J. Edgar Hoover's message in this month's issue of the FBI Law Enforcement Bulletin presents a thought that merits nation wide consideration...

Hoover says that "people do not always say what they mean, sometimes intentionally. For instance, there appears to be a deliberate attempt to place a disparaging label on a proven principle of our society..."

"I want to state emphatically and unequivocally that vigorous effective law enforcement is not repression; rather it is an integral part of a free society..."

A moment's thought is enough to understand that laws exist only to protect people's rights. The purpose of the law against rioting is to prevent injury to people and destruction of property...

Of course the laws would be meaningless if no provision were made to enforce them. So, we the people engage officers to prevent the violations as much as possible and to arrest persons who are guilty of violations...

In case of a confrontation their job is to restrain the lawbreakers. If a riot breaks out despite their effort, their job is to subdue the lawbreakers. Their action in doing that job cannot rightfully be called repressive...

Hoover says that "much of the talk about repression comes from those involved in or in sympathy with revolutionary violence on our campuses or in our streets..."

The point, of course, is that the right to dissent in this country is respected — so long as it's peaceful. But such dissent is not peaceful. It is not anyone's right. It is revolution.

The FBI boss further states that "a defiant militant, with a brick in one hand and a fire-bomb in the other, standing shoulder to shoulder with hundreds of similarly armed protesters..."

Mr. Hoover has presented the situation perfectly. Here's hoping that lots of people will see and understand the distinction he makes and use it as a basis to judge some of the twisted reports by biased commentators...

Fisher Resigns Mayor's Office

The City of Muenster has no mayor. Mayor Earl Fisher, who was serving his fourth term in the office, submitted his letter of resignation to Mayor Pro Tem Richard Grewing at a regular meeting of the city council Monday night.

"For the past several months," the letter stated, "I have given serious consideration to resigning as mayor, and I have reached a firm decision. This has not been easy because of a strong feeling of obligation to complete a term to which elected."

"Let me assure you that this decision was not brought on by what any member of the council or any city employee has done or failed to do. It is a decision made purely for personal reasons."

Mayor Fisher went on to say that during the seven and a half years he has enjoyed splendid cooperation from the council and employees. Without it little would have been accomplished, and he feels that the city is better off today than when he became mayor. For that he is grateful and thanks the council along with Steve and Joe Moster and other city employees.

He ended the letter by saying, "In order that I may not be accused of selecting a successor, I have kept this resignation a secret until now, and it shall become effective immediately upon the reading of this letter." At that point he left the meeting.

Fisher said Tuesday that his

intention to quit was not new but an issue currently before the council prompted his decision to delay no longer.

Fisher's Meat Market, owned by John and Joe Fisher, had requested a permit to install slaughtering facilities on a space adjoining the store. They pointed out the location was best suited to their business, that the operation, governed by state regulation, would cause no objectionable sights or odors, and that such facilities are located downtown in many other cities. The council suggested waiting for opinions of people who have homes or business nearby.

The reaction became apparent last week in a petition asking the council to refuse the permit. Over a hundred names were on the petition when it was presented at Monday's meeting. Anticipating the petition, Mayor Fisher said he preferred not to be involved and decided to act then on his planned resignation.

Regarding the issue, Mayor Pro Tem Grewing said the city has no zoning ordinance or any other regulation to prevent installation of slaughtering facilities, and he is not able to comment one way or another upon the possible effect on the area's environment. But for the sake of people who are objecting he prefers to see the installation located somewhere else.

Grewing also expressed regret that the city has no zoning ordinance to decide this issue. He hopes this will be an inducement to complete the ordinance which was started several years ago, that the city will soon have rules to follow when such issues come up.

Referring to the vacancy he said that the Council has not given up hope of getting Fisher to reconsider. Otherwise it can appoint a successor or order an election for the unexpired term.

In other action the council decided to extend its water line to South Main Street, beyond the Katy right of way. This followed a letter from the railroad stating that it no longer insists that the installation be tunneled under the tracks. The extension had been delayed because of the high cost of tunneling.

Tom Hess Receives Track Scholarship From North Texas

The new Bulova watch Tom Hess is wearing lately is more than just a handsome time-piece. It is a special award for helping win this year's Missouri Valley track championship for North Texas State University. Every track member who made points in the meet received a watch. Tom got 2 points for fifth in the six mile race.

