Voters of Texas did a fine job Saturday in ending the senatorial career of Ralph Yarborough. Practically speaking this election year can already be considered a success. From here on Texans can't lose. They have two good men to choose from in the November election. Either Bush or Bentsen will be a vast improvement for the office.

Yarborough, of course, does not think the election was fair. He complained that Republicans flocked to the Democratic polls just to vote against him. To his way of thinking they had no right to stick their noses into the other party's contest. But he seems to overlook another significant fact. The man chosen for the Senate becomes the representative of all Texans. Regardless of party affiliation, people were voting as individuals, and the real issue was whether he would continue in office. They wanted to vote on that issue, and they had to go to the Democratic polls to do it.

However Ralph should admit that another factor was also involved. As regards almost all of the local and state offices, the Democratic primary is the important election of the year. Most of its nominees are cinches to win in November. So, the only way anyone can have a say in the final selection is to vote in May. From that standpoint Yarborough's criticism is out of line. Surely people can't be expected to give up their right to vote on local and state offices just because they intend to vote GOP in November.

Yarborough also complained about the poor election turnout, claiming that things would have been different in a big election. The people he claims to have been working for let him down by not showing up. In that he could be making an erroneous reading of the signs. People may have learned eventually that he was not really helping them. He was for bigger handouts to the poor but his wild spending had a strong bearing on inflation, which actually made the poor folks poorer. He preached for higher wages, which cause more inflation, which in turn wipe out the real benefit of pay raises. The plain fact is that the socialistic thinking of liberals like Yarborough is the big reason behind current economic problems. Possibly more people are becoming aware of that.

The tragic deaths of four students at Kent State University are no more tragic than the circumstances that led up to them. Anarchy on that campus and several others of the country reveals an alarming and deplorable deterioration of the American spirit.

Any fair minded person has to admit that these were not just brutal killings, but a regrettable result provoked by a rampaging mob. It is an admitted fact that the guardsmen fired their weapons after being barraged by rocks and concrete chunks. Critics say that they did not exercise proper restraint. But who can say what the soldiers must tolerate from lawbreakers and rowdies? Who can say that the mob had a right to abuse them? Who can deny that the tragedy would have been avoided if the demonstrators had avoided the violence?

Reasons given for the outbreaks are also regrettable. Students were protesting the involvement in Cambodia, which President Nixon a few nights before had explained as his carefully considered solution to current problems of the war. He did what he thinks is best for the country, and he admitted that, right or wrong, he accepts responsibility for the consequence. Furthermore he did what his conscience told him regardless of widespread critical opinion. He deserves the chance to see his plan through. Let the credit or blame come after the result is known.

It is gratifying to know that many people are cheering for him. They think as they should that he is doing his best. They hope as they should that his way is right. Some others think he blundered, but their hearts are still in the right place. They hope he will be right and that our country will profit from it.

There are still others, how-

Hay Machinery Sets off Annual Harvest Rush

The right season and the right weather arrived together this week, setting off a rush of hay harvesting. Mowers and rakes are busy all over the community on alfalfa crops and combinations of alfalfa and oats. Straight oats crops generally can still be improved by a few more days of maturing.

Reports on the crop are mostly good. It has thrived well on the abundant moisture supply, however there are scattered spots which show the effect of too much rain. Actual yields are not measured yet. Most of the hay, moved Monday and since, was not ready for the balers. However, if the present warm breezy weather continues, baling will be in full swing by the end of the week.

Grain crops, like the hay, look fine at this time. Farmers hope the favorable weather continues so that they can be ready when the grain is.

Dangelmayr, Cash Go to State Meet

Two MHS students will be in Austin Friday participating in state finals of the Inter-scholastic League meet. Gerry Cash, first place winner of the regional meet, will be entered in poetry interpretation. John Dangelmayr, regional second place winner, will be in the discus event of the track and field meet.

Homecoming Set At Shiloh Sunday

Annual homecoming celebration will be held Sunday at Shiloh Baptist Church and the Rev. Aubrey Thetford and his congregation invite everyone to attend. After the 11 a.m. worship and song service, dinner will be served picnic style on the grounds. Those who attend will bring lunches with them. The afternoon will be free for visiting and reunions. Gifts will be presented to the youngest and the oldest mothers and to the oldest father present. The homecoming is an annual Mother Day event.

