Floradell Endres, Eugene LaGesse Jr. Wed Here Saturday

—Boyd and Breeding Photo

In a Saturday evening ceremony, Floradell Endres became the bride of Eugene Herbert LaGesse Jr. in Sacred Heart church here with Rev. Louis Deuster officiating at 7 o'clock.

Parents of the couple are Mr. and Mrs. R. R. Endres of Muenster and Mr. and Mrs. E. H. LaGesse of Fort Worth.

The couple exchanged their vows in a double ring service before an altar adorned with white gladioli and greenery. Anthony Luke, organist, and Wilmer Luke of Fort Worth, vocalist, furnished the nuptial music.

Given in marriage by her father, the bride wore a waltz length

heavenly blue imported organdy dress over taffeta with matching mitts and satin slippers. She wore a blue shoulder length veil attached to a headpiece of laquered blue feathers, and carried her flowers, white roses, atop a misal which was "something borrowed." For "something old" she wore the groom's grandmother's wedding ring. She completed her costume with a single strand of pearls and matching earrings which were the groom's gift to her.

Mrs. R. D. Cogburn of Fort Worth was matron of honor, Cana Willburn of Amarillo, the groom's cousin, and Julia Ann LaGesse, his sister, and Dianne Endres, niece of the bride, were the feminine attendants. They wore waltz length dresses of navy blue organdy over taffeta, with matching lace mitts and navy blue hats and slippers. They carried light blue tinted daisies.

Phillip LaGesse of Houston attended his brother as best man. Hugh Endres of Albuquerque, the bride's brother, Pete McParkland of Fort Worth, and Jerry Endres, nephew of the bride, were groomsmen.

After the service, the newly married couple proceeded to the Blessed Virgin's shrine where the bride placed a bouquet of white roses and blue daisies on the altar.

Mr. and Mrs. Endres entertained with a reception at their home for more than 200 guests. The refreshment table, covered with a white lace cloth, held the crystal punch service and the tiered wedding cake. Mrs. Frank Hennigan of Albuquerque, sister of the bride, registered the guests.

When Mr. and Mrs. LaGesse left on their wedding trip she was wearing a yellow linen dress with yellow hat, white gloves and other accessories in white.

They will live in Fort Worth until September when they will go to Austin where he will enter the University of Texas. He was graduated from Laneri High school in Fort Worth, spent four years in the Navy, receiving his discharge in July 1954, and attended Arlington State College. His bride was graduated from Sacred Heart High school here in 1952 and since has served as a secretary for an insurance company in Fort Worth.

Among guests here for the wedding were Mr. and Mrs. Frank Hennigan and children of Albuquerque, Mr. and Mrs. Bob Kupper of Marlin, Mr. and Mrs. Wilmer Luke, Mr. and Mrs. Alfred Kuhn, Mr. and Mrs. E. H. LaGesse, Jacquelyn Krause, Barbara Foiles, Frieda Koenig and the Robert Howells and Gene Faircloths, all of Fort Worth, and Jerry Fette of Waco.

Monday Oscar Branson and grandson of Burkburnett visited the Frank Needhams.

Visitors Honored At Afternoon Party

Mrs. Val Fuhrman and Mrs. High Jackson entertained in the former's home Friday afternoon honoring Mrs. Bob Kupper of Marlin and Mrs. Ed Mason of Houston who were visiting here.

Guests were friends and classmates of the honorees. They enjoyed visiting and refreshments of punch and cookies.

Present were Mrs. Frank Hennigan of Albuquerque and Mrs. John O'Dowd of San Antonio, also visiting here, and Mmes. Alois Rohmer, Werner Clez, Leonard Yosten, Leo Lawson, Ray Stewart and Andrew Wimmer.

THE SOCIAL SECURITY SWINDLE

By John T. Flynn

I never thought I would live to see the day when the government of the United States would become a racket. Politicians, yes! There is always a good deal of racketeering in that second oldest profession. But for our government — Uncle Sam — to adopt that line is a little disillusioning.

The federal government is in several rackets. The one least excusable is the Social Security racket. This provides for old age and other pensions for workers in private industry. It does not apply to all workers, but it does to many, many millions. Here is how it is worked. The boss takes out of the protected employee's pay envelope each month a certain percentage of his wage and sends it to the United States Treasury. The boss pays a corresponding amount and this, too,

goes to the Treasury. Thus the covered workers are provided with pensions.

