BROWNWOOD, TEXAS, THURSDAY, FEBRUARY 22, 1934

NUMBER 3

RELIEF WORK HERE BRINGS OUT NEED FOR CHARITY WARD TO SERVE COUNTY'S INDIGENT

STANDING need in Brown county today, relief work during the past year has disclosed, is the establishment of a charity ward in more of the Brownwood hospitals, Mrs. C. T. DeBerry told the Brownwood Community Council at its monthly meeting following Mrs. DeBerry's discussing the need. The Council voted unanimously to undertake the establishment of such a ward at once.

Mrs. DeBerry stated that a large number of the families on district rolls, which she directs for the county welfare board, have children in need of hospitalization. Unable to provide funds for this work, the welfare board is helpless, and must refer the cases to the local hospitals.

Dr. Homer B. Allen stated that the hospitals were requested to accept the charity cases almost every day, and that in many cases were unable to do so. He strongly endorsed Mrs. DeBerry's suggestion, and stated that he felt sure that the local hospitals would provide the relief at actual cost. One or two cases would be sufficient at present, he stated, and could be provided at a very low cost.

L. D. Miller, who spoke briefly in endorsement of the suggestion, as appointed chairman of a committee from the Community Council to appear before the Brown county commissioners court to request aid in establishment of such a ward. Other members of the committee named by Mrs. H. G. Lucas, president of the council and present at the meeting, are: W. C. Carl McIntosh, Mrs. J. W. Stanham, and C. A. Whitel. Mrs. Miller will be added to this committee, Mrs. Lucas stated.

L. D. Miller this week was looking into the legal status of the establishment of such a ward. It is maintained in almost every city in the state of Brownwood's size.

Dr. Allen also reported on medical welfare work being done by nurses and nurses at the Community House, 510 West Anderson, which is supervised by the council.

T. R. Havins of Howard College gave an interesting report on welfare work being done in various parts of the state. The value of his report was the Child Welfare Conference held recently in Austin, which Prof. Havins attended. The value of the welfare work in other communities was noted by Prof. Havins.

Welfare Association reports that of the outstanding reports of the Unemployment Relief Association, prepared by L. D. Miller, now in active charge of the association, and presented at the meeting.

The report showed that from January 5 to 15, the association had 215 people at an average of 2.3 cents per person per day. The basis of each meal is wheat, which is ground by hand prior to the meal. With exception of coffee and milk, all is served at each meal, and has been held down to about 10¢ per meal.

The possibilities of economical relief through an emergency were noted in the report. The relief served during the period of February 5th, served 21, at cost of 49 cents; Feb. 6th, 27, at cost of 47 cents; February 7th, 27, at cost of 56 cents; February 8th, 39, at cost of 76 cents; February 9th, 39, at cost of 56 cents; February 10th, 24, at cost of 55 cents; February 11th, 29, at cost of 55 cents; February 12th, 23, at cost of 41 cents; February 13th, 23, at cost of 70 cents; February 14th, 28, at cost of 70 cents.

Relatively few transients were served at the headquarters of the association, Mr. Green, although all who come are served.

72 Students Of Local Colleges Get Federal Aid

Students Will Get \$15 Month As Government's Contribution To Education

Seventy-two students will be enabled to continue their school work at Brownwood colleges through approval of applications of Howard Payne and Daniel Baker colleges by the Federated Emergency Relief Administration this week. The two applications were made to the state board at Austin last week, and approval was forthcoming immediately.

A number of the students already have begun work, according to statements from college officials. The work is to be divided, according to the percentage of enrollment between boys and girls.

Howard Payne has secured funds for 46 students, while the Daniel Baker application was for federal assistance for 26 students.

The applications were presented in Austin by Dr. Guy Davis, president of Daniel Baker, and Prof. T. R. Havins of the Howard Payne faculty.

In addition to assistance offered the students who now are in college but who could not continue their studies without this aid, funds are available for new students, not now enrolled, who will be enabled to enter the colleges through the financial assistance.

Up to 75 per cent of the funds allotted may be used to pay students now enrolled, and the remaining funds must be used for new students.

The students will earn their way by doing clerical and stenographic work, library and research work, work on the buildings and

Hundreds See Free Circus Acts Wed.

Several hundred people were in Brownwood Wednesday, February 21, for "Rural Day." The feature of the day's program in addition to bargains offered by Brownwood merchants, was a group of circus acts given on a roped-off block of Center avenue.

