## Meeting, Barbecue Await Cattlemen Here Saturday

Cattlemen from far and near will gather in Muenster Saturday for a barbecue dinner and meeting sponsored jointly by the Texas and Southwestern Cattle Raisers Association and the Cooke County Beef Cattle Improvement Association.

The event will be hosted by Mr. and Mrs. Charles Bartush in their Twin Pine Farms show barn, and it will be headlined by Senator John Tower, who is scheduled to address the

meeting at 11:45. Purpose of the meeting is to discuss the current problems of cattlemen and to explain benefits available from membership in both organizations.

The event will begin with registration at 10 a.m. and the program, under direction of Ernest Jaska as master of ceremonies, will begin at 10:45 with an address of welcome by Mayor Arthur Felderhoff.

Next will be talks by Fred Webb, president of CCBCIA; Frank Lewis, president of TSCMA, and Don C. King secretary and general manager of TSCRA.

Senator Tower is booked to talk at 11:45. He will be introduced by Norbert Felderhoff,

vice-president of CCBCIA and membership committeeman of TSCRA.

The Most Rev. A. Dangelmayr will give the invocation preceding a Dutch treat barbecue lunch to be served at 12:30 by Rohmer's Catering Service. The charge for lunch is \$2.50 per person.

The final event on the official program is a guided tour of the Renner pasture project on Al Felderhoff's farm two miles from the show barn.

And there's more to the occasion than the programmed events, much more. The preparations committee, headed by Norbert Felderhoff, is going all out to help people reach the meeting and provide interesting things for them to see.

The VFW Post's flag service is providing a holiday atmosphere by putting out its official holiday display of the national colors.

A welcome committee will meet Senator Tower at the Gainesville Airport and accompany him to the meeting. In the group will be Arthur Felderhoff, Russell Guffey and Joe Bezner, mayors of Muenster, Gainesville and Lindsay;

## Coaches Needed

Women to coach girls' softball teams are needed to have a softball program for girls in Muenster this summer. Mrs. Charley Hellman, chairman, said that any who are willing to help are urged to notify her promptly.

FROM SOUND OF MUSIC — Teresa Hoedebeck as Sister Margaretta listens as Doris Schmitt, Mother Abbess, attempts to convince Mary Lou Kralicke, Maria Rainer, postulant, to leave the convent for a while in order to make sure she is following her religious vocation. The action is part of Sacred Heart High's spring musical to be staged by the Thespian Society Sunday, May 9 and Tuesday, May 11.

Fred Webb, Frank Lewis and Norb Felderhoff of the sponsoring organizations; John Tracy, GOP county chairman; and Peter Hyde, dean of Cooke County Junior College.

Arrangements have been made also to accommodate others coming by plane. Landings will be at Gainesville Airport and on Bruno Fleitman's pasture adjoining the east city limit of Muenster. Endres Motor Co will have courtesy cars at both places to bring visitors to the meeting.

Cars driving to Twin Pine Farms will be directed to a parking area east of the show barn. Riders on horseback, with Al Trubenbach in charge, will be there to help.

At the barn the Bartushes have prepared with fix-up and paint-up jobs and a planting of rye grass in the arena to improve appearance and reduce dust.

In addition there will be discussion. (Continued on page 8)

## Andy Zimmerer Dies of Injuries Received in Fall

An on-the-job accident about 1 p.m. Wednesday was fatal to Andrew Zimmerer, 64, an employee at Henry Popp Metal Sales on Highway 82 west of Gainesville. He was rushed to Gainesville Hospital by ambulance and died shortly after arrival.

The report is that he was standing on the front of a truck while a winch was operating at the back. The heavy pull caused the front to rise and he either fell or was thrown to the ground. Apparently he received a head injury.

Funeral services will be held Friday morning at 9 o'clock in St. Mary's church, Gainesville, with Father James Gillespie officiating. Burial will follow in Sacred Heart Cemetery, Muenster, under direction of Geo. J. Carroll & Son Funeral Home. Rosary will be recited Thursday at 8 p.m. in the Carroll Chapel.

Andrew Zimmerer was born in Perry, Okla., on October 14, 1906. He was married to Lena Voth of Muenster in January 1933. They lived on the Sivells Bend road northwest of Gainesville.

