VOLUME XXXIV

MUENSTER, COOKE COUNTY, TEXAS 76252 FEBRUARY 6, 1970

NUMBER 11

H. Ross Perot, the Dallas industrialist who flabbergasted the communists a few weeks ago by trying to bring a plane load of Christmas cheer to GI prisoners in North Vietnam, inspired a few hundred Eagle Scouts and their dads in Dallas last Thursday night as principal speaker at the annual Eagle Scout Recognition Dinner sponsored by the Circle Ten Council.

Perot, himself an Eagle, was well qualified to congratulate the boys on their noteworthy achievements, which are required for their high rank in the organization. But he put more emphasis on the virtues which make up the character of any good Scout. They are qualities which also make a good citizen, an asset to his family, his community and his country.

The man's remarks were timely for the occasion, as well as for National Boy Scout Week, which is being observed February 5 to 13. The simple and basic tenets of the Scout law are really the fundamental principles upon which civilization is built.

It's a good idea to review some of those qualities. A Scout is trustworthy. He is loyal to his home, parents and country. He is honest, helpful, courteous, friendly, kind, obedient, cheerful, thrifty. A Scout is brave. He is clean in body and thought. And a Scout is reverent.

It's hardly necessary to mention that such a list of qualities adds up to near-perfection. Because of normal human limitations, few if any can measure up to them. Nevertheless, just to strive for them is to attain a commendable degree of excellence. A Scout or anyone else who tries to observe the Scout law will get along fine with others and with Almighty God.

Concerning the Vietnam situation, Mr. Perot mentioned some factors which arouse contempt for our real enemies and compassion for our apparent enemies. A standard procedure of the Cong when taking over a village is to assemble the people and single out a few of the most influential families, then murder some children and give an ultimatum. More such killings are assured unless the leaders organize the villagers as frantic workers for the reds.

That is the story behind the apparent widespread loyal support given by Vietnamese civilians to the reds. Most of the supporters, the tireless workers, are motivated by fear of what will happen to themselves and their loved ones. Those are the people who slave day and night digging tunnels and carrying supplies, who even sacrifice themselves by delivering grenades to unsuspecting victims. That is why both pity and contempt are felt strongly by people who know about this war. Innocent people were never more cruelly exploited. Enemies never stooped to a lower level of savage treachery.

Most of us have heard of such incidents, but they were scattered reports with little or no emphasis. The net result is that people over here have not been properly impressed with the kind of war their brothers and friends have been fighting. Meanwhile the civilized world in general got little more than the communist side.

It's well known that red propaganda since the start has insisted that US is an aggressor in Vietnam, even though the facts clearly show that the so called civil war was plotted in Hanoi and carried by infiltration from there to South Vietnam. World opinion, even public opinion of this country, was swayed accordingly. It makes us wonder whether failure to tell our story wasn't one of the biggest blunders of this war. Would American opinion and world opinion be the same if we had gone all out to expose the ugly facts about the enemy and his methods? Can it be truthfully said, for instance, that we gave as much attention to enemy atrocities as to breast beating about our still doubtful guilt at My Lai?

A small percentage of American dissenters are plain communists eager for this country's defeat. Many others are shallow thinkers deceived by the red line. But most of our fault finders are loyal citizens who feel they have been let down by the government.

## District Loses 14 In School Census New Count is 757

A sharp drop in the scholastic census of the Muenster School District was indicated this week as the job of preparing an official list from hundreds of census forms got under way.

Superintendent L. B. Bruns said the final count will be about 757, as compared with last year's 771, and the verified figure will be announced soon. The district lost 100 from last year's list by transfers out and reaching age 18, and it gained 86 by transfers into the district and reaching age 6.

This decline is the community's first since 1961 when the count dropped to 682 from the previous year's 690, and it is the lowest since 1967. Official counts of the past decade, starting with 1960, were as follows: 690, 682, 702, 709, 711, 731, 733, 741, 768, 771. And now the unofficial count is 757.

## Saw His Shadow

If the groundhog has anything to do with the weather, and if this is meaningful area for groundhog signs, and if the little fellow was silly enough to get out last Monday, we can expect six more weeks of winter.

