert went to Wichita Falls for a visit with his aunts Mrs. Bobbie Estes and Mrs. Chris Jensen and family.

Charles Pagel and Wilfred Walterscheid of Coleman spent Tuesday overnight here with homefolks after being in Wichita Falls during the day on business. Charles is a driller for Wilfred who has had a rotary rig in the Coleman area for about two years.

Mrs. Keith Tompkins and children spent Monday here with her parents, the Victor Hartmans, while Mr. Tompkins visited at the bedside of his father, John Tompkins, at Nocona Clinic. His home is in Ringgold.

Stopping Saturday for a visit with the Victor Hartman family was James Bennett of Holiday who is a student at NTSC and a former classmate of Willard Hartman.

The Rudy Hellman family returned Friday evening from Milwaukee where they saw their son and brother, Monte Hellman, receive his Doctor of Medicine degree at Marquette University on

June 8. Dr. and Mrs. Monte Hellman left on a vacation trip and their little daughters Susie and Barbara came home with their grandparents. They'll be here until their parents return in about another week. Then the family will move to Fort Worth where Dr. Hellman will do his intern work at St. Joseph's Hospital. Mr. and Mrs. Glenn Hellman who attended the graduation have also returned home but Mr. and Mrs. G. H. Hellman, after seeing their grandson get his diploma, began their annual summer vacation that will include sight-seeing and visits with family members.

15 YEAR AWARD

Something new at Jimmy's Service Station is a fancy plaque identifying him as a 15 year dealer for the Gulf Corporation. The plaque itself, mounted on walnut, is a 5 year award and separate bronze plates added below indicate completion of the tenth and fifteenth year. The dealership, established in 1938 is eligible for its 20 years marker in three more years. Jimmy received it at a Gulf banquet in Fort Worth last week. He also discovered that he's the second oldest Gulf dealer in the North Texas District, which includes about a fourth of the state.

Most Modern Trucks on any job

with the most advanced truck features the industry has ever seen!

Only new Chevrolet **Task-Force** Trucks bring you the shortest stroke V8's in any leading truck and today's most advanced sixes—plus all these truly modern features!

They're the marks of a modern truck, and they out-date any make without them!

And they're the moneymaking, moneysaving advantages that ask this question: *Can you really afford not to make your next new truck a Chevrolet? Judge for yourself!*

Beginning with Work-Styling, an entirely new development in truck design. For the first time in any line of trucks, Chevrolet brings you two styling treatments—one for light- and medium-duty models, another for heavy-duty jobs! Styling that's matched to the model and the job.

The latest in cab comfort and safety. Inside you can count on the same ultra-modern touch—softer seat action that reduces driver fatigue and more durable construction throughout. The new Flite-

Ride Custom cab features the extra comfort of a foam rubber cushion and harmonizing two-tone inside. Outside, bright metal moldings and new two-tone color options. Both the De Luxe and the Custom cabs set whole new standards for comfort and convenience.

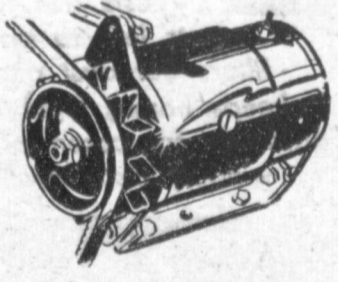

New concealed Safety Steps. They're out of sight with the doors closed. That way, snow, ice or mud can't collect to cause accidents. Safety Steps are lower, too, for easier entrance.

New panoramic windshield. For a wider, virtually unobstructed view

of the road! There's more glass area all around. A new glass-guard molding completely surrounds the side windows, reducing possibility of breakage. A wide-view rear window is available as an extra-cost option.

Fresh air in all kinds of weather. With Chevrolet's new High-Level ventilating system, air is drawn in through louvers at cowl level. That means air is constantly circulated through the cab, regardless of disagreeable weather conditions.

High-Voltage power—V8 or 6. The new lineup of Chevrolet truck engines includes the shortest stroke V8's in any leading truck, and most advanced sixes. All have a

modern 12-volt electrical system—double the voltage for quicker, surer starting and more efficient spark plug firing.

Tubeless tires standard on 1/2-ton models. Pickups, panels, Suburban Carry-alls—all models in the 1/2-ton class now come with new tubeless tires. Here's greater protection against blowouts.

Every Power Helper in the book. Power Brakes are standard equipment on 2-ton models, an extra-cost option on all others. The new handling ease of Power Steering,

another extra-cost option, cuts turning effort up to 80%. There's new gas-saving Overdrive, as an extra-cost option on 1/2-ton models... and truck Hydra-Matic.

The new Cameo Carrier. Long and low, with smooth, fleet lines, here's the Custom pickup that may well create a whole new class of truck owners!

And the final touch. Color! New colors and two-tone combinations add the final styling touch to these great new trucks. Your selection is wider than ever before. Choose the color or combination that best calls attention to your business. That way you'll be taking full advantage of the advertising value of your new Task-Force model.

One final word. When the time comes to trade in '55 models, the man without a really modern truck stands to take a good-sized loss. Come in and see us soon.

Chevrolet
Year after Year
America's best selling truck!

You get the most modern trucks money can buy in

J. B. WILDE, CHEVROLET DEALER Muenster, Texas

Marysville News

By Mrs. Herman Richey

MARYSVILLE, June 14 — Mr. and Mrs. Erwin Doughty and son Denny of Grand Prairie visited Mr. and Mrs. B. G. Lyons Friday.

Mmes. Charles Davidson and John Richey represented the Home Demonstration club at the regular council meeting in Gainesville Tuesday.

Mrs. Gene Hawkins and daughter Nancy of Fort Worth spent a few days of the week with her grandparents, Mr. and Mrs. J.N. Shaw. Other visitors in the Shaw home on Sunday were Rev. and Mrs. Vernon Paysinger of Dallas and Albert Shaw of Gainesville.