Surviving are his wife, one son Willard Zimmerer of Farmers Branch, one daughter Mrs. Henry Popp of Gainesville, his mother Mrs. Katie Zimmerer of Lindsay, three brothers, Joe, Raymond and Norbert Zimmerer of Lindsay, three sisters, Mrs. Bill Schad of Gainesville and Mrs. Joe Koerner and Mrs. Julius Sandmann both of Lindsay, and eight grandchildren.

## MHS Honors in Studies, Sports Told at Banquet

Academic and athletic achievements at Muenster High School during this year were recognized and awards were presented Friday night in the school's annual all-awards banquet.

The event, sponsored by the Parent-Teacher Association, was held in the MHS gym with a decorative theme that featured scholastic activities and sports. It included dozens of red and white styrofoam and plastic horns suspended from the rafters.

Forrest Gregg, retired member of the world champion Green Bay Packers and a long time friend of MHS, was the master of ceremonies. Also on the program were the PTA's welcome by President Michael Sloan, response by Debbie Yosten, invocation by Glenn Felderhoff, benediction by Danny Fette, tributes to Homemaking and Vocational Agriculture by Debbie Sicking and Lyle Klement, and vocal selections by Cheryl Otto, Debbie Yosten and Laurie Wimmer.

In the following list of nominees (Continued on page 4)

## Peggy Endres Is Named Finalist in Scholarship Test

Peggy Endres has advanced another step in the National Honor Society Scholarship competition. A report this week received at Sacred Heart High School states that she is one of the finalists among the nation's most talented high school seniors competing for 185 scholarships of \$1000 each to be awarded this year.

Speaking for the National Honor Society Scholarship Program, Mr. W. J. Cavanaugh called the advancement "a great honor for the school."

It is the first time a Sacred Heart student has stayed in competition to the finals.

Two senior members of each NHS Chapter from each school throughout the nation are eligible to participate upon nomination by members of the society. Donna Rohmer was Sacred Heart's other entrant. Competition began in January.

The one hundred and eighty five scholarships of \$1000 each to be distributed through the Scholarship Program this year may be used in any accredited university, college or junior college in the United States.

Sponsors are National Association of Secondary School Principals, L. G. Balfour Company, Josten Company and Herff Jones Company.

Peggy is the daughter of Mr. and Mrs. Paul Endres.

## Council Expects Ample Water for Summer Demand

Indications are that Muenster will have plenty of water to meet the customary peak demand of July and August. The city council in session Monday night approved purchase and installation of a storage tank at its new well and pipe from it to the water mains.

Besides, the city voted to clean up its No. 3 well on North Main. It is pumping sand now and the overhaul job is expected to eliminate the sand and also increase the water output.

Also in relation to the water system, the council voted to adopt the city development plan prepared by Rady and Associates Inc., but not to retain the engineer for construction. Members felt that the city has the equipment, experience and personnel to lay its own lines, at a substantial saving.

Regarding the swimming pool, members approved a recommendation of Dan Hamrick, pool manager, to raise prices to 25 cents and 50 cents from the previous 20 and 40. The child price will apply to 12 year olds and under. Opening date of the pool was not set.

The council also voted not to increase its present work force during the summer and instructed clerical personnel to prepare tax rendition sheets so that the council can see them at the next meeting and set a date for the equalization board's meeting.

## The Men In Service

### Basic At Fort Polk

Mike Cason, son of Mr. and Mrs. Sid Cason, reports being settled at Fort Polk, La., for basic Army training. He was one of seven young men inducted from Cooke County last week. His wife Susan is presently living with her parents, the Leonard Bengtorts at Lindsay. The Casons other son, Pfc. Terry Cason went overseas recently and is stationed at Heidelberg, Germany.

## Boat Accident Fatal To Joan Miller, 10

A tragic boating accident on Moss Lake Sunday afternoon claimed the life of Joan Miller, 10, daughter of Mr. and Mrs. William J. Miller.

She died in St. Paul Hospital, Dallas, at 4:45 Monday morning from an injury received when a boat driven by Dr. Gerald Graham hit the boat driven by Mr. Miller. Both were operating at cruising speed with bows high and the sterns low in the water.

