

A proposed federal law that seems to be arousing the ire of lots of people is the Land Use Planning Act which has already slipped through the Senate and is encountering growing opposition in the House.

This measure, like so many others, seems to be based on the assumption that government knows best, so it's a good idea to protect us from our follies, or our neighbors' follies, by getting federal approval before proceeding with any kind of change involving the land. Whether removing something from the land or adding something to it, someone may speculate as to whether the change will be acceptable later to the general public. Hence the owner is to be restrained from doing what suits him until one or more bureaucrats make the decision for him.

Of course, the property owner's interest is supposed to be of little importance. Even though the official delay or an adverse decision is costly to him, he has to accept the outcome without any compensation. If he agrees in purpose he still has no say regarding method. Suppose he wants to beautify an area, the official plan, not his, will determine how it's done.

The most obvious fact about this brainstrom, is that the traditional concept of private ownership of property is outraged. A person may hold a title but not the right to use land as he wishes. To make matters worse he sustains whatever financial losses may follow the official interference.

Next we come to the offensive and totally ridiculous assumption that Washington knows best. People who own the property are regarded as so many nit-wits, or even as selfish slob who are hostile to the public welfare. For one reason or the other they are not fit to continue their aged-old responsibility and have to give way to a disinterested and unconcerned character who can make the decision then move on and let others live with it.

Quite often in recent years we have heard it said that public apathy is the cause of so much federal regulation. People don't move fast enough to overcome this or that fault, so the federal government does it for them. It sounds like a plausible reason at first thought — until one wonders whether the public, or cities or states, have been given reasonable time to work out the solutions. Some of the regulations they have concocted in Washington make a person wonder how much thought was given to them.

One big problem is that the nation has gone on a consumerism binge. The consumer has become a sacred cow, whose welfare must be protected at all costs from everyone, including himself. At the same time, it seems, he's assumed to have about the intelligence of a cow. Not able to think for himself, he's been adopted by self appointed dogooders who find more and more ways to take care of him.

The Ralph Nader complex is getting to be a thorn in the nation's side. He and his kind constantly nag the lawmakers to legislate more controls and then follow up with bureaucratic regulations that make the controls even more oppressive — and bureaucrats who exercise their authority a lot more than their judgment.

The end result of all this solicitude for consumers is a dictatorship of bureaucrats. They are people who got their jobs more by political appointment than by qualification, and often are not familiar with the conditions they try to control, nor the hardship they are imposing on the country.

We refer to extremes in safety features demanded by OSHA, the unfounded fears of allowing nuclear power development, the ecological objections for delaying construction of the Alaska pipeline, the fuel consuming anti-pollution devices on automobiles. There are other cases by the dozens in which progress or personal freedom are being sabotaged by ill informed but automatic bureaucrats carrying out their own version of consumer concern which lawmakers set up at the prodding

The newest addition to the Muenster Public Library is a brushed oil portrait of the late Mrs. Bettie Luke, who was librarian there for ten years. The portrait is an enlargement of a picture taken for the parish directory five years ago. It was finished and framed by Mr. and Mrs. Matt Mathews of Mathews Photography. They are shown here presenting it to the library.

Richardson Quits Coaching to Enter Sporting Goods Business

Members of the athletic teams of Muenster High School received disappointing news last week in a report that Coach Glenn Richardson will not be working with them next year. He resigned last Thursday to become the owner-operator of a sporting goods store in Ardmore, Okla.

Promptly thereafter Superintendent L. B. Brunns announced the vacancy on the MHS faculty and asked for applications to the head coaching position as well as the assistant coach job vacated earlier by Wayne Klement, who has joined the faculty of the State School at Gainesville. Up to now no application has been received for either vacancy.

Richardson leaves here after two tours of duty with the Hornets for a total of ten years. After two years he was absent for two and now has completed eight consecutive years.

Farmers Invited To Short Course On Irrigation

Persons interested in irrigation have an opportunity to attend a short course on the subject next Thursday, June 20, at 1:30 p.m. in the Cooke County Electric Co-op building.

