

In this election the American Party is a voice in the wilderness. It's been saying a lot that makes sense but it isn't being heard.

Most of us can appreciate the position of the media. The American Party candidates don't have a chance, so why bother to give them time or space.

This seems like valid reasoning until we recall that lots of other things are getting attention in the news when they obviously have no bearing on the election outcome.

Well, the same can be said for the doings and sayings of the American Party candidates. Presidential candidate John Schmitz and his running mate Tom Anderson have raised issues that the American public needs to know about.

A few months ago we were pleased to note that George Wallace got adequate attention. He had become too prominent to be ignored, so the media gave the coverage that he personally merited.

There are other planks which make good sense to us. Schmitz thinks it's a mistake to help our sworn enemy with a truck factory and grain shipments. He shares with quite a number of other people the opinion that Communism is a monster sustained by ourselves.

Another statement by Schmitz deserves thought. He says that he's the only conservative in the race and the two front runners are only two varieties of liberals. It's hard for anyone to dispute his remarks.

We've seen him promoting trade with Russia and China, knowing very well that we're helping the system that's intent on destroying us, but doing nothing to stop the flood of drugs to us from Red China.

Such things add to the fact that Nixon doesn't deserve our votes, on November 7. But then we become aware that McGovern is even less deserving.

Left Turn Lane And No Parking OK'd on Highway

Elimination of parking on both sides of Highway 82 through town and providing left turn lanes at intersections are early possibilities here.

In response to a council request, the highway department sent a letter saying that a no parking zone on both sides of the road will be marked off at The Center.

Also approved was erection of ornamental trash cans in the city to be provided by Kent Distribution Co. of Arlington. Representatives of the company asked the city's approval for painted trash cans with the message "help keep our city clean" and an advertiser's message on the reverse side.

Other business was consideration of a request by Pat Hennigan for a change of building regulations in the fire zone a half block on either side of Main Street and the highway. The present ordinance requires masonry construction. Hennigan prefers a pre-fab metal building.

Plans Expanding For Garden Club's Show November 4

Members of the Muenster Garden Club are enlarging upon their plans for the flower show on Saturday, November 4 in the KC Hall.

Themed: "A Stroll through a French Market," the flower show will attempt to regain the standard rating for the local club. It will be the first show held for many years.

Members' entries must be in place before 10:00 a.m. to allow ample time for arranging. Visitors may see the arrangements and horticulture specimens from 3 to 9 p.m.

They may pause in the sidewalk cafe of cafe au lait and French doughnuts. And they can buy baked goods, jellies, holiday foods and hand made gifts in the sweet shop and boutique.

There will be a flower cart with member-donated plants for sale, also a display from the Garden Center and a door prize.

Mrs. H. H. Houtchens is flower show chairman. Members of her committee are Miss Sylvia Hofbauer, Mrs. Ernest Jaska, Miss Bettye Dodds, Mrs. Albert Stoffels, Mrs. Paul Endres, Mrs. Pat Stelzer, Mrs. R. N. Fette, Mrs. Steve Mosler and Mrs. Arthur Endres.

Members of the bazaar committee are Miss Sylvia Hofbauer, chairman, and Mrs. Harold Flusche, Mrs. Roger Taylor, Mrs. Clyde Walterscheid, Mrs. Bob Steele and Mrs. Gene Hoenig.

Muenster Mill's Truck Tractor Stolen and Found

The mysterious theft of a large diesel truck tractor at Muenster Milling Company Sunday night baffles the firm's personnel as well as the sheriff's department.

Arthur Felderhoff, owner, said it was seen by one of his drivers beside the road near Ringgold early Monday morning. It had about \$300 worth of damages apparently from backing into something, but otherwise was in good condition.

The truck was stolen from the lot across from the Mill. Its doors were locked and the ignition key was hidden in the cab. Up to Thursday morning officers have no solution to the case.

Gene Davenport Is New Employee At Electric Co-op

Bloyce Gene Davenport has been employed by Cooke County Electric Cooperative Association as a community and industrial development representative. He will assume his new position on November 1, 1972.

Mr. Davenport has been employed in chamber of commerce work for more than six years. Until recently, he was the executive vice president of the Victoria Chamber of Commerce and before that was manager of the Gainesville Chamber of Commerce for nearly six years.

Champ Yearling

Mr. Jimbow, a chestnut yearling American Saddlebred continued the 18 year winning tradition of the Charles Bartush Twin Pine Farms last week in the horse show of the Texas State Fair. It was rated the Champion Yearling of its breed. The horse was shown by Bebe Fields, local Twin Pine manager.

