Schlitz Drops 2 To Denton Team

The Schlitz softball team closed out its '73 season last Thursday night with a double header loss to the Red Sox of Denton. Their first game was a hot one with the local fellows taking an early lead and the visitors catching up at 3-3 in the seventh. Two innings later the Red Sox brought in the winning run.

In the next one Denton led but was crowded all the way

by Muenster. The final tally was 7-4.

Y. O. Bradford pitched both games for Schlitz. And the Schlitz hitters were Tom Flusche and Leonard Reiter in the first; Tom Flusche, Doug Dennis, Sam Sparkman, Len Reiter, John Monday, Y. O. Bradford and Rocky Dickerson in the second.

Improved SCS Grasses Yield More Texas Beef

There's a lot more beef in your favorite grocery store because of improved grasses planted by Texas conservation farmers and ranchers.

In fact, an extra 335 million pounds of beef is produced in Texas every year from grasses released by the USDA Soil Conservation Service.

Edward E. Thomas of Temple, state conservationist for SCS, said the figures came from a recent study conducted by his office.

"Our survey revealed that in the last 20 years, 5.9 million acres of land has been planted to new grasses released by SCS," Thomas said. "Statewide, increased beef production is averaging 56 pounds per acre per year from these grasses. And the average climbs every year."

Thomas admitted that he didn't know how much this affected the price of beef for the housewife.

"But take away that 335 million pounds of beef every year and prices would have only one way to go - up," he stressed.

"In the past 25 years, annual beef consumption has jumped from about 64 pounds per person to 113 pounds. Meanwhile, our state's population has increased by more than 50 per cent. That adds to a gigantic increase in the demand for beef."

Without improved grasses and better conservation treatment of grassland, this demand would outstrip available supplies.

Thomas said 23 grasses released by SCS are being grown in Texas. Each has its own area of adaptability and is used to fill a specific conservation need.

Two grasses account for a major share of the acreage planted. Buffelgrass, released by SCS in 1949, has been planted on 1.8 million acres of land in Texas; increased beef production from this grass averages 74 million pounds annually.

King Ranch bluestem, released in 1941, is growing on about one million acres. Other widely planted grasses include Pensacola bahiagrass, El Reno sideoats grama, and weeping lovegrass.

To illustrate how quickly some new grasses become popular with livestock producers, Thomas told of the success of Selection 75 kleingrass.

"We released this grass to commercial seed growers, in cooperation with the Texas Agricultural Experiment Station, in 1969," Thomas said. "In spite of the fact that seed are expensive and scarce, 132,000 acres have already been established."

And even though much of this land has not been grazed as yet, increased beef production from this one grass amounted to 11 million pounds last year.

In addition to the increased beef production, the survey

4-H Club News

Annual 4-H officers' training session was held August 28 at Gainesville Courthouse where Dwayne Dennis called the session to order and all joined in a bingo game to get acquainted. Barbie Davidson read the inspiration and a group presented a skit to show the wrong way of conducting a meeting.

Officers then broke into groups to learn about their special jobs. Teachers conducting the program were Mary Lou Fleitman and Barbie Davidson, Muenster Community Club; Sandy Reiter and Chris Felderhoff, Sacred Heart; Laura and John Gage, Callisburg; Denise Martin, Valley View; John and Rudy Schumacher and Dwayne Dennis, Gainesville; Nancy Hickman, Sivel's Bend; David Nortman, Lindsay.

Marlea Thompson and Randy Jordan, assistant Extension agents, served refreshments.

Leaflet Explains How to Apply for Medicare Benefits

A leaflet that explains how to apply for medical insurance payments from Medicare is available at the Sherman social security office.

Called "What Your Medical Insurance Pays," the leaflet explains how to submit claims, when and where to send bills for doctors' services, and how much Medicare pays.

The medical insurance part of Medicare helps pay the doctor bills and many other medical expenses of people 65 and over and severely disabled people under 65 who have been eligible for monthly social security disability payments for 2 years or more.

Single copies of "What Your Medical Insurance Pays" are free on request at the Sherman social security office at 810 N. Travis, according to Gus Jones, district manager.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

TIGER DRILL TEAM OFFICERS AT Sacred Heart High School for the 1973-74 season are (front) Beverly Walterscheid, captain, and (left to right) Doreen Pels, co-captain; Linda Miller, first lieutenant; Sharon Rohmer, second lieutenant.

The four attended the American Scholastic Drill Team Association camp at Austin College in Sherman

this summer. They brought back a clinic award for excellence along with new pom drills and marching ideas. Since their return they have met regularly with the drill team's 44 members in preparation for their performance at the Tigers' first game Sept. 7. New routines are prepared for each half-time show at home games.

