NUMBER 37

An incident of a few nights ago gives us reason to wonder whether riots are approaching the stage of open conflict between Whites and Blacks. In Chicago a mob of Negroes marched into an area occupied by Whites and ran into opposition that set them back in a hurry. It was the first clash between the races, an alarming new development after the dozens of violent binges carried on exclusively by colored hoodlums.

For a long time white people have been working up a slow burn over the predicament, but have kept their distance while expecting the authorities to get things under control. Well, the clash may be a sign that the law did settle things soon enough. Hatred of "Whitey" is slowly being matched by hatred of the "Niggers." It could lead to serious trouble unless law and order is restored quickly and firmly and fairly — with a definite understanding that trouble makers of the future, whatever color, will pay for their violence.

The best place to start that change of policy is near the top. For instance the rash statements uttered recently by Vice President Humphrey and Secretary Weaver of the Housing and Urban Development Department. The VP said he'd cause more trouble than they if he were in their place. The secretary said he wondered why there haven't been more riots, and sooner. Both men practically endorsed the waves of lawlessness and excused them on grounds that society rather than the offenders ought to be blamed.

Think it over and you'll have to agree that this attitude has caused not only the riots but a great number of our country's crimes. The sob sisters keep wailing that the poor misguided criminals are victims of circumstances and cannot rightly be held responsible. So murder, rape, robbery and rioting and various other crimes of violence draw light sentences or none at all. It's easy to see why crime is booming.

What this country needs is to go back a few decades on the subject of criminal responsibility and think it over carefully using Scripture and common sense as guides. Human beings today as always are made with minds and free wills to know and to choose between right and wrong. Furthermore they have Divine assurance that "His grace is sufficient." Before God and conscience no sane man can escape responsibility for his deeds. To excuse criminals on grounds that they are victims of circumstance was unheard of for centuries and it still does not make sense today. Hoodlums who violate the laws of God and man are guilty and they know it.

That fact is equally obvious from a simple look at the circumstances. It is not true that people are inevitably drawn into crime by the ghetto. Millions of God-fearing self-respecting people live there with the hoodlums. They stay home and behave while the trouble makers go on rampage. They are proving daily the absurdity of the claim that the ghetto makes criminals.

Another thought along that line is that more cramped and more shabby ghettos all over the world are not erupting in wholesale violence. There are places in Japan, India, China, and in various other parts of the world where people are far more miserable than any Americans, but carry on without rampage. They are daily exploding the theory that people can't help going wrong when the are cramped — daily proving that society need not point the guilty finger at itself when some of its members get out of hand. The simple fact is that some people choose to be stinkers. And they can be found in plush surroundings as well as shabby.

However, we must admit that society is at fault to some extent. That is in permitting the silly notion that other people are to blame for the misdeeds of criminals. No other condition in this country has done so much toward encouraging criminals and hoodlums to continue their lawless ways. And no effort at restoring order will really bear fruit until we re-establish the principle that criminals are responsible and accountable for their crimes.

Service and Reception Observe Golden Anniversary of Ben Lukes

Mr. and Mrs. Ben Luke who were married here 50 years ago celebrated their golden wedding anniversary Saturday. They reached the golden milestone on August 1 but had the observance Saturday for the convenience of out of town relatives and friends. Two hundred and thirty from a wide area were present for festivities, including their ten children and families who

came from three states to attend.

A son, Father Eugene Luke, was celebrant of the anniversary Mass at 5 p.m. in Sacred Heart Church and directed renewal of vows his parents pledged a half century ago. Another son, Anthony Luke, church organist, played for the Mass which was sung by Sacred Heart men's choir of which his father has been a member for 58 years.

Notes on Building and Improvement

The newest building job in town is Ronnie Russell's on West Third. Roofing is just finished and inside work is starting on the 3-bedroom house with two baths, brick veneering, attached garage, central heat.

At Bulcher Tommy Hare is at about the same stage of progress on his new home which features 3 bedrooms, 2 baths, double carport, central heat and brick veneering.

The Bill Lukes have finished carpenter work and are waiting for floor covering, electrical installations, etc., before moving about August 15. They have three bedrooms, two baths, central heat, double garage, brick veneering.

