VOLUME XIX

MUENSTER, COOKE COUNTY, TEXAS,

OCTOBER 7, 1955

NUMBER 46

This week, in connection with the observance of National Newspaper Week, we have had occasion to take notice of the very appropriate slogan "Your Newspaper Fights for Your Right to Know."

In that slogan is implied the very essence of freedom, for it is a long established fact that an informed people will exercise the good judgment to retain what is sound and discard what is unsound when they go to the ballot box. Given all the facts the public can be trusted to preserve the precious heritage of liberty and opportunity which our founding fathers wrote into the Declaration of Independence and the Constitution.

By way of illustrating what can happen to a nation when its right to know is not respected, we need only to refer to the dictator countries. In Russia, Red China, and their satellites, in Germany and Italy during the heyday of Hitler and Mussolini, and in Argentina under Peron's rule, people did not have the opportunity to know. Their controlled press told them only what the big bosses wanted them to think. They had no information whatever on which to decide what individuals and what actions were responsible for their domestic or global troubles.

By their attitude to the press the dictators have paid it their greatest tribute. They have admitted that their iron fisted rule is not secure when people have a chance to know what is going on. An outstanding example of that fact was the suppression of the courageous LaPrensa several years ago by Peron and his henchmen. Despite his despotic grip on the country he felt insecure as long as that one paper was fighting for the people's right to know.

It is a cheering coincidence that efforts to reestablish La Prensa began just a few days before this country's observance of National Newspaper Week. That development is a symbol of regained freedom. We and all other liberty loving people of the world, on both sides of the red curtains, rejoice that Argentinians will again know... and be able to do something about it. Here in America there can be little doubt that our right to know is fervently guarded by the press as a matter of sacred principle. Frequently we have occasion to note a howl of protest in connection with efforts to prevent publication of certain facts or events. We hear that some officials go too far in suppressing news on the pretext of national security, or hampering the process of justice.

Since opinions differ on such matters we can reasonably expect continued disagreement as to what should and what should not appear in print. In the process let's hope that we will come out with a good wholesome serving of the news we have a right to know but very little of the news that will give valuable information to our enemies.

Our freedom of the press, considered from that angle, does not seem to be in danger. But there is another and more subtle threat that definitely deserves attention in our observance of National Newspaper Week. That is the presentation of slanted and distorted versions of the news. To our way of thinking the greatest responsibility facing the press today is the job of weeding out the alarmingly great number of writers who seek to prejudice the public against the traditional American way of life.

We had samples of this subtle news slanting not long ago in articles about the nation's security system. Some writers obviously tried to create contempt for the system. They ridiculed trifles that came up in investigations but ignored serious matters that were exposed by them. Apparently their intention was to force a discard of security measures so that any type of character could worm his way into key government positions.

Cases are on record also of news reports from the Communist Daily Worker being sent out verbatim over the country's major wire services. The passages contained the original red jibes at basic American ideals and traditions along with the subtle communist passages promoting

## Ground Observer Posts Organized at Muenster, Bulcher

Organization of Ground Observer Corps coverage for the western part of Cooke County was started this week when two representatives of the Dallas Filtering Center set up posts in Muenster and Bulcher.

The local post is at Jimmy's Service Station and Jimmy Lehnertz is the post supervisor. The Bulcher post is the office of the Kewanee Oil Company and Charles V. Crabtree is serving as post supervisor. Persons willing to serve as volunteer observers in the corps are invited to see either of those supervisors.

As a follow-up to this week's organization the members of the Dallas GOC unit will return here on Tuesday, Oct. 18, for an appearance before the Lions Club. Again, on November 8, they will be here to conduct a training program in the VFW hall.

A training program for Bulcher is scheduled for November 17 in the community center building.

The men explained that observers of this area will not be placed on a daily active duty. They will be trained as standbys to be ready for active duty if and when they are needed.

It was explained that areas far inland, such as this, seldom have occasion to spot enemy aircraft. Posts and radar stations along and near the border normally would spot planes immediately. However inland spotters are still wanted to spot planes that might have been missed and also to observe the direction of a plane that had been seen before.

The importance of ground observer corps work is apparent from the fact that enemy aircraft can and frequently does escape radar detection. By flying low pilots can keep natural obstructions between themselves and a radar station, leaving ground observation as the only means of detection.

## Rally Falls Short, Cubs Tumble 25-19 To Wichita Kids

An inspired comeback almost won a game for Father Patrick Hannon's Sacred Heart Cubs on the parochial field Sunday afternoon, but the inspiration did not hold out long enough, and Sacred Heart of Wichita Falls was the winner by a 25-19 count.

As the game started it seemed like only so much signal practice for the Wichita kids. Cub defense was next to non-existent as the visiting youngsters pushed over three rapid touchdowns.

Then the Cubs snapped back for three countersto tie the score at 19 each about midway in the third period.

However that score stood only until the next kickoff when a pint sized Wichita back put on the thrill play of the day, a return for 70 yards and the winning TD.

After that the Cubs just could not get back into the groove. Of the five times they had the ball for offense they lost it once on a fumble, twice on interceptions, and had to kick twice when their drive bogged down. However they held their visitors in the

## Two Business Firms Change Ownership

Because of one partner's failing health the B & H Butane Company discontinued business this week and the B & H Oil Company changed from a partnership to an individual ownership.

George Bayer's illness shifted the responsibility for both business ventures to Fred Hennigan, who decided that the job was too big for him to handle alone. Accordingly the partners sold their butane business to the Muenster Butane Company and Hennigan bought Bayer's interest in the wholesale gas and oil business.

Hennigan's business will again operate under the name of H & H Oil Company, which it used before Bayer bought an interest in it early last summer.

## Post Office Opens 30 Minutes Earlier

An extra half hour of service a day will be offered at the Muenster Post Office beginning next Monday, October 10.

Postmaster Arthur Endres announced this week that daily opening time will be 30 minutes earlier in response to frequent requests by the office patrons.

Starting Monday the post office will open at 8 o'clock and close at 5:30 Monday through Friday. It will be open 8 to noon on Saturday.

