CONFETTI
By CORNFETTE

One of the most shocking crimes of recent times came to light last week in a news report that several teachers of a day care center in California, including an elderly woman who owns the place, were arrested last week on charges of child molestation. The heinous crimes became known when a number of victims, some as young as two years old, were found to have symptoms like bedwetting, nightmares, various kinds of sexual injury, and learning and behavioral problems. Investigation led to the fact that all attended a certain school and had been subjected to the vilest kinds of pornography and sexual abuse. As the story unfolded it became known that the atrocity had been going on for years and probably was part of a nation wide crime ring.

The parent of one of the children appearing on TV was at a loss for words to express her outrage. She declined to be specific in suggesting punishment, saying only that those criminals ought to be removed from society. They are not fit to mingle with decent people and certainly are not fit to impose their degrading influence on the little ones, causing irreparable mental and physical damage.

This leads to the question of how these people should be removed from society. Should they be made the guests of society?...imprisoned for the maximum duration of punishment while awaiting pardon and a return to their same old crime. That's how justice has operated in recent years. Or should this be a permanent removal?...assuring that the guilty ones will not repeat the crime.

A change in attitude toward capital punishment for murder suggests that the public is becoming less inclined to object to execution for other major crimes as well. After all, ruining the lives of innocent, defenseless children is as bad as ending the lives of others. Whoever doubts that should recall the words of the Savior: anyone who scandalizes one of these children deserves to have a millstone around his neck and cast into the sea. It indicates without doubt that God regards the ruination of children among the greatest crimes.

The lenient element of society would decline to go along with that idea, of course. It would say that the punishment in cruel, more severe than the crime, just as it is saying with regard to recent executions for murder. Really, it is getting tiresome to see publicity being dealt out to halt executions, an obvious purpose being to help criminals escape to punishment they deserve. And finally, when the appeal fails to cheat justice they make a big issue of the revolting details of execution. Again the purpose is to tell the public that capital punishment is barbarous and has no place in civilized society.

The answer to this is that murder is equally barbarous and has no place in society. It is forbidden by God, and punishment for it is justified by the old testament standard of an eye for eye, which the sob sisters try to nullify in so many cases by claiming that the punishment is more severe than the crime.

Regarding objections to severity of punishment, reasonable enforcement does not require equality of crime and punishment. An important consideration is deterrent, and its purpose is served when a criminal refrains because the punishment is sufficiently severe. It's like a stiff fine discouraging violation of the law.

Red River Farm Co-op members hear good report

Some 250 members of Red River Farm Co-op at their annual dinner meeting last Thursday at Cooke County College were told that sales of their organization reached an all time high last year but profits were cut by the rising cost of operation.

The information was given in a financial report by Charles Whittington, manager who expects to see improving conditions in the coming year. He said total sales were \$3,687,998 and costs were \$3,207,291 leaving a margin of \$480,707. Adding other income, the gross income was reported at \$573,746. Principal expense items listed were \$219,223 for payroll and benefits, \$92,123 for depreciation, \$48,491 for interest, \$34,455 for repairs and maintenance, \$30,621 for utilities.

The evening's headliner was Dave Arthur of Farmland Industries. He called attention to the hard times in farming because of export and import problems and high interest, and suggested trading with the co-op for the benefit of quality products, outstanding service, better prices and profit sharing. He also urged members to attend meetings and keep in touch.

In the co-op's annual election three members were unanimously elected to the board. They are Ed Schad secretary-treasurer; and Kenneth Hoedebeck and Clyde Yeatts, directors.

Dave Arthur of Farmland Industries was the speaker at the annual dinner meeting of Red River Co-op last Thursday. He praised the organization for its outstanding operation.

Other officers and directors are Gene Deckard, president; Mike Fuhrmann, vice president; and Leonard Bayer, Jack House, Kenneth Hutson and Peter Prescher directors. Members also honored their long time past president Julian Walterscheid with a standing ovation.

As an added attraction the members held their customary drawing for the attendance prizes. Among winners were Mrs. Andy Wimmer, Andy Wimmer, Hazel Perry, James Geray, Mary Ann Rauschuber and Betty Haney.

Co-op members to have annual meeting Monday

Entertainment will be provided by Billy Curtis and his band of Wichita Falls Hirschi High, which proved itself last year to be outstanding and will return by popular request.

A large crowd is expected at the meeting in the Muenster Public School auditorium. Registration begins at 6:45 p.m., entertainment at 7:15 p.m. and the business session at 8:00 p.m.

Included in the business session will be the election of directors in District 1 and 5 as well as a report by General Manager, Michael Sloan, on the operations of the Cooperative for 1983. Nominees for directors are Wendell Proffer and Jimmy Jack Biffle, both incumbents and both unopposed.

Drawings for close to thirty doorprizes will be awarded to lucky member-consumers. In addition, every registered member-consumer will receive a packet of wall plug and switch gaskets.

Following the drawings of doorprizes, refreshments will be served in the foyer.

The employees, management and board of directors encourage members of Cooke County Electric to attend this important meeting and bring another member.

Endres, Proffer win trustee races

The re-election of Urban Endres and Wendell Proffer to the board of trustees of Cooke County College ended the two hot races in last week's four way election in one location.

Endres won by a count of 2075 to 1206 over his challenger, Wayne Klement, and Proffer, with a total of 1975, led his opponent, Kenneth Kaden by a substantial margin. At Muenster Endres led 375 to 125 and Proffer 380 to 104.

Another person elected to the college board was Dr. T. M. Dixon, who was unopposed for the position vacated by Richard Cartwright. He received 2991 votes.

The only other action of the election was the late developing opposition of Wylie Lewis to Claude Klement for the city council position vacated by Bertha Hamric. Lewis received 89 write-in votes whereas Klement received 225. As

unopposed incumbents John Pagel received 306 and A.T. Tuggle received 293 for positions 1 and 2 on the city council.

Two other elections of the day were routine with unopposed candidates for all available positions on the Muenster school board and the Muenster hospital board. Incumbents Dale Klement and Leon Klement polled 422 and 429 respectively for the school board whereas incumbents Dan

Luke, G. Wm. Hermes and Albert Dangelmayr polled 478, 458 and 474 while Andy Klement and Werner Becker Jr. received 445 and 451 for places vacated by Rufus Henschel and George Berry.

The four elections were all held in the public school between 7 a.m. and 7 p.m. Election personnel were Doris Hamer and Lou Mosler for the city; L.B. Bruns, Edgar Dyer and Robert McDaniel for the hospital, college and school.

Hornettes show their happiness at the announcement that they are district champions of 31-A. However they had very few points to spare. Their score was 113, Lindsay had 110 and Paradise had 106. Pictured are: front, Pam Hermes, Judy Biffle, Rhonda Trubenbach and

Early indictment follows murder

At 12:30 p.m. Sunday Claude Eugene Meyer 45 was found murdered at his home in Valley View, and less than 48 hours later Richard Michael Jenkins was indicted for his murder by a Cooke County grand jury on evidence presented to District Attorney Phil Adams at 9:30 Tuesday morning by John Aston, sheriff's deputy.

Meanwhile the accused and a companion, James Duane Carney 27, were in

custody in Louisiana awaiting extradition to Cooke County.

As related by Deputy Aston, Meyer was killed in his bed by beating with a blunt weapon and the body was dragged into a hall of the house and covered with a blanket. Also jets on a kitchen range were turned on and a thermostat was set with apparent intention to start a fire to destroy the house. And a 1981 Cadillac owned by Meyer was

missing.