The point is that he had plenty of opportunity to see his shadow. The sun was out lots of the time, but the chill and wind was not appealing to anything snuggled in a nice warm nest. So, who knows if he did see the shadow? Whether he did or not, the safer prediction is for more tough weather.

## Classes Prep for Valentine Event At Public School

The annual Public School carnival, usually held on Halloween Day but postponed this year because of a conflict with football, is about ready to happen. It will be a Valentine event, Friday night, the 13th.

In keeping with school custom, this is a fund raising occasion for the classes. Each will have its own concession and will add the earnings to its treasury.

A slight diversion from the carnival atmosphere is presentation of a one act play by the sophomore class.

## Whopper Turnip

Albert (Pep) Schilling claims this year's champ title as a turnip raiser with a specimen that measured 18 inches in circumference and weighed three pounds.

However he admits, reluctantly, that he isn't entitled to any credit whatever for the whopper. It was discovered some time ago in his wife's flower bed and pampered by her ever since. Just the same, he wants to know if anybody comes up with a better weight and measure.

### Paper Pickup Saturday

Sacred Heart High seniors will conduct a scrap paper pickup all day Saturday as a class project. Persons with paper to give are asked to have it out at the curb.

## County Primary Has Two Races for Muenster Voters

As filing deadlines for political candidates of Texas closed last Monday, voters of this community found themselves with limited voting opportunity in the May primary.

There are only two contests on the ballot. Four are running for the office of county clerk, which is being vacated by J. H. Riley. They are Gene Shomake and Vernon Beeler of Gainesville, Wayne West of Callisburg and Frank Scoggin of Rt. 1, Pilot Point.

The other race is for county judge, contestants being William Carroll, incumbent, and Larry Sullivant, both of Gainesville.

The county will also have contests for justices of the peace, but they do not concern Muenster voters. The remainder of their ballot will list uncontested candidates, all seeking re-election.

They are Robert Bayer for commissioner of precinct 4, Anna Mae Shorter for district clerk, Kit Carson for county superintendent, Ruby Davis for county treasurer.

Walt Parker, state representative, and Graham Purcell, congressman of the 13th District, are also unopposed on the primary ballot but face a contest in the general election of November. Roger Durham of Denton and Joe Staley of Wichita Falls are their opponents on the Republican ticket.

## City Favors Partial Phone Rate Increase

A compromise between the Muenster City Council and Muenster Telephone Corp. on proposed rate increases seems to be shaping up. The council spent most of its time Monday night discussing increases that had been asked at the previous meeting by Alvin Fuhrman, manager of the phone business.

According to Mayor Earl Fisher, the city agrees that present service rates are no longer adequate. Inflation has arrived in the telephone business as it has in other businesses. Expenses have gone up, with consequent decrease in

## County Registers 10,057 to Vote

Registered voting strength of Cooke County for 1970 has passed the 10,000 figure, but it's still below the all time high of 10,331 in 1968.

Tax Assessor-Collector Jo Hillis reported Wednesday that the unofficial count after all mail applications had been handled was 10,057. That figure is unofficial, however, subject to verification as a complete poll list of the county is prepared.

At the close of the tax office on deadline date, last Saturday, 9,887 voter registrations had been issued. However mail applications were accepted until 5 p.m. Monday, and they boosted the figure to 10,057.

## Muenster Hosts 30-B Juniors in Cage Tournament

As a result, in the champ bracket, Lindsay will meet Krum at 3 p.m. and Forestburg will meet Valley View at 8 p.m. In consolation Alvord and Era are booked for 12:30, Muenster and Slidell for 5:30.

### Paper Pickup

Seniors of MHS continue their collection of salvage paper every weekend. Please call 2205 for a pickup.

net profit to a rate which is lower than that allowed by law. Still another factor is the need for improvements and expansion. But funds for that purpose from the Rural Electrification Administration are not available without assurance of adequate earnings to assure repayment.

