## FBI WARNS NATION

By Dr. George Benson  
 FBI Director J. Edgar Hoover has called the nation's attention to the fact that for the first time in its history the Communist Party USA has elevated a Negro to its national chairmanship. Mr. Hoover considers this development a Communist scheme to further use the Negro race in America to expand civil strife and undermine our national strength. Henry Winston, the 65 year old Negro Communist who spent the last five years in Russia (evidently training for the vital post here) was made national chairman of the Party at its recent national convention.

Winston had been imprisoned here under the Smith Act after conviction of advocating the overthrow of the U.S.A by

violence. Our Government had released him under pressure generated by U. S. Reds who claimed he was blind and dying. He went immediately to Moscow where he lived and plotted with Kremlin leaders. He returned to America neither blind nor dying.

### 'Resurgent Subversive Force'

Mr. Hoover said in a report to Congress: "This convention reflected the optimism of a resurgent Communist Party, completely loyal to the Soviet Union, buoyed by the feeling that it has broken out of its political isolation and now is ready for an increasingly active, concentrated program of mass agitation in American society." In his keynote address, Gus Hall, general secretary of the Party, said: "We are a factor in the left stream of each of the mass currents in the country." Other speakers were more specific. One was Bettina Aptheker, whom Mr. Hoover describes as "probably the most notorious young Communist in the United States."

When Bettina Aptheker gained national attention while leading the "free speech" riots at the University of California those of us who had informed ourselves on Communist activities in the U. S. reported that the UC trouble had been agitated by young Reds — and, as usual, we were criticized for "seeing Communists under every bed." Not long afterwards, Bettina publicly proclaimed her Communism. She is the daughter of the Party's theoretician. She played a prominent role at the national convention, which Mr. Hoover noted as significant for its "youth accent."

### Aided By Supreme Court

The scuttling by the U. S. Supreme Court of America's legal bulwarks against just such growth and subversive activities as are now reported by Mr. Hoover made the 18th national Communist convention — first national convention since 1959 — a place for rejoicing among the leaders and delegates. In fact, Mr. Hoover said: "Recent Supreme Court decisions invalidating portions of the Internal Security Act of 1950 have given the Party the green light to become more active in mass agitation. . . . Speaker after speaker emphasized that the party must strike boldly into the area of political action, run candidates for public office, participate in community de-

## IF AUTOMATION DID NOT EXIST!

### AUTOMATION AND AUTOMOBILES

In showrooms across the nation, sleek, new 1967 models of automobiles are on display. And, families throughout America visit the showrooms to examine the new lines . . . new features . . . and the built-in safety devices. Many will make their selection. Some of the improvements required little re-tooling, while other changes necessitated a complete re-alignment of the production lines in the automated plants.

Just consider, if Detroit had not been automating since the 1920's, the price tags on today's cars would be quite different. The cost of an average car would exceed \$65,000 one national authority believes. There would be a precious few of them, and thus hundreds of thousands of jobs in automobile plants, tire factories, steel mills, gasoline refineries, fabric mills, glass companies, and road construction, simply would not exist.

Autos that the public can afford to buy are just one of the many benefits automation has brought to the American way of life. After all, automation is simply a means of doing things better, with less effort at a lower cost. And, lower costs make it possible for more people to buy, which in turn increases the product demand, creating more jobs at better wages to supply this demand.

Because of automation, more people own more cars in the United States than any other nation in the world. Automation is the key to more comfortable, satisfying life.

decisions, meet and influence non-Communists."

The FBI Director's conclusions in his report to Congress should be read by every American. Here they are: "The Communist Party USA undoubtedly is in a much stronger position as a result of the 18th national convention (held secretly but not out from under the eyes of FBI agents). Completely loyal to a foreign power, the Soviet Union, it remains a serious threat to our national security."

### Goal: Revolution in U.S.

"The convention actually was a 'coming out party,' signifying a new era in the Party's life. Gone now (Editor's note: thanks to Supreme Court decisions) will be the defensive posture of an apprehensive party, fearing to identify its leadership and openly work in our national life. The Party will now be more aggressive, seeking allies among non-Communists. It hopes to disarm Americans ideologically, to make them feel that Communism does not represent a

danger to our democratic institutions."