Aston promptly put the car information on a computer which reaches all states. First response to the theft alert came at 5 p.m. Sunday when sheriff's deputies spotted the machine at a roadside park near Tallulah La. As they approached the car, occupied by two white males, one ran away and the other, Carney, was arrested. Jenkins was arrested by Louisiana officers after a

1 1/2 day manhunt.

Meanwhile Deputy Aston was busy investigating the case and arranging with Louisiana authorities for transfer of the accused to Cooke County. Sufficient evidence for presentation to a grand jury was completed less than two days after the crime was discovered.

Early Wednesday Carney was charged with felony theft of a vehicle, valued between \$750 and \$2,000, and bail was set at \$10,000.

New city council sworn in

Members of the city council in special session Monday night canvassed results of last week's election and verified the election of Johnny Pagel, A.T. Tuggle and Claude Klement as members of the council. The men were then sworn into office.

Also on the agenda was a hearing on the city's paving project to supply answers for some current questions. For instance, variation of prices per running foot is explained by the fact that pavement widths vary. A wide street costs

proportionally more than a narrow street.

Another problem is thickness specification. Two inches of hot mix are planned for Mesquite Stree whereas others are to receive a 1.5 in. topping. Reason, Mesquite traffic has more and heavier vehicles.

Regarding no curb requirement beside a part of Mesquite, the reason is that a curb cannot handle the volume of drainage water there. Rather a heavy drainage ditch is needed.

Questions on financing and other specifications also received attention.

Another con game?

Beware! The rip-off guys are here again!

City Secretary Celine Dittfurth told the Enterprise this week that she has had inquiries about offers to install a fire extinguisher in a person's home as a gift from a friend, (and they name the friend, someone you know) as assurance that the gift is on the level. The gift offer comes through the mail and a reply is all that's needed to get the extinguisher installed.

However, there's more to

the deal. Promptly after the installer arrives he, or they, start a sales line about the merits of a smoke alarm system to detect a fire and give warning. The unit they sell costs \$200 or \$1100 for all rooms of an average house. The sales pitch is high powered as well as persistent. Prospects who have limited sales resistance have a problem.

Relative to the deal, the city secretary suggests that regardless of the alarm's effectiveness.

Good News

Mark 15: 1-5

Jesus before Pilate. As soon as it was daybreak the chief priests, with the elders and scribes (that is, the whole Sanhedrin), reached a decision. They bound Jesus, led him away, and handed him over to Pilate. Pilate interrogated him: "Are you the king of the Jews?" "You are the one who is saying it," Jesus replied. The chief priests, meanwhile, brought many accusations against him. Pilate interrogated him again: "Surely you have some answer? See how many accusations they are leveling against you." But greatly to Pilate's surprise, Jesus made no further response.

"Thou preparest a table"

WE NOW come to verse 5 in our study of the 23rd Psalm which says, "Thou preparest a table before me in the presence of mine enemies: Thou anointest my head with oil; my cup runneth over."

Even the good man has his enemies. He would not be like his Lord if he had not. If we were without enemies we might fear that we were not the friends of God, for the friendship of the world is enmity to God. Yet we see the quiet attitude of the godly man in spite of, and in sight of, his enemies. How refreshing is his calm bravery! "Thou preparest a table before me." When a soldier is in the presence of his enemies, if he eats at all he snatches a hasty meal, and away he hastens to the fight. But observe: "Thou preparest a table," just as a servant does when he unfolds the damask cloth and displays the ornaments of the feast on an ordinary

peaceful occasion. Nothing is hurried, there is no confusion, no disturbance, the enemy is at the door and yet the god prepares a table, and the Christian sits down and eats as if everything were in perfect peace. Oh, the peace which Jehovah gives to His people, even in the midst of the most trying circumstances!

"Thou anointest my head with oil." In the East the people frequently anointed their visitors with some very fragrant perfume. This not only served as a great refreshment but was also designed to show one's love and respect for the person being anointed. Anointing the head or feet of a guest was counted as a mark of esteem.

The act of anointing was also used in certain religious ceremonies in which kings and priests were set apart for their office by the pouring of consecrated oil on their heads. This was believed to impart to them a special

measure of the spirit of the Lord, as they dedicated their life to serving God. In this sense, those who call the Lord their shepherd have been set apart for a special service; that service being of spreading the gospel to the whole world.

"My cup runneth over." This shows the abundance of the rich blessings of God which goes beyond supplying only the mere necessities of life. He had not only enough, a cup full, but more than enough, a cup which overflowed. A poor man may say this as well as those in higher circumstances, "What, all this, and Jesus Christ too?" said a poor cottager as she broke a piece of bread and filled a glass with cold water. Whereas a man may be ever so wealthy, but if he be discontented his cup cannot run over; it is cracked and leaks. The Christian whose cup runneth over has learned to be content in all circumstances.

Registering To Vote Made Easy In Texas

By Governor Mark White

AUSTIN—Voters go to the polls May 5 to shape the outcome of Congressional, state and local elections, and new initiatives are already underway to secure a record turnout.

One of the highest priorities of my administration is to increase voter registration and voter participation in Texas but, since 1960, there has been a disturbing decline in citizen involvement in the electoral process.

Nearly one half of all eligible voters sat out the last nationwide presidential election. In 1980, 9.9 million Texans were eligible to vote but only 6.6 million registered to vote and slightly more than 62 percent of those registered cast their ballots.

Although the number of eligible Texas voters climbed to 10.6 million in 1982, voter registration dropped to 6.4 million and less than half went to the polls. When a large number of citizens do not vote, it becomes impossible for government to act in their interests. As more people abstain from stating political choices, the range of opinion and debate in our representative form of government narrows.

To improve voter turnout, I am writing the heads of state agencies to ask that boxes displaying voter

registration application forms be prominently displayed in all field offices. The Texas Legislature has authorized state employees to help register voters during regular working hours.

Registering to vote should rank among the most accessible services provided by state government to its agency employees and clients, but this drive must remain scrupulously non-partisan.

Secretary of State John Fainter, as chief election officer in Texas, is working with a 150-member Statewide Committee on Voter Registration to distribute voter registration information throughout Texas. Lauro Cruz, a special assistant to Secretary Fainter, is working with businesses, veterans groups, hospitals, nursing homes, public housing and churches to bring voter registration forms within easy reach of every eligible Texas voter.

Each Texas university campus has a designated voter registration coordinator, and this important push to maximize public participation in elections has assumed a higher profile in Texas high schools now that, by statute, all high school principals or their designees serve as deputy voter

registrars.

The Secretary of State's Office is contacting mass transit systems across Texas to ask that buses display voter registration signs and provide rack space for application cards written in both English and Spanish. Voter registration cards are also available in HEB Food Stores, Handy Andy Supermarkets, Safeway Stores, U-Totems, Skaggs, Kroger and Tom Thumb Supermarkets.

State government supports efforts by black and Hispanic groups to boost their ranks of registered voters. Out of an estimated 2.7 million eligible minority voters in Texas, one million have not registered to vote.

A recent study, sponsored by Harvard University and ABC Network News, found that 80 percent of American registered voters do exercise that right. But among democratic countries, the United States has one of the largest pools of eligible but unregistered voters, according to the survey.

By more aggressive voter registration efforts, Texas can set the pace for the nation in reversing the tide of voter apathy and restoring confidence in representative government.

