

Somewhere in recent years I saw an inspiring story about Colonel David Crockett, pioneer settler and statesman of our nation. But, as happens so often with gems of wisdom, the article was lost and his words forgotten.

Fortunately, the story was re-discovered last week in an item by Rep. Tom Kindness in Human Events. It tells about the House of Representatives in debate about appropriating money for the widow of a distinguished naval officer. It seemed that the bill was sure to pass when Crockett rose to his feet.

He said it was proper to have deep respect for the memory of the deceased and great sympathy for his survivors, "but we must not permit our respect for the dead or sympathy for a part of the living to lead us to an act of injustice to the balance of the living."

He continued "I will not go into an argument to prove that Congress has no power under the Constitution to appropriate their money as an act of charity. Every member on this floor knows that."

He then pointed out that although congressmen have no right to give public money to charity, he would be willing to give a week of his pay to the cause. If other members would do the same it would amount to more than the bill asks.

The bill was defeated and a disappointed colleague approached Crockett the next day asking him to reconsider. Whereupon Crockett related an earlier experience.

He and a number of colleagues one night noticed a fire some distance away and rushed over. When he got there he joined in the rescue and salvage efforts and worked feverishly for several hours. When the fire ended many families were homeless.

The following day Congress passed a bill appropriating \$20,000 for their relief.

A short time later Crockett was back home and a constituent took him to task for his vote. The colonel was surprised that anyone would find fault with the appropriation, and his critic answered him with a question: "Where do you find in the Constitution any authority to give away the public money in charity?"

Crockett admitted he knew of no such authority, but felt that "nobody will complain that a great and rich country like ours should give the insignificant sum of \$20,000 to relieve women and children, particularly with a full and overflowing treasury."

His companion then explained a basic principle of political justice. "It is not the amount, Colonel. The power of collecting and disbursing money is the most dangerous power that can be entrusted to man...you will easily perceive what a wide door this would open for fraud and corruption and favoritism on the one hand, and for robbing people on the other."

"No, Colonel, Congress has no right to give charity. Individual members may give as much of their own money as they please, but they have no right to touch a dollar of the public money for that purpose. The people have delegated to Congress, by the Constitution, the power to do certain things. To do these things it is authorized to collect and pay monies, and for nothing else. Everything beyond this is usurpation and a violation of the constitution."

Crockett was convinced and told his friend that if he would get up a barbecue in a week or so, he, Crockett, would pay for it and would return to tell the crowd his error in judgement. Also Crockett told every constituent he met and every

Young Stockmen Exhibit at FFA and County Stock Shows

Muenster had two champions last week in the Cooke County 4-H and FFA junior stock show which was dominated by winners from Era, Lindsay and Callisburg. Brent McElreath showed an English crossbreed which received a blue ribbon and was also judged the reserve champion of its class.

The second winner was Andy Burnette. In the breeding beef heifers department his Angus was champ of the breed and champ of the class, and his animal was judged best fitted of the class.

Preceding the county show the Muenster FFA chapter held its annual project show early last week with Jay Roberts, Nocona ag teacher, as its judge. He awarded the champ ribbon to Gregory Luke after classifying the four entries on the basis of merit as follows: Gregory Luke, blue; Roland Serna, red; Brent McElreath, red; Henry Bayer, red. Those four steers were taken to the county show at which Luke's was classified a red, McElreath's a blue, and Serna's and Bayers were

again classed as red. The project show also awarded a blue ribbon to Joe Yosten's fat lamb which received a red in the county show.

Four feeder calves were other entries of the project show, all being returned home rather than taken to the county show. Brad Biffle had a blue and a red, David Flusche had a red and Karl Trubenbach a white.

Other animals at the county show were entered by 4-H members of Muenster in steer and lamb divisions. Steer owners and the ribbons they received are Gary Zimmerer, blue; John Zimmerer, red; Danny Serna, red; Jerry Serna, red; Amy Davidson, white. Sheep owners and the ribbons they received are Carl Zimmerer, red; Keith Vogel, red; Valerie Vogel, red; Stephen Vogel, white; Wayne Becker, white; Steve Becker, white.

Traci York of Era was the big winner of the show receiving the grand champion award on her Limousine steer after having it judged best of the breed. Kelly Fuhrmann had the reserve champion steer, a

Hereford that was best of its breed.

Top awards in other show divisions were made as follows:

Market hogs: Stanley Brandon, Era, champ; Alan Spears, Era, reserve.

Breeding dairy cattle: Larry Downe, Era, champ; Brian Nartindale, Valley View, reserve.