"Yet all the time the Party will be ideologically hardening itself as a weapon of revolution — training its membership for carrying out what it believes is the 'law of history' — namely a Communist revolution in America."

At the moment the great successes of World Communism are not in Viet Nam, where nearly 400,000 American service men are fighting a one-handed war against a Red puppet force; or in Cuba, where massive guerilla warfare training of Red cadres from throughout Latin America is carried on unmolested. The great successes are in northern U. S. cities where race is being agitated against race, violence flaring; and America, the great Communist prize, is seething with explosive and weakening strife.

You're getting old when you can remember when you could get a penny postcard from two cents.

## A GOOD SYSTEM

According to the U.S. Labor Department, the average Russian living in Moscow must work 3.5 times longer than a worker in New York City to earn a simple meat and potatoes meal. He must work up to 17 times as long as the New Yorker to buy life's basic necessities. There is nothing new about these figures. They have been published time and again in one form or another and indicate anything but utopia in a nation where government is the caretaker of the people. And, still we hear complaints about the failure of capitalism in the United States.

Even in the depths of the great depression of the thirties, America was more prosperous than other nations in prosperity. In those nations where private enterprise has been shackled or destroyed, the average man and woman work hardest and obtain the least in return. It is to the credit of private enterprise that the average person in the United States accepts as commonplace those things possessed only by the well-to-do of other lands.

Capitalism is a good system. We should not sell it short.

"I'll carry this case to the highest court in the land," said the lawyer to the prisoner, "but meantime you had better try to escape."

**Garden Club Hears Lecture on Birds By Guest Speaker**

Muenster Civic League and Garden Club members heard a talk on birds at their October meeting Monday night when Mmes. David Trachta and Ernest Jaska were co-hostesses in the Trachta home.

Guest speaker was Mrs. Weldon Brewer of Gainesville who delighted her audience with her informal discussion of birds - good birds such as oriole, martin, hummingbird and song birds - and pests which eat seeds and are undesirable.

She said that the North Texas area has the most happy climate for birds in the United States.

Mrs. Earl Fisher, president, presided for business and committee chairmen gave reports. Mrs. Dan Luke advised that the St. Francis statue for the hospital's inner court has been ordered and discussed landscaping plans.

Twenty five were present including guests Mrs. B. F. Wolf and Mrs. Bill Luke. The hostesses served refreshments as they arrived.

Members were reminded to take an evergreen specimen to the November meeting for an exhibit. Mmes. Arnold Rohmer and Pat Stelzer will be hostesses.

The pet shop clerk sought to placate a dissatisfied customer: "Madam, the parrot you bought yesterday certainly will talk - just give it a chance."

In window of auto body shop: "What's the use of having fenders if you don't use them?"

A cowboy was talking to an Indian. He was heard to ask the Indian: "Who do you think discovered America?"

And the Indian replied: "What makes you think it was lost?"

### Final Rites Held For Barney Samek

Barney Samek, 64, of Route 4, Gainesville, brother-in-law of Herbert McDaniel of Muenster, died Oct. 13 in Gainesville Hospital after an extended illness.

Funeral services for him were held Oct. 15 in the George J. Carroll & Son Chapel at 2 p.m. and burial was in Fairview Cemetery. The Rev. Joe Leatherwood officiated.

A new era in kitchen convenience is being ushered in. Refrigerators now have see-through doors and dishwashers will shake off dirt with sound. The refrigerator has an interior light, which when activated by pressing the door handle, lets a female see into the refrigerator without opening it. When the light is off, the door appears opaque. Now women can determine the exact location of food, snatch it out quickly, keeping heat out and cold in.

### Sewer Expansion

plant now is adequate for a population of over 6000, but the city's population is estimated at 1,300. The difference in capacity is needed to handle the industrial wastes.

The city intends to tackle its problem from two sides. Mayor Earl Fisher and Sewer Supervisors Steve and Joe Moster are in Ft. Worth Thursday with the city engineer trying to work out a less expensive plan that is acceptable to the State Health Department. If the Department approves the less costly plan the federal government is expected to do likewise. Another effort is to have the share of federal grant restored to the previous 50 per cent.

Our thanks to Miss Dorothy Bengfort, to mothers who did the baking and to everyone who patronized our bake sale making it such a success.

