The Solidarity Day demonstration last week, in which some thousands of sympathizers joined the striking air traffic controllers in being obnoxious at the White House and mean mouthing President Reagan, looks very much like an effort by the unions to re-assert claims that appear to be slipping. This applies especially to the unions of public employees, who are less certain now that they can get by with walking off the job. They have to wonder whether they, like the air traffic controllers, can be fired for going on strike.

One can understand, of course, that those people would like very much to establish their immunity to being fired when they go on strike. Their demands are more attainable when they have everything to win and nothing to lose. At the same time the public is frustrated when it sees the strikers can't be disciplined for shirking their duties.

Perhaps this is now in the process of change. President Reagan has the backbone to tell those people that their first responsibility is to the public. When they hire out their job takes priority over personal wants. Those who wish for improvements in pay or benefits or working conditions have every right to negotiate through leadership, but in the meantime they have the duty to take care of the job. Otherwise, as the President says, a striker forfeits his job, and he forfeits his right to reclaim it when he decides to quit striking.

This obligation applies to lots of workers who have violated health, safety and basic needs by striking. For instance teachers, postal workers, police, firemen, hospital personnel, sanitation crews, and others. If they don't like pay or conditions or what not they have an alternative of negotiating or quitting outright.

This may seem like a cold attitude toward workers. But is it? Usually grievances are not too serious to be corrected by a considerate and fair leader. The trouble comes in cases like the air traffic controllers, already getting more than \$30,000 on a 40 hour a week job, but demanding more than 30% additional pay for 25% less work. No wonder the president said no. No wonder the nation applauded!

To our way of thinking, there is a rather simple solution to the strike problem. It is suggested by the traffic controllers who remained on the job in spite of abuse from strikers. If dictatorship by union bosses can be ended, the absurd demands will not get general member support. If people have a right to work without compulsory union membership they will be able to make up their minds as free people.

The obvious charge to such a suggestion is anti-union hostility. Take power away from big labor and who will protect the interests of working people? In this connection the public should understand first of all that only a small minority of people, about 20 percent, is represented by organized labor, whose bosses have exercised enormous clout for many years. They have been autocratic to members as well as industry. Their demands rank next to deficit spending as a cause of inflation. But they are losing influence lately, as indicated by declining membership.

Well, it could help if all workers became aware that henceforth they are free to do and say as they please without fear of the labor bosses. Unions would immediately raise the howl that this is union busting. But that isn't the case. It's only the difference between voluntary and compulsory continued on page 2...

United Way adopts \$125,000 goal

This year's United Way drive will get under way on Thursday, October 1, with a kickoff meeting at noon in the Cooke County College Activities Center.

Ed Bianchi will head the campaign with a goal of \$125,000, an increase of about 10 percent over last year's goal. The board of

directors is confident that the amount will be adequate, according to Johnny Leftwich, president. The advanced gift division at a meeting last agreed to \$32,200 as its share of the goal. Mary Lou Osborne heads the division. Among other chairmen is Larry Kinard for the Muenster community.

Fourteen agencies are participating in United Way this year. They include Gainesville Boys Club, Muenster Youth Council, Camp Sweeney, 4-H and

FFA, County Council on Alcoholism, Boy Scouts, Camp Fire of Cooke County, Voluntary Action Center and Mini-Bus Service.

Year's program outlined at observance of YHT week

The Muenster Chapter of Young Homemakers of Texas is observing YHT Week. Honoring the state organization, the local members have planned special activities for September 20-26 and have announced a full year of programs associated with their monthly meetings.

They have displayed posters downtown describing the purpose of YHT and have placed an announcement on Channel 2 TV, listing their programs. They have also placed flyers in local stores and have donated a gift of toys for children who visit the MHS Homemaking department. The toys were placed with Mrs. Joni Sturm, chapter advisor and Homemaking teacher at M.H.S.

To Pam Dangelmayr, Homemaking teacher at SHHS the chapter presented a red and white floral table centerpiece. And members

wore red corsages and YHT buttons.

A proclamation of YHT Week by Mayor Leo Hess is published this week in The Muenster Enterprise.

Announcement of programs and speakers include the following: October 8 - Child Protection/Vandalism, Muenster Police Chief Helen Tompkins, in the Muenster Public School Auditorium at 7:30 p.m. with the public invited.

November 5 - Christmas Cooking Ideas by Jill

Bleiker of Texas Power and Light Co. December 10 - Christmas Party for members. January 14, 1982 - Weight Control, Jazzercise, by Judy Turbeville.

February 11 - Upholstery. March 11 - Nuclear Energy by Ken Ferris of Sherman. April 15 - Our German Heritage by Sue Trachta. May 13 - Spice Ideas and Uses by Mary Charlotte Casteel of Lone Star Gas Company. June 9 - Ceramics by a speaker from Quality Ceramics.

Muenster Library plans new survey

The Muenster Public Library building has been purchased by the City and improvements were discussed at the Library Board's regular monthly meeting. The Board suggested various ways to reach the public, asking what additional services they would like the library to furnish or which present services should be expanded.

A questionnaire was decided on and it will appear in The Muenster Enterprise next week (October 2 issue) and the following week. Individuals and/or families are asked to participate in this survey. Questionnaires need not be signed. For convenience, boxes will be placed at Fischer's and Hofbauer's for deposit of com-

pleted questionnaires. They may also be brought to the library. The Board asks that the surveys be returned by October 15 which is the date of the regular library board meeting.