Breeding hogs: Troy Grewing, Era, champ; Leslie Alexander, Valley View, reserve.

Breeding beef heifers: Andy Burnette, Muenster, champ. Breeding sheep: Ray Reiter, Era, champ.

Market lambs: Frankie Enderby, Gainesville, champ; Chuck Reiter, Gainesville, reserve.

In addition to these grand champ and reserve champ awards in divisions, there were champ and reserve awards for the separate breeds of all divisions.

Show Animals Sell High

The grand finale of the Cooke County junior livestock show, the part in which the young exhibitors receive their cash reward for the months of effort spent with their projects, was the annual sale held at Gainesville Livestock Auction. As usual, business people as well as interested parents and friends were there by the hundreds bidding up the premium prices for the young stock raisers.

In the selling procedure a bid included the market value of the animal plus a premium. If the buyer's purpose was only to give the premium he did not keep the animal but turned it back to be auctioned for him at the market price. Many chose to participate that way. Many kept the animals to have them processed.

Muenster was well represented at the auction by eleven buyers whose purchases added to \$17,564.19. They bought at least thirty of the show animals, some being donated to the Sweeney Diabetic camp and other charitable organizations. In addition, the processing on grand champ and reserve champ steers was donated by Fischer's Market.

The Muenster buyers were Clyde Fisher, Beer Distributor, Cooke County Distributors, Gilbert Endres Distributor, Fischer's Market, H & W Meat Co., Muenster Milling Co., Tony's Seed and Feed, Felderhoff Bros Drilling Co., Muenster Livestock Auction, Cooke County Electric Co-op, North Texas Producers.

hurdles events and the high jump and ran on the winning mile relay team.

Two other MHS teams did not fare as well, the varsity girls being eighth with 34 and junior varsity boys being sixth with 44. Other team scores of varsity girls were Henrietta 92, Boyd 90, Lindsay 71, Nocona 63, Petrolia 52, Alvord 39, Notre Dame 36½, Windthorst 26½, Archer City 7, Chico 4. Other team scores in boys junior varsity were Henrietta 104, Nocona 92, Notre Dame 68, Lindsay 60, Holliday 46.

According to Coach Jerry Stinson, the MSH record was great considering the competition. Most of the contenders are classified as A or AA whereas Muenster is in Class B. Muenster was not entered in the girls junior varsity. Its scores in the other three divisions were earned as follows.

Bowie Hosts Conservation Banquet

Bowie will be the host city and Thursday, May 1, will be the date for the 31st annual conservation banquet and program honoring 1979 conservation champions of the Upper Elm Red Soil and Water Conservation District meeting.

Arrangements were made in a meeting of sponsors last Thursday night at the Red River Country Club near Gainesville. Sponsors are the banks, newspapers and radio and TV stations of Montague, Cooke and Grayson Counties.

The banquet will begin at 7 p.m. May 1 in the National Guard Armory with Mayor Terry Morgan as the opening chairman and

Bowie's school superintendent E.O. Martin as the master of ceremonies.

The program will honor farmers who have been designated champion conservationists of the five zones by flashing color scenes from their farms on a screen while a narrator tells about their conservation achievements. At the close of each presentation the champion receives an award from a sponsor of his area.

The meal will be catered by Rohmer's and tickets are priced at \$5.50.

This is the third time in the program's 31 year history that Bowie has been chosen as the banquet site. It has been held seven times in

43 Students Qualify to Vote

The number of qualified voters in Muenster was upped by 43 Monday morning when the Jaycees signed up that number of seniors in the two local schools. Thirty reported from each of the schools.

However 12 of the Sacred Heart students were already registered and 5 of the Muenster High students were registered, leaving 18 and 25 still eligible. All of them signed up.

In addition, five of the students also joined the local Jaycee chapter. They are Gary Henscheid, Phil Wolf, Don Frazier, Kevin Klement and Michael Sicking.

Consolidated Tax Office Planned

A consolidated tax office including most of the political entities of the county and located in the former First State Bank Building is presently under consideration by the Commissioners Court.

At a special meeting last week the court issued a notice of intent and explained its plan to vote on April 14 on an issue of \$130,000 in certificates of obligation to buy the building.

The purpose is to consolidate records and services for the county along with the City of Gainesville and school and hospital districts. The city of Muenster is not included in the plan, however it will use the same valuations as the centralized office. In using the same valuations it is complying with a new state law that will be effective in 1982 requiring that valuations, at full market value, will be uniform for all taxing units, but rate will vary according to need.