Another very cherished award is his first letter in track at NTSU, and a welcome compensation for hard work is an improvement of scholarship status for next year. He'll be on a half scholarship, worth about \$700, next semester and has a chance to advance to full scholarship the spring semester. As freshman and sophomore he was on a tuition and books scholarship.

Tommy is primarily a distance runner. During the summer he's working for his second year membership in the 1000 mile club at North Texas, expects to finish in about three weeks. A few weeks ago he tried running from Denton to Muenster and had about 5 miles to go when a ride was just too welcome. The mileage was exactly 40. At the Kansas Relays this year he ran the marathon, came in seventh in a field of 35 in 2 hours and 51 minutes. He's trying for next year's cross country team at NTSU.

However he also competes in shorter events. At the AAA summer meet in Abilene last week Tom was second in the 800 with 1:59.7 and third in the mile with 4:22.4.

Reading Program Ends Aug. 11 with Children's Party

Children's annual summer reading program conducted by Muenster Public Library will end next Tuesday, August 11.

Mrs. Joe Luke, librarian, invites all who participated by reading 12 or more books to be at the library for a party Tuesday 9:30 to 10:30 a.m. and have their reading lists with them so they can qualify for a certificate.

Another Splash Party for Adults

Another special splash day for adults has been scheduled at the Muenster pool. Following their very pleasant party Monday, the ladies arranged for another one next Monday from 1:30 to 4 o'clock.

It will be exclusively for adults. A life guard will be on duty. The admission charge is 40 cents per person.

Celia Left a Mess Says Abbot Alfred

Abbot Alfred Hoenig of Corpus Christi Abbey and Academy phoned his family here Wednesday night saying everyone there is OK but the abbey building is a mess since Hurricane Celia roared through.

Dozens of windows were blown out and rain was blown in damaging furnishings, warping woodwork and bringing down plaster. The academy building was less seriously damaged.

Phones and power were knocked out in most of Corpus. Abbot Alfred found a pay phone at a hospital to make his call.

Registration Set Next Wednesday At Both Schools

Muenster school children will be back to school next Wednesday, but only long enough to get organized for real school work which starts the following week.

An announcement on the Sacred Heart parish bulletin last Sunday states that registration at the parochial school has been advanced from the 14th to the 12th to coincide with the public school's date. Father Placidus said the change is made for the convenience to families who will have children in both schools.

After that the public school students have two more free days and Sacred Heart students have five. Class starting dates are the 17th and the 20th.

3 County 4-H'ers 2 from Muenster Win on Records

Three 4-H senior record books from Cooke County won first place in district judging in Denton. Two of them are from Muenster.

Tommy Felderhoff was first in Citizenship and Gayle Sicking was tops in Food Preservation. Both are members of Sacred Heart Clubs. The county's other winner is Cathy Sellers of Callisburg, first in Clothing.

Twelve Senior and eleven Junior record books were submitted for judging in district competition at Denton June 30. Junior ribbon winners have not been announced. Senior entries do not receive ribbons but winning books in the various categories are entered in state competition held in August at Texas A&M. State winners receive a paid trip to the National 4-H Club Congress in Chicago, along with other valuable awards.

June, July Have Identical Rainfall Reading of 1.09 in.

A coincidence happening the first time in this community's recorded weather history: The moisture measure for July was 1.09 inch, exactly the same as June.

Those two figures, for only 2.18 in the two months, explain why the community is very dry. Only one other time during the past ten years was the June-July total lower. That was in 1964 when the reading was .70 inch. However four readings for July only were lower. Those were in '61, '64, '65 and '69.

The year's rainfall through July is 17.82 inches, according to Steve Moster's record. That's more than an inch below the ten year average and about 5 inches below the average for the last 5 years. The figure at this time was 23.56 last year, 30.76 in '68, 19.76 in '67, 24.72 in '66, 19.43 in '65.

Stroke Is Fatal To C. J. Fette, 84

Muenster lost one of its few remaining pioneer residents about 5:45 Sunday afternoon in the death of Conrad John Fette, 84, in Muenster Memorial Hospital. He had suffered a stroke at 5:30 Saturday morning in his home and died without regaining consciousness.

Funeral service with Requiem Mass was held at 9 o'clock Tuesday in Sacred Heart Church with Father Bede Mitchel officiating and Bishop Augustine Danglmayr reciting the funeral prayers. Graveside rites were conducted jointly by Bishop Danglmayr and Father Bede and burial was under direction of Nick Miller Funeral Home.

