VOLUME XIX

MUENSTER, COOKE COUNTY, TEXAS,

SEPTEMBER 30, 1955

NUMBER 45

## Moisture Is Ideal After 3.72 Inches Of Soaking Rains

The steady stream of reports and the flood of comments that have been issued in this country concerning President Eisenhower's illness were to be expected. After all, he's top man here and his condition is a subject of major importance to us.

There are other signs, however, which seem to indicate he is top man of the world as well as of the USA. Since his stroke last Saturday he has dominated front pages and editorial pages in all the free world.

Most significant of all is the content of those editorials on Ike. They show how very much free people are depending on him to preserve peace and take a lead in bringing freedom and human dignity to downtrodden people everywhere.

Still another sign is the big fluctuation of values in the world's stock markets. Prices took a tumble when reports were alarming and recovered just as sensationally when the reports were better. Apparently investors see a close relationship between continued prosperity and his continued leadership. All in all, the universal grave concern over his condition is the finest possible tribute to the magnificent job he has been doing.

Meanwhile, much of the comment here deals with speculation over his availability as a candidate for re-election. Republicans are worried, Democrats are increasingly confident that they will get to campaign against a less popular man next year.

If that is how the situation develops we can hardly expect the next election result to turn out as satisfactorily as this one has. The next man is not likely to enjoy the tremendous personal popularity and public confidence which have enhanced the effect of Ike's administrative ability. It will be unfortunate for the nation and all the free world if failing health prevents the president from accepting another term in the White House.

So it is proper for all serious minded people to hope and pray that Mr. Eisenhower's recovery will be complete and that he will consent to continue his leadership in national and world affairs.

Even if his illness should slow him down somewhat, it is still reasonable for the public to ask that he stay on the job. It's very possible that the favorable effect of his global prestige and popularity will more than offset his remaining physical handicap.

Secretary of Agriculture Benson's recent remark that the administration will consider paying subsidies to farmers undertaking soil conservation programs looks like the smartest idea to emerge so far out of the current surplus of talk on the farm price situation.

Benson deserves credit first of all for standing pat on his convictions about high support prices. We've had enough of that method to know that it only serves as a sedative while actually aggravating the real cause of the country's farm problem.

Farmers have been pacified by a guarantee of high prices for their crops but they knew as well as anyone else that big money encourages big production, so it is directly responsible for the tremendous surplus of farm products the government now has on hand. They understand that these surplus products cost taxpayers billions of dollars a year in addition to other billions of storage expense.

The law of supply and demand is unyielding. Prices cannot reach an adequate level as long as the supply so far exceeds the demand. But then, there's the big question of avoiding disaster for farmers while the desired readjustment of supply and demand is in process.

The subsidy for conservation practices seems like the most practical solution to that problem. While meeting the present need of sustaining farmers it also saves and improves our soil resources for the time when they will be needed.

From our knowledge of conservation benefits we know for sure that such a system can work successfully. Assume that a farmer puts two thirds of his

Moisture is ideal in this community after a weekend of soaking showers for a total measure of 3.72 inches.

Grain lands are in fine condition for fall sowing, pastures are greening and legume crops are off to a good start.

In a few scattered fields the new grain crops are coming through. Warm weather following the rains has been fine for sprouting seed. The same applies to volunteer growth, however most of that is destined to be killed out before drills get going on the season's planting job.

The general opinion now is that chances for good winter grazing are excellent. After a few days of surface drying land can be given a quickie tillage and sowing job, after which grain can get started, without additional moisture if necessary. If warm weather continues the chances for early growth are so much better.

Total moisture for the month now stands at 4.94 inches. The year's total is 28.39 inches.

## Hornets Run Over Windthorst 30-0 on Rain Soaked Field

Touchdowns were easy for the Muenster Hi Hornets in their game with Windthorst Friday night on the rain-soaked local field, but an inspired Trojan defense stood firm in the pinches after intermission and allowed only one additional tally for a final count of 30-0.

The boys from Archer County were outclassed all the way through, their efforts adding to a net gain of only 13 yards in the game. They made 21 yards in the air but lost 8 more than they gained on running plays. In the first down department they showed 3 as compared with the Hornets' 13.

The Hornets started buzzing early, by recovering a Trojan fumble on the 30, on the second play after kickoff. Seven plays produced the first tally, Richey totting on the pay-off.

Next Muenster held on the first series and started marching after Windthorst's kick. The drive for 49 yards took 10 plays and Richey again was the lad who carried the ball across.

Another Trojan fumble started the third scoring drive of five plays for a total gain of 36. Biffle made the TD in a 5 yard drive through the line.

Hellman's interception and 10 yard return to the 20 was the next scoring set-up. Richey, gained 1 and Biffle 2 and Richey dashed the remaining 17.

A new defensive spark was apparent in the visiting team shortly after the second half got under way. On the second series they grudgingly allowed a first down on 4 tries then stood pat on the next series and claimed

(Continued on Page 10)

## Hornets Are Idle This Week; To Play Valley View Next

An open date on their schedule gives the Muenster High Hornets a rest this weekend before plunging into a steady seven weeks grind to finish their season.

They start that list of games with a bang Friday of next week, meeting the tough Eagles of Valley View, who have displayed formidable power in their early encounters.

A pep rally and parade beginning at 6:30 at MHS next Thursday night will precede the conference opener with Valley View.

## Peewees To Play Saint Jo Thursday

The Peewees, Weldon Holland's seventh and eighth graders of the public school will be trying again for their first win of the season when they take on the Saint Jo kids here Thursday night at 7:30 o'clock.

In their previous two starts the little fellows have lost decisions to Nocona and Gainesville.

## Add 3 Students to Out-of-Town List

Add three more names to the list of Muenster students continuing their studies away from home. There are 76 this year. Last week's Enterprise named 73.

Jimmy Fisher is a freshman at St. Edward's University in Austin, Hugh Endres is a freshman at the University of New Mexico in Albuquerque, and Mike Luke is attending night school in the same city.

## Sherman B Falls 36-0 Before Sharp Tiger Performance

Playing by far the better game and getting the breaks besides, the Tigers of Sacred Heart Hi humiliated the Sherman B team 36-0 on the parochial field Thursday night.

Everything went right for Father Christopher's lads during the first half of that sloshy contest, and they piled up a comfortable lead of 28-0. The second half was closer, however, as the Tigers continued to outshine their visitors but found a few of the breaks going against them. Their offense also slowed down somewhat late in the game when the understudies came in for a share of the action.

The one outstanding feature of the game was Sacred Heart's phenomenal passing attack. The boys completed 10 out of 16 attempts for a total of 119 yards in spite of wet hands and a wet ball. Only a few short drizzles fell during the game but a heavy rain before had soaked the field thoroughly.

Disaster for the Bearkittens started taking shape in the opening minute. On the second play after the kickoff the ball squirted from a Sherman player's grasp as he was tackled, and settled in the waiting hands of Charles Felderhoff, who ran 30 yards untouched for the first tally. Walter went over for an extra point.

For moments after that Sherman made the game interesting, especially on Aleman's 37 yard gainer but a fumble stopped the drive and the Tigers took over on their 30. Then came another break. Sacred Heart kicked after failing to gain, and recovered Sherman's fumble on the next scrimmage play. Six plays for 47 yards produced the next TD, Herr taking Mollenkopf's pass for the pay-off. Again Walter muddled across for an extra point.

Considerable ball swapping took place before the Tigers got under way again. Sacred Heart recovered a fumble on the kickoff. Sherman intercepted. Sacred Heart recovered a fumble and Sherman recovered a Tiger fumble. Stopped for a single yard on 3 tries the Kittens got off a

(Continued on Page 10)

## Tigers and Eagles Open Loop Play at Texarkana Sunday

The rumor is that Sacred Heart's Tigers have a man sized job ahead of them as they mix up with Catholic High's Eagles at Texarkana Sunday afternoon in their first conference game of the season.

Father Christopher said this week he has heard reports that the Eagles are stronger than for several years past but he has no details on their performances to date nor on their style of attack.

The Tiger coach is staking his hopes on the fact that his boys too are showing up better than they did last year. With a double threat of good passing and good running he expects to offset the greater Eagle power with some improvement of his own.

However he concedes that other circumstances favor the Eagles. They play at home and they will not be affected by a long ride. Furthermore they are fired by a determination to avenge their 19-12 defeat here last year.

## Concert Tickets Available

Tickets for membership in the Gainesville Community Concert for the coming concert season are available now. Mrs. A. F. Gremminger, local representative, announced this week. Persons wishing to attend the programs can obtain their tickets from Mrs. Gremminger.

## Knights Told of Order's State and National Activity

Muenster and Gainesville members of the Knights of Columbus heard about current and past activities of their order Wednesday night at a lecture by Special Representative John O'Brien of Dallas in the K of C hall. About 100 members and prospective members of the two councils were there.

O'Brien emphasized the order's activity on a state level and also mentioned some of its national activity.

An outstanding state project he said is the contemplated home for delinquent boys, an institution very similar to the famous Boys' Town of Nebraska. Construction on it is due to begin in the near future.

Another project supported by the state council is a recreation center for Catholic students at A&M College. A chapel at A&M was built by the Knights many years ago.

A nation wide K of C project is a million dollar endowment fund set up for the education of widows and orphans of members who died in service or as a result of injuries received in service during World War II. Thirty six Texans are eligible to receive a completely free education as a result of this arrangement.

Another educational benefit provided by the order is its student loan fund, which is available to any son or daughter of a member.

Still another project in the educational field is a complete microfilm library of every document in the huge and world famous Vatican Library. In effect that project brings the content of Vatican Library to America, and every American institution.

## Leo J. Haverkamp Installs Two-Way Short Wave Radio

Another short wave radio system is in operation in Muenster. Leo J. Haverkamp set it up this week to keep in contact with the several rigs of his well servicing business.

His antenna tops a 250 foot tower which suddenly becomes one of the landmarks of Muenster, especially at night when it is marked by two red lights, one at the top, the other about half way up. The tower is located a short distance east of Bayer Brothers Ready-Mix Concrete Service at the south end of Hickory Street.

He has one transmitting and receiving set installed in his home and eight sets installed in cars, trucks and pickups.

Within a few months the tower will be used also by the Cooke County Electric cooperative. Since it is considerably higher than the co-op's present antenna installation on the city water tower it will be a definite improvement to that organization's radio system. Haverkamp said his radio reception is crystal clear over a 40 mile radius.

When the co-op's new building, about 3 blocks north of the tower, is finished, the old antenna will be moved to Haverkamp's tower.