The two factors combined seem to the council to justify the first stage of increase of \$1.00 per phone per month. However there's a question as to how much, if any, of the second rate increase should be allowed. The first increase is proposed for July 1 this year. The other, about a year later would add \$1.50 more to residence phones and \$1.00 more to business phones. Total increase would be from \$5.00 to \$7.50 on residence phones and from \$10.50 to \$12.50 on business phones.

Other increase in revenue is anticipated from gradual change over to an entire system of 1-party lines, eliminating the multiple party lines used in much of the rural area. Phones so improved will become subject to the higher 1-party rates. Still another proposed increase is that for extension phones.

All of those increases are being considered by the Council in its effort to decide on the amount of increase to be allowed.

Concerning toll-free service to Gainesville, the council decided to go along with wishes of the people. If they indicate a willingness to pay the extra cost the council will give its OK.

**Today's Greatest Fact**

The single greatest and most-ignored fact of today is the tension along the borders of the Soviet Union and Red China. The consequences of our response to this fact will be one of the greatest forces shaping the world of tomorrow.

The tension along the 4,500-mile Sino-Soviet border grows from an historic error made by the Kremlin, which was that ideology is a stronger force than nationalism.

This is certainly not an error confined to communists. Most anti-communists and non-communists also believe it. But history clearly shows that nationalism is, in fact, the only political force capable of successfully resisting communism.

Imbued by this error, the U.S.S.R. went to great lengths to establish a unified China, believing that a communist-orientated China would be a guarantee of Russia's eastern borders.

It is perhaps one of the greatest paradoxes of history that the only force now seriously threatening the seat of world communism—the Soviet Union—was deliberately created by the Soviet Union.

The threat to the Soviet is in reality far more than a possible loss of territory. This is

the crux of the matter, which doubtless is completely realized by the leaders in the Kremlin, as well as the secret directors of "American" policy.

The threat that China poses to the U.S.S.R. is nothing less than the possibility of the loss of eastern Europe, the loss of its hard-won gains in the Mediterranean and in the Mideast, and, in fact, the loss of its influences with colored races throughout the world.

For surely the geopoliticians of Moscow, if not the nincompoops of "our" State Department, realize that if there is a danger that the Soviet forces may be tied down in a massive effort against the unlimited manpower of China along the longest border in the world, then they would have to completely revise their entire global strategy.

This would mean that masses of Russian troops would have to be pulled out of enslaved eastern Europe for duty along the Chinese frontier. And the newly-won Mediterranean would have to be sacrificed for the time being, as the ships now there would be sent to the Pacific.

It should be obvious to almost anyone what the consequences of this would mean to Europe. The subjugated peoples who were treacherously delivered to the Soviet Union by the Anglo-Americans would find it possible to throw off the communist yoke, and there would be nothing that the

**Turbines—New Aid To Travelers**

Bus travel has come a long, long way since 1916. Compare one of the vintage buses with a close-up of the new turbine engine now ready for road-testing. Raymond F. Shaffer (left), president of Greyhound Lines, and Harry Zoltok, president of the company's bus manufacturing subsidiary, Motor Coach Industries of Winnipeg, Canada, inspect the installation of the new engine.

The turbine engine is on the way for millions of travelers who take the bus. The new power plant, combined with an automatic transmission, promises to provide smoother riding comfort and greater safety for passengers in the 1970s.

The first turbine engine for intercity travel, built by General Motors, has been installed in a Greyhound bus. The new engine is seen as one of the greatest developments in buses.

The turbine is so vibration free that a dime can be bal-

anced on the running engine. It provides fine performance on hills, and the engine acts as an auxiliary brake for safer downhill operation. In addition, coupled with an automatic transmission, the new engine provides extremely smooth starts.

The company estimates that if the new turbines, which burn whatever fuel is available, were installed on its entire 5,300-bus fleet, more than \$3,250,000 in maintenance savings would result annually.

communists in Moscow and Washington could do about it.