Good news

2 Corinthians 4: 8-10
We are often troubled, but not crushed; sometimes in doubt, but never in despair; there are many enemies, but we are never without a friend; and though badly hurt at times, we are not destroyed. At all times we carry in our mortal bodies the death of Jesus, so that his life also may be seen in our bodies.

State inheritance tax changes

State Comptroller Bob Bullock's office Monday reminded Texans that a new state inheritance tax law took effect this month and will apply to estates of those who died on or after September 1, 1981.

The Comptroller's office reported the new law will save Texas taxpayers at least \$20 million in death taxes the first year.

The new law did away with the state's basic inheritance tax schedule and statutes, replacing them with

a law that ties Texas inheritance tax collections to a part of the federal estate taxes owed.

For example, under the old state law if the federal tax due was \$5,000, the "federal credit" would be \$500 and the state inheritance tax \$700, resulting in the Internal Revenue Service collecting \$4,500 and Texas \$700.

Under the new law, Texas would now collect the "federal credit" of \$500 and

the IRS would collect \$4,500, using the \$5,000 example.

In effect, the new law allows persons who owe federal estate taxes to deduct from the amount due the federal government any inheritance tax paid to the state. The amount is determined by an IRS formula.

The Comptroller's office said this also means that if

federal estate tax rates are cut, Texas inheritance taxes are automatically dropped back.

More than 45 other states have similar laws that piggy-back on the federal law.

Estates of those who died before September 1, 1981 are subject to Texas' old inheritance tax law and tax schedule, Bullock's office noted.

Senate reveals Glasgow record

The statistics on Senate attendance and voting during the Regular Session have just been released by the office of the Secretary of the Senate.

According to the report, Senator Bob Glasgow scored a 96 and a 98. The Senate convened eighty-three times and Senator Glasgow was

present for 80 with the three absences being excused. This is a 96% average attendance.

The report further noted that during the course of debate and consideration of legislation, the Senate voted on pending issues 2311 times. Senator Glasgow voted 2254 which reflected a 98% voting record.

Jaycees urge kids to practice for PP&K

Area youngsters wishing to participate in Punt, Pass and Kick are advised that it's time to start practicing. Muenster Jaycees will sponsor a contest even though the original sponsors, Ford Motor Co. and Ford dealers, are no longer involved.

Endres Motor Co. started its sponsorship of the program at the beginning, about 20 years ago, and has been joined locally by Muenster Jaycees for several years. According to Urban Endres, co-owner, this is its first year out of the program.

Gary Rainwater, project chairman, said Jaycees of Muenster, Gainesville, Nocona and Lindsay are planning their separate contests, after which they want a regional contest for local winners. Contest dates and other particulars will be decided as soon as possible.

Meanwhile kids are encouraged to sharpen up with practice. The local contest date will likely be in October.

Sept. 30, deadline for crop insurance

A statement this week from the Cooke County ASCS office reminds area farmers that Sept. 30 is the deadline in this county to sign up for the USDA all-risk crop insurance for winter wheat and barley. John R. Block, secretary of agriculture has asked that all farmers be alerted to this deadline.

USDA statistics show that every year one of every 14 planted acres never make it to market. Secretary Block said "Most farmers cannot

afford to take such a risk on their own without insurance protection. Our new crop insurance program is a major policy change from federal disaster programs that pay too little to too few farmers. All-Risk crop insurance is a self-help assistance program that is fair to all.

All-Risk crop insurance is available through several insurance agents of the county. A list of those agents is available by calling the county ASCS office, 665-4397, or the Federal Crop

Insurance Corp.'s toll-free number 1-800-447-4700.

THE RIGHT TO KEEP ARMS

The controversy over gun control can certainly be made very complicated, but in point of fact it is very simple. The case for the right to keep and bear arms can certainly be based on logic and reason, but generally it hinges on the wording of the Second Amendment.

It will be recalled that most of the States refused to adopt the Constitution unless a Bill of Rights was appended. The people of the infant Republic felt the central government needed more specific limitations. So these first ten amendments were added, listing the prohibitions against government. The rights of the people were to be protected by "thou shalt not."

On the surface it would appear obvious that the Founders considered the right to bear arms of great importance as it appears in the second of the ten amendments, immediately after the first, protecting freedom of speech, press, worship and assembly. The Second Amendment states:

"A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Now that should be simple enough for anyone, even a constitutional lawyer, to understand, shouldn't it? But the "do-gooders" who want to control our guns have constitutional lawyers who maintain that the right to keep and bear arms only pertains to the National Guard. They maintain that the Guard is the States' militia and therefore that is what the Second Amendment refers to.

Let's analyze the Amendment for a moment. In the first place, remember the only reason for adding the Bill of Rights was because the people insisted that their rights be protected from government more specifically than they were in the basic document, the Constitution. It follows, therefore, that what is being protected in the Second Amendment is an individual right, not a collective right of the militia.

Equating the militia of the 1700's with today's militia is ridiculous. The militia of colonial times was made up of each able-bodied male citizen who, as a matter of course, was armed. The militia of 1787-1789, during the period when the Constitution and the Bill of Rights were written and adopted, was "the people."

"The people" meant those individual citizens of the colonies. From earliest colonial times the States did have their militias, but there was no National Guard until 1903 when the Dick Act established the institution as a part of the United States Army under State jurisdiction and control in time of peace.