## Hornets and Eagles Clash Here Friday In District Opener

District 10-B football for the Muenster High Hornets begins in a big way Friday night when they bump noggins with the Valley View Eagles, rated as one of the top contenders for this year's champ title. The game will be played on the Hornet field, starting at 8.

The green and white clad outfit boasts a quartet of fleet footed experienced backs in Christian, Johnson and the Haynie Twins. Helping them up front is a line of ample tonnage featuring tackles of 270 and 220 pounds and a guard of 190 along with Kenneth Martin, a 180 pounder named to last year's all-district eleven.

To date Valley View has a record of two wins and a loss. Sherman B and Gainesville B were victims in a couple of one-sided tussles. Keller walloped the Eagles by four touchdowns in the other game.

Muenster also enters the fray with a 2-1 record. After losing their first skirmish to Pilot Point the Hornets snapped back with wins over Whitesboro and Windthorst.

And, according to Coach John Hosea, the boys have been improving steadily, especially during the two weeks since their last encounter. Their coordination is better. Blocking and tackling are sharper. Another comforting factor is notable improvement in the squad's reserve strength. Dependable relief will be available if and when it is needed.

One probable handicap for the Hornets is the absence of Dougherty from the line-up. He has been on the sick list lately and may not be ready for action this week.

A pep rally and parade Thursday night will usher in the Hornets' District 10-B season. It begins at 6:30 at the school.

## Texarkana Eagles Blast Tigers 20-0 In First SAL Tilt

Tiger aspirations for the '55 Southwest Academic League title suffered a rude setback on the Catholic High field at Texarkana Sunday afternoon.

Apparently feeling the effects of their long trip Sunday morning, the Sacred Heart gridders were far off the brand of play by which they outclassed their previous three opponents, and the final result was a disappointing 20-0 loss.

The jinx started haunting the Tigers in the opening play as they fumbled their kick-off return and the Eagles recovered on the 38. On the next play Lee of the Eagles scampered 38 easy paces for the first counter.

The rest of the half went scoreless as both teams saw their efforts wasted away on fumbles and interceptions. Statistics slightly favored the Tigers during that time. They gained 59 yards and 3 first downs while the Eagles made 42 yards and 2 first downs, and lost 2 fumbles while the Eagles lost 3.

With the second half kick-off the Eagles promptly settled down to the serious business of icing the game away. After a 32 yard kick return they launched a drive that produced 58 yards and the second TD on 16 plays.

The third score came early in the fourth period, moments after the Tigers were apparently headed for a counter. Sacred Heart lost a fumble on the Eagle 15 and two plays later Thomas

## Mrs. Rilla Wyatt, 57 Year Resident Of Marysville, Dies

Mrs. Rilla Wyatt, 74, a long-time resident of the Marysville community, died Tuesday morning in a Dallas hospital where she had been a patient for two days. Illness last Friday sent her to a Gainesville hospital and she was transferred to Dallas Sunday.

Funeral services were held at 2 o'clock Thursday afternoon at Marysville Baptist church with Rev. R. O. Miller officiating. Bearers were Earl Ward, Jesse Shields, Lindsay Branch, Johnny West, Thurman Ward, and Tom Bengfort.

Burial was in Shiloh cemetery under direction of George J. Carroll and Son Funeral Home.

Mrs. Wyatt, widow of W. A. Wyatt, was born in Hillsboro on Nov. 27, 1880. She and Mr. Wyatt, a native of Marysville, were married in November, 1898. They spent their married life at Marysville where he was a farmer and carpenter. He died in April 1947.

Survivors are two sons, Joe Wyatt of Marysville and Thomas C. Wyatt of Winnsboro; three daughters, Mrs. John Richey of Marysville, Mrs. Fred Richey of Sivelts Bend and Mrs. Earl Cochran of Athens; two brothers, W.R. Couch of Goree and C. A. Couch of Clifton, two half brothers, Elmo Shoffitt of Roswell, N. W., and Henry Shoffitt of El Paso; 10 grandchildren and 15 great-grandchildren.

## FFA Boys Attend Area Award Dinner

Seven members of Muenster FFA Chapter and four local adults were at Denton Tuesday night attending the Area Five second annual FFA Awards Banquet sponsored by Farm and Ranch Magazine.

Featured speaker for the event was A. B. Jolley, Farm Editor of the Dallas Times Herald.

Muenster members attending were James Myrick, Wylie Lewis Corbin, Jerry Wimmer, James Wolf, Hubert Richey and James and Douglas Doughy. Adults were Glenn Hellman, Roy Endres Jr., Dick Cain and J. M. Weinzapfel.

## Saint Jo Juniors Tie Pee Wees 6-6

Taking advantage of one big break for each side, the kiddies of Muenster and Saint Jo ended an even game with the even count of 6 all on the Hornet field Thursday night.

After a first half featuring tight defensive play by both teams the visiting Panther Kittens got their big break early in the third, moments after things appeared to be going fine for the Pee Wees. Muenster's offense went sour all at once. Three plays were smeared for losses of 20 yards, from their 30 to their 10, and a fourth down kick attempt ended in a fumble which the Kittens recovered on the 1. A single offensive play by Saint Jo marked up the touchdown which was practically a gift.

Muenster's break came at the opening of the last quarter, on a tumbling 50 yard kick which backed up the visitors to their 10. Then Muenster's defense got to work pushing the ball back 7 yards on two plays. A feeble kick set the Pee Wees up on their 19, from where Hudspeth scored in two attempts. His first fell short by a foot, the second finished the job.

## School Trustees of County Will Meet Here Next Tuesday

Members of the Muenster school board will be hosts to trustees from other rural school districts of the county and members of the county school board next Tuesday night in a meeting of the Cooke County Rural School Trustees Association.

Speaker for the occasion will be Dr. Sam McAllister of North Texas State College. The Association, including about 50 members, meets regularly during the school year to discuss trends and problems in rural school administration.

John Arendt was dismissed from Gainesville Sanitarium after being a patient during the weekend.

## Tigers Prime for Laneri Battle at Cowtown Next Week

The Sacred Heart Tigers, fully recovered from their 20-0 jolt at Texarkana last Sunday are going strong nowadays on a two weeks campaign to get set for the always rugged Micks of Laneri on October 15 at Fort Worth. This week is an open date on the Tiger schedule.

