MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, DECEMBER 11. 1942

BROTHERS IN ARMY AND AIR CORPS

VOLUME VII

SUNDAY, DEC. 6-Little by lit tle this idea of being on the alert is getting monotonous. What is it -the army's way of making men so impatient that they start begging for a chance to go into action? If so, it's getting results. This outfit is primed for a crack at Hitler or the Nips.

Meanwhile the boys are grip-ing. Con is one of them. He's just completed the week's laundry detail. Yes, it has come to that. In order to keep us fully pre-pared they tell us not to send out any laundry. So that we'll be ready in case we have to move before the bundles get back. Well we're getting it done after a fashion. We figure the clothes are fit to wear again even though they would be hardly fit for display in a soap advertisement. "Tell-tale gray," I believe is the word they use.

And Sunday is still just another day. Work as usual. We find the idea is getting about as monotocoming to the point where most 835th is going to start making history some of these days. LEAGUE AND GARDEN CLUB

Judging from the present tone week or two. Boys around here ness will be the election of officers who said a short time ago that for 1943. minds now. Maybe, they agree, given by pupils of the school and this isn't a matter of two or three members will also have a sing-bad news cycle.

Gas Stoves In Church

What is the real score anyway? With the installation of

Cadet RICHARD C. FETTE Cpl. R. N. FETTE

-With the army at Camp Young, Indio, California, is Cpl. R. N. Today, for instance, was a pitiful-ly poor example of what soldiers are supposed to accomplish. It's entered the army in February and received his early training at Fort Leonard Wood, Mo. Prior to his entry in the armed forces, no one seems to give a hoot. And no one seems to bother about it. But watch our smoke. A few weeks or a few months hence the tension will be broken by an official "sic 'em boys." The 835th is going to start making

Rev. Francis Zimmerer, former ssistant pastor here and more recently pastor at Windthorst, has received a commission as first lieutenant and will soon be assigned as a chaplain in the army service. During the past week he spent several days with his par-ents at Lindsay, before leaving for duty.

Home On Furlough Pfc. Gus Fleitman arrived last Thursday from Camp Edwards, Mass. to spend a furlough with his parents, Mr. and Mrs. Joe Fleit man and family. He will return to his duties Saturday.

Goes To California Pvt. Anton Fleitman, son of Mr.

and Mrs. Joe Fleitman, left Tul-sa, Okla., last week for Burbank, Calif., where he will take a special mechanic's course at Lockheed-Vega Service School. He is with the air corps ground crew.

More From Africa Apparently St. Sgt. Jimmy Leh-nertz is catching up on his cor-respondence, although he is keeping plenty busy in North Africa. The weekend brought several letters to relatives and friends here. In a lengthy epistle to the Enter-prise Jim disclosed that on that day (Nov. 24) the first mail from home reached the boys since they are stationed there. He added that he received 37 letters and it "was like Santa Claus came, sure enough". He said it put ex-

Keep Your Family Comfortable...but DON'T WASTE GAS

The natural gas you save can help to build many implements of war. Ships, guns, tanks, planes, bombs, torpedoes, shells-there's hardly one whose parts do not call for some application of heat. For instance, whole battleship turrets are "baked" in gas ovens as big as a five-room house.

And in the Southwest, heat means natural gas.

Industry-including over a thousand plants engaged in war work-on Lone Star lines is using more gas than all our 300,000 residential customers, and the demand is mounting. So . . . we ask you: Don't waste gas. Use it wisely and there will be plenty for all winter needs.

1. Repair leaky hot water faucets and save

- Repair lossy not water and gas.
 Don't overheat your house. Keep it between 70 and 72 degrees. Close bedroom doors at night if windows are open 3. Stop heat leaks by weather-stripping doors and windows; install insulation
- save fuel. 4. Learn to cook with low flame in small amounts of water, saving vita

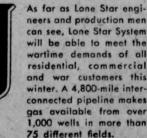

natural gas from over 75 different fields through

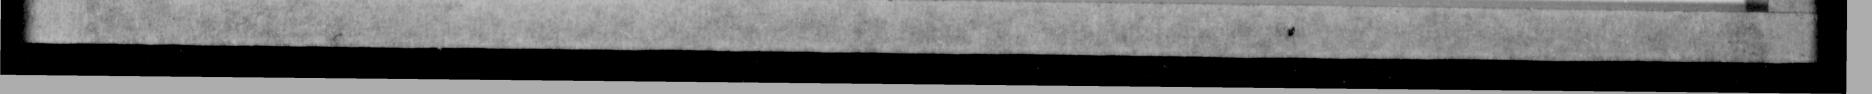

ipeline to your local gas company

LONE STAR

For 33 years we have worked in developing Texas and Oklahoma gas reserves, and in building an interconnected pipeline system to create a capacity capable of meeting extreme emergency demands. Today, we're working harder than ever expanding facilities to keep pace with the Southwest's mounting wartime needs for fuel.

USE GAS Wisely Use what you need. Don't waste it.