Larry McDonald of Georgia, who stated in May of this year: "The key to halting violent acts against our elected officials or our citizenry is not gun control, police state tactics, or penalizing the vast majority of Americans. It is restoring and carrying out stiff penalties against the minority of criminals — particularly repeaters — who use firearms in the commission of a crime. It may require overhauling of the Federal judiciary and perhaps limitations on its jurisdiction concerning enforcement of State criminal laws. The implementation of capital sentences must be resumed and endless delays in the execution of such sentences eliminated."

OUR UNEMPLOYMENT STATISTICS — DO THEY EXAGGERATE?

The U.S. Government's Employment Index distorts the amount of unemployment in the U.S. compared to other countries, according to Dr. John B. Parrish, Professor of Economics at the University of Illinois, who has just completed a study of the subject.

"Our unemployment is largely caused by governmental actions which reduce the employability of youth," says Dr. Parrish, "but the total percentage of unemployed is exaggerated by official figures which report high school and college students, and other teenagers, as unemployed if they have sought work and not found it or took jobs and quit, even though few are obliged to support themselves. In some other countries, these young people would not be counted as unemployed."

Some observers claim that the U.S. has one of the free world's worst unemployment problems, and that it represents a failure of free enterprise. Dr. Parrish maintains both charges are false. "Governmental figures indicate that unemployment in other industrial countries has run from 2-3 percent while ours has averaged around 5 percent. Often they count just heads of households, while we include everyone — breadwinners, their spouses who work occasionally and teenagers."

"Unemployment in the U.S.," says Dr. Parrish, "is not so much a general problem affecting mature workers as it is a youth and minority group problem." Even in the recession year 1975, when U.S. unemployment was reported at 9 percent, there was only 5 percent adult unemployment. The total loomed large because 17 percent of teenagers and 40 percent of black teenagers were reported jobless.

In other industrial nations, most young people leave school at 16 or 17, move directly into the work force, and stay there. Often they are apprenticed to a firm by contract, and even if not needed and not working will not be listed as unemployed.

By contrast, most American youth are in school when they first seek employment, don't have to support themselves, move in and out of the work force during high school and college, quit jobs of their own volition, and are listed as unemployed whenever they're not working. Professor Parrish also points out that U.S. minimum wage laws oblige employers to pay as much to inexperienced, undereducated youth as to trained older workers, while most other nations with minimum wage laws have special "youth rates." "This is the reason so many of our minority youth are jobless — minimum wage laws price them out of the market. It's certainly not the fault of free enterprise."

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
142 RUSSELL OFFICE BUILDING
WASHINGTON, D.C. 20510

The failure of stock prices on Wall Street to rise with the enactment of the President's full economic package has caused consternation among observers of the economy. This concern is exaggerated beyond the level warranted by the situation. It would be a mistake to view the sluggish stock market as a portent of doom for the President's program.

In light of the historic inability of the federal government to control its deficits, some skepticism on the part of stock investors is certainly understandable. But at the same time, these reluctant investors are failing to see tangible indications that the Administration's program is taking hold. More than that, they seem to have forgotten that the legislation enacted in the Economic Recovery Program does not actually take effect until October 1.

In fact, interest rates on treasury bills — used as a base figure in many interest rate calculations — already are beginning to inch downward. I am hopeful that trend will continue.

Inflation is at the single-digit level, and all indications are that this trend will continue. Employment levels are holding up remarkably well.

The President is firmly committed to making enough additional cuts in federal spending to keep the deficit for this year at a manageable level. I might add that I am confident we will be able to find sufficient areas in domestic spending to eliminate to meet that pledge. Even national defense is taking a share of the cuts, with the \$2 billion reduction in spending for fiscal year 1982, which the President has recommended, and I have reluctantly accepted.

In short, even the most skeptical observer should be optimistic about the success of the President's program. Interest rates remain a legitimate concern, but as the program begins to work — and investors and consumers see that it is — these rates should fall.

Further, the importance of Wall Street as an indicator of the success or failure of the economic program has been grossly exaggerated. So many factors and perceptions affect the short-term performance of stock prices that these fluctuations are not a good indicator of longterm economic health.

From April to September of this year, the Dow Jones Industrial average dropped by 17 percent. Yet, prior to that period stock prices rallied on the basis of the President's announcement of his legislative program. Does it seem logical that the announcement should spark confidence, but the keeping of these promises should cause consternation?

Further, this most recent drop is a relatively mild one, when compared to previous periods. In the two-month period from February to April of 1980, for example, the Dow Jones average declined by 16 percent. In the 17-month period beginning in September 1976, this price average dropped by 27 percent.

Certainly, I understand the concern of investors in all areas about high interest rates. But investors should at least give the Administration's program time to take effect and begin to work before they panic. And observers of the economy should not let the skepticism of stock investors shake their confidence in a viable, workable economic program.

membership. Of the two the former certainly seems preferable. Members then can join because they want to join, and also quit when they want to quit. At the same time union leadership will find that it can get along better by leading its members rather than by bossing. This brings out a slogan often stated by the Right to Work organization. "Good unions do not need compulsory membership and bad unions do not deserve it."

We're proud of President Reagan in his confrontation with the so-called solidarity

crowd. We too prefer his variety of solidarity, which applies to the big majority of average Americans, sticking together to revive the morality, economics and hard work upon which the country thrived.

This situation is somewhat similar to the complaints about budget cuts being unfair to the needy. The President stated the case very clearly when he said it's time for relief to taxpayers rather than taxateers. In this case again it seems like a good time to get a pampered sector of the society back in line.

Instructions from the... Owners Manual

by Mark Emerson

One basic goal of this column will be to emphasize the kingship or ownership (if you will) of the Lord Jesus Christ, assuming all the while that its readers are attempting to give the Lord this position in every area of their lives.