Sponsored by Cooke and Montague county agents and the Electric Co-op, the program will feature talks by Wayne Keese, agricultural engineer of A&M Extension Service, and Bob Reeder, research horticulturist of the Montague demonstration station.

Keese will discuss needs and quality of water, economics of irrigation and new concepts in irrigation methods. Reeder will discuss the results of irrigation on peach production.

Representatives of commercial companies will be there with displays of equipment that is available for home orchard and garden use.

Imagination is what makes you think you're having a wonderful time when you're only spending money.

A Prayer for Flag Day

O God our Father, we express our gratitude to Thee for all that our Star-Spangled Banner symbolizes.

For the drumbats of history held mute in her folds, we thank Thee, Lord.

For the roll call of heroes who have marched with loyalty and courage under her colors down the hallowed corridors of American history, from Valley Forge to Omaha Beach, from Bull Run to Iwo Jima, from the forests of Germany to the rice paddies of Korea and the prison camps of Vietnam, we thank Thee, Lord.

For the ideals and hopes enshrined in her star-studded field, we thank Thee, Lord.

Where we are wrong, correct us; where we are weak, strengthen us; where we are corrupt, purify us; where we are divided, reconcile us; and where we are right, confirm us.

And grant, O most merciful Father, that in our day and generation, we may achieve something worthy to be remembered, that when we pass the flag on to our children, they will receive it with pride, and we will be able to rest from our labors secure in the knowledge that we have built constructively if not completely, and served faithfully if not perfectly. And to You be the glory and the praise.

— From the 1973 Flag Day prayer in the House of Representatives by Rep. William H. Hudnut III of Indiana.

Rain Measure Here Is Small

Up to Wednesday morning the moisture condition at Muenster continues to be discouraging. While bountiful rains were falling in various parts of North Texas during the past week, this area has had only .75 inch, and the preceding week had only .67. Total for the month to date now stands at 1.42.

Rainfall of the past week measured .46 on the 7th and .29 on the 9th.

The year's measure at this time is 9.79 inches, which is far below average. Normally the total is more than 15 inches at the end of June.

Here is the community's ten year rainfall record up to now.

Boy Scouts Plan For Summer Camp

Muenster Boy Scouts at their meeting Monday night started planning for their annual summer camp to be held at Camp Sid Richardson on Lake Bridgeport during the week of June 23 to 29. They will leave together from the KC hall at 12:30 on Sunday and will return home the following Saturday.

Each of the boys Monday night received a blank form for physical examination, which is the first requirement for attending the camps. Boys who want to go will have to get the form filled out and signed, then bring it with them when they report for departure to the camp.

Camp Sid Richardson, the locale of last year's outing, has a special feature. Boys do all of their cooking instead of having hired personnel to prepare and serve the meals. Troops take turns at the job, drawing supplies for each meal from the commissary. Surprisingly, the boys loved it.

Also at the Monday meeting the Scouts planned to participate in the July 4 picnic sponsored by St. Joseph Club in the city park. It's a deal in which their treasury will get all funds earned at their concession, which is a dunking pool.

Father Francis Zimmerer, O.S.B., of St. John Baptist Church, Edgar, Wis., was here Tuesday visiting with old friends. He is spending a week of his vacation with his aged father, I. A. Zimmerer.

Drill Team Meeting
Sacred Heart Drill Team members and their mothers are asked to attend a meeting on Monday, June 17, at 7:30 p.m. to decide on a uniform pattern. Meeting is to be held in the Sacred Heart High School Library.

County to Collect Tax for Muenster School District

Effective this year the Cooke County tax office will be tax collector for the Muenster Independent School District.

The school board in its meeting last Thursday night approved a motion authorizing Board President Urban Endres and other members to make the necessary arrangements with the county commissioners and the county tax collector. That is to be done soon in order to allow sufficient time to program for computer billing.

