

HAPPY NEW YEAR

MUENSTER ENTERPRISE

VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 DECEMBER 30, 1966

NUMBER 6

The word being passed around Washington these days is that Congressional leaders, with approval of The President, intend to avoid additional Great Society legislation in the coming year. Instead, whatever further effort is given to that program is to be spent at eliminating bad features in the legislation already passed.

The report makes very good reading for the beginning of the new year, as gratifying as the good resolution which used to be customary. It's good to know that Uncle Sam at last sees the folly of his ways and intends to do better.

Those resolutions apparently started taking shape after November 8, when election results indicated that Grass-Roots America was displeased with both legislative and administrative behavior in Washington. Many of the congressmen who dutifully rubber stamped the LBJ program were rejected at the polls, and the President himself learned that the Great Society has considerably less appeal than he thought. In fact, he probably thinks, as many commentators have said, that he was lucky not to be running in that election.

So now LBJ is doing what any smart man would do in his fix. He's trying to regain lost favor by correcting some of the past mistakes. Whether or not he can do enough of that to retain his party's leadership, and retain his job at the next election, remains to be seen.

There's little doubt that he will try. LBJ is a shrewd politician. When he sees how the political wind blows he's very likely to set his course in that direction. Hence, it's a good bet that his coming effort will be more conservative. And it's hardly necessary to add that the attitude of congress will also be more conservative. While some liberals were eliminated others were impressed. The outlook for responsible legislation is greatly improved.

All of which presents one reason to expect a happy new year. Politically it's been a long time since we started with signs so favorable for a return to our country's traditional integrity and common sense in government.

Since the light has dawned in that area, there's reason to hope it will also dawn in other areas. One of those is the war, in which our present half effort causes disgust at home and scorn abroad. Perhaps the eighty violations of the Christmas truce, added to thousands of past incidents, will help convince Washington that the only way is to clobber the Reds and get the job done. Perhaps the State Department will eventually realize as so many others do that it's absurd and humiliating for the world's leading military power to continue a stalemate with a low rated mob like the Viet Cong.

The war too has its political implications. Many analysts believe that disgust with our war effort caused part of that election defeat. We'll have a better new year if the administration gets that idea and acts accordingly.

There are a number of other major problems in the country which are believed to have had a bearing on the election and which, because of it, are likely to get corrective attention. For instance the civil

Sudden death, apparently from a heart attack, struck Joseph E. Fette, 60, about 6:30 Thursday evening in his home. He had been afflicted with a heart condition since a severe attack four years earlier.

Funeral services for Joe Fette were held in Sacred Heart Church Saturday at 10 a.m. with Father Alcuin Kubis officiating at the Requiem Mass and ceremonies and giving the funeral sermon.

Sacred Heart and Lindsay Teams Divide 2 Games

Basketball teams of Sacred Heart and Lindsay high schools divided a double header in the Sacred Heart gym last Wednesday night. The boys' game went to the Tigers by a count of 62-38 and the girls' game was Lindsay's by 25-14.

In the opener Lindsay girls did the better of two good defensive jobs as Joyce Schmitt made only 5 for Sacred Heart scoring honor. Joan Zimmerman made 16 for Lindsay.

In the next game Sacred Heart boys gained 14 points in the first half for a lead of 31-17 and 10 more points in the next half for their final score of 62-38.

Leading scorers were Larry Hess and Leon Endres with 22 and 19 for Sacred Heart and Mike Fuhrmann with 13 for Lindsay.

Construction will start in January on the 622-foot Tower of the Americas, the dominant structure planned for HemisFair 1968 in San Antonio. The tower will be built with \$5.5 million in general obligation bonds approved overwhelmingly by voters in the HemisFair city. Completion is scheduled for March 1, 1968, five weeks before the April 6 opening of the first major international exposition ever held in the southern half of the United States.

Open House Fete For Ike Fultons' 50th Anniversary

Mr. and Mrs. Ike Fulton who were married in Myra 50 years ago celebrated the golden anniversary of their wedding at an open house party in Myra School on Dec. 18.

The couple's two children, Ben Murray Fulton of Archer City and Mrs. Bob Powell of Wichita Falls and Mrs. Fulton and Mr. Powell were hosts for the observance. A granddaughter, Miss Janie Fulton, registered 175 guests.

A gold theme was carried out in the party rooms and punch and cake were served from a pretty table at which Mmes. Fred McTaggart, Ray Hudson, Parker Fears and Jack Biffle presided. A net cover over gold on the table extended in ruffles to the floor. A handsome tiered cake and crystal punch service on the table were complemented by gold mums.

Mrs. Fulton wore a blue three-piece knit suit and a yellow orchid corsage.

Guests attended from Fort Worth, Dallas, Corpus Christi, Oklahoma City, and Cooke County.

Mr. Fulton, 70, is a native of Myra and Mrs. Fulton, 68, is a transplanted native. She was an infant when her parents moved to Myra from Leonard. They grew up together and married on Dec. 17, 1916.

The couple farmed until he retired from active work. They have three grandchildren.

Knights Transfer Party to Coliseum

Plans for the annual K of C New Year's party suddenly got much bigger last week as the sponsors transferred the location from their own hall to the Colonial Acres Coliseum.