## WITH THE MEN IN SERVICE

To Be Home Soon  
Cpl. Ernest Wolf will be home soon with a discharge from the army after serving two years. He will receive his separation papers this week at Fort Lawton, Wash., where he has been serving with a radar outfit and will return home in his car.

Visiting Here On Leave  
Capt. and Mrs. Hal Falck are here for a visit with her parents, the Jake Pagels and other relatives, while he is on a two-month leave following the couple's recent return to the states from Europe. They were overseas three years in France and Germany, located at Rochelle, France. Before coming to Muenster they spent three weeks with his family at Strawn, Ill. Capt. Falck will be assigned to Camp Gordon, Augusta, Ga., after his leave.

## Lions Will Peddle Brooms Wednesday For Blind People

Members of the Muenster Lions Club will be ringing door bells next Wednesday, October 5, in their one day sale of brooms and other items manufactured by blind workers of the state.

The local club is sponsoring the Blind Broom Sale to help provide employment for the thousands of Texas blind people working in several factories throughout the state. Last year Lions clubs of Texas sold \$125,000 worth of the blind-made merchandise. To date this year they have sold more than \$100,000 worth.

Items offered are four sizes of brooms, mops, doormats, ironing board covers and pads, dish cloths and pot holders. Quality and price of the items are about the same as in the average store.

Members of the local club will meet the truck when it comes to town next Wednesday, pick up their separate consignments, and sell them from house to house. Meanwhile a few members will remain with the truck, selling the merchandise there.

## NEWS OF SICK AND INJURED

Byron Sears is a patient at Veterans Hospital in McKinney for treatment of a heart ailment. He was admitted Friday. Greeting cards will reach him if addressed to Ward 59 at the hospital.

Mrs. Gene Schmitz is back at home convalescing from an emergency appendicitis operation performed at M&S Hospital. She says many thanks to everyone who remembered her with get-well wishes and other kindnesses.

## Boys Ranch Kids Wallop Cubs 21-0

Father Patrick Hannon's Sacred Heart Cubs ran into more than they could handle at Boys Ranch last Thursday night, and went down for a count of 21-0. With more power and experience to their credit, the Boys Ranch lads dominated the game all the way through.

Nevertheless, the scrappy little Cubs made their hosts hustle for their gains. At the end of the half the score stood at 7-0. After intermission the strain began to show and the Ranchers pushed over two more touchdowns.

A return game with the Boys Ranch kids is scheduled for the local field on Tuesday, Oct. 11, starting at 7:30.

The Cubs are looking forward also to a pair of games with seventh and eighth graders of Sacred Heart School in Wichita Falls. The first contest will be here at 3 o'clock next Sunday afternoon. The second will be played in Wichita on Oct. 16.

## Car-Truck-Tractor Crash Causes Big Damage, No Injury

Joe Moster and two other drivers escaped injury about 7:15 Tuesday night in a car-truck-tractor smash-up on Highway 82 one and a half miles east of Muenster.

The three way accident occurred as Moster topped a hill and found the slow moving tractor in his way. He swerved to the left and applied brakes to avoid a collision but skidded into the side of a truck coming from the opposite direction. The impact knocked the truck over on its side and also knocked Moster's car over so it collided with the side of the tractor.

The truck, driven by Billy Rhine of Bowie, was loaded with brooms, which were scattered for some 200 feet along the side of the road. The tractor driver was Willie C. Busby of Saint Jo. Glancing blows in each of the two collisions saved drivers the impact of a hard direct crash and enabled each to walk away from the scene uninjured even though the car and truck were badly damaged. Highway Patrolman Bill Gardner estimates damage to Moster's car at \$1800 and the truck damage at \$700. The tractor was only slightly damaged.

## Good Fire Record Saves Thousands In Insurance Cost

The actual cash value of a fire department to people of Muenster was emphasized Wednesday night at the third session of the local firemen's training course, which is being conducted by A. C. Cartwright of the A&M Firemen's Training School.

During the past five years firemen have saved property owners more than \$20,000 in insurance premiums. The figure, he pointed out, applies only to policies with old line companies. He had no data on how much is saved on mutual insurance policies.

Specifically, he explained, premiums last year amounted to \$10,579, on the basis of the most favorable rate a city can get. Muenster enjoys the maximum "good fire record credit" of 25 per cent. With a bad fire record it might pay as much as a 15 per cent penalty and the rate would be that high if the fire department were not here to protect property. At that rate the total premium here last year would have been \$14,810, a difference of \$4,231.

He also mentioned that premiums here this year are nearer to \$15,000 and the savings are nearer to \$6,000.

Cartwright then explained that the city's good fire record is very much a matter of luck. Firemen have had the kind of fires they could handle with their inadequate equipment. A big fire requiring a great volume of water

(Continued on Page 10)

## Wichita Paper's All-Sports Trophy Presented to MHS

The All-Sports trophy presented by the Wichita Falls Record News for the best Class B sports record in the Wichita Falls area during the past school year now stands in the display window at Hamric's awaiting transfer to the trophy case at Muenster High School.

Presentation was made last Friday night before the Windthorst game by Mrs. H. C. Fette, circulation representative of the paper.

The trophy remains in possession of the winning school until the award for the following year is declared. However, a school that wins it three times will have the privilege of keeping it permanently.

The Wichita Falls paper presented 8 such trophies to the winners of several districts and classes within its area. Muenster's award was made on the basis of winning first in track, second in football, fourth in basketball and fourth in baseball in its district.

## County Meeting to Explain Program Of Observer Corps

A training team from the Dallas Filter Center will be in Gainesville at 1:30 o'clock, Monday, October 3rd for the purpose of explaining the Ground Observer Corps program, according to Mr. Tom R. Hickman, supervisor for the program in Cooke County. The meeting will be held in the County court room.

Any person who is interested in this vital program is invited to attend. A brief outline of the purpose of the program will be given and a film will be shown. Plans are that observation posts will be established in Bulcher, Era, Gainesville, Muenster and Valley View.

## SCHEDULE OF COMING EVENTS

- THURSDAY, Sept. 29, Pee Wees vs Saint Jo, here, 8 p.m.
- SATURDAY, Oct. 1, Bake Sale, at Fisher's Market, all day. Band fund benefit.
- SUNDAY, Oct. 2, Cubs vs Sacred Heart of Wichita Falls here, 3 o'clock.
- SUNDAY, Oct. 2, Tigers vs Catholic Hi Eagles at Texarkana.
- TUESDAY, Oct. 4, Lions meeting.
- WEDNESDAY, Oct. 5, Lions Broom Sale.
- THURSDAY, Oct. 6, Hornet pep rally, 6:30.

**Blessed Events**

Mr. and Mrs. Arthur Hess announce the arrival of Howard's baby sister at M&S Hospital Tuesday, Sept. 27, at 10:08 a.m. The little girl weighed six pounds four ounces. She is the granddaughter of Mrs. Katherine Gehrig.

Mr. and Mrs. Herbert Fette of Livingston welcomed the arrival of a son in that city Wednesday morning, Sept. 28. The little boy is a brother for Herbie and Sandra and is the grandson of Messrs. and Mmes. Henry Fette and Albert Knabe of Muenster. Mrs. Knabe left Wednesday evening to spend some time with her daughter and family. Jerry Fette took her and enjoyed a visit with his brother before returning home.

Mr. and Mrs. Martin Becker are the parents of a daughter, their first child, born Sunday, Sept. 25, at Gainesville Sanitarium at 3:11 p.m. The seven pound ten ounce girl is the granddaughter of Mr. and Mrs. Henry Voth of Lindsay and Mr. and Mrs. Bill Becker of Muenster. Mr. and Mrs. Tony Trubebach of Muenster are the great-grandparents.

A daughter, weight eight pounds ten ounces, was born to Mr. and Mrs. B. George Shively of Ottumwa, Iowa, Wednesday morning, Sept. 28. Mrs. Shively is the former Miss Dolly Lehnertz and the little girl is a sister for William Joseph. Mr. and Mrs. Joe Lehnertz of Muenster and Mr. and Mrs. W. G. Shively of Remington, Ind., are the grandparents.

Mr. and Mrs. Henry Sandmann of Valley View announce the birth of an eight pound eight ounce son at Gainesville Sanitarium Sunday, Sept. 25, at 8:45 p.m. They have three other children, LaQuita, Kevin Lee and Gary. Mr. and Mrs. Ben Sandmann of Lindsay and Mr. and Mrs. George Lutkenhaus of Muenster are the baby's grandparents. He also has a great-grandmother, Mrs. George Loefelholz, at Norman, Okla.

**Homemaking Skills Applied in School**

Practice in interior decorating is being put to practical use at the public school these days. Members of the homemaking class are applying their newly acquired skills improving the looks of their school.

Jobs finished so far are curtains for the homemaking room and front office, new sheets, pillow case and spread for the sick room bed, and a new paint job for walls of the sick room and teachers' lounge. The kids are currently re-upholstering a chair in the teachers' lounge.

**P-TA, Band Parents Sponsor Bake Sale**

A bake sale sponsored by the PTA and Band Parents as a band fund benefit will be held Saturday at Fisher's Market. Those in charge say there'll be a hundred loaves of fresh home baked light bread—the ladies are lined up to make that many, and more if necessary—a variety of cakes, pies, cookies and rolls.

Some who bake have been reminded to take their goods to the market early so that morning shoppers can fill their orders. The sponsors plan to have an assortment of fresh bread and pastries throughout the day so that nobody will be disappointed.

**KC Lecture**

er at high pressure would have tuition is invited to use it.

O'Brien also told the story of the origin of the Knights of Columbus at New Haven, Connecticut 73 years ago. The occasion was a conference of Father McGivney and six pallbearers after a particularly sad funeral. They discussed the need of Catholic fraternal organization with an insurance feature to provide for destitute widows and orphans. Out of that meeting developed the present K of C order.

From its very beginning it worked in close harmony with the Catholic church and has earned its reputation as the right arm of the church. A project well remembered is its legal fight during the twenties to protect the rights of Catholic children in the Oregon School case.

At the present time the Knights are performing an outstanding missionary service in their national campaign advertising the Catholic church. The ads, originated in 1947, are credited with spreading a better understanding of Catholic beliefs among millions and of bringing 195,000 converts to the Church.

The order has also rendered civic service on a grand scale. Its canteens were famous in World War I. During World War II it assisted the USO, hence offered no service under its own name to the soldiers of this country. However, it again served Canadian service men with its canteens.

**Marceline Wimmer, R. J. Klement Wed Saturday Afternoon**

—Gilbert Studio Photo

The marriage of Miss Marceline Wimmer, daughter of Mr. and Mrs. Joe J. Wimmer, to Roman J. (Rody) Klement, son of Mr. and Mrs. John B. Klement, all of Muenster, took place here Saturday at 4 p.m.

