NUMBER 19

City Shut-Down From 2 to 5 Urged For Good Friday

It's too early to cheer, but perhaps not too early to entertain a hope that the beginning of the end of communism has arrived. The mysterious behavior of red big shots lately in denouncing Stalin for practically all that is evil and miserable behind the iron curtain seems to one former Soviet intelligence agent as an indication that a revolution is already in progress.

So far this thing has not reached the blood-letting stage, however, the man claims, there are definite signs of disintegration in the Soviet political and economic structure. People have adopted the attitude of passive resistance, which becomes inevitable once the masses become convinced that cooperation with the ruling group will only prolong their misery.

At the same time the red bosses have a gigantic problem. They cannot exalt themselves convincingly after deflating the person they publicly idolized before. They cannot resort to rough treatment after condemning Stalin for it. They cannot get willing help from people whose hatred has been built up by official mistreatment and starvation. They cannot rely on millions of their nominally loyal subjects in case of a show down. They are leading from panic as they make their recent desperate effort to convince the millions that one man rather than an ugly and wicked system is responsible for their wretchedness. The result, as the former red official sees it, is a gradual worsening of conditions until the final coup wiping out the leaders and their henchmen.

The man who voices this opinion is Nikolai Khokhlov, an intelligence officer who seized his opportunity for freedom two years ago when he was sent to West Germany to assassinate a prominent anti-communist. He bases his opinion on his own knowledge of the red dictatorship along with reports he receives regularly from across the iron curtain.

If all this is true it should rate as about the most important news in the history of our age. If communism is actually beginning to fall apart the world can be spared the conflict which would have been bigger and more horrible than anything known to date. We know the red objective of dominating the world. We know also that the clash would be terrible if and when a final show-down should come.

More good news is our government's increasing firmness in dealing with reds, as indicated by two welcome developments this week. A Supreme Court decision confirms the law which prevents reds from taking refuge in the Fifth Amendment. Hereafter a witness can be assured that his testimony will not incriminate him . . . because he will not be prosecuted for what he says . . . and can be required to answer the big question and all others or face contempt charges. That should put an end to the exasperating obstruction of justice that has been going on for years. Hereafter reds will either talk in court or sit it out in jail.

The Treasury Department's crack-down on the communist party is equally welcome. The chief red propaganda sheet, The Communist Daily Worker, and several party units with it were suddenly put out of business for tax evasion.

All of which is a healthy sign. It indicates that our government is finally getting serious about dealing with this organization, which was years has been permitted to continue unmolested on its program of wrecking the nation. After such a good start there's reason to believe that more will come. Maybe we'll see more determination in dealing with reds who have infiltrated our government, our educational system, our labor unions, our publication and entertainment fields. Now perhaps we can begin operating on the very reasonable premise that American rights do not extend to the ridiculous point of permitting anyone to seek the country's destruction.

The significance of these all important events seems to be further enhanced by the time of their occurrence. This is Holy Week, the season sacred to the entire Christian world as the anniversary of the Redemption.

(Continued on Page 10)

In a traditional Holy Week proclamation this week Mayor Urban J. Endres designated Good Friday, March 30, as a day of special reverence and called on all residents to observe it fittingly by suspending business and attending church services.

The proclamation differs slightly from that of previous years in that it specifies the period of 2 to 5 p.m. rather than noon to 3 as the hours for business houses to close. The change harmonizes with recent changes in the Church liturgy and schedule pertaining to Good Friday services. Formerly services were usually over at 3, hereafter they will begin at that time. The period of 2 to 5 was designated because it allows ample time both before and after the service.

The mayor also called attention to the community's fine record of observing Good Friday in the past and asked that this year's observance be carried out in the same respectful and edifying manner. He urges complete cooperation . . . that all business houses close their doors, that workmen lay down their tools, and that people refrain from unnecessary driving.

FFA Boys to Show Livestock Projects Next Week Friday

About 40 head of livestock and several groups of chickens will be on display and competing for prizes at Muenster's first FFA project show next Friday, April 6, on the public school grounds.

Under the direction of FFA Advisor Glenn Hellman each member of the local chapter will show his livestock or poultry project in the arena which was recently completed as a group project. The pens, made of surplus air strip landing mats, were made entirely by the boys. It is located just north of the MHS football field and can be reached easily by the newly opened street north of school.

Prize money and ribbons for the show, amounting to about \$200 worth, were taken out of the Cooke County United Fund's appropriation for club-boy and club-girl activities.

The animals and chickens are due to be on display by 11 a.m. and judging by H. T. Lester, Era vocational agriculture teacher, will start at 1 p.m. The public is invited to see the show any time from 11 until the judging ends.

In addition to its own show the local FFA Chapter will send entries to a County livestock show in Gainesville April 23-25. Present plans are to enter five calves and nine lambs in that event.

Area FHA Picks 2 From Muenster for Chicago Meeting

Muenster High school annexed a distinct honor at the annual Area V meeting of Future Homemakers of America in Denton during the weekend with the selection of its chapter president and chapter adviser as delegates to the national meeting in Chicago.

Juanita Wieler is one of 19 members named to attend the convention and Mrs. H. H. Homsley is one of five teachers chosen to accompany girls of the area on the trip. The Muenster chapter was one of 120 area chapters at the Denton meeting.

Begin Army Service

William Walterscheid, son of Mr. and Mrs. Al Walterscheid, and David Reiter, son of Mrs. Hilda Reiter, left Tuesday for Dallas where they were inducted into the army. They were two of the three-man quota from the county draft board for March. The other inductee was Harry C. Neal of Gainesville. David joins a brother in service. Donald Reiter is with the army in Germany. William telephoned his parents Wednesday to tell them he was at Camp Chaffee, Ark., for basic and that David had been drafted into the navy. Up to Thursday morning David had not sent word where he was.

City Will Elect 2 Aldermen Tuesday

M. D. Kaderli and Jimmy Lehnertz have near cinches of being elected on the Muenster city council at the annual municipal election to be held next Tuesday in the city hall.

They are the two candidates appearing on the ballot for the city's two alderman jobs now held by J. J. Wieler and George Mollenkopf. Neither of the incumbents offered to continue in office.

The election will be held in the city hall with I. A. Schoech as judge and Mrs. Al Walterscheid as clerk. Polls will be open from 7 to 7.

NEWS OF SICK AND INJURED

Tony Hesse entered Veterans Hospital in McKinney Wednesday for observation and treatment. He is in room 107.

Joannie Kaiser had her tonsils removed at the Muenster Clinic Saturday.

Mrs. H. J. Fuhrman has her right arm in a cast as the result of a fall about a month ago. At the time she paid no attention to a hurting elbow, considering it a bruise. When pain persisted for three weeks she had it x-rayed. A bone in the elbow was fractured. She'll have the cast on about three more weeks.

Mrs. Theo Miller is recovering satisfactorily from recent major surgery performed at St. Joseph's Hospital in Fort Worth. Her after-surgery-progress was so good she was dismissed from the hospital last Thursday, about a week earlier than anticipated, and is regaining her strength in the home of her daughter, Mrs. Stan Yosten in Fort Worth.

Roy Atteberry has been dismissed from Gainesville Sanitarium where he was a patient for x-rays and treatment of a leg ailment.

Mrs. Joe Hess received medical care at Gainesville Sanitarium this week.

Diann Felderhoff, 6, daughter of Mr. and Mrs. Arthur Felderhoff, had her tonsils removed at the Muenster Clinic Saturday. She has recovered but was absent from classes in the first grade this week.

Henry Pautler is a patient at Veterans Hospital in McKinney for treatment of a hip and back ailment. His room number is 108.

Andy O'Connor was back in Dallas Tuesday for surgery to remove a growth from his vocal cord. It was his second operation of this nature. The first was performed on Feb. 28. He was dismissed from the Medical Arts Hospital Wednesday.

M. A. Slaughter is back at home convalescing from surgery performed at the VA Hospital in McKinney about a month ago. The Slaughters live on the Linn lease south of town.

Charles A. Sherrill was admitted to Gainesville Sanitarium during the weekend for medical care.

Joe Schmidtkofer who received medical care at Gainesville Sanitarium has been dismissed.

Barbara Sandman was admitted to Gainesville Sanitarium for medical care during the weekend.

Mr. and Mrs. Jake Huddleston and their two children of Myra were admitted to the Muenster Clinic Monday at about 6 p.m. after they were in a car wreck two miles east of here. They were enroute home after visiting relatives at the clinic. They were uninjured except for bruises and scratches they received when their automobile turned over after being struck from the rear by a car driven by Kenneth Ray Kent of Saint Jo. Kent was not hurt in the accident. He told officers he took his eyes off the road momentarily to look at another car which had been wrecked earlier and before he realized it he struck the Huddleston car.