Steve Mosters have finished their major remodeling job which included converting the former garage into a bedroom and bath, adding utility, den and carport, remodeling kitchen and bath and refinishing other rooms.

Another remodeling job is under way now by Meinard Hesse on the former Nieball house. It includes adding a bedroom, carport and utility and re-working all of the old part of the building.

Preceding new homes which are due to begin soon, are water wells on locations purchased by Willie Walterscheid and Donald Endres. Both are south of town, Willie just across Brushy Elm in a wooded area bought from Mrs. Mike Kleiss, Donald on the Hofbauer hill overlooking town.

Some other repair jobs are a new roof for Mrs. Anna Trachta, Don Cooke, John Hacker and J. A. Klement, screens and outside paint for Leo Henscheid, inside and outside paint for Buddy Yosten, and outside paint for Mrs. Theresa Moster, Rosa Driver, Dick Cain, J. J. Wieler and the Gulf Station.

In commercial building the current big job is Pagel's Store. Walls and roof are finished and men are working now on ceiling, doors, plate glass, ducts for heating and cooling — expect to start installing fixtures, counters, etc., in about a week.

A-OK Motel is finished now, some of the work being done after the place was open for business. The last jobs there were pavement and landscaping and a wall to the north and east of the swimming pool.

Also recently finished is the feed processing department at Tony's Seed and Feed. It's a push button operation beginning to end with lots of storing and processing capacity.

The Center has changed front walls of the coffee shop and bar using small, high level windows and bricks instead of the previous full length plate glass. It also has an inside refinishing job.

Adam Wolf Buys Muller's Interest In The Center

Adam Wolf will soon be the sole owner and manager of lounge, coffee shop and bar at The Center. He said Wednesday that he and his partner, Clyde Muller, have agreed on a deal whereby he becomes full owner as soon as he receives a license to operate the business.

They intend to close their transaction when the new license arrives. Until then they will continue operating on their partnership license.

Wolf takes over complete ownership after being in partnership with Muller for a year and eight months. He came to the Center on December 1, 1964.

Muller did not reveal his plans for the future.

Goes to Ireland

Brother Thomas Moster extended his European tour one week to see Ireland. That was the word from Portugal where the highlight was a pilgrimage to the Shrine of Our Lady of Fatima. He left for Ireland July 26 and said he would be back home early in August.

Visiting In Germany

Mrs. Ludwig Kieninger left Monday by plane for Germany and a three-week vacation. This is a pleasure trip to visit friends. Her other visit in Germany was 13 years ago when she and her husband and family were displaced persons from Czechoslovakia and knew what it meant to be in a concentration camp. They went to Chile and she and the children came to Muenster in August 1960 to join Mr. Kieninger who came to this country in May 1959.

Virgil Henscheid Will Coach Tigers Of Sacred Heart

Efforts of the Sacred Heart Tigers this football season will be under direction of a former member of the team. Virgil Henscheid will have charge of the boys even though he is not listed as a faculty member.

Father Alcuin said Wednesday that Henscheid continues his job at the post office and will have his work schedule there arranged so that he can be with the boys for practice and games. He will have no other duties at the school.

Practice for the boys will begin on Monday, August 15, and the regulations observed will be the same as those applying to B teams of the Texas Interscholastic League, some of which are on the Sacred Heart schedule. The Tigers belong to the Texas Catholic Interscholastic League, where the district title last year and have strong hopes of repeating this year.

Practice regulations call for a week of conditioning featured by calisthenics, running and passing and then regular football practice in full uniforms.

The season schedule: Sept. 9, Saint Jo, here. Sept. 24, Jesuit B, here. Sept. 30, Anna, there. Oct. 7, Fort Worth Day School, here. Oct. 14, Greenhill, there. Ultra Modern Feed Processing Plant Completed

The feed department of Tony's Seed and Feed, Inc., went into business last week on completion of the firm's ultra modern feed processing plant. Construction and installation had been under way there for several weeks since Stockmen's Feed Store moved out of the building and into its new plant south of the railroad.

Remodeling on the building amounts to practically a new construction job — that is, the area used for office and packaged items, was not changed.

At the back the project started with a new concrete floor to replace the wood, then new walls about ten feet higher and finally a new higher roof to accommodate all the equipment that was coming. In addition there's a new extension at the north side for unloading trucks and new outside bins for feed storage.