Visitors in the home of Mr. and Mrs. W. B. Whitt Sunday were Mr. and Mrs. Charles Maples and daughter Cindy and Mrs. John Snider and son Ted, all of Denton.

Mr. and Mrs. Darrell Hallmark and family, Hubert Richey and Joyce Wiesman visited in Ardmore, Okla., Sunday.

Visiting the Jim Shiflets Sunday were Mr. and Mrs. Robert Pourth and Mrs. Ed Mathews and son Larry Lee of Dallas.

Dale Mosley who makes her home with her parents, the Marvin Doughtys, spent several days of the week with friends in Denton.

Mr. and Mrs. E. W. Young and daughters Dixie and Mary Ann of Hereford left Tuesday to return to their home after spending several days with her parents, Mr. and Mrs. Jess Davison. Another daughter of the Davisons, Mrs. Tom McGill and children Sandra and Dub of Lamesa, who were visiting here returned to their home Wednesday.

Buck Martin of Glen Rose visited here Thursday and Friday and told friends that E. J. Doughty of Glen Rose, former Marysville resident, is a patient in a Fort Worth hospital.

James Cole, student at Northwestern Medical school in Dallas is spending the summer with his parents, Mr. and Mrs. J. T. Cole.

Mrs. Beulah Holman and daughter Thelma of Panhandle visited the Jess Davisons Wednesday.

Charles Hallmark escaped with only a bruised arm and Hubert Richey who was riding with him was unhurt Sunday morning when their car turned over about two miles east of Marysville. The accident happened after the car, driven by Charles, hit loose gravel on the side of the road as he pulled off the main road in passing another automobile.

Saturday guests of Mr. and Mrs. Jess Davidson were the Jack Cooks and family of Boyd.

Mrs. N. W. Whitt and Mrs. Jack Tuggle were visitors in Marietta, Okla., Monday.

BLAAAGH!—Three baby chicks, bite-size hors d'oeuvres for most big cats, seem anything but appetizing to Little Tyke. The eight-year-old lioness is a strict vegetarian, has the run of the Georges...

Mr. and Mrs. Raymond Davison of Fort Worth visited relatives and friends here Sunday afternoon.

Emory Hunter is visiting his mother, Mrs. E. E. Hunter and his sister, Mrs. Delcie Sauls at Canadian, Okla.

BIBLE SCHOOL ENDS WITH COMMENCEMENT PROGRAM
Bible school at the Baptist church ended Wednesday with commencement exercises at night and a display of handwork made by students.

The program opened with a call to worship followed by salutes to the Stars and Stripes, the Christian flag and the Bible, and recitation of the motto by children and leaders of the school. Songs were sung. Bible verses were read and musical numbers were presented. Participating were students of the beginner, junior and intermediate groups. Mrs. Gene Hawkins presented certificates.

Parents and friends of the students, and other members of the congregation attended the service, then inspected the many attractive articles all hand made by children of each of the three classes.

Approximately 80% of the air is nitrogen. Organisms on the roots of the sweet clover can remove the nitrogen from the air and store it in small knots of the plant where it will be available for other crops such as cotton, corn, or small grain.

A good crop of sweet clover breaks the fall of the rain drop and reduces soil and water losses.

America has undergone more than a century of land use and abuse. Approximately 100 million acres of formerly good cropland have been ruined by erosion for any further production. Another 100 million acres of cropland have been seriously damaged. Topsoil is still being destroyed faster than it is being repaired or created. Crop production has been increased in the United States, largely by increasing crop acreage.

Hedges and bushes planted around a house help deaden traffic passing by.

THEY LAUGH AT BLISTERS—"Grandma Walker" Court and her donkey, "Uranium," consider that a big joke's afoot as they prepare to walk the 150 miles of road between Kennewick and Spokane, Wash. Grandma will have traveled twice the distance by the time she finishes the jaunt, as she'll lead Uranium for a few miles, then backtrack to pick up her auto, meet Uranium, and take off on foot once again. All this in preparation for a covered-wagon tour in search of inspiration for her paintings.

Renner Experiment Station Emphasizes Stubble Management

RENNER—Long range research now underway at Texas Research Foundation's Renner station has revealed that proper management on harvested fields of wheat, oats and other small grains is the key to increasing both soil fertility and crop yields, Dr. T.C. Longnecker, the Foundation's Chief Soil Scientist, has announced.

"Proper stubble management consists of an application of nitrogen fertilizer followed by disking or otherwise working the soil," he said. "Application rate should be 20 pounds of fertilizer to the ton of straw." He explained that 20 bushels of wheat or 50 bushels of oats to the acre usually produced one ton of straw.

"Purpose of the nitrogen is to aid in decomposition of the straw and formation of organic matter in the soil. Unless nitrogen is applied, the straw is slow to rot. Usually it remains in the soil and has a depressing effect on the yield of the next crop.

This basic nitrogen deficiency of the soil has been the real reason why farmers have persisted through the years in burning their stubble fields. By burning the straw, they have got around the depressing effect the stubble has had on succeeding crops. "The continued practice of burning stubble fields, however, eventually destroys most of the organic matter in the soil, thereby rendering it sterile and unproductive," he said. "Whereas a combination of fertilizer and disking will improve the soil, make it more fertile and productive."

Bulcher News

By Mrs. R. J. Samples

BULCHER, June 14 — Meeting of the home demonstration club has been postponed from the 16th until Thursday, June 30, on account of the absence of Miss Bernice Puckett, county home demonstration agent, who is at the annual 4-H district encampment at Lake Trinidad.

O. W. Cannon and R. J. Samples were business visitors in Bowie Monday.

The E. L. Robisons had as weekend guests his brother-in-law and sister, Mr. and Mrs. Otho Whaley and family of Borger.

Guests of Mr. and Mrs. R. J. Samples Saturday were Mr. and Mrs. Walter Cannon and daughter Rose of Whitesboro. Sunday guests were Mr. and Mrs. Bob Samples of Denton and Mr. and Mrs. Charlie Parsons of Gainesville.