Mr. and Mrs. J. M. Weinzapfel were in New Orleans, La., this week attending a bankers convention. They made the trip by plane.

EASTER SPECTACULAR — This huge display piece, with Leonardo da Vinci's painting of The Last Supper as its inspiration, is representative of elaborate window displays fashioned by confectioners of Rome, Italy, for showing during the Easter season. Months of work went into fashioning the figures of Christ and the disciples in multicolored sugar. Chocolate cherubs adorn the huge candy egg, used as a mount for the confection.

Denison Will Host For Soil Awards Banquet on May 10

This year's soil conservation awards banquet will be held in Denison on Thursday, May 10.

Decisions regarding date and place for the annual event honoring conservation champions of the Upper Elm-Red Soil Conservation District, along with other details of the program were reached in a meeting of district supervisors with representatives of the district's banks and newspapers Wednesday afternoon in the Community Room of the First State Bank at Gainesville. Persons present accepted an invitation extended by Denison bankers and favored May 10 because it comes in Soil Conservation Week, designated this year as May 6-13.

A special feature agreed to for the program is an oration by Miss Margie Elkins of Gainesville on an article taken from The Dallas News on the decline of a community because of the deterioration of its soil. Her talk will replace the customary address by a guest speaker.

Other parts of the program will be similar to those of the past. A \$50 savings bond will be presented to the outstanding conservation farmer of each zone, to the outstanding comeback farmer and to the outstanding conservation group. A new presentation will go to the best landlord-tenant combination, the owner to receive a plaque and the tenant a \$25 bond.

Interviews with champ farmers are also in the plans. Jerry Talley, who has conducted the awards interviews of the past will be invited to have charge of the assignment again.

Two others who will be invited to appear on the program are Albert Martin and W. L. Peterson of Denison, one to be toastmaster and the other to extend the welcome.

A catering service, probably Jetton's of Fort Worth will prepare and serve the meal. Starting time has been set for 7 in the Denison High gym.

After the meeting J. W. Hess, chairman of the board of supervisors, extended the board's thanks to the sponsors for their continued efforts to encourage soil conservation in the district. Persons attending were Claude

(Continued on Page 10)

Adult Homemaking Class to Organize

An organization meeting of adult homemaking classes is set for next Friday, April 6 at 3 o'clock in the afternoon, Mrs. H. H. Homsley, instructor, said this week.

Women interested in enrolling in a course are invited to be present to discuss kinds of instructions preferred and time for holding classes.

Elementary Pupils Win at Track Meet

Elementary kids of Muenster returned from the district track meet last Friday with top honor, but by the slim margin of a mere half point. They nudged Saint Jo 29½ to 29 while Valley View scored 12½, Era 9, Rad Ware 6 and Callisburg 2.

Scorers were: Wimmer, first in broad jump and second in 100; Harris, first in 75 and second in shot put; Yosten, second in pull ups; Hudspeth, third in broad jump. In addition the 440 relay team came in first.

Farming Research Benefits Told at Father-Son Dinner

Dr. David O. Howe, associate plant physiologist of the Renner Research Foundation, speaking at the annual FFA Father-Son Banquet in the school lunch room Tuesday night explained how research contributes to agriculture in this era of highly technical and specialized farming methods.

Research seeks new answers to old problems, Dr. Howe said. It tries to determine what crops and what varieties of crops are best adapted to the soil and weather of a particular area. It tries to determine also how plant and insect pests can best be controlled, what varieties and amounts of fertilizer produce the greatest increases of yield per dollar of cost, what soil treatment will assure the most beneficial use of rain.

He spoke more in detail about the moisture problem, saying that since rain is limited and irrigation is not practical for most farmers, the big challenge is to get all possible use out of the rain received. That is achieved by farming methods which increase the intake capacity of the soil. Another solution to that problem is developing varieties of crops that require less moisture.

Like the methods learned in agriculture class the discoveries of today's research will pay off in tomorrow's agricultural progress.

Another high point of the program was a summary of projects by Jimmy Biffle. He listed the number and value of each class of animals being raised by the boys, and gave the total value of all individual projects as \$3765. In addition he mentioned class projects, including construction of a display arena, next week's project show, and raising 600 broilers. Some of the broilers were used for the Father-Son banquet and the others are being sold to help the chapter treasury.

The program, under direction of President Wylie Corbin as toastmaster, opened with a roll call to which officers responded.

(Continued on Page 10)

Deward Martin, 35 Dies During Sleep Of Heart Failure

Sudden death from heart failure claimed Deward Martin, 35, who died in his sleep early Tuesday morning at his home here. He had not been ill previously.

Mrs. Martin discovered her husband's death at about 3:40 a.m. when she tried to rouse him to go to work at the North Texas Producers Association plant. It was his habit to arise promptly at the ring of an alarm clock, she said. Apparently he had been dead only a short time.

The body was at the Nick Miller Funeral Home until 2 p.m. Wednesday when funeral services were held at the First Baptist church here. Rev. D. S. Pettijohn, pastor, officiated.

Burial at Dye Mound cemetery consisted of military rites by the Muenster VFW Post members and the final rites of the Baptist church conducted by Rev. Pettijohn. Nick Miller was in charge of arrangements.

Bearers were Lester Harris, Jack Hogan, Meinrad Stoffels and Nig De Borden with whom he worked at the milk plant, and H. D. Cook and Roy Atteberry.

Martin was born Dec. 15, 1920, south of Muenster in the Freemound community and attended school there. During world war II he served in the army with overseas duty in France, England and Germany. It was while he was stationed in Calais, France that he met Miss Audrey Coquel, who joined him here after the war. They were married in Dallas on Dec. 12, 1947, and farmed south of town until about three years ago when he went to work in town.

In addition to his wife he is survived by a two-year-old daughter Katherine Ann; his parents, Mr. and Mrs. Charles William Martin of Freemound and two sisters, Mrs. Earl Hartz, route 2, Muenster, and Miss Mary Lou Martin of Freemound.

Official Count in 40-B District Meet Still Not Complete

Final tabulations on this year's interscholastic league meet still are not available, however indications now are that Valley View or Saint Jo is in line for the trophy, according to a report Wednesday from Superintendent Homsley. It also appears that Muenster has improved its former standing of fifth among the seven schools represented.

Winning the one act play along with the senior and junior track meet boosted Valley View's overall score considerably during the past week and possibly moved the school ahead of the former leader, Saint Jo.

Meanwhile Muenster also improved by adding points for a second place tie in the senior track meet, first in elementary track, first in senior and elementary tennis singles and second in senior tennis singles.

Tennis play offs were finished this week, leaving play ground play offs for the last events of the meet.

Local students earning points in tennis were James Harris, first in elementary singles; Jimmy Harris, first in senior singles; Clifford Swirczynski and Wylie Corbin, first in senior doubles. Pat Cain and Emma Fisher tied for third in girls senior doubles but got no points for it.

Decisions at the one act play contest favored Valley View for top honor and Saint Jo for runner-up. Muenster placed third. One of the Muenster students, David Flusche, landed a spot on the district all-star cast for his performance.

SCHEDULE OF COMING EVENTS

FRIDAY, March 30, Business houses close 2 to 5 p.m.

TUESDAY, April 3, City Election, in City Hall.

WEDNESDAY, April 4, Sacred Heart Alumni meeting, 8 p.m.

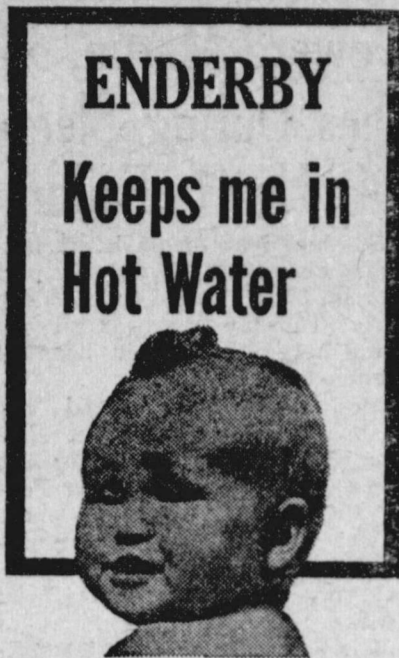

FRIDAY, April 6, Organization meeting of adult homemaking classes at Muenster High, 3 p.m.