Father Christopher says his boys were not hurt in body or in spirit by their losing tussle with the Eagles and are working hard to polish up their game for a first class performance at Cowtown.

## Lions Gross \$779 In Broom Selling Spree for the Blind

Brooms, mops, door mats, ironing board covers and a number of other items made by blind workers of Texas really sold in Muenster Wednesday. By the end of the day it was quite generally agreed that a new local record had been established here. Never in the history of the community had so many brooms been bought in a single day.

A final tally of the day's business about 9 Wednesday night revealed a total of \$779.

Members of the Lions Club were the fellows who put on this big selling spree... especially George Letson, Jimmy Lehnertz, J. P. Flusche, Howard Homsley and J. M. Weinzapfel. They sold from a stock stacked on the street and they peddled from door to door over most of the town and some of the rural area. They used practically every type of sales pressure known, including pleading, coaxing, brow-beating, arm twisting and a bit of blackmail.

One interesting feature of the event was a two-team contest with Letson and Weinzapfel as captains, the losing side to treat the winner at the next club luncheon. The Letsonites won with plenty to spare.

The sale was conducted in cooperation with the Caravan for the Blind, an organization which sells articles made by blind workers in blind shops of the state. A representative of the Caravan brings the truck to town and checks out his stock, and the Lions take over from there. At the end of the day they check back the stock and pay for the difference retaining a commission for their efforts.

Blind broom sales sponsored by Lions Clubs were introduced in Texas last year and netted over \$125,000 to blind workers of the state. Sales to date this year have netted over \$100,000 for the blind.

## NEWS OF SICK AND INJURED

Wallace Dougherty is a patient at Gainesville Sanitarium. He is a senior at Muenster High school.

Mrs. Oscar Walter was dismissed from Gainesville Sanitarium Friday following a week of medical care and is up and around as usual since Wednesday.

Mrs. Henry Yosten received medical care at Gainesville Sanitarium during the weekend.

Byron Sears, still a patient at the VA Hospital in McKinney, is resting well, according to word from his wife. He told her that he was enjoying the get-well cards immensely and that mail call was the nicest part of the day otherwise devoted to treatments and medical care. He'll be in the hospital for some time. The ward number is 59.

## Leaves For Training

Gerald Walterscheid left last Thursday for induction into the armed forces. He was a one-man quota from the Cooke county draft board. Gerald is the son of Mr. and Mrs. Tony Walterscheid.

Mr. and Mrs. S. W. Wilson and Paul Wilson of Slaton arrived Thursday for a visit with Mrs. Wilson's sister, Mrs. Byron Sears. They all plan to spend Friday in McKinney with Mr. Sears at the VA Hospital.

## Luncheon Meeting Friday Will Start United Fund Drive

Muenster's first United Fund drive, facing a quota of about \$3,500, will get under way Friday at noon when a group of thirteen Advance Gifts solicitors meet for luncheon and briefing at the Main Cafe.

They will be headed by J. M. Weinzapfel, second vice-president of the county United Fund unit and chairman of the Muenster drive.

At the same meeting advance plans will be made for the general drive, which is due to get under way next week.

Persons appointed to make contacts in the advance gifts drive are Arthur Endres, Pearl Evans, Anthony Luke, J. W. Fisher, Andy Hofbauer, Ray Wilde, George Letson, Richard Trachta, Jerome Pagel, John Wieler, Marty Klement, Maurice Pagel, and a representative of the bank. The large group was named so that each solicitor will have a comparatively few people on his list of contacts.

The purpose of the advance gifts drive is to make a separate appeal to business concerns and individuals who are financially able to give more substantial help. In the general drive which follows the recommended donation is one day's pay.

In letters sent out this week to persons and firms on the advance gift list Chairman Weinzapfel emphasized that for several years many persons here have expressed their preference for a United Fund drive rather than separate drives for several agencies, and asks donors to respond to the new arrangement by putting the drive over in a big way.

The local goal of \$3,500 is estimated as this trade area's share of the county's \$28,500 quota. That estimate is based on the comparative population in this trade territory and the entire county.

Organizations slated to participate in the United Fund are Boy Scouts, Girl Scouts, Red Cross, Salvation Army, 4-H Clubs, Gonzales Warm Springs foundation, Sweeney Diabetic Foundation and Texas United Defense Fund.

Combining the appeals of all those agencies the United Fund conducts one super charity drive a year, in October. People are asked to make one large donation rather than small donations to each of the separate organizations. Not included on the list of United Fund Agencies is the National Polio Foundation. This organization prefers to conduct its own drive each year.

## God is Source of All Freedoms

By Wilmar L. Thorkelson  
 The Minneapolis Star  
 The "good news" of religion is finding its way into the columns of America's newspapers with increasing frequency these days. Newspapers are devoting some space to coverage of religion and to inspirational-type features because they are aware of the reawakened interest of their readers in things spiritual. Whether this interest represents a genuine religious revival or not, everyone should be happy that Americans are willing to look anew at their personal and national moral foundations. For it is certainly true of its For it is certainly true that the real strength of a nation lies in the quality of its people and in their character and ideals. "Righteousness exalteth a nation," the Bible says. Some historians claim to find a definite correlation in America's past

between its times of religious revival and its periods of prosperity. As might be expected, the new interest in religion has brought positive results to the churches. Membership rolls have boomed, giving has gained and thousands of congregations have erected new edifices and religious schools. Our churches have become the envy of the world. America's press rejoices in this development for it knows that vigorous churches — like vigorous newspapers — are needed to serve America in the critical days ahead. In an important sense, America's churches and newspapers are allies. The freedom of worship and the freedom of the press which they enjoy are guaranteed together in our constitution. And both freedoms must be continued if either is to survive. This is the lesson of history from abroad wherever the tyrant's heel has been felt. Time after time, whenever the

government of a nation has seized control of its newspapers, it has cracked down on its churches a short time later. The reverse also has been true.

If church and press had been jealously concerned with the freedom of the other, both might have retained their liberty. Truly freedom is indivisible.