All of the incoming grain is handled by automatic equipment. Dumped into a pit, it is moved by conveyor to the elevator which lifts it some thirty feet to an exchange with seven gravity outlets to bins. The same elevator is used to get ground and rolled grains to their proper bins.

The feed processing is basically simple. Grain is ground or rolled and hay is ground then they are mixed in desired proportions with desired additives. But there is an abundance of equipment to get those jobs done. The grinder is a standard heavy duty hammermill, automatically fed and the finished product carried to a bin above the mixer or a storage bin.

Another machine, fairly new to the feed industry, is a (Continued on page 8)

Car Insurance Will be Set by Driving Records

How you drive that automobile during the next 12 months will determine what you pay for car insurance a year from now.

Traffic violations, as well as accidents, will appear on your experience record and will count against you.

New plan designed by the State Board of Insurance will hit where it hurts the most — the purse.

Or conversely, if you care to look at it that way, it will lighten the load on those who are penalized by higher rates because of the carelessness of others. And that's the way it really is, since some kind of increase is necessary.

Penalty points now are being assessed motorists for accidents and major violations... including speeding.

One penalty point will mean a 15 per cent hike, two points 35 per cent, three points 60 per cent and four or more points 90 per cent.

Major violators — like driving while intoxicated, negligent homicide, hit and run or felony driving offenses — will cost drivers three points.

Two points will be assessed for driving while a license is suspended or for violations resulting in suspension.

One point will be charged for accidents where there is injury or death — or property damage over \$50 — and for speeding. Speeding points are not counted until after one or two "free convictions" in the preceding year or three years.

After 1969, penalties will be based on driving records over a 36-month period.

Twelve exceptions to the "point" rule are listed, however, and one of them includes accidents in which the driver is not at fault.

Unlike the old retroactive, statewide plan of 1960-62 which created so much controversy, the current plan is based on experience in 26 separate rating territories and considers no offenses prior to August 1.

Coaching Job Is Still Open at Muenster High

With only ten days to go before the start of football practice, the Hornets of Muenster High School are still orphans. Superintendent L. B. Bruns said Wednesday that the prospect he had in mind did not accept the job and he had no one definitely in mind at the time.

Meanwhile he is still planning to start football practice on Monday, the 15th, the date specified by Interscholastic League. When a coach signs he will find the preparations up to date.

According to Interscholastic League, Bruns said, the players will start with a week of conditioning, mostly running and passing in lightweight clothes and gym shoes, and will start contact practice in regular uniform the second week. They will have four weeks of practice before their first game on September 9.

The Hornet schedule, Bruns said has nine games, three non conference encounters and an open date before the start of the district race, which will consist of six games. The district has seven members this year so one of its teams will be idle each week during the district season. The Hornets have their open date on October 28.

The complete '66 schedule is as follows:

Sept. 9, Lindsay, there. Sept. 16, Valley View (Kamay), here. Sept. 22, Ardmore B, here. Sept. 30, open. Oct. 8, Callisburg, here, Homecoming. Oct. 14, Chico, here. Oct. 21, Valley View, there. Oct. 28, open. Nov. 3, Era, here. Nov. 11, Saint Jo, there. Nov. 18, Alvord, there.

Thursday was homegoing day for golden wedding visitors at the Ben Lukes. Father Eugene returned to Subiaco with the Gene Lukes, who went on to River Falls, Wis. And the Charles Dennys headed for San Antonio via Arlington for a stop at Six Flags and the Harold Lukes. The Alfred Kuhns will return to Midland during the weekend.

COSTLY POVERTY PLAN

Sargent Shriver's anti-poverty war keeps cropping up in the news periodically, much of it not good. Equally disturbing are the news reports that come out of Edison, N.J., where Camp Kilmer Job Corps Center is located.

No one, with the possible

exception of Sargent Shriver himself, seems to be very happy with Camp Kilmer.

In the first place by Mr. Shriver's own acknowledgement, it is costing some \$6,000 annually to keep each boy at Camp Kilmer. A great many people including United States Senator Hugh Scott, are astounded with this figure, which is much more than it costs to keep the average student in college.

Sargent Shriver has his own explanation. He reminds us all that a student in college

attends for approximately nine months of the year and pays for the specific instruction he receives.