We wish to express our sincere gratitude to Dr. Martin M. Kralicke, to Sister Mildred, Sister Diane and the entire hospital staff of Muenster Memorial Hospital for the wonderful care that each one gave Virginia while she was a patient.

My parents join me in this note of thanks for favors and kindness while I was hospitalized. Special thanks to Dr. Kralicke, the nurses and hospital staff, and for the cards, visits, prayers and other thoughtful deeds.

Glass-making was a highly developed art in ancient Egypt and the Romans took the secret home with them when they conquered Egypt shortly before the birth of Christ. The Gauls, Franks and Britons used glass goblets at their feasts which had rounded bottoms that couldn't be set down without spilling. This is thought to account for the word "tumbler," describing a drinking glass

A former Marysville resident, Walter E. Holcombe, 80, brother-in-law of Mrs. B. G. Lyons of Marysville, died suddenly October 13 after walking a short distance to town. He had a heart condition a number of years.

Funeral services were held in First Baptist Church at Stanton on Oct. 15 and burial was in Big Spring. Walter Holcombe was born in August of 1886 in Georgia and moved to Marysville with his parents when he was three years old. He and Miss Mary Sapp were married there and operated a grocery store and service station. In 1930 they moved to Stanton and engaged in irrigation farming until he retired five years ago.

Surviving are his wife; four sons, Hugh of California, Price of Midland, Kenneth of Stanton and Walter of Houston; two daughters, Mrs. Thelma Brake of California and Mrs. Olive Pearson of Fort Worth; three brothers-in-law, Rudolph Sapp and W. W. Butts of Gainesville and Aubrey Sapp of Scottsdale, Ariz.; one sister, Mrs. Alice Reeves of Gainesville; and two sisters-in-law, Mrs. Queenie Bone of Dallas and Mrs. Lyons. Also 17 grandchildren and two great-grandchildren.

Among those at the funeral in addition to all of the children and their families were Mrs. B. G. Lyons, her daughters Mrs. Vivian Maupin of San Antonio and Mrs. Marie Stiles of Gainesville, also Rudolph Sapp, Mr. and Mrs. W. R. Pace and daughters and Mrs. Alice Reeves, all of Gainesville, Roy Reeves of Denison, Mrs. Queenie Bone and Lucian Bone of Dallas, Aubrey Sapp of Scottsdale, Ariz., Mrs. Sybil Butts and daughters Mrs. Bill Welch and Mrs. Tommy Wood of Richardson.

Tiger Cubs Beat Callisburg 22-0

The Tiger Cubs of Sacred Heart had the game completely to their liking Tuesday night as they rolled up a 22-0 win over the elementary kids of Callisburg. They had control of the ball about three fourths of the time.

Their first score came in the third quarter on a 44 yard run by Tim Hennigan. Ronnie Hess followed over for 2 extra points.

The next one resulted from three plays starting 37 yards out. Hennigan ran 12, Allen Trubenbach 23 and Ronnie Hess made the last 2. Trubenbach made bonus points.

The final score in the last quarter ended a steady drive of short gains for 35 yards topped by Hennigan's scoring run for 15 yards.

Callisburg's best effort reached the Cub 20 as time ran out.

Valley View Licks Muenster Juniors

The Juniors of Muenster Public School turned in a big game Tuesday night even though they were at the short end of an 8-0 score. Considering that the Valley View youngsters are favorites for the loop title, Coach Glenn Richardson was well pleased with his undersized Pee Wees.

The visiting Eagles got on the score board early after a kick that backed Muenster kids to their one yard line. Trying to kick from the end zone Bobby Tuggle got caught for a 2 - pointer.

That's how the score remained until near the end when the visitors uncorked a 23 yard touchdown play.

Muenster's best offensive effort got to the 10 yard line. "Well, I wouldn't say he was a thief. But he does have the habit of finding things before they're lost"

**Gainesville Kids Beat Cubs 26-8**

If three big plays could be rubbed out the score would look more like the game that Sacred Heart Cubs had with Gainesville elementary Tuesday night. The score was 26-8 and most of the game was evenly matched. Coach Joe Felderhoff says that his boys made a fine showing against Gainesville's advantage in size and numbers. The first half went scoreless but there was plenty of action in the second. Gainesville scored on a 10 yard run and the next TD came only a few plays later. The Cubs fumbled the kickoff and Gainesville promptly connected on a touchdown pass. Not long after that a punt return for 50 yards added 6 more for the hosts and a run added extra points. The fourth one was an interception and return of about 30 yards. Sacred Heart's only score was made on a 20 yard gain around end by Tim Hennigan. Johnny Schneider's pass to Jim Schmitz made the count 26-8.

