Ten years ago, on January 22, 1973, the Supreme Court of this nation legalized abortion on demand. In plain words it decreed that thereafter it would be lawful to murder unwanted pre-born children. The so-called wise men of the court, who more than any other people of this nation ought to be familiar with the basic religious background of the United States, defied both God and their forefathers in repudiating the commandment, "thou shall not kill."

During these ten years the total of children killed is estimated at 12 million, an average of about 1,000 every day. These are human beings, God's chosen creatures, who have been deprived of their God-given right to life and the pursuit of happiness.

In fairness, perhaps it is more proper to say that most abortionists are not actually guilty of deliberate murder. That's because their ideas are founded on the materialistic theory that an unborn child is not a person. In their process of separating themselves from God they also discarded many principles which are fundamental in living up to national duty, including to assure all rights of all people.

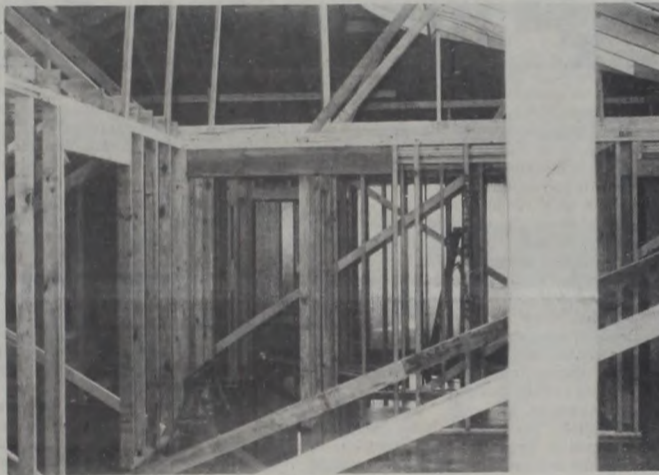

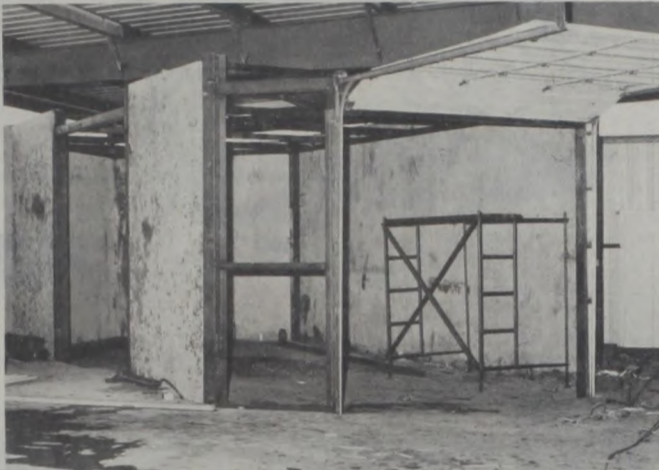

The negligence is apparent in several areas of every day life. In crime especially, adults rights are flagrantly violated by criminals who get the two-way benefit of inadequate prosecution as well as legal pampering. Our law enforcement program finds it impossible to keep up with crime, and besides, the lenience of legal procedure excuses many crimes in over-solicitude for rights of the accused.

The fault is evident in almost any crime. In robbery or burglary, for instance, an honest citizen is deprived of his possessions. If the criminal is caught he is required to make restitution only if he still has the stolen goods. More likely he has disposed of it, and if convicted he is given another chance in a parole or confined at public expense. He becomes a burden on society but his victim remains empty handed. Or in the case of murder the criminal either beats the case and completely escapes justice or he becomes an extended guest of the state.

Our system is all wrong. US can get back on the right track only by showing that crime does not pay and the criminal must pay. We have to restore the traditional purpose of America which is to guarantee every body's God-given rights, with clear distinction against allowing criminals to hide behind rights to escape the consequence of misdeeds.

Various practices of government can be included in the nation's laxity of traditional principle. Excessive spending in many areas funnels our taxes into pork-barrell projects, wasteful and unjust appropriations, over pay, and dozens of other cases of waste, and even manipulating the economy to serve a political purpose. All of this is a form of stealing. It increases our tax burden and takes away possessions we are entitled to. It is another violation of traditional American law

Scenes from two of several local construction projects are shown above. The top photo was taken inside Glenn Hess' new facility showing the steel and concrete structure of the paint bay. The overhead door opens to the outside to avoid dropping dust on a fresh paint job. In contrast the lower photo shows the maze of stud and rafter work at Ronnie Hess' future home.

Building industry stays steady in local area

In spite of limited activity in new home construction, the building industry remains steady in Muenster and surrounding areas. Local builders are working on a new house here, two at Saint Jo, one at Gainesville and one at Rosston. Meanwhile several additions and remodeling projects and some commercial jobs are in progress.

The new house in Muenster, for Ronnie Hess, is on Willow, across the creek from the city park. It's a 3 bedroom brick veneer structure with two baths, fireplace, central heating and cooling and double garage.

North of Saint Jo near Red River, Tom Trice is well advanced on a two story brick home with four bedrooms, three baths, fireplace, central heat and cooling and garage.

Also at Saint Jo Howard Lucas is building a two story

house with three bedrooms, two baths, brick and cedar siding, central heating and cooling, fireplace and carport.

Another two story house is Kenneth Carden's at Rosston. It has four bedrooms and four baths, air condition, central heat, exterior masonite siding.

Karl Klement is building a duplex at Gainesville, each side to have two bedrooms, bath, den, air conditioning and a single carport.

A separate building beside the Virgil Hess home is single car garage combined with a workshop

The biggest remodeling project is at the Sacred Heart rectory and consists of extensive interior changes and additions. Walls have been insulated and wall paneling installed both upstairs and downstairs and interior woodwork is being

Painted or varnished. At the same time a panel ceiling and central air conditioning were installed and carpeting is coming. Also included are renovation of baths and the kitchen, especially the kitchen, which is getting a new cabinet, range, dishwasher and microwave.