Tickets will be \$1.00 for adults and 50¢ for students. Sponsors urge attendance and assure all of an enjoyable evening's entertainment.

Gainesville Airport Receives Grants

Congressman Charles W. Stenholm today announced that the Department of Transportation has approved a \$350,000 Airport Development Aid grant for the Gainesville Municipal Airport.

Purpose of the grant is to rehabilitate and mark runway 17/35, install medium intensity runway lights on that runway, improve drainage, install lighted wind cone and segmented circle, Stenholm said.

The City of Gainesville would be required to put up 10 percent in matching funds if they accept the grant, Stenholm said.

It's Still Dry

Temperature of the community continues to be very pleasing, but the same can't be said for moisture. The measure for the week, as recorded by Steve Moser, was only 0.05, bringing the months total to .15, which also happens to be the total for six months. Presently the year's total is 3.44 inches.

Meanwhile mercury readings are moderate, as follows. March 20, 54 and 74; March 21, 38 and 71; March 22, 40 and 74; March 23, 56 and 78; March 24, 38 and 77; March 25, 40 and 60; March 26, 42 and 68.

Congressional Comment

FOOD COSTS frequently receive more than their share of the blame for rising inflation rates and it's time we put those increases into true perspective.

A recent report in Time magazine showed that of the major items included on the Consumer Price Index, food and beverage costs were the second lowest category of the major increases. From January, 1979, to January, 1980, food costs rose 9 percent, a heavy blow to the household budget until compared to the whopping 60 percent increase reported by gasoline.

Only clothing costs rose less than food last year, at 6 percent. Other increases reported included: Total energy, up 42 percent; mortgages, taxes and insurance, up 30 percent; public transportation, up 19 percent; and medical care, up 10 percent. Total increase for the Index last year was 14 percent.

Targeting on the last six months of the year, the U.S. Department of Agriculture reported that food costs rose 8.2 percent, while all other items on the list skyrocketed by 16.1 percent.

One of the reasons that food has been incorrectly focused upon in discussions of "who's to blame" is the fact that food costs led the pack when inflation began its dramatic rise several years ago. In 1977, for instance, food costs rose 6.3 percent, about equal with all other items. By 1978, food costs were up 10 percent — and consumers began to holler — while all of the rest rose 7.2 percent. Food

seemed to be the villain in the budget-stretching battle.

We must not lose sight of the fact that, while consumer prices of food have gone up during the past year, that doesn't mean that farm prices have kept pace. Prices for many commodities have dropped during the year, while production costs keep on going up. Many of those price drops have been passed on to consumers, particularly those items requiring less processing, and therefore less costs for energy, transportation and labor.

Eggs are down, pork products are down, beef is down, turkeys and broilers are down. Food prices in general are up, but the farmer is the victim — not the villain.

THE WEEK I wrote to Secretary of Agriculture Bergland, joined by 12 of my colleagues, asking for an extension of the review and comment period of the Resource Conservation Act until April 28.

Despite the best efforts of the Soil Conservation Service, I felt that there was a great deal of misinformation and misunderstanding concerning USDA's preliminary study of future plans and programs for soil and water resources.

Of most concern to landowners in our area is the proposal to require compliance with any and all USDA recommended conservation practices for a given farm of forfeit all federal program payments for which the individual might be entitled.

STATE CAPITAL HIGHLIGHTS

AUSTIN—Texas House Speaker Bill Clayton spent a day-and-a-half last week answering questions to a federal grand jury in Houston about allegations he accepted a \$5,000 bribe last November.

Clayton told reporters afterwards he answered all questions, did not take the Fifth Amendment and discussed several subjects during the questioning. He is alleged to have taken the bribe in exchange for his help in obtaining a multi-million dollar state insurance contract for an undercover FBI informant.

Clayton maintains he took the money to avoid embarrassing the donor, but he planned to give it back and never spent the money. His lawyers handed over the stack of \$100 bills to federal prosecutors last week and received a receipt listing the serial numbers of the bills.

Authorities say it may take several weeks for the grand jury to return an indictment or a "no bill" decision on the Speaker.

In the meantime, business in the House has slowed down until Clayton resolves his troubles. Many of the Speaker's friends are predicting that if he is indicted, he will abandon plans to seek an unprecedented fourth term as speaker.

Recruiting Clayton Foe

The only announced candidate to unseat Clayton, Rep. John Bryant of Dallas, admitted last week he tried unsuccessfully to recruit an opponent to run against Clayton for re-election to the House.

