Schools Announce Classes As Usual On Good Friday

Typical of the Anti-American flavor of comment being dished out by some writers of the country is an item from the Washington Newsletter of February 24, which, for reasons best known to himself, Texas Agriculture Commissioner John C. White chose to give additional circulation by including it in his monthly package of agriculture articles.

The item emphasizes that the 1954 tax law gives about a 25 per cent saving to people who don't work for a living. Specifically, it states that a farmer with a wife and two dependent children, using standard deductions, would have to pay \$416 income tax on a net income of \$4,999. But another man, also with three dependents, who got the same income from corporation dividends instead of by milking cows and mowing hay would have a tax bill of \$317 . . . a difference of \$99 for living on different sides of the economic tracks.

Another comparison of the farmer and stockholder, each without dependents, shows an even higher premium for the man who doesn't work for a living. "A playboy bachelor stockholder who clipped \$4,999 last year from the General Motors stock his daddy left him would pay \$164 less in tax to Uncle Sam than a bachelor farmer who dug an equal \$4,999 out of the cotton field."

Even the communists do not do a more thorough job of dishonest, rabble rousing scribbling. The obvious intention behind this article is to discredit the administration and the laws of our country before the millions of readers who take such things at their face value and don't bother to check up on the facts.

First of all, the item neglected to mention that the stockholder's earning on his investment is actually subject to two tax bites, and the first one is a whopper. Corporation income tax first takes up to 52 per cent of the company's profit, which means that the stockholder who received \$4,999 as a dividend check had already paid more than that amount in tax. Now add the \$317 which he pays on money actually received for a more correct estimate of the tax Uncle Sam gets out of him. The facts show that he has no privilege over the farmer, but rather that he is penalized and plenty.

Plain demagoguery is applied in referring to the stockholder as a person who does not have to work. The intention, of course, is to create and intensify prejudice against stockholders and the American capitalistic system in general. The fact is that the vast majority of stockholders are average working people who have invested their savings for the sole purpose of receiving a little additional income. They outnumber the big share holders many times over, and besides they own by far the greater part of the nation's corporate stock.

These little people, farmers, wage earners, small business and professional men and women by the millions, are the folks congress had in mind when it agreed to a lower tax rate on dividend checks. Because of them many congressmen, with full justification, even proposed a full tax exemption on dividend incomes. After all, the heavy corporation tax already imposed a big penalty on their thrift and on their contribution toward the nation's development. To beef about the little tax relief they have received is the ultimate in unfairness.

We all have to concede that there are a few playboys living easy from their inheritance, but implying that they are representative of stockholders is about as fair as judging all farmers by the comparatively few playboys who get their income from land rather than stock. Most likely, moreover, that group is about as numerous as the other. There are plenty of fellows who loaf through life on an easy income from the land their fathers left.

In addition to the demagoguery and dishonesty the article conveniently passed up the well known fact that farmers, in general, enjoy a greater income tax privilege than any other group of people. An average family's savings on food bills amounts to several hundred dollars. Uncle Sam doesn't quibble about the family's use of eggs, milk, home killed poultry, pork and beef and

(Continued on Page 10)

Good Friday will be a regular class day at both Muenster schools, according to a decision announced jointly last week by heads of the two schools.

The principal reason for the decision is that both are two days behind schedule because of severe weather earlier this year. Three holidays were declared and their calendars showed only one day over the minimum requirement. Also contributing to their decision is the belief that children are likely to observe the day as reverently . . . perhaps more so . . . in class as they would if given the customary day of freedom.

Classes will be dismissed in time to allow attendance at Good Friday services in church, beginning at 3 o'clock.

Heads of the schools will decide later how to make up the remaining day of shortage on their schedule.

Mrs. Sloan McCool, Formerly of Linn, Dies in Dallas

Mrs. Sloan McCool, 58, of Grand Prairie, resident of the Linn community until about 15 years ago, died in Methodist Hospital, Dallas, Wednesday night at 9. She had been ill with diabetes for more than two years.

Funeral services were still pending at the time the death report was phoned to her sister-in-law, Mrs. Clarence Hudspeth.

Mrs. McCool is survived by her husband, one son, Richard of Hurst, Texas, two grandchildren, and one sister, living in Illinois.

Pastor Assigned to Gainesville Parish

Father E. J. Gerlich of Fort Worth is the new pastor of St. Mary's church at Gainesville. His appointment was revealed last week by the Most Rev. Thomas K. Gorman, bishop of the Dallas-Fort Worth Diocese. He is due to arrive at Gainesville on April 6. Father Gerlich is now assigned to St. Thomas church of Fort Worth.

Father Michael Gromley, now serving as temporary pastor at St. Mary's, will return to his former assignment at Weatherford.

NEWS OF SICK AND INJURED

Byron Sears is back at the Veterans Hospital, McKinney for about two weeks of treatment. His wife and the Tony Wimmers, after visiting with him last Sunday, say he expects to return home late next week.

Mrs. Joe Walterscheid has received word from her daughter, Mrs. Carl Ellison of El Paso, that she is back home and recovering nicely from thyroid surgery. Katie Mae had her operation on March 5.

Jimmy Don Robinson was dismissed from Gainesville Sanitarium Monday following medical care.

Eddie Joe Hellman, son of the Clarence Hellmans had been in Gainesville Sanitarium since Sunday receiving treatment for virus pneumonia and asthma and returned home Wednesday.

Agnes Esker sends word that she is feeling much better and hopes to return home in a few weeks. Visiting her in a Dallas hospital last Saturday were Sisters Grace and Jerome, Mrs. Paul Fisher and son, William, and Billy Ray Hellman.

Sister Jerome is spending some very uncomfortable days lately nursing an ulcer on her right eyelid.

Little by little Andy O'Connor's whispers are becoming louder. He has improved his speech considerably since Feb. 28, when he underwent surgery in Dallas for removal of a growth from his vocal cord.

The return of an old ailment has sent Father Cyril Lange, pastor of the Windthorst parish, back to Spahn Hospital of Corpus Christi to resume treatments he had taken prior to his recent transfer to Windthorst. Father Louis Deuster is spending his second week as relief pastor for the parish.

Charles F. Meurer Pioneer Resident, Passes Wednesday

Charles F. Meurer, 72, of Windthorst, a resident of Muenster during its pioneer days, passed away at Bethania Hospital in Wichita Falls about 6 Wednesday evening after a critical illness of less than two weeks.

He went to the hospital on March 4 after suffering a heart attack two days before. Prior to that he had been in poor health for several years. Diabetes eventually caused the loss of both of his legs, one being amputated in March of last year and the other in January of this year.

Funeral services have been set for 9:30 Saturday morning in Windthorst.

Charles Meurer was born at Bastrop on January 2, 1884, one of twelve children of Mr. and Mrs. John Meurer. He came here with his family in 1890, a year after the settlement of the Muenster community, and remained here for several years after his parents moved to Windthorst.

He was married to Miss Catherine Knabe in Muenster on October 10, 1905. Last year he and his wife celebrated their golden anniversary. Two years after his marriage he moved to Windthorst and has lived there since.

Survivors are his wife; two sons, John and Arnold of Windthorst; four daughters, Mrs. Tony Hoff and Mrs. Fred Schroeder of Windthorst, Mrs. Henry Thoele of Wichita Falls, and Mrs. Ben Turpin now stationed in Germany where her husband is serving in the U. S. armed forces. (Mrs. Turpin flew home to be at the bedside of her father) Brothers and sisters surviving are J. F. Meurer of Wichita Falls, H. A. Meurer of Scotland, W. L. Meurer of Slaton, Mrs. S. P. Otto and Mrs. E. H. Otto of Wichita Falls, Mrs. Lucy Jansen of Canon City, Colo., Mrs. Frank Wolf of Stratton, Colo., and Mrs. J. M. Wehzapfel of Muenster.

Herbie Herr Heads Slate of Officers At Local VFW Post

Herbie Herr, as commander, heads the list of officers at Muenster's VFW post for the coming year. He was favored in the organization's annual election of officers at the post home Tuesday night.

Others serving with him are Joe Sicking, senior vice-commander; Herbert Yosten, junior vice-commander; Walter Becker, quartermaster; Marty Klement, advocate; Francis Wiese, Chaplain, Dr. Pomeroy of St. Jo, surgeon; and Ray Voth, trustee. Other trustees are Richard Burk, elected last year, and Steve Moser, elected two years ago. The club elects one trustee each year for a three year term.

Along with the election the veterans discussed plans for a district meeting to be held here in May. The new commander appointed committees to continue preparations for the event.

Area Baptists Will Gather Next Week For Study Revival

Baptists of Muenster, Myra and Marysville will gather in the local Baptist Church Monday through Friday nights of next week for a four-section study revival, Rev. D. S. Pettijohn announced this week. Starting time each night will be 7:30.

Each evening's program will consist of two study sessions for each section divided by an intermission period during which all groups will assemble for a film on The Life of Christ. The film will be shown in five parts so that it can be extended through the full series of meetings.

Instructors are Rev. D. S. Pettijohn for adults, Mrs. Carl Mullins for the youth group, Mrs. Jack Biffle for the intermediate group and Mrs. Earl Robison for the junior group.

County Attorney Seeks Re-election

L. V. Henry authorized the Enterprise this week to announce his candidacy for re-election to the office of County Attorney. His formal statement to voters will be published later in the campaign.

Trustee Election Dated for April 7

The annual election of trustees to the Muenster Independent School District was officially set for Saturday, April 7, by members of the board in their regular meeting last Thursday night.

Present members whose terms expire this year are Dr. T. S. Myrick and Albert Fleitman, who was appointed about two months ago after the resignation of Herman Richey.

To qualify for listing on the ballot a candidate must file with Superintendent H. H. Homsley, secretary to the board, on or before April 2. In their meeting the trustees failed to specify a deadline for announcing, so the legal limit set by the state will apply this year. In the past the board usually set a 10 day deadline to allow ample time for printing ballots.

Homsley said Wednesday that no candidates had announced up to that time.