Rev. Thomas Weinzapfel of Dallas read the double ring service and officiated at the nuptial high mass in Sacred Heart church where white gladioli and greenery adorned the altar.

Anthony Luke, organist and the church choir presented wedding music and Mrs. Norbert Walterscheid sang before and after the mass.

Mr. Wimmer gave his daughter in marriage. She wore a wedding-gown of blush satin, tulle and Alencon lace. The pointed figurine bodice was designed with a picture neckline appliqued with lace petals and the long sleeves tapered to points over her hands. The front of the voluminous skirt was accented with tulle appliqued with lace and embroidered with pearls and swept into a chapel length train.

Her veil fell in tiers to her fingertips from a small lace and pearl cap and she carried a white orchid on a white prayer book.

**Attendants**

Miss Frankie Jo Wimmer was her sister's maid of honor and Miss Carol Voth was bridesmaid. Their dresses, identically designed of Pervenche blue crystalline had oval picture necklines, Empire bodices and full, waltz length skirts. They wore matching headdresses with nose veils and carried muffs of pink pom-pom mums.

Little Miss Carmen Lee Wimmer, sister of the bride, was flower girl in a floor length dress fashioned to duplicate the ones worn by the maid of honor and bridesmaid. She carried a white basket of miniature pink mums.

The groom was attended by his nephews Jerry Klement and Wilfred Klement. Another nephew, little Wayne Klement, was ring

bearer. Tony Yosten and Earle Otto ushered.

After the services a reception and buffet supper, held in the Muenster High lunch room honored the couple. Misses Margie Reiter and Ruby Lee Wimmer registered 275 guests. A dance in the VFW Hall preceded the newlyweds' departure on a trip to the Smoky Mountains. When they return they will live here. They are building a new home. For traveling the bride wore a charcoal and brown wool suit with brown lizard accessories.

Mrs. Klement is a graduate of Muenster High school. For the past two years she was employed by Dr. J. W. Trufft in Gainesville. Mr. Klement was graduated from Sacred Heart High school, served with an armoured division during world war II and saw action in Germany. He is co-owner of Community Lumber Company here.

Among out of town guests, in addition to those from Cooke county, at the wedding were Mr. and Mrs. Joe Carbonie of Arlington and Mr. and Mrs. Charles Milor of Marietta, Okla., and Mr. and Mrs. Louis Klement of Norman, Okla.

**Homemaking Hints**

by Mrs. H. H. Homsley  
String chicken hearts and livers on toothpicks so they won't get lost in the skillet.

Use a scouring pad as a flower "frog" when arranging flowers in a small vase.

You can freshen up your pique hats and linen shoes before you store them away for next season. With a rotary beater, whip up a detergent and warm water into thick, rich suds. With a cellulose sponge and using circular motion, rub the suds gently into the fabric, rubbing a little harder on extra-soiled areas. Wipe off suds and soil with a sponge rinsed thoroughly in clear water. Stuff hat or shoes with crushed paper (do not use newspaper); let dry thoroughly.

**SLAP ON THE BACK**

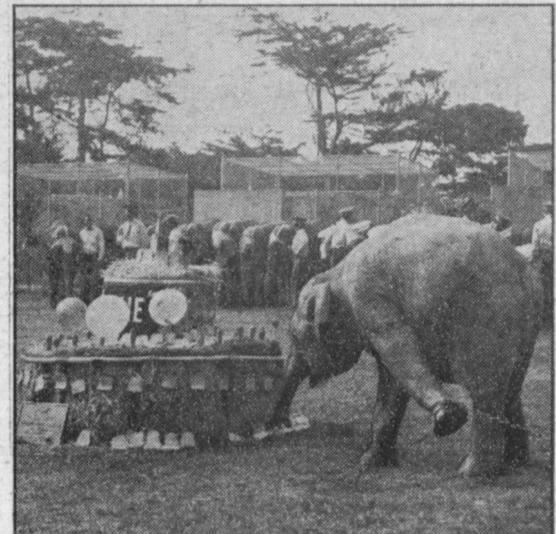

MacPherson was strolling down the street when he noticed what he thought was the familiar figure of a friend. Quickening his steps, he came up to the man and slapped him on the back. To his amazement and confusion, he then saw that he had greeted an utter stranger.

"Oh, I beg your pardon," he said apologetically. "I thought you were an old friend of mine, Mackintosh by name."

The stranger recovered wind, and replied with considerable heat, "And supposing I were Mackintosh, do you have to hit me so hard?"

"What do you care," retorted MacPherson, "how hard I hit Mackintosh?"

Grow old along with me—the best is yet to be." Vanderbilt at 80 added more than a hundred million to his fortune. Wadsworth earned the Laureateship at 73. Thiers at 73 established the French Republic and became the first president. Verdi wrote "Falstaff" at 80. Gladstone became Premier of England for the fourth time at 83. Stradivari made his first violin after 60. And Sir Walter Scott was \$600,000 in debt at 55, but through his own efforts paid this amount in full, and builded a lasting name for himself.

**PENNIE'S IN HEAVEN**—Pennie, newly acquired baby elephant at the Fleishacker (San Francisco) Zoo, finds that there's a string—in this case a leg chain—to her enjoyment of this luscious three-layer-hay-and-whole-wheat "christening" cake. Keepers wanted to be sure that the youngster left some of the treat for her guests, background, members of a circus menagerie.

**Citation By Publication In Delinquent Tax Suits And Returns**  
THE STATE OF TEXAS  
County of Cooke

In the Name and by the Authority of The State of Texas.  
Tom F. Hill, whose residence is unknown. Lonnie Hill, whose residence is unknown; the heirs and legal representatives of Tom F. Hill and Lonnie Hill, deceased, whose name and residence are unknown, and the respective unknown heirs and legal representatives of all the above named parties, the unknown owner or owners of the hereinafter described property and their heirs and legal representatives whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming any legal or equitable interest in or lien upon the hereinafter described property delinquent to plaintiff herein for taxes.

YOU ARE HEREBY NOTIFIED that suit has been brought and is now pending in the Honorable District Court, 16th Judicial District, Cooke County, Texas, wherein The State of Texas, Cooke County, Texas and The City of Gainesville, Texas are plaintiff; Gainesville Independent School District is impleaded party defendant; and Tom F. Hill, Lonnie Hill, their heirs and representatives are defendant, by the filing by said plaintiff of a petition on the 26th day of September, 1955, and the file number of said suit being No. 605 and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit:

Lots 3 and 4, Block 21 of the Perry Addition to the City of Gainesville, Cooke County, Texas together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due each plaintiff, exclusive of interest, penalties and costs is as follows:

State of Texas and Cooke County	\$133.91
City of Gainesville	\$274.29
<b>TOTAL</b>	<b>\$408.20</b>

Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinafter described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for any taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said

**CHOW TIME** — Mrs. Shirley Wardlow handles formula by the gallon on her job. She fills 2000 bottles at a time for feeding the 315 visitors at the Los Angeles General hospital.

You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 14th day of November, A.D. 1955 (which is the return day of such citation), before the honorable District Court of Cooke County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit.

Issued and given under my hand and seal of said court in the City of Gainesville, Cooke County, Texas, this 26th day of September, A.D. 1955. (SEAL) Woodrow U. Clegg (CLERK) of the District Court, Cooke County, Texas, 16th Judicial District. (45-46)

#### BIRTHDAY SURPRISE

A pre-birthday surprise greeted Mrs. Henry Fette Sunday when her son and daughter-in-law, Mr. and Mrs. R. N. Fette and sons David and Dan, were hosts in their home for a dinner party at seven o'clock. Other guests were Mr. and Mrs. Joe Fette, Mr. and Mrs. Joe Voth and Mrs. M. J. Endres. The table held a decorated birthday cake. The honor guest's birth date is October 1.

### Miss Frances Knabe And Arthur J. Bayer Recite Vows Tuesday

—Boyd and Breeding Photo

Miss Frances Knabe and Arthur J. Bayer were married in a nuptial high mass Tuesday afternoon at 4 o'clock in Sacred Heart church by Rev. Louis Deuster.

Parents of the couple are Mr. and Mrs. Robert Knabe and Mrs. Joe Bayer and the late Mr. Bayer, all of Muenster.

The men's choir of Sacred Heart church sang the mass, accompanied by Anthony Luke, organist. A pre-nuptial vocal duet was presented by Misses Carol Voth and Caroline Hesse. They sang "Heart of Jesus." After the mass Miss Voth gave a solo, "On This Day," while the newlyweds recited an act of consecration at the Blessed Virgin's Shrine and the bride placed a bouquet of flowers on the altar.

#### Given by Father

Mr. Knabe entered the church with his daughter and gave her in marriage. She was radiant in a frost white floor length bridal gown of lace and tulle over satin. The moulded lace bodice was designed with a decollete neckline filled in with sheer nylon and accented with a small stand-up lace collar. Wide lace panels highlighted the front of the very bouffant skirt with its tiny lace peplum and tiers of tulle ruffles that started at the waistline and billowed out to the hemline over hoops and crinolines.

A crown of seed pearls and rhinestones held the tiered fingertip veil. The bride carried white roses on a white prayer book, a gift from the groom. Her pearls and silver rosary was also a gift from the groom.

She wore a gold cross and chain, a gift from her uncle, Rev. Anthony Schroeder, borrowed a blue lace handkerchief from Miss Nelda Bayer and wore a penny in her shoe.

#### Attendants

Miss Ethel Knabe was maid of honor for her sister wearing a heavenly blue waltz length dress of lace and net over taffeta. The strapless bodice was covered with a lace bolero and she wore matching lace mitts below the short sleeves. She completed her costume with a small lace hat and carried a colonial bouquet of yellow roses.

Robert Bayer attended his brother as best man. Norbert Mages and Joe Henry Walter-

scheid ushered. Mass servers were the bride's young brothers Robert and Anthony Knabe, her cousin Pat Hess, and the groom's cousins Charles Bayer and Billy Joe Dangelmayr. Yellow glads and fern adorned the altar.

#### Reception

A reception and buffet supper in the parish hall followed the wedding mass. Miss Nelda Bayer and Georgia Ann Hartman registered 250 guests. A dance in the VFW Hall concluded festivities and the couple left on a wedding trip. When they return they will make their home on the Bayer farm south of town. For traveling Mrs. Bayer wore a navy faille outfit with white trim and navy accessories.

The bride was graduated from Sacred Heart High school with the class of 1955. Her husband, also a graduate of Sacred Heart High, served as a member of the paratroops during the Korean conflict.