Mr. and Mrs. Gid Prather and Jo Ella had as guests Saturday Mrs. Prather's brother, Cliff Jones and his daughter of Alice, Texas. They all visited in Saint Jo Sunday with Mr. Jones and Mrs. Prather's mother, Mrs. Mattie Jones.

Mr. and Mrs. J. M. Shields have a new granddaughter, the infant daughter of Mr. and Mrs. Charles Dickerman of Myra. The baby arrived Saturday at Gainesville Sanitarium. The other Dickerman children Gloria, Donna and Charles Ray are vacationing with their grandparents here.

Mrs. R. H. Sharp and Mrs.

August Hyman, helping with the Vacation Bible School at the First Baptist church in Saint Jo, provided refreshments for the children Monday.

Cleta Sue Cannon who finished the regular term at NTSC in Denton is back there for summer school. She was at home for a weekend visit with her parents, Mr. and Mrs. Calip Cannon.

Mr. and Mrs. R. V. Daffern and Janie have returned from a vacation trip to California.

CANNON FAMILIES HAVE REUNION FOR COUSIN

A picnic Friday at the home of Mr. and Mrs. J. L. Ivins provided an opportunity for members of the Cannon families to get together with a cousin they were seeing for the first time. The visitor, honoree at the reunion, is Fred Kerr of Atlanta, Georgia. He was on his way to California and made the trip by plane to Dallas. From there he came to Bulcher to visit for the first time.

Gathering for the party were Mr. and Mrs. Calip Cannon, Mr. and Mrs. R. J. Samples and Belva, Alex Cannon; Guy Cannon, Ruel Cannon and James of Spencer, the Earl Carthins and sons and Sam Cannon of Gainesville, Mrs. Cleveland Hilton and daughters of Spencer and Mr. and Mrs. Ivins.

Evergreen sweet clover is an improved strain of biennial white sweet clover.

TP&L Is Winner of Highest Award in Electric Industry

LOS ANGELES — Texas Power & Light Company Wednesday night was named winner of the electric industry's highest honor, the Charles A. Coffin Award for 1954, in ceremonies conducted at the 23rd annual convention of the Edison Electric Institute in Los Angeles.

The award was presented to W. W. Lynch, TP&L president, by Phillip D. Reed, chairman of General Electric Company, donor. The award is presented annually to the electric utility company judged as making the greatest contribution to the advance of the industry and service to customers. TP&L Company, is the first company in the Southwest to win this award, which was established by the General Electric Company 33 years ago in honor of its first president. In selecting the winner this

year, the judges cited Texas Power & Light Company "for extraordinary enterprise and resourcefulness in uncovering and developing the extent and value of untapped natural resources... and for its contribution to the industrial and agricultural development of Texas."

Important among the reasons Texas Power & Light Company won the award were its research program of preparing and using lignite in power plant boilers, pointing toward the development of a low-cost fuel for production of electric power, and the use of this natural resource for the further industrialization of the TP&L service area.

After some thirteen years of experience using lignite as a fuel for its Trinidad generating station prior to 1940, the Company, in 1948, began an extensive research program, working with the U. S. Bureau of Mines, to determine how Texas lignite could be used more effectively as a fuel.

The results obtained in this program were largely responsible

CALIFORNIA-NEW YORK COMMUTER—National Guard 1st Lt. John M. Conroy—is welcomed by his wife, Jeane, and their three children as he arrives in Van Nuys, Calif., after streaking to New York City's Mitchell Field and back in a record-breaking 11 hours, 26 minutes, 33 seconds. Conroy breakfasted in Van Nuys, lunched at planeside in New York City and beat the sun home by two hours and 28 minutes. His F-86 Sabre Jet maintained an average speed of 445 miles per hour on the trip.

for the location in Rockdale, Texas, of the Aluminum Company of America's new smelting plant.

In the citation by the Coffin Award judges, TP&L's lignite investigations are commended as "nationally recognized to be of benefit to the industry and the public by opening up the potentialities for economic exploitation of the nation's vast and largely undeveloped deposits of lignite and other low rank, non-coking fuels."

TP&L's contributions to both industrial and agricultural development of Texas were mentioned in the Coffin Award citation. The utility company's research into such other resources as clay and iron ore and its economic program for attracting new industries to the "Texas Bright Spot," as the Company terms its service area, have resulted in the establishment of many new plants.

In the agricultural field, the Company is carrying on an expanded farm service program, with specialists in the field in direct contact with the farmer and his problems. Research on practical and economical application of electricity to farm operations is included among projects being carried on in cooperation with educational institutions and other established farm agencies.

The selection of the annual winner of the Charles A. Coffin Award begins with nominations by a panel of 35 persons, representing every section of the nation, who select those companies whose achievements during the past year are regarded by them to have been outstanding. Next, a review committee compiles and analyzes the information about the companies (this year numbering 28) cited by the nominating panel. From this group, the review committee selects the four or five they consider outstanding, which are invited to submit to the judges their respective presentations in competition for the award. Four companies were so cited this year. They were: Arizona Public Service Company, Cleveland Electric Illuminating Company, Pennsylvania Power & Light Company, and Texas Power & Light Company.

Roane Herd Tops In DHIA for May

Lloyd Roane's 28 Holsteins and Jerseys are at the top of the list for both butterfat and milk production, taking championship honors in the Cooke County Dairy Herd Improvement Association for May according to a summary for the month released Monday.

Carl Kemplin, supervisor, in his monthly report shows that the Roane herd averaged 1280 pounds of milk and 42 pounds of butterfat to become first place winners.

Following in second place are J. L. Masten's cows with aver-

ages of 1200 pounds of milk and 40 pounds of butterfat.

Kemplin's report shows that 21 herds were tested in May, that 556 cows were producing milk with 153 of that number averaging 40 pounds of butterfat or better. Average pounds of milk per cow was 820 and butterfat per cow averaged 31 pounds.

The individual high butterfat producer and runner up are both animals in the Hoedebeck and Myers herd with averages of 85 and 77 pounds.