Reason for the change is economy. Board members decided that the cost of stationery postage and labor add to more than the 2 per cent col-

Brothers Finish Hiking Adventure

Joe and Tom Bright returned home Tuesday night footsore and tired from their hiking adventure across Oklahoma.

Leaving here at noon on Sunday, June 2, they walked all the way except a cab ride through Oklahoma City and a 30 mile emergency hitch-hike. That ride led to a two-day job helping a man build a house, a welcome change of activity. They reached Arkansas City, Kansas, late Monday and came home by bus Tuesday.

They slept out at night and prepared meals from rations in their back packs. Distance was about 260 miles.

Letters to the Editor

Dear Editor,

I also agree with the two letters published in the Enterprise last week. Both have very good food for thought, and in regard to the streets to the park, they should be paved, why open up more streets when we don't keep up with what we have?

There is also another hazard on our streets around the ball park on the nights of the base ball games with these children darting in and out in front of cars, somebody's child is going to get hurt or killed. Parents be prepared for a call, it could be your child

While on the subject of baseball, there are some very good games, it's a shame more parents don't turn out to watch their sons and give them a hand.

Also a nice big hand for the coaches and umps with their work with these boys.

Only wish some of you sponsors would jar loose and get new suits for those boys, those that got new ones this year look so nice, it makes the older suits look and fit terrible.

Thanks for allowing me space in your paper.

They are parents of six children. Four attended the celebration: Mrs. Andy (Rose Mary) Stelzer and Mrs. Bob (Betty) Reiter of Post, Mrs. Sonny (Adeline) Reino of Newark, N. J., and Nick Dieter of Gainesville. Unable to attend, sending greetings were Harold Dieter of Koshknong, Mo., and Mrs. Sammy (Mildred) Harrison of La Mesa, Calif.

John Schumacher
Receives College Scholarship

A Cooke County 4-H youth has received a \$4,000 scholarship sponsored by the Houston Livestock Show and Rodeo and awarded through the Texas 4-H Youth Development Foundation.

He is John Leroy Schumacher of Route 2, Gainesville, son of Mr. and Mrs. Richard Schumacher.

The scholarship was one of 10 presented during the opening assembly of the State 4-H Roundup June 4 at Texas A&M University. Presentations were by Tommie Vaughn and Dick Weekley, president and general manager, respectively, of the Houston Livestock Show and Rodeo.

The four-year scholarship will enable the 4-H'er to pursue a course of study in some field of agriculture at any college or university in Texas. He will receive \$1,000 a year for each of the four years he is in college.

Schumacher is a graduate of Gainesville High School and plans to attend West Texas State University to study animal science.

During his nine years in 4-H he had projects in beef cattle, swine, laying hens, leadership, home improvement, photography and field crops.

Schumacher has served as chairman of the Cooke County 4-H Council for three years and has been a leader at seven district 4-H leadership labs. As a junior leader, he has trained range and pasture grass judging teams.

The Cooke County 4-H Gold Star boy has attended the Texas 4-H Congress and the Texas 4-H Range Camp. He received the Texas Farm Bureau Leadership Award and was on the second place grass judging team at 4-H Roundup in 1972.

In high school Schumacher was active in football and track, Future Teachers of America, Future Farmers of America and the Key Club.

"I'll carry this case to the highest court in the land," said the lawyer to the prisoner, "but in the meantime, you'd better try to escape."

Horns See Hawaii
On Vacation Trip

Mr. and Mrs. Joe Horn's vacation trip this year took them off the mainland to see Hawaii for the first time. Mr. and Mrs. Jake Horn of Windthorst traveled with them.

They spent seven days and six nights touring the Islands of Oahu, Maui, Hilo, and Hawaii, visited with Alfred Walter in Honolulu and took sight-seeing tours.

Their tours included Pearl Harbor, the Punch Bowl where hundreds of soldiers are buried in a volcano crater, another volcano that was still smoking from eruption on June 1 and an orchid nursery.