With Miller on the front seat was his son, Mark, and on the back seat were Joan and Allen. Graham also had three passengers.

Neither operator saw the other. Miller did not notice Graham approaching from the side. Graham was watching the person he was towing on skis.

Graham's boat hit the back of Miller's and momentum carried it completely over the

top and the spinning propeller hit Joan's head as it went past. The Miller boat remained upright and no one was knocked out of it. Graham's boat turned over.

After the accident Joan was rushed to Gainesville Hospital where she was given emergency treatment and sent to Dallas for surgery.

Funeral service was conducted Wednesday morning at 10 in Sacred Heart Church with Father Placidus Eckart officiating and later conducting grave side rites in Sacred Heart Cemetery. Burial was directed by Nick Miller Funeral Home. Bearers were Tommy Felderhoff, Glenn Miller, Joe Swirczynski, Hank Trachta, Greg Yosten, and Mike Yosten.

Fourth grade classmates of Sacred Heart School formed an honor guard in front of church before the service, the boys carrying long stemmed blue carnations and the girls, pink carnations. They were accompanied by Sister Lenore and Mrs. Lloyd Trubenbach, each carrying a red rose. These flowers were placed on the altar.

Services in the Miller Chapel on Tuesday began at 1:30 with rosary recitation by classmates of grade four followed at 2:30 by a rosary by Camp Fire Girls of which she was a member, the 4 o'clock rosary conducted by Father Bede Mitchell, a 4:30 rosary recited by fifth graders of Sacred Heart School and an 8:30 wake service conducted by Father Leonard Wangler. Joan Miller was born in Muenster on June 7, 1960. Surviving in addition to the parents are four brothers Robert, Terry, Alan and Mark and one sister Linda, all of the home, and a grandfather T. Miller of Muenster.

## Drought Hangs on After .22 In. Rain

Heavy clouds Tuesday night again were disappointing to this area. They brought a mere .22 inch of rain after a blustering thunderstorm which seemed to indicate good prospects for a drought buster.

But the drought continues in what is beginning as one of the driest years in Muenster history. Total moisture for the first four months was only 3.19, and that follows a total of only 2.65 for the last three months of 1970. The seven months measure is only 5.84 inches.

Rainfall for the year up to now is 3.41 inches. The measures are .41 in January, .97 in February, .36 in March, 1.45 in April and .22 until now in May.

## Local VFW Post Has Observance of 25th Anniversary

Muenster Veterans of Foreign Wars Post 6205 has celebrated its 25th anniversary.

Chartered April 24, 1946, with 81 chapter members, the Post observed the anniversary April 24 and 25 at the post home beginning with a dance Saturday evening and following on Sunday with a cocktail hour at 4 p.m. to precede a steak dinner at seven o'clock.

In an after dinner program, Pat Hennigan, first post commander and a former district commander, gave a short memorial for 17 deceased charter members, after which Herbie Herr presented a history of the organization and 46 charter members received continuous membership pins.

In reviewing highlights of the past 25 years, Herr recalled that the first meeting was held in a pool room. The post has come a long way since that time. Members now own their present post home valued in excess of \$50,000.

Twenty-five year pins went to Gilbert Endres, Frank Felderhoff, Tony Fleitman, Joe Hess, Herbie Herr, Pat Hennigan, Tony Koesler, Marty Klement, Rody Klement, Anthony Luke, Ferd Luttmner, Henry Pautler, Emil Rohmer.

Alois Rohmer, Arnold Schilling, Carl Schilling, Joe Sicking, Louis Sicking, Richard Swirczynski, Ray Voth, Joe H. Walterscheid, John H. Wimmer, Andy Yosten, Larry Yosten, Gene Klement, Herman Stoffels, Ray Wilde, Arthur Felderhoff, Steve Moster, Leo Felderhoff, Alfons Pautler, Joe Pautler, Ray Swirczynski, Otto Walterscheid, Louis Roberg, Arthur Hess, David Trachta, Alfred Rohmer, Al Felderhoff, Earl Fisher, Vincent Felderhoff, Ted Voth, Arnold Muller, Frank Kathman, Elmer Fette and Father Francis Zimmerer.