The Acid Test for coins in many siamese banks is a money bite! Their tooth prints clearly show the teller whether the coin is true or counterfeit.

Does The Bible CONTRADICT Itself?

You might think so, from the variety of meanings people take from it today.

Divorce and remarriage, for example, is widely prevalent among Christians. And some try to justify it by Holy Scripture. Yet Jesus said: "What God has joined together let no man put asunder" (Mark 10:2-12). And St. Paul tells us: "For the married woman is bound by law while her husband is alive... that a wife is not to depart from her husband; and if she departs she is to remain unmarried..." (Rom. 7: 2-3).

Confession to a priest is scoffed at by many Christians. "We confess our sins to God," they say. But if Jesus wanted us to confess directly and privately to God, why did He say to the Apostles: "Receive ye the Holy Ghost; whose sins ye remit, they are remitted unto them; and whose sins ye retain they are retained" (John 20: 21-23)?

The Bible says that Christ did establish a church. For He told his Apostle Simon: "... thou art Peter, and upon this rock I will build My church, and the gates of hell shall not prevail against it." But what church is it? Did Christ mean that just any church was His Church? Or did He give His Church marks by which men might recognize it?

All Christians agree that faith in Christ is absolutely essential to salvation. But some believe that faith is the *only* essential. Catholics believe the words of St. Paul that God "... will render to every man according to his deeds" (Rom. 2:6) ... and the words of Jesus: "Not every one that saith unto Me, Lord, Lord, shall enter the kingdom

of heaven, but he that doeth the will of My Father" (Matt. 7:21).

Christians also take from the same words in the Bible, varied and often conflicting opinions on many things—for example: on the need for and effects of Baptism, and the real or symbolic Presence of Christ in the Eucharist. Is it any wonder that sincere people, trying to understand what Christ meant to tell us, are confused?

Catholics are often accused of opposing the Bible. This, of course, is ridiculous, for the Catholic Church is the mother of the Bible. And Catholic teachings are sometimes called "unscriptural," which will be found equally untrue by any one who takes the trouble to investigate.

We believe, in fact, that a correct understanding of Catholic teaching will convince you of this and bring new joy and understanding to all who truly seek Christ's way. We shall be happy to send you a free pamphlet on several Bible questions commonly misunderstood by many. It will come in a plain wrapper... and nobody will call on you. Write for Pamphlet No. KC-42.

Local News BRIEFS

Mrs. Al Yosten and children Bobby and Judy spent the weekend in Celina with her parents, Mr. and Mrs. Joe Tischler. Mrs. Yosten returned home Sunday evening. Bobby stayed there to help his grandfather on the farm and Judy went to Garland for a visit with her uncle and aunt, Mr. and Mrs. Homer Savage who also spent the weekend in Celina.

Miss Pauline Myrick is on duty at the Muenster Clinic while Miss Dorothy Hartman is taking her annual vacation.

Billy Ben Boyles joined the staff at Endres Motor company Monday.

Miss Clara Trachta, vacationing here from Los Angeles, spent last week with her niece, Mrs. Adolph Walterscheid and family and they visited the Denis and Julian Walterscheids and Charley Hellman family. Miss Trachta spent the weekend with her sister and brother-in-law, the I. A. Schoechs, and visited friends of

long standing in Gainesville this week. Sunday her sister and brother-in-law, the Jake Pagels, will take her to the Dallas airport where she will board a plane for her return home.

Sister Roberta and her sister Edna Hesse, both of OLV Convent in Fort Worth spent the weekend here with family members. Edna will receive her veil when vows are pronounced at the convent in August.

Mr. and Mrs. J. T. Adamson and son Phil of Dallas were Sunday guests in the Frank Needham home.

Julia Wolf is on vacation from duties at the Muenster State Bank since Monday.

Ruth Yosten observed her sixth birthday with a party when her mother, Mrs. Larry Yosten, entertained at their home. Twenty little friends were guests and brought a shower of gifts for the honoree. Favors were balloons, bubble gum and all day suckers. After a series of games Mrs. Yosten served refreshments of ice cream cones, cup cakes and soda pop.

Mr. and Mrs. Ray Evans drove to Wilson, Okla., Sunday to spend the day visiting the Orlen Edelens.

A party on her seventh birthday honored Gloria Haverkamp at the home of her parents, Mr. and Mrs. Leo J. Haverkamp, on June 9. Mrs. Haverkamp was hostess and served banana cup cakes, ice cream and pink lemonade to 15 young guests and three adults, Mrs. Ray Otto, Mrs. Paul Luke and Mrs. Charlie E. Wimmer. Balloons, stick candy and bubble gum were favors. Gloria received a shower of gifts from the guests.

Messrs. and Mmes. Frank Yosten and Steve Moster were in Wichita Falls Sunday to visit Mrs. Yosten's cousin, Sister Caroline, who is a surgical patient in Bethania Hospital.

Mr. and Mrs. Herman Younger and sons Herbert and Herman of Fort Worth spent Thursday with the Hugh Jackson family. Joining them in the afternoon for a visit were Mr. and Mrs. Carbet Jackson and their grandson Robert Dan Jackson of Azle.

Little Allan and Linda Spaeth of Wichita Falls spent two days of last week with their aunt and family, the Andrew Schoechs while their parents, Mr. and Mrs. Joe Spaeth, were visiting in Longview. The Spaeths' older son Everet visited his grandparents, Mr. and Mrs. John Rohmer.

Mrs. Aubrey Jennings and children of Wichita Falls spent the latter part of last week here with her mother, Mrs. John Felderhoff.