Next Tiger Foe Is Lake Worth B Here Saturday

Sacred Heart Tigers will be slightly favored Saturday night when they square off with the B string of Lake Worth High. The very respectable 4-1 record they have acquired to date gives them an edge over the average B team.

However Coach Bob Steele is worried just the same, expecting his boys to have all they can handle when this above average B team comes to town.

B. J. Swirczynski, Democratic precinct chairman, and four other Muensterites attended an all-day seminar for election judges given by Mary K. Wall of the Texas Legislative Council at the Texoma Planning Commission on Oct. 5.

Air Force Staff Sgt. and Mrs. Rex Simmons and small son Russell visited her parents Mr. and Mrs. Herman Stoffels and family five days on transfer time from Dover, N. H., to Clovis, N. M., where he has a new assignment.

Style and Talent Team for Nov. 7 Hospital Benefit

Members of Muenster Hospital Auxiliary are working in high gear for the style and variety show they will present November 7 as a benefit for their newest project, a recall system for Muenster Hospital.

Titled "You've Come a Long Way, Baby," the show will present a study of changes in fashions, music and entertainment from 1900 to the 1970s.

The Auxiliary plans to show authentic styles from the past but is still in need of some items. Donors are invited to contact Mrs. Roy Monday, 759-2848 or leave them at Modern Floors.

Talent includes singing, dancing, melodrama and comedy. Mrs. Monday is general chairman and organizer.

A recall system for the hospital, as explained by David Bright, administrator, is a sort of walkie-talkie, a radio transmitter in the hospital and select personnel equipped with a small receiving set.

Initial unit will involve local personnel. Extension of the system, perhaps at a later time, would alert police, highway patrol and other organizations.

Hornets Take 22-13 Upset at Newcastle

Muenster High's game at Newcastle was a pleasant surprise in more ways than one. First there was the very pleasing 22-13 upset of a highly rated Class B team and even more so the establishment of a rushing offense.

Coach Glenn Richardson said it was by far the best of the season. With Randy Wolf at quarterback the Hornets operated out of the wishbone formation and used the option very effectively.

Meanwhile they had to get along without the help of Jim Endres who was out on doctor's with a recurring knee injury. A big question now is whether he will have to quit or can stay on for limited service. In either case it will mean the Hornets will not have full benefit of his exceptionally fine passing.

The Bobcats were the first to score Friday night. About midway in the first quarter they set Muenster back on its 20 with a punt and picked off one of Wolf's few passes on the next series.

After that the Hornets hit their stride. Starting from their 25 and with Tom Hennigan, Tom Bright and Louis Koelzer operating the option with Wolf, they moved 37 yards to the Bobcat 38 before

Burglars Strike Electric Co-op

Burglars made a sensational haul at Cooke County Electric Cooperative Tuesday night, getting away with a pickup truck and a valuable load of other equipment.

Michael Sloan, manager, said Wednesday that the list is known to include 19 office machines — adding machines, typewriters and a duplicator — two 35 m.m. cameras, a 16 m.m. projector, and a new lawn mower.

Bishop Cassata Confirms 66 at Mass Here Sunday

Bishop John Cassata, Fort Worth Diocese, conducted confirmation services in Sacred Heart Church Sunday following his celebration of the 7 p.m. Mass.

Fifty-seven, sixth grade boys and girls from Sacred Heart School and CCD classes and nine adults were in the confirmation class.

Sister Lenore instructed student confirmands and planned the liturgy. Junior High Choir directed by Sister Yvonne furnished music. Pat Hennigan Jr. was organist and Chris Schilling, Monica Gehrig, Jean Ann Hartman, Mary Caplinger and Dena Swirczynski were guitarists.

Readers for Mass were Gregg Wilde, Jennie Haverkamp, Laurie Walterscheid, and Debbie Zimmerer. Prayers of the Faithful were read by Jessie Walterscheid, Lisa Trubenbach, Allan Bayer, Duane Knabe, Neil Rohmer, Carl Pagel and Burt Hesse, reciting the seven gifts of the Holy Spirit.

Fifteen students participated in the offertory procession: Dick Dangelmayr carried the Christ Candle; Tommy Dittfurth and Donald Grewing, tapers; Robin Walterscheid, Bible; Lisa Krahl, dove; Sherry Herr, red rose; Kevin Hess and Jeff Hess, tapers; Laurie Hermes, collection; Alexia Jaska, water and wine; Jan Lutkenhaus, paten; Melvin Fleitman, ciborium; David Felderhoff, chalice; Joe Bartush and Michael Stephens, tapers.