Arthur Hess was in charge of the steak dinner and Mrs. Arthur Bayer was decorations chairman. The post home was resplendent in red, white and blue decor with stars and stripes. A large placard listed names of charter members. Members of VFW and Auxiliary with spouses or dates attended for a group of about 300.

There is usually a good explanation for anything, but for some things there is absolutely no excuse.

## Ordinance OK'd For Speed Zones On Hy. 82 in City

An ordinance to achieve better traffic control on Highway 82 in Muenster was passed by the City Council in its regular session Monday night. It included a number of changes which had been recommended by the Texas Highway Department on the basis of a survey conducted on that portion of the highway.

According to Steve Moster, city superintendent, the ordinance specifies four speed zones within the city limits and another zone east of town at the approach to the east city.

A west bound car going through will find a sign near the convergence of the divided roads marking entry of the 55 m.p.h. zone. Another sign at the city limit marks entry of the 45 m.p.h. zone. A sign at Hickory, by the flashing signal, marks entry of the 35 m.p.h. Main Street, at the stop and go traffic lights, is the entry of the 45 m.p.h. zone leaving town. A sign at or near the bridge west of town marks entry of the 55 m.p.h. zone leaving town. And regular highway speed may be resumed at a sign by the west city limit a few hundred yards farther west.

The same zoning applies to east bound traffic. That is, slow to 55 at the west city limit, to 45 at the bridge and to 35 at the traffic light — unless stopped by the light — then increase to 45 at the flashing light, to 55 at the city limit and to highway speed where the road divides.

Moster said that the ordinance will become effective as soon as the highway department installs the signs. He also said that the survey indicated excessive speed coming into town from both sides, but the drivers were not at fault because they were not properly informed.

## Robert Fisher Is Graduate of A&M

Robert E. Fisher of Muenster is among 1731 students applying for spring graduation at Texas A & M University. Registrar Robert Lacey announced this week. He will receive a BS degree in Electrical Engineering at commencement exercises Saturday. He is a son of Mr. and Mrs. Earl Fisher.

**A Good Cause**

The Post Office Department deserves applause for its latest stamp design, a red and blue one saying "giving blood saves lives." If only a tiny percent of all the people who will lick or see these 130 million commemorative stamps honoring the nation's blood banks are moved to become regular blood donors, an adequate supply of blood should be assured.

Dr. John B. Henry, president of the American Association of Blood Banks, has pointed out that both the life-saving idea of the blood bank and the practical thought of having a stamp carry a message, as well as the mail, originated in the United States. The first blood bank was started in Chicago in 1937, and commemorative postage stamps date from the Philadelphia Centennial Exposition in 1876. Until then a stamp collector had little choice. Unless he liked the looks of Queen Victoria, there were no British stamps for him. We offered Benjamin Franklin, George Washington and little else. But when special stamps made successes of world's fairs, even in depression years, their number increased. They were issued in behalf of many other causes, now happily for blood donation.

If you are in good health and between the ages of 18 and 66, you will be welcome at your local blood bank or collection center. Remember, your donation could save a life. —Industrial News Review

**Agricultural Dictatorship**

A massive battle to organize farm workers is being waged across the United States. The commodity boycott is the weapon used. Mr. Tom Richardson, a spokesman and farm labor specialist for the California Farm Bureau, warns that boycotts threaten consumers' free choice in the marketplace. He also warns that farm workers are being dragged into unions without elections of any kind and that farmers must sign away the freedom of workers under threat of bankruptcy when they can't move boycotted crops to market.

If farm worker organizing efforts continue along the lines established in the case of the grape workers, a new kind of oppression will have arisen in the United States. Mr. Richardson points out that farm labor contracts forced on producers in California hold such provisions as the following: "No elections for workers are provided, and no options for growers. All labor is assigned from a union hiring hall. The union determines eligibility for employment — in effect hires and fires at its own discretion. The union contract stays with the farm for the life of its tenure. It goes with the lease, rental, sale, transfer, or even inheritance of the farm property. The union reserves the right to withdraw field hands at its own discretion. It assumes the right of access to farm property and to farmers' marketing and financial information — however confidential or competitive."

