### THEY DON'T KNOW COMMUNISM!

One of the great dangers ahead for our country lies in the fact that younger generations, who have already begun to influence political and governmental decisions, know virtually nothing of the true nature of world Communism. Fifteen years ago the person who is 30-years-old today was only 15. I think it is fair to say that 15 is about the age that some youngsters begin to have curiosity about contrasting political and ideological philosophies in the world in which we live. They begin to be aware of government. Before 15, the average youngster usually is unaware of what's happening in the world.

This is the base of my contention that persons under 30 today are not in a position to judge the big twin powers of World Communism — Soviet Russia and Red China. Yet they have become a force in politics. Fifteen years ago, when the 30-year-olds of today were 15, Fidel Castro took over Cuba. Fidel was pictured in much of the American press as "the George Washington of Cuba." When Castro himself revealed two years later, that he had been a Communist since his college student days, the 15-year-old American youngsters couldn't possibly have understood the significance of this revelation. Today Cuba is a Russian fortress.

### Remember Hungary?

That same year, Soviet Premier Khrushchev came to America, all smiles; and the image we saw on TV and elsewhere gave the 15-year-olds no reason not to like him. The 30-year-olds of today were only 12 when the citizens of Hungary rose in rebellion against the brutal yoke of Communist tyranny. For several days, the Hungarians overcame the Communists and held the government. Then Nikita Khrushchev ordered the terrible might of Soviet armor into Hungary. Through deceit, Soviet diplomats captured leaders of the freedom rebellion.

Drove of Soviet tanks and bombers ravished Budapest, killing thousands; Russian military might conquered the rebellion. The leaders were shot. Thousands of innocent people were slaughtered, tens of thousands torn from their homes, placed in cattle cars and carried to the unspeakable atrocities that the Soviets always hold in store for those who challenge their rule. Most wound up in the living death of slave labor camps.

### "We Accuse"

The New York Times, which to say the least had never been an anti-Communist newspaper, said in an historic editorial: "We accuse the Soviet Union of murder. We accuse it of the foulest treachery and basest deceit known to man. We accuse it of having committed so monstrous a crime against the Hungarian people yesterday that its infamy can never be forgiven or forgotten. Gone now are the last illusions. Moscow now stands self-exposed. . . . Can we have any doubts now of what awaits us if we ever relax our vigilance and permit ourselves to become prey to Soviet might as was Hungary yesterday?"

But the 12-year-olds of America didn't read that 1955 editorial, and I'm afraid the adults who read it promptly forgot it. Just exactly four years before our 30-year-olds of today were born — 1939 — Adolf Hitler and the mass murderer of the Kremlin, Joseph Stalin, signed a non-aggression pact. It was a notorious deal between butchers of the human race. It permitted Hitler to unleash a blood-bath across Poland and begin World War II. Our 30-year-olds of today weren't born until nine years later. They did not experience what followed.

### Katyn Forest Killings

A bare glimpse of what followed is supplied by the documented evidence from the Katyn Forest in Eastern Poland. The Communist killers rounded up the cream of Poland's eastern armies, the officer corp. Ten thousand Polish

## Garbage Service Starts January 21

After extensive study and planning, the city garbage and trash service will be started on January 21 — on a trial basis. The city council, in regular session Monday night, decided to deliver bundles or garbage bags next Monday and Tuesday and start the pick-up service a week later.

And, the service will be free through the remainder of this month. The council's feeling is that problems are likely to come up while the system is getting organized, so it will not expect people to pay before the service is up to the desired standard. The charge for service will begin in February and will be included in the March billing for water and sewer.

Bag deliveries will be in bundles of 52, a six months supply based on the use of two bags per week. However more bags will be available, without charge, to customers whose requirements are greater. And still more are available, at a small charge, to customers who want them.

## Police Officer Quotes from New Texas Penal Code

The following sections of the New Texas Penal Code are quoted by Police Chief McDonald for the information of Muenster people.

Under Chapter 22, Section 22.01, a person commits an Assaultive Offense if he (she):

1. Intentionally, knowingly or recklessly causes bodily injury to another person; or,
2. Intentionally or knowingly threatens another person with imminent bodily injury; or,
3. Intentionally or knowingly causes physical contact with another, when he (she) knows or should reasonably believe that the other will regard the contact as offensive or provocative.

An offense under the above section is a Class A Misdemeanor unless the offense is committed under sub-section 2 or 3, in which event it is a Class C Misdemeanor.

NOTE: Misdemeanors are classified as follows.

Class A misdemeanor is subject to a fine not to exceed \$2000 or jail not to exceed a year, or both jail and fine.