The acts were donated by the American Legion circus, showing this week at the Memorial Hall. The troupe drew the applause of the crowds who watched them go through their antics, and a raucous voice announced via loudspeaker that performances of the circus would continue each evening this week at the Memorial Hall, with special matinee Saturday afternoon.

ies at the Community House, of which she is in charge. A definite schedule is followed and play for children, as well as work for adults is planned. She reported on the number of garments given out at the home, and the care which is taken that they reach deserving cases.

Mrs. Lucas reported on various other phases of Community work, stating that the Saturday night entertainments would be resumed in the near future, under the direction of the Boy Scouts.

Several other members also made short reports. The meeting was held in the parish house of St. John's Episcopal Church.

VACCINATION LAWS TO BE ENFORCED IN BROWNWOOD SCHOOLS

Active steps to have every child enrolled in the Brownwood public schools vaccinated will be taken by the school board, it was announced this week when a report of the health survey, being taken by Brownwood physicians and dentists revealed that approximately 30 per cent of the children enrolled in three of the larger elementary schools do not have satisfactory vaccination scars or records of vaccination.

Health surveys have been completed for children enrolled at Ford, Looney and Coggin elementary schools. These reports disclosed a general high average of health among the pupils, it was stated, but the fact that about one-third of the children apparently have not been vaccinated is alarming to physicians and school officials. The school board is empowered, under the Texas state law to require vaccination, and it is planned to enforce this regulation in all schools.

Health surveys will be made of the children in South Ward and Brownwood Heights elementary schools during the coming weeks, after which students at the Junior and Senior High Schools will be given physical examinations.

Parents of children in need of medical or dental work will be notified of their children's deficiencies but no effort will be made to have the work done unless the child is in serious condition.

In addition to the lack of vaccinations, a number of children have been found with communicable diseases. In these cases, the children are sent home for treatment before being allowed to return to their classes.

Brownwood's Check For \$500 Received

Dr. Mollie W. Armstrong, who served as chairman of the President's Birthday Ball Committee of Brownwood, has received word from the treasurer of the Warm Springs Foundation that the Brownwood check for \$500 has been received.

Formal acknowledgement of the donation by Brownwood citizens will be made by President Roosevelt, the letter advises, just as soon as reports are received and tabulated from all cities participating in the Birthday celebrations.

Holiday For Bankers; Editors Must Work

Today, February 22, being Washington's Birthday, is a holiday for bankers, postoffice employees and certain other favored workers, but also being publication date for weekly newspapers is no editor's holiday.

Aside from the banks and post-office, few business houses in Brownwood were observing a holiday today, and business was normal throughout the city.

Public Schools were open; colleges closed.

UGH!

Direct relief in Brown county must have lost favor with the receipt this week of 48 dozen bottles of Cod Liver Oil for distribution to families on the relief rolls.

The cod liver oil will be distributed without charge to families needing this sunshine substitute and bone builder as long as it lasts. Many children are in need of the helpful oil, according to those in charge of the relief work.

In addition, women volunteers from the Community Council will explain the advantages of the treatment, the proper method of giving cod liver oil and give any other information regarding its uses and benefits to mothers who desire this knowledge.

For families not on direct relief who need it, a supply of cod liver oil is on hand at the Community Council, 510 West Anderson street, and will be given to any family needing it and not able to buy it, whether on direct relief or not.

PLANS FOR POOLING WOOL AND MOHAIR IN SHIPMENTS ARE MADE

Plans for pooling wool and mohair from Brown county, in order to secure a better price, were perfected at a meeting of sheep and goat raisers of the county at the court house Saturday afternoon.

The Brown County Wool and Mohair Producers' Association was organized at the meeting, and plans for marketing the spring clip through this organization were made. The wool and mohair will be stored in Brownwood and sold on sealed bids, it is stated, with the right being reserved at all times to reject all bids when satisfactory prices are not obtained.

C. M. Kilgore was elected president of the association. Other officers are: E. E. Durham, vice president and L. L. Lanford, secretary. A sales committee composed of Kilgore, Durham, W. H. Simmons, Chas. Bynum and H. I. Stapp was selected at the meeting.

Efforts will be made to interest growers in adjacent counties, who will be offered the opportunity of selling their wool and mohair through the local organization. Lists are being circulated for the enrollment of members of the organization, and it is expected that a majority of the growers in Brown and surrounding counties will be enrolled in the association before the spring clip is ready for market.

More than 100 interested farmers and growers attended the Saturday meeting. Charter members of the association, in addition to those named above, are: T. E. Hill, R. G. Seward, C. A. Cavel, W. L. Thomas, Roy L. Chapman, J. R. Lewis, W. T. Nixon, Harvey Harris, J. H. Sanderson, Bob Low, A. M. Henry, R. L. Mauldin and C. B. Forsythe.

