Science Fairs Top Texas School Week

Open House Monday And Tuesday Bovina Youth Plan Mass Demonstration

The Texas Public Schools, which observed their 115th birthday on January 31, have changed so much in recent years you wouldn't believe it. That is, you wouldn't believe it unless you paid them a visit. Texas Moms and Dads, along with local and area parents, always welcome at their local public schools, have a special invitation to visit during the Week of March 2 through 6. Superintendent of the Muleshoe Schools Neal Dillman, encourages every citizen to visit one or all of the Muleshoe Schools during this special week of celebration. Open house at Muleshoe High School, Tom Jinks, principal, and Muleshoe Junior High School, Fred Mardis, principal, will be on Monday, March 2 from 7 to 9 p.m. There will be a change in the showing of projects in the annual Science Fair which is slated for Junior High School, Fred Mardis said more than 200 science projects will be shown in the foyer of the gymnasium. Bill Taylor and Milton Oylar, principals of Mary DeShazo and Richard Hills Elementary Schools said open house will be held at their schools on Tuesday, March 3, from 7 to 9 a.m. Science Fair projects will be on display at the elementary schools at this time. Lazbuddie School Superintendent Sam Barnes said no special celebrations are being planned at the Lazbuddie schools, but invited all parents and interested people in the com-

community to attend the schools at some time during the week. The superintendents of Three Way and Bula Schools also invited everyone to attend their schools during the week and see what their children are learning. Texas Governor Preston Smith issued an official proclamation for the 20th annual observance of "Public Schools Week in Texas."

The Governor wrote: "During this period, parents are encouraged to visit the public schools, and all citizens are urged to recognize the tremendous importance of our system of education."

A Muleshoe student has been named to the fall semester Honor Roll at West Texas State University, Canyon, announced Dr. Donald Cates, dean of admissions and registrar. Farmers Union Hits USDA Cotton Program

Several Bailey County members of the Texas Farmers Union met with TFFU President Jay Naman of Waco, in Lubbock recently to discuss the recent reallocation of projected cotton yields.

Those from Bailey County meeting with Naman included Delbert Watson, Baileyboro; J.D. Rowland, Ivan Clawson, John Hubbard, Chester Settiff and Bailey County Farmers Union President Nolan Harlan, all of Bula.

Naman told those present that farmers in fifteen counties most of which are in West Texas, would lose almost three million dollars in income if the Department of Agriculture did not rectify its decision on projected cotton yields.

He commented, "We have pointed out to Secretary Hardin and the officials of USDA that the decision requiring a reallocation of projected cotton yield in certain counties could result in the reduction of payments as much as 19 or 20 percent to some growers in

the affected counties. In one county, the reduction has been as great as 35 percent to some growers.

"This USDA decision repeals a provision in the regulation relating to projected yield and ignores the legislative history regarding projected yield which was written into the 1965 Farm Act. Previously, the regulations have been interpreted to give the farmer the benefit of the doubt if he suffers from adverse weather. This Administration apparently wishes to move toward forcing farmers to prove up their cotton yield which is contrary to the legislative history and intent of the 1965 Farm Act."

Naman urged that cotton producers who feel that they have been dealt with unfairly in the allocation of their projected cotton yield, file an appeal with the county ASCS office immediately.

"Farmers Union will spearhead a drive to get farmers

Jerry Mobley Finishes High In PGA School

Jerry Mobley, Muleshoe Country Club Golf Pro, has just completed a Professional Golf Association Business School session in Palm Beach, Fla. With 150 students in the class, Mobley was notified that he had finished second in the entire class. This session was the second session of advance training in PGA business school the pro had attended.

He said the schools are held for advance training for apprentice golf professionals who are currently assistant pros or head professionals working toward membership in the PGA of America. Mobley commented that the school he attended is a continuing school, which includes home study and advance courses while working toward the membership.

A native of Monahans, he moved to Muleshoe and took over at the country club as pro on March 4, 1968. He, his wife, Judy, and their daughter, Kelle, moved to Muleshoe from Springfield, Mass.

Since moving here, he has implemented several additional golf programs at the country club and is presently working out details for a summer youth program. Through his efforts, golf is one of the 'big' recreational activities in the area. A recognized golfer in various tournaments himself, Mobley has either won or placed good in area golfing tournaments.