The two couples left DFW Airport on May 31 after stopping with the Joe Horns' daughter Diane and family the Jay Winslows and he saw them off on a 747. On return June 7 Mr. and Mrs. Winslow and daughters Jackie and Jeannie were at the airport to welcome them back.

If farmers decided to save energy by abandoning their tractors, it would take 27 million horses and mules to replace them, according to Sperry New Holland Division of Sperry Rand Corp.

Salvation Army
Welcomes Discards
For Rehabilitation

Spend a portion of the free time summer affords helping others, suggests the Salvation Army.

Useless furniture, appliances, clothing and even waste paper collected around the home and yard this summer will enable homeless and handicapped men to help themselves through the rehabilitation program at the Salvation Army's Men's Social Service Center, 2901 N. E. 28th Street in Fort Worth.

"Men are given the opportunity to learn a trade through repair of such goods," explains Captain Richard McConnel, center director. "Thus the continued success of this workshop program depends on maintaining a supply of discarded items donated to us by concerned citizens."

For the convenience of citizens who wish to make contributions to the program, the Salvation Army provides a free pickup service.

After being repaired and cleaned, the discards are placed in Salvation Army Thrift Stores throughout Fort Worth. Sale proceeds from the items are used to support the

service center, which receives no state or federal funds. All contributions are tax deductible.

the Salvation Army truck June 20. Residents who have items to donate should call 759-4311 the day before the truck is scheduled to make its rounds.

"Where does my 'Electric Bill Dollar' go?"

When you pay your Texas Power & Light electric service bill, we hope you think of the many comforts, conveniences and pleasures electricity helps make possible.

But, we're frequently asked—and maybe you've been wondering—"Where does my 'electric bill dollar' go?"

Let's take a look at the 1973 dollar.

Out of every dollar received from every customer last year, 21¢ was used to pay for the fuels needed to generate electric power . . . natural gas, coal and oil.

In 1973, the expenses of running generating plants, keeping plants, lines, trucks and other facilities and equipment in good operating condition, paying the salaries of employees, etc., required 20¢ of each "electric bill dollar".

Another 20¢ of each dollar was needed for federal, state and local taxes. In many of the cities and towns it serves, TP&L is the largest single taxpayer.

Funds to pay interest on the Company's indebtedness and for dividends on preferred and common stock accounted for an additional 22¢ of the 1973 "electric bill dollar".

The remaining 17¢ of the dollar, representing funds set aside for depreciation costs and stockholder earnings not paid out in dividends, was used by the Company for construction of new generating plants, lines and other facilities.

Just as you must budget your income and make adjustments because of rising costs and changing conditions, so must Texas Power & Light. We're tightening our belts . . . looking for ways to produce and supply electricity more efficiently and more economically, while continuing to provide the dependable service you expect for your "electric bill dollar".

Ronald F. Mosman And Bride Make Home in Lindsay

Mr. and Mrs. Ronald Frank Mosman are at home in Lindsay following a wedding trip to South Texas. They were married June 1 in St. Mary's Church at Gainesville. The bride is the former Miss Donna Fae Wardell.

Parents of the couple are Mr. and Mrs. Edward B. Wardell of Gainesville and Mr. and Mrs. Leo Mosman, Star Route. The groom's grandparents are Mrs. Will Sicking and Mr. and Mrs. Pete Mosman.

Father James Gillespie read the double ring ceremony.

The bride wore a gown of point d' spirit and Venice lace with Victorian neckline, long sleeves and a wide hemline flounce that formed a chapel train. Her veil, held by a Juliet Cap fell to Cathedral length. Her flowers were a cascade of pink carnations, orchid star flowers, stephanotis and white orchids.

For sentiment she wore a necklace that had been worn by the groom's great-grandmother on her wedding day in 1889 and later by his grand-

mother when she married in 1913. She was given in marriage by her father.