Grand Knight Gene Hoedebeck said that since space is no longer a problem the KCs are extending an invitation to all of the parish and will also welcome visitors from the Gainesville and Lindsay parishes.

The dance will be semi formal, the time is 9 p.m. to 1 a.m., admission charge is \$4.00 per couple, and music will be provided by Jack McWilliams and his Melody Merchants.

BIRTHS

A five pound, seven and a half ounce girl was born to Pvt. and Mrs. David Hess at 1:47 p.m. Tuesday, Dec. 27, at Muenster Hospital. Welcoming her first grandchild is Mrs. Arnie Hess, while the Johnny Ottos are happy over another grandchild. The baby's father is with the army in Vietnam. The good news was promptly relayed to him through the Red Cross.

Public Urged to Attend Meeting on School Costs

Financial problems at Muenster Public School and a proposed tax increase to relieve them will be aired next Thursday night, January 5, in a regular meeting of the school board starting at 8 p.m.

Superintendent L. B. Bruns said last week that a petition asking the board to order a tax election has been returned to him with the required number of signatures and will be considered by the board at the meeting.

The petition originated in a previous meeting of the school board. Members faced the fact that their tax structure, established in 1949 does not produce enough local revenue for present educational costs. Pay increases for teachers, increases of all other costs because of inflation, and finally the growth of enrollment and faculty have all pushed the cost upward.

Board members considered two methods to increase the school's revenue — by increasing tax rate and by increasing tax valuations. The latter method can be accomplished without voter approval but it has features that are less appealing to the board, and to taxpayers.

For that reason the board recommends an increase of the tax rate and a district election to authorize the increase. The proposed rate is a maximum of \$1.50 per \$100 valuation to be used for main-

Total Moisture Measure for '66 Is 37.51 Inches

Rainfall at Muenster during 1966 topped the average of the previous ten years by just a few inches. Totals after the Wednesday reading on Steve Moster's Weather Bureau rain gauge were 1.47 inch for the month and 37.51 for the year. Average for the previous decade was 34.17.

Rainfall this week measured .11 inch on Tuesday and .31 on Wednesday, a slight help for the area's grain crops but still short of their needs. The quarter just ending, with a total of only 2.77 inches, is the driest of the decade for Muenster. Next lowest was 4.25 inches in 1958.

However, the dry fall was preceded by a wetter-than-usual summer. Including a record breaking August of 6.94 inches, the three months period added to 13.06 inches, which was topped only in 1962 and 1964. Another unusually wet month was April, with a total of 8.43 inches and bested only by April '57 with its whopper measure of 12.43 inches. A record of rainfall for last year and the preceding ten years is as follows.

tenance and would not affect the present 50 cent rate for debt retirement. Actually the total maximum rate, for both maintenance and debt retirement, would increase from \$1.00 to \$2.00.

The complete story on costs and raising local revenue to meet them will be available at the meeting next Thursday. Interested people are urged to attend.

Muenster Shares In Pro Football Business Boom

Professional football has been described as big business, running into billions of dollars for players, franchise owners, TV networks and TV sponsors.

But those billions do not include the additional millions, perhaps billions, spent in other ways around the country because of professional football — some of which is being spent in Muenster.

Jerome Pagel of the A-OK Motel said Wednesday that he expects about 50 persons from the Dallas, Fort Worth area to see the Cowboys-Packers championship playoff in his rooms next Sunday. He had thirteen reservations Wednesday, mostly from Dallas and Fort Worth, and expects more. Normally a reservation is for about four persons.

This method apparently is getting to be a popular way of seeing a game that is blacked out in one's own area. Dallas Cowboys when playing at home are not on TV out of Dallas or Fort Worth. So people from that area who don't have tickets to the game or just prefer, for financial reasons or otherwise, to watch on TV, have been renting motel rooms where they can get the broadcast from another station. Motel business 60 to 100 miles north and south of Dallas has been booming this year when the Cowboys played at home. People who come here, like the home folks, have been tuning in to channel 12.

Another method is being promoted in Dallas for Sunday's game. It's a closed circuit TV broadcast flashed on a theatre screen, possibly an indication that theatres will soon pack 'em in for football.

And a few people are finding means other than motels and theatres to see the Cowboys. A highway patrolman near Hillsboro a few weeks ago investigated a mysterious looking car with a blanket draped over it. He found a family from Dallas seeing the Cowboys from a Waco station on a portable battery powered TV.

SH Classes Hear Guest Speakers

Religion classes at Sacred Heart High School have been favored by guest speakers at four recent meetings.

Ernest Jaska spoke at two classes discussing finances after marriage. Mr. and Mrs. Joe Walter of Gainesville spoke on "Youth for Christ," and Mrs. L. B. Bruns and Mrs. Earle Otto discussed "Working Mothers" and "Mothers at Home."

SCOFFLAWS

A private citizen who fails to pay the fine on a traffic ticket is called a scofflaw, meaning, of course, one who disregards or scoffs at a law. Another kind of scofflaw has appeared in our midst in recent years, the agitator who says he will abide by such laws in our country as he happens to like, but will disregard and deliberately violate any laws he doesn't like. Worse than either of these, in our opinion, are government officials who would willfully violate the laws of our country in the conduct of our nation's affairs with other governments.

