NUMBER 52

Despite all the publicity last summer relative to the giveaway of the Panama Canal, it can still be saved for the United States and for the commercial and defense interests of the free world.

That is the opinion of an organization which identifies itself as the Emergency Committee to save the Canal Zone. It points out that the Senate when approving the Carter-Torrijos deal by a two thirds majority also stipulated by an 83-3 vote that the treaties should not be ratified until March 31, 1979. Therefore the exchange of ratifications by Carter and Torrijos was unauthorized.

Another point is that the treaties cannot go into effect until they are supported by implementing legislation which must originate in the House of Representatives. The mood of the House is far from assuring that the legislation will be forthcoming. Since the election has increased the number of conservatives, it seems that the odds against ratification are improved.

An intriguing bit of Texas history revealed by Senator Bentzen in his regular news release points to a possibility that a thriving tire and rubber industry may develop in our state.

The senator was referring to guayule a 2 to 3 foot desert scrub brush which grows wild in Mexico as well as the desert areas of Southwest Texas, as a potentially valuable source of rubber.

Balls made from the desert brush are said to have been used by Aztec Indians when the Spaniards arrived in Mexico in the 1500s. And early this century more than a dozen factories were built in Mexico and Texas to extract rubber from the wild guayule plants. Some \$30 million was invested in the Continental-Mexican Rubber Co., which was only one of those factories. It created a boom in desert land, made Mexico a rubber exporting country.

The venture was a great success as long as the resource lasted. The big trouble, however, is that, in spite of extensive growth, the guayule could not stand up under the boom in harvesting. By 1912 the rubber brush became scarce, and many mills closed down. Other mills were abandoned when revolution broke out in Mexico.

From this rubber source the US turned its attention to the hevea trees of British Malaya, and our country started to worry. Major Dwight Eisenhower, assigned by the War Department to study the dwindling supply, proposed federal support of the rubber trees. The situation became even worse when Japan invaded Southeast Asia in 1941 cutting off more than 90 per cent of this country source of rubber.

Necessarily rubber interests turned their attention back to guayule. With 10,000 persons assigned to the emergency rubber project it managed to produce 3 million pounds of guayule rubber in 3 1/2 years.

Then the war ended, and soon after research found a way to produce synthetic rubber from petroleum, which was in such abundant supply. Consequently the country again turned its back on the lowly desert brush. Congress closed shop and ordered that some 27,000 acres of guayule be burned and plowed under.

But now, some 30 years later, we have the energy crisis inducing the National Academy of Sciences to recommend that U.S. go back into the guayule rubber business. Reasons given are that demand for natural rubber is expected to increase more than 35 per cent before 1995 while supplies of hevea rubber are expected to increase less than 23 per cent, driving the U.S. price from 35 cents to 78 cents a pound. With petroleum supplies dwindling at the same time, the outlook for guayule becomes brighter and brighter.

Estimate of the plant's potential includes a research program to develop major improvements in genetics and the technology of growing it. If developments are comparable to those of the hevea tree the result could be most gratifying.

Before the war the guayule bushes yielded more rubber per acre than the hevea trees, but there has been extensive research on the tree since

Plans Shaping for Parade and Drawing

Members of the Muenster Chamber of Commerce and the Muenster Jaycees are getting ready for their annual big event ushering in the Christmas season. Dated for Saturday, December 9, the program will include a parade with Santa Claus, a Christmas tree, and a huge drawing for prizes provided by local merchants and the Chamber of Commerce.

Jaycees will provide and decorate the tree, which will be erected on the AMPI lot at the corner of Main and Highway 82.

They will also organize the parade for which half the expense will be paid by the Chamber of Commerce. Their hope is to have a large number of participating floats competing for the three prizes of \$75, \$50 and \$25 provided by the Chamber. They urge clubs and businesses as well as interested individuals to add color and spirit to the occasion by entering a float.

Style Show Booked For PTO Meeting

The Muenster Public School PTO will sponsor a Style Show at 7:30 p.m. preceding their regular meeting next Monday, November 20.

Students and several mothers will model fashions courtesy of The Hut and The Charm Shop.

Themed "Holiday Shopping in Muenster", the show will be held in the MHS Auditorium. The public is invited and will be very welcome.

Following the style show a brief business meeting will be held.

Hornets Nip Knights 28-19

Fans at both sides of the field got their money's worth at the Muenster-Lindsay game last Friday. The traditional rivalry between the two teams was peaked physically and emotionally. Action was intense and supporters of both sides had reason to be proud. Both teams deserved to win. The outcome could have gone either way and it was not decided until the last minute.

The Hornets won it 28-19 but only after a terrific goal line stand to stop a go ahead TD, and later a clincher touchdown by Greg Wilde after his pass interception stopped another strong threat by the Knights. Before the turnover MHS was hanging on to a 20-19 lead.