DPS Will Conduct Adult Course in Driver Training

In keeping with the current statewide campaign to improve the quality of Texas driving, the Department of Public Safety will conduct a special adult driver training course next week in the district courtroom of the Cooke County courthouse.

It will be held in three sessions, 7 to 10 p.m., Wednesday, Thursday and Friday nights, May 13-15.

The course is co-sponsored by the Gainesville Police Department and the sheriff's office. No fee will be charged. It is intended especially for unlicensed drivers but it is also open to licensed drivers who want to improve their knowledge and skill. It is recommended as particularly helpful in passing the written test to get a driver's license.

The DPS estimates that the state has about 400,000 unlicensed drivers, some capable and some hazardous. Since enforcement of the driver license law is due to become stricter, people who are able to get licenses are advised to get them. The purpose of this course is to help them qualify. Simplified instruction with visual aids will be used to make the classes as easy as possible.

At enrollment a person will be required to show a birth certificate. Whoever doesn't have one can contact the county DPS office for information on acceptable documents. Another requirement: each enrollee will need a ball point pen.

Elementary Pupils To Have Program On Bicycle Safety

Elementary pupils of both Muenster schools will have a special program Tuesday on bicycle and pedestrian safety. It will be conducted by a member of the Texas Department of Public Safety, 9 a.m. at the public school and 10:30 a.m. at Sacred Heart.

The program will advise the pupils on alertness and safety practices for children who are afoot or on bicycles. Most of the message will be presented by two animated cartoons.

Garden Club Meets Monday

Muenster Civic League and Garden Club will meet Monday, May 11, at 8 p.m. in Muenster Public Library with Mrs. Arthur Endres and Mrs. Larry Yosten as co-hostesses. The program will be presented by Mrs. Rudy Hellman, showing slides of her trip to South America.

Two Busy Weeks Await Students of Muenster Schools

This weekend is the beginning of two crowded weeks for students of the Muenster schools. Along with their exams the youngsters will have class trips, campus day, two presentations of a musical, a prom, awards banquets, baccalaureate and graduation.

First activity is under way now. Sacred Heart seniors are spending Wednesday to Saturday headquartered in Houston, seeing sights there and at Galveston. They made the trip in cars and are accompanied by Tom Joy, Bob Pels, Mrs. Richard Grewing and Mrs. Ray Hess.

Muenster High seniors started their trip Thursday morning at 7:15 by chartered bus. They'll be living it up at the Bar K Ranch near Leander, 38 miles northwest of Austin, and are due home Saturday night. Adults in the group are the class sponsors, Edgar Dyer, Glenn Richardson and Virginia Sims, and Mrs. Glenn Richardson.

Meanwhile all kids of both schools are getting their customary holiday Thursday observing the church feast of Ascension.

Friday is campus day at Sacred Heart, another holiday. Each class will have its own observance, a picnic at a lake, Six Flags, a train ride, etc.

The starter on next week's schedule is the MHS all-awards banquet Tuesday night. All of the athletic awards, and academic awards not held for graduation, will be presented then.

Big events at Sacred Heart are two presentations of the musical, "Man of La Mancha", Friday and Sunday nights. All of the high school classes are participating. Both shows will be in the parish hall starting at 8 p.m.

The final three events of MHS are the junior-senior banquet and prom Saturday, the 16th, baccalaureate service Sunday and graduation the following Friday night. Sacred Heart's all-awards banquet is set for Saturday night, the 23rd and graduation the 24th. The year closes with distribution of report cards Monday morning.

5 Blocks of New Pavement Planned By City Council

A paving project of about five blocks in the northwest part of town is in the making. Residents on the streets concerned appeared before the city council's Monday meeting asking for early action so that job can be done this summer.

The proposed project includes the 900 block of Maple, Ninth Street between Maple and Cedar, and the three blocks of Cedar from 9th to the FM road north of town.