Dr. George S. Benson Looking Ahead

Let's bid the U.N. "Farewell"

IT HAS taken quite some years for the great majority of the American

people to reach the conclusion that the Soviet Union is the enemy. If the United Nations is seen in its true light, it, too, will be seen as the enemy of free people everywhere. Fortunately, it does not have armed forces to enforce its policies.

The organization, which was conceived and organized, by Communist agents, began in 1945 with 51 members; it now has 157. Although some are smaller than most U.S. counties, with very small populations each has the same vote in the General Assembly as the United States does.

Of these 157 countries, only thirty can be considered democratic by the broadest stretch of the definition. All of the others are authoritarian, and many are

totalitarian to the most tyrannical degree.

In an excellent article in the October 1983 Reader's Digest, Ralph Kinney Bennett informs us that since the U.N. was founded, "140 wars around the globe have claimed close to ten million lives."

Not only is the U.N. not an agency for peace, it is constituted in such a way as to make peace impossible. Bennett quite accurately characterized the U.N. as:

"An organization that sanctions the violent overthrow of sovereign governments;...One of the Soviet Union's most important espionage posts in the West;...A political base, a source of funds, and a propaganda organ for terrorist organizations;...The advocate of a new 'world order' amounting to global socialism;...(and) A forum for anti-American,

anti-Western, anti-free enterprise activity."

Clearly, the United Nations is an abomination. We should withdraw all financial support to it, and insure that it leaves American shores.

In the 37th General Assembly in 1982, only ten countries supported the U.S. position even two-thirds of the time. Our top supporters were Israel, the United Kingdom and West Germany, in that order. Canada, France, Italy, Japan and the Netherlands supported us less than 70 percent of the time. Many of the countries which receive our generous foreign aid, vote against us in the U.N.

Recently, in a short-lived response to the Soviet's Korean Airlines massacre, Soviet aircraft were denied permission to land at New York's Kennedy and New Jersey's Newark airports. Because our host agreement

requires us to give ready access to meetings to U.N. members, Soviet Foreign Minister Gromyko charged us with failure to live up to the agreement. In response to Gromyko, Mr. Charles Lichtenstein, our number two representative to the U.N. said:

"If in the judicious determination of the members of the United Nations, they feel they were not welcome and treated with the hostile consideration that is their due, the United States strongly encourages member states to seriously consider removing themselves, and this organization, from the soil of the United States. We will put no impediment in your way, and we will be at the dockside bidding you a farewell as you set off into the sunset."

To which we say, "Amen!"

Proposition 13 lives

THE TAXPAYER revolt that grabbed national headlines after the 1978 referendum victory of Proposition 13 in California has resurfaced in a most unexpected place: Michigan.

Not that the movement was ever dead. Over the past several years a number of states, including liberal Massachusetts (Taxachusetts to longtime residents), passed similar tax limitation measures. And 32 states have approved measures calling for the government to convene a new constitutional convention to consider a tax limitation/balanced budget amendment to the Constitution. If just two more states approve similar resolutions, the feds have no choice; a constitutional convention it will be.

Still, the tax-and-spend crowd has complacently ignored the anti-tax movement. Until now that is.

What's been happening in Michigan is this: After Gov. James Blanchard and the Democrat-controlled state legislature passed a 38 percent income tax hike, state voters decided they had had enough. Led by a young United Auto Workers (UAW) union member, they have organized a string of recall campaigns, intended to oust the tax-and-spend crowd from the legislature. So far, there have been four recall elections — two late last year and two at the end of January — and in all four cases, the fiscal conservatives have been victorious. Nearly two-dozen other recall efforts are reportedly in the works. But just the four victories already have changed the complexion of Michigan politics, giving the anti-tax Republican Party control of the State Senate. There is even an effort to oust the governor.

The victories have not been close. In the two most recent elections, anti-tax Republican Rudy Nichols defeated

Democrat Stanley Kurzman by a greater than two-to-one margin. In the other contest, the anti-tax Republican defeated Democrat incumbent Mary Ellen Parrott by an even greater margin, 21,935 votes (69 percent) to 8,181 (26 percent).

An aberration? Hardly. The country is fed up. For example, though it was overshadowed last year by sex and diet and exercise books, one of 1983's hottest books was Irwin Schiff's How Anyone Can Stop Paying Taxes. The book sold some 185,000 copies and made the TIME magazine, Waldenbooks, and J. Dalton Booksellers' hardcover best-seller lists.

And Schiff is back at it again. He has a hot new anti-tax book, The Social Security Swindle — How Anyone Can Drop Out. Initial printing: 50,000 hardcover copies.

Howard Jarvis, who led the Proposition 13 battle; Warren Brookes, guru of the Proposition 2½ initiative in Massachusetts; Dan Powers, youthful leader of Michigan's anti-tax forces, and Irwin Schiff, who fights oppressive taxation by refusing to pay, come from remarkably different backgrounds. But they all agree on one thing: government's appetite for our money has grown too big and must be curbed.

As Schiff notes in his new book: "The Federal government is now so huge and unwieldy that it is impossible for it to control its own costs." His solution is probably not for everyone. But the ballot box is. And while you've got to admire Schiff's courage, you have to admire the effectiveness of Michigan voters even more.

Deacon Amos talk features KC breakfast program

Some 150 members and friends attending the Knights of Columbus communion breakfast in the KC Hall heard Deacon Clarence A. Amos of St. Peter's Parish, Fort Worth, discuss family life as well as a deacon's place in the modern church.

In his assignment as a marriage counselor, he recalled various marriage problems, including apathy and lack of patience, sacrifice and understanding. He also mentioned difficulties of modern society, adding Muenster is a desirable environment for raising a family. A final recommendation is to invest in children, by providing the kind of education which makes them happy and reminds them to pray for you.

Regarding deacons, he said their modern duty results from changes as parishes grow and the num-

ber of priests dwindles. They relieve pastors of many routine services like weddings and funerals and share administrative duties along with individual and group contacts. They differ from priests principally in that they cannot celebrate Mass and they can be married.

The breakfast was also the occasion for special recognition of two members who had been named in families of the month. Wayne Klement was selected by brother knights as the family of the year and received a statuette of the Holy Family and a certificate. Also Chris Walter received the statuette and certificate from the supreme council which had chosen him from all names submitted in the nation for the honor in February. Criteria for selection are services to the order, the

parish and the community.

Families which had been named during the year as families of the month were those of Harold Flusche, Gerald Walterscheid, Ronnie Hess, Wayne Klement, Harold Bindel, Walter Klement, Ben Fleitman Jr., Ed Endres, Ed Schneider, Walter Grewing, Bob Knauf and Joe Hoeng. Those named to date in the current year are Dolphy Hellman, Chris Walter and Gilbert Knabe. Wilfred Bindel, chairman of Families of the Month, made the announcements and presentations.

Certificates and pins were presented also to members with a perfect attendance at

meetings in the past six months. They are Charley Hellman, Joe Hoeng, J.W. Fisher, Gilbert Hess, Allen Sicking, Ed Endres, Ben Fleitman Jr., Wayne Klement, Roy Fleitman, Harold Knabe, Wilfred Bindel and Bob Knauf. Knauf made the announcements and presentations.

Grand Knight Ben Fleitman was master of ceremonies at the breakfast. Before closing he named J.M. Weinzapfel and J.W. Fisher for the longest membership, Weinzapfel with 66 years and Fisher with 61. And Fisher presented the speaker with the council's gift of appreciation.