During this National Newspaper Week, we warmly salute our partners — the churches of this nation.

May the churches and the newspapers of the United States remember their historical kinship and may they serve as sentinels of democracy in preserving and strengthening religious and political freedom.

## Press and Church Important Allies

By James Courtney  
 National Catholic Welfare Conference

In any consideration of the relationship between Freedom of the Press and Freedom of Religion, it is well to begin by determining where these, and all our other freedoms such as Freedom of Speech and Assembly, have source.

Some have contended that the state is the sole originator and dispenser of such freedoms; others that they derive from the people themselves—resulting in as many variations of "freedom" as there are people. American law and

tradition, however, rejects both of these theories and frankly and explicitly recognizes God as the ultimate source of all rights and the necessary freedom to maintain and defend these rights.

The Declaration of Independence states: "All men are created equal . . . they are endowed by their Creator with certain inalienable rights."

Because Freedom of Religion and the Press have a common source there is a definite relationship between them. This relationship is not only between each individual freedom and its origin or originator, but also between the freedoms themselves, as complementary means of safe guarding the dignity of each individual. It follows that such freedoms entail great responsibilities. History, as well as current situations in other areas of the world, bear witness to the perversions to which such freedoms can become subjected.

Perhaps religion has the greatest responsibility since its function is to establish and perpetuate the basic values upon which all judgments and decisions should be made. The necessary broadness of such a mission does not detract from its reality, and

## Communism Is A False Religion

By J. Edgar Hoover, Director of the Federal Bureau of Investigation

I CAN'T UNDERSTAND how anyone could confuse Communism with Christianity. Karl Marx coined the phrase, "Religion is the opium of the people." He also wrote, "Communism abolishes eternal truths; it abolishes all religion and all morality, instead of constituting them on a new basis . . ."

But some Americans have been fooled into thinking that Communism is just another form of Christianity. Non-Communist writers who should know better often parrot the Red line that Communism and the teachings of Christ have much in common. Some years ago in one of our leading magazines a writer said, "Pure Communism, indeed, might be a Christ-like doctrine were it not for its political implications." This man couldn't have known much of the real aims and doctrines of Communism.

Hoover

At a COMMUNIST meeting recently a speaker gave the true Communist position on religion. "No true Marxist can believe in any religion," he said. "The Church is the enemy of the working class and must be shown for what it is—an enemy of the people." In this he did not differentiate. Jew or Gentile,

Catholic or Protestant, it makes no difference. The Communists are dedicated to destroy belief in God.

The real menace of Communism is that it becomes a religion in itself—a religion utterly opposed to Christianity. It has no place for man's soul, for God, for heaven or hell.

OUR STRUGGLE with Communism is more than that of differing political systems. The struggle is essentially religious. Communism attacks all forms of religion that base themselves on belief in God.

Part of the Communist plan is confusion. They hope to divide our people and stir up strife between Catholic and Protestant. ANOTHER TACTIC is deception. Time and again they inject their slogans and propaganda into religious groups on the themes of "peace," "democracy," "aid to the poor," and "civil liberties." They will even use things like the Sermon on the Mount and the Christmas story to further their own aims.

Religious people must realize that Communism is their great enemy. The zeal of the early Christians overcame paganism in Rome and civilized the savage gods of the northern barbarians. That same zeal could convert godless Communists. It is up to American Christians to recapture that indomitable spirit and to free the world from this menace.

† Public Feature Service, Washington 17, D. C.

such concepts as the "brotherhood of man under the Fatherhood of God" need not be — and to Christian nations are not — mere empty slogans.

Certainly one of the most effective instruments which condition the mind of man is the press, and because it is so influential, its responsibilities are proportionately great. As an instrument of truth it serves a noble purpose and contributes greatly in promoting the general welfare of the people.

From these observations it can be seen that freedoms not only assist one another in fulfilling their respective functions, but if properly used, also serve to protect one another. This has been true since the printing of the first

book by any press, Gutenberg's Constance Missal more than 500 years ago, to the present time when the Bible outsells all other works of a non-fiction nature.

The occasion of National Newspaper Week is an excellent time to be reminded of these, basic truths, since it is easy to forget and lose sight of that "firm reliance on the protection of Divine Providence" which our forefathers acknowledged as the basis for American Democracy.

The first printing press in America was set up in 1638 in Cambridge, Massachusetts.

In December, 1620, the first known news-sheets in the English language appeared not in England but in Holland.

### Shades of Tom Sawyer!

Hack Willis had just stopped the tractor so's he could cool off at the pump, when a young insurance salesman came up the drive.

Hack was tired of plowing, and needed insurance on his new barn. But he also needed to get that winter rye in fast. The salesman, an eager kid, noticed hesitation. "I come from a farm," he said. "Why don't you look at these booklets—get all the dope—and I'll take that plow a couple of rounds for you."

Young fellow laid off a pretty straight furrow, too. It was almost dark before Hack—sitting

In the shade—was able to decide just what kind of policy to get.

From where I sit, to be a good salesman—or a good citizen—it always helps to "put yourself in the other man's place." He may have a different sort of job with different problems . . . he may prefer to close a deal over, say, a friendly glass of beer while you might prefer something else. But both of you can co-operate if you make it a "policy" to try.

**Newspaper People Are Human, They Make Errors, Too**  
 By Robert U. Brown  
 Editor & Publisher Magazine  
 Aviators during World War II had "gremlins" that caused all sorts of trouble mechanically, and sometimes did some good to high flying planes.  
 Operators of machines of all kinds, particularly automobiles, have noticed that certain types of "bugs" develop in the mechanisms.  
 Sometimes plumbers complain of getting a left-handed monkey wrench by accident. Some ball players act as if they don't know the difference between a left-handed and a right-handed bat.  
 Newspapermen and printers are no exception to the rule.  
 For centuries they have been bothered by those pesky little things called "type lice" that move or drop out letters in a word and generally change the meaning of what the man intended to say.  
 You will know what we mean if you have ever read a story that