Starting the action, both teams had to kick on first series, and on the first play of second possession the Hornets fumbled, giving the Knights fine position on the MHS 43. Two plays plus 5 free on an offside penalty went to the 30 and McCord's pass to Andy Bezner reached the 5, from where Pat Fuhrmann scored on the next play. Tommy Haverkamp's kick added a point as the clock read 7:53.

The sudden success of Lindsay looked distressingly easy, as if Muenster was destined for a long, sad night. But then Muenster snapped back with the big play of the game. First play after kickoff Randy Serna zipped through the middle and went 80 big yards for the Hornet score. Then he went over again giving MHS an 8-7 lead at 7:41 in the first quarter.

Serna's run was a quick start on another fine rushing performance. His total was 158 in spite of being on the doubtful list before the game. An injury the week before put him in the hospital for the weekend.

On second series following the next kickoff Curtis Pagel recovered a Lindsay fumble on the Knight 45 but the team failed to take advantage of the break. MHS had to kick and so did LHS. Then the Hornets failed on a fourth and 2 situation and the Knights started their second scoring drive.

It went 67 yards including 15 free yards on a penalty, 13 on a pass to Bezner and 15 on a run by McCord. The TD was a sprint around left end by McCord and a pass for bonus points failed to connect. Lindsay had moved to a 13-8 advantage, the second of several

As soon as the parade ends Santa and his helper will meet with the kids for Christmas talk and passing out goodies. Meanwhile adults will meet at a float for the drawing at which business people are giving several hundred dollars worth of goodies. A person does not need to be present to win. However he has to be there to win at the Chamber drawing after the merchant drawing is finished. Prizes in the Chamber drawing are gift certificates worth \$100, \$50 and \$25 at all participating stores. Registrations are under way now in all of the stores.

Prizes for the merchants' drawing have been provided as follows: Hess Furniture, Hoky sweeper; Koelsier Jewelry, \$20 gift certificate; The Hut, teddy bear; Charm Shop, \$50 gift certificate; Hamric's \$50 gift certificate; Ben Franklin 10% discount on regular price on purchases Dec. 9 to 24; Gehrig Hardware, Sunbeam burger grill; Dairy Inn, Smoked ham; Endres Motor Co., 6 pk. oil change with filter; 82 Liquor, 1 case 2 liter size Cokes;

Fischer's Market, \$25 in merchandise; Grady Jones Liquor, 1/2 gal. Lord Calvert; Hofbauer's, \$25 worth of sausage; H&W Meat Co., \$5 in merchandise; H&H Bar, 1 case of beer; Modern Floors, \$15 gift certificate; National Building Center, \$20 in merchandise (good for 10 days); Muenster Butane, AM-FM Radio, Ray's Drive In, 15 gal. gas; Wimmer Diesel, case of oil; Community Lumber Co., \$20 gift certificate; Rohmer Restaurant, Dinner for 2; Garden Center, Poinsettia.

times that the lead changed. The nifty action by McCord was typical of his performance all night. Along with seven completions for 88 yards he joined with Jerry Perry in running up most of the team's rushing yardage.

After the next kickoff the Hornets made a pair of first downs and failed on the third. Then Kevin Klement intercepted on the Knight 39 and MHS continued with the second installment of its drive. Free yardage of 5 along with Serna's 7 gained to the 27, where David Felderhoff drifted right and broke away for the 6-pointer. A kick for PAT was bad but Muenster was back in front 14-13.

LHS came back with a fine drive of 66 yards featuring 12 yards on a pass to Perry and 9 more on a run by him plus 15 for free on a penalty. The effort used 11 plays in reaching the MHS 6 then stalled with losses of 12 yards on the next three plays. Haverkamp's 35 yard try for a field goal missed on the last play of the half.

Knights came out strong after intermission in a 73 yard drive in 15 plays. Three passes accounted for 32 yards and runs by McCord and Perry made most of the ground gains. McCord scored from the 3 and failed to connect on the pass for extra points. Lindsay was ahead again, 19-14, at 6:21 in the third.

Then Hornet offense cranked up its next scoring drive, going 66 yards on 6 plays and (Continued on Page 12)

SH Junior High Splits 2 with Era

Junior High youngsters of Sacred Heart divided a pair of basketball games with Era Tuesday night. The future Tigerettes were barely nosed out 17-16 in the opening contest after which the Cubs ran away with the second game 46-16.

The SH boys were in control from the start and gained all the way to their 30 point lead. Scorers were T. J. Walterscheid 16, Gene Haverkamp 14, Neil Hesse 10, Darrell Herr 6 while Herr and Curtis Henschel were standouts on defense.

The girls started with a hot streak, running up a 14-4 half time lead, then turned ice cold and blew the nice opportunity. Era won by a single point. SH scorers were Sandy Wimmer 8, Laura Greving 4, Laurie Endres 4.

