

### Double Halloween Program Presented At Public School

Two separate events observed Halloween at the public school this year and both were delightful affairs.

Monday night's carnival raised funds for classes and clubs of the school. Each group was in charge of its own concessions and each banked the proceeds to boost its own treasury. In addition it was a social success for youngsters and oldsters alike.

Tuesday night's program, highlighted by the coronation of two Carnival Queens, was strictly a social affair. There was no admission charge.

The queens, a favorite from the high school and one from the grade school, received their crowns in a program for royalty.

Marcy Klement, high school, and Linda Lee Dickerson, grade school, won the title of carnival queen by soliciting votes in the preceding weeks. Their escorts for the coronation ceremony were Dickie Cain and Dolphy Joe Hellman, respectively.

After the crowning, with Jimmy Jack Biffle, master of ceremonies, doing the honors, "visitors from other countries" called on the queens bringing gifts and performing for their majesties. Visitors wore their native costumes, presenting a colorful scene and went through their routines — a Scottish dance, a song from Holland, a Spanish number, an Indian war dance, and several others, in a delightful manner.

Music appropriate for the entrance of each performer was presented by Jimmy Harris and his Dance Band.

The queens' train bearers were Charlotte Tempel, Edith Hart, Mac Rawley and Gary Cason. Debbie Cain and Vickie Dickerson were flower girls and Kenny Hallman and Wayne Knox were crown bearers.

**NO TIME ON HIS HANDS**—Fingering his wristwatch, a busy Vice President Richard M. Nixon pauses briefly to talk with reporters outside the White House. Nixon's free moments are few these days, under the increased work load caused by President Eisenhower's necessarily long convalescence from his heart attack.

Mrs. Anna Shelton of Denton spent Tuesday here with members of her family, the Wielers.

Mrs. S. D. Varner was here Sunday to spend the day with her daughter and family, the George Letsons.

### Attends Granddaughter's First Holy Communion

Mrs. Ben Luke joined her son and daughter-in-law, Mr. and Mrs. Bill Luke of Fort Worth, on a weekend trip to San Antonio where they were guests of the Charles Denny family. Little Miss Mary Nell Denny made her First Communion Sunday in St. Gerard's church with a class of more than 100 boys and girls. Her grandmother, Mrs. Luke, is also her godmother.

After the church services the Denny home was the scene of a communion breakfast honoring Mary Nell. Other guests were Mr. and Mrs. John O'Dowd and son Danny of San Antonio. The table, appointed in all-white, was laid with a cut-work cloth and was centered with an arrangement of grapes. Pictures were taken.

Leaving here Friday, Mrs. Luke was taken to Fort Worth by her son, Anthony Luke and family. They were all dinner guests in the Bill Luke home where they were joined by Mr. and Mrs. Alfred Kuhn of Fort Worth for the meal and a visit.

A story is told of a young man who called one evening on a rich farmer to learn the farmer's story of how he became rich.

"It's a long story," said the old man; "and while I'm telling it, we might as well save the candle." And he blew it out. "You need not go on," said the youth. "I understand."

### The Rope Ladder

One day a boy stood watching an ocean liner tied up to a dock in New York harbor. A man standing near thought he would have some fun with the boy.

"See that rope ladder hanging from the deck of the boat?" said the man, turning to the boy.

"Why — yes," answered the boy; "What's it for?"

"Well, the rungs on the rope ladder are one foot apart," explained the man. "At low tide four of the rungs lie below the surface of the water. The fifth rung is two inches above the surface. The tide at this dock rises and falls four feet. Now, the question is, how many rungs of the rope ladder are under water at high tide?" An the man chuckled a little.

"Eight!" exclaimed the boy

THE GOLDEN HORSESHOE, trophy in the Muenster-Saint Jo annual football game comes to Muenster High for keeps following the Hornets' 20-7 victory. By original agreement it became the permanent possession of the school that won it three consecutive years. Ginger Wolf, 1955 Hornet Sweetheart accepts the trophy from Betty Johnson in the presence of co-captains and coaches of the two teams. Pictured are Darryl Preston, Pete Williams, Miss Johnson, Coach Clifton Holt, Coach John Hosea, Miss Wolf, Jimmy Hellman and Wallace Dougherty.