said: "Mrs. Brown was the featured sinner at the church dinner." Of course, it should have been "singer" but those type lice did it again.  
 In the trade we call them "typos," for short.  
 For example, when the little devil made one word out of two and said: "Mrs. Robinson will direct the choir. Mrs. Brown will beat the piano."  
 Another time a West Coast headline declared: "Strange Tail of Missing Pair Solved."  
 And an ad, for which someone had paid good money, said: "Modern Hotel, Reasonable Rats."  
 Sometimes, newspapermen themselves give lice considerable help in their nefarious business by writing things that can be read two ways. Such as the man who wrote this headline: "Grove-land man is high in egg laying contest." Or the one who wrote: "Christmas sale of Methodist women to be held Tuesday."  
 The man who wrote "St. Paul women are best sewers" meant well and was reasonably accurate but he had to leave town in a hurry.  
 And there was a mob scene downtown in a Middle Western city when the local populace read: "Girls are wearing nothing but cotton stockings for the duration."  
 Classified advertising is a great field for this type of boner in newspapers. For some reason, someone always has a "room for rent to unmarried girl with hot and cold running water."  
 One of the rarities was: "For sale, man's large desk, secretary with drawers."  
 This one provided an air of mystery: "Girl who persuaded boy to take brindle bull is known. Answers to name of Buster and is black with white chest."  
 This had an air of futility, but left no doubt as to what he meant: "For sale — Baker's business; good trade, large oven, present owner has been in it for seven years; good reasons for leaving."  
 One of the all-time classics appeared in an obituary column, of all places, and said of the deceased: "Noted for his witty remarks, he once offered this marriage advice: 'First find the girl with whom you can live in perfect harmony and good will. Second, let her do as she pleases.' His widow and nine daughters survive."  
 So you see, between those little unseen bugs that plague composing machines (those intricate gadgets that convert a reporter's copy into slugs of metal containing the words) and the adeptness of some newspapermen to say two things when they meant to say only one, there is never a dull moment in the newspaper business.  
 Just remember, if you should be the innocent victim of one of these slip-ups, it wasn't done on purpose.  
 The oldest newspaper in America today is the Newport, Rhode Island Mercury, which was founded in 1758 by young James Franklin with the aid of his Uncle Benjamin.  
 "Does your wife play pinochle for money?"  
 "No, but the people she plays with do."

**New Money Orders Speed Up Issuance**  
 Since the first of this month post office money orders here have a new look, designed to speed up issuance of the orders, cut down the time patrons now have to wait at the window, and help reduce the number of raised money orders, according to Postmaster Arthur Endres.  
 The new type money order is issued in first and second class post offices only. Later, after present supplies of old ones are used up, they will also be used in third and fourth class offices.  
 The new money order is divided into three perforated parts — one for the issuing post office's record, one for the purchaser's record, and the third, the actual order showing the names of payee and purchaser, amount and other information.  
 Previously the patron filled out an application form and the postal clerk made out the money order. Now there is no application form and the patron fills out the actual money order himself after the clerk fills in the amount, collects the money, and detaches

the post office's record.  
 It is estimated that the new form will save about 40 per cent of issuing time. Postmaster Endres said. It's another step in the department's determination to use every means of improving mail service he added.

### SH Football Queen Contest Under Way

Sacred Heart High's annual football queen contest got under way Tuesday when classes selected their favorites to compete for the homecoming queen's crown.

Candidates are LaVerna Hess, senior; Edna Mae Hoinig, junior; Jeanette Haverkamp, sophomore; Joaline Mollenkopf, freshman.

The winner, to be determined by votes secured at a penny each, will receive her crown and reign over the homecoming game on Nov. 4 when Sacred Heart Tigers play Buckner of Dallas.

The first American newspaper, Publick Occurrences Both Forreign and Domestick, published in Boston on September 25, 1690, by Benjamin Harris, was suspended by the royal governor after one issue.

### AT BANKERS CONVENTION

Mr. and Mrs. Herbert Meurer and daughter Martha Sue returned Sunday evening from Chicago where they attended the American Bankers Association National Convention. They traveled from Fort Worth on a special train with some 250 other Texas bankers. On Wednesday Mrs. Meurer and Martha went to South Bend, Ind., to visit her sister and family the Jack Quinlans. Thursday and Friday were sight-seeing days in Chicago, and the Meurers had time for a visit with the Vincent Bakers. Traveling home Saturday and Sunday the bankers' train went through flood waters in Kansas.

The three dogs together yield a pound of material a year, and so far it has been possible to weave eight yards of the doggy material.

### Homemaking Hints

By Mrs. H. H. Homsley  
Perhaps while eggs are plentiful and inexpensive as they are nearer our holiday season it would be wise to freeze some liquid eggs for future use. Here is a simple procedure: break fresh clean eggs into a clean bowl (dirt from shells may spoil keeping qualities). Add one tablespoon corn sirup or honey to each two cups liquid eggs. Break all yolks. Mix thoroughly but do not whip in air. Sirup and mixing prevents gumminess in thawed eggs. You may separate whites from yolks when breaking, if desired. Add sirup or honey to yolk and beat as for whole eggs. Package whites with nothing added and no mixing. Be sure to package eggs in moisture vapor-proof containers. Freeze promptly. Store at 0° F. When using frozen eggs for future cooking 1 tablespoon yolks equal 1 egg yolk, 1½ tablespoons whites equal 1 egg white. Be sure to use thawed eggs promptly.

Dust settles on our furniture every minute so we need some lintless dust cloths handy. Here is a simple method to make them yourself — take several soft rags or cheese cloth squares and dip them in a solution of turpentine and water. Use one teaspoon turpentine to a quart of water. Dry the cloths, fold them, and place them in a can (an old coffee or shortening can that you have labeled will make a good storage place). You will find that these rags will be lint free and you can use them time and time again before you have to wash them. When you do wash them rinse them in the turpentine solution for your last rinsing. Be sure to shake out the dust before returning the cloth to the storage can. A bit of caution — a few air holes can be punched in the top of the can if the lid fits tight.

### Patsy Spaeth, 4, Has Party on Birthday

Patsy Ann Spaeth, four years old on Friday, Sept. 30, observed her birthday with a party at the home of her parents, Mr. and Mrs. Henry Spaeth, route 1, Gainesville.

Gifts, games and refreshments, and the taking of pictures made it a gay affair for the honoree and guests.