Muenster Awaits Result of Latest Freeze on Crops

For a few more days the community will be waiting anxiously to see whether crops, gardens and fruit trees were damaged . . . and if so, how much . . . in Monday night's freeze.

A dip in temperature to the high twenties may have been severe enough to wipe out the year's fruit crop and other tender vegetation, however there were favorable circumstances as well. The below-freezing temperature did not last long and it was accompanied by dampness which may have provided sufficient protective insulation.

A similar cold wave Wednesday of last week seems not to have left any ill effects. Flowers, vegetables, alfalfa, and clover seemed okay as late as Monday.

Arriving with the cold wave was slight but welcome moisture. Measuring only .32 it falls far short of local needs after very light rainfall in the past month and a half. However, the moisture that fell was 100 per cent useful. Every drop soaked in and the cool damp weather held evaporation to a minimum.

SH Tigers Begin Baseball Practice

When weather permits athletes of Sacred Heart High are spending spare time practicing for their baseball season, which will open shortly after Easter.

Father Christopher Paladino, coach, said the boys will have a short schedule this year. They will have two practice games with Windthorst and play a 3 out of 5 series with Laneri to decide which team meets Catholic High of Texarkana for the SAL district crown. If they should get past both of those clubs they will face more action in a state play-off.

Buckner, another SAL member, does not have a baseball team.

WITH THE MEN IN SERVICE

New Assignment

Ronald Fette has been transferred from the Naval Station at Norman, Okla., to Memphis, Tenn., to start a 28 weeks course in electronics. Since the class was open only to the four-year volunteers Ronald had to sign up for another year of service.

Receive Greetings

David Reiter and William Walterscheid have received greetings from Uncle Sam. They are scheduled for induction on March 27.

Ends 30-day Leave

Michael Driever has completed his month's leave following two years of service with the army in Germany. He left late last Friday to report for his new assignment at Fort Ord, Calif., on March 15. Going with him by car is his mother, Mrs. Rosa Driever, who is taking two weeks vacation from the Enterprise to see people and places with Mike on their way to California, then to see more on her way home. A letter received here late Tuesday mentions stops with the Hennigans at Albuquerque, the Petrified Forest, the Painted Desert and Grand Canyon.

Two Muenster Residents Die Suddenly of Heart Attacks

Marion J. Reeves George Lutkenhaus

Marion Jasper Reeves, 50, died instantly about 10:30 last Friday morning from a heart attack while supervising work on the C&L Oil Company lease some three miles northeast of Muenster.

Ed Sicking, who was with him at the time, said that he was working on a pump engine and Reeves, standing nearby, suddenly called his name. As Sicking looked up he saw Reeves slump over the pump. He said he thought the man was dead but rushed to a nearby farm home to call a doctor and ambulance in case the man could still be helped. Reeves was pronounced dead before he was picked up by a Carrol ambulance.

Reeves had been afflicted with a heart condition since last October when he spent about a month receiving treatment in a hospital. Since then he had been cautious, keeping an assistant with him on his pumping job and avoiding strains. Only a few days before the fatal stroke he felt ill and went to a hospital for a checkup. Apparently assured, he returned to work Thursday.

Funeral services were held at 2 Sunday afternoon in Grand Avenue Baptist Church of Gainesville with Rev. John B. Stepp of Gainesville and Rev. D. S. Pettijohn of Muenster officiating. Burial followed in Fairview Cemetery under direction of Scott Brothers Funeral Home. Pallbearers were six of his nephews.

Marion Jasper Reeves, a native of Cooke County, was born July 31, 1905. He spent the greater part of his life in the Marysville community, where he married Miss Retha Jordan of Greenville in October 1924. Since 1940 he has lived at Muenster. He was employed as a pumper on the C&L Oil Co. lease northeast of here and he was a member of the Hays Baptist Church.

Surviving are his wife; his stepmother, Mrs. F. M. Reeves of Gainesville; two daughters, Mrs. Janie Dunn of Gainesville and Mrs. Catherine Waggoner of Fort Worth; a son, Harold Wayne Reeves of Grand Prairie, seven brothers, Ernest and Rob of Gainesville, G. W. of Clarendon, John of Seymour, Monroe of San Antonio, Ray of Denison and Earl Reeves of Grand Prairie; four sisters, Mmes. Hiram Ramsey, I. J. Davidson, General Morris and Ray West, all of Gainesville, and three grandchildren.

Muenster Softball Team Will Compete In County League

Muenster softball players, sponsored by the B-29 Club, will compete again in the Cooke County Softball League. Officials of the league after a meeting in Gainesville last Thursday disclosed that nine teams are now signed up for the loop.

Included on the list are B-29, Gainesville VFW, Bezner Chicks, Sinclair, Schlumberger, National Guard, National Supply, Lindsay and Linda Jo. Managers of the clubs will meet on April 10 for final plans and preparations. The season will open May 1.

League officials decided that each team will be limited to 16 players and no team will be allowed to pay its players.

A Shaughnessy play-off will determine the league champ, as in the past seasons. The four top teams at the end of the regular schedule will compete with 3 out of 5 series in the preliminaries and a 4 out of 7 series for the final.

City Sends 2 Men To Nocona Classes

Two city employees, Steve and Joe Moser, are spending evenings this week and next week attending a sewer plant operation and maintenance school at Nocona.

The course is sponsored by the North Texas Waterworks and Sanitation Association, and most cities of the group are represented in the classes. The instructor is a man from the A&M extension service.

George Henry Lutkenhaus, 73, a resident of the community for 65 years, died suddenly of a heart attack about 2 o'clock Monday afternoon on his farm seven miles southwest of town.

His wife found his lifeless body beside a pickup truck shortly after he had gone out to drain the radiator for a possible heavy freeze. Aware of his heart condition she had been watching him closely for the past few weeks. Through a window she saw him shortly after he reached the truck. When she looked again a few minutes later he was not in sight, so she went out to inquire.

Rosary was recited for him Tuesday night at 8 in the Nick Miller Funeral Home. Funeral services were held at 9:30 Wednesday morning in Sacred Heart Church with Father Patrick Hannon celebrating the Requiem Mass and officiating at the final rites, and later conducting the graveside service in Sacred Heart Cemetery. Nick Miller had charge of funeral arrangements. Pallbearers were Joe Hoenig, Joe Vogel, Albert Reiter, Frank Trubenbach, Adolph Walterscheid and Hugo Lutkenhaus.

George Lutkenhaus was born at Calmer, Iowa, on September 17, 1882, a son of Mr. and Mrs. Joe Lutkenhaus, both deceased. He came to Muenster with his family in 1891, settling on a farm about four miles northwest of Muenster and has lived in the community ever since.

On January 3, 1917, he married Miss Mary Loeffelholz of Myra and the young couple occupied a farm north of Muenster until 1925, when they moved to their present home south of Muenster.

He is survived by his wife; three daughters, Mmes. Irene Newton of Syracuse, N.Y., Lorene Sandmann of Valley View and Pauline Sicking of Muenster; a son August Lutkenhaus of Muenster; three brothers, Joe and Louis Lutkenhaus of Muenster and Ben Lutkenhaus of Lindsey; three sisters, Mrs. Bill Kathman and Mrs. Ben Kathman of Muenster and also Mrs. Bill Kathman of St. Stephens, Neb., and nine grandchildren.

MHS Band Accepts Bid to Jacksboro Musical Festival

The Muenster High band, under direction of Jimmy Harris will be in Jacksboro Friday afternoon participating in a North Texas band festival. They will appear in concert music and in sight reading.

As far as Mr. Harris knows, his band will compete with five or six class B school bands. Each band will be judged against standards of excellence and the band with the high score will be named the winner.

The festival is split into several divisions, according to the size of schools represented

County FB Urges Member Support on Important Issues

Support by Farm Bureau members of the organization's state and national policies was urged at a meeting of Cooke County FB directors at their county headquarters Monday night.

President Ben Davis, reporting on a meeting of FB presidents in Dallas Feb. 28, emphasized the bureau's policy on important issues and asked members to write senators and congressmen expressing their views on pending legislation.

The directors also voted to render a new service through their recently established county office. Members are invited to come in for free help in filling out applications for gas tax exemption refunds.

Bruno Zimmerer, chairman of the purchasing committee reported on furniture purchased for the office. Items listed were a desk, a chair, a typewriter, 25 folding chairs, a store and curtains.

The directors adopted a budget prepared at a special meeting of the budget committee on Feb. 28 and submitted by Chairman William Bezner.

Parochial Seniors Present Class Play

Carol Voth, Charles Felderhoff, Veronica Koelzer and Caroline Hesse played the leading parts in the Sacred Heart senior class play, "Nuts and Bolts" presented Sunday night in the Muenster High auditorium.

A three act comedy, the play unfolded happenings at a mental sanatorium operated by people named Bolt.

Other students in the cast were Basil Reiter, Beatrice Zimmerer, Melvin Schoech, Ervin Henschel, La Verna Hess, Rodney Walter, Nelda Bayer, Georgia Ann Owen, Donna Hofbauer, Tommy Herr and Clifford Endres. Irma Starke was the narrator.

44 See Program on Growing Flowers

Forty four flower growers of this area attended a lecture and film on care of flowers presented by Mr. Autenberry of the California Spray Corporation in the public school library last Wednesday night.

The movie, in color, showed the origin, propagation and care of African Violets and Gloxinias. A film on roses, which was planned for the program, was not available for the evening. However roses were discussed at length during the question and answer period at which the speaker also talked extensively on the control of plant pests.

Mr. Autenberry was introduced by Mrs. Tony Gremminger, president of the Civic League and Garden Club, who joined with the Clive Gobbles and the Lee Toothakers in serving cold drinks to the guests.

Sprayette door prizes were won by Mrs. Alvin Hartman and Mrs. Lou Wolf.

Norbert Mages And Verna Kuhn to Wed

Mr. and Mrs. Frank Kuhn of Lindsay have announced the engagement of their daughter, Verna, to Norbert Mages, son of Joe Mages of Muenster.