Library Hosts Special Guests From Lubbock

Muleshoe Area Public Library has had several visitors during the past week from Lubbock Libraries. Librarian Ann Camp said Bill Stewart, director of the Lubbock Public Library; Mrs. Ella May Platt, head of the Children's Library, Beth Miles and three others with the inter-library loan service were guests of the local library. Mrs. Camp said the guests wanted to see how a major resource center can serve better the libraries utilizing their service.

The Muleshoe Library utilizes the loan service library facilities and are constantly ordering books for local people, added Mrs. Camp. Two new Income Tax handbooks are now on library shelves said Mrs. Camp and she said these may be utilized by small businesses and individuals to compute their own tax.

The librarian also said there is a display of a record player from the Blind and Handicapped Division and there are several talking books in the library at this time. Mrs. Camp said there is no charge to blind or handicapped persons for use of the

Many Texas school systems, both large and small, have found that 'teacher-aides' can make great contributions to the school program. These classroom assistants are not trained to teach, but they are invaluable for such time-consuming tasks as giving tests, grading papers, running duplicating machines; securing, setting up and operating audio-visual equipment; assisting in

Research Book Now Available From Adams

A booklet which summarizes fertilizer research and demonstration work on the Texas High Plains over a 10-year period is now available from the county agricultural agent's office.

Title of the report is "Fertilizer Research and Demonstration Summary for the Texas High Plains, 1959-1967," according to J.K. Adams, county agricultural agent. It was prepared by James H. Valentine, area soil chemist with the Texas Agricultural Extension Service, and Dr. Arthur B. Onken, assistant professor of soil and fertilizer at the Texas A&M University Agricultural Research and Extension Center at Lubbock.

Information on a large number of the more than 200 research tests directly pertaining to fertilizer use and response on the High Plains is contained in the booklet, points out Adams. The publication summarized fertility research conducted with cotton, grain sorghum, wheat, alfalfa and sugar beets. Also, a general description of area soils and

their fertility status, fertilizer use history and a soil test explanation is included.

Adams adds that in addition to this research information, fertilizer demonstrations are also conducted in the county each year with cooperating farmers. This information is published at the beginning of each year in a result demonstration handbook that is also available at the county agent's office.

Adams points out that as yield potentials increase due to improved management and production practices, fertilizer use can be increased profitably. He urges all farmers and fertilizer dealers in the county to come by his office to pick up a copy of the booklet described above as it contains valuable information that may be helpful in planning a fertility program for this year's crops.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm comes up with an idea which up to now we hadn't thought much about.

I had planned to start up my tractor yesterday morning in preparation for the coming of spring but caught myself just in time -- not going to catch me polluting the air unnecessarily with a gasoline engine, it's bad enough with people smoking cigarettes and eating onions -- so instead I came inside the house and looked over a newspaper I'd been saving, although what I'm going to do with it when I get through reading it I don't know. You can't burn it without polluting the air or throw it away without littering the ground. Understand, I'm not suggesting that publishing a newspaper is a prime cause of littering in this country, but if you can't find something wrong about whatever anybody is doing these days, you're behind the times.

Anyway, in this newspaper which I don't know what to do with when I'm through with, I ran across an article by a psychiatrist who is a member of the National Commission on the Causes and Prevention of Violence who says, and I'm sure you and I may have trouble following him on this line of thinking, that one way to cut down on crime and violence is to license newspaper reporters and writers. That's right. He wants the government to license you newspaper people to assure the

Camp-Wilhite Vows Read

Lariat Church of Christ was the scene for the February 14 evening wedding of Patsy Wilhite, daughter of Mrs. Lonnie Wilhite of Route 2, Muleshoe and the late Mr. Wilhite and Michael Joe Camp, son of Mr. and Mrs. Joe Camp of Gar-

den City, Kansas. Jack Pape, minister of the Church of Christ in Pampa, Texas led the couple in the exchange of wedding vows. The double ring service was held before a setting of the memory candle stand flanked on either

side by large bouquets of pink gladioli. Ushers were Jay Herington, Muleshoe; Kenneth Wilhite, Muleshoe and serving with the Armed Services in El Paso, both cousins of the bride and Larry Rothwell of Clovis, a

close friend of the groom. Vocal music for the occasion was given by Mr. and Mrs. James Ensor, Mr. and Mrs. Leamon Stancell, Mr. and Mrs. Carl White, Mr. and Mrs. Gerald Curtis and Mr. Clyde Powell.