#### Out Of Town Guests

Among out of town guests at the wedding were Mr. and Mrs. Carl Lindemann and baby, the Joe Schroeders, the William Schroeders Jr. and family, all of Windthorst and Sister Anna Cletus of Morrilton, Ark., who was visiting homefolks in Windthorst; Mrs. Keith Tompkins and children of Denton, Miss Georgia Ann Hartman of Dallas, Mr. and Mrs. Jerry Pels of Pilot Point, Mr. and Mrs. H. L. Herron and Henriette and Mr. and Mrs. Byron Black of Denison.

### Adult 4-H Leaders Make Program Plans

Adult leaders of Cooke county 4-H clubs for girls met Tuesday morning at the home demonstration club building in Gainesville to plan a program of activity they will carry on in their respective clubs in the absence of an assistant home demonstration agent.

Mrs. Gene Watts, the former Miss Maurine Kavanaugh, told the group she has resigned effective this Friday, to join her Air Force husband in Alabama. According to district 4-H officials an assistant agent for the county to replace her is not probable before the first of the year, Mrs. Watts said.

Adult leaders, planning with Mrs. Watts, arranged for the clubs' first meetings, discussed Annual 4-H Achievement Week observance for Nov. 6-12, and the annual awards banquet scheduled for Nov. 14.

#### Local Clubs Meet Oct. 5

Mrs. Paul Fisher, adult leader for Sacred Heart school clubs, attended the meeting.

She reported that local clubs will have their first meetings on Oct. 5 in the afternoon and that subsequent meetings will be held on the first Wednesday of each month in the morning.

At their initial meeting of the year members of the local clubs will re-organize and select their projects. They may choose from a list that includes food, clothing, gardening, landscaping, beef and dairy cattle, and poultry.

Members eligible for awards at the Nov. 14 program must have all records completed and turned in by Nov. 1, it was emphasized.

### S.H. Mothers Elect Officers, Organize

Sacred Heart school roommothers organized for the coming year, elected officers and made program plans during their first meeting of the current scholastic term Monday night.

Mrs. Ray Stewart heads the organization as president, Mrs. Ray Wilde is vice president, Mrs. Leo Lawson is secretary, and Mrs. Edd McGannon is treasurer.

Mrs. Leo Lawson, past president, conducted the meeting in the school auditorium and presented Sister Roberta, principal of the grade school, who in turn introduced the elementary teachers.

The general get-acquainted session featured refreshments of cold drinks.

Weekend guests of Mr. and Mrs. R. P. Cain were her cousins and aunt, Mr. and Mrs. Ray Orr and Mrs. Ollie Martin of Lubbock.

### Party Compliments Mrs. Walterscheid

Mrs. Julian Walterscheid was complimented with a gift shower Sunday afternoon in the home of Mrs. Adolph Walterscheid.

The party table was covered with an ivory satin brocaded cloth which Julian Walterscheid sent his mother from overseas when he was on duty with the Air Force on Okinawa. The board held two decorated cakes in the shape of baby booties with pastel colored icing pom-poms and trim. Bases of the cake were decorated with pastel baby ribbon tied in bows. The shower gifts were presented in a basket.

Mrs. Denis Walterscheid directed appropriate games and a contest in which the prize went to the honoree who opened and displayed an assortment of lovely gifts from those present.

The hostess, assisted by Mrs. George Gehrig and Mrs. Denis Walterscheid, served a chicken salad sandwich plate, cake and iced drinks to 28 guests. Gifts were sent by some who were unable to attend.

### Gift Party Honors Bride of This Week

Miss Frances Knabe, who was married this week Tuesday to Arthur Bayer, was honored Friday evening with a miscellaneous gift party in the home of Mrs. Joe Bayer with Mmes. Alfred and Robert Bayer as co-hostesses.

After presenting the honoree a blue carnation corsage the hostesses directed games, then Frances opened and displayed an array of lovely gifts.

Cherry pie a la mode and coffee were served to 15 guests.

## Good Old Days

"Whenever one hears a backward-looker sound off about the 'good old days,' one might pin him down as to just how good they were."

So goes the refrain of an editorial published elsewhere. Suppose a man is referring to 25 years ago, when the United States reached a peak of prosperity that few thought ever would be topped.

But in 1929, according to a series of amazing statistics quoted, the average employe was working a 48.3 week. Today he puts in 40 hours a week and makes more than three times as much money, the editorial said.

Then there was but one automobile to every 5 1/4 persons. Today, there's one car for every three persons and what luxury cars they are! There was but one electric refrigerator to every 65 persons in those "good old days." Today, there's one to every four persons.

There was one vacuum cleaner then to every 14 persons—there's one to every five today; one washing machine to every 18 then, one to 4.4 now; one telephone to 6 persons, one to 3 now; one radio to 12.8 persons, one to 2 now; no television then, one set to every 5 persons today. Less than 20 million homes had electricity then — today 45 million home have it.

The average family today has more than twice as much insurance and four times as much personal savings now as then. Seventy per cent more children are in high school, and more than 2 1/2 times as many go on to college now as then. Life expectancy is up 12 years — we're living longer, eating better, earning more!

—Austin (Minn.) Herald

## Now It Starts

"Something needs to be done to ease the farm price squeeze," Agriculture Secretary Benson told reporters on his return to Washington from a two weeks European tour. "Anyone who is sincerely interested in agriculture can not be satisfied with present conditions. Certainly I am not."

But Mr. Benson made it clear that he does not intend to retreat from his firm stand on flexibility in price supports. Congress will be getting some "very specific" recommendations, he said, for shoring up farm incomes that have slumped 31 percent over the past eight years . . . due to the mountainous surpluses resulting from rigid supports.

The Administration will consider, said Mr. Benson, plans to rent crop land that farmers take out of production, or to pay subsidies to farmers' undertaking

## Under Competition the Customer Can Always Be Right

soil conservation programs.

Meantime Senator Paul H. Douglas, of Illinois, sought to pillory President Eisenhower for his campaign speeches at Kasson, Minn., and Brookings, S.D., in which the Senator claimed Candidate Eisenhower promised price supports at 90 and 100 percent of parity. The GOP, he said, was trying to "rewrite history" in denying these promises. What the General said, you will remember, was that the farmer should get 100 percent of parity "in the market-place." Which, as a matter of justice and equity, he certainly should.

Thus, it would seem Senator Douglas is trying to "rewrite" an

Eisenhower speech. But whatever the tide of political battle, do not expect Ezra Taft Benson to rewrite any policies—or any convictions.

## Not Enough

Put-up-or-shut-up is the US position conveyed to Red China—in diplomatic language, of course—by Ambassador Alexis U. Johnson in his Geneva session with the Reds' Wang Pingnan. There is to be no talk of any meeting of Secretary of State Dulles with Premier Chou En-lai until, and unless Red China delivers the 41 Americans it has promised to release.

Obviously, it is felt that this

## Bones Have No Memory

By Rev. Richard Ginder

EVERY NORMAL child comes into the world with everything it needs for living: head, arms, legs and soul. If it should arrive minus a soul, it would either be stillborn, or it wouldn't be a human being, because it's the soul that makes a man out of an animal.

How do you know you have a soul? Just from plain everyday experience. You don't need the Bible, nor any priest or minister to tell you that you have a soul. You can tell just from observing yourself that you have a soul.

**THE SOUL** holds me together. It stores away my memories and lays plans for the future. Today in 1955 I can remember the Armistice of 1918 and V-J Day in 1945; I can hook up these past events and see their common connection.

Where have these memories been resting all this time? They must have been in something which was not flesh and blood. In something that doesn't change like bone and gristle. These memories must have been resting in something beyond change and immune to it. That something we call the soul, the part of us which is not flesh and blood.

**THE ACT OF THINKING**, like our memory, must also take place in something which is beyond flesh and bone. Some foolish men will say there is no soul because no surgeon can take it out and lay it before their eyes. But no one has ever seen electricity or energy, and yet we know they exist because we have seen them at work.

Look at the soul operating in our thinking. Take the idea that two and two are four. What is "two"? We have three letters that spell it—t-w-o, but what is two? Have you ever seen two? "Two what?" you ask. But I mean just two.

**WE'VE SEEN** two eyes, we've tasted two oranges. But we've never seen, smelled, tasted, heard or handled just plain two. There must be something inside of us that took all the twins and pairs and couples and groups of two that we've ever run across and left us with just the bare-naked idea.

Flesh and blood couldn't have done it. An idea is something of the spirit. There is nothing fleshy about the idea "two". Now if the soul produces this idea, then the soul must be non-fleshy. This means that when the fleshy part of you dies, the spiritual part, the soul, will live on, and will never die. The important thing for you is to find out what that life after death is, and what you can do about it now.

## BIG SWITCH

Statistics show that the average amount of food a person eats is little different from 40 years ago. The big change has come in the kind of food he now eats. Higher incomes have brought about a switch from eating potatoes and other lower priced foods to more expensive foods such as meats, some dairy products and higher priced fruits and vegetables.

Increase in consumption of meats jumped from 54 pounds per person a year to 78 pounds from 1940 to 1954. Cereals dropped from 82 to 74 pounds, and other food made similar drops. It's good business for farmers to watch the switch in consumers' appetites. In controls the market place.

Investment opportunities change with the times. It's good business to consult with your banker regarding investments.

**YOU ARE HEREBY NOTIFIED** that suit has been brought and is now pending in the Honorable District Court, 16th Judicial District, Cooke County, Texas, wherein The State of Texas, Cooke County, Texas and the City of Gainesville are plaintiff; The Gainesville Independent School District is impleaded party defendant; and J. M. D. Founds et ux are defendant, by the filing by said plaintiff of a petition on the 26th day of September, 1955, and the file number of said suit being No. 607 and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit:  
 N 35' Lot 2 and S 3' Lot 3, Block 14, Sparks Addition to the City of Gainesville, Texas together with interest, penalties, costs, charges, and expenses of suit which have accrued and

which may legally accrue thereon. The amount of taxes due plaintiffs, inclusive of interest, penalties and cost is as follows:  
 State of Texas and Cooke County and the City of Gainesville \$824.25  
 TOTAL \$824.25  
 Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.  
 All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for any taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said property.  
 You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 14th day of November, A.D. 1955 (which is the return day of such citation), before the honorable District Court of Cooke County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties, interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit.  
 Issued and given under my hand and seal of said court in the City of Gainesville, Cooke County, Texas, this 26th day of September, A.D. 1955.  
 (SEAL) Woodrow U. Clegg  
 Clerk of the District Court, Cooke County, Texas, 16th Judicial District. (45-46)

**NOTHING TO BE SULKY ABOUT**—Not for the absent horses, anyway. Motor scooters will never replace the hayburners as sulky power after this race, held in West Berlin, Germany. Held on an American sector sports field, "jockeys" should have heeded their "mudders" advice and kept themselves harnessed to real horsepower. They skidded over the muddy course in a record slow time for a harness race.

ding Tuesday were overnight guests of their parents, the Victor Hartmans, and returned to Denton and Dallas on Wednesday.  
 Mr. and Mrs. J. M. Weinzapfel were in Fort Worth Tuesday night to hear Bishop O'Gara speak. He opened the current Christian Culture series. The Weinzapfels were joined there by their daughter Mary and two of her classmates from OLV Academy.