In defining kingship an important fact needs to be understood, that He will not enter in where we do not first vacate. Unlike an earthly king, He waits for us to submit our lives. Our vision of the proper idea of authority is all too often clouded. The world's authorities and our personal authority is often lorded over our loved ones or co-workers. Jesus said, "No, anyone who wants to be great among you must be your servant and anyone

who wants to be first among you must be your slave, just as the Son of Man came not to be served but to serve, and to give his life as a ransom for many." Matthew 20:25-18.

Jesus is no longer on this earth but His Holy Spirit has been sent to serve us in our endeavors to submit our lives to the Father. Our Lord said, "when the Helper comes whom I will send to you from the Father, that is the Spirit of truth, who proceeds from the Father, He will bear witness of me, and you will bear witness also, because you have been with me from the beginning."

May the Servant of all servants enter into our hearts and take His rightful place as king.

Hoedown scenes

Dick Ferber powers a buggy ride for his wife and Pat Fisher in one of Ferber's exhibits at the Harvest Hoedown.

The Library Board and Staff set up for a busy day selling 25 cent hot dogs for the Hoedown. They are Steve Moster, Mrs. Leonard Bayer, Mary Moster, Evelyn Schilling, Theresa Fowler, Ethel Hesse, Theresa Sicking and Leonard Bayer.

The chow line forms for two-bit hot dogs.

A one man band sponsored by Coors Beer was a busy entertainer for the Harvest Hoedown.

Two children here claim a few of the 200 red ping pong balls dropped from an airplane and redeemed at \$1 each in local stores.

Dry again

Dry weather has returned. Following the very welcome 6.36 inches earlier in September, Steve Moster had no readings this week. His total of the year now reads 27.13 inches.

Low and high temperature readings of the week were recorded as follows: Sept. 17, 50 and 72; Sept. 18, 48 and 73; Sept. 19, 50 and 80; Sept. 20, 55 and 86; Sept. 21, 59 and 93; Sept. 22, 66 and 92; Sept. 23 66 and 85.

MHS Los Jovenes elect officers

Los Jovenes, the Spanish school year, elected on Tuesday, September 22; Tim Schneider president; Lisa Martinez vice president;

Stephanie Richey secretary; Dale Swirczynski treasurer; Brent McElreath reporter; Ginnie Fisher and James

Bright are in charge of activities. The advisor is Mr. Robert McDaniel.

Kids celebrate at the Hoedown

Lots of people, especially the kids, had a big time Saturday at the Harvest Hoedown sponsored by the Muenster Chamber of Commerce. Meanwhile attendance was good at all stores, which were offering special values for the occasion and reported that the sales volume was good.

Mrs. W.J. Miller and Catherine Rollman were the lucky winners of the high interest event of the day, two drawings for groups of four tickets to the Cowboy football game with the Bears on Thanksgiving. Each deal included \$20 for gasoline and \$3 for parking.

Another popular attraction was the scramble for 200 ping pong balls dropped from an airplane by Henry Weinzapfel. Each ball was redeemable for \$1 in trade at a local store. The total number found and cashed in will not be known until the stores return the balls to the Chamber of Commerce. Kids obviously got the most benefit from this event.

especially with the kids were 25 cent hot dogs served by the Library Board as a fund raiser. The Chamber of Commerce provided all fixings. Library staff and board did the work and sold them...1040 of them. Still another good deal was free Cokes and Dr. Peppers, and well patronized by the youngsters.

Principal entertainment features were a one-man band sponsored by Coors and Skippy the Clown doing tricks and magic.

And under a tent at the Mid-Park Dick Ferber had a few of his antiques on display. Included were a buggy, harness, Amish buggy, and an assortment of buggy tools.

"Brown bagging" basics

"Brown bagging" brings to mind all too often those days of bologna sandwiches, potato chips, an apple and a carton of milk, doesn't it?

The lunch-from-home of the '80's is much more notable and memorable than that. These tables can be anything from a sophisticated slice of quiche

groups--milk, meat, fruit and vegetables, grains--should still be the basis for

planning what to take. But beyond that, you need to personalize the food groups.

Who will be eating this lunch? A construction worker who has used up a lot of energy and calories since breakfast? A company executive whose exercise has been confined to walking to the coffee pot? A child who is growing and active? A calorie counter whose main reason for taking a lunch is to keep the count down? Each of these people need the same basic foods--they

variety of interesting-looking foods to encourage them to eat lunch. Wrap their foods in clear wrap so they can see at a glance what they have. Cut sandwiches and other foods in small pieces; small servings are more appealing to young appetites. Avoid including too many sweets; they may get eaten at the expense of the more nutritious foods.

Calorie-counters often tend to skip lunch or let a diet soft drink take its place. These people need a good, balanced lunch as much as anyone, for their psyche and energy-level as well as overall nutrition. Breadless sandwiches, yogurt, fruit, low calorie soups--the possibilities for lean lunches are endless. A mid-afternoon snack of fruit or cheese might take care of any hunger pangs that might be creeping in.

to a hot or cold cup of soup to an ever-popular sandwich, but served today in pita (pocket) bread.

We still want and need the same thing at lunch that Mom planned for when she packed those bologna sandwiches. The four food

just need them prepared in different ways and packed in different amounts.