BROWNWOOD CLUB TO BE HOST OF MEETING OF BUSINESS WOMEN

The Brownwood Business and Professional Women's Club will be host next week to the Fifth District Conference of Business and Professional Women's Clubs, which is to be held in Brownwood March 3 and 4. Sessions will be held at the Hotel Brownwood.

Among those who will be in Brownwood for the conference will be Miss Emily Knubell of New York, executive secretary of the national organization. Her presence here is expected to bring delegates from almost all of the 66 clubs in Texas to the Brownwood conference. Dr. Mollie W. Armstrong, district director, stated this week. Dr. Armstrong will preside at the two-day conference.

Clubs in the fifth district include those at San Angelo, Abilene, Colorado, Sweetwater, Snyder and Brownwood. In addition to the delegates from these clubs, Mrs. Fay Gordon of Amarillo, state president, and all state officers, will be here for the meeting, as will the chairmen of all state committees.

Officials of all clubs in the state have been invited to the conference, and many of them have stated they would be present. Dr. Armstrong stated.

Last year at the state convention at San Angelo, the Brownwood club had one of the outstanding features of the convention—the Old Gray Mare breakfast. At this breakfast, the local club served notice that it would make every effort to secure the state convention for Brownwood in 1935. The 1934 convention will be held in June in San Antonio.

The first state convention of the clubs was held in Brownwood in connection with the West Texas Chamber of Commerce convention here about ten years ago. Officers of the local club said this week that they hoped to put over the district conference next week with such success that Brownwood would be assured the 1935 state convention.

The complete program for the two-day conference will be announced next week.

Dr. Armstrong Will Attend New Orleans Optometric Meeting

Dr. Mollie W. Armstrong plans to leave Friday night for New Orleans, where she will attend the Tri-State Optometric Congress as fraternal delegate from the Texas Optometric Association. The Tri-State congress, composed of optometrists from Louisiana, Mississippi and Alabama, will be held February 25, 26, 27 and 28.

While in New Orleans, Dr. Armstrong will have the opportunity also to visit her son, R. Wright Armstrong, and family.

WORK TO SHUT DOWN UNTIL WEDNESDAY WHILE THOSE ON ROLLS ARE BEING CHECKED

COUNTY Administrator C. E. Boyett Thursday received notice that the CWA quota for Brownwood had been reduced from 881 to 639 workers, effective immediately. This is a reduction of 242 workers. Work in rural communities will be shut down until Wednesday, while investigators go over the rolls and eliminate the 242 who must be dropped from the active files.

COMMITTEES NAMED FOR GOVERNMENT'S CORN-HOG PROGRAM

Committees were selected at a meeting Friday of farmers of Brown county to direct the government's corn-hog campaign in this county. In addition to the Central Committee, named some weeks ago, community committees to have charge of the signing of contracts in the various communities were selected.

In the next few days each of the community committees will designate certain days and places to meet those who want to sign the contracts. Members of the committees will assist them in filling out the contracts and other necessary documents.

An effort will be made to complete the corn-hog sign up not later than March 1, County Agent C. W. Lehmburg states. "Those interested in getting their share of the money set aside by the government for those commodities should see their committee men at once and get their contracts properly signed up," Mr. Lehmburg stated.

H. G. Lucas heads the central committee. Additional members are W. R. Chambers and Macon Richmond. Community committees are as follows:

Cross Cut Community Committee—Claude Harrel, Cross Cut; T. M. Windham, Byrds. Blanket Community Committee—Macon Richmond, Jess Simpson. May Community Committees—A. P. Spence, May; H. R. Nichols, May, Rt. 2; Earl Allen, May, Route Three.

\$5,500 RECEIVED FOR DIRECT RELIEF HERE

A check for \$5,500 for direct relief work was received by the Brown county office this week. This will be the last money available until more state relief bonds are sold, a letter accompanying the check stated.

At Austin, the Senate Wednesday passed a measure issuing \$4,500,000 more of the relief bonds. The bill must pass the house before the bonds will be available for sale.

W. P. Allen, prominent Terrell banker, says the cotton program of the government is the greatest thing to help farmers' prices since he has been in banking. "More debts paid, more money in the bank, more taxes paid—I'm 100 per cent for the program," he declares.

Nearly 100 people from virtually every part of the county were at the Monday night meeting, at which Mr. Gaither presided. Those present were enthusiastic about Mr. Hunter's prospects, and will bend every effort toward carrying Brown county for him this year. Mr. Hunter carried the county in 1932 by a substantial margin but was nosed out in the statewide vote.

Committeemen named at the Monday meeting were: Frank Baker, Bangs, Mr. Calbert, Zephyr, Tom McCulley, Blanket, and W. R. Chambers, May.