**MHS Students Choose School Paper Staff**

Münster High School classes have chosen four students to head the staff of the school's new paper which is scheduled to make its first appearance some time next week.  
 Pat Cain is news editor, Collette Hellman, feature editor; Lawrence Milner, sports editor; Queenie Homsley, business manager.

About 20 students met with Al Greco, English instructor, to make plans for the paper, as yet not named. The name will be determined by a contest among students who will submit names they think appropriate, then select the one they like best.  
 The paper will have four pages. The first and last pages will be for general news, the second page for features, comics or jokes, and the third page for sports.  
 The new publication will be printed by the Münster Enterprise.

**Where Are The Farm Workers?**

The Russian farm experts had quite a time during their much-publicized tour of lush Iowa. The latch-strings were out in the traditional American way, and they found friendliness and hospitality everywhere.  
 They also received some big surprises.  
 Apparently our methods of doing the work of the farm are beyond the Russians' ken. Writing in Newsweek, Russian-speaking journalist Leon Volkov said: "To Russian eyes, Iowa, U.S.A., is a fabulous land of plenty in which nobody has to work."  
 "They tried to hide their amazement but they never quite succeeded. At first, the Russians kept asking each other where the farm workers were. They had a hard time believing that one man could work a 150-acre farm all by himself with the aid of machinery."  
 Now there's human work to be done on even the most advanced American farm, and plenty of it. But farm equipment has greatly reduced the amount of arduous labor required, even as it has vastly increased farm efficiency and productivity. We all know the story of mechanization of industry, and we are all hearing about the newest step along that road—automation. But many of us don't realize that a mechanical revolution has been taking place in agriculture as well.  
 There are no push-button farms. Maybe there never will be. But the machine has made it possible for both farm and factory people to get far more return for their work than their forefathers would have believed possible. That's what the visiting Russians learned in envious amazement.

**Local News BRIEFS**

Richard John is the name of the infant son of Mr. and Mrs. Johnnie Mosler received at his baptism Saturday. Father Louis officiated assisted by Mr. and Mrs. Louis Wiesman, uncle and aunt of the baby, as sponsors.  
 Mr. and Mrs. Joe Luke returned Friday from an 11-day vacation trip to western states where they enjoyed sight-seeing. Going, they stopped at Hereford to visit her sister and family, the Emil Herrs, his brother Carl Luke and family, and other relatives. Joe is on a three-week vacation from work with the Texas Company.  
 The Victor Koelzers report that their new home is completely finished now. They moved to occupy it several weeks ago and did the inside painting, sanding and so forth themselves.  
 J. M. Weinzapfel, J. W. Fisher and A. J. Endres were in Fort Worth Sunday to attend the installation of a new Knights of Columbus council named to honor the memory of Davis Lambright Fourth Degree Knights attended in full regalia.  
 Mr. and Mrs. Clarence Albers and children of Dallas visited her father, Fred Herr and family Sunday.  
 Guests Sunday of the George Letsons were his brother and wife, the Kenneth Letsons and their three children and a friend, Charlotte Reed, all of Weatherford.  
 Mike Luke, writing from Albuquerque, N. M., where he returned recently to civilian duty at the air base after working on a special assignment at Edward's AFB in California, tells his parents, the Henry Lukes, of a

pleasant weekend spent with Mr. and Mrs. John Dobias, Hugh Endres and the Frank Hennigans in the mountains.  
 Mr. and Mrs. Fred Steinberger of Windthorst visited here Monday with family members.  
 Dr. and Mrs. E. W. Laake of Dallas were Sunday guests of his sister, Angela Laake and niece, Rosa Driever.  
 Mr. and Mrs. Fred Dillard and children Vivki Lee and Lonnie spent several days of the week here with her grandparents, Mr. and Mrs. Joe Lutkenhaus, and other relatives while they were vacationing. They had been in Arkansas before coming to Münster. Mr. Lutkenhaus went back to Amarillo with them to spend the winter with his daughter, Mrs. Oscar Detten and family.

**Bulcher News**  
By Mrs. R. J. Samples

**BULCHER, Sept. 27** — A welcome rain, measuring six and a half inches, fell here during the weekend and on Sunday.

In spite of rain and muddy roads, a large group of Bulcher football fans attended the Saint Jo-Whitesboro game at Saint Jo Friday night.

A delegation of ten men from Bulcher attended the Men's Luncheon Club meeting in Saint Jo last Wednesday in a plan for a united drive to secure paved roads from Bulcher into Saint Jo. Making up the delegation were E. Newby, Floyd Webb,

Charles Crabtree, Jesse Shields, Calip Cannon, Dick Harris, Charlie Hildebrand, Aude Leslie, Wright Emery and Weldon Dennis.

Janie Daffern, daughter of Mr. and Mrs. R. V. Daffern, missed school several days while she was a patient at the Nocona Clinic for treatment of an illness. She is recovering satisfactorily now.

Cleta Cannon and Tom Harris, juniors at NTSC, Denton, spent the weekend at home.

Mr. and Mrs. Jimmy Atteberry have returned from Oklahoma City where they spent several days after attending the funeral of his brother, Henry Atteberry. The deceased was well known in this area.

**MRS LONNIE THURMAN IS SPEAKER AT CLUB MEET**

Bulcher Home Demonstration club members, meeting Thursday with Mrs. R. J. Samples as hostess in her home, heard an interesting illustrated lecture on window treatment by Mrs. Lonnie Thurman, home demonstration agent. She showed picture charts and samples of various materials as she talked on the subject.

At roll call, members told what they can see from their living room windows.

Mrs. J. M. Shields gave the last county club council report and presented the County Fair prize of \$25 to the club treasurer. The cash award was won by the club on its booth at the fair grounds.

Mrs. C. V. Crabtree, president, presided during the business session and after adjournment Mrs. Gid Prather had charge of refreshments. The hostess served refreshments.

Present were Meses. Bill Bakely, Jesse Goff, Gid Prather, E. Newby, August Hyman, J. M. Shields, C. V. Crabtree, Albert Fleitman, R. J. Samples, and Lonnie Thurman.

The next meeting will be held on the first Thursday in October with Mrs. Albert Fleitman as hostess in the community center.

**CHANGE OF PACE**—George H. Clark, 91, takes grandson Bobby for a ride behind Sally Ann, Clark's solution to the question, "What will replace the auto?" Denied a renewal of his driver's license because of his age, the North Belle Vernon, Pa., oldster, who has 47 years of driving without a serious accident behind him, purchased the pony and buggy so that he can visit his wife's grave each day.

**Uranium Dirt Cure Just Another Hoax, Health Officer Says**

**AUSTIN, —** The increasing number of "uranium dirt and sitting houses" in Texas are getting frowns on disapproval from the State Department of Health.

Health Commissioner Henry A. Holle says the healing value of dirt containing minute amounts of uranium "isn't worth the time it takes a man to cover his aching feet."

For the past 6 months the so-called treatment centers have been cropping up at various points until there are now dozens of them. Somehow the idea was started that the alleged radioactivity in the dirt was a cure-all for assorted aches and pains.

"Our industrial hygiene engineers have thoroughly checked 16 samples of supposedly radioactive dirt," Dr. Holle said. "In no case has the concentration been more than that of normal background radiation."

Said Engineer Martin Wukasz: "The granite in the State Capitol is more radioactive than any of the 16 samples. I've taken Geiger counter readings to prove it."

Wukasz demonstrated his point by passing an illuminous dial wrist watch over the Geiger counter probe. The needle of the counter jumped completely off scale. An ash tray, painted with a uranium oxide, had the same result on the needle.

But when the probe was buried deep in the middle of the 16 dirt samples, the needle was barely affected, no more than it would have been had the probe been held in mid air.

Some landowners now in the uranium "healing" business have erected tents in which patrons can sit while absorbing alleged radioactive emanations. Others have soft drink stands where patrons can refresh themselves while awaiting their turn for "treatments."

A check of the Comanche Uranium Health Center in Dallas showed cars from 8 different states in the Center's parking lot. Between 200 and 400 patrons visit the center daily, investigators report.

Patrons are said to pay a fee of from \$2 to \$3 per hour, and must sign a statement attesting that no healing results have been promised and that their patron-

age was not solicited.

Dr. Holle said that while patrons are in no actual physical danger, their reliance on "miracle" cures from the dirt might give them temporary psychological relief from serious ailments, thus delaying a visit to a reputable physician.

Wukasz credited improvements in sensitivity of radioactive detection instruments with bringing on the rash of low-grade uranium finds.

"With these super-sensitive instruments it is possible to get a small twitch of the needle practically anywhere," he said. "We are all constantly subject to tiny bombardments of radiation from natural cosmic sources."

Dr. Holle said that since no violation of existing state laws nor any claims of advertised cures had been brought to his attention, "we will just have to depend on the native intelligence of the Texas public to recognize these places as worthless."

**THE CLIQUE IN THE CLUB**

Word has been received by the Board of Directors of your club (or lodge) that it is run by a clique. Upon investigation we find this statement is true. Furthermore we find the clique is composed of faithful members who are present at every meeting, who accept appointments to committees, who give willingly of their time, energies and efforts, and who sincerely believe that the more one puts into his club, the more he will get out of it. There is no question that the enthusiasm, responsibility and efforts of these members are of inestimable value to your club. And we would, therefore, suggest that you join this clique. It is not a difficult matter to do so—in fact, it is very easy. Begin by attending meetings regularly; take a more lively interest in club activities; make helpful constructive suggestions, and accept responsibilities to serve on committees. Show a continual interest in all affairs pertaining to your club. Before you realize it, you will become a member of the clique and you would be surprised to know how anxious they are to have you. (Adapted from writings of A. Stanley Ezekiel)

An acre-foot of water is equivalent to 43,560 cubic feet or 325,851 gallons.