Honored Sunday, April 8 by the Knights of Columbus Council 1459 when the Family of the Year award was given were Mr. and Mrs. Wayne Klement and children, Chris, Misty and Jeff. At left is Wilfred Bindel, chairman of the Family of the Month project who made the presentation. Staff Photo

iciency, sophistication or what not, the price seems excessive compared with units available locally for less than \$20 which have done the job satisfactorily for many years. Also that the value of the gift is probably less than \$10, which is poor compensation

for the hassle involved. Anyone who has a doubt is advised to consult with a friend, relative or business person whose judgment can be trusted. Another thought: being told that the gift of an extinguisher is offered does not obligate anyone to answer the offer.

Chamber reviews 'fest plans

With less than three weeks remaining until the 1984 Germanfest, members of the Chamber of Commerce occupied their April meeting with discussion of the festival. Mostly the talk referred to already completed preparations, indicating that little remained to be done.

The general idea was that a number of changes are developing, and all are im-

provements. For instance, increase of electric power lines will provide more current for concessions and also allow better lighting, especially in the west part of the park. Some of the additional wiring will be underground.

Regarding concessions, the number will be about the same however the intention is to assign size and location for crowd convenience and

to assist traffic control. As usual, the big tent will contain most booths and additional concessions will be located as convenient as possible. Everything considered, the festival is planned bigger and better than usual with a bigger fun run, return of old favorite entertainment plus some additions and great comfort with ample security.

Germanfest is dated for April 27, 28 and 29, with Wayne Klement and Alvin Fuhrman as the co-chairmen.

Aggie Muster date is April 21, 1984

Texas Aggies of Cooke County and others of convenient travel distance will gather Saturday night April 21 at 6:30 in the KC hall of Gainesville for the traditional Aggie muster. The event is held annually in hundreds of locations all over the world on San Jacinto day as a social occasion and a memorial to deceased A&M students.

The Cooke County muster will feature a talk by Jack Lyle Jr. of the class of '57, superintendent of production for Domestic

Insearch Corp., the first recipient of a scholarship from the Cooke County A&M Club.

The program includes a barbecue dinner at 6:30 with all trimmings followed by a dance at 8:30. The price is \$9.00 a person, the proceeds being destined for the scholarship fund.

Persons expecting to come are asked to make reservations by next Monday, Apr. 16, by calling Margaret Barnes 665-0618, Ronnie Clark 665-2397 after 5, or Van Knight 665-8531.

Jana Kay Barnes and Dan Fisher exchange vows in Gainesville

The wedding of Jana Kay Barnes and Dan T. Fisher was held in St. Mary's Church of Gainesville on March 24, with Father Nicholas Fuhrmann officiating for their vows and the Nuptial Mass at 5 p.m.

For her wedding she chose a formal bridal gown of ivory peau de soie and satin, in evening length, that dropped off-shoulder and was designed with a fitted bodice, dropped waistline flared skirt and chapel length train. The gown and illusion veil were enhanced with seeded pearls and re-embroidered lace trim.

Her bridal bouquet was a cascade of red roses, Pink Pixie carnations, ivy and white baby's breath.

"Knowledge is Real Power"

National Library Week (April 8-14) is part of an annual and continuing nation wide effort on behalf of libraries. It is intended to make the public more aware of the value of libraries and reading in our

society, to strengthen support for all kinds of libraries, and to encourage the use of libraries. This year marks the 27th annual celebration of National Library Week. The 1984 theme tells the world that libraries provide the knowledge to power personal achievement. It's a way to remind people that libraries are a free source of books, magazines, films, records, video and audio

cassettes. National Library Week proclaims the role of libraries in the information age. "Knowledge is REAL Power" celebrates libraries as both organized repositories of information and treasures of knowledge. For today's libraries are the vital link between the information of the moment and the chronicles of the ages. At the heart of this year's celebration is the idea that libraries can be all things to all people, for they provide the information people need in a form they can understand. Now more than ever, National Library Week is the time to remind everyone that "Knowledge is REAL Power."

Come to your local remodeled library and avail yourself of its services.

Library Hours: Tuesday 8:30 to 5:00, Wednesday 2:30 to 5:30, Thursday 8:30 to 5:00.

RICHARD F. WILLIAMSON

CANDIDATE FOR STATE REPRESENTATIVE - DISTRICT 63

DEMOCRATIC PRIMARY MAY 5, 1984

Again, I seek to identify issues of importance to our area. ROADS AND BRIDGES, REVENUE REQUIREMENTS AND GOOD MANAGEMENT OF PUBLIC ASSETS are important items that deserve your attention. I continue to stress that your Representative should make a commitment to you concerning the issues. For the four months I have discussed those challenges that will face your Representative, I have stated clearly my position on the issues, my response to the challenges. I have offered up new ideas to solve old problems. ENTHUSIASM AND THE DESIRE TO BE THE BEST — I WILL BE A POSITIVE, INDEPENDENT REPRESENTATIVE FOR YOU AND YOUR FAMILY.

ROADS AND BRIDGES

No one wants to discuss this pressing problem faced by rapidly developing rural counties. According to the State Comptroller, the average highway lifespan is 20 years and the average Texas highway is 18 years old. Take a Sunday afternoon drive throughout our area and confirm the facts — our road system needs attention now. Currently we enjoy the lowest state gasoline tax in the nation, less than one-half the national average. According to the Texas Department of Highways, we need at least \$500 million dollars annually to work on our 100,000 miles of unsafe highways. FIRST,

I will support legislation to insure the taxpayers that the "road dollar" is efficiently spent — my experience as a business man will help me identify waste. SECOND, I will support legislation to increase the state gasoline tax 6c per gallon to raise the much-needed revenue for repairs PROVIDED that the entire 6c is dedicated to the improvement of our roads. THIRD, I will work on legislation to insure that our State commitments are in line with Federal requirements to insure the maximum Federal assistance concerning our road budget.

GOOD MANAGEMENT OF PUBLIC ASSETS

None of us like to face the prospect of higher taxes but the facts are clear — this state and our area is growing! More people means more use of roads, greater crime problems, expanding education needs — in short, a strain on our current system. I have consistently discussed the good with the bad because there is no question that the 1985 legislature will make the decision to increase taxes. I THINK YOU SHOULD CONSIDER A CANDIDATE WITH THE EXPERIENCE TO ANALYZE BUSINESS-ORIENTED LEGISLATION. The real question will be — what tax measures will your Representative

support? I am on record as opposing any property tax increase to fund education, I will support an increase in the general sales tax to fund increased education costs PROVIDED that substantially all of the increase is specifically allocated to fund education. I am prepared to support an increase in the state gasoline tax PROVIDED that the increase is dedicated to improvement of our roads, I vigorously oppose any suggestion of a state personal income tax. Finally, I will work to identify any revenue source that is unfair and requires a different approach.

REVENUE NEEDS FOR STATE GOVERNMENT

I have ten years of hard-earned self-employment management experience. Working with people, budgets and a large organization has provided me with a sense of right and wrong — what will work — what is practical. I am convinced that an experienced man can identify waste and inefficiency in state government. If we can find waste, we can reduce the amount of tax increase necessary. I support a strong Sunset Commission to review state agencies for continued existence. A state agency is an "asset" of state government and should be required to justify continued operations regularly. I

support a strong "conflict of interest" legislation to warn all state employees (including your Representative) that we will not tolerate anything less than above-board conduct. I support increased use of our state college education system to monitor government programs — let's put our students to work solving problems while they learn. Finally, I support careful cash management including prompt tax collection to maximize return on cash assets. In short, the business of the Texas Legislature is to manage your assets efficiently to achieve good government.