Bars are things you go into, come out singing a few of, and get tossed behind.

**Ginger Wolf Reigns As Grid Sweetheart, Accepts Horseshoe**

Miss Ginger Wolf was presented as Football Sweetheart of the Muenster High Hornets in ceremonies before an estimated crowd of 1,500 persons assembled here Friday night to witness the game between Muenster and Saint Jo.

The presentation program, conducted on the 50 yard line just before the opening whistle, began with a selection by the band as it entered the field from the south and marched to the center, formed a heart, and encircled a huge Halloween pumpkin. As Co-Captains Hellman and Dougherty approached the pumpkin it opened and the team's 1955 sweetheart stepped out. The co-captains presented her the Golden Horseshoe, symbol of friendly rivalry between the two teams, and a bouquet of roses as a token of their esteem for her. She, in turn, presented the game ball to be used.

Then escorted to a place of honor in the grandstand, Miss Wolf reigned over the game. Earlier this season she had been selected by the team as this year's sweetheart. She is a senior, the daughter of Mr. and Mrs. Bernard Wolf.

After the game she again took part in the program which presented the Golden Horseshoe to Muenster as a permanent possession. Escorted by the co-captains, she received the trophy from Miss Betty Johnson of Saint Jo, escorted by Panther Co-Captains Darrel Preston and Pete Williams.

As previously agreed by the two schools, the one winning three consecutive games would become owner of the trophy. The Horseshoe originated in 1950

when Weldon Cowan was superintendent of Muenster High. The symbol has created a rivalry that is respected by both schools and has been carried on in the highest degree of sportsmanship and friendliness between the two cities.

During the six years that the horseshoe has been an annual prize of the Hornet-Panther contest, it has been won five times by Muenster. The Hornets missed their first opportunity to claim it for keeps in 1952. The winners and scores during the period were: 1950, Muenster 19-0; 1951, Muenster 18-0; 1952, Saint Jo 20-12; 1953, Muenster 13-0; 1954, Muenster 33-0; 1955, Muenster 20-7.

## The Revolution That Never Ends

A newsletter prepared for the Farm Equipment Institute by two professors of the Department of Agricultural Economics, Purdue University, states: "Even though farm incomes are currently falling, farm mechanization and modernization are going to continue at a rapid rate for several years. Farmers have sizable backlogs of purchasing power, their credit is good, and they are continuing to mechanize to gain efficiency and cut costs."

Total production per farm worker is now about 2.3 times the 1920 figure. The chief item responsible for this is more and better farm machinery. In some fields, the gains made possible by machinery are almost unbelievably spectacular. According to the newsletter, production of a bale of cotton in the Mississippi delta area requires nearly 150 manhours of labor when the work is done by hand chopping

and hand picking with the aid of a mule. With complete mechanization the time can be reduced to as little as 25 hours.

Another point the newsletter makes is that farm machinery is an excellent buy. Farm wage rates are about four times what they were in 1940. But farm machinery prices have risen only a little over half that much, and gasoline only one-eighth that much. Mechanical labor is truly cheap labor — to say nothing of its convenience and dependability.

Agriculture is still in the process of peaceful revolution — and the machine is the dominant force.

## Charity Loves All that God Loves

By Bishop Fulton J. Sheen

AMERICA'S GREATEST enemy is not from without, but from within, and that enemy is hate: hatred of races, peoples, classes, and religions. If America ever dies, it will not be through conquest, but suicide.

Tolerance pleas will not remedy this hate, for why should any creature on God's earth be merely tolerated? Hate can be eradicated only by creating a new focus, and that is possible only by charity.

BY CHARITY we do not mean kindness, philanthropy, generosity, or big-heartedness, but a supernatural gift of God by which we are enabled to love Him above all things for His own sake alone, and in that love, to love all that He loves.