FRIDAY, April 6, FFA Project Show.

Juniors Rehearse For Play April 13
 Juniors of Muenster High and Mrs. H. H. Homsley are spending their spare time from classes and some of their own time af-

ter school hours on rehearsals for the annual junior class play to be presented April 13.
 This year's presentation by the juniors will not follow the customary procedure in which they give a three-act play. This time they will do three one-act plays, a drama, a farce and a mystery.
 Rehearsals on the drama are complete. It's the play the school presented in the Interscholastic League meet and won third place on — "The Lamb in the Window." Finishing touches are being added to "The Murders of Miriam," a fast-moving Who-dunit, and two clever comedies are being practiced, the better one to be given on play night. "Who Gets the Car?" and "Baker's Dozen," both appeal to the students and just now they haven't made up their minds which one will go on the stage, Mrs. Homsley said.

By reducing wear, modern, high-quality motor oils can triple the life of a car engine.

Local News BRIEFS

According to word received at Sacred Heart rectory Wednesday, Father Cyril was dismissed from Spohn Hospital in Corpus Christi that day and traveled by plane to Fort Worth. Father Ignatius was to take him to Windthorst and plans were that he would remain there for Holy Week services. In that event Father Louis was to return to Muenster sometime Thursday. However, if Father Ignatius had a conflicting schedule and could not leave Fort Worth, Father Louis was to remain in Windthorst through Sunday.

Sister Gerarda is on the teaching staff at Sacred Heart High replacing Sister Eymard who is still a patient at St. Anthony's Hospital in Oklahoma City, and was scheduled to have major surgery Wednesday. Sister Gerarda is not new to Muenster. She taught here in 1942.

Miss Margaret Myrick, student nurse at Galveston, Miss Mary McGannon of Our Lady of the Lake College, San Antonio, and Jerry Henscheid of St. Edward's University, Austin, are here to spend the Easter holidays with their parents, the T. S. Myricks, Edd McGannons and Leo Henscheids.

Mrs. Paul Fisher and Mrs. Charlie Morris of Gainesville took their sister, Mrs. Pete Hawthorne and sons back to their home in Corsicana Tuesday. Their mother, Mrs. Frank Kathman, accompanied them and remained in Corsicana for a visit through the week.

Blessed Events

Mr. and Mrs. Ed Sicking are beaming over the baby boy who arrived Monday, March 26, at the Muenster Clinic at 4:45 a.m. weighing eight pounds ten ounces. Others welcoming him are his sisters Dianne and Peggy, his grandparents the Joe Walters of Gainesville and the Ben Sicking, and his great-grandparents Mr. and Mrs. John Walter.

Mr. and Mrs. Virgil Streng announce the birth of their daughter, Medissa Gayle, at Robert Lee, Texas, on March 19. The little girl is their first child and the granddaughter of Mr. and Mrs. John Streng. Mrs. Mathilda Wimmer is the baby's great-grandmother.

Mr. and Mrs. David Black of Myra are the parents of an eight pound 13 ounce boy who arrived at the Muenster Clinic at 12:05 p.m. Monday, March 26. He has been named Michael Wayne. The couple has three other boys and two girls. Mr. and Mrs. Ed Huddleston of Myra are the grandparents.

Mr. and Mrs. E. M. Huddleston of Saint Jo became the parents of a daughter Monday, March 26. The baby was born at M&S Hospital in Gainesville. She weighed seven pounds 13 ounces.

No man has ever come to true greatness who has not felt in some degree that his life belonged to his race, and that what God gives him he gives him for mankind. —Phillips Brooks.

How Your Tax Dollar Is Spent

By Congressman Frank Ikard

The proposed Budget submitted by the President for the fiscal year beginning July 1st and which is now being considered by the Appropriation Committees of Congress reflects that a typical tax dollar is spent as follows: 62c of it goes for National security. Of this 62c, 18c is spent for the purchase of planes, ships, tanks, and weapons, and 3c for military research and development, and approximately 2½c for research and development in the field of atomic energy. The remainder of the National security expenditures go for the pay and support of the people in the military and the operation and maintenance of equipment, military construction and military assistance and support.

11c of the typical tax dollar goes for the payment of interest on the National debt. 7½c goes for Veterans' services and benefits which include 4½c for compensation and pensions for veterans and 1.2c for hospital and medical care, 1c for education and training, and 7/10 of 1c for unemployment, loans, insurance, etc. 5c of the tax dollar is spent for the various agricultural programs. A little over half of it is spent on the price support programs. The remainder will be spent for the proposed soil bank, soil and water conservation, ag-

Liquid Ammonia Fertilizer Showing Popularity Gains

Convenience and economy are the two big reasons why the use of aqua ammonia, a new nitrogen fertilizer development, is spreading from California to the Midwest.

Almost one-fifth of the total fertilizer tonnage produced in California last year was aqua ammonia. Midwest distribution, though small, is rising, the report says.

The new fertilizer is a liquid and has no pressure at normal temperatures, only 11 pounds at 100 degrees. Aqua ammonia can be stored in inexpensive tanks since it will not corrode steel, the magazine says. Pumps handle all transfer of aqua ammonia; gravity-fed hoses handle field applications.

Most farmers apply the fertilizer themselves because it is so easy to handle and store, and it can be applied with other field work.

As a liquid, it soaks into the soil, but it must be covered immediately to prevent evaporation. Thus, rigs to apply aqua ammonia while discing, plowing, subsoiling, or cultivating are a natural. Total costs for equipment needed vary from \$75 to \$150, depending on the tillage tool, the report says.

Farmers are switching to aqua ammonia to get nitrogen on loose sands, heavy clays, and slick gumbo soils where anhydrous gas won't stay down.

Application can be adjusted to fit the crop and its nitrogen requirements. For small grain, the magazine advises spacing the shanks close together and applying the liquid at shallow depth for immediate availability. Shanks may be spaced wider and inserted deeper into the soil to make nitrogen available later in the growing season, the report says.

ricultural research, etc.

Labor and welfare requires an expenditure of 4½c out of our tax dollar, a little over 2c being sent to States for aid to the aged and needy. About the same amount is proposed for the Federal aid to education program. The programs dealing with highways, roads, rivers and harbors, aviation, civil defense, slum clearance, and business aids require an expenditure of 3c. Also 3c is charged up to international affairs.

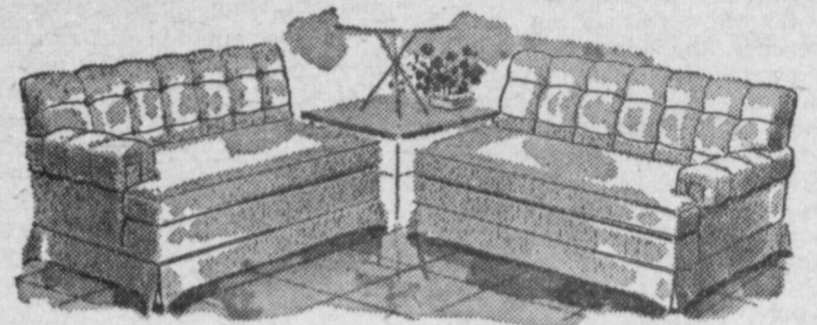

It takes another 3c for the operation of the Government itself such as the care of Government property and buildings, the cost

of the F.B.I. and enforcement costs, the operation of the Congress and Judiciary, as well as the governments of the Territories, the Weather Bureau, and personal retirement funds. The remaining 1c is spent for the other operating costs of the Federal Government.

CARD OF THANKS

To all who expressed their sympathy in so many beautiful and practical ways during our recent bereavement, we extend our heartfelt thanks. We appreciate the spiritual tributes, the floral offerings and every kindness.

**Do Not Fly Kites
Near Power Lines**

COLLEGE STATION — March winds are a boon to kite flyers and kites are in the air. Now comes this word of caution from

Dr. R. L. Kennedy

Optometric Offices
and Modern
Optical Laboratory
HO5-5761 108 E. California
Gainesville

a farm safety expert, "don't fly kites near electric power lines."

The safety expert, W. L. Ulich, agricultural engineer for the Texas Agricultural Extension Service and secretary of the Texas Farm and Ranch Safety Committee, says reports already coming in from over the state on accidents or near accident involving kites.

One of the greatest dangers, says Ulich, comes from flying kites near power lines. Should a kite become tangled in a line, don't try to get it down. Leave it there and call the power company for assistance. A damp string will conduct electricity and shock could prove fatal. Above all, he warns against using metal of any kind in the construction of the kite and of using string containing metal, such as Christmas wrapping string, for flying the kite.