Bryant said he made an 11th-hour trip to Hereford before the filing deadline to offer support to Sheriff Travis McPherson and four other men if they would run against Clayton.

Bryant told reporters Clayton worked for four months to find him an opponent, and he was merely returning quid for quo.

He also flatly denied having any advance knowledge of the Brilab probe which touched Clayton's office, contrary to Rep. Buck Florence's allegation two weeks ago.

Scuttling the Primary

Texas Democrats were to meet last week to discuss cancelling the non-binding presidential primary they voted for last week.

Neither Carter nor Kennedy Democrats seem to want the primary, saying it would be pointless and a waste of campaign funds, said Ms. Billie Carr, leader of the party liberals.

She also theorized that if Kennedy dropped out of the race before May 3, (Texas primary date) liberals could

vote uncommitted and beat the president.

Interest Raised

The three-member State Depository Board has hiked the interest rate for state deposits 2½ points to an historic high of 14 percent.

A State Treasury Department official estimated the higher rate would earn Texas about \$50 million a year more interest on time deposits of about \$2 billion.

Oil Well, Mexican Courts

The head of Pemex, the Mexican national oil company, said the half-billion dollars worth of lawsuits stemming from the runaway oil well blowout in the Gulf of Mexico don't mean a thing — unless they are heard in Mexican courts.

He said the flow of oil has been halted and is no longer a threat to the Texas coast, but that Pemex will not consider paying for damages already caused by the oil spill unless legal action is taken through his country's courts.

The state of Texas, the federal government and other groups have filed lawsuits seeking damage payments totalling \$500 million.

No such lawsuits have been filed yet in the Mexican courts.

AG Briefs

When the Legislature lowered the ad valorem property tax to almost nothing last year, some people speculated it would cost county tax offices more than \$1 million to bring in \$200 statewide, if they were forced to collect it.

But Attorney General Mark White found a loophole last week that keep the county tax officers off the hook.

In a legal opinion, White ruled tax collectors can use a section of the law which says taxes don't have to be collected on property unless \$5 or more is due.

The ad valorem tax was more than \$10 million until the Legislature practically phased it out last session.

The State Property Tax Board is expected to adopt the rule at an April 30 meeting.

White also overturned a provision in the 1979 property tax code that would have denied the new over-65 homestead exemption if the homeowner failed to file for it by April 1.

White said while the March 31 deadline can be used for administrative purposes, such as to encourage early application, the county tax assessor may not refuse a claim for exemption even though it was not filed on time.

He also supported a state law which prohibits Texas Department of Public Safety personnel from political activity.

He upheld as constitutional a rule which bans DPS employees from contributing to political campaigns, from actively participating in campaigns and from making speeches for or against a candidate.

Opening a firm? Have enough cash

AUSTIN, Texas (Spl.) — If you're going to open a small business, you ought to have enough money on hand to run it for at least 18 months, a University of Texas lecturer says.

Dr. George Eddy, who teaches a management course on small business, says persons are "asking for trouble" if they have less than that as start-up capital. He cautions that bankers don't like unpleasant surprises such as a client "running in at the end of the month saying he needs more money to meet the payroll."

In Dr. Eddy's course, each student must make a detailed feasibility study about starting a "for-real" business. Some of the analyses have proved so favorable that several students have gone into business for themselves, he reports.

Import practices

AUSTIN, Texas (Spl.) — A University of Texas study shows not all U.S. companies would be affected the same if a foreign country were to restrict its crude oil exports to America. That is because the importing practices of the major U.S. oil companies vary widely.

UT Austin's Institute for Constructive Capitalism reports, for example, that Occidental and Amerada Hess import more than 75 per cent of their crude, while Standard of Ohio imports none. Nor does the imported crude come from one place. Phillips Petroleum, for example, draws 70.8 per cent of its imports from Nigeria; Exxon, 40.1 per cent from Saudi Arabia.

CAPITOL UPDATE

John Tower
 U.S. SENATOR for TEXAS
 142 RUSSELL OFFICE BUILDING
 WASHINGTON, D.C. 20510

The Administration's anti-inflation program -- its fourth -- is mis-named. Actually, it is far more likely to boost inflation, depress the economy, worsen our energy situation and hit the pocketbooks of those who can least afford to pay the price. We in Congress have an obligation to our fellow citizens to insist on a program honestly aimed at the roots of inflation, not the American people.

Let's take a brief look at some of the program's specifics:

--Proposed budget cuts, as yet unspecified for the most part, expected to amount to about \$14 billion. That, I suppose, is good, but it's much like the first line in a "good news, bad news" joke. The bad news is the budget increases for this year and next will total close to \$100 billion even if the cuts are enacted.