That construction worker is going to need more energy in his lunch than a desk-bound person. Larger portions of four food group foods in his lunch will do it. Active children need a

Windows for a Soul

Mildred C. Rauschuber

When I have died, don't tarry or delay
But rush me quickly to some waiting room
Where men may cut the cornea from my eyes
Before they seal me in a gaping tomb.
Oh graft them surely on poor darkened globes
That yearn and pray and hope to see the light.
Out there in space my spirit shall rejoice
That some rapt fellow mortal has his sight!
I've never once been asked to give my blood
No child has placed me in a mother's role
But I will rest content if this I know...
Some part of me is windows for a soul!

Coal's our most abundant fuel...

let's go ahead and use it.

Volumes of bureaucratic regulations restrict our use of coal at a time when its use needs to be encouraged.

We Americans have always been forward-looking people. We've always kept our eyes—and our options—open.

An energy option we need to exercise is the use of coal to generate electricity. It makes sense: coal is our most abundant fuel with known reserves that will last more than 300 years at present rates of consumption; its cost is rising slower than that of other fuels; and using it helps reduce our petroleum imports.

The largest obstacle to our continued development of this necessary resource is over-zealous government regulation. By imposing unnecessary measures this unrealistic over-regulation slows our progress, increases the cost of your electricity, and does little or nothing to protect the environment. For example:

- Present standards for coal plants require more stringent emission limits on a plant using low-sulfur coal than a plant using high-sulfur coal, which, in effect, provides an incentive to use "dirtier" coal and penalizes plants that use low-sulfur or "cleaner" coal.

- Regulatory documentation for a permit to mine coal in Texas in 1975 consisted of a single report about one-half inch thick. Obtaining permits for the same area in 1980 required volumes of reports.

We have the technology today to use coal cleanly and safely. It's plentiful and relatively inexpensive, if its use is not over-regulated. And we need the energy now.

City gets \$4,115 sales tax check

The city of Muenster received a check last week in the amount of \$4,115.09 as its rebate for city sales taxes paid here during the period ending Sept. 8, 1981.

The pay increases total rebates to the city in 1981 to the amount of \$63,440.51, a 6.93 percent increase over \$59,330.44, the total of 1980 rebates. The percentage of increase is considerably behind the state's figure, which was revealed as 14.7 percent by State Comptroller Bob Bullock.

Total rebates to all of the 750 participating cities was quoted at \$40.9 million, and the total rebates of 1981 to all Texas cities was \$480.3 million.

The optional 1 percent city sales tax is collected by merchants and businesses along with the 4 percent state sales tax and is returned each month, less a 2 percent collection fee, to the city in which it was collected.

Rebates of the month, along with the total rebate of the year to date and the percentage of change since 1980, are reported for other cities of the area as follows:

Garden Club sponsors two junior garden clubs

Two Junior Garden Clubs are now sponsored by the Muenster Garden Club, with Mrs. August Felderhoff as project chairman.

A club of first grade students began in the Kindergarten of SHS last year and a new club of second graders of SHS has held its initial activity.

The first graders each made a plant portfolio cover decorated with pressed flowers. The portfolio will be used throughout the year by each child, to add pressed plant specimens and leaves.

During the first meeting each child brought plants to

press and were taught the right method. Each child also received plants to transplant into its own container, to be taken home, cared for until displaying them at the Garden Club's Horticultural Exhibit on October 31.

Members of the First Grade Junior Club are Mandy Barnhill, Deann Bayer, Werner Becker, Aaron Berres, Rebecca Beyer, Stacie Cler, Julia Felderhoff, Tommy Greathouse, Michelle Hennigan, Barry Hess, Angela Hofbauer, Jordan Johnston, Eddie Lamkin, Martin McCoy, Melissa Miller, Toni Reiter, April Truebenbach and Christy Yosten. Their teacher is Mrs. Terry DeGarmo. The club is sponsored by the Muenster Garden Club, Mrs. James Roark president and Mrs. August Felderhoff, junior chairman.

The second grade junior club at SHS is a new club this year. Their first activity was making plant portfolio covers using seed and plant catalogs. The children will collect specimens, press and identify them, and add them to their portfolios throughout the year.

Membership includes Bernice Bartel, Vickie Bayer, Gussie Felderhoff, Jami Flusche, Mark Flusche, Jason Frost, Scot Hennigan, Shirley Henscheid, Chris Hess, Gary Hess, Gregg Hess, Beth Hoedebeck, Darren Klement, Kristen Klement, Helmut Koelzer, Cherie Moster, Stevan Nasche, Cindy Schilling, Lisa Schilling, Jennifer Walter, Melanie Wilde, Scott Wilde, Misty Vogel, Dana Hess.

A field trip was another activity when the group went to the Mid-Park on Friday, September 18 to pull weeds and plant Bluebonnet seeds.

The second graders' teacher is Mrs. Marilyn Smith. The club has the same sponsors as the first grade club.

When comes the month of September
Then we have to remember
Quickly comes October, November
and December
That's all of 1981
And not much of what we planned,
has been done.
Then comes 1982
Lots more plans, hopes, fears and
resolutions too.
Now will we meet them face to face
Or once again fall from Grace.
We must pick up where we left off
And let not our critics scoff
We hope to do what must be done -
And greet with appreciation
Each rising sun.
We each must strive to help our
fellowman
And with God's help
Do the best we can.
We all fall short of what we planned
But all true friends will understand
So lets work together, with love and
Kindness for common good.
Isn't that what the Golden Rule
teaches us we should.

Knights bomb Hornets 33-20

Lindsay Knights left no doubt Friday that their passing attack is an item for opponents to respect. It was awesome with Dan Bezner showing the accuracy and composure of a pro in completing 10 out of 12 attempts for 242 yards, including five touchdowns.