Should such a combination come in contact with an electric power line, there'll be trouble and it could be very serious.

Ulich says it is fun to fly a properly constructed kite. He suggests taking the kite to an open field or pasture for flying. There the danger from power lines and traffic hazards are no problem and kites can be flown by even the youngest members of the family.

"Why do you say he's financially embarrassed?"
"He's shy in his payments."

**Norma Vogel Will
Wed Donald Muller
Saturday, April 14**

Mr. and Mrs. Joe Vogel have announced the engagement and approaching marriage of their daughter Norma to Donald Muller, son of Mr. and Mrs. Matt Muller.

The couple will be married here in Sacred Heart church on Saturday, April 14, during a nuptial mass at 4 p.m.

Norma and Don are both employed in Fort Worth and will make their home there.

Attendants at the wedding will be the bride's sister, Lillian and the groom's brother Clyde. Lillian is also employed in Fort Worth. Clyde, a corporal in the army, is stationed at Fort Lewis, Wash.

**V. J. Luke, Convaire
Electrician, Enjoys
Unique Art Hobby**

With miniature files, pliers and other jewelers' tools, Vincent J. Luke, Convaire electrician, has a spare time art — making humorous jewelry pieces, according to a story in Sunday's Fort Worth Press under "Art Happenings."

Vincent, a former Muensterite, has made Fort Worth his home since shortly after he was discharged from the Navy after serving during world war II. For a while he had an electric shop here. It was while he was in the service that he took up the hobby of metalcraft to occupy idle hours off duty. He has since continued his art-hobby, developing a quality style and technique through self training and experience.

The Press goes on to tell about Vincent's jewelry pieces. They're not all humorous. He makes serious designs too. Some of his works are created on the spur of the moment in his backyard garage "studio." Others are first sketched in pencil and then made.

Owen Day, Press writer, who interviewed Luke, records the artist as saying that more favorable comment is given the work that has had no preconceived design. Some of the jewelry is made in as little time as two hours. Other pieces take as much as two days. His work has been exhibited in several craft and art shows both in Fort Worth and in Dallas museums.

The artist's ability to express humor and cleverness in his silver and gold metal craft creations results in such pieces as voodoo dancers and rabbit-in-the-hat earrings, a grinning cat pin whose stomach openly reveals a just-shalowed gold fish, a mask-like necklace which he calls "Poltergeist" — German for "mischievous ghost." On the serious side he produces detailed etched silver vases and sculpture. All of it shows a definite respect for detail and finished quality. Along with the story was a picture of Vincent at work on his hobby.

Messrs. and Mmes. Jim Cook, Lee Toothaker, W. R. Lindsay and J. W. Fletcher and Mrs. M. F. Milner were in Saint Jo Friday night to hear Bishop Richard Raines preach at the Methodist church. He is the father of Rev. Dick Raines, pastor of the church, and executive president of foreign missions of the Methodist churches. He has traveled around the world in connection with his work in Africa, India, Korea and Japan, and was enroute to Houston for a week's preaching service. About 300 persons attended the preaching and a social hour honoring the bishop.

**Open House Slated
Wednesday at New
Farm Bureau Office**

Farm Bureau members and other interested persons will have an opportunity next Wednesday to inspect the new Gainesville office, meet the working personnel and get acquainted with services offered to members.

Ben Davis, president, has designated Wednesday, April 4, for an Open House between the hours of 10 a.m. and 5 p.m. The new office building is located on Highway 82 just west of the overpass.

Among services available to members free of charge are filling out gasoline tax refund reports and notary public work, information on insurance—casualty, fire, life Blue Cross and Blue Shield—which when taken through a group can be secured at greatly reduced rates.

Wednesday night at 8 o'clock Hoyt Gaston, district director of District 4, will be the guest

speaker at a county-wide meeting of the Bureau to be held in the Community Center building in Gainesville. All members are urged to attend the program which will conclude with table games, square dancing and refreshments.

The office will be open each week on Monday, Wednesday, Thursday and Friday from 10 a.m. until 4 p.m.

HANDBOOK FOR CITIZENS

During a period of 25 years the United States Congress has had numerous special committees investigating subversive organizations in America, particularly the Communist conspiracy and its operations here. From the great wealth of factual material compiled the Congress has now published "A Handbook for Americans" on The Communist Party of the U.S.A. This 100-page booklet should become the keystone in every American's understanding of Communism, what it is, and how it works to achieve its goal.

Copies of the booklet may be obtained from The Bookmailer, Box 101, Murray Hill Station, New York 16, New York. The handbook was edited by the internal Security Sub-committee of the U. S. Senate Committee on the Judiciary. Its contents were approved by the full committee membership: Democratic Senators James O. Eastland, of Mississippi; Olin D. Johnston, of South Carolina; John L. McClellan, of Arkansas; and Price Daniel, of Texas; and Republican Senators John Marshall Butler, of Maryland; Herman Welker, of Idaho; Arthur V. Watkins, of Utah, and William E. Jenner, of Indiana.

Facts To Know

Here are some of the facts presented:
 The Communist Party U.S.A. is "a Russian-inspired, Moscow-dominated, anti-American, quasi-military conspiracy against our Government, our ideals, and our freedoms."

The Communist Party functions "at all times of the year, every day of the week, and at all hours of the day. It is a full-time organization which is not restricted to election campaigns. It persistently seeks to permeate every phase of American life for its own subversive purpose. Communist agents may be found wherever and when ever there is opportunity for Communist propaganda or the promotion of civil strife, whether it be the factory, the union, the church, the school, or the neighborhood."

Fully aware that "if it appeared openly in its true guise as a bridge-head of a hostile, foreign dictatorship, the Communist Party, U.S.A. would attract little support, its methods are based primarily upon deception."

FBI Testimony

J. Edgar Hoover, FBI Director, has testified: "No longer are Communist Party membership cards issued; maintenance of membership records is forbidden." And yet, Igor Gouzenko (and others) have testified: "On every Communist there is a file at the Comintern in Moscow; for every Communist in the whole world there is a file at the Comintern."

The Communist Party U.S.A. "thrives on promoting slashes: between employer and employee, landlord and tenant, white and Negro, native-born and foreigner, Catholic, Protestant and Jew; between the American people and their Government, and within every non-Communist organization."

The conspiracy apparatus in America is composed of the following: open party members, semi-concealed party members, members at large, members of the underground apparatus, non-party Communists, Communist Party supporters, conscious fellow travelers, unwitting fellow travelers.

Helping The Reds

From the Communist Daily Worker newspaper: "It is no exaggeration to state that besides the . . . Communist members, there are today tens of thousands of individuals who are active in every field of the progressive

The Irony Of It!

movement, carrying out the line of the Party in practice. They work shoulder to shoulder with the Party members, follow the Party line through our press . . . through mass meetings, lectures, and all struggles in which the Communists are in the forefront. We must point out: First, that their actual work is appreciated by the Party; second, that we consider their work Communist work and want them to continue it."

About half of the hard-core Communists in America are stationed in New York state; the next largest number in California. They are concentrated in vital

areas of production, transportation, shipping, and in the communications agencies where propaganda and thought-shaping can be conducted most widely.

The influence of each single Communist is far-reaching.

Best time to overcome a tempo is before it gains control.

Pause For Reflection

. . . with James C. Ingebreten, President, Spiritual Mobilization
 A recent issue of Quote Magazine quotes Charles B. Shuman, president of the American Farm

The Day A Dead Man Lived

By Rev. Wilfred Hurley, author and lecturer

A DEAD BODY shook in the chill evening wind, drooping gaunt against the black sky. Jesus Christ was dead.

And where were they who had walked with Him? They were gone, scattered far and wide, thankful that their miserable lives had been spared.

AND YET a few years later, these same followers, peasants and fishermen, had become the religious leaders of the world. The Apostle Peter who had denied Jesus with an oath now gave up his life for his master. And so with the others following their leader Peter. Andrew planting the faith in Greece, Thomas dying with a spear plunged into his heart, Matthias stoned and beheaded—all for Him whom they had let die alone on Calvary.

What had worked this transformation? Nothing but those words of the angel to the women at Jesus' tomb on Easter Sunday morning, "Do not be afraid. You seek Jesus of Nazareth who was crucified. HE IS RISEN."

THE APOSTLES had been demoralized and disappointed. But now despair gave way to hope. They had been scattered like a

flock of frightened sheep. But now they heard that call to arms: "He is risen." They accepted the challenge and transformed the world!