The only conclusion that can be reached from the present trend in farm labor organizing efforts is that the ultimate goal of agricultural unions is the control of every farm and farmer in the land — and the food supply of over 200 million consumers!!! —Industrial News Review

**What Is A Mother?**

A mother is a unique mixture of patience, discipline and dedicated love. She is a general practitioner to a sick child, a "Dear Abby" to her daughter in love, and a head football coach to her well-padded little son. She can whisper a delicate lullaby to a boy in her arms, or dwarf the sound of an amplifier when calling him to dinner five years later.

A mother can cry when she is happy, laugh when she is heartbroken, and work when she is ill. She can be almost everywhere at once, squeezing an enormous amount of living into a 12-hour day.

She is Mama to her two-year old, Mom to her third-grader, old-fashioned to her high-school daughter. She is the one person we can always see vividly with our mind's eye whether we are 10 years or 10,000 miles away. And we can always say, with deep pride and affection: "Mom" or "Mother."

**I Am an Angry American**

In writing the following article Paul Harvey, national commentator and columnist, said it is based upon several letters received from Angry Americans all over the country.

"Ecuador has been seizing American fishing boats. Ecuador is due to get 25.5 million American dollars. That's my money! It's not the rich who'll pay it or the poor who spend all theirs; it's mine! And I say give that money instead of my sick brothers and sisters who need kidney machines to live!" There's more.

"Uncle Sam allows every refugee from Cuba \$1,200 a year and if he's a boy or girl going to school an extra \$1,000 a year. Uncle Sam on VISTA training spends \$15,000 per year per trainee. The Job Corps has been spending \$18,000 a year to teach each high school dropout. That's my money."

"And, I say stop trying to create a country club for everybody and knock some cents back into my two-bit dollars!"

Here's a real kicker. . . . "To rear my legitimate child Uncle Sam allows me a tax deduction of \$625 per year. If he were an illegitimate child, ADC would pay me \$800 a year. But mine is not illegitimate so Sam takes my money to support those who are, and I say they are not more important than mine are."

"Fair? It doesn't seem so. Mr. Harvey quotes another 'angry American.' 'I am suffering from a pain in the neck, real and figurative, and doubtless related. I hurt like everything, but Uncle says I must grin and bear it. You think maybe you got syphilis, you can get a blood test free. I think maybe I got leukemia, I pay for it.'"

Furthermore: "For narcotics addicts there's a helpful handout. For people in prison there is \$2,300 a year. For me nothing."

"I don't have syphilis. I don't take dope and I don't break laws so I get nothing. Yet, I'm taxed to pay the upkeep on those who do!"

As is pointed out by one contributor to the column, each American share of a \$429 billion national debt is \$2,080.

We have to sympathize with him when he says, "And I'll have to pay interest on that borrowed money with another

\$166 every year of my money. . . ."

But, here's more for us that live in the great State of Texas. "Uncle Sam has a cluttered closet full of outdated apparel and tangled coat-hangers; he ought to be house-cleaning before going shopping for more."

"For generations, big city bosses have bought re-election for themselves with promises and more handouts. Now the bills are coming due and the city dudes are asking Uncle Sam to bail them out with my money."

"He figures to dip into the pockets of us dues-paying country boys to bail out those extravagant big city politicians. Just for that, he wants another \$80 a year of my money. And, it adds up!"

"A generation of spoiled brats has been running to Washington with a tin cup every campaign time, selling their votes for promissory notes — and pompous politicians have promised 'anything for the needy.'"

And Mr. Harvey sums it up, "Well, look around, Buster, the non-needy are the new needy. How about some relief for us now!"

Personally, I think it's about time to cry, Uncle!

**Straight Talk**

Tom Anderson reminds us that there are "27,931 ways" of making a living in America without getting on welfare. Yet welfare is growing 18 times faster than our population. In addition to the 63 million drawing social security and veterans benefits, 11 million Americans are on public assistance, while ten million more receive free doctors' services under Medicare.

Mr. Anderson quotes one campus radical saying to another: "But what happens to our unemployment checks when we over throw the government?" Perhaps no one has told him that in Communist countries everyone who is able to work must do so unless he wants to starve to death. The government is not only living beyond its income, remarks Anderson, "it is living beyond yours and mine." He compares it to a hungry snake that keeps on swallowing more and more of its tail "until there is no tail — and no snake."

The welfare state causes more problems than it cures. Buy, sell, rent with the Enterprise Want Ads.