In addition, increasing tension or open warfare between Red China and the U.S.S.R. opens tremendous possibilities for us in Vietnam. For one thing, the entire rationale for the intervention of China in Vietnam would be destroyed. Why would the propaganda mills of Red China continue their "hate American Whitey" campaign when the danger from the Russians would be so evident? Both China and Russia would cease their joint support of North Vietnam and the Vietcong. It would be to the interest of the Kremlin to have us win in Vietnam, as an American victory there would be an additional threat to China. Finally, the crypto-communists who infest the American "free press" and the seats of political power could no longer argue that we must continue a "no win" war rather than run the risk of escalating Vietnam into a war between the U. S. and the U.S.S.R.

This being so, one would naturally expect the communist mouthpieces in the U.S. to do all within their power to distort the true significance of the Sino-Soviet conflict, and to try to confuse the tiny minority of Americans who can think. And this, of course, is exactly what happened.

In its lead editorial of August 15, 1969, the Washington Post said, in speaking of the Sino-Soviet tension:

"The latest episode makes it all the more vital that the United States scrupulously maintain its political distance from the Sino-Soviet conflict, which is moving in its own fateful orbit. An attempt to make political capital out of it could all too easily go wrong. No

Westerner with a dash of responsibility or realism would want a nuclear war or a huge conventional war to open in Asia. Where would it end? The abiding American interest is to do what it can to add to the safety and sanity of relations with Russia and China separately. Washington should constantly be ready, and constantly be probing, to see whether the war between Russians and Chinese makes either side more interested in dealing with the West."

This malicious glibberish manages to turn the truth upside down in every detail. Out of a given set of circumstances, the Enemy always will come up with a "solution" worse than the problem itself. This is the political genius of the Establishment which rules us.

Have you heard even one voice protest against the absurd policies of the Establishment, which clearly are designed to maintain our status quo of continuing and rapid decline? The architects and operators of "our" foreign policy, who are responsible for the treason which has almost now brought us to our knees, are doing all they can to obscure, suppress, distort and misinterpret the greatest geopolitical fact of today: the Sino-Soviet conflict.

The correct policy for the United States today—if one can even imagine such an impossibility—would be for us to do all within our power to undermine relations between the two great communist superpowers, and to escalate strife and contention between them, including up to the outbreak of major hostilities. Then, to give all aid and comfort—short of war—to the enslaved peoples of eastern Eur-

ope, who would take advantage of the situation to liberate themselves. At the same time, we would find it possible to re-establish American influence in the Mideast by replacing the malign Soviet influence over the Arabs with our own—as much as this would be detrimental to the interests of Israel.

We do not bemuse ourselves with any hope whatsoever that American policy will suddenly become transformed into a pro-American instead of a pro-Soviet instrumentality, for the communist bias of "our" foreign policy is too well-entrenched and totally predictable.

But it is interesting to speak the unspeakable.

—American Mercury

**Cure for Poverty**

With each passing day we become more and more convinced the only way to get a large segment of the American population to go to work is to drastically reduce the poverty programs and doles that support them. There is no logical reason, we feel, why business and industrial firms and their employees who work day by day for a livelihood should have their earnings taxed to the extent that sufficient federal and state funds are available to take care of the needs of several millions who do not choose to work. It is our feeling this condition will continue to exist and to expand until the federal and state governments drastically cut down on their doles and free food handouts and sensibly amend the rules and regulations which qualify hundreds of thousands for the relief rolls, food handouts and unemployment compensation who do not deserve it.

—Cuero Record

**Worth Talking About**

It has become unfashionable to say this; it may be embarrassing to hear it; but I believe that America is the most lovely and livable of all nations. I believe, that Americans are the kindest and most generous of all people. I believe that there are no underprivileged Americans, that even the humblest of us are born with a privilege that places us ahead of anyone else, anywhere else: the privilege of living and working in America, or repairing and renewing America; and one more privilege that no one seems to get much fun out of lately—the privilege of loving America.

**Don C. Cooke, 82  
Birthday Honoree**

Don C. Cooke's 82nd birthday Saturday was an occasion for a weekend celebration with all family members of four generations present.

A granddaughter, Mrs. Gene Alexander and daughters Dana and Nikki, drove in from Fort Worth Friday evening with a turkey and other goodies. The Cooke's son and daughter-in-law, Mr. and Mrs.