Some have tried to explain the Resurrection away, but the fact remains: Christ arose from the dead. The Apostles knew this was true. It was not a theory for them, but a fact which led them to give up their lives for their risen Lord.

YOU CANNOT ignore the Resurrection. Christ stands before you alive and commanding as He stood before his awe-struck Apostles. With flashing eyes He insists "If you would enter into everlasting life keep the Commandments."

And keeping His commandments is not easy in our modern world. "Ignore the Resurrection," we hear in our ears, "Give up your ideals of purity and goodness for sin and vice. Swindle and cheat in business. Do what you want with your life. Turn your eyes away from the Risen Christ."

BUT CHRIST conquered death in His Resurrection, and with His help you can conquer sin. His Resurrection tells you that the grave is not the end: for Him or for you. He sacrificed; He suffered; He died—but He lived again. He that was dead came to life again—and so will you!

† Paulist Feature Service, Washington 17, D. C.

Bureau Federation, as having said, in addressing the National Association of Food Chains: "Government price supports hurt the farmer more than they help him. Farmers will adjust production to demand — if the government will let them do it."

A statesmanlike statement if I ever saw one! But much too statesmanlike of course, for the politicians. For, if the vast sys-

tem of government price supports were to be summarily abolished, what would the horde of political officials who administer them do? After all, politics being politics, what if price supports do "hurt the farmer more than they help him"? They at least seem to help the politician more than they hurt him. And who's to say that a farmer is more important than a politician?

Bring Home the BACON...

Do you "bring home the bacon" in the form of a regular pay check. Make sure that you keep a healthy slice of it for the future benefit of your family and yourself. Best "home" for the part of your "bacon" that you aim to hold onto is your bank account.

Decide how much you can reasonably expect to save each pay day, then faithfully deposit that amount to your account.

MUESTER STATE BANK
 A GOOD BANK TO BE WITH

Famous bulletin from Mobilgas Economy Run

FORD WINS IN ECONOMY TOO!

V-8 WINS CLASS A

In this year's Economy Run a new Ford V-8, with Fordomatic, was the official victor over every car in its field, with a winning average of 47.7643 ton-miles per gallon. This means that the sturdier, heavier Ford carried more weight, with greater gas economy per pound, than any car in its field.

This latest Ford victory was scored over a rough and rigorous 1,468.8-mile route running from Los Angeles to Colorado Springs. Through the heat of Death Valley and over chilling mountain heights . . . through gas-eating city traffic and over the straight-

line open road . . . Ford proved anew its traditional reputation for economical performance.

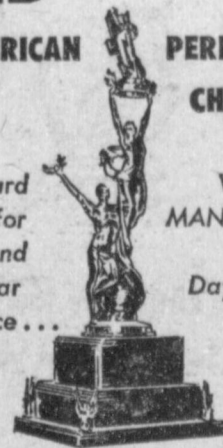

The winning Ford was a regular-production model taken right from the assembly line. It was no different than thousands of '56 Fords you see on the road and in dealer's showrooms. This proves that Ford, the Performance, Style and Safety leader, leads in Economy, too! That adds up to four big reasons why the '56 Ford is worth more when you buy it, while you drive it, and when you sell it, too!

The "ton-mile" formula is used by contest officials to insure equal chance for all cars in each class, regardless of size or weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by the number of miles traveled, divided by number of gallons of gasoline consumed.

Test Drive the Economy Winner . . . '56 Ford

A lot of mothers of the last generation had their daughters vaccinated in places they thought would never show.

Mr. and Mrs. Eugene Michels and six children of Munday were here to spend Saturday night and Sunday with the Joe Lukes. The Michels' oldest daughter is now a stewardess with Braniff Airlines.

Recent landscaping enhances the surroundings at Sacred Heart High school. Twelve cedars were set out along the brick panels between classroom windows and two flat cedars were planted beside the steps leading from the street to the building.

Local News BRIEFS

Joe Vogel's birthday Sunday provided occasion for a family dinner party in the home of a daughter, Mrs. Clifford Otto at Gainesville. Joining the family and helping their father celebrate were Misses Lillian, Norma and Corina Vogel of Fort Worth.

Jerry Fuhrman of Texas University, Austin, will be here to spend the Easter holidays with his family, the H. J. Fuhrmans.

Guests of Mr. and Mrs. R. M. Zipper Friday, Saturday and Sunday were their daughter and husband, Mr. and Mrs. Jim Stockman and their three children of Dallas.

The Glenn Coffman family moved Tuesday to Sulphur Springs where he transferred to the NTPA plant in that city.

Miss Ida Rohmer of Fort Worth is on vacation, spending it here with her parents, the John Rohmers and family.

Mrs. Oscar Detten returned to her home in Amarillo Thursday after a week's visit with her parents, Mr. and Mrs. Joe Lutkenhaus and other relatives. She recently became grandmother for the third time. The new arrival, Debbie Lynn, is the daughter of Mr. and Mrs. Fred Dillard, also of Amarillo. Their other children are Vickie Lee and Lonnie. Mrs. Dillard is the former Virginia Detten.

Mr. and Mrs. John Fisher were at Hamlin Friday to attend funeral services for Albert Galloway, 55, father of Joe Galloway their son-in-law. He died early Thursday in a Rotan hospital following a several weeks' illness. Other survivors are his wife and another son, Albert A. of Floydada and two grandchildren. The Galloway family was here last December for Joe's marriage to Jeanette Fisher.

Recent guests of the Joe and Russ Linns were the men's sister and her husband, the W. B. Parkers of Dallas.

Vets May Receive Treatment Locally

Veterans needing treatment for service-connected disabilities not requiring hospitalization may now be able to receive that treatment locally.

R. C. Livingston, county veterans service officer, said that veterans desiring further information on the new program may contact him at his office in the courthouse basement.

Bulcher News

By Mrs. R. J. Samples

BULCHER, March 26 — Mr. and Mrs. R. H. Sharp had as guests over the weekend her brother and sister-in-law, Mr. and Mrs. C. R. Stadalman of Saint John, Kansas.

Mrs. Loretta Malone of Corpus Christi is visiting her sister Mrs. E. Newby and Mr. Newby. Sunday the trio drove to Lindsay, Okla., to visit another sister and her husband, Mr. and Mrs. Clark Harrell.

Mr. and Mrs. Ruel Hyman and daughter Debra of Denton were weekend visitors with his parents, the August Hymans.

Kewanee Oil company employees held their regular safety meeting Thursday afternoon with P. L. Tracy in charge of the program on "Ladders — And How to Use Them to Insure Safety."

Mr. and Mrs. R. J. Samples and Belva visited Saturday with Mrs. Ruel Cannon in the Spencer community. Mrs. Cannon recently underwent surgery on her shoulder which was injured in a car accident and is recovering satisfactorily.

The searchlight in the wingtip of a Navy P5M patrol plane is equivalent in brightness to 15,000 one hundred watt bulbs.

Community Lumber Company
Rody Klement Muenster Jerome Paqel

Larry Hofbauer and his roommate Elmer Alsmeyer of St. Mary's University, San Antonio, spent the weekend here with Larry's family, the Andy Hofbauers, and picked up camping equipment they will put to use during the Easter holidays. The

two boys will join other students on a trip to Old Mexico to explore caves and climb mountains, among other things. The tour is sponsored by the college and a Spanish speaking teacher will accompany the group.

**IT HAPPENED
15 YEARS AGO**

March 28, 1941

Good oil field is assured by Bindel test well estimated making 400 barrels daily. The Alf Schumachers assume management of hotel and add cafe service. City streets and alleys are receiving grader attention. Two discussion clubs, St. Hyacinth and Lily of the Mohawks, end current season. Dinner party honors Theo Schmitz on 51st birthday. Muenster High places in 15 county interscholastic league events with two first: J. L. Cole and Della Beth Bowling in picture memory and Edna Lea Carter in tennis singles. Dorothy Mae Luke and Joyce Bentley receive nurse's caps at St. Paul's Hospital. Mr. and Mrs. Arthur Endres announce the arrival of Ruth. Claude Cannon sustains internal injuries in an oil field accident.

**10 YEARS AGO
March 29, 1946**

Red Cross donations total 85 per cent of goal as drive nears end. Forty Boy Scouts receive Tenderfoot badges. Rain gives crops a boost. Holy Week mission services will begin Monday, April 15. Five names are on school ballot to elect three trustees; candidates are Albert Henschel, Frank Yosten, Meinrad Hesse, J. P. Flusche and C. M. Walterscheid. Lynton Coursey and Lillie Mae Jigout marry at Gainesville. Sugar shortage may continue into 1947 says Agriculture Department. Herman Kathman returns to cafe business buying back the cafe he sold to Bill Eberhart last November. Jack Hoehn is back at home with a discharge from the Air Force. City election ticket has two positions for aldermen and only one candidate as deadline for announcement passes.