**Sex Education**

The school year moves on, and as it does the news stories appear from various and sundry places throughout the United States, reporting raging conflict over the issue of "sex education in the schools."

There is we believe, a middle ground whereby rational people can come to agreement.

Sex education is not wrong in itself. It is better to explain the birth of kittens than to talk about the stork. But unless you relate sex to birth, and unless you relate the birth of a child to its Creator, you are mired in the mud at the animal level. Animals have instincts to guide their actions.

There is no such thing as a "bad" dog from the moral point of view. But children must learn to do what is right by being taught right from wrong, and they must be educated in such a way that they will try to do what is right. The whole goal in education, from a moral point of view, is to see that the child does what he ought to do, until he finally wants to do what he ought to do.

Unfortunately, some of the "sex education" material offered to schools proposes to leave out all morality. This, of course, must be condemned. Many colleges, for example, have courses having to do with the study of crime. But there is a big difference between the study of criminology in order to fight crime — and the studying of the methods of crime in order to be a successful criminal.

Children who are taught about sex by their parents are the lucky ones. No one is better able to judge the need, the timing, or the opportunity better than one's own parents.

No one will do so with more tender solicitude, with more loving care, with more Christian modesty, or with great tact. There is, of course, the rare exception of the parent who is not good and does not have the best interests of the child in mind — but that is also true of teachers in the classroom. A few words from parents about sex to each individual child, at the right times, are worth more than all the "sex lectures" in the world. —U. S. Press Assn.

" . . . you pay a dingle tax every time you decide to go fishing and dangle a worm in your favorite stream in the pursuit of recreation. How come you have to pay a dingle tax. Well it all came about back in 1950 when a couple of individuals in the United States Congress by the names of Dingell and Johnson introduced a bill which enacted a tax on all fishing tackle, and the darned thing passed, so consequently you have to pay a dingle tax every time you want to dangle a worm. As a result of the legislation the citizens of this nation have paid over \$100 million in dangling taxes. . . . Yes, it's a great old world when you can't even dingle or dangle without paying some sort of federal excise tax."

**Rural Drivers Temporarily Exempt From New Federal Safety Regulations**

AUSTIN — Drivers of farm vehicles are temporarily exempt from compliance with new safety regulations established by the U. S. Department of Transportation's Bureau of Motor Carrier Safety for drivers involved in interstate commerce.

Texas Commissioner of Agriculture John C. White says that considerable confusion has developed among farm

vehicle drivers following adoption of the new safety standards, but that an amendment to the regulations adopted January 1st, 1971, exempts drivers of farm vehicles for a six-month period until July 1, 1971.

Commissioner White says that according to the amendment, farm vehicle drivers must be 18 years old, rather than 21 as required in the general safety standards, and that other provisions of the regulations — including written examinations, road tests and physical examinations — will not apply.

White pointed out, however, that farm vehicle drivers are defined as persons who are at least 18 years old, are driving a vehicle controlled and operated by a farmer and are being used to transport produce from the farm or supplies to the farm. In addition, the vehicle being driven must have a gross weight, including load, of 10,000 pounds or less and is not used in the operations of a for-hire carrier.

Commissioner White advised all farm vehicle drivers to be aware of the exemption deadline of July 1, 1971, at which time a determination will be made as to the permanent interpretation of the regulations as they apply to farm vehicle drivers. The present interpretation is based on the crossing of state lines by farm vehicles.

"That drug abuse affects a segment of the civilian population is terrifying enough. But to realize that it has invaded the Armed Forces of the United States, especially in Vietnam, leaves the whole nation and its future in serious jeopardy. It has been the history of all nations that have risen to heights only to fall in decay that low moral practices and decay of the body and mind preceded their decline and eventual destruction, in whole or in part. We had better do something — and do it quick — if this nation is to survive the drug abuse epidemic. Why sane people will try dangerous drugs once — when they know its dangers and probable ultimate consequences — is a mystery."

It has been said that in these days of specialization, a professor is one who learns more and more about less and less until he knows everything about nothing. A newspaper editor, however, is one who over the years discovers that he knows less and less about more and more, until finally he knows nothing about everything.