**Auxiliary to VFW Carries Out Honor Roll Requirements**

Muenster Auxiliary to Veterans of Foreign Wars Post 6205 at their October meeting carried out honor roll requirements for the months of September and October. The September listing did not reach the organization in time to be approved at that month's meeting.

Complying with September requirements, the Auxiliary approved participation in the school lunch program by financing a month's lunch ticket for a needy student at each of the two local schools. Checks were presented to the school's superintendents. The organization also approved the annual hospital pledge of twenty-five cents a member for a veterans' hospital and held a school of instructions after the meeting. Mrs. Arthur Bayer conducted the class.

For October the group voted a contribution to the VFW National Home Christmas Fund and collected ten per cent of membership dues. In other business the organization voted a contribution to the Civic League and Garden Club for its St. Francis statue for the inner court at Muenster Memorial Hospital. Mrs. Bill Haverkamp was accepted as a new member and it was announced that formal reception ceremonies will be held at the November meeting. All candidates are being reminded to attend at that time.

Trustees Mmes. Joe Hoenig, Joe Sicking and John Feitman audited the books and reported everything in order. Mrs. Raymond Walterscheid, president, presided and after adjournment Mmes. Hoenig and Sicking served refreshments. Mrs. Dick Case won the door prize. Twenty members were present.

Many self-made men knocked off work too soon.

When the Interstate High-  
 way System is completed...  
 it will have required 1,800,000  
 man-years of labor. Excava-  
 tors will have moved enough  
 material to bury an area as  
 big as Connecticut knee-deep  
 in dirt. The sand, gravel and  
 crushed stone needed for con-  
 struction would girdle the  
 earth with a wall 50 feet wide  
 and five feet high. If made  
 into one huge parking lot, the  
 road pavement could accom-  
 modate two-thirds of all this  
 country's vehicles, and the  
 land alone will have cost \$7-  
 353,000,000.

### Lindsay Knights Nudged 22-14 by Blue Ridge High

Lindsay High's undefeated record through four games came tumbling down Friday night in a district encounter with Blue Ridge.

The score was 22-14, which, according to Lindsay fans, might be favoring their boys except for a very rough break.

A fumble in the third quarter was a heartbreaker. After a nice drive the Knights fumbled on the one foot line, losing the score that would have given them a two TD lead.

That inspired the visiting Tigers as much as it stunned the Knights. They went down the field to tie the score and later they made the winning score.

The visitors scored first on a 40 yard march in the second quarter and Lindsay responded immediately with a 50 yard scoring push of its own. Brian Bezner went over from the 3 and again for bonus points. The score at intermission was 8-8.

In the next quarter Lindsay went ahead on a 25 yard scoring pass from Mike Hundt to Louis Gieb.

Moments later they were going again and were about to sew up the game when the crash came. Blue Ridge recovered the fumble at the edge of the goal line and a few plays later got loose for a 60 yard TD.

The last score also started with a Lindsay fumble. A 40 yard drive from there produced the winning score.

### 80 KCs Attend Special Program

Eighty members of the Gainesville-Lindsay Knights of Columbus attended Corporate Communion Sunday morning at St. Mary's Church and afterwards attended a breakfast at the Petroleum Club.

The Rev. John Walbe, OSB, of Lindsay celebrated the Mass.

At the breakfast, Grand Knight Gilbert Kubis was master of ceremonies and Father Thomas J. Cronin of Dallas was guest speaker. Chuck Morrison and Bill Graham of the Gainesville Toastmaster's Club gave an interesting program.

Clem Sandmann, assisted by Ed Schad and Bill West, arranged the program.

### Tigers - - -

after that Greenhill fumbled and Ted Endres recovered for Sacred Heart.