The average Tom Green county cotton farmer agreed to reduce cotton production by 40 acres in 1934, and will receive nearly \$300 in rentals. Discreetly used this should pay the running expenses on the farm this year, the county agent estimates.

QUESTIONS AND ANSWERS ON THE CORN-HOG PLAN

Question: Can a contract be signed by a cash tenant without the signature of the landlord?

Answer: Yes.

Question: Can a contract be signed by a crop-share tenant who rents all of the land in his farm from one landlord, without the signature of the landlord?

Answer: No.

Question: What evidence of 1932 and 1933 production is required of a contract signer?

Answer: Sales receipts; weight tickets; signed statements of persons or agencies buying, selling or consigning hogs; farm account records, and any other documents which the producer may have available which prove his claim to hog or corn production. The producer who does not have such evidence may not receive his first payment as promptly as others and his figures will be subject to closer scrutiny.

Question: Is the producer who buys feeder pigs but does not raise any of his own eligible to sign a contract?

Answer: Not unless he is eligible to sign for corn acreage reduction. Hog reduction payments go only to those who owned the pigs when farrowed and sign contracts. If he does sign a contract for corn acreage reduction he agrees not to increase the number of feeder pigs bought in 1934 above the adjusted average number for 1932 and 1933.

Question: Can a contract signer buy feeder pigs in 1934?

Answer: Yes, but not in excess of the average number of feeder pigs bought by him in 1932 and 1933.

Answer: Not unless he is eligible to sign for corn acreage reduction. Hog reduction payments go only to those who owned the pigs when farrowed and sign contracts. If he does sign a contract for corn acreage reduction he agrees not to increase the number of feeder pigs bought in 1934 above the adjusted average number for 1932 and 1933.

German Black Forest Village

Visitors to the new 1934 World's Fair at Chicago, which opens June first of this year, will be able to walk into a typical village of the Black Forest region of Germany. Its picturesque buildings will be covered with a heavy fall of synthetic snow, and from the eaves will hang glass icicles. In the village will be a large, artificially cooled, ice skating rink. There will be German restaurants, typical in appearance and food of the Black Forest region. All of it, more than an acre in extent, will be brilliantly flood-lighted at night. This is but one of the many new features to be seen at the 1934 World's Fair.

College Students—

grounds, publicity work, or other work of the college.

The average allowed for each student is \$15 a month, although students may receive more or less, according to the amount of the work available.

Requirements for schools and students who receive the loans are as follows:

First, that the college requires at least the equivalent of high school graduation for the admission of regular students.

Second, the college must be a non-profit-making institution with its regular educational buildings and grounds exempted from property tax.

Third, its full-time student enrollment October 15, 1933 with 10 per cent eligible for part-time jobs to pay an average of \$15 a month.

Student Requirements

Fourth, students for employment will be selected in accordance with the requirement set forth by the Federal Relief Administration, which are as follows:

That the student's financial status shall be such as to make impossible his attendance without this aid.

That students shall be of good character and possess such ability as to give assurance that they will do high-grade work.

That not more than 15 per cent of the funds allotted to any institutions shall be paid to students enrolled in some college during January, 1934, thus permitting boys and girls now out of school to return and share part-time employment benefits along with students now on the rolls.

That jobs shall be allocated between boys and girls in proportion to the enrollment of each.

COPY OF BILL REGULATING FISHING IN LAKE BROWNWOOD

Following is a copy of the bill introduced in the legislature by Representative Wade Golson of Coleman, at the request of officials of the Pecan Valley Chapter, Izaak Walton League, and of the Brown County Water Improvement District No. 1.

The text of the bill follows:

A BILL TO BE ENTITLED

An Act prohibiting fishing in Lake Brownwood in Brown County until May 15th, 1935; prohibiting fishing at any time except during the open season provided in this Act; fixing the open season after May 15th, 1935, from May 15th to February 1st; prohibiting the possession of any fishing tackle or fishing device on the waters of Lake Brownwood at any time except during the open season; fixing a penalty for violation of this Act; repealing all laws or parts of laws in conflict with this Act; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS,

It shall be unlawful to fish, catch or attempt to catch or to have in possession any fishing tackle or device for catching fish on Lake Brownwood or within in fifty (50) feet of such waters at any time except during the open season for taking fish. There shall be no open season for taking fish in Lake Brownwood in Brown County until May 15, 1935, and thereafter the open season shall be during the period May 15th to February 1st.

Section 2. Any person violating any provision of this Act shall be guilty of a misdemeanor and upon conviction shall be fined in a sum not less than Ten (\$10.00) Dollars nor more than Twenty-five (\$25.00) Dollars and each fish taken in violation of this Act shall constitute a separate offense.