This is supposed to be a mutual system. The funds collected go into a great trust. Thus the workers who are working, and their bosses, pay benefits to those who retire and dependents of those who die. The whole operation is handled by Uncle Sam, as it should be. But the government has fixed the rate so high that each month the take of the Social Security Board is enormous. This very year the government will collect in these security taxes and taxes of other similar government plans something like ELEVEN AND A HALF BILLION DOLLARS. The rates are fixed so high that the various social security funds in the government's hands have accumulated on a fantastic scale. At the present time these funds, old-age, unemployment and other federal pension funds — have accumulated until they amount to some 43 BILLION DOLLARS.

Now what has become of these 43 billion dollars? The government has been paying benefits as they come due, but there is left some 43 billion in the government's hands. Where are these fabulous billions? Why your good old Uncle Sam has borrowed them. Of course, Uncle Sam does no borrowing in fact. The government in Washington borrows these millions. This means that the politicians borrow them. They borrow them and spend them on all those boondoggles which help them to stay in power.

If you have a policy in a private insurance company, your premiums are invested by the company not in its own stocks and bonds, but in the stocks and bonds of other corporations and governments. It at any time the private insurance company needs funds to meet its obligations, it can convert its investments into cash. But if the federal government needs money to meet its social security payments, it would have to go back to the workers, their bosses and the general taxpayers and tax them all over again.

The so-called security funds amounting to 43 billion dollars are all invested in federal bonds. The government has spent the money. To use these bonds to meet pensions it would have to go back and tax the people all over again to get the money. Who would be taxed? Who but the employers and their workers who put up the money in the first place?

Back in the early New Deal days when all sorts of fantastic government enterprises were suddenly popping into life, this problem of Social Security was among them. Competent students at the time warned against these fantastic funds. This writer recalls forecasting that if ever needed, the money would have to be collected all over again from the very people who supplied the money in the first place. But the temptation to the politicians who were running the government to borrow these funds and spend them on all sorts of boondoggles was too powerful to be resisted.

The Double-Cross

The course now is quite clear. Congress should put an end to the accumulation of any more such funds. It should then enable employees and bosses alike to reduce the take. And it should set up a congressional commission to investigate and study this whole indefensible policy. It should subject the system to a complete reorganization and thus save workers and their employers hundreds of millions of dollars every year.

Did He Think He Was God?

By Rev. Richard Ginder, associate editor, OUR SUNDAY VISITOR

COMMON SENSE is a wonderful thing. Along with our reason it can answer a lot of questions. It can tell us a lot about religion: that God exists, that we have souls. And it is good to know that our faith isn't just a blind trust, that there are reasonable answers.

But there are many questions we just can't answer on our own. Everyone at some time in his life asks the questions, "Where am I going?" "What happens when I die?" "If he prays and thinks hard, he can reason that he is going to God and that when he dies he will be judged by God for the life he has led."

Ginder

BUT STILL he asks: "How can I get to God? What kind of life does He want me to live? Our reason can get some of the answers to these questions. As St. Paul says, all men, 'have a law written in their hearts.' Following that law will bring men to God. But it isn't easy to know what that law is.

That's why Jesus Christ came to earth—to answer the questions men can't help but ask. Jesus came and told men where they were going and how to get there. That was His message.

BUT THERE was something different about the message of Jesus. He didn't just say He

knew a way, or had some of the answers. He claimed to be THE way; THE truth. He demanded that people believe in Him—and only in Him.

If someone were to come to your town today and tell you, "Unless you believe in me, you are going to be unhappy forever," you would call him a fanatic. If he told you that his message was the only true one, you would call him intolerant. "What nerve he has," you would say, "setting himself up above everyone that way. Does he think he is God?"

JESUS CHRIST spoke to men and told them that He alone was the Way to heaven. And He not only thought He was God—He proved that He was! He claimed to be equal to God, to be His only-begotten son. He also worked countless signs and wonders, unheard of since. It is impossible to believe that God would have allowed these wonders if Jesus were a liar or a madman, babbling about His divinity.

But if Christ was God, and the Gospels tell us He was, then His claims are true. When He told us He had the answers to life's problems—the answers we cannot get on our own—He meant it. We owe it to ourselves to examine His teachings to find out what we must do to gain heaven. This is the common sense, the intelligent approach to religion and the problems of life.

From where I sit... by Joe Marsh

Just the Facts, Ma'am!

Having a red-hot crime wave in town. Specs McGuire and Buck Hanson were caught taking money out of parking meters — again. I was at Police Headquarters when a nice old lady rushed in to report them.

"It was dark but I saw their faces in the flashlight beam," she said breathlessly. "You can't trust anybody these days!"