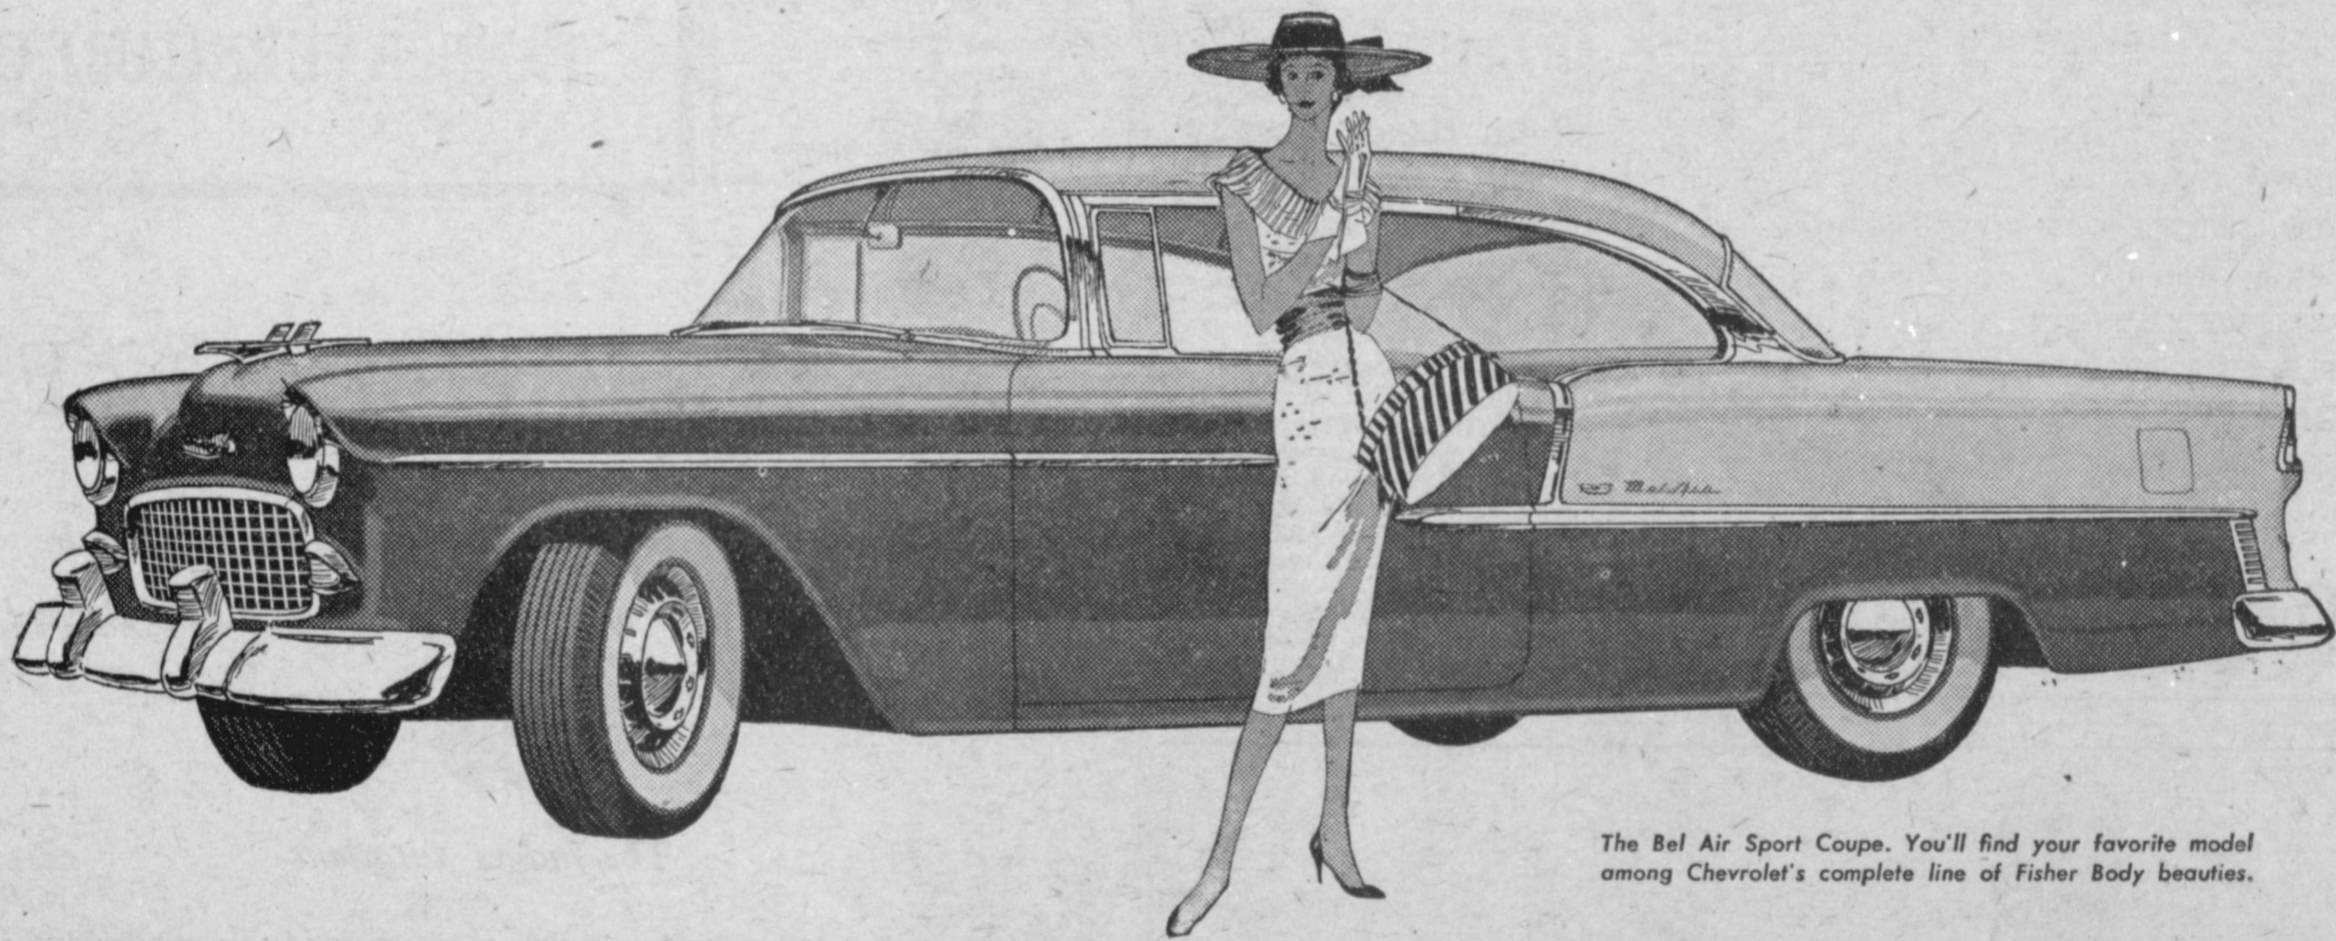

Miss LaQuita Cain who attended NTSC at Denton during the past term is employed as a secretary in a Dallas insurance office for the summer. She was at home for a weekend visit with her parents, the Dick Cains.

Mrs. Edna Fielder of Denton is visiting here as the guest of Mr. and Mrs. Sparkman Vann.

Mr. and Mrs. Maurice Pagel and children Dwayne and Glenda and Mrs. Pagel's father, Tony Gremminger, were in Fort Worth Sunday to visit the Robert Howells, in whose home Mrs. Gremminger has been visiting. In the afternoon Mr. and Mrs. Pagel were sponsors for the Howells' infant daughter Rebecca Renee when she was christened in Holy Name church. Other guests of the Howells were the Robert Mayers and daughters of Pilot Point. They also visited his sister, Mrs. Bob Cush and her husband.

Nancy Bernauer of Gainesville is visiting her cousins Sandra Kay and Barbara Hope Wolf this week.

Best dressed car of the year

The Bel Air Sport Coupe. You'll find your favorite model among Chevrolet's complete line of Fisher Body beauties.

Chevrolet...The only low-priced car with beautiful Body by Fisher

motoramic

COMBINE YOUR NEW CHEVROLET PURCHASE WITH YOUR VACATION PLANS!

Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolets built, if you like, and drive yours home. Chances are, you'll save a substantial share of your vacation travel costs!

It's like a famous designer's label on a lady's favorite party dress.

It's like *sterling* on silver, *14 carat* on gold, or like those little silk threads in an honest-to-gosh dollar bill that no counterfeiter can ever quite copy.

It's the Fisher coach—world-famous emblem of Body by Fisher. You'll see it on the sill of a Motoramic Chevrolet when you open the door. You'll see it on some of America's most popular *high-priced* cars, too. But that's all. Not on any other *low-priced* car.

The other cars in Chevrolet's field just don't have that clean, fresh look that comes from beauty that's *built*

in—not bolted on! In fact, there are very few cars that do have it—no matter what they cost.

And the other low-priced cars, of course, don't offer any of these advantages of Fisher Body. Not that strong, solid Fisher Unisteel construction. Not those fine quality fabrics and materials. Not the High-Level ventilation system that provides cleaner, fresher air in any weather.

You can choose your own new Chevrolet with Body by Fisher from 190 different combinations of models and colors. That's like having it custom built just for you—without the custom-built price! Come on in and get all the good news on the model you like best.