SH Honor Society Has Alan Rohmer As New President

At their first meeting of the new scholastic year, members of Sacred Heart Honor Society elected officers and discussed projects and goals for the term.

Heading the group as president is Alan Rohmer. His assistants are Beverly Walterscheid, vice president; Cheryl Bayer, secretary; Peggy Hoebeck, treasurer.

Sister Mary John Seyler presided over the meeting in the absence of Father Placidus Eckart, society sponsor. Alan Rohmer served as chairman during the election. Ten members were present.

Tentative plans were made for projects and these will be discussed further at the next meeting.

Asked to name three great inventors, a student proposed Thomas Edison, Alexander Graham Bell, and Pat Pending.

Sr. Georgia Sees Six Countries on Vacation Travels

Sister Georgia Felderhoff's European tour during the summer is providing her with first-hand information to make history, geography and religion classes more interesting.

As a member of a Summer Vacation Pilgrimage she toured six countries during the three weeks' of travel. The trip was a gift on her silver jubilee year.

She traveled with 25 tourists and their spiritual director Father Harold Heiman through Belgium, Germany, Austria, Switzerland, Italy and

France.

While getting acquainted with tour members at New York's John F. Kennedy Airport she had a nice surprise. One of the travelers was a former pupil she had taught in Arkansas.

The flying pilgrimage took them to Brussels, Belgium, where they visited the King's Palace, Palace of Justice, and the Atomium built for the 1958 World's Fair. In Liege they visited many shrines including the Shrine of Banneux. Other highlights included the Grand Cathedral with its 500-foot steeple.

In Munich, Germany, attractions included Town Hall Clock, and Radio Free Europe, a Benedictine Monastery and the House with the Golden Roof.

Venice sight-seeing included the Church of San Marco, and Bridge of Sighs. They toured a glass factory in Murano, and visited the Convent of St. Clare, Basilica of St. Mary of the Angels and places associated with St. Francis in Assisi.

The tourists spent most of their time in Rome. Never to be forgotten are Vatican City including the Sistene Chapel, the Fountain of Tivoli, Subiara, and the Holy Father Pope Paul.

In Florence the group visited Santa Croce, Medici Chapels,

and the Bell Tower. In Pisa it was the famous Leaning Tower. And in Milan they saw Leonardo da Vinci's Last Supper.

In Paris highlights included Mass at the Shrine of the Miraculous Medal, the Eiffel Tower, and the remains of St. Vincent de Paul. Homeward bound the tour left Paris for return to New York.

Mrs. Joy Sanders Birthday Honoree

Mrs. Joy Sanders, art teacher at Sacred Heart School, was honored on her birthday Friday, August 31, when high school faculty members gathered at morning break time for cake and coffee in the teachers' lounge.

Celebration of teachers' birthdays was initiated by Sister Mary John, principal, two years ago. Senior girls take turns of providing a birthday cake for each honoree.

Teachers whose birthdays come during summer vacation months are given belated parties during the school year.

Cains Have Kin For Sunday Guests

Mr. and Mrs. Kenneth Cain, new residents in Muenster who moved from Garland, had relatives visiting them Sunday in their new location.

Out of town guests included his parents Mr. and Mrs. R. P. Cain of Farmers Branch, his brother-in-law and sister Mr. and Mrs. Pat Bowers and five children of Garland, his brother-in-law James Wolf and five children of Fort Worth, and her sister and brother-in-law Mr. and Mrs. Teddy Miller and three children of Plano. They all attended the homecoming supper.

Mrs. James Wolf is on the mend after undergoing major surgery at Harris Hospital.

Mrs. Kenneth Cain is the former Mary Wimmer, daughter of Mr. and Mrs. J. H. Wimmer.

The R. P. Cains and Mrs. Bowers also visited their mother and grandmother Mrs. Zena Martin at Hillcrest Manor.

YOU CAN HELP EASE THE ENERGY CRISIS

Natural gas, coal and oil. These are the nation's basic sources of energy and Texas Power & Light Company uses them to produce the electricity you use.

Conserve electricity and you help conserve the fuels necessary to produce it. Conserve fuels and you help assure that there will be enough to produce electricity for essential needs.

TP&L has the generating plants, the transmission and distribution lines and the other facilities required to supply all the electric power its customers need. And, just as we have done for more than 60 years, we're building additional facilities to meet anticipated future needs.

But, we must have fuels to produce electric power.