She got flustered when Chief Benson explained that Specs and Buck are authorized collectors—working nights after their regular jobs. "Have to get 'em uni-

forms," said Benson. "Third time they've been turned in!"

From where I sit, we ought to guard against accusing anyone of being "wrong" just because that's the way it looks to us. For instance, I've heard people talk against a neighbor because they didn't approve of his choice of beverage! (They liked tea, or something, while he preferred a glass of beer.) Be sure you have a case before you lay down the law.

W. C. Boyd States Platform in Race For District Judge

As a candidate for District Judge, Sixteenth Judicial District, comprising Denton and Cooke Counties, I wish to make the following statement to the readers of this newspaper, and to the voters of this community.

I am fully aware of the very serious responsibilities of the office of District Judge, and I did not enter the race without serious thought and consideration of these responsibilities and of my qualifications for such position.

The District Court tries cases when the amount in controversy

is \$1000.00 or more in civil cases and, in criminal cases, when the punishment is confinement in the penitentiary — or even death in the electric chair. The District Court also tries cases when title to land is involved as well as adoption, divorce, and the very serious attending problems of custody and support of the children of divorced parents.

You should give very serious consideration to the qualifications and the temperament of the man you elect as your District Judge. I am not seeking this office as a stepping-stone to a better position; I merely wish to serve you as the capable, fair, honest District Judge you need.

I am from a Denton County family of lawyers and judges. My whole education and training has been in the field of Government and Law. I hold a Bachelors and a Masters degree in Government from North Texas State College, and a Bachelor of Laws degree from Baylor University School of Law. I have actively engaged in the practice of law at Denton in partnership with my father since my graduation from Law School. Active practice of law is essential as a qualification for District Judge.

I have had cases in every category of courts in Texas, including the Supreme Court of Texas. I have tried cases in the District Courts of Denton, Cooke, Dallas, Tarrant, Collin, and Wise Counties. In addition, I have tried cases in the Courts of Civil Appeals at Fort Worth and at Waco, and, of course, many, many cases in the Justice and County Courts.

I am enjoying meeting the people in the Muenster area, but I am afraid that, much as I would like to, I will not be able to see each of you. I have a job to do, therefore my campaigning must be done in the afternoons and on Saturday. If I am not able to see you personally, please consider this my appeal to you to vote for me as your District Judge. I can and I will make you a good, honest, conscientious District Judge. I will appreciate your vote, and I will not let you down.

WANNA BET?—Julius Lewis, of Memphis, Tenn., above, is gambling \$100,000 on the probability that a ballplayer won't clout one through the bull's-eyed knothole of the ball-park fence during team play this year. He says that Lloyd's, the fabulous London, England, insurance firm, takes a cheery view of his enticing ad. They, too, are betting that no one will accomplish the theoretically possible feat.

DARI-KOOL
BULK MILK COOLER
 The Bulk Cooler that's
 10 Years Ahead

In a wide variety of sizes from 100 to 700-gallon capacities.

Dari-Kool cools faster because it has a larger cooling surface than any other cooler. The milk cannot freeze because the coolant is ice water. Dari-Kool units are complete—ready to operate—nothing else to buy or install. All tanks are stainless steel inside and out. Get the cooler that leads in sales—leads in value—leads in performance!

Cuts Work and Handling Costs
Improves Milk Quality—

DARI-KOOL MEETS ALL 3-A SANITARY STANDARDS

- ... Cools Faster
- ... Easier Cleaning
- ... Ready to Operate
- ... Complete Service Available
- ... Milk Cannot Freeze
- ... Stainless Steel Tank
- ... Lower Bacteria Count

The DARI-KOOL will pay for itself in use. HERE'S HOW...

The cost of hauling milk in cans is 40 cent per 100 pounds as compared with 25 cents per 100 pounds for hauling tank milk, thus a saving of 15 cents per hundred.

Elimination of wastage of milk spilled or left in the can at the plant is 7 cent per 100 pounds.

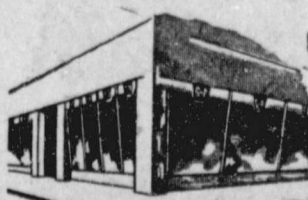

Improved butterfat test gained by selling all the cream instead of leaving some of it sticking to the can and lid account for another 6 cents per hundred.

THIS GIVES A TOTAL-SAVING OF 28 CENTS FOR EACH 100 POUNDS OF MILK HANDLED. THIS 28-CENT A HUNDRED SAVING WILL PAY FOR YOUR DARI-KOOL.