The city council reminded the petitioners that curb and gutter must be established before installation of pavement. If residents will work out their curbing project the city will start looking for a paving contractor.

Another request for a street project was presented by J. M. Weinzapfel. It concerns the opening of Ash Street to cross Brushy Elm creek and connect with Highway 82. Ash is at the west city limit, west of Richard Grewing's home.

The council voted to study the cost of a bridge and other drainage problems before making a definite decision on the proposal.

Big First Inning Beats Era 11 to 5

Dan Hamric's MHS Hornets started their game Tuesday with a big inning and coasted to an 11-5 win over Era. They were working on 4 hits, 1 walk and 2 errors to bring in 6 runs in the first inning. The visitors had started with a 1-run first. After that Era scored 4 in three innings and Muenster scored 5 in three innings.

Carl Endres had a fine day at the mound allowing 5 hits and 1 walk while striking out 12. Combined efforts of Ford and Cowling for Era allowed 10 hits and 6 walks and fanned 5.

Roger Harrison led the hitting with 3 out of 4, including 1 triple. Jim Endres got a triple and a single, Mark Lippe a double and a single, Carl Endres and Andy Knabe each a stand-up triple and Dale Hellman a single.

With a record of 3-1, Muenster is in second place in the loop. Alvord is undefeated. To win the loop Muenster will need to win both of its games with Alvord.

Mr. and Mrs. John Fisher returned Tuesday night from a visit since Friday with their daughter Rosemary and husband, the Michael Lardners, in Kansas City. They traveled by car, enjoyed sight-seeing on the way.

Muenster Votes Strong For Sullivant, Bentsen

Voters of Muenster favored the winners in the three races that dominated last Saturday's Democratic primary. They gave strong support to Lloyd Bentsen, winner over Ralph Yarborough in the senate race, to Larry Sullivant, winner over

Bill Carroll in the county judge race, and to Frank Scoggin, front man in the run-off for county clerk.

Muenster also went along with the state in giving big victories to Crawford Martin for attorney general and to Ben Ramsey for railroad commissioner. However their selection was not so good for commissioner of the land office. They gave strong support to Sadler, the loser, and less than a third of their votes to Armstrong, the winner of the three-man contest.

The turnout here was 495 in the north box and 107 in the south box, an over all community turnout of about 60 per cent as compared with about 37 for the entire state. Cooke County's turnout likewise was about 60 per cent.

The primary left little to be decided in the run-off, as far as Muenster voters are concerned. The only county contest on the local ticket will be for county clerk, with Scoggin and Beeler running. Scoggin fell short of the majority by only 133 votes. He had 2769, Beeler had 1002, West 985 and Shomake 915.

Another race in the county will be for Justice of the Peace of Precinct 1, with Burchfield and Patterson as the contenders. Muenster is not in the precinct.

Statewide only one run-off was indicated by early counting. Denton is due to oppose Phillips for place 3 on the state supreme court. They polled 569,525 and 288,487 respectively and Davis got 284,393.

Persons who were nominated statewide without opposition in the primary were Preston Smith for governor, Ben Barnes for lieutenant governor, Jesse James for treasurer, John C. White for agriculture commissioner, Jack Pope for place 1 on supreme court, Ruel Walker for place 2 on supreme court, John Onion for court of criminal appeals, Frank Massey for court of civil appeals.

Unopposed for district, county and precinct were Graham Purcell for U.S. representative, Walt Parker for state representative, Anna Mae Shorter for district clerk, Ruby Davis for county treasurer, Kit Carson for county superintendent, Robert Bayer for commissioner of Precinct 4, J. W. Atchison for county chairman.

Muenster voting was reported as follows in the north and south boxes respectively.

Deposits Down Loans Up in Bank's Quarterly Report

Deposits were down and loans were up at the Muenster State Bank when the state banking commissioner called Tuesday for the quarterly report of condition.

As of April 30 the deposits were \$4,082,742 and the loans were \$2,230,343. On April 30, 1969, the figures were \$4,217,087 and \$1,875,409. The drop in deposits, according to President Herbert Meurer, is accounted for principally by several withdrawals for investment.