Sheen

The essential quality of charity to be noted is that it resides in the will, not in the emotions or passions or senses. In other words, charity does not mean to like, but to love. Liking is in the feelings or emotions; loving is in the will.

A LITTLE BOY cannot help disliking spinach, as perhaps you cannot help disliking sauerkraut, and I cannot help disliking chicken. The same is true of

your reactions to certain people. You cannot help feeling an emotional reaction against the egotistical, the sophisticated, and the loud, or those who run for the first seats, or those who snore in their sleep.

But though you cannot like everyone because you have no control over your physiological reactions, you can love everyone in the divine sense, for love, being in the will, can be commanded. As Our Lord said: "A new commandment I give unto you: that you love one another as I have loved you."

OUTWARDLY, your neighbor may be very unlikeable; but inwardly he is one in whom the image of God can be recreated by the kiss of charity. You can like only those who like you, but you can love those who dislike you.

You can go through life liking those who like you without the love of God. Humanism is sufficient for those of our set, or for those who like to go slumming from ivory towers, but it is not enough to make us love those who apparently are not worth loving.

TO WILL TO BE KIND when your emotions are unkind requires a stronger dynamic than "love of humanity." To love them, we must recall that we who are not worth loving are loved by Love Himself.

From where I sit ... by Joe Marsh

## Last Word in Farm Machinery

Curly Lawson was first in this area to use one of those roadside vending machines. He's sold milk and eggs in one about a year now, and recommends them highly — but with reservations.

"Mine's the latest model," says Curly. "Built-in refrigeration unit—heater—an automatic sign turner-on for night. Takes any combination of coins."

"However," he warned, "those machines aren't cheap to buy ... or operate. They run about \$3500. If you're not on the main highway like I am—where lots of city

people pass—you'd better stick to the old methods."

From where I sit, you have to admire Curly for his pioneering spirit. Of course, there's also plenty to be said for those who tend to stick to the old proven methods. People's ideas differ on the subject — on any subject. Like you may always drink buttermilk with your meals ... while a glass of beer's the "automatic" choice with me.

Joe Marsh

Brooklyn College associate professor was fired for refusing to tell a Senate subcommittee whether or not he had been a Communist in 1940 or 1941.

Discharges on such grounds in institutions of higher learning, the Civil Liberties Union brief reportedly argued, would "lead to timid conformity" among teachers who should be "stimulating consideration of the novel and controversial."

Well, now, is the teacher's job to stimulate "consideration of the novel and controversial"? Or is it to help the student obtain the background of knowledge and the foresight of wisdom to enable him to discriminate between what is good and what is bad in "the novel and controversial"? Even the superficially educated are going to consider, one way or another "the novel and controversial." But shouldn't the truly educated person be able to bring to such consideration a reasonably sound judgment as to the rightness or wrongness of the proposition be-

ing considered? And might not the trustees of a university quite reasonably conclude that a fifth-amendment professor is hardly qualified to develop such judgment in his students?

The world, which took but six days to make, is like to take six thousand to make out.

**Homemaking Hints**

By Mrs. H. H. Homsley  
Keep bottom of iron clean by polishing frequently with steel wool.

Replace door seal on your refrigerator if it does not hold a sheet of paper with the door closed. Keep condenser clean by brushing or vacuum cleaner attachment — dirt and dust make motor run overtime. Allow room at back and over top so that refrigerator can breathe.

When narrow-neck crystal vases and bottles need cleaning and a bottle brush won't do the work, break several egg-shells into the bottle or vase, add a little water and shake until all film and dust disappear from the glass. After rinsing, the vase will be crystal clear.

To cut biscuits in a hurry, use the divider from an ice cube tray. After mixing the dough, roll it to the right shape and cut with the divider. Place in a pan, when baked—separate the biscuit at the dividing lines.

An old toothbrush will provide excellent service as a comb cleaner. Trim it to the correct size by cutting off all bristles except the three end rows. Make one and keep it near your comb, because a dirty comb will make clean hair and scalp dirty.