Class B misdemeanor is subject to a fine not to exceed \$1000, a jail sentence not to exceed 180 days, or both jail and fine.

Class C misdemeanor is subject to a fine not to exceed \$200.

Under Chapter 22, Section 22.02, a person commits an Aggravated Assault if he (she) commits assault as defined in Section 22.01 and he (she):

1. Causes serious bodily injury to another; or,
2. Causes bodily injury to Any Peace Officer in the lawful discharge of official duty when the offender knows or has been informed the person assaulted is a Peace Officer, or
3. Uses a deadly weapon against another.

The actor (offender) presumed to have known the person assaulted was a Peace Officer if he was wearing a distinctive uniform indicating his employment as a Peace Officer.

An offense under the above section is a felony of the third degree. NOTE: Felonies are classified as follows.

1. Capital felony, subject to life imprisonment or death.

2. First degree felony, subject to confinement in prison for 99 years or not less than 5 years.

3. Second degree felony, subject to confinement in prison for not more than 20 years or not less than 2 years or a fine of \$10,000.

4. Third degree felony is subject to confinement of not more than ten years or less than two years in addition to a fine not to exceed \$15,000.00.

The next article will cover Title 5, Chapter 19, Section 19.05, concerning involuntary manslaughter by an intoxicated person operating a motor vehicle — known as D.W.I.

Miss Sonja Swirczynski spent part of the holidays in New Orleans with friends.

Routes of pick-up have been mapped but no effort was made to work out a schedule. Truck operators will gradually establish their schedule, after which the patrons can take note of their regular pick-up time.

Bags will be picked up from the curb in front of the customer's house. Contents will be cans, bottles, plastic containers, table scraps, waste paper, lawn and shrub trimmings — anything to be disposed of. Residents are reminded that nothing is to be held back for burning. A purpose of the service is to eliminate smoke pollution.

While bags are being filled they can be stood on the floor or held in racks. With a wide base the bags alone will be satisfactory, however they can be handled more conveniently in the holder, which can be attached to a garage or carport wall or mounted on a special stand.

Muenster Boy Scouts have acquired a number of the stands and holders and will make the rounds soon for benefit of people who want to buy them. Meanwhile one of the assemblies can be seen on display in the city hall.

The garbage will be hauled to the Roy Tate farm north of town and dumped in a ravine. Pick-up men are Wayne Tate and Werner Yosten, who will also help with other city work.

In other business the council voted to improve traffic control on West Sixth, scene of a recent collision. Sixth from Main to the hospital remains a through street and intersections now will have Stop signs instead of yield signs.

## Record Deposits Reported by Bank

The highest deposits and loans ever reported by Muenster State Bank were announced last Friday in response to the State Banking Commission's quarterly call for a statement of condition.

Deposits as of the close of business on December 31 were \$7,519,095.42, a gain of \$1,321,038.98 during the past year. And loans were \$2,981,257.39, a gain of \$520,113.65 for the year.

The increases here reflect those of the county as a whole. Each of the four Cooke County banks showed gains in both deposits and loans for the year. Their combined deposits were \$58,012,157.24, up \$7,751,687.89 since the year end of '72. And combined loans were \$29,474,504.13, up \$4,574,541.25 during the year.

Continued growth of area business and inflation are given as reasons for the record bank business.

Mrs. Herr and a companion died of asphyxiation in a car near Thackerville, Okla. She was an employee at Weber Aircraft.

An auxiliary deputy of the Love County Sheriff's office spotted the car at 8:25 a.m. parked at the south end of old Highway 77, with the motor running. Two doctors called to the scene pronounced death by accidental asphyxiation. Authorities determined the motor had been running for some time permitting the deadly fumes to penetrate the interior of the car.

Rosary services were held in the Miller Chapel at 4 and at 8 p.m. Sunday.

## Now It's Official Speed Limit Is 55

With President Nixon's signature on the nationwide 55 miles per hour speed limit law, Texas has no choice but to follow suit.

The State Highway Commission, under a new law passed in special session last month giving it authority to establish new speed limits to meet emergencies, scheduled a January 8 public hearing.

Result of the hearing was clear in advance: the limit will be lowered to 55 mph — probably enforceable by late January or early February.

The alternative: losing some \$240 million a year in federal highway assistance.

## Rosston Store Has New Owner

Rosston saw the end of an era on Jan. 1, 1974, and the beginning of a new one when George Perry sold the Rosston General Store to Johnny Muller. The store was built by the Raney family in 1879 and has been in continuous operation since that time. George Perry purchased the store from Joe Stone in Nov. 1943. As the only business in Rosston, it has been the center of community activity for many years. It serves as a gathering place, a visiting center and an "information bureau" for everything from local gossip to a lost and found center for hunting dogs. The pot-bellied stove never seems to have a vacant chair around it.