The party table held a large birthday cake shaped like the dress of a bride doll. It was flanked by two smaller cakes, formed in the costumes of two bridesmaid dolls, iced in blue and pink. These held two birthday candles each for the four years. Favors were balloons, whistles and novelty hats.

Guests were Jimmy and John Dangelmayr, Jerry Fleitman, Lynn and Kim Reiter, Janie and Bobby Knauf, Dale Felderhoff, Carolyn and Glenn Schoech, Tommie and Margie Felderhoff, all of Muenster; Harry and Gregory Kneupper, Ernest Voth, Larry and Barbara Schumacher, Anthony and Stevie Felderhoff, all of Gainesville; Glenn Neu of Valley View, Linda Spaeth of Wichita Falls and Davy Spaeth, brothers of the honoree.

Other guests were the honoree's grandparents, Mr. and Mrs. Hubert Felderhoff of Muenster and Mrs. George Spaeth of Lindsay, and an aunt, Miss Frances Spaeth of Dallas.

Sunday the Joe Spaeth family of Wichita Falls, Miss T. Mae Spaeth of Lindsay and Mark Kuta of Crockett had dinner with the honoree and her family, still celebrating the birthday.

### Soil Conservation Notes

The planting of vetch, peas, button clover and alfalfa has gotten off to a good start in the Muenster area of the Upper Elm-Red Soil Conservation District.

All of these legumes are grown on cultivated land for soil improvement and protection from the forces of erosion. Vetch and button clover are also overseeded on pasture land for soil improvement and to furnish extra grazing when the base grasses are dormant.

Button clover is a plant new to this area but it has given such good results that it has become quite popular this fall. Besides being an excellent grazing plant it is also a sure re-seeder if properly managed.

Some farmers who have taken advantage of the recent moisture and have planted vetch or button clover in pasture land are Bruno Fleitman, Paul Fisher, Dangelmayr Brothers, Paul and Urban Endres and Weldon Dennis.

Farmers who have planted winter legumes include Emmet Sicking, vetch; Frank Bindel, vetch and peas, Andy Wimmer, Tony Wimmer and J. A. Klement, peas; and E. Newby, vetch. Tony Walterscheid, Bruno Fleitman, T. F. McKenzie, Paul Endres and John Kreitz all have alfalfa up to a good stand.

Emmet Sicking is building about a half mile of broad channel type terraces. They outlet onto a Bermuda grass waterway that was sodded to grass to afford a safe outlet. Frank Bindel has completed construction of 4,277 feet of channel type terraces on his farm northwest of Muenster.