Date for the wedding has been set for Saturday, April 7, at St. Peter's Church, Lindsay, with Father Conrad Herda officiating. The couple will be attended by Loretta Mages, Mary Jane Block, Melvin Kuhn and Willard Hartman. Joan Kuhn, 5-year-old sister of the bride will be flower girl.

Garden Club Hears Talk Explaining Plant Pollination

A talk by Mrs. John Mosman on the pollination of plants made up the program for the regular meeting of the Civic League and Garden Club at the L. A. Bernauer home Monday night.

Mrs. Tony Gremminger presided and fifteen members answered her roll call by naming parts of a flower.

Foremost in the business session was advance information on a district meeting of flower clubs in the Texas Hotel, Fort Worth, on March 20. All members were urged to attend and were also asked to register before March 17, the deadline for reservation at the luncheon scheduled along with the meeting.

Refreshments of apple pie, assorted nuts and coffee were served by the co-hostesses, Mrs. L. A. Bernauer and Mrs. Frank Yosten. Something special about the coffee is that it was the first made in the club's new urn, for which members had been saving Folger stars.

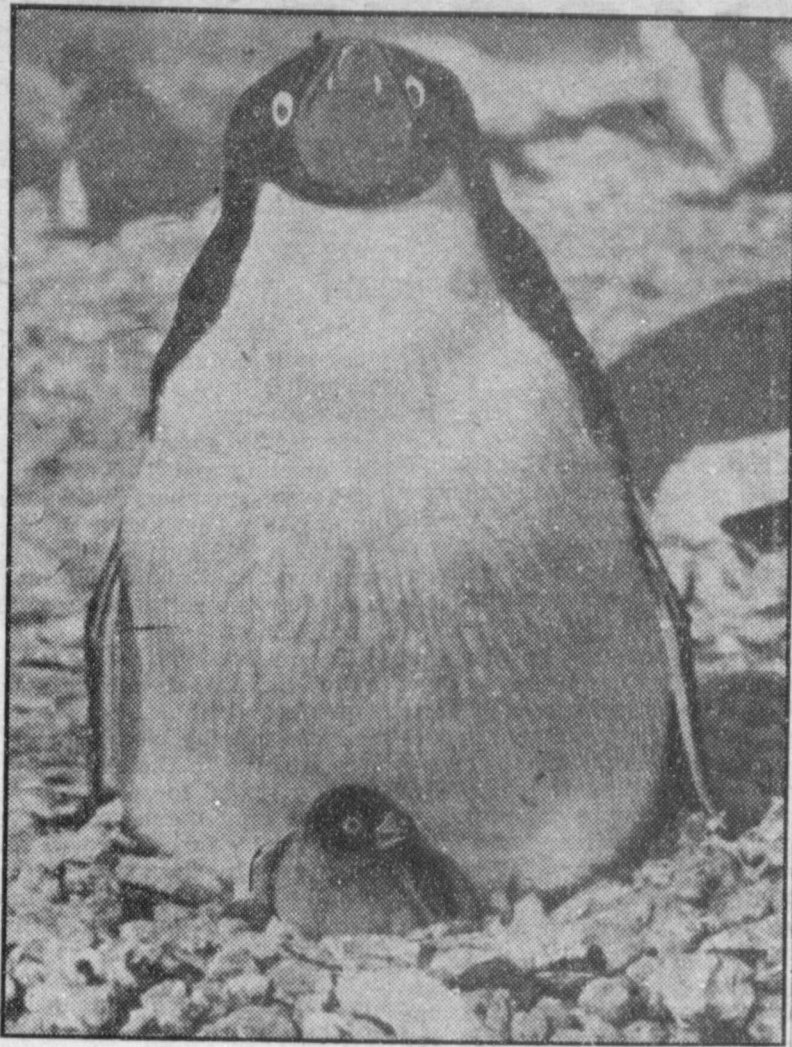

An unusual display at the meeting was a floating arrangement of camellias which Mrs. Joe Luke had brought back on her last trip to Shreveport.

CDA Ladies Assist In Sunday Service At Training School

A request to assist in conducting services for Catholics of the State School for Girls was heard by the local court of Catholic Daughters of America at its regular meeting Friday night.

Father Christopher Paladino, CDA chaplain, explained the need of having adult ladies present to lead the girls in prayer during the Mass.

First to respond to the request were Mmes. J. M. Weinzappel and Tony Gremminger. Along with Altar Boy Richard Herr they accompanied Father Chris-

SURPRISE—It's a toss-up as to whether this mother penguin is more surprised by the cameraman or the newly hatched chick. An Adelle penguin, she's one of some 10,000 formally garbed inhabitants of the rookery on Ross Island in the Antarctic's McMurdo sound. A Navy photographer with the expedition preparing United States bases for participation in the forthcoming International Geophysical Year snapped this rare picture. Penguin mamas lay but one egg a year each.

topher to the training school for his regular Sunday evening Mass.

The Catholic Daughters also decided to send a delegate to the order's biennial state convention to be held April 12-15 at the Gunter Hotel in San Antonio. She will be Mrs. Herman Fette, grand regent.

Local News BRIEFS

Miss Georgia Ann Hartman of Dallas and her brother, Willard, of Denton were back home last weekend for a visit with the family.

Mr. and Mrs. J. W. Fisher are spending most of this week on a rambling tour through the Big Bend country. They started Sunday by returning their son, Jimmy, to Texas Tech after his weekend visit at home.

The Pete Koelzers of Madill, Okla., returned to Muenster Sunday to see the class play presented by Sacred Heart Seniors and to visit with their daughter, Veronica, and their son Victor, and wife.

Mr. and Mrs. Tony Trubenbach Jr. left last Friday on a truck trip to Minneapolis, Minn. They will bring back a seed cleaner for Tony's recently established seed cleaning business.

Mr. and Mrs. Leo Henscheid and daughter, Carol, were in Lubbock during the past weekend as guests of their daughter and family, the Damian Hellmans.

Mrs. Keith Tompkins and children of Denton were here Monday visiting with the Victor Hartmans.

Misses Lynette Walterscheid and Patsy Morris spent the weekend in Abilene visiting Airmen Delbert and Wilmer Walterscheid.

Mmes. Ray Evans, Ray Stewart, L. J. Roberg and J. C. Trachta returned Monday from a weekend trip to Hot Springs, Ark. At Hot Springs they were guests of Mrs. Evans' sister, Mrs. Howard Couch.

Guests of the Lee Toothakers Sunday were their son, Wallis Lee, and wife and two sons of Fort Worth, and her sister, Mrs. Bob Holland, and husband of Grand Prairie.

August Sprengel, the Ben Knabes and the Gene Theisens, all of Pilot Point, were Sunday guests of Mr. and Mrs. Albert A. Knabe.

Juanita Wieler, Patsy Horn and Mary Pick, accompanied by Mrs. H. H. Homsley, attended a FHA area election of officers in Birdville last Thursday.

Mrs. Jimmy Lehnertz and children, Terry, Cheryl and Jimmy Joe were in Dallas Friday to Sunday as guests of her sister, Mrs. Joe Gehring, and family. Jimmy joined them Sunday and brought them home that evening.

A bus load of MHS students, accompanied by their science instructor, Mrs. Marie Mosman, will spend next Saturday attending a science day program at TSCW, Denton.

Mr. and Mrs. Stan Wylie and children of Sanger were here Sunday as guests of her parents, the Bill Kathmans.

Mr. and Mrs. Clarence Albers and son of Dallas spent last Sunday here as guests of her father, Fred Herr.

The Ferd Yostens of Fort Worth spent last Sunday here with his and her parents.

Mr. and Mrs. L. W. Flusche and two daughters of Decatur, accompanied by another daughter, Mrs. Joe Simeroth, her husband and three children of Carswell AFB, spent last Sunday visiting relatives here and in Lindsay. They were dinner guests of the L. A. Bernauers, visited with L. W.'s father, Joe Flusche Sr., and had supper with his sister, Mrs. Lawrence Zimmerer.

Surprise Birthday Dinner
Mrs. Earle Otto was the honoree Sunday at a surprise birthday dinner given by Mrs. John Hoffman in her home. Others attending were the honoree's husband and child, Elaine, Mr. and Mrs. Billy Mayer of Pilot Point and Mr. and Mrs. Allen Hoffman of Wichita Falls.

Track Team Fails To Score at Graham

Four members of the Muenster High track team got helpful experience but no more at the Possum Kingdom Relays in Graham last Saturday. Harris, running the mile, was the only one to make a showing for MHS, and he came in fifth with a time of 4:50. Winner of that event was Reeves of Weinert, who has won the mile run in the state meet three consecutive years. Thirty eight runners were entered in the event.

Other Muenster entries were Kaderli in the high jump, Richey in the 100 and 220 dashes, and Milner in the shot and discus.

The boys competed against athletes of both Class B and Class A schools.

'Tis said that gals need beauty more than brains because most men can see better than they can think!

VFW Auxiliary Has Election of Officers

Election of officers was the principal business at a regular meeting of the VFW Auxiliary Monday night. Formal installation is scheduled to take place at the April meeting.

Mrs. Richard Grewing was re-elected president. She is entering her second term. Others returned to office for another year are Mrs. L. J. Roberg, senior vice president; Mrs. Frank Felderhoff, chaplain; Mrs. Steve

Moster, treasurer. New officers are Mrs. Ray Evans, junior vice president; Mrs. Lou Wolf, conductress; Mrs. Earle Otto, three-year trustee; Mrs. J. B. Golden, guard.

Appointive offices filled immediately after the election include Mrs. Walter Rawley, secretary; Mmes. Maurice Pagel, Joe Tempel, M. H. King and John Huchton, color bearers; Mrs. David Trachta, patriotic instructor and Mrs. Dick Trachta, historian.

Honor roll requirements for the month were approved. These included contributions from treasury funds to the VFW's national monument in Washington, D.C., and to the VFW National Home's Health and Happiness Fund. Another donation, made individually by members, was for the Crusade for Freedom — Radio Free Europe. At the same time those contributing signed the Freedom Scroll.