The community will miss George and his cheerful greetings when they walk in to the store and they wish Johnny Muller all success as he continues with the tradition.

## Muenster Teams Split Two Games With Sanger High

Muenster and Sanger basketball teams broke even in a pair of games last Friday night on the MHS court. Muenster girls took the first one 47-33 and the boys lost theirs 82-61.

Sandy Dittfurth scored high for the Hornets with 22. Debbie Schneider added 11, Becky Fields 8 and Tracy Klement 6.

In the next game the Indians came out with an amazing display of sharpshooting hitting well over 60 per cent of their field goal shots. They led 24-13 at the first quarter and 48-24 at the half. The rate of gain slowed down slightly in the third period with the visitors leading 65-36. Finally, after Sanger's substitutions in the last period Muenster gained to the final count of 82-61. Ronnie Felderhoff scored 16 for the Hornets, Robert Johnson 12, Randy Wolf 11, Tim Felderhoff 8, Curtis Klement 6, Lyle Klement 6, Terry Walterscheid 2.

## Let's Stop Forced Busing

While we are looking ahead to ways of improving things during the coming year of 1974, a good, long hard look should be taken at the practice of forced busing of school children according to the color of their skins.

Some members of Congress have suggested that now, in view of the serious energy crisis and gasoline shortage, would be a good time to discontinue forced busing. However, most Americans would probably agree that if school busing increased academic ability, or brought about better race relations, or showed some other positive results, the program would be worth

the extra gasoline and dollars.

The rub is: according to a recent study published by the Indiana Law Review by Professor Jeffery Leech, forced school busing has, in fact, brought about the direct opposite of the goals set forth by the Federal bureaucracy.

The report, based upon a detailed investigation of school busing in ten major U.S. cities, shows that "In every city studied, busing failed to reduce the gap between black and white achievement. In fact, most cities reported that the achievement gap has grown even larger after busing."

Professor Leech further reports that the study revealed that "in no city did busing appear to increase interracial contact or better understanding." Indeed, it was shown that the busing programs have proven to be "psychologically harmful rather than beneficial."

The study concluded: "In light of the tremendous social, political and economic costs being paid for busing, the absence of any consistent educational gains, the deleterious psychological impact of busing upon black children, and the increasing polarization of the races . . . a reexamination is long overdue."

Doing something for a good cause, even at great expense and inconvenience, is a good American habit. However, when it is shown that the expense and inconvenience has failed to produce the desired results, the continuation of the program is utter foolishness.

Other and better ways need to be found to increase the educational opportunities and achievements of all school children. And, in the meantime, those thousands of buses now serving no good purpose can be better used to provide additional public transportation in our large cities, thus saving gasoline being used for private automobiles.

According to the American Bankers Association, the average U.S. wage earner must work 24 minutes to earn money for a pound of sirloin steak. The average Russian works 132 minutes and the average Japanese 269 minutes for this amount of steak. Compare the percent of income the average consumer spends for groceries: U.S. — 16.3, European — 62, and African, 70. Although the cost of food in the U.S. has gone up recently and the average spent for groceries has increased, it hasn't reached 70 percent.

## True Control of Crime

Since antigun advocates insist that every firearm is inherently evil and must therefore be under government control, maybe we should go one step further and begin the methodical tracking down and registering of every knife, ice pick, hammer, rock and rope — in short, every object that has been used to kill and could logically be used to kill again.

That suggestion is no more ridiculous than the idea that crime can be stopped by wrenching guns from the hands of law-abiding citizens. To follow the teachings of the antigun proponents, we would have to pretend history lies when it shows that criminals have always been able to obtain guns illegally, and we would also have to ignore the fact that possession of a firearm has saved many innocent lives. The antigun philosophy finally boils down to the belief that "Big Brother knows best," and therefore we citizens are asked to cheerfully submit to government regulations, turning our backs on our heritage of freedom, including the right to own firearms for the defense of our homes and businesses and for sport.

The true control of crime will come not in the form of restrictive antigun legislation, but in forceful, no-nonsense laws which punish the criminal — not his weapon.

## Medieval By Comparison

East Germany is said to have the highest living standard of the Communist world. However, a traveling editor for U.S. News & World Report has described just what this really means. He says, "Of 6 million homes in East Germany, only 2.5 million have private toilets, fewer than 600,000 have central heating." About 40 percent of East German homes have no private baths, and a million have no running water. The traveling editor discovered, "New construction is largely central-city showmanship. . . . New housing is a rarity. There is no evidence anyone has used a paintbrush in 25 years."