Section 4. The fact that great efforts are being made to stock Lake Brownwood with suitable food fishes and the knowledge that these waters can not be adequately stocked unless such fish are given opportunity to increase, and because of the nearness to the end of this session of the Legislature, creates an emergency and an imperative public necessity that the Constitutional rule requiring bills to be read on three separate days in each house be suspended, and the same is hereby suspended and this Act shall be in effect from and after its passage, and it is so enacted.

The Texas Centennial

Others from all over the country began besieging the directors to open the exposition again in 1934 as soon as the weather conditions would permit. Three-fourths of those holding concessions stated they were ready to sign new contracts for the 1934 celebration.

The United States Government and other foreign countries offered to continue their co-operation. Many states that failed to have exhibits in 1933 are already inquiring for space in 1934. Millions of those who have visited the fair have announced their intention of returning in 1934 for longer visits.

The 1934 Chicago Fair will afford Texas the opportunity to give the greatest possible publicity to "See Texas Centennial" of 1936, and at a minimum cost. Exhibitors and concessionaries will then be in a frame of mind to take part in the Texas Centennial celebration and will have nearly two years in which to get ready.

But before the Chicago exposition opens again in 1934, Texas must be ready with a definite program outlined for its 1936 celebration in order to be able to negotiate for such attractions as may be desired.

While Texas would not want to duplicate the features of the Chicago show, and would have a celebration of its own conception—unique and different—it should profit by Chicago's experience in pleasing the public and in attracting the largest crowds—experience gained from 1933 and 1934.

Proud of Record
Directors of the organization are proud of the record that has been made during the past year. In spite of very limited income, and an accumulation of debts from last year, every obligation contracted during the year has been paid in full, and heavy inroads have been made on the indebtedness.

Even with the reduced income, it is doubtful if the record of accomplishment of the chamber of commerce during the past twelve months can be surpassed by any previous year's record.

NEW APPLICATION FOR CCC CAMP IS SENT WASHINGTON

Still another application for a Civilian Conservation Corps camp at Lake Brownwood was on its way to Washington this week, as efforts to get one of the tree army garrisons for Brownwood's park were being renewed. This time the application is being made by the Pecan Valley Chapter of the Izaak Walton League, for the past year the leader in efforts to improve the camp site at the Lake.

The application now has the approval of the state park board, according to local information, and

there is every reason to believe that it will be approved in Washington, as government officials repeatedly have promised that if the CCC system is continued past April of this year, Brownwood will be one of the locations for the new camps.

Work at a number of the present CCC camps is drawing to a close, and already efforts are being made to secure camps from those locations where the work is being completed. Mineral Wells, according to newspaper reports, is making a strong bid for the camp at Garner Park, near Stephenville, and it is expected that that camp will be moved to the national guard grounds at Mineral Wells later in the year.

No definite camp has been asked for by the Brownwood leaders in the movement, but it is considered definite that one of the camps will be moved here.

It is thought, however, that the camp will not be moved here until about June, when work now being done at the park at Lake Brownwood will have been completed by the CWA workers.

Reports from Washington indicate that the CCC program, which was to have ended April 1, will be continued for another year, to

April, 1935. High army officials, first opposed to the system, have given it endorsement during the past month. It is understood also to have the endorsement of the administration.

The work done by the CCC camp at the lake, would be a continuation of the work now being done by the CWA workmen. This work must end by May 1, it is announced from Washington. It is considered unlikely that the work will be completed by that time, although rapid progress is being made on the permanent improvement of the camp site.

STOCK LAW ELECTION IS ORDERED BY COURT

A stock law election, to determine whether hogs, sheep and goats shall be permitted to run at large, has been ordered by the commissioners court for the Byrds voting precinct. The election will be held March 24, at the school house near Byrds Store. H. A. Newton and C. J. Thompson are named as managers of the election.

Calling of the election followed presentation of a petition at a recent meeting of the commissioners court by residents of the precinct requesting the election.

At the regular meeting of the commissioners court Monday an abandoned road between the L. W. Garmon and F. D. Pierce property lines was ordered closed. This was a part of old Highway 7.

The commissioners also agreed to furnish necessary material for a concrete box culvert or two corrugated iron culverts, 30 feet long for the new road to be built to Greenleaf cemetery, the city of Brownwood to donate the labor. This is one of the CWA projects in the city.

The court also entered a formal declaration of the need of a county auditor and requested the district judge to make appointment. This is a formality required in counties with assessed valuation under \$15,000,000 where an auditor is employed.