On the other hand, the youths in the Job Corps Center at Camp Kilmer are actually given training or instruction on an around-the-clock basis.

It's not fair. Sargent Shriver points out, to compare the cost of college instruction with that of the Camp Kilmer Job Corps Center. And, indeed, it is not fair. The waste at Camp Kilmer is beyond description. Furthermore, if anything was being done for the youths attending that camp, it would be a different story.

But, the facts show that over a period of months, corpsmen at Camp Kilmer have been accused of drunkenness, the use of narcotics and assaults on local residents.

Last month, seven were expelled from the corps for stoning cars on a highway that passes through the camp. A week later, almost 1,400 residents of the community signed a petition, which was presented to the city council, asking that the Camp be moved from Edison.

Job Corps officials are taking steps to improve the situation at Camp Kilmer. They plan to build a sturdier fence along the highway, the cars on which were stoned.

It's a recognized fact that poverty cannot be wiped out by spending money. If it were possible, we would need to do nothing but provide the needed money and wipe it all out in one full sweep. But, it won't work. And, the high cost at Camp Kilmer, along with the results, prove beyond a doubt that it cannot be done.

DAY OF RECKONING

Nearly all governments throughout history have repudiated their financial obligations, although we do not know of any that have been honest enough to formally declare it is bankrupt.

Most of the nations of Europe, except Finland, in effect repudiated their World War I debts. If the creditor nations, including the United States, were to press for payment of those obligations, it is presumed the debtor nations would either formally repudiate them or would pay them with inflated currency. Little Finland earned the admiration of most of the world through continuing to pay its debts in the face of great tribulations.

The United States government repudiated its obligation to redeem in gold the currency held by its citizens, although it still is redeeming in gold the currency held by foreign nations.

The usual means a government uses to repudiate its debts is to increase the amount of currency in circulation and through expanded credit—that is, through inflation. In Germany when inflation became runaway, the currency was virtually valueless, and

holders of bonds considered they were not worth redeeming in the worthless currency. The United States inflation has not yet become runaway, but it is paying off its matured bonds with less valuable currency than it borrowed when bonds were issued.

As long as the national government has unlimited taxing power, it can continue its irresponsible spending. But when buyers, including banks, refuse to purchase bonds and when large numbers of people refuse or are unable to pay their taxes, then the likelihood is that the printing press money will start rolling out in great quantities in the galloping inflation. That is when the "day of reckoning" will occur.

Paying off government obligations with less valuable currency has the same effect as a private individual or corporation paying off its debts on a percentage basis through a bankruptcy proceeding. But governments seldom formally admit bankruptcy.

NOTHING IS FREE

As the government and the medical profession seek to discharge their duties to older people under the medicare law, everyone should be reminded again and again that there is no such thing as a "free" service. Nothing in this world is free and nothing new has been created under medicare. By law, the taxpayers are paying some of the medicare bills of a selected group of people. As time goes on, the law may be revised to include the care of other age groups. Medicare may eventually be extended until it becomes a national health service such as was adopted in Britain nearly 18 years ago.

The British plan of government medical care which was to provide free service to all is threatened with a disastrous breakdown. A British Medical Association reports that, "Unless vast new sums of money are made available—from some source or another—the present concept of a hospital service must be abandoned... Half of the nation's hospitals are more than 80 years old, and only two new general hospitals have been built since 1939. The British Medical Association reports: 'If the public wishes to have an unrestricted health service, it must be prepared to pay for it...'"

It is the obligation of the people, all of us, to remember that medicare does not mean "free" medical care. The more that is demanded in the way of service from the hospitals and doctors, the more it is going to cost unless we wish to end up with a bankrupt medical system as Great Britain appears to have done.

RIGHT TO WORK

Little more than three months ago the U. S. Senate stunningly defeated a move to repeal Section 14(b) of the Taft-Hartley law, which would have legalized compulsory unionism in all 50 states.

President Johnson has promised to fight again for repeal of 14(b), and his statement ties in with the announced aim of officials of the major unions to step up their political activities in order to elect more supporters of repeal of the House and Senate.