All those items apparently were loaded into a co-op pickup truck and hauled away. Also, probably to give a legitimate look on the highway, the thieves took a pair of regulation workers' helmets.

Sloan said the burglars got into the place by breaking a window at the east side of the warehouse. Once inside they had free access to the office and easy loading of their loot in a pickup.

The burglary was reported to the sheriff's office as soon as discovered but no clues had been turned up late in the day.

Loss to the co-op will be considerably less than the actual value, Sloan said. All of the co-op's equipment is insured.

Record Deposits Reported by Bank

Muenster State Bank joined other banks of the county in reporting all time record deposits. Responding to the state banking commission's call for report of condition as of October 10, the local bank reported total deposits of \$6,086,941, the highest ever shown here for the official quarterly figure.

This represents a gain of \$1,212,569 for the past year and \$817,373 for the past quarter.

Total loans reported were \$2,495,770, a gain of \$57,601 for the year but a drop of \$21,466 in the last quarter.

All banks of the county reported increases in both deposits and loans for the past year. Their combined deposits are \$47,763,074, a gain of \$8,107,683. Their combined loans are \$24,469,716, a gain of \$2,962,952.

Hornets, Bearcats Meet Friday in District Opener

What to expect when MHS Hornets open their 14-A season at Pilot Point Friday night is a big question. There are points that make the Bearcats look tough and others that favor the Hornets.

For instance, Muenster again has the disadvantage in weight, as it has had and will have for the rest of the season, and it also ranks second in speed. In experience the teams should be about equal, both having lost heavily by graduation last year.

Otherwise the nod ought to go Muenster's way. It's 3-2 record is more impressive than Pilot Point's 1-4. However, it should be remembered that Bearcat losses were to strong outfits like Celina, Princeton and Allen, whereas the 48-0 win was over the just beginning Pottsboro team.

Muenster too has lost to strong teams, Whitesboro and Lake Dallas, but also won over other good teams, Northwest and Newcastle.

The biggest encouragement to date for Coach Glenn Richardson was last week's win over last year's regional champ at Newcastle. They put up a good defense and their season's best rushing performance. It's what the Hornets needed to complement a sharp passing attack.

This comes just as ace passer Jim Endres is due to be out for much or all of the game with an old knee injury. Randy Wolf, replacing Endres last week, did a fine job in handling the rushing attack, but he's yet to get his test in the passing department.

Just the same Coach Richardson is confident. He has hopes that his Hornets will be effective in both rushing and passing and start the district race with their best performance to date.

Fortunately Endres is the only Hornet on the injured list. Otherwise the team is up to full strength.

Tigers Win 20-6 Over Callisburg

Sacred Heart Tigers took advantage of the breaks Friday night in beating Class A Callisburg 20-6. There were seven turnovers in the game, five of them favoring the parochial boys.

Three of those turnovers happened inside the 15 yard line: an interception on the 12 and lost fumbles on the 8 and the one. Along with all that the Wildcats had a punt blocked and missed on two field goal tries.

As it turned out, Sacred Heart won the game in the first two minutes. Starting on the 30 after opening kickoff they went 70 yards to their first touchdown in five plays. The big one was a fine run by Davey Krahl behind good blocking for 59 yards to pay dirt.

The hosts came back with a similar performance when Junior Jeffcoat got loose on a 67 yard sprint. However the try for extra points failed and the score was 8-6.

For the rest of the quarter the defenses had control. Both teams lost a fumble and Callisburg had a punt blocked by Danny Voth and Charlie Fleitman.

With only 34 to go the Tigers appeared to be on their way again but a major penalty stopped them on the 20. In the next two series both teams failed and Callisburg lost a fumble on the series that followed.

With 54 to go, Kevin Pels made 8 and Krahl took off on

School Asks for Help in Improving Attendance Report

Parents of Muenster Public School students were asked this week to arrange for doctor and dentist appointments on Saturday if possible but otherwise after 10 a.m. on school days, except in emergencies.

The reason is that the school administration wants the best possible attendance during the second period of each day when the daily attendance report is made out. Texas Education Agency requires that the attendance report be made at that time.

The report throughout the school year determines the school's average daily attendance, which in turn determines the number of teachers who will be paid in part by state funds.

his second long run. It went for 46. A try for bonus points failed. The Tigers led 14-6.

Near the end of the half the Wildcats put on their best drive going 36 in 4 plays including Hough's two runs for 30. But an interception two plays later shattered the opportunity. Hough's pass from the 23 was snared on the 1 by John Bartush just before the half ended.