But this is exactly what some officials in the U. S. State Department are trying to do. They want to ignore, or otherwise to evade a law passed by the U. S. Congress last session prohibiting the sale of surplus foods to any nation which sells or furnishes equipment, material or commodities to the Communist regime in North Vietnam. The new Undersecretary of State, Nicholas Katzenbach, has promised the Communist regime in Yugoslavia that he will try to find some way to sell surplus foods and grains to

it, even though Yugoslavia is sending supplies to the North Vietnamese regime.

Katzenbach and other State Department "scofflaws" admit the Yugoslavia shipments are going to North Vietnam, including some goods which are clearly helpful to the Communists' war effort. But they argue that those things are being sent by a "private agency" rather than by the Yugoslav government. It being inconceivable that Mr. Katzenbach is so naive as to think that any private citizen, or agency could send shiploads of merchandise out of Yugoslavia without the active connivance of the Communist government, we must conclude that the Undersecretary just doesn't like that Congressional ban on helping the helpers of our enemy in Vietnam.

If Mr. Katzenbach were only ignoring a parking ticket, or even just joining some professional agitator in inciting a small riot, it might not be so bad. But in his attempt to send food to Yugoslavia, the new Undersecretary of State is seeking to aid a supplier of our enemy in Vietnam.

Scufflaw is a pretty mild term for that, wouldn't you say?

FHA Liberalizes Credit Standards For Rural Housing

The U. S. Department of Agriculture's Farmers Home Administration is better equipped to handle housing credit needs of low and moderate income Cooke and Montague County families as a result of legislation recently signed into law, according to John D. Cunningham, Farmers Home Administration county supervisor.

The new legislation Cunningham said, makes more mortgage credit available to low and moderate families in Cooke and Montague County by increasing the level of activity of the agency's rural housing loan program.

Here are some of the changes in the rural housing program administration by Cooke and Montague County Farmers Home Administration:—Many Cooke and Montague County families who had to go the long route of planning, contracting, and building a house can now buy newly constructed buildings. Before the new legislation, these families could only purchase previously occupied buildings.

—Qualified low-income families can now obtain housing credit from Farmers Home Administration on the basis of a consigner. Previously, only those rural persons 62 years and older qualified for this assistance.

—The new legislation increases from \$1,000 to \$1,500 the maximum amount of assistance the agency can make for emergency repairs or improvements to owner-occupied rural housing or farm service buildings. This credit is not designed to upgrade a building but only to remove hazards to the health and safety of the family and the community.

—Rural families on the verge of losing their homes through foreclosure may save their home if a sound basis can be developed by the Farmers Home Administration to refinance their debts.

—Financial assistance can be given to construct rental housing for low and moderate income families of all age groups. Previously, rental housing financed by FHA had to be occupied by rural people, 62 years or older.

Loans by the Farmers Home Administration are made to Cooke and Montague County applicants who are unable to obtain credit they need from private lenders at reasonable rates and terms.

Applications for Farmers Home Administration rural housing loans may be made at the Cooke and Montague County office located in the Federal Building in Gainesville, Texas.

RELIEF, NOT WAGES, PREFERRED

Although little noticed in the news, there is a real shortage of coal miners in eastern Kentucky. Advertisements promising good wages, paid vacations, hospital coverage and other benefits fail to bring much response. After all these efforts, 1,500 experienced miners are still needed.

This is in the Appalachian War-on-Poverty area where heads of families are being paid \$250 a month with free hospitalization, dental care and food stamps, popularly known as the "happy pappy program." Publicly financed charity, it seems, it making it impossible for the coal mining industry to recruit much-needed workers.

Mainland China is the world's leading rice producer, with a crop normally about 80 million tons annually.

WHO NEEDS U THANT?

The idea that United States officials are attempting to get U Thant to retain his Secretary-General job in the UN is one that demands criticism. Why should this nation's officials beg a known Marxist to stay in a post which heads the now dormant UN?

Any reading thinker knows the United Nations is now a farce, that its peace-keeping thesis is not being practiced. So what good is the UN nowadays? Some 20 years or so back it had a brave hope behind it. But, as the Communists obtained more votes in the UN the Western powers became more and more only the financial donors, less and less the political leadership.

Today any African bush tribe can call itself an "emerging nation" and have as big a single vote as the Republic of the United States of America. This is so farcical as to demand laughter. But that's where we find ourselves. So what does it matter who replaces U Thant? The UN isn't going any where.

STRONG WORDS

Veteran Congressman George Andrews unloaded both barrels on the Great Society recently in a speech to the Eufaula Rotary Club. Among other things, he said, "The 'second chapter' of The Great Society spent a record \$146 billion."

Andrews declared of the 89th Congress, proclaimed by President Johnson as "the greatest," "It was the most expensive Congress in the history of this nation, and you're going to feel the effects of it later on."

He was also critical of the conduct of the Vietnam War, "the worst war in the history of this country," and said he was fast turning from a "hawk" to a "dove" because "the leaders of this country are not fighting this war to win." He added that high ranking military officials are embarrassed because of the way the war is being fought and he declared, "When a man puts on a uniform he puts a zipper on his lips. The uniform comes off if he doesn't say what the Secretary of Defense or the President says."