Kent Leverett of Era is adding a three-car garage and utility to his Spanish style house.

C.H. Christian of Rosston is converting the garage of his home into a bedroom, bath and utility.

Also converting an old garage is H.L. Moore of Saint Jo. The area is occupied by a kitchenette, den, bedroom and bath, and a two-unit carport will follow.

Initial steps taken by city for '83 street paving project

First steps toward promoting a pavement project in Muenster in 1983 got under way this week as the city sent letters to a number of persons who had petitioned earlier for the work.

City Secretary Celine Dittfurth explained that the first requirement for eligibility is to adjoin existing pavement so that the ad-

dition becomes an extension of the existing pavement. The purpose is to avoid small isolated patches, she said.

Next requirement is to install curb and gutter before May 1, allowing ample time for curing and settling before paving time arrives in late summer.

The city is interested in

helping all eligible persons get pavement this year. Any who have not petitioned are reminded that some can qualify if their addition can tie in with other pavement either old or new, and if the curb is finished before May 1.

Interested persons are urged to inquire at the city hall.

Enforcement of insurance law to continue

The Texas Department of Public Safety will continue to enforce the current mandatory liability insurance law as enacted by the last session of the Texas Legislature. A recent attorney general's opinion stated that failure to carry, produce or provide proof of insurance is not an offense. However, the opinion does not require DPS policy to be

changed. The offense contained in the law is "failure to maintain financial responsibility," i.e., failure to maintain liability insurance.

Colonel Jim Adams, DPS director, said: "the statute requires motorists to furnish information concerning evidence of insurance to a police officer upon request. Failure to provide satisfac-

tory information creates a rebuttable presumption under the statute that the motorist failed to maintain liability insurance. This presumption may be rebutted by presenting evidence to the judge that the motorist did in fact have insurance and the judge may dismiss the charge."

If the officer is not satisfied with the infor-

mation provided, he can issue a citation. Adams said troopers will continue to issue citations when drivers are unable to furnish satisfactory information.

The Department of Public Safety issued rules when the law went into effect detailing examples of information which would be accepted as evidence of financial responsibility. The items

include the insurance policy, insurance identification card, or other information which conforms to the satisfaction of the officer that the operator is in compliance with the law.

In an opinion dated May 14, 1982, the attorney general upheld these rules as binding on all law enforcement officers of the state. "If a person is unable to

furnish the information requested by the officer, the officer may issue a citation even though the individual claims to have the required insurance," Adams said.

Colonel Adams said the law has produced positive results, and has resulted in an increase in the number of Texans who presently carry liability insurance.

1982 busy and productive year for Upper Elm Red district

A summary of activity in the Upper Elm Red Soil and Water Conservation District, just released by the board of directors, reveals a busy and productive 1982. For that success the board extends thanks "to many local, state and federal agencies, plus 22 banks, 11 newspapers, 6 radio and TV

stations, hundreds of business and professional people and thousands of landowners and urban residents in our district who give us a helping hand in our conservation efforts."

After 41 years the district now includes all of Grayson, Cooke and Montague Coun-

ties. Until last year only the west part of Grayson was included.

Highlight activities were the 32nd annual awards banquet and seven newspapers cooperating with special conservation editions, the 22nd annual essay contest and attendance of the directors at regional

and state conservation meetings.

The district has completed repairs on 15 of the 17 detention dams damaged in the October 1981 flood and is still working on the remaining two, also repair work is progressing well in the other countries. The

district now has 334 flood control dams.

Principal items included on the year's program are 1133 individuals and groups applying practices, 31,588 acres of conservation plans and 23,953 acres of revised plans; 21 cost-share contracts on 2806 acres; 1010.3 acres of critical area plan-

ting; 51 ponds; 37 grade stabilization structures; 86.6 acres of grassed waterways;

118,789 feet of terraces; 195,340 crop acres benefited by conservation; 97,373 acres of cropland adequately protected and 74,651 acres of cropland adequately treated.

To protest abortion

Muenster Knights of Columbus at all services in Sacred Heart Church Saturday and Sunday will direct attention to the tenth anniversary of the Supreme Court's decision legalizing abortion.

They will place a lone rose on the altar, present a pro-life reading and distribute pro-life lapel roses.

Romans 6:9-11

We know that Christ, once raised from the dead, will never die again; death has no more power over him. His death was death to sin, once for all; his life is life for God. In the same way, you must consider yourselves dead to sin but alive for God in Christ Jesus.

The feel of winter

Damp and dreary weather hovering near the freezing mark, along with a light freezing mist, leave little doubt that winter has arrived. The feel is in the air, however the absence of snow and sleet and freezing rain is appreciated.

Meanwhile moisture is scarce. After Wednesday's measure of .15 inch, the current total is .62 inch.

Low and high temperature readings of the past week were recorded as follows by Steve Moster.

January 14	41 and 67
January 15	30 and 50
January 16	24 and 59

COMMENT

The Owner's Manual

By Larry Tisdale DVM

Did you ever wonder how our Bible that we use today came into being? 2 Timothy 3:16 says, "All Scripture is inspired by God and profitable for teaching, for reproof, for correction, for training in righteousness," and 2 Peter 1:21 says "For no prophecy was ever made by an act of human will, but men moved by the Holy Spirit spoke from God." These verses tell us that God used human authors to compose and record without error God's Word to man. This means that God put the thoughts which He wanted recorded into certain individuals, and these individuals then recorded these thoughts in various writings which later became our Bible.

I would like to spend the next weeks studying how God used various men to bring our Bible to us as we know it today.

The Old Testament was originally written on scrolls in the Hebrew language (the language spoken by the Israelites during the Old Testament times). To save space, because paper was very expensive, the people who copied the scrolls left out all the vowels, used no punctuation, and left no spaces between the words! (If it were in English,

Psalms 23:1 would look like this: PSLM23THLR-DSMYSHPHRDSHLLN-TWNT.)