--The "balanced budget" proposal relies on more than \$50 billion in increased taxes to be paid directly or indirectly by the individual consumer. The sources of those new tax dollars range from increases caused by inflation-pushed incomes moving into higher tax brackets (\$25 billion) to the windfall profits tax.

--The new oil import fee, already in effect by executive order, will add about 1 percent to the inflation rate through increased gasoline costs. And even if it has the desired effect of reducing oil imports by 100,000 barrels a day, that will not offset the minimum 500,000 barrels a day of domestic production which will be lost because of the windfall profits tax. And the new fee can be used by OPEC oil pricers to justify still higher costs for imported oil.

--Withholding federal income taxes from interest and dividends will have a sharp effect on retired persons who depend on income from those sources for their livelihoods, and frequently owe little income tax. It will have the effect of discouraging savings at a time when everyone, including the President, agrees that we desperately need to encourage a higher rate of savings. And the new regulations will require more bureaucrats to enforce them, while placing a huge burden on the approximately 1,000 small banks in Texas that will be hard-pressed to develop and generate an accounting system to comply.

--Credit card "controls" actually have translated into a business tax on new credit. The Federal Reserve will require banks to put 15 percent of new credit extended in a no-interest reserve account. The restriction will hit hardest at young adults who are credit-worthy for the first time, and at middle- and lower-middle class card holders who have small limits.

Nothing in the new proposals addresses the problem of contributions to inflation from lowered productivity and the cost of government regulation. We need tax reform, not tax increases. Congress must insist on a truly balanced budget, with cuts coming from inflation-fueling consumption spending instead of capital investment -- which tends to be helpful to the economy. Further, we must find at least twice as much to cut as the Administration is proposing.

And, at the same time, we must not lose sight of our obligation to strengthen our national defense substantially.

Our task is great. It will take your full support if we are to succeed in putting our nation's economy back on the right path.

Reunion Planned by St Mary's Exes

A July 12 reunion is being planned for all past graduates and attending students of the former St. Mary's High School in Gainesville, which was discontinued and dissolved in 1952.

Names and addresses are needed to complete the mailing list.

Former students interested in attending and anyone having names and addresses of others especially those from out-of-town, may phone 759-2563 or 759-2773 or 736-2219.

Don't Be Disturbed By Wrong Name On Census Form

People who received a census form with the wrong name are advised to just keep it and not be disturbed.

The census bureau is aware that many people have moved since the present address list was compiled, but there will be no confusion if people keep the form they receive cross off the wrong name and write the person's own name on the front. By all means, they are asked not to forward to another person. If they do it is likely that they will have problems getting another copy for themselves.

Home-School Society Projects

In addition to providing rides for children during Germanfest, the SHS Home-School Society will sponsor a Sweet Shoppe Booth, providing authentic, quality German baked foods.

Co-chairmen are Mrs. Tony Hess, 759-4483; and Mrs. Larry Hennigan 759-4352 and Mrs. Arnold Rohmer 759-4462.

The chairmen and membership of the Home-School Society are asking for any kind of help and are anxious to discuss the project with interested helpers.

The co-chairmen will discuss the possibility of arranging for the society furnishing the more expensive ingredients for those willing or able to do quantity or specialty baking. More information may be obtained from the above co-chairmen.

Herring Transferred to Weatherford SCS Office

Ronnie Herring, district conservationist in the Muenster office of the Soil Conservation Service for almost three years was informed this week of his promotion with transfer to the Weatherford SCS office as head conservationist. The change becomes effective on April 20. His replacement in the local office has not been named.

YOU CAN BANK ON IT!

Problem Number One in saving money today is the same as problem Number One in deciding how to spend it. The problem, often discussed here, is inflation.

Today, it forces more people to cut down the amount set aside for savings or even worse, forces savers to dip into savings just to cover necessities. It is creating a lack of faith in the economy, frustration with the present, anxiety about the future and sometimes, a destructive longing for the past. It also results in an often-asked question, "What can I do about inflation?"

Something most of us fail to realize is that each of us can do something about inflation. First, we can conserve... limit our spending, cut our energy usage by shopping near home... get back to the basics of watching expenditures carefully.

Next we can try being more productive. In operating our own business or in working for others, we need to try to produce just a little more every month.

Next week we'll pass along some information on how to get specific answers about what we can do to help put the brakes on inflation. You Can BANK on it!