The county's other three banks had increases in both deposits and loans, and the total of their reports amounts to a substantial increase of county-wide deposits and loans.

The new report shows deposits of \$32,660,271 as compared with \$29,281,349 a year ago. Total loans are \$17,009,723, they were \$13,757,285 a year ago.

The local statement also indicates a drop in both deposits and loans for the past quarter. The report of Dec. 31 showed deposits of \$4,306,623 and loans of \$2,417,831.

400 at Marysville For Homecoming

A crowd of some 400 people gathered at Marysville for the annual homecoming celebration Sunday.

The Baptist Church and grounds were headquarters for the event. Bro. Aubrey Spies was speaker for the morning worship service and Mr. and Mrs. David Taylor were in charge of the song service.

A picnic dinner was spread on lawn tables at noon and the afternoon was devoted to visiting and reunions.

This year's awards went to Wheeler Worley, 85, an old timer of the community who attended from Garland and was the oldest man present, and to Mrs. Pearson of Gainesville, oldest woman present. Both received boxed chocolates. Mrs. Pearson has captured the prize the past three years.

Mike Schmitt, son of Mr. and Mrs. Leo Schmitt of Yakima, Wash., former Muenster residents, and a friend Ned Walsh, also of Yakima, returned home Thursday after a five-day visit with Mike's relatives of the Schmitt and Hess families.

Family Gathering Saturday Observes Golden Wedding of Henry Wiesmans

Mrs. Wiesman is the former Miss Louise Binz, a native of Arkansas but a resident of Muenster since she was ten years old. Mr. Wiesman was born in Muenster, a son of pioneers, Mr. and Mrs. Joseph Wiesman. He is a retired farmer.

The couple has four daughters, Mrs. Leonard Yosten, Mrs. Koesler and Mrs. Henry Yosten of Muenster and Mrs. Mel J. Fisch of Chicago, Ill. They have 16 grandchildren and four great-grandchildren.

Mrs. Fisch and her family who were unable to attend the party joined in for a while by telephone. Attending from out of town were a grandson Sgt. David Yosten, his wife and two children of San Antonio and granddaughters Susan Yosten and Ann Stewart, students at NTSU, Denton.

Father Patrick Is Back for Visit

Former Muenster Pastor Father Patrick Hannon, now of Johnstown, Ohio, was back for a visit Saturday afternoon seeing the local pastors and making pop calls on old friends.

Father Patrick is pastor of the Church of the Assumption in Johnstown and also of a mission parish, the Church of the Nativity at Utica, Ohio. The mission church is very old and the only one in the nation that keeps the Christmas crib scene on display throughout the year.

Purcell Conducts District Poll on Current Issues

Congressman Graham Purcell (D-Tex.), today announced he is polling his 13th Congressional District con-

stituents while issues are, in Purcell's words, "fresh on everyone's minds from the primary campaigns." Purcell's questionnaire consists of ten questions, most of which have been discussed by candidates for state and Federal office. In addition,

there is space for the constituent to respond with the national problem that concerns him most. "I hope," Purcell said, "that the primary campaigns have made people think of the issues raised by the questionnaire. While voters already burdened by political mailings may be reluctant to take the time to fill out the opinion poll, there really is no better time to get a valid cross section of thought than right now."

"I have no primary campaign," Purcell said, "and with my responsibilities here in Washington, I haven't had the opportunity to talk to voters the same as my colleagues running for re-election. Elected officials can touch base with their constituents if they are campaigning, and have the best idea then what voters feel about various proposals; this is another way of getting a voter reaction to national issues."

Purcell's questionnaire contains ten questions covering Vietnam, crime, the economy, the environment, 18 year old voting, postal reform, narcotics, farm program, foreign aid, and the space program.

Social Security Offers to Tell Your Earnings Record

Did you know that you can check your social security earnings record? In fact, Gus Jones, social security manager, suggests everyone do this once every three years.

To make this a simple matter, social security has a printed postcard form which is already addressed and is available in all social security offices.