The group sang the traditional wedding marches and accompanied Mr. Powell as he sang, "Whither Thou Goest" before the ceremony and "Bless This Home", after the benediction. Immediately afterwards the couple lighted the memory candle and as they left the church, presented each of their mothers with a red rose.

Best man was Bill Roberts of Lubbock and groomsmen were Jack Ray Walker of Amarillo, both classmates of the groom.

Serving as maid of honor was Rose Aguilera, Muleshoe and bridesmaid was Nelda Winegeart of Farwell, both classmates of the bride. The girls wore floor length, velvet dresses designed with long sleeves, Empire waists and scooped neckline in fuchsia pink and light pink respectively. Each carried a long stemmed rose with pink streamers.

The bride, escorted to the altar by her brother, Delton Wilhite, and given in marriage by her mother, wore an antebellum gown of white Chantilly lace and bombazine. The moulded lace bodice featured a high yoked neckline and long lace sleeves gathered to petal point cuffs. The bouffant skirt was accented with a cascade of scalloped lace ruffles at the front and panners of bombazine outlined in the scalloped lace. Her detachable court train of bombazine was caught at the shoulderline with twin bows and bordered with lace and center of lace insertion. Her tiered veil of silk illusion fell from a colonial nosegay of silk lilacs highlighted with seed pearls. She carried a bouquet of red and pink roses accented with white mums with light and dark pink streamers entwined with pearls.

For something old and borrowed she wore a gold wedding band of her great-grandmother's, something new was her wedding ensemble, something blue a garter, for luck she wore pennies in her shoe, minted in the year of her birth and that of the groom.

Mrs. Wilhite chose a three-piece pink, knit suit with bone accessories for her daughter's wedding. She wore a red rose corsage.

Mrs. Camp wore a pink two-piece silk Shantung coat dress with black accessories. She wore a red rose corsage.

Wedding guests were registered by Barbara Wilhite, cousin of the bride.

The reception followed in the home of the bride's mother.

The table was laid with a light pink lace cloth over darker pink and centered by the three-tiered wedding cake, decorated with white sugar bells and topped by a miniature bride and groom. The bride's bouquet was used on the serving table. After the cake had been cut by the bridal pair it was served with punch, mints and nuts by Ellen Herington, Cynthia Doub, both cousins of the bride and Celia Aguilera a close friend of the bride. Crystal table appointments were used.

Floating hostesses at the reception were: Mrs. Margaret Wilhite, Mrs. Illa Ritchie, Mrs. Mamie Wilhite, Mrs. J.W. Herington, Mrs. Clarence Wilhite and Mrs. Troy Atkinson all aunts of the bride, and Mrs. Soledad Aguilera, a friend of the bride and groom.

When the couple left on a short wedding trip, the new Mrs. Camp was wearing a navy sheath dress with a navy and white houndstooth coat, made by her mother, and red, white and blue accessories. Complementing her attire was a red orchid corsage.

The bride, a graduate of Farwell High School and The Careers Academy of Houston, is employed by Dr. C.A. Rosebrough, a Lubbock Dentist.

The groom, a graduate of Farwell High School, attended Eastern N.M. University and Texas Tech and is now employed by the Southwestern Investment Company of Lubbock.

World Day Of Prayer March 6

Church Women United will join millions of people on March 6, 1970, in a bound of prayer spanning six continents. Prayers will be offered in seventy-five languages and a thousand dialects. World Day of Prayer is sponsored in the United States by Church Women United and will be celebrated in 25,000 communities.

Here in Muleshoe women of United Methodist Church invite all to join this worldwide fellowship between the hours of 9:00 a.m. and 6:30 p.m. in the chapel of the church. Materials for meditation will be available at the church.