Starting the second half Callisburg was hammering again. Runs by Jeffcoat and Hough made 14 and 21, and a pass gained 14 more to the 23.

Community Lumber Company Muenster

who waged war against the National Republican Convention, President Richard Nixon, the Convention delegates, and the people and property of Miami Beach August 21-24. The reporter who interviewed the young woman takes over:

Carole Skonik (not her real name) comes from a good family and good schools. Today she thinks of herself as being liberated from that goodness. . . . She talks blithely about (obscenity) twelve people, men and women, at a party once — stoned on acid. . . . She has been in Women's Lib — naturally — and so she had ended up in the women's encampment at Flamingo Park. . . . (In time) word began spreading around Flamingo Park that an attempt would be made "to bring the war home." Carole says that, through discussions at the campsite, the realization occurred to her that "I was in a state of war against the United States, and I was myself in a state of war, fighting with the Vietnamese against the United States. . . . Plans were developed to prevent — by any

means possible — the delegates from arriving at the convention hall. And to "trash" Miami Beach. ("Trash," in mob language, means tearing up.)

While Awaiting Action

While waiting for instructions on the "action," Carole was intimate with a number of "non-delegates" on the grounds at Flamingo Park, and spent a few hours on the floor in a cheap hotel room with a folk singer "who promised a hotel night manager that if he would let him have the room, he wouldn't mess up the bed or use the towels."

"By 11:30 Wednesday morning (Carole said) meetings were taking place and people were divided to affinity groups and somehow by 4:00 p.m. everyone was dressed in street fighting gear, in urban guerrilla clothing, with gas masks, with nails in their clothes to put under cars, with wire cutters, and with potatoes to put into the exhaust pipes of cars and busses. There were cans of spray paint handed out. Demonstrators received asbestos gloves. And we all wore heavy, long-sleeved and long-legged clothing. In other words all of us in the affinity groups knew that we were preparing for militant, armed struggle. I saw some of them moving concrete blocks into the streets and rocks as well as benches in the attempt to prevent the Republican National Convention from nominating President Nixon."

Hot Time In Town

It was a hot time in the town of Miami Beach last Wednesday night (the reporter continues). Temperatures were in the mid-eighties and globs of hot rain would fall on the demonstrators and the police throughout the night. At one point Carole and her friends surrounded a delegate-filled bus, sprayed paint on the windows and showered it with rocks. The group, dispersed by tear gas — their gas masks failed — headed toward the center of town, overturning trash cans and breaking store windows. . . .

Mostly when Carole thinks back to the night at Miami Beach, her face lights up and she smiles, and she depicts her adventures in the most romantic terms: "A lot of times we had to end up hiding on the beach, running on the beach. It was really a guerrilla situation, where we were constantly hiding, trying to avoid arrest. No one in my group was arrested until very late at night."

Training Experience

But was it effective? "Sure, like at May Day (the rioting in Washington in May) when all employees went to their jobs on time. "I don't think you can be truly effective, that you can win a military victory in Miami Beach when they have more policemen than we had demonstrators. If we had the 100,000 people come down there that we anticipated, maybe then we could have pulled that off a little better. . . . I think you have to look at this as a process rather than one event. A lot of people will learn from this experience, this training."

Carole Skonik spent a night in jail for her revolutionary assault activities Wednesday night in Miami Beach, then left town, heading for California. . . . She hitched a ride. (This is the end of our quotations from the interview.)

We saw probably a thousand and Carole Skoniks at Miami Beach. We saw another thousand — male revolutionaries. These people were being used, however, by coldblooded Communist agents seeking to tear America apart, weaken her and conquer her. It was, as Carole says, a training exer-

cise for bigger things. These people, with their long announced intentions, should never have been permitted to occupy Flamingo Park and launch, virtually without police challenge, a murderous assault on the Convention and the City. The arrests came, all right, but, as Carole Skonik said, very late.

When these people can rise above the law, it is very late for our Nation.

Specialist Frowns On Organic Eggs

"Organic eggs," as labeled on egg cartons, are twice as expensive and no more nutritious than regular eggs.

According to Dr. David B. Mellor, poultry marketing specialist with the Texas Agricultural Extension Service, the term "organic eggs" means the eggs are from chickens which have been supplied "natural" foods.

However, overwhelming evidence indicates that an egg is an egg. "That is to say, if a hen has a sufficient quantity of nutrients, she will form an egg and all eggs will have the same quantity and quality of nutrients," says Mellor. "Of course, this will vary with the size of the egg."