Casket bearers were four grandsons: Tommy, Joe and Donny Hartman and Kenneth Stormer along with Arthur Hellman and Jimmy Jack Biffle.

Services in the funeral home chapel Monday consisted of a rosary at 4 o'clock and a wake service at 8.

C. J. Fette was born in Saint Paul, Iowa on June 24, 1886, came to Muenster when his family moved here in 1904, and has been a resident ever since. He was married to Miss Ernestine Huchton on January 25, 1910. During their sixty years of marriage the couple has lived in three farm homes south of town except about five years during the nineteen forties while they lived in Muenster.

Mr. Fette was a farmer and rancher and found time also to spend several years as maintenance supervisor of the cheese factory. Likewise he was active for a number of years, especially during the pastorate of Father Frowin Koerdert, as both adviser and worker in the Sacred Heart

Big Week Ends For 23 Boy Scouts At Lake Texoma

Twenty-three tired and happy Boy Scouts and Scoutmaster Willie Walterscheid were back home Saturday afternoon after a fun filled week of camping at Lake Texoma.

Four of the boys, Jim Endres, Tommy Bright, Terry Walterscheid and Randy Wolf, were chosen for admission into the Order of the Arrow. They were tapped out in ceremonies Thursday night and will report for ordeal and admission several weeks from now. Because of the OA ceremony Thursday was visiting night. Most of the Muenster Scouts' parents were there.

Boys attending the camp were Jim and Bobby Endres, Danny Fette, David, Tommy and Joe Bright, Ray and Damian Luke, Jim Luke, Terry Walterscheid, Randy Wolf, Billy and Larry Phillips, Paul Reiter, Bob Schmitz, Neil Huchton, Mark Stoffels, Joey Sicking, Tim Felderhoff, John Henschel, Danny Fisher, Bruce Fuhrman and Ronnie Weinzapfel.

Texans to Vote on Seven Amendments At Nov. 3 Election

Campaigns are shaping up on some of the seven proposed constitutional amendments to be voted on by Texans at the General Election on November 3.

While public interest centers on the liquor-by-the-drink amendment, there are other major alterations in the state's laws to be considered by the voters.

In their order on the ballot, these are:

1. Enlarge the powers of the Judicial Qualifications Commission to censure or remove lower court judges and justices of the peace as well as district and appellate judges.
2. Authorize the legislature to enact a law on the sale of mixed drinks.
3. Provide for legislative establishment of a uniform method of tax assessment on ranch, farm and forest lands based on the capability of the lands to support the raising of livestock or production of farm and forest crops.
4. Make the State Building Commission a three-member appointive agency.
5. Permit counties to issue road bonds up to one-fourth of their assessed real property valuation on a majority vote.
6. Make town or city homesteads of \$10,000 and less exempt from forced sale (presently set at \$5,000).
7. Allow the legislature to provide for consolidating offices and functions of government and for performance of governmental functions by contract between the political subdivisions in any county.

Texas voters have adopted 195 amendments to the 1876 constitution, over the years, and rejected 125.

Karen Sicking and Elaine Otto participated in the first 1970 pre-college conference at North Texas State University. It was a two-day orientation period including counseling, testing, registration, recreation and tours of the campus.

VFW Convention

Sherman Veterans of Foreign Wars and Auxiliary will host the District I convention this weekend, August 8 and 9 at the Post Home. Muenster members will be among those attending.

An "Unhappy" Childhood

Editor Bill Thompson of the Paris (Texas) News ran across an item that he thought worth passing on to his readers. Bill doesn't know who wrote it, and neither do we, but we agree that it describes "growing up" pretty much the way it was with those who shared their school days with us.

"I didn't have a very happy childhood—

But nobody worried very much about it. I was too busy, I guess — cutting lawns, shoveling snow, running errands, delivering groceries for 10 cents a load, selling newspapers, doing housechore, going to school. I passed my grades, too. If I hadn't, I'd have had the hide strapped off me.

No one concerned himself about my amusements. What fun we had, we made. But if we did any damage — like breaking a window in a ball game — we paid for it by working it out.

I don't suppose people understood me; but if I had said so, my mother would have asked: "Why should they?" And no one ever gave a through to my "problems." They were mine, weren't they? Mine to solve. Why should I expect anyone else to bother?