Around the 3rd and 2nd centuries B.C. a translation of the Old Testament from Hebrew into Greek had become necessary because the large Jewish colony in Alexandria was becoming estranged from the Hebrew and thus from the Jewish faith. This first translation of the Bible became known as the Septuagint. Most of the church fathers could not read Hebrew, and the Septuagint gave them their sole access to the Hebrew Scriptures.

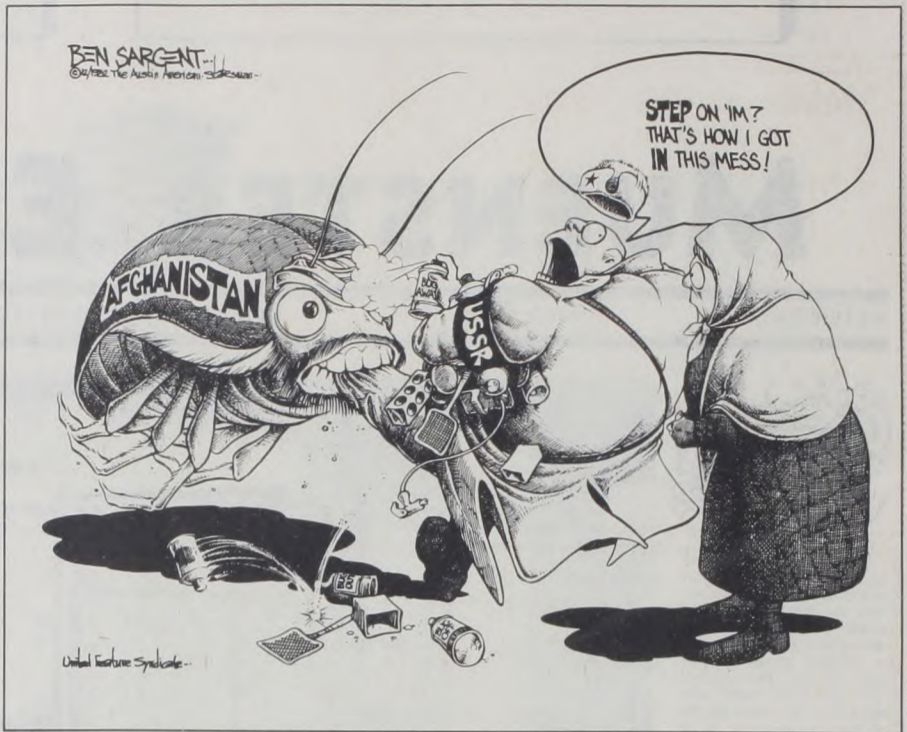

But that was for the Old Testament. When the New Testament was written, it was written in Greek. It has 27 books written by at least eight men, during the years 45-100 A.D. Copies of the books were made by hand, and many of the early churches had at least part of the New Testament. By around 200 A.D., all the books that are in the New Testament were put together in one book. Books were usually copied one at a time, but as people needed more, trained slaves probably were used to make many copies at once. The master would dictate to several slaves, who would

copy each book as he read it aloud.

During the 2nd and 3rd centuries there arose several Latin translations of the Bible. Confusion caused by the various Latin translations caused Pope Damasus I to commission Jerome as editor of a new and standardized text of the Latin Scriptures. Jerome labored at this project for more than 20 years, revising and reworking different sections of the Bible. The outcome of his work was the Vulgate, which was the Bible of the Western Church for more than 1,000 years. The Council of Trent adopted the Vulgate as the standard Latin version to be used in the church. Roman Catholic translations of the Bible into modern languages continue to be based upon it, and it is probably accurate to say that no other version of the Bible has exerted so broad an influence upon western religion and culture as has the Vulgate.

Because of persecution by people who didn't like Christianity, Christians were arrested and executed and their Bibles would be destroyed.

Next week we will look at translating the Bible into the English language.

While much of the hype surrounding the nuclear freeze movement makes for bad policy, I have to admit that it makes for good circus. Last summer's nuclear freeze demonstrations in Europe relied heavily on theatrics, using masks of skulls and other grotesque faces to dramatize the horror of nuclear war. It was in essence a show.

But while countless numbers of people were putting energy into a charade, one wonders why this cast of "peace" activists has not mobilized a worldwide audience to voice their outrage at the genocide going on right now in Southeast and Southwest Asia.

A recent State Department report shows conclusively that the Soviets are using poison gas and deadly toxins to exterminate thousands of people in Afghanistan, Laos and Kampuchea (Cambodia). If one is looking for vivid and frightening images of death, the effects of these chemical toxins should be enough to shock even the most hardened among us.

Called "yellow rain" by the peasants, the poison is delivered by aerial bombings and artillery attacks. Direct exposure to the poison clouds causes breathing difficulties, extreme irritation of the eyes, skin, nose and throat. Small, hard blisters form over exposed body surfaces. This is accompanied by coughing of blood, choking dizziness, multiple hemorrhaging, vomiting, seeping of blood from the eyes and ears, convulsions. Shortly after death the skin turns black.

The Soviets and their proxies absolutely deny the charges. So committed to "peace" are they, according to other published evidence cited by both the Reagan administration and NATO Secretary-General Joseph Luns, that the

Soviets are doing whatever they can to boost the nuclear freeze movement. The sinister irony is that while they are helping to orchestrate theatrical demonstrations in the West about the horrifying effects of a nuclear war — which has not happened — they are directing a terrifying theatre of the macabre in Asia.

Among the State Department's evidence were two Soviet gas masks. One was obtained near Kabul in 1981 and testing showed that the yellowish powder found in the mask was the same poisonous substance, trichothecene mycotoxin, identified in yellow rain samples from Southeast Asia. Another mask, taken from a dead Soviet soldier in 1982, contained the same toxins.

The use of chemical weapons is in violation of the 1925 Geneva Protocol and the 1972 Biological Warfare Convention to which the Soviets are a party. The implications for future arms control agreements are obvious. If the Soviets are blatantly cheating on past agreements and are using universally condemned methods of warfare, what confidence do we have that they would comply with future arms agreements concerning nuclear weapons? The State Department findings make strict verification provisions essential in any further negotiations about nuclear weapons.