Recalling that a few persons provided all transportation during the season of boxing tournaments, the committee decided to plan ahead for next year. They intend to line up a group of volunteers.

Attending the meeting were Mike Stoffels, director, Dan Hamric and Ted Henscheid of the Jaycees, Willie Walterscheid and Eddie Fleitman of the KCs, Arthur Bayer and Andy Phillips of the VFW, and Steve Mosier of the Youth Council.

Too many parents are sowing their oats instead of cultivating their children.

The acid test of business isn't whether it's big or small; the real question is: "Is it honest?"

**Interest Growing In Cross Breeds Of Heavy Cattle**

by Neil Tibbets In the past two or three years interest in the Simmental breed of cattle has been growing. We have several livestock breeders in the county that are doing some cross breeding. The Simmental has gained entrance to North America over a special Canadian permit in 1967. The Simmental is originally a Swiss dual-purpose breed. The Simmental has red and white markings similar to the Hereford. Some animal scientists feel the Hereford may have been developed from this breed. Biggest pluses in the Simmental's favor are heavy muscling, fast gains, good overall size, weight and length, and a quiet disposition. Jay Pybas, a rancher and farmer in the Sivells Bend community, has approximately 30 cross bred Simmental Hereford calves this year. The interest is growing in many of the new breeds of beef cattle that are being brought into the United States. It will be interesting to watch the new development of the breeds — how they stand up in the show ring, and how they will cut out for beef when hung on the rail.

Mrs. Charles Davidson and children Mike, Becky and Barbara were Saturday visitors at Walnut Bend with the Joe Siegmunds and their brother John Siegmund, a visitor on vacation from Tripoli, Libya, Africa.

**D-Day for DDD Nears as Phone Work Progresses**

Progress continues in bringing all one-party service and DDD to Muenster area, Alvin Fuhrman, manager of Muenster Telephone Corporation, revealed this week.

All central office equipment and most cable should be in place to meet a scheduled October 17, 1971 deadline for starting directly dialed toll calls from Muenster, Myra, Forestburg, and Rosston exchanges, and all one-party service should be finished by that time.

Planning for this vast improvement project is nearing completion and construction will start soon. The Corporation is now advertising for bids on a building to house dial equipment at Rosston and for special electronic toll line equipment at Muenster, Myra, Forestburg and Rosston.

This equipment will be capable of carrying a large volume of calls and will connect to Southwestern Bell toll lines at Muenster to call the rest of the world.

K & B Contractors of Tulsa was awarded contract to construct the outside plant.

Cable is due to arrive in Muenster within 15 days and work is scheduled to start around June 1.

It is anticipated that 12 to 15 families will want to locate locally for the summer to work on this project. K & B Contractors plan to use local help as much as possible and applications are being accepted now at the telephone office.

They are to bury 176 miles of cable ranging in size from 600 pr. to one pr., install 638 pedestals to give access to the buried cables, push 1,960 feet of pipe under streets and highways, place about four miles of aerial cables in the various towns, splice 140,000 wires together correctly so that the cables become continuous from central office to subscribers' homes.

A contract was awarded to Stromberg-Carlson of Rochester, N.Y., to furnish and install additional dial switching equipment needed to give all one-party service and to carry the increased traffic anticipated when party lines are discontinued. Two hundred two-way amplifiers will be added to certain lines so that telephones more than five miles out will be as clear as those in town.

When project is completed most telephone lines will be underground where storms cannot damage them. One party service will be available to everyone at the same rate of \$6.90 plus tax for residence and \$12.50 plus tax for business telephones, regardless of rural location.

All toll calls can be dialed directly, with operators called in only on collect, person to person, and other special calls.

All conversation timing will be discontinued. This will keep Muenster telephone service modern. And might well encourage new growth in the west part of Cooke County and southeastern Montague County.

Muenster Telephone Corporation is one of fifteen hundred independent telephone companies in the United States and is owned by Alvin M. Fuhrman and William J. Miller. The vast improvement project is made possible by a loan from the U. S. Department of Agriculture.

With the state of mind of today's youngsters, they might tell us to pay off the national debt ourselves.

**Julian Smith Is Guest Speaker at SH for Law Week**

Sacred Heart High School hosted an honored guest, Julian Smith, Gainesville attorney, as speaker to commemorate Law Week.