Three visitors from Sherman were present for the session. They were Mrs. Dorothy Harmon, Auxiliary president from that city, and Duska Wade and Bertha Calhoun.

Mrs. Maurice Pagel was hostess during the social hour and served refreshments. Mrs. Richard Swirczynski won the attendance prize.

Henrietta Herron, Jim Collman Say Vows at Denison

Miss Henrietta Herron and Jim Collman exchanged marriage vows in a double ring ceremony Tuesday, March 6, in St. Patrick's church at Denison at 6:30 p.m. Rev. Henry Felderhoff officiated.

The bride is the daughter of Mr. and Mrs. H. L. Herron of Denison, formerly of Muenster and the groom is the son of Mr. and Mrs. Monroe Collman of Colbert, Okla.

For her wedding the bride wore a white Chantilly lace and net dress over satin. The lace bodice featured petal point sleeves and the wide gathered skirt of net was ornamented with a lace panel in the front and back and extended into a chapel train. Her veil of nylon net was attached to a crown of satin and net trimmed with seed pearls. She carried her flowers, white gladioli, on top of a white prayerbook which her four sisters carried at their weddings. She borrowed a blue silk handkerchief from her sister Mrs. Jerry Pels of Pilot Point and carried a crystal rosary belonging to another sister, Mrs. Byron Black of Dallas. Her father gave her in marriage.

Mrs. Pels was matron of hon-

or and Mrs. Black was bridesmatron. They wore bouffant ballerina length dresses of pink lace and net over taffeta with matching hats and carried bouquets of fuchsia carnations.

Don Markeet of Denison was best man and Byron Black was groomsman. Gene Gieb, Muenster, and Jerry Pels ushered.

For her daughter's wedding Mrs. Herron wore a copen blue nylon dress with black accessories and a corsage of yellow rose buds. The groom's mother wore a light grey ensemble with black and white accessories and a yellow rosebud corsage.

Dinner In K of C Hall

After the service, a dinner was held in the K of C Hall for 120 guests. Mrs. Bernard Gieb of Lindsay, sister of the bride, and Mrs. Fay Killingsworth of Denison served the wedding cake. Mmes. Gene Gieb, Muenster, and Elby Turner, Dallas, sisters of the couple, registered the guests.

Following the dinner, Mr. and Mrs. Collman left on a wedding trip not revealing their destination. For traveling she wore a pink and navy faille dress with bolero and pink accessories. When they return they will make their home in Colbert where he is employed. He was graduated from Colbert High school.

The bride was born in Muenster and attended Sacred Heart grade school, St. Xavier's Academy in Denison and is a junior in Denison Senior High School.

Out Of Town Guests

Among out of town guests at the wedding were Mrs. Kate Reynolds, Mr. and Mrs. Bob Knabe and daughter Ethel, Mr. and Mrs. Wilfred Sicking and children, Mr. and Mrs. Gene Gieb and children, Mr. and Mrs. J. C. Trachta, Mr. and Mrs. Charlie Hellman, Mrs. Herman Fette, Miss Dolores Reiter, and Freddie Hennigan, all of Muenster, Mr. and Mrs. Bernard Gieb and family of Lindsay, Mr. and Mrs. Jerry Pels of Pilot Point, Mr. and Mrs. Byron Black of Dallas, Mr. and Mrs. Monroe Collman and Mr. and Mrs. Joe Collman of Colbert.

The Stan Yostens of Fort Worth was here Sunday as guests of his and her families.

A report from Pilot Point reveals that Andy Flusche has given up the grinding-mixing department of his feed business after 17 years of operation. From now on he is dealing only in commercial feeds. He sold the grinding and mixing equipment to Frank Barthold, formerly of Valley View.

Charles Reiter of Kerrville stopped over for a short visit in the old home town Monday while enroute to Oklahoma on business. He was the guest of Mr. and Mrs. L. A. Bernauer.

Teddy Gremminger spent a few interesting hours last Wednesday on a tour through the Armour Company plant at Fort Worth. He had accompanied his mother, Mrs. Ted Gremminger to Cowtown and spent his time seeing the packing plant while she made business calls.

 EDUCATION PROGRAM
 Searcy, Arkansas

THE OVERPOWERING FACT

The one overpowering fact that today demands the urgent attention of the free people of the world is this: If Communism continues to expand its control at its present rate of growth, all the world's two-and-a-quarter billion people will be at the mercy of a Red dictatorship within 10 years. This should be a shattering fact to Americans. But the tragedy is that only a comparatively few will accept it as fact. It is too unpleasant to think about. And yet it is a fact indisputable as night and day.

The rise of Communism to power in Greece and the showing of its dominant power in France within recent weeks should ring a bell in the mind of every free person in the world — a bell crying out a terrible danger. No wonder the Red bosses — Bulganin, Khrushchev, Molotov and Mikoyan — daily try new methods to lull the free nations into a still deeper sleep . . . such as speeches questioning

the actions of the dead Stalin who served the brutal conspiracy so well.

Growing Constantly

Every intelligent, serious student of Communism knows that the Red plan for taking over the world is proceeding with astounding speed. If they can just keep things moving as they have moved in the last 10 years — and cultivate the apathy of the dwindling nations of free people — their goal will be achieved. This is the plain fact. It is written in the record for every human being to see.

Ten years ago the international Communist conspiracy which has its headquarters in Moscow's Kremlin had absolute control over 190 million people — and that's all. The Reds had not taken over Poland. They hadn't engineered their coup in Czechoslovakia. They did not hold Manchuria. Stalin and his henchmen were shaking hands and smiling graciously with Chiang KaiShek (then a member of "The Big Five") and China's nearly 500 million people were free. The Reds had not seized Hungary, or Bulgaria, or Rumania. And the Communist Fifth Column throughout the world had not begun to be recognized as a menace by Western political leaders. The free world, including the U.S.A., was accepting the Soviet Union as a good neighbor — one of the family in the newly organized United Nations.

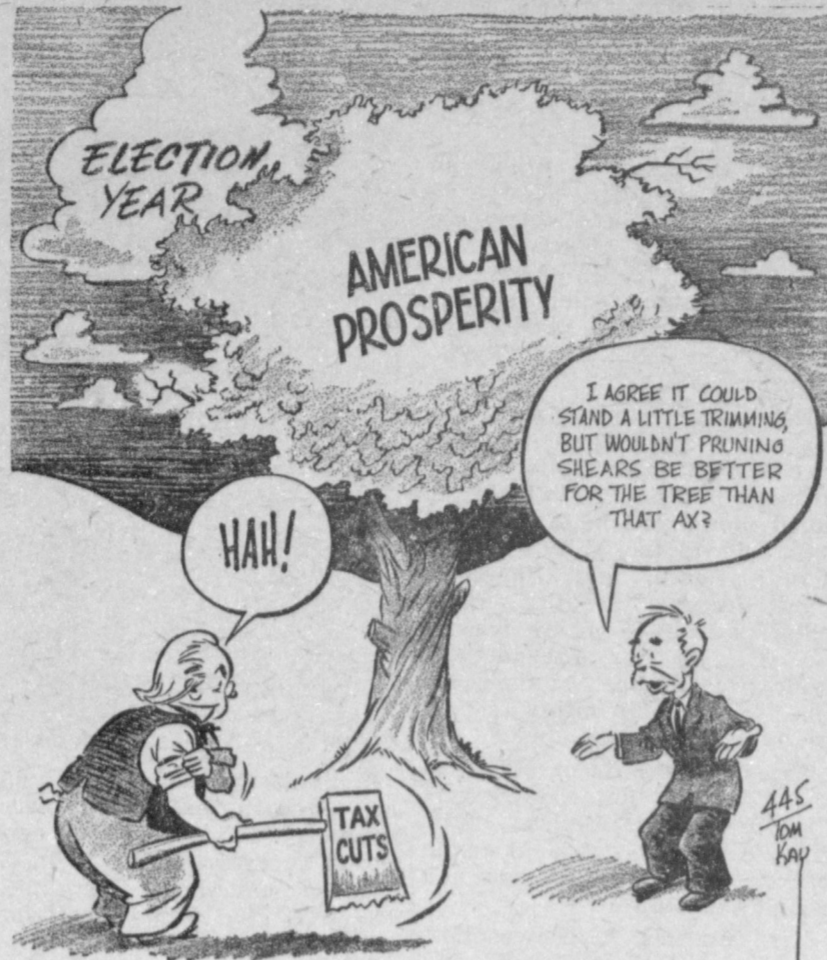

In 10 Years

In the 10 years since World War II ended (Sept. 2, 1945) and the U. S. and Communist Russia sat down together in the U. N. (Oct. 24, 1945), Communism has closed the Iron Curtain around 900 million people. Poland has gone . . . Manchuria . . . Hungary . . . Bulgaria . . . Albania . . . Rumania . . . China with its vast resources and nearly a half-billion people . . . Czechoslovakia . . . Tibet . . . half of Germany . . . North Korea (and 20,000 American lives) . . . the Baltic States, etc. In total, the free world has given up 693 million people and six million square miles of territory in 23 countries! In addition, the Red International Fifth Column, belatedly scrutinized by the U.S. Congress, today has more than five million conspirators in the nations outside the Curtain, working for their downfall. In some of these the Communists have already become the dominant power.

In France, where for too long the infiltrating Communists were not taken seriously, the Reds now hold the dominant political and governmental power. Whoever serves as Premier of France does so by permission of the Communists. In Greece, the Reds have been amazingly successful; working quietly they have now become a threatening political power. In Italy, the Communists are in such strategic positions (with nearly two million Party voters) they can probably take over when they choose to concentrate on that nation.

Closing In

Dictator Tito in Communist Yugoslavia has made his peace with the Kremlin bosses. The Arab countries have opened themselves to heavy infiltration. Socialist Israel has heavy Red concentration in its dominating

Votes at Any Cost

Left Wing parties. Objective observers who have been in India say the Communists are strong enough to sabotage any effort that nation might put up if invaded. England, with her vital strength weakened under Socialism, could be brought to her knees internally by Communist controlled labor unions.