Matron of honor was Mrs. Calvin Dugger and bridesmaids were Mrs. Michael Schmitz and Mrs. Richard Lemons, bride's cousins. Their gowns were in pastel shades of pink, blue and orchid, the dotted sheer over taffeta. They wore picture hats with matching ribbon and carried cascades of carnations and fugi mums.

Gerald Mosman was his brother's best man. David Wardell of Irving and Jim Mosman, brothers of the couple, were groomsmen. Richard Lemons of Irving, cousin of the bride, Mike Howe and Alvin Knabe were ushers.

Miss Patsy Spaeth, organist, accompanied Gary Anglin, vocalist.

After the ceremony the bride presented a floral tribute on the Blessed Virgin's altar.

Wedding reception was held in Fellowship Hall of Whaley United Methodist Church.

The groom attended school at Lindsay and graduated from Gainesville High. He is employed at Schad and Pulte.

The bride is a graduate of Gainesville High and attends Cooke County College.

Rehearsal dinner was hosted by the bride's grandmothers, Mrs. Vernie Keel and Mrs. C. B. Wardell at the Peacock Steak House.

Forestburg News

By Myrt Denham

FORESTBURG — Mrs. Vera Mae McGee, of the burg, accompanied Mr. and Mrs. Bud Griffin (she is a daughter) to San Antonio on Saturday, June 1, where they attended funeral services for Ervin Engle of that city. The late Mr. Engle was Mrs. McGee's brother-in-law and uncle to the Griffins and also to Ross Littell.

Little Mrs. Mollie Howell sent me word that she has had a number of visitors recently. Those calling on Mollie were Mr. and Mrs. J. C. Volkman of Bowie and friends of theirs from California, Mr. and Mrs. McDonald and Mrs. Jean Williams of Decatur, Mrs. T. J. Hickerson of Slidell, Mrs. Nell Gilliland, Mrs. Frances Brewer, Mrs. Bertha Covington and one of her sons and his family all of the burg.

The Dewey Homecoming Sunday, June 2, was a big success. There were 105 people who signed the registration book — and probably some there who didn't sign it. A lot of credit must be given to Myrtle McMillion — she really worked to make it a success. The tables were laden with all sorts of delicious foods and the fellowship among all there was heart warming to behold and listen to. Even the weatherman cooperated with us this year as the day was beautiful. We do hope everyone will return the first Sunday in June of 1975.

Mrs. Joe Denham, Bowie, attended the Homecoming — she is a big booster of this event. She stayed over till Monday p.m. to visit with her son and yours truly.

Mrs. Wynona Riddles had herself a much needed rest and over-due vacation in Lawton, Okla., visiting her sister, Mrs. Wanda Magee and other kin. Wynona left June 2 and returned home June 9. Now as the old saying goes — it is back to the salt mines for Wynona.

Our graduating 1974 high school Seniors got away for their Senior trip Monday, June 3. They were headed for Pensacola, Florida, and other points of interest in the Sunshine State. Mrs. Doe Moseley and L. W. Boyd, Jr., accompanied them as their sponsors. My better-half said when he graduated they got to go to

Bowie to take in a movie. Some changes have occurred.

One of the nicest and best ladies to ever grow up and live in this area was laid to rest in the Perryman Cemetery June 3. She was Mrs. Eliza Baker Willis, mother of J. T. Willis and Mrs. Kenneth (Charlene) Woods and the wife of the late Claud A. Willis. She passed away June 1 in the Muenster Hospital. Mrs. Willis was a very fine Christian woman and she put her Christian faith to work in her every day living. Liza was always kind cheerful, thoughtful and considerate of her fellowman. I knew Liza many years and she was one of the best friends I ever had in this area. She was a good wife, mother, neighbor and friend. I do not say this now that she has left us but said it many times while she was alive. If we all practiced and put to actual deeds our Christian beliefs the way Liza did this would certainly be a better world to live in.