These are strong words, even from a man who has a reputation of speaking out. It is hoped that Congressman Andrews will make this same speech over and over again in the Congress and that he will enlist the support of other like-minded Congressmen in order to stop the deficit spending, waste, and other high-jinks that have come to be the hallmark of life in Wonderland on the Potomac.

BIGGEST, IF NOT BEST

Congress continues to turn out new laws almost faster than they can be printed. It has been suggested that Congress be required to repeal two old laws for every new one that it passes. The proposal may have been made in jest, but the cancer-like growth of bureaucracy in recent years is no joke. The U.S. may not have the best government in the world, but it can boast one wholly American feature: It's the biggest.

In commenting on the increase in Federal civilian employment since Dec. 1965, Sen. Williams (R-DeL.) said, "These extra 234,387 employees are costing the taxpayers over \$1 1/4 billion annually and to freeze employment at this existing high level means that this extra payroll cost will cancel out entirely any additional revenue that would be derived by repealing or suspending the 7 per cent investment tax credit."

Do-It-Yourself Darling from Texas Is National March of Dimes Child

Donna Dill, a 5-year-old Texan who is most at home on her pony, has been named the March of Dimes National Poster Child for 1967.

Branded by friends as a do-it-yourself darling, pert and pretty Donna likes to be active and independent despite a severe birth defect.

Donna, who was born with an open spine (spina bifida), symbolizes the 250,000 American babies born with birth defects each year. The March of Dimes has helped her as part of its continuing fight against birth defects.

There was a time when the independent little miss wanted to sleep in her braces so she could get up by herself in the morning. She helps around the house by picking up her toys, helping mother with the dishes and cookie-baking.

Donna frequently visits her grandparents' ranch near Corsicana, 40 miles from her home in Hillsboro, Tex., to ride her pet pony Popsy.

When she's on Popsy, Donna's blue eyes sparkle and her blonde pony tail bounces up and down. Riding gives her a feeling of freedom—Donna needs no crutches when she rides.

But she can't walk without crutches, and her partially paralyzed legs are supported by braces every waking hour.

Donna's open spine was treated when she was 18 months old, and she has had four operations since. Her general health is good, and her doctor thinks she may be able to discard her right leg brace someday.

Popsy is not Donna's only pet. In fact she is surrounded by animals. Her 3-year-old poodle, Fluffy, is a favorite, and she keeps goldfish in a bowl in her room. Donna also finds time to play with a neighbor's kitten.

"I just like all animals,"

THE EYES OF TEXAS and the nation will focus on Donna Dill, 5-year-old miss from the Lone Star State, who is the 1967 National March of Dimes Poster Child. She symbolizes 250,000 American children born each year with birth defects.

she told her mother recently, "even snakes."

Donna now attends Sunday school and plans to begin public school next fall. This young lady will enter the first grade an accomplished and experienced traveler.

As the National Poster Child, Donna may very well meet President Johnson. During the January March of Dimes campaign tour, this 5-year-old charmer will make public appearances in about 20 cities from coast to coast.

There will be guest spots with the stars of television, motion pictures, and radio.

Along with Donna on this nationwide tour will be her parents, Mr. and Mrs. David J. Dill, both native Texans.

Donna's father is quite at home on the range. As a student in high school and college he roped calves in rodeos. He is employed today by the U.S. Department of Agriculture as the Assistant County Supervisor for the Farmers Home Administration.

The National Poster Child's mother, Jo Ford Dill, is secretary of the Hill County (Tex.) Chapter of the National Foundation-March of Dimes.

A former majorette in college, she is teaching Donna to use a baton, but Donna's ambition is elsewhere. A true Texan, she wants to be a cowgirl when she grows up. She privately confesses, however, that she would settle for being a mother or a nurse.

Jr. Elite Inc. Has Christmas Party

Employees of Jr. Elite, Inc. were treated to a Christmas party on Dec. 22 by their employers and wives in the factory. Forty-three employees were present.

A gift exchange around a decorated tree and refreshments of finger foods, egg nog and coffee were party headliners. Christmas recordings furnished a musical background.

Each employee received a lovely handbag from the employers. Employees, in turn, presented gifts to their "bosses."

Hosting the party were Mrs. Ola Roberg, manager, and from Dallas, Messrs. and Mmes. Lou Kreditor, Sy Thum and Gerald Frankel. Two of the Thum children also attended.

Two first graders were standing outside school one morning. "Do you think," asked one, "that thermonuclear projectiles will pierce the heat barrier?"

"No," said the second. "Once a force enters the substratosphere ..."

Then the bell rang. Said the first: "There goes the bell. Darn it, now we gotta go in and string beads."

Hoenigs Hosts for Christmas Reunion

Mr. and Mrs. Joe Hoenig had all their family, including their 29 grandchildren, with them on Dec. 25 for an all-day gathering and gift exchange.

Those present were the Carl Pelzels and children of Ennis, the Raymond Hoenigs and children of Irving, the Rupert Hoenigs and sons of Carrollton, the Bill Thomases and children of Dallas, the Richard Hermes and family of Lindsay and the Jerry Hoenigs and children.

Jimmy Pelzel was "with the crowd" in spite of having his right leg in a cast. Broken Thanksgiving Day, the injury will have to stay in a cast until April.