A producer with an average of 10 cans of milk (86 pounds each) a day will sell 25,800 pounds per month. At 28 cents per hundred saving, he will be ahead by \$72.24 each month.

The approximate cost of a 250-gallon tank installed is \$2,400 with interest of \$216 for a total of \$2,616. This can be divided into 36 monthly installments of \$72.11 each. **THUS YOUR SAVINGS MAKE YOUR PAYMENTS FOR YOU.** This estimate is without down payment or trade-in, which would cut the principal and monthly payment substantially.

All sizes of good USED CAN COOLERS for sale.

Imported Variety Of Game Bird Gets Panhandle Tryout

AUSTIN.—Another new game bird, described as "a hair smaller than bobwhite quail," is being introduced into Texas in an effort to bulwark native upland species.

It is the seesee partridge which originated in Pakistan, according to the Assistant Director of Wildlife Restoration of the Game and Fish Commission. The first air shipment of sixty-seven seesees is being held in pens in the Palo Duro Canyon area, south of Amarillo, where the fleet birds will be released after they have recovered from the exhausting flight.

The new species are found in the dryer parts of West Pakistan and are accustomed to rugged barren areas.

Meanwhile, Wildlife Biologist A. S. Jackson of Canadian, who supervised receipt of the seesees, reported progress on a previously introduced exotic wild game bird. A Cottle country rancher said he saw a female red-legged partridge and young. This is the first brood reported of this larger game bird which was obtained from Spain.

The original shipment of the red legs was received in West Texas last year. A second consignment recently was released in that area. Both red legs and seesees were obtained by the Commission through the U. S. Fish and Wildlife Service.

Restoration authorities constantly strive to adapt new species to various areas and point to the incredible success with Chinese ring-necked pheasants as justifying the effort.

The Palo Duro Canyon country which will receive the first seesee shipment also is scheduled to get seed stock of wild Aoudad Sheep which are on order at this time.

The opossum is very prolific, producing 6 to 15 at a birth.

Garden Club Closes Current Year With Plans For Summer

Meeting Monday night for the final session of their current year, members of the Civic League and Garden Club discussed plans for the summer and activity during the coming three months until they resume regular sessions again in September.

The meeting was held in the attractive and comfortable out-

door living room at Mrs. Nick Miller's home with Mrs. M. J. Endres as co-hostess. Fifteen members and one guest were present.

Among plans for the summer are continuance of cemetery beautification and upkeep, care of Veterans Memorial Park, grooming of flower beds at the Public school, attention to city marker sites and preparation of the new year books.

The program and year book committee headed by Mrs. Edd

McGannon includes Mrs. L. B. Bruns, Mrs. Dan Luke, Mrs. Joe Luke and Mrs. Lee Toothaker. They will meet to plan the organization's program for next year and will have the books ready for distribution in September.

Mrs. Tony Gremminger, president, presided for the business meeting and committee chairmen gave reports. These included the following: St. Augustine grass, recently donated by the club has been planted at the Municipal Park by city employees and is being watered; the ball park was cleaned and mowed, plants at the cemetery were sprayed and the highway marker area was cleaned.

The program of the evening, on birds, preceded the business meeting. Members answered roll call by naming a bird and giving a short topic on it. The informal discussion brought out interesting and instructive information on these feathered friends. Among birds named and discussed were the English sparrow, woodpecker, mocking bird, whooping crane, parakeet, quail, purple martin, hummingbird, red bird, painted bunting and pigeon.

After adjournment there was a social hour during which the two hostesses served attractive refreshment plates of ice cream topped with a cherry, two kinds of cake squares, coffee or tea, mints and nuts.

Two flower arrangements were displayed. Mrs. Miller centered the outdoor table with zinnias in a brown bean pot and Mrs. Joe Luke arranged gardenias and day lilies in a milk glass epergne.

Present were Meses. L. B. Bruns, M. J. Endres, R. R. Endres, R. N. Fette, Tony Gremminger, H. H. Homsley, Ben Luke, Dan Luke, Joe Luke, Edd McGannon, Nick Miller, T. S. Myrick, Arnold Rohmer, Lee Toothaker, J. M. Weinzappel and Rosa Driever.

Have you heard about the visiting Texan who tipped a waiter \$100?

"I beg your pardon, sir," gasped the waiter. "Do you realize how much you just gave me?"

"That's to teach you a lesson, son," growled the Texas. "I didn't leave my usual tip because I wasn't too satisfied with your service."