When we go further and closely examine the inroads made by the Communists in Central and

South America, and note the rising political voice of the Canadian Reds, we begin to get the whole shocking picture of Communist expansion. The fact then is apparent: If the Reds' rate of growth continues for another 10 years, America — and America alone — might possibly still be free. But it would be a tiny speck overshadowed by the most monstrous force in world history.

Practice Your Faith!

By Rev. John A. O'Brien, University of Notre Dame

THE VAST MAJORITY of the American people believe in God and in His Son, Jesus Christ. But too many of us forget that we can kill faith by failing to practice it.

We often hear people say, "Oh yes, I believe in God all right, but I don't feel much need of going to church. I don't need any organized religion. Besides, we are so small compared to God. What can He want with our prayers and devotions?"

BUT GOD DOES want our worship and love. It is as simple as that. God is our Father. As Jesus told us, we mean so much to God that He counts the very hairs of our head. Have you ever seen a father who didn't want the love of His children and didn't want them to show it?

Suppose a father comes home after a hard day's work at the plant or office. His three little children are standing inside the door as he comes in. He holds out his arms for them to come to him, but instead they turn and run away. Suppose they do the same thing day after day, week after week. I think I know what you would want to do to those children, ungrateful and cruel as they would be.

NOW, YOU MAY not like to

think of yourselves as children. But nevertheless, you owe God for everything you have. Just as any father seeks the love of his children, so God wants our love and homage. And we depend on Him more than any children ever depended on their hard-working fathers.

But how do we worship God? It must be through prayer and external worship, because these things come naturally to us — and God made us the way we are!

GOD GAVE us a body and a soul; He wants us to use both in giving Him worship. He wants unspoken thoughts of praise and adoration to rise up within us. He wants us to shut ourselves off from men at times and think of nothing but Him and our dependence on Him.

But God also wants us to gather together in public to pray, to open our mouths — the mouths He gave us — and use them to praise Him in word and song. He wants us to use the materials of His creation, which He has put at our command, to give Him honor.

SO OFTEN we hear people say, "I don't need religion. I'll worship God in my own way." They may mean what they say, but I wonder how often they follow up their boast. Too often I think, they forget God and the honor due Him, and really kill their faith by failing to practice it. And remember, no father likes to be forgotten!

From where I sit . . . by Joe Marsh

Information "On The Line"

I was reading the other day how a person can get all sorts of things just by dialing a number on his telephone.

In New York you can get the time, the weather, or a prayer. In Philadelphia it's the stock reports. In Boston a voice tells bird watchers what's to be watched in the park.

Over in Europe, they go further. Vienna offers a five-minute fairy tale for kids. In Switzerland you can get the news in any of three languages. And a couple of places have "talking menus" for desperate housewives.

From where I sit, it doesn't matter if ideas are put out by telephone, through editorials, or in person — as long as we can take them or leave them. I happen to like a glass of beer with my supper. You may prefer coffee, tea or branch water. Well, there's no harm in "listening" to another's opinions . . . but if he should try to force them on you, it's always an American's privilege to simply "hang up!"

SCS and Army Men See New Machines Seed-Mulch Dam

The flood prevention dam on the east side of the Grant ranch between Muenster and Saint Jo was seeded and mulched in a demonstration Friday, March 2.

Seeding and mulching of the earthen dam was done by machinery developed and manufactured by the Finn Manufacturing company of Cincinnati, Ohio.

About 30 engineers from the Soil Conservation Service and the Army were on hand to see the machines in operation. The Soil Conservation Service seeds or sods grasses on all earthen dams it builds in the district-sponsored upstream flood prevention program.

Machines used in the seeding-

mulching operation were a clod buster that cultivated the steep slopes of the dam and spillway, a machine that chopped up seed hay, mixed it with fertilizer and asphalt and blew it on the steep slopes, and a hydro-jet seeder that used water pressure to spray seed and fertilizer onto the slopes. Machinery was operated from the top of the dam or along the bottom of slopes.

In the day's demonstration the dam was covered with a thick protective layer of chopped King Ranch Bluestem seed hay. The cover of the mulch runs about three tons of hay to the acre. The thick mulch contains grass seed and is held on the slopes by a thin spray of asphalt. The hay mulch will stop soil erosion on the slopes until a growth of grass is established to take over the job of protecting the dams from erosion.

INCOME TAX FACTS No. 4 Exemptions Cut Your Tax Bill

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Accountants and the Texas Society of Certified Public Accountants.)

This year's redesigned tax forms make it easy for you to indicate the personal exemptions to which you are entitled.

Every taxpayer is entitled to one exemption, which means a deduction of \$600. Those 65 or over have a double personal exemption, and blind persons of all ages have an extra exemption. These rules apply to both husband and wife on joint returns.

In addition, you are entitled to one exemption for each qualified dependent, but the extra exemptions for age and blindness cannot be taken for dependents.

Rules for Dependents

To qualify for an exemption a dependent must:

1. Have received more than half his support from you, unless you file a Multiple Support Agreement (see below). In figuring support, scholarships received by your child do not count.
2. Have less than \$600 gross income unless he is your child and under 19 or a student.
3. Not file a joint return.
4. Have been either a member of your household or closely related to you, as defined in the official instructions. Although cousins are not usually "close relatives" for tax purposes, a cousin receiving institutional care for a mental or physical disability who lived with you before going to the institution would qualify.
5. Have been either a citizen of the United States or a resident of the United States, Canada, Mexico, Panama, the Canal Zone or, in some cases, a serviceman's child living in the Philippines.

Your exemptions usually depend on whether you and your dependents qualify under these rules at the end of the year. However, if your husband or wife died during the year you may file a joint return and take the same exemptions that both of you would have otherwise had. Similarly, if a dependent died during the year, the rules are

applied as of the time of his death.

Multiple Support Agreement

If you shared with others in the support of a dependent, but none of you provided more than half, you may still be able to arrange among you for one of the group to have the \$600 exemption. You might agree, for example, to take turns in having the exemption from year to year.

The one who claims the exemption must have contributed more than 10% of the support, and he must have been a member of a group who altogether provided more than half the support. Each member of this group must have been entitled to claim the dependent except for the requirement of providing more than half the support.

In order for one of the group to have the exemption all other members of the group who contributed over 10% must sign declarations that they will not claim the dependent. The Internal Revenue Service provides Form 2120 (Multiple Support Agreement) for this purpose.

Be sure to claim all the exemptions you properly can, because each one reduces your taxable income by \$600.

If you are supporting dependents, but are not able to file a joint return, you may qualify as the "head of a household" and be entitled to use a special schedule of tax rates that give you half the benefits of income splitting.

The instructions that come with your tax forms give further information. Help is also available from the Internal Revenue Service, which urges you to consult a properly qualified advisor if you need outside assistance.

Next article: Tax Benefits Ease Pain of Sickness.

letter of regret from H. L. Schmitz of Sanger explaining that he would not be able to show his world-travel pictures at the meeting. He is away on another trip now but will show his pictures at a later meeting.

March 20 was set as a club work day to repair the community building, with refreshments scheduled for 4 o'clock.

A report on the Bulcher post of the Ground Observer Corps was given by C. V. Crabtree. He urged the group to take an interest in GOC in order to be available to help in case of a national emergency.

The social part of the meeting consisted of a picnic supper and a spelling bee.

Committeemen appointed by the new chairman are: Recreation, F. M. Webb, R. H. Sharp and Calip Cannon. Finance, E. Newby, C. V. Crabtree and R. V. Daffern. Roads, Mrs. J. M. Shields, Mrs. C. V. Crabtree and E. Newby. Mrs. Calip Cannon and Mrs. C. V. Crabtree will be in charge of refreshments for the April meeting.

BULCHER HD CLUB MEETS

Talks by two of its members featured a special meeting of the Bulcher Home Demonstration Club in the Community building last Friday afternoon.

Mrs. C. V. Crabtree talked on mental illness, its causes and cures, and Mrs. P. L. Tracey discussed jury service by women.

Mrs. Tracy also gave a report on a recent council meeting explaining a training meeting to be held soon at TSCW in Denton. Four women from the county can attend and each club is invited to submit its nominees for county delegates.

Mrs. Bill Harrell presided at the meeting and Mrs. E. L. Robison gave a financial report. Refreshments were served by Mrs. R. V. Daffern, hostess for the meeting.

The next meeting was set for March 15 in the home of Mrs. August Hyman.

An American is a person who isn't afraid to criticize the President, but is always polite to a policeman.

YOU GET SAFE, FAST COOLING

and

No Frozen Milk

with a

DARI-KOOL

BULK MILK COOLER

The Cooler That Leads Them All!

ELIMINATES MILK CANS AND CAN HANDLING

In a variety of sizes from 100- to 700-gallon capacities.

- Cuts Work and Handling Costs
- Improves Milk Quality—

DARI-KOOL MEETS ALL 3-A SANITARY STANDARDS

- ... Cools Faster
- ... Easier Cleaning
- ... Ready to Operate
- ... Complete Service Available
- ... Milk Cannot Freeze
- ... Stainless Steel Tank
- ... Lower Bacteria Count

The DARI-KOOL will pay for itself in use.

HERE'S HOW...

The cost of hauling milk in cans is 40 cents per 100 pounds as compared with 25 cents per 100 pounds for hauling tank milk, thus a saving of 15 cents per hundred.

Elimination of wastage of milk spilled or left in the can at the plant is 7 cents per 100 pounds.

Improved butterfat test gained by selling all the cream instead of leaving some of it sticking to the can and lid account for another 6 cents per hundred.

THIS GIVES A TOTAL SAVING OF 28 CENTS FOR EACH 100 POUNDS OF MILK HANDLED. THIS 28-CENT A HUNDRED SAVING WILL PAY FOR YOUR DARI-KOOL.

A producer with an average of 10 cans of milk (86 pounds each) a day will sell 25,800 pounds per month. At 28 cents per hundred saving, he will be ahead by \$72.24 each month.