During the final weeks of this campaign, I will discuss my thoughts on current events that will challenge your Representative in Austin. I urge you to consider my positive, goal-oriented approach to this election as an indication of my commitment to confront the issues and pursue the solutions.

PLEASE VOTE IN THE DEMOCRATIC PRIMARY ON MAY 5, 1984

Paul Fetsches honored by family on fortieth wedding anniversary

Paul Fetsch and the former Marcella Flusche were married in Sacred Heart Church by Father Thomas Buegler on April 10, 1944. She was the daughter of the late Joseph, Sr. and Mary (Koelzer) Flusche and he was the son of Mr. and Mrs. Ferd Fetsch of Munday. At the time of their marriage he was an Aerial Engineer in the U.S. Air Force with the rank of Staff Sgt., stationed at Mitchell Field, N.Y. After returning from military service they lived in Rhineland for a year and a half, and since 1948 have been at home on their farm northeast of Muenster.

The 40th wedding anniversary of Mr. and Mrs. Paul Fetsch was observed Sunday, April 8 with a family reunion during the weekend, attendance at the 9 a.m. Mass Sunday and an anniversary dinner following in the family home at noon.

An added treasure was attendance at the baptism of a grandchild Saturday afternoon. Also on Sunday morning their anniversary was mentioned by Father Victor Gillespie in his Offertory prayers. Offertory gifts were carried by grandsons Chad McConnell, Brian Bonfiglio and Chris Noyes. Their April 10 anniversary was observed on Sunday to enable most of the family to be present. They are parents of five children, and there are eight grandchildren.

Attending were Mrs. Joan Campbell and son Chad of

Longview; Mrs. Evelyn Bonfiglio and son Brian and a friend Jim Mason of Plano; Bob and Monica Noyes and son Chris of Plano; Garry and Susan Fetsch and children Janet and Kelly of Muenster. Unable to attend were Lee Campbell of Longview and Jennifer Noyes of Richardson and Robert and Lu Fetsch and children Madalene and Nicholas of Lexington, Kentucky, who phoned good wishes to join in the celebration.

For the family dinner, the children brought a completely prepared menu. Evelyn Bonfiglio baked and decorated a bell-shaped anniversary cake with red rosebuds and a gold numeral "40."

Mrs. Fetsch wore a red rose corsage and Mr. Fetsch wore a rose boutonniere, presented by their children.

Bus Stop draws raves

In a cold, blustery small town near Kansas City a group of travelers and locals are thrown together for a long night. The results of this mixture of personalities are humorous, philosophical, romantic, explosive and avant garde. BUS STOP by William Inge was certainly done justice by the fine talents of the Butterfield Stage Players cast and crew.

First performances are always the ice breakers for the cast and that ice was quickly broken as the players moved into their characters. You could feel the tension leave the audience and cast as the characters became more real than make-believe. I found myself by the end of the evening actually caring about the characters and where their lives were heading.

Sandy Curtis as Elma Duckworth was believably naive. Janine Fuller as Grace and Mike McGill as Carl also turned in fine performances. Gary Clinton as Will the Sheriff has the potential of giving Robert Duvall some competition. His performance was excellent.

News of the Sick

Mrs. Herb McDaniel is home again after spending last week in Westgate Hospital. Her husband has been admitted to Westgate for treatment and cards will reach him addressed to Herb McDaniel, Westgate Hospital, Hwy. 1-35, Denton, Texas 76201.

J.A. Klement was released from Muenster Memorial Hospital on Wednesday, April 4 after receiving medical care for four days.

The home of Margie and Henry Starke was chosen for Yard of the Month honors in April, as the Muenster Garden Club made the first selection for 1984.

Starke home is "Yard of the Month"

The unusually destructive winter and prolonged freezing weather experienced in Muenster as elsewhere took a heavy toll on the usually beautiful spring yards.

As the season progresses, more damage is becoming evident and more repair and replacement will be the order of the day far into next season for all types of landscaping.

The Muenster Garden

Club, accustomed to awarding Yard of the Month honors, beginning in March, therefore delayed the project until April, when color in most yards was provided by daffodils, tulips and some flowering trees.

The April "Yard of the Month" award was given the Henry Starke home with the corner lot, multi colored tulips in several areas, neat boxwood shrubbery, with a healthy green color, and a

red bud tree in full bloom. Other trees and plantings form an over-all good landscaping picture. Beds for annuals are cleaned and ready for new plantings.

The Muenster Garden Club congratulates Henry and Margie Starke for successfully maintaining their landscaping into the new growing season; and encourages other homeowners to join in promoting the beauty of Muenster.

Yosten Baptism

Jeremy John Yosten, infant son of Mr. and Mrs. Gene Yosten and little

brother of Jeffrey Robert Yosten was baptized Sunday, April 8 at 4:30 p.m. in Sacred Heart Church. Father Victor Gillespie officiated.

Jeremy John wore a baptismal gown handmade by his maternal grandmother, Mrs. Lawrence Knabe and booties, also her gift; and a bonnet cap and blanket made by his mother.

Godparents of Jeremy John are Mr. and Mrs. Arnold Ray Yosten of Benbrook, Texas. Grandparents are Mr. and Mrs. Lee Roy (Buddy) Yosten of Muenster and Mr. and Mrs. Lawrence Knabe, Sr. of Gainesville.

Attending the baptism were the parents, brothers, godparents and Grandmother Yosten; an aunt and uncle, Mr. and Mrs. Paul Fleitman, an aunt, Kerri Yosten and cousin Rachael Yosten, an aunt Mrs. Alvin Knabe and sons Allen, Lonnie and Jason, cousins of Jeremy.

The Arnold Yostens were overnight guests of his parents and were joined for supper at the Buddy Yosten home by the Gene Yosten family.

Sewing Tips

This is EASTER month so we don't want to forget the kids. Even if you are a beginner in the sewing field your child can have a dress that will lead the Easter Parade. There is a new pattern called 'Popovers' that is easy as can be and they are so adorable you won't know when to stop. You can make a whole summer wardrobe with one pattern and a little imagination. Ask about Popovers at your Fabric Shop and get started now.

If you are planning some stuffed toys for Easter these tips might make it easier. Choose firmly woven washable fabric. Apply embroidered details before assembling while pieces are still flat. Buttons or pom poms must be applied after the toy is finished. Sew these on securely for safety reasons. Trim seams to 1/4 inch. Cut notches from outward curves to reduce bulk and clip inward curves in several places. Turn and stuff with Fiberfil. Working stuffing into curves with the eraser end of a pencil. To close openings in seams use a double strand of thread and closely-spaced whip stitches.

First Communion Liturgy

Sharing for the first time at the Table of the Lord, in a solemn Eucharistic celebration of their first Holy Communion on Sunday, April 1, 1984, were 27 children in the second grade CCD class of Sacred Heart Parish.

The children were Amy Fette, Amy Fisher, Sally Fisher, Melinda Fleitman, Brandi Grewing, Kay Grewing, James Hacker, Jay Hennigan, Jeffrey Hermes, Willie Hess, Shelley Klement, Albert Knabe, Cory Knabe, Misty Knabe, Theresa Kubis, Charles Luttmir, Amy Otto, Gina Pels, Ami Peters, Jerry Reed, Jr., Danell Reiter, Jeremy Schmitz, Kimberly Stewart, Amy Sturm, Rodney Vogel, Tracey Vogel and Brandon Walterscheid.