If a woman driver puts out her hand, it means just one thing. The window of the car is open.

W. Scoggins Among Honored Guests at Phillips Co. Dinner

W. L. Scoggins was among honorees and Mrs. Scoggins was among special guests last Thursday when Phillips Petroleum company honored 180 long-service employees from its widespread territory at a dinner in the Adams building auditorium at Bartlesville, Okla.

The dinner was a part of Phillips program honoring all employees who reach their 25th, 30th and 35th service anniversaries with the company and its subsidiaries. Recognition was extended to employees in 15 states and one foreign country who celebrate such anniversaries during the first half of 1956. Guests included wives or husbands of the honored employees, department heads and top Phillips officials.

Mr. Scoggins was honored for 30 years of service. He has spent his entire company career in the production department. He served at various locations in Texas as roustabout, pumper, tool dresser and truck driver before transferring in 1949 to the Muenster area as a pumper.

Among highlights of the affair for Mr. and Mrs. Scoggins was the plane trip from Wichita Falls to Bartlesville. The all-expense paid transportation was provided by the company.

SH Alumni Slates Gun Shoot June 24

Another group of members volunteered to take care of a sandwich and cold drinks stand.

Roof Lifting - - -

keep the two from sticking together.

While the floor was being poured stud bolts were imbedded in the concrete to secure the pillars. Next the pillars were installed and each was fitted with a heavy steel collar which is to serve for lifting and finally for supporting the roof in place. As the roof is lifted the collars slide up the pillar and they are finally welded in place.

The lifting is accomplished by means of an electrically powered hydraulic jack mounted on each pillar. From each jack two heavy rods reach down and hook into the steel collar. When all rigging is complete the jacks are operated simultaneously from a central control board so that the lift at all posts will be uniform. Controls, wiring and workers, all ride up with the slab.

As a safety precaution each jack also has an auxiliary mechanical device capable of holding the load in place in case of power failure or other trouble.

When the roof is in place each collar is permanently welded to the pillar and the project is ready for its walls.

Lift-Slab is a copyrighted method of construction developed and licensed in San Antonio. It was first used in 1950 and has been used since then on 258 projects in 30 states and 3 foreign countries. Texas leads with a total of 83 jobs and California is next with 40. Some of the buildings are five stories high, with a slab for the roof and each floor above the first, all lifted into position by the Lift-Slab method.

Assisting them Saturday and Monday will be Mrs. Paul Yarbrough, water safety chairman for the county chapter and Mrs. Marie Owenby, chapter secretary.

Krebs-Kuhn Rites Set for June 26

Mr. and Mrs. Frank Krebs Sr. have announced the engagement and approaching marriage of their daughter, Doris Marie, to Henry Kuhn Jr., son of Mr. and Mrs. Henry Kuhn of Lindsay.

Honoring the bride-elect, Mrs. Leon Krebs and Mrs. Ed Wolf entertained with a miscellaneous shower Sunday afternoon in the former's home. Refreshments of cake, ice cream and cold drinks were served to 25 guests.

The wedding will take place in Saint Mary's church at Gainesville on June 26 with Rev. E. J. Gerlich officiating.

Carolyn Hoedebeck will be maid of honor and Linda Kuhn will be bridesmaid. Jerry Hoedebeck and Melvin Kuhn will attend the groom. Vicki Kuhn will be flower girl and Larry Wolf, ring bearer.

The bride-to-be lives at Downard-Fairplains and is employed in the bookkeeping department at Schad and Pulte. She was graduated from Gainesville High school in 1953.

tion, entertainment and extra help for chores and housework. The progress they have made is no less apparent than the excellence of the building which grew out of service to them.

Therein, to a very great degree, lies the value of the co-op

to Muenster. Prosperity of its many members in this trade area has reflected in community prosperity. Likewise every other community served by the system has felt the benefit of the co-op's service.

In addition, Muenster has enjoyed the direct benefits of a

substantial local payroll and a considerable share of the co-op's current business. The dollars that start from there do lots of good before they quit rolling in this town.

There are plenty of things for Muenster to appreciate as it turns out next Sunday to see the co-op's new setup.

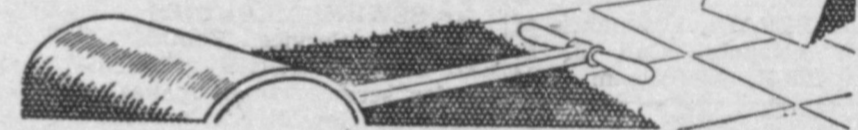

We proudly announce that