Theme of Law Week 1971 is "Channel Change Through Law and Reason."

Mr. Smith explained the theme which would change the riots and unlawful carrying-on actually enacted in court rooms.

Students were given a general idea of some of the roles law plays in daily lives. Laws in general extend from man-made laws of baseball or math to natural laws and God's laws . . . to criminal laws and civilian laws, Mr. Smith said. Not only during Law Week but throughout the year citizens must remember that laws are enacted to protect them and should be applied to daily living.

After his talk Mr. Smith passed out some pin-on buttons that stated the 1971 Law Week motto.

**Lavish Highway Department Book Presents "Texas, Land of Contrast"**

"Texas has never looked so good."

J. C. Dingwall, State Highway Engineer, thus summarized the highway department's comprehensive new Texas tourist publication.

Titled TEXAS, LAND OF CONTRAST, the book fills 200 pages with the scenic, historic and recreational pleasures of Texas. It offers concise details on what to see and do, and illustrates the whole with a lavish selection of color photographs.

"Here between two covers is the complete travel guide to Texas," Dingwall said. "With this book, our out-of-state visitors will find points of interest to occupy their time in every part of the state. And they can explore everywhere, because the book contains both detailed section maps, and a statewide fold-out map at the back."

The new book is a consolidation of many formerly separate pieces of highway department travel literature. Combining tourist information about 371 cities and towns in Texas, it also lists state parks and major lakes, facilities in Texas national forests, national recreation areas, Big Bend National Park, and Padre Island National Seashore.

Special sections of the new book include a complete campground guide of publicly operated facilities, sections on Texas rock and minerals, wild flowers, and birds. Basic hunting and fishing facts are told, along with information on major events, the Texas Travel Trails, highlights of Texas history and statistics, plus regulations on visits to Mexico.

Dingwall said, "We think this book will be the most effective tool ever produced for luring more new tourists, and stimulating travel throughout the state. By combining many separate booklets, folders and brochures we'll provide better service to all travelers, and in-

identally save ourselves considerable labor, handling and mailing costs."

He likened the book's wide range of interests to a Sears Roebuck catalogue. "This is really a wish book," Dingwall said. "Anybody opening this book, anywhere in the world, is going to wish they were vacationing in Texas."

The new book culminates more than a year of research and production by the highway department. Dingwall said it involved the cooperation of many state offices including the Texas Tourist Development Agency, Parks and Wildlife Department, and State Historical Survey Committee, plus local chambers of commerce and others.

The publication will be distributed at highway department tourist bureaus on the perimeter of the state, and by mail in response to out-of-state inquiries. Due to the great demand for Texas travel information, Dingwall said the book will be reserved for single copy distribution only. He cited more than a million annual visitors at tourist bureaus, plus the department's responsibility for handling some 275,000 mail inquiries, including coupons from the state's travel ads.

The new book measures eight by eleven inches. The cover, a travel scene from the past, is a Frederic Remington painting of an old stage coach. In its topics ranging from caves to mile-high mountains, the book cites nearly 4,000 items of tourist and travel information. Some 400 color photographs illustrate the text, which is supplemented by 10 detailed section maps.

In its initial production run of 200,000 the book required more than 5,000 pounds of ink and 10 railroad cars of paper weighing 186 tons. Running feet of paper through the press totaled 19 million feet, or nearly 3,600 miles.

acknowledged to have violated their own and the army's code of honor. On the other hand reds do not kill spontaneously so much as deliberately. At Hue they sought out black-listed persons day after day and tortured and killed them, burying many alive. Killing civilians is not an isolated tragedy to them. It is standard procedure, an accepted method of disposing of political oppon-

ents. A reflection on national attitude toward the Calley case reveals how America feels about such incidents. We are very much concerned, some claiming guilt and demanding punishment for a crime, the rest of us regretting the tragedy but insisting that it was a tragic blunder rather than a crime. The point is that all Americans feel ashamed. But communists have no

scruples about extensive systematic killings. That has been their method of expansion for a half century. They have killed millions of political enemies wherever they established themselves.

We ought to be proud of our furor over Calley. It shows we are concerned about killings — and definitely it proves that critics are far out of line in saying we're as bad as the enemy.