**THE STATE OF TEXAS**  
**County of Cooke**  
**In the Name and by the Authority of The State of Texas.**

To: Sam Penn, whose residence is unknown, the heirs and legal representatives of Sam Penn, deceased, whose name and residence are unknown, and the respective unknown heirs and legal representatives of all the above named parties, the unknown owner or owners of the hereinafter described property and their heirs and legal representatives, whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming any legal or equitable interest in or lien upon the hereinafter described property delinquent to plaintiffs herein for taxes.

**YOU ARE HEREBY NOTIFIED** that suit has been brought and is now pending in the Honorable District Court, 16th Judicial District, Cooke County, Texas, wherein The State of Texas, Cooke County, Texas, and the City of Gainesville, Texas are plaintiff; The Gainesville Independent School District is impleaded party defendant; and Sam Penn et al is defendant, by the filing by said plaintiff of a petition on the 26th day of September, 1955, and the file number of said suit being No. 606 and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit:

Lots 1 and 2 out of Block 16, of the Williams Addition to the City of Gainesville, Texas; Beginning at the South East corner of block 16, which is the intersection of the west line of Schopmeyer Street and the north line of Truelove Street; Thence North 100 feet; Thence West to Pecan Creek; Thence down Pecan Creek to the North line of Truelove Street; Thence East with the north line of Truelove Street to the Place of beginning together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due each plaintiff, exclusive of interest, penalties and costs is as follows:

State of Texas and	\$26.01
Cooke County	\$67.49
City of Gainesville	\$93.50
<b>TOTAL</b>	<b>\$187.00</b>

Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for any taxes which were delinquent

on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said property.

You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 14th day of November, A.D. 1955 (which is the return day of such citation), before the honorable District Court of Cooke County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties, interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit.

Issued and given under my hand and seal of said court in the City of Gainesville, Cooke County, Texas, this 26th day of September, A.D. 1955. (SEAL) Woodrow U. Clegg Clerk of the District Court, Cooke County, Texas, 16th Judicial District. (45-46)

A backwoods community had a reputation for not keeping its ministers for more than three or four months. Finally, the bishop sent a young preacher, and after two years he was still on the job.

Surprised, the bishop pressed for an explanation. Finally, a local townsman replied: "Well, Pd rather not tell you, but, if you insist, here's the reason: We folks out here don't really want any preacher at all, and he's the closest we've come to it."

### IT HAPPENED 15 YEARS AGO

Sept. 27, 1940

Proposal to faze Sacred Heart church is not approved, old structure must remain until parish has fund to start new building, says diocesan headquarters. Mrs. Catherine Zimmerer, 58, dies at Lindsay. Local men are interested in forming a company to buy bankrupt refinery and make it a cooperative. Food lockers are not practical here, FMA men decide. Mildred Walterscheid wins in talent contest at Saint Jo and gets free trip to State Fair. Engagement of Irene Luttmir and Alfred Sicking is announced. Mr. and Mrs. M. H. King who have been living in Nowata, Okla., moved this week to make their home in Myra.

### 10 YEARS AGO

Sept. 28, 1945

Damage estimated at \$1,000 results without injury to driver when a truck crashed into the wall of the Herr Motor Company building Wednesday afternoon. \$5,000 worth of grain is lost in big barn fire at the John Bezer farm Saturday. Roman Trachta is enroute home from the ETO. Ed Sicking writes from Okinawa. Arthur Felderhoff is on duty in Bremen, Germany. Lu-Ella Arendt is elected president of Lindsay 4-H club. Richard Hess, 7, is recovering from a leg

operation. Altar Boys Society elects Joe Weinzapfel Jr. as president and Alvin Hartman as secretary. Light showers Monday disappoint farmers and dairymen . . . they wanted more rain. Joe Sicking is back at home as a civilian after serving in the South Pacific.

### 5 YEARS AGO

Sept. 29, 1950

Official 1950 census count for the city of Muenster is 900. Three Muenster men are inducted in county's first draft quota; they are Alois Sicking, Urban Rohmer and Charles Davidson. Hornets beat Whitesboro, 30-7. Thief gets most "benefit" at VFW's City Park benefit picnic. Insurance on Muenster State Bank deposits is raised to \$10,000 by FDIC. Mrs. Katie Roberg is recovering from mumps. The Nick Millers return from 6,000 mile trip. Andy Stelzer and Rose Mary Dieter marry at Lindsay. The Herman Fleitman family moved during the weekend to make their home in Gainesville.

### MHS JUNIORS SPONSOR DANCE AS CLASS-BENEFIT

Junior students of Muenster High sponsored a dance in the parish hall Friday night after the Muenster-Windthorst football game. Admission was fifty cents for stags or couples and the class also sold Hornet windshield stickers to build up its treasury. Mrs. H. H. Homsley and Coach John Hosea are class sponsors.

The word pencil came from peniculum, which is the Latin word for "little tail."

### Marysville News

By Mrs. Herman Richey

MARYSVILLE, Sept. 27—Rev. Richard Hollingsworth of Decatur, assisted by Billy Whitt of Decatur Baptist college conducted a three-day revival at the Baptist church during the weekend. Following services Saturday evening a social was held in the community center building. Games furnished diversion for those present and hostesses for the party served refreshments of cookies and punch. Rev. and Mrs. Hollingsworth were Friday night guests of Mr. and Mrs. Earl Robison and spent Saturday night in the home of Mr. and Mrs. Jess Davidson.

Guests in the home of Mr. and Mrs. J. N. Shaw during the week were the Horace Moodys of Bovina and Mrs. Will Moody of Dallas. Allan Davidson of Big Spring visited the Shaws Thursday.

A son, Marcus Lynn, was born Monday to Mr. and Mrs. John Marcus Barnes of Gainesville. They are former owners of the Marysville store. They have one other child, a daughter, Donna Joyce.

Mr. and Mrs. Raymond Davison and family of Fort Worth spent the weekend at their home in this community.

Mr. and Mrs. Charlie Winchester and family of Grand Prairie were here for a weekend visit with relatives.

College students spending the weekend with their parents were Billy Whitt of Decatur, Donny Whitt of Arlington, and Wendell Richey of Ranger. Ronnie Hallmark of Arlington was here to spend Sunday with home-folks.

J. A. Davidson of Big Spring was an overnight guest Friday of the Foster Davidsons and spent Saturday with the Lum Davidsons at Valley View.

### WINDOW TREATMENT IS TOPIC AT CLUB MEETING

Mrs. Lonnie Thurman, county home demonstration agent, meeting with members of the Marysville Home Demonstration club Friday afternoon presented an interesting discussion on window treatment.

The club met with Mrs. Rafe McElreath in her home and members answered roll call by telling what they see from their living room window. The McElreaths have just completed work on their new home and the group enjoyed an inspection tour of the house.

Refreshments of cold drinks and cookies were served to eight members and one guest.

The next meeting will be on Oct. 14 with Mrs. Earl Robison as hostess.

### Marysville WMU Elects Officers

Officers for a new year were elected by members of the Marysville Women's Missionary Union during a regular meeting Friday at the Baptist church.

All officers with the exception of president will be serving first terms. Mrs. Rafe McElreath was re-elected to head the organization.

Other officers are: Mmes. J. Monroe King, vice president; John Richey, secretary-treasurer; J. T. Cole, program leader; Earl Robison, mission chairman; Reeve Cooke, community missions; Herman Richey, corresponding secretary; Lawton Moon, stewardship; Jess Davison, prayer mission.

The meeting opened with a song in unison followed by the opening prayer led by Mrs. Monroe King. Mrs. Earl Robison, retiring program chairman, conducted the Royal Service program. Taking part were Mmes. J. T. Cole, Monroe King, John Richey, W. J. Davison and Reeve Cook.

The group set third Monday evenings as a new time for their meetings.

The women observed the week of prayer and Mary Hill Davis offering for mission education by meeting Wednesday and Thursday evenings. Theme of Wednesday's meeting was "Spanish Missions," and Thursday's program was on "Christian Colleges and Missions."

### NEW UNIFORMS

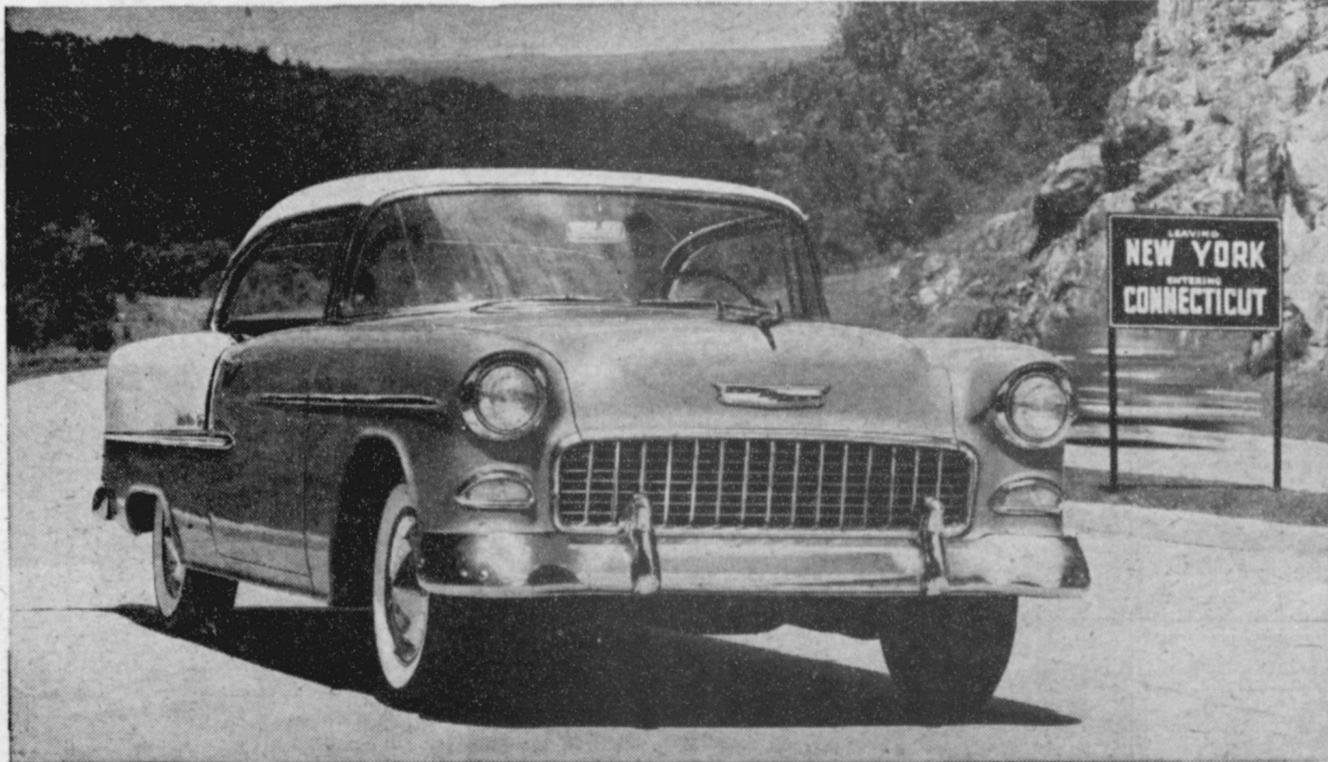

When the Sacred Heart High pep squad cheers for the Tigers at Texarkana next Sunday afternoon the girls — all 32 of 'em — will be sporting new uniforms. Mothers of the squad are busy making the outfits this week. The wide, full skirts will be of permanently pleated red cotton and will be worn with long-sleeved white satin blouses. Red kerchiefs and red and white caps will complete the costumes.