Here are 15 ways you can conserve electricity in your home... help conserve fuels... help ease the energy crisis... and, at the same time, reduce your electric bill:

Air Conditioning

1. Set thermostat at 76 degrees or higher.
2. Replace or clean filters frequently.
3. Keep draperies and blinds closed on sunny side of house.
4. Keep furniture and draperies clear of air outlets and returns.
5. Keep fireplace damper closed.
6. Open outside doors as little as possible.
7. Turn air conditioner off when you leave on vacation, or when you'll be out of the house for any extended period.

Kitchen & Laundry

1. Defrost refrigerator regularly and replace worn door gaskets.
2. Don't overload refrigerator.
3. When cooking on range, use flat-bottomed utensils which fit

surface units. Cover utensils when possible.

4. Allow frozen meats to thaw before cooking. When using oven, cook vegetables with meats or in separate utensils.
5. Operate dish washer, clothes washer and dryer only when fully loaded.
6. Conserve hot water by washing clothes in cold water with cold-water detergents.

Other

1. Turn off any inside or outside lighting not actually needed.
2. Turn off television, radio, iron, etc. when you leave them.

Texas Power & Light's Helping, Too

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting.

Mrs. Richey Moves From Marysville Is Party Honoree

Mrs. John Richey, long-time Marysville resident and former Marysville news correspondent for the Enterprise, has moved to Gainesville to make her home at 1512 E. Garnet St.

She was given a going-away shower and party in her farm home on Aug. 24 when Mrs. Travis Whitt, Mrs. Tillman Bridges and Mrs. Sam Sparkman, joined by Mrs. Ernest Robison of Saint Jo, were co-hostesses.

They served sandwiches, cookies and fruit punch. Assisting Mrs. Richey in opening and displaying her gifts were Mrs. Whitt, Mrs. Raymond Davidson and Mrs. Bridges and the latter's grandson Chad Sieger of Gainesville.

Others present were Mmes. Howard Houtchens, Grady McElreath and Brent, Lloyd Young, Bill Moon, Jimmie Cole, locals, and Mrs. Ruth Branch and Mrs. Cecil Burch of Gainesville and Mr. and Mrs. Fred Richey of Sivells Bend.

In her going-away "speech" Mrs. Richey invited all her friends to visit her in her new home.

A Brief View Of Hinduism

by Rev. Alex J. Williams

Since my arrival in the States many a question has been asked by friends really interested to know about the Religion, Social customs and the economical conditions of people in India. By this little essay on Hinduism I do not claim to possess an erudite knowledge about this ancient religion of India nor do I pretend to expose an elaborate treatise on this vast subject. I wish to share with my friends the little knowledge I have through the columns of "Muenster Enterprise" which has been so kind to publicize my arrival a fortnight ago.

What is Hinduism? It is the Religion to which more than 90% of the people of the Sub continent adhere, and which is fundamentally polytheistic. Hinduism also characterizes society as a whole with caste system as part of it. To be frank, we cannot give a unifying definition. Every one, from those who are well versed in the Sacred Scriptures of Hinduism known as Vedas to the most ignorant folk; from the worshippers of an Impersonal absolute being known as ISHVARA in gorgeous temples to those who have their pantheon of God and Goddesses under trees on the river sides or in the shrines on the way side; from those who have the horizontal marks on their forehead to those having vertical marks on their forehead with ashes or different paints (mostly white and red in color); from those who venerate cow as sacred and refrain from eating beef to those who relish the meat of the cow, wishes to be called as a Hindu. Thus we have an infinite diversity of forms constituting Hinduism. Hence it is a Religion of "UNITY IN DIVERSITY."

What is the origin of Hinduism? Indeed we are at a loss to find and give historical data concerning the origin of the Hindu Religion. It is believed to be primitive in origin and supposed to have been brought to India by the Aryans with a body of well organized beliefs and rituals. However, excavations in Harappa-Mohen-jadaro in the Indus basin clearly testifies to the pre-existence of a Proto-Hinduism.

It appears therefore, Hinduism had assimilated non Aryan institutions which have been preserved without any elimination of its prehistoric characteristics or restriction of its ritualism. The fact that Hindu mythology claims a Pantheon of over three hundred and thirty million gods and goddesses — "Muppathamukodi Thevargal" as is spoken in Tamil language — offers us an Ethnographical explanation of an evolutionary development from prehistoric prototypes of religions common to many ancient races and nations like the Greeks, Romans, Egyptians Babylonians etc. We have therefore to conclude that contributions of many centuries have been super-imposed on the original prehistoric religion.

The Aryans supposed to have immigrated in the second millenium before Christ to

India, had brought with them "Sacred Scriptures" written in Sanscrit with Philosophical speculations. Slowly modifications, fixation of Spritis, fragmentation of various sects came into existence. This is what we call "Vedic" period.