These findings will come as a shock to Americans, who live in a land where even a vacation trailer without a perfume-scented chemical toilet is considered medieval. The disparity between the so-called American way of life and the way of life in most other countries, whether our detractors

like it or not, is testimonial to the success of the great experiment in free enterprise and representative government launched by our founding fathers less than two centuries ago.

— Industrial News Review

When one finds shoddy merchandise or mediocre service in the marketplace today he is inclined to long for "the good old days" when men were proud of their craftsmanship. But wait. Before he makes comparisons of today's quality with the way it used to be he ought to remember the textiles which shrank, the tires which blew out after low mileage, plastics which were brittle and foods which had to be prepared from scratch in the home. Automobiles weren't recalled in the good old days because if defects were found they were considered the responsibility of the buyer, not the manufacturer. Time dims the memory of unpleasant things but it is quite likely there was just as much good-and-bad for sale in earlier years as there is now.

## A Moral to Remember

It is predicted by authorities in government, who should know, that by 1984 postal rates will be two or three times what they are now. Service may well be even worse. Everyone who reads or writes is well aware of the deplorable state of U.S. mail service. The only purpose in mentioning it is that it provides a good moral for people to remember when they hear politicians make speeches advocating

more government in business, in medicine, in housing or any other endeavor. Government has its place, and it should be kept in that place along with the public servants hired by the taxpayers to run it.

Their seven children are Mrs. Kitty McLaughlin of Cotulla, Mrs. Harry Thompson and Mrs. Eruce Yantis of San Antonio, Mrs. Tommy Moore of Mt. Prospect, Ill., Mrs. Verne Bell of Carrizo Springs, Robert English of Houston and Mrs. R. A. Busby of Dallas.

There are 18 grandchildren and five great-grandchildren.

### Miss Walterscheid Becomes Bride of William Bartush

Mr. and Mrs. William Stephen Bartush are at home in Stillwater, Okla., since returning from their honeymoon. She is the former Miss Darlene Ann Walterscheid. They were married Dec. 29 in Sacred Heart Church.

Parents of the couple are Mr. and Mrs. Charles F. Bartush and Mr. and Mrs. Denis G. Walterscheid.

Father John Coury of Wisconsin, cousin of the groom, celebrated the 1 a.m. Nuptial Mass and Father Placidus Eckart, pastor, presided for the exchange of vows in a double ring ceremony.

Miss Mary Lou Kralicke provided organ music. Numbers included "If," "Joy," and "One Hand, One Heart."

Given in marriage by her father, the bride wore an Empire gown of ivory organza with lace florettes accenting the high scalloped neck and waist, and edging the long fitted sleeves and the hem-line of the skirt. Alencon lace appliques enhanced the bodice, skirt and detachable chapel train.

Her veil, extending slightly beyond the train fell from a lace Juliet Cap ornamented with pearls. She carried a bouquet of red roses, stephanotis and holly.

Adding sentiment, she wore a wedding band that belonged to her great-great-grandfather

Bruns, and in she shoe had a penny dated the year the couple met.

The bride presented a long-stemmed red rose to her mother and to the groom's mother and placed a long-stemmed red rose at the Blessed Virgin's altar after Mass.

Miss Denise Walterscheid, twin sister of the bride, was maid of honor. Another sister Miss Debbie Walterscheid and the groom's sister Miss Ann Bartush were bridesmaids. Miss Jeanine Dunham of Hurst, cousin of the bride, was flower girl.

Their gowns featured bodices and sleeves of dark green velvet and skirts of blue and green plaid taffeta. They wore Camelot caps of the same green velvet with pearl trim and carried nosegays of red roses and holly.

Chuck Bartush of San Antonio was his brother's best man, another brother John Bartush and Fred Fuhrmann were groomsmen.

Ushers were Joe Bartush, a brother, and Don Rice of Era. Phil and Ted Walterscheid and Paul Bartush, brothers of the couple, and Jessie Walterscheid and Danny Walterscheid, bride's cousins, were Mass servers.

Men in the wedding party wore grey Windsor coats with striped trousers and striped ascot.

Wedding reception was held in the KC Hall where Misses Cindy Bartush, sister of the groom and Beverly Walterscheid, bride's cousin, regis-

tered guests at a table that held the bride's portrait and a unique bouquet of handkerchiefs, gift from the groom's mother.

## N. Texans Like New Hesperian Service

North Texas residents have responded enthusiastically to the new monthly interest income plan introduced by Hesperian Savings in Gainesville. According to Ed Wright, president, Hesperian will now pay interest monthly to holders of Certificates of Deposit of \$10,000 or more. Equally important is the fact that this interest will be mailed to the depositor's home or office.