We never heard phrases like "standard of living," "subsistence level," or "minimum requirements." Our standard of living was whatever my father earned. If my father was laid off, we stopped spending on anything but food and a lot less of that. My dad spent

every waking hour looking for work — any work. We lived on savings and if things became too tight we'd move in with relatives — or the relatives would move in with us. If there had been no relatives we would have gone to the only place left — the County Poor House, but that would have been an admission that we couldn't take care of ourselves.

I guess we didn't have much. But we had something that was infinitely more important, infinitely more rewarding — we had self-respect, because whatever we had, we earned.

It seems to me that is why America is the strong nation it is today — and it will stay strong only so long as there are enough Americans more interested in earning than getting."

— U.S. Press Assn.

Character Reform

These days we are assailed on every side by calls for "reform" — postal reform, drug reform, social reform, tax reform, and dozens of others. But newspaper writer Brian Bex suggested in a recent address that what we need more than all else is a bit of "character reform."

"We mass produce everything in this country," Mr. Bex told his audience; "everything but character."

"It used to be," he continued, "that when you wanted something, you worked to earn it. Now you stage a riot and get it given to you at someone else's expense.

"If your father or grandfather lost his job, he took whatever work he could get. Now hordes of relief 'clients' refuse a job unless it is to their liking, and they demand the job to be brought to them.

"This nation was built by immigrants who struggled here for opportunity, and would have scorned the false idea of 'something for nothing.' Now it seems to be an almost universal ambition.

"It used to take a lifetime of grueling work and scrimping for a family or a country to earn a little surplus, a taste of security. Now mobs of so-called 'students' and whole 'emerging nations' demand they be given it, out of your earnings with no effort on their part.

"Have you ever wondered what happened to the American of yesterday?"

Brian Bex offered some positive suggestions. Although many people seem to believe that they can do little or nothing, Mr. Bex insisted "what each person is capable of doing, and has the ability to do, is substantial." Further, he said, the philosophy of the left (in all its shadings, from Communism to the welfare state) can be successfully fought with other ideas, not emotions. It is not enough to know what one believes in; it is equally important to know why one holds certain convictions.

We agree with Mr. Bex. Know what you believe. Know why. Accept responsibility. Stand on your own two feet and be counted. That's the way a free and open society works. It's called Americanism.

Rich Communists

Recently in the news have been reports that extremist Abbie Hoffman has collected \$75,000 in royalties from his hate-America books, and his side-kick, Rennie Davis is not far behind with \$45,000. Not bad for two "new left" oadddies who proclaim their intention to destroy the profit-producing capitalist system.

But it is a mistake to assume that such wealth is unusual in the "new left." As we scan the news stories coming across our desk, we are impressed by what we believe to be a very interesting pattern — a pattern woven in \$\$\$\$\$.

Not just a few dollars. Many hundreds of thousands of dollars. Consider, for a moment, the vast amount of hate propaganda now distributed by the "new left" — leaflets, pamphlets, booklets, flyers, "underground" papers of every size and description. Carloads, coast to coast. The cost of paper alone, to say nothing of typesetting and printing, is staggering. Who says the "new left" is poor.

The would-be bombers in Manhattan who blew themselves to bits; that "bomb-factory" they demolished was a quarter-of-a-million dollar townhouse, not including furnishings. New Left members are constantly on the fly to places like North Vietnam, Prague, Moscow, Paris, Stockholm. Have you checked the fares recently? How many of these trips could you afford?

Mr. Jerry Kirk, a recently surfaced counterspy for the FBI, has added some interesting insights. It all started, he said, when he was approached at the University of Chicago. He became suspicious because, although "there was talk about a revolution of have-nots, I didn't see any have-nots. These were well-to-do young people."

Kirk cited examples. "John Kaplin . . . a rather well-to-do young man whose parents live, I think on West End Avenue in New York; Bernadine Dorn's father is the head of a big trucking firm, and she's in S.D.S. Howard Machtinger, another in S.D.S. has quite a well-to-do background. Jeff Blum . . . in S.D.S. — his father is Mr. Blum who used to own a large interest in the Baltimore Orioles. In fact, Mr. Blum is a multi-millionaire. So I called the FBI. . ."

An old Bolshevick is said to have proclaimed that "the capitalists will provide us with the rope with which we will hang them." Maybe that should be up-dated to read: "The capitalists will provide sons and daughters who will help us to hang them."