This annual chain of prayer links the first voice at dawn in the tropical Tongas, just west of the International Date Line, with millions of others as it passes throughout the Day across oceans and continents. By nightfall, its message of hope will have followed the sun's arc until the last prayers are said in units of Church Women United in Hawaii and the islands of Alaska.

The theme, "Take Courage"—"Moet Houden," "Stech Fest," "Estuzerate"—was chosen and made relevant by an International Committee headed by Miss Gudrun Diestel of Germany. The program was developed as a housewife from Egypt, a social worker from Guyana, a church worker from the Philippines, and a woman from the U.S.A. discovered a common bond of worship and witness.

World Day of Prayer is a time when women of 130 lands join together to pray as one for imagination and courage to witness in new forms of mission on every continent. The planned program for the Day recognized, "It takes courage to bear witness to our convictions," "It takes courage to face the future," and "We give courage in acts of love and loyalty to the wide fellowship".

The challenge of the 70's across the continents is to bear witness to one's convictions when morals and decadence are at a premium. In India, Kenya, or the U.S.A., it takes courage to be one to the unknown in the 70's which are bringing so many changes to families the world over. World Day of Prayer will be reflecting courage for responsible action.

World Day of Prayer provides an occasion for participation in a nationwide offering committed to helping others "take courage". This year's emphasis are: new religious educational materials for Latin Americans and Spanish-speaking families in this country; support of a Secretary for Women's Work of the Near East Christian Council; the dispos-

esses Spanish migrant and Indian American communities. These are part of an Inter-continental Mission, a fund through which Church Women United expresses its concern for others in concrete terms including grants for Christian literature on six continents and grants to Christian colleges in Asia and Africa.

Girl Scout Cookie Sale

Girl Scouts of the Caprock Council will begin their annual cookie sale, Friday, February 27, announced Mrs. R.G. Rekers, of Lubbock, council cookie chairman.

Girl Scouts in the 18-county council will be selling the cookies through March 12. The price will be 50 cents per box. Around 6,000 girls will be selling five kinds of cookies: mint, assorted sandwich, butter flavored shorties, peanut butter, and pecanettes. Profits from the sale are divided between the troops and council. Council profits will be used for building and improving camp Rio Blanco.

Camp Rio Blanco is the camp for the entire council. It is located northeast of Crosbyton. Summer sessions will begin in June. Each session will be based on the Girl Scout program in the out-of-doors. Camp activities include crafts, hikes, swimming, songs, campfires, cook-outs, nature study and stargazing. Six sessions are scheduled for girls of various age groups.

While girls are selling cookies they will wear their girl scout uniforms or pins. A two-week campership for Camp Rio Blanco will be awarded to Girl Scouts who sell 350 boxes of cookies, or more. Girls selling 100 boxes will receive a "Cookie Champ" patch for their uniform. Those selling 25 boxes of cookies will receive a "Certificate of Honor."

Public School Week

It's time for America to proclaim its greatness, not murmur about its shortcomings. And, perhaps Texas will lead the way. The route is through education. In order to put this country, this state back onto the right track, it's time to begin teaching fundamentals again.

For the last 116 years, Texas Public Schools have tried to uphold these principles and characteristics. But, they need your support. They need your encouragement. It starts with a visit to a public school near you March 2nd through 6th. Let your child see that you care about him and his school. Let him see what you consider to be the really important values for your life and his.

Let us be responsible for providing the kind of education that will let our children know that they are responsible for the kinds of futures they and their families will enjoy.

The time for silence is over. Too long we have listened to the radicals and those who advocate change-overs to non-responsibility. Speak out-and begin by visiting a public school in your community March 2nd through 6th.

Keep the future in the minds and hearts of our children. Help support public schools so they can support you.

Search Begins For Top Young Auto Mechanic

The annual search for America's top young auto mechanic is under way.

Auto mechanic students from schools across the country--including a team from Muleshoe High--are entering the 22nd annual Plymouth Trouble Shooting Contest, according to Tom Jinks, Principal of Muleshoe High School.

All senior students in Muleshoe High's auto mechanics class are eligible for their school's Trouble Shooting team.

Two auto mechanic students will be selected for the team through intraclass competition to R.K. Minckler, Sr., the auto shop instructor, to represent Muleshoe at the local Trouble Shooting Contest to be held May 5, at Lubbock.