If their activities in Southeast Asia are any indication of just how far the Soviets are willing to go in pursuit of their goals, the nuclear freeze proponents would do well to take off their make-believe masks of doom and look at the reality of death being orchestrated by those who are now crying the loudest for "peace."

Looking Ahead

SOME FUNDAMENTAL ISSUES

The recent investment conference in New Orleans presented by the National Committee for Monetary Reform certainly provided an opportunity for the 3,800 attendees to examine all possible scenarios for future performance of the U.S. economy.

We attended as many of the lectures as possible in order to report on significant matters which might be of interest to the general public. Because most of those attending the conference were investors intent on preserving or increasing their wealth, most of the presentations were technical in nature designed to assist these people in reaching their objectives.

For objective observers like ourselves, however, we came away impressed with the importance of considering certain fundamental facts if one wants to have a "feel" for the economic future.

For example, as was pointed out by some of the experts at the conference, the recession being experienced by the U.S. is in fact a world-wide recession. It affects every major nation. This is fundamental information.

This international recession has been brought about by two major factors. First, the OPEC oil cartel boosted oil prices far

above the free market level, causing vast distortions in prices throughout all economies as a result of greatly increased energy costs.

In addition, high oil prices caused vast transfers of wealth from all nations to the OPEC countries. This was especially hard on Third World countries.

This, in turn, has affected the ability of these less developed nations default on their loans an international banking crisis may affect major U.S. lenders and create a banking crisis in this country.

It is entirely possible, however, that U.S. taxpayers will be squeezed to bail out these countries to save the banks. But this, in itself, would be harmful to the U.S. economy as more wealth is transferred from U.S. taxpayers to other countries.

The second factor which has brought on this world-wide recession is the tendency of nearly every nation to inflate. As inflation must be factored into prices, including interest rates, it has a negative effect on business, especially on international trade.

There is much additional fundamental information which in our opinion must be considered by potential investors. This includes the trend in this country for the federal

government to spend some \$150 billion more for each of the next three years than its people are willing to pay in taxes.

There is no way these huge budget deficits can help but have a very negative effect on the economy. In the first place, huge portions of these deficits will be financed by government borrowing in the money markets. This will do two things, both harmful: It will increase the interest required to service the public debt, and it will increase inflation rates as the money supply is increased.

In the second place, that portion of the deficit not borrowed from the money markets will be made a part of the national debt. This also will do two things, both harmful: It will increase the interest required to service the public debt, and it will increase inflation rates as the money supply is increased.

If current trends are not halted, then reversed, it is entirely possible the wealth hopefully to be accumulated by investors will in the end all be confiscated by a government on its way to becoming a Socialist-Communist nation, with poverty for us all. When we compare the building of private wealth, with the preserving of the fundamental traditions of our American heritage there is no question! We must make God and Country first.

Capitol Update

One of the most tangible signs of growing citizen involvement and interest in their government is the increasing volume of mail I receive from my fellow Texans. I have received an average of 5,000 letters a week — plus mass-produced post cards which are part of organized mail campaigns.

I welcome both expressions of opinion, and requests for help in areas in which I am able to provide assistance. Letters are among the best means for me to keep in touch with your views. And, of course, a major part of my job is helping constituents with federal problems.

Often, I become aware of strong opposition or support among Texans on a particular legislative issue, and I take those views seriously as I examine legislation.

Concerning problems my constituents are having with the federal bureaucracy, I am able to assist in making sure the right person has received all of the relevant information — and that the matter is receiving timely consideration.

In addition, I receive requests for military academy appointments, and information about pending legislation.

All of these areas, as well as other federal-related questions, fall within my Senate responsibilities. But my jurisdiction does not extend to state or local matters. Nor am I able to give personal, legal or financial advice.

There are some things you can do to make it easier for me to answer your letters. If possible, all letters should be typed or printed neatly in ink. In addition, please include your name and return address on both the envelope and the letter.

If you are writing about a problem you are having with the bureaucracy, please be sure to give complete background on your situation and the steps you have taken before writing me. Letters expressing an opinion or requesting information on legislation should be directed to me at my Washington office. The address is: Senator John Tower, U.S. Senate, Washington, D.C., 20510.

Confetti...

and a violation of God's law.

These thoughts about adult rights may not seem closely related to the issue of abortion. And the action of Congress in giving priority to the economy appear to bear out the idea. But the nation is being short sighted. The over-all program of national existence is comprehensive and all of it must be based on the original principles taken by the founding fathers from time-tested laws dating back to

Moses and the ten commandments.

Just a few days ago some spokesman for the so-called intellectual elite made a sneering remark about the "stupid moral majority" as a misfit in modern America. In his worldly-wise way he proclaimed that it doesn't belong in our progressive society. Well, it happens that the scoffer is more stupid than the people he ridicules. He's completely off track in assuming that

there is no God. He's lacking in gray matter if he can't see that the world's mess today is a direct result of thinking we can get along without God.

Getting back to abortion, President Reagan has the right idea. He supports the human life amendment, which states "the paramount right to life is vested in each human being from the moment of fertilization without regard to age, health or condition of dependency." He believes

that an unborn child is a human being from the beginning, and its existence is guaranteed by the well known law and commandment, "thou shalt not kill."

However, he's slipping in one respect. He is compromising with abortionists in order to assure more cooperation in legislative procedure.

That's unfortunate. Materialists and humanists obviously have acquired suf-

ficient clout to overcome the influence of solid thought. This seems to indicate that it's time for a revival of the 1980 political philosophy when the president inspired the support of the moral majority.

Our principal hope for the unborn victims is that our president and all right thinking persons will join in a Christian crusade to restore traditional moral values to the American way.