STEALING THE THUNDER FROM THE HIGH-PRICED CARS!

J. B. WILDE, CHEVROLET DEALER Muenster, Texas

**IT HAPPENED
15 YEARS AGO**

June 14, 1940

Local grain yield badly impaired by excessive moisture. E. B. Luna, 57, of Myra dies following six month illness. Muenster Milling Company buys FMA elevator. Francis Wiese and Johnny Fuhrmann open gasoline station in Gainesville. Dr. T. S. Myrick addresses Grayson County Medical Association in Denison. The Lawrence Vogels announce the arrival of Florentine.

Earl Swingler is recovering from leg injuries sustained in a car accident recently. Fire Chief Henry Luke and P. J. Rollman are in Houston attending the State Firemen's Convention. L.A. Bernauer purchases the Kaiser Estate buildings. John Otto and Mathilda Hoenig marry here. Six weeks course of night classes begun at Sacred Heart High school with Sister Agnes Voth in charge.

10 YEARS AGO
June 15, 1945

Highway crash kill two and injuries four Sunday midnight; victims are Alma Marie Luke and Dolores Pulte; four others, Clara Mae Mosman, Johnny Schmitz, James Bezner and Pvt. Jerome

Pulte, will recover from injuries received in collision of car with gasoline truck. Muenster Knights of Columbus elect Arthur Endres grand knight. Four inches of rain halts harvesting, help other crops. Pvt. Arthur Hess wins bronze star for valor in Germany. Pvt. Johnny Rohmer is at home on an overseas furlough. Camp Howze invites the public for open house day Friday. Garden Club ends season with picnic and guest day. Mr. and Mrs. Joe Vogel announce the arrival of Donald.

5 YEARS AGO
June 16, 1955

Local grain crop badly damaged by six inch cloudburst. Ray Luke, Billy Whitt and Douglas Robinson win in 4-H Roundup at A&M College. Mr. and Mrs. Fred Hoedebeck celebrate their golden wedding anniversary. Mrs. Jake Pagel is ill with mumps. Mrs. Frank Kaiser has surgery at Gainesville. Marianna Flusche and Sgt. Joe Simeroth marry at Decatur. Lillian Knabe and Herbert Fette say vows here. Sgt. Reynold Reiter of Hamilton Field, Calif., is here on a 20-day leave. Anselma Knabe's poem wins first place in CDA state contest. Robert and Margaret Gruber have returned from a vacation trip to Florida.

**Attend Funeral of
Kin at Pilot Point**

Muenster relatives of Raymond Hilz attended his funeral at Pilot Point Friday in St. Thomas church at 10 a.m. Hilz, 30, died in a Dallas hospital the preceding Tuesday of injuries suffered in the collapse of a building in Dallas where he made his home. He was a native of Pilot Point.