"We have found that the ability to receive a monthly income check is a very important new service for many folks who have savings certificates with us," Wright said, "and many others have been in our offices inquiring about the details."

Hesperian's monthly interest income plan is like a second income and, of course, is an ideal plan for people who need a regular monthly income. The interest checks are automatically mailed every month as a convenience to depositors who have signed up for the plan. This eliminates the necessity of having to go to Hesperian's office to receive earned interest payments. "For many of our folks, particularly those who live out of town, this means considerable savings of time and gasoline," Wright added.

Further details on this new service can be acquired by visiting Hesperian's office or by calling them at 665-3485.

**Weekend Visitor**  
Father Nicholas Fuhrmann visited over the weekend with parents and other relatives in Muenster and Lindsay. He had been in Denison during the holidays assisting with parish work after driving the Subiaco Academy school bus delivering students of the area to their homes for the holiday recess. He said Mass Saturday evening at Hillcrest Manor Nursing Home where his father Willie Fuhrmann is a resident and visited family members until Monday morning when he started back to Arkansas with the students. Nickie Stoffels was one of them. He spent the holiday recess with his mother Mrs. Meinrad Stoffels.

## Baptism Service Held for Infant

Leah Ann Walterscheid, infant daughter of Mr. and Mrs. Robert Walterscheid of Wichita Falls, was baptized here in Sacred Heart Church Saturday in a 5 p.m. service.

Father Nicholas Fuhrmann of Subiaco, Ark., who officiated at the wedding of Robert Walterscheid and Debbie Schilling was back in Muenster to baptize their first child.

Mr. and Mrs. Otto Walterscheid were godparents for their first grandchild. Others attending included the maternal grandmother Mrs. Frank Schilling.

A christening dinner followed in the Schilling home. The young parents and their daughter returned to Wichita Falls afterward.

## S. H. Kress to Quit In Gainesville

S. H. Kress and Co. will close out its Gainesville store in the near future, it was learned this week.

Kress reportedly is closing many of its downtown stores because of a decline in business.

The Ardmore Kress store is now conducting a closing out sale and a similar sale is scheduled for the Gainesville store, one of Gainesville's oldest retail establishments.

## Curriculum for Nursing Students At CCJC Approved

Mrs. Rebecca McClelland, director of nursing education at Cooke County Junior College, announced that the new curriculum for nursing students was approved by the Board of Nurse Examiners for the State of Texas at the December meeting.

Students enrolling in nursing will begin in June of each year and will graduate in May two years later. This will permit nursing students to graduate at the same time other students graduate and will make it possible for them to take the state board examinations in July following graduation.

Besides changing the date of enrollment, considerable changes are being made in the organization and sequence of nursing courses as well as methods of teaching nursing. The nursing care of persons of all ages will be considered in all nursing courses. Nursing techniques, communication skills, mental health concepts, and adjustment to illness and hospitalization are considered throughout the curriculum.

Individualized instruction will be used. Each student will have a weekly conference with his/her instructor in which learning experiences for the week are planned. Such learning experiences may include small group discussions, practice in the classroom laboratory, practice in a clinical setting such as a hospital or nursing home, use of audio-visual materials, and reading references.

In order to implement this curriculum, a larger classroom laboratory is being provided. Practice areas will include six beds, a medicine room, and other work spaces. Videotape will be used to assist students in the classroom practice of nursing skills. For example, a student could be videotaped while preparing an injection and immediately replay the video tape to see himself performing the procedure.

A variety of clinical facilities will be utilized in the practice of nursing. These include Gainesville Memorial Hospital, Muenster Memorial Hospital, Flow Memorial Hospital, Wichita State Hospital, Denton State School, public health departments, day nurseries, doctors' offices, and nursing homes. Arrangements are being made with additional agencies at this time. Each student will have the opportunity to give nursing care in the smaller hospital and nursing home as well as in the larger hospital.

This program is open to both men and women. Requirements for admission include graduation from high school or a satisfactory GED score, a satisfactory score on the ACT test, and good health. Applicants who do not meet these requirements may enroll in courses at Cooke County Junior College to make up deficiencies. There are no age limits nor restrictions regarding marriage, children, etc.

Persons who are interested in applying should contact the Nursing Department for applicants to take the ACT test and have a personal interview with one of the nursing faculty members. The next class is to begin in June of 1974. Arrangements can be made to enroll on a part-time basis.

## Mrs. Herr Returns After Being Away 4 Months

Mrs. John Herr's long stay away from home was cut short as she flew in from Denver, Colo., at attend the funeral of her daughter-in-law, Mrs. Richard Herr.