The 19 states where Right to Work laws guarantee individual freedom for wage earners continue to lead the nation in rate of economic growth, according to statistics published by the U.S. Department of Labor and the U. S. Department of Commerce. Right to Work states lead in the creation of new jobs in business and industry, in wage improvement, industrial jobs, and in producing new wealth and personal income.

Right to Work has had a stimulating effect on the economy of every state where it has been enacted. It has proven a boon to workers, employers, and investors. And is surely proves that free men, whether management or labor, prosper in an atmosphere of freedom.

Sunburn Fading As Status Symbol

One dermatologist (skin specialist) has predicted that suntanning some day will no longer be a "status symbol" and that people will quit basking their outer hides to a golden brown each summer.

The dermatologists have long known of the hazards of suntanning, such as premature aging of the skin and various freckles and blemishes.

But your doctor also knows that, whatever the future brings, some Americans today still are suntanners, and thus the American Medical Association suggests that if you must tan, do it without burning.

Gradual tanning with a minimum of discomfort is possible for most people. Gradual exposure to the sun is the safest and simplest method of acquiring an attractive tan. As a general rule, begin with fifteen minutes exposure the first day, and increase the time by a few minutes a day. The time of day is important, with the midday period, when the sun is directly overhead, being the hottest for burning purposes.

Continued tanning brings gradual changes in the blood vessels of the exposed surface. The connective tissue of the skin degenerates, causing wrinkles and a coarsening of texture. The "V" of the neck becomes permanently reddened and freckle-like dark spots appear on the skin. These spots can sometimes be the start of skin cancer.

Sun bleaches the hair, too, and over a period of time the sunbleached hair becomes brittle and unmanageable. However, the damaged hair will eventually grow out.

The physical benefits of tanning are almost nil. The only beneficial effect of sunlight, other than psychological lift of sporting a good tan, is the formation of vitamin D, and the American diet already provides an ample supply.

Texas Loan Plan Is Available to Students of CCJC

The Texas Opportunity Plan, a state program of loans to college students, will be available to Cooke County Junior College Students beginning with the fall semester, 1966.

President John H. Parker announced today that CCJC has entered into an agreement with the Texas Coordinating Board for Higher Education to authorize loans to students who need financial assistance to attend college.

Loans may not exceed the difference between the financial resources available to the student and the amount necessary to pay his reasonable expenses as a student. The total loan to any student may not exceed the amount he reasonably could be expected to repay in a period of five years after he is last enrolled in a participating institution. In any academic year the maximum loan that may be borrowed by any freshman or sophomore student may not exceed \$1,000.

To qualify for a loan, the student must be a resident of Texas, must be accepted for enrollment, and must establish that he has insufficient resources to finance his college education. He must be recommended by reputable persons in his home community and comply with such other requirements as may be established by the Coordinating Board.

The student must be meeting the minimum academic requirements of the institution in the semester any loan is made and must be carrying at least one-half the normal course load for a full-time student.

Interest rates on student loans will be set annually by the board at a rate sufficient to pay the interest on outstanding bonds plus expenses incident to their insurance, sale, and retirement. The board has set the rate at six per cent for 1966-67.

Insurance on the life of the borrower in an amount sufficient to retire the principal and interest owed under a loan is required. The cost of such insurance is to be paid by the student.

Repayment of loans is to be made directly to the board monthly and begins four months after the student is last enrolled in school but not later than five years from the date of the first note unless the Coordinating Board authorizes a longer period.

If the student borrower is eligible for the interest subsidy provisions, the interest on loans made from the Texas Opportunity Plan Fund would be paid by the Federal Government while the student is in college and 3 percent on these loans thereafter.

Texas voters in November, 1965, authorized the issuance of \$85 million in general obligation bonds to underwrite the Texas Opportunity Plan. The Coordinating Board already has issued \$10 million in bonds.

Students interested in the Texas Opportunity Plan may make application with the Dean of Student Services (HO5-3476) at Cooke County Junior College, Gainesville. Application forms should be completed and returned to the Dean of Student Services not later than August 25, 1966.

Discussing the problems of raising teenagers, one lady asked of her farm neighbor, "Is it hard to get Johnny out of bed in the morning?"
 "Not at all," replied her friend. "I just open the door to the bedroom and throw the cat on his bed."
 The neighbor was puzzled. "How does that awaken him?"
 "Very simple," was the reply. "He sleeps with the dog."