Egg flavor is greatly influenced by what the hen eats. If she has access to onion grass, field garlic or even cabbage, the eggs will be more highly flavored than most commercial eggs. Most consumers do not like these flavors or prefer to add the flavoring themselves, depending on the dish or food used. For this reason, commercial eggs are produced with no flavor added so that the bland natural flavor of the egg is not masked.

"Actually, all eggs are organic," points out the Texas A & M University specialist. "So, it doesn't make sense to pay a high price for those labeled 'organic.' In addition, regular eggs move faster and should be fresher than the specialized organic eggs. Regular eggs cost about half as much as the others."

Clean, sound-shelled, graded eggs maintained under refrigeration and purchased from a store where movement is rapid are still the best choice, contends Mellor. For those willing to pay a high price for organic eggs, they should recognize that the Texas Egg Law requires that eggs be graded, have a clean, sound shell, and be kept at a temperature under 60 degrees. They should also consider that there is no evidence to support the idea that organic eggs are more nutritious, notes the specialist.

Organic eggs are available in health food stores and in some supermarkets.

A motorist pulled up at a Texas motel which advertised FREE TV. "How much are your rooms?" he asked. "Eight and ten dollars," the desk clerk quoted. "What's the difference?" "The \$10 room has the free TV."

Who Votes In America

It seems that in the last few years people are increasingly interested in politics. Women, youths and minorities are swelling the voting ranks, while the un-employed, poor and uneducated become more politically conscious.

The political atmosphere is deceiving though. Despite tremendous get-out-the-vote efforts, fewer Americans are exercising this right.

Nothing proves this more than youth voting. In 1968, only one-third of the 18-20 year olds (allowed to vote in some states) went to the polls. In the 1970 Congressional races, a mere 26% voted.

Mature citizens vote much more regularly. In 1968, 75% of the 45-64 age group went to the polls. Slightly over half of the 21-24 bracket did. Even the over-65 group topped them (66%).

Rushing to conclusions is obviously a mistake. For example, men vote in higher percentages than women. The men led in 1968, 70% to 66%, and in 1970, 57% to 53%. Those earning over \$10,000 yearly vote in higher percentages than those making less, 80% to 65%.

Lack of education is another landmark of poor voting records. Over 80% of the people with more than high school education voted in 1968, the highest of any educational group. Only 72% of all high school graduates voted, and the figures decline from here.

Should someone argue that the unemployed, worried about job changes, go to the polls more frequently, he would be wrong. In 1968, 71% of the employed voted, but only 52% of the unemployed did. Those not even in the labor force (mostly homemakers) had a higher percentage, 63%.

Given the near-universal suffrage, it goes without saying that everyone ought to vote. Americans, however, are going to the polls less.

For the Congressional election years 1962, 1966 and 1970, voting percentages declined, from 47% to 46% to 44%.

Presidential elections have also seen smaller percentages of voters going to the polls. In 1960, 64% of those eligible cast their ballots. In 1964, 63%, and in 1968, 62%. Congressional elections likewise plummeted 1960, 60%; 1964, 59%; 1968, 57%.

Carping about being "alienated" and being ignored by the "power structure" is palaver when one looks at the facts. Groups, from youths to farmers, complain that no one cares what happens to them. But they themselves do not care (e.g., urban residents vote in higher percentages than rural ones). Until the fault-finders show some interest in the "system," it is not likely that the system will show the interest in them they think they deserve.

HDC Group Plans Coming Events and Hears Travel Talk

A full agenda of business and program occupied members of Muenster Home Demonstration Club at their October meeting Wednesday afternoon when Mr. Alois Rohmer was hostess in her home. Mrs. John H. Wimmer, president, presided.

Mrs. Rudy Hellman gave the county council report and suggested decorations the local club can provide for the golden anniversary gala of HDC in Cooke County on Oct. 24 at Whaley Methodist Church in Gainesville. In connection with the celebration six members volunteered to bake cookies for refreshments and five members volunteered to be in a skit for entertainment.

Members also discussed Christmas in November at which local women will be hostesses the second day from 2 to 5 p.m. in Community Center at Gainesville. Members having items to exhibit may leave them with Mrs. John Wieler who will get them displayed.

Mrs. Bert Martin of Valley View was guest speaker giving a travel talk and illustrating with slides a trip she and her husband took with a group of AARP — American Association of Retired People. They toured the Pacific Northwest. The club presented a gift of costume jewelry to Mrs. Earl Robison, president, in appreciation of her efforts.