She left Muenster last Sept. 3 to attend the funeral of an infant granddaughter in Junction City, Kansas, and remained there with her daughter and son-in-law, S.Sgt. and Mrs. Tony Marr until Nov. 28 when Mrs. Marr recovered from surgery.

Her next visit was with her sister, Sister Regina Koelzer, in Roosevelt, Utah. She had been in Denver less than 24 hours to visit another sister when she received word of death in the family and flew home Sunday.

### Forestburg News

By Myrt Denham  
FORESTBURG — News may be a little on the lean side this week around the Burg. Seems no one had much news to report — guess this happens to all of us at times. The cold weather seems to have limited activities somewhat. Know we sure stayed close to our fireplace when-

ever possible.

Cleo Lanier did have a New Year's party in her home but due to the real cold weather there was a small turnout. Those who did go reported having a marvelous time. Folks always do have a good time at one of Cleo's parties. Guests New Year's eve were the Bennett Reynolds, the Howard Sockwells, Juanita Bailey, Decie Ellzey and Lenora Moore.

Every New Year's eve I wonder what friend husband and I will be doing the next year on that day and eve — the Good Lord willing we make it. This past eve we visited the mother-in-law (mine) in Bowie. Later we all visited Mollie Howell and Roe Sledge in the Bowie Hospital. At this writing both Mollie and Roe are still in the hospital. Mollie says the doctor told her she could leave the hospital when the weather warmed up some. At the rate this cold weather keeps coming in she will be over there for some time. Roe will be over there for awhile yet. Another patient over there is Lester W. Boyd, Sr.

of the Dewey area. He was admitted Friday afternoon, January 4.

Little Vida Curry of the Christ Haven Home at Keller was a guest in the home of the Gerald Laniers and Eugene Laniers for the Christmas and New Year's holidays. She returned home New Year's day. The local Church of Christ's sponsors Little Vida and from time to time she is a guest in the home of some of the members.

Visiting Mrs. Elizabeth Bridwell New Year's day were her son and his wife — the Harlan Bridwells of Bridgeport and her daughter, Mrs. Dorothy Isley of Fort Worth.

A late Christmas dinner and get-together was held Sunday, Dec. 29 in the home of Mrs. Ada Jackson. Ada's children all had their Christmas in their own homes so they were a little late getting together with Ada in her home. Present were the Enos Steens, the W. E. Jacksons, the Tommy Swans, and the Roger Jacksons and family all of Fort Worth, the Warren Jacksons and children of Wichita Falls, the Joe Jacksons of Nocona, the Ted Jacksons, the Jack C. Dills and LeeAnn Hays of the Burg. They had a marvelous time. Ada is now back at the Yes-Ter-Yer Rest Home in Saint Jo.

Talked to Laura Jackson late Sunday evening. She reported that she and Ted had visited their son Billy Ray and family in Decatur Saturday, Dec. 29. Then on Saturday, Jan. 5, Laura Belle and Ted, along with Maurine Griggs of Rosston attended a practice session for the Eastern Star School of Instruction for district one. This practice session was held in the Masonic Temple in Gainesville. Laura Belle is Worthy Matron and Ted Worthy Patron of the Greenwood Chapter of the Eastern Star. Mrs. Griggs is the Associate Matron.

Bet Bessie Greenwood is having a great time these days. Visiting Bessie are Mr. and Mrs. Jack Poteet of Newport Beach, California. Mrs. Poteet is the former Lorine Greenwood — Bessie's daughter. Jack and Lorine will return home about January 15.

Mr. and Mrs. Jim Lemoine of Santa Barbara, California, were visitors in the Burg and Bowie from Dec. 29 to Jan. 3. In the Burg they visited Mrs. Decie Ellzey, the John Moores, the Jerry Orrells, and the H. (Continued on Page 8)

## 14 energy-conserving ideas from a home economist!

Mrs. Jo Ann Thompson, Home Service Director of Texas Power & Light Company

#### HEATING

1. Have a qualified serviceman check your electric heating system annually.
2. If you have a forced-air heating system, replace or clean filters frequently.
3. Set thermostat at 68 degrees during the day, slightly lower at night. If you will be away for a day, a weekend or longer, set thermostat at 55-60 degrees.
4. Keep furniture and draperies clear of air outlets and returns.
5. Open outside doors as little as possible. Keep doors and windows properly weatherstripped.
6. If you have a fireplace, keep damper closed when not in use.

#### KITCHEN & LAUNDRY

1. Defrost refrigerator regularly and replace worn door gaskets.
2. Don't overload refrigerator.
3. When cooking on range, use flat-bottomed utensils which fit surface units. Cover utensils when possible.
4. Allow frozen meats to thaw before cooking. Cook meats and vegetables together, or in separate utensils at the same time in oven.
5. Operate dishwasher, clothes washer and dryer only when fully loaded.
6. Conserve hot water by washing clothes in cold water with cold-water detergents.