— U.S. Press Assn.

"Something to think about when you send the next check to pay the kid's tuition at college, Teddy Roosevelt once remarked, 'A man who has never gone to school may steal from a freight car, but if he has a university education, he may steal from the whole railroad.'"

In case you don't know, the ancestors of today's goldfish were green. Also, when goldfish are used for bait-minnows and get loose in streams they finally become carp.

Congressional Wrecking Crew

It has been said that inflation starts in Washington, D.C., and nowhere else. A review of the congressional role in price rises shows only too clearly why this is so. As one Senator observed, "When . . . congressional salaries (were raised) 41 percent, there was no stopping the surge of inflation. This opened the gates to huge wage demands everywhere."

But, the congressional increases are but part of the story. In the last five months, election-minded members of Congress, according to late estimates, have boosted government spending \$4.8 billion in the year that started July 1, 1970. At the same time, they have cut taxes and voted down the revenue-raising measures asked by the President to help pay for increases in the cost of government. Federal deficits, as a consequence, may rise to \$7 billion in place of the budget surplus foreseen by the President a short time ago.

Yes, inflation starts in Washington where Congressmen, far from home, write laws to protect consumers while spending the country into national bankruptcy.

Million Dollar Remodeling Job Starts on Capitol

As fast as the state's major finance agencies moved out of the capitol into the new Finance Building, contractors' bids were opened for remodeling of the old quarters to the tune of more than \$1 million.

Work soon will be underway on all floors of the capitol, including the basement. Senators will get private offices of at least 550 square feet each. Bulk of the new Senate space will come from quarters long occupied by the State Comptroller.

House members will have smaller offices — but at least a private office — in the old first-floor State Treasury quarters and the basement.

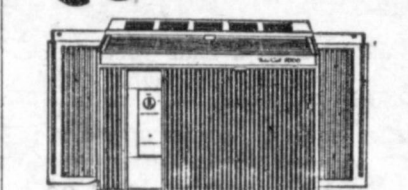

Senators plan new committee rooms, including one specially wired for sound and TV lights.

Capitol station post-office will make an early move into the new Finance Building, clearing the east entrance of the statehouse for restoral to its original splendor.

Spider webs will stretch many times their length before they will break. They possess tensile strength greater than steel.

Milk Quality Is Constant Concern Of Health Dept.

It's often been called the "near-perfect food", and rightly so, because milk contains more life-giving properties than almost any other food. But this very fact makes the control of the sanitation and quality of milk and dairy products a constant concern of the Texas State Department of Health.

In Texas, the Legislature has given the Commissioner of Health Dr. J. E. Peavy, the authority to set up specifications and requirements for the control of sanitation of milk and milk products. In passing the Texas Milk Law, they also gave city health departments the authority to adopt regulations in conformance with those released by the Commissioner.

"Proper handling" as interpreted by these health departments means the production of clean milk from cows which are tested and proven to be in good health. As a con-

tinuing safeguard, the milk must be handled under rigidly enforced sanitary conditions to prevent its being contaminated from the time of its production until it reaches the processing plant. It is likewise maintained at temperatures which inhibit bacterial growth. After the milk arrives at the plant, its sanitation continues to be rigidly maintained through proper pasteurization and final packaging in sanitary containers. With all of the safeguards which are routinely and continuously applied, the possibility of milk becoming a carrier of pathogenic disease is virtually eliminated.

The Milk and Dairy Products Division of the State Health Department is responsible for public health protection by regulating milk and dairy products, including butter, ice cream, cheese, and the like, produced, processed, and consumed in Texas. The division also has the responsibility of inspecting Grade A producer dairies, milk processing plants, receiving stations, and other by-products plants that ship

milk and dairy products into the state of Texas. Approximately 3,867 inspections in seven states other than Texas have been made by Health Department personnel during the first five months of this year. Permits have been issued to about 200 over-the-road tankers.

Here in Texas, local health departments join with the state agency in maintaining frequent inspections of the 4,178 producer dairies, 77 processing plants, 13 receiving stations, 79 transfer stations, 68 manufacturing plants, 10 single service plants, and 197 trucks and vans in operation within the state. Frequent samples are taken and checked at several regional health laboratories, as well as the state lab, for sanitation, bacteria count, and butterfat content.