Loveta and Clifton Bewely dug their potatoes pulled up their onions and then on June 3 headed for a few days vacation and sightseeing in Arkansas. Their main destination was Eureka Springs, where they attended the Passion Play. They also visited other points of interest — spending two nights in Arkansas and one in Scena, Missouri. Then they headed home on June 6. Seems the weather had gotten really stormy and rained so much they departed sooner than planned. Upon arriving home they discovered someone had helped themselves to about two bushels of spuds and several bunches of onions. Loveta says they took the biggest onions of the crop — but she really hopes they enjoy them if they needed them that badly. Loveta and Clifton are certainly mighty fine folks — so my husband says and I've learned his opinion of folks is usually right. He says they always stamp all their mail and sure do keep up their mailbox and finds them most congenial and considerate.

Marion and Howard Sockwell's granddaughter, Cathey Cathey Kenas and a friend of hers, Brenda Jackson, both of Argyle, spent several days last week vacationing with them. Cathey's older sister Jackie brought them up June 3 and Marion took them home June 7. The Sockwells found that suddenly their home was mighty large and empty when these two active girls were gone.

Mr. and Mrs. A. G. Barclay attended funeral services in the Carnegie, Okla., Church of Christ June 4 for Kendra Joyce Kuykendall. Kendra was the two year nine month old daughter of Mr. and Mrs. Kenneth Kuykendall. She died at her home June 2.

Mr. and Mrs. Dick Ellzey of DeQuincey, La., spent Tuesday night with Dick's mother, Mrs. Decie Ellzey. Then on Wednesday Dick and Helen went to Bowie to spend the night with Helen's parents, Ti and Odus Cook. Thursday

morning they headed for Flagstaff, Arizona, where they will both attend the University of Arizona this summer. Dick is working on his Masters Degree. Accompanying the Dick Ellzeys as far as the burg was their niece, Karen Ellzey, of Lake Charles, La., who came to spend some time with her Grandmother Decie.

Those attending the weekly 42 party in the home of Tom English Thursday were Meb and Roxie Dunn, Veda and Barney Brogdon, Velma Freeman, Grace Scott, Frances Brewer and Decie and Karen Ellzey.

Mrs. Bennett Reynolds made it back to Dewey June 9. She arrived at DFW Airport via Delta Airlines at 3:30 p.m. She was met by husband Bennett and W. T. Reynolds of the burg and Allen Roller of Grapevine. Betty had been visiting relatives and friends in California.

Guests of Vera Mae McGee June 9 were the Gordon Hills and two sons of Bowie. Vera Mae's niece Mrs. Wanda Perryman, was also a guest. Wanda was accompanied by her niece, Shellie Perryman.

Ruth Smith over Freemound way had company for dinner Sunday. Miss Vickie Daniel and Miss Peggy Phillips of Gainesville and Rev. Charles

Walters of Denison enjoyed a meal and the day with Ruth. Rev. Walters is the new minister of the Rosston, Era and Spring Creek United Methodist Church. He and his wife reside in Denison but will spend the weekends in the parsonage at Era. Ruth says Rev. Walters is retired so presume he maintains a home in Denison.

When Frank Rauschuber moved to town a few years ago it was winter and got dark early. Someone told him that town people usually went to bed after watching the news and weather on TV so Frank started going to bed after the six o'clock news. He still wonders why he is the first one up every morning. His dog does not like being woke up so early so he barks a few times.

Around seven the high pitched whistling noise is Arthur Felderhoff's crew at the Muenster Mill starting up the machinery thereby letting him know everything is OK. The John Deere pickup you hear at 7:15 to 7:20 is Harold Flusche trying to get to his store by 7 a.m.

This fall and winter after the leaves are off the trees you can sit on your patio and admire antiques. Those plumbing fixtures are from the toilets of the old public school and are being saved for the future Muenster Museum. You can show them to your grandchildren and say "Grandpa stood at that trough."

Charlie Hellman has been working religiously in his front yard to get ahead so when you work in your yard, he can sit on his porch with a can of beer and offer you advice.