#### OTHER

1. Turn off any inside or outside lighting not actually needed.
2. Turn off television, radio, iron, etc. when you leave them.

Nationwide, there is concern about the energy crisis.

In many sections of the country, people are experiencing, firsthand, the effects of shortages of energy-producing fuels: gasoline, oil and natural gas.

Texas Power & Light Company produces electric energy with generating plants which use natural gas or coal as fuel, with some oil-burning capability.

TP&L has the generating plants, the transmission and distribution lines and all the other facilities necessary to produce and supply all the electric energy its customers need. And, just as we have done for more than 60 years, we're building the facilities necessary to meet anticipated future needs.

*But, we must have the fuels to produce the electric energy.*

As TP&L customers use more electric energy, TP&L generating plants must use more fuel to produce the energy. Thus, wasteful use of electric energy automatically means wasteful use of one or more of the basic sources of energy.

*Conserve electricity and you help conserve fuel. Conserve fuel and you help assure that there will be enough to produce electricity for essential needs.*

#### TEXAS POWER & LIGHT'S HELPING, TOO

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting.

D. Cooks over close to Hardy. In Bowie they visited with the Odus Cooks and the Claude Beavers. Mrs. Lemoine is the former Shelia Ellzey, daughter of Dick and Helen (Cook) Ellzey of Lake Charles, La. Her grandparents are the Odus Cooks of Bowie and Decie Ellzey of the Burg. H. D. Cook is her uncle.

Other out-of-state visitors in the Dewey area were Mr. and Mrs. W. A. Mitchell of Florence, Alabama. They were guests in the home of Jim and Nema Barnett. I am told the Mitchells are Nema's relatives but haven't learned just how they are hooked up.

Mr. and Mrs. Truman Greenwood and children of Pilot Point were visitors of the Ving Greenwoods on Jan. 31. Wyonna tells me Truman's wife teaches school in Pilot Point and Truman is a postal employee in Denton.

One of our more distinguished citizens, Buford Huddleston, received a real honor the other day. He received a Happy Birthday card on his 48th birthday anniversary (Dec. 31). He said this was the first birthday card he had ever received in his whole life — and it arrived a day late. Most of you know Buford, if you don't you should, especially if you are in the cattle business. He is the one who gets that 12 cents per cow that appears on your cattle ticket. He gets that for inspecting the brand if it has one — if it doesn't have one, he gets the 12 cents anyway. He says he sure gets a lot of mean looks from the cow men — and not many happy birthday cards.

Betty Reynolds celebrated her 39th-plus birthday on Jan. 2. She said Bennett had promised to take her out for dinner that evening. Don't know if he took her to the Dairy Inn or Queen or to the Jack-in-the-Box or to Shakey's Pizza Hut. I suggested Rohmer's in Muenster but don't know if Bennett bought that idea or not.

Young Liza Boyd, Dewey, spent the weekend of Dec. 5 in Fort Worth visiting her sister Mrs. Janice Hudspeth. Liza is the daughter of Mrs. Marge Boyd.

Mr. and Mrs. Loyd Orrell helped Mrs. Hoke Medley of Bowie celebrate her birthday Thursday, January 3. Mrs. Medley is Loyd's sister.

Our little Myrtle McMillion, Dewey, was released from Bowie Hospital Dec. 31. She remained in Bowie with her Aunt Rachel Reynolds until Friday, Jan. 4. Myrtle reports she is feeling a lot better. We are certainly proud to hear that.

Our whole community is very saddened over the untimely death of one of our very fine young men. On Friday morning, January 4, Jerry R. Barnett, son of the Boyd L. Barnetts, was found dead in his car close to Thackerville, Oklahoma. Funeral services were held Sunday January 6 at 2 p.m. in the Forestburg

Baptist Church with Rev. Jim Riddle conducting the service. Jerry was laid to rest in the Perryman Cemetery. Jerry will be missed by everyone as he was a very well liked and a very popular young man here-abous. Pallbearers were: Rex Fry, Carvin Moseley, Dale Hudspeth, Max Brogdon, Gary Perryman, and G. D. Carlton.

Well, folks, we have us a new hog man in the community. Maybe not as enthusiastic as others, perhaps, for he sorta inherited the distinction. Donald Roe Sledge has taken over the care of his father's hogs while his father has been detained in the Bowie hospital. I don't know with how much enthusiasm Donald Roe has taken to his new profession, but he is really interested in seeing the old man up and around again.

In last weeks column we stated that we would give you Ern Umberson's recipe for washing and ironing made easy. Well, it is such a good one — we decided to just let Ern tell you. It is sorta complicated.