**5 YEARS AGO
March 30, 1951**

Mrs. S. O. McElreath, 71, native resident of Valley Creek dies. Fire and dynamite wreck power house on C. J. Bohner lease on Joe Walterscheid farm. Committees plan soil conservation activity for 1951. Jerome Pagel is recovering from an appendicitis operation. Barbara Miller and Thomas Felderhoff marry here. Anna Mae Coffman and Ed Hacker say vows at Valley View. Mrs. Ted Gremminger bought the Main Cafe Saturday and assumed management of the business Monday; Mrs. Leona Richardson was previous owner-operator. Parochial seniors rehearse class play "Little Women." Rupert Hoeng is settled for training at Lackland AFB. Joe Moster, Melvin Herr, Hugh Endres and Bernard Luke begin boot training at Naval Training Center in San Diego. The community had another disappointment this week when good prospects for rain fizzled after a measure of only .22 inch.

CARD OF THANKS

We desire to express to our kind neighbors and thoughtful friends our heartfelt thanks for their many expressions of sympathy in the loss of our loved one, George Lutkenhaus. For the beautiful service, floral offerings, spiritual tributes, and other kindnesses we are deeply grateful.
The Family

**County TB Group
Elects Officers**

Fred Lynn, manager of Texas Power and Light company, heads the Cooke County Tuberculosis Association as president for the coming year.

Other officers named at the annual meeting last Thursday include Mrs. A. L. Burris, first vice president; Leroy Robinson, second vice president; William Lewie, treasurer; Mrs. Paul Harvey, executive secretary.

Executive directors include Dr. T. S. Myrick, and directors include Mrs. Ervin Hamric and J. B. Klement of Muenster, Ray Hudson of Myra, Mrs. Robert Samples of Bulcher and Mrs. Irene Frost.

Mrs. Harvey read the annual report which showed 4820 persons received free chest x-rays of which 16 were suspects, 90 cardiac conditions were discovered and 80 other non-tubercular conditions were referred to doctors. The annual TB sale brought in \$3440.10.

**Marysville Church
Has Spring Revival**

Marysville Baptist church began its Spring Revival meeting Wednesday night and is having services each evening at 7:30.

Rev. Arlis R. Fuller, pastor of Lone Star Baptist church, Chico, is bringing the messages. Rev. Howard Bigham is pastor.

The visiting preacher lives in Fort Worth where he is attending Southwestern Baptist Theological Seminary. He is a graduate of Baylor University and was formerly pastor of Plainview Baptist church in Rosebud.

**Are All Cold
Remedies Alike?**

No! For example, 666 is the wide-activity medicine, which combines 4 of the most effective, widely-prescribed drugs known, to relieve all cold miseries sooner. 666 is more potent and gives positive, dramatic, rapid relief from miseries of all kinds of colds. That's why 666 is unsurpassed in effectiveness. Try it.

No other cold remedy can match 666 liquid or 666 Cold Tablets. **666**

No Frozen Milk**

with a **DARI-KOOL**
BULK MILK COOLER

The Cooler That Leads Them All!

ELIMINATES MILK CANS AND CAN HANDLING

In a variety of sizes from 100- to 700-gallon capacities.

- Cuts Work and Handling Costs
- Improves Milk Quality—

DARI-KOOL MEETS ALL 3-A SANITARY STANDARDS

- ... Cools Faster
- ... Easier Cleaning
- ... Ready to Operate
- ... Milk Cannot Freeze
- ... Stainless Steel Tank
- ... Lower Bacteria Count
- ... Complete Service Available

The DARI-KOOL will pay for itself in use. HERE'S HOW...

The cost of hauling milk in cans is 40 cents per 100 pounds as compared with 25 cents per 100 pounds for hauling tank milk, thus a saving of 15 cents per hundred.

Elimination of wastage of milk spilled or left in the can at the plant is 7 cents per 100 pounds.

Improved butterfat test gained by selling all the cream instead of leaving some of it sticking to the can and lid account for another 6 cents per hundred.

THIS GIVES A TOTAL SAVING OF 28 CENTS FOR EACH 100 POUNDS OF MILK HANDLED. THIS 28-CENT A HUNDRED SAVING WILL PAY FOR YOUR DARI-KOOL.

A producer with an average of 10 cans of milk (86 pounds each) a day will sell 25,800 pounds per month. At 28 cents per hundred saving, he will be ahead by \$72.24 each month.

The approximate cost of a 250-gallon tank installed is \$2,400 with interest of \$216 for a total of \$2,616. This can be divided into 36 monthly installments of \$72.11 each. **THUS YOUR SAVINGS MAKE YOUR PAYMENTS FOR YOU.** This estimate is without down payment or trade-in, which would cut the principal and monthly payment substantially.

SHH Students Name Year Book Editors

Nelda Bayer and Charles Felderhoff have been chosen to edit this year's Sacred Heart High school annual Cordis. At the same time Beatrice Zimmerer was named secretary and Carol Voth was made business manager.

The annual will be a summer publication as it has been during the past several years. This

makes it possible to include more scholastic activity and pictures in the book concluding with the end-of-school programs.

This year's edition will feature a deep red cover with a darker red design of the high school imprinted on it. The book will contain about 70 pages. Seniors are now busy soliciting patrons and subscriptions.

Worry is like a rocking-chair — gives you something to do, but doesn't get you anywhere.

Local News BRIEFS

The Andy O'Connors and the Andy Mondays and children spent Sunday in Dallas visiting the Bill Fry family. Bill is out of the hospital, resting at home, but is still unable to return to his work. He had a major operation about six weeks ago.

Miss Georgia Ann Hartman returned last Wednesday evening from Dallas where she completed a six month's course at Marinello Beauty School. She will take state board examinations in Austin on April 5. Her mother, Mrs. Victor Hartman, joined by another daughter, Mrs. Keith Tompkins of Denton, drove to Dallas to bring Georgia Ann home.

Jackie Reiter of Sulphur Springs spent the weekend here with his mother, Mrs. Hilda Reiter and family.

Mr. and Mrs. Henry Sprengel and daughters Joan and Edna Faye of Fort Worth were visitors Sunday with his sister and family, the Albert A. Knabes.

Sister Agnes Endres is back at OLV Convent in Fort Worth after spending three weeks in California at schools conducted by the Sisters of St. Mary. Sister Agnes is supervisor of schools. At Portersville she enjoyed a visit with Sister Emma Marie, daughter of the Emil Herrs, former Muenster residents now

living in Hereford. Before going to California Sister Agnes took a special course in Saint Louis to prepare her for summer school. She will conduct a special course for teachers on helping retarded children to read.

The Leo Lawsons and children Margaret Ann and Jimmy drove to Davis, Okla., Sunday to spend the day with his sister and family, the M. L. McGowans.

Spending Sunday here to help Mrs. Don C. Cooke celebrate her birthday were her sister Mrs. E. F. Halliburton and husband of Dallas, and Don's brother and wife, the Joe Cookes of Midland. The latter couple also visited his brother Reeve Cooke and other relatives and friends before returning home.

Mrs. and Mrs. C. A. Kathman and son Corky of Dallas were here last Thursday afternoon to visit family members and took his parents, Mr. and Mrs. C. H. Kathman, home with them for a visit before they return to Portales, N.M. The C. H. Kathmans had been here to attend the funeral of his brother, Frank Kathman.

Mr. and Mrs. Samuel E. Wood of Philadelphia, Pa., are here on a month's vacation visiting her parents and family, the John Strengs. Mrs. Woods is the former Sylvia Streng.

13 FHA GIRLS ATTEND AREA MEET IN DENTON

Thirteen members of the Muenster High school Future Homemakers of America chapter were in Denton Saturday to attend the Area V FHA meeting. The girls, accompanied by Mrs. H. H. Homsley and Mrs. John Wieler, left here Friday afternoon and attended the Rosebud Festival at TSCW that evening. The business session was held Saturday morning and was followed by a luncheon. After that the group made a tour of the campus.

Making up the party were Juanita and Jean Wieler, Helen Fisher, Gretchen Hellman, Janice Klement, Pat and Carolyn Cain, Judy Cain, Margie Flusche, Deanna Richey, Margie Reiter, Marcy Klement and Lu Rena Wolf.