Mrs. Bayer is the former Miss Adelaide Walterscheid. She married Johnny Bayer in Sacred Heart Church in Muenster on October 19, 1937.

They live on a farm northeast of the city and he and the sons, Dan, Leonard, Charles, Claude and Clinton are in business with him as J. H. Bayer & Sons, Inc.

He is active in soil conservation and is chairman of the board of supervisors of the Upper Elm-Red Conservation District. Mrs. Bayer devoted spare time to arts and crafts. Their home has a number of her ceramic pieces and paintings and she has given many to family members.

Mrs. Bayer was pinned with an orchid corsage as she arrived at the party, and the anniversary cake, made by Mrs. Charles Bayer was a conversation piece. A three-tier heart-shaped confection it was ornamented with five boy figurines representing the sons and eight tiny figurines for the grandchildren.

Another conversation starter was a family album of photos spanning years from the couple's baby days to their wedding. A wedding portrait was on the register table.

Attendants 35 years ago were her sister Olivia, Mrs. J. H. Wimmer, and his brother George Bayer. They were present among the group of some 30 guests.

Cousins Feted on Confirmation Day

Honors were shared at a family gathering Sunday night by cousins following confirmation services in Sacred Heart Church.

Confirmation honorees were Laurie Walterscheid, daughter of the Sylvan Waltersheids who were hosts in their home, and Jesse Walterscheid, son of the Julian Waltersheids.

A pretty buffet table with pick up foods held a confirmation cake topped with a white ornamental dove. The cake was served after the meal. Monica Hartman and Stacie Walterscheid served punch and coffee.

Guests were confirmation sponsors Miss Beverly Walterscheid for Laurie and Darrell Walterscheid for Jesse, grandparents Messrs. and Mmes. Adolph Walterscheid, Tony Felderhoff and George Gehrig, Julian Walterscheid family, Kathy Felderhoff of Gainesville, Christi Felderhoff and Monica Hartman. Also the hosts' other children Danny, Greg and Amy for a group of 24.

After giving what he considered a stirring, fact-filled campaign speech, the candidate looked out at his audience and confidently asked: "Now, are there any questions?"

"Yes," came a voice from the rear. "Who else is running?"

Mrs. Travis Whitt Grows Giant Okra

A five and a half pound okra pod? That's right. Mrs. Travis Whitt of the Bulcher area grows giant okra and proof of the crop was a load of it she brought to town Friday afternoon to show friends and give it to them.

Those seeing the huge pods thought they might be a type of muskmelon or perhaps gourds.

Mrs. Whitt explained it's a Japanese okra, a native of the Far East. It grows on tall climbing vines. It's smooth skinned and delicious fried, or prepared in any way ordinary okra is used in cooking.

The pods average from two pounds upward and some are larger than the five and a half pounder she was showing along with various other sizes.

Tiger Cubs Beat 24-14 by Era Kids
 A hot team of Era kids, which has been beating all comers to date, kept its record intact Tuesday night playing the Tiger Cubs of Sacred Heart. The score was 24-14 as the visitors led also in yardage and first downs.

Era scored on its first possession. The 64 yard drive included a 38 yard run and a 14 yard pass for the TD. Another pass added extra points. The rest of the half was about even with Era making 5 first downs and Sacred Heart 6. Also the Cubs made two interceptions and Era one. But action stepped up in the second half. Sacred Heart started at the kickoff and went 56 yards to its first TD. Big plays were 25 by Roger Haverkamp, 14 by Jim Koelzer and the touchdown by Robert Hartman on a 5 yard quarterback sneak. Then Era went all the way again. The drive went 72 yards on 14 plays, the pay-off being a pass for 10 yards. That was followed by a pass for 2 points. Early in the fourth the visitors did it again. They went 41 yards in 8 plays and went over from the 2 for the TD. Another run made it 24-6. The Cubs used the rest of the period for their final score. With 56 to go they started with a 13 yard pass, Joe Sickling to Jim Koelzer, and a 14 yard run by Roger Haverkamp. Six plays later Koelzer scored from the 3 and Haverkamp crashed over for extra points.

Mr. and Mrs. David Bright left Thursday to spend this weekend in Lexington, Va., with their son David at Virginia Military Institute for Parents Weekend. Mrs. Margaret Rasch who had planned to fly to Memphis, Tenn., following her visit here with relatives changed her mind and accompanied her niece and husband when she learned they would be going through Memphis.

A bookstore received this request: "Please send me the name of a book on hygiene. I'm afraid I have it."