The ancient Scriptures of Hinduism are as follows. "Rig Veda" This was mostly invocations and prayers to God Vishnu and songs on man, creation, prayer to Rain and to night. The "Atharva Veda" which is less ancient in origin speaks of fever, prayer for success in gambling, to Goddess earth etc. Then came the "Sathpatha Brahmana" in the 10th century B.C. giving doctrinal points and the prayers for Sacrifices, beliefs on death, Brahmin, legend on deluge and in general cosmogony. Then came the "Upanishads" collection of various ancient texts developing the rituals in a strongly speculative direction. This ends the period of "Vedas".

Though "Upanishads" show a clear view of Hinduism and its beginning, massive eruption of the religion was formed by great Epics — like Mahabharata with mythological scenes, moral discourses as Bagvathgeetha, and warlike discourses — and by Puranas

— compiled of mythology, cosmogony and various practices. Added to them were the "Samhitas" "Agamas" and subjects pertaining to the Tantric aspects of Hinduism. Then came the paths to mystic life often called as the Hindu Philosophy known as Vedantha.

While so many scriptures existed in Sanscrit Tamil a language of the Dravidian family (to which I proudly claim to belong) had its scriptures during the first millenium of Christian era. These texts are the primary basis of our knowledge regarding history of Hinduism. The second source from which we can gauge the historicity is the archeological data inscribed or engraved on pillars and mural paintings. The third source is the records of ancient travelers like Marcopolo and Megasthenese.

Fireflies are the only creatures that are admired for getting lit every evening.

When Social Security was started in 1937 we were told our contributions would, at age 65, supplement our retirement income thereby giving us a better life in our old age. It is true that people retiring today can hope to get back what they put in by living four to six years past age 65.

The program has become so political and typical of government give away programs that it is now just a payroll tax. Today a man 25 years old could expect to contribute \$85,000 by age 65. His employer has to put in a like amount. This money if invested at 5% interest would amount to \$376,000 in 40 years. If he retired with maximum benefits of \$404. per month he'd have to live to be 143 years old to get his money back. In the mean time the government uses the money interest free to support other give away programs.

Several times the Social Security tax has been increased because of the cost of Medicare. Now the administration is recommending that medical costs not be allowed as a deduction on income taxes — because that extra income is needed to pay for medicare.

The popular give away now is the Food Stamp program. Through radio and newspaper ads, the government is encouraging people to sign up. They expect to give stamps to 12,000,000 people at a cost of 2½ billion dollars annually. None of us want anyone in America to go hungry but to put out money where it encourages people not to earn a living is not right.

Before long ½ the people — those who work — will be supporting the other ½ who don't work, with the government acting as distributor.

The homecoming picnic last Sunday was a success. Service was excellent at the refreshment stand and the beer was cold. Colonel Sanders has nothing on our local men when it comes to finger licking good chicken. The servings were generous too. Joe Hoenig, among others, was seen carrying home a doggie bag and

saying it would be better for lunch tomorrow than a balogna sandwich.

The bingo game was well attended and should have been profitable. It took Ben Luke less than an hour to lose \$2.00.

Many out of town folks were there seemingly enjoying their visiting. Among them was Adolph "Shorty" Herr, who is always pleasant to visit with. The lady with him was introduced as Ruby — she must have a last name?

The Stan Yostens of Fort Worth were there and mentioned plans to retire in the not too distant future. Hope you'll move back home — you'll like it here.

to the Hornet 30 and a pass finished the job. For the rest of their possession the visitors fumbled once and made two more first downs.

Muenster's next effort made little headway until an interference ruling on the sixth series gave the Hornets the ball 30 yards from the goal. Two plays later Louis Koelzer took a long pass from Randy Wolf for a TD.

Next time possession was cut down to 15 tries each. The visitors on four plays stormed 60 yards to the 10. But the Hornet defense, aided by a 15 yard penalty, were too much in the next series. The score was missed by 3 yards.

Hornets on their last effort went to the air. Out of nine tries they completed two for 11 each and had two interceptions.

Between the scrimmages of starters, reserves had their action. On their very first play the Archer reserves broke away for a 70 yard TD. For their remaining 11 plays they made one first down.

The Hornets in their turn made two first downs and fumbled then two more first downs.

Next time Archer reserves made a first down and fumbled then two more first downs in the remaining 8 plays.

Muenster moved fine, 7 plays going 64 yards to the 6. And Terry Walterscheid went over three plays later. But the TD did not count. The play was declared dead because of offsetting penalties.