That could be the key play of the game, because the Tigers were ruling the field from then on. Larry Hess on five carries made all the yardage from mid field to the first TD, the last play being for 9 yards. A pass from Leon Endres to Andy Klement made the score 8-0 just before the quarter ended.

After the next kickoff the Big D fellows had to kick on their first series and the Tigers started again. Three first downs got to the Hornet 41 but the next series bogged down. Sacred Heart had to kick and Greenhill did likewise four plays later. Then the Tigers were on their way again, a 76 yard drive with Hess doing most of the carrying and going in from the 9 for the 6 pointer. He also went over for bonus points. The half time score was 16-0.

Opening the second half Sacred Heart kicked on the first series and Greenhill on the second series. Next the Tigers set out for their third touchdown. As before it was a hard push with Hess doing most of the carrying. Eleven plays covered the 71 yards. Robert Klement crashed through the middle for the last 2. Quarterback Leon Endres made extra points on a keeper play.

After that Greenhill put on a rally that went 72 yards and then lost 13 back to the 21 before the Tigers took possession. Three first downs got Sacred Heart back to the Hornet 40 but the next series ended 3 yards short, on the 33. From there Greenhill put on its only successful drive. Ten plays made the distance and the pay-off went for 13 yards as the scoreboard clock showed 12 seconds remaining.

each city's importance to the other. President Urban Endres spoke briefly pledging his best efforts for community progress and growth.

Special on the program was a pep talk by Bob Smith of Colonial Acres Farm urging enthusiasm for the National Cutting Horse Contest to be held there Nov. 16-19. He said this event will attract Muenster's biggest crowd ever, it is an opportunity to help make a good show and make thousands of friends for Muenster and Colonial Acres.

Mayor Fisher added to his remarks with a brief outline of some of the plans and a reminder that it's going to be a big event deserving big efforts of the community. He asked the crowd to start by making the town look its best and then help in any possible way with the show.

The banquet, catered by Rohmer's Restaurant in the VFW Hall, ended the chamber's membership drive. Total number signed up was not given, however attendance indicated a membership of about fifty.

### Confetti - - -

Other figures could be used to show how it is possible in the present system for a party to get the majority of electoral votes even though it has the lower popular votes.

That, according to the Delaware contention, is wrong because it violates the wish of the minority party in each state and can also violate the wish of the popular majority in the nation. Besides, it practically rules out the candidates of small states for two top jobs. Party conventions prefer the favorite of a state with a big electoral vote.

Ed Gossett had similar motives in proposing the change — plus another motive. He wanted to overcome the unfair treatment that conservatives of his time were receiving, especially in the South. Liberals of the North and East catered to minority groups that held the balance of power in their states regardless of how their policies affected the South. By tradition Southern votes were safe for the party anyway, so they had no scruples about the South while it served their political advantage.

Gossett and other conservatives reasoned that Southerners would get more respect if their protest votes could be counted. Though still in the minority they could possibly offset minority bloc voting elsewhere and become a factor in national elections.

Looking back over the past decade a person is inclined to think that things would be different now if the Gossett-Lodge Amendment had been adopted. For instance, would racial tensions be what they are today if self seeking politicians had been less inclined to impose on Southerners while bidding for Negro votes up North? Despite the brags of civil rights enthusiasts, has the condition of Negroes really been improved? Are they happier? Has the violence and lawlessness and hatred resulting from political opportunism been good for colored people or the country? There are plenty of signs showing that the civil rights movement moved too fast for anyone's good, and it might have been retarded by a more representative electoral system.

A safe bet is that President Johnson will not visit Guam

in his current flying journey to the Far East. He would hardly feel welcome. Just after he left a news release stated that he vetoed Guam's Right to Work law.

A brief history of that bill runs as follows. The legislature of the island passed the bill and the governor vetoed it. The legislature responded by passing the bill again over his veto. After that it could still be defeated by the president's veto within ninety days. Failure to act before the deadline, or his signature any time before would make it a law. LBJ vetoed just before the deadline.

The action placed him in the inconsistent position of opposing home rule for the people of Guam after favoring it strongly for the people of Washington D.C.

But to the people of Guam his action has a deeper meaning. He has set himself up as a dictator over them, decreeing that regardless of their preference they must become subject to the rule of union bosses to hold a job. His decision may have been influenced by the fact that people of Guam are not permitted to vote in our elections.