Harold Cooke and their son and family, the Don M. Cookes and Dedie, Mark and Keith, all of Fort Worth arrived Saturday morning, bringing covered dishes.

The noon birthday dinner also had as guests the honoree's niece, her husband and family, the Rev. and Mrs. Allen McMullen, David and A-lena of Plano, and Don's brother Reeve Cooke.

The table centerpiece was a decorated birthday cake. Pictures were taken, gifts displayed and the little ones sang the happy birthday song.

Mrs. McMullen hadn't seen her uncle and family in 25 years and reviewing family news was the order of the afternoon.

All returned to their homes Saturday evening except Mrs. Alexander and daughters who remained until Sunday afternoon. Nikki attended Sunday School and church services with her great-grandpa.

Parents of the couple are Mr. and Mrs. James Eckart and Mrs. Alfons Koesler Sr., and the late Mr. Koesler.

Presented by her father, the bride wore a gown of candlelight slipper satin with bows accenting the Empire bodice. Beads and sequins ornamented the oval neckline and the long pouff sleeves had wide bands with self-covered buttons. The attached train was chapel length. A petal headpiece held her veil and her flowers were a yellow-throated white orchid, stephanotis and carnations.

Pink gladioli decorated the altar and formed the bouquet the bride placed on the Blessed Virgin's altar after Mass. Mass servers were Chuck

Koesler and Carl Koesler, nephews of the groom, Ricky Walterscheid, cousin of the bride and Chris Felderhoff.

Anthony Luke, organist, and Sacred Heart men's choir of which the bridegroom is a member, provided wedding music.

Jerry Eckart, bride's brother, and Paul Caplinger of Fort Worth, bridegroom's nephew, were ushers.

Wedding reception and buffet were held in the Parish Hall where Miss Gretchen Koesler, niece of the bridegroom, and Miss Dolores Eckart, bride's sister, registered about 200 guests. Wedding dance was in the VFW Hall.

For her daughter's wedding Mrs. Eckart wore a royal blue knit suit with black accessories. Mrs. Koesler, mother of the groom, wore a navy ensemble with black accessories. Both had corsages of white carnations.

**MHS Teams Lose Double Headers To Krum, Alvord**

It's been a bad week for Charles Cash and his MHS basketball teams. First a double loss to the loop leading Krum teams, then another double loss at Alvord. That gives the boys a loop record of 6-5 and the girls a record 5-7.

In the first game Krum girls moved to a 15-8 first quarter lead and Muenster played it about even the next two periods, trailing 31-19 and 37-28. Then, following a miserable last quarter, they ended at 46-30. MHS scorers were Joan Monday 14, Doris Felderhoff 12, Sue Flusche 2, Joyce Swirczynski 2.

The game at Alvord was practically the same. MHS held their own in the second and third periods and lost in the first and fourth, especially their scoreless fourth. Counts ending the quarters were 20-12, 29-21, 37-27, 45-27.

Doris Felderhoff led MHS scoring with 12, Joan Monday hit 7, Debbie Yosten 6 and Sue Flusche 2.

The Hornets stayed in the game with Krum for two periods, and the scores were 20-12 and 42-32. But the visitors started pulling away after that. They led 68-47 ending the third and were 30 ahead with 5 minutes to go when their reserves took over. Muenster gained from then on for the final 86-71 reading.

Scorers for Muenster were John Monday 33, Jim Endres 13, Gerry Cash 12, Bobby Bruns 8, Tom Henscheid 4, Glenn Fleitman 1.

At Alvord Tuesday night the Hornets had shooting problems, which accounted principally for their 60-57 loss. They made 7 of 16 free tries and 24 of 68 field goal tries. In the last period especially they hit only one free throw while Alvord made 11. Muenster led 21-13 the first period and the score was tied at 31-31 at half time. Alvord was ahead 47-43 at the third quarter and 60-57 at the end.

Gerry Cash made 24 for the Hornets. John Monday hit 19, Jim Endres 7, Tom Henscheid 4, Glenn Felderhoff 2 and Bobby Bruns 1.