TEXAS HAS EVERYTHING —Including mermaids. Listed on Davy Jones' roster as Barbara Stout, left, and Voncille Galloway, these delectable tidbits from rich fishing waters of Port Isabel, Tex., made their appearance aboard the winning boat in the parade held in connection with the annual blessing of the shrimp fleet.

**Soil Conservation Notes**

**Winter Cover Crops**

It is now time to get those winter cover crops planted. Soil moisture is good and the time is ripe for getting crops of vetch, peas, winter clovers and alfalfa in the ground so that they can get off to a good start before cold weather sets in.

Cooperators of the Upper Elm-Red Soil Conservation district are busily getting seeds, fertilizer and drills lined up to start sowing as soon as the soil gets dry enough. Experience has shown that the earlier these crops are planted in the fall the more grazing can be expected. Cooperators are also well acquainted with the benefits such as increased nitrogen in the soil, increased organic matter, increased water intake and reduced soil erosion that can be gained by planting these crops on the land. Many cooperators are also planning to overseed pasture grasses to vetch or Button Clover in order to improve the soil and the existing grasses and also to furnish winter pasture.

**Waterways**

Get those waterways staked now so that grain won't be planted in the area where grass will be planted next spring. Waterways sodded to grasses make it possible to terrace sloping fields and help to keep that precious top soil and water at home to grow crops.

The local Soil Conservation Service will assist in locating and marking waterways areas.

Some Muenster landowners planning to put in grass waterways next spring include Eddie Sicking, Arthur Hellman, Eddie Flehtman, Dangelmayr Brothers, C. A. Morris, T. F. McKenzie and Frank Schilling. At Saint Jo, Jack Lee Gordon and Jake Seibold are preparing land to be planted to grass waterways next spring. All waterways will serve as terrace outlet areas when grass is established.

**Terraces**

Field terraces to make run-off water slow down and prevent soil and water loss have been recently completed on several district cooperators' farms.

Ray Sicking has finished 4,989 feet of channel type terraces on his farm near Myra. He used a three-disc plow and the island method of construction. Walter Becker also used farm equipment to add a terrace to his system on the Becker farm west of Muenster.

Over two miles of broad, easy-to-farm channel type terraces have been constructed on the Dangelmayr Brothers farm operated by Herman Zimmerer 10 miles northeast of Muenster. The terraces outlet into grass waterways that were planted to provide safe outlets and to give additional pasture.

Nearly a mile of terraces have been built on the Bindel farm five miles northwest of Muenster and 3,500 feet of terraces

**Tom Pryor, 80 Years Young, Has Birthday Celebration Sunday**

One of Cooke county's pioneer residents, Tom Pryor, observed his 80th birthday Sunday at his home in Myra. The celebration was a surprise affair arranged by his wife and their daughter Mrs. Carl Hoffman of Iowa Park.

The party began at noon when relatives and friends gathered at the Pryor home with gifts for the honoree and covered dishes for a sumptuous dinner. There was a handsome cake with 80 candles and there was a "candle blowing ceremony." Individual and group pictures were made.

Of all his birthday presents, Mr. Pryor is probably proudest of a minnow bucket given him by Iowa Park friends. Fishing is his chief hobby. And he readily admits that hunting is high on the list of outdoor activity he likes since he's retired from farming.

Off to the side, so his wife and daughter won't hear, he tells that actually he likes to pick cotton better than anything, in season. "But Mae and especially Thelma Jane think it's 'terrible'—at my age—and I almost have to 'sneak off' to get out into the fields," he confides, mischievously.

But the young man of 80 hasn't entirely missed his cotton picking this fall. "Put in several days. Did all right too. Pulled over 300 pounds a day," he boasts. Born and reared on a farm, he's liked picking cotton "since he was a little thing." Proudly he tells of his farming in Cooke county—the land he loves.

Relatives and friends say they never see him without a smile and without energy. He enjoys talking to friends and neighbors and follows news of the day in the papers.

Born near Garland, Texas, on Sept. 24, 1875, Tom Pryor was the second of the 11 children of Mr. and Mrs. Jonathan Pryor. He moved to Cooke county, settling with them at Woodbine, when he was three years old and has lived in the county ever

since. He has lived at Myra for 32 years and before that in the Hays community, north of Muenster, since leaving Woodbine.

He was married to Miss Mae Jones on July 10, 1898. They became the parents of two daughters, one of whom died in infancy. Of his immediate family only two sisters are living. They are Mrs. Lon Blanton and Mrs. Jewel Trew, both of Valley View.

Both Mr. and Mrs. Pryor are active members of the Myra Methodist church. Attending the birthday celebration were Mr. and Mrs. Carl Hoffman of Iowa Park, Mr. and Mrs. Lon Blanton, Mrs. Jewel Trew, Mr. and Mrs. Jeff Wheeler, Mrs. Eddie Klingelsmith, Mr. and Mrs. Jack Highfill and sons Jack Wilson and George Edward, and Mr. and Mrs. Willard Kemplin, all of Valley View.

Mr. and Mrs. Joe Anderson and daughter Paula Jane of Garland, Mr. and Mrs. M. H. King of Muenster, Mr. and Mrs. Joe Lewter and sons Lanny and Lindy of Hood, Rev. John Leubeke, pastor of Myra Methodist church, and Mr. and Mrs. Dave Gillette of Myra.

Both Mr. and Mrs. Pryor are active members of the Myra Methodist church. Attending the birthday celebration were Mr. and Mrs. Carl Hoffman of Iowa Park, Mr. and Mrs. Lon Blanton, Mrs. Jewel Trew, Mr. and Mrs. Jeff Wheeler, Mrs. Eddie Klingelsmith, Mr. and Mrs. Jack Highfill and sons Jack Wilson and George Edward, and Mr. and Mrs. Willard Kemplin, all of Valley View.

**FIN FUN**—James dropped when these two huge striped bass were landed by James Colon, 13, and his father off Larchmont, N.Y. Jimmie caught the 21-pounder at right. His dad's weighed 18 pounds.

"The happiest miser on earth is the one who saves friends."

**Navy Sets Dec. 10 For NROTC Exam**

The tenth annual competitive examination for high school seniors who desire to attend college and train for careers as Naval officers will be held throughout the nation on December 10, the Navy has announced. Applications for the NROTC are now available, but must be received by November 19, the announcement added.

Successful candidates will start their Naval careers in colleges and universities across the country in 1956, with substantial financial assistance from the government. After a normal college education, graduates will be commissioned in the Regular Navy or Marine Corps, for active duty with the Fleet throughout the world.

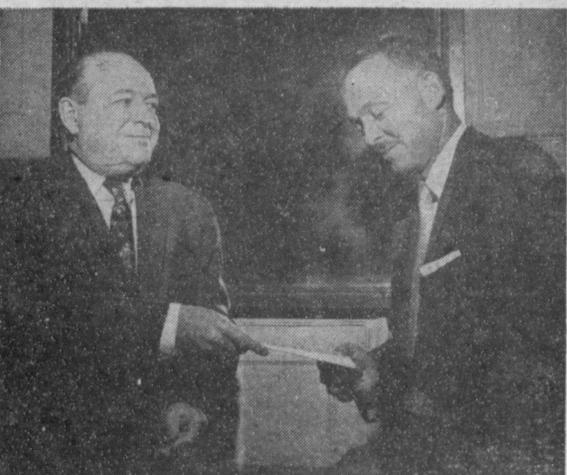

Male citizens of the United States, between the ages of 17 and 21 are eligible to apply for the NROTC aptitude test. Those who attain a qualifying score will be given the Navy's rigid midshipman physical examination next February. From the pool of qualified candidates remaining in competition, approximately 1,800 young men will be selected for appointment to the NROTC, and the college of their choice.

Students enrolled in the Regular NROTC program will spend their summers on training cruises with the Fleet, and will receive \$600 annual retainer pay until commissioned. In addition to the normal college curriculum, the midshipmen will study a planned course in Naval Science. All tuition, fees, and books will be furnished by the Navy.

This college training program is also open to enlisted men on active duty in the Navy and Marine Corps. Such candidates will be selected under separate quotas established by the services. Applications are now available at all high schools, colleges, and U.S. Navy Recruiting Stations, or direct from the Chief of Naval Personnel, Washington 25, D.C.

**Opportunity** An Indian Princess, on coming of age, was given a basket and told she might pick the finest ears of corn in a given row. The only condition was that she was to choose as she went along. She could not retrace her steps. She admired the fine quality of the corn before her; and as she felt one ear after another she left then on the stalk, always thinking what better ears lays ahead. Suddenly to her dismay, she came to the end of the row—and she had gathered none of them. —Pipe Dreams

"Have you been to any doctor before you came to see me?" asked the grouchy doctor. "No sir," replied the meek patient. "I went to a druggist." "That shows how much sense some people have! And what sort of idiotic advice did he give you?" "He told me to come and see you."

**\$140,100 FOR CANCER RESEARCH**—Travis T. Wallace of Dallas, president of the American Cancer Society, Texas Division, Inc., is shown left above presenting a check for \$140,100 to Dr. R. Lee Clark, Jr., director of the University of Texas M. D. Anderson Hospital and Tumor Institute, Houston, for use in the institution's cancer research program of "factors regulating growth—a hormonal, radiobiological and biochemical study." This brings the total of ACS research grants at the hospital to \$580,876 since inception of the program in 1946.

**Legume Inoculants Give Big Returns On Small Investment**

College Station, — The cost is small but the returns, in terms of increased yields and better quality legume crops, are great. Yet, says L. C. Coffey, extension agronomist, farmers still plant legumes without spending the few cents an acre required to do the inoculating job.