Hornets Take 7-1 Decision at Boyd

Rebounding from their loss at Nocona a week earlier, the MHS Hornets did a great job at Boyd last Friday and came home with a decisive 7-1 win. The game was a near shutout as Todd Richey kept the hosts under control for six innings but weakened in the seventh and allowed a convenient grouping of opportunities to load the bases, then forced in the lone tally with a walk. Richey allowed 4 hits (two in the seventh) and six walks while striking out 6. Combined efforts of two Boyd pitchers yielded 6 hits and 8 walks with 5 strikeouts. Also Boyd made 3 errors and Muenster 1.

Six Hornets, with a team batting average of .222, hit as follows: Curtis Pagel, a double, and Todd Richey, Phil Wolf, Floyd Felderhoff, Don Frazier and Tim Schneider each a double.

The team is entered in a Pottsboro tournament this weekend with Frisco as the first opponent. Others booked are Sanger, Callisburg, Bells, Howe, S&S and Pottsboro.

Hornets Win Whitesboro Tennis Tournament

Muenster boys were the champs and girls were the runners-up of their respective divisions in a tennis tournament at Whitesboro during the past weekend. In each case the team consisted of two singles and two doubles entries and scoring was based on the total number of sets won.

In the boys division Jim Biffle took individual singles honors with a clean sweep of the bracket. He won the final 6-2 and 6-1 over a highly rated player from Durant. The other singles entry, Steve Luke, as semifinals and consolation loser, was awarded fourth place.

In the doubles the two MHS teams were eliminated in the semifinals and claimed third and fourth places of the tournament. Players were Todd Richey and Phil Wolf, Brad Biffle and Vance Wells.

In girls singles Carla Walterscheid lost the semifinal and defeated the Howe entry in consolation for third place honor.

Karen Walterscheid and Brenda Wimmer were runners-up, losing to Durant in the final. Also Barbie Wimmer and Stephanie Richey got the No 4 rating with a loss in the consolation match.

Schools represented were Muenster, Gainesville, Durant, Howe, Saint Jo, S&S Whitesboro and Van Alstyne.

Visit Relatives Here
Mr. and Mrs. Paul Vandevan, enroute home to St. Louis after spending their fifth winter in San Juan, Texas near Mission, stopped in Muenster for six days to visit relatives. They were houseguests of cousins, Mr. and Mrs. Norbert Klement and from there visited relatives among the Knabe, Klement, Meurer and Weinzapfel families.

One day they visited an uncle Albert B. Knabe, Sr. and an aunt Mrs. Bill Becker. Another day the Vandevans, the Norbert Klements, Mrs. Loretta Wilde and Mrs. Marie Reiter drove to Scotland, Texas, birthplace of Mr. Vandevan and where his parents and a brother are buried. They visited the cemetery and Church of St. Boniface Parish.

Continuing, they drove to Wichita Falls to visit another aunt, Mrs. Katie Meurer. Paul Vandevan's late mother was the former Minnie Knabe. Mr. and Mrs. Paul Vandevan left Tuesday to begin the trip home, traveling in their glorified "home on wheels."

As a bit of nostalgia of interest to Luke families here, Mrs. Paul Vandevan recalled that her father was a student of the late John Luke, Sr. when he taught school in Leopold, Missouri, her hometown. After John Luke Sr. moved his family to Muenster, he became a teacher in the first Public School in Muenster.

Garden Center Bulletin

In the next several issues of the Garden Center Bulletin we will discuss the different types of lawn grasses suitable for this area. We will also discuss when and how to start a new lawn or re-do an old one, plus tips on caring for established lawns.

This series will be completed in plenty of time to make the right selection of lawn grass for your specific needs.

Of all the grasses available only a few stand a chance in this area. They are 1- Common Bermuda, 2- Dwarf Tiff Bermuda, 3- St. Augustine, 4- Annual Rye Grass, 5- Kentucky Tall Fescue No. 31, and 6- Zoysia.

Next week we will begin Part I of the series comparing each type of grass, listing its advantages, disadvantages, and uses.

Several folks have called me to express how much they enjoyed the poem entitled Tomorrow that appeared in this column a couple of weeks ago. Perhaps it's making such an impression because it is appropriate to the way we all are. Seems we are all always gonna do something Tomorrow, but tomorrow just never seems to get here.

Recent visitors of Mr. and Mrs. W.B. English of Rosston have been Mr. and Mrs. Terry Martin & family of New Deal, Texas, Mr. and Mrs. Glen Aldridge, Linnea, Cyndi, and Christopher of Duncanville and Mr. and Mrs. Ed Watkins of Dallas.