Accompanied by their parents, the children attended the 2 p.m. Mass celebrated by Father Victor Gillespie OSB, participated in formal renewal of baptismal promises and received their first Holy Communion. The ceremonies were witnessed by brothers and sisters, grandparents, godparents, and many other relatives and guests in a totally family-oriented celebration.

Sister Romana Rohmer OSB CCD Coordinator opened the liturgy with the greeting and introduction. In the entrance procession were the celebrant, Father Victor Gillespie and five Mass servers, big brothers of communicants: Stephen Fisher, Randy Fleitman, Brian Knabe, Chris Kubis and Scott Vogel.

First Communicants and their parents followed. The parish community sang: "Here I Am, Lord," accompanied by Mrs. Ruth Felderhoff, organist and Mrs. Eileen Fisher song leader.

CCD teachers, aides and classroom teachers also took part in the liturgy. Mrs. Linda Vogel gave the first reading. Mrs. Kathy Vogel responded with Psalm III and Mrs. Linda Knabe gave the second reading. Father Victor delivered the homily. The parish community sang, "I Heard the Lord Call My Name." Following this, Mrs. Sharon Walterscheid summoned each communicant by name to approach the altar for the renewal of baptismal promises.

Accompanied by a parent who assisted in lighting each child's candle from the Paschal candle, all children were assembled at the altar for the renewal, led by Father Victor.

Prayers of the faithful were led by Mrs. Sandra Hennigan and Mrs. Donna Graham. Offertory gifts

were carried by Mrs. Janie Weinzapfel, Mrs. Gwen Trubebach, Larry Vogel, David Vogel and Clyde Walterscheid. The Offertory song was "On Eagles Wings." The "Our Father" was sung as all joined hands and the Communion songs were "One Bread, One Body" and "For You Are My God".

The children received their First Holy Communion accompanied by their parents.

Then followed a most touching, emotional and awe-inspiring act, as the first communicants stood on the altar steps, faced the parish community, raised their hands and sang in unison "My Hands Belong To You."

The recessional was "They'll Know We Are Christians." Organist and song leader were Ruth Felderhoff and Eileen Fisher.

CCD religion teachers are Larry and Kathy Vogel, Clyde and Sharon Walterscheid, David and Linda Vogel and Linda Knabe. Teacher aides are Mrs. Donald (Sandra) Hennigan and Mrs. Gerald (Donna) Graham. Classroom teachers Janie Weinzapfel and Gwen Trubebach were special invited guests.

The Sacramental program committee included Mrs. Karen Endres, Mrs. Jeanne Greathouse, the Larry Vogels and Clyde Walterscheid and Sister Romana Rohmer, CCD Coordinator.

Gene Hoedebeck, Butch Fisher, David Vogel and Clyde Walterscheid were ushers. Paul and Dorothy Fisher, Mrs. Theresa Walterscheid, Mrs. Alma Wolf and Sister Romana assisted as Eucharistic ministers.

Souvenir programs were designed by Laura Hess.

SCHOOL NEWS

From the Principal's office

by Eddie L. Green

All the groups or positions that I have described in previous articles directly or indirectly serve the most important group of all: the students. Without students, there would be no need for us and our profession. We are here to serve these young people and to give them (hopefully) a valuable treasure that will help them function in society as mature adults.

Parents must give us their most prized possessions for the better part of 12 years. They pay taxes and therefore have a vested interest in the final product. We, as the education profession, must have their confidence that these will be 12 fruitful, productive years. The public has every right to have certain expectations of the school system. They have a right to expect an efficiently run system with competent, caring teachers. They have a right to expect maximum learning for their tax dollars.

On the other hand, the school system has the right to expect students to have a certain amount of training in the area of behavior, discipline, personal hygiene, linguistics, etc. It is a big enough job to educate children without having to assume parental duties.

Our young people are one of our nation's most important resources. The future rests on their shoulders and we must not fail to educate them to their utmost potential. That was so easy to say! Why is it so hard to do?

Modern students have to deal with a veritable plethora (sounds a little like Howard Cosell, doesn't it?) of outside influence, any one of which can possibly hinder them in doing well in school.

For example: (1) Drugs and Alcohol - students, and the rest of our nation are fighting a never-ending battle with the mind-destroying chemicals that have all but ruined our youth. Students feel pressure from their peers that forces them to take drugs or drink so that they may "have fun by getting high" or to "expand their mind". Unfortunately the only thing expanding is the number of young people with criminal records and destroyed minds and lives.

(2) Work - so often kids whose parents do not have a high school education see them as successful. They are making a decent living and the kids see no reason to complete their education. What a shame! They probably do not know how their uneducated parents may have struggled in their early years. Sure, lots of people have done quite well without an education. But for every one of them, there are about 20 who weren't so lucky. But it is very hard to convince a teenager. They might have a part-time job making \$100/week and have pockets full of money. So what if Mom and Dad feed, clothe, and house them? They then think "Hey, I don't need an education. Look at all the money I can make". Just wait until they try to live on \$100/week in the real world.

I do not believe that school is intended to be a place for job training. School should be a place where young people learn life skills, not job skills. They need to know how to read for understanding, write and compose intelligently, reason competently, and get along with their fellow human beings. If I were an employer I would prefer that kind of person. I could teach them what job skills they might need if they can do the above things. A kid who spends four years learning how to weld or sew had better find a job welding or sewing. They don't have much else to offer.

SH Seniors see Sheppard Air show

The Sacred Heart senior class attended an open house at Sheppard Air Force Base on Sunday April 8 in Wichita Falls. Visitors to the base were allowed to inspect various combat and transport aircraft, including helicopters.

flight capabilities of the new F-15. The highlight of the afternoon was the aerial acrobatic performance of the Blue Angels Naval Flight Squadron.

After the show the students stopped off at Bennigan's for dinner, returning to Muenster about 6:00 p.m. Chaperones for the trip were Serena Wright, senior sponsor, Joe Felderhoff, and Joe Casserta, faculty members.

Fifth helium balloon found

After almost a month of waiting, elementary kids of Muenster Public School were thrilled this week by their best response to date in the Weekly Reader's great balloon race they entered on March 22. The message renews a hope that greater thrills are still coming.

On March 22 they released helium filled balloons with message cards inviting finders of the card to respond. This week they got their fifth and most exciting reply. Leigh Reynolds of Wanette Okla., some 125 miles away, returned the card. And hope was renewed that they will receive word from the greatest distance of the contest and receive the grand prize of \$500, or one of 100 runner up prizes.

Barry Hess, third grader, received the reply from Leigh. She said she saw the balloon and note coming down in the pasture near her home only 2 hours after it was released in Muenster. Her class had released Weekly Reader contest balloons several times but she had never received an answer.

Other responses received at Muenster Elementary include one each to Cindy Reiter of the first grade and John Fanning of the kindergarten. Their balloons came down at Sulphur, Okla. And Jennifer Lippe received one from Lone Grove, Okla.

The big surprise, however was the response to Bria Miller, third grader. Her balloon was found by James Yosten in his garden here in Muenster.

Weather was not in their favor when the kids released the balloons. Wind was from the south headed toward the rugged terrain of timber and mountains north of Red River. Chances of discovery would have been better if the wind had been headed south.

PTO hears fourth graders

Trials and tribulations of America's forefathers were narrated at last Monday's PTO meeting in a historical rendition by Mrs. Barbara Robison's fourth grade students.

The program included background information on flags which have flown over the country and additions of stars to Old Glory as each state joined the union. Informative choral recitation told about brave men who shaped the country and proclaimed its freedom.