Medders' Vacation Marred by Death Of Nephew in N.D.

Mr. and Mrs. Ernest Medders returned Saturday evening from a trip that began as a happy vacation in Memphis, Tenn., with a daughter and family, the Thomas Murphrees and old friends and ended sadly by the sudden death of a nephew in Minot, N.D., and attendance at his funeral, July 27, in Oakridge, Tenn. Mr. and Mrs. Tom Thorpe of Dallas were on the Memphis trip with them.

While they were in Memphis the Medders received word that their nephew, C. B. Smiddy Jr., 24, whose home was in San Jose, Calif., had died as the result of injuries received in an industrial accident on the job. His transfer to North Dakota was a temporary assignment.

At the same time, but before knowing that his son died, the father C. B. Smiddy Sr. of Kansas City suffered a heart attack and was unable to attend the funeral. He is recovering now.

C. B. Smiddy Jr. is survived by his wife and a five-year-old son, his parents — both families have been Muenster visitors — one sister and one brother, both of San Jose, and his grandmother, Mrs. Joe Smiddy of Muenster.

Returning with Mr. and Mrs. Medders was their niece, Mrs. William Parks of Muenster. Joining her Monday were her brother and family, Mr. and Mrs. Fred Smiddy and children Debbie and Freddie of San Jose. They planned to spend several days here enroute after attending their brother's funeral. They especially wanted to see their grandmother Smiddy.

Mrs. Parks' husband and two sons who also attended the funeral spent a few days with relatives in Oakridge before flying back to California.

County FB Sends One Student to Citizen Seminar

One high school student of Cooke County will attend the fourth annual Texas Farm Bureau Citizenship Seminar at Baylor University, Waco, August 9 to 13, according to B. F. Almon, president of the Cooke County Farm Bureau.

Mike Halliburton, son of Mr. and Mrs. Francis Halliburton, will be sponsored at the seminar by the Cooke County Farm Bureau.

Four nationally-known educators and lecturers will address the more than 350 high school juniors and seniors from Texas who will attend. They are Dr. C. L. Kay, vice president, Public Affairs, Lubbock Christian College and winner of many awards including a special citation by former President Dwight D. Eisenhower; Dr. Clifton L. Ganus Jr., president and head of the Department of History and Social Sciences of Harding College at Searcy, Ark.; Herbert A. Philbrick, noted author, lecturer and former counterspy for the FBI; and W. Cleon Skousen, author of The Naked Communist and former FBI agent and chief of police of Salt Lake City.

Golden Wedding -

The table's gold taffeta skirt touched the floor. Similar decor was noted on the center tables where the honor couple and their children and grandchildren were seated. Fruits and flowers formed the centerpiece. Gold candles on the tables totaled 50.

After Dinner Program
In an after dinner program, a son, Wilmer Luke was toastmaster. Speakers included Father Eugene, talking for the family, Father Alcuin Kubis, extending congratulations, and Alvin Fuhrman speaking for the choir. He commended Mr. Luke on his 58 years of service with the choir and presented Mr. and Mrs. Luke each a

gift from the choir.
The Luke family is a musical family dating back to the early days of the community when Ben's father, the late John Luke, was first church organist and choir director. And the rest of the after dinner program consisted of singing.

Misses Mary Nell and Sharon Denny charmed their audience with "Edelweiss" from "The Sound of Music," Sharon singing and her sister accompanying her on the piano. They received a big ovation and were called back for an encore.

Father Alcuin called on the choir to lead the assemblage in singing an old German love song, "Du, du Liebst Mier im Hertenzen."

Five grandsons, John Denny, Frank and Melvin Luke and David and Danny Fette were on the program in three numbers. They turned back the clock to 1916 and sang a number that was popular at that time, "You Great Big Beautiful Doll." Then for a half century later they sang "Silver Threads Among the Gold" and concluded with "They're a Jolly Good Couple." Anthony Luke was piano accompanist.