Each acre of young, vigorous growing forest produces four tons of oxygen each year while at the same time growing about four tons of new wood, reports the Southern Forest Institute. This amount of useable oxygen will supply the oxygen needs of at least 18 people for a whole year. The wood can be used to manufacture any one of more than five thousand individual consumer products made from trees.

New Ball Team Nudges Nocona 6-2

A newly organized team of local ball players bumped a Nocona outfit 6-2 on the Muenster diamond Monday night.

The team, managed by George Davis, has hopes of playing several more games this season and getting admission next year into a hot amateur group including Gainesville, Durant, Arlington and two Dallas teams.

In Monday's game the fifth inning was the big difference. Muenster started with a run in the first and Nocona tied in the third, then the four run rally in the fifth gave Muenster a fat lead. After that each scored 1 in the sixth.

Roy Reiter pitched all the way for Muenster. Hits were 2 singles by Chris Cain, a triple by Roy Monday, doubles by Leonard Reiter and Lee Roy Hess, singles by Roy Reiter and Dale Hellman.

Other team members are Willie Walterscheid, Tim Endres, Lloyd Angel and George Davis.

Lose 10-2 to Gainesville
 The team's second effort was less successful as it was trimmed 10-2 by a Gainesville outfit, mostly former Owls. Eight hits and a flock of errors by the Muenster boys made it easy for Gainesville. Roy Reiter got Muenster's only hit.

Watermelons Without Seeds

The eating is as good, but the fun that many small fry have of spitting seeds when eating watermelon, is missing from the seedless watermelon. The melon has no seeds, but small seedcoats are present in the meat of the melon.

Most seedless watermelons are of the Tri-X hybrid 313 variety and are dark green with faint, lighter green stripes," he explained.

Seedless watermelons are generally sweeter than other melons, Dr. Larsen said, and urged consumers to try one.

"The seedless watermelon also has a longer shelf life than do the seeded varieties," Dr. Larsen said.

On the Western topic is a new book, "Longhorns North of the Arkansas," by Ralph F. Jones. Imagine the Great Plains after the Civil War — a sea of knee-deep grass all the way to the Canadian Border.

"Wells Fargo" by Edward Huntington, leading transportation historian and former Wells Fargo executive, tells of the tremendous events from the formation of Wells Fargo corporation in 1851 down to the present.

Another book on the shelves on Muenster Library is "Covered Wagon" by Emerson Hough which became a Paramount Picture success.

Estate Tax

Most of us try over the period of our working years to accumulate some sort of an estate to pass on to our heirs.

It is not surprising that there are a lot of our mature citizens who want to know how much federal estate tax will be owed on their life's accumulation. Due to the community property law in Texas you don't owe any Federal estate tax on community property unless the estate amounts to \$120,000 or more (\$60,000 for each spouse).

GI Student Bill Eases Work Load

Cooke County Junior College has been advised by the Veterans Administration that the Congress has recently lowered the number of semester hours that a veteran must take to qualify as a full-time student under the GI Bill.

In the past, a veteran had to carry 14 semester hours to qualify as a full-time student. This has been reduced to 12 semester hours. The law did not change the requirements for 3/4 and 1/2 time students.

The new monthly allowances for veterans are: No dependents: full time \$135, 3/4 time \$98, 1/2 time \$67; one dependent: full time \$181, 3/4 time \$133, 1/2 time \$91; two dependents: full time \$210, 3/4 time \$156, 1/2 time \$102; for each additional dependent: full time \$6, 3/4 time none, 1/2 time none.

stitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to authorize the Legislature to provide by law for the establishment of a uniform method of assessment of ranch, farm and forest lands, which shall be based upon the capability of such lands to support the raising of livestock and/or to produce farm and forest crops."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT (HJR30) General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Subsections (5), (6), (7), (8), (9), (11), (12), and (13), Section 1-a, Article V, Constitution of the State of Texas, be amended to read as follows:

"(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceedings shall be by majority vote of those present, except that recommendations for retirement, censure, or removal of any person holding an office named in Paragraph A of Subsection (6) of this Section shall be by affirmative vote of at least five (5) members.

"(6) A. Any Justice or Judge of the Appellate Courts and District and Criminal District Courts, any County Judge, and any Judge of a County Court at Law, a Court of Domestic Relations, a Juvenile Court, a Probate Court, or a Corporation or Municipal Court, and any Justice of the Peace, and any Judge or presiding officer of any special court created by the Legislature as provided in Section 1, Article V, of this Constitution, may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any person holding such office may be censured, in lieu of removal from office, under procedures provided for by the Legislature.