The contest consists of two competitions: a written exam for each participating student which will count as 30 percent of a team's final score, and a mechanical challenge worth 70 percent.

In the mechanical competition, students work on new cars supplied by local Plymouth dealers who sponsor the event. The boys race the clock and each other to find and fix several identical malfunctions purposely placed under the hoods of the cars by Plymouth engineers.

The Lubbock contest is one of about 100 local events being held across the country this spring. The winning team and its instructor earn an expense-paid trip to the National Trouble

After-School Hours Devoted To Practice

MHS BAND by Becky Sain

Being a member of the band requires much more time than the regular class periods. Under the direction of Mr. Jim Harvey, the band is working on several selections which they will play for the University Interscholastic League concert and sightreading contest.

The Mighty M Band has several performances in which to participate.

Saturday, February 28, many members of the band will participate in the U.I.L. Solo and Ensemble Contest.

Twirlers for the 1970-71 marching band will be chosen April 6. Many times the twirlers receive little or no recognition. The twirlers have many activities than twirling at the football games. This requires hard work and plenty of time. We hope our twirlers

next year will be as great as our twirlers this year.

This has been a very successful year for the Mighty "M". In making a I rating at marching contest the band was given the opportunity to make "Sweepstakes." This requires very hard hard work for each member. He must learn to do his best at all times. The band will try for Sweepstakes April 23. In order to make Sweepstakes, the band must make a I rating in both concert and sightreading.

The Mighty M Band has worked hard to raise money for the Six Flags Over Texas Music Festival. All funds were made by band members this year. The band will be at the festival May 7-8-9.

MHS CHOIR by Becky Phelps, and Sherri Minckler

This year so far has been a good year for MHS Choir. The choir is working toward a I at UIL which will be held in March. Our three contest pieces are Lacrymosa, Now Sing We All This Day, and Rise Up, My Love, My Fair One. There are 36 members in the choir. Mr. Ingham is our director.

On February 18 we sang at the Rotary Club. We sang Secular and Sacred music.

On March 9 we will have a Clinician. It will be from 12:45-4:30.

ART I & II by Mrs. Black

Each new art project brings its own challenge as we investigate the various mediums and techniques. Currently the Art I classes are involved in copper enameling. Each student visualizes and designs his own piece. From his design he chooses the best way of interpretation. Still it is the delicate wire tracery of Cloisonne or the structural recessions of Champleve. Some students prefer plaque-a-jour, filling drilled holes with translucent enamels which permits the infiltration of soft colorful light. Still other practice the age old method of Limoge where colors flow in a subtle transition. Regardless of the quality of the resultant object d'art the novice artist has learned the processes of the cutting, sawing, soldering, filing, drilling, polishing and firing of metal.

The study and practice in Impressionism has absorbed the interest of Art II students. Using short brush strokes and emphasizing the feeling of light on surfaces. The young artists experienced tremendous success as can be observed by their resultant paintings on display in the art room.

Post-impressionism with its feeling of form has been studied along with Impressionism. Paintings by Cezanne, Gauguin and Van Gogh are now familiar to Art II students.

What's next? That depends on what we need. Come by and see.

Earth's Spin Slowing Down Say Scientists

by Jimmy Lambert

Layers in fossilized mollusc shells, like rings in a tree, can be used to evaluate cycles in the passage of time. Using this system two Yale University researchers have determined that although the earth spins on its axis it is indeed slowing down, as some geophysicists have found.

By measuring the thickness of shell layers in some 22,000 molluscs from different geologic periods, paleontologists found that the number of days in the lunar month has been decreasing. In the Cambrian period, 500 million years ago, the earth turned on its axis about 31.56 times each lunar month compared to only 29.17 rotations at present.

Scientists say the rate of slowdown has not been constant. Following the Pennsylvania period, 280 million years ago, the slowdown became very slow, until 75 million years ago it resumed a more rapid pace.

BANDMASTER JIM HARVEY--Working toward higher UIL ratings and figuring marches and numbers, Bandmaster Jim Harvey works at his desk as well as on the stage and the field. His Mighty 'M' Band has garnered some top ratings this year.

FHA Plans For Area Meeting Discussed