Moderate temperatures for the week were recorded as follows by Mosier, November 9, 40 and 73; 10th, 44 and 87; 11th, 43 and 65; 12th, 47 and 70; 13th, 64 and 78, 14th, 63 and 67; 15th, 38 and 44.

Tigers, Knights Will Meet Friday In Season Finale

After a long string of disappointments, the Sacred Heart Tigers are going all out to end their football season on a cheerful note when they tangle Friday night at 7:30 with the Notre Dame Knights at Wichita Falls.

The game will be played in Iowa Park and can be reached by following No. 287 to the Iowa Park exit.

A win under the circumstances would be especially sweet, not only because of the keen rivalry that has developed with the Knights but also by way of showing that their team is better than the sad record indicates.

Coach Eddie Stock referred to the Era game as a sample of what has been happening to the Tigers so frequently this season. In spite of a 2 touchdown deficit they showed fine character in coming from behind and taking the lead. The achievement was worthy of a win, but then Era suddenly sprung a big play that took the lead away for keeps.

Since then they are still keeping up the spirit, working like beavers to make improvements for the last encounter. They are determined more than ever.

Regarding the odds, they are confident as well. They consider themselves as at least the equals of Notre Dame, which now stands at 3-6 for the season and 0-2 in the district. ND was downed 31-19 by Christ the King whereas SH tied at 8-8. Also it lost 41-9 to Tyler Gorman whereas SH lost by the slight margin of 38-12. The Tiger record is 1-7-1 for the season and 0-1-1 in TCIL.

Added satisfaction in a win Friday is the possibility of a tie for second place in the district. If they and Tyler both win it will result in a 1-1-1 record for Sacred Heart and Christ the King.

Physically the Tigers and Knights should be rated as about even, in the opinion of Coach Stock. Both have light lines with limited experience and backs that have demonstrated ability in passing as well as rushing.

A possible problem for the Tigers is condition of the players. Paul Bartush and John Hartman are on the doubtful list because of injuries two weeks ago. They will not know until Thursday whether they can play. And Angelo Nasche, with a shoulder separation, is not expected to play on offense.

All angles considered, the outlook appears about equally good for either side, with the outcome most likely to be determined by the breaks.

Fifteen Hornets Report For Basketball Practice

Muenster High Hornets lost no time moving into their 1978 basketball program. Following the season's last football game Friday, fifteen boys reported to Coach Herb Ellis for their first practice Saturday afternoon. They will have slightly more than a week of workouts before their first game with Petrolia here Tuesday.

That game will be one of three, presenting also the girls varsity. JV boys started practice with the varsity boys and the girls, under guidance of Coach Wade White, started earlier. The girls, both varsity and JV play Sacred Heart at MHS Thursday night and Whitesboro at Whitesboro Monday night.

MHS Ends Season With 7-3 Record

With last week's gratifying win over Lindsay the MHS Hornets closed out their '78 football season at 7-3 and the 14-A district race at 4-3, a pleasing improvement over last year's 5-5.

The record is more impressive, says Coach Stinson, when one considers the strength of the district. None of the games was easy and the Hornets did a fine job in winning more than half of them. Their only bad performance, he added, were the first half of one game and the second half of another.

Celina, long time powerhouse of the area, and currently rated as No. 6 in the state, lived up to its reputation with a perfect record in 14-A. It will play Holiday this week in bi-district. Pilot Point, picked as No. 1 in pre season has a record of 6-1.

Muenster and Sanger share third place, each with a 4-3 record. Aubrey is No. 5 with 3-4. Lindsay No. 6 with 2-5, and Callisburg and Pottsboro share the cellar at 1-6.

Results of last week's 14-A action were Muenster 28, Lindsay 19, Celina 9, Pottsboro 0; Pilot Point 35, Sanger 6; Aubrey 17, Callisburg 6.

A review of Hornet scores of the season reads as follows. MHS 35, Chico 8; MHS 20, Kennedale 0; MHS 37, Era 6; MHS 6, Pilot Point 7; MHS 8, Celina 32; MHS 32, Callisburg 6, MHS 27, Pottsboro 14; MHS 14, Sanger 12; MHS 6, Aubrey 35; MHS 28, Lindsay 19.

**Country Music Set
Of Austin Honors
Townsend Miller**

Tuesday October 26 was a day of glory for Townsend Miller of Austin, who is known here principally as the husband of the former Rita Swirczynski. Country music enthusiasts of Steamboat Springs 1874 in Austin had declared that night as Townsend Miller Appreciation Night and had gathered to honor their favorite writer. Miller is a stockbroker by day and a country music columnist by night. His twice a week column has been appearing in the Austin American-Statesman since March 1972.

After receiving a gift and applause of the packed house, Miller kept wiping away the tears as he said "I figured before this night was out I'd choke up." And he did and the crowd loved it.

Also on the program were a number of the popular musicians of the Austin area. His wife and three daughters and a son-in-law were there to share his pride and pleasure.

If the sun is really putting out all that energy, how come we get so lazy when we sit out under it?