**City gets \$3677
sales tax check**

The city's first rebate of city sales tax in 1983, for the period ending Jan. 7 was in the amount of \$3,677.05, and 11.16% drop from last year's first check and in line with other declines throughout the state. Comptroller Bob Bullock said

that the state's total rebate to nearly 1000 cities was \$32 million, a drop of 7.7% from the corresponding date of 1982. Statewide the principal causes of the drop were said to be a depression in the oil industry and repeated devaluation of the Mexican peso.

Rebates received by other area cities along with the percentage of change from last year are: Gainesville \$38,436, down 3.18%; Lindsay \$3,298, up 89.99%; Valley View \$633, up 2.21%; Pilot Point \$3,272, up 46.69%; Sanger \$1,536, down 20.84%; Whitesboro \$1,608, down 21.62%; Nocona \$5,363, down 27.45%.

Carolyn Beyer weds Charles Pickle in Denton ceremony

Mr. and Mrs. Charles Wade Pickle have returned from a Caribbean cruise to San Juan, St. Thomas and Nassau that followed their wedding in Denton on Jan. 8, and are now at home in Lufkin.

The bride is the former Carolyn Frances Beyer, daughter of Mrs. Robert Beyer of Gainesville and the late Mr. Beyer. She is also the granddaughter of Mrs. Joe Vogel of Muenster.

The groom is the son of T.B. Pickle of Jasper and the late Mrs. Pickle.

They were married in the Immaculate Conception Church of Denton, with Father Jerry Mosman officiating for the double ring ceremony at 11 a.m.

Before an altar enhanced with red poinsettias and lighted candles, the bride was presented by her brother, Gary Beyer. For her wedding she chose to wear her mother's bridal gown of elegant, heavy ivory satin. The illusion yoke was edged with gathered, wide lace, giving an off-shoulder effect to the bodice. Long,

slim satin sleeves came to a point over her hands; and the full satin skirt extended into an isle-wide, cathedral length train.

Her veil of ivory illusion fell softly to full length over the train. She carried a bridal bouquet of ivory and red roses and wore her mother's treasured wedding pearls, a gift on their wedding day from the bride's father.

Attendants

Mary Jane Beyer of Denton was her sister's maid of honor and Cynthia L. Fletcher of Dallas, a friend was bridesmaid. They were identically gowned in emerald green satin full length dresses designed with sweetheart necklines. Each carried a single long-stemmed red rose.

Danielle Pickle, a niece of the groom was flower girl; Scott and Darrin Hoening, twin cousins of the bride were ring bearers.

Randy Pickle of Dallas was his brother's best man; and Paul Smith of Houston, a friend was groomsmen. Danny Hoening of Denton, bride's uncle and John Harris of Beaumont, groom's brother-in-law were ushers.

Providing wedding music as guests were seated, and during the ceremony, were Raphael Briones, soloist and guitarist; and Curtis Gray, organist. Selections included: "Let It Be Me," "This is the Day," "I have Loved You", "Wherever You Go" and "The Wedding Song."

Reception

A reception and luncheon followed at the Holiday Inn of Denton, hosted by the bride's mother for 150 guests.

Janie Harris of Beaumont, groom's sister and Brenda Beyer of Denton, bride's sister presided at the guest book.

The rehearsal dinner was held at Allie I's Restaurant and Club in Denton. A shower honored the bride-elect on Nov. 27 and a rice bag party and brunch were held on Dec. 5.

Susanna Knabe and Paul Fleitman married

Susanna Knabe of Placidus Eckart in St. Mary's Church of Gainesville on Jan. 15 at 5 p.m. The couple is on a wedding trip to Hawaii and will be at home in Gainesville upon their return.

MR. AND MRS. PAUL JOESPH FLEITMAN

The bride, daughter of Mr. and Mrs. Lawrence Knabe, Sr. of Gainesville, attended St. Mary's School and graduated at Gainesville High School. She is employed by Lorch Company of Gainesville as a presser. The groom, son of Mr. and Mrs. J.W. Fleitman of Muenster attended Sacred Heart Schools, and is a dairy farmer and is also employed by J.W. Fleitman and Sons, Inc. and at Muenster Livestock Auction.

Given in marriage by her father, the bride was wearing an original white silk, princess-style wedding gown designed and made by her sister, Mrs. Raymond Fleitman of Muenster.

The bodice was overlaid with sheer organza that formed the high wedding-ring collar, edged with Swiss lace. The A-line silk skirt featured a detail of Swiss lace at the hemline. The long, full sheer organza sleeves were trimmed with ribbon lace marking the length from the shoulder to the silk and lace cuff. An over-skirt of sheer organza gathered and pleated formed the train of the gown. It was attached at the front waistline with a tiny bow, was caught to the back waistline with a bow and streamers. Swiss lace and seed pearls were embroidered into the center of the train and ribbon lace with seed pearls trimmed the edge of the train.

The four-layered soft net fingertip veil fell from a silk Juliet cap decorated to match the dress.

The bridal bouquet, designed and made by the bride's sister, Mrs. Gene Yosten of Muenster, was a cascade of pastel roses and buds, cream colored orchids, and frenched carnations, white spider lilies and tiny white wedding flowers, with accents of teardrop pearls and white ribbons overlaid with lace.

For sentiment and in keeping with tradition she wore a watch that once belonged to her grandmother, earrings borrowed from Mrs. Yosten, a cross necklace, gift from the groom and carried a white lace handkerchief, gift from her father.

Attendants

Bridal attendants were her sister, Mrs. Gene Yosten as matron of honor; and Mrs. Raymond Fleitman, another sister, and Mrs. Clyde Fleeman, groom's sister as

bridesmatrons, wearing silk gowns in blue, yellow and orchid, respectively. Designed and made by Mrs. Fleitman, they featured empire waistline, and sheer printed ruffles in matching colors outlining the V-necklines of the bodices, further enhanced with brief, gathered cap sleeves. Deeper shades of ribbon belts tied with bows in back and long streamers. The skirts were floor length, flowing softly into gathers and pleats. They wore flowers in their hair and carried miniature cascades similar to the bride's. All flowers were made by Mrs. Yosten.