**CARD OF THANKS**

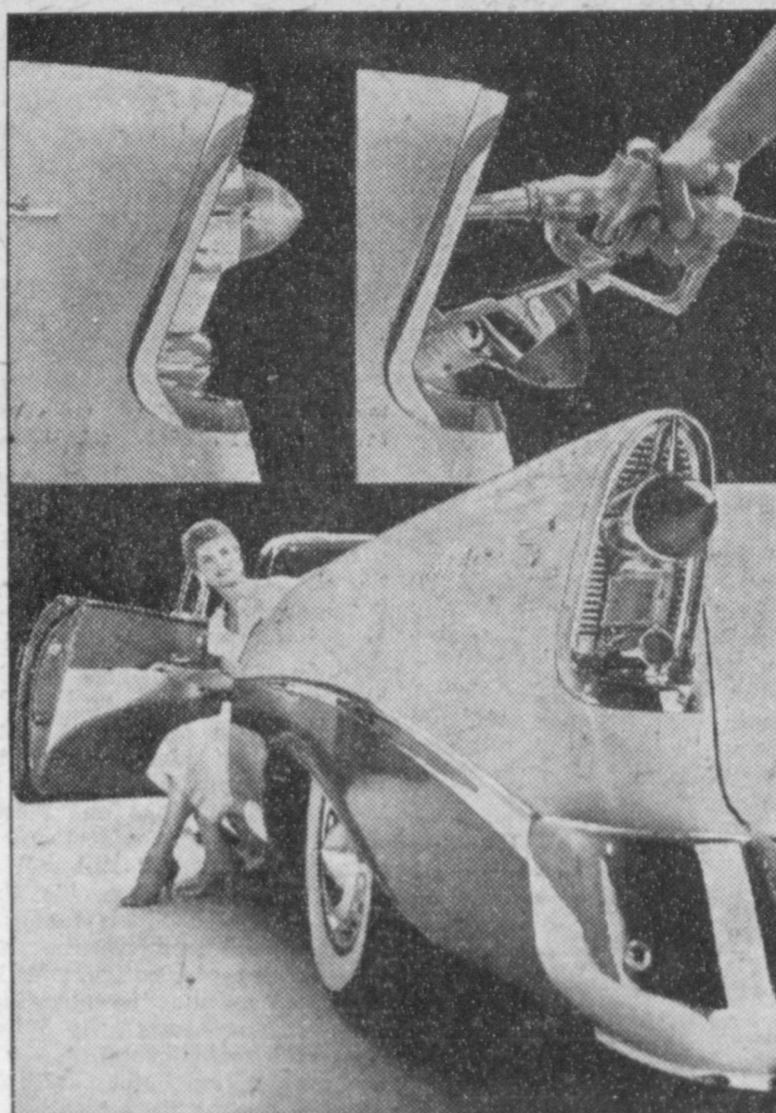

Many thanks to everyone who remembered me during my recent illness. I am grateful for the messages of cheer, the flowers, the prayers and every kindness.

Mrs. Jim Cook

**Are All Cold Remedies Alike?**

No! For example, 666 is the wide-activity medicine, which combines 4 of the most effective, widely-prescribed drugs known, to relieve all cold miseries sooner. 666 is more potent and gives positive, dramatic, rapid relief from miseries of all kinds of colds. That's why 666 is unsurpassed in effectiveness. Try it.

No other cold remedy can match 666 liquid or 666 Cold Tablets. **666**

Beauty of design combines with functionalism to give the 1956 Chevrolets a touch of novelty. In the 19 body styles the company is introducing, the gasoline inlet pipe is concealed behind the left rear tail lamp. The lamp is hinged and swings downward out of the way when the tank is being filled.

**Power and Rugged Design Featured In '56 Chevrolets**

Continued emphasis on the superior performance and rakish lines that contributed importantly to record-breaking sales this year give Chevrolet for 1956 its most distinguished new passenger cars.

Scheduled for debut at dealer showrooms across the nation Friday, November 4, the latest models carry increased horsepower, a fleetier, more rugged appearance and are offered in the broadest array of bodies ever produced by the company.