Wiesmans Return From Pilgrimage

Mr. and Mrs. Al Wiesman returned recently from a three week tour and Pilgrimage that included twelve persons traveling to Mallorca, Athens, the Holy Land, Rome, Lisbon and Fatima. Spiritual director of the tour was Father Jerome Palmer O.S.B.

During the time spent on Mallorca, an island in the Mediterranean, they saw one of the four greatest Cathedrals in the world and visited the home of Father Junipero Serra, founder of missions in Mexico, Texas and California.

Sightseeing in Athens, Greece included the Acropolis, ruins of ancient Greek, Roman and Byzantine periods; the temple of Apollo; and Corinth where St. Paul delivered his sermons to the Corinthians.

In Israel the group attended Mass in Nazareth, in the beautiful new Church of the Annunciation, saw the Sea of Galilee, went to the Mount of Beatitudes, the traditional site of the Multiplication of Loaves and Fishes; then drove to Haifa; saw Mount Carmel and visited the birthplace of St. John, the Baptist.

They did extensive sightseeing in Jerusalem where they saw the three thousand year old olive trees that witnessed the agony of Jesus in the Garden of Gethsemane, walked along the Via Dolorosa, Calvary and the Holy Sepulchre, where they attended Mass. They saw the Mosque of Omar, and the Wailing Wall; they drove to Jericho, the River Jordan, Jacob's Well and the Dead Sea to the Caves of Qunran, where the Dead Sea Scrolls were discovered in 1947.

Again, Mass was celebrated at the Manger Altar in the Grotto of the Nativity in Bethlehem.

In Rome, the group was privileged to receive the Papal Blessing from Pope John Paul II, twice on Sunday and on the feast of All Saints. Among places visited were St. Peter's Square in Vatican City, the Sixtine Chapel, the Museum, the Tombs of the Popes, the Spanish Steps and the Catacombs.

In Lisbon, Portugal, a full

day was spent on a pilgrimage to Fatima. The group attended Mass in the Chapel of the Apparitions, visited the village and places associated with the lives of the three children to whom Our Lady appeared in 1917. The next morning there was a tour of the city of Lisbon, and then the group boarded the flight to New York and returned to their homes.

Reading between the lines is often easier, and more interesting.

**Special Liturgy
Marks Service for
Halloween Feast**

The third annual special Liturgy on Halloween at Sacred Heart Church was held Tuesday evening, October 31 with Mass.

The event was first planned and arranged by Father Placidus Eckart in 1976 and 1977 with the assistance of the Liturgical Commission of the parish. Father Denis Soerries was celebrant of the Mass and delivered the Homily Tuesday. He also provided a special treat for all children attending, following the Mass.

Sixty four children participated in the entrance procession, narrated by Sister Romana, and representing Salvation History. Beginning with the angels, the narrators traced characters from the Old and New Testaments, the Holy Family, Apostles, Early Christians, Saints of the Middle Ages and ended with Modern Saints, especially Mother Cabrini.

Readers were Sandy Taylor and Connie Bayer, JoEll Hellman and David Winn.

Offertory petitions were given by Max Koesler, Dan-

ny Knabe, Darrell Knabe, Eileen Knabe, Lloyd Walterscheid and Donna Wolf.

In the Offertory procession five children were dressed as angels, namely Noelle Hesse, Tina Schilling, Judy Pagel, Janie Fisher and Gayle Fisher.

Chad, Kim and Ronnie Bayer were dressed as the Holy Family and also participated in the Offertory procession.

The first song was "When the Saints Go Marching In." At Offertory "Children of the Lord" was led by a choir of sixth graders from Sacred Heart School and the CCD classes. The Communion song was "Priestly People," and the recessional was "All Saints Hymn." Frank Luke was the song leader, Mrs. Joe Felderhoff was the organist and Mrs. David Bright was music director for the CCD.

The special Liturgy was planned by the Liturgical Commission whose members are Frank Luke chairman, and Mrs. Wilfred Walterscheid, Mrs. James Walterscheid, Mrs. Leonard Bayer and Mrs. Joe Felderhoff. Its purpose was to make the children more aware of the religious significance of All Hallows Eve, the day before All Saints Day.

Paul Fishers Observe 40th Anniversary at 3 Events

The 40th anniversary of Mr. and Mrs. Paul Fisher was observed with three events.

On October 26, with children and grandchildren and other relatives joining them, they attended the Thursday morning Mass in Sacred Heart Church, to observe their wedding anniversary.

Saturday evening, November 4, Mr. and Mrs. Fisher and their children and spouses gathered in Gainesville for dinner at Jerry's Kountry Kooking, owned by a son-in-law and daughter, Mr. and Mrs. Jerry Hughes. There were special ruby decorations and a decorated cake. Joining the family were Mrs. Fisher's brother and sister-in-law, Mr. and Mrs. Frank Kathman of Gainesville.