By putting your name, address, date of birth, and social security number on the postcard and mailing it, you will receive a report of all wages or self-employment earnings which have been credited to your record. If you find you have not been credited with all of your earnings, the district social secur-

ity office can help correct the record.

"Remember, it is better to be safe than sorry, and your social security record does determine the amount of your benefit and your family's benefit. Ask us for this postcard today," Jones concluded.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

People Failed, Not the Country

Here we go again.

Governor Marvin Mandel, we read, is in a great dither because he doesn't know whether, in good conscience, he can sign a bill just passed by the Maryland legislature requiring all public school pupils to salute the flag of the United States. Even though the measure permits non-conformist students to be excused from class during the pledge of allegiance, the Governor is still worried that it might be "unconstitutional."

First, we recommend that he go ahead and sign the measure into law and let the Supreme Court worry about constitutional requirements. Second, we can remember a time-not so very far back-when any kid in school not saluting the flag would soon be sporting a black eye, or at the very least would find himself ostracized from student activities.

In case there are some youth around who don't know (and it wouldn't surprise us) the Pledge goes as follows:

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

If and when there are any shortcomings in our country, it is not the fault of the Pledge of Allegiance, or the American's Creed, or the Constitution, or the Flag, but because of the failure of some people do live up to those high principles embodied in the great symbols of our nation. We need better citizens, not a better country.

Proof of Treachery

Many Americans act like the ostrich. They think because they cannot see a threat, one does not exist. Yorick Blumfeld, a British journalist, did what he could to point out a danger most of us do not recognize. He said, "The whole atmosphere of America is one of hope." Then he emphasized, "but there is little to hope with the present Soviet regime."

The Englishman was speaking in Indiana on a visit to our state capital when he issued his warnings. He said Americans are unwilling to admit or recognize that the Soviets break commitments with everybody, friend and foe alike.

"The Soviet attitude of treachery has been proven time and again," said Mr.

Blumenfeld. "The Reds proved it by the Czech invasion, which was a breach of the Warsaw Pact of 1954. Americans seem not to be aware that Hungary, Poland and East Germany, as well as Czechoslovakia, are occupied by the Red army. And this is 14 years after the Hungarian revolution."

It is too bad this Englishman has to come among us and point out that "Americans are foolish to believe the Soviets will sign and honor treaties." We should be able to recognize the threat.

It is natural in our nation to hope. But we should never be foolish enough to let our hopes take over in place of being alert. Not only should we recognize the unfaithfulness of the Communists, we should remain strong enough to repulse any move they would make against our society.

Honoring a word, either written or spoken, is not a Red quality. In all of our dealings with the Soviet Union, we should never forget these facts.

Texas and Mexico In Joint Meeting On Waste Disposal

Disposal of wastes, a problem which gained attention during a nationwide Earth Day observance, will get an international treatment May 11-15 in Laredo and Nuevo Laredo when a Binational Solid Waste Management Course is held in the twin border cities.

To the Texas State Department of Health, every day is "earth day". Long an advocate of pollution control on land, water and in the air, the State Health Department has been a leader in solid waste management and the sanitary landfill method of disposal.

The Department joins with the Public Health Service, Laredo-Webb County Health Department, Pan-American Health Organization and Mexican Secretariat of Health and Welfare in organizing the course. The Environmental Control Administration's Training Institute, in the first joint venture in this field between the United States and Mexico, will conduct the course.

Main theme of the bilingual presentation during the week will be the sanitary landfill, its relationship to the environment and the methodology of its design and operation. Of all the solid waste disposal techniques, the sanitary landfill method is the most promising. In this method, refuse is dumped into a pit, compacted and covered each day with a layer of dirt. Marginal land is reclaimed by sanitary landfilling for parks, golf courses and other uses.

In Texas a total of 26,000 acres of land are used for solid waste disposal. This is equivalent to 41 square miles. An average of almost one ton of refuse is thrown away each year in Texas by its residents. If not disposed of on a regular basis, the almost six pounds per day for each Texan would soon cover us up, according to Dave Cochran, chief of the Environmental Development Program of the State Health Department who will appear on the Laredo faculty.

Earliest wrist watches date from 1790.