New in the low-price field is a four-door hardtop sport sedan. This car has no obstructing center pillar in the window area and is fashioned with the same styling zest that made the Chevrolet sport coupe a sensation of the automobile market since 1950. Also introduced for the first time are nine-passenger station wagons, bringing the company's total number of 1956 bodies to 19.

Of prime interest to buyers who appreciate the security of ready acceleration is an increase in horsepower extending from the six-cylinder engine to the pace-setting V8. The new model sixes rate at 140 horsepower. The Super Turbo-Fire V8 which, in a recent performance test, set a new all-time record at Pikes Peak in September, develops 205 horsepower.

Among outstanding safety features in the 1956 Chevrolet line are the availability of seat belts and shoulder harness; improved, precision-aimed headlights and crash-tested door locks to minimize the possibility of doors being sprung open by shock or collision.

The safety lock was introduced

on Chevrolet models last summer. The design includes a flange on the door portion of the car which overlaps another flange on the striker mounted on the body pillar. The overlap, or interlock, is designed to prevent disengagement of the two parts in event of a collision.

Lively paint schemes are offered in accord with the increased color consciousness of car buyers. Choices range from black to a newly developed pigmentation in beige and red. Original two-toning gives each of three price-graduated series an exclusive pattern. Ten solids and 14 two-tone combination are on the 1956 color chart.

**CARD OF THANKS**

Mindful of the thoughtful remembrances of the citizens of Muenster for the kindness and sympathy shown us in our great sorrow, the loss of our son and brother, we wish to express our gratitude. We are grateful that you accepted him as one of your own in your community as you did both in life and in death. Your many letters of sympathy and spiritual tributes are a great comfort to us and will be acknowledged individually as time permits.

**CARD OF THANKS**

H. E. (Herman) Schmitz, 721 Field Street, Gainesville, wishes to thank everyone for the get-well greetings sent him during his illness. His family joins him in this expression of appreciation. He is still bedfast and says the cards help so much to pass the time.

There are other things in this world besides money. But the trouble is you can't get them without it.

**Lucille King Wins Highest HD Award**

A former Myra girl, Miss Lucille King, county home demonstration agent for Sherman county, has been awarded the 1955 Distinguished Service Award of the National Home Demonstration Agents' Association. The Award was presented at the close of the group's national meeting in Seattle, Wash., recently.

Miss King, daughter of H. E. King who still lives near Myra, and sister of M. H. King of this city, has been with the extension service since 1943. She served as home demonstration agent in Knox and Young counties before taking her present position at Stratford in 1952. Before joining the extension service she taught school at Myra, Hood and Hays.

The awards are made annually to home demonstration agents who have rendered outstanding service to the people with whom they work for a period of years. The ability to develop leadership and effective programs in home demonstration and 4-H club work are major factors considered in making the award.

Miss King is also active in civic and community affairs. She has been vice-director and secretary-treasurer of Texas Home Demonstration Agents' Association.

The reason the battle of the sexes will never be won is there's so much fraternizing with the enemy.

She's one of many farm animals being raised on feed which contains antibiotics, mold-produced organisms well known for disease and infection-fighting qualities. Surprise significant additional effect of the experiment is that marketing date of animals can be speeded up. Broilers, for example, are said to be ready for the market after nine instead of ten weeks of feeding. Period necessary to bring cattle and swine to market weight is also said to be shortened.

**DHIA Praised for Herd Improvement**

**COLLEGE STATION.** — Dairy herd improvement associations have been operating in Texas since 1927 and have done much to improve both milk and butterfat production in the herds which have participated.

R. E. Burleson and A. M. Meekma, extension dairy husbandmen, recently released an 18-year summary which shows the progress made in Texas. In 1937, 2,171 cows were tested and the average production per cow was 5,509 pounds of milk and 267 pounds of butterfat. The 1954 figures showed 9,963 cows on test with production averages of 7,260 pounds of milk and 315 pounds of butterfat. An increase of 7,792 cows on test but more important was the increase of 1,751 pounds per cow in milk production and the 48 pound increase in butterfat.