The approximate cost of a 250-gallon tank installed is \$2,400 with interest of \$216 for a total of \$2,616. This can be divided into 36 monthly installments of \$72.11 each. **THUS YOUR SAVINGS MAKE YOUR PAYMENTS FOR YOU.** This estimate is without down payment or trade-in, which would cut the principal and monthly payment substantially.

Bulcher News

By Mrs. R. J. Samples

BULCHER, March 12 — Mrs. E. Newby accompanied by her daughter Mrs. Carl Rowe of Denton, drove to Texas City Friday to visit her other daughter, Mrs. B. R. Dennis and family.

Robert J. Samples Jr. has been named an honor student at NTSC in Denton. He has been pledged to the Delta Sigma Pi, honorary business fraternity, and has been promoted to Wing Staff of the Air Force ROTC as assistant operations officer. Saturday he accompanied the NTSC drill team as officer chaperone to an area meeting at A&M College.

Guests in the home of Mrs. E. L. Robisons Thursday were two of her aunts, Mrs. W. L. Parish of Fort Worth and Mrs. Ada Moser of Chico, her mother, Mrs. Annie Higgins, two sisters, Mrs. T. L. Whitt and Mrs. T. S. Bridges of Marysville and her daughter and family, the Bob Huchinsons of Gainesville.

Mr. and Mrs. R. J. Samples and Belva visited in the home of the Ike Walkers in Gainesville Saturday evening.

Spring seems to have vanished from the air in this community as a cold blast of winter wind rolled in and greeted us early Monday morning with thunder, lightning and sleet. Fruit trees are in full bloom, wild plums and Red buds were beautiful with full bloom on roadsides.

Jo Ella Prather was absent from school several days last week with an ear infection.

Mr. and Mrs. R. H. Sharp had their son, Jack Sharp of Bartlesville, Okla., as guest over the weekend. He came to Texas on business, leaving Sunday for Lubbock.

Mrs. H. J. Terry Jr. and two sons, Mike and Keith of Seminole, Okla., spent several days here visiting her parents the Gid Prathers while her husband was away on a business trip. She also visited his parents, Mr. and Mrs. H. J. Terrys Sr. of Caps Corner.

Mrs. Bill Harrell and Mrs. Paul Tracy were in Gainesville Tuesday to attend the HD Council meeting.

Mr. and Mrs. Bailey Dennis visited their son Wayne Dennis and family at Nocona Sunday.

Mr. and Mrs. R. J. Samples and Belva visited in the home of the Charlie Parsons in Gainesville Saturday night.

Mr. and Mrs. E.L. Robison were Gainesville visitors Saturday afternoon.

The C. V. Crabtrees were Ardmore, Okla. visitors recently.

TRACY IS CHAIRMAN OF BULCHER PROGRESS CLUB

Members of the Bulcher Progress Club at their bi-monthly meeting Thursday night elected Paul L. Tracy as chairman and R. J. Samples as vice-chairman for the coming year. Others elected were Mrs. R. H. Sharp, secretary, and Mrs. R. J. Samples, reporter.

E. Newby presided at the meeting and Mrs. R. H. Sharp, secretary, read minutes of the previous meeting and gave a financial report. She also read a

Marysville News

By Mrs. Herman Richey

MARYSVILLE, March 12 — Guests in the home of Mr. and Mrs. J. M. Shiflet over the weekend were their children and families Mr. and Mrs. Reagan Shiflet and son Larry Gene, Mr. and Mrs. Robert Pourth and daughter Sandra and Mrs. Ed Mathews and son Gary all of Dallas.

Newton F. Stogner

Furniture Upholstering and Repair Shop
Public Square, Saint Jo

Mrs. Queenie Bone of Gainesville and Lucian Bone of Dallas spent Tuesday with Mr. and Mrs. B. G. Lyons.

Mr. and Mrs. John L. Barlow and family of San Antonio spent Friday night with Mr. and Mrs. Bill Moon. Saturday the Barlows and the Moons were accompanied by Mr. and Mrs. Everett Sanford of Gainesville and Mr. and Mrs. Max Harrell of Sherman to Lake Texoma where they all enjoyed a picnic.

Mr. and Mrs. R. A. Sapp of Gainesville and son Bob, who has just returned from overseas, visited Mr. and Mrs. B. G. Lyons Saturday.

Mr. and Mrs. Charlie Winchester and family of Grand Prairie spent the weekend with his mother and sister Mrs. Nellie Kelly and Mr. and Mrs. Lloyd Barnhart.

Mr. and Mrs. Douglas Robison of Graham spent the weekend with Mr. and Mrs. Earl Robison and son Jimmy Don. Jimmy Don returned home from the hospital Saturday and is reported improving.

Mr. and Mrs. Jack Cook and children Leroy and Jaqueline of Boyd and John M. Duffy of Fort Worth spent Saturday with Mr. and Mrs. Jess Davidson.

The Marysville WMU observed the Annie Armstrong week of Prayer Thursday. Subject for the week, "Lord Teach Us to Pray." Mrs. Rafe McElreath presided at the meeting. Mrs. J. T. Cole had charge of the program on "Pray — Morning, Noon and Night" taken from Psalms 55:17. Annie Armstrong offering netted \$5.90. Five members were present.

Guests of Mrs. Ada Walker and the J. D. Walkers Sunday night were Rev. and Mrs. Paul Patterson and baby, Mrs. Albert Fleitman and the Leonard Luttmer family.

78th Birthday

Jess Davison was honored with a birthday dinner on his 78th birthday Sunday. Those attending were Mr. and Mrs. E. W. Young and daughter Mary Ann of Hereford, Mr. and Mrs. Virgil Young and children of Fort Worth, and Mr. and Mrs. Owen Almon and son Marcus and Mr. and Mrs. Jerry Murphy of Gainesville.

Marysville HD Club Meets

The Marysville HD Club met Friday at the home of Mrs. Bill Moon. Mrs. Rafe McElreath, president was in charge of the meeting. The club prayer was repeated in unison. The HD Creed was read by Mrs. H. M. Doughty. Mrs. Sam Sparkman gave the council report. Mrs. Bill Moon had charge of the program on "Women's Role in Civil Defense." The hostess served refreshments to six members and two children. Sunshine gifts were exchanged. Mrs. Lawton Moon will be hostess on March 23.

In 1954, Diesel locomotives in service on American railroads saved the railroads more than \$662,000,000 in reduced fuel and maintenance costs alone compared with what such costs would have been with 100 per cent steam operation, according to the Electro-Motive Division of General Motors.

MARYSVILLE PROGRESS CLUB ELECTS OFFICERS

A program by Jimmy Harris and his dance band from the Muester public school and an election of officers featured the last meeting of the Marysville Progress Club.

The entertainment, accompanied by refreshments of doughnuts and coffee to about 30 people opened the meeting, after which Vice-President Joe Wyatt presided at the election of officers for the coming year.

Those elected were Joe Wyatt, president, Nig Wilson, vice-president; Mrs. Earl Robison, secretary-treasurer; Earl Robison and Mrs. John Richey, program co-chairmen; Mrs. John Richey, reporter; Mrs. Nig Wilson, refreshment chairman; Donald Wilson and Deanna Richey, junior presidents; and Hubert Richey, junior vice-president. The new officers will assume their duties at the next meeting.

Mrs. Earl Robison led in the closing prayer.

Muester

Keeps the weather outside!

HOW DO YOU LIKE YOUR HEATING BILLS?

Rough, this winter, aren't they? Especially if you don't have insulation. This is one of the years when fuel savings go a long way toward paying for the extra comfort that insulation brings you . . . that is, winter and summer comfort.

Better hurry with your installation. You may still have use for it this winter.

Community Lumber Company

Rody Klément Muester Jerome Pagel

You can do something about Washday weather..

it's ALWAYS sunny in an **ELECTRIC CLOTHES DRYER!**

Imagine having perfect weather with the flick of a switch! That's just what you have, 24 hours a day, with an automatic electric clothes dryer. Clothes will come out soft, fluffy, and smelling sunshine fresh. An electric dryer saves sprinkling, cuts ironing time, saves you work. Talk with your husband about a dryer. Mention it tonight. Then go shopping tomorrow for an electric dryer.

M-m-m-m-m-m they SMELL so FRESH!

TEXAS POWER & LIGHT COMPANY

be modern wash and dry your clothes electrically!

TORNADO SAFETY RULES

TO KNOW WHAT TO DO WHEN A WARNING IS RECEIVED, OR A TORNADO IS OBSERVED, MAY MEAN THE DIFFERENCE BETWEEN LIFE AND DEATH!!

- I** There is no universal protection against tornadoes except caves or underground excavations. When time permits, go to a tornado cellar, cave, or underground excavation which should have an air outlet to help equalize the air pressure. It should be kept fit for use, free from water, gas, or debris; and preferably equipped with pick and shovel.
- II If you are in open country :**
 1. Move at right angles to the tornado's path. Tornadoes usually move ahead at about 25 to 40 miles per hour.
 2. If there is no time to escape, lie flat in the nearest depression such as a ditch or ravine.
- III If in a city or town :**
 1. Seek inside shelter, preferably in a strongly reinforced building. STAY AWAY FROM WINDOWS!
 2. In homes: The southwest corner of the basement usually offers greatest safety, particularly in frame houses. People in houses without basements should find other shelter, preferably in a storm cellar, although a depression, such as a ditch or ravine, can offer some protection. If time permits, electricity and fuel lines should be shut off. Doors and windows on the north and east sides of the house may be opened to help reduce damage to the building.
 3. Standing against the inside wall on a lower floor of an office building offers some protection.
- IV If in schools :**
 1. In city areas: If school building is of strongly reinforced construction, stay inside, away from windows, remain near an inside wall on the lower floors when possible. AVOID AUDITORIUMS AND GYMNASIUMS with large, poorly-supported roofs!
 2. In rural schools that do not have strongly reinforced construction, remove children and teachers to a ravine or ditch if storm shelter is not available.
- V If in factories and industrial plants :**

On receiving a tornado warning, a lookout should be posted to keep safety officials advised of the tornado's approach. Advance preparation should be made for shutting off electrical circuits and fuel lines if the tornado approaches the plant. Workers should be moved to sections of the plant offering the greatest protection.
- VI** Keep calm! It will not help to get excited. People have been killed by running out into streets and by turning back into the path of a tornado. Even though a warning is issued, chances of a tornado striking one's home or location are very slight. Tornadoes cover such a small zone, as a rule, that relatively only a few places in a warned area are directly affected. You should know about tornadoes though, "just in case".
- VII** Keep tuned to your radio or television station for latest tornado advisory information. Do not call the Weather Bureau, except to report a tornado, as your individual request may tie up telephone lines urgently needed to receive special reports or to relay advisories to radio and television stations for dissemination to thousands in the critical area.