All of which made it a big night for the Knights. They had the pleasure of beating their favorite rivals the second time since the team started playing in 1967. And they did it at the MHS Homecoming! The previous Lindsay win was 15-7 in 1977, and there have been two ties.

Although the team's passing accounts for all of the touchdowns, its ground game was also impressive. Bezner joined Stan Dieter and Gary Weems in a rushing trio that gained consistently for a total yardage of 128.

This brings out an unusual fact about the game. Of the eight touchdowns, not one was scored by rushing. Lindsay's success seemed to rub off as MHS broke its passing jinx with two TDs and its third score was on a punt return.

As the game opened it looked like a long night for Muenster. After kickoff Lindsay started at its 38 and

covered the 62 yards in ten plays including a 15 yard pass to Darrell Dieter and the 14 yard touchdown pass to Leonard Fuhrmann. Huckaby blocked the PAT kick leaving the score at 6-0.

Moments later Muenster fumbled on its second series and Lindsay recovered only 35 yards from pay dirt. On the next play Bezner tossed an easy floater to Darrell Dieter who scooted on to the end zone. Bezner's place kick made it 13-0.

The third score was another quickie. Muenster punted in first series, Lindsay started from its 35, was penalized back to its 25 and put on a razzle dazzle act in which Bezner handed off to Stan Dieter who promptly flipped back to the quarterback while Len Fuhrman was streaking goalward. Bezner fired the bomb, Fuhrman picked it out of the air without breaking stride and continued to the end zone. Another extra point made the score 20-0 with 3:43 still remaining in the first quarter.

So far it was a spectacular show, thrilling to Lindsay, agonizing to Muenster. And the situation did not improve when Dale Hermes intercepted a Hornet pass on the first series after kickoff. But, finally the game settled

down to defense. Lindsay punted. So did Muenster. Lindsay punted again, and that's when MHS got back in the game. Gary Klement took the ball and drifted to the left sideline where a protective wall was forming. With the help of two nice blocks he got in the clear and went all of the way, 74 big yards. Dale Swirczynski's kick raised the count to 20-7.

The score was followed by a good break on the next kickoff, fumbled by Lindsay and recovered by Swirczynski on the Lindsay 35. Two tries there by David Flusche gained 4 and a third try by Flusche picked up 25 to the Lindsay 6.

That's where the Knights stood pat, halting the drive at the 1. However three plays later Lindsay fumbled again, Kevin Felderhoff recovered for MHS on the 9, and on the next play fired a touchdown pass to Tim Schneider. The PAT kick was blocked, and the score was 20-13.

After the next kickoff Lindsay fumbled on first series and Glenn Hermes recovered for the Hornets on the 25. Bezner intercepted on the next play at the 10 and had to kick to end the first series. Klement received and almost got loose again

but was hauled down at the 29. A holding penalty cost 10 yards and two tries gained 4 before Felderhoff heaved a 35 yard scoring strike to Vance Wells in the end zone. So, the hectic half ended at 20-20, starting the next half as a brand new ball game.

For moments it seemed that Muenster had momentum as Flusche picked up 10 in two tries and a pass moments later reached Schneider at the Knight 35, but the gains ended there and MHS had to kick. Those two turned out to be Muenster's only first downs of the half whereas Lindsay rolled on for 11 first downs with 86 yards rushing and 99 yards passing.

The first drive went 46 yards in 9 plays including the scoring pass to Dale Hermes for 18 yards. Bezner's place kick made it 27-20 with 2 minutes remaining in the third period.

After Muenster failed on first series Lindsay started another drive from its own 45 and gained to the 12 before stalling in the next series. Three plays reached the 5, a delay penalty cost 5 yards back to the 10, where a busted play spoiled a field goal attempt and Muenster got possession on the 24. However on next play Lindsay regained possession on Bezner's interception of Felderhoff's intended bomb. The ball was at the Knight 35 and the next series was 4 yards short after three tries. However, instead of kicking, Bezner ran and made first down yardage.

Two plays later, from exactly at mid-field, Dieter again took a handoff and flipped back to Bezner who connected with the streaking Fuhrmann for the final touchdown pass. A kick failed. Final score was 33-20.

Champion Eagles are next on Muenster High schedule

The biggest assignment to date for the MHS Hornets awaits them this week as they confront Valley View's Eagles, state champs last year and currently rated as No. 4.

Led by the super talented Alan Kassen, the Eagle outfit is versatile with a preference for the options and passes. It held a comfortable lead last week in statistics as well as scoring over Sacred Heart's fired up Tigers, who were going all out for a prestigious upset.

In experience the teams should rate near even, both having nine seniors on the lineup. However weight and depth are clearly in Valley View's favor. It has a roster of 33 whereas Muenster has 27. Also Muenster's heavies are one at 180 and one at 188, whereas Valley View has seven weighing 180 or more, three of them being over 200.

Regarding Hornet potential Coach Leonard Peters likes their progress and their spirit. Though annihilated by Lindsay's superb passing they played a great second

quarter and scored three times to tie the count. Specially good news was their improved passing, by far the best to date, and hopefully the eagerly awaited aid to Hornet rushing.

Also, the Hornets are ready. Coach Peters says they are still fortunate in having no injuries and their enthusiasm is running high, with visions of an upset.

Game time is 8 p.m. on the Muenster field.

Muenster splits two with Lindsay juniors

The youngsters of Muenster and Lindsay schools broke even last week in a pair of games at Lindsay. Muenster was the 61-12 winner in the junior varsity game. Lindsay was the 14-6 winner in the junior high game.