He says 50 cents will buy the inoculant needed to take care of enough alfalfa or clover seed to plant up to five acres. Less than 25 cents an acre will inoculate winter peas or vetch. Coffey points out that different strains of bacteria are effective on different classes of legumes. Be sure and get the culture recommended for the crop to be planted.

The seed inoculants contain beneficial live bacteria. The bacteria attach themselves to the roots of leguminous plants where they absorb energy from the plant and in turn help the plant to take nitrogen from the air. They do this by a process known as "nitrogen fixing". Both effective and ineffective bacteria may occur naturally in the soil but Coffey says why take a chance on lower yields and quality by not inoculating the seed.

He says seed inoculants can be obtained from seed dealers and that it is important to follow the directions on the container. The seed should be planted soon after it is treated.

**A&M Offers Tips On Change to Bulk Handling of Milk**

COLLEGE STATION, — The bulk handling of milk is gaining in popularity in Texas. But before a dairyman should make the decision to change, Extension Dairy Husbandman R. E. Burleson says, the question of whether

the returns from the dairy enterprise can be increased enough to offset the cost of changing to the bulk tank system must be answered.

Burleson poses the following as factors which tend to increase costs of operation in case the change is made. First, he says, is the purchase price and costs of installing the tank. Next will be costs, in most cases, for changes in the wiring system needed to take care of the relatively large compressor used on most bulk tanks. Better consider the interest rate if money must be borrowed to make the purchase and a final item, often overlooked, is the additional cost of maintaining the farm lane or driveway in order to support the tank truck.

On the other hand, he points out these advantages for the bulk installation. Working time may be saved in and around the barn and the time and physical strain of handling 10-gallon cans of milk is eliminated. Too, there should be a reduction in the amount of milk lost because of less handling. A probable lowering in the cost of electricity and a reduction in hauling rate are other advantages listed.

Then the final question which must be answered is: if a tank is not installed will the producer have to sell to another milk plant and if so, will the change in plants affect the milk receipts? Burleson says the safe thing to do is find out what bulk tank users think about the system and whether it is helping them meet the price-cost squeeze.

A talk with the plant manager should reveal his plans for future operations. Will he shift from cans to the tank method and if so, when? Then plan accordingly, says Burleson.

Folks who won't get down to business seldom get up in the world.

"Gardening is simply a matter of your enthusiasm holding up until your back gets tired to it."

**REDCHAIN WA-MO**

RED CHAIN WA-MO is a 36% Protein Supplement for swine. WA-MO contains the proper balance of animal and vegetable proteins. In addition it is properly fortified with minerals and vitamins. WA-MO may be fed in self-feeders or hand fed to hogs of all ages and sizes.

Keep RED CHAIN HOG MINERAL and salt available for all hogs to lick when they so desire. Do not mix the mineral and salt.

but still a bed patient, after receiving medical care at Gainesville Sanitarium.

Mrs. John Bezner had as weekend guests her children, Mr. and Mrs. Bomar Woods and sons of Paris and Mr. and Mrs. Ralph Bezner and family of Fort Worth.

Mr. and Mrs. Bob Bezner and children and Mr. and Mrs. Leo Cutaia and daughters of Dallas were here during the weekend for visits with homefolks.

### LINDSAY HIGH STUDENTS VISIT GAINESVILLE BANK

Students of Lindsay High school visited the First State Bank in Gainesville last Thursday. The tour was made in connection with study by the bookkeeping and general business classes. Lambert Bezner, assistant cashier, showed the students and teachers through the bank and explained banking procedure.

On the social side, students have re-organized their square dancing and folk dancing groups and the rhythm band.

### Hermes - Zimmerer Wedding Set Oct. 12

Mr. and Mrs. Julius Hermes of Lindsay have announced the approaching marriage of their daughter, Marcella, to William J. Zimmerer, son of Mr. and Mrs. H. J. Zimmerer, also of Lindsay.

The couple has set Wednesday, Oct. 12, as the date for the wedding. The ceremony will take place in St. Peter's church during an afternoon mass at four o'clock.

The bride's attendants will be Mrs. Glenn Hellman, sister of the groom, of Muenster, matron of honor; Miss Angela Hermes, the bride's cousin, bridesmaid; and Misses Patsy and Mary Ann Hermes, sisters of the bride, junior bridesmaids.

The groom will be attended by Richard Hermes, brother of the bride, as best man and his brother, Clarence Zimmerer, as groomsmen.

No influence in American life down through the years has compared with the church in potency and stability.

### Lindsay Group at Electra Reception

Lindsay relatives of Mr. and Mrs. Adam Kempf went to Electra Sunday to help the couple celebrate their golden wedding anniversary. The observance included dinner at noon for family members and out of town relatives and a reception from two to four o'clock for sixty guests.

Attending the party from here were Mrs. John Zimmerer, sister of Mrs. Kempf, Mrs. Adam Beyer, Tony Beyer, Mr. and Mrs. Frank Sandmann and children Frankie, Don and Barbara, the Henry Kuhns and Vicky, the Robert Beyers, the Joe Koerners, Misses Mary and Annie Kuhn, Henry Kuhn Jr. Attending from Gainesville were Mr. and Mrs. Andrew Zimmerer, Mrs. Henry Popp and Miss Doris Krebs.

Mr. and Mrs. Kempf were married at Lindsay on Sept. 25, 1905. They have three children, John Kempf of Amarillo, Anna of Dallas and Cecilia of Electra. They have four grandchildren.

Mrs. Kempf is the former Miss Annie Beyer. For the occasion she welcomed guests in a becoming black dress with matching accessories and a yellow mum corsage.

The large decorated anniversary cake was topped with a gold slipper and two golden wedding rings. It was centered on a table covered with a lace cloth over gold. The reception hall was decorated in gold and white.

The Cooke county group had quite an experience on the way to attend the celebration. From Wichita Falls to Electra they drove through water running board deep. About a half mile from their destination they were forced to detour on account of deep water. Seven inches of rain had fallen in the area that morning.

### Tigers Win - - -

short kick and the Tigers were in business on their 26. A penalty gave them 5, a pass added 6 and Walter went the rest of the way. Henscheid's pass to Herr brought the count to 21-0.

Walter's 30 yard kick return, after Sherman failed to gain on its first series, started another scoring drive. It added to 34 yards and Walter was the scorer again. Mollenkopf went over for the bonus point.

The second half found Sherman getting nowhere at all and Sacred Heart making nice gains but bogging down before the payoff. During the period Sherman lost 18 yards more than it gained whereas Sacred Heart ran for 63 and passed for 88.

Early in the third quarter the Tigers advanced to the 15 and lost the ball on downs. Later they fumbled on the 1 foot line. On that, however they were not to be denied at least a bit of consolation. On the next play Ervin Henscheid smeared the Sherman kicker behind the line for 2 points.

The last score followed a 35 yard push on 3 passes and 2 runs, Henscheid passing to Herr for the TD. The run for extra point failed.

The game at a glance.

	S.H.	S.
First downs	16	3

Yds. passing	119	0
Passes thrown	16	0
Passes completed	10	0
Intercepted by	0	2
Fumbles lost by	4	6
Yds. penalized	5	20

### Hornets Win - - -

the ball on downs on their own 23.

Three tries netted 2 for the Trojans and an attempted kick fizzled as Hornets swarmed over the kicker before he got his foot to the ball . . . and Muenster had another scoring opportunity on the 20. But Windthorst held again, took the ball on its 6 and kicked out of danger.

A Hornet fumble two plays later gave the Trojans their first action across the mid stripe and a completed pass gave them a first down on the 31. But that was all. Four plays later the Hornets were in charge on their 27.

Muenster made a first down, kicked on the next series and blocked Windthorst's attempted kick to set up their next marker. Biffle made 12 and McCulley 13 for the TD. The try for extra point hit the crossbar and bounced back, as another had earlier in the game.

For the remaining few minutes Hornet reserves took the field and the Trojans started moving. However, C. J. Hellman's interception stopped them abruptly and time ran out while Muenster kids were in possession.

The Game at a Glance.

	M	W
First downs	13	3

### Fire Record - - -

er at high pressure would have got out of control and probably caused a loss wiping out all of the town's good record credit.

As examples of possible serious trouble he mentioned the church and parochial grade school. Using nothing but a hose and city pressure firemen could not wet the roof of either building. The small pumper could reach that high but its small volume of water could not fight a big blaze.

His suggestion was that the city get a 500 gallon pumper as its main unit. With it the firemen would be adequately equipped. Besides, the present pumper and hose truck would serve as valuable stand-bys in case of a serious fire.

Other suggestions were to use more fog nozzles and also to keep a supply of wetting agent available for more efficient use of the water in emergencies. It's not the volume of water used that counts but how well it is used, he said. Frequently a small volume of water quickly and properly used from a tank truck will finish a job before a hydrant connection can be completed. Another reason for using less water is that it causes less water damage.

Cartwright estimated that adequate fire fighting equipment would cost about \$10,000.

Average annual rainfall in Texas produces 362,000,000 acre-feet of water, says the Texas Water Conservation Association. Of this quantity only 1 1/2 per cent soaks into the ground to replenish the spring flow in streams.

land into crop production and the other third into conservation. Crop yields per acre would increase because of improved farming practice and net profit per acre would run considerably higher. The total crop yield may be lower than before but with decreased production cost its profit yield could easily approach the former figure. Adding the conservation subsidy to that figure the farmer will probably end the year with a higher net income than before.

At the same time the system solves two other very urgent problems. It eliminates the surplus and also reverses the soil wasting trend that has been under way for so many years.

In one respect the method may make no difference to the taxpayer. Conservation subsidy most likely will cost as much as crop subsidy. But it offers very substantial tax relief in reducing and eventually eliminating the present tremendous expense of storing farm surplus.

In the last analysis it boils down to this self evident fact: It's wiser to spend money for saving resources than for depleting them, as we do now. If we can solve other major problems in the bargain it is all the better.

Rev. Joseph Weinzapfel of Dallas was here Wednesday for a visit with his parents on his mother's birthday.

## DARI-KOOL

BULK MILK COOLER

Than Any Other Brand!

Shown above  
DKS-250  
(250-gal. capacity)

Milk is cooled to well below 40° in less than one hour — assuring a lower bacteria count, and better milk. The milk cannot freeze — because the coolant is ice water.

Dari-Kool tanks are easy to clean and may be sanitized with hot water without damage. Units are ready to operate — no expensive, remote compressors to install or service.

Every Dari-Kool is built around a rugged 10-gauge steel frame — providing rigid support for the bulge-proof stainless steel milk tank. This assures accurate calibration and correct payment.

Get the cooler that leads in sales — leads in value — and leads in performance!

Meets All 3A Sanitary Standards