"B. Any person holding an office named in Paragraph A of this subsection who is eligible for retirement benefits under the laws of this state providing for judicial retirement may be involuntarily retired, and any person holding an office named in that paragraph who is not eligible for retirement benefits under such laws may be removed from office, for disability seriously interfering with the perform-

ance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to the misconduct or disability of particular persons holding an office named in Paragraph A of Subsection (6) of this Section, receive and report, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) After such investigation as it deems necessary, the Commission may in its discretion issue a private reprimand, or if the Commission determines that the situation merits such action, it may order a hearing to be held before it concerning the removal, or retirement of a person holding an office named in Paragraph A of Subsection (6) of this Section, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefor, it shall issue an order of public censure or it shall recommend to the Supreme Court the removal, or retirement, as the case may be, of the person in question holding an office named in Paragraph A of Subsection (6) of this Section and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order public censure, retirement or removal, as it finds just and proper, or wholly reject the

recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary."

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any person holding an office named in Paragraph A of Subsection (6) of this Section, against whom a proceeding is instituted to cause his retirement or removal, due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the person holding an office named in Paragraph A of Subsection (6) of this Section in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No person holding an office named in Paragraph A of Subsection (6) of this Section shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to and cumulative of, the methods of removal of persons holding an office named in Paragraph A of Subsection (6) of this Section provided elsewhere in this Constitution." Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment relating to the removal, retirement, or censure of Justices, Judges, and Justices of Peace under prescribed circumstances."

St. Anne Society And Fr. Andrew Sary Farewells Sunday

Members of Muenster St. Anne's Society and their spiritual director, Father Andrew Sary, said farewells at their monthly meeting Sunday afternoon. It was Father Andrew's last meeting with the organization for which he had been spiritual director during his six years in Sacred Heart Parish.

He gave a parting message in which he commended the women on what they accomplish as a group and urged them to continue their good work. The society presented a farewell gift of money. At the same time, members who also are members of the local CDA court, presented a money gift from that group.

Mrs. Tony Gremminger, St. Anne's president, presided and Mrs. Wilfred Bindel reported on sessions of the Catholic State League in the state convention at San Antonio and in the national convention at Subiaco, Ark., which she attended.

Sisters' Shower

St. Anne's Society which annually sponsors a food and pantry shower for the local Benedictine Sisters asks that parishioners leave their contributions at the convent now or place their orders with any of the four local grocery stores which will deliver so that supplies will be waiting when the nuns return for the school year. Cash donations, also welcome, may be left at the convent.

Eighteen members attended the meeting and Mrs. C. M. Walterscheid won the door prize.

Father Andrew left Tuesday for his new assignment in Rheinland. His successor, Father Leonard Wangler, will arrive Friday.

Kathy Rohmer Is With Group on Teaching Project

Miss Kathy Rohmer who took training last summer in Project Involvement for teens taught a summer class this year.

She was a member of a team of six including four nuns and Miss Loralee Dietrich of Dallas at Our Lady of Guadalupe Parish in Wichita Falls.

Kathy's students were of various grade levels who needed special attention in math and reading. Miss Dietrich and one nun had a pre-school class and two of the nuns taught math.

Children were mostly Latin-American but there also were some Negro children.

One day the classes joined for an excursion out of the city and the youngsters had an opportunity to fish.

On the last day of school there was a picnic in a city park.

While Kathy was in Wichita Falls she spent a weekend with her uncle and aunt, the Gerrel Wootens and cousin Vickie Wooten.

Pioneering in Cooke County was presented to a class of kiddies in the log cabin of Morton Museum last week. In the foreground children are making butter in an old crockery churn. They also saw a part of the process of bread baking, the actual baking being done later in the home of Mrs. Tennie Merrick, the teacher. Another teacher was Mrs. Lanny Lyons.

young people get involved, we should be aware that the revolutionary movement is not promoted by kids. The leaders are older people, in their late twenties or thirties and forties, whose only purpose on the campus is to stir up trouble. Mostly they are trained communists, some circulating as students, some even as teachers. They aren't kids, but full grown traitors and criminals, and calling them kids is deliberate misrepresentation.