UNITED STATES DEPARTMENT OF COMMERCE — Weather Bureau

BUILDING MATERIALS

We will furnish everything to build anything. Besides, we'll help you with your location and planning.

C. D. Shamburger Lumber Co.
Dick Trachta Muenster

Soil Conservation Notes

Grass seed, Bermuda grass roots and soil-building legume crops are going in the ground as cooperators of the Upper Elm-Red Soil Conservation District in the Muenster-Saint Jo area rush to catch up on their spring work.

B. C. (Ted) Redman of Saint Jo has made the largest planting of Indian grass ever made in this area. He has just finished seeding 20 acres of formerly cultivated land to this grass. It is one of the native tall grasses, is a heavy forage producer and will make more than three tons

of hay per acre. It is well liked by cattle and seed is easily combined. Indian grass spreads by seed and by underground sprouts. It is found in all the better-managed pastures in mixtures with other native grasses. Redman plans to use the grass for pasture and meadow after it is well established.

J. W. Fleitman has just completed planting Indian grass on a five-acre waterway strip on his farm east of Muenster. The strip will be used as a meadow and for a terrace outlet. The waterway will make terrace construction possible on two adjoining sloping fields.

The list of landowners planting the fast-growing Coastal Bermuda grass is getting longer as new names are added. Adrian Parker and N. L. Flusche of

Saint Jo are making plantings of Coastal. They hope to develop good stands of grass so that they can dig their own roots to increase plantings of this grass next year. Frank Bayer of Muenster is also planting a plot of Coastal on his farm east of the city.

J. H. Bayer has finished planting about 10 acres of waterway and pasture land to common Bermuda and Adolph Walterscheid has sodded a waterway area to Bermuda. These waterway strips will be used as safe places to empty terrace water when they are established to grass and will make it possible to terrace sloping cultivated land.

Grass seed drills, combination grain-fertilizer drills, and the grass root planter owned by the Upper Elm-Red Soil Conservation District are being used by landowners cooperating with the district program to seed grasses and legumes.

"Have you heard anyone question my honesty?"
"To tell the truth, I've never even heard them mention it."

Homemaking Hints

by Mrs. H. H. Homsley

To revive left-overs such as rolls and gingerbread, place in a double boiler, cover and bring water to a boil. Remove from heat and let stand for a few minutes.

Peel onions under running water to prevent eyes from tearing.

Make your own belt hanger. Metal cup hooks screwed to under part of a wooden hanger serve as a neat way to keep belts within easy reach.

When wooden knitting needles or crochet hooks become roughened with wear, apply a coat of clear nail polish.

How many colors in your dress? Not too many! "Three colors at once," is a good rule. If you have a print with three or four colors in it, that's enough! Keep your accessories in tune with the most neutral of those colors. For example, you might accent the floral-print date dress of navy, pink, and yellow print with navy shoes and bag, pink gloves. If your dress is a solid color, accent it with a contrasting dash. A solid pink stem dress would go beautifully with dark green or bright red shoes and white gloves. But don't try to use dark green shoes and dark green gloves. If your dress is dark, light accessories will attract the eye; if your dress is light, the reverse holds true.

Very new is the "monotone look" — one color from head to toe — and particularly good if you're short or a bit on the heavy side. Choose a neutral color for this — pale beige, soft gray — and carry from your hat to your shoes. Very important: Make sure your colors match or are the same tone, otherwise the effect becomes too obvious.

Tender, flaky, hot biscuits are so good with sweet centers. Just press each biscuit with your thumb to make a little well. Brush tops with milk and fill wells with brown sugar. Bake as usual. They come from the oven golden brown with sweet centers.

Want frosting in a hurry? Just let a 9x13x1 1/2 inch cake cool in the pan for 5 minutes, then spread with 1/4 cup soft butter. Sprinkle with 1/2 cup brown sugar and 1/2 cup chopped pecans. Place under broiler with low heat until bubbly and lightly browned.

Mr. and Mrs. Wayne Mitchell moved Saturday from one of Joe Trachta's houses to the former Ralph Esker home, now owned by Roy Atteberry. Mitchell works for Case Brothers in Gainesville. Another move, in about two weeks, will be that of Mr. and Mrs. Henry Huchton who will live in Mrs. Katy Roberg's house, 313 E. Second, after a renovating job is completed. The place formerly was occupied by the George Swirczynskis. The Huchtons are presently living in Frank Yosten's house 234 E. Cross Street.

Self-restraint is the art of feeling your oats without sowing them.

Mr. and Mrs. J. M. Shields, accompanied by their young granddaughters Gloria and Donna Dickerman of Myra, were in Hearne for a weekend visit with Mr. Shields' mother who is in ill health.

Mr. and Mrs. E. Newby had as weekend guests their daughter-in-law, Mrs. J. W. Newby and children of Henrietta.

Mrs. Gid Prather and Jo Ella and Mrs. R. J. Samples and Belva attended the annual Sweetheart Banquet at Camp Letoli Saturday night. The affair honored young people of the First Baptist church of Saint Jo. Mrs. Prather and Mrs. Samples helped serve.

Marysville News

By Mrs. Herman Richey

MARYSVILLE, March 6 — Guests in the home of Mr. and Mrs. J. T. Cole during the weekend were their sons James of Dallas and Ralph of College Station. Also Kin Kurkendyl and Harold Weedman of College Station, the Paul Hickmans of Dallas and Mrs. Henrietta Young of Whitesboro.

Mr. and Mrs. Douglas Robison of Graham visited their parents during the weekend.

Mr. and Mrs. W. B. Whitt and children James and Linda, joined by Billy Whitt of Decatur, spent Sunday in Denton with Mrs. Attie Ballinger.

Mr. and Mrs. Herman Richey and children Hubert, Deanna and Linda spent Sunday with Mr. and Mrs. R. A. Sparkman at Valley View.

Marysville Home Demonstration club will meet Friday afternoon in the home of Mrs. Bill Moon. Sunshine gifts will be exchanged.

Virginia Kirk was the weekend guest of her sister, Mrs. David Cross and family at Era.

Mr. and Mrs. Max Harrell and daughter of Sherman visited Mr. and Mrs. Bill Moon Monday.

Mr. and Mrs. Coy Fite and son David of Ringgold spent Sunday visiting Mr. and Mrs. John Richey.

Little Becky Davidson is spending this week with her grandparents, Mr. and Mrs. Otto Seigmund, at Walnut Bend.

Mrs. John Richey, Mrs. Sam Sparkman and son Larry, Mrs. Melton Ramsey and son Ricky and V. M. Ramsey were Sherman visitors Wednesday.

Mrs. Clea Denton and daughter Beverly of Bowie spent Saturday and Sunday with Mr. and Mrs. B. G. Lyons.

Nine bald members of the Ohio House of Representatives urged an investigation of haircut prices, demanding a reduction "for those of us who through no fault of our own are endowed with that badge of experience and ability called baldness."

INCOME TAX FACTS No. 5
Tax Benefits Ease Pain of Sickness

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Accountants and the Texas Society of Certified Public Accountants.)

Nobody likes to be sick. But if there was sickness in your family during 1955, you may have some compensation tax-wise.

First there is the question of "sick pay." If you were absent from work due to injury or sickness and received payments from your employer (either sick benefits or regular pay) or his insurance company, these payments, within limits, are free of tax.

There are two limitations: First, the maximum amount is \$100 per week, plus any amounts which came from your own contributions to the plan.

Second, unless the absence was for sickness during which you were hospitalized at least one day, or for an injury, the payments are not tax free until after the first 7 calendar days of absence.

If these payments are included in the wages shown on your withholding slips, you should subtract the proper amount from your income in the place provided on the first page of the tax return (Form 1040). Attach an explanation as described in the instructions. You are entitled to exclude this amount even if you do not itemize your deductions.

Apart from sick pay, you may have received payments covering medical expenses for yourself and your dependents. Don't include these in your income, but don't deduct the medical expenses covered by these payments either.

Medical Deductions
If you itemize your deductions, you may be able to save tax money by listing medical and dental expenses you paid for yourself and your dependents.

This year you list your medical and dental expenses on a separate sheet, rather than on the form itself. Space is provided on the form for figuring the amount that is allowable as a deduction.

You are allowed a deduction for your medical expenses beyond 3% of your adjusted gross income. If you (or your husband or wife) were 65 or over at the end of the year, the 3% rule does not apply to your own medical expenses. It does apply to any medical expenses you pay for your dependents.

Your deduction is limited to a

maximum amount for the year, as explained in the instructions. Medicines and drugs may be included in your medical expenses only to the extent they exceed 1% of your gross income.