Earliest adhesive postage stamps were the "Penny Blacks" placed on sale in the United Kingdom on May 1, 1840.

The World of Science by Jane Watson is an excellent book about scientists at work in many challenging fields in geology, astronomy, mathematics, physics, chemistry, biology and engineering.

Birds of the World is an illustrated natural history of great interest to bird watchers as so many birds migrate at this season.

The Big Cats by Gerald D. Christensen tells about the big cats, lions, tigers, leopards, cheetas, jaguars, cougars and acelots, the most independent, the toughest and most cunning of all hunting animals.

On the light side of reading material there are novels including The Vanished Jet by James Blish, an outstanding book, and The Kitchen Madonna, just wholesome reading.

Mrs. Detten Joins Ladies' Fly-In at Washington, D. C.

Mrs. Oscar Detten was one of 200 Farmers Union women participating in the 1970 National Farmers Union Ladies Fly-In at Washington, D. C., to protest low income and rising farm costs, to emphasize the need to retain farm parity and to make improvements in farm programs which will lead to improved net farm incomes.

The women met with senators and congressmen and had their say.

Fly-In participants had four days in Washington with meetings and, after business, sight-seeing. They visited the Capitol and White House on conducted tours, saw Arlington Cemetery and all other places of tourist interest, and made a side trip to Arlington, Va., for sight-seeing.

The 16 Texas women participating in the Fly-In wore corsages of open cotton boles and attracted considerable attention and questioning. Some in the group had never seen cotton, the Texas group met at Love Field for the trip April 26 and returned there April 29. Mrs. Detten enjoyed again the company of friends from Hereford, Vega and Quail.

Close the door on kitchen smoke.

When you broil with some ranges, you have to worry about smoke getting into your kitchen. Dirtying your walls and ceiling; soiling your curtains; irritating your eyes and nose.

But you don't have to worry about smoke with a gas range. Because the gas flame consumes it. And, that's why you can broil with the broiler door shut.

Confetti . . .

ever, whose attitudes are inexcusable . . . especially the militant reds, whose objection is based on a fear that the president may succeed. They are the driving force behind the turmoil. They are sounding the call to violence. They are recruiting mobs from thousands of youngsters who are emotionally disturbed by the miserable conflict.

One big fault in our effort is that we have goofed at home as much as over there. We have failed to stop the trouble makers. Even now the gang convicted in Chicago is out preaching hatred and rebellion. One of them has been agitating for three days at Kent State. Our lenient legal system allows known revolutionists to run loose and college administrators allow them to circulate freely on campus.

Regarding the merit of Nixon's plan, one should consider first of all that he undoubtedly has the assurance of military people. He and they think the odds are on our side or they would not try it. That fact alone ought to give us confidence.

Furthermore, the idea also appeals to us non-military people. Defensive war hasn't got results. We all know that

our chance is better when we can hit the enemy where it hurts. There's reason behind Nixon's view that this will save lives, hasten our return home and improve our bargaining position at the peace table.

St. Anne Society Plans for Lindsay 1970 Homecoming

Members of St. Anne's Society of St. Peter Parish, have started planning for Lindsay's annual homecoming celebration the last Sunday of June. It will be the community's 12th annual homecoming event.

Menu of the noon meal which members prepare and serve each year has been decided on. It will be served in the school cafeteria. Other events, the traditional picnic attractions, will be held in Lindsay Park.

Homecoming plans provided principal discussion at the organization's monthly meeting. Mrs. Joe Paul Fuhrmann presided.

Also planned was an observance of St. Anne's day, patronal feast of the society, on July 26. Each year members attend Mass, receive communion in a group, and follow with a social. Since this year's date falls on Sunday members decided to have a covered dish supper with husbands as guests.

In other business the group discussed refinishing floors in the sacristies at church where heaters have been removed. Mrs. Frank Haverkamp heads the committee in charge.

Mrs. Fuhrmann read a letter concerning OhSung Sam, the Korean orphan that the society is sponsoring.

After adjournment hostesses served refreshments to more than 50 members present and Mrs. Gregory Hundt won the door prize.