The next two games, at Valley View Friday and at Forestburg Tuesday, will end the 30-B season for the girls. The boys will still have one booked with Forestburg, and it will be played if it has a bearing on the final season standings.

Grade Three Bluebirds, Exceldrin 10 group, at their regular meeting painted snow scenes using tempera paint and Q-tips. Jean Haverkamp was hostess. Mrs. Tommy Herr and Mrs. Lloyd Trubenbach, leaders, and Barbara Grewing, junior leader, were present. Joan Miller was treasurer for January. Members were reminded of their one dollar national dues.

**Tigerettes Cinch Tie for Title in TISC Basketball**

Sacred Heart basketball players have had a busy week and the final score of their activity was 2 wins and 9 losses.

Nevertheless the story has its bright side. One of the wins was by the girls A team over For Worth Christian and cinches a tie for the TISC champ title. Final standing depends on the Greenhill girls. If they win the last one Sacred Heart will be co-champ, if they lose Sacred Heart gets the trophy.

Joe Wilkinson's Tigerettes had an easy time taking that game from Fort Worth Christian here Tuesday night. Scores ending the periods were 14-4, 21-10, 30-16, 39-20 as Donna Endres led with 14 points and Peggy Sicking hit

**Group Organized to Help Retarded Physically Handicapped Children**

Efforts to organize a day care center for mentally and physically handicapped children of Cooke County got under way last week in a meeting in Gainesville.

Purposes of such an organization were outlined as follows: To prepare a child for school. To help the child achieve his maximum mental and physical potential. To provide a daily program of active participation. To make a child socially acceptable. To stimulate parent awareness of the program's benefits. To teach the child personal hygiene. To provide physical, speech and hearing therapy. To make the public more conscious of mental retardation and physical handicaps in children.

Principal speaker of the meeting was Adam Williams of the Denton State School. He said that the life time cost of care for one child in a state school is estimated at \$125,000. This cost can be greatly reduced if community action is stimulated to care for the children in a center with adequate staff, equipment and program. Through such organizations as Bluebirds and Cub Scouts the han-

dicapped can get out and advance to acceptance in the community.

Also on the program were Gordon A. Cizon of Fort Worth, who showed and commented on a film "To Solve a Human Need"; Joe Walter, president of the county adult group aiding the retarded, and Anita Hobbs, president of a teen group in similar work.

The following were elected as the new organization's first officers and directors: Bill Whiten, president; Douglas Hobbs, vice president; Anita Jane Hobbs, secretary; Edwin Alexander, treasurer; Mrs. Frank Riley, Mrs. Mattie Johnson, Joe Walter, Lambert Bezner, Norris Scott, Bill Carroll and Dr. Wm. Powell, directors.

In a short meeting after election the officers and directors selected the name "Cooke County Child Development Center" for their proposed project. At the same time they invited parents of physically handicapped or retarded children of the area to get in touch with them. The following form is provided for their convenience.

**Full Agenda of  
Business, Program  
For H-S Members**

Members of Sacred Heart Home-School Society faced a full agenda of business and program at their meeting the past Tuesday. President Ray Voth presided.

Father Andrew Wever opened with prayer and showed a grandfather clock he made. He explained that the clock has all wooden gears. There are no nails or screws in any of the working parts—only in the key to wind the clock.

Brother Thomas Moster presented four of his speech and drama students who will be entering competition in tournaments. Doing their thing were Susans Endres, Doug Yosten, Debbie Walterscheid and Larry Bayer. Brother Thomas reminded parents to watch local TV channel 2 on Tuesdays at 12:30-1:30 p.m. for student programs.

During the business session plans were made for a Marid Gras celebration for Sacred Heart students. The elementary grades will have their party on Tuesday, Feb. 10, the night before Ash Wednesday which heralds the arrival of Lent.

High school students will have Mardi Gras dance on Friday, Feb. 6, with a contest to choose a king and queen.

Sister Georgla asked for help to keep the school library updated and the organization voted a \$200 gift from treasury funds for the purpose.

Sister Elizabeth's reports included announcement that the Texas Education Association is requiring each school to have a course explaining the dangers of alcohol and drugs and that a course for teachers is being offered in Chicago, April 13-16, to help in setting up a good program. Members voted to help pay registration fee for teacher Joe Felderhoff.