The P.T.O. will not meet Monday night, Jan. 14. The basketball game scheduled for the night of Tuesday, Jan 15, has had to be moved up to the night of the 14th. Jewell Dill says there probably will be no P.T.O. meeting this month due to the heavy basketball schedule all month.

While talking to Jewell she also said she had a New Year's eve party in her home for the youth class of the Methodist Church — and their guests. Those present were John and

Kenny Woods, Phyllis Lanier, Wayne Moseley, Cathy and Mike Johnson, RayeAnn and Liza Lynch, Darlene and Nancy Greenwood, Sheri and Clint Iund, Paula Hudspeth and her friend Eli, Larry and Vatonni Dill.

Almost forgot to mention that Jim and Cleta Reynolds had a 42 party in their home Thursday night, January 3. Those attending were Barney and Veda Brogdon, Betty Reynolds (Bennett wouldn't go), Juanita Bailey, Grace Scott, Decie Ellzey, Frances Brewer, and Velma Freeman. Don't you know Jim and Barney had 'em a time with all those ladies present. Bennett may be wishing he had gone.

We have also learned that Mrs. Vint Freeman is a patient in the Muenster Hospital. Mrs. Freeman lives in the New Harp area.

Question:

**Will you have  
enough natural gas  
for your home this winter?**

Answer:

Yes!

Let's lay this question to rest once and for all. Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than *four times the price* we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking...just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.

The couple exchanged nuptial vows directed by Father Bede Mitchell in Saint Peter's Church.

The bride wore a gown of white velvet with rows of embroidered white daisies accenting the princess lines. Lace and seed pearls ornamented the stand-up collar and long fitted sleeves. Her veil fell to chapel length from a pearl headpiece and her flowers were a cascade of gardenias, baby's breath and stephanotis. Her father gave her in marriage.

Bridal attendants were Mrs. Brenda Welch of McKinney, sister-in-law of the groom, matron or honor, Miss Marilyn Stoffels, maid of honor and Becky Bengfort, sister of the bride, junior bridesmaid. They wore princess gowns of yellow and white gingham and carried white candles surrounded by daisies.

Johnny Welch of McKinney was his brother's best man and Nicky Mosman of Gainesville was groomsman, Gary and Richard Bengfort, brothers of the bride were ushers and Pat and Roger Dieter were Mass servers.

Three funerals in one week in a city the size of Muenster is just too many. All three persons had quite a number of relatives and friends in the area so a lot of people attended a burial service sometime during the week.

The handling and organization of funerals in Muenster is the best we have ever witnessed. Muenster is fortunate to have Nick and Adelina who look after every detail so exacting and with facilities the like of which any city would be proud. With the modern Mass of today the services are more personal, and the girls choir adds much to the service. The Christmas decorations in our Church are so outstanding it rather makes one hope that when his number comes up it will be during the holiday season.

The forty plus years of Emmett Curtis in the restaurant business ended last week when he leased the Curtwood Restaurant and Motel to Junior and Mabel Caras. The corner booth has a sign over it reading "Emmett's Corner" so he'll be around from time to time — that is after he gets out of the hospital where he is with a broken arm. Our association with Emmett goes back to the late thirties so from experience we can say — you couldn't deal with a nicer guy. Junior and Mabel invite you to get acquainted with them.

Do you know why Nixon is staying in California so long? He had so much publicity when he traveled by commercial air line that he can't make up his mind how to get back. He could use his private plane, travel by rail which is government operated, use a Navy boat, Rent a Car, try Grayhound — or he could stay in California.

The Fort Worth city council has now OK'd necking in the city parks. That's probably another case of "if you can't whip them — join them." That decision should hurt the drive in theatre business as there is no admission fee to go to the park.

It's now suggested that the best time to get married is between the ages of 35 to 38 and then only with the children's consent.

officers and Polish intellectual leaders were arrested. They were brought into the Katyn Forest. Soviet firing squads set up their machine guns. Special duty Communist troops dug graves 50 feet long, six feet deep, and about 20 feet wide. The Polish leaders were marched in groups of 20 to 30 before the Communist firing squads. They were riddled with bullets and thrown into the trench-graves. Later an international Commission

uncovered the graves, and incontestable evidence showed that it was a Communist atrocity, a monstrous act of tyranny.

The Communists had done the same thing in the Balkans, taking Latvia, Estonia and Lithuania. But all this was not read in newspapers by our 30-year-olds of today. They were not yet born. And the frightening fact is that most of them do not yet know the true facts of these and other loathsome acts which

show the true nature of Communism. Our educational institutions should teach these facts. They are not doing it.