The flower girl, Rebecca Fleitman, a niece was dressed similarly and carried a basket of flowers. Allen Knabe, a nephew, was ring bearer.

James Fleitman of Alberta, Canada brother of the groom, was the best man. Raymond Fleitman, groom's brother and Dominic Knabe, bride's brother were groomsmen.

Ben Fleitman, Jr. and Kenneth Skinner, both cousins were ushers. Marc Reiter and Steve Schmitz were Mass servers. Dave Reiter gave Readings in the Liturgy; and James Neusch and Tim Fleeman, nephews and Tawnia Fleeman, a niece, presented the Offertory gifts.

Wedding music was provided by Pat Hennigan Jr. organist, Mrs. Leo Lawson accordionist, Robert Martin and Jerry Kneupper guitarists; and vocalists Mmes. Terry Fletcher, Doug Reiter and Lawson, and Messrs. Kneupper and Martin, who presented instrumental and vocal selections before and during the ceremony.

Church decorations included arrangements of fresh white mums, blue and orchid carnations and yellow daisies on the front altar; wicker baskets of pastel silk flowers on the side altars. Lighted candles in the bride's chosen colors, and 4 potted ivy plants were lined along the Communion rail and at the entrance to the altar space.

Reception

A reception, dinner and dance followed in the Knights of Columbus Hall in Gainesville, hosted by parents of the couple. Decorations carried out a Winter Wonderland theme. Rohmers catered the dinner and Doug Martin's Band played for dancing.

Lisa Knabe and Cindy Fleeman, nieces, secured signatures of 300 guests in the bride's book, where decorations included the unity candle, invitation plaque and a yellow lace tablecloth made by Mrs. Ray Fleitman and used traditionally in the Lawrence Knabe family.

Decorations on the bride's table included snow men and snow women nameplates, dressed in the bride's chosen colors, white candles in brass holders and arrangements of silk flowers. A wall decoration held snow birds, hearts and snowflakes. The three tier bride's cake, made by Betty

Rose Walterscheid held a traditional bridal figurine in a heart design on the keepsake top layer. Pastel roses, cupids and birds decorated the white cake which stood over a blue fountain, surrounded by pastel flowers.

The two-tiered groom's cake carried out the winter wonderland theme in elaborate decorations and was made by the bride, her mother, her sister Mrs. Yosten and her sister-in-law Mrs. Alvin Knabe who also cut the groom's cake.

Cake servers were Tammy and Tonya Hellingner, bride's cousins, and Kristen Klement and Jenny Wimmer.

Special decorations throughout the reception room in the Winter Wonderland theme included snow men and snow women dressed in the bride's colors; also snowflakes, pine cones, bells and candles. The gift table featured a special scene made by the Knabe family, including a bride-and-groom figurine, a church, trees, horse-drawn sled and dolls dressed as the wedding party.

Mrs. Dominic Knabe, bride's sister-in-law pinned corsages at the reception and at the church. Out of town guests included Mr. and Mrs. James Fleitman of Alberta, Canada and others from California, Oregon, Oklahoma Texas and Cooke County.

Rehearsal Dinner

The rehearsal dinner was given by the couple in the home of Mr. and Mrs. Dominic Knabe on Jan. 13 when gifts were presented to attendants. A shower on Jan. 10 was given by employees of Lorch Company and a party on Jan. 11 was hosted by the bride's fellow-members of St. Mary's Church Choir.

When the couple left, the bride was wearing a pants suit and blouse made for her by fellow-employees of Lorch Co.

Growing Child

P.O. Box 620N, Lafayette, Indiana 47902 (317) 423-2624

Children and Change
Young children respond to new events in their lives in ways that can't always be predicted, according to Growing Child, the monthly child development newsletter.

One city child may eagerly explore everything in sight on a visit to a farm. Another will find the animals strange and frightening, the sounds and smells unpleasant.

Much of this has to do with the feeling of security a child has in a particular situation. This in turn depends a great deal on how the new situation differs from what he knows and is used to.

If we could always see the world the way a child sees it, it would be easier to understand his behavior. Failing that, an understanding of how a great many children behave at a given age helps provide clues to a child's feelings and needs.

Children seem to do best with a certain combination of sameness and variety. First of all, there are some activities where a child demands a highly structured routine. He wants to do things the same way each time and he gets upset if the routine is changed even a little bit. This is most evident in bedtime and mealtime rituals.

Eating and sleeping satisfy a child's most basic physical needs. Adults have long since taken these for granted, but a child does not. He feels very keenly that they have to do with his well-being. As a result, they arouse strong emotional feelings for the child.

In eating and sleeping, predictability means security to a child. If his basic needs are always met the same way, he is able to face the world with much more confidence.

It's the same with ideas. After discovering that a toy

car has wheels and can roll, a child spends some time making sure of this by rolling the car back and forth under his hand and giving it short pushes. Only later does he begin the variations, like rolling it on all kinds of new surfaces or letting it roll down an incline.

Once the basic idea is down pat, variations are interesting and a challenge for him. For best results, remember: not too much change, and not too fast!

For more information on the physical and social development of children up to the age of six, write to Growing Child, P.O. Box 620N, Lafayette, Indiana 47902. Include child's birthdate when writing. A year's subscription to the newsletter costs \$11.95. Free samples available on request.

On Christmas Day they were joined by Rt. Rev. Msgr. Thomas Weinzapfel of St. Pius X Parish of Dallas and Father Joseph J. Weinzapfel of St. Cecilia's Parish of Dallas.

On Dec. 26, they all celebrated the second wedding anniversary of Chuck and Melissa Roper; Sam returned to Houston; Thomas accompanied Denise to Schleswig, Iowa to visit her parents before returning to California. On Jan. 3 Joseph reported to Vance AFB, Oklahoma for fixed wing pilot training and on Jan. 9 Julia returned to Baylor U. in Waco.

And suddenly, it was all very quiet in both households.