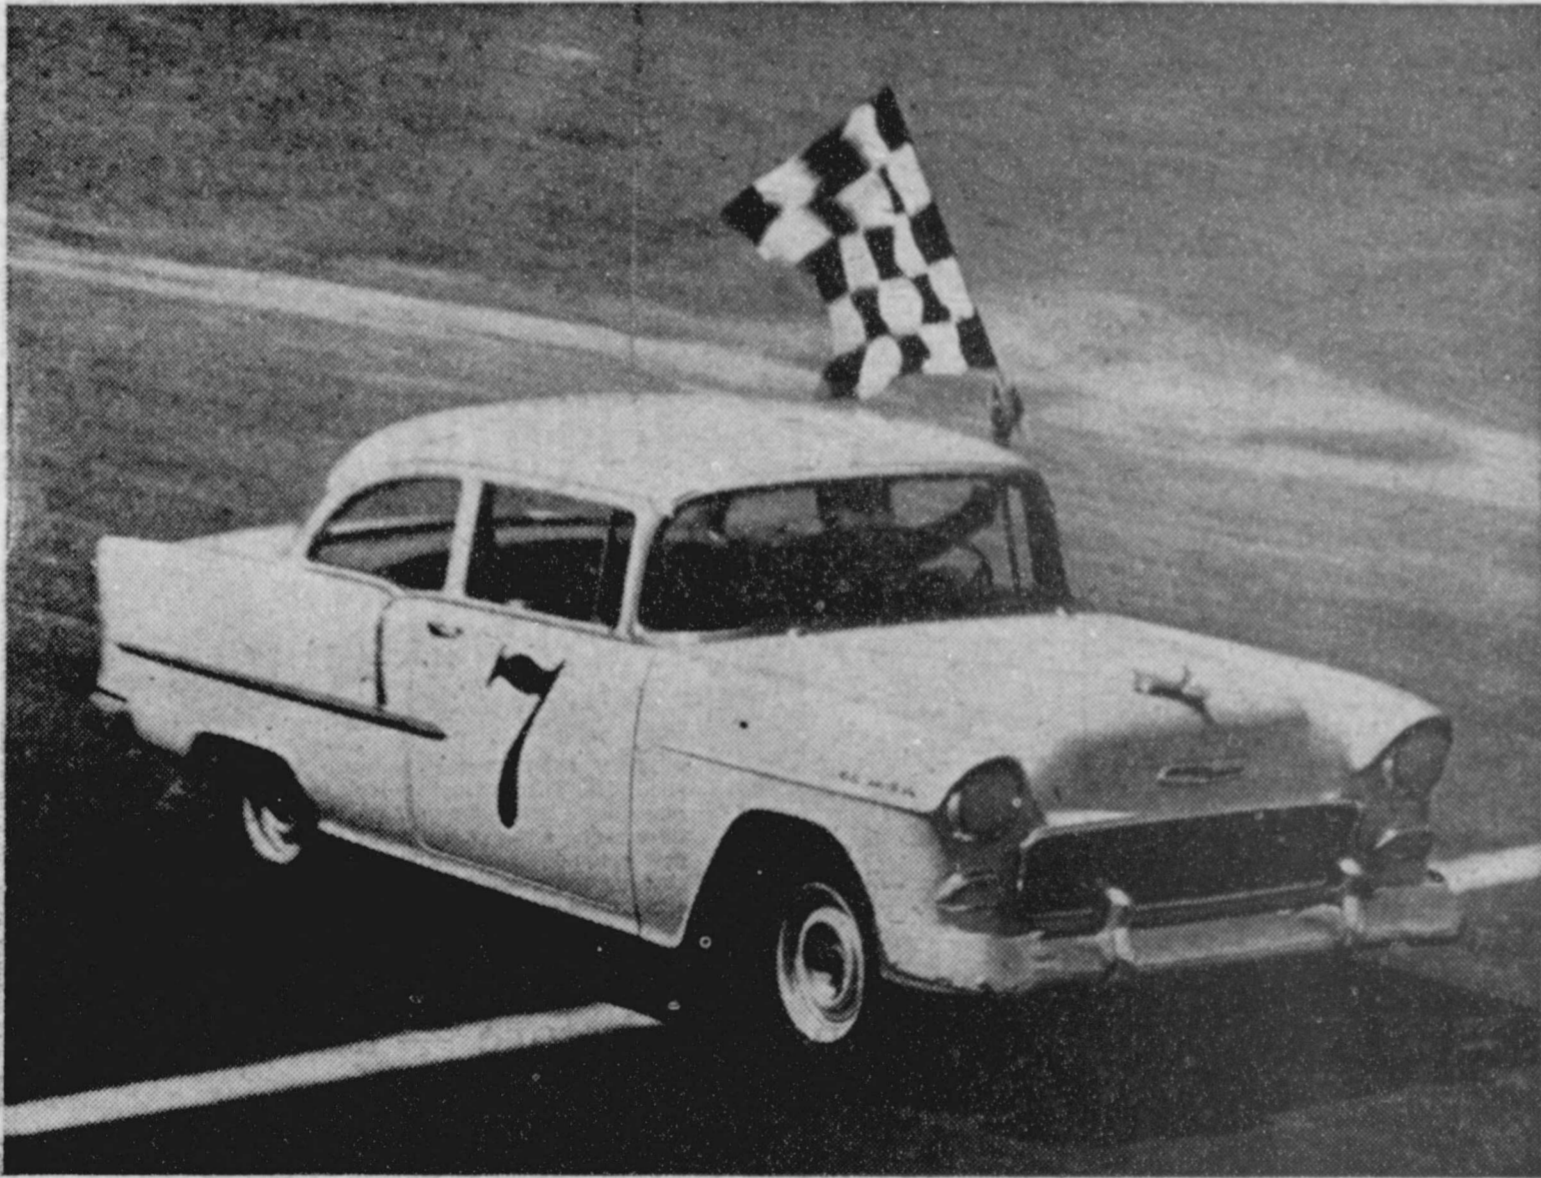

Soil Conservation Service personnel staked off waterways for T. F. McKenzie and for Dangelmayr Brothers on the farm operated by D. R. Rosson. These waterways have been deep plowed and volunteer grain will be plowed again later so that there will not be any competition with the grass when it is planted next spring. After the grass is well established it will be possible to build terraces on adjoining cultivated lands.

According to local SCS personnel the secret of successful grass plantings is a well prepared seed bed. Now is the time to get seed beds ready for next spring's grass plantings.

Benjamin Franklin was the publisher of the Philadelphia Zeitung, which in 1732 was the first foreign-language newspaper in the American colonies.

competition—not only against its own field  
but against many American and foreign  
high-priced cars, too!**

Let's translate these Chevrolet victories into your kind of driving.

You've got to have faster acceleration to win on the tracks. And that means safer passing on the highways. You've got to have better springing and suspension. Again, safer and happier motoring for you. You've got to have big brakes that act fast and smooth... and easy, accurate steering. More things that make your driving safer.

But it's more fun to try these things out than just to talk about them. So come in and let's take a ride.

Milk is cooled to well below 40° in less than one hour — assuring a lower bacteria count and better milk. The milk cannot freeze — because the coolant is ice water.

Dari-Kool tanks are easy to clean and may be sanitized with hot water without damage. Units are ready to operate — no expensive, remote compressors to install or service.

Every Dari-Kool is built around a rugged 10-gauge steel frame — providing rigid support for the bulge-proof stainless steel milk tank. This assures accurate calibration and correct payment.

It seems a motorist driving through the country had motor trouble. He got out and raised up the hood to see if he might locate it. A voice said, "The trouble is in the carburetor." The motorist looked around in surprise and the only possible source of the voice was a horse standing close by. Very excited the motorist rushed down to the next farm house and related his experience. "Was it an old bay horse with one flop ear?" he was asked. The motorist answered in the affirmative. "Well, don't pay any attention to him," the farmer said. "He don't know anything about automobiles anyway."

### SOME CROPS TO SHARE

Why are the farms and ranches of this great empire of the Southwest productive enough to supply our own needs plus an abundance for shipment to other lands? Are the soils of the Southwest more fertile? Is there more moisture? We are still in need of more improvement in soil and water conservation, and certainly these could not be the answer.

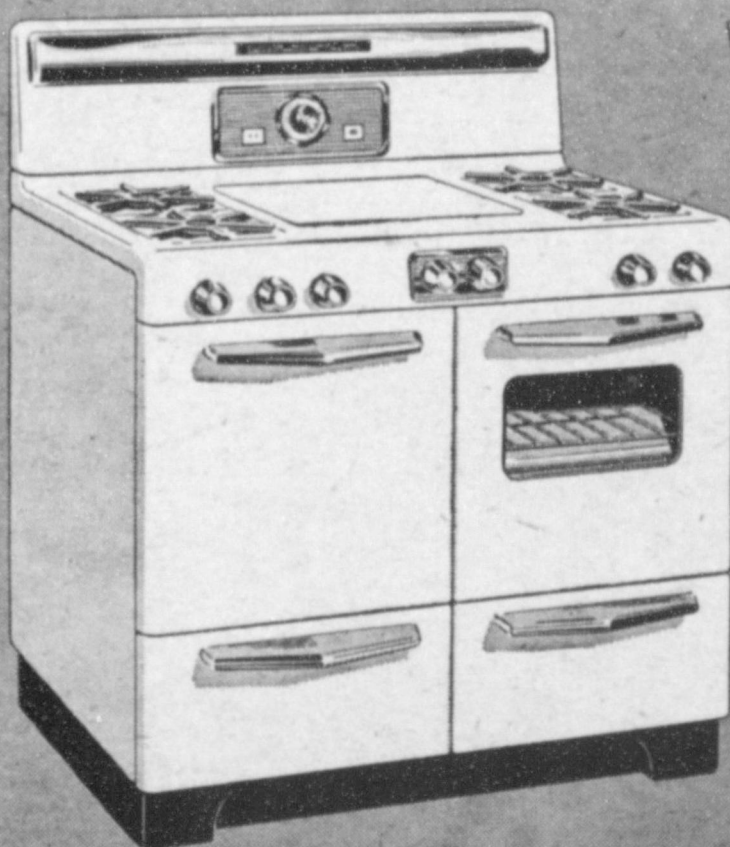

It's the freedom of choice — to change, undertaking new systems of farming according to one's own choosing. When one practice will not get the job done, we can try another, and still another, until we are successful in creating even great surpluses—surpluses we can share with others across the seas.