Diana and Jeannine Cottle of Dallas stayed with their grandparents to spend this week and Kevin Cottle remained for a week's visit on the farm with the Jerry Hoenigs.

Christmas Party Held at Rest Home

Relatives and friends joined residents of Golden Years Rest Home for the home's Christmas party on Dec. 22.

Santa Claus was there in person to distribute gifts around a decorated tree in the living room. The Jack Hogans were there with their western band and everybody joined in singing Christmas carols. Afterward the "spry" ones danced. Mrs. Dick Cain served fruit cake, cookies, punch and egg nog.

The Christmas tree brought back memories of years gone by for the senior residents. The big tree was adorned in an old fashioned way with strings of pop corn and cranberries and tinsel.

Norfolk, Va.

Given in marriage by her father, the bride wore a gown of white Chantilly lace and tulle. The slim fitted bodice of lace had bracelet length sleeves and Sabrina neckline sprinkled with sequins. The skirt, fashioned of five tiers of tulle edged in lace swept into an aisle-wide train.

A crown of seed pearls held her waist-length veil of illusion and she carried a bouquet of white roses. For something old and borrowed she wore a gold chain and cross belonging to her mother; it was worn also by her two older sisters at their weddings.

Mrs. Jim Doughty of Euless was her sister's matron of honor, Mrs. Paul Deltz, Houston, another sister, and Miss Sandra Wolf were bridesmaids. They wore identically designed floor-length dresses in shades of blue with belled skirts and fitted bodices topped with long sleeved fitted jackets with back closings.

The matron of honor was in light blue brocade peau de soie. The bridesmaids wore royal blue peau de soie dresses and light blue brocade jackets. They wore light blue brocade pillboxes and carried mums.

Little Jacqueline Doughty and Terry Deltz, bride's nieces, were flower girls. Their A-line dresses were of light blue peau de soie topped with box jackets of light blue brocade. Each carried a single long-stemmed white mum. After the service they presented these to the bride and she placed them on the Blessed Virgin's altar.

Bridegroom's attendants were Jim Doughty, Paul Deltz and James Gupton of Durham, N.C.

Mass music was by Sacred Heart men's choir and Anthony Luke, organist who also was at the console for pre-nuptial and post-nuptial vocal solos by Mrs. Leo Lawson of Gainesville. She sang "On This Day," and "Mother at Your Feet We're Kneeling."

The altar before which the couple pledged vows was banked with poinsettias. Large Christmas trees held vantage spots on either side of the altar.

Wedding reception followed in the K of C Hall and a buffet dinner was served at noon. Rohmer's catering service was in charge. Miss Charlotte Wolf registered 150 guests.

When the newlyweds left on their honeymoon she was wearing a winter white brocade suit with blue accessories.

The bride is a senior at the University of Texas. She is also employed at the YWCA as a life guard. She was graduated from Muenster High School. Airman Winslow is a graduate of high school in Falls Church, Va., and is stationed at Bergstrom AFB in Austin where they will be at home.

Among guests at the wedding were the bride's grandmother, Mrs. J. S. Horn and her grand-uncle Joe Voth.

Those attending from out of town included Messrs. and Mmes. Jake Horn and Edmon Vieth of Windthorst; Bill Schneck of Irving, Al Swirczynski of Mesquite, Virgil Doty and children of Dallas.

**Miss Pat Hartman
John Yosten Marry
At Nuptial Mass**

Miss Patricia Ann Hartman and John Kenneth Yosten pledged wedding vows in Sacred Heart Church Monday in a 4 p.m. service. Father Alcuin Kubis directed the double ring ceremony and celebrated the Nuptial High Mass.

Parents of the couple are Mr. and Mrs. Victor Hartman and Mr. and Mrs. Leonard J. Yosten.

The bride was accompanied up the aisle by her father and mother who presented her in marriage. Her wedding gown of candlelight peau de soie was designed on princess slim lines with controlled skirt applied with Chantilly lace in rose bud design. Long sleeves tapered to points over her hand. The cathedral-length train, petal shaped, was attached at the back waistline by a rose bud of peau de soie. A pillbox topped with a self rose held her elbow-length veil and she carried a cascade of glamelias and the prayer book her mother carried at her wedding. For something old she wore a gold cross and chain that was worn by her maternal grandmother, the late Mrs. John Bayer, at her wedding.

Bride's attendants were her sister, Mrs. Harvey Schmitt, matron of honor, and Miss Debbie Yosten, sister of the bridegroom, bridesmaid. They wore identical dresses of blue crepe with floor-length belled skirts and short sleeves. Their headpieces were circular veils. Each carried a single long-stemmed red rose.

Little Miss Madonna Hartman of Killeen, niece of the bride, was flower girl and Kenny Hartman, a nephew, was ring bearer.

Cyril Yosten of Newport, R. I., cousin of the bridegroom, was best man and Harvey Schmitt was groomsman. Rickey Stewart, John Hoberer and Tom Hartman were ushers.

The men's choir sang the Mass with Anthony Luke, organist. He also accompanied Mrs. Dave Walterscheid, soloist, who sang before and after the service.

Following the Mass Little Misses Carla Sue Wolf of Gainesville and Jeanna Marie Hartman of Denton, nieces of the bride, with a long-stemmed red rose and offering for a vigil light, met the bride and groom in the sanctuary. The couple proceeded to the Blessed Virgin's shrine where she presented the rose and he lighted the candle.