Lindsay grade schoolers got their first TD early in the second quarter when Leroy Hermes blocked a punt at the 30 and David Kupper scooped up the ball and raced to the goal.

They extended the lead to 14-0 near the end of the third period as Jeff Metzler went in from the 15 and Fleitman passed to Hermes for extra points.

Muenster points came just before the end in a quick drive for 80 yards. Three tries gained 12 and three more gained 6 before Doyle Lewis got loose on a 60 yard romp to the goal.

Muenster was first to score in the JV game following a 65 yard drive in which Ronnie Fisher and Neil Flusche did most of the ball toting. Fisher finished it with a 4 yard crash at the line and went over again for bonus points.

Lindsay responded with a drive of its own going 55 yards. Ken Fuhrmann made most of the gains and finished it from the 2 yard line. The run for extra points failed.

In the third quarter the Knights gained 40 yards to the 20 and lost 10 on the next series, after which Fisher and Flusche led the way on a 70 yard scoring drive. Fisher went over from the 5 and made the bonus points.

On first play after the kickoff, Fuhrmann broke loose and sprinted 71 yards to the goal.

Tigers hold champs to 13-0

Tracy Moses of the Valley View Eagles is stopped for a short gain by Tigers TJ Walterscheid and Hal Mollenkopf as Greg Walterscheid is moving in. Tim Voth Photo

Sacred Heart's Tigers looked like a million last week in holding the former state champion, now rated No. 4, to the very respectable score of 13-0. And the count might have been lower except for an easy touchdown when an intended kick was recovered as a fumble in the end zone. Besides, there was the occasion of the Tigers running out of time on a first and one situation just in front of pay dirt.

Coach Father Stephen praised his boys lavishly for their super job. "We're proud of you. You played a good game that might have been different except for that fumble. In spite of discouragement you hustled to the end, really hung in there tough."

Coach Henscheid agreed

heartily, adding he was proud of lots of hard hitting and gang tackling. Boys who stood out in the rugged defense were T.J., Greg and Wade Walterscheid, Mike Dangelmayr, Hal Mollenkopf, Mark Miller and Troy Yosten.

Offensive efforts of Sacred Heart were sparked mostly by Curtis Hesse and Brian Herr. Hesse gained 50 yards on 11 carries against the rugged Eagle defense. Herr completed 6 passes for 64 yards.

The contest started as a standoff extending through the first quarter and restricted to two first downs for each side. However Valley View threatened once, after an interception on the SH 39. That was followed by a first down on the 22 and a

run by Kassen which reached the 7 before he fumbled and Curtis Henscheid recovered.

Punt exchanges ended the next four possessions and then the Eagles got their second chance. Back on their 4 yard line the Tigers tried to kick and the snapback sailed over the punter. An Eagle got to it first, giving Valley View a quick and early touchdown at 10:05 in the second period.

On next possession Valley View started a good drive that gained 32 in six plays before Brian Herr intercepted a long pass on the Tiger 17. The following four possessions ended with two punts, an interception by Valley View, and failure to make first down on the next Eagle possession.

That happened on the Tiger 35, where SH started its best offensive effort, a 65 yard drive in five plays. Herr's pass to Henscheid gained 35, two passes were incomplete, a pass to Hennigan gained 14 and a draw play made 15 to the 1 foot line.

However tragedy halted them there. With 16 seconds remaining and no times out, the buzzer sounded before they got off another play.

The second half started as a see saw. Valley View com-

pleted two series and fell short on the next. Likewise Sacred Heart completed two series and was stopped on the third, and the Eagles were 67 yards away from their next TD.

A pass interference ruling gave them a start, five plays and a penalty advanced them to the 31, and a timely option play converted an apparent loss into a score. Kassen was trapped and flipped the ball to Moses who had clear sailing to the end zone. A kick added a point upping the score to 13-0.

The final period was intensive but unproductive. Each team was awarded a first down when its kicker was roughed, otherwise Valley View's two first downs were the only progress of the quarter. At

one time the Eagles wasted a good opportunity on a penalty. A pass completion reached the 10 but a clip penalty nullified the gain and set the ball back to the 35.

Another tough game faces Tigers at Fort Worth Christian

Sacred Heart Tigers are facing another tough one Friday as they anticipate doing battle with Fort Worth Christian, the second of four rugged Metroplex teams on their schedule.

The Cardinals seem to be rated over the Tigers in every way, according to information available here. With a roster that's almost all seniors, they have the advantage in experience and

size and depth, as well as speed.

As judged by Coach Virgil Henscheid, they have an over-all good team, and have been competing in fast company. Their present 1-2 record stands for a win over Greenhill and losses to North Plano and North Dallas, all classified as 3A or higher. It makes the Cards strong favorites over the Class A Tigers.

reaching Fort Worth exit left on Loop 820. Follow 820E to Holliday Lane and exit right on service road, then left from service road to Holliday Lane, passing under 820. Follow Holliday Lane about 5 miles to dead end at Bogart. Fort Worth Christian is there.

However, Sacred Heart is not intimidated. It is getting used to the strong teams, and, according to Coach Henscheid, improving every week. Last week, for instance it gave a good account of itself playing the Valley View powerhouse.

Henscheid and Father Stephen were proud of their boys, whose game was better than the score, considering a touchdown donated on a fumble. If the ball had bounced their way, they could have overcome the champs in spite of occasional mental mistake. "So, the Tigers are going to Cowtown to win, and they just may do it," says Henscheid.