Students closed the program singing "You're a Grand Old Flag" as their teacher accompanied at the piano.

SOMEBODY IS LOOKING FOR YOUR BARGAIN!

Essay Winners

Julie Rohmer and Deano Bayer of Sacred Heart School were recently named winners in district competition after writing essays on "The Holy Year: Past and Present."

April 1. Rohmer and Bayer will next submit their 300 word essays for judging on a state level following their win in district competition.

The Muenster youths were each presented a certificate and cash award for their efforts. State Judging will be in July in Honey Creek, Texas.

The Holy Year by Deano Bayer Grade 8

The Holy Year is a period of time in which we are called to conversion and reconciliation with God and neighbors. It is a time in which we can receive indulgences and pardon.

The church has a Holy Year every twenty-five years or on extraordinary occasions. The last Holy Year was in 1975. Pope John Paul II has declared a Holy Year because of the nineteen hundred and fiftieth anniversary of our redemption.

Usually people go to Rome for the Holy Year. People go there to find the roots of their faith and also to find their true identity and birthplace of their faith. They want or need to gain pardon and grace.

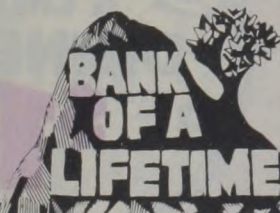

Now we are called to renew this search of reconciliation. We cannot all go to Rome so each diocese has pilgrimage churches.

The Holy Year should create an atmosphere of Penance and of spiritual desire which opens our souls to the redeeming cleansing and sanctifying and saving grace. We should all feel cleansed in spirit and mind.

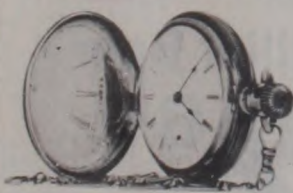

The Holy Year has the grace of conversion. This grace comes from the heart of Christ to all who are close to him in sincerity and Humility, through the sacraments of Penance and Eucharist. These sacraments are the way he opened and pointed out to us. Through them we go to him and receive continually the gift of redemption after we enter into the new life of being children of God.

Because we are not perfect, we sin. We should be sorry and repent for our sins if we wish to be pardoned by God. Jesus knew we needed a way to confess and founded the sacraments of Penance, Confession and absolution.

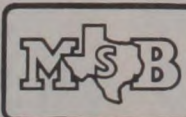

The church has this Holy Year so that people will participate more and be more concerned with the church in its practices and beliefs.

SPORTS SHORTS

If you're a sports enthusiast—whether it be basketball, jogging, tennis or roller skating—it's important to be physically prepared for activity. Your body is especially vulnerable after a period of inactivity, whatever the reason. Therefore, it's important to begin slowly with a routine of warm-up exercise.

Don't forget your skin when it comes to sports. It will need extra protection when exposed to sunlight so use a sunscreen. For the inevitable scrapes and cuts, keep an ample supply of bandages and first-aid products on hand. Many families prefer the new Curad Flexible bandage, a good high-action bandage for active people.

The H&W volleyball team includes: front, Steve Henschel and Brian Hess; back, Scott Felderhoff, Danny Walterscheid and Tim Felderhoff.

GM endowment funds scholarships for Texas A&M minorities

COLLEGE STATION—A \$250,000 endowment to provide scholarships for minorities and women has been presented to Texas A&M University by the General Motors Corp. The gift is part of an agreement reached in October between General Motors and the federal Equal Employment Opportunity Commission in which the auto manufacturer will invest nearly \$45 million in the next five years to implement affirmative action efforts. "This is a grand program that General Motors has established and we are pleased and grateful to be a beneficiary of it," said Texas A&M President Frank E. Vandiver.

Educator urges 'back to basics' in communication skills

COLLEGE STATION—Anyone trying to prepare for the technology of the not-too-distant future could take a few tips from the balladeer of yore, says a Texas A&M University educator.

When talking computers and teleconferencing via wall-sized television are part of every home and office, people will once again have to learn how to express themselves clearly through the spoken rather than the written word, says Dr. Phil West, professor of educational administration. "Most people today don't speak well, but we talked our stories out long before we learned to record them. People were the transmitters," West said. "What if television had been introduced at the balladeer's campfire? Would we ever have gone into books?" Speaking or articulating is one of five "techno-basics" West believes people must master to be successful in tomorrow's technological society. Public schools and universities should begin to think about training students to express themselves comfortably through speech, he said. Educators should also begin to focus

Helmets prevent bicycle deaths

Bicycle accidents result in 1,100 fatalities, 50,000 disabling injuries, and over 500,000 assorted minor injuries annually across the nation, according to George R. Gustafson, Executive Vice President of Texas Safety Association.

Last year in Texas cyclist/motor vehicle accidents alone resulted in 48 fatalities and 2,978 injuries, according to Department of Public Safety records.

"Bicycle education for both children and adults and alertness on the part of all Texas motor-vehicle drivers can help prevent these tragedies," Gustafson said.

Recent estimates gathered by Texas Safety Association show that 300 deaths and 3,000 hospitalizations would be prevented yearly if the nation's 105 million bicyclists would wear helmets while riding.

Gustafson reminds parents that a child riding along on a baby seat attached to the bicycle should also be equipped with a helmet. Texas Safety Association suggests that bicycle baby seats have a high back to help offer support to the baby, a seat pad for comfort, straps and/or belts to secure the child, and a shield protecting the child's feet from contacting the bicycle spokes.

During National Bike Safety Week, April 15-21, Texas Safety Association offers cyclists the following advice:

1. Never ride a bicycle while listening to a portable radio or tape player through headphones.
2. Obey all applicable

traffic regulations, signs, signals, and markings.

3. Place the required reflectors and lights on your bicycle to protect yourself at night.

4. Indicate turns and stops by using hand signals.

5. Ride your bike defensively.

FORT WORTH, TEXAS

Dear Citizens of Cooke County,

I would like to take this opportunity to thank all the people who voted for me and supported me during the Cooke County College Board election. Although I came up a little short in the ballot count, I believe I came out way ahead in the long run. I will never forget the friends I made, the old acquaintances that were rekindled, and the many things that I learned along the campaign trail although I have had many responsibilities and offices in civic organizations, this was my first experience in proving and selling myself to the public. Gaining a seat on a Board with such importance as this one requires the confidence and respect of the voters. It makes the job doubly tough when rumors are flying and letters are being sent suggesting that I would be one sided or maybe play favorite to the teaching staff. After completing my degree in education, working on my masters degree in education administration, and being in the education system for nine years, I know the importance of an open mind. Education is too valuable to play games with. I congratulate Urban Endres on his successful election, and urge him to consider some of the issues that I brought forth in my campaign. I am grateful to all who helped. It was, indeed, a worthwhile learning experience.

Write-in elects Joe Bezner mayor

A large group of Lindsay citizens mounted a quietly successful write-in campaign last week which resulted in the election of a new mayor. Joe Bezner was elected with a total of 104 votes. Incumbent Norb Mages received 84 votes. Also elected to fill positions as council mem-

bers were Wilbert (Sonny) Block and Nell Hess.

Lindsay residents also elected 2 new schoolboard members. Carol Fuhrmann defeated Dr. J.W. Neidhardt to fill a position vacated by Tony Corcoran. Danny (Red) Eberhart ran unopposed.

Lindsay city council sworn in

The members of the Lindsay City Council met Monday evening April 9. Mayor pro-tem Steve Zimmerer called the meeting to order. New and re-elected council members Nell Hess and Sonny Block were sworn in, as was the newly elected mayor, Joe Bezner.