Simpler tax form developed by IRS

The Internal Revenue Service had developed a new simplified tax form for single taxpayers, call Form 1040EZ. The IRS says that, as the name implies, the 1040EZ is a brief, simple-to-complete tax form.

The IRS estimates that over 20 million taxpayers will be eligible to use the new form. For example, most college students who file federal individual income tax returns will be eligible to use the 1040EZ even if they are claimed as dependents on another taxpayer's return.

To use the 1040EZ, a taxpayer must be single, claim only one personal exemption, and claim no exemptions for children or other dependents. All income must come from wages, salaries, tips, and no more than \$400 in interest.

Taxable income must be less than \$50,000.

The form contains only 11 items, the IRS says, which is half the lines on the Form 1040A for 1982. The 1040EZ is divided into steps that guide the taxpayer through the form.

Most of the instructions needed to complete Form 1040EZ are on the back of the form. However, the IRS advises that this year's 1040EZ flyers will need to use the 1040A instructions for the tax table and for the special worksheet used to figure the allowable deduction for charitable contributions on the new form.

The 1040EZ has been included in the 1982 Form 1040A tax package. It is also available separately at many local IRS offices and through form distribution centers in many banks and post offices.

Ag research in for 'exciting' times

Researchers gather for conference

Agricultural research is in for exciting times, according to the director of the Texas Agricultural Experiment Station, Texas A&M University System. The Experiment Station is the state's agricultural research agency.

During opening remarks at last week's annual TAES conference on the Texas A&M campus, Dr. Neville P. Clarke told about 500 agricultural researchers:

"We face some of the most exciting opportunities ever in the field of agricultural research as we move toward the year 2000. The problems facing agriculture are substantial, putting pressure on us to achieve and deliver the goods (new agricultural technology). Because of this, we face good and challenging times ahead."

Clarke added: "We're looking at a substantial amount of total change in

theyears ahead. However, we want to create and direct change rather than just react to it."

Clarke also reviewed some of the findings of the Target 2000 Project (the blueprint for progress in the Texas A&M University System recently developed by a group of some 230 Texas lay leaders at the request of A&M's board of regents) as it related to TAES programs.

"Target 2000 provided an opportunity for substantial input from outside sources regarding the direction of the TAES so as to be more responsive to the needs of the state," he said.

Clarke outlined the following critical areas addressed in the report, which are expected to be in final form later this spring:

- Water availability and cost
- Energy availability and cost
- Integrated resource use
- Marketing, transportation and policy
- Agricultural production efficiency

Clarke said a number of other critical issues were addressed in the Target 2000 Project, including soils, weather uncertainties, environmental protection, a safe and nutritious human food supply, and urban agriculture.

The preliminary project

report also dealt with various resources needed by the TAES to accomplish its objectives, including the establishment of a Texas water resources center, an agricultural policy center, and urban centers similar to the Texas A&M Research and Extension Center at Dallas. The report called for more efforts in the basic sciences, expanded use of

computers, completion of Texas A&M's west campus, and the expansion of TAMU centers throughout the state.

The Target 2000 report also noted that the TAES must respond to the needs of both the agricultural community as well as the general public and that it must streamline its management to become a more efficient and effective organization.

Pee wee football offered to Muenster youngsters

The details of a plan which would involve Muenster youngsters in a Gainesville pee wee football league were explained to interested persons Tuesday night by Larry Barnes of the Gainesville boys' club. All the program needs now is enough response to form a couple of teams to compete in the Gainesville conference.

Barnes said that in order to participate in conference play, members of the Muenster teams would have to join the Gainesville Boys' Club. The membership fee is \$6.

The fee covers all expenses except a jersey, mouth-piece and chin strap, which the boys will have to furnish themselves. He said the total cost to equip a boy for the program is actually about \$100. The rest is paid by sponsors.

MHS wins three of four games

Muenster High teams, currently having ups and downs, won three of their four games during the past week. As appraised by Coach Leonard Peters the Hornets are getting their game together and showing more hustle and more fourth quarter composure. The Hornets have been slightly below par.

At Alvord last Friday the Hornets trailed 4-2 and 14-12 in the quarter and half and gained in the third and fourth periods for leads of 21-19 and 35-27. Rita Walterscheid topped the scoring with 12, Stephanie Richey hit 11 and Shelly Zimmerer 6.

At Era they started with an 8-7 lead and picked up momentum in the next three periods for leads of 26-17, 40-22 and 52-28. Leading point makers were Rita Walterscheid 17, Stephanie

Richey 13 and Shirley Zimmerer 12.

The Hornets encountered the loop leader at Alvord and ended the first quarter with a 10-3 deficit, then trailed by nearly the same margin in the remaining periods for counts of 24-11, 37-25 and 52-37. Scorers were Wayne Carroll 11, Kevin Felderhoff 10, Ronnie and Stephen Fisher each 6 and Kevin Wolf 3.

Playing Era they led all the way, but just barely, as scores by periods were 10-7, 18-15, 34-29 and 46-38. Top scorers were Wayne Carroll 15, Kevin Felderhoff 13 and Ronnie Fisher 10.

Midway on their 31-A calendar both teams have a record of 3-2 and the season records are 8-0 for the girls and 12-5 for the boys. They will start the second half at Sidell Friday and host Forestburg next Tuesday.

Plans for the Fall 1983 season call for one game and one practice session each week for a team beginning in early September. The season is expected to last through November, with each team playing all the other teams once. Also, an all-star contest is planned for the season's end.

Perfect attendance at practice sessions or being absent only with a valid excuse will pay off for the youngsters in playing time. In such cases, the coaches are required to allow the players at least one full quarter of playing time.

Police Officer Larry Holloway who has been involved in coordinating the program locally said he plans to coach the fifth and sixth grade group but needs two volunteers to assist. Three coaches are also needed for the younger group.

Barnes has urged all boys interested in the program to pay their membership fee with the Gainesville Boys Club soon. He said the boys would not only enjoy participation in the football program but could also enjoy all other activities and privileges offered there.

Persons having questions on the program are invited to direct those questions to Officer Holloway.