Boys Club Starts Membership Drive
 First call for membership in the Muenster Boys Club was issued this week by Mike Stoffels, who already has a boxing tournament booked in Muenster on March 8-10.

All boys who want to be in the club this year are asked to report there Saturday at 9 o'clock. Stoffels will be there to sign them up and give whatever information they ask for.

He revealed a special tournament with the newly formed Altus, Okla., Club for the benefit of older but inexperienced boys. The tourney will enable beginners of both towns to get started with boys of similar inexperience. This year for the first time the boys will have a boxing ring in their club. Materials have been contributed for it by Muenster Machine Shop, Flusche Machine Shop and Community Lumber, and work has been started by Mike Stoffels, Denis Hofbauer, Phil Mullins, Chris Walterscheid, Ervin Walterscheid, Pat Fisher and the boys.

DPS Issues 7,000 Personal ID Cards

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, reported today that almost 7,000 Texans have obtained special personal identification cards since the DPS began issuing them September 1, 1971. The cards, which were authorized by the 62nd Texas Legislature, are laminated and contain a color photograph of the holder. They are the same size as a Texas drivers license. Information appearing on the cards includes the holder's date of birth, height, sex and eye color. Each card has a special identification number issued by DPS.

"These cards are especially valuable to those persons who do not hold a Texas drivers license, but who need some sort of official card to help establish their identity. Applicants have included the elderly, persons too young to obtain drivers licenses, and blind and handicapped persons. All Texans are eligible, however," Speir said.

In order to obtain a personal identification card, the applicant must appear at a DPS drivers license field office, execute a special application form, present a birth certificate or other documentary evidence of identity and date of birth, be finger-printed and pay a statutory fee of \$5.00.

The applicant's photograph will be taken and he or she will be issued a temporary receipt. The regular, laminated card will be processed and mailed from DPS Headquarters in Austin. Speir said identification cards are dated to expire four years from the applicant's next birthday.

THE INFORMED CONSUMER

By Crawford C. Martin
Attorney General of Texas

Nearly everyone has at sometime pondered the value difference between the three pound economy size of "whats-it" for \$1.08 and the 3 1/2 ounce Jumbo size of the same product that sells for 61c. To add to the confusion even more you may find a 20 ounce regular size box available for 43c. Most people can figure out the size that offers the best cost per ounce value, but it takes time.

The unit pricing system aids in solving this type of problem for consumers. Unit pricing is a subject which has

Growing Gulf Station

been written and talked about a lot. Several state legislatures have introduced unit pricing laws. New York City supermarkets are now required to comply with unit pricing regulations. Some Texas stores have adopted unit pricing systems. But many consumers still ask "what is it?"

Unit pricing is simply a plan in which the price of the merchandise is shown on the package in two ways. The total price of the item is shown, but in addition there is a price per unit shown. For example: If a one pound package of shelled pecans sells for \$1.60, this price would be shown on the package. Additionally the unit price of 10c per ounce would be shown on the package. If a ten ounce package of pecans sold for \$1.10 the package would show the total price of \$1.10 and it would also disclose the unit price of 11c an ounce. You could see at a glance that the pecans in the one pound package cost one cent less per ounce than the pecans in the ten ounce package. The unit pricing information gives shoppers a chance to quickly and easily compare the relative unit cost of different size packages.

Of course the price per unit does not take quantity needs into account. If you need only ten ounces of pecans and the other six ounces would spoil before you could use them, the smaller size would be the proper one for you to purchase even though it costs more per ounce. Neither does unit pricing consider brand or quality differences. Assume that a box of Brand X contains 12 ounces of a product at a unit price of 3.5c per ounce and a box of Brand B contains 14 ounces of a like product at a unit price of 3.8c per ounce. If your family likes the taste of Brand B better you might still prefer to buy that product in spite of its higher unit price.

But if you simply want to get the most economical price, unit pricing makes your task much easier. You aren't faced with a series of mathematical problems everytime you enter the supermarket.

Over the years, the public has generally come to accept the fact that the larger size packages are more economical. This is usually true but not always. Often the smaller or medium size container is actually the cheapest buy per unit volume.

The informed consumer will compare prices before buying, even if the store she is shopping does not unit price its goods.

To the voters of Cooke County

I believe that the voice of the common man in the less populated county has too long been ignored in Austin. The results are obvious. . . . No ethics bill, hamstrung law enforcement, spiraling taxes.

I have set about to correct this by organizing a caucus of freshmen legislative candidates to collectively gain a stronger voice. This type of initiative is necessary for us to get the attention of those in power in Austin. If elected I will make your voice heard. I need your support for Representative.