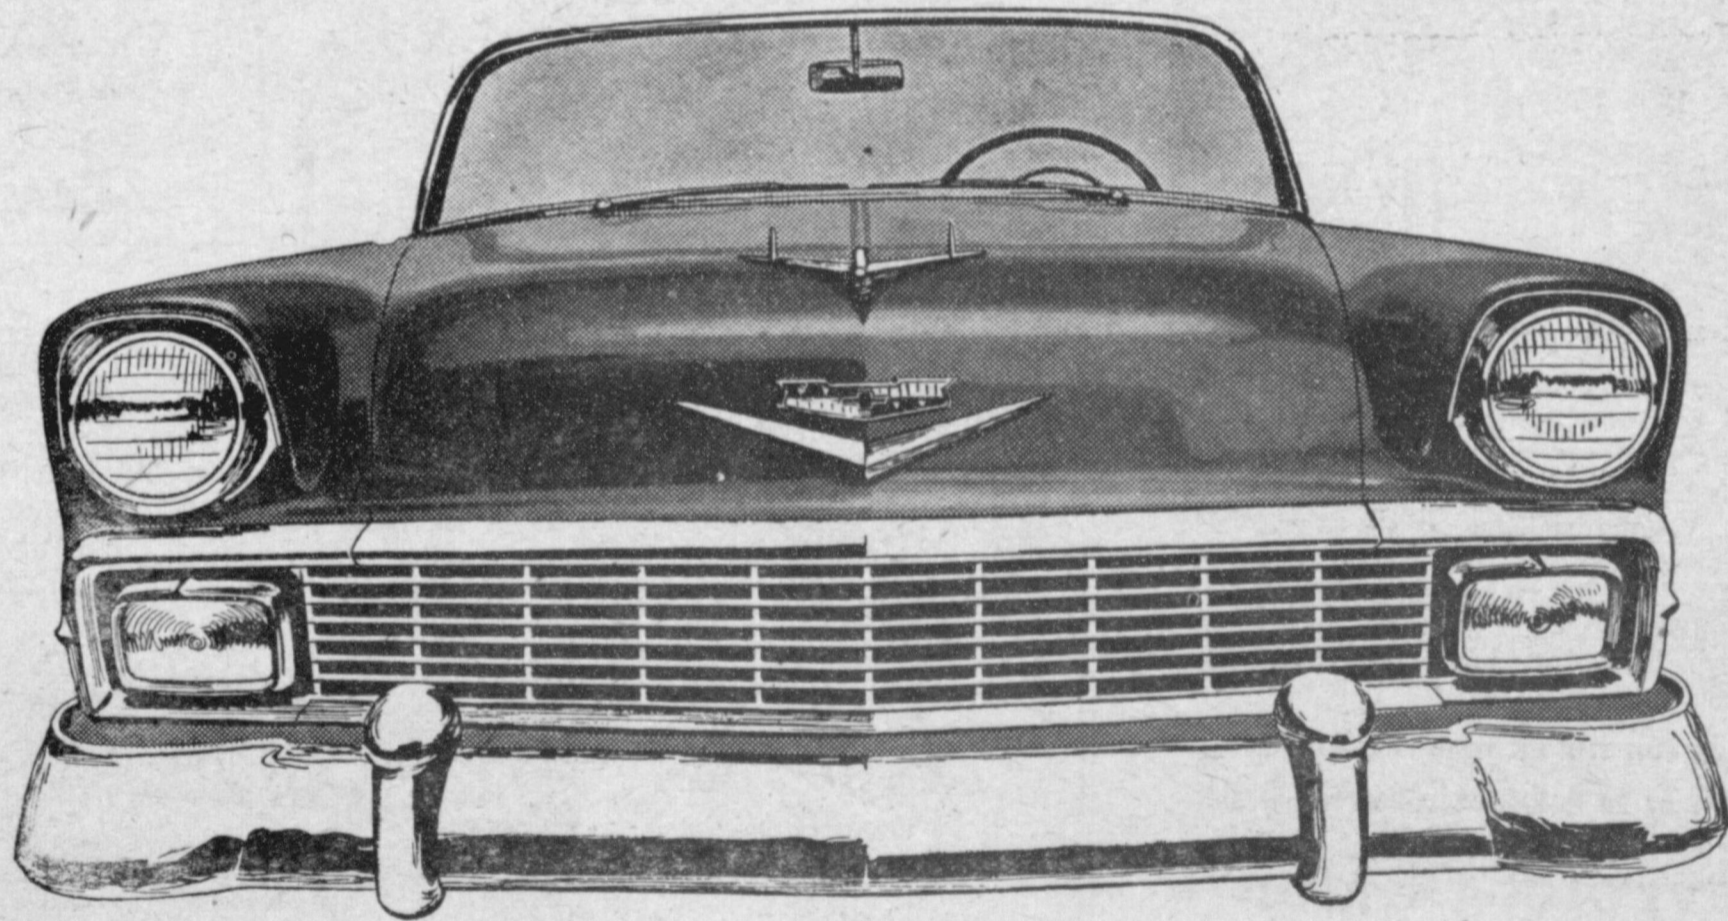

OUT OF TOWN RELATIVES ATTEND KATHMAN FUNERAL

Among out of town relatives and friends at the funeral of F.A. Kathman Sr. last Thursday were Mr. and Mrs. Earl Morehead and Mrs. John Odom of Midwest City, Okla., Mr. and Mrs. Elmer Crowder of Grove, Okla., J. C. Ellis of Wynnewood, Mr. and Mrs. J. K. Stover of Chickasha, Mr. and Mrs. Raymond Ellis and daughter of Bonita, Texas, the John Ellis family and Mrs. M. D. Ellis of Saint Jo, Melvin Ellis of Vernon, Mr. and Mrs. Pat Ellis of Denison.

Mr. and Mrs. C. H. Kathman of Portales, N. M., Miss Anselma Kathman of Dallas, Mr. and Mrs. Pete Hawthorne and children of Corsicana, the Jim Hawthornes of Fort Worth, Rev. Lee Morris of Bulcher, the Charlie Morris family and R. L. Morris of Gainesville, Messrs. and Mmes. W. E. Insel, Ross Miller and Bill Miller, also of Gainesville, Mrs. Ben Kathman and Mrs. Bill Kathman and son and daughter of St. Stephen, Nebraska.

Never because you pay less . . . only because you get

more!

It isn't the low price that makes Chevrolet the most popular car going. It's the looks and quality—the ride and roadability—the championship power and performance.

Sure Chevrolet's low price is important. It saves you plenty, when you consider what most other cars cost.

But even more important to you are the qualities you get in a new Chevrolet. Like its record-breaking performance (up to 225 h.p.) and nailed-down stability.

These are just two of the things that go to make driving more satisfying—and safer—in a Chevy. Driven one yet? We'll be happy to arrange it.

More People Drive Chevrolets Than Any Other Car—2½ Million More!

Air conditioning—temperatures made to order—at new low cost. Let us demonstrate!

"LIGHT" DUNKING — The tiny bulb held by Sharon Brumley of Cleveland, Ohio, is a complete electric light plant in itself. Generator, resembling a strip of adhesive tape, is wrapped around its base. When base is dunked in water, the 1.3-volt bulb, which is rated at only .06 amperes, gives a bright light for at least an hour. At present a laboratory curiosity, General Electric researchers see possibilities for its use in lifesaving equipment for use at sea.

Muenster, Texas

Soil Conservation Notes

Any party with a good rain as one of its platform planks could get the vote of the landowners in the Muenster-Saint Jo area right now. Moisture is needed badly for field crops. Rain would also raise a lot of spirits according to technicians of the Muenster SCS work unit.

But landowners cooperating with the Upper Elm-Red Soil Conservation district are going right on applying soil conserving and soil building practices to their land in spite of the weather. These landowners are taking another step toward their goal of soil protection, soil improvement and proper land use.

Richard Grewing recently planted Coastal Bermuda grass roots on five acres of his farm near Bulcher. It will be a nursery plot to furnish grass roots for getting the Coastal planted on the entire farm. Grewing has been growing vetch on the old field areas and on areas cleared of brush for the past two years in an effort to build up the fertility of the soil so that it will grow good grass. Once he has grass over all the land his problems of erosion and grazing will be greatly reduced.

Earl Walterscheid has planted two acres of Coastal Bermuda for a root source on the Ramsey place. He will use this nursery to get roots to plant all the old field acres to increase grazing and stop soil erosion.