The bride of 50 years ago is the former Miss Mary Herr, a native of Muenster, daughter of pioneers, Mr. and Mrs. Fred Herr. For the anniversary observance she wore a white three-piece knit suit with white and black accessories and a yellow-throated white orchid and gold lace corsage. She wore a treasured keepsake, a gold chain and cross, now in the fifth generation on her mother's side of the family. It formerly belonged to her great-grandmother and came from Germany with her grandmother Eichhoff. It is handed down to the oldest

girl in each generation.
Mrs. Endres wore a pale yellow silk shantung suit with matching accessories and a green orchid corsage, repeating the colors worn at the wedding in 1916. The children, their spouses and the grandchildren all wore yellow rose corsages or boutonnières.

Ben Luke is a native of Leopold, Mo., and a Muenster resident since his youth. He is a retired rural mail carrier and partially retired farmer. The family moved from the city to their farm a mile west of town in 1930.

He ended more than a half century of service to rural residents of the area in Feb. 1958, seven months ahead of postal regulations which decree that retirement is mandatory at the age of 70.
Later that same month he received the "Man of the Year" award at the Lions Club annual banquet. He is a charter member of the local Knights of Columbus.

Mrs. Luke, a young 70, has gardening as her hobby. Flowers make her home a showplace. She also tends a vegetable garden. Other interests include membership in the Civic League and Garden Club and St. Anne Society.

Twelve children blessed the marriage of the goldenweds. Two died in infancy.
Celebrating with them were their three daughters and seven sons: Mrs. R. N. Fette of Muenster, Mrs. Charles Denny of San Antonio, Mrs. Alfred Kuhn of Midland; Anthony, Wilmer and Dan Luke of Muenster, Harold Luke of Arlington, Dr. Bernard Luke of Irving, Gene Luke of River Falls, Wis., and Father Eugene Luke of Subiaco, Ark.

There are 26 grandchildren.
Mr. Luke has three brothers, Joe and Alphonse of Muenster and Carl of Hereford, and three sisters, Mrs. Werner Endres, Miss Theresa Luke, both of Muenster, and Mrs. Martin Friske of Lindsay. Mrs. Luke has four brothers, John and Frank Herr of Muenster, Carl of Pilot Point and Emil of Hereford and four sisters, Mrs. R. R. Endres, Misses Lena, Elizabeth and Katie Herr, all of Muenster.

Out of Town Guests
Among out of town guests at the anniversary celebration were Mr. and Mrs. Carl Herr, Miss Diann Henzler and Mr. and Mrs. Henry Henzler of Pilot Point, Messrs. and Mmes. Paul and Michael Luke and Mrs. Jack Fiedler of Dallas, Mr. and Mrs. C. J. Rucker and Vincent Luke of Fort Worth.

Mr. and Mrs. Meinrad Koelzer, Mrs. Elbert Vance and daughter Mary Ann of Hereford accompanied by Mrs. Lloyd Neill of Tucson, Ariz., Mr. and Mrs. Barney Sandmann of Howe, Mr. and Mrs. A. C. Flusche of Denison, Mr. and Mrs. Ray Lueb of Midwest City, Okla., Mrs. David Endres of Garland.

Dr. and Mrs. Gene LaGesse of Austin, Sister Marie Cecile of OLV, Fort Worth, Mr. and Mrs. Bob Kupper of Marlin, Messrs. and Mmes. Ronnie Herr, Richard Herr and Ralph Breeding of Gainesville, Messrs. and Mmes. Martin Friske, Jake Kuhn, Leonard Bengfort, Nick Block and Jake Bezner of Lindsay.

Al Schmitts Back From Vacation Trip

Mr. and Mrs. Al Schmitt and daughters Joyce and Doris returned Monday from a 5000-mile 15-day vacation trip to the west coast and Pacific Northwest.

They visited Yellowstone National Park, Wyoming, stopped at Spokane, Wash., to visit her brother, Robert Otto and family and together they toured Coulee Dam. In Grandview, Wash., they visited his brothers Charlie Schmitt and Leo Schmitt and family who were harvesting.

In Portland, Oregon, they visited Al's only aunt, Mrs. Augusta Richter, who is 89 and still enjoys good health.

Another stop in Spokane was with the Lehnertz brothers and Walter Fette. They sent regards back to everyone they know.

Returning they took the Pacific Coast drive, saw the Red Wood Forest in California, stopped at Reno and Las Vegas, Nev., and toured the Hoover Dam.

First stop going was at Amarillo for a visit with their sons Tom and Wayne Schmitt and his wife.