The group enjoyed the first complete family reunion in a number of years and there was much reminiscing and recounting memories of great childhood years spent together on the farm.

Attending were Mr. and Mrs. Jerry Hughes (Helen), Mr. and Mrs. Willie Fisher, Mr. and Mrs. Paul Hess, (Lillian) Mr. and Mrs. Mike Kleiss (Betty), Rita Fisher, Mr. and Mrs. Donnie Fisher, Mr. and Mrs. David Fisher, Linda Fisher and Mr. and Mrs. Herbie Fisher.

The following day, Sunday November 5, a Home Mass was

celebrated in the Paul Fisher home by Father Harry Fisher of Pilot Point.

Later, a come and go reception was attended by family, relatives and friends. The 40th anniversary decorated cake was two tiered and held ruby roses signifying nine children and 24 grandchildren. About noon Sunday one more rose was added to the cake to announce the birth of Gregory David Fisher, son of Mr. and Mrs. David Fisher.

Coming from out-of-town to observe the several events were Mr. and Mrs. Jerry Hughes and family; Rita Fisher, Jeff and Tiffany Fisher of Irving; Linda Fisher of Dallas; Mr. and Mrs. Donnie Fisher and children Jimmie Don Fisher and Steven and Kathy Butts; Mr. and Mrs. Frank Kathman of Gainesville; Mr. and Mrs. Paul Hess and family of Lindsay.

Texas FB Reports 228,079 Members

Membership in the Texas Farm Bureau now stands at 228,079, according to TFB President Carol Chaloupka.

In the membership year just ended, the state's largest farm organization recorded a gain of 13,882 member families, he said.

"This is the 26th consecutive year for the Texas Farm Bureau to show an increase in members," Chaloupka said. "The size of our increase this year indicates that farmers and ranchers are more determined than ever to work together to solve their problems."

A total of 185 counties gained in membership over last year. Two new counties — Gregg in east Texas and Kendall in southwest Texas — were organized during the year.

The top ten counties in terms of membership size are Harris, McLennan, Fort Bend, Van Zandt, Wharton, Fayette, Ellis, Hidalgo, Bell, and Nacogdoches.

The gain in members this year is larger than the total membership of all other general farm organizations in the state. Texas Farm Bureau now ranks third behind Indiana and Illinois among state Farm Bureaus.

The Texas Farm Bureau is affiliated nationally with the American Farm Bureau Federation which has a membership of almost three million member families in all states except Alaska.

The present Texas Farm Bureau dates back to 1933-1934 when it was organized as the Texas Agricultural Association. The name was changed a few years later when it affiliated with the AFBF. The first Farm Bureau in Texas was organized in 1920, but was dissolved in 1933.

FISHER
Wood Heater

PAPA BEAR

Cost vs Weight

Costs should be compared with
weight. The more weight the bet-
ter. The stove you buy should be
a large mass of iron to collect and
radiate the heat efficiently.

Airtight Firebox

Your stove should have an airtight
firebox and an adjustable draft that
enables the wood to burn slowly.
Avoid stoves that are not airtight
or have loose fitting doors.

When you invest in a Fisher you
guarantee your own comfort and
security.

Easy to Install

Your Fisher can be attached to ex-
isting chimneys, fireplace chimneys,
or used with pre-fabricated chim-
neys installed through ceiling or
wall.

Stores Heat

The heating chamber is designed
to transfer heat to the stove's sur-
face rather than letting it go up the
chimney.

Massive steel construction makes it
heavy and long lasting, mandatory
for superior heat radiation.

Your Fisher stove won't warp, bend,
buckle or stretch. It won't break,
burn out, wear out or rust out.

How long can you depend on Lone Star for natural gas service?
 10 Years 20 Years 50 Years
 More Than 50 Years

"Natural" is the key word in question. Unless regulatory price limitations make the development of new gas fields unprofitable for this area's producers, it will be many years before natural gas supplies run short for our million-plus priority customers.

The good news, however, is that these "natural" reserves can be supplemented with enough synthetic gas to keep Lone Star in the gas business for the next 50 years. And beyond. Lone Star has weathered too many storms in the last 60 years to shy away from the challenge of the energy future. We know what must be done to meet that challenge, and we'll meet it.

The groundwork is done.

There are excellent reasons for optimism. Foremost of these is the fact that 50% of the known onshore gas reserves in the United States are in areas where Lone Star already has pipeline systems in operation.

The energy outlook becomes even more promising when you consider the enormous, long-term potential of the gas fields under development in Texas' Gulf Coast waters. Lone Star is already buying some offshore gas. And we intend to buy enough of it to satisfy our customers' demand as it becomes available in volumes large enough to be gathered efficiently and economically.

Lone Star's ability to take delivery of new natural gas reserves as they are developed gives us an outstanding opportunity to buy our

area's fair share—enough gas to last our customers for many years.