Sacred Heart wins two at Chico

In a pair of games Tuesday Sacred Heart repeated a pair of wins over Chico, only more so. Both teams improved their score and their defense since the previous meeting.

The Tigerettes led all the way ending the periods with counts of 16-10, 37-19, 51-23 and 65-34. All members of the team had a part of the action.

Susan Walterscheid was the top performer with 20 points and 10 rebounds, Marilyn Hartman and Anne Felderhoff hit 16, Laurie Endres had 8 and Sandra Walterscheid 5.

The Tigers started with a 20-16 lead and gained to comfortable counts of 40-27 and 65-36 in the second and third, then coasted to their 83-57 win as reserves took over in the last period.

Leading scorers were TJ Walterscheid 21, Darrell Herr 16, Greg Walterscheid 12, Neil Hesse 10, Duane Haverkamp 7. The Sacred Heart teams will be at Amarillo this weekend playing Alamo High in final games preceding the district tournament. The girls, with a season record of 14-5 and a district record of 2-1, hope to improve to 3-1 and a tie with Notre Dame. If they succeed the ND and SH girls will meet in a play off next Wednesday, 7:30 p.m. in the Nocona High gym.

The boys, 13-6 and 1-2, are out of the running for the title and will try to qualify for the tournament. Girls have already qualified for the tournament.

Lindsay splits with Forestburg

Lindsay teams ended the first half of their district schedule Tuesday night by dividing honors with Forestburg. The girls, still leading the loop with a perfect record won the opener 55-37, after which the Knights lost 61-48.

Following a slow start and a 10-10 tie in the first period, the Knightettes took charge and gained for leads of 21-16, 37-24 and 55-37.

Their leading scorers were Gina Hellman 13, Bridget Fangman 11 and Dianne Luttmir 10.

The Knights started with a first quarter deficit of 14-7 and dropped back in remaining periods for scores of 30-26, 46-38 and 61-48. Doug Anderle led with 19, Glenn Hermes added 14 and Greg Haverkamp 11.

Lindsay wins and loses at Era

Lindsay and Era teams broke even in a pair of games Friday as the Knightettes continued their perfect record with a 73-17 run-away and the Knights went down for a count of 32-27.

The girl's game was Lindsay's from the start and all team members had a part of the action. Top score honor was shared by Shannon Fleitman and Beverly Neu at 16 each. Bridget Fangman added 12, Nancy Zimmerer 7, Dianne Luttmir 6 and Beverly Hermes 6.

The Knights made a good start and led 10-6 at the first quarter, but slipped in the second, allowing Era a 20-16 at the first quarter, but slipped in the second, allowing Era a 20-16 lead. They trimmed Era's lead to 24-23 in the third but could not keep going and trailed by 5 at the end. Greg Haverkamp led the Knights with 16 points, Glenn Hermes was next with 6, Aaron Hoeng made 3 and Jeff Hellman 2.

CCC offers mini-courses

Cooke County College has unveiled its lineup of community service mini-courses for spring 1983.

Offered through CCC's Division of Continuing Education, these short-term, low cost courses have proved popular among local and area residents seeking new learning experiences on a non-credit basis.

More than 20 different subject areas are included in the new lineup of mini-courses.

A course in beginning welding is scheduled to begin Monday, Jan. 24. Classes will meet each Monday thereafter for six weeks from 6 to 10 p.m.

Dr. Eddie Hadlock, dean of continuing Education at CCC, said the course is an introduction to welding theory and to practical application of basic welding techniques. Students will learn to perform both oxyacetylene and electric arc welding.

Cost of the welding course, to be taught by Carey Jenkins, is \$32. Students will be asked to supply their own gloves, hoods, striker and pliers.

Gymnastics for children, among the most popular community service programs ever offered at CCC, will begin Jan. 29. This year, the program has been given a new "twist" in the form of "Teeny Weeny Fitness" classes for two- and three-year-olds.

Hadlock said this special program calls for parents to participate in the teaching of certain exercises and motor skills to their children.

All gymnastics classes will be conducted on six consecutive Saturdays, and are structured as introductory level gymnastics classes focusing on skills training according to individual needs and abilities and on group activities.

Classes for the Teeny Weeny Fitness program will be held from 9 to 9:50 a.m., followed by four- and five-year-olds from 10 to 10:50, first through third graders from 11 to 11:50 and fourth through sixth graders from noon to 12:50 p.m.

Cost of the program is \$20 per child, and class sizes are limited to enrollments of 14 students each.

Among other mini-courses being repeated this spring due to popularity in the past are antique refinishing, basic photography, beginning

genealogy, bookkeeping, oil-painting, satined glass and typing.

New courses in the spring 1983 lineup will include antique barbed wire collecting, boating skills and seaman-

ship, interpersonal communication skills, gun stock checking, hypnosis for personal development, basic parliamentary procedure for conducting meetings, basic pruning techniques, conversational Spanish, stripper fishing and technical report writing.

Persons interested in obtaining additional information about specific courses or about the community service mini-course program in general may come by the Continuing Education office in room 120 on campus or call 817-668-7731, extension 220.

Forestburg News by Myrt Denham

Once again an old problem has reared its head in the community. It concerns the little roadside park outside of the Burg on the Montague Highway close to the Perryman cemetery. The park has once again become a dump-ground for people's trash and garbage. True there is a trash barrel there but this was not placed there for the convenience of local people but for travelers wishing to rest and eat their meals. Therefore, I have been asked to remind local area residents to please not dump their trash and garbage there as only one person tends and takes care of this park - and it is very hard work. All other people do is comment as to the condition, etc. and wonder why someone doesn't clean up the mess. They don't seem to realize that they, themselves could lend a helping hand to keep the little park clean and neat from time to time.

Ross Littell, out Stoney Point way, is on the shut-in list these days. We all wish him a very speedy recovery.

The Raymond Volkman's have moved to Forestburg on a permanent basis. They made the move before Christmas. Raymond is now on the retired list.

 That service to humanity is the best work of life.