Mr. and Mrs. Harry Scoggins and children Bobby and Vickie drove to Dallas Saturday and Mr. and Mrs. Scoggins visited at Parkland Hospital with their niece JoAnn Jakubec who had surgery Friday. She's the daughter of Mr. and Mrs. Eddie Jakubec.

Mr. and Mrs. Bill Derichswieler visited at Grapevine Saturday with their daughter and family, the Richard Zimmers.

Dr. Debbie Blagg Dies Sunday After Two-Week Illness

Dr. Debbie K. Blagg, well known Gainesville chiropractor, died 1:45 a.m. Sunday in Sweetwater Hospital. She became ill and was hospitalized while she was visiting a daughter the middle of July.

Funeral services were held in Gainesville Monday afternoon in Vernie Keel Chapel and burial was in Fairview Cemetery. Dr. Harry Roark, pastor of First Baptist Church officiated.

Dr. Blagg was born in Georgetown Nov. 23, 1894. She and her late husband Dr. Robert Blagg, were a chiropractic team practicing in Gainesville for many years after practicing in Oklahoma. He

died in Gainesville in 1953. She continued in her profession.

Visiting the Dick Cains Sunday overnight and Monday were her sister, Mrs. O. Z. Smith and children Gay Lynn, Keith and Jerry Don of Lubbock. They were enroute to Burleson to visit her parents, the J. S. Hogans. Sunday afternoon a family party celebrated the first birthday of Stephanie Richey of Gainesville, a granddaughter of the Cains. Birthday cake and ice cream were served.

540 Served at Jaycee Fish Fry

Muenster Jaycees were not disappointed in expecting a record attendance at their fourth annual fish fry last

Friday night. It was the biggest ever, says Henry Weinzapfel, chapter president. 540 plates were served, topping last year's previous record by about 50.

Jaycees and other friends from most towns of the area were here to join a good turnout of local people. Entertainment featured the Sacred Heart choir and some sing-along numbers led by the choir.

The fish fry was a benefit event to raise money for the library building fund.

4-H Horse Club Enjoys Fun Night

Cooke County 4-H Horse Club members enjoyed a fun night July 28, a treat from Gainesville Riding Club in the Gainesville arena.

Members took their horses and had barrel racing, ring races and pole bending. Afterward they had refreshments of homemade cookies and scones.

About 30 4-H clubbers were there including nine from Muenster: Carl and Caroline Bayer, Mary Jane, Joey and Lou Ann Swirczynski, Yvonne Gehrig, Allen, Lenore and Mary Lou Fleitman. Parents and family members attended with them.

Mr. and Mrs. Don Bayer and daughter Lea Carol of Knox City spent the weekend with homefolks. Daughter Sonda was already here having a vacation with her grandparents. They attended the Jaycee fish fry Friday night. Don returned to Knox City Sunday but his wife and daughters remained for a longer visit.

During the 17-year period, the company has awarded more than 2,200 expense-paid trips to Texas 4-H Club members.

Mary Ellen Endres, 17 years old, is the daughter of Mr. and Mrs. Paul Endres of Muenster. She is a member of the Sacred Heart 4-H Club. She has served as vice president of her local club, president and secretary of the County Council, and has six active projects.

The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General

Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the State of Texas; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works

which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed \$200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such \$200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the

acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:
"FOR the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Feed Processing

steam roller, which, by a combined cooking and rolling process, breaks down the carbohydrates and makes them more digestible. Discharge from this machine, like the grinder, can be sent wherever it is wanted.

Then comes the mixing process, and another newly developed push button machine to do the job. Four buttons and three levers dump ingredients into the mixer by auger or gravity feed and a scale weighs each as it comes in. Other means are there to feed other ingredients such as hay, cottonseed meal, minerals, syrup, etc. in the desired proportions.

And after mixing the finished feed is again moved automatically into a sacking bin or dumped in bulk into a truck.

Whites and Negroes in Chicago — it can very well be regarded as a warning to the country. There have been times in our history when impatient people took the law into their own hands after the law failed to cope with criminals. Some ugly things developed then and ugly things could develop again if modern law fails to stop the new crime wave. It's time for the proper authorities to realize that civil rights extremists are violating the rights of many other people.