Whether we can take advantage of this opportunity depends mostly on whether we'll be allowed to recover our actual costs on a timely basis.

Without the ability to pay our gas bill, earn a reasonable rate of return on our investments and recover our operating expenses, we will be unable to continue an aggressive supply program in time for it to be really effective.

There is no shortage of natural gas.

There's only a shortage of the low-priced, easily accessible gas that nearly everyone took for granted in years past.

If gas producers are given incentives to continue their risks in exploring for deeper, more inaccessible reserves, there is little reason for our high-priority customers to face natural gas shortages until we're deep into the 21st century.

After that, the future for gas energy still looks good. The technology for gasifying coal is a fact, not some fantasy of the future. And our nation has enormous coal deposits.

Converting it into gas makes sense. Because gas burns clean and doesn't pollute. It also makes economic sense, because this gas can be distributed through the pipeline system we have, and the families who have gas appliances can keep right on using them.

How long can you depend on Lone Star for gas service? We intend to make sure your children's grandchildren can depend on us.

Trisha Klement

The baptism of Trisha Marie Klement, infant daughter of Mr. and Mrs. Lyle Klement of College Station, was held in Sacred Heart Church on Sunday afternoon, November 12. Father Stephen Eckart officiated.

Baptismal sponsors were Mr. and Mrs. Alan Miller. Attending the services were Trisha Marie's grandparents, Mr. and Mrs. Ray Klement and Mr. and Mrs. Adam Wolf, and Karen and Sharen Wolf; also Lloyd Klement of Denton.

The christening gown was the same as worn by her great-grandfather, Albert Kubis. And she wore a dainty handkerchief cap, a gift from Mrs. Ray Klement, to save for her wedding. The ring and bracelet she wore were gifts from the godparents.

Following the baptism, Mr. and Mrs. Ray Klement hosted a champagne party in their home.

Apply Early to Start Payments In Social Security

People who are planning to retire in early 1979 should act now to make sure that social security checks start coming when their income from work stops. Gus Jones, Social Security District Manager in Sherman said today.

A person should apply for social security retirement 2 to 3 months before he or she wants them to begin. This way, the checks will start coming when they are needed. Jones said it would be helpful if people planning to apply get certain information together before they apply. What is needed is:

...The person's social security card, or a record of the number.

...Proof of the person's date of birth, preferably a birth certificate or church record of birth or baptism.

...Evidence of 1977 earnings such as a Form W-2 or copy of a self-employment tax return.

...Information about 1978 expected earnings.

A person should not delay applying because he or she does not have this information. The people at the social security office can suggest substitute evidence, Jones said.

In most cases, a person does not have to come to the social security office to apply for benefits. It can be done by phone and mail.

For more information about social security benefits, call the Sherman Social Security Office. The telephone number is 665-0770, and the office is located at 810 North Travis.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12 noon and 12:45 p.m. to 2:00 p.m. at the Federal Building.

Save That Garden

by Neil Tibbets

With cold weather and the first frost of the year just around the corner, homeowners all over the state will soon be asking, "What can I do to save my garden?" The first killing frost often is followed by several days, if not weeks, of favorable growing weather. Protecting cold-susceptible plants from early frosts can increase the productivity and the value of a family vegetable garden.

A common water sprinkler can be used as a front protectant system. According to Sam Cotner, State Extension Vegetable Specialist, it is a great equalizer of freezing temperature. It has a high specific heat. That is, a pound of water gives off more heat in losing a degree of temperature than any other substance. Scientists call this the "latent heat of freezing or melting." In simpler terms, as water freezes it gives off heat. This heat can be used to protect plants from freeze damage.

Commercial farmers in many areas of the country have successfully protected cold-susceptible plants from freeze damage by applying water during the freezing period. Farmers actually use the heat of the water to protect their growing plants. The homeowner can do exactly the same thing.

If a light freeze or frost is predicted and the conditions are suitable, the homeowner with a productive garden might consider sprinkling the garden for frost protection. The water should be applied continually during the freezing period. If freezing temperatures occur throughout the night, sprinkling the garden the entire night will be necessary.

If only a frost is predicted, adequate protection usually can be provided by sprinkling only in the early morning, as this is when frost damage is most likely to occur. Furrow watering also offers some protection against cold weather damage, but it is not as effective as sprinkling.

Many homeowners try to protect garden crops from frost damage by washing the frost off with warm water in the early morning. Actually this practice may increase the damage. Plant tissues required to go from freezing conditions to thawing conditions in a short period of time will show much more damage than those allowed to thaw slowly.

Remember, the first freezing weather does not mean the end of a successful summer garden. A little water applied at the right time may go a long way toward prolonging the life of those highly nutritious and tasty home-grown vegetables.

A lad rushed into a drugstore crying, "Quick! My father is hanging upside down by his pants leg in a barbed wire fence."

"What do you want, boy?" asked the druggist, "Help — or first-aid supplies?"