Survivors are his wife, a son and two daughters of Dalllas; his parents Mr. and Mrs. Henry Hilz of Pilot Point and a sister Mrs. John E. Schon of Pilot Point.

Attending the funeral from here were Mrs. J. C. Trachta, Otto Walterscheid, Mr. and Mrs. John Weiler, Mrs. Henry Sprengel, Mr. and Mrs. Ben Fleitman and family, Mr. and Mrs. J. W. Fleitman, Mrs. Conrad Jostwerner and Anton Fleitman, cousins, and Mrs. Joe Fleitman, aunt of Mrs. Raymond Hilz.

**John Hosea Family
With Rodeo Circuit**

Mr. and Mrs. John Hosea and children left Tuesday for Nebraska and the Dakotas where he will follow a rodeo circuit for the summer.

Head coach of the Hornets and a math teacher at Muenster High during the school year, Hosea is a calf roper during the summer months. Rodeos are his hobby. The whole family goes along, helps along with jobs and enjoys a wonderful vacation.

Portugese fisherman use from four hundred to a thousand hooks on a single line, baited, to catch cod.

"FIX MY PLANT?" — Small boy hopefully watches as Hans Gruhn, municipal "plant doctor" of Frankfurt, Germany, diagnoses ailment of the lad's favorite plant. As many as 100 persons bring ailing vegetation to his arboretum daily, where the fifth-generation horticulturist conducts his "clinic."

WE ARE HONORED

Texas Power & Light Company is recipient of the
General Electric Company's Charles A. Coffin Award

The Judges' Citation:

"For extraordinary enterprise and resourcefulness in uncovering and developing the extent and value of untapped natural resources such as lignite, clay and iron ore in the region where it serves and, through participation in extensive research, finding and demonstrating commercial uses for these minerals and important by-products obtainable therefrom; for its part in the successful development of the Parry process for more efficient utilization of Texas lignite, nationally recognized to be of benefit to industry and the public by opening up the

potentialities for economic exploitation of the nation's vast and largely undeveloped deposits of lignite and other low-rank, non-coking fuels; and for proceeding on an important scale with the productive use of certain of such natural resources, thereby greatly contributing to the present and future economic development of the electric industry as well as the area it serves; and for its contribution to the industrial and agricultural development of Texas, the Texas Power & Light Company is declared the recipient of the 1954 Charles A. Coffin Award."

In humbly accepting this highest of honors in the public utility field, the Officers and Directors of Texas Power & Light Company express their thanks to the Company's employees and to the outstanding citizens in the several hundred cities and towns served by the Company for a job well done.

"The dairymen are also working toward providing at least six tons of silage and three tons of good quality hay per cow," York said. "In addition to these roughages, many of our dairymen are providing their own oats and barley for their concentrate feed ration. These home-grown ingredients are mixed with cottonseed meal and other proteins to try to balance the protein content of the feed.

"Gains along this line are revealed through the records which show the total feed cost per cow in 1951 was \$215, and in 1954 this cost was reduced to \$186, even though these cows were producing considerably more milk than in 1954."

Cooke County DHIA Herds Among State Champion Producers

Carl Kemplin's report on DHIA progress and activity released this week, reveals that five Cooke county herds were among honor herds in milk production

and four were included among top butterfat producers in the state association during the 1954 testing year.

Honor herds for milk production are those with an average of 10,000 pounds of milk or more in 1954, and butterfat honor herds are those with an average of 400 pounds or more during the year.

Herds on the milk honor roll include those of Peter Prescher with 12,493 pounds; Richard Frasher, 12,485; Hoedebeck and Myers, 11,745; Masten and Roane, 11,202; and Tony Nehib, 10,469 pounds.

The butterfat champions include the herds of Hoedebeck and Myers with 432 pounds; Peter Prescher, 428; Paul Fisher, 426; and Richard Frasher, 409.

Twenty-nine herds in the state were cited for milk production and 26 for butterfat.

Some of the best boxers use gloves weighing only six ounces, and four of those are padding.

Lindsay News

Roy Lee Zwinggi, stationed in Japan with the Air Force since he went overseas, keeps his dad, Leo Zwinggi, informed on how things are with him and his family. His wife, the former Miss Charlotte Corcoran, and their twin daughters are there with him and are enjoying many interesting experiences in a foreign country.

Billy Zimmerer has his leg in a cast since an accident in a ball game last Friday when a bone was fractured. In spite of the injury Billy finished the game and didn't know how badly his leg was hurt until x-rays revealed the break. He's "doing fine" at the home of his parents, Mr. and Mrs. H. J. Zimmerer.

Randy Wimmer has returned to Muenster after a vacation visit with his grandparents, the Matt Neus.

Mr. and Mrs. Paul Arendt are back at home after a week's visit with their daughters, Mrs. Ray Voth and Mrs. Earl Walterscheid, in Muenster.

Mr. and Mrs. Frank Sandman and children spent Sunday with her brother and family in Fort Worth.

Jerry Flusche, son of Mr. and Mrs. Conrad Flusche of Decatur made his First Communion Sunday morning during services in Assumption church at Decatur. In the afternoon Mr. and Mrs. Flusche and children, James, Viola, Evelyn and Jerry visited in Lindsay with their parents, the Joseph Flusches and the John Neus Sr. In the evening the Flusches were hosts for a supper for Jerry's godparents, Mr. and Mrs. L. W. Flusche, their daughters Della and Joanne, and Joseph Schmidtkofer of Lindsay.

Marine Cpl. Charles Stoffels has let his mother, Mrs. H. P. Stoffels, know that he is back in the states after being on duty in Korea for eight months. He is stationed at Camp Pendleton, Calif.

Melvin Kuhn Wins First in State 4-H Competition at A&M

Melvin Kuhn of Lindsay won a top award at the annual 4-H roundup at Texas A&M college last Thursday when he emerged as first place winner in the "A" class of soil and water conservation demonstration.

Three other teams from the county placed in the contests they entered securing a fourth place and two sixth places in state competition which involved only first place district winners.