Mrs. Hartman attended her daughter's wedding in a Kelly green crepe dress with black accessories, and Mrs. Yosten, mother of the bridegroom, attended in a beige costume with brown accessories. Both had white carnation corsages.

Wedding reception and buffet were held in the Parish Hall, attended by 325 relatives and friends of the couple. Mrs. Joe Lehnertz catered the meal.

Misses Sharon Tompkins of Arlington and Mary Kaye Gremminger of Denver, Colo., presided at the bride's book.

When the newlyweds left on their honeymoon she was wearing a green wool suit with black accessories. They will make their home in Commerce where he is a senior at ETSU.

The bride is a graduate of Sacred Heart High School and was Miss Muenster in the Jaycees sponsored contest in 1965. She had been employed at Jr. Elite, Inc., dress manufacturing company here. Mr. Yosten was graduated from Muenster High School and Cooke County Junior College. He has been employed at Endres Motor Co.

Wedding guests included the bridegroom's grandparents, Mrs. Bob Yosten and Mr. and Mrs. Henry Wiesman. Those attending from out of town included Messrs. and Mmes.

**Health Magazine
Offers Pointers on
Winter Driving**

Are you up on your winter driving tips?

Today's Health, the magazine of the American Medical Association, offers some pointers that may save you considerable trouble and possibly help prevent a serious accident when snow and ice and freezing rain makes driving extra hazardous.

Good defrosters are essential. If yours aren't in top shape, get them fixed. Get a scraper with a blade on one end and a snow brush on the other, and keep it ready under the front seat. And keep several large rags for wiping windows, headlights and taillights.

Do your tires have good treads? Better still, use snow tires. Keep tires at full, recommended air pressure. Tire chains are useful for severe conditions. Keep a set in the trunk of your car for emergencies. Have your brakes equalized; a little difference can twist you into a skid on ice. Have muffler and tail pipes checked for leaks that might be deadly. Equip your car with a small shovel, box of sand, traction mats and tow rope for emergencies.

In a snow drift or on ice, start in second gear and power up just enough to avoid spinning the wheels. If you hit an unexpected ice patch, don't try to brake, accelerate or steer. Maintain speed and let your car "roll" through the slippery area. Steer in the direction of the skid. That is, if your car's rear end skids right, steer right. Attempts to jerk the wheel back straight will only make the skid worse.

Winter calls for plenty of stopping room. Keep a king-size interval behind the car ahead of you. Have control of your car as you approach intersections and side streets. The other driver might skid through a stop sign or red light. Pump your brakes, rather than holding them down tight.

And, no matter what the weather, buckle your seat belt tight. It might save your life.

Telephone Brings Families Together
 Visits by telephone across the miles added holiday happiness for families who couldn't get together in person.

The phone rang twice at the Clem Reiter home. The Basil Reiters called from Joppa, Maryland, and the Adolph Knabes called from Hereford. Others at the Reiter home to join in the conversation were the Andy Arendts and family of Lindsay and the Reynold Reiters and sons of Lake Dallas.

Telephone greetings came to the Al Kleiss home in two separate calls on Christmas. The Reuben Sturms phoned from Carroll, Iowa, and the Ted Bares called from Chadron, Neb. They were checking on their mother, Mrs. Joe Sturm.

Mr. and Mrs. J. M. Weinzapfel had telephone greetings from their daughter and family, the David Brights, who called from Goldsboro, N. C. All the children talked including seven-year-old Sam who got out of the hospital on Dec. 22 after six weeks in traction for a broken leg. The injury is in a cast now. He gave details to his grandparents. Tuesday this week the Weinzapfels called wedding anniversary congratulations to their daughter and son-in-law, the P. W. Hellmans of Tulsa. It was their 29th.

Mr. and Mrs. Kenneth Lloyd King and children Kimberly and Kenneth Jr. of Charlottesville, Va., visited over the line with his mother, Mrs. Louis Roberg. They called Christmas morning.

The Felix Becker family, together in the parents' home, had a visit with the Vincent Beckers in Silver Springs, Md.

While Mr. and Mrs. John Rohmer had their family together at their home, a daughter, Sister Romana, joined for a little while by telephone from Lake Arthur, La.

Mr. and Mrs. Joe Linn heard from their son, Jeff Linn of Covina, Calif., who called Christmas greetings and exchanged family news.

Only member of the Al Walterscheid clan to miss the traditional Christmas reunion in the family home was Mrs. Walter Acker. She and her family joined the gathering by phone and told about being snowbound with six inches of white covering the ground.

Rosa Driever and Aunt Angela Laake had a telephone reunion on Christmas with their son and nephew, Michael Driever and his family in San Jose, Calif. The little girls told about their Santa gifts and the grownups exchanged general news and family happenings. Rosa and Auntie detailed on their delight and surprise over the Driever's Christmas gift. They sent a television. Mike and Cleo said to tell all their friends hello and best wishes.

At the home of Mrs. R. R. Endres a family gathering joined in two long distant calls from those who were unable to attend. The Frank Hennigans were on the line from Albuquerque, N. M., and Sister Marie Cecile made a call from Fort Worth.