Freedom of enterprise — to succeed or to fail and to try again — this is what makes the American way of life different. Start an account with us today. You will be glad you did.

## Cubs Lose

meantime, making short work of Wichita's attempts to advance. The visitors launched their first scoring drive promptly after receiving the kick-off, using only 6 plays to cover the 80 yards.

Next they held the Cubs on their first series, took over on downs in mid field, and racked up 6 points on a single play.

A Cub fumble following the kick-off gave them another chance at midfield and again they made the most of it. After 3 line plays failed, a pass went all the way. That was the first play of the second quarter.

Father Pat's kids were equally sensational on their first TD. On the second play after kick-off Charles Bayer passed to Leonard Haverkamp for 46 yards and a TD.

Most of the second quarter was taken up by Wichita's drive, interrupted temporarily as the Cubs intercepted then fumbled the ball away, which finally stopped 9 yards short of the goal. On the next play Hennigan took Bayer's long pass and raced to the visitors' 8 before he was overtaken. Two line plays gained 3 each and Wimmer went over. The half time count was 19-12.

The Cubs still had their spark as they came back after intermission. Wimmer started it with

a 40 yard kick return and Bayer's pass to Haverkamp reached the 11 before an interception checked the Cubs temporarily. After a tight defense they received a short kick and were in charge again on the 21. On the second play another Bayer-Haverkamp aerial was good for 17 and the tying score, which was broken moments later by the visitors 70 yard kick return.

In order for a cow to get the most out of her feed, it is necessary to feed the bacteria in the paunch. These bacteria act with greatest efficiency when the cow's feed supplies the nutrients for maximum activity. These needed types of nutrients are: a quick source of energy, a slow source of energy, vitamins, proper proteins and minerals. The best quick source of energy is molasses. The best slow source of energy is cracked or rolled grains. RED CHAIN feeds furnish these, plus the vitamins, proper proteins and minerals.

grandson of Mrs. Joe Bezner of Lindsay and Al Kuntz of Valley View.

The Paul Zimmerers of Norman, Okla., spent Sunday at the home of his parents. His mother Mrs. I. A. Zimmerer, recently seriously ill, is regaining her strength rapidly and is up and around the house now.

Mrs. Norbert Zimmerer is back at home convalescing nicely from recent emergency surgery performed at M&S Hospital. She says many thanks to everyone who remembered her with get-well wishes, visits, and other kindnesses.

The Senior-Junior Class Club held a regular meeting Friday afternoon with Cecilia Fuhrmann, president, conducting the business. During the program hour Lucy Stoffels led a discussion on the joys of heaven and the traditional "ghost report" was read. Students failed to identify the writer. Educational records were played to conclude the afternoon. The next meeting will be held on Oct. 28 with Dorothy Geray as chairman.

The Current Events Club of Lindsay High met Friday afternoon with Joe Bezner, president, in charge. Members answered roll call by giving the name of a state. Discussion centered on the State Fair of Texas which students will attend. Maxine Schmitz volunteered to take care of the scrapbook and the group guessed that Rosemary Hess wrote the ghost report. The next meeting on Oct. 26 will feature a vocal program by Wanda Hess and Maxine Schmitz.

**LA PRENSA MAY LIVE AGAIN**—Dr. Alberto Gainza-Paz, reads a late 1950 edition of his paper in New York City, where he awaits word that he will once more be free to publish the world-famous Argentine daily, confiscation of which in 1951 brought down world-wide condemnation of recently deposed President Juan Peron. Under provisional government of President Eduardo Lonardi, the La Prensa property may be returned through the courts rather than by government decree, as first expected. Gainza-Paz endorses the procedure, saying that "where all legality is violated as it was by Peron, so it must be restored through its normal resorts or mechanisms, through the courts."

racial or class friction.

We have also seen political trickery in print. Original stories about Candidate Nixon in 1952 insinuated he was quite a scoundrel. The men who scribbled them did not bother about the accuracy of their statements. They just gleefully dished out the damaging rumors. Fortunately that bit of treachery backfired when the country learned what had been done.

The volumes of McCarthy publicity also illustrate the point. Slanted reports bellowed every sharp word he directed at the Fifth Amendment specialists and traitors but seldom emphasized the abuse dished out by them, nor McCarthy's service in exposing public enemies.

Such examples could be listed by the hundreds. That's why we must admit, with regret, that our noble slogan for National Newspaper Week does not apply all the way. Our press fights for our right to know but it is not always sufficiently alert to those who adulterate the news with half truths and slanted versions.

When I was a boy in Carolina, I was cured forever of engaging wild things. Not content with hearing mocking birds sing from the cedars, I determined to cage a young one, and thus have a young musician all my own.

On his second day in the cage, I saw his mother fly to him with food in her bill. This attention pleased me, for surely the mother knew how to feed her child better than I did. The following morning my pathetic little captive was dead. When I recounted this experience to Arthur Wayne, the renowned ornithologist, he said:

"A mother mocking bird, finding her young in a cage, will sometimes take it poison berries. She thinks it better for one she loves to die rather than to live in captivity." —Archibald Rutledge in "Good Housekeeping."

"Do you suggest he's a thief?" asked the attorney.  
"I wouldn't say he's a thief, suh," said the witness. "But if I was a chicken, I'd sure roost high."