W.C. (Petie) English of Rosston returned home from Duncanville recently after visiting with his daughter Kaye and family - Mr. and Mrs. Glen Aldridge & children. Mr. Aldridge flew Petie up to Gainesville Airport where they were met by Mr. and Mrs. W.B. English who brought him on home to Rosston. While in Duncanville Petie English attended a Mini-Miss Pageant in which his two granddaughters, Linnea and Cyndi Aldridge were entered - and in which they were winners. Kaye and Glen Aldridge own and operate the Enrichment Learning School in Duncanville. There are 150 students enrolled from the ages of 3 years thru the 8th grade.

Mrs. Kitty Beth McLaughlin of Cotulla spent several days with her father Tom English and helped him celebrate his 88th birthday. Tom's other daughter Mrs. R.A. (Melba) Busby of Dallas came up for the occasion.

Mr. and Mrs. Dean Woodward from DeLeon, Texas recently purchased a small acreage at New Harp and have now moved in a mobile home. Their son Ricky started school at Forestburg last week.

Mrs. Loveta Bewley had herself a vacation last week and on Wed. Mar. 19 she visited the Hill Top Haven Orphan's home in Gunter, Texas.

Mrs. Dorothy Hunt, New Harp, received word Tues. Mar. 18 that her brother Levi Simmons of Portland, Oregon had passed away. Lewis wife is the former Thelma Scott - daughter of the late Merritt Scott. Relatives attending funeral services for Mr. Simmons were: Mrs. Vivian Barnett and Mrs. Oleta Wallis of Sunset and Mrs. Gladys Moore of Lewisville. Also Raymond Carl Barnett of Alvord who drove the group up. Mrs. Barnett, Wallis and Moore are all Mr. Simmons' sisters.

My husband had a great-aunt that lived to be 93 years of age before she passed away. When she was about 90 years of age she remarked that if she had known that

she was gonna live that long she would have taken better care of herself.

The Forestburg Four H Club held their monthly meeting Wed. Mar. 12 after school. Billy Bell of Rosston presented a program on Horse-shoeing. Refreshments were served to 17 members and guests. Many members were working on their projects to enter in the Youth Project Show on Thurs. Mar. 20 at Bowie. Several members participated in the District Food Show on Sat. 15 and all did real well.

Mrs. Eunice Medley of Bowie and Mrs. Vera Mae McGee visited with Mrs. Bess Orrell in the Muenster Hospital Sun. p.m. Mar. 16. Would like to add here that Bess has now returned home to St. Richards Villa as of Sat. Mar. 22.

Mrs. Price (Elaine) Truitt and yours truly made it over to Bowie Tues. a.m. Mar. 18 to run some errands and do some shopping. We also visited with Mrs. Joe Denham while there.

Mrs. Millie Reynolds is sporting herself a new Oldsmobile these days.

Johnny Carter is plowing up about all of Jones Valley. He is planning on planting 50 acres of watermelons on us Denhams. Don't know what he is going to plant in the rest of the Valley. We will probably be needing some experienced hoe hands before long. Don't rightly know what he plans to do about the racoons, deer and bugs. He may can handle the bugs like my husband's father said a New Harp watermelon farmer did years ago. This farmer plowed his watermelons with a walking cultivator behind a tractor, and stomped the bugs.

Mrs. Laura Belle Jackson and Mrs. Georgia Greenwood both report that the grasshoppers are already out. They sure are hardy critters - nothing seems to do them in. Mrs. Greenwood says the cut-worms are really out doing their job too.

The Forestburg United Methodist Women met in

the home of Mrs. Vera Mae McGee at 2 p.m. Wed. Mar. 19. Mrs. Alice Shears, President, called the meeting to order with a short devotional and prayer. Then Mrs. Dorothy Thompson presented the program for the day - entitled "New Possibilities of Life". After which there was a short business meeting and then a fellowship period with the group enjoying delicious refreshments served by the hostess. Present were: Mrs. Alice and Esther Shears, Lucille Littell, Dorothy Thompson, Decie Ellzey, Cleo Lanier, Betty Reynolds and Myrt Denham.

Marion Foster, of Pampa, and son of the late Kate and Lee Foster was in the Burg Fri. Mar. 21 visiting with friends. He visited some with the folks at school and reported that Loyd Penrod, of Pampa, had passed away several weeks ago. Mr. Penrod and family lived in the Uz area years back so will be remembered by some folks hereabouts.