**Future Hornets
Shine in Practice
With Windthorst**

Encouraging signs for the future of Muenster High's Hornets were seen Thursday night as the B team and the eighth graders met a pair of Windthorst teams in a scrimmage on the local field. Muenster boys tied the score and won the statistics in one session and won both the score and statistics in the other.

Rule of the scrimmage was to allow each team 20 offensive plays and require first down in three tries, otherwise the ball went back to the starting point, which was the 20 yard line. The scrimmage consisted of two such offensive sessions for each team.

Eighth graders played first and Windthorst had first offense. During their 20 plays the visitors made one first down — on a pass — and fumbled twice. In its turn Muenster got three first downs and also fumbled twice. In addition it had a pass intercepted and returned about 20 for the visitors' only touchdown.

On the visitors next 20 tries Muenster defense was unyielding again. It allowed one first down and recovered one fumble.

Muenster offense strengthened considerably on its next 20. Nick Walterscheid broke away for an 80 yard TD on the first play. Then the Monsters went 66 yards to the 14 in 3 plays but fouled up its next series. All told the score was 6-6, first downs were 10-2 favoring Muenster.

Then came the two B teams, Windthorst first on offense for 3 first downs. Muenster in its turn made a terrific start with an 80 yard drive in 6 plays. Sicking, Mollenkopf and Wolf made the big gains. But after that Windthorst defense braced up and allowed the Bees only one first down in 5 series.

Second half visitors did better on their offense completing four first downs in nine series.

Then the Bees started their second offense with a bang. Mollenkopf went all the way on the first play. And three plays later Sicking went 79 yards for the TD. Then Mollenkopf gained 53 before being caught. The rest of the practice amounted to 3 first downs in 7 series. In summary, Muenster led 3-0 in TDs, 10-7 in first downs, and the teams broke even at 1 each on fumbles lost.

downs and fizzled on the visitors' 38.

Sacred Heart made its only touchdown on its final possession following Pottsboro's failure to keep going. Starting from the visitors' 45 they headed goalward on the running of Davey Krahl and Mark Hess. Eight plays were enough and Hess crashed through for the last five yards.

On its last offense Pottsboro made two first downs and failed on the third series.

Tiger reserves were first in the B team action. They failed on first series made a pair of first downs for 28 and failed again. Next time they had three consecutive first downs for 48 and ran out of plays.

Pottsboro second stringers uncorked their big one on the second play of the first series, a 69 yard TD. After that they made two first downs and fumbled, then two more first downs and ran out of plays.

**4-H Club
News**

Cooke County 4-H clubs are beginning a new year and club meetings are in full swing. Meetings include Valley View, Monday, Sept. 10 at 7:30; Sivells Bend, Wednesday, Sept. 12 at 7:00 and Muenster, Thursday, Sept. 13 at 7:30.

These club meetings give 4-Hers from throughout the county an opportunity to get together to share ideas and meet new friends. If you are interested in joining a 4-H club in your community, visit with some of the young people already enrolled in 4-H and attend one of the meetings in your area.

4-H Jr. fire inspection is just one of the many projects available to 4-Hers. This project is designed to promote safety conscious attitudes by enabling 4-H members to recognize and correct fire hazards. Fire safety is important to everyone's well being and the Jr. Fire inspection project gives 4-Hers

a chance to learn the rules of fire safety.

The new officers workshop held last week was a big success. To make it so meant hard work for Laura and John Gage, Mary Lou Fleitman, Barbie and Pat Davidson, Denise Martin, Chris Felderhoff, Sandy Reiter, Nancy Hickman, David Nortman, John and Ruby Schumacher, and Dwayne Dennis.

All 4-H organizational leaders are reminded of a training meeting to be held September 11 at 7:30 in the Women's Gym at CCJC. Leaders from Denton and Grayson counties will also attend. It promises to be a very interesting session and we hope as many as possible will be able to come. — Marlea Thompson and Randy Jordan, assistant county Extension agents.

tween two unions, but the unfortunate fact is that growers are caught in the middle of the conflict. Applying the pressure once again, UFW is asking for another grape boycott. Presumably the Teamsters will employ some way of fighting back, but whatever damage is done to the grape business will be absorbed by the grape growers.

As the controversy looks from here, the Teamsters have the better deal and deserve the contracts they took away from the UFW. But the significant point is that workers are still only pawns. They had no choice but were just involved as Teamsters and growers made an agreement.

The only good solution to worker problems is the right to work law whereby workers

are free to join a union or not join. Needless to say a union of voluntary membership will be better for the workers because it has to have merit to win or keep their membership.