The average production for all cows milked in Texas stands at the low figure of 3,400 pounds of milk and 140 pounds of butterfat, say the dairymen.

**FOR GROWNUPS, TOO**

A schoolroom poster published in The Journal of the National Education Association contains five resolves which might well be taken by adults as well as children:

"1. I will control my tongue, and will not allow it to speak mean, vulgar, or profane words. I will think before I speak. I will tell the truth and only the truth.

"2. I will control my temper, and will not get angry when people or things displease me. Even when indignant against

wrong and contradicting falsehood, I will keep my self-control.

"3. I will control my thoughts, and will not allow a foolish wish to spoil a wise purpose.

"4. I will control my actions. I will be careful and thrifty and insist on doing right.

"5. I will not ridicule nor defile the character of another; I will keep my self-respect and help others to keep theirs."

We cannot afford to let our children get ahead of us in any of these five particulars.

One way to keep your head above water is to keep out of expensive dives.

"Well, let's go harvest our Guaranteed Annual Crop, before the Guaranteed Annual Bug's beat us to it!"

### Lindsay News

Mr. and Mrs. Robert Hale of Dallas were weekend visitors with her parents, the John Bengforts, and Sunday afternoon were in Muenster to be baptismal sponsors for their nephew, Ronald Paul, infant son of Mr. and Mrs. Werner Yosten.

The Senior-Junior class club held its regular meeting on Oct. 28 with Cecilia Fuhrmann, president, presiding. After social plans were discussed, the ghost report written by Irene Block was read. For the program Virginia Zimmerer, Dorothy Geray, Mary Jane Block and Irene Block presented a discussion on the rosary. Virginia Metzler was named chairman of the next meeting.

The Current Events club of Lindsay High held its regular meeting on Oct. 26. Roll call was answered by each member giving the name of his or her favorite saint. The ghost report, by Judy Schmitt, was read by Gilbert Hermes. Wanda Hess and Ann Doris Neu were named to head the entertainment committee.

### Corcoran-Metzler Wedding Set Nov. 24

Mr. and Mrs. John Corcoran, star route, Gainesville, have announced the approaching marriage of their daughter, Helen, to Raymond Metzler, son of Mr. and Mrs. Phillip Metzler of Lindsay.

The couple has selected Thanksgiving Day, Nov. 24, as the date for the wedding. It will be solemnized in St. Mary's church at Gainesville with Rev.

Michael Gormely officiating. The bride-to-be attended St. Mary's school and was graduated from Bishop Kenny High school in Jacksonville, Fla. Her fiance is a graduate of St. Peter's High school, Lindsay, and served in the army two years with overseas duty in Germany. They will live in Gainesville after their marriage.

### Mrs. Katie Reinart Of Lindsay Dies

Mrs. Katie Reinart, 79, longtime resident of Lindsay, died in a Gainesville hospital Friday. She was the widow of Nick Reinart.

Funeral services were held at 8 o'clock Monday morning in Saint Peter's church at Lindsay with Rev. Conrad Herda pastor, officiating at the requiem high mass and at burial in the parish cemetery. George J. Carroll and Son Funeral Home was in charge of funeral arrangements.

Survivors are three sons, W.N. and Henry Reinart of Lindsay and Vincent Reinart of Phillips; two daughters, Mrs. Louise Morisak of Gainesville, and Miss Susie Reinart of Hereford; a stepson Joe Reinart of Hereford; four stepdaughters, Mrs. Louis Mosser and Mrs. Fred Spaeth, Mrs. J. W. Walterscheid of Carlsbad, N.M., and Sister M. Perpetua, O.S.B., of Jonesboro, Ark., six sisters, a brother, and three grandchildren.

### Janet Arendt, Six, Has Birthday Party

Janet Arendt celebrated her sixth birthday Saturday with an afternoon party at the home of her parents, Mr. and Mrs. Paul Arendt Jr. Assisting Mrs. Arendt with hostess duties were Mrs. Albert Herr and Mrs. Joe Bezner Jr.

After Janet opened and displayed a shower of gifts the children played games and posed for pictures. Game winners were Linda and Kenneth Hoelker.