A route to the game is suggested as follows by Jon LeBrasseur, athletic director. From I-35 W before

SHS Cafeteria Menus

Sept. 28 - Oct. 2

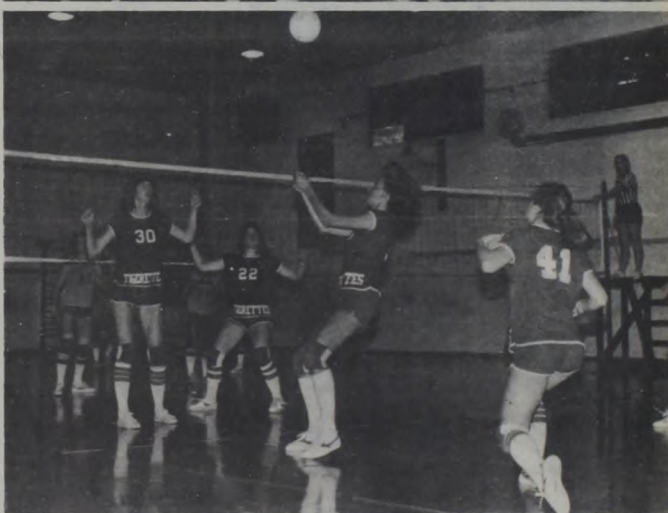

Mon. Sept. 28 - Fried ham, mashed potatoes, carrot and celery sticks, cake, milk.

Tues. Sept. 29 - Turkey and dressing, gravy, peas, cranberry sauce, bread, milk.

Wed. Sept. 30 - Lasagna w/cheese, lettuce salad, fruit cup, home-made bread, butter, milk.

Thurs. Oct. 1 - Meat Loaf, mashed potatoes, corn, apple rings, bread, milk.

Fri. Oct. 2 - Hamburgers, French fries, lettuce, tomatoes, pickles, onions.

The Tigerettes, just getting started in volleyball, came close in their second game after a one-sided loss in the first as they took on the Notre Dame girls. Valley View kids clobber Cubs 50-8

As if aiming for another champ team a few years hence, Valley View's junior high kids really performed here last week. Their scoring spree smothered Sacred Heart's boys 50-8.

They scored on every possession whereas the Cubs made good only once. That came at the end of a 70 yard drive in which Ken Hesse passed to Keith Hennigan for 20 yards and the score. John Nasche went over for bonus points.

Others doing a good job for the Cubs were Rusty Knabe, Lloyd Walterscheid, Tim Bartel and Daren Voth.

PHOTOS FROM THE PAST

Did you guess right on the Photos From the Past last week? Shown in front of the blacksmith shop on Muenster's Main Street were the late Joe Schmitz and Henry Schmitz, and Barney

Voth. Two could not be identified. Can any of you readers help? The picture was loaned to us by Mr. and Mrs. Joe Sicking. It was given to them by Mary Becker.

Bull Nettle (Cnidoscylus texana)

By Gary Rainwater
District Conservationist
Bull nettle is an erect perennial herb from a long tough root. It is a many branched, stout-stemmed plant having large leaves noticeably covered with white, bristly stinging hairs. It bears large clusters of fragrant, waxy white flowers. It is probably the best naturally protected plant except for the cacti.

The leaf blades are large, round, or broadly ovate in outline, deeply 3 to 5 lobed, with the lobes variously cut and toothed. The corolla is white, 5 lobed, about 1 inch across. The fruit is a 3 lobed, oblong, bristly pod about 1 inch long containing 3 oblong, edible, mottled grey seeds.

Bull nettle usually grows on poor, dry soil, either clay, gravel, or sand. The plant grows singly but are scattered abundantly in fields and pastures.

The Bull nettle, Tread-softly, or Malo Mujer as it is variously known is a close relative of the Castor bean.

The ripened pods break open with a violence that

scatters the seeds beyond the mother plant. The seeds have a nut-like flavor and used to be relished by people who used sticks to knock the seeds out of the plant.

The plant is most feared for the many poison hairs which break off in the skin and produce an unmistakable burning and itching pain. The flowers are sweet in odor, a waxy white texture in color. The flowers will turn brown whenever they are touched.

Malo Mujer is the Mexican name meaning Bad Woman.

Spirit Moms back the Hornets

The Hornet Spirit Moms are volunteers and mothers of football players, and a new informal group dedicated to a dual purpose: to indicate support from home and community through an original, thoughtful gesture each week and to show support from fans during games.

Mrs. Janie Monday is chairman of the group whose members are Mmes. Linda Walterscheid, Mary Evelyn Hermes, Evelyn Sicking, Polly Fisher, Carrie Winn, Sharon Wolf, Betty Rose Walterscheid, Wanda Flusche, Agnes Rohmer, Betty Felderhoff, Dorothy Swirczynski, and Sandy Peters.

The idea of Spirit Moms developed after a brunch for mothers. Their sentiments and attitudes are echoed in the following poem:

Our Part

We all want to win;
We all want the best.
We all want to be
Better than the rest.
We all need to share
The job if we care.
What should we do
To contribute our part?
Support our team
Straight from our hearts.
Do the boys have to do
All of the work?
And when they don't win,
Do we sulk and smirk?
When losing a game,
To the Gate do we go?
Doesn't this make
Our boys feel low?
If we want to win,
We should all do our part.
Stand up to holler
With all of our hearts.
Let's get off our bottoms
And up on our feet.
Let's show our boys
They're super neat.