Family Reunions Are Highlights of Christmas Time

kansas. Sister Corrine of Yoakum spent the weekend to Wednesday. Sister Mary Linn came from Denison to spend Monday and Tuesday, and the Tony Hermes family joined the Tony Hermes family of Lindsay joined the Muenster relationship.

Attending from Muenster were the Buster Herrs and daughters, the Harry Scoggins and children and Herbie and Catherine Herr. Afternoon visitors were Mr. and Mrs. H. L. Scoggins and their son-in-law and daughter, Mr. and Mrs. Carl Hanza and three children of Gotebo, Okla.

Dwayne Schilling had a leave from Fort Polk, La., and Miss Debbie Schilling was home from Dallas. Mr. and Mrs. Billy Jo Dangelmayr saw Frank off by plane from mDallas Tuesday. Dwayne starts back to camp Friday and Debbie has until Jan. 2 when she resumes classes. She's a student nurse at St. Paul's Hospital.

Klement Home Is Scene of Reunion

It was almost like old times at the John B. Klement home Christmas afternoon when his children, grandchildren and great-grandchildren gathered there for visiting and refreshments. Over 100 called during the afternoon. These included those from out of town from several states back with their families for the holidays. Since a recent illness Mr. Klement is a resident at Golden Years Rest Home but it was open house at his home on Christmas and he was there to greet those who came.

Special Train Brings Classes To Trainees

Clear the tracks for The Permacel Express — perhaps the most unusual private passenger train in operation today. During 1967 the train will make a nation-wide tour. Train buffs will easily spot its brilliant red, white and black exterior, with gold trimmings, as it chugs along behind a steam locomotive and coal tender converted to diesel power. Nicknamed Choo Choo College, it is the only private passenger train operating on commercial U. S. railways.

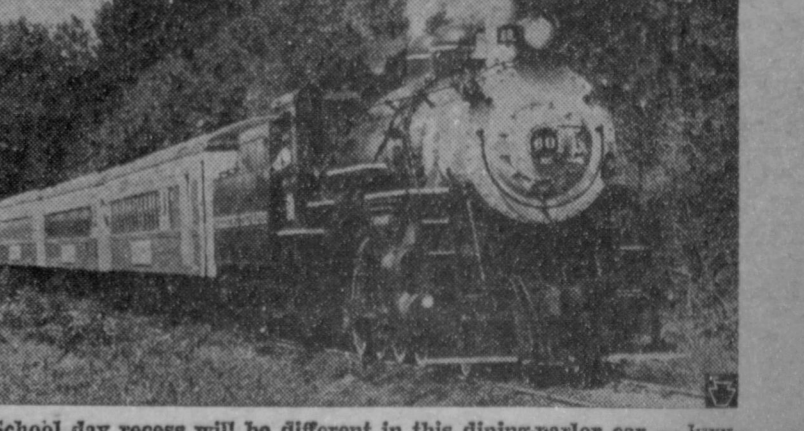

The really unusual part is the inside. Its three coaches have been remodeled and decorated in the style of the 1890-1920 period when railroads were king. The train is replete with antiques and furnishings from the late Victorian era. One coach serves as a dining-parlor car and is elegantly outfitted with old-time parlor chairs, plush carpets, a magnificent canopied oak bar, black marble cocktail tables, oil paintings, gold striped and fringed window shades, ornate carvings, silk and satin embellishments, and a player piano. There are brass cuspidors, including several used by ladies in the 1890's.

Another car contains a kitchen, the train crew's quarters and air conditioning, heat, electricity and other power facilities to make the train self-sufficient. The kitchen is a reproduction of those used on trains half a century ago, except for its three charcoal broilers, dishwasher and other ultra-modern conveniences.

Heart of the train is the classroom car, which blends the decor of the old with the latest in audiovisual equipment, including closed circuit TV. Permacel Division of Johnson & Johnson, manufacturers of pressure-sensitive tapes, will use this car to train thousands of its distributor salesmen throughout the country next year. Each week or two the train will

stop at a new town or city so that Permacel can conduct the classes in the distributor's own backyard. At the rear of the classroom car is a small lounge with antique furniture upholstered in satin damask. Behind it is a picture window and another familiar sight on passenger trains of yesterday — an observation deck, with brass rail and fittings. This unusual train will begin its long journey throughout the U. S. in January, 1967.

FLU

WINTER IS FLU TIME! If you should become an unfortunate victim of flu, be sure to stay in bed and get plenty of rest . . . it's essential to help your body fight infection. Also take aspirin to reduce fever and relieve the usual muscular aches. Drink plenty of fluids—except alcoholic beverages—and keep the disease to yourself by avoiding close contact with others.

FOOT TROUBLE

Do YOUR FEET HURT? To help relieve this painful problem, keep your feet clean and dry. Change socks every day . . . and change shoes and socks when they become damp. Finally, walk and stand so that your body weight is evenly supported by your feet. Above all, remember: the best test for shoes is not how they look but how they feel on your feet.

SNOW SHOVELING

MEN, LEAVE THE SNOW shoveling to your wives or a neighborhood boy. That's right! Middle age and older men leading a sedentary office life are, in no condition for the exertion required to shovel a walk on a cold, windy day. Either work yourself into condition gradually before attempting to shovel a walk or leave it to someone else. You'll live longer!