"Nothing like that," said the boy, "I want film for my camera!"

We Have the Farm Boss and It's a Stihl

IT STARTS EASIER because of a hotter spark, better carburetion, and a flood-free design.
 IT'S MORE RELIABLE because it has longer wearing moving parts that won't break down.
 IT'S MORE POWERFUL because it has the biggest power-to-weight ratio of any popular saw.
 IT'S QUIETER because its large baffled muffler is more than just a tin box.
 IT COSTS LESS. Because a saw that will last about twice as long will cost only about half as much.
 IT COMES WITH A BONUS. Over \$30 worth of free accessories including a spare cutting chain really make the Farm Boss a Stihl.

"TRUCKS LIKE THIS ARE ONE OF THE REASONS THE COST OF ELECTRICITY HAS GONE UP"

They also are one of the reasons your electric service is so dependable. TP&L's "hole-digger" trucks do a job in minutes which used to require long and often difficult hand labor. Skilled employees utilizing these trucks can rapidly extend power lines to new homes or businesses and restore storm-damaged lines. In 1975, a "hole-digger" truck cost \$42,000 . . . today, more than \$75,000.

TP&L must spend hundreds of thousands of dollars each year to purchase, operate and maintain the many special-purpose vehicles which are essential to providing electric service. We're doing everything possible to hold the line on these costs.

Texas Power & Light . . . dependable electric service throughout North, Central and East Texas for more than sixty-six years.

YOU CAN BANK ON IT!

Most persons know the convenience and safety afforded by using checks. But it's important to remember to treat a check as carefully as money.

To reduce the possibility of forgery, always make out checks with ink or a typewriter. Begin in every space as far to the left as possible and fill all blanks with a wavy line to avoid possible alterations. Don't write a check until you're ready to turn it over for possible payment. And for checks you receive, remember when you endorse them by simply signing your name on the back it can be cashed by anyone else if it becomes lost or stolen. If you're depositing checks by mail, you can protect the check by prefacing your endorsement on the back with "For Deposit Only."

If you have other questions about the proper and safe uses of checks, see any of our officers. When they advise you about checking services... you can BANK on it!

Mrs. J. Henscheid Dies in Oklahoma

Mrs. John Henscheid, 85, died on November 3 in Norman, Oklahoma, where she lived since moving from Muenster many years ago. She was the former Anna Christina Hess.

For the past nine years she had lived in a nursing home in Norman. Her husband died 12 years ago.

Funeral services were held Monday, November 6 in St. Joseph's Church with Father James Mickus officiating.

Survivors include four sons and five daughters.

Pallbearers were Glenn Fritch, John Adams, James Jansing, Tommy Brockhaus, Earl Jansing and Tom Henscheid.

Relatives attending from Muenster were Mr. and Mrs. J. H. Bayer, Mrs. Gertrude Bayer, Mrs. Martin Bayer, Mrs. John H. Wimmer, Mrs. Andy Wimmer, Mrs. Lawrence Wimmer, Mrs. C. J. Hellman, Mrs. Oscar Walter, Mrs. Meinrad Hesse, Mr. and Mrs. Herman Hartman, Dorothy Hartman, Mrs. Albert Dangelmayr, Leonard Hartman, Leo Henscheid, Mr. and Mrs. Felix Yosten and Henry Yosten.

For many of the relatives attending from Texas and a number of other distant states, it was the first time to see each other in over 25 years.

Senior Citizens Have a Ball

Senior Citizens of MAP and SNAP enjoyed a special treat last Saturday evening at the Harvest Moon Ball in the K.C. Hall.

Great attendance, wonderful music, outstanding decorations and a congenial atmosphere all contributed to the success of the semi-formal event. It began with a happy hour from 8 to 9 p.m. followed by dancing to Ben Broome's "Hit Band of North Texas and South Oklahoma," from 9 p.m. to 1 a.m.

Decorations carried out autumn colors in table centerpieces, flower balls suspended from the ceiling, and topiary trees; tiny split logs held candles on guest tables and there was a glittered harvest moon and glittered stars above.

The event was planned by Mrs. Gladys Lutkenhaus and her committee.

Door prizes went to Ed Endres, whiskey from Grady Jones; Andy Schoech, wine from 82 Liquor; Gretchen Kostyniak, \$10 gift certificate from the Charm Shop.

Gen. Sam Houston, when served his first helping of vanilla ice cream, is reputed to have said, "Madam, it is not my intention to slander your hospitality, but this here pudding is froze."

Parade, Drawing Plans Reviewed at Chamber Meeting

A combination of activities and attractions to usher the Christmas season is preceeding according to plan, according to reports Tuesday at the Chamber of Commerce luncheon meeting.

A review by President Johnny Pagel revealed that Jaycees will provide a tree for the AMPPI corner at Main and Highway 82, and that Monica Hess will supervise the decorating job. Also the Jaycees will organize and direct the Christmas parade along with a visit by Santa Claus and his helper to give goodies and discuss Christmas wants with the kids.