Buddy Dunn of Dye Mound is planting a two-acre nursery plot

to this improved Bermuda grass. He plans to harvest roots and plant them over some 30 acres that was recently cleared of brush.

The warm spring weather is responsible for continued planting of King Ranch Bluestem in the Muenster area. Leo Sicking has just finished sowing 10 acres of his farm to KR. Eddie Fleitman planted some 25 acres of the Bob Cooke farm to this grass and J. W. Hess is busy seeding additional acres of this well-liked bluestem on his farm north of Muenster.

The specially built grass drills owned by the soil district are being used to plant the grass in well prepared seedbeds.

King Ranch Bluestem is steadily gaining in popularity in this area. It is a deep-rooted, drought resistant plant. It is quick to establish, makes seed twice each year to spread itself and produces forage that cattle like to eat. It is being widely used for establishing pastures and waterways.

Marysville News

By Mrs. Herman Richey

MARYSVILLE, March 26 — Mr. and Mrs. Bill Moon had as guests Thursday the Max Harrells and daughter Ronda Kim of Sherman.

Mrs. Charles Davidson and daughters Becky and Barbara spent Wednesday with her parents, the Otto Seigmunds at Walnut Bend.

Deanna Richey spent Friday and Saturday in Denton where

she attended the Area V meeting of FHA girls. She is a member of the Muenster chapter.

Rev. and Mrs. Howard Bigham of Fort Worth were Sunday guests of Mr. and Mrs. Monroe King.

GOOD MANNERS PROGRAM FEATURES HD CLUB MEET

A program on "What Constitutes Good Manners?" was presented to members of the Marysville Home Demonstration club at their regular meeting Friday afternoon. Mrs. Bill Moon led the discussion.

Mrs. Lawton Moon was hostess and Mrs. Rafe McElreath conducted the business session. Mrs. Reeve Cooke read the club creed.

"How I Can Improve My Personality" was answered by members at roll call. Principal business was making plans for a buffet luncheon at the next meeting when Mrs. Marvin Doughty will be hostess. The meeting will begin at 11 a.m. The date is April 13.

After adjournment, refreshments were served to members and two guests, Mrs. Nig Wilson and daughter Linda.

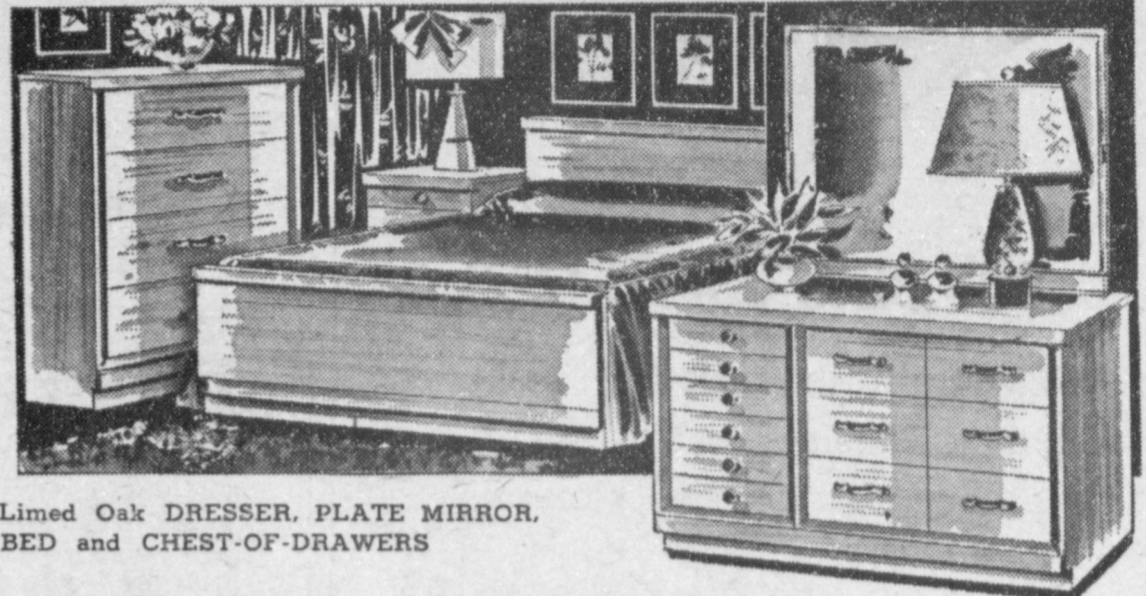

A Matter of Comparison?

The boy walked unhesitatingly up to his father. "Dad, here is my report card," he said, "and here also is an old one of yours that I found in the attic."

In the future, you may change kitchens frequently, much as you change automobiles today. Entire integrated kitchens, walls and all, in modular sections to fit any kitchen arrangement will be manufactured by Frididaire division of General Motors in late 1956.

Hornets in 3-Way Tie for Second in 40-B Track Meet

Muenster tied with Era and Callisburg for second place while Valley View took first by a comfortable margin at the 40-B district track meet at NTSC, Denton, last Friday.

The Eagles, with a monopoly in the hurdles and first places in the 100, 220 and 440 events piled up a total of 41 points while the other three Cooke County schools deadlocked at 25 each. Other team scores in the meet were Alvord 13, Sanger 12½, and Saint Jo 11½.

Car trouble possibly prevented the Muenster boys from nudging ahead for undisputed claim to second place honors. Entries who were booked for the pole vault, high jump and hurdles were delayed almost an hour on the road and arrived after the events were finished. As little as a fourth place in any of those events would have put the Hornets in the clear for runner-up honor.

Owen Lee Christian of Valley View succeeded Joe Noggler as the sensation of the meet, though falling considerably short of Noggler's '55 record. He won first in the 100, 220 and 440 events as compared with Noggler's five firsts and also failed to match Noggler's time in the runs. In the two hurdles events Valley View made a clean sweep except one fourth place by Saint Jo.

Point winners for Muenster were: Harris, first in the mile run, Milner, first in shot-put and third in discus; Richey, second in 220 and third in 100; Kaderli, second in broad jump; Hamric, third in 880. In addition the mile relay team came in second.

Father-Son Dinner

by stating the duties of their offices. Dee Kaderli extended the chapter's welcome and M. D. Kaderli responded for the dads. James Wolf made a presentation to the chapter sweetheart, Miss Jean Wieler, Jimmy Biffle gave a summary of projects and Dickie Cain introduced the guests. Rev. D. S. Pettijohn gave the invocation and Father Christopher Paladino the benediction.

Heading the list of out-of-town guests was I. L. Samuels of Denton, area FFA supervisor, who helped organize the local chapter in 1949. Other visitors were representatives of the county agent's office, Station KGAF and the Forestburg and Callisburg FFA chapters.

The meal was prepared and served by FHA girls under the direction of Mrs. Joe Lehnertz and Mrs. H. H. Homsley. Margaret Milner played the piano during the dinner.

Confetti - - -

There could be no more appropriate time for inaugurating the triumph over the modern Anti-Christ than during the period which commemorates our Savior's triumph over the eternal Anti-Christ. Jesus sacrificed himself in order that humanity might know truth and freedom. On the anniversary of that great event truth and freedom suddenly seem to find new strength. They are shaking off slavery abroad and lethargy over here.

HERBAGERE

(FROM SEED TO FEED IN 6 DAYS)

The following information and test records have recently been taken from DHIA records of Carrington Dairy Farms of Austin, Texas.

Cow No.	Total No. of Days cow was on test without Herbageres For the year 1954-55	Lbs. of Milk the Cow Produced	Lbs. of Butterfat Produced	Total No. of Days Cow was on test with Herbageres For the year 1955-56	Lbs. of Milk the Cow Produced	Lbs. of Butterfat Produced
1	127	5,708	202	124	7,658	279
2	173	7,889	284	180	11,286	359
3	172	7,000	261	161	9,886	359
4	178	6,263	204	174	9,165	284
5	120	3,537	133	116	6,978	243
6	130	7,892	262	135	9,384	325
Total	900	38,289	1,346	890	54,357	1,849

The Carrington Dairy Farms, as is evident from the above chart, have shown an increase of 16,068 pounds of milk. This is 41.8 per cent above the previous year's production. The cows have been receiving the same rations and types of feed for the past three years, with the exception of having been fed the amazing new HERBAGERE GRASS this last test period.

At the same time butterfat content in the milk increased by 503 pounds or 37 per cent.

These records are on file at Austin and are open for inspection.

POULTRYMEN, Watch your local paper for additional information on the amazing new HERBAGERE grass machine.