Fire of undetermined origin Tuesday damaged extensively the home of Mr. and Mrs. Curley Fuhrmann north of Lindsay. Three units from Gainesville Fire Department answered the call at 7:24 a.m. The garage, car, den and furniture items were destroyed, kitchen cabinets were charred, windows shattered from heat and other rooms damaged from smoke and water.

Mr. and Mrs. Ronald Green and two daughters have moved to Denton. He commutes to his job here as science teacher in Lindsay High School.

Dan Bezner Wins Again in PP&K

Danny Bezner, 8, son of the Weldon Bezners of Lindsay, advanced another step in the Punt Pass and Kick area competition in Dallas last Saturday. Taking first place with a score of 163.5 he qualified for the next elimination, which will be held at half time of the Dallas-Detroit game in Texas Stadium on Monday night, October 30.

Also that evening Danny and his parents and Mr. and Mrs. Urban Endres will be guests of the Cowboys and Ford Motor Co. for dinner and the football game.

At this time Danny is the survivor from over 3000 contestants of his age group. The six winners at Dallas Saturday were survivors of some 21,000 originally signed up by some 200 Ford dealers in Oklahoma and North Texas.

Following the Oct. 30 contest there will be two more steps in the competition . . . at San Francisco on Dec. 12, and finally the Pro-Bowl game in Dallas in January.

School Finance Facts Revealed At PTA Meeting

Members of the Parent-Teachers Association of Muenster Public School received a briefing Monday night on the school's financial problems. Urban Endres, president of the school board told them that the rising costs of education are getting ahead of the available funds.

He said that state funds under the Texas Education Agency program, based on average daily attendance, provide the school with 16 teachers. But in keeping with the board's policy of providing the best possible education, the local faculty has 22, the additional 6 being provided by the district.

Because of that the school is in a financial strain now and, if the pressure continues it will need more revenue. Unless the help comes from the state, a local tax increase may be needed.

Ernest Jaska, president, conducted the meeting and extended the organization's thanks to all who have been helpful lately. He praised all workers and providers of the concession stand, also Urban Endres and Muenster Electric for light fixtures and installation at the flagpole, and the quarterback club for painting fence and entrance to the football field.

The membership authorized a donation of \$500 to help the quarterback club pay for a gym set and \$500 to buy a new movie projector for the school. In a former meeting it had given \$500 to the band and \$160 for playground equipment. The PTA raises most of its funds operating the concession stand at football games. Starting the year with about \$1500 it has given \$1680 and has a present balance of \$400.

Other fund raising projects in the plans are a domino tournament and a St. Patrick's Day Dance.

about 65 before running out of steam and losing possession on a fourth down try on the 16. Then the Bobcats did likewise, going to the 5 before they lost the ball.

Early in the fourth quarter the Hornets started working on their final score. Tom Hennigan was the strong runner in a drive that went 50 yards to 30 and then finished it in one romp. The drive upped Hennigan's gains for the game to over 100. Bright followed over for bonus points.

The hosts put together a final quickie drive for 55 yards in a minute and a half. The big gainers were a screen pass for 37, a run for 12 and the touchdown play for 3.

handouts resulting in even greater deficits. He's for quitting in Vietnam and leave the country to a certain blood bath by vindictive reds.

The whole thing in a nutshell is that the country will have to turn to Nixon as the lesser of two evils. Understandably Schmitz, with no big political help behind him, hasn't a chance to get the job. But it shouldn't be necessary also to scrap the good ideas that Schmitz is offering. The media misses a chance to serve the country when it declines to record the constructive ideas Schmitz is presenting.

Tigers - - -

Then Bartush came up with another interception, this time at the 8.

After a series by the Tigers, Callisburg started again from 42 away. Two first downs got to the 15, three more plays netted zero and the Wildcats tried for a field goal. It was short.

Again, early in the final period, they moved the ball but could not finish the job. From the Tiger 33 they gained to the 10, failed on three plays, and missed another field goal.

That seemed to shatter the Wildcat spirit. As the Tigers took over on the 20 they found little trouble in going all the way. Ten plays with the help of a major penalty did the job. Krahl scored from the 22 and the try for extra points failed.

Promptly after the next kickoff the Tigers got in busi-

ness again on a pass interception by Melvin Luke on the Wildcat 33. Six plays gained to the 10 but a fumble on the 5 on the next play spoiled the chance for another TD.

Still making yardage but not points the Wildcats used their final few minutes going from the 5 to mid field before time ran out.