Visitors and dinner guests of Clifton and Loveta Bewley on Sun. Mar. 23 were: Mr. and Mrs. Wayne Cox and granddaughter of Pueblo, Colorado, Mrs. Pete Cox of Wichita Falls, Mr. & Mrs. Loyd Bewley & children of Era and Mr. and Mrs. Elvin Echols of Wautaga.

Mr. and Mrs. Legare Va Nesse of Dallas visited wit continued on page 11...

For the person who's building a business and raising a family.

Not many people are as fortunate as you. Few could leave their families a going business if they should die, as you can. There's one problem, however, Uncle Sam will probably insist on a big tax bite if you die. And unless your family can raise the cash, they might have to give up the business. The answer? New York Life insurance can make sure your family has all the cash they need the moment they need it. Call me - I'll be happy to give you full details.

Jaycee Work Party
A work party for Muenster Jaycees is on schedule Saturday afternoon, starting at 1. Members are asked to come to the park, bringing axes, saws, hoes, rakes, lawn mowers, pickups, etc for a general park clean-up.

From page one-
Confetti...
crowd he addressed of the discussion which changed his mind about giving away public money.
Concerning the proposed

appropriation to the officer's widow, the Colonel then told his unhappy colleague that several members made fine speeches in support of donating public money to her, but none were willing to pay out of their own pockets.

The article can be summarized in a single sentence: "Congress has no right to grant doles." And it also leaves us impressed with the wisdom of Crockett's friend, who referred to the wide door this would leave open to fraud and corruption and favoritism, and of robbing us taxpayers to provide the money.

It seems we have reached the point where fraud and corruption are accepted as necessary evils of modern society, regarded as regrettable but impossible to change. Meanwhile it seems that congressmen, instead of stopping favoritism are only striving to continue their share in it. While giving lip service to cuts in spending, every member jealously guards the give-aways to his own constituents.

If you would like a more definite idea of what inflation is doing to your money, you may find some help in the following quotation from the Richmond News Leader on Pegging the Dollar: "It used to be that the value of the dollar was pegged to the 1939 dollar as an index of 100. When that became embarrassing to big-spending administrations, the index was changed to 1945. Today the value of the 1980 dollar has shrunk to only 24 cents of the 1945 dollar. The federal government now prefers to use the 1967 dollar as the benchmark of inflation, but the 1980 dollar is worth only 43 cents of the 1967 dollar. So, stand by for another change, perhaps to the inflation-ridden 1979 dollar."

For another idea of why inflation is running wild, here is a recent quote from Senator Jesse Helms. "Last October 10, the federal debt was \$818,556,069,040.49. Exactly one year earlier, on Oct. 10, 1978, the federal debt was \$768,576,581,519.99."

"That is an increase, in one year's time, of \$49,979,487,520.60. And the thing to remember is that this is happening at the very time that the President, and the leaders of Congress, are pretending that federal spending is being brought under control."

Back to the subject of federal give-away; and related to the \$50 billion deficit mentioned by Senator Helms, an item on Practical Politics quoted by Farm Bureau's Facts for You from a recent issue of US News and World Report. "Coincidence? A tiny marble polishers' union with fewer than 10,000 members recently endorsed President Carter... and soon after received a \$389,844 federal grant to help train new members."

Endres Delivers Special Edition Model A

When the reincarnated Model A Ford became available last week at Endres Motor Company it seemed proper that the first unit should go to F.E. "Frankie" Schmitz who was getting his start in the business world as a thriving used car salesman in Muenster while the Model A was in its heyday. He sold Model As by the dozens, some, he recalls, from the location now occupied by Endres Motor Co.

The car he bought is described as an exact reproduction of the 1928-29 Model A Roadster, complete with fold-down top and rumble seat. It's a spit-in' image of the real thing but different in a few respects. For instance the body is fiberglass instead of metal, it has dual heaters - in the cab and the rumble seat -, it uses unleaded gas and meets the government's emission standards. Also the body color is bright yellow whereas the originals were black.

The Model A is the first of seven to be received and distributed by Endres Motor Company. Two each of those are earmarked for Gainesville and Dallas and one each for Muenster, Lindsay and Nocona.

According to Marty Klement, Frankie deserves first delivery on the basis of

his friendly tip to Endres Motor Co. as well as his nostalgic ties with the car. He learned in 1978 from an automotive newsletter that Ford Motor Co. planned to make 10,000 of the cars, and alerted Endres Motors which promptly applied for

a franchise to sell them ... and was awarded a franchise for the seven cars.

Next on Ford's special edition program is the classic 1955 Thunderbird. Frankie says he already has his \$500 deposit down for one of them.