Sister also asked the group to welcome Ronald Fuhrmann, new math teacher replacing Sister Gerarda whose health forced her to quit teaching for the time being. Mr. Fuhrmann, a native of Lindsay, now resides in Muenster with his parents, the Adolph Fuhrmanns. He has been doing student teaching at Gainesville High School.

Sister Elizabeth also invited parents of high school students to attend College Career Night at Sacred Heart on February 16.

Mrs. Martin Kralicke reminded members that the Heart Association will conduct a fund drive on Feb. 24 and invited everyone to attend a heart lecture at 2 p.m. by a Houston heart specialist in the public school auditorium.

Sister Lenore, religion teacher, explained what is being taught in the religious program and displayed art work done by religious classes. She also illustrated her talk with slides used in teaching religion in grades 1 through 6.

After adjournment Mmes. Tommy Knabe and Anthony Luke served refreshments to about 75 members.

Wife: "I want to do a lot of shopping tomorrow if it's a nice day. What's the weather forecast?"

Hubby: "Rain, hail, sleet, snow, thunder, lightning and high winds!"

**Jacinta Wachsman  
Edward Kouri Wed  
in Wichita Falls**

Mr. and Mrs. Edward Anthony Kouri, newlyweds, are making their home in Wichita Falls since their recent marriage. The bride is the former Miss Jacinta Marie Wachsman, daughter of Mr. and Mrs. Gerald J. Wachsman. The bridegroom's parents are Mr. and Mrs. Samuel J. Kouri, all of Wichita Falls.

The bride is a granddaughter of Mr. and Mrs. Willie Fuhrmann of Lindsay.

The Rev. James Fitzpatrick of Los Angeles was officiating minister assisted by the Rev. Nicholas Fuhrmann of Subiaco, Ark., uncle of the bride, in the chapel of Notre Dame High School.

Mr. Wachsman gave his daughter in marriage. She wore a formal Empire gown of white crepe. Her floor-length mantilla, bordered with lace, was held by a silver tiara. She carried a colonial bouquet of white spider mums, greenery and pompon.

Miss Carlotta Pennartz of Dallas was maid of honor in a floor-length Empire gown of blue velvet. Misses Mary Kouri and Maureen Wachsman, sisters of the couple, were bridesmaids in gold and green velvet gowns. They all carried white pompon mums.

Judy Wachsman was flower girl for her sister.

Richard J. Kouri was best man. Danny Horany and Lloyd Marcom were groomsmen. Leslie and Alan Wachsman, bride's brothers were candle-lighters.

The bride's family gave the reception at Notre Dame Cafeteria.

The bride attended Notre Dame High School and Midwestern University. She has been employed in Dallas. The groom is a graduate of Hirschi High School and is employed by his father and by Gulf States Theatres.

Relatives from Lindsay, Muenster and Gainesville attended the wedding.

**Laser Livestock  
Branding Coming**

Science may help to ease one of the cowboy's most onerous chores. The laser beam may soon be used for branding and dehorning steers, according to Industry Research of Beverly Shores, Inc.

Laser will do the job faster, cheaper, and without the upsetting pain, according to the report. Hot irons and surgical procedures cause severe stress in the cattle, the report explains, and after experiencing this trauma, the animals re-

fuse to eat for several days, suffer weight loss, resulting in less beef available to the consumer.

The use of laser, the report states, is expected to result in saving millions of dollars in the processing of cattle. In addition, since the light beam cauterizes as it cuts, there is no danger of infection.

### Confetti - - -

They are disappointed with our no-win policy, exasperated by our feeble response to red insults and propaganda.

Well, we can ask ourselves a few questions. Would the second and third groups have had a better attitude if government and the news media had told them the score? Would the red traitors have been so loud and insolent if the news reports had told more of the ugly story about the reds over there?

Even now we wonder whether it's too late to tell the real story. While we're backing out of Vietnam we should at least have the satisfaction of being proud of our side, and knowing what kind of stinkers our GIs had to fight.