The team of William Flusche, Sacred Heart club of Muenster, and David Schneiderjan of Downard-Fairplains finished fourth in dairy demonstration while Joe Bezner Jr. and Frank Sandmann of Lindsay were sixth in range demonstration and two Era club members Don Fenley and Don Davis were sixth in field crop judging.

Also making the trip were

Margaret Elkins of Downard-Fairplains and Janice Berry of Era who attended some of the short courses.

The group was accompanied by Assistant Agents Gene Sears and Miss Maurine Kavanaugh.

Awards to winners were presented at a banquet Friday night and the Cooke county group returned home Saturday.

Progress Plan

she prefers to work on/

After the series of meetings a final report to be prepared by Shively and his assistants will tabulate suggestions and propose a plan for carrying out recommendations. Even after that the TP&L public relations department will give technical help on proposed projects.

Shively said this service by his company is intended to develop its own business by helping people in its area develop their towns. Its theory is that towns which please the residents will make considerable progress on their own and very likely attract new business or industry as well.

The group drew up a tentative schedule of meetings, subject to the approval of the heads of the organizations concerned. Within the next few days Mr. Homsley will contact leaders of the organizations for confirmation or change and preferred meeting place. Then a complete and correct schedule will be announced.

Meetings as tentatively scheduled are:

- July 7, VFW and Auxiliary.
- July 8, Baptist congregation.
- July 11, Electric Co-op, NTPA and Farm Bureau.
- July 12, Knights of Columbus and Catholic Daughters.
- July 13, Garden Club, PTA, Firemen and Lions Club.
- July 14, St. Joseph's Society, St. Anne's Society and Sacred Heart room mothers.

A pig's tail curls the way the wind blows.

MRS. FRED LUEBBERT'S BROTHER DIES IN CANADA

Mr. and Mrs. Fred Luebbert received word Friday night of the death of her brother, Daniel Dudenhoeffer, 67, who passed away Friday at his home in Calgary, Alberta, Canada, following an illness. Funeral services were in Calgary.

The deceased was a native of Cooke county and was reared on a farm west of Gainesville. He had lived in Canada most of his adult life engaging in farming.

Survivors are his wife, two sons, and two daughters, all of Canada; one sister, Mrs. Luebbert, and one brother, Frank Dudenhoeffer of Grandfield, Okla. The Luebberts and Mr. Dudenhoeffer visited their brother and family in Canada last summer.

Confetti

members that prosperity is measured by abundance of goods rather than abundance of money. The marvel of modern production, not the size of pay envelopes, is what accounts for our standard of living. We have and use a lot of things because we make a lot of things.

Whether we operate on a 1940 or a 1955 wage level makes no difference. Technological advancement is the only determining factor. We live better now than 15 years ago because methods are better, not because wages are higher. We'd be living just as well if the 1940 wage scale were still in effect. In that case better methods, along with competition, would have decreased prices. The real value of a day's work would be the same as it is. The big difference, however is that savings would be worth so much more than they are now.

How long do we have to continue the folly before leaders will realize that they are doing the general public, and the favored workers, more harm than good?

Plant inoculated sweet clover seed on a firm seed bed.

Blessed Events

Mr. and Mrs. Ferd Luttmmer announce the arrival of Mary Kay's baby brother at Gainesville Sanitarium on Wednesday, June 15, at 9 a.m. He weighed seven pounds 14 ounces. The baby's grandparents are Mr. and Mrs. Herman Luttmmer of Muenster and Mrs. Adam Beyer of Lindsay.

Mr. and Mrs. Jerry Pels of Pilot Point are the parents of a 6 pound 14 ounce boy, their second son, born Monday, June 13, at 11:45 p.m. at Gainesville Sanitarium. Mr. and Mrs. L. H. Herron of Denison and Mrs. Agnes Pels of Fort Worth are the grandparents and Messrs. and Mmes. Gus Knabe, Muenster, and Bill Pels, Pilot Point, are the great-grandparents.

Mr. and Mrs. Henry Grewing Jr. are the parents of a daughter born at the Muenster Clinic at 5:20 a.m. June 10. The eight pound 12 ounce girl is the first grandchild of Mr. and Mrs. Buddy Reiter and the first great-grandchild of Mr. and Mrs. J.B. Klement. Her paternal grandparents are Mr. and Mrs. Henry Grewing and she has paternal great-grandparents too, Mr. and Mrs. Frank Mages Sr. of Lindsay.

It's a boy! A ten pound 11 ounce son arrived Saturday, June 11 at Gainesville Sanitarium for Mr. and Mrs. Hank Walterscheid. Others welcoming him are Candice, Debra and Stevie, the grandparents Mr. and Mrs. Joe Swingler and Mrs. John Walterscheid and a great-grandmother, Mrs. John Eberhart.

Mr. and Mrs. Charles Dickerman of Myra are the parents of a daughter, weight seven pounds four ounces, born at Gainesville Sanitarium Sunday, June 12, at 6:53 a.m. There are two other girls and a boy in the family. Maternal grandparents are Mr. and Mrs. Jesse Shields of Bulcher. Mr. Dickerman is a teacher in the Myra school.

Grape Ivy is a most agreeable and rewarding houseplant for beginners.

Building And Improvement Notes

Building activity is slow here nowadays while most of the carpenters are staying home for harvesting. However the few who are still building are getting along slowly on the several jobs that are in progress. A few new starts are expected after grain crops are under control.

most finished, probably will be ready for moving in next week. The same applies to the new Jimmy Lehnertz home, should be ready for use about July 1.

Gene Hoedebeck's place is ready for painting. Herb Miller and Matt Miller will need a week or so of carpenter work before painters take over. Matt Miller's new home is being built partly out of salvage from the old house torn down a few months ago. Temporarily the family is living in the garage.

Non-residence buildings includes a 50x60 feeding an dhay storage barn just finished for Paul Fisher and 24x36 poultry house under construction for Arthur Felderhoff.