Present at the meeting were representatives from Lone Star Gas and Texas Power and Light. The companies were there requesting

an 8 percent rate increase for the city. However, no decision was made at that time.

The council decided to open the city landfill on Wednesday afternoons. At the present time hours are uncertain when the dump will be open.

A quit-claim deed was granted to the Bengfort estate to facilitate transfer of land title.

St. Peters parish council meets Sunday

The Parish Council met on Sunday April 8 at 11 a.m. Father Cletus opened the meeting with a prayer.

Members discussed what could be done to improve the situation in the cemetery. Many gravestones are not in line and this creates problems with groundskeeping in the summer months. It was

suggested that a workday be set to realign some of the stones. One council member offered to discuss the problem with a local contractor responsible for placing many of the stones in the cemetery.

Also discussed at the meeting was the approaching homecoming picnic. FHA meet

FHA plan for powder puff football game

The Lindsay FHA met Monday evening at 6:30 p.m. Nancy Neu presided for the meeting. Minutes were read by Gina Hellman.

It was decided at the meeting to have a powder puff football game. The juniors and sophomores will challenge the seniors and the freshmen.

The competition will take

place on April 26 at 7 p.m. on the Lindsay Knight football field. The charge will be \$2.00 for adults and \$1.00 for children over 5.

Michael Hermes was named FHA Beau.

After the meeting, the members went to Rainbow Connections. Each member received a candy box to decorate with stickers of her choice.

Friends and Family

Mrs. Clem (Amelia) Hermes, Sr. of Lindsay was the honored guest on the celebration of her 85th birthday. All eleven children gathered at the home of Mr. and Mrs. Joe B. Hundt for a covered dish supper on Sunday, April 8.

Children and their spouses attending were Mrs. Mary Hundt, Elfrieda and Joe Hundt, Ed and Louise Schad, Anna Hermes, Gilbert Hermes, Clem and Wanda Hermes, Jr., Angela and Frank Haverkamp, Joe and Alice Hermes all of

Lindsay; Harold and Rita Corcoran of Gainesville, Theo and Amelia Voth of Muenster and Bernice and David Strittmatter of Pilot Point.

Miller recycles near 43 million pounds of aluminum in 1983

The Miller Brewing Company and its more than 700 participating distributors recycled enough aluminum cans in 1983 to manufacture nearly 13,000 mid-sized cars; and paid consumers enough money for those cans to purchase nearly 1,000 mid-sized cars.

In 1983, Miller and its distributors collected 42,919,195 pounds of aluminum and paid consumers more than \$10 million.

In the past six years, more than 200 million pounds of aluminum have been reclaimed as part of the Miller-sponsored recycling program.

During that same period, Miller and its distributors have paid the public more than \$45 million. Miller and its distributors pay an average of 25 cents for each pound of aluminum brought to the reclamation centers. It takes approximately 24 empty 12 ounce beverage cans to equal one pound of recyclable aluminum.

In addition to reducing roadside litter, Miller's recycling program helps save energy and natural resources, according to Miller President William Howell.

Making cans from recycled aluminum takes about 95 percent less energy than producing those cans from virgin ore, Howell said.

County Agent's Report

Those of you who made the herbicide tour on Monday saw the excellent control of wild buckwheat on spring oats with a new chemical for us called BUCTRIL. Results showed a 100% kill on all buckwheat that was sprayed. Some plants that germinated late or were wide striped were not affected. The reason is the BUCTRIL is a contact herbicide and the product must cover the plant to kill it.

Presently BUCTRIL does not have a label for grain sorghum but according to Gary Brooks, sales representative with Thone-Poulenc, Inc., makers of the product, the labeling is in process and should be available for this year's grain sorghum season. However, until it is labeled, producers should not use it on grain sorghum. We will keep you informed on its labeling progress. BUCTRIL is certainly a chemical that shows promising possibilities in

control of hard to kill weeds. One other interesting observation was the death to corn growwell that the chemical showed.

Sencor, and Lexone, much the same product, did well on cheat grass control in wheat on the James Geray farm south of Gainesville. One thing to watch for is alkaline or high calcium levels in the soil. With high calcium soil levels, we can get death to wheat plants along with cheat grass. So producers need to take soil samples to check calcium content before applying one of these two products. Another consideration to take into account is the wheat varieties these products must be used on. You must plant TAM 101, TAM 105, or Newton. With bad cheat grass problems, give one of these a try.

One impressive looking wheat variety in the plots this year seems to be Golden Acres 3833. Forage produc-

tion and stand density appears to be greater than the other hard wheats in the plots which include NK 812, TEXRED, VONA, TAM 101, and HAWK. If you would like to see these plots, they are labeled and located on the northeast side of Highway 82 and the Sivells Bend Road.

And finally the disease situation. The weather is ideal and the plant growth is favorable for buildup of powdery mildew. One field

of TAM 101 showed early heavy infestations of powdery mildew. Producers should watch their fields for diseases at this time and make decisions whether fungicides are appropriate for control or reduction of disease spread.

Not everything works every time and one of our demonstration fields appears to be a bust. Corn growwell was only marginally controlled in a field at Hood with

BROMONYL. The thing is, don't write this herbicide off because it has worked extremely well on other locations. The problem could have been many things — weather, storage of chemical, etc.

We have many products available for weed and grass control. Understand the problem and match the correct chemical with the problem for the most effective and cost beneficial control program.

FmHA accepts loan applications for 1983 losses by flooding

Applications for emergency farm loans for losses caused by flooding from October 16 through October 24, 1983 are being accepted at the Farmers Home Administration (FmHA) office located in Gainesville, Texas, FmHA county supervisor James B. Murdock said today.

Cooke County is one of 80 in Texas recently named by Secretary of Agriculture John R. Block as eligible for loans to cover part of actual production losses resulting from the flooding.

James B. Murdock said farmers may be eligible for loans of up to 80% of their

actual losses, or the operating loan needed to continue in business, or \$500,000 whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate on the first \$100,000 borrowed is 5%; interest rate is 8% on the balance borrowed over that amount. For farmers who can obtain commercial credit but who choose to borrow from FmHA, the interest rate is 13.75%.

As a general rule, a farmer must have suffered at least a 30% loss of production to be eligible for an FmHA emergency loan, Murdock said.

It pays to topdress pastures.

Pastures are too often overlooked in an otherwise comprehensive fertility program.

The fact is, proper fertilization of pasture will greatly increase meat and milk production. You'll see faster weight gain, more pounds of gain per acre, a longer grazing season and greater carrying capacity. It can also dramatically increase your milk production.

Begin with a soil test. Then apply the fertilizer shown to be needed. Add lime, if your soil is found high in acidity.

Let our Fertilizer Specialist help you. He has the know-how and we have the materials. Come see us soon. We're ready when you are.

Holy Week Services will start on Monday April 16 at 7:30 p.m. at the Forestburg United Methodist Church. Everyone is invited to at-

tend. Diana (Jones) McCommus of Chandler, OK. and

her friends Phyllis William spent Friday night April 6th with Diana's mother, Mrs. Ouida Beavers. They also

visited with Casey Jones while here — then went on to the Dallas Market on Saturday.

Here is a bunch of little Forestburgers. It looks like they were ready to perform "Dance of the Flowers" when this picture was made thirty or more years ago. They are now about the age of "Life Begins at..." For identity, check with Ouida Beavers of Forestburg.