When you are sent to town for something don't stop at the KC Club on the way down. Some men do that and before they realize it the stores are closed and they go home empty handed. It's OK to stop on the way home even just to say hello to Frank, Al, Herman or Joe.

Should you experience any difficulty at home like for staying in church too long, or spending too much time visiting a sick friend just call one of your neighbors. Use the password "pleh" (that's help spelled backwards). We'll immediately plan a stag weekend, a hunting or fishing trip. Women still wonder how men can enjoy those trips but it usually clears the air.

Now I realize that within a rocks throw of my place are six houses whose occupants call Joe Trachta, Uncle Joe. To offset this unbalance I'm going to start calling Arthur and Evelyn Felderhoff cousins and Frank and Mildred Rauschuber Uncle and Aunt.

If the Lord had meant us to be on our toes all the time, He wouldn't have given us so much to sit down with.

Hellman Home Is Lost Saturday in Tulsa Tornado

Mr. and Mrs. Gus Hellman lost their home and household possessions in a tornado that ripped through Tulsa, Okla., Saturday night. There were no personal injuries.

Mrs. Hellman had gone to a grocery store and missed the destruction.

Seconds before the storm hit at 7:30 Mr. Hellman and two small children had taken refuge in a clothes closet. It was the only thing not damaged when the roof was blown from the house and debris was scattered throughout. The closet door was partially obstructed. And it took Hellman some time to free himself and the children.

None had received even a scratch. He is the son of Mr. and Mrs. P. W. Hellman of Bristow, Okla., and grandson of Mr. and Mrs. J. M. Weinzapfel.

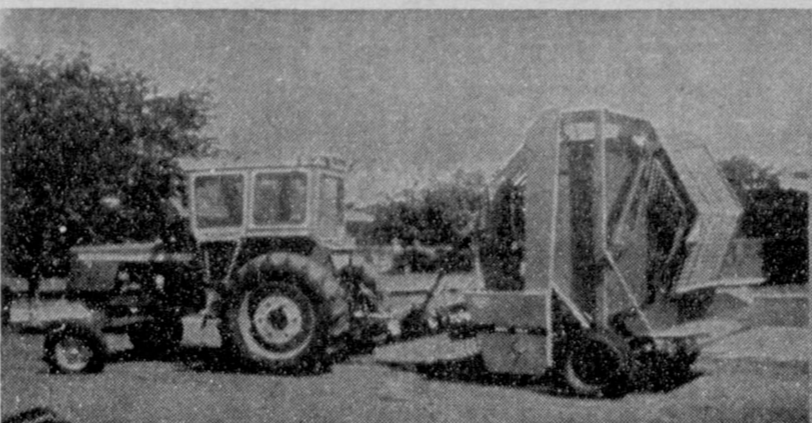

Muenster relatives learned about the tornado damage in a telephone call from Mrs. P. W. Hellman to her parents. They had planned to attend a family gathering in Muenster Sunday but changed those plans to help the young couple re-locate.

This unit of equipment, which makes the big round hay bale, will demonstrate one of the modern methods of harvesting hay at the field day next Wednesday on the Cooke County College farm.

Hay Harvesting Field Day Will Feature Stacks and Big Bales

At least two ways to beat the shortage of baling wire in hay harvesting will be demonstrated next Wednesday, June 19 at 1:30 p.m. at a field day on the Cooke County College experimental farm east of Gainesville.

The event, sponsored jointly by County Agent Neil Tibbets and Tommy Davidson of the CCC ag department, will show two types of modern hay equipment, one making the big round bales of about 1,500 pounds and the other making stacks of about 6,000 pounds.

Forage used in the demonstration will be Kleingrass, Lovegrass and Coastal Bermuda. Equipment will be shown by three implement dealers.

For the benefit of persons who have not been to the demonstration site, the sponsors say to "follow Highway 82 to an exit 5 miles east of I-35. Turn right there and follow the markers about 2.2 miles to the CCC farm."

A bonus benefit of attending is a tour of the college's beef cattle evaluation center, which is in operation now.