OIL UNDER THE RUNWAYS—An oil-bearing formation below the Corpus Christi Naval Air Station presented an unusual drilling problem for Humble Oil & Refining Company. Wells had to be completed without interfering with any flights or other base operations. Humble, which obtained federal leases to drill for the oil, completed approx-

mately 30 wells by directional drilling. This illustration shows how a typical well was angled away from the well head site to a completion point three-fourths of a mile away. The black dot on one of the runways indicates where the well would have been drilled in the normal vertical fashion if the surface had not been restricted.

Production Costs Are Reducing Net Of Farm, Ranch

HOUSTON — Rising production costs began to make serious inroads into farmers' and ranchers' net income as 1966 drew to a close, and the outlook for 1967 indicates more of the same.
 Hal Weatherford, president of the Federal Land Bank of Houston, said today in a year-end statement that farmers and ranchers in Texas, which is served by the bank, will probably have about the same gross income in 1967 as in 1966 but their net may be off by as much as 5 percent.
 The bank which Weatherford heads provides long-term real estate loans to farmers and ranchers throughout Texas.
 "The prices of virtually everything farmers need will be up in 1967," Weatherford predicted. "Real estate taxes may increase by another five to seven percent; feed, fer-

tilizer, labor costs, insurance, seed, livestock — all are likely to follow the same pattern."
 The cost of money, upon which interest rates to farmers is based, was higher in 1966 than at any time in the bank's 50-year history, he said. This had an adverse effect upon the bank as well as upon its borrowers.
 "The Houston bank is one of 12 Federal Land Banks which are owned by Land Bank Associations throughout the country," he said. "Collectively, we borrow money by issuing bonds and we loan this money to farmers. At one time in 1966 we paid as much as 8.14 percent interest on money loaned out to farmers at 6 percent, our legal ceiling."
 One of the brighter hopes emerging at year-end, Weatherford said, was that the money market may be easing slightly. "The interest rate we paid, for bonds sold on December 20, was 5.95 percent."
 One of the most serious effects of the current money shortage is that farmers have been unable to borrow as much money as they needed for machinery and equipment. "That has been particularly damaging in areas where there is an acute shortage and machines are sorely needed. If this situation continues, it will certainly drive farm commodity prices upward."
 Although 1966 ended in an atmosphere of uncertainty clouded by inflation, tight money, and the Vietnam war, all wasn't black on the farm Weatherford noted.

creased by some \$18 billion in 1966, and at year-end the total value of U. S. farms and ranches stood at about \$273 billion. Most of the rise, however, came from increases in the market value of farm real estate.

Life on the farm continues to improve for those who still remain there, though every year the farm and ranch population dwindles as more move to the cities and suburbs.

In 1966, net farm income per farm in the U. S. was \$4,900 — an increase of 66 percent over 1960. But there were 17 percent fewer farms at the end of 1966, so the real per farm increase was probably closer to 3 percent.

Where do American farmers go from here?

As indicated by developments of the last couple of years, the next big breakthrough on farms will be the sophisticated uses of calculators and computers. "Farms are becoming fewer and bigger and thus more like big businesses. They will be run by business tools... to help show them what crops can be planted most profitably, how and when to use credit, what kinds of livestock to buy and when, how fast livestock should be moved to market. And so on."

"The largest farmers are already making use of computers and special banking services," Weatherford said. Smaller farmers too will be banding together to hire these services."

Locally, the 1967 outlook in Sherman, Bonham and Gainesville area seems somewhat brighter, according to W. P. Waldrop, manager of the Federal Land Bank Association of Sherman.

At least 22 per cent of the nation's annual perfume sales occurs in December.

Two Cows
 A gentleman in New England, with a thirst for simplicity, sends along a homely illustration of the modern "isms," socialism, communism and capitalism:

Socialism: You have two cows. The government takes them both and lets you milk them for a small percentage of the milk.

Communism: You have two cows. The government shoots you and takes both cows.

Capitalism: You have two cows. You go buy a bull.

rights disturbances that shocked the nation, and arbitrary regulations on school integration. Washington is learning that Americans resent being pushed around by subversives and punks in race riots or by arrogant bureaucrats in federal offices.

Likewise Americans are tired of criminals and tired of legal restraint which pampers the criminal and handicaps society. And Americans are tired of communists in their midst preaching overthrow of this government and cheering for the enemy that kills our soldiers. Official Washington, at last becoming more responsive to public opinion, will possibly get around to such matters too.

And there's the matter of inflation, on which the public apparently was not fooled despite the pre-election picketing of supermarkets. Too many knew that inflation was caused by the government's wild spending rather than business profiteering — and now the government knows that the country knows. LBJ is already starting to do something about that in his new budget, and his new congress can be expected to do some more.

Back for a moment to the food store picketing. Probably not many of the ladies knew that, relative to average income, food was actually cheap while they were complaining about costs. Statistics show that 18.2 per cent of a family's present take home pay goes for food. In 1960 it was 20 per cent and in 1947 it was 24.6 per cent. Or, comparing with other countries at this time: Frenchmen spend 30 percent of their income for food, Japanese 43 per cent, and Russians between 50 and 60 per cent — and they don't eat as well as we do.

On that score and on bright signs of things to come, it seems in order to expect a happy new year.