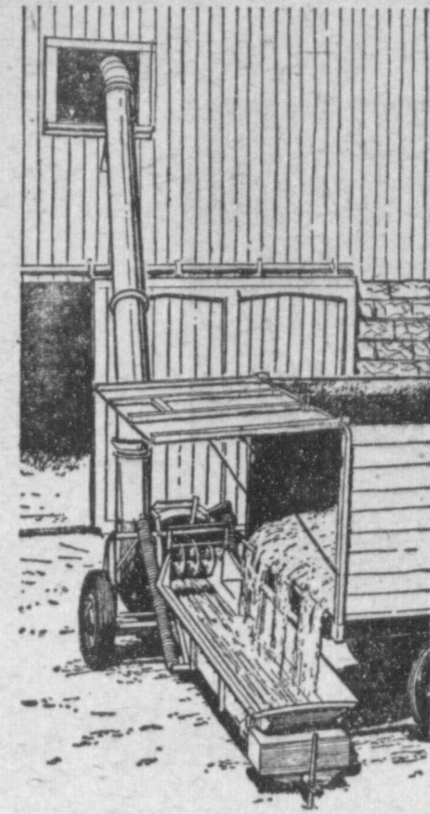

Among the items to include in your list of medical expenses are fees of doctors, dentists, hospitals and nurses. List premiums for Blue Cross and other health, accident or hospitalization insurance, but remember you cannot deduct medical expenses paid or reimbursed by insurance.

Widows and Widowers
There are several provisions of special interest to widows and widowers:

1. You may file a joint return with a husband or wife who died during the tax year if no separate return is filed.
2. If you have not remarried and have in your household a dependent child or stepchild, you are entitled for the next two years to use the same tax computation (with income-splitting) as you would have been entitled to on a joint return.
3. When life insurance proceeds are taken as an annuity or in installments, widows and widowers are allowed \$1,000 per year of tax-free payments in addition to the principal.
4. You may be entitled to retirement income credit if your deceased husband or wife would have qualified.
5. You may be entitled to a deduction for child care expenses.

The instructions that come with your tax forms give further information. Help is also available from the Internal Revenue Service, which urges you to consult a properly qualified advisor if you need outside assistance.

Next article: Deductions Reduce Your Income Tax.

DOUBLE DUTY OPERATION

blow grain — as well as forage

Allis-Chalmers big-capacity forage blower also handles grain just as efficiently. It can save you the cost of a grain elevator.

On this blower, a solid web, rubberized delivery belt plus curved, cupped blades that throw as well as blow put grain in the bin as easily as they put chopped forage or hay in the silo or barn.

Come in. We want to show you how you can blow grain too, as well as forage.

Knabe Herd Leads February Report of Cooke County DHIA John Knabe's herd led in both butterfat and milk production in the February report of the Cooke County Dairy Herd Improvement Association.

Released this week by Supervisors Carl Kemplin and Bob Fuhrmann, the report shows an average of 43 pounds of butterfat and 1,022 pounds of milk per cow for the Knabe herd.

Next high records for butterfat and milk production were divided. Richard Frasher's herd of Gainesville averaged 40 pounds of butterfat and Alfred Bayer's herd was third with 39. W. H. Frasher's herd was second in milk production with an average of 1,020 and Richard Frasher's was third with 1,010.

A grand average for all of the 24 herds tested in the month was 33 pounds of butterfat and 811 pounds of milk. Scattered among the herds were 154 champ cows with a production of 45 or more pounds of butterfat.

The report also included a summary of the state DHIA report for January. It shows Cooke as the state leader with a butterfat average of 34 pounds per cow and a milk production average of 820 pounds.

"PUT IT IN THE CIRCULAR FILE"—In this case, the phrase doesn't mean the wastebasket. It refers to the unit being inspected by engineer Bob Wilkins, above, in New York City. Heart of a million-dollar-plus data collecting system; its 2700 feet of magnetic tape can store and "remember" as much numerical information as can be recorded on some 500,000 punched cards, according to its manufacturers. Built in Newton Highlands, Mass., as many as 100 of the file units can be combined in one system. Electronic devices "search" the ribbons, 10 at a time. Operation is equivalent to processing four million punched cards in less than 10 minutes, it is said.

IT HAPPENED 15 YEARS AGO March 14, 1941

Vote favors consolidation of Hays-Wolf Ridge school districts. Muenster High wins county one-act play contest. Class of 25 will start Red Cross First Aid Class next week. Thomas Sicking and Ed Rohmer will be inducted into the army Monday. Sudden death takes six-year-old son of Mr. and Mrs. John Herr. Muenster retains a 20 per cent credit rating on fire insurance for 1941. Mrs. Felix Becker is elected president of St. Anne's Society. Rufus Henscheid, who broke his right arm recently, is getting along fine.

10 YEARS AGO March 15, 1946

Harvest prospects grow worse each week as community grain crops are subjected to green bug attack. Kaiser-Meurer get agency for Kaiser-Frazer. Mr. and Mrs. N. J. Mayer leave for their home in Chicago after a visit with her parents, the Frank Yostens, following Mayer's discharge from the army. Australian bride of Lt. Pat Stelzer arrives. Carra Pagel is making improvements in her store building. Mrs. Catherine Huchton buys Helpy-Sely laundry. Lt. Jane Hoehn of

California is visiting here on leave. Almost 80 per cent of Red Cross quota is reached here this week as total climbs to \$760.

5 YEARS AGO March 16, 1951

Match thrown into gasoline can starts \$12,000 fire at Wilde Garage. Red Cross drive to date nets \$309; goal of \$600 is in sight. Late cold wave is rough on crops. Paul Endres and Frank Schilling add names to school trustee ticket as candidates. Keith Tompkins joins air force and temporary agent takes over at MKT depot. Arthur Felderhoff is elected VFW commander. Gilbert Yosten has recovered from appendicitis surgery and is back in school. VFW Auxiliary elects Mrs. Maurice Pagel president. Herman Sandmann, wounded in Korea, is recovering in Japan. FHA girls entertain mothers at banquet.

A man usually buys something because he needs it. When a woman buys, however, she has a choice of eight reasons. She may use any or all of them.

- She may buy: Because he says she can't have it.
- Because it will make her look thin.
- Because it comes from Paris.
- Because the neighbors can't afford it.
- Because it's different.
- Because nobody has one.
- Because everybody has one.
- Because.

2 Lindsay 4-Hers Appear on Program

Melvin Kuhn and Mary Jane Block of the Lindsay 4-H club presented the program Thursday at the luncheon meeting of the Optimist club.

Miss Block told the Optimists how the 4-H club helps its members to become better farmers, homemakers and more useful citizens through training in leadership, cooperation and learning by doing.

Kuhn, who won first place in the state 4-H soil and water conservation demonstration contest last year, gave the demonstration for the club.

He explained that cover crops are needed to prevent soil erosion by wind and water. He told how legume and cover crops help preserve the land from damages from heavy rainfall and how moisture will penetrate faster and deeper where such crops are planted.

Local Entries Lag In Opening Events Of District Meet

Entries of the Münster public school have made a slow start in opening events of the district Interscholastic League meet which got under way at Era last Friday.

Up to noon Wednesday the elementary boys have pulled through the semifinals in both volley ball and play ground ball and will meet Valley View in both events for the district title. In volley ball they eliminated Saint Jo, then Callisburg. In play ground ball they beat Saint Jo and Era.

Another event in which the school is still competing is boys senior tennis. Harris beat Valley View two straight sets and will play next against the Callisburg-Alvord winner. Swirczynski and Corbin, in doubles, also defeated Valley View two straight and await a match with the Era-Callisburg winner. Should they win in these they still face the final for the district title.

In other events the local teams did not get along as well. High School boys lost their opening volley ball match to Saint Jo in a tight contest and the Panthers went on to take the title.

Both High School and Elementary volley ball girls also lost their openers to Saint Jo. Alvord was final winner in the high school division of that event.

Likewise the local kids bowed to Saint Jo in three tennis matches. Pat Cain lost the High School girls singles. Jimmy Cain and Clarence Hudspeth lost the Elementary boys doubles and Hudspeth lost the Elementary boys singles.

The district declamation contest will be held in Saint Jo Thursday night and the literary events will be held Friday, also in Saint Jo.

Guests of Mrs. Lena Schmitt last Sunday were Mr. and Mrs. George Rohleder of Fort Worth.

The Donald Beznars of Gainesville announce the arrival of a daughter, born at 3:22 p.m. at Gainesville Sanitarium. The little lady weighed in at 9 pounds 3 ounces. Proud grandparents are the Fred Beznars of Gainesville and Mrs. Ben Bengfort of Lindsay.

A mistake is at least proof that someone was trying to accomplish something.

HD Agent Conducts 4-H Sewing Class

Dressmaking was the subject for study at the meet of Münster 4-H Intermediate Class Wednesday afternoon.

The meeting opened with prayer and the 4-H pledge by President Theresa Fisher and a roll call and reading of minutes by Secretary Jeanette Klement.

Miss Yvonne Allen, assistant home demonstration agent, then took over the meeting and demonstrated the proper method of laying out a pattern and cutting a dress. She also gave advice on choosing a correctly fitting and practical pattern and stressed the importance of reading directions and fitting cloth to the pattern carefully.

To assist the girls in keeping a good record book on clothing Miss Allen distributed and explained special instruction slips on the project.

The meeting closed with a group song, "Dungaree Doll."

Farmer — "Have you ever been to the circus?"

Hired Man — "Nope."

Farmer — "Then take the afternoon off and go. You'll get a bang out of seeing those trained turtles zip around."

Confetti - - -

other such items even though the expense of producing them is charged along with other farm costs. In the long run this exemption on the cost of groceries probably amounts to more than the average stockholder gains by his slight reduction in tax rate on dividends.

It's quite proper to show some interest in the farmer's problems. All of us know he has headaches which are due for relief. But the approach taken in the Washington Newsletter is inexcusable. In fact, it's practically sabotage. Such disregard for facts and such biased presenta-

tion obviously is intended to intensify one kind of problem rather than solve another.

People who are worried about the state's water shortage will be looking with keen interest to San Antonio in mid-April when a group of men will meet with an Australian scientist to consider his method of preventing

evaporation by spreading a thin film of chemical over a lake.

The method is reported to reduce evaporation 45 per cent, and to be harmless to fish, animals and plants.

If that system works out it may prove to be the greatest development ever brought to Texas. Experts estimate that the state

loses almost as much water by evaporation as it actually uses. Naturally the percentage of loss would be lower in reservoirs that meet a heavy urban demand, but it is still apparent that losses even there are tremendous. To cut such losses almost in half could improve the economic picture in many a distressed city.