Refreshments and favors carried out the Halloween theme. Ice cream, cup cakes and punch were served to 27 classmates of the honoree and three guests from Muenster, Paula Herr, Mona Voth and Linda Hoedbeck.

### Halloween Benefits Parochial Library

A record crowd turned out Sunday afternoon to attend the Halloween Carnival sponsored by roommothers of the Sacred Heart parochial grade school. The benefit party netted a substantial sum for the school's library.

The Halloween theme predominated everywhere throughout the parish hall where various games and concessions furnished entertainment, eats and drinks for visitors.

In the children's costume contest four girls won prizes, and each of the contestants received a favor. In the pre-school through fourth grade group, award for the prettiest costume went to Linda Zimmerer, a first grader, dressed as a princess, and to Linda Fette, fourth grader, for the funniest costume.

In the older children's contest prizes went to Charlotte Wolf, prettiest, in a Spanish costume; and to Henrietta Owen, funniest.

### Building And Improvement Notes

Joe Trachta has finished foundation work and has framework well under way on a new house replacing the 50 year landmark which was recently torn down at the corner of Main and Seventh. He's building a 3-bedroom house with attached garage.

Bill Biffle is building a new home on his farm south of town near Leo. It is a 3-bedroom place with attached garage.

Mike Schilling is building a 20x50 Grade A dairy barn. The Charm Shop no longer has that old, weather-beaten look. It has been favored with new white asbestos siding.

**HOW TO PLAY "SQUASH"**—That's what you'd learn if you played opposite Herb Diedrich, Dundee, Ill., high school's 335-pound junior-year menace. Sports goods firm which outfits him says he wears the largest football uniform ever made—a claim nearly as hefty as is Herb. Statistics: Size 62 jersey, 56 pants, 7½-inch helmet. And all this mountainous threat to the opposition is hung on a five-foot, eight-inch frame.

of the drive. But that was all. By the time the next series ended the ball had been pushed back to the 30.

Next Muenster fans got a temporary thrill as McCulley circled left end for a 65 yard gain, then an equally disappointing let down as the play was nullified and penalized for offside. However Hellman's pass to McCulley and Richey's gainer moved the chain twice before the Panthers stood pat.

Muenster likewise held firm and the next four series of downs ended in kicks. Then, in the fading minutes of the first half the Hornets launched a 41 yard scoring drive featuring three passes for 29 yards. On the pay-off play Hellman heaved to Dougherty for 15 yards. Harris kicked the extra point for the half time count of 13-0.

Saint Jo's comeback after intermission was explosive. Spencer took the kickoff on his 10, angled for the right sideline and raced to the Hornet 21 before being hauled down by Swirezynski. Three plays later Weed broke through for 13 yards and a TD. Barnhill went over for an extra point.

Muenster snapped back with a drive of its own consisting of three first downs for 37 yards but the next series bogged down and Saint Jo took over on the 20.

However the Hornets were soon back in business as Kaderli crashed through to block Preston's punt at the end of the next series. The ball was covered on the Panther 22, and two tries produced the next score. Richey reached the 1 on Hellman's pass and plowed over on the next play. Harris kicked true making the count 20-7.

The final quarter featured another Panther push for three first downs and missing the fourth by inches, a total gain of 42 yards. Then, following a Hornet first down, came the game's only pass interceptions. Williams grabbed Hellman's heave and McCulley stole Preston's three plays later. As the final minute ticked away Muenster fans were treated to another futile run. Biffle got loose for 53 paces to the Panther 31 but was called back and the team penalized. Time ran out on the next play.

A man had his new dog out for a walk when he came to a river. He threw a stick in for the animal to fetch. To his astonishment, instead of plunging in the dog walked out on the surface of the river and retrieved the stick. Not believing his eyes, the man threw the stick again. Again the dog walked across the water and fetched it.

"Where did you get that dog?" asked a passerby. "I bought him for a hundred dollars," said the owner proudly. "Boy, did you get stung!" said the stranger. "That dog can't even swim."