The Chamber of Commerce is sponsoring the big drawing in which local businesses will give several hundred dollars worth of prizes to the lucky winners. Actually there will be 24 drawings, one for each participating business man from the registration slips that were filled out in his place. And after that there will be another drawing for gift certificates of \$100, \$50 and \$25 provided by the Chamber of Commerce. The certificates are redeemable at any store in Muenster. Likewise the Chamber is providing prize money of \$75, \$50 and \$25 for winning entries in the parade.

The meeting was held at the

then, resulting in a ten fold increase in yield, but no Dairy Inn because of remodeling now under way at the former location in The Center. And members voted to skip the December meeting because the parade will have been just finished and the Germanfest still months away.

Relative to promoting Muenster, Pagel said that the sign five miles south of town has been finished. He described it as an attractive invitation for the city measuring 8x20 feet and built on a sturdy frame which is expected to stand for many years. Dennis Hess had charge of the project and the cost was about \$500.

Another promotion is a brochure under direction of Henry Weinzapfel and due to be finished in time for distribution before Germanfest, which is scheduled for April 27, 28 and 29.

search has been done on the bush in more than a quarter century.

Of course its desirable to establish and develop an important new industry in the state, but it's equally desirable to develop the additional source of rubber and help hold down the prices of tires and other rubber products in the future.

Mexico has already started work on the program. In 1976 it built a pilot plant at Saltillo, some 200 miles southwest of Laredo, to extract rubber from the gasyule that grows wild in five Mexican states.

a major penalty. Big gains were 15 by Klement, 12 by Felderhoff, then Duane Knabe's 13 yard power run to pay dirt breaking 3 tackles along the way. A run for extra points failed but MHS was back in the lead by a count of 20-19 at 4:14 in the third quarter.

So Lindsay responded with another drive. Eleven plays gained 48 to the Hornet 9 where MHS defense called a halt. Next 3 plays netted a loss of 7, then Haverkamp missed his second field goal attempt of the night.

And again, Muenster moped the other way. Six plays gained 36 to the Lindsay 44 before a penalty and a busted play forced a kick which set the Knights back to their 14. Two plays later Wilde's interception regained possession for them on the 24. Three tries from there got to the 13 and four more were enough for first down, with only inches to spare, on the 3 yard line.

From there a sneak gained 1, then Wilde topped an evening of good work by diving over from the 3, Todd Richey scooted around left end for two more points, for the final count of 28-19.

Three plays later David Felderhoff appeared headed for still another TD when he intercepted a and returned some 25 yards to the 12 on the final play of the game.

most as far now as at mid season last year. He is proud of his starting line-up but admits he will be lacking in depth when players foul out. There are 8 on the varsity line-up, 7 on junior varsity.

Recalling last year's varsity record of 5-18 with a bunch of narrow margins he feels that a good season is in sight. By adding only 22 points in the district season, the boys could have been champs, he said.

CDA Plans for Christmas Giving

Catholic Daughters of America, during their November meeting made plans for preparations of Christmas packages for shut-ins, and for collection of items for students of the Cooke County Child Development Center. These will be brought to the December meeting, to be readied then for distribution.

Mrs. Dorothy Fisher, regent, conducted the November

on the semi-annual audit of books plans for the Court's bake sale, progress on seeking volunteers for the Court's booth at the Parish Thanksgiving Day Picnic and tentative plans for a Germanfest booth. The Court voted a donation for turkeys for the Thanksgiving Day dinner.

In referring to gifts for the Child Development Center, members were told that suggested items include: color books, balls, play dough, jump ropes, checkers, dominoes, crayons etc.

Arts and crafts supplies are always useful including yarn, clothes hangers, egg cartons, empty coffee cans, etc.

Lunchroom supplies, such as fruit, canned shoe string potatoes, Kool Aid and cookies are welcome.

The Court has a list of nearly 100 items that can be used by the Center. Additional suggestions may be secured by phoning Mary Moser, 759-2238 or 759-4291.

Mr. and Mrs. Mel Fisch of Chicago spent a week in Muenster with her father, Henry Wiesman and other family members. Family gatherings were held in the Henry Yosten, Tony Koesler, Leonard Yosten and Henry Wiesman homes. The Fisch's son Steve Fisch and family of Wichita Falls spent a week-end here and also met his parents at D-FW and then to the airport for their return flight to Chicago.

Milners Visit in Colorado

Mr. and Mrs. Maurice Milner spent last week in Colorado visiting relatives, in Boulder with his sister and in Penrose with her sister. Highlight of the visit was a trip to Salida and Leadville where they saw, among many things, the highest church steeple in the world, atop the Catholic Church in Leadville. Elevation of the city itself is 10,150 ft. and the church steeple rises an additional 150 ft. Leadville is a growing mining center, with several minerals found there.
